A. The voting machine shall be used to record the vote whenever a roll call vote is taken on any question. The machine shall also be used to determine the presence or absence of a quorum. The voting machine shall be under the control of the Presiding Officer and shall be operated by such clerk as the Presiding Officer shall direct.

B. During any roll call, every Senator present shall vote. During said roll call the Presiding Officer shall request every Senator in the chamber who has not voted to vote. If any Senator so requested fails to vote, the Presiding Officer shall, upon declaring the roll, order that said Senator be shown as voting "NO" on the question. Said order shall be printed in the Journal directly following the printing of the results of the roll call as reflected by the voting machine and said "NO" vote shall be included in the determination of the passage or failure of the question. In all other cases, a Senator who fails to vote shall be shown as "excused" in the Journal.

C. On any question for which a roll call vote is not required, a roll call vote shall be in order only if same is requested before the question is put. Once the question has been put and a voice vote taken, the Presiding Officer shall state the side that appears to such Presiding Officer to have prevailed, and any member then may request a division, but shall not be entitled to request a roll call vote. Upon declaration of the vote, such declaration shall be final.

D. No Senator shall be permitted to vote or change his vote after the result shall have been announced by the Presiding Officer.

E. If a member's voting machine is inoperative, he shall rise and advise the Presiding Officer of the malfunction. In such event the Senator will be permitted to verbally declare his vote on the question and the vote will then be recorded by the clerk.

F. When a division is called for, those voting in the affirmative shall rise at their seats and remain standing until counted; then those voting in the negative shall rise and stand until they are counted, whereupon the Presiding Officer shall declare the result.

December 21, 1990

State Board of Equalization
State Capitol Building
Oklahoma City, Oklahoma 73105

Gentlemen:

The Constitution of the State of Oklahoma, Article X, Section 23, as last amended April 30, 1985, provides in pertinent part:

> Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall certify the total amount of revenue which accrued during the last preceding fiscal year to the General Revenue Fund and to each Special Revenue Fund appropriated directly by the Legislature, and further certify amounts available for appropriation which shall be based on a determination, in accordance with the procedure hereinafter provided, of the revenues to be received by the state under the laws in effect at the time such determination is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of each such fund appropriated directly by the Legislature.
>
> Amounts certified as available for appropriation from each fund, as hereinbefore provided, shall be ninety-five percent (95%) of an itemized estimate made by the State Board of Equalization, which shall include all sources of revenue to each fund for the next ensuing fiscal year; provided, however, appropriated federal funds shall be certified for the full amount of the estimate. Said estimate shall consider any increase or decline in revenues that would result from predictable changes in the economy.

The following report has been prepared in accordance with the procedures set forth above, and is respectfully submitted for your consideration.

Sincerely,

/s/Alexander B. Holmes

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017.

CODE OF CONDUCT – CODE OF ETHICS

Senator Wilkerson moved that the Code of Conduct and Standards for members of the Senate and staff and the Code of Ethics for the Oklahoma State Senate, approved in the 42nd Legislature, be adopted for the 43rd Legislature, which motion was declared adopted.

CODE OF CONDUCT AND STANDARDS FOR MEMBERS OF THE SENATE AND STAFF

1. Coat and tie shall be worn by male members, and a dress or pants suit by female members in the chamber during sessions of the Senate.

2. Each Senator is personally responsible for his or her own staff. All other staff members of the Senate are under the authority of the Secretary of the Senate. Complaints pertaining to employees, either personal staff or Senate staff, should be made to the proper authority rather than to the individual.

3. (a) On the floor during session and in committee, members should endeavor to be congenial and complimentary. Members should avoid personal attacks and dealing in personalities. (b) During public occasions away from the Capitol, members should endeavor to keep personalities out of their discussions and deal with programs, not personalities.

4. The consumption of alcohol is forbidden in the chamber, and any member who is in the chamber in an intoxicated state will be removed by security personnel.

5. It is beneath the dignity of the Senate for members to consume food products such as sandwiches or ice cream bars in the chamber.

6. Members of the Senate should continually conduct themselves in accordance with the standards which will reflect credit upon themselves and the Senate. It is beneath the dignity of the Senate for a member to sit upon a desk, or to place his feet upon a desk in the chamber.

7. While a Senator is speaking, no Senator should enter into any disturbing private conversation or pass between the speaking Senator and the Presiding Officer. Profane, obscene, or indecent language is discouraged in the Senate and in all standing or special committees of the Senate.

8. A Senator shall address other members with the title "Senator" when addressing one another during formal Senate proceedings either on the floor of the Senate or in committee.

9. The Presiding Officer may direct a designated Senate employee to activate his roll call switch. No member shall be permitted to vote on any question unless said member is physically present in the chamber at the time the vote is taken.

10. The President Pro Tempore (or the Majority Floor Leader) shall designate those Senate employees who shall be granted privileges of the floor during any session of the Senate, said employees to be limited to those whose work requires their presence.

Any member desiring to bring a guest to the floor of the Senate shall first notify the Majority Floor Leader. No such guest shall enter the chamber until privileges of the floor have been granted pursuant to Rule 10-10.

11. No person other than a member of the Senate shall cause materials to be distributed on each desk in the Senate chamber without first having obtained approval by the Majority Floor Leader. The sponsoring Senator will be identified.

12. The Administrative Director of the Senate or his designees act as Sergeant-at-Arms for the Senate and shall have responsibility of serving legal processes and enforcing Rules and policies of the Senate.

13. Any member who feels that the standards of the Senate are being violated by either a member of the Senate or the staff should seek redress by submitting a complaint to the President Pro Tempore concerning the violation. The President Pro Tempore may refer the complaint to the Senate Committee on Standards and Ethics.

A CODE OF ETHICS FOR THE OKLAHOMA STATE SENATE

ARTICLE I

Statement of Purpose

The Senate finds and declares that high moral and ethical standards among public servants are essential to the orderly conduct of a free government; that a code of ethics for the guidance of public officers and employees is necessary in order to eliminate conflicts of interest in public office, improve standards of public service, and promote and strengthen the faith and confidence of the people in their government.

All Senators before entering upon the duties of their offices, according to Article XV, Section 1 of the Constitution of the State of Oklahoma, are required to take and subscribe to the following oath or affirmation: "I, ..., do solemnly swear (or affirm) that I will support, obey, and defend the Constitution of the United States, and the Constitution of the State of Oklahoma, and that I will not, knowingly, receive, directly or indirectly, any money or other valuable thing, for the performance or nonperformance of any act or duty pertaining to my office, other than the compensation allowed by law; I further swear (or affirm) that I will faithfully discharge my duties as Senator to the best of my ability."

The Senate also recognizes that, in Oklahoma, service in the Senate is not a full-time occupation and is not compensated on that basis with the result that Senators must look to income from sources other than their senatorial salaries and allowances to feed, shelter and clothe themselves and their families. That being true, conflicts of interest of varying degrees may occur from time to time for even the most careful and conscientious Senator as a part-time public official. It is, therefore, the purpose of this Code of Ethics for the Oklahoma State Senate to set reasonable and practicable standards and guidelines governing the conduct of Senators that will assure this body of attracting to it men and women of high integrity, character and dedication and yet not so stringent and restrictive as to limit service herein only to the very poor or the very wealthy.

ARTICLE II

Statutory Requirements

SECTION 1. Title 74 of the Oklahoma Statutes, Section 4246, provides as follows:

"No Legislator shall:

(a) Introduce, promote or vote for any proposed special interest legislation on his own behalf, or on behalf of any other person, corporation, partnership, trust or business entity which directly affects such legislator or in which such legislator has or may have any substantial financial interests other than legislation affecting legislative salaries, expenses and allowances; provided that this provision shall not preclude a legislator from introducing, promoting or voting for any proposed general legislation

which directly affects him or in which he has or may have any substantial financial interest;

(b) Directly or indirectly accept or request any compensation, gift, loan, entertainment, favor, or service given for the purpose of influencing such legislator in the discharge of his official duties. Provided, however, that this section shall not apply to bona fide campaign contributions;

(c) Use his official position to secure special privileges, exemptions or compensation for himself, except as may be provided by law;

(d) Disclose confidential information acquired by reason of his official position to any person, group, or others not entitled to receive such confidential information, nor shall he use such information for his personal gain or benefit;

(e) Sell or cause to be sold, rent or lease either as an individual or through any business enterprise in which he holds a substantial financial interest, goods, services, buildings or property to any state agency except by condemnation or threat of condemnation;

(f) Receive any compensation for his services as a legislator from any source other than the State of Oklahoma, unless otherwise provided by law;

(g) Accept other employment which would impair his independence of judgment in the performance of his public duties;

(h) Receive or agree to receive compensation for representing or assisting any person or business in any transaction involving the state or represent another person, firm, corporation or entity for a fee before any state department, agency, board or commission. The provisions of this paragraph shall not:

1. Apply to the practice of law before any court; or

2. Preclude a member of the Legislature from acting on behalf of a constituent to determine the status of a matter before a state department, agency, board, commission, institution or instrumentality without accepting compensation therefor; or

(i) Be employed by or receive any commission, fee, or compensation from the state, except the compensation and allowance for expenses provided by law to a legislator.''

SECTION 2. Section 4248.1 of Title 74 of the Oklahoma Statutes essentially provides that when a Senator is in doubt as to the application of Section 4246 of Title 74 of the Oklahoma Statutes as to himself, he may submit to the Attorney General a full written statement of the facts and questions he may have. The Attorney General shall then render an opinion to the Senator and may publish these opinions, or abstracts thereof, with the name of the Senator advised, unless the Senator requests otherwise in writing.

In addition, Senate Rule 7-5 states that the Committee on Standards and Ethics shall provide, upon the request of any member of the Senate, an interpretation of the Code of Ethics or Code of Conduct as it applies to a specific situation. The identity of the member making the request may be kept confidential, at the discretion of the member.

ARTICLE III

Campaign Finances

Senators shall be careful and diligent in complying with the requirements of the general law of the state regulating campaign financial disclosures, as contained in Chapter 62 of Title 74 of the Oklahoma Statutes.

ARTICLE IV

Senate Committee on Standards and Ethics

SECTION 1. The Committee shall have the authority to consider complaints concerning alleged violations of the Code of Ethics or statutes governing senatorial ethics or conduct and to investigate such complaints and hold hearings as authorized by the President Pro Tempore. Any member who feels that the ethics of the Senate are being violated by either a member of the Senate or the staff should seek redress by submitting a complaint concerning the violation to the President Pro Tempore. Before the Committee exercises any of the authority granted in this section with respect to any investigation or hearing it shall, by majority vote of the whole membership of the Committee, define the nature and scope of its inquiry. All proceedings before the Committee concerning alleged violations of the Code of Ethics or Statutes governing senatorial ethics or conduct shall be conducted in executive session.

SECTION 2. Complaints must be in writing, signed by the person making the complaint, stating all available facts, under oath, or affirmation, which oath or affirmation must be taken personally before the chairman or any member of the Senate Committee on Standards and Ethics. Any complaint so filed shall be deemed confidential, until such time as the Committee has held a meeting for the purpose of investigating the complaint and said complaint shall remain confidential if the Committee seeks further information thereon, and if the Committee at the conclusion of its preliminary investigation concludes that said complaint was false and groundless the matter shall be closed. If, after the initial investigation, a majority of the Committee determines that there is probable cause to believe that a violation of the Code of Ethics or of a statute governing senatorial ethics or conduct might have occurred, a copy of the complaint and a further statement of the alleged violation shall be served upon the alleged violator. He or she shall have twenty (20) days after service thereof to respond in writing to the complaint and statement. If any information or complaint which is required by this Code to remain confidential is disclosed, the Committee, at its discretion, may refuse to consider the matter further.

SECTION 3. The Senate Committee on Standards and Ethics shall be clothed with all the powers granted to investigating committees generally by the Oklahoma Statutes, and any person who, having been served with a subpoena to appear before the Committee, willfully fails to appear, or who, having appeared, willfully refuses to answer questions of the Committee or produce any papers, documents, records, or other items of evidence called for by the Committee, or who discloses any information which is required by this Code to remain confidential, is guilty of contempt and is punishable as provided by the Oklahoma Statutes. Further, any person who willfully swears or affirms falsely in any material manner, in respect to any matter under inquiry by the Committee, upon oath or affirmation, to the complaint or in giving testimony, or who produces false evidence, is guilty of perjury and is punishable as provided in the Oklahoma Statutes. Further, any person who willfully evades the service of a subpoena by the Committee is punishable as provided by the Oklahoma Statutes.

SECTION 4. STANDARDS: According to *Black's Law Dictionary,* the definition of "Standards" is "Stability, general recognition, and conformity to established practice. A type, model, or combination of elements accepted as correct or perfect."

The invocation was offered by the Reverend Roger Thompson, Church of Christ, Okemah.

President Kerr presented the Honorable Governor Henry Bellmon to the Joint Session, where he delivered his farewell address as follows:

ADDRESS BY GOVERNOR HENRY BELLMON TO A JOINT SESSION OF THE 43RD OKLAHOMA LEGISLATURE JANUARY 8, 1991

Welcome back to the Capitol for the beginning of the new cycle of state government. Within a week, you will witness the beginning of a new administration. This will be the first time that both a legislature and an administration will have begun under the session limitations approved by Oklahoma voters when they adopted State Question 620.

Last year, the Legislature showed that it could successfully conclude its work within the limitations imposed by the people. This new arrangement will provide the new governor with badly needed time to perfect his budget and his legislative program before the work of the legislative session formally begins on February 4.

The Oklahoma Constitution requires the Governor to communicate with the joint session of the Legislature on its first day to report on the condition of the state and to make recommendations. For me, this is the last time to participate in this constitutional requirement.

When I first attended one of these sessions as a young, newly elected state representative from Noble County in January of 1947, I never dreamed I would survive the vicissitudes of political life for lo these 44 years. I have always looked upon my political involvement as a temporary interruption in my business of farming. A week from now, this interruption will cease. If you need to come looking, most of the time you will find me on the farm located near the junction of I-35 and Highway 15. That is not an invitation!

It is with great pleasure and comfort that I note the presence of Senate President Pro Tempore Bob Cullison fully restored to health and ready to resume his leadership role. Welcome back, Senator. Your firm, steady leadership is highly important to our state.

Congratulations to Speaker Glen Johnson as you assume your new leadership role. I thank Speaker Johnson for inviting me to appear before you today. While he did not say it in so many words, the thrust of his letter was that this should not be a lengthy performance, and I agree. My intention is to give you a brief report on the state of the state considering the major accomplishments of these past four years and mention a few tasks that remain undone.

Before I begin, I want to thank and commend agency heads and other state elected officials for their generally responsible, dedicated and cooperative working relationship. On balance, Oklahoma citizens have been well served by their state government over the past four years.

It is impossible in a short time to recount all that has been accomplished. I am sure that each of you 79 members who have been here during the entire four years would draw up a different list of the important actions that have been taken. What follows is my own.

When we convened here four years ago, Oklahoma's economy was in its worst condition since dust bowl days. The state's unemployment rate stood at almost 9 percent, bankruptcies were skyrocketing to historic highs, banks were closing in unprecedented numbers, people were leaving the state looking for jobs, we were in danger of losing federal highway funds for lack of state matching money, every available cent in state reserves had been used, pension and the employment security funds were depleted. Oklahoma government was facing an operating deficit of 17 percent — or $350 million.

In the first six months of 1987, working with leadership in both houses and on both sides of the aisle, we were able to take a series of actions which solved the revenue problem, providing Oklahoma state government with a broadened, stabilized tax base. We created new incentives for balanced economic growth, restructured several key agencies and set the course for economic recovery and governmental efficiency. We averted the closing down of important government services. We faced squarely and

overcame the types of problems which are now plaguing more than half our sister states.

Thirty other states' leaders come into this new year with great trepidation; but, in Oklahoma, state government's overall fiscal health has been dramatically improved. While maintaining a decent level of services for our citizens, we have placed $152 million in the state reserve or "rainy day" fund. Another $27 million is anticipated to be added to that account at the conclusion of this fiscal year.

The employment security fund, which faced insolvency four years ago, has been restored to a satisfactory level, and the state pension funds, with a possible exception of the teachers' retirement system, are healthy.

One of the highlights of these four years has been the creation of jobs for Oklahomans through the state's largest ever road building program. Right now more than 10,000 Oklahoma workers are busily completing four sections of turnpikes funded not with state dollars but with $350 million of bonds sold on Wall Street. At the same time, we are matching every dollar of available federal highway money so that other thousands of Oklahomans are gainfully employed in the state's historically large highway construction and maintenance program. Our state is becoming a distribution, communication and transportation hub.

I would have liked to have put other thousands of Oklahomans to work through a capital improvement program designed to meet the long-deferred needs of our state institutions. With the turnpike construction scheduled for completion late this year, it would be extremely timely for this Legislature and the new administration to put in place a bond-supported capital improvement program to rectify long-standing inadequacies in state buildings and equipment.

During the past four years, Oklahoma's economy has been strengthened by the private investment of almost $2.5 billion in new and expanded industry. Some 60,000 new jobs have resulted. While Oklahoma's unemployment rate stood at nearly 9 percent four years ago, today it is down to the 5 percent range — well below the national and most surrounding state levels. There is ample reason to be proud of Oklahoma's economic progress and to feel confident that the stage has been set for a prosperous future.

Most recently, we have compiled a similar record of success in education at all three levels: common schools, higher education and vocational-technical schools. There is no reason to recount every statistic which indicated the sorry state of Oklahoma education in 1987 when the state stood at the bottom in per student investment, teacher salaries and virtually every other measure of commitment to our school children.

With courageous assistance of 2/3 of both houses of the Legislature, educators, parents, private sector leaders and most of the media, we enacted House Bill 1017. This historic legislation made major improvements in funding, took important steps toward reform, and created the climate for continual improvement as well as developing among our citizens a new awareness of the importance of excellence in education at all levels.

A similar statement can be made in connection with our colleges and universities. Scandals erupted in the higher education establishment during 1986 and 1987. Today corrupt administrators have been replaced by dedicated professional educators and administrators. Boards of Regents are in strong hands. The outward flight of talented professors and researchers has been stopped. Working together, the Legislature and administration created OCAST, funded

academic and research chairs in the greatest numbers in state history, and implemented the Academic Scholars Trust Fund. The brain drain has been largely reversed. Between 1987 and today, the number of freshmen merit scholars attending Oklahoma universities has increased almost 150 percent, giving our colleges the greatest number of the best and brightest in state history.

Part of this increase may be attributed to the increase in state trust funds available for student loans. The expanded student loan programs have helped more than 41,000 students obtain money for college. Today, no qualified Oklahoma student is denied access to secondary education opportunities for lack of funds.

Much remains to be done in the area of education reform. The Legislature wisely retained $32 million of the increased revenues available under House Bill 1017 for future use. This amount along with the Fiscal Year '92 growth revenues should assure education additional progress as Oklahoma continues to strive for education excellence.

During these past four years, we have also dealt with the paradox of a prison population explosion while the state's crime rate decreased. Through our joint efforts, some 2,100 new beds have been or will shortly be added to the corrections system. Included among these are 10 community work camps in various stages of operation. Another 20 work camps are being planned.

In contrast to previous years when it was difficult to find a site for a prison of any kind, community leaders are eagerly seeking these facilities. They welcome the valuable contribution by inmate workers who improve parks, streets, roads, drainage and public buildings. I am extremely pleased that our emphasis on inmate labor means that 97 percent of Oklahoma's prisoners either work or go to school today, compared with 85 percent four years ago. A similar emphasis upon inmate literacy and work ethics is beginning to reduce the recidivism rate.

The corrections problem has not been solved. It would be wise for the Legislature to consider again the fact that Oklahoma has the lowest felony limit of any state in the union. Theoretically, an Oklahoman who fails to return a video cassette rental could be sentenced to prison as a felon. Raising the felony limit would help reduce our prison population without doing serious injury to the merchants of our state.

From the Governor's viewpoint, one of the major accomplishments of the past four years has been the creation of the state's first full-time executive cabinet system. In contrast to my experience as Governor in the 1960's, the availability of dedicated, talented cabinet secretaries has streamlined the executive branch and made cooperation between the more than 300 state agencies more effective, thus improving operating efficiency.

While I know there was some reluctance on the part of members of the Legislature to see the cabinet system created, I would hope that the experience gained over these past four years will be reassuring to the critics of the cabinet system and help insure its survival. For the Governor to directly and effectively administer the existing multitude of agencies is a physical impossibility.

Even more helpful to the new Governor would be the restructuring of the executive branch along the lines recommended by the Constitution Revision Study Commission. At the present time, executive authority is defused to the extent that effective executive decision making is difficult if not impossible.

Oklahoma voters passed another constitutional amendment which the study commission recommended and which the Leg-

islature will activate for the first time this session. By passage of State Question 627, the people created the nation's first constitutional ethics commission to oversee the conduct of public officials and election campaigns. The commission becomes effective in July, and I urge the Legislature to provide adequate funding for meaningful ethics administration.

In another area, I urge the Legislature and the new administration to revisit the idea of bringing coherence to Oklahoma's diffused approach to protecting our environment by creating a Department of Environmental Management. Currently eight agencies work, often at cross purposes, to protect their own turf rather than protecting the state's environment.

It has been said that "if you don't shoot any cartridges, you won't get any partridges." As veteran legislators know, some very large cartridges have been fired in these halls over the past four years, and some big partridges are now in hand.

I wish to commend and thank those who have supported and improved the Governor's position on many issues.

It has been a pleasure to work with you. It is gratifying to leave office knowing that together we have met important issues squarely and dealt with them intelligently and courageously. I urge you to persevere on the course that has been set. Oklahoma is becoming a "State of Excellence." Let us continue!

Such action shall be transmitted by Message in which shall be included the names of the conferees on the part of the requesting house. Upon receipt of such Message, the other house may, in like manner, grant such Conference, notifying the requesting house by Message and stating the names of its conferees.

(b) A Conference Committee shall consist of three (3) members of the Senate and

three (3) members of the House, unless otherwise specified, to be appointed by the President Pro Tempore of the Senate and the Speaker of the House, respectively. The bill or joint resolution shall revert to the status it occupied before being sent to Conference Committee.

(i) Neither house shall consider in either session of the current Legislature any Conference Committee Report that has been altered in any manner after being signed by the members of the Conference Committee. (b) If either house violates a Joint Rule, a point of order may be raised in the other house, and decided in the same manner as in the case of violation of the Rules of such house. If it is decided that the Joint Rules have been violated, the bill or resolution involved in that violation shall be returned to the house wherein the alleged violation occurred without further action.

President Mildren presented Governor David Walters to the Joint Session, where he delivered his address as follows:

MESSAGE OF GOVERNOR DAVID WALTERS

Lieutenant Governor Mildren, President Pro Tempore Cullison, Speaker Johnson, Justice Opala, Members of the Legislature, Ladies and Gentlemen:

First, let me thank you for your swift and decisive action during the recent special session. Your efforts send a clear message to the people of Oklahoma and to business around the nation – that we are committed to job creation and economic expansion.

When some people tried to congratulate me for the early success of the special session – I pointed out that it's easy to call a session, it's tough to pass the legislation. The credit for success should go to your leadership and to you for your responsible and fast action. And so on behalf of all of Oklahoma I say thank you.

Our state and our nation begin this year with the uncertainty of war. Those serving in the Persian Gulf are constantly in our thoughts and prayers. As we continue to watch the events, to worry and to hope, our hearts go out to the Oklahoma families who have made the sacrifice of sending their sons and daughters, husbands and wives to the battle. They have answered our country's call. They have our gratitude, our admiration, and our total support. On the home front, we must not and we shall not let them down.

But even against the stark backdrop of war, we can be renewed in spirit by the promise of Oklahoma's future.

This year, my friends, we begin a new commitment to the people of Oklahoma.

Over the past several months, I have been meeting the voters of Oklahoma. I drove in one hundred degree heat on Highway 183 to listen to the citizens of Frederick tell us about their hope for new economic development in that border community. I ducked in and out of the rain on Main Street in Tahlequah, listening to businessmen speak with pride about Northeastern State University and what it means to the community and spent the evening there with a family who proudly and successfully started a blueberry farm. I attended rallies and meetings in Tulsa where community leaders talked about the need for quality health care and early childhood development. And I traveled Oklahoma Highway 58 to Fairview and U.S. 70 to Hugo, marveling at the beauty and richness of Oklahoma, symbolized by the farms and people who have chosen to make rural Oklahoma their home. And most recently, as Governor, I talked to business prospects in Los Angeles and found that marketing our state is as easy as talking about the virtues of a best friend.

Yet, we still have work to do. Our state's jobless rate is still too high and Oklahoma's educational rating is still too low. Access to quality health care for the young, the poor, and the elderly is too limited, while access to drugs and the threat of crime isn't limited enough.

But even though we have obstacles to overcome, I can say that the State of the State is as great as are the people of Oklahoma. Certainly, we have a favorable climate and precious resources beneath our soil . . . a landscape of variety and natural beauty . . . and a geographic location that gives us access to major markets for our products. But, above all, our greatest strength is our people. Something about the hard times we've been through or how we settled this land makes us a special people. Hard-working, honest and friendly — we are special, we are Oklahomans.

There is nothing wrong with our soil, our air, our water, or our people — nothing to keep Oklahoma from being the best state in the nation. We must be a government that knows the people well enough to trust them and that has ability enough to lead them, with imagination, honesty and integrity.

In words that an assassin's bullet kept him from delivering, President Kennedy issued this challenge, "let us stand together with renewed confidence in our cause — united in our heritage of the past and our hopes for the future . . ."

With this in mind, during this legislative session we will deal with some tough problems. But I believe we will not face any problem greater than most Oklahoma families face each and every day. Surely, the widowed mother in Ponca City who must try to raise two sons on one income will face greater challenges than we. As we toil late into the night working on the state budget, surely we are doing no more than the

convenience clerk in Ada who is working a night job to somehow pay for his education.

As we talk to constituents who need our support for the difficult problems they might be facing, let's remember the countless other Oklahomans with special needs for whom we are their best, and possibly last, hope of living with dignity. Let's also remember that state government can't do everything and, in fact, has no right to interfere in many areas of our lives.

Today this new administration offers the state a balanced budget as required by law. Behind the rows and columns of numbers are people, and their needs — and we will never forget that. Inside this budget blueprint is the beginning of a new partnership between the Governor and the Legislature to create new jobs, improve public education, place increased emphasis on health care, and establish new programs to combat crime and drug abuse. **This budget seeks no tax increases.** Instead, we propose to manage our existing resources by cutting budgets, reallocating revenue and setting new priorities. That is the central commitment of my executive budget.

We will find new and innovative ways to encourage job creation.

The Department of Commerce in the Walters' Administration will marshal all our state's resources to encourage economic growth. Much of the nation is in a recession. Oklahoma, tempered by the tough times of the dust bowl, and the more recent oil bust, now stands ready to lead an economic resurgence. Let's bring people to Oklahoma who need a chance to begin again, by promoting the industries that already exist in Oklahoma. Let's restructure our present development authorities into a single financing entity which can aggressively provide venture capital for new business. Senator Fisher and Representative Hudson have filed a bill with my full support to end the alphabet soup proliferation of financing authorities which at best has led to confusion and at worst has contributed to gross mismanagement. Let's face the facts that we are a capital starved state and that we must provide the catalyst to generate the means for our businesses and recruited businesses to develop and grow. My budget strengthens rural development by targeting regional development funds and grants directly to communities whose very existence relies on their ability to create new jobs.

I will direct that oil overcharge monies received by the state be used for energy related programs to encourage local economic recovery, to fund research directed towards increasing the demand for natural gas including the expanded usage of compressed natural gas. We are developing new targets for our economic development efforts, better follow-through and research, a concerted value-added industries program, and substantial capital formation programs. Our new cabinet secretaries for Commerce, Agriculture and Tourism will be directed to better coordinate an expanded marketing effort. While these improvements by and large will be made within our current budget, some legislative authorization of new programs will be sought. Let's together send the message again, job creation will be a top priority — and no one, no one, will work harder to bring new industries and new jobs to their state than Oklahoma will.

Your courageous passage of HB 1017 last year may have been the most important piece of legislation in Oklahoma during the past twenty years. But we can't stop there. I have recommended increased funding for education, particularly Higher Education from existing revenue and from a new education building and equipment package that we will ask the voters to approve. If we do not commit ourselves to strengthening higher education, we will lessen our capac-

ity to attract new investments like United Airlines. Together, let's continue the fight for quality education in this state.

From new revenues we will make an additional $75 million available for common education funding in FY-92. Beyond this, I will recommend that $6 million of funds cut from other state agencies be appropriated for our schools. When the increase in direct tax allocations is included, FY-92 funding for common education will have increased by $89.1 million.

I am also recommending that the State Department of Education reduce its administrative cost by $1.5 million. Secretary of Education, Sandy Garrett, has put in place a reorganization plan which will accomplish at least this level of savings. I am also requesting that all local school districts review operating budgets and reduce administrative costs by 10%, for a savings of as much as $10 million dollars. The savings should be reallocated to teaching and to meet the requirements of 1017. Adding these additional funds to what is now available for elementary and secondary education, and including the maximum for internal reallocations, my budget calls for an increase of $100.7 million to help school districts meet all new requirements.

I am also working with the Secretary of Education to hold fast on standards implementation, and accelerate the timetables for education reform. Finally if you and the people of Oklahoma approve our education building and equipment bond issue, which does not increase taxes, we will have the most advanced fiber optics telecommunications network and the most sophisticated comprehensive computer technology applications of any system of public instruction in this nation and perhaps the world. Because of your past work and our new determination we are on the verge of becoming a model for others who want the best education for their children.

The limited increases in our higher education budgets in recent years, and the growing gap between Oklahoma higher education and other states in our region, mean that a high priority has to be placed on our colleges and universities. My budget proposes funding increases for higher education of $61 million dollars. We will request strong evidence of reallocation of administrative expenses to direct instruction and research. Most of the education capital improvements package I've proposed will go to colleges and universities. Oklahoma higher education has been very patient with us, let's not respond by being passive.

Yesterday at the National Governor's Conference, I listened to experts and saw Governors wring their hands over their state's educational systems. They struggled with how to relate education to the work place. Poor transition to the work force, particularly for non-college bound students, was cited as a key problem.

We don't have all the answers in Oklahoma. But I took special pride in telling the nation's governors that Oklahoma is the leader in this area because we have the finest vo-tech system in the nation. We should never take this system for granted. vocational-technical education will continue to get strong support in my administration.

We are in the midst of a health care crisis across America. In Oklahoma, rural hospitals are closing, unable to provide any service to citizens who choose to live in our small communities. You can have a great job or a good education system but when you lose access to health care many Oklahomans have to move. I have recommended an increase in appropriations for the Community Physician Match Program; this is a first step toward providing new physicians in Oklahoma's most underserved areas. I have also asked for a complete review of

our medicaid expenditures and our distribution of indigent health care dollars. We can do better and we will.

At the same time, we have to strengthen the management of social service programs that provide care and assistance for thousands of needy Oklahomans. The current organization of the Department of Human Services is due to historical funding convenience, not management efficiency or service delivery. I am proposing the establishment of a separate agency to serve our senior citizens. I believe the Oklahoma Medical Center will work better if we remove it from D.H.S. And I am also proposing a separate agency to deal with the problems of children and youth. Their future is the most important investment we can make — and they deserve special attention. Some have said wait, go slow, let's commission a study. The time to act is long past due. On page 31 of the Terry D. report a footnote indicates that the authors could not secure an accurate figure of the number of juvenile cases that we have in Oklahoma. If our current organizations can't produce a simple statistic it would be naive of us to expect this same organization to solve these important problems.

To prevent the erosion of Oklahoma's social services and to insure that we are doing as much as we can at the lowest possible cost, I am asking Dr. Garth Splinter to lead a Health and Human Services team to make a series of recommendations on what's working and what isn't, and at what cost. I anticipate a tough review, specific ideas for change and a quick time table for implementation. As the social service agencies meet the constraints required by my budget, I am instructing them to place the highest priority on children's issues, particularly perinatal programs.

Next, we must stop the wholesale early release of convicted felons. **We can be progressive without being permissive.** My budget includes operating funds for the Department of Corrections to contract for private facility beds — the quickest way to gain additional capacity in the prison system. I have included appropriations to fund the operations of ten additional work centers, three in this year and seven in FY-92. The work centers will each house forty to sixty inmates who will also work on community projects. Additionally, I have recommended funding for facilities inside the prison system which will provide 200 more cells, and over $5 million in substance abuse, literacy and job training to reduce the number of repeat offenders.

I have asked Secretary of Safety and Security Bob Fitzpatrick to reorganize our law enforcement efforts. State law enforcement agencies should be combined into one unified, coordinated, crime fighting organization. Duplication of administration, communication, and support services is weakening our fight against crime and drugs. Consolidation will mean both more and tougher law enforcement.

I have asked Attorney General Robert Henry to assume the lead in renewing our efforts to attack substance abuse in Oklahoma. The Drug Policy Board should be given a statutory foundation; doing so will enable programs such as those providing for Drug Free Schools to be more targeted and focused. The Attorney General, the Secretary of Education and I have agreed to set among other goals this important goal: a drug abuse prevention program, like the D.A.R.E. program, in every school in every district in the State of Oklahoma.

In our rush to diversify the economy we have in the past overlooked agriculture — no more. I have elevated the Commissioner of Agriculture to a cabinet level post and I have asked for a significant reorganization of our agricultural programs. We intend to

shift internally substantial funds to aggressive marketing and other programs that help our farmers and ranchers.

This session's debate will be intense over how our environmental programs should be organized. I have elevated Environment to a cabinet level position. Some consolidation of environmental functions in state government must occur as a complement to our economic development plans. My new Secretary of Environment and I will play an active role in this reorganization.

We can't afford the things we need if we are unwilling to cut the things we don't need. I am recommending a reduction of $40 million dollars in state agency operating appropriations. We don't spend money on bad things in state government, but we do spend money on low priority programs that once were high priorities. Our needs and priorities change and so should our budgets. I propose to reallocate the savings to areas where our needs are the greatest. We must invest more in education, prisons, and in a new employee incentive program. I have today directed state agencies to take immediate steps to reduce their current FY-91 expenditures. I will ask that any savings a state agency generates this year will be used to soften the impact of their budget cut in FY-92.

A developing national recession and uncertainties in the Federal budget, as it relates to our state, makes it critical to put away as much money as possible to reduce the need for a tax increase in future years. I am committed to funding vital state services, but we should not do so through tax increases. The state's Rainy Day Fund shows a current balance of $153 million. My recommendation is that those funds should be saved, not spent, so we will have them to meet the demands of harder days.

The time has come for Oklahoma to take a leadership role in drafting and working for a national energy policy. I have elevated to a cabinet level post the Secretary of Energy and will charge this individual with the task of working with producing states and our nation's policy makers to draft an energy policy for Oklahoma, and if Washington doesn't do it, one for the nation. Every Administration since Truman has pledged to provide a national energy policy. It is undoubtedly a complex and difficult task. Our policy for Oklahoma will concentrate on two major points: conservation and conversion to natural gas. We intend a broad based attack ranging from funding the Oklahoma Center for the Advancement of Technology for conversion research to inserting our views in the national debate. An effective national energy policy, coupled with the conservative state budget that I have proposed, can mean that while the rest of the nation is experiencing a recession, Oklahoma can surge ahead.

Today, by Executive Order, I am establishing a new code of conduct for all the men and women who make state service their career. We have thousands of dedicated, hard-working employees in state government. Because I feel so strongly that any individual betrayal of the confidence placed in a state worker adversely affects all state employees, I am requiring strict new financial disclosures for agency heads, cabinet secretaries, and others who make daily decisions on state purchasing and finance.

Unfortunately, our society still bears some of the age-old burden of bigotry and inequality. We will chart a new future for minorities in state government. We cannot afford to waste the talents of a whole portion of our people if we are to meet our human and economic potential. This year, I will call a Governor's Conference on Minority Issues. This statewide conference will bring together participants from all segments of our society and the Oklahoma economy. Let's celebrate our past suc-

cesses, let's identify the ongoing weaknesses and then let's chart a plan of action that will guarantee equal employment opportunities for all Oklahomans.

Finally, we must examine all of state government to achieve greater efficiency and accountability. I will be proposing statutory and constitutional changes which will restructure, eliminate, or reform many of the operations of state government. I ask you the Legislature, as well as the people that you represent, to become involved in this important effort.

Today, I renew my pledge to be the hardest working governor in our state's history. You may not always agree with me; but I want you to know that I will do all that I can do to make this session, and the next four years, a success for all of us. As I close I want to express my thanks to you again for the excellent work during the recent special session.

As I mentioned earlier, I attended a meeting of our nation's governors in Washington yesterday. On an early morning run, I went past the National Archives where, on the building, carved in granite, are the words, "What is past is prologue." I was reminded that the late Senator Kerr is said to have once asked a cab driver what those words "what is past is prologue" meant? The cab driver said, "that's simple, Senator. It means you ain't seen nothing yet."

We may not adopt these exact words as our theme . . . but the quality of this legislature, the ability of your leaders and our renewed spirit of cooperation between me and you means that we can in good faith tell Oklahoma's citizens that they have the leaders in place to move Oklahoma . . . that we will change this state . . . and we accept the charge of making Oklahoma the best state in the nation.

Upon motion of Senator Roberts, the Joint Session was ordered dissolved at the hour of 1:00 p.m.

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. The ratios presented at this meeting, February 19, 1991, reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

This is to advise you that on this date I vetoed Enrolled **SB 67** by Herbert of the Senate and Sullivan and Seikel of the House.

An act relating to state government; *** providing limit on contributions to certain local candidates; and declaring an emergency.

This legislation increases the maximum allowable contribution to candidates for county office without regard to county population. The increase is more justifiable in large counties where campaign finance needs may be greater. However, the increase in small counties may impede the democratic process.

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. The ratios were updated at the February 19, 1991 meeting to reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

MESSAGE OF GOVERNOR WALTERS

Lieutenant Governor Mildren, President Pro Tempore Cullison, Speaker Johnson, Members of the Legislature, Ladies and Gentlemen:

Before I begin my remarks, I ask you to join me in welcoming to the Gallery the state's new First Lady. Today, we are assembled here to witness the beginning of a new era – an era of economic resurgence in Oklahoma which can mean new jobs and employment opportunities and an enhanced quality of life for every man, woman and child in our state. It is indeed unusual that the first act of a newly inaugurated Governor is to call a Special Session of the Legislature. However, these are unusual times in which we live and Oklahoma is presented with an exciting opportunity – the chance to bring new high paying jobs to Oklahoma with the one billion dollar United Airlines Maintenance Facility which has been referred to around the nation as the largest economic development project planned in the United States. This project will employ

directly 5,000 to 8,000 people with additional employment estimated at 10,000 to 15,000 jobs — and I am proud to say that Oklahoma is in the thick of the fight for this huge project.

This competition began over two years ago with more than 90 candidates, which has been reduced down to nine — of which Oklahoma is among the leaders. For the past two years, many individuals at the State, City and County level have spent thousands of hours developing a superior incentive package which has allowed Oklahoma to stay in the forefront in the battle for this project, while more than eighty other candidates have fallen by the wayside. Last week United said to Oklahoma, "We are impressed with your proposed incentive package — now it is time for Oklahoma to show that you are serious by passing into law the proposed incentive measures". I called the United officials and assured them that Oklahoma's leaders will be the nation's most aggressive and I announced my plans to call this special session.

Now is the time for you and me to exercise our leadership abilities and show this company, the airlines industry, as well as the rest of the nation, that Oklahoma wants quality employers to locate their new jobs and facilities in Oklahoma — and we are willing to put our efforts and our money where our mouth is. We may not succeed, but if we fail it will not be due to a lack of effort.

As we discuss this legislation during the next week while business leaders around the country watch us, please remember that a yes vote for the legislation is a yes vote for new jobs for Oklahomans. During this Special Session we are not Democrats or Republicans, but instead we are Oklahomans here to accomplish a task — bring jobs to Oklahoma for Oklahomans.

This Special Session of the Legislature provides Oklahoma a unique chance to send a message not just to one company but to business interests across this nation and around the world, that Oklahoma Means Business — and that Oklahoma will aggressively pursue quality economic development opportunities. We must prove that Oklahoma will provide new job incentives to meet those offered by other States. We will be able to demonstrate that Oklahoma's natural resources, such as the people in our work-force and our quality of life, are second to none and that industries looking for a home for new development should come to Oklahoma. This is the right place.

It is now time for us to roll up our sleeves and get to work on what I know will be the first of many opportunities which Oklahoma will have to show corporate leaders around the world that Oklahoma is open for business. We have the opportunity to clearly demonstrate that Oklahoma is a young state which is vibrant and aggressive and that we are moving into the future with creative leadership and new ideas.

This is what this Special Session is all about — we must recognize our opportunities and seize the day. Let's move forward in this our first effort to make Oklahoma the best state in the nation.

Upon motion of Senator Roberts, the Joint Session was ordered dissolved at the hour of 3:30 p.m.
