

# DIVERSION HKB

## **Connecting people involved with the criminal justice system to needed resources and supports to help them become contributing, responsible, and safe members of the community.**

In the fall of 2018, the Arnall Family Foundation convened a group of community leaders and justice experts to imagine a better way to support criminal justice in Oklahoma County.

The concept for the Diversion Hub was born and a shared visioning process began which included focus groups, stakeholder meetings, listening sessions and strategic planning.

The result is an independent 501(c)3 that acts as a collaborative, multi-agency network in a single location dedicated to providing coordinated, life stabilization services to individuals navigating the justice system.

Case managers and justice navigators will work alongside on-site community partners to meet the needs of the client while keeping community safety and a culture of compassion and accountability as a top priority.
