(5) The contribution rate, excluding any surcharge, for an employer whose contribution rate is three and four-tenths percent (3.4%) or more shall not be increased by more than two (2) percentage points in any one (1) year two (2) consecutive years. The

The Oklahoma Employment Security Commission shall determine the High Cost Multiple at the end of each calendar year and shall include the result of its computation in a regularly published periodical together with other employment-related data. As used in this section, "High Cost Multiple" shall be a figure computed as follows:

(a) first, net fund reserves in the Unemployment Compensation Fund as of the date of each computation required by this section shall be divided by total wages earned in insured employment for the twelve (12) months preceding the date of the quarterly High Cost Multiple computation,

(b) second, the result of the computation from subparagraph (a) of this paragraph shall be divided by a figure which is a quotient derived from the computation of the High-Cost Rate contained in subparagraph (c) of this paragraph, and

(c) third, the highest ratio of total state benefit payments experienced previously in any twelve (12) consecutive months to total wages earned in insured employment for the same period shall be the High-Cost Rate.

The result of all computations contained in subparagraphs (a) through (c) of this paragraph, performed in the sequence as specified in this section, shall be known as the High Cost Multiple;

(7) Prior to the beginning of each calendar year, the Commission shall prepare an estimate of the financial condition of the trust fund. If the estimate for the year shows the balance, at any time during the year, will fall below the High Cost Multiple as defined in paragraph (6) of this section, then the Commission shall reinstate the suspended provisions of this section.”; and by renumbering subsequent sections, which amendment was declared adopted.
