

2021 State Senate Map Book

Select Committee on Redistricting

Chair, Senator Lonnie Paxton

Co-Vice Chair, Senator Michael Brooks

Co-Vice Chair, Senator Dave Rader

Statewide Overview

Population

Total Statewide Population – 3,959,353 (+26,438 from estimate)

Ideal district size for each State Senate Seat – 81,935

Total Deviation – 3.84% - SD 48 is +1.97 over and SD 23 is -1.87% over (allowed deviation per rules passed by the committee was 5%)

28.63% of the citizens of Oklahoma will live in a new Senate District

Public Input

22 townhalls

Public comments from townhalls, emails and letters

Input also came from legislators

Compactness

54 counties remain whole (current map has 51 counties remain whole)

6 counties split 3 or more times – Oklahoma, Tulsa, Canadian, Cleveland, Wagoner, and Cherokee (current map splits 10 counties 3 or more times)

SD 1 is the most overall compact district in the State

Compactness scores below come from Maptitude

CUTS AND EDGES – a smaller number implies a more compact plan.

New map – 9,226 cuts and edges Current map – 10,001 cuts and edges

REOCK – The Reock test is an area-based measure that compares each district to a circle, which is considered the most compact shape possible. For each district, the Reock test computes the ratio of the area of the district to the area of the minimum enclosing circle for the district. Number closer to 1 is the most compact.

New Map – Mean score of .42

Current map – Mean score of .41

POLSBY- POPPER – The Polsby-Popper test computes the ratio of the district area to the area of a circle with the same perimeter. With 1 being the most compact.

New Map – Mean score of .39

Current Map – Mean score of .36

AREA/CONVEX HULL – The area/convex hull test computes the district area to the area of the convex hull of the district (minimum convex polygon which completely covers the district). With 1 being the most compact.

New Map – Mean score of .78

Current Map – Mean score of .73

SCHWARTZBERG – The Schwartzberg test computes the ratio of the perimeter of the simplified version of the district to the perimeter of a circle with the same area as the original district. The district is simplified by only keeping those shape points (trijunctions) where three or more areas in the base layer come together. Water features and neighboring areas also count as base layer areas. With 1 being the most compact

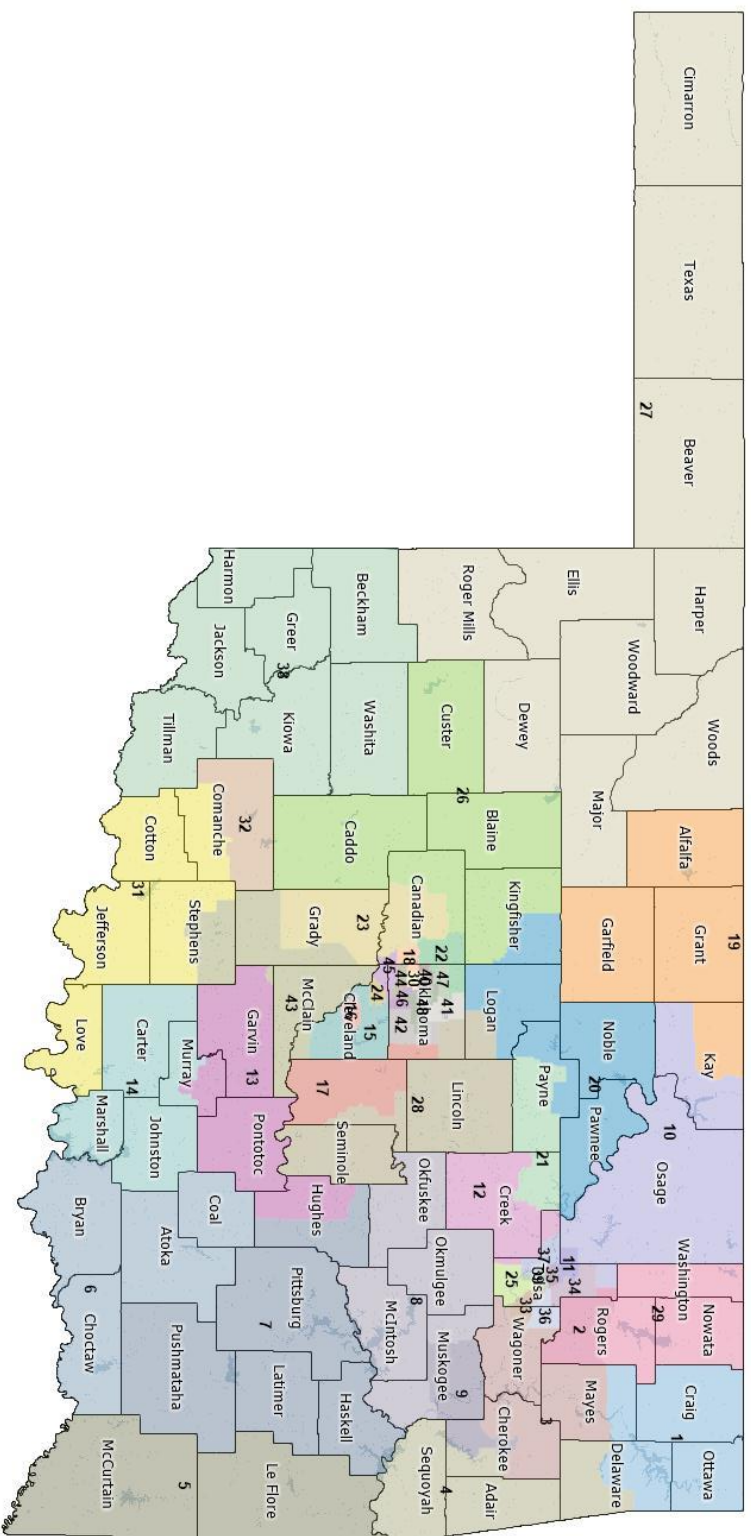

New Map – Mean score of 1.59

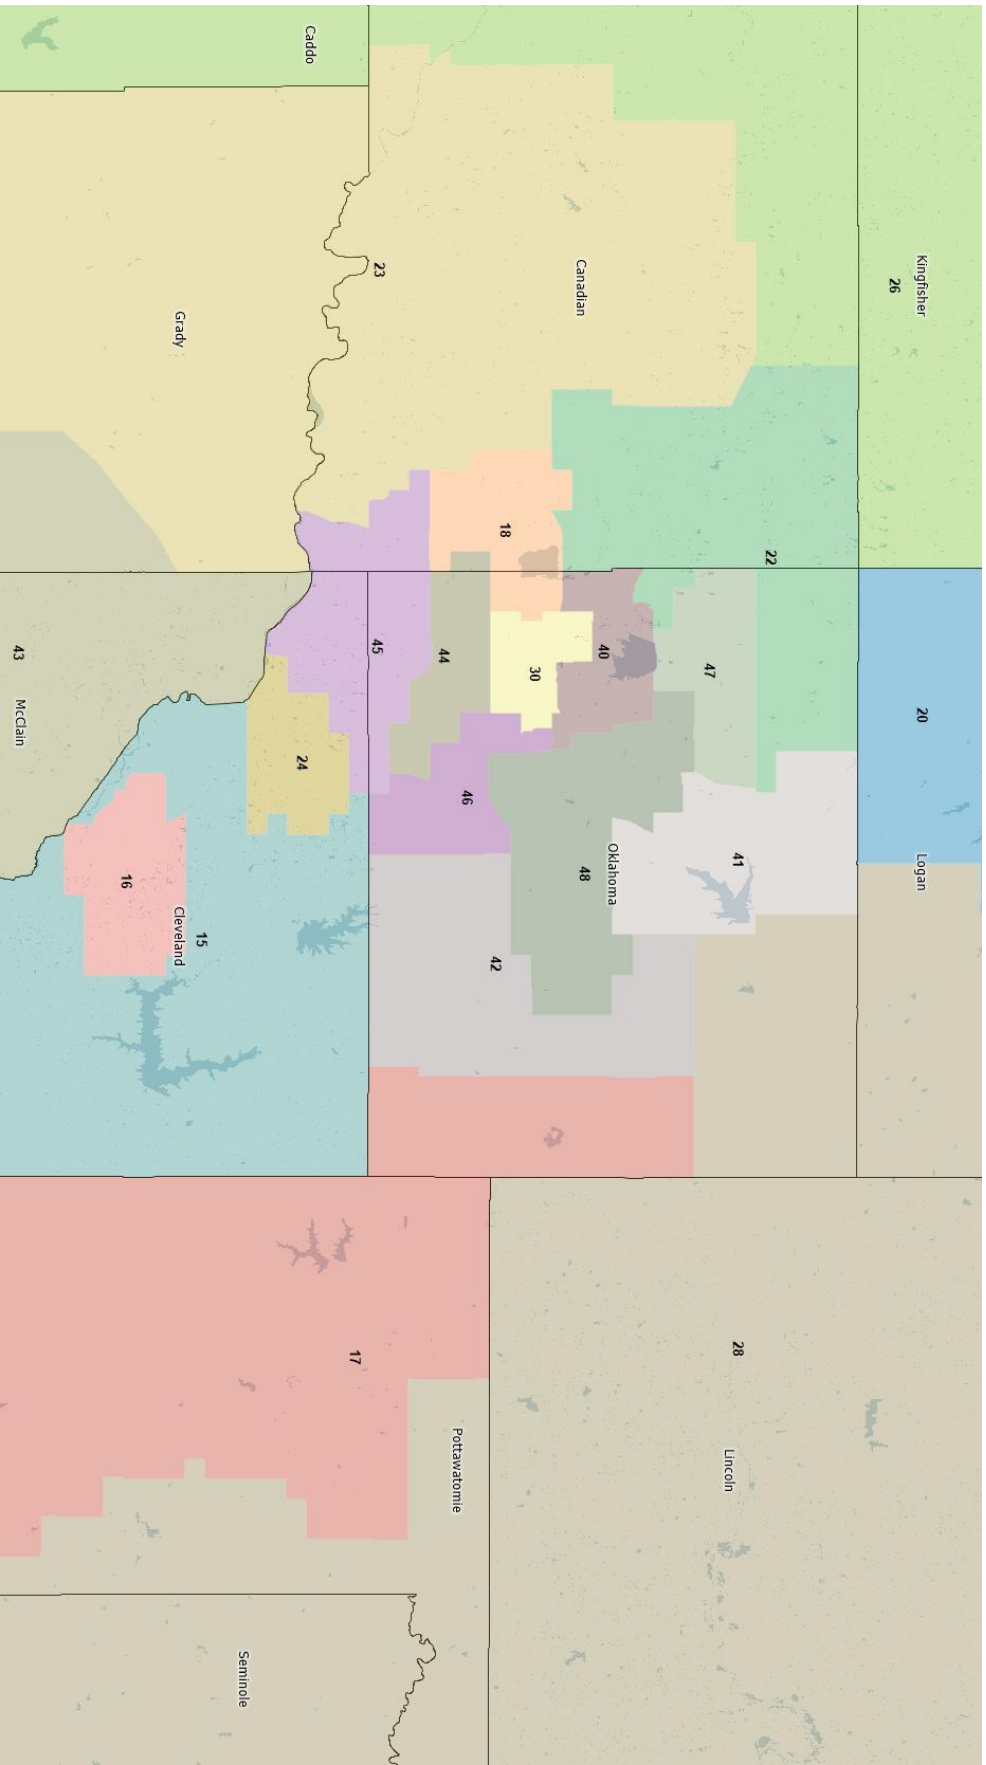

Current Map – Mean score of 1.72

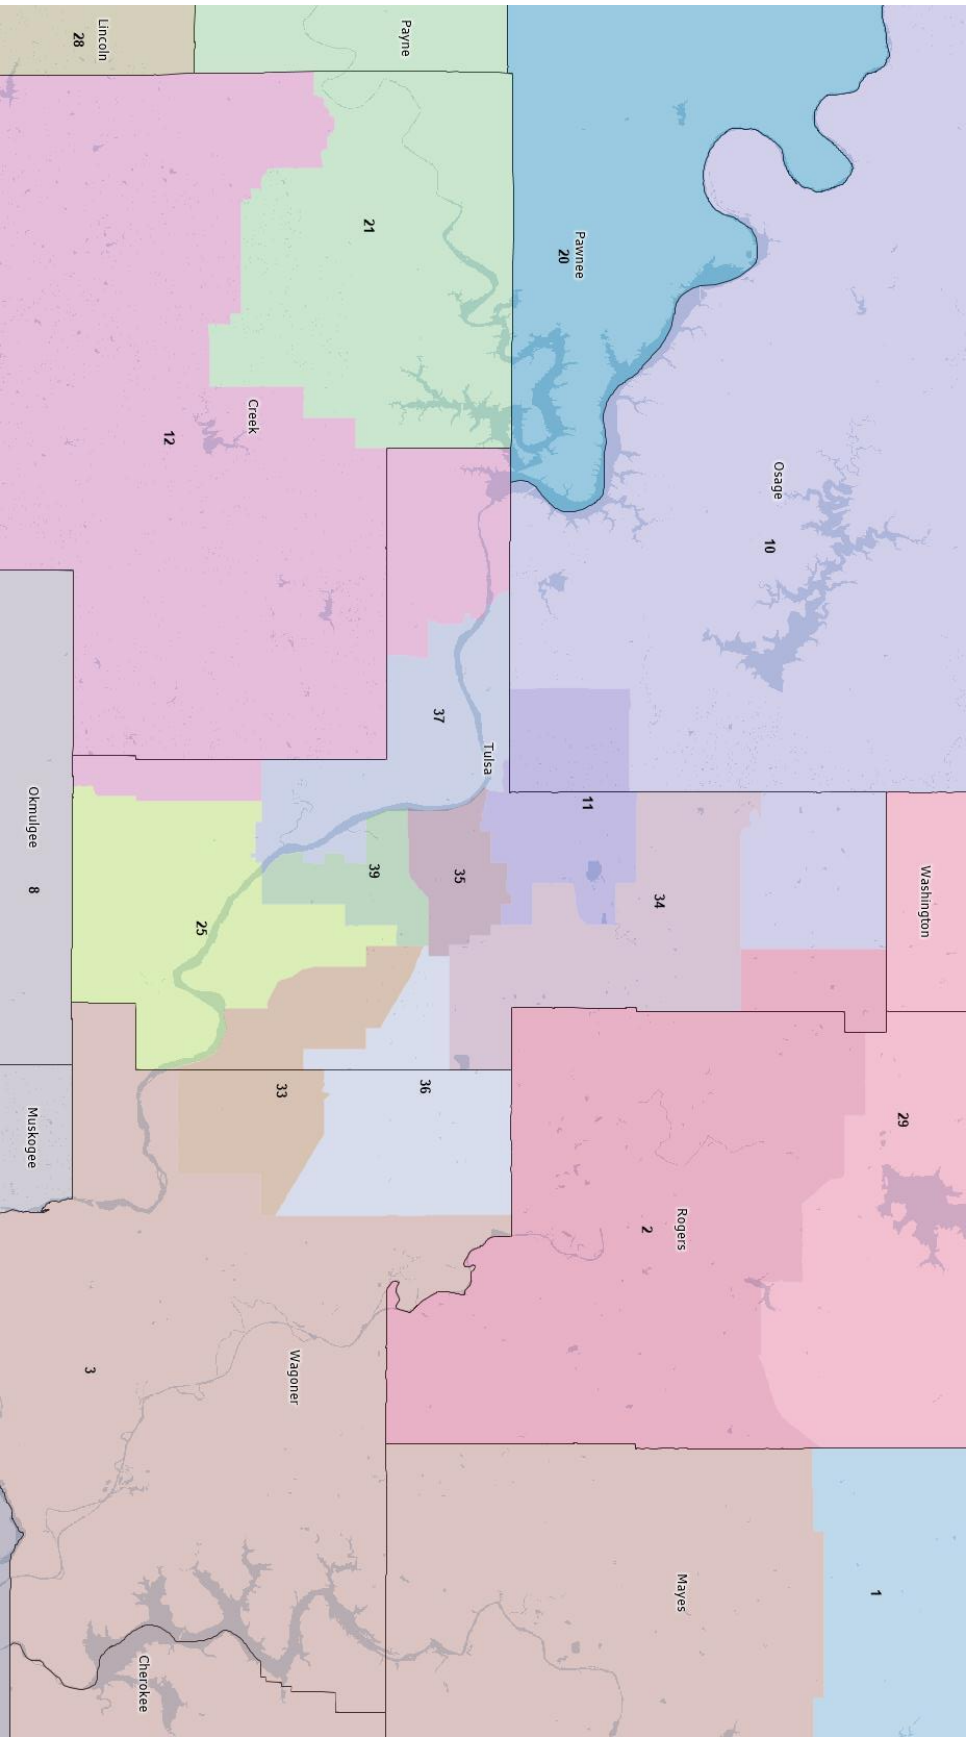

POPULATION POLYGON TEST – The population polygon test computes the ration of the district population to the approximate population of the convex hull of the district (minimum convex polygon which completely contains the district). The population of the convex hull is estimated by overlaying it with a base layer, such as Census Blocks. With 1 being the most compact.

New Map – Mean score of .75

Current Map – Mean score of .70

SENATE DISTRICT 1

AREA AND POPULATION

District encompasses Craig, Delaware, Mayes, and Ottawa counties

Total Population – 83,374 (ideal 81,935) - +1.67 percent deviation

Percent new people – 17.47%

Represents - 100 percent (population) of Craig and Ottawa counties, 69.60% of Delaware County and 19.49% of Mayes County

Senate District 1 is the most compact district in the State (old map was 11th most compact)

Area – 1,851 square miles – Under old map area was 1,956 square miles

Perimeter – 197.19 miles – Under old map perimeter was 230.2 miles

DEMOGRAPHICS

Part Black – 1.87%

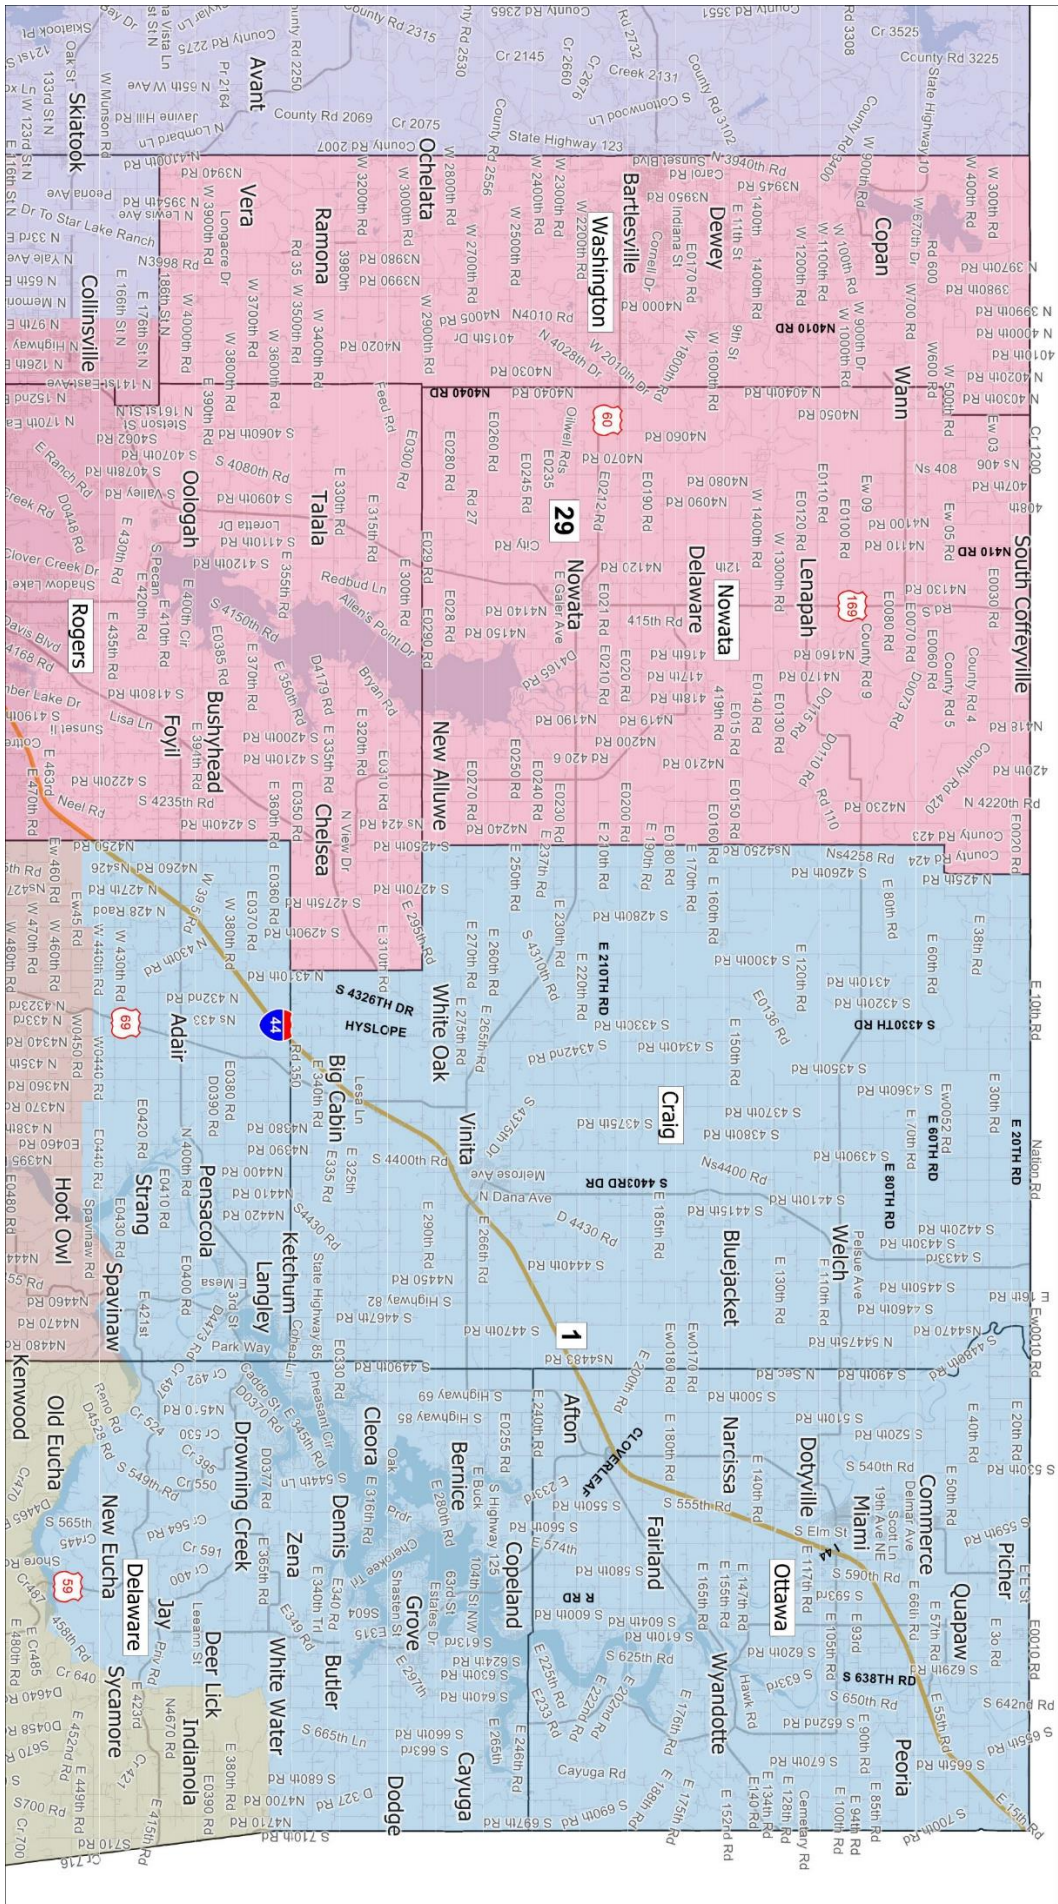

Part American Indian – 26.73%

Hispanic Origin – 4.43%

Non-Hispanic White – 66.72%

PUBLIC COMMENT

None

SENATE DISTRICT 2

AREA AND POPULATION

District encompasses Rogers and Tulsa counties

Total Population – 82,642 (ideal 81,935) +0.86 percent deviation

Percent new people – 22.46%

Represents - 77.20% of Rogers County and 1.88% of Tulsa County

Senate District 2 is the 17th most compact district in the State (old map 16th most compact)

Area – 374 square miles – Under old map area was 387 square miles

Perimeter – 102.6 miles – Under old map perimeter was 112.31 miles

DEMOGRAPHICS

Part Black – 2.26%

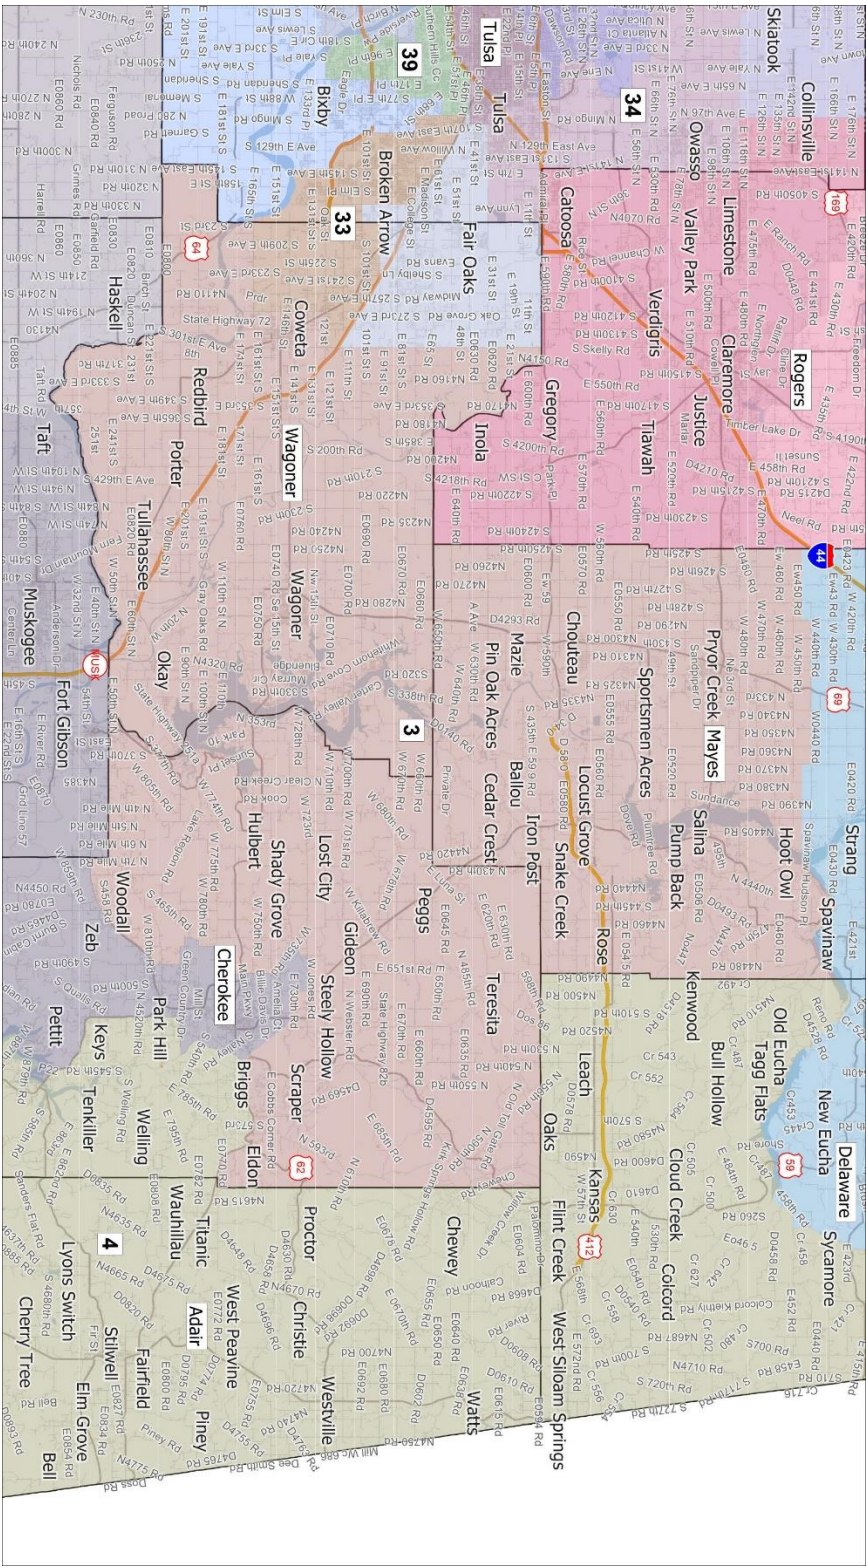

Part American Indian – 18.89%

Hispanic Origin – 5.02%

Non-Hispanic White – 72.94%

PUBLIC COMMENT

None

SENATE DISTRICT 3

AREA AND POPULATION

District encompasses Cherokee, Mayes and Wagoner counties

Total Population – 82,529 (ideal 81,935) +0.73 percent deviation

Percent new people – 79.49%

Represents - 34.18% of Cherokee County, 80.51% of Mayes County and 41.50% of Wagoner County

Senate District 3 is the 37th most compact district in the State (old map was 46th most compact)

Area – 1,410 square miles – Under old map area was 1,677 square miles

Perimeter – 233.37 miles – Under old map perimeter was 320.97 miles

DEMOGRAPHICS

Part Black – 2.80%

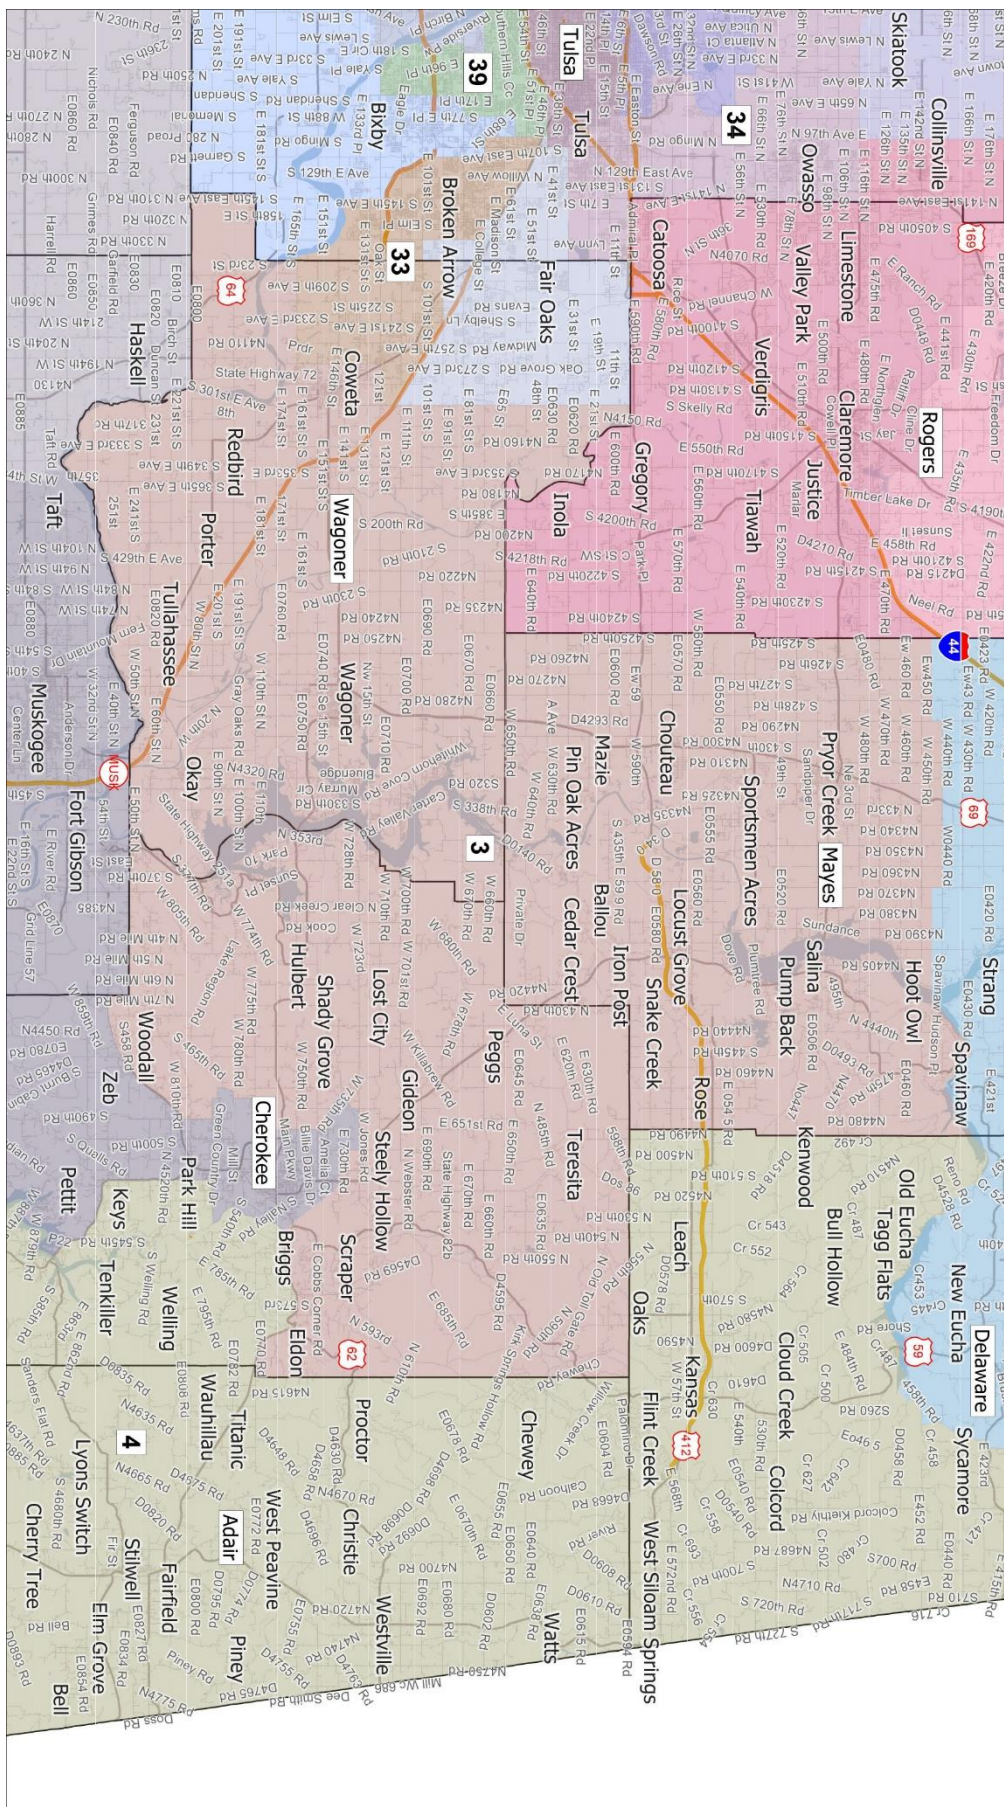

Part American Indian – 30.62%

Hispanic Origin – 3.86%

Non-Hispanic White – 62.97%

PUBLIC COMMENT

After release of the map, we had a request for Adair County to stay in SD 3

SENATE DISTRICT 4

AREA AND POPULATION

District encompasses Adair, Cherokee, Delaware, and Sequoyah counties

Total Population – 82,797 (ideal 81,935) +1.05 percent deviation

Percent new people – 49.62%

Represents - 100% of Adair and Sequoyah counties, 12.26% of Cherokee, 30.40% of Delaware

Senate District 4 is the 41st most compact district in the State (old map was 12th most compact)

Area – 1,854 square miles – Under old map area was 1,319 square miles

Perimeter – 279.18 miles – Under old map perimeter was 186.77 miles

DEMOGRAPHICS

Part Black – 1.93%

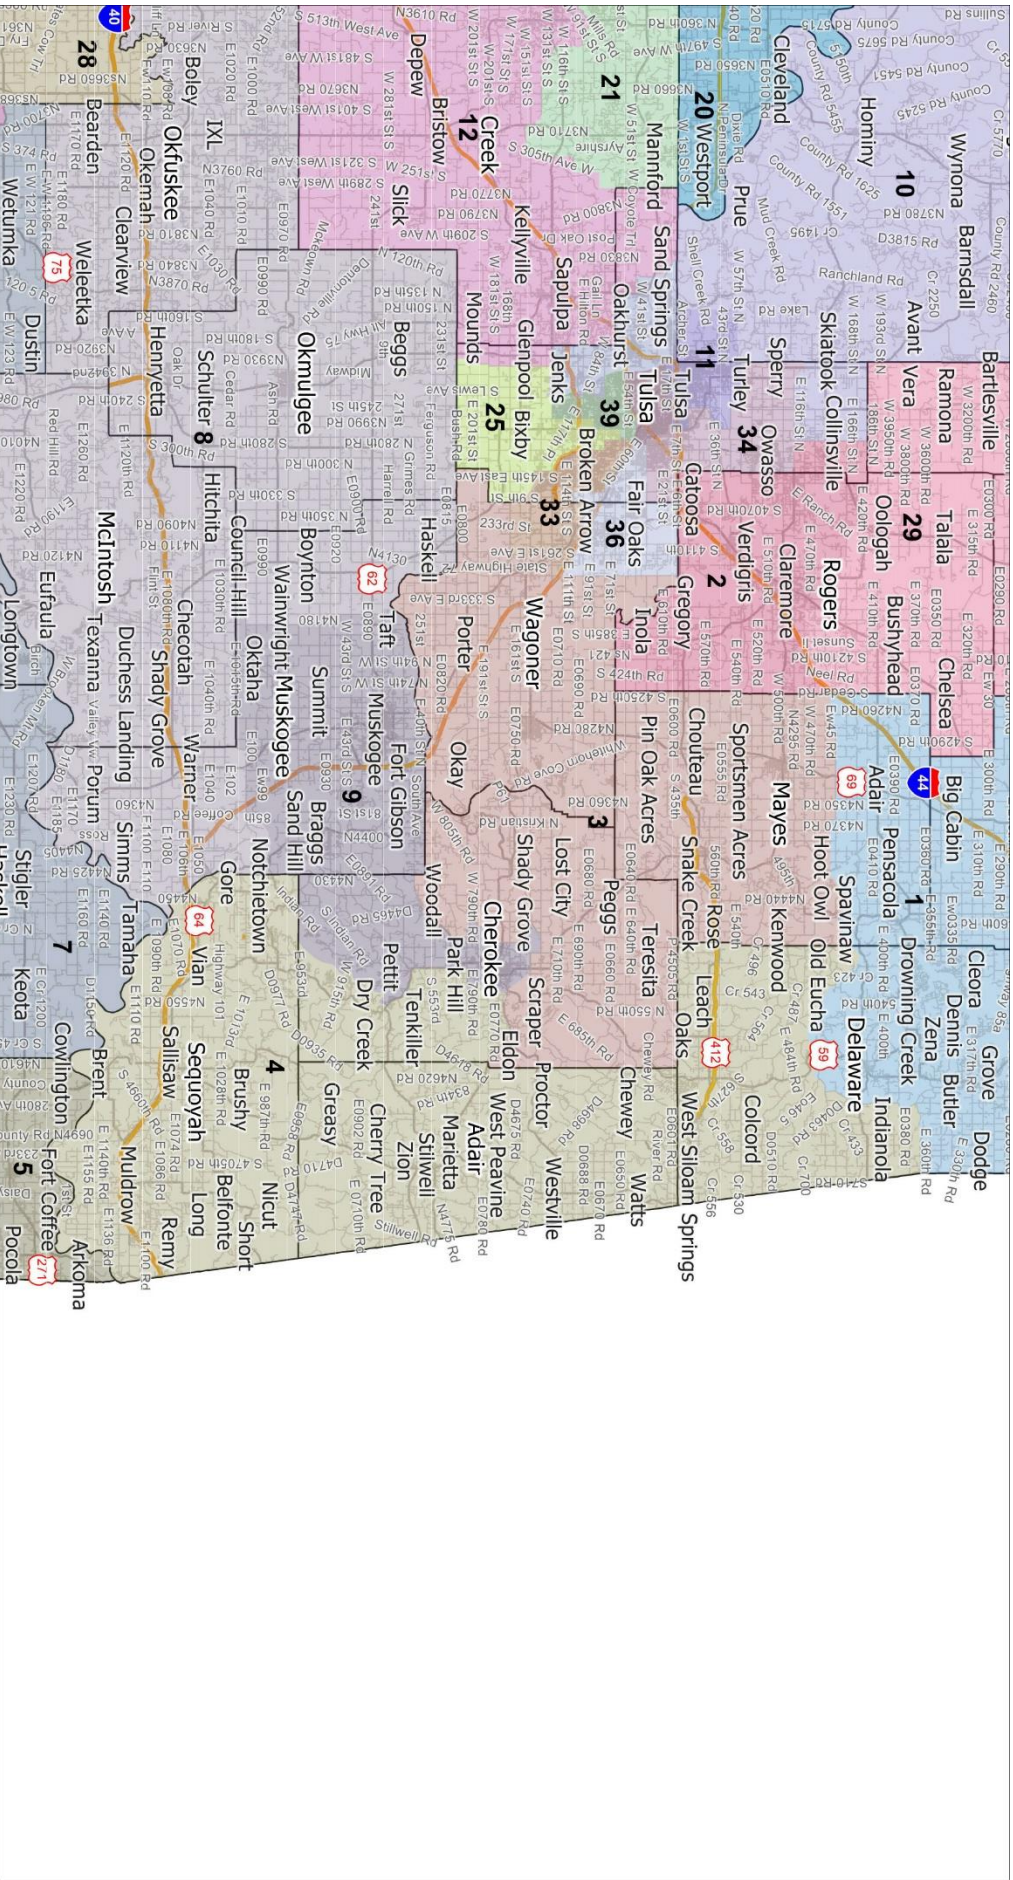

Part American Indian – 39.71%

Hispanic Origin – 5.14%

Non-Hispanic White – 53.58%

PUBLIC COMMENT

After release of the map, we had a request for Adair County to stay in SD 3

SENATE DISTRICT 5

AREA AND POPULATION

District encompasses Le Flore and McCurtain counties

Total Population – 83,042 (ideal 81,935) +1.35 percent deviation

Percent new people – 43.67%

Represents - 100% of Le Flore and McCurtain counties

Senate District 5 is the 30th most compact district in the State (old map was 21st most compact)

Area – 3,512 square miles – Under old map area was 5,636 square miles

Perimeter – 402.39 miles – Under old map perimeter was 505.45 miles

DEMOGRAPHICS

Part Black – 5.76%

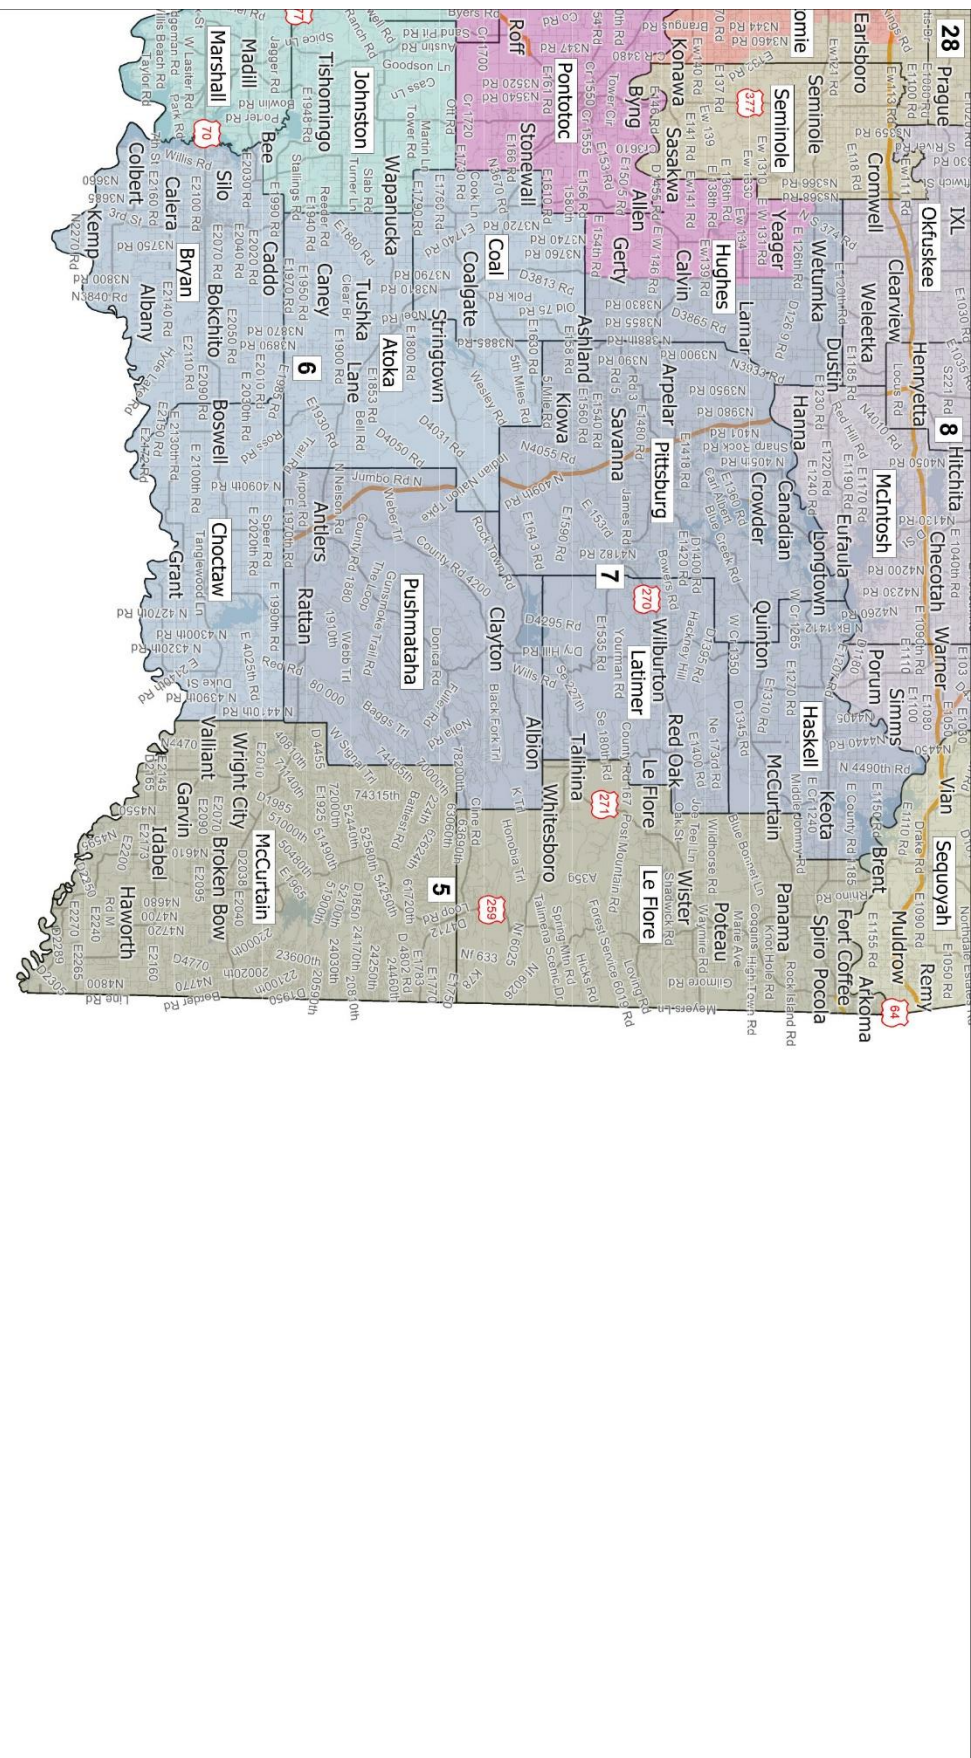

Part American Indian – 20.22%

Hispanic Origin – 6.64%

Non-Hispanic White – 67.65%

PUBLIC COMMENT

Heard from local community leader they wanted Le Flore and McCurtain counties in the same district

SENATE DISTRICT 6

AREA AND POPULATION

District encompasses Atoka, Bryan, Choctaw, and Coal counties

Total Population – 80,668 (ideal 81,935) -1.55 percent deviation

Percent new people – 22.56%

Represents - 100% of Atoka, Bryan, Choctaw, and Coal counties

Senate District 6 is the 34th most compact district in the State (old map was 20th most compact)

Area – 3,256 square miles – Under old map area was 2,615 square miles

Perimeter – 388.12 miles – Under old map perimeter was 347.91 miles

DEMOGRAPHICS

Part Black – 5.07%

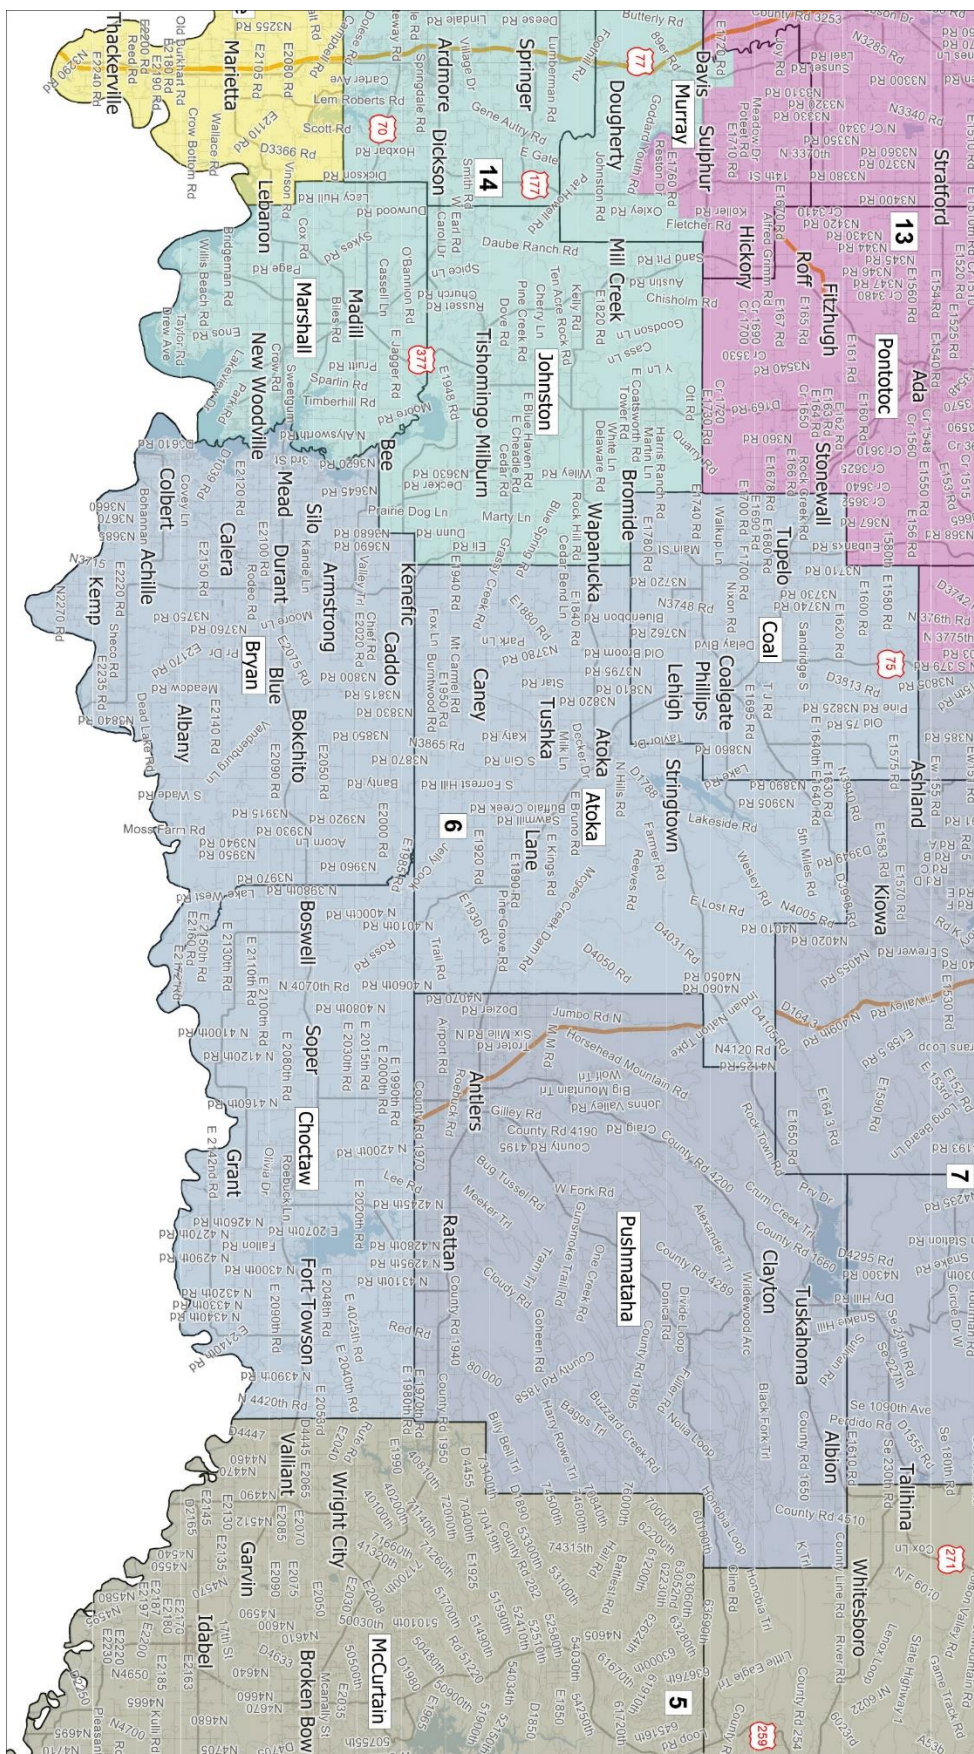

Part American Indian – 21.50%

Hispanic Origin – 5.17%

Non-Hispanic White – 68.93%

PUBLIC COMMENT

At the Durant town hall heard from a citizen who requested that Bryan county remain whole in the State Senate

SENATE DISTRICT 7

AREA AND POPULATION

District encompasses Haskell, Hughes, Latimer, Pittsburg, and Pushmataha counties

Total Population – 82,393 (ideal 81,935) +0.56 percent deviation

Percent new people – 13.51%

Represents - 100% of Haskell, Latimer, Pittsburg, and Pushmataha counties, and 30.54% of Hughes County

Senate District 7 is the 29th most compact district in the State (old map was 26th most compact)

Area – 4,615 square miles – Under old map area was 3,541 square miles

Perimeter – 425.69 miles – Under old map perimeter was 361.12 miles

DEMOGRAPHICS

Part Black – 3.48%

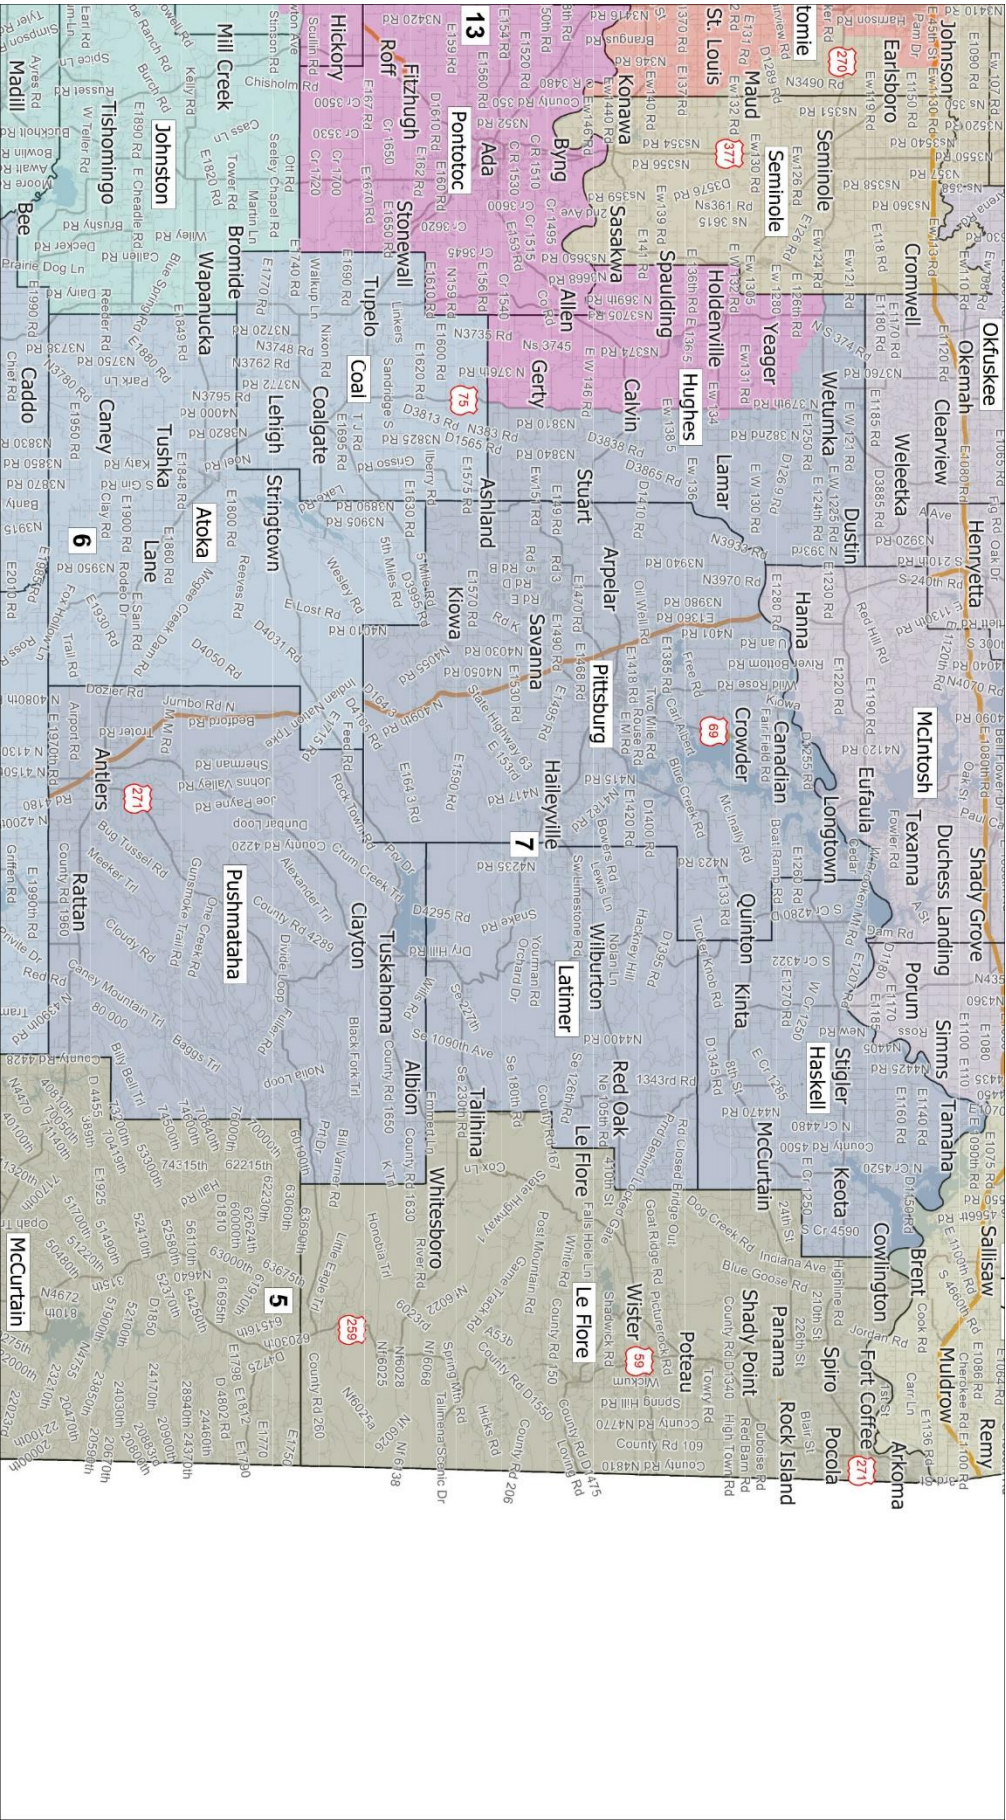

Part American Indian – 23.96%

SENATE DISTRICT 10

AREA AND POPULATION

District encompasses Kay, Osage, and Tulsa counties

Total Population – 81,458 (ideal 81,935) -0.58 percent deviation

Percent new people – 9.61%

Represents - 75.06% of Kay County, 85.33% of Osage County and 1.21% of Tulsa County

Senate District 10 is the 31st most compact district in the State (old map was 17th most compact)

Area – 2,920 square miles – Under old map area was 3,060 square miles

Perimeter – 324.52 miles – Under old map perimeter was 311.59 miles

DEMOGRAPHICS

Part Black – 3.21%

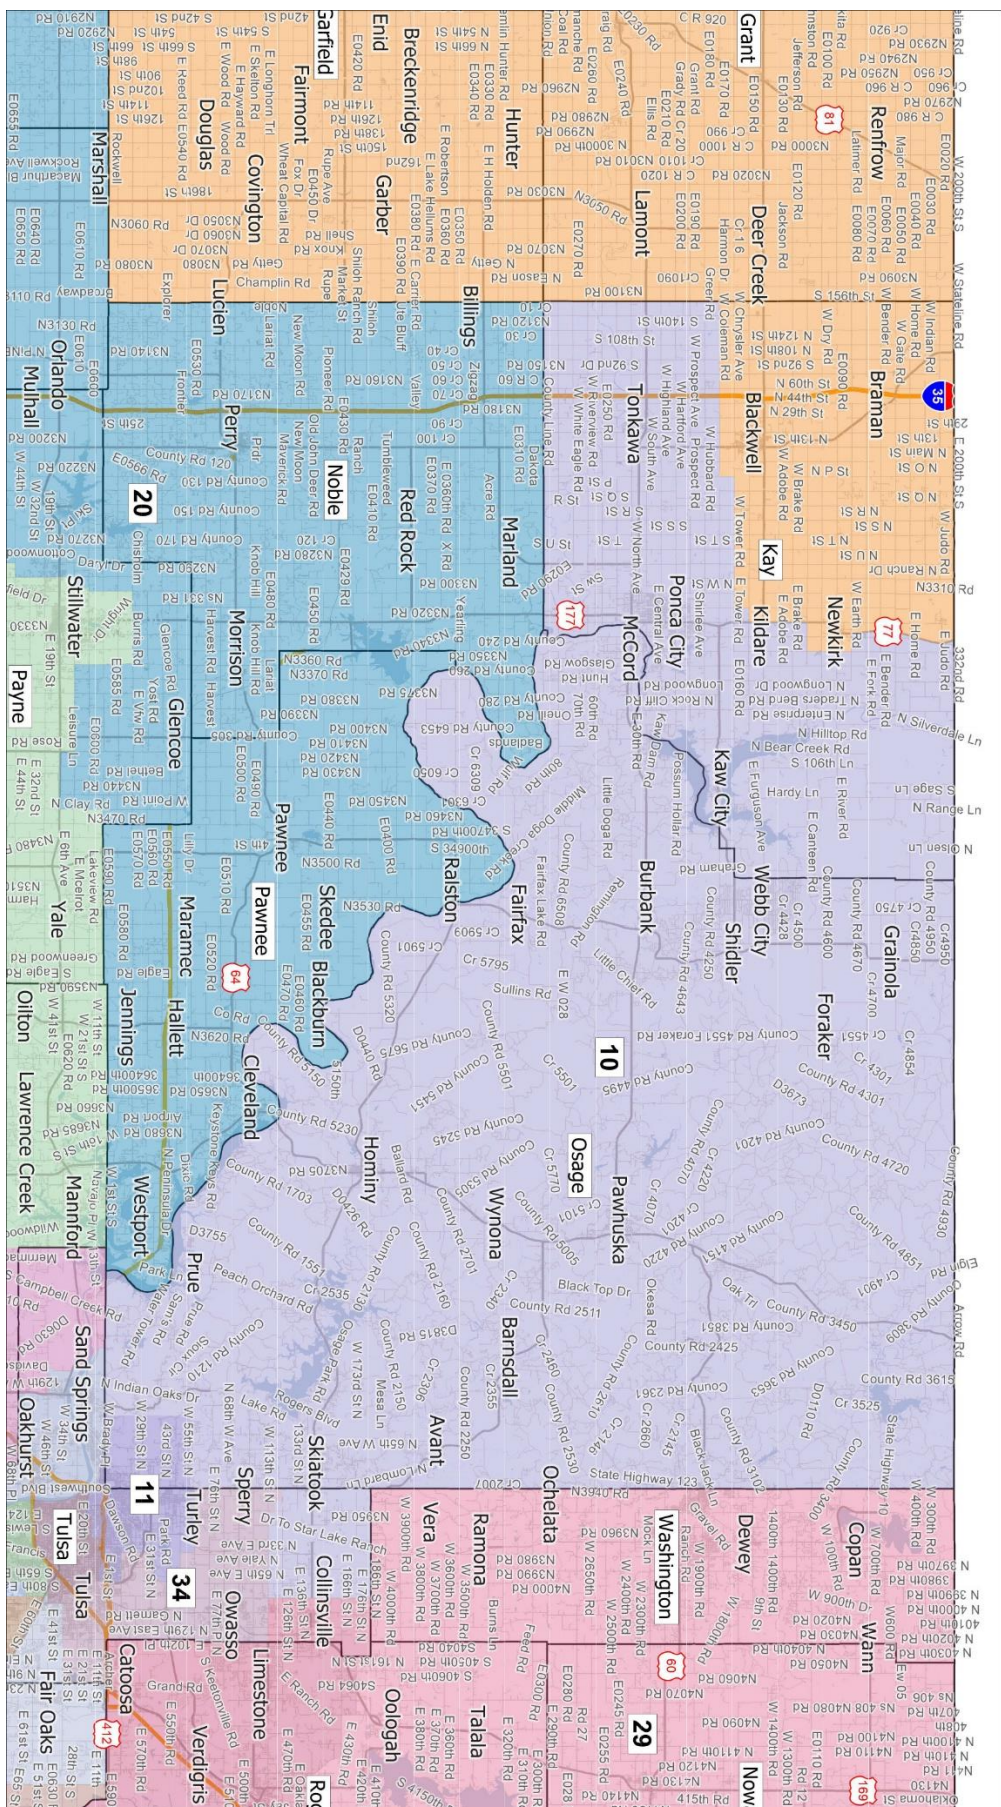

Part American Indian – 20.42%

Hispanic Origin – 5.69%

Non-Hispanic White – 71.58%

PUBLIC COMMENT

- As someone who has lived in Osage county pretty well my entire life I feel that district 10 should focus more on the smaller more rural communities it previously represented. With the addition of Ponca City and other parts of Kay County we have been redistricted to the point of being represented by senators who are primarily from Ponca City.

SENATE DISTRICT 11

AREA AND POPULATION

District encompasses Osage and Tulsa counties

Total Population – 83,179 (ideal 81,935) +1.52 percent deviation

Percent new people – 9.25%

Represents - 14.67% of Osage County and 11.80% of Tulsa County

Senate District 11 is the 7th most compact district in the State (old map was 7th most compact)

Area – 66 square miles – Under old map area was 65 square miles

Perimeter – 42.37 miles – Under old map perimeter was 40.75 miles

DEMOGRAPHICS

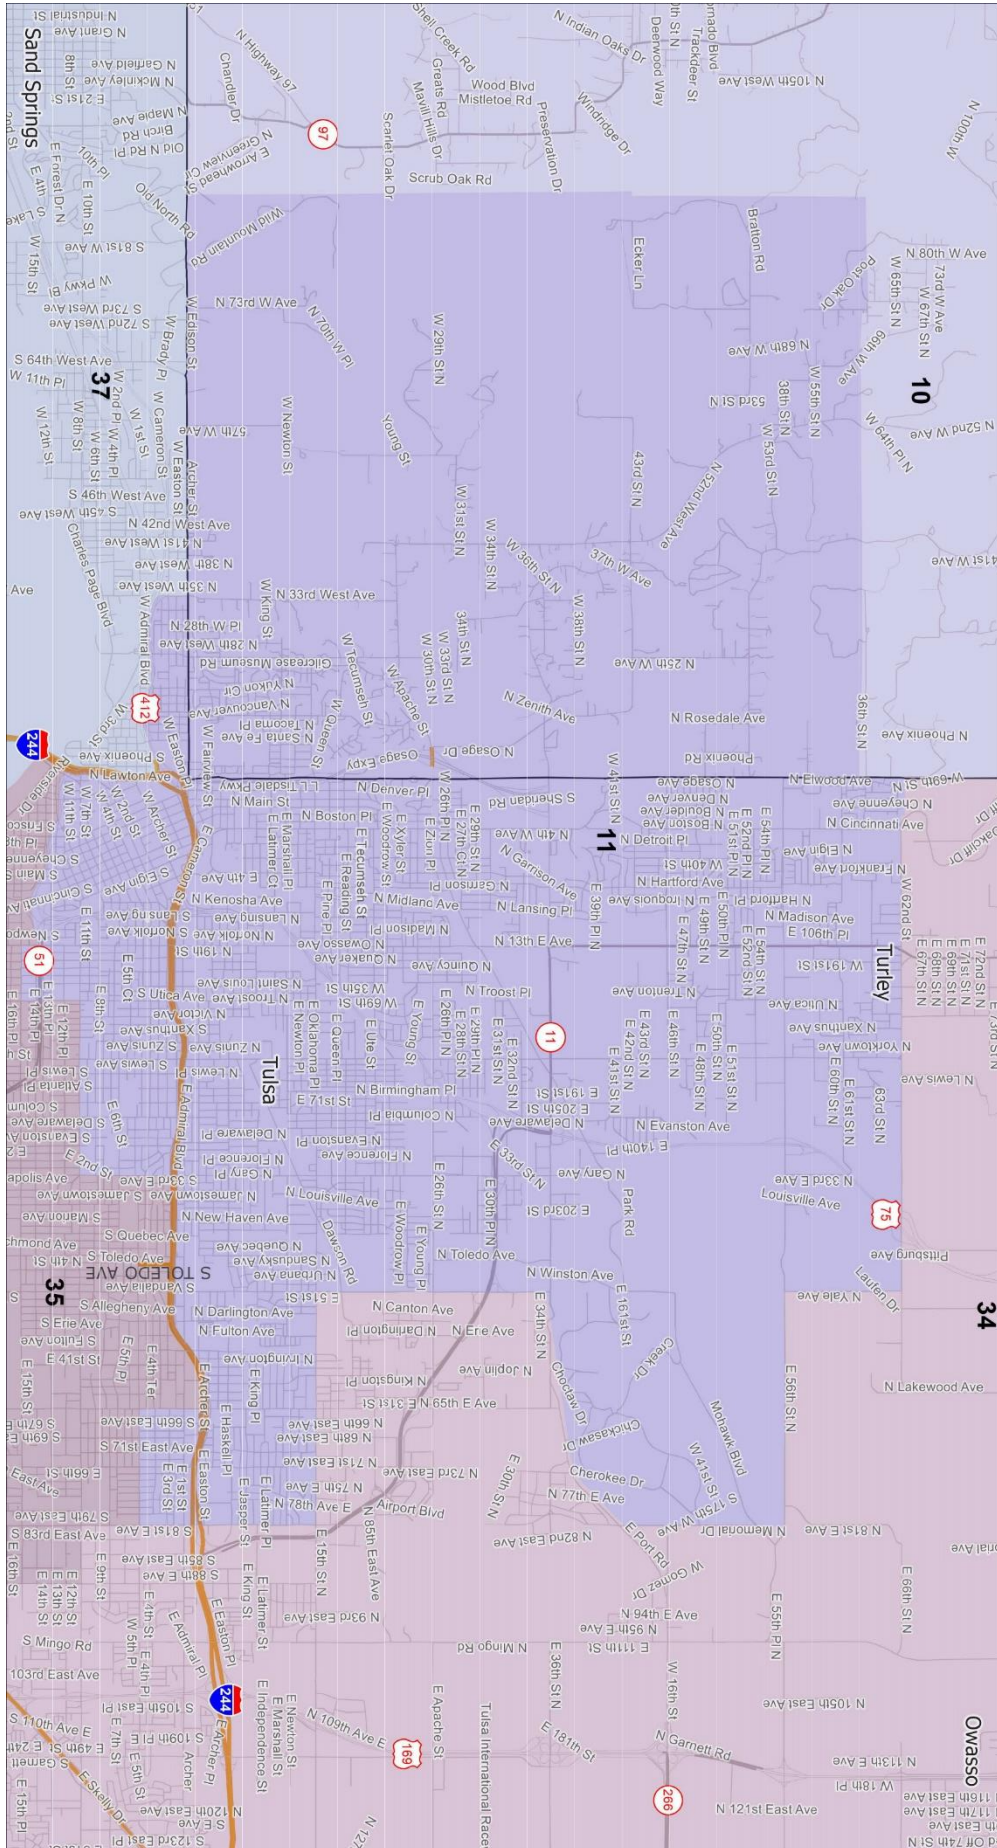

Part Black – 40.22%

Part American Indian – 11.62%

Hispanic Origin – 20.34%

Non-Hispanic White – 30.85%

PUBLIC COMMENT

SENATE DISTRICT 12

AREA AND POPULATION

District encompasses Creek and Tulsa counties

Total Population – 83,031 (ideal 81,935) +1.34 percent deviation

Percent new people – 17.64%

Represents - 86.33% of Creek County and 3.31% of Tulsa County

Senate District 12 is the 10th most compact district in the State (old map was 10th most compact)

Area – 830 square miles – Under old map area was 995 square miles

Perimeter – 154.82 miles – Under old map perimeter was 150.74 miles

DEMOGRAPHICS

Part Black – 3.45%

PUBLIC COMMENT

Letter from Oklahoma City Chamber attached

March 30, 2021

Oklahoma Senate Redistricting Committee
2300 N. Lincoln Blvd.,
Oklahoma City, OK 73105

Subject: Additional Oklahoma Senate Seat in Oklahoma City Metro Area

On behalf of the Greater Oklahoma City Chamber, an economic development organization with more than 3,500 members, I am writing to express our organization's stance that the dynamic population and economic growth within our region merits the creation of a new Oklahoma City area district/seat within the Oklahoma Senate.

While population growth has been experienced in many areas of our region in recent years, I would like to highlight one specific area: the western portions of Oklahoma City located within Oklahoma and Canadian Counties. For example, between 2010-2019 Canadian County had the highest growth in the state at 28.4%. With 58,475 residents, Oklahoma City is the largest community in that county and experienced three times as much growth there in the past decade as in Oklahoma or Cleveland Counties. This area includes one of the state's five largest school districts, Mustang, and tremendous ongoing residential development. This area also represents a tremendous opportunity for future economic growth, given its prime location for business location and expansion.

Additionally, there is a strong private sector presence in this area of Oklahoma City given the impressive growth along the John Kilpatrick Turnpike (JKT) corridor that has only accelerated in the past decade. To take one example, in 2011 Paycom moved into a new 90,000 square foot office building located off the JKT. By 2020, Paycom's headquarters had grown to 500,000 square feet and the company employed an estimated 5,000. Many of these employees live and work in this area as contributors to continued growth.

These examples are just a snapshot of a growing region that boasts the 25th largest city in the United States, and the state's largest single site employer at Tinker Air Force Base with over 26,000 employees. Our region continues to make tremendous strides in key industries such as aerospace, back-office firms, and distribution.

As you continue your critical work to properly balance political representation across the state, the Chamber would like to take this opportunity to respectfully emphasize our belief that the addition of a new Oklahoma Senate member from the Oklahoma City metro is warranted and equitable given the successes highlighted above and ongoing potential for growth. Thank you for your tremendous efforts on behalf of Oklahomans.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roy Williams".

Roy Williams
President/CEO

SENATE DISTRICT 19

AREA AND POPULATION

District encompasses Alfalfa, Garfield, Grant, and Kay counties

Total Population – 83,214 (ideal 81,935) +1.56 percent deviation

Percent new people – 3.94%

Represents – 100% of Alfalfa, Garfield, and Grant counties 24.94% of Kay County

Senate District 19 is the 11th most compact district in the State (old map was 9th most compact)

Area – 3,294 square miles – Under old map area was 3,105 square miles

PUBLIC COMMENT

- Please draw the Gatewood neighborhood in Oklahoma City in one Senate district. I believe it meets the "community of interest" standard and should not be split between two Senate districts like it was after the 2010 Census. The Gatewood neighborhood currently has one state representative (House District 88) and two state senators (Senate District 40 and 46).
- One of the things I love most about where I live is the diverse group of people who all call the Gatewood district home — young couples new to the area and older residents who have lived in our neighborhood for decades. We have all worked together to improve our neighborhood, the nearby Plaza District and urban Oklahoma City as a whole. And there is a lot to be collectively excited about....

PUBLIC COMMENT

- I would be in favor of having 2 Senators representing Lawton and the surrounding area. This would give constituents an opportunity to reach out and voice concerns to both, hopefully improving opportunities and growth in their communities. I ask that you consider my request and thank you in advance.
- We are very much in support of having more than one senator represent the Lawton Fort Sill community. Much growth is anticipated in the coming years through both the community at large and missions at Fort Sill. Having multiple representatives for our area will be crucial to the success of our community and its ability to contribute to the State's economy.
- Do you have any specific plans for the Southwest region when it concerns redistricting? Specifically, is there a plan to redraw Senate District 31 to put Lawton in one senate seat, given that Lawton is losing population?

Oklahoma State Senate

Oklahoma Senate Redistricting Committee

One of the most important issues Oklahoma lawmakers face this year is redrawing the state's congressional and legislative districts for the next decade.

Oklahoma has seen nominal population growth of just over 5% in the past decade. We realize the redistricting process will have to consider a trend of population loss in rural areas and growth in urban areas.

The redistricting process has particularly important consequences for our area. One of those is the possibility of losing one of the two Senators representing our area.

The Duncan Chamber of Commerce whole heartedly supports the current Senate representation. Two State Senators represent our South-Central Counties providing our communities and businesses the unique opportunity to have their rural voices heard and doubly advocated.

We consider ourselves fortunate to have Senator Chris Kidd and Senator Jessica Garvin represent us. We ask as the Oklahoma Senate Redistricting Committee reapportions this year; you allow us to continue being served by these two Senators.

Sincerely,

Chris Deal

LAWTON ★ FORT SILL

CHAMBER OF COMMERCE

March 25, 2021

To: Oklahoma Senate Redistricting Committee

The Lawton Fort Sill community is primed for growth and expanded contribution to the state economy. We believe strongly that our community merits more than one senate representative. Please consider the following driving economic features:

The centerpiece of our local economy is the FIRES Center of Excellence located at Fort Sill. It is estimated that Fort Sill's economic impact to the state is almost \$2 Billion per year. Importantly, housed at Fort Sill are two Cross Functional Teams (CFT's). These CFT's are Long Range Precision Fires and Air and Missile Defense. They represent the number one and number five modernization priorities in the entire US Army. Needless to say, tremendous resources are being devoted to these modernization priorities. The FIRES Innovation Science and Technology Accelerator (FISTA) was recently developed to provide off base support to the CFT's on Fort Sill. We believe this to be a tremendous growth opportunity.

Also, very important to our local and state economies is the flagship Goodyear Tire and Rubber plant located in our west side industrial park. This plant is the largest Goodyear Tire and Rubber manufacturing facility in the world and produces over 50,000 tires per day at full capacity.

Lastly, voters in our area recently approved a ten-year Capital Improvement Plan that will fund exciting enhancement projects throughout our community for years to come.

The above list is a small sampling of the exciting features in our community. Other very important contributors include Cameron University and the Wichita Mountains Wildlife Refuge, among others.

Given these features and many others, it is our belief that it would simply be inequitable for our community to be represented by less than two Senators.

Thank you all for your leadership and service to our great state.

Sincerely,

Mark E Scott

To the Senate Redistricting Committee:

As the critical work of redistricting progresses, I want to be sure that you have information concerning the city of Lawton Fort Sill's anticipated growth. The city is poised for growth. Many of the measures that we have taken are already engendering progress. Based upon the growth anticipated, we respectfully request that the committee increase the senate representation for our City Limits.

In February of 2020, our citizens passed a record CIP with a long-term plan to reinvent our community. We are executing a plan that will transform Lawton Fort Sill into a community of choice for young families. Much of the CIP was for quality of life amenities such as, a record Parks & Recreation plan, investments in a Youth and Family Committee and a state-of-the-art indoor sports facility. We made a record investment in industrial development that has set us apart from other state communities. This, along with the most comprehensive industrial TIF in the state, will help us fund industrial development for years to come.

In speaking with mayors across the state, we are in an enviable position. We can offer incentives and develop the necessary infrastructure needed to recruit industry. We can accomplish this with a simple vote of the city council – instead of going to a community vote. As you can see, this is an important factor, as it shortens the timeline to “yes” for any industry seeking a new location.

Additionally, the new Army Futures Command has located two of its eight cross functional teams (CFTs) at Fort Sill (Fires Center of Excellence). These teams are responsible for taking the United States Army to the future. Significantly, we have the Long Range Precision Fires CFT (the Army's number one priority) and the Air and Missile Defense CFT (the Army's number five priority).

Our purchase of the local mall has given us an abundance of space to grow the “high-tech” capabilities needed to support the CFTs. Our Fires Innovation Science and Technology Accelerator (FISTA) Park will provide the research and development (R&D) and science and technology (S&T) needed to ensure our CFTs are a great success. Much needed high tech capabilities, like Cyber Electromagnetic Activity (CEMA) Artificial Intelligence (AI), are already on the ground. More than 10 companies are planning to move into the FISTA as I write this missive. Additionally, a partnership has been established between the OU Engineering Department and our local Cameron University to offer engineering degrees locally to help us fill companies' engineering needs.
