The practitioner shall include a note in the medical record of the patient that the patient or the parent or guardian of the patient, as applicable, has discussed with the practitioner the risks of developing a physical or psychological dependence on the controlled dangerous substance and alternative treatments that may be available. The applicable state licensing board of the practitioner shall develop and make available to practitioners guidelines for the discussion required pursuant to this subsection.

3. Periodically make reasonable efforts, unless clinically contraindicated, to either stop the use of the controlled substance, decrease the dosage, try other drugs or treatment modalities in an effort to reduce the potential for abuse or the development of an opioid use disorder as defined by the American Psychiatric Association and document with specificity the efforts undertaken;

If the electronic tracking service is not able to record the identification type and identification number of the purchaser, the licensed pharmacist or a registered pharmacy technician shall write the identification type and number on the order. The electronic record shall also be maintained in a manner that allows for the determination of the equivalent number of packages purchased and total quantity of base ephedrine or pseudoephedrine purchased.

B. By January 1, 2013, each pharmacy in this state shall have in place and operational all equipment necessary to access and use a real-time electronic methamphetamine precursor tracking service which is approved by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control. Pharmacies shall be permitted to access only the information that is submitted by the pharmacy and such access shall be available free of charge. The electronic methamphetamine precursor tracking service shall be self-sustaining and shall not require the use of any public funds in the form of state or federal fees or taxes, to create, deploy, or operate. The tracking service shall operate and communicate in real-time throughout the state and across state lines with similar multistate systems. The tracking service shall be capable of tracking all required information and generating a stop-sale alert to notify a pharmacy that an attempted purchase by a person of pseudoephedrine or ephedrine exceeds the quantity limits set forth in Section 2-212 of Title 63 of the Oklahoma Statutes. The tracking service shall have the capability of stopping an illegal purchase in real-time and shall contain an override function that allows a pharmacy to complete a sale in violation of this section if the circumstances require that such sale be completed. The tracking service shall be in real time and track all override sales made by the pharmacy. The Bureau shall select a vendor that meets the requirements specified in this section by no later than October 1, 2012.

C. Beginning January 1, 2013, before completing the sale of an over-the-counter product containing pseudoephedrine or ephedrine, a pharmacy shall electronically submit the required information to the electronic methamphetamine precursor tracking service. The pharmacy shall not complete the sale of the product if the electronic methamphetamine precursor tracking service generates a stop-sale alert.

D. Absent intentional violation of this act, any pharmacy utilizing the electronic methamphetamine precursor tracking service in accordance with this section shall not be civilly liable as a result of any act or omission in carrying out the duties required by this section. Such pharmacies shall also be immune from liability to any third party unless the pharmacy has violated a provision of this section in relation to a claim brought for such violation. The provisions of this section shall not apply to a person who obtains the product or products pursuant to a valid prescription.

E. The information entered, stored and maintained by the electronic methamphetamine precursor tracking service shall be confidential and shall only be accessed by law enforcement officials, health care professionals and licensed pharmacists for the purpose of controlling the sale of methamphetamine precursors.

F. If a pharmacy selling an over-the-counter product containing pseudoephedrine or ephedrine experiences mechanical or electronic failure of the electronic tracking service and is unable to comply with the provisions of this section, the pharmacy shall maintain a

written log until such time as the pharmacy is able to comply with the electronic tracking service requirements.

G. A pharmacy selling an over-the-counter product containing pseudoephedrine or ephedrine may seek an exemption from submitting transactions to the electronic tracking service in writing to the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control stating the reasons for such exemption. The Bureau may grant an exemption for good cause, but in no event shall such exemption exceed one hundred eighty (180) days. Any pharmacy that receives an exemption shall maintain a hard-copy logbook and shall require the purchaser to provide the information required pursuant to subsection A of this section before completion of any sale. The logbook shall be maintained as a record of each sale for inspection by any law enforcement official during normal business hours.

H. B. For a plaintiff, the statute of limitations under this section is tolled when the individual potential plaintiff is incapacitated by the use of an illegal drug to the extent that the individual cannot reasonably be expected to seek recovery under this act or as otherwise provided for by law. For a defendant, the statute of limitations under this section is tolled until six (6) months after the individual potential defendant is convicted of a criminal drug offense as otherwise provided for by law.

A. Any peace officer of this state shall seize the following property:

1. Any property described in subsection A of Section 2-503 of this title. Such property shall be held as evidence until a forfeiture has been declared or release ordered, except for property described in paragraphs 1, 2 and 3 of subsection A of Section 2-503 of this title, or in the case of money, coins, and currency, deposited as provided in subsection E of Section 2-503 of this title; provided, any money, coins and currency taken or detained pursuant to this section may be deposited in an interest-bearing account by or at the direction of the district attorney in the office of the county treasurer if the district attorney determines the currency is not to be held as evidence. All interest earned on such monies shall be returned to the claimant or forfeited with the money, coins and currency which was taken or detained as provided by law;

2. Any property described in subsection B of Section 2-503 of this title; or

3. Any property described in subsection C of Section 2-503 of this title.

B. Notice of seizure and intended forfeiture proceeding shall be filed in the office of the clerk of the district court for the county wherein such property is seized and shall be given all owners and parties in interest. Notwithstanding any other provision of law, no filing fees shall be assessed by the court clerk for the filing of any forfeiture action.

C. Notice shall be given by the agency seeking forfeiture according to one of the following methods:

1. Upon each owner or party in interest whose right, title or interest is of record in the Tax Commission, by mailing a copy of the notice by certified mail to the address as given upon the records of the Tax Commission;

2. Upon each owner or party in interest whose name and address is known to the attorney in the office of the agency prosecuting the action to recover unpaid fines, by mailing a copy of the notice by registered mail to the last-known address; or

3. Upon all other owners or interested parties, whose addresses are unknown, but who are believed to have an interest in the property, by one publication in a newspaper of general circulation in the county where the seizure was made.

D. Within forty-five (45) days after the mailing or publication of the notice, the owner of the property and any other party in interest or claimant may file a verified answer and claim to the property described in the notice of seizure and of the intended forfeiture proceeding.

E. If at the end of forty-five (45) days after the notice has been mailed or published there is no verified answer on file, the court shall hear evidence upon the fact of the unlawful use and shall order the property forfeited to the state, if such fact is proved. Except as otherwise provided for in Section 2-503 of this title, any such property shall be forfeited to the state and sold under judgment of the court pursuant to the provisions of Section 2-508 of this title.

F. If a verified answer is filed, the forfeiture proceeding shall be set for hearing.

G. At a hearing in a proceeding against property described in paragraphs 3 through 9 of subsection A or subsections B and C of Section 2-503 of this title, the requirements set forth in said paragraph or subsection, respectively, shall be satisfied by the state by a preponderance of the evidence.

H. The claimant of any right, title, or interest in the property may prove a lien, mortgage, or conditional sales contract to be a bona fide or innocent ownership interest and that such right, title, or interest was created without any knowledge or reason to believe that the property was being, or was to be, used for the purpose charged.

I. In the event of such proof, the court shall order the property released to the bona fide or innocent owner, lien holder, mortgagee or vendor if the amount due him is equal to, or in excess of, the value of the property as of the date of the seizure, it being the intention of this section to forfeit only the right, title or interest of the purchaser.

J. If the amount due to such person is less than the value of the property, or if no bona fide claim is established, the property shall be forfeited to the state and sold under judgment of the court, as provided for in Section 2-508 of this title, except as otherwise provided for in Section 2-503 of this title.

K. Property taken or detained under this section shall not be repleviable, but shall be deemed to be in the custody of the office of the district attorney of the county wherein the property was seized, subject only to the orders and decrees of the court or the official having jurisdiction thereof; said official shall maintain a true and accurate inventory and record of all such property seized under the provisions of this section. The provisions of this subsection shall not apply to property taken or detained by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections or the Office of the Attorney General. Property taken or detained by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections or the Office of the Attorney General shall be subject to the provisions of subsections E and F of Section 2-503 of this title.

L. The proceeds of the sale of any property not taken or detained by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections or the Office of the Attorney General shall be distributed as follows, in the order indicated:

1. To the bona fide or innocent purchaser, conditional sales vendor or mortgagee of the property, if any, up to the amount of his or her interest in the property, when the court declaring the forfeiture orders a distribution to such person;

2. To the payment of the actual expenses of preserving the property and legitimate costs related to the civil forfeiture proceedings. For purposes of this paragraph, the term "legitimate costs" shall not include court costs associated with any civil forfeiture proceeding; and

3. The balance to a revolving fund in the office of the county treasurer of the county wherein the property was seized, said fund to be used as a revolving fund solely for enforcement of controlled dangerous substances laws, drug abuse prevention and drug abuse education, and maintained by the district attorney in his or her discretion for those purposes with a yearly accounting to the board of county commissioners in whose county the fund is established and to the District Attorneys Council; provided, one hundred percent

(100%) of the balance of the proceeds of such sale of property forfeited due to nonpayment of a fine imposed pursuant to the provisions of Section 2-415 of this title shall be apportioned as provided in Section 2-416 of this title. The revolving fund shall be audited by the State Auditor and Inspector at least every two (2) years in the manner provided in Section 171 of Title 19 of the Oklahoma Statutes. Said audit shall include, but not be limited to, a compliance audit. A district attorney may enter into agreements with municipal, tribal, county or state agencies to return to such an agency a percentage of proceeds of the sale of any property seized by the agency and forfeited under the provisions of this section. The District Attorneys Council shall adopt guidelines which ensure that such agencies receive a reasonable percentage of such proceeds, considering the relative contribution of each agency to the drug enforcement and prosecution operations relating to the seizure. In formulating said guidelines, the District Attorneys Council shall examine federal guidelines on asset distribution and use said guidelines as a basis for establishing guidelines for this state. The Attorney General is hereby authorized to mediate disputes between district attorneys and such agencies concerning the application of said guidelines in particular instances. Any agency that receives proceeds from an asset distribution shall maintain a true and accurate record of all such assets.

M. Whenever any vehicle, airplane or vessel is forfeited under the Uniform Controlled Dangerous Substances Act, the district court of jurisdiction may order that the vehicle, airplane or vessel seized may be retained by the state, county or city law enforcement agency which seized the vehicle, airplane or vessel for its official use.

N. If the court finds that the state failed to satisfy the required showing provided for in subsection G of this section, the court shall order the property released to the owner or owners.

O. Except as provided for in subsection Q of this section, a bona fide or innocent owner, lien holder, mortgagee or vendor that recovers property pursuant to this section shall not be liable for storage fees.

P. Except as provided for in subsection Q of this section, storage fees shall be paid by the agency which is processing the seizure and forfeiture from funds generated by seizure and forfeiture actions.

Q. The bona fide or innocent owner, lien holder, mortgagee or vendor shall reclaim subject seized property within thirty (30) days of written notice from the seizing agency. If such person fails to reclaim the property within the thirty-day time period, then storage fees may be assessed against their secured interest.

R. 1. At any hearing held relevant to this section, a report of the findings of the laboratory of the Oklahoma State Bureau of Investigation, the medical examiner's report of investigation or

autopsy report, or a laboratory report from a forensic laboratory operated by the State of Oklahoma or any political subdivision thereof, which has been made available to the accused by the office of the district attorney or other party to the forfeiture at least five (5) days prior to the hearing, with reference to all or part of the evidence submitted, when certified as correct by the persons making the report shall be received as evidence of the facts and findings stated, if relevant and otherwise admissible in evidence. If such report is deemed relevant by the forfeiture applicant or the respondent, the court shall admit such report without the testimony of the person making the report, unless the court, pursuant to this subsection, orders such person to appear.

2. When any alleged controlled dangerous substance has been submitted to the laboratory of the OSBI for analysis, and such analysis shows that the submitted material is a controlled dangerous substance, the distribution of which constitutes a felony under the laws of this state, no portion of such substance shall be released to any other person or laboratory except to the criminal justice agency originally submitting the substance to the OSBI for analysis, absent an order of a district court. The defendant shall additionally be required to submit to the court a procedure for transfer and analysis of the subject material to ensure the integrity of the sample and to prevent the material from being used in any illegal manner.

3. The court, upon motion of either party, shall order the attendance of any person preparing a report submitted as evidence in the hearing when it appears there is a substantial likelihood that material evidence not contained in said report may be produced by the testimony of any person having prepared a report. The hearing shall be held and, if sustained, an order issued not less than five (5) days prior to the time when the testimony shall be required.

4. If within five (5) days prior to the hearing or during a hearing, a motion is made pursuant to this section requiring a person having prepared a report to testify, the court may hear a report or other evidence but shall continue the hearing until such time notice of the motion and hearing is given to the person making the report, the motion is heard, and, if sustained, the testimony ordered can be given.

5. In any forfeiture proceeding under this chapter in which the defendant or claimant prevails, the court may order the plaintiff processing the seizure and forfeiture to pay from funds generated by seizure and forfeiture actions:

1. Reasonable attorney fees and other litigation costs reasonably incurred by the defendant or claimant directly related to the claim on which the defendant or claimant prevailed;
2. Postjudgment interest; and
3. In cases involving currency or other negotiable instruments:

- a. interest actually paid to the state from the date of seizure or arrest of the property that resulted from the investment of the property in an interest-bearing account or instrument, and
- b. an imputed amount of interest that such currency, instruments, or proceeds would have earned at the rate applicable to the thirty-day Treasury Bill, for any period during which no interest was paid, not including any period when the property reasonably was in use as evidence in an official proceeding or in conducting scientific tests for the purpose of collecting evidence, commencing fifteen (15) days after the property was seized by a law enforcement agency or was turned over to a law enforcement agency by a federal law enforcement authority.

§63-2-507. Itemization and submission for destruction.

Any peace officer of this state seizing any of the property described in paragraphs 1 and 2 of subsection A of Section 2-503 of this title shall cause a written inventory to be made and maintain custody of the same until all legal actions have been exhausted unless such property has been placed in lawful custody of a court or state or federal law enforcement agency or unless otherwise provided by law. After all legal actions have been exhausted with respect to such property, the property shall be surrendered by the court, law enforcement agency or person having custody of the same to the Oklahoma State Bureau of Investigation to be destroyed as provided in Section 2-508 of this title. §63-2-508. Disposition of seized property.

A. Except as otherwise provided, all property described in paragraphs 1 and 2 of subsection A of Section 2-503 of this title which is seized or surrendered pursuant to the provisions of the Uniform Controlled Dangerous Substances Act shall be destroyed. The destruction shall be done by or at the direction of the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control (OSBNDD), who shall have the discretion prior to destruction to preserve samples of the substance for testing. In any county with a population of four hundred thousand (400,000) or more according to the latest Federal Decennial Census, there shall be a located site, approved by the OSBNDD, for the destruction of the property. Any such property submitted to the OSBNDD which it deems to be of use for investigative training, educational, or analytical purposes may be retained by the OSBNDD in lieu of destruction.

B. 1. With respect to controlled dangerous substances seized or surrendered pursuant to the provisions of the Uniform Controlled Dangerous Substances Act, municipal police departments, sheriffs, the Oklahoma Bureau of Narcotics and Dangerous Drugs Control Commission, the Oklahoma Highway Patrol, and the Oklahoma State Bureau of Investigation shall have the authority to destroy seized controlled dangerous substances when the amount seized in a single incident exceeds ten (10) pounds. The destroying agency shall:

- a. photograph the seized substance with identifying case numbers or other means of identification,
- b. prepare a report describing the seized substance prior to the destruction,
- c. retain at least one (1) pound of the substance randomly selected from the seized substance for the purpose of evidence, and
- d. obtain and retain samples of the substance from enough containers, bales, bricks, or other units of substance seized to establish the presence of a weight of the substance necessary to establish a violation of the Trafficking in Illegal Drugs Act pursuant to subsection C of Section 2-415 of this title, if such a weight is present. If such weight is not present, samples of the substance from each container, bale, brick or other unit of substance seized shall be taken. Each sample taken pursuant to this section shall be large enough for the destroying agency and the defendant or suspect

to have an independent test performed on the substance for purposes of identification.

2. If a defendant or suspect is known to the destroying agency, the destroying agency shall give at least seven (7) days' written notice to the defendant, suspect or counsel for the defendant or suspect of:

- a. the date, the time, and the place where the photographing will take place and notice of the right to attend the photographing, and
- b. the right to obtain samples of the controlled dangerous substance for independent testing and use as evidence.

3. The written notice shall also inform the defendant, suspect or counsel for the defendant or suspect that the destroying agency must be notified in writing within seven (7) days from receipt of the notice of the intent of the suspect or defendant to obtain random samples and make arrangements for the taking of samples. The samples for the defendant or suspect must be taken by a person licensed by the Drug Enforcement Administration. If the defendant or counsel for the defendant fails to notify the destroying agency in writing of an intent to obtain samples and fails to make arrangements for the taking of samples, a sample taken pursuant to subparagraph d of paragraph 1 of this subsection shall be made available upon request of the defendant or suspect.

The representative samples, the photographs, the reports, and the records made under this section and properly identified shall be admissible in any court or administrative proceeding for any purposes for which the seized substance itself would have been admissible.

C. All other property not otherwise provided for in the Uniform Controlled Dangerous Substances Act which has come into the possession of the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections, the Office of the Attorney General, or a district attorney may be disposed of by order of the district court when no longer needed in connection with any litigation. If the owner of the property is unknown to the agency or district attorney, the agency or district attorney shall hold the property for at least six (6) months prior to filing a petition for disposal with the district court except for laboratory equipment which may be forfeited when no longer needed in connection with litigation, unless the property is perishable. The Director or Commissioner of the agency, the Attorney General, or district attorney shall file a petition in the district court of Oklahoma County or in the case of a district attorney, the petition shall be filed in a county within the jurisdiction of the district attorney requesting the authority to:

1. Conduct a sale of the property at a public auction or use an Internet auction, which may include online bidding; or
2. Convert title of the property to the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections, the Office of the Attorney General, or to the district attorney's office for the purposes provided for in subsection J, K or L of this section.

The Director, Commissioner, Attorney General or district attorney shall attach to the petition:

- a. a list describing the property, including all identifying numbers and marks, if any,
- b. the date the property came into the possession of the agency or district attorney, and
- c. the name and address of the owner, if known.

For any item having an apparent value in excess of One Hundred Dollars (\$100.00), but less than Five Hundred Dollars (\$500.00), the notice of the hearing of the petition for the sale of the property, except laboratory equipment used in the processing, manufacturing or compounding of controlled dangerous substances in violation of the provisions of the Uniform Controlled Dangerous Substances Act, shall be given to every known owner, as set forth in the petition, by first-class mail to the last-known address of the owner at least ten (10) days prior to the date of the hearing. An affidavit of notice being sent shall be filed with the court by a representative of the agency, the Director or Commissioner of the agency, the Attorney General or district attorney. For items in excess of Five Hundred Dollars (\$500.00), a notice of the hearing of the petition for the sale of said property shall be delivered to every known owner as set forth in the petition by certified mail. Notice of a hearing on a petition for forfeiture or sale of laboratory equipment used in the processing, manufacturing or compounding of controlled dangerous substances in violation of the Uniform Controlled Dangerous Substances Act shall not be required.

The notice shall contain a brief description of the property, and the location and date of the hearing. In addition, notice of the hearing shall be posted in three public places in the county, one such place being the county courthouse at the regular place assigned for the posting of legal notices. At the hearing, if no owner appears and establishes ownership of the property, the court may enter an order authorizing the Director, Commissioner, Attorney General, or district attorney to donate the property pursuant to subsection J, K or L of this section, to sell the property at a public auction, including an Internet auction, which may include online bidding, to the highest bidder, or to convert title of the property to the Oklahoma State Bureau of Narcotics and Dangerous

Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections, or the Office of the Attorney General for the purposes provided for in subsection J, K or L of this section after at least ten (10) days of notice has been given by publication in one issue of a legal newspaper of the county. If the property is offered for sale at public auction, including an Internet auction, and no bid is received that exceeds fifty percent (50%) of the value of the property, such value to be announced prior to the sale, the Director, Commissioner, Attorney General, or district attorney may refuse to sell the item pursuant to any bid received. The Director, Commissioner, Attorney General, or district attorney shall make a return of the sale and, when confirmed by the court, the order confirming the sale shall vest in the purchaser title to the property so purchased.

D. The money received from the sale of property by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control shall be used for general drug enforcement purposes. These funds shall be transferred to the Bureau of Narcotics Revolving Fund established pursuant to Section 2-107 of this title or in the case of a district attorney, the revolving fund provided for in paragraph 3 of subsection L of Section 2-506 of this title.

E. At the request of the Department of Public Safety, the district attorney or a designee of the district attorney may conduct any forfeiture proceedings as described in Section 2-503 of this title on any property subject to forfeiture as described in subsection A, B or C of Section 2-503 of this title. The money received from the sale of property by the Department of Public Safety shall be deposited in the Department of Public Safety Restricted Revolving Fund and shall be expended for law enforcement purposes.

F. The money received from the sale of property by the Alcoholic Beverage Laws Enforcement Commission shall be deposited in the General Revenue Fund of the state.

G. The money received from the sale of property from the Oklahoma State Bureau of Investigation shall be deposited in the OSBI Revolving Fund and shall be expended for law enforcement purposes.

H. The Director of the Department of Corrections shall make a return of the sale and when confirmed by the court, the order confirming the sale shall vest in the purchaser title to the property so purchased. Twenty-five percent (25%) of the money received from the sale shall be disbursed to a revolving fund in the office of the county treasurer of the county wherein the property was seized, said fund to be used as a revolving fund solely for enforcement of controlled dangerous substances laws, drug abuse prevention and drug abuse education. The remaining seventy-five percent (75%) shall be deposited in the Department of Corrections Revolving Fund to be

expended for equipment for probation and parole officers and correctional officers.

I. The money received from the sale of property from the Office of the Attorney General shall be deposited in the Attorney General Law Enforcement Revolving Fund and shall be expended for law enforcement purposes. The Office of the Attorney General may enter into agreements with municipal, county or state agencies to return to such an agency a percentage of proceeds of the sale of any property seized by the agency and forfeited under the provisions of this section.

J. Any property, including but not limited to uncontaminated laboratory equipment used in the processing, manufacturing or compounding of controlled dangerous substances in violation of the provisions of the Uniform Controlled Dangerous Substances Act, upon a court order, may be donated for classroom or laboratory use by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, Department of Public Safety, district attorney, the Alcoholic Beverage Laws Enforcement Commission, the Department of Corrections, or the Office of the Attorney General to any public secondary school or technology center school in this state or any institution of higher education within The Oklahoma State System of Higher Education.

K. Any vehicle or firearm which has come into the possession and title vested in the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Office of the Attorney General or a district attorney, may be transferred, donated or offered for lease to any sheriff's office, tribal law enforcement agency, campus police department pursuant to the provisions of the Oklahoma Campus Security Act, or police department in this state on an annual basis to assist with the enforcement of the provisions of the Uniform Controlled Dangerous Substances Act. Each agency shall promulgate rules, regulations and procedures for leasing vehicles and firearms. No fully automatic weapons will be subject to the leasing agreement. All firearms leased may be utilized only by C.L.E.E.T.-certified officers who have received training in the type and class of weapon leased. Every lessee shall be required to submit an annual report to the leasing agency stating the condition of all leased property. A lease agreement may be renewed annually at the option of the leasing agency. Upon termination of a lease agreement, the property shall be returned to the leasing agency for sale or other disposition. All funds derived from lease agreements or other disposition of property no longer useful to law enforcement shall be deposited in the agency's revolving fund, or in the case of the Department of Public Safety, the Department of Public Safety Restricted Revolving Fund, and shall be expended for law enforcement purposes.

L. Before disposing of any property pursuant to subsections C through I of this section, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety, the Alcoholic Beverage Laws Enforcement Commission, the Oklahoma State Bureau of Investigation, the Department of Corrections, the Office of the Attorney General, or a district attorney may transfer or donate the property to another state agency, tribal law enforcement agency, or school district for use upon request. In addition to the provisions of this section, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control may transfer or donate property for any purpose pursuant to Section 2-106.2 of this title. The agencies and any district attorney that are parties to any transfer of property pursuant to this subsection shall enter into written agreements to carry out any such transfer of property. Any such agreement may also provide for the granting of title to any property being transferred as the parties deem appropriate. If the transfer of property is to a school district, a written agreement shall be entered into with the superintendent of the school district. A. Schedule II, III, IV and V controlled dangerous drugs have useful and legitimate medical and scientific purposes and are necessary to maintain the health and general welfare of the people of this state.

B. The State of Oklahoma recognizes that principles of quality medical practice dictate that the people of the State of Oklahoma have access to appropriate and effective pain relief. The appropriate application of up-to-date knowledge and treatment modalities can serve to improve the quality of life for those patients who suffer from pain as well as to reduce the morbidity, and costs associated with untreated or inappropriately treated pain. The State of Oklahoma encourages physicians to view effective pain management as a part of quality medical practice for all patients with pain, acute or chronic. It is especially important for patients who experience pain as a result of terminal illness.

C. If, in the judgment of the medical doctor or the doctor of osteopathic medicine, appropriate pain management warrants a high dosage of controlled dangerous drugs and the benefit of the relief expected outweighs the risk of the high dosage, the medical doctor or doctor of osteopathic medicine may administer such a dosage, even if its use may increase the risk of death, so long as it is not also furnished for the purpose of causing, or the purpose of assisting in causing, death for any reason and so long as it falls within policies, guidelines and rules of the Oklahoma State Board of Medical Licensure and Supervision or the Oklahoma State Board of Osteopathic Examiners.

D. The Oklahoma State Board of Medical Licensure and Supervision and the Oklahoma State Board of Osteopathic Examiners shall issue policies, guidelines or rules that ensure that physicians who are engaged in the appropriate treatment of pain are not subject to disciplinary action, and the Boards shall consider policies and guidelines developed by national organizations with expertise in pain medicine or in a medical discipline for this purpose.

During the effective period of the temporary registration, the Board may waive certain requirements if the anatomical donor program or non-transplant tissue bank is making a good faith effort to rebuild and restore its operations in order to meet all registration requirements.

J. The Board may maintain an office or secure facilities as deemed necessary by the Board in order to implement the Anatomical Donor Program Registration Act.

K. The Board shall promulgate rules as necessary to implement the provisions of the Anatomical Donor Program Registration Act. Added by Laws 2012, c. 119, § 2, eff. Nov. 1, 2012.

Such penalty shall not exceed Five Thousand Dollars (\$5,000.00) for each violation. Each day of continuing violation may be deemed a separate violation for purposes of penalty assessments. In determining the amount of the penalty, consideration shall be given to the person's history of previous violations regarding explosives and blasting operation; the seriousness of the violation, including any irreparable harm to the environment and any hazard to the health or safety of the public; whether the person was negligent; and the demonstrated good faith of the person charged in attempting to achieve rapid compliance after notification of the violation.

B. C. Upon the issuance of a notice or order charging that a violation of the Oklahoma Explosives and Blasting Regulation Act has occurred, the Department shall inform the operator within thirty (30) days of the proposed amount of said penalty. The person charged with the penalty shall then have thirty (30) days to pay the proposed penalty in full or, if the person wishes to contest either the amount of the penalty or the fact of the violation, forward the proposed

amount to the Department for placement in an escrow account. If through administrative or judicial review of the proposed penalty, it is determined that no violation occurred, or that the amount of the penalty should be reduced, the Department shall within thirty (30) days remit the appropriate amount to the person.

D. Administrative penalties owed under the Oklahoma Explosives and Blasting Regulation Act may be recovered in a civil action brought by the Attorney General or any district attorney in the district in which the violation occurred at the request of the Department in the appropriate district court. Such action, also, may be brought by the Department.

E. Any person who willfully and knowingly violates a condition of a permit issued pursuant to this division or fails or refuses to comply with any order issued under this division, or any order incorporated in a final decision issued by the Department under this division, shall, upon conviction, be punished by a fine of not more than Ten Thousand Dollars (\$10,000.00) or by imprisonment for not more than one (1) year, or both.

G. Whoever knowingly makes any false statement, representation or certification, or knowingly fails to make any statement, representation or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this division or any order of decision issued by the Department under this division, shall, upon conviction, be punished by a fine of not more than Ten Thousand Dollars (\$10,000.00) or by imprisonment for not more than one (1) year, or both.

H. Any person who fails to correct a violation for which a citation has been issued within the period permitted for its correction shall be assessed an administrative penalty of not less than Seven Hundred Fifty Dollars (\$750.00) for each day during which such failure or violation continues.

The period permitted for corrections of violations shall not end until:

1. The entry of a final order by the Department after an expedited hearing which ordered the suspension of the abatement requirements of the citation because it was determined that the

person will suffer irreparable loss or damage from the application of the abatement requirements; or

2. The entry of an order by a court in any review proceedings initiated by the person in which the court orders the suspension of the abatement requirements.

I. Any person who shall, except as permitted by law, willfully resist, prevent, impede or interfere with the Department or any of the agents or employees thereof in the performance of duties pursuant to this division shall, upon conviction, be punished by a fine of not more than Five Thousand Dollars (\$5,000.00), or by imprisonment for not more than one (1) year, or both.

Each operator served with notice in accordance with subsection A of this section either directly or by notice to the notification center shall, prior to the date and time work is scheduled to begin, unless otherwise agreed to between the excavator and operator, locate and mark or otherwise provide the approximate location of the underground facilities of the operator in a manner as to enable the excavator to employ hand-dug test holes to determine the precise location of the underground facilities in advance of excavation. For the purpose of this act, the approximate location of the underground facilities shall be defined as a strip of land two (2) feet on either side of such underground facilities. Whenever an operator is served with notice of an excavation or demolition and determines that the operator does not have underground facilities located within the proposed area of excavation or demolition, the operator shall communicate this information to the excavator originating the notice prior to the commencement of such excavation or demolition.

C. The only exception to subsection A of this section shall be when an emergency exists that endangers life, health or property. Under these conditions, excavation operations may begin immediately, providing reasonable precautions are taken to protect underground facilities. All operators of underground facilities within the area of the emergency must be notified promptly when an emergency requires excavation prior to the location of the underground facilities being marked.

D. Every notice given by an excavator to an operator pursuant to this section or to the notification center pursuant to Section 142.3 of this title shall contain at least the following information:

of this title shall be given at least seven (7) business days' notice of the proposed demolition before the demolition work begins. Such notice shall be initiated by the notification center after the excavator has met local code requirements for a demolition permit. When an operator is served with notice and determines that underground facilities are within the proposed area of demolition and such facilities require additional protection, service removal or termination, the operator shall communicate this information to the excavator and by mutual agreement the operator and excavator shall determine a date to begin the demolition which shall not exceed sixty (60) business days from the original demolition notice. If a public agency determines that the structure endangers the public health or safety, then the public agency may, in the manner provided by law, order the immediate demolition of the structure.

C. Should damage occur that endangers life, health or property, the excavator responsible for the work shall keep all sources of ignition away from the damaged area and shall take immediate action to protect the public and property and to minimize the hazard until arrival of the operator's personnel or until the appropriate police or fire officials shall have arrived and taken charge of the damaged area.

Any excavator, except for a public agency who fails to comply with the Oklahoma Underground Facilities Damage Prevention Act and who damages an underground facility owned or operated by a nonprofit rural water corporation organized pursuant to Section 863 of Title 18 of the Oklahoma Statutes or a rural water district organized pursuant

to the Rural Water, Sewer, Gas, and Solid Waste Management Districts Act, shall be liable for the underground damage to and responsible for the repair of such facilities. Any new underground facilities installed on and after September 1, 1992, shall contain materials capable of being detected so that the facilities can be accurately located.

B. Any excavator who damages or cuts an underground facility, as a result of negligently failing to comply with the provisions of the Oklahoma Underground Facilities Damage Prevention Act or as a result of failing to take measures for the protection of an underground facility shall be liable to the operator of the underground facility for the repair of the damaged underground facility.

C. Except for public agencies, any excavator who by willful act or by reckless disregard of the rights of others, repeatedly violates the provisions of the Oklahoma Underground Facilities Damage Prevention Act and repeatedly damages underground facilities, thereby threatening the public health, safety, and welfare, may be enjoined by a court of competent jurisdiction from further excavation. 2. Develop and apply appropriate techniques, including examinations and investigations, for determining whether an individual meets such standards;

3. Issue licenses or certifications to individuals determined, after the application of such techniques, to meet such standards. The Board may deny an initial application, deny a renewal application, and revoke or suspend licenses or certifications previously issued by the Board in any case where the individual holding any such license or certification is determined substantially to have failed to conform to the requirements of such standards. The Board may also warn, censure, impose administrative fines or use other remedies that may be considered to be less than revocation and suspension. Administrative fines imposed pursuant to this section shall not exceed One Thousand Dollars (\$1,000.00) per violation. The Board shall consider the scope, severity and repetition of the violation and any additional factors deemed appropriate by the Board when issuing a fine;

Conduct a continuing study and investigation of long-term care facilities and administrators of long-term care facilities within the state with a view toward the improvement of the standards imposed for the licensing or certifying of such administrators and of procedures and methods for the enforcement of such standards with respect to administrators of long-term care facilities who have been licensed or certified;

9. Cooperate with and provide assistance when necessary to state regulatory agencies in investigations of complaints;

10. Develop a code of ethics for long-term care administrators which includes, but is not limited to, a statement that administrators have a fiduciary duty to the facility and cannot serve as guardian of the person or of the estate, or hold a durable power of attorney or power of attorney for any resident of a facility of which they are an administrator;

11. Report a final adverse action against a long-term care administrator to the Healthcare Integrity and Protection Data Bank pursuant to federal regulatory requirements;

12. Refer completed investigations to the proper law enforcement authorities for prosecution of criminal activities;

Administrative fines imposed pursuant to this section shall not exceed One Thousand Dollars (\$1,000.00) per violation. The Board shall consider the scope, severity and repetition of the violation and any additional factors deemed appropriate by the Board when issuing a fine;

14. Assess the costs of the hearing process, including attorney fees;

15. Grant short-term provisional licenses to individuals who do not meet all of the licensing requirements, provided the individual obtains the services of a currently licensed administrator to act as a consultant and meets any additional criteria for a provisional license established by the Board;

16. Order a summary suspension of an administrator's license or certification or an Administrator in Training (AIT) permit, if, in the course of an investigation, it is determined that a licensee, certificate holder or AIT candidate for licensure has engaged in conduct of a nature that is detrimental to the health, safety or welfare of the public, and which conduct necessitates immediate action to prevent further harm; and

§63-684.2. Purpose and authorities.

ARTICLE I

Purpose and Authorities

This compact is made and entered into by and between the participating member states, hereinafter called party states, which enact this compact. For the purposes of this compact, the term "states" is taken to mean the several states, the Commonwealth of

Puerto Rico, the District of Columbia, and all U.S. territorial possessions.

The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state, whether arising from natural or man-made disasters or emergencies.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

§63-684.3. General implementation.

ARTICLE II

General Implementation

Each party state entering into this compact recognizes that many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they need in all types of emergencies or the capability of delivering resources to the area where emergencies occur.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

Added by Laws 1996, c. 325, § 3, emerg. eff. June 12, 1996.

§63-684.4. Party state responsibilities.

ARTICLE III

Party State Responsibilities

A. It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans, and in carrying them out, the party states, insofar as practical, shall:

1. Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural or man-made disasters or emergencies;

2. Review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;

3. Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

4. Assist in warning communities adjacent to or crossing the state boundaries;

5. Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, and resources, both human and material;

6. Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and

7. Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

B. The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this compact shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty (30) days of the verbal request. Requests shall provide the following information:

1. A description of the emergency service function for which assistance is needed, including, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue;

2. The amount and type of personnel, equipment, materials and supplies needed and a reasonable estimate of the length of time they will be needed; and

3. The specific place and time for staging of the assisting party's response and a point of contact at that location.

C. There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States Government, with free exchange of information, plans, and resource records relating to emergency capabilities.

D. The Governor of the State of Oklahoma shall not be obligated under this compact to send the requested assistance, except in such Governor's sole and absolute discretion, and may be withdrawn at any time in the sole and absolute discretion of the Governor of Oklahoma. Added by Laws 1996, c. 325, § 4, emerg. eff. June 12, 1996. Amended by Laws 2003, c. 329, § 27, emerg. eff. May 29, 2003.

§63-684.5. Limitations.

ARTICLE IV
Limitations

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state.

Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers, except that of arrest unless specifically authorized by the receiving state, duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state emergency or disaster by the governor of the party state that is to receive assistance or upon commencement of exercises or training for mutual aid and shall continue as long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect, or loaned resources remain in the receiving state, whichever is longer. Added by Laws 1996, c. 325, § 5, emerg. eff. June 12, 1996.

§63-684.6. Licenses and permits.

ARTICLE V
Licenses and Permits

Whenever any person holds a license, certificate, or other permit issued by any state party evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party state, such person

shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the governor of the requesting state may prescribe by executive order or otherwise.

Added by Laws 1996, c. 325, § 6, emerg. eff. June 12, 1996.

§63-684.7. Liability.

ARTICLE VI

Liability

Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes. No party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

Added by Laws 1996, c. 325, § 7, emerg. eff. June 12, 1996.

§63-684.8. Supplementary agreements.

ARTICLE VII

Supplementary Agreements

Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party hereto, this compact contains elements of a broad base common to all states, and nothing herein shall preclude any state entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may include, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

Added by Laws 1996, c. 325, § 8, emerg. eff. June 12, 1996.

§63-684.9. Compensation.

ARTICLE VIII

Compensation

Each state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of such forces who sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

Added by Laws 1996, c. 325, § 9, emerg. eff. June 12, 1996.

§63-684.10. Reimbursement.

ARTICLE IX
Reimbursement

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests; provided, that any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost; and provided further, that any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses shall not be reimbursable under this article.

Added by Laws 1996, c. 325, § 10, emerg. eff. June 12, 1996.

§63-684.11. Evacuation.

ARTICLE X
Evacuation

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management or services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of such evacuees.

Added by Laws 1996, c. 325, § 11, emerg. eff. June 12, 1996.

§63-684.12. Implementation.

ARTICLE XI
Implementation

A. This compact shall become effective immediately upon its enactment into law by any two states. Thereafter, this compact shall become effective as to any other state upon enactment by that state.

B. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until thirty (30) days after the governor of the withdrawing state has given notice in writing of such withdrawal to the governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

C. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the Federal Emergency Management Agency and other appropriate agencies of the United States government.

Added by Laws 1996, c. 325, § 12, emerg. eff. June 12, 1996.

§63-684.13. Validity.

ARTICLE XII

Nothing in this compact shall authorize or permit the use of military force by the National Guard of a state at any place outside that state in any emergency for which the President is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the United States Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18 of the United States Code.

Nothing in this compact shall limit or prohibit the Governor's authority to send troops out of state as specified in Section 229 of Title 44 of the Oklahoma Statutes.

2. From all the facts and circumstances known to the practitioner at the relevant time, a reasonable person would conclude that the limitation, modification, or restriction exists or that a similarly licensed practitioner in this state would not be permitted to provide the service.

F. In addition to the authority granted by law of this state other than the Uniform Emergency Volunteer Health Practitioners Act to regulate the conduct of health practitioners, a licensing board or other disciplinary authority in this state:

1. May impose administrative sanctions upon a health practitioner licensed in this state for conduct outside of this state in response to an out-of-state emergency;

2. May impose administrative sanctions upon a practitioner not licensed in this state for conduct in this state in response to an in-state emergency; and

3. Shall report any administrative sanctions imposed upon a practitioner licensed in another state to the appropriate licensing board or other disciplinary authority in any other state in which the practitioner is known to be licensed.

G. In determining whether to impose administrative sanctions under subsection F of this section, a licensing board or other disciplinary authority shall consider the circumstances in which the conduct took place, including any exigent circumstances, and the scope of practice, education, training, experience, and specialized skill of the practitioner.

A. The Uniform Emergency Volunteer Health Practitioners Act does not limit rights, privileges, or immunities provided to volunteer health practitioners by laws other than the Uniform Emergency Volunteer Health Practitioners Act. Except as otherwise provided in subsection B of this section, the Uniform Emergency Volunteer Health Practitioners Act does not affect requirements for the use of health practitioners pursuant to the Emergency Management Assistance Compact.

B. The State Department of Health, pursuant to the Emergency Management Assistance Compact, may incorporate into the emergency forces of this state volunteer health practitioners who are not officers or employees of this state, a political subdivision of this state, or a municipality or other local government within this state. Added by Laws 2013, 1st Ex. Sess., c. 3, § 11, emerg. eff. Sept. 10, 2013.

§63-684.34. Regulatory authority.

The State Board of Health may promulgate rules to implement the Uniform Emergency Volunteer Health Practitioners Act. In doing so, the State Department of Health shall consult with and consider the recommendations of the entity established to coordinate the implementation of the Emergency Management Assistance Compact and shall also consult with and consider rules promulgated by similarly

empowered agencies in other states to promote uniformity of application of the Uniform Emergency Volunteer Health Practitioners Act and make the emergency response systems in the various states reasonably compatible.

Because of the existing possibility of natural and man-made emergencies and disasters in the United States of unprecedented size and destructiveness, and in the event such an incident occurs: to assure continuity of government through legally-constituted leadership, authority and responsibility in offices of the government of the state and its political subdivisions; to provide for the effective operation of governments during an emergency caused by an incident in the United States; and to facilitate the early resumption of functions temporarily suspended, it is found and declared to be necessary: to provide for additional officers who can exercise the powers and discharge the duties of Governor; to provide for emergency interim succession to governmental offices of this state and its political subdivisions in the event incumbents thereof (and their

deputies, assistants or other subordinate officers authorized, pursuant to law, to exercise all of the powers and discharge the duties of such offices hereinafter referred to as deputies) are unavailable to perform the duties and functions of such offices; and to provide for special emergency judges who can exercise the powers and discharge the duties of judicial offices in the event regular judges are unavailable, the provisions of this act are adopted to meet emergency conditions, which result from natural and man-made emergencies and disasters in the United States.

Each emergency interim successor designated by the floor leader shall serve at the pleasure of the designating person, but the legislator for whom the emergency successor is designated or any subsequent incumbent of the office may change the rank in order of succession or replace at the pleasure of the designating person any emergency interim successor so designated.

The journal clerk of each house shall enter all information regarding emergency interim successors for the house in its public journal at the beginning of each legislative session and shall enter all changes in membership or order of succession as soon as possible after the occurrence.

At such session or at any session in operation at the inception of the emergency or disaster, and at any subsequent session, limitations on the length of session and on the subjects which may be acted upon shall be suspended.

§63-686.12. Exercise of powers and duties by successors - Ouster provisions applicable.

If, in the event of an emergency or disaster a legislator is unavailable, the emergency interim successor highest in order of succession who is not unavailable shall, except for the power and duty to appoint emergency interim successors, exercise the powers and assume the duties of such legislator. An emergency interim successor shall exercise these powers and assume these duties until the incumbent legislator, an emergency interim successor higher in order of succession, or a legislator appointed or elected and legally qualified can act. Each house of the Legislature shall, in accordance with its own rules, determine who is entitled under the provisions of this act to exercise the powers and assume the duties of its members. All constitutional and statutory provisions pertaining to ouster of a legislator shall be applicable to an emergency interim successor who is exercising the powers and assuming the duties of a legislator.

Added by Laws 1959, p. 216, § 12, emerg. eff. June 5, 1959. Amended by Laws 1963, c. 340, § 12, emerg. eff. June 24, 1963; Laws 2003, c. 329, § 42, emerg. eff. May 29, 2003.

The Governor, acting by proclamation, or the Legislature, acting by concurrent resolution, may from time to time extend or restore such authority or the operation of any of such provisions upon a finding that events render the extension or restoration necessary, but no extension or restoration shall be for a period of more than one (1) year.

§63-690.6. Funding of acquisition of real property by municipalities.

The acquisition of real property for this objective shall constitute a public purpose for which public funds may be expended.

B. Municipalities are empowered and authorized to acquire fee title to real property and easements therein by purchase, gift, devise, lease or otherwise for flood control.

C. Title information, appraisal reports, offers, and counteroffers are confidential until an option contract is executed or, if no option contract is executed, until thirty (30) days before a contract or agreement for purchase is considered for approval by the governing board of the municipality. However, each municipality may, at its discretion, disclose appraisal reports to private landowners during negotiations for acquisitions using alternatives to fee simple techniques, if the municipality determines that disclosure of such reports will bring the proposed acquisition to closure. In the event that negotiation is terminated by the municipality, the title information, appraisal report, offers, and counteroffers shall become available to the public.

D. Real property acquired for the purposes enumerated in this section may also be used for recreational purposes, and whenever practicable such real property shall be open to the general public for recreational uses. Except when prohibited by a covenant or other restriction, real property managed and controlled by the municipality may be used for multiple purposes, including, but not limited to, agriculture and silviculture, as well as boating and other recreational uses.

E. The provisions of this section shall not limit the exercise of similar powers delegated by statute to any state or political subdivision of this state.

Added by Laws 1999, c. 57, § 12, eff. July 1, 1999.

§63-695.1. Short title.

Sections 3 through 12 of this act shall be known and may be cited as the "Oklahoma Intrastate Mutual Aid Compact".

Added by Laws 2006, c. 199, § 3, emerg. eff. May 26, 2006.

§63-695.2. Purpose - Definitions - Statewide mutual aid system - Reimbursement.

A. The purpose of the Oklahoma Intrastate Mutual Aid Compact is to create a system of intrastate mutual aid between participating jurisdictions in the state.

B. As used in the Oklahoma Intrastate Mutual Aid Compact:

1. "Jurisdiction" means any county, city, town or municipal corporation of the State of Oklahoma represented by an elected governing body and city-county health department created pursuant to the Oklahoma Public Health Code.

Sovereign Tribal Nations in the State of Oklahoma shall also be considered jurisdictions under the Oklahoma Intrastate Mutual Aid Compact and participating unless electing not to participate or later withdrawing from the system.

Public universities in this state which maintain CLEET-certified law enforcement agencies may elect to be considered jurisdictions under the provisions of this act and shall retain the right to later withdraw from the system;

2. "Emergency" means any occasion or instance for which assistance is needed to supplement local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe; and

3. "Emergency responder" means anyone with special skills, qualifications, training, knowledge, and experience in the public or private sectors that would be beneficial to a participating jurisdiction in response to a local emergency as defined in applicable law or ordinance or authorized drill or exercise.

C. Each participant of the system shall recognize that emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential for the protection of lives and property and for best use of available assets both public and private. The system shall provide for mutual assistance among the participating jurisdictions in the prevention of, response to, and recovery from, any disaster or emergency, or any other activity, as determined by the participating jurisdictions. The system shall provide for mutual cooperation among the participating jurisdictions in conducting disaster-related exercises, testing, or other training activities outside actual declared emergency periods. This legislation provides no immunity, rights, or privileges for any individual responding to a state of emergency that is not requested and/or authorized to respond by a participating jurisdiction. Participating jurisdictions will be ensured eligibility, to the fullest extent possible, for state and federal disaster funding.

D. All jurisdictions within the state, upon enactment of this legislation, are automatically a part of the statewide mutual aid system. A jurisdiction within the state may elect not to participate or to later withdraw from the system upon enacting an appropriate resolution by its governing body declaring that it elects not to participate in the statewide mutual aid system and providing a copy of the resolution to the Oklahoma Department of Emergency Management. This legislation does not preclude participating jurisdictions from entering into supplementary agreements with another jurisdiction and does not affect any other agreement to which a jurisdiction may currently be a party or decide to be a party to.

E. Many disasters begin as emergencies where local jurisdictions require fire service and/or law enforcement assistance. These services would normally be requested and provided at the department level as normal day-to-day operations with no reimbursement. If an incident response expands beyond a normal day-to-day emergency into a disaster situation, reimbursement for mutual aid services may be

necessary and will be in accordance with the Federal Emergency Management Agency reimbursement policy.

F. In support of the Emergency Management Compact, Section 684.1 et seq. of this title, the Governor or the representative of the Governor may request mutual aid assistance from local jurisdictions for other states or their jurisdictions. In such situations, the assisting local jurisdiction shall be considered an agent of the state.

Added by Laws 2006, c. 199, § 4, emerg. eff. May 26, 2006. Amended by Laws 2009, c. 79, § 1, eff. Nov. 1, 2009; Laws 2010, c. 258, § 2, eff. Nov. 1, 2010; Laws 2013, c. 201, § 1, eff. Nov. 1, 2013.

§63-695.3. Prompt, full and effective response - Legally designated jurisdiction official.

Each jurisdiction recognizes that there will be emergencies which require immediate actions and implementation of procedures to apply outside resources to make prompt and effective response to such an emergency. This is because few, if any, individual jurisdictions have all the resources they need in all types of emergencies and the capability of delivering resources to the area where emergencies occur.

The prompt, full and effective utilization of resources of the participating jurisdictions, including any resources on hand or available from any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster shall be the underlying principle on which all articles of this Compact shall be understood.

On behalf of the chief elected officer of each jurisdiction participating in the Compact, the legally designated jurisdiction official who is assigned responsibility for emergency management will be responsible for the formulation of the appropriate aid plans and procedures necessary to implement the Compact.

Added by Laws 2006, c. 199, § 5, emerg. eff. May 26, 2006. Amended by Laws 2010, c. 258, § 3, eff. Nov. 1, 2010.

§63-695.4. Procedural plans and programs - Requests for assistance - Consultation between jurisdictions - Discretion.

A. It shall be the responsibility of each jurisdiction to formulate procedural plans and programs for interjurisdictional cooperation in the performance of the responsibilities listed in this section. In formulating such plans, and in carrying them out, the jurisdictions, insofar as practical, shall:

1. Review individual jurisdictional hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the jurisdictions might jointly suffer, whether due to natural or man-made disasters or emergencies;

2. Review individual emergency plans of the jurisdictions and develop a plan that will determine the mechanism for the interjurisdictional management and provision of assistance concerning any potential emergency;

3. Develop interjurisdictional procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

4. Assist in warning communities adjacent to or crossing the jurisdictional boundaries;

5. Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, critical lifeline equipment, and resources, both human and material;

6. Inventory and set procedures for the interjurisdictional loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and

7. Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

All jurisdictions should use and conform to the current national standard for on-scene management and command systems.

B. The authorized representative of a jurisdiction may request assistance of another jurisdiction by contacting the authorized representative of that jurisdiction. The provisions of the Oklahoma Intrastate Mutual Aid Compact shall apply only to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty (30) days of the verbal request. Requests shall provide the following information:

1. A description of the emergency service function for which assistance is needed including, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue;

2. The amount and type of personnel, equipment, materials and supplies needed and a reasonable estimate of the length of time they will be needed; and

3. The specific place and time for staging of the response of the assisting party and a point of contact at that location.

C. There shall be frequent consultation between jurisdiction officials who have assigned emergency management responsibilities and other appropriate representatives of the jurisdictions with affected jurisdictions, with free exchange of information, plans, and resource records relating to emergency capabilities.

D. Jurisdictions shall not be obligated under the Compact to send the requested assistance, and assistance may be withdrawn at any time in the sole and absolute discretion of the jurisdiction.

Added by Laws 2006, c. 199, § 6, emerg. eff. May 26, 2006.

§63-695.5. Necessary actions and provisions - Powers, duties, rights and privileges of emergency forces - Command and control.

Any jurisdiction requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by the Oklahoma Intrastate Mutual Aid Compact in accordance with the terms hereof; provided that it is understood that the jurisdiction rendering aid may withhold resources to the extent necessary to provide reasonable protection for its own jurisdiction.

Each jurisdiction shall afford the emergency forces of any jurisdiction, while operating within its jurisdictional limits under the terms and conditions of the Compact, the same powers, duties, rights, and privileges as are afforded forces of the jurisdiction in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under operational control of the emergency services authorities of the jurisdiction receiving assistance and must report to the incident check-in location for assignment.

Added by Laws 2006, c. 199, § 7, emerg. eff. May 26, 2006.

§63-695.6. Professional, mechanical or other licenses, certificates or permits.

Whenever any person holds a license, certificate, or other permit issued by any jurisdiction party evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving jurisdiction, such person shall be deemed licensed, certified, or permitted by the jurisdiction requesting assistance to render aid involving such skill to meet an emergency or disaster, or a nondisaster incident or activity as determined by the participating jurisdictions, subject to such limitations and conditions as the requesting jurisdiction may prescribe by executive order or otherwise.

Added by Laws 2006, c. 199, § 8, emerg. eff. May 26, 2006. Amended by Laws 2010, c. 258, § 4, eff. Nov. 1, 2010.

§63-695.7. Liability and immunity.

Officers or employees of a jurisdiction rendering aid in another jurisdiction pursuant to the Oklahoma Intrastate Mutual Aid Compact shall be considered within the scope of employment of the requesting jurisdiction for tort liability and immunity purposes. No jurisdiction or its officers or employees rendering aid in another jurisdiction pursuant to the Compact shall be liable on account of any act or omission in good faith on the jurisdiction of such forces while so engaged or on account of the maintenance or use of any

equipment or supplies in connection therewith. Good faith shall not include willful misconduct, gross negligence, or recklessness. Added by Laws 2006, c. 199, § 9, emerg. eff. May 26, 2006.

§63-695.8. Compensation and death benefits.

Each jurisdiction shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that jurisdiction and representatives of deceased members of such forces who sustain injuries or are killed while rendering aid pursuant to the Oklahoma Intrastate Mutual Aid Compact, in the same manner and on the same terms as if the injury or death were sustained within its own jurisdiction.

Added by Laws 2006, c. 199, § 10, emerg. eff. May 26, 2006.

§63-695.9. Reimbursement for loss, damage, expense or cost.

Any jurisdiction rendering aid in another jurisdiction pursuant to the Oklahoma Intrastate Mutual Aid Compact shall be reimbursed by the jurisdiction receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests; provided, that any aiding jurisdiction may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving jurisdiction without charge or cost; and provided further, that any two or more jurisdictions may enter into supplementary agreements establishing a different allocation of costs among those jurisdictions. Compensation expenses shall not be reimbursable under this section.

Added by Laws 2006, c. 199, § 11, emerg. eff. May 26, 2006.

§63-695.10. Plans for evacuation and interjurisdiction reception of civilian population.

Plans for the orderly evacuation and interjurisdiction reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party jurisdictions of the Oklahoma Intrastate Mutual Aid Compact and the emergency management or services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the jurisdiction from which evacuees come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors.

The investigating medical examiner or the medical examiner's designee shall have access at all times to any and all medical and dental records and history of the deceased, including, but not limited to, radiographs and medical records, in the course of his or her official investigation to determine the cause and manner of death. Such records may not be released to any other person by the

medical examiner, and the custodians of such records shall incur no liability by reason of the release of such records to the medical examiner. The body of the deceased shall be turned over to the funeral director designated by the person responsible for burial within twenty-four (24) hours of receipt of the decedent unless a longer period is necessary to complete the required investigation. the medical examiner which shall be promptly sent to the Chief Medical Examiner by mail.

- b. a homicide by drugs,
- c. a suicide by drug overdose, or
- d. a death with drug involvement, but the manner of death could not be determined.

3. A fatality shall not be considered a drug-related death unless the medical examiner determines that the drug or drugs present in the deceased materially contributed to the death.

B. Copies of reports shall be furnished by the Chief Medical Examiner to investigating agencies having official interest therein. Copies of reports shall also be furnished to the spouse of the deceased or any person within one degree of consanguinity of the deceased upon request and within five (5) business days of the request once the cause and manner of death have been determined and the death certificate has been issued.

Such appeal shall be made in writing, shall state the nature and reasons for the appeal, and shall be supported by affidavit. The burden of proof shall be on the petitioner to establish by a preponderance of the evidence that the death certificate is in error. The petitioner shall notify the Office of the Chief Medical Examiner in writing upon filing the petition for judicial review. No jury shall be impaneled and no monetary damages shall be awarded under a cause of action filed pursuant to this subsection.

B. The court shall conduct an evidentiary hearing. Should the court find that the findings of the medical examiner are erroneous, the court shall immediately order the Chief Medical Examiner to correct the report and transmit the appropriate paperwork to the State Department of Health for the correction of the death certificate.

Added by Laws 2011, c. 344, § 3, eff. Nov. 1, 2011. Amended by Laws 2014, c. 293, § 12, eff. Nov. 1, 2014.

When necessary in connection with an investigation to determine the cause and/or manner of death and when the public interest requires it, the Chief Medical Examiner, his or her designee or a district attorney shall require and authorize an autopsy to be conducted. In determining whether the public interest requires an autopsy the medical examiner or district attorney involved shall take into account but shall not be bound by request therefor from private persons or from other public officials.

NOTE: Section, derived from Laws 1985, c. 245, § 3, mandating sharing of costs of operation by requiring a fee for autopsies performed by State Medical Examiner, declared unconstitutional by State ex rel, Jordan v. City of Bethany, Okl., 769 P.2d 164(1989).

§63-945. Person to perform autopsy - Extent - Report of findings.

A. When properly authorized, an autopsy shall be performed by the Chief Medical Examiner or such person as may be designated by him or her for such purpose. The Chief Medical Examiner or a person designated by him or her may authorize arterial embalming of the body prior to the autopsy when such embalming would in his or her opinion not interfere with the autopsy. The extent of the autopsy shall be made as is deemed necessary by the person performing the autopsy.

B. A full and complete report of the facts developed by the autopsy together with the findings of the person making it shall be

prepared and filed in the Office of the Chief Medical Examiner without unnecessary delay. Copies of such reports and findings shall be furnished to district attorneys and law enforcement officers making a criminal investigation in connection with the death.

C. Upon receiving a written, signed and dated records request, a copy of the full and complete report of the facts developed by the autopsy, together with the findings of the person making the report, shall be released by the Office of the Chief Medical Examiner to the public in the most expedient manner available or as requested by the records requester and, under the following conditions, shall be furnished to:

1. District attorneys and any law enforcement agency with authority to make a criminal investigation in connection with the death; provided, such copies shall not be shared with any other entity unless otherwise provided by law;

2. The spouse of the deceased or any person related within two (2) degrees of consanguinity to the deceased, unless the district attorney or law enforcement agency making a criminal investigation objects to the release of documents to any family member. District attorneys and law enforcement agencies shall be prohibited from objecting to the release of the full and complete autopsy report to the family if the decedent was in state custody, in custody of law enforcement or is deceased due to lethal action of a law enforcement officer; and

3. Any insurance company conducting an insurer's investigation of any insurance claim arising from the death of the individual upon whom the autopsy was performed.

D. The full and complete report of the facts developed by the autopsy, together with the findings of the person making the report, shall be withheld from public inspection and copying for ten (10) business days following the date the report is generated by the Office of the Chief Medical Examiner, except as provided for in subsection C of this section.

E. The Office of the Chief Medical Examiner shall produce a summary report of investigation by the medical examiner at the same time the full and complete report of the facts developed by the autopsy, together with the findings of the person making the report, is released to the parties listed in subsection C of this section. The summary report of investigation shall be made available for public inspection and copying without delay. Any person may obtain a copy of the summary report of investigation in the most expedient manner available or as requested by the records requester.

F. The summary report of investigation shall include, but not be limited to the following information, if known:

1. Decedent name, age, birth date, race, sex, home address, examiner notified by name and title and including date and time, location where decedent was injured or became ill, including name of

facility, address, city, county, type of premises, date and time; location of death including name of facility, city, county, type of premises, date and time, and location body was viewed by medical examiner including address, city, county, type of premises and date and time;

2. If the death was a motor vehicle accident, whether the decedent was the driver, passenger or pedestrian, and the type of vehicle involved in the accident;

3. A description of the body, including but not limited to the external physical examination, rigor, livor, external observations including hair, eye color, body length and weight, and other external observations, as well as the presence and location of blood; and

4. The probable cause of death, other significant conditions contributing to the death but not resulting in the underlying cause given, manner of death, case disposition, case number, and name and contact information of the medical examiner performing the autopsy, including a signature and certification statement that the facts contained in the report are true and correct to the best of their knowledge and the date the report was signed and generated.

G. At the conclusion of the ten (10) business-day-period, the full and complete report shall be made available as a public record except when a district attorney or law enforcement agency with authority to make a criminal investigation in connection with the death declares that the full and complete report contains information that would materially compromise an ongoing criminal investigation. Such declaration shall be in writing to the Office of the Medical Examiner and be an open record available from the Office of Medical Examiner.

1. Upon such declaration, the district attorney or law enforcement agency shall request from the appropriate district court a hearing for an extension of time during which the full and complete autopsy report, not including information in the summary report, may be withheld.

2. When a request for an extension of time has been filed with the court, the full and complete autopsy report in question may be withheld until the court has issued a ruling on the requested extension of time to release the autopsy report. Such requests for an extension of time during which the autopsy may be withheld shall be made on the grounds that release of the full and complete autopsy report will materially compromise an ongoing criminal investigation.

3. Courts considering such requests shall conduct a hearing and consider whether the interests of the public outweigh the interests asserted by the district attorney or law enforcement agency.

4. If an extension of time is granted by the court, the initial extension shall be ordered by the court for a period of six (6) months. Subsequent extensions shall only be ordered after a hearing by the court for an additional one year and cumulative time

extensions shall not exceed more than four (4) years and six (6) months; provided, under no circumstance shall an extension of time be granted by the court if the deceased person was in state custody, in custody of law enforcement or was deceased due to lethal action of a law enforcement officer.

5. In the event that six (6) months have expired from the date of the initial release of the autopsy report without any person being criminally charged in the case in question and release of the autopsy or portions of the autopsy have been denied on the grounds of materially compromising a criminal investigation, an appeal of such denial may be made to the appropriate district court. Courts considering appeals for temporarily withholding an autopsy report shall conduct a hearing and consider whether the interests of the public outweigh the interests asserted by the district attorney or law enforcement agency. In response to such appeals, the district court shall order that the autopsy report be made available for public inspection and copying with no redaction, or shall order an extension of time during which the autopsy report may be withheld under the provisions of this section.

6. Any court order obtained pursuant to this subsection shall be served upon the Office of the Chief Medical Examiner by the party requesting or granted the extension by the court.

H. An order granting an extension of time shall be applicable to the autopsy report for the duration of the extension; provided, each subsequent time extension shall only be ordered by the district court for an additional twelve-month period of time or less and cumulative time extensions shall not exceed four (4) years and six (6) months; provided, charges being filed against a person in the case in question or an autopsy report being entered into evidence as part of a criminal prosecution nullifies any granted extension of time.

I. The opportunities to withhold an autopsy report or portions of an autopsy report provided in this section shall expire in totality four (4) years and six (6) months after the date the autopsy report was generated, at which time the autopsy report previously withheld on the grounds provided for in this section shall be made available for public inspection and copying.

J. Nothing in this section shall prohibit a district attorney or law enforcement agency with authority to make a criminal investigation in connection with the death from immediately releasing portions of information contained in the full and complete autopsy report for the purposes of assisting with the criminal investigation or apprehension of any person involved in a criminal act that resulted in the death of another person.

K. After ten (10) business days from the release of the full and complete report, nothing in this section shall prohibit the spouse of the deceased or any person related within two (2) degrees of consanguinity to the deceased who has received a copy of the full and

complete autopsy report from the Office of the Chief Medical Examiner from authorizing the Office of the Chief Medical Examiner's office to release the full and complete autopsy report to any other person subject to approval by the court.

§63-946. Exhuming of bodies - Hearing - Autopsy - Reports.

A. If death occurred under circumstances as enumerated in Section 938 of this title, and if the body has been buried without proper certification of death, it shall be the duty of the investigating official, upon ascertaining such facts, to notify the Chief Medical Examiner and the district attorney of the county in which the body was buried. The district attorney shall present facts to the judge of the district court of that county, and the judge, after a hearing, may by written order require the body to be exhumed and an autopsy performed by the Chief Medical Examiner or his or her designee. A copy of the court order for exhumation shall be provided to the State Department of Health. A complete report of the facts developed by the autopsy and the findings of the person making the same shall be filed with the Chief Medical Examiner without unnecessary delay and a copy furnished the district attorney of the county within which the death occurred or within which the body was buried, or both.

B. No order for exhumation, as provided for in subsection A of this section, shall be made without notice of the hearing being served upon the decedent's next of kin, five (5) days prior to the hearing. The notice shall be served in the same manner as provided for by law for the service of summons in a civil action, shall include the date, time and place of the hearing and shall advise the person so notified that he or she has the right to appear and be heard by the court at that time. Provided, that the district attorney may, by affidavit, advise the court that the identity or whereabouts of any persons required to be served with notice under this subsection is unknown and cannot be ascertained with due diligence. Upon finding that the facts stated in the affidavit are true, the court shall not require notice be given.

§63-947. Certificate of death.

A. The certification of death of any person whose death is investigated under Section 931 et seq. of this title shall be made by the Chief Medical Examiner or his or her designee upon a medical

examiner death certificate provided by the State Registrar of Vital Statistics. Such death certificates shall be valid only when signed by the Chief Medical Examiner or his or her designee. Copies of all such certificates shall be forwarded immediately upon receipt by the State Registrar of Vital Statistics to the Office of the Chief Medical Examiner.

B. B. 1. The Office of the Chief Medical Examiner (OCME) is authorized to perform drug screens on specimens in the custody of the OCME, provided the request is made by an agency or party authorized to receive such information. The OCME may limit drug screens within the technical and physical capabilities of the OCME.

2. The authorization for drug screens shall apply only to specimens from cases already within the jurisdiction of the OCME and only when the analyses are deemed by the Chief Medical Examiner or Deputy Chief Medical Examiner not to conflict with any investigation of the case by the state.

A. The Board of Medicolegal Investigations may establish a fee schedule for forensic services, permits and reports rendered to members of the public and other agencies.

5. An out-of-state transport permit and cremation permit shall both be required for bodies containing body parts sent out of state or out of country, while remaining body parts remain unused.

B. The Board shall base the fee schedule for forensic science services, permits and reports upon reasonable costs of review,

investigation and forensic science service delivery; provided, however, the fee schedule shall be within the ranges specified in subsection A of this section. The Board shall continue a system of basic and continuing educational service and training for all personnel who render forensic science services in order to ensure uniform statewide application of the rules of the Board. The Board shall consider the reasonable costs associated with such training and continuing education in setting the forensic science service fees.

C. The Board may exempt by rule any agency or class of individuals from the requirements of the fee schedule if the Board determines that the fees would cause an unreasonable economic hardship or would otherwise hinder or conflict with an agency's responsibilities.

D. All statutory fees currently in effect for permits or forensic science services administered by the Chief Medical Examiner and the Board of Medicolegal Investigations within the jurisdiction of the Office of the Chief Medical Examiner shall remain in effect until such time as the Board acts to implement new schedules pursuant to the provisions of this section and Section 948 of this title.

As used in this subparagraph, "Sudden Unexpected Death in Infants and Children" (SUDIC) means the sudden, unexpected death of an apparently healthy infant less than one (1) year of age which remains unexplained following a complete medicolegal analysis and death scene investigation. The Chief Medical Examiner shall follow up with further notification upon final determination

of a cause of death. Such notification shall be for statistical reporting purposes only.

Objections to the interrogatories shall be made by any party in accordance with law just as if the interrogatories had been served on the objecting party. Cross interrogatories shall be submitted and shall be answered and admitted in evidence in the same manner as interrogatories;

The taking of depositions shall then be allowed pursuant to the provisions of Section 3230 of Title 12 of the Oklahoma Statutes; provided, however, depositions shall take place at the Office of the Chief Medical Examiner or anyone under his or her supervision or control whose testimony is sought, unless all parties, including the medical examiner, agree the deposition can be taken elsewhere;

5. No other testimony of the Chief Medical Examiner or anyone under his or her supervision and control shall be admitted in evidence in any civil action in any court of this state, unless timely application is made to the court by an interested party or litigant and timely notice of the application is given to the medical examiner. After a hearing, the court, for good cause shown, may order the appearance of the Chief Medical Examiner or anyone under his or her supervision and control for the purpose of testifying and may order that a subpoena be issued for that appearance; provided,

§63-1051. Short title.

Laws 1965, c. 251, § 1, emerg. eff. June 18, 1965.

§63-1052. Application of act.

The provisions of this act shall apply in all counties of this state.

Laws 1965, c. 251, § 2, emerg. eff. June 18, 1965.

§63-1053. Finding and declaration of necessity.

It is hereby declared:

(a) that there exists in urban and rural areas in certain counties in the state unsanitary, unsafe, and overcrowded dwelling accommodations; that in such urban and rural areas within the state there is a shortage of safe or sanitary dwelling accommodations available at rents or prices which persons of low income can afford and that such shortage forces such persons to occupy unsanitary, unsafe, and overcrowded dwelling accommodations;

(b) that the aforesaid conditions cause an increase in and spread of disease and crime and constitute a menace to the health, safety, morals and welfare of the residents of the state; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities;

(c) that these slum areas cannot be cleared nor can the shortage of safe and sanitary dwelling for persons of low income be adequately relieved through the operation of private enterprise and that housing projects for persons of low income as herein defined would therefore not be competitive with private enterprise;

(d) that such projects would also make housing available for persons of low income who are displaced in the rehabilitation, clearance, or redevelopment of slums and blighted areas or as the result of other governmental action, and for veterans of low income who are unable to provide themselves with decent housing on the basis

of the benefits heretofore made available to them through certain government guarantees of loans to veterans for the purchase of residential property;

(e) that the clearance, replanning and preparation for rebuilding of these areas and the providing of safe and sanitary dwelling accommodations and maintaining a wholesome living environment for persons of low income are charitable and public uses and purposes for which public money may be spent and private property acquired and are governmental functions of state concern;

(f) that residential construction activity is closely correlated with general economic activity and that the undertakings authorized by this act to aid the provision of better housing and more desirable neighborhood and community development at lower costs will make possible a more stable and larger volume of residential construction activity which will assist materially in maintaining full employment; and

(g) that it is in the public interest that preparations for such projects and activities be made now, and that the necessity in the public interest for the provisions hereinafter enacted is hereby declared as a matter of legislative determination.

Laws 1965, c. 251, § 3, emerg. eff. June 18, 1965.

In each city and in each county of the state there is hereby created a public body corporate and politic to be known as the "housing authority" of the city or county; provided, that the authority shall not transact any business or exercise its powers hereunder until or unless the governing body of the city or county, as the case may be, by proper resolution declares that there is need for an authority to function in the city or county.

The governing body shall give consideration as to the need for an authority (1) on its own motion or (2) upon the filing of a petition signed by not less than five percent (5%) of the qualified voters of the city or county, as the case may be, asserting that there is need

for an authority to function in the city or county and requesting that its governing body so declare.

The governing body shall adopt a resolution declaring there is need for an authority in the city or county, as the case may be, if it finds (1) that insanitary or unsafe inhabited dwelling accommodations exist in the city or county, and (2) that there is a shortage of safe and sanitary dwelling accommodations in the city or county available to persons of low income at rentals or prices they can afford. If the governing body declares a need for housing exists, as set forth in (1) and (2) of this paragraph, said governing body shall issue notice of such need and the number of housing units proposed in a newspaper having a general circulation in the area in which the need is certified. Such notice shall set forth the facts that said declaration of need is final, if not protested within thirty (30) days from date of said notice by the method provided in the next succeeding paragraph.

Provided, however, that if a petition signed by not less than five percent (5%) of the legal registered voters of the city or county affected, as the case may be, is submitted to the governing body within thirty (30) days of the adoption of said resolution then said resolution shall be ineffective until approved by a majority of those voting on the question at a special or general election; provided that in the event said resolution is not approved by a majority of those voting at any special or general election, then the same or a similar resolution shall not be adopted by the governing body for a period of one (1) year thereafter.

§63-1057. Creation of Indian housing authorities - Transfer of management and control.

A. There is hereby created, with respect to each Indian tribe, band, or nation in the state, a public body corporate and politic, to function in the operating area of each Indian tribe, band, or nation to be known as the "housing authority" of the Indian tribe, band, or nation. The Indian housing authority shall be an agency of the State of Oklahoma, possessing all powers, rights, and functions herein specified for city and county authorities created pursuant to this act. The Indian housing authority shall not transact any business nor exercise its powers hereunder until or unless the governing council of the tribe, band, or nation, as the case may be, by proper resolution, declares that there is a need for a housing authority to function for the tribe, band, or nation.

B. Except as otherwise provided in this act, all the provisions of law applicable to housing authorities created for cities and counties and the commissioners of such authorities shall be applicable to Indian housing authorities and commissioners, unless a different meaning clearly appears from the context. The Chief or other governing head of an Indian tribe, band, or nation is hereby authorized to exercise all appointing and other powers with respect

to an Indian housing authority that are vested by this act in the mayor of a city relating to a city housing authority.

C. The Oklahoma Legislature finds that, under the authority of this section, state agency Indian housing authorities may be operated in the area of federally recognized Indian tribes, bands and nations in this state, upon proper resolution declaring that there is a need for a housing authority to function in the operating area of the tribe, band or nation. State agency Indian housing authorities are funded exclusively with federal funds designated for the purpose of providing housing in the area of the tribe, band or nation for whose benefit the housing authority was established. The state agency Indian housing authorities are managed by tribal members appointed by the governing head of the tribe. At the time that state agency Indian housing authorities were authorized to operate for the benefit of the tribe, band or nation, the tribes, bands and nations were not eligible to receive federal funding for housing purposes. Federally recognized Indian tribes, bands and nations are now eligible to receive federal funding for housing purposes and many have received federal funds, and many have created tribal housing authorities for the purpose of providing housing for their tribal members. In the exercise of their sovereign powers, some tribes, bands and nations desire or may in the future desire to undertake the control and management of the state agency Indian housing authorities created for their benefit and to assume all the assets and liabilities, while other tribes, bands or nations may wish to consolidate the state agency Indian housing authority created or which may be created for their benefit into tribal housing programs. In the interest of the sovereign power of federally recognized Indian tribes, economy of efforts, and the maintenance of cooperative relationships between the state and federally recognized Indian tribes, and in light of the above findings, the state hereby authorizes any federally recognized Indian tribe, band or nation for whose benefit a state agency housing authority was or may be created, to assume management and control of the state agency Indian housing authority and all its assets, as provided in this section.

D. Any federally recognized Indian tribe, band or nation for whose benefit a state agency housing authority has been or will be created is hereby empowered to undertake the management and control of the program of the state agency upon:

1. The assumption of all present and future liabilities of the state agency housing authority;

2. The acceptance of all assets of the state agency housing authority;

3. Upon agreeing to continue to operate a housing authority or program; and

4. Upon entering into local cooperative agreements for payments in lieu of taxes in an amount that is not more than the amount

authorized under the Native American Housing Assistance and Self-Determination Act and rules implementing the act.

E. The governing body of any federally recognized Indian tribe, band or nation may exercise the power to undertake management and control of the state agency Indian housing authority created for its benefit by adopting an ordinance or resolution to undertake management and control. The resolution or ordinance shall provide that the tribe, band or nation will assume all the assets and all the liabilities of the state agency Indian housing authority and agrees to continue to operate the housing program for the benefit of its members, and will enter into local cooperative agreements with payments in lieu of taxes as required in paragraph 4 of subsection D of this section and in accordance with Section 1066 of this title.

F. Upon the filing of a resolution or ordinance as provided for in subsection E of this section with the office of the Secretary of State, the Oklahoma Attorney General, and the office of the county clerk in the county in which any land being transferred is located, the management and control of the state agency Indian housing authority created for the tribe, band or nation, together with the ownership of all housing authority assets and liabilities shall transfer to the tribe, band or nation, and the state agency Indian housing authority for that tribe, band or nation shall cease to exist. No further action on the state's part is necessary to transfer title of all state agency Indian housing authority real property to the tribe, band or nation. The filing of a copy of this statute, a certified copy of the required resolution or ordinance and the legal description of the land(s) shall transfer title. The land so transferred, until transferred to the ownership of individual tribal members, is declared to be used for charitable purposes and to be public property used for essential public and governmental purposes. The property shall be exempt from ad valorem taxes, as long as the tribe, band or nation continues to make the in lieu of tax payments as required in this section.

Added by Laws 1965, c. 251, § 7, emerg. eff. June 18, 1965. Amended by Laws 2010, c. 172, § 1, emerg. eff. April 26, 2010.

§63-1058. Appointment, qualifications, tenure and meetings of authority commissioners.

A. When a housing authority is authorized to transact business and exercise powers hereunder, five (5) persons shall be appointed as commissioners of the authority as follows:

1. In the case of a city, by the mayor with the advice and consent of the governing body; or

2. In the case of a county, by the board of county commissioners, and at least one of the persons so appointed shall be a tenant in a housing project under the jurisdiction of such authority. The term of office of each commissioner shall be for

three (3) years, except that of the commissioners first appointed one shall serve for a term of one (1) year and two shall serve for terms of two (2) years. All vacancies shall be filled for the unexpired term. Each commissioner shall qualify by taking the official oath of office prescribed by statute or ordinance for elected officials of the county or city, as the case may be.

B. A commissioner shall receive no compensation for his services, but may be entitled to the necessary expenses, including traveling expenses, incurred in the discharge of his duties or, except as otherwise provided in this subsection, receive a per diem payment of not to exceed Thirty-five Dollars (\$35.00) plus mileage as provided by the State Travel Reimbursement Act, Section 500.1 et seq. of Title 74, for expenses incurred in attending meetings of the housing authority. An Indian housing authority or the tribal government the authority serves may elect to set a different monetary amount for per diem and mileage payments than specified in this subsection for the commissioners of that Indian housing authority. Each commissioner shall hold office until his successor has been appointed and qualified. A certificate of appointment or reappointment of any commissioner shall be filed with the authority and this certificate shall be conclusive evidence of the due and proper appointment of the commissioner.

C. The powers of each authority shall be vested in the commissioners thereof in office from time to time. A majority of the commissioners of an authority shall constitute a quorum for the purpose of conducting its business and exercising its powers and for all other purposes, notwithstanding the existence of any vacancies. Action may be taken by the authority upon a vote of a majority of the commissioners present, unless in any case the bylaws of the authority shall require a larger number. Meetings of the commissioners of an authority may be held anywhere within the area of operation of the authority or within any additional area in which the authority is authorized to undertake a project. Such meetings shall be held pursuant to the provisions of the Open Meeting Act, Section 301 et seq. of Title 25 of the Oklahoma Statutes.

D. The commissioners of an authority shall elect a chairman and vice chairman from among the commissioners. An authority may employ an executive director, legal and technical experts and such other officers, agents and employees, permanent and temporary, as it may require, and shall determine their qualifications, duties and compensation. An authority may delegate to one or more of its agents or employees such powers or duties as it may deem proper. Added by Laws 1965, c. 251, § 8, emerg. eff. June 18, 1965. Amended by Laws 1967, c. 339, § 3; Laws 1974, c. 97, § 1; Laws 1977, c. 254, § 1; Laws 1982, c. 305, § 1, emerg. eff. May 28, 1982; Laws 1987, c. 34, § 1, eff. Nov. 1, 1987; Laws 2008, c. 62, § 2, emerg. eff. April 21, 2008.

§63-1059. Interest of commissioners, officers, or employees.

A. During his tenure and for one (1) year thereafter, no commissioner, officer, or employee of the local housing authority shall voluntarily acquire any interest, direct or indirect, in any project or in any property included or planned to be included in any project, or in any contract or proposed contract relating to any housing project. If any such commissioner, officer, or employee involuntarily acquired any such interest, or voluntarily or involuntarily acquired any such interest prior to appointment or employment as commissioner, officer, or employee, the commissioner, officer, or employee, in any such event, shall immediately disclose his interest in writing to the authority, and such disclosure shall be entered upon the minutes of the authority, and the commissioner, officer, or employee shall not participate in any action by the authority relating to the property or contract in which he has any such interest. Any violation of the foregoing provisions of this section shall constitute misconduct in office. This section shall not be applicable to the acquisition of any interest in notes or bonds of an authority issued in connection with any housing project, or to the execution of agreements by banking institutions for the deposit or handling of funds in connection with a project or to act as trustee under any trust indenture, or to utility services the rates for which are fixed or controlled by a governmental agency.

B. Nothing in this section shall be construed to apply to the housing authority commissioner who is a tenant.

Amended by Laws 1988, c. 233, § 4, operative July 1, 1988.

§63-1060. Removal of commissioners.

For inefficiency, neglect of duty or misconduct in office, or allowing any portion of any project to become dilapidated, unsanitary or unkept, a commissioner of an authority may be removed by the governing body, or, in the case of an authority for a county, by the board of county commissioners, but a commissioner shall be removed only after a hearing and after he shall have been given a copy of the charges at least ten (10) days prior to the hearing and had an opportunity to be heard in person or by counsel. In the event of the removal of any commissioner, a record of the proceedings, together with the charges and findings thereon, shall be filed in the office of the clerk.

Notice of the public hearing required by this provision shall be given by publication in a newspaper of general circulation within the jurisdiction of the authority at least ten (10) days and not more than thirty (30) days prior to said hearing; provided that an additional public hearing shall be held by the authority before the same shall select any location for any contiguous or noncontiguous area of land on which the authority proposes to construct more than twenty additional new housing units, and such hearing shall have as its subject the location of the proposed additional units. Notice of the public hearing required by this provision shall be given in a newspaper of general circulation within the jurisdiction of the authority at least ten (10) days and not more than thirty (30) days prior to said hearing and three members of the Commission must concur in the selection of any such location, except that the aforesaid proviso concerning an additional public hearing shall not apply to a location in an approved urban renewal project area.

§63-1062. Operation of housing not for profit.

It is hereby declared to be the policy of this state to accomplish the charitable and public purposes of this act that each authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals or payments for dwelling accommodations at low rates consistent with its providing decent, safe and sanitary dwelling accommodations for persons of low income and that no authority shall construct or operate any housing project for profit, or as a source of revenue to the city or county. To this end an authority shall fix the rentals or payments for dwellings in its projects at no higher rates than it shall find to be necessary in order to produce revenues which, together with all other available monies, revenues, income and receipts of the authority from whatever sources derived, including Federal financial assistance necessary to maintain the low-rent character of the project, will be sufficient:

(a) to pay, as the same become due, the principal and interest on the bonds of the authority;

(b) to create and maintain such reserves as may be required to assure the payment of principal and interest as it becomes due on its bonds;

(c) to meet the cost of, and to provide for, maintaining and operating the projects, including necessary reserves therefor and the cost of any insurance, and the administrative expenses of the authority; and

(d) to make such payments in lieu of taxes and, after payment in full of all obligations for which federal annual contributions are pledged, to make such repayments of federal and local contributions as it determines are consistent with the maintenance of the low-rent character of projects.

Rentals or payments for dwellings shall be established and the projects administered, insofar as possible, so as to assure that any federal financial assistance required shall be strictly limited to amounts and periods necessary to maintain the low-rent character of the projects. Nothing herein shall be construed to limit the amount an authority may charge for nondwelling facilities. All such income, together with other income and revenue, shall be used in the operation of the projects to aid in accomplishing the charitable and public purposes of this act.

Laws 1965, c. 251, § 12, emerg. eff. June 18, 1965.

§63-1063. Tenant eligibility.

An authority shall issue regulations establishing eligibility requirements, consistent with the purposes and objectives of this act, for admission to and continued occupancy in its projects.

Nothing contained in this or the preceding section shall be construed as limiting the power of an authority with respect to a housing project, to vest in an obligee the right, in the event of a default by the authority, to take possession or cause the appointment of a receiver thereof, free from all of the restrictions imposed by this or the preceding section.

Laws 1965, c. 251, § 13, emerg. eff. June 18, 1965.

§63-1064. Cooperation between authorities.

Any two or more authorities may join or cooperate with one another in the exercise, either jointly or otherwise, of any or all of their powers for the purpose of financing, including the issuance of bonds, notes or other obligations and giving security therefor, planning, undertaking, owning, constructing, operating or contracting with respect to a housing project or projects located within the area of operation of any one or more of said housing authorities. For such purpose a housing authority may by resolution prescribe and authorize any other housing authority or authorities, so joining or cooperating with it, to act on its behalf with respect to any or all powers, as its agent or otherwise, in the name of the housing

authority or authorities so joining or cooperating, or in its own name.

§63-1065. Dwellings for disaster victims and defense workers.

Notwithstanding the provisions of this or any other act relating to rentals of, preferences or eligibility for admission to, or occupancy of dwellings in housing projects, during a time of war as declared by Congress an authority determines that there is an acute need for housing to assure the availability of dwellings for persons engaged in national defense activities or for victims of a major disaster at any time the same may occur, the authority may undertake the development and administration of housing projects for the federal government, and dwellings in any housing project under the jurisdiction of the authority may be made available to persons engaged in national defense activities or to victims of a Major disaster, as the case may be. An authority is authorized to contract with the federal government or the state or a state public body for advance payment or reimbursement for the furnishing of housing to victims of a major disaster, including the furnishing of the housing free of charge to needy disaster victims during any period covered by a determination of acute need by the authority as herein provided. Laws 1965, c. 251, § 15; Laws 1967, c. 339, § 6.

§63-1066. Tax exemption and payments in lieu of taxes.

The property and funds of a housing authority are declared to be used for charitable purposes and to be public property used for essential public and governmental purposes, and such property and the authority are exempt from all taxes, including sales and use taxes and special assessments of the state or any state or local public body. In lieu of taxes on its property an authority shall agree to make such payments to the state or any state or local public body as the governing body of the city or county finds consistent with the maintenance of the low-rent character of housing projects and the achievement of the purposes of this act, provided that not less than one-half (1/2) of the annual amount of such payment in lieu of taxes shall be paid to the school district within which the property of the housing authority is located. The amount of money collected under the provisions of this act shall not be considered as chargeable income to the district receiving such funds. The tax exemption provided by this section does not apply to any portion of a project used by a profit-making enterprise, but in taxing such portions appropriate allowance shall be made for any expenditure by an authority for utilities or other public services which it provides to serve the property.

Laws 1965, c. 251, § 16; Laws 1969, c. 341, § 1, emerg. eff. May 8, 1969.

§63-1067. Planning, zoning and building laws.

§63-1068. Bonds.

An authority shall have power to issue bonds from time to time, in its discretion, for any of its corporate purposes. It shall also have power to issue refunding bonds for the purpose of paying or retiring bonds previously issued by it. An authority may issue such types of bonds as it may determine, including, without limiting the generality of the foregoing, bonds on which the principal and interest are payable:

(a) exclusively from the income and revenues of the project financed with the proceeds of such bonds;

(b) exclusively from the income and revenues of certain designated projects whether or not they are financed in whole or in part with the proceeds of such bonds; or

(c) from its revenues generally.

Any such bonds may be additionally secured by a pledge of any loan, grant, or contributions, or parts thereof, from the federal government or other source, or a pledge of any income or revenues of the authority.

Neither the members of an authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of an authority, and such bonds and obligations shall so state on their face, shall not be a debt of the city or county, or of the state or any political subdivision thereof, and neither the city or county nor the state or any political subdivision thereof shall be liable thereon, and in no event shall such bonds or obligations be payable out of any funds or properties other than those of the authority. The bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction. Bonds of an authority are declared to be issued for an essential public and governmental purpose and to be public instrumentalities and, together with interest thereon and income therefrom, shall be exempt from taxes. The provisions of this act exempting from taxation the properties of an authority and its bonds and interest thereon and income therefrom shall be considered part of the contract for the security of the bonds and shall have the force of contract, by virtue of this act and without the necessity of the same being restated in said bonds, between the bondholders and each and every one thereof, including all transferees of said bonds from time to time on the one hand and an authority and the state on the other.

§63-2200.5A. Manner of making anatomical gift before donor's death.

A. A donor may make an anatomical gift:

1. By authorizing a statement or symbol indicating that the donor has made an anatomical gift to be imprinted on the donor's driver license or identification card;
2. In a will;
3. During a terminal illness or injury of the donor, by any form of communication addressed to at least two adults, at least one of whom is a disinterested witness; or

A donor or other person authorized to make an anatomical gift under Section 4 of this act may make a gift by a donor card or other record signed by the donor or other person making the gift or by authorizing that a statement or symbol indicating that the donor has made an anatomical gift be included on a donor registry. If the donor or other person is physically unable to sign a record, the record may be signed by another individual at the direction of the donor or other person and must:

E. The making of an anatomical gift shall not of itself be construed to authorize or direct the denial of health care when the withholding or withdrawal of such health care will result in or hasten death of the donor.

B. A donor's revocation of an anatomical gift of the donor's body or part under Section 6 of this act is not a refusal and does not bar another person specified in Section 4 or 9 of this act from making an anatomical gift of the donor's body or part under Section 5 or 10 of this act.

C. If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part under Section 5 of this act or an amendment to an anatomical gift of the donor's body or part

In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 4 of this act, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

F. In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 4 of this act, an anatomical gift of a part for one or more of the purposes set forth in Section 4 of this act is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under Section 5 or 10 of this act.

If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

C. A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection A of this section is reasonably available to make or to object to the making of an anatomical gift.

If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

A. When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the Department of Public Safety and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

B. A procurement organization must be allowed reasonable access to information in the records of the Department of Public Safety to ascertain whether an individual at or near death is a donor.

C. When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

D. Unless prohibited by any other provisions of law, at any time after a donor's death, the person to whom a part passes under Section 2200.11A of this title may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

G. Upon referral by a hospital under subsection A of this section, a procurement organization shall make a reasonable search for any person listed in Section 2200.9A of this title having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

H. Subject to subsection I of Section 2200.11A of this title and Section 2200.23A of this title, the rights of the person to which a part passes under Section 2200.11A of this title are superior to the rights of all others with respect to the part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this act, a person that accepts an anatomical gift of an entire body may allow embalming, burial or cremation, and use of remains in a funeral service. I. Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

J. A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

K. A hospital may adopt guidelines for the interaction between organ procurement organizations and hospital staff. For purposes of this subsection, "emotional abuse" shall include, but not be limited to, demanding, insisting or pressuring families in a manner that fails to exhibit sympathy, compassion or sensitivity to the emotional well-being of those involved.

§63-2200.21A. Effect of anatomical gift on advance health care directive.

A. As used in this section:

1. "Advance health care directive" means a power of attorney for health care or a record signed or authorized by a prospective donor containing the prospective donor's direction concerning a health care decision for the prospective donor;

2. "Declaration" means a record signed by a prospective donor specifying the circumstances under which a life support system may be withheld or withdrawn from the prospective donor; and

3. "Health care decision" means any decision regarding the health care of the prospective donor.

B. If a prospective donor has a declaration or advance health care directive and the terms of the declaration or directive and the express or implied terms of a potential anatomical gift are in conflict with regard to the administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy, the prospective donor's attending physician and prospective donor shall confer to resolve the conflict. If the prospective donor is incapable of resolving the conflict, an agent acting under the prospective donor's declaration or directive, or, if none or the agent is not reasonably available, another person authorized by law other than this act to make health care decisions on behalf of the prospective donor, shall act for the donor to resolve the conflict. The conflict must be resolved as expeditiously as possible. Information relevant to the resolution of the conflict may be obtained from the appropriate procurement organization and any other person authorized to make an anatomical gift for the prospective donor under Section 9 of this act. Before resolution of the conflict, measures necessary to ensure the medical suitability of the part may not be withheld or withdrawn from the prospective donor if withholding or withdrawing the measures is not contraindicated by appropriate end-of-life care.

§63-2200.22A. Cooperation between medical examiner and procurement organizations.

A. A medical examiner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education.

B. If a medical examiner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is going to be performed, unless the medical examiner denies recovery in accordance with Section 23 of this act, the medical examiner or designee shall conduct a postmortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the gift.

C. A part may not be removed from the body of a decedent under the jurisdiction of a medical examiner for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical examiner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a medical examiner from performing the medicolegal investigation upon the body or parts of a decedent under the jurisdiction of the medical examiner.

§63-2200.23A. Facilitation of anatomical gift from body of decedent under medical examiner's jurisdiction.

A. Upon request of a procurement organization, a medical examiner shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the medical examiner. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the medical examiner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the medical examiner only if relevant to transplantation, therapy, research or education.

B. The medical examiner may conduct a medicolegal investigation by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the medical examiner that the medical examiner determines may be relevant to the investigation.

C. A person who has any information requested by a medical examiner pursuant to subsection B of this section shall provide that information as expeditiously as possible to allow the medical examiner to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

D. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is not required, or the medical examiner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the medical examiner

and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

E. The medical examiner and procurement organizations shall enter into an agreement setting forth protocols and procedures to govern relations between the parties when an anatomical gift of a part from the decedent under the jurisdiction of the medical examiner has been or might be made, but the medical examiner believes that the recovery of the part could interfere with the postmortem investigation into the decedent's cause or manner of death. Decisions regarding the recovery of organs, tissue and eyes from such a decedent shall be made in accordance with the agreement. In the event that the medical examiner denies recovery of an anatomical gift, the procurement organization may request the Chief Medical Examiner to reconsider the denial and to permit the recovery to proceed. The parties shall evaluate the effectiveness of the protocols and procedures at regular intervals but no less frequently than every two (2) years.

F. If the medical examiner or designee allows recovery of a part under subsection D or E of this section, the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the medical examiner with a record describing the condition of the part, a biopsy, a photograph, and any other information and observations that would assist in the postmortem examination.

G. If a medical examiner or designee is required to be present at a removal procedure under subsection E of this section, upon request the procurement organization requesting the recovery of the part shall reimburse the medical examiner or designee for the additional costs incurred in complying with subsection E of this section.

In the case of a minor child, the term includes the parent or legal guardian of the child and, in the case of an incapacitated or partially incapacitated person, the legal guardian of that person;

2. "Degenerative and disabling condition or disease" means a condition or disease caused by a congenital or acquired injury or illness that requires a specialized rehabilitation program or a high level of care, service, resources or continued coordination of care in the community;

3. "Designee of the covered person" means an individual designated by the covered person to represent the interests of the covered person, including the covered person's provider;

4. "Managed care plan" means a plan operated by a managed care entity, including the Oklahoma State and Education Employees Group Insurance Board, that provides for the financing and delivery of health care services to persons enrolled in such plan through:

§63-2550.2. Referral to and treatment by specialist.

A. A managed care plan that has no participating provider for a covered benefit requiring a specialist shall arrange for a referral to a specialist with expertise in treating the covered benefit. The specialist shall agree to abide by the terms of the plan's provider contract if the terms are commensurate with the terms of contracts for similar specialists.

B. 1. A managed care plan shall include procedures by which a covered person in a managed care plan, upon diagnosis by a primary care provider of a condition that without specialized treatment would result in deleterious outcomes that would threaten life or limb or a degenerative and disabling condition or disease, either of which requires specialized medical care over a prolonged period of time, may be referred to a specialist with expertise in treating such condition or disease.

2. The specialist may be responsible for and may provide and coordinate the covered person's primary and specialty care only if the specialist is willing to abide by the terms of the plan's contract and capable of providing such care.

3. If the managed care plan, or the primary care provider in consultation with the managed care plan and the specialist, if any, determines that the most appropriate coordinator of the covered person's care is a specialist, the managed care plan shall authorize a referral of the covered person to the specialist. In no event shall a managed care plan be required to permit a covered person to elect treatment by a nonparticipating specialist, except pursuant to the provisions of subsection A of this section.

C. 1. A referral pursuant to this section shall be pursuant to a treatment plan agreed to by the managed care plan, the specialist and the primary care provider which complies with the covered benefits of the health plan and which is developed in consultation with the primary care provider, if appropriate, the specialist, and the covered person or the designee of the covered person.

2. Subject to the terms of the treatment plan agreed to by the managed care plan, the specialist and the primary care provider and subject to the terms of the plan's contract, a specialist shall be permitted to treat the covered person without a referral from the covered person's primary care provider and may authorize referrals, procedures, tests and other medical services as the covered person's primary care provider would otherwise be permitted to provide or authorize.

3. If a managed care plan refers a covered person to a nonparticipating specialist, services provided pursuant to the treatment plan shall be provided pursuant to the provisions of

subsection A of this section at no additional cost to the covered person beyond what the covered person would otherwise pay for services received within the network of the managed care plan.

D. A managed care plan shall implement procedures for a standing referral to a specialist if the primary care provider determines in consultation with the specialist and the managed care plan that a covered person needs continuing care from a specialist. The referral shall be made pursuant to a treatment plan that complies with covered benefits of the managed care plan.

Added by Laws 1999, c. 361, § 2, eff. Nov. 1, 1999.

§63-2550.3. Termination of participating providers - Procedures and conditions.

The procedures shall include assurance of continued coverage of services, at the contract terms and price by a terminated provider for up to ninety (90) calendar days from the date of notice to the covered person, for a covered person who:

1. Has a degenerative and disabling condition or disease;
2. Has entered the third trimester of pregnancy. Additional coverage of services by the terminated provider shall continue through at least six (6) weeks of postpartum evaluation; or
3. Is terminally ill.

B. 1. If a participating provider voluntarily chooses to discontinue participation as a network provider in a managed care plan, the managed care plan shall permit a covered person to continue an ongoing course of treatment with the disaffiliated provider during a transitional period:

- a. of up to ninety (90) days from the date of notice to the managed care plan of the provider's disaffiliation from the managed care plan's network, or
- b. that includes delivery and postpartum care if the covered person has entered the third trimester of pregnancy at the time of the provider's disaffiliation.

2. If a provider voluntarily chooses to discontinue participation as a network provider participating in a managed care plan, such provider shall give at least a ninety-day notice of the disaffiliation to the managed care plan. The managed care plan shall immediately notify the disaffiliated provider's patients of that fact.

3. Notwithstanding the provisions of paragraph 1 of this subsection, continuing care shall be authorized by the managed care plan during the transitional period only if the disaffiliated provider agrees to:

- a. continue to accept reimbursement from the managed care plan at the rates applicable prior to the start of the transitional period as payment in full,
- b. adhere to the managed care plan's quality assurance requirements and to provide to the managed care plan necessary medical information related to such care, and
- c. otherwise adhere to the managed care plan's policies and procedures, including, but not limited to, policies and procedures regarding referrals, and obtaining preauthorization and treatment plan approval from the managed care plan.

Added by Laws 1999, c. 361, § 3, eff. Nov. 1, 1999.

§63-2550.4. Nonformulary or prior-authorized drugs - Approval.

A. A managed care plan that has a closed formulary or that requires prior authorization to obtain certain drugs shall approve or disapprove a provider's or a covered person's request for a nonformulary drug or a drug that requires prior authorization within twenty-four (24) hours of receipt of such request.

B. If the managed care plan does not render a decision within twenty-four (24) hours, the provider or covered person shall be entitled to a seventy-two-hour supply of the drug. The managed care plan shall then approve or disapprove the request for a nonformulary drug or prior authorized drug within the additional seventy-two-hour period.

C. Failure of the managed care plan to respond within the subsequently allowed seventy-two-hour period shall be deemed as approval of the request for the nonformulary drug or prior authorized drug; provided, however, the approval shall be subject to the terms of the managed care plan's drug formulary; provided further, the purchase of the approved drug shall be at no additional cost to the covered person beyond what the covered person would otherwise pay for a prescription pursuant to the managed care plan.

D. All providers and covered persons in a managed care plan shall be provided with a copy of the plan's drug prior authorization process upon initial contracting or enrollment and at the time of enactment of any subsequent changes to the process.

§63-2602. Right of self-consent under certain conditions - Doctor patient privileges

2. Any minor who is separated from his parents or legal guardian for whatever reason and is not supported by his parents or guardian;
3. Any minor who is or has been pregnant, afflicted with any reportable communicable disease, drug and substance abuse or abusive use of alcohol; provided, however, that such self-consent only applies to the prevention, diagnosis and treatment of those conditions specified in this section. Any health professional who accepts the responsibility of providing such health services also assumes the obligation to provide counseling for the minor by a health professional. If the minor is found not to be pregnant nor suffering from a communicable disease nor drug or substance abuse nor abusive use of alcohol, the health professional shall not reveal any information whatsoever to the spouse, parent or legal guardian, without the consent of the minor;
4. Any minor parent as to his child;

If any minor falsely represents that he may give consent and a health professional provides health services in good faith based upon that misrepresentation, the minor shall receive full services without the consent of the minor's parent or legal guardian and the health professional shall incur no liability except for negligence or intentional harm. Consent of the minor shall not be subject to later disaffirmance or revocation because of his minority.

B. The health professional shall be required to make a reasonable attempt to inform the spouse, parent or legal guardian of the minor of any treatment needed or provided under paragraph 7 of subsection A of this section. In all other instances the health professional may, but shall not be required to inform the spouse, parent or legal guardian of the minor of any treatment needed or provided. The judgment of the health professional as to notification shall be final, and his disclosure shall not constitute libel, slander, the breach of the right of privacy, the breach of the rule

of privileged communication or result in any other breach that would incur liability.

Information about the minor obtained through care by a health professional under the provisions of this act shall not be disseminated to any health professional, school, law enforcement agency or official, court authority, government agency or official employer, without the consent of the minor, except through specific legal requirements or if the giving of the information is necessary to the health of the minor and public. A copy of the plan required by this subsection shall be filed with the Department of Public Safety.

B. If any public agency has implemented or is a part of a system which would be authorized by this act on the effective date of this act such public agency may submit in lieu of the tentative or final plan a report describing the system and stating its operational date.

C. Plans filed pursuant to subsection A of this section shall conform to minimum standards established pursuant to Section 6 of this act.

In implementing systems pursuant to this act, all public agencies in a single system may annually enter into a joint powers agreement or any other form of written cooperative agreement which is applicable when need arises on a day-to-day basis. Every employee of every public safety agency which is a participant in a system may respond and take any action to any call whether within or without the authorized territorial jurisdiction of the public safety agency. In response to emergency calls, employees of public safety agencies shall have the same immunity for any acts performed in the line of duty outside their authorized jurisdiction as they enjoy within it. No cause of action shall be created by any incorrect dispatch or response by any system or any public safety agency.

§63-2811. Short title.

This act shall be known and may be cited as the "Nine-One-One Emergency Number Act".

Added by Laws 1986, c. 230, § 1, emerg. eff. June 10, 1986.

§63-2812. Purpose.

It is the purpose of the Nine-One-One Emergency Number Act, Section 2811 et seq. of this title, to establish the telephone number nine-one-one (911) as the primary emergency telephone number for use in this state and to encourage units of local governments and combinations of such units to develop and improve emergency communication procedures and facilities in order to expedite the response of law enforcement, fire, medical, rescue, and other

emergency services to any person requiring such assistance. The Legislature finds and declares that:

1. It is in the public interest to shorten the time required for a citizen to request and receive emergency aid;

2. Thousands of different emergency telephone numbers exist throughout the state, and telephone exchange boundaries and central office service areas do not necessarily correspond to political boundaries;

3. Provision of a single, primary three-digit emergency number through which emergency services can be quickly and efficiently obtained would provide a significant contribution to law enforcement and other public safety efforts by making it less difficult to quickly notify public safety personnel.

Added by Laws 1986, c. 230, § 2, emerg. eff. June 10, 1986. Amended by Laws 1988, c. 130, § 1, emerg. eff. April 13, 1988.

§63-2814. Political subdivisions authorized to operate emergency telephone service - Service fee - Election.

A. In addition to other powers for the protection of the public health, a governing body may provide for the operation of an emergency telephone service and may impose an emergency telephone fee, as provided in this section, for emergency telephone service in areas, subject to the jurisdiction of the governing body. The governing body may do such other acts as are necessary for the protection and preservation of the public health if necessary for the operation of the emergency telephone system.

B. The governing body is hereby authorized, by ordinance in the case of municipalities and by resolution in the case of counties or a combined governing body, to provide for the operation of emergency telephone service and to impose an emergency telephone fee in the area to be served by the system. The ordinance or resolution shall submit to the voters in the area to be served the question of the imposition of emergency telephone service and the amount of the emergency telephone fee. The ordinance or resolution shall propose the amount of the emergency telephone fee to begin the second year and for each year thereafter, in an amount not greater than fifteen percent (15%) of the tariff rate, and shall call for an election to

be held within one (1) year from the date the ordinance or resolution is adopted.

The ordinance or resolution shall also provide for the collection of an amount not to exceed five percent (5%) of the tariff rate in areas subject to the jurisdiction of the governing body for a period of no longer than one (1) year. The one (1) year, five percent (5%) fee shall be a part of, not an addition to, the fee set by the voters. The collection of the five percent (5%) fee may begin, prior to the election, within thirty (30) days after the resolution or ordinance becomes effective. The one (1) year, five percent (5%) fee shall be used to provide for the cost of conducting the election to set the emergency telephone fee and any initial or start-up cost necessary to implement the emergency telephone service. If the fee is not approved by the electors, any remaining money collected during the first year shall be distributed to the local exchange telephone company and then shall be refunded to each service user charged on a pro rata basis.

C. Within sixty (60) days of the publication of the resolution adopted pursuant to subsection B of this section, there may be filed with the county election board of the affected county or counties a petition signed by not less than three percent (3%) of the total number of votes cast in the next preceding general election of the county or affected area.

Within sixty (60) days of publication of an ordinance adopted by a municipality pursuant to subsection B of this section, there may be filed with the county election board of the county in which the municipality is located a petition signed by not less than three percent (3%) of the total number of votes cast in the next preceding election of the city.

The petitions may request that the question of the installation and operation of emergency telephone service and imposition of the one (1) year, five percent (5%) emergency telephone fee as called for in the resolution or ordinance be disapproved.

Upon determination of the sufficiency of the petition and certification by the county election board or boards, the proposition shall be submitted to the qualified voters of the county, municipality or area to be served not less than sixty (60) days following the certification of the petition.

If a majority of the votes cast in an election held pursuant to subsection B of this section disapprove the operation of emergency telephone service and imposition of an emergency telephone fee or a majority of the votes cast disapprove the one (1) year, five percent (5%) emergency telephone fee, upon certification of the election results by the county election board or boards, the resolution or ordinance shall not take effect and the emergency telephone service and the emergency telephone fee called for in the resolution or ordinance shall not be imposed. If the resolution or ordinance is

disapproved by the electors, any remaining money collected during the first year shall be distributed to the local exchange telephone company and then shall be refunded to each service user charged on a pro rata basis.

D. If the governing board does not take action to provide for the operation of emergency telephone service and to impose an emergency telephone fee as provided in subsection B of this section, there may be filed with the county election board or boards of the affected area a petition signed by not less than three percent (3%) of the total numbers of votes cast in the next preceding election of the affected area.

The petition shall request that the question of the installation and operation of emergency telephone service and imposition of a fee in an amount not greater than fifteen percent (15%) of the tariff rate be submitted to the qualified voters of the county, municipality or area to be served. Upon determination of the sufficiency of the petition and certification by the county election board or boards, the proposition shall be submitted to the qualified voters of the county, municipality or area to be served not less than sixty (60) days following the certification of the petition.

If a majority of the votes cast at an election held pursuant to this subsection approve the installation and operation of emergency telephone service and imposition of an emergency telephone fee the governing body shall provide for the installation and operation of the service, impose the approved fee and provide for the governance of the system. If the affected area is governed by two or more governmental entities the governing bodies of each shall enter into an agreement in accordance with the Interlocal Cooperative Act to provide for the governance of the system.

E. Any fee imposed by a county or combined governing body shall not apply to any portion of the county located within the boundaries of a municipality or other governmental entity also imposing an emergency telephone fee pursuant to the provisions of the Nine-One-One Emergency Number Act. The approved emergency telephone fee shall be effective upon certification of the election results by the county election board or boards. Except as provided for in subsections G and I of this section, an emergency telephone fee imposed prior to the effective date of this act shall continue at the established amount until an election to change the fee is called as provided for in this section.

F. If a majority of the votes cast at an election held pursuant to subsection B of this section approve the installation and operation of emergency telephone service and imposition of an emergency telephone fee, the governing body shall provide for the installation and operation of the service and impose the approved fee. The initial five percent (5%) fee, established by resolution or an ordinance, as provided pursuant to the provisions of subsection B

of this section shall remain in effect for the remainder of the first year.

G. The emergency telephone fee approved pursuant to the provisions of this section shall be reviewed at least once each calendar year by the governing body which shall, in accordance with subsection D of Section 2815 of this title, establish the amount of the fee for the next calendar year, not to exceed the amount set by the electors. The governing body shall have the power and authority to reduce the emergency telephone fee being paid by the service users of the emergency telephone system to the estimated amount needed for the annual operation and maintenance of the system. If the governing body makes a reduction and in a subsequent year determines it is necessary to increase the fee to operate and maintain the system, the governing body may raise the fee up to an amount not to exceed the amount previously set by the electors. Any fee imposed by the electors of a county, municipality or area served shall remain at the amount approved by the electors until a new vote of the electors is conducted in the manner for which an election may be conducted to impose a fee as provided for in this section. The proceeds of the fee shall be utilized to pay for the operation of emergency telephone service as specified in this section. Collection of the fee may begin at any time if an existing service is already operative or at any time subsequent to execution of a contract with the provider of the emergency telephone service at the discretion of the governing body.

H. If the fee approved by the voters is less than fifteen percent (15%) and the governing body determines there exists a need for ancillary communications systems necessary to communicate the reported emergency to the appropriate emergency service and personnel and the governing body also determines that the fee set by the electors is not sufficient to fund the ancillary communications systems, the governing body may by resolution or ordinance call an election to submit the question of raising the voter-approved fee in a sufficient amount, not to exceed fifteen percent (15%), for such additional time as determined by the governing body it is necessary to purchase the ancillary communications equipment. The vote shall be conducted in the manner provided for in subsection B of this section.

I. A governing body with an existing emergency telephone service system in operation prior to the effective date of this act may by ordinance or resolution restore the emergency telephone fee set at three percent (3%) to an amount not to exceed five percent (5%) of the tariff rate for such additional time as is necessary to fund ancillary communications equipment necessary to communicate the reported emergency to the appropriate emergency service and personnel.

Within sixty (60) days of the publication of the resolution adopted pursuant to this subsection, there may be filed with the county election board of the affected county or counties a petition signed by not less than three percent (3%) of the total number of votes cast in the next preceding general election of the county or affected area.

Within sixty (60) days of publication of an ordinance adopted by a municipality pursuant to this subsection, there may be filed with the county election board of the county in which the municipality is located a petition signed by not less than three percent (3%) of the total number of votes cast in the next preceding election of the city.

The petitions may request that the question of restoring the emergency telephone fee to an amount not to exceed five percent (5%) of the tariff rate to fund ancillary communications equipment be submitted to the qualified voters of the county, municipality or area to be served.

Upon determination of the sufficiency of the petition and certification by the county election board or boards, the proposition shall be submitted to the qualified voters of the county, municipality or area to be served not less than sixty (60) days following the certification of the petition. If a majority of the votes cast at the election are for restoring the emergency telephone fee to an amount not to exceed five percent (5%) of the tariff rate to fund ancillary communications equipment, the resolution or ordinance restoring the fee shall become effective. The increase of the fee may be implemented within thirty (30) days after the resolution or ordinance becomes effective.

J. The tariff rate used for initial calculation of the emergency telephone service fee shall remain static for the purpose of calculating future fees for emergency telephone service. Therefore, future rate changes for emergency telephone service shall be stated as a percentage of the initial tariff rate.

K. The emergency telephone fee shall be imposed only upon the amount received from the tariff for exchange telephone service or its equivalent. No fee shall be imposed upon more than one hundred exchange access lines or their equivalent per person per location.

L. Every billed service user shall be liable for any fee imposed pursuant to this section until it has been paid to the local exchange telephone company.

M. The duty to collect any fee imposed pursuant to the authority of the Nine-One-One Emergency Number Act from a service user shall commence at a time specified by the governing body. Fees imposed pursuant to this section that are required to be collected by the local exchange telephone company shall be added to and shall be stated separately in the billings to the service user.

N. The local exchange telephone company shall have no obligation to take any legal action to enforce the collection of any fee imposed pursuant to authority of this section, however, should any service user tender a payment insufficient to satisfy all charges, tariffs, fees and taxes for exchange telephone service, the amount tendered shall be credited to the emergency telephone fee in the same manner as other taxes and fees. The local exchange telephone company shall annually provide the governing body with a list of amounts uncollected along with the names and addresses of those service users which carry a balance that can be determined by the local exchange telephone company to be nonpayment of any fee imposed pursuant to the authority of this section.

O. Any fee imposed pursuant to the authority provided by this section shall be collected insofar as practicable at the same time as, and along with, the charges for exchange telephone service in accordance with the regular billing practice of the local exchange telephone service. The tariff rates determined by or stated in the billing of the local exchange telephone company shall be presumed to be correct if such charges were made in accordance with the business practices of the local exchange telephone company. The presumption may be rebutted by evidence which establishes that an incorrect tariff rate was charged.

Added by Laws 1986, c. 230, § 4, emerg. eff. June 10, 1986. Amended by Laws 1988, c. 130, § 3, emerg. eff. April 13, 1988; Laws 1990, c. 125, § 1, emerg. eff. April 24, 1990; Laws 1993, c. 67, § 1; Laws 1995, c. 350, § 2, eff. July 1, 1995.

§63-2815. Due date of fee - Penalty for late payment - Filing of return - Determination of fee - Audit - Governing bodies, boards.

A. Any fee imposed pursuant to Section 2814 of this title and the amounts required to be collected are due monthly. The amount of fee collected in one (1) month by the local exchange telephone company shall be remitted to the governing body no later than thirty (30) days after the close of the month in which such fees were collected. In the event the fee collected is not remitted by the local exchange telephone company or by a competitive local exchange company, as both are defined in Section 139.102 of Title 17 of the Oklahoma Statutes, to the governing body within thirty (30) days after the close of the month in which such fees were collected, then the local exchange telephone company shall remit a penalty to the governing body. The penalty shall be equal to ten percent (10%) of the original unremitted fee, payable on the first day of each month the fee remains delinquent. All fees collected by the local exchange telephone company and remitted to the governing body and any other money collected to fund the emergency telephone system shall be deposited in a special nine-one-one account established by the governing body, and shall be used only to fund the expenditures

authorized by the Nine-One-One Emergency Number Act. The governing body shall account for all disbursements from the account and shall not allow the funds to be transferred to another account not specifically established for the operation of the emergency telephone system.

B. On or before the last day of each month, a return for the preceding month shall be filed with the governing body in a form the governing body and the local exchange telephone company agree to. The local exchange telephone company required to file the return shall deliver the return together with a remittance of the amount of the fee payable to the treasurer or other person responsible to the governing body for receipt of payments from the fee. The local exchange telephone company shall maintain records of the amount of any fee collected in accordance with the provisions of the Nine-One-One Emergency Number Act. The records shall be maintained for a period of one (1) year from the time the fee is collected.

C. From every remittance of the collected fee to the governing body made on or before the date when the same becomes due, the local exchange telephone company required to remit the fee shall be entitled to deduct and retain for administrative costs, an amount not to exceed three percent (3%) of the first five percent (5%) of the emergency telephone fee.

D. At least once each calendar year, the governing body shall establish the fee for the subsequent year in an amount not to exceed the amount approved by the voters as provided by the provisions of Section 2814 of this title that, together with any surplus revenues, will produce sufficient revenues to fund the expenditures authorized by the Nine-One-One Emergency Number Act. Amounts collected in excess of that necessary within a given year shall be carried forward to subsequent years. The governing body shall make the determination of the fee amount no later than September 1 of each year and shall fix the new fee to take effect commencing with the first billing period of each service user on or following the next January 1. Immediately upon making its determination and fixing the fee, the governing body shall publish in its minutes the new fee, and it shall, at least ninety (90) days before the new fee shall become effective, notify by certified mail every local exchange telephone company providing emergency telephone service to areas within the jurisdiction of the governing body. The governing body may at its own expense require an annual audit of the books and records of the local exchange telephone company concerning the collection and remittance of the fee authorized by the Nine-One-One Emergency Number Act.

E. The governing body shall be required to have conducted separately or as a part of the annual audit required by law of the municipality or county an annual audit of any accounts established or used by the governing body for the operation of an emergency

telephone system. The audit may be conducted by the State Auditor and Inspector at the discretion of the governing body. All audits shall be conducted in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. A copy of the audit shall be filed with the State Auditor and Inspector and action taken in accordance with Section 212A of Title 74 of the Oklahoma Statutes. The audit of the emergency telephone system accounts may be paid for and be considered a part of the operating expenses of the emergency telephone system.

F. The governing body shall meet at least quarterly to oversee the operations of the emergency telephone system, review expenditures, set and approve an operating budget and take such other action as necessary for the operation and management of the system. The records and meetings of the governing body shall be subject to the Oklahoma Open Meeting Act and the Oklahoma Open Records Act.

G. A governing body made up of two or more governmental entities shall have a board consisting of not less than three members; provided, the board shall consist of at least one member representing each governmental entity, appointed by the governing body of each participating governmental entities, as set forth in the agreement forming the board. The members shall serve for terms of not more than three (3) years as set forth in the agreement. Members may be appointed to serve more than one term. The names of the members of the governing body board and the appointing authority of each member shall be maintained in the office of the county clerk in the county or counties in which the system operates, along with copies of the agreement forming the board and any amendments to that agreement. H. The wireless service provider or VoIP provider shall maintain records of the amount of 9-1-1 telephone fees collected in accordance with the provisions of the Oklahoma 9-1-1 Management Authority Act for a period of three (3) years from the time the fee is collected. Auditors shall have access to all information used by the wireless service provider or VoIP provider to calculate and remit the 9-1-1 telephone fee. Audit expenses shall be reimbursable pursuant to procedures established by the Oklahoma 9-1-1 Management Authority if the audit is approved by the Authority.

I. The wireless service provider or VoIP provider shall provide to the Oklahoma 9-1-1 Management Authority an annual census showing the primary place of use of its subscribers located by county and either a municipality or unincorporated area. The amount of the prepaid 9-1-1 wireless fee shall either be separately stated on the invoice, receipt or similar document that is provided to the consumer by the seller, or otherwise disclosed to the consumer.

D. The prepaid 9-1-1 wireless telephone fee is the liability of the consumer and not of the seller or of any provider, except that the seller shall be liable to remit all prepaid 9-1-1 wireless telephone fees that the seller collects as provided in this section, including all charges that the seller is deemed to collect where the amount of the fee has not been separately stated on an invoice, receipt or other similar document.

E. If the amount of the prepaid 9-1-1 wireless telephone fee is separately stated on the invoice, receipt or similar document, the prepaid 9-1-1 wireless telephone fee shall not be included in the base for measuring any tax, fee, surcharge or other charge that is imposed by the state, any political subdivision of this state or any intergovernmental agency.

service account established by a public agency or its governing body to carry out the requirements of this act. Monies remaining in such accounts at the end of a fiscal year shall carry over to subsequent years. The monies deposited in the Oklahoma 9-1-1 Management Authority Revolving Fund shall at no time be monies of the state and shall not become part of the general budget of the Office of Emergency Management or any other state agency. Except as otherwise authorized by this act, no monies from the Oklahoma 9-1-1 Management Authority Revolving Fund shall be transferred for any purpose to any other state agency or any account of the Office of Emergency Management or be used for the purpose of contracting with any other state agency or reimbursing any other state agency for any expense. F. The Authority shall have the power to review, approve, submit for further information or deny approval of the annual report of each

public agency required pursuant to subsection E of this section. Failure by a public agency to submit the report annually or denial of a report may cause the Authority to order the Tax Commission to escrow the 9-1-1 emergency telephone fees due to the public agency until the public agency complies with the requirements of the Oklahoma 9-1-1 Management Authority Act and the procedures established by the Authority.

G. The governing body of the public agency shall meet at least quarterly to oversee the operations of the 9-1-1 emergency telephone system, review expenditures and annually set and approve an operating budget, and take any other action as necessary for the operation and management of the system.

B. It is the purpose of the Regional Emergency 9-1-1 Services Act to encourage formation of emergency communication districts in order to provide efficient delivery of emergency 9-1-1 service throughout the state.

C. This act shall not apply to any 9-1-1 system or public agency participating in a 9-1-1 system that was established prior to January 1, 2017, and that had adopted Phase II 9-1-1 service by that date.

D. For the purposes of this section:

2. "Emergency communication district" means a district formed pursuant to this act to deliver emergency 9-1-1 services on a regional basis;

5. "Principal municipality" means the municipality with the largest population in a district; and

6. "Public agency" means any city, town, county, municipal corporation, public district, public trust, substate planning district, public authority or tribal authority located within this state which provides or has authority to provide firefighting, law enforcement, ambulance, emergency medical or other emergency services.

E. On or before December 31, 2017, all public agencies in this state shall form regional emergency communication districts for the purpose of creating an area-wide emergency 9-1-1 system for their respective jurisdictions. The territory of the district shall be coextensive with the territory of the regional substate planning district unless a different territory is approved by the Oklahoma 9-1-1 Management Authority. If a public agency is situated in more than one such territory, it shall become part of the district in which it is principally located. If, due to the effect of subsection C of this section, the majority of the participating public agencies located in the territory of a proposed district determine that it would be in the best interests of their citizens, they may request inclusion in an adjacent district.

F. The public agencies to be included in each district may form the district by entering into local cooperative agreements which

shall establish a governance structure and provide for the joint implementation, funding, operation, and management of the district.

G. If the public agencies in a region are unable to develop a local cooperative agreement by December 31, 2017, they shall be included in an emergency communication district that is governed by a board of directors consisting of an appointee by each public agency that was authorized by its voters to fund a 9-1-1 system prior to the formation of the district, one appointee elected by a majority of the remaining public agencies in the district, and an additional appointee by the principal municipality in the district who shall serve as chair of the board.

H. Unless otherwise provided by agreement, any participating public agency that had been authorized by its voters to fund a 9-1-1 system prior to the formation of the district shall retain control of the property, operation, and funding of its system; provided, however, the district may contract with such participating public agency to include the agency's system in the district's master implementation plan. To the extent practicable, the district shall not duplicate the equipment or answering point services already provided by a participating public agency. A user of one or more communication services subject to the payment of fees or taxes for an emergency 9-1-1 system shall not be charged for more than one such fee or tax for each service.

I. An emergency communication district shall have power to make all contracts to carry out the purposes of the Regional Emergency 9-1-1 Services Act, purchase and convey real property, impose service fees authorized for public agencies for the provision of 9-1-1 service, appoint a manager of the district, and adopt rules and policies for the operation of the district.

J. Within one (1) year after the effective date of the formation of the district, the board of directors shall submit its master plan to deliver Phase II emergency 9-1-1 service throughout its territory to the Oklahoma 9-1-1 Management Authority for approval. The Authority shall have the power to prescribe the terms of the plan and to approve or disapprove the master plan. Additionally, the Authority shall have the power to request the Tax Commission to escrow the wireless fees attributable to the public agencies which have not submitted a master plan or which have not complied with the terms of the master plan.

K. An emergency communication district shall operate on a fiscal year beginning July 1. It shall adopt an annual budget and cause to be prepared an independent financial audit annually. As soon as practicable after the end of the fiscal year, the district shall deliver to each participating public agency an annual report showing in detail the operations of the district.

§63-3101. Repealed by Laws 1992, c. 114, § 20, eff. Sept. 1, 1992.

§63-3101.1. Short title.

Sections 3101.1 through 3101.16 of this title shall be known and may be cited as the "Oklahoma Advance Directive Act".
Added by Laws 1992, c. 114, § 1, eff. Sept. 1, 1992. Amended by Laws 2006, c. 171, § 3, emerg. eff. May 17, 2006.

§63-3101.2. Purpose - Protection for proxies and health care providers - Certain acts not condoned, authorized or approved.

A. The purpose of the Oklahoma Advance Directive Act is to:

1. Recognize the right of individuals to control some aspects of their own medical care and treatment, including but not limited to the right to decline medical treatment or to direct that it be withdrawn, even if death ensues;

2. Recognize that the right of individuals to control some aspects of their own medical treatment is protected by the Constitution of the United States and overrides any obligation the physician and other health care providers may have to render care or to preserve life and health;

3. Recognize that decisions concerning one's medical treatment involve highly sensitive, personal issues that do not belong in court, even if the individual is incapacitated, so long as a proxy decision-maker can make the necessary decisions based on the known intentions, personal views, or best interests of the individual. If evidence of the individual's wishes is sufficient, those wishes should control; if there is not sufficient evidence of the individual's wishes, the proxy's decisions should be based on the proxy's reasonable judgment about the individual's values and what the individual's wishes would be based upon those values. The proper role of the court is to settle disputes and to act as the proxy decision-maker of last resort when no other proxy is authorized by the individual or is otherwise authorized by law;

4. Restate and clarify the law to ensure that the individual's advance directive for health care will continue to be honored during incapacity without court involvement; and

5. Encourage and support health care instructions by the individual in advance of incapacity and the delegation of decision-making powers to a health care proxy.

B. To be sure that the individual's health care instructions and proxy decision-making will be effective, the Oklahoma Advance Directive Act also includes necessary and appropriate protection for proxies and health care providers who rely in good faith on the instructions of the individual and the decisions of an authorized proxy.

If those within a class disagree, a majority within the class may make a health care decision for the patient. Upon motion by any party, the court shall issue an order requiring that pending its decision on the merits and the resolution of any appeal the patient be provided with health care of which denial, in reasonable medical judgment, would be likely to result in or hasten the death of the patient, unless its provision would require denial of the same health care to another patient. The classes are as follows:

1. A general guardian of the person appointed pursuant to subsection A of Section 3-112 of Title 30 of the Oklahoma Statutes or a limited guardian of the person appointed pursuant to subsection B of Section 3-112 of Title 30 of the Oklahoma Statutes with authority to make personal medical decisions as determined under paragraph 5 of subsection B of Section 3-113 of Title 30 of the Oklahoma Statutes;

It is especially important to read the sections on CPR and food and fluids, which have summaries of Oklahoma laws that may control the directions you may give. POLST records your wishes for medical treatment in your current state of health. Once initial medical treatment is begun and the risks and benefits of further therapy are clear, your treatment wishes may change. Your medical care and this form can be changed to reflect your new wishes at any time. However, no form can address all the medical treatment decisions that may need to be made. An advance health care directive is recommended, regardless of your health status. An advance directive allows you to document in detail your future health care instructions and/or name a health care agent to speak for you if you are unable to speak for yourself.

The State of Oklahoma affirms that the lives of all are of equal dignity regardless of age or disability and emphasizes that no one should ever feel pressured to agree to forego life-preserving medical treatment because of age, disability or fear of being regarded as a burden.

If this form is for a minor for whom you are authorized to make health care decisions, you may not direct denial of medical treatment in a manner that would violate the child abuse and neglect laws of Oklahoma. In particular, you may not direct the withholding of medically indicated treatment from a disabled infant with life-threatening conditions, as those terms are defined in 42 U.S.C., Section 5106g or regulations implementing it and 42 U.S.C., Section 5106a."

POLST must be reviewed and signed by a physician to be valid. Be sure to document the basis for concluding the patient had or lacked capacity at the time of execution of the form in the patient's medical record. If the patient lacks capacity, any current advance directive form must be reviewed and the patient's representative and physician must both certify that POLST complies with it. The signature of the patient or the patient's representative is required; however, if the patient's representative is not reasonably available to sign the original form, a copy of the completed form with the signature of the patient's representative must be placed in the medical record as soon as practicable and "on file" must be written on the appropriate signature line on this form.",

- b. the second subdivision, entitled "IMPLEMENTING POLST", shall have the following language:

"If a minor protests a directive to deny the minor life-preserving medical treatment, the denial of treatment may not be implemented pending issuance of a judicial order resolving the conflict. - c. the third subdivision, entitled "REVIEWING POLST", shall have the following language:

"This POLST must be reviewed at least annually or earlier if:

The same requirements for participation of the patient or patient's representative, and signature by both a physician and the patient or the patient's representative, that are described under "COMPLETING POLST" shall also apply when POLST is reviewed, and must be documented in Section I.

10. Section H of the form, which shall have the heading, in bold, "REVOCATION OF POLST", shall have the following language, with the words specified below appearing in bold on the form:

"If POLST is revised or becomes invalid, write in bold the word "VOID" in large letters on the front of the form. After voiding the form a new form may be completed. A patient with capacity or the individual or individuals authorized to sign on behalf of the patient in Section E of this form may void this form. If no new form is completed, full treatment and resuscitation is to be provided, except as otherwise authorized by Oklahoma law."

11. Section I of the form, which shall have the heading, in bold, "REVIEW SECTION", followed by: "Periodic review confirms current form or may require completion of new form," shall include the following columns and a number of rows determined by the Office of the Attorney General:

- a. Date of Review,

If the Court is satisfied that the bonds have been properly authorized in accordance with the Oklahoma State University Medical Authority Act, and that when issued such bonds will constitute valid obligations in accordance with their terms, the Court shall render its written opinion approving the bonds and shall fix the time within which the petition for rehearing may be filed. The decision of the Court shall be a judicial determination of the validity of the bonds, shall be conclusive as to the Authority of the Trust, its officers and agents, and thereafter the bonds so approved and the revenues pledged to their payment shall be incontestable in any court in the State of Oklahoma.

A. 1. Except for a security interest in vessels or motors held by a dealer for sale or lease, a security interest, as defined in paragraph (37) of Section 1-201 of Title 12A of the Oklahoma Statutes, in a vessel or motor as to which a certificate of title may be properly issued by the Oklahoma Tax Commission shall be perfected only when a lien entry form prescribed by the Tax Commission, and the existing certificate of title, if any, or application for a certificate of title and manufacturer's certificate of origin or other identification number containing the name and address of the secured party and the date of the security agreement and the required fee are delivered to the Tax Commission or to a motor license agent. The filing and duration of perfection of a security interest, pursuant to the provisions of Title 12A of the Oklahoma Statutes, including, but not limited to, Section 1-9-311 of Title 12A of the Oklahoma Statutes, shall not be applicable to perfection of security interests in vessels or motors as to which a certificate of title may be properly issued by the Tax Commission, except as to vessels or motors held by a dealer for sale or lease and except as provided in subsection D of this section. In all other respects Title 12A of the Oklahoma Statutes shall be applicable to such security interests in vessels or motors as to which a certificate of title may be properly issued by the Tax Commission.

2. Whenever a person creates a security interest in a vessel or motor, such person shall surrender to the secured party the certificate of title or the signed application for a new certificate of title, on the form prescribed by the Tax Commission, and the manufacturer's certificate of origin or other identification number. The secured party shall deliver the lien entry form and the required lien filing fee within twenty-five (25) calendar days as provided hereafter with certificate of title or the application for certificate of title, and the manufacturer's certificate of origin or other identification number to the Tax Commission or to a motor license agent. Perfection of the security interest shall begin from the date of the delivery to the Tax Commission or to a motor license agent of (i) the lien entry form, (ii) the lien filing fee, and (iii) the certificate of title or application for certificate of title and the manufacturer's certificate of origin or other identification number. When a vessel or motor title is presented to a motor license agent for transfer or registration and the documents reflect a lienholder, the motor license agent shall perfect the lien as

provided for in subsection G of Section 1105 of Title 47 of the Oklahoma Statutes.

3. Upon the receipt of the lien entry form and the required fees with either the certificate of title or an application for certificate of title and manufacturer's certificate of origin or other identification number, a motor license agent shall, by placement of a clearly distinguishing mark, record the date and number shown in a conspicuous place, on each of these instruments.

4. The certificate of title or the application for certificate of title and manufacturer's certificate of origin or other identification number with the record of the date of receipt clearly marked thereon shall be returned to the debtor together with a notice that the debtor is required to register and pay all additional fees and taxes due within thirty (30) calendar days from the date of purchase of said vessel or motor.

5. Any person creating a security interest in a vessel or motor that has been previously registered in the debtor's name and on which all taxes due the state have been paid shall surrender the certificate of ownership to the secured party. The secured party shall have the duty to record the security interest as provided in this section and shall, at the same time, obtain a new certificate of title which shall show the secured interest on the face of such certificate of title.

6. The lien entry form with the date and assigned number thereof clearly marked thereon shall be returned to the secured party. If the lien entry form is received and authenticated, as herein provided, by a motor license agent, such agent shall make a report thereof to the Tax Commission upon the forms and in the manner as may be prescribed by the Tax Commission.

7. The Tax Commission shall have the duty to record the lien upon the face of the certificate of title issued at the time of registering and paying all fees and taxes due on such vessel or motor.

B. 1. A secured party shall, within seven (7) business days after the satisfaction of such security interest, furnish directly or by mail a release of a security interest to the Tax Commission and mail a copy thereof to the last-known address of the debtor. If the security interest has been satisfied by payment from a licensed used boat dealer to whom the used vessel or motor has been transferred, the secured party shall also, within seven (7) business days after such satisfaction, mail a certified copy of copy number one of the release of security interest to such dealer. If the secured party fails to furnish such release as herein required, the secured party shall be liable to the debtor for a penalty of One Hundred Dollars (\$100.00) and, in addition, any loss caused to the debtor by such failure.

2. Upon release of a security interest the owner may obtain a new certificate of title omitting reference to the security interest, by submitting to the Tax Commission or to a motor license agent:

- a. a release signed by the secured party, an application for new certificate of title and the proper fees, or
- b. by submitting to the Tax Commission or the motor license agent an affidavit, supported by such documentation as the Tax Commission may require, by the owner on a form prescribed by the Tax Commission stating that the security interest has been satisfied and stating the reasons why a release cannot be obtained, an application for a new certificate of title and the proper fees.

Upon receiving such affidavit that the security interest has been satisfied, the Tax Commission shall issue a new certificate of title eliminating the satisfied security interest and the name and address of the secured parties who have been paid and satisfied. The Tax Commission shall accept a release of a security interest in any form that identifies the debtor, the secured party, and the vessel or motor and contains the signature of the secured party. The Tax Commission shall not require any particular form for the release of a security interest.

The words "security interest" when used in the Oklahoma Vessel and Motor Registration Act do not include liens dependent upon possession.

C. The Tax Commission shall file and index certificates of title so that at all times it will be possible to trace a certificate of title to the vessel or motor designated therein, identify the lien entry form, and the names and addresses of secured parties, or their assignees, so that all or any part of such information may be made readily available to those who make legitimate inquiry of the Tax Commission as to the existence or nonexistence of security interest in the vessel or motor.

D. 1. Any security interest in a vessel or motor properly perfected prior to January 1, 1990, may be continued as to its effectiveness or duration as provided by Section 1-9-515 of Title 12A of the Oklahoma Statutes, or may be terminated, assigned or released as provided by Sections 1-9-513 and 1-9-514 of Title 12A of the Oklahoma Statutes, as fully as if this section had not been enacted, or, at the option of the secured party, may also be perfected under this section, and, if so perfected, the time of perfection under this section shall be the date said security interest was originally perfected under the prior law.

2. Upon request of the secured party, the debtor or any other holder of the certificate of title shall surrender said certificate of title to the secured party and shall do such other acts as may be required to perfect said security interest under this section.

A manufacturer or distributor may refuse to honor the existing dealer agreement with the designated successor for good cause or criteria agreed to in the existing dealer agreement, and may require the designated successor

1. Has a blood or breath alcohol concentration of eight-hundredths (0.08) or more at the time of a test of the person's blood or breath;

2. Is under the influence of any other intoxicating substance to a degree which renders such person incapable of safely operating a vessel upon the waters of this state; or

3. Is under the influence of alcohol and any other intoxicating substance to a degree which renders such person incapable of safely operating a vessel upon the waters of this state.

As used in this section, "other intoxicating substance" means any controlled dangerous substance as defined in the Uniform Controlled Dangerous Substances Act or any other substance, other than alcohol, which is capable of being ingested, inhaled, injected or absorbed into the human body and is capable of adversely affecting the central nervous system, vision, hearing or other sensory or motor functions.

B. 1. Any person operating a vessel upon the waters of this state, except privately owned waters, shall be deemed to have given consent to a test or tests of such person's blood, breath, saliva or urine for the purpose of determining the presence and concentration of alcohol or any other intoxicating substance. §63-4210.9. Implied consent to administer drug or alcohol test.

A. 1. Any person who operates a vessel upon the waters of this state shall be deemed to have given consent to a test or tests of the blood or breath of the person, for the purpose of determining the alcohol concentration as defined in Section 7 of this act, and the blood, saliva or urine of the person, for the purpose of determining the presence or concentration of any other intoxicating substance as defined in this section, if arrested for any offense arising out of acts alleged to have been committed while the person was operating or in actual physical control of a vessel upon the waters of this state while under the influence of alcohol or other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, or if the person is involved in a boating collision that resulted in the immediate death or serious injury of any person and is removed from the scene of the collision to a hospital or other health care facility outside this state before a law enforcement officer can effect an arrest.

2. A law enforcement officer, having reasonable grounds to believe that such person was operating or in actual physical control of a vessel while under the influence may direct the administration of or administer the test or tests.

3. As used in this section, "other intoxicating substance" means any controlled dangerous substance as defined in the Uniform Controlled Dangerous Substances Act and any other substance, other than alcohol, which is capable of being ingested, inhaled, injected or absorbed into the human body and is capable of adversely affecting the central nervous system, vision, hearing or other sensory or motor functions.

B. 1. The law enforcement agency by which the arresting officer is employed may designate, in accordance with the rules of the Board of Tests for Alcohol and Drug Influence, whether blood or breath is to be tested for the alcohol concentration thereof, and whether blood, saliva or urine is to be tested for the presence or concentration of any other intoxicating substance therein.

2. In the event the law enforcement agency does not designate the test to be administered, breath shall be the substance tested for alcohol concentration. Blood may also be tested to determine the alcohol concentration thereof in the event that breath cannot be

tested to determine the alcohol concentration thereof because of the lack of an approved device or qualified person to administer a breath test or because such breath test for any other reason cannot be administered in accordance with the rules of the Board.

3. In the event the law enforcement agency does not designate the test to be administered, blood, saliva or urine shall be the substance tested for the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance.

C. In the event the person is incapable of submitting to and successfully completing, by reason of illness or injury or other physical disability, the test to be administered, an alternate test may be administered in accordance with the rules of the Board.

D. 1. Any person who is unconscious or otherwise incapable of refusing to submit to a test of the blood or breath of the person to determine the alcohol concentration thereof, or to a test of the blood, saliva or urine of the person to determine the presence or concentration of any other intoxicating substance therein, shall be deemed not to have withdrawn the consent provided by subsection A of this section, and such test may be administered as provided herein.

2. An unconscious person who has been issued a citation by a law enforcement officer for one of the offenses listed in subsection A of this section is arrested for purposes of this section. The arresting officer must leave a copy of the citation with the arrested person which may be accomplished by handing it to the arrested person, or by leaving it with the personal effects of the arrested party, so as to inform the unconscious person of the arrest.

3. Any person who has been arrested for one of the offenses listed in subsection A of this section who is unconscious or injured and who requires immediate medical treatment as determined by a treating physician may be released by the arresting officer on the recognizance of the person for medical reasons. The arresting officer who releases an arrested person on the recognizance of the person must indicate the release on the face of the citation. Any person released on his or her own recognizance for medical reasons shall remain at liberty pending the filing of charges.

E. In addition to any test designated by the arresting officer, the arrested person may also designate any additional test to be administered to determine the concentration of alcohol, or the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance. The cost of such additional test shall be at the expense of the arrested person.

A sufficient quantity of any specimen obtained at the designation of the arrested person shall be available to the law enforcement agency employing the arresting officer. Such specimens shall be

treated in accordance with the rules applicable to the specimens obtained by an arresting officer.

F. When a law enforcement officer has determined that the blood alcohol content of an individual is to be tested for the presence or concentration of alcohol, other intoxicating substance, or the combination of alcohol and any other intoxicating substance, the law enforcement officer shall inform the individual to be tested that the withdrawal of blood shall only be performed by certain medical personnel as provided for in Section 4 of this act.

Added by Laws 2011, c. 201, § 3, eff. July 1, 2011.

§63-4210.10. Qualified persons to withdraw blood.

A. Only a licensed medical doctor, licensed osteopathic physician, licensed chiropractic physician, registered nurse, licensed practical nurse, or physician's assistant, certified by the State Board of Medical Licensure and Supervision, the State Board of Osteopathic Examiners or Board of Chiropractic Examiners; an employee of a hospital or other health care facility authorized by the hospital or health care facility to withdraw blood; or other qualified person authorized by the Board of Tests for Alcohol and Drug Influence acting at the request of a law enforcement officer, may withdraw blood for purpose of having a determination made of its concentration of alcohol or the presence or concentration of other intoxicating substance. Only qualified persons authorized by the Board of Tests for Alcohol and Drug Influence may collect breath, saliva or urine, or administer tests of breath under the provisions of this section.

B. If the person authorized to withdraw blood as specified in subsection A of this section is presented with a written statement:

1. Authorizing blood withdrawal signed by the person whose blood is to be withdrawn;

2. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has agreed to the withdrawal of blood;

3. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has been placed under arrest and that the officer has probable cause to believe that the person, while intoxicated, has operated a vessel in such manner as to have caused the death or serious physical injury of another person, or the person has been involved in a boating collision and has been removed from the scene of the collision that resulted in the death or great bodily injury of any person, as defined in subsection B of Section 646 of Title 21 of the Oklahoma Statutes, to a hospital or other health care facility outside the State of Oklahoma before the law enforcement officer was able to effect an arrest for such offense; or

4. In the form of an order from a district court that blood be withdrawn, the person authorized to withdraw the blood and the hospital or other health care facility where the withdrawal occurs

may rely on such a statement or order as evidence that the person has consented to or has been required to submit to the clinical procedure and shall not require the person to sign any additional consent or waiver form. In such a case, the person authorized to perform the procedure, the employer of such person, and the hospital or other health care facility shall not be liable in any action alleging lack of consent or lack of informed consent.

C. No person specified in subsection A of this section, no employer of such a person, and no hospital or other health care facility where blood is withdrawn shall incur any civil or criminal liability as a result of the proper withdrawal of blood when acting at the request of a law enforcement officer by the provisions of Section 3 or 5 of this act, or when acting in reliance upon a signed statement or court order as provided in this section, if the act is performed in a reasonable manner according to generally accepted clinical practice. No person specified in subsection A of this section shall incur any civil or criminal liability as a result of the proper collection of breath, saliva or urine when acting at the request of a law enforcement officer under the provisions of Section 3 or 5 of this act or when acting pursuant to a court order.

D. The blood, breath, saliva or urine specimens obtained shall be tested by the appropriate test as determined by the Board of Tests for Alcohol and Drug Influence, or tested by a laboratory that is exempt from the Board rules pursuant to Section 759 of Title 47 of the Oklahoma Statutes, to determine the alcohol concentration thereof, or the presence and concentration of any other intoxicating substance which might have affected the ability of the person tested to operate a vessel safely.

E. When blood is withdrawn or saliva or urine is collected for testing of its alcohol concentration or other intoxicating substance presence or concentration, at the request of a law enforcement officer, a sufficient quantity of the same specimen shall be obtained to enable the tested person, at his or her own option and expense, to have an independent analysis made of such specimen. The excess blood, saliva or urine specimen shall be retained by a laboratory approved by the Board of Tests for Alcohol and Drug Influence, in accordance with the rules and regulations of the Board, or by a laboratory that is exempt from the Board rules pursuant to Section 759 of Title 47 of the Oklahoma Statutes, for sixty (60) days from the date of collection. At any time within that period, the tested person or his or her attorney may direct that such blood, saliva or urine specimen be sent or delivered to a laboratory of his or her own choosing and approved by the Board for an independent analysis. Neither the tested person, nor any agent of such person, shall have access to the additional blood, saliva or urine specimen prior to the completion of the independent analysis, except the analyst performing the independent analysis and agents of the analyst.

F. When a test of breath is performed for the purpose of determining the alcohol concentration thereof, except when such test is performed by means of an automated analyzer as designated by the Board of Tests for Alcohol and Drug Influence, a sufficient quantity of breath, or of the alcohol content of a fixed or measured quantity of breath, shall be obtained, in accordance with the rules and regulations of the Board to enable the tested person, at his or her own option and expense, to have an independent analysis made of such specimen. The excess specimen of breath, or of its alcohol content, shall be retained by the law enforcement agency employing the arresting officer, in accordance with the rules and regulations of the Board, for sixty (60) days from the date of collection. At any time within that period, the tested person, or his or her attorney, may direct that such specimen be sent or delivered to a laboratory of his or her own choosing and approved by the Board for an independent analysis. Neither the tested person, nor any agent of such person, shall have access to the additional specimen of breath, or of its alcohol content, prior to the completion of the independent analysis thereof, except the analyst performing the independent analysis and agents of the analyst.

G. The costs of collecting blood, breath, saliva or urine specimens for the purpose of determining the alcohol or other intoxicating substance thereof, by or at the direction of a law enforcement officer, shall be borne by the law enforcement agency employing such officer. The cost of collecting, retaining and sending or delivering to an independent laboratory the excess specimens of blood, breath, saliva or urine for independent analysis at the option of the tested person shall also be borne by such law enforcement agency. The cost of the independent analysis of such specimen of blood, breath, saliva or urine shall be borne by the tested person at whose option such analysis is performed. The tested person, or his or her agent, shall make all necessary arrangements for the performance of such independent analysis other than the forwarding or delivery of such specimen.

H. Tests of blood or breath for the purpose of determining the alcohol concentration thereof, and tests of blood, saliva or urine for the purpose of determining the presence or concentration of any other intoxicating substance therein, under the provisions of this section, whether administered by or at the direction of a law enforcement officer or administered independently, at the option of the tested person, on the excess specimen of such person's blood, breath, saliva or urine, to be considered valid and admissible in evidence under the provisions of this section, shall have been administered or performed in accordance with the rules and regulations of the Board of Tests for Alcohol and Drug Influence, or performed by a laboratory that is exempt from the Board rules pursuant to Section 759 of Title 47 of the Oklahoma Statutes.

I. Any person who has been arrested for any offense arising out of acts alleged to have been committed while the person was operating or in actual physical control of a vessel while under the influence of alcohol, any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance, who is not requested by a law enforcement officer to submit to a test, shall be entitled to have an independent test of his or her blood, breath, saliva or urine, which is appropriate as determined by the Board of Tests for Alcohol and Drug Influence for the purpose of determining its alcohol concentration or the presence or concentration of any other intoxicating substance therein, performed by a person of his or her own choosing who is qualified as stipulated in this section. The arrested person shall bear the responsibility for making all necessary arrangements for the administration of such independent test and for the independent analysis of any specimens obtained, and bear all costs thereof. The failure or inability of the arrested person to obtain an independent test shall not preclude the admission of other competent evidence bearing upon the question of whether such person was under the influence of alcohol, or any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance.

J. Any agency or laboratory certified by the Board of Tests for Alcohol and Drug Influence or any agency or laboratory that is exempt from the Board rules pursuant to Section 759 of Title 47 of the Oklahoma Statutes, which analyzes breath, blood, or urine shall make available a written report of the results of the test administered by or at the direction of the law enforcement officer to:

1. The tested person, or his or her attorney;
2. The Commissioner of Public Safety; and
3. The Fatality Analysis Reporting System (FARS) analyst of the state, upon request.

The results of the tests provided for in this section shall be admissible in civil actions.

Added by Laws 2011, c. 201, § 4, eff. July 1, 2011.

§63-4210.11. Refusal to submit to drug or alcohol testing - Exceptions.

If a conscious person under arrest refuses to submit to testing of his or her blood or breath for the purpose of determining the alcohol concentration thereof, or to a test of his or her blood, saliva or urine for the purpose of determining the presence or concentration of any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, none shall be given, unless the investigating officer has probable cause to believe that the person under arrest, while intoxicated, has operated a vessel in such a manner as to have caused the death or serious physical injury of any other person or persons. In that event, the

test otherwise authorized by law may be made in the same manner as if a search warrant had been issued for the test or tests. The sample shall be taken in a medically acceptable manner at a hospital or other suitable health care facility.

Added by Laws 2011, c. 201, § 5, eff. July 1, 2011.

§63-4210.12. Laboratory report - Evidence.

A. At any proceeding held relevant to this act, a report of the findings of the laboratory of the Oklahoma State Bureau of Investigation, the medical examiner's report of investigation or autopsy report, or a laboratory report from a forensic laboratory operated by the State of Oklahoma or any political subdivision thereof, which has been made available to the person or an authorized representative at least five (5) days prior to the hearing, with reference to all or part of the evidence submitted, when certified as correct by the persons making the report shall be received as evidence of the facts and findings stated, if relevant and otherwise admissible in evidence. If the report is deemed relevant by either party, the court shall admit the report without the testimony of the person making the report, unless the court, pursuant to this subsection, orders the person to appear.

B. When any alleged controlled dangerous substance has been submitted to the laboratory of the Oklahoma State Bureau of Investigation for analysis, and the analysis shows that the submitted material is a controlled dangerous substance, the distribution of which constitutes a felony under the laws of this state, no portion of the substance shall be released to any other person or laboratory absent an order of a district court. The defendant shall additionally be required to submit to the court a procedure for transfer and analysis of the subject material to ensure the integrity of the sample and to prevent the material from being used in any illegal manner.

C. The court, upon motion of either party, shall order the attendance of any person preparing a report submitted as evidence in the hearing when it appears there is a substantial likelihood that material evidence not contained in the report may be produced by the testimony of any person having prepared a report. The hearing shall be held and, if sustained, an order issued not less than five (5) days prior to the time when the testimony shall be required.

D. If within five (5) days prior to the hearing or during a hearing, a motion is made pursuant to this section requiring a person having prepared a report to testify, the court may hear a report or other evidence but shall continue the hearing until such time notice of the motion and hearing is given to the person making the report, the motion is heard, and, if sustained, the testimony ordered can be given.

Added by Laws 2011, c. 201, § 6, eff. July 1, 2011.

§63-4210.13. Criminal trials - Use of alcohol or drug tests as evidence.

A. Upon the trial of any criminal action or proceeding arising out of acts alleged to have been committed by any person while operating or in actual physical control of a vessel while under the influence of alcohol or any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, evidence of the alcohol concentration in the blood or breath of the person as shown by analysis of the blood or breath of the person performed in accordance with the provisions of Section 4 of this act and Section 759 of Title 47 of the Oklahoma statutes or evidence of the presence or concentration of any other intoxicating substance as shown by analysis of such person's blood, breath, saliva, or urine specimens in accordance with the provisions of Section 4 of this act and Section 759 of Title 47 of the Oklahoma Statutes shall be admissible. Evidence that the person has refused to submit to either of said analyses is also admissible. For the purpose of this section, when the person is under the age of twenty-one (21) years, evidence that there was, at the time of the test, any measurable quantity of alcohol is prima facie evidence that the person was under the influence of alcohol in violation of Section 3 of this act. For persons twenty-one (21) years of age or older:

1. Evidence that there was, at the time of the test, an alcohol concentration of seven-hundredths (0.07) or less is prima facie evidence that the person was not under the influence of alcohol; and
2. Evidence that there was, at the time of the test, an alcohol concentration of eight-hundredths (0.08) or more shall be admitted as prima facie evidence that the person was under the influence of alcohol.

B. For purposes of this section, "alcohol concentration" means grams of alcohol per one hundred (100) milliliters of blood if the blood was tested, or grams of alcohol per two hundred ten (210) liters of breath if the breath was tested.

C. To be admissible in a proceeding, the evidence shall first be qualified by establishing that the test was administered to the person within two (2) hours after the arrest of the person.
Added by Laws 2011, c. 201, § 7, eff. July 1, 2011.

§63-4210.14. Use of other competent evidence.

The provisions of Sections 3 through 7 of this act do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol or any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance.
Added by Laws 2011, c. 201, § 8, eff. July 1, 2011.

1. Either the nationally recognized diver's flag or Alpha flag may be flown;
2. When flown from a vessel, at least one flag shall be flown not less than one (1) meter above the highest point of the vessel and shall be visible from a three-hundred-sixty-degree circle;
3. The buoy, flag or flags shall be in place only while actual diving operations are in progress;

§63-4217. Abandonment of vessel - Removal.

A. It shall be unlawful to abandon a vessel on the waters of this state or other public property. Any officer of the Department of Public Safety or any other law enforcement agency shall deem a vessel abandoned and shall have authority to remove or direct the

removal of a vessel when found upon any portion of the waters of this state or other public property, if, after a period of forty-eight (48) hours, there is no evidence of an apparent owner who intends to remove the vessel. Any law enforcement officer prior to removing such vessel shall attempt to notify the owner of such vessel if the vessel has an identification number registered in this state or if the name and address of the owner is attached to such vessel.

B. If such officer has reasonable cause to believe a vessel has been abandoned in a location which would be hazardous to the free flow of traffic or would be highly susceptible to damage from vandalism or other harm, he shall have authority to remove or direct the removal of the vessel immediately. At the time of ordering the removal of an abandoned vessel, the authorizing officer shall also determine the sale value of the vessel and certify that amount on the removal order.

C. Any officer of the Department of Public Safety is hereby authorized to cause to be removed any vessel found upon the waters of this state or any other public property when:

1. Report has been made that such vessel has been stolen or taken without the consent of its owner;

2. The officer has reason to believe the vessel has been abandoned as defined in this section;

3. The person operating or in control of such vessel is arrested for an alleged offense for which the officer is required by law to take the person arrested or summoned before a proper magistrate without unnecessary delay;

4. At the scene of an accident, when the owner or operator is not in a position to take charge of his vessel and direct or request proper removal; or

5. When a vessel and/or motor registration is thirty (30) days past the date of expiration.

Such officer may ensure the safe removal of said vessel by use of a trailer.

Added by Laws 1989, c. 346, § 69, emerg. eff. June 3, 1989. Amended by Laws 1992, c. 284, § 56, eff. Jan. 1, 1993; Laws 2002, c. 66, § 3.

§63-4217.1. Abandoned vessels - Notice of removal.

Any officer who has removed or directed the removal of any vessel, or an authorized person in the employing agency of the officer, shall within seventy-two (72) hours of the removal notify the Department of Public Safety of the removal. The notice of removal shall contain the name and address of the owner, if known, the make, model, vessel identification number, registration number, date stored, place stored and the estimated value. Upon receipt of such notice of removal, the Department of Public Safety shall promptly request the Oklahoma Tax Commission or other appropriate registering jurisdiction to furnish the name and address of the owner

of and any lienholder on the vessel and must within five (5) days from receipt of the requested information send a notice to the owner and any lienholder by regular mail, postage prepaid, at the addresses furnished by the Tax Commission or registering jurisdiction, of the location of the vessel. This section shall not be construed to create any civil liability upon the state, any agency of the state or employee thereof for failure to provide notice to the owner or lienholder.

Added by Laws 2002, c. 66, § 4.

§63-4217.2. Abandoned vessels - Contest of removal or storage - Hearing.

A. After the removal or storage of any abandoned or wrecked vessel at the request of a public agency, the registered or legal owner of the vessel, or their agent, may contest the validity of the removal or storage, by filing a written request for a hearing with the public agency. The written request may be filed before or after the vessel is retrieved from the storage operator. The public agency shall not be required to conduct a hearing if the request is received more than ten (10) days following actual or constructive notice to the owner or driver of the vessel that the vessel has been so removed or stored. A hearing shall be scheduled within seventy-two (72) hours of the request, excluding weekends and holidays. The public agency may authorize its own officer or employee to conduct the hearing, so long as the hearing officer is not the same person who directed the removal or storage of the vessel. The public agency may, with the consent of the person requesting the hearing, schedule the hearing by telephone and conduct the hearing on the merits by telephone conference call.

The hearing officer shall apply the law to the evidence and make a determination whether the vessel removal and storage was justified. If deemed unjustified, the public agency shall bear the cost of hookup and tow mileage, and the operator shall waive all storage costs in such cases as a condition of eligibility to respond to a service call request from a public agency. The vessel owner or agent shall not be charged any type of fee or costs relating to impoundment or storage in such case. If the tow and storage is deemed justified, the owner or agent shall bear the cost of reasonable tow and storage.

B. Failure of either the registered or legal owner, or their agent, to timely request or to timely appear for a scheduled hearing shall satisfy the hearing requirement of this section.

C. The hearing conducted by the public agency pursuant to this section shall not be governed by the Administrative Procedures Act. The owner of a stored vessel may, either in lieu of such hearing or after such hearing, file a petition in the district court of the county wherein the vessel is stored. The district court is vested

with original jurisdiction to conduct a de novo hearing and determine the validity of removal and storage.

D. The provisions of this section shall not apply to the removal of vessels pursuant to Section 954A of Title 47 of the Oklahoma Statutes.

Added by Laws 2002, c. 66, § 5.

§63-4217.3. Abandoned vessels - Regaining possession.

The owner of a vessel or lienholder of the vessel abandoned in violation of Section 4217 of Title 63 of the Oklahoma Statutes, or the owner of any vessel or lienholder of the vessel or insurer of a vessel when the insurer has purchased the vessel as a total loss vessel from the registered owner which shall have been lawfully removed from any waters of this state or other public property may regain possession of the vessel in accordance with rules of the Department of Public Safety upon payment of the reasonable cost of removal and storage of the vessel. The cost of removal and storage shall be paid to the wrecker or towing service. An operator shall release the vessel from storage upon authorization from the owner, agent or lienholder of the vessel or, in the case of a total loss, the insurer of the vessel where the vessel is to be moved to an insurance pool yard for sale.

Added by Laws 2002, c. 66, § 6.

§63-4217.4. Abandoned vessels - Lien - Foreclosure by sale - Notice - Application of proceeds.

1. The name of the party bringing action and the name of the owner or any person claiming any interest therein;

3. A full statement of all the facts;

4. The amount of the claim, giving a full description of the work, labor, storage or any other costs involved; and

5. The date, time and place of the sale.

The notice shall be posted in three public places in the county in which the vessel is to be sold at least ten (10) days before the time specified therein for such sale, and a copy of said notice shall be mailed to the owner and any other person claiming any interest in the

abandoned motor vehicle, at their last-known mailing address, by registered mail on the same date of posting said notice.

C. Proceedings for such sale under this section shall not be commenced until ten (10) days after the lien has accrued.

D. A return of such sale shall be made at the time of sale and proof of posting and mailing of the notice of sale of abandoned vessel.

E. The proceeds from the sale of an abandoned vessel made pursuant to subsection B of this section shall be applied in the following order:

1. To the reasonable cost incurred in the sale of the abandoned vessel;

2. To the satisfaction of the special lien provided for in subsection A of this section;

3. To the satisfaction of any indebtedness secured by a subordinate security interest or lien in the vessel; and

4. To the owner if the owner is known, and if the owner or the address of the owner is not known, to the Oklahoma Tax Commission to be remitted to the State Treasurer and deposited in the General Revenue Fund.

B. Any vessel or motor, other conveyance, or vessel or motor part used by any person as a common carrier is subject to forfeiture under this section where the owner or other person in charge of the vessel or motor, other conveyance, or vessel or motor part is a consenting party to a violation of Section 3 of this act.

C. No vessel or motor, vessel or motor part, other conveyance, tool, implement, or instrumentality is subject to forfeiture under this section by reason of any act or omission which the owner proves to have been committed or omitted without the owner's knowledge or consent.

D. 1. Seizing agencies shall utilize their best efforts to identify any seized vessel or motor or vessel or motor part to determine ownership or the identity of any other person having a right or interest in a seized vessel or motor or vessel or motor part. In its reasonable identification and owner location attempts, the seizing agency shall cause the National Crime Information Center (NCIC) to be searched for stolen or wanted information on vessels or motors similar to the seized vessel or motor or consistent with the seized vessel or motor part.

2. Where a vessel or motor or vessel or motor part has an apparent value in excess of One Thousand Dollars (\$1,000.00):

E. A forfeiture of a vessel or motor, vessel or motor part, or other conveyance encumbered by a bona fide security interest is subject to the interest of the secured party where the secured party neither had knowledge of nor consented to the act or omission forming the ground for the forfeiture.

F. Property described in subsection A of this section seized and held for forfeiture shall not be subject to replevin and is subject only to the order and judgments of a court of competent jurisdiction hearing the forfeiture proceedings.

G. 1. The district attorney in the county where the seizure occurs shall bring an action for forfeiture in a court of competent jurisdiction. The forfeiture action shall be brought within sixty (60) days from the date of seizure except where the district attorney in the sound exercise of discretion determines that no forfeiture action should be brought because of the rights of property owners, lienholders, or secured creditors, or because of exculpatory, exonerating, or mitigating facts and circumstances.

2. The district attorney shall give notice of the forfeiture proceeding by mailing a copy of the complaint in the forfeiture proceeding to each person whose right, title, or interest is of record in the Oklahoma Tax Commission, the Department of Public Safety, the Federal Aviation Agency, or any other department of the state, or any other state or territory of the United States, or of the federal government if such property is required to be registered in any such department.

3. Notice of the proceeding shall be given to any such other person as may appear, from the facts and circumstances, to have any right, title, or interest in or to the property.

6. The owner of property may show by a preponderance of the evidence that the owner did not know, and did not have reason to know, that the property was to be used or possessed in the commission of any violation or that any of the exceptions to forfeiture are applicable.

7. Unless the district attorney shall make the showing required of it, the court shall order the property released to the owner.

Where the prosecutor has made such a showing, the court may order:

- a. the property be destroyed by the agency which seized it or some other agency designated by the court,
- b. the property be delivered and retained for use by the agency which seized it or some other agency designated by the court, or
- c. the property be sold at public sale.

H. A copy of a forfeiture order shall be filed with the sheriff of the county in which the forfeiture occurs and with each federal or state department with which such property is required to be registered. Such order, when filed, constitutes authority for the issuance to the agency to whom the property is delivered and retained for use or to any purchaser of the property of a title certificate, registration certificate, or other special certificate as may be required by law considering the condition of the property.

I. Proceeds from sale at public auction, after payment of all reasonable charges and expenses incurred by the agency designated by the court to conduct the sale in storing and selling the property, shall be paid to the general fund of the county of seizure or treasury of the governmental unit employing the seizing agency.

J. No vessel or motor, either seized under Section 4 of this act or forfeited under this section, shall be released by the seizing agency or used or sold by an agency designated by the court unless any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed hull identification number, manufacturer's serial number or other identification number is corrected by the issuance and affixing of either an assigned or replacement hull identification number plate, manufacturer's serial number plate or other identification number plate as may be appropriate under laws or regulations of this state.

K. No motor part having any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed hull

identification number, manufacturer's serial number or other identification number shall be disposed of upon forfeiture except by destruction thereof, except that this provision shall not apply to any vessel or motor part which is assembled with and constitutes part of a vessel or motor.

L. No vessel or motor or vessel or motor part shall be forfeited under this section solely on the basis that it is unidentifiable. Instead of forfeiture, any seized vessel or motor or vessel or motor part which is unidentifiable shall be the subject of a written report sent by the seizing agency to the Department of Public Safety which report shall include a description of the vessel or motor or vessel or motor part, its color, if any, the date, time and place of its seizure, the name of the person from whose possession or control it was seized, the grounds for its seizure, and the location where the same is held or stored.

M. When a seized unidentifiable vessel or motor or vessel or motor part has been held for sixty (60) days or more after the notice to the Department of Public Safety specified in subsection L of this section has been given, the seizing agency or its agent shall cause the vessel or motor or vessel or motor part to be sold at public sale to the highest bidder. Notice of the time and place of sale shall be posted in a conspicuous place for at least thirty (30) days prior to the sale on the premises where the vessel or motor or vessel or motor part has been stored.

N. When a seized unidentifiable vessel or motor or vessel or motor part has an apparent value of One Thousand Dollars (\$1,000.00) or less, the seizing agency shall authorize the disposal of the vessel or motor or vessel or motor part, provided that no such disposition shall be made less than sixty (60) days after the date of seizure.

O. The proceeds of the public sale of an unidentifiable vessel or motor or vessel or motor part shall be deposited in the General Revenue Fund of the state, or treasury of the governmental unit employing the seizing agency after deduction of any reasonable and necessary towing and storage charges.

P. Seizing agencies shall utilize their best efforts to arrange for the towing and storing of vessels or motors and vessel or motor parts in the most economical manner possible. In no event shall the owner of a vessel or motor or a vessel or motor part be required to pay more than the minimum reasonable costs of towing and storage.

Q. A seized vessel or motor or vessel or motor part that is neither forfeited nor unidentifiable shall be held subject to the order of the court in which the criminal action is pending or, if a request for its release from such custody is made, until the district attorney has notified the defendant or the defendant's attorney of such request and both the prosecution and defense have been afforded a reasonable opportunity for an examination of the property to

determine its true value and to produce or reproduce, by photographs or other identifying techniques, legally sufficient evidence for introduction at trial or other criminal proceedings. Upon expiration of a reasonable time for the completion of the examination, which in no event shall exceed fourteen (14) days from the date of service upon the defense of the notice of request for return of property as provided herein, the property shall be released to the person making such request after satisfactory proof of such person's entitlement to the possession thereof. Notwithstanding the foregoing, upon application by either party with notice to the other, the court may order retention of the property if it determines that retention is necessary in the furtherance of justice.

R. When a seized vessel or motor is forfeited, restored to its owner, or disposed of as unidentifiable, the seizing agency shall retain a report of the transaction for a period of at least one (1) year from the date of the transaction.

S. When an applicant for a certificate of title or salvage certificate presents to the Oklahoma Tax Commission proof that the applicant purchased or acquired a vessel or motor at a public sale conducted pursuant to this section and such fact is attested to by the seizing agency, the Oklahoma Tax Commission shall issue a certificate of title, salvage certificate for the vessel or motor upon receipt of the statutory fee, properly executed application for a certificate of title, or other certificate of ownership, and the affidavit of the seizing agency that a state-assigned number was applied for and affixed to the vessel or motor prior to the time that the vessel or motor was released by the seizing agency to the purchaser.

C. Any person injured, directly or indirectly, by conduct constituting a violation by any person of Section 3 of this act shall, in addition to any other relief, have a cause of action for threefold the actual damages sustained by the person.

D. E. Notwithstanding any other provision of law providing a shorter period of limitations, a civil action under this section may be commenced at any time within five (5) years after the conduct made unlawful under Section 3 of this act terminates or the cause of action accrues or within any longer statutory period that may be applicable. If any action is brought by a prosecutor to punish, prevent or restrain any activity made unlawful under Section 3 of this act, the running of the period of limitations shall be suspended during the pendency of such action and for two (2) years following its termination.

F. Personal service of any process in an action under this section may be made upon any person outside the state if the person has engaged in any conduct constituting a violation of Section 3 of this act in this state. The person shall be deemed to have thereby

3. Shall have the right to file a written notice of its lien in any action commenced by the injured or diseased person.

E. The Authority, to secure and enforce the right of recovery or reimbursement on behalf of the injured or diseased person, may initiate and prosecute any action or proceeding against any other person or tortfeasor who may be liable to the injured or diseased person, if the injured or diseased person has not initiated any legal proceedings against the other person or tortfeasor.

§63-5051.3. Medical assistance - Homestead lien.

A. Pursuant to the provisions of this section, the Oklahoma Health Care Authority is authorized to file and enforce a lien against the homestead of a recipient for payments of medical assistance made by the Authority to the recipient who is an inpatient of a nursing facility or an intermediate care facility for individuals with intellectual disabilities (ICF/IID) if the Authority, upon competent medical testimony, determines the recipient cannot reasonably be expected to be discharged and returned home. A one-year period of compensated inpatient care at a nursing facility or an ICF/IID shall constitute a determination by the Authority that the recipient cannot reasonably be expected to be discharged and returned home.

B. Upon certification for Title XIX of the federal Social Security Act payments for a nursing facility or ICF/IID care, the Authority shall provide written notice to the recipient that:

1. A one-year period of compensated inpatient care at a nursing facility or ICF/IID shall constitute a determination by the Authority that the recipient cannot reasonably be expected to be discharged and returned home;

2. A lien will be filed against the homestead of the recipient pursuant to the provisions of this section and that the amount of the lien shall be for the amount of assistance paid by the Authority from the date the recipient became eligible for compensated inpatient care

at a nursing facility or ICF/IID until the time of the filing of the lien and for any amount paid thereafter for such medical assistance to the recipient; and

3. The recipient is entitled to a hearing with the Authority prior to the filing of the lien pursuant to this section.

The notice shall also contain an explanation of the lien and the effect the lien will have on the ownership of the homestead of the recipient and any other person residing in the homestead. The notice shall be signed by the recipient or the legal guardian of the recipient acknowledging that the recipient or the legal guardian of the recipient understands the notice and the effect that the payment of medical assistance on the recipient's behalf will have upon the homestead of the recipient.

C. The lien filed pursuant to subsection E of this section shall be for the amount of assistance paid beginning from the date the recipient began receiving inpatient care from a nursing facility or ICF/IID and for any amount paid thereafter for the medical assistance to the recipient.

D. The Authority shall not file a lien on the homestead of the recipient pursuant to subsection E of this section while the homestead is the lawful residence of:

1. The surviving spouse of the recipient;
2. A child related to the recipient by blood or marriage who is twenty (20) years of age or less;
3. An adult child related to the recipient by blood or marriage who is incapacitated as defined by the Authority; or
4. A brother or sister of the recipient who has an equity interest in the home and who was residing in the home for at least one (1) year immediately preceding the date the recipient was admitted to the nursing facility or ICF/IID and has resided there on a continuous basis since that time.

E. No lien for payment of medical assistance pursuant to this section shall be effective unless:

1. The Authority has provided notice to the recipient of the intent to file a lien against the homestead of the recipient and of the opportunity for a hearing on the matter; and
2. After the notice specified in paragraph 1 of this subsection has been given, a lien is filed for record against the legal description of the homestead in the office of the county clerk of the county in which the homestead of the recipient is located. The lien shall contain the following information:
 - a. the name and address of the place of residence of the recipient,
 - b. the amount of the assistance paid at the time of the filing of the lien,
 - c. the date the recipient began receiving compensated inpatient care at a nursing facility or ICF/IID,

- d. the legal description of the real property against which the lien will be recorded, and
- e. such other information as the Authority requires.

F. 1. After the lien has been filed pursuant to subsection E of this section, the Authority may enforce a lien only:

- a. after the death of the surviving spouse of the recipient,
- b. when there is no child related to the recipient by blood or marriage who is twenty (20) years of age or less residing in the homestead,
- c. when there is no adult child related to the recipient by blood or marriage who is incapacitated as defined by the Authority residing in the homestead, and
- d. when no brother or sister of the recipient is residing in the homestead, who has resided there for at least one (1) year immediately before the date of the recipient's admission to the facility or institution, and has resided there on a continuous basis since that time.

2. A lien filed pursuant to subsection E of this section shall remain on the homestead:

- a. until the lien is satisfied,
- b. until the value of the homestead is consumed by the lien, at which time the Authority may force the sale of the homestead to satisfy the lien, or
- c. after transfer of title of the real property by conveyance, sale, succession, inheritance, or will.

3. The lien filed pursuant to subsection E of this section may be enforceable by the Authority before or after the death of the recipient.

4. The lien created by this section shall be treated as a mortgage and shall be assignable by the Authority to another entity and shall be released in accordance with the provisions as set forth in Section 15 of Title 46 of the Oklahoma Statutes.

5. The lien shall sever a joint tenancy; however, the lien shall be enforceable only to the extent of the ownership of the person receiving assistance as it existed at the time the recipient began receiving assistance.

G. The recipient, the heirs, personal representative, or assigns of the recipient may discharge said lien at any time by paying the amount of the lien to the Authority.

H. At the end of the one-year limitation, the Authority shall exclude from consideration as a resource the value of the homestead of the recipient.

I. The payment of medical assistance on behalf of the recipient by the Authority and the signing of the notice pursuant to subsection B of this section shall constitute a waiver of the homestead rights

of the recipient for the purposes of this section and Section 3 of Article XII of the Oklahoma Constitution.

J. 1. Pursuant to the provisions of this subsection, if the homestead is sold to enforce the lien authorized pursuant to the provisions of this section, an amount up to Six Thousand Dollars (\$6,000.00) from the proceeds of the sale of the homestead, less the value of any prepaid burial or insurance policies or designated accounts for funeral expenses already owned by the recipient, may be set aside in an irrevocable trust on behalf of the recipient, in which the Authority is to be included as the remainder, and the funds are to be used for the funeral expenses of the recipient.

2. Payment of the funeral expenses from the proceeds of the sale of the homestead shall be made as follows:

- a. if the proceeds exceed the amount of the lien, the payment of funeral expenses shall be first satisfied from any amount in excess of the lien amount. After the excess is exhausted, the remainder of funeral expenses shall be satisfied from the lien amount prior to payment of any reimbursement to the Authority, and
- b. if the proceeds from the sale of the homestead do not exceed the amount of the lien, the payment of funeral expenses shall be satisfied from the lien amount prior to payment of any reimbursement to the Authority.

K. As used in this section:

1. "Nursing facility" means any home, establishment, or institution which offers or provides on a regular basis twenty-four-hour medical services, skilled nursing care, necessary special dietary service, and personal care and supervision to three or more of its residents who are not related to the owner or administrator of the facility; and

2. "ICF/IID" means intermediate care facilities for individuals with intellectual disabilities, which provide comprehensive and individualized health care and rehabilitation services to individuals to promote their functional status and independence.

L. If any provision of this section shall be in conflict with any applicable federal statutes and regulations, the federal statutes and regulations shall prevail and be controlling until such time as the federal statutes and regulations shall be revised to conform to this section.

The Oklahoma Health Care Authority is hereby authorized to charge an enrollment fee and/or premium for the provision of health care coverage under the Oklahoma Medicaid Program Reform Act of 2003. Such charges, if unpaid, create a debt to the state and are subject to recovery by the Authority by any legal action against an enrollee, the heirs or next of kin of the enrollee in the event of the death of the enrollee. The Authority may end coverage for the nonpayment of such enrollment and/or premium pursuant to rules promulgated by the Oklahoma Health Care Authority Board.

C. Each insurer shall maintain a file system containing the name, address, group policy number, coverage type, social security number, and date of birth of each subscriber or policyholder, and each dependent of the subscriber or policyholder covered by the insurer, including policy effective and termination dates, claim submission address, and employer's mailing address.

D. A. The Attorney General shall diligently investigate a violation under the Oklahoma Medicaid False Claims Act. If the Attorney General finds that a person has violated or is violating the Oklahoma Medicaid False Claims Act, the Attorney General may bring a civil action under this section against the person.

B. 1. A person may bring a civil action for a violation of the Oklahoma Medicaid False Claims Act for the person and for this state. The action shall be brought in the name of the state. The action may be dismissed only if the court and the Attorney General give written consent to the dismissal and state the reasons for consenting.

2. A copy of the complaint and written disclosure of substantially all material evidence and information the person possesses shall be served on the state pursuant to Section 2004 of Title 12 of the Oklahoma Statutes. The complaint shall be filed in camera, shall remain under seal for at least sixty (60) days, and shall not be served on the defendant until the court so orders. The state may elect to intervene and proceed with the action within sixty (60) days after it receives both the complaint and the material evidence and information.

3. The state may, for good cause shown, move the court for extensions of the time during which the complaint remains under seal under paragraph 2 of this subsection. Any such motions may be

supported by affidavits or other submissions in camera. The defendant shall not be required to respond to any complaint filed under this section until twenty (20) days after the complaint is unsealed and served upon the defendant pursuant to Section 2004 of Title 12 of the Oklahoma Statutes.

4. Before the expiration of the sixty-day period or any extensions obtained under paragraph 3 of this subsection, the state shall:

- a. proceed with the action, in which case the action shall be conducted by the state, or
- b. notify the court that it declines to take over the action, in which case the person bringing the action shall have the right to conduct the action.

5. When a person brings an action under this section, no person other than the state may intervene or bring a related action based on the facts underlying the pending action.

Added by Laws 2007, c. 137, § 3, eff. Nov. 1, 2007. Amended by Laws 2016, c. 44, § 2, eff. Nov. 1, 2016.

§63-5053.3. Actions brought by individuals - Participation by state - Procedure.

A. If the state proceeds with the action pursuant to Section 5053.2 of this title, it shall have the primary responsibility for prosecuting the action, and shall not be bound by an act of the person bringing the action. Such person shall have the right to continue as a party to the action, subject to the limitations set forth in this subsection.

1. The state may dismiss the action notwithstanding the objections of the person initiating the action if the person has been notified by the state of the filing of the motion and the court has provided the person with an opportunity for a hearing on the motion.

2. The state may settle the action with the defendant notwithstanding the objections of the person initiating the action if the court determines, after a hearing, that the proposed settlement is fair, adequate, and reasonable under all the circumstances. Upon a showing of good cause, the hearing may be held in camera.

3. Upon a showing by the state that unrestricted participation during the course of the litigation by the person initiating the action would interfere with or unduly delay the state's prosecution of the case, or would be repetitious, irrelevant, or for purposes of harassment, the court may, in its discretion, impose limitations on the participation of the person, such as:

- a. limiting the number of witnesses the person may call,
 - b. limiting the length of the testimony of the witnesses,
 - c. limiting the person's cross-examination of witnesses,
- or

d. otherwise limiting the participation by the person in the litigation.

4. Upon a showing by the defendant that unrestricted participation during the course of the litigation by the person initiating the action would be for purposes of harassment or would cause the defendant undue burden or unnecessary expense, the court may limit the participation by the person in the litigation.

B. If the state elects not to proceed with the action, the person who initiated the action shall have the right to conduct the action. If the state so requests, it shall be served with copies of all pleadings filed in the action and shall be supplied with copies of all deposition transcripts at the expense of the state. When a person proceeds with the action, the court, without limiting the status and rights of the person initiating the action, may nevertheless permit the state to intervene at a later date upon a showing of good cause.

C. Whether or not the state proceeds with the action, upon a showing by the state that certain actions of discovery by the person initiating the action would interfere with the state's investigation or prosecution of a criminal or civil matter arising out of the same facts, the court may stay the discovery for a period of not more than sixty (60) days. Such a showing shall be conducted in camera. The court may extend the sixty-day period upon a further showing in camera that the state has pursued the criminal or civil investigation or proceedings with reasonable diligence and any proposed discovery in the civil action will interfere with the ongoing criminal or civil investigation or proceedings.

D. Notwithstanding subsection B of Section 5053.2 of this title, the state may elect to pursue its claim through any alternate remedy available to the state, including any administrative proceeding to determine a civil money penalty. If any alternate remedy is pursued in another proceeding, the person initiating the action shall have the same rights in the proceeding as the person would have had if the action had continued under this section. Any finding of fact or conclusion of law made in the other proceeding that has become final shall be conclusive on all parties to an action under this section. For purposes of this subsection, a finding or conclusion is final if it has been finally determined on appeal to the appropriate court of the State of Oklahoma, if all time for filing the appeal with respect to the finding or conclusion has expired, or if the finding or conclusion is not subject to judicial review.

Added by Laws 2007, c. 137, § 4, eff. Nov. 1, 2007. Amended by Laws 2016, c. 44, § 3, eff. Nov. 1, 2016.

§63-5053.4. Actions brought by individuals - Share of proceeds of actions or settlement - Award of expenses, fees, and costs.

A. 1. If the state proceeds with an action brought by a person under subsection B of Section 5053.2 of this title, the person shall, subject to paragraph 2 of this subsection, receive at least fifteen percent (15%) but not more than twenty-five percent (25%) of the proceeds of the action or settlement of the claim, depending upon the extent to which the person substantially contributed to the prosecution of the action.

2. Where the action is one which the court finds to be based primarily on disclosures of specific information, other than information provided by the person bringing the action, relating to allegations or transactions in a criminal, civil or administrative hearing, in a legislative, administrative or State Auditor and Inspector report, hearing, audit or investigation, or from the news media, the court may award such sums as it considers appropriate, but in no case more than ten percent (10%) of the proceeds, taking into account the significance of the information and the role of the person bringing the action in advancing the case to litigation.

3. Any payment to a person under paragraph 1 or 2 of this subsection shall be made from the proceeds. Any such person shall also receive an amount for reasonable expenses which the court finds to have been necessarily incurred, plus reasonable attorney fees and costs. All such expenses, fees, and costs shall be awarded against the defendant.

B. If the state does not proceed with an action under Section 5053.2 of this title, the person bringing the action or settling the claim shall receive an amount which the court decides is reasonable for collecting the civil penalty and damages. The amount shall be not less than twenty-five percent (25%) and not more than thirty percent (30%) of the proceeds of the action or settlement and shall be paid out of the proceeds. The person shall also receive an amount for reasonable expenses which the court finds to have been necessarily incurred, plus reasonable attorney fees and costs. All such expenses, fees, and costs shall be awarded against the defendant.

C. Whether or not the state proceeds with the action, if the court finds that the action was brought by a person who planned and initiated the violation of the Oklahoma Medicaid False Claims Act upon which the action was brought, then the court may, to the extent the court considers appropriate, reduce the share of the proceeds of the action which the person would otherwise receive under subsection A or B of this section, taking into account the role of that person in advancing the case to litigation and any relevant circumstances pertaining to the violation. If the person bringing the action is convicted of criminal conduct arising from his or her role in the violation of the Oklahoma Medicaid False Claims Act, that person shall be dismissed from the civil action and shall not receive any share of the proceeds of the action. The dismissal shall not

prejudice the right of this state to continue the action, represented by the Office of the Attorney General or its assigns.

D. If the state does not proceed with the action and the person bringing the action conducts the action, the court may award to the defendant its reasonable attorney fees and expenses if the defendant prevails in the action and the court finds that the claim of the person bringing the action was clearly frivolous, clearly vexatious, or brought primarily for purposes of harassment.

Added by Laws 2007, c. 137, § 5, eff. Nov. 1, 2007. Amended by Laws 2009, c. 32, § 1, eff. Nov. 1, 2009; Laws 2016, c. 44, § 4, eff. Nov. 1, 2016.

§63-5053.5. Prohibition of certain individual actions - Dismissal - Liability for expenses or fees - Relief following adverse acts - Statute of limitations.

A. In no event may a person bring an action under subsection B of Section 5053.2 of this title which is based upon allegations or transactions which are the subject of a civil suit or an administrative civil money penalty proceeding in which the state is already a party.

B. The court shall dismiss an action or claim under this section, unless opposed by the state, if substantially the same allegations or transactions as alleged in the action or claim were publicly disclosed in a criminal, civil or administrative hearing, in which the state or its agent is a party, in a legislative, or State Auditor and Inspector report, hearing, audit or investigation, or from the news media, unless the action is brought by the Attorney General or the person bringing the action is an original source of the information. For purposes of this subsection, "original source" means an individual who either:

§63-7300. Interstate Health Care Compact.

WHEREAS, the Constitution creates a Federal government of limited and enumerated powers, and reserves to the States or to the people those powers not granted to the Federal government;

WHEREAS, the Federal government has enacted many laws that have preempted State laws with respect to Health Care, and placed increasing strain on State budgets, impairing other responsibilities such as education, infrastructure, and public safety;

WHEREAS, the Member States seek to protect individual liberty and personal control over Health Care decisions, and believe the best method to achieve these ends is by vesting regulatory authority over Health Care in the States;

WHEREAS, by acting in concert, the Member States may express and inspire confidence in the ability of each Member State to govern Health Care effectively; and

WHEREAS, the Member States recognize that consent of Congress may be more easily secured if the Member States collectively seek consent through an interstate compact.
