## ARPA-YY002116

Project Intake Name	ARPA-YY002116	Status	QC 2
Entity Type	State agency	Organization Name	Administrative Office of the Courts, a division of the Oklahoma Supreme Court
Contact	Diana O'Neal	Organization Headquarters County	Oklahoma
Email		Rejection Notes	
Phone		Missing Information	

## Project Information

Project Purpose	The Supreme Court of Oklahoma has established rules and procedures for electronic filing and storage of documents to further the efficient administration and operation of the courts. The electronic filing system will be multi-phased system similar to the system used in federal courts, to be integrated with the district and appellate court's case management systems. The goal is to provide an electronic filing system that supports all case types in all levels of court to any person in the state. The specification consists of six major design elements (MDE): filing assembly, enhanced application security, filing review, court record, legal service, fee collection with plans to be implemented by case type. The criminal phase will create a web service that will amend the e-filing web portal to include registering criminal codes, statutory fee and fine assessments, disposition types, and amended filings.	Program Category	Addressing Negative Economic Impacts
Project Completed by Deadline	Yes	Sub-Category	Other Economic Support
Requested Funding Amount	\$1,700,000.00	Estimated Project Duration	more than 24 months
Prior Similar Project Completed	Yes	Prior Amount Committed	\$750,000.00
Performance Measuring	This three-phase project permits the remote filing of cases electronically assisting those who may have difficulty accessing the court house. The phases of this project provide e-Filing for civil cases (in District Court), appellate cases for Court of Criminal Appeals, and the Oklahoma Appellate process. Each phase is separated into executable sprints which provide the status of the project and defines full delivery of the functionality for the different courts. A comparison analysis between previous and current court house filings and electronic filing will be performed after the implementation of each e-filing phase to evaluate the effectiveness of the software.		
Project Administration	Yes, I would administer the project	Evidence	This project is already in phase II, but the lack of resources has delayed implementation. The COVID-19 pandemic of 2020 created a loss of revenue that has no short-term recovery period. The pandemic also required unforeseen purchases of equipment which depleted funds that would have been used to for this project.
Support Qualified Census Tract	Unknown	Resident County	
Qualified Census Tracts to be Impacted			

## Project Impact

Impacted Counties	Statewide		
Population Description	The court protects minorities of all types from the majority, and protects the rights of people who cannot protect themselves. They also embody notions of equal treatment and fair play for everyone. The pandemic and aftermath increase the need to protect our constitutional rights to equal protection; by providing a forum to resolve disputes and to test/enforce laws in a fair and rational manner for all. The computer infrastructure of the courts helps provide the courts the ability to do justice, to guarantee liberty, to provide for equal protection to all regardless of background and to ensure due process of law.		
# of Oklahomans to Benefit	1,000,000+		

## Maximize Funding

Other COVID-19 Relief Funds Received	Yes	Other COVID-19 Relief Funds Amount	\$1,740,000.00
Pre-Existing Project/Program	Yes		
Matching/Co-Investment Available	No	Other Assets	
Ongoing Investment Required	Able to continue operation without additional funding from the State of Oklahoma	Ongoing Investment Amount	
Ongoing Investment Description			
Revenue Generation	No	Revenue Generation Amount	
Other Federal Funding	Yes		
Federal Grant Description	Grant for Court Improvement Project specific to supporting judges handling juvenile deprived cases.		
Federal Grant Annual Amount	\$420,000.00		
Prior Funds Committed Description	Staffing, Computer Equipment (Computers, Storage, and network)		
Matching Co Investment Description
