FY 2025 Budget Performance Review

185 Oklahoma Corporation Commission

Original Versior Lead Administrator: Brandy Wreath, Executive Director/Director of Administration/Appointing Authority Date submitted Lead Financial Officer: Holly George, CFO

10/2/2023

nsure responsible and safe development of oil and gas resources; ensure reliable utility service at fair rates; ensure safe and legal operation of motor carriers, pipelines, rail crossings, and fueling stations; and ensure prevention and emediation of energy-related pollution of the environment, while balancing the rights and needs of the people with those of regulated entities through development and enforcement of regulations in an open, transparent, ethical, and just manner.

Division and Program Descript

Note: Please define any acronyms used in program descriptions.

Administrative, Judicial, and Legal Service

The Administrative, Judicial and Legal Services Division (All S) contains the offices of the Commissioners and the Director of Administration, as well as Administrative Services and Judicial and Legal Services. The Director of Administration is appointed by the three elected Commissioners to assist in facilitating necessary actions to ensure the success of the agency's mission. The Director of Administration's staff consists of the public information office and agency counsel. Administrative Services staff has the overall responsibility of providing financial, human resources, technological, and mailing/copying services to the entire agency. Judicial and Legal Services consists of the Commission's court clerk, administrative law judges, attorneys, court reporters, and administrative and support personnel. Judicial and Legal Services is responsible for maintaining all documents filed of record with the Commission and for fulfilling the Commission's constitutional and statutory court of record duties, ensuring the opportunity for fair and open hearings in all legislative and judicial matters. In FY18, this program was created from the consolidation of Administration, Office of Administrative Proceedings, and Office of General Counsel divisions to promote efficiencies and obtain cost savings for the agency.

Petroleum Storage Tank Division

The Petroleum Storage Tank Division (PSTD) administers the federal underground storage tank (UST) program in lieu of federal regulation, including operating requirements and technical standards for storage tank design and installation, leak detection, inspections and enforcement, closure, responding to spills and leaks, and licensing of storage tank professionals. The Division also has environmental oversight of corrective action measures or remediation plans at contaminated sites where a product release from a petroleum storage tank has occurred. PSTD administers the Petroleum Storage Tank Release Indemnity Fund, which ensures funds are available to mitigate environmental, health and safety threats to the public when a release occurs. PSTD also administers the Leaking Underground Storage Tank (LUST) Trust Fund, which provide funding for remediation of pollution caused by product releases from petroleum storage tanks for which there is no owner. PSTD's inspection program provides consumer protection by: checking fuel dispensers (i.e. "gas pumps") for the presence of water and the quality of fuel sold, measuring the octane rating and accuracy of fuel dispensers, verifying the amount advertised is the same amount on the dispenser, verifying that signs are posted to inform motorists which dispensers are designated for ethanol blended fuels, and responding to consumer complaints regarding fuel purchases.

Oil and Gas Conservation Division

The Oil and Gas Conservation Division (OGCD) enforces agency rules, regulations and orders involving oil and gas exploration and production in Oklahoma. OGCD also provides information, permitting, investigation, and compliance services to the oil and gas industry, mineral interest owners, landowners, and the general public to protect correlative rights and prevent waste of the oil and gas resources of the State, while protecting the environment and ensurin public safety.

Public Utility Division

The Public Utility Division (PUD) administers and enforces agency rules, regulations, and orders involving electric, gas, water, and telecommunications service providers, as well as cotton gins, wind energy facilities, and electric vehicle charging stations; promotes efficiency, innovation, and technological growth among regulated utilities and the program area companies; balances the interest of the regulated companies with those of all other stakeholders; administers the Oklahoma Universal Services Fund and Oklahoma Lifeline Fund; recommends designation of eligible telecommunications carriers; regulates providers of lifeline phone services; and supports regulatory decisions that are in the public interest and result in the most reasonable cost for safe and reliable service.

Transportation Division

The Transportation Division (TRN) provides overall management, direction and supervision of the administration and enforcement of motor carrier, passenger carrier, at-grade rail crossing safety, and pipeline safety regulatory activities within the State of Oklahoma. Transportation operates Oklahoma's Ports of Entry (POEs) and Weigh Stations.

Information Services

Office of Management and Enterprise Services- Information Services Division (OMES-ISD) provides technology support and services for the Commission. Responsibilities include: developing new systems and enhancements to existing database application systems; maintaining disaster recovery efforts of production systems; imaging of documents and mapping capabilities corresponding to GPS and GIS; coordinating video teleconferencing; maintaining electronic essaging and internet capabilities through the Commission's web page; and user support.

What changes did the agency make between FY'23 and FY'24?

1.) Are there any services no longer provided because of budget cuts?

OCC has not received any budget cuts during these fiscal years and was supported by the legislature in a partial appropriations award to properly fund our Oil and Gas Division.

2.) What services are provided at a higher cost to the user?

None- OCC's last fee increases were in October 2018, except for 2 fees added to the Public Utility Division in FY23 for electric vehicle charging stations and renewable energy recycling facilities.

3.) What services are still provided but with a slower response rate?

None- OCC has actually improved response time for stakeholders. Oil and gas field services will still seek additional funding for FY25 to meet their need.

4.) Did the agency provide any pay raises that were not legislatively/statutorily required?

Yes, OCC provided increases for our Oil and Gas Division that were supported by the appropriation increase of the legislature. OCC has also completed market salary surveys and made appropriate adjustments to salaries to get closer to market minmiums.

| | FY'25 Requested Funding By Department and Source | | | | | | | | | |

Federal Government Impact
1.) How much federal money received by the agency is tied to a mandate by the Federal Government?

None.

2.) Are any of those funds inadequate to pay for the federal mandate?

Not applicable.

3.) What would the consequences be of ending all of the federal funded programs for your agency?

This could significantly affect the ability to maintain state oversight for the Underground Injection Control program; monitor and remediate leaking underground storage tanks; provide Universal Service to rural and low-income broadband customers; monitor and inspect pipelines; monitor and inspect underground gas storage facilities; and pose serious potential threats to human health and the environment.

4.) How will your agency be affected by federal budget cuts in the coming fiscal year?

The agency does not know the extent of future cuts at this time.

5.) Has the agency requested any additional federal earmarks or increases? No.
