

Interim Study #	Senator	Title	Description	Other Members	Committee
25-001	Bergstrom	SNAP (food stamps) Review & Reform	SNAP serves as the first line of defense against hunger, however the program is accused of waste, including allowing Oklahoma taxpayers' hard-earned dollars to go toward junk food, soda, energy drinks and questionable items rather than being limited to healthy choices for family meals. This study will consider federal mandates and state options to improve SNAP.		HHS
25-004	Boren	Putting Kids First in Oklahoma School Report Card.	Study will learn how current A-F report card impact student learning in Oklahoma and consider reforms to report card to improve students' achievement.		Education
25-005	Boren	Safe and Efficient Railroads	Study will review best practices to preserve safety of railroads and reduce disruption to automobiles.		Aero & Trans
25-006	Boren	Agriculture and Power	Study will provide overview of strategies and contractual language proven to preserve use of land for farming and ranching while expanding use of land for renewable energy development.		Agriculture
25-007	Boren	All of the Above Tax Revenue Reform	Study will learn how all energy generation is currently taxed and ways to improve revenue generation at state and local level to advance Oklahoma's "All of the Above" economy.		Revenue & Taxation
25-008	Boren	Keeping Our Light & Water Bills Low	This study will highlight the impact of emerging industries (i.e. data centers, manufacturing, AI, and bitcoin) on our electricity and water supplies. Study will provide an overview of the best practice policies to protect reliability and affordability of electricity and water.		Energy
25-009	Boren	This Land is My Land Eminent Domain	A study to promote transparency, accountability, and due process for land owners.		Agriculture
25-010	Boren	Early Voting in Oklahoma	An evaluation of Counties participation, wait times, security, and staffing needs during expanded Early Voting access.		Judiciary
25-011	Boren	Parent Bill of Rights	Study best practices of schools in notifying Parents of their statutory bill of rights and implementing the parental rights in board policy.		Education
25-012	Boren	Basics of Sovereignty	Study to improve understanding of Treaties, Compacts, and Cross Deputization agreements and their impact on public safety and our state's economy.		Judiciary
25-013	Boren	Future of Professional Women's Sports in Oklahoma	Study will examine role of Legislature to leverage emerging opportunities for professional women's sports in Oklahoma.	Sen. Nice	Eco Devo, Workforce & Tourism
25-014	Brooks	Unlicensed Practice of Law	The objective is to study and learn about unlicensed law practices in the state. To what extent do these practices hurt Oklahomans? And what can be done to protect the people of Oklahoma and prevent this from happening.		Judiciary
25-015	Bullard	OMES and how to restore them to their original intent	Study to look into the original intent and gain context on the history behind OMES as well as the changes that have been made to OMES by the Legislature over time. Look at what has become the largest bureaucracy in OK and steps we can take to restore OMES to what it was designed to be,		Retirement & Gov. Resource
25-016	Bullard	Scenic Rivers	Look into the scenic rivers act and examine what problems, if any have been caused by the scenic rivers act.		Agriculture
25-017	Bullard	Study on Property Taxes and how to abolish and replace them	Study to take a deep dive into Ad Valorem taxes and how to eliminate them. Are they Constitutional? What would we replace with them?	Sen. Bergstrom	Revenue & Taxation
25-021	Coleman	Medicaid and Chiropractic Care	This study will examine the potential for expanding Medicaid coverage for chiropractic services in Oklahoma. Existing chiropractic services are limited to only adults and only for pain management. The study will assess the clinical efficacy, cost-effectiveness, and patient outcomes associated with chiropractic care as a non-pharmacologic treatment option. It will also identify potential cost savings or utilization impacts, and evaluate access. The goal is to determine whether the expansion of chiropractic coverage in Oklahoma's Medicaid benefits could improve patient outcomes and enhance the overall efficiency of the state's health care system.		HHS
25-022	Coleman	Sports Betting, why the heck don't we have it?	Look at the idea of sports betting in Oklahoma with all partners.		Business & Insurance
25-023	Coleman	VPO Tracking	How can a person who has a VPO against them be electronically tracked by the victim so the victim can know where they are. Could the victim and the offender both be tracked by Law Enforcement who would receive an alarm once a certain distance is reached.		Public Safety
25-024	Coleman	Municipalities rights for regulating unoccupied buildings.	I want to study what cities can do to protect property owners who are adjacent to unoccupied buildings. Currently cities have rights for abandoned buildings, but the unoccupied buildings become a nuisance for neighboring property owners as the buildings deteriorate due to unoccupancy.		Local & County Government
25-025	Coleman	Recall Elections for State and County Officials	How should it be done?		Judiciary
25-026	Coleman	Workforce Delivery System Reform	There are many institutions that do workforce services across the state. One measure of success for the leaders of these institutions should be closer partnership in service delivery that drive better outcomes for the economy. Another should be less duplication/waste as a result of braided programs and funding. Once we have a design put together, we would like the legislature to look at it closely so they can understand how to best support this work moving forward		Eco Devo, Workforce & Tourism
25-027	Dossett	Examining Best Practices in Prenatal and Infant Healthcare	The purpose of this study is to examine the difficult topic of pregnant mothers who are also battling substance abuse disorders. All of us understand that this is a dire situation for both mom and baby, but what is the best way to get them both the critical help they need and in the extremely short timeframe necessary for baby's growth and development in the womb, and for a successful birth and post-partum period for both? What are the best ways to support mom and baby long-term after those critical first months have passed?		HHS
25-028	Dossett	Examining the Feasibility of a Paid Family Leave Provision in Oklahoma Statute	The purpose of this study, as depicted in the title, is to examine the feasibility of a statutory paid family leave program in Oklahoma. While SB254 recently passed unanimously through its Senate committee, it did not receive a floor hearing and that is clearly because of all the unanswered questions surrounding the potential benefits and harms of providing for paid family leave in statute.		Eco Devo, Workforce & Tourism

25-029	Dossett	Examining the Feasibility of Voluntary Safe Gun Storage in Oklahoma	The purpose of this study, as depicted in the title, is to examine the feasibility of a voluntary and temporary safe gun storage option for individuals undergoing personal crisis. The intent of offering this option to Oklahomans is to assist anyone experiencing a crisis so serious that they are considering harming themselves or a loved one with their firearm.		Public Safety
25-032	Frix	“Chris’s Law”	This study seeks to examine the need for statewide policies to support students grieving the loss of a loved one. Prompted by the tragic murder of Christopher Jerome Johnson Sr., and the emotional and academic decline of his 15-year-old son in the aftermath, “Chris’s Law” would ensure students receive structured, temporary academic relief and mental health support following traumatic loss. The current lack of statewide standards leaves students vulnerable to academic failure, isolation, or emotional collapse due to inconsistent responses across schools. This interim study would explore how Oklahoma can implement a consistent, compassionate framework—such as temporary grade freezes, counseling access, and flexible academic expectations—to prevent further harm to students facing unimaginable grief. This proposal would place Oklahoma at the forefront of trauma-informed education policy.		Education
25-033	Frix	Municipal Zoning Issues SB647	SB647 requires determinations of regulations, restrictions, and district boundaries of municipalities to be made in light of objective and relevant facts as well as by utilizing process and requirements outlined in the municipal code.		Local & County Government
25-034	Frix	ODOT Construction Work-zones	Study to review construction work zones, including, the cost of these dangerous work-zones to life and property.		Aero & Trans
25-035	Frix	Housing in Oklahoma	To include the impact of municipal zoning and platting protocols on homebuilding and Oklahoma’s housing shortage.		Local & County Government
25-036	Gollihare	Prosecuting Failure to Report Child Abuse	An interim study on the legal framework, prosecutorial practices, and real-world implications surrounding the various “failure to protect” laws involving child sexual abuse, child abuse, and child neglect. The study will outline Oklahoma’s statutes and criminal charges that may apply when a parent, guardian, or caregiver fails to prevent harm to a child, despite having a legal duty to do so. It will differentiate among the charges using real Oklahoma cases, and analyze how these are investigated, enforced, and prosecuted across the state.		Judiciary
25-037	Grellner	Human Bio-Solids Disposal	A study looking at the cost effectiveness of incinerating Human bio-solids from the municipal sewer systems and the energy potentially generated to offset cost of current disposal methods.		Energy
25-038	Guthrie	Establish an appropriate Foreign Agent Registration Act in Oklahoma State Statutes.	To provide Oklahomans public transparency around political and propaganda activities conducted by agents of foreign countries of concern.		Judiciary
25-042	Hicks	Managing Diabetes, Measuring Impact: Evaluating MCO Programming and Patient Outcomes	To evaluate the services and support programs offered by managed care organizations (MCOs) in Oklahoma for individuals with diabetes, with a focus on accessibility, quality of care, care coordination, and outcomes. The study will identify strengths, gaps, and opportunities for improvement in diabetes management under the current managed care framework.		HHS
25-043	Hicks	Cutting Costs, Saving Lives: Advancing Diabetes Care Through Community Glucose Monitoring	To examine the availability, accessibility, and insurance coverage of continuous glucose monitors (CGMs) for individuals with type 2 diabetes and prediabetes in Oklahoma, with a focus on community-based monitoring programs and their impact on health outcomes, health equity, and cost-effectiveness.		HHS
25-044	Hicks	Strengthening Family Resource Centers Through Public-Private Partnerships for Sustainable Community Support	This interim study will evaluate strategies to enhance the sustainability of Oklahoma’s Family Resource Centers by leveraging public-private partnerships and shared services. The study will assess current funding streams, identify opportunities to increase collaboration between the state and private sector, and develop fiscally responsible approaches to maintain and expand vital community-based services that support families across urban and rural Oklahoma.		HHS
25-045	Hicks	Ensuring Accountability and Transparency in Oklahoma’s School Choice Programs	The purpose of this interim study is to evaluate the effectiveness, fiscal impact, and implementation of Oklahoma’s school choice initiatives, including voucher programs. By examining how these programs serve students, families, and taxpayers, the study will assess whether current policies are meeting their intended goals. The study will include data-driven analysis of outcomes, access across geographic and socioeconomic lines, and safeguards for public funds. The goal is to ensure school choice options are transparent, accountable, and delivering value to Oklahoma families and communities.		Education
25-046	Hicks	Improving Maternal and Infant Health Outcomes Through Proven, Cost-Effective Models of Care	Oklahoma faces significantly higher maternal and infant mortality rates than the national average, alongside a rise in substance use disorder diagnoses during pregnancy and persistently high rates of female incarceration. These factors contribute to costly, long-term impacts on families, communities, and the state. This interim study will explore fiscally responsible, evidence-based models of care that improve health outcomes for pregnant women and infants while reducing reliance on the criminal justice system. The study will include expert testimony on early intervention strategies, successful alternatives to punitive responses, and approaches that have been implemented effectively in other states—particularly in rural areas. The goal is to identify data-driven solutions that strengthen families, reduce taxpayer burden, and improve long-term public health outcomes.		HHS
25-047	Hicks	Justice Delayed: Strengthening Oklahoma’s Response to Cold Cases and Unsolved Violent Crimes	To assess current funding, resource allocation, and investigative strategies for solving cold cases in Oklahoma, with a focus on identifying gaps, evaluating the impact of recent federal grant investments, and exploring best practices to enhance case resolution and support for victims.		Public Safety

25-048	Hicks	Protecting Student Access and Accountability: Closing Loopholes in Transcript Release at For-Profit Colleges	This interim study will evaluate current policies allowing for-profit institutions to withhold academic transcripts and identify loopholes that hinder student access. The study aims to promote transparency and fiscal responsibility while ensuring Oklahoma students can obtain their transcripts promptly to pursue employment or further education. By strengthening accountability measures for for-profit colleges, the study seeks to protect students' rights and support workforce readiness without imposing unnecessary burdens on educational institutions.	Sen. Nice	Education
25-049	Jech	School Choice Tax Credit	Follow up on the school choice tax credit		Education
25-050	Jech	Pardon & Parole process	Evaluation of the pardon and parole process		Public Safety
25-051	Jett	Ad Valorem / Property Taxes	This study will examine the increase in ad valorem taxes assessed on property that exceeded the 1990s referendum percentage caps on property tax increases to balance the needs of tax revenues for essential government function in the context of the referendum.		Revenue & Taxation
25-052	Jett	Geo Engineering/ Weather Modification	This study will examine documented technologies, applications, and science based technologies, identify publications, and compile state legislative and policy responses to the practice to differentiate between aviation condensation and aerosolized chemical or particulate.		Agriculture
25-053	Kern	Evaluating the Breakdown of Drug Cost in Oklahoma	A study to evaluate where Oklahoma dollars being spent on drugs are going.		Business & Insurance
25-054	Kirt	Why are Oklahoma's homeowner property insurance rates higher than other similar states?	Recent data suggests that Oklahomans are paying 194% more than other American homeowners. What state, policy and administrative factors could impact these rates?		Business & Insurance
25-055	Kirt	Workforce Housing & Local Economic Development:	How do cities adopt and implement plans for workforce housing that addresses the needs for economic growth? What state policies or resources could positively impact that development?	Sen. Hall	Eco Devo, Workforce & Tourism
25-056	Mann	Review needs and challenges facing media outlets in Oklahoma	Looking at issues and feedback received during session on SB 158 and HB 2426 - Storm Chasers		Aero & Trans
25-057	Mann	Municipal Funding Stabilization	Interim Study to discuss and explore options to assist in municipal funding stabilization.	Sen. Gillespie	Local & County Government
25-058	Mann	Alzheimer's Diagnostic Technology Study	Interim study about requiring insurers to cover diagnostic tests for genetic markers for Alzheimer's.	Sen. Stanley	Business & Insurance
25-059	Mann	Serving veterans in the 21 st century	Interim study to discuss and find innovative solutions for the delivery of benefits to Oklahoma veterans	Sen. Hines & Sen. Stanley	Veterans & Military Affairs
25-060	Mann	Oklahoma Long Range Planning	Interim study discussing a long-range infrastructure plan including but not limited to roads, bridges, airports, water resources and power generation	Sen. Nice	Aero & Trans
25-061	Murdock	Wind and Solar Setbacks	To determine if setbacks are needed and what distance they should be if so.		Energy
25-062	Murdock	Red Cedar Control	A cost analysis of using goats as a tool to remove red cedars and other invasive species vs. mechanical removal and vs. control burns.		Agriculture
25-064	Nice	Modernizing the Oklahoma Child Tax Credit	Interim study to discuss, explore and find solutions to update and expand the CTC policy to improve benefits and programs to better support families.		Revenue & Taxation
25-065	Nice	Minimum Age of Adjudication	A study to examine the feasibility of establishing a minimum age of adjudication, with a review of child development and age- appropriate interventions.		Judiciary
25-066	Nice	Improving Maternal Health and Reducing Infant Mortality Rate	A study aimed at improving access and adherence to prenatal and postnatal care for high-risk populations, particularly in rural areas.		HHS
25-067	Nice	Factors of Student Absenteeism in Oklahoma Schools	Examine the root causes of student absenteeism in Oklahoms's public schools and identify effective, fiscally responsible strategies for improving attendance.		Education
25-068	Nice	Best Practices for Cash Bail to Promote Public Safety and Efficient Use of Corrections Resources	Examine and evaluate the effectiveness of OK's current cash bail system in promotng public safety, reducnt unnecessary pretrial detention costs, and ensuring a responsible and limited use of state correction resources.		Judiciary
25-069	Nice	Equipping small and rural chambers of commerce in Oklahoma for economic growth	Examine the economic impact, while understanding the operational challenges, and long-term sustainability of small and rural chambers of commerce across Oklahoma.		Eco Devo, Workforce & Tourism
25-070	Paxton	County Home Rule	Look at the pros and cons of county home rule	Kirt	Local & County Government
25-071	Prieto	Should Home Schoolers be removed from private School funding Yes, or No?	Taking a look from both sides people who want all funding to home schoolers out and people who say we should keep them in the equation	Sen. McIntosh	Education
25-072	Pugh	School Nutrition	Analysis of money going in from the school lunch program. Look for ways to localize food sources and ways to make school lunch program more nutritious		Education
25-073	Pugh	Flex Benefit Allowance	Analysis the cost of the FBA for teachers - what is making it increase?		Education
25-075	Rader	Options to Modernize Oklahoma's Criminal Corrections System	An exercise to identify options to reduce the high costs of incarceration and parole. Included in the study will be the statutory barriers to modernization, cost savings, and streamlining of Oklahoma's Criminal Corrections Systems		Public Safety
25-076	Reinhardt	Healthy Meals for Oklahoma Kids	A sudy examining the benefits and costs of universal healthy meals for all of Oklahoma's kids attending public schools.		Education
25-077	Rosino	Medical Licensure Boards	Look at consolidation of various boards	Sen. Pugh	HHS
25-078	Sacchieri	Oklahoma Real ID compliant and non-compliant driver licenses, a distinction without difference; Safeguarding the personal and biometric data of those who choose to opt out of REAL ID.	Examining collection, storage and sharing of personal and biometric data under REAL ID rules		Aero & Trans
25-079	Selfried	AI, Social Media, and the Mind: Exploring the State's Role in Public Policy and Protecting Free Speech	This interim study will examine emerging research on how artificial intelligence and social media impact the human brain—among both youth and adults—and explore the appropriate role of state government in addressing these concerns. It will consider what laws may be necessary to mitigate harm and evaluate the most effective methods of enforcement at the state level, while ensuring that any action taken respects and protects First Amendment rights.		Tech & Tele
25-081	Standridge	Fees at State Parks	Investigate how the state might erase parking fees at the state parks		Eco Devo, Workforce & Tourism
25-082	Standridge	SNAP Programs and Healthy Options	A study to address the nutritional value in choices available on the SNAP program in Oklahoma		HHS
25-083	Standridge	OTA Notification	A study regarding OTA and the notification of landowners about a project		Aero & Trans
25-087	Stanley	Cancer Causing Effect from Surgical Smoke	Look at the effect of surgical smoke in relation to causing cancer.		HHS

25-088	Stewart	Memorandum of Agreement Oklahoma (MOA)	There are no existing regulations in OK to prevent or address "frivolous" MOA filings. Anyone can currently file an MOA without providing proof of a legitimate land contract, thereby freezing a rightful landowner's ability to sell their property. Study if the County Clerks' office could verify or notify a landowner if something was filed on the property they were listed owners of.		Judiciary
25-090	Weaver	Oklahoma's Response to Human Trafficking - funding for certified victim service providers	To assess service gaps and funding inequities and explore solutions that ensure trafficking victims receive comprehensive care.		Public Safety
