Agency Mission
<p>In order to safeguard life, health, and property, and to promote the public welfare, the practice of engineering and the practice of land surveying in this state are hereby declared to be subject to regulation in the public interest. This agency is the only agency in the state of Oklahoma which ensures that the citizens of the state of Oklahoma are protected through the regulation of engineering and surveying services. The Board ensures that engineers and surveyors practicing in the state of Oklahoma meet the education, experience, and the examination standards outlined by the legislature in O.S. 59, Section 475.1 etc. seq. The application process is rigorous, verifying all education and experience prior to an individual being cited for the required examinations. Once the Board has approved the applications, national and state examinations are administered to the applicants. Following successful completion of the examinations, individuals may be licensed with this Board. Continuing education requirements are mandated for professional engineers and land surveyors to ensure that they are staying current in their field of practice. The Board, by rule, has an investigative committee which actively pursues complaints filed regarding infractions of the statutes and rules under this Board's jurisdiction. Disciplinary hearings are held to adjudicate violations of the regulations in this Board's jurisdiction.</p>
