MODERNIZATION EFFORTS:

The Board of Examiners of Psychologists continues to provide online license renewal with 98% online renewal. Additionally, in 2011, the Board partnered with the Association of

State and Provincial Psychology Board (ASPPB) mobility program to pilot the online Psychology Licensure Universal System (PLUS). This process allows applicants' information to be retained in the ASPPB credentialing data bank for future use if applicants wish to become licensed in other states of provinces. Although there was no fee for initial participation in this pilot program, ASPPB indicates there will be a fee imposed for candidates using this program in the future. When the fee has been determined, the Board will evaluate the continued benefit of the program and determine its future viability. This application automatically qualifies an applicant eligible for a Certificate of Professional Qualification in Psychology which enables the licensee to be licensed in other states.

To keep expenses at a minimum the Board shares office space and copy expenses with another agency.
