

**Oklahoma Tax Commission**

AGENCY MISSION STATEMENT:

The mission of the Oklahoma Tax Commission is to serve the people of Oklahoma by promoting tax compliance through quality service and fair administration. The mission statement was adopted in 1995 as part of a process improvement study of the agency.

LEAD ADMINISTRATOR:

Agency Head: Tony Mastin  
Executive Director  
Phone: (405) 521-3214  
Fax: (405) 521-2035  
E-Mail: [tmastin@tax.ok.gov](mailto:tmastin@tax.ok.gov)

GOVERNANCE:

The Tax Commission consists of three persons appointed by the Governor by and with the consent of the State Senate. The Commission members serve six-year overlapping terms. The three-member Commission is a full-time policy making and judicial body ultimately responsible for the administration of the tax laws of the State. The Commission employs an Executive Director who is responsible for the administration of the day to day operations of the agency. The members of the Commission are Tom Kemp, Chairman, Jerry Johnson, Vice Chairman, and Dawn Cash, Secretary-Member.

GOVERNANCE ACCOUNTABILITY:

Copies of the minutes for Commission/Board meetings for calendar year 2013 have been provided in electronic format. Since the Commission is a full-time body, the same time and leave policies apply as all other employees in the agency.

MODERNIZATION EFFORTS:

The agency has undertaken and implemented several modernization efforts since July 1, 2010. In January 2011, the agency began development of an integrated tax system which will provide taxpayers with on-line account availability to view their account information and help the agency in its account management, compliance and collection efforts. Phase I, II and III were implemented in October 2011, November 2012, and December 2013, respectively. Future phases are planned with the next major rollout to be centered on Motor Vehicle Collections in March 2015. In coordination with Ok.Gov, the state's web portal provider, electronic payment and reporting of gross production taxes is being developed. A second phase of that modernization effort is also underway to provide electronic refund and well information on-line.

Technology enhancements and electronic filing are the key to saving costs within the agency. The handling of paper returns is labor intensive and more error prone. Consequently, our investments and efforts have been targeted in this area.

---

### 2014-15 Performance Report

The agency has taken steps to cut costs by eliminating mailing paper returns to those who file electronically. Electronic filing is continually encouraged in all publications and form instructions. During the 2013 tax filing season, 322,379 debit cards were issued instead of paper checks for refunds and as an alternative to direct deposit, which is continuing to save the state postage and paper costs.

#### CORE MISSION:

With the agency's core mission associated with tax administration all services provided are statutory and necessary for the collection of state revenues for the funding of essential state services. The collection of taxes for funding local governments and schools is also a part of the agency's statutory responsibilities.

#### PRIVATE ALTERNATIVES:

The Tax Commission has, throughout the past several years partnered with private industry for bank lockbox payment processing, tax debt collection services, revenue enhancement projects involving computer matching, development and implementation of an integrated tax system, and utilization of temporary personnel for tax season processing. Private industry can provide better technology and services at a lower cost than in-house resources in these areas.
