How would the agency handle a 3% appropriation reduction in FY'16? A reduction of 3% would be approximately \$234,000. Adjustments might include providing fewer Precinct Officials in the 2016 Presidential Primary as well as the 2016 Statewide Primary and leaving staff positions vacant that otherwise could be filled.

How would the agency handle a 5% appropriation reduction in FY'16? A reduction of 5% would be approximately \$390,000. A cut of this size could affect our ability to adequately staff polling places in the 2016 Primary Elections and the extent of the training that could be provided for the election workers. The number of precincts in the state was reduced by 8.5% during the redrawing of the precinct lines in 2011. This has reduced some costs in most elections, but it also increases the number of voters in many precincts, hence the need to provide adequate staffing and training.

	Is the agency seeking any fee increases for FY'16?				
			\$ Amount		
Increase 1	N/A		\$(
Increase 2			\$0		
Increase 3			\$0		
Increase 3					

Federal Government Impact

What are the agency's top 2-3 capital or technology (one-time) requests, if applicable?

OMES may require the State Election Board to vacate current office in the Capitol due to the repairs/renovations scheduled. Should this occur, the State Election Board would require additional appropriations to fund lease payments for office space as well as other necessary costs associated with relocation

1.) How much federal money received by the agency is tied to a mandate by the Federal Government?

All federal money must be used to comply with the Help America Vote Act of 2002 (HAVA). Most of the funding has been used to purchase and implement a new state-wide voting system. Federal funds were also used to implement a new online ballot delivery system to comply with the federal MOVE Act, which requires certain absentee ballot services for military and overseas voters.

2.) Are any of those funds inadequate to pay for the federal mandate?

The federal funds we have received are adequate for the initial purchase of the new voting system. Ongoing maintenance and operation of the system will be a state responsibility.

3.) What would the consequences be of ending all of the federal funded programs for your agency? We do not anticipate receiving any additional federal funds.

4.) How will your agency be affected by federal budget cuts in the coming fiscal year?

We do not anticipate receiving any additional federal funds.

5.) Has the agency requested any additional federal earmarks or increases?

No.

Division and Program Descriptions

Administration/Data Processing

This program represents the administrative function of the State Election Board and provides funding for the administration of election laws in the 77 counties.

Election Management

This program represents the function of administering and conducting the statewide elections mandated by law.

Voter Registration

This program represents the administration of the National Voter Registration Act, and the corresponding state law on registering persons to vote.

Help America Vote Act

This program represents the administration of the federal Help America Vote Act of 2002 and the modernization of the Oklahoma election system.

Voter Outreach

This program essentially represents the administration of the State Election Board's Revolving Fund.
