President, Oklahoma District  
Attorneys Association

**District Attorneys Budget: \$81 million.**

**State appropriations: \$38 million.**

- Need \$1.2 million to complete critical needs request
- Bogus check still in serious decline
- District 2 is furloughing
- Revenues have not kept pace with increasing health insurance costs
- Average salary for a prosecutor: \$65,000

District Attorneys have increasingly become check collectors, probation officers, investigators, grant writers and civil forfeiture attorneys in an attempt to keep the doors open. "Prosecutor" continues to fall further and further down the list.

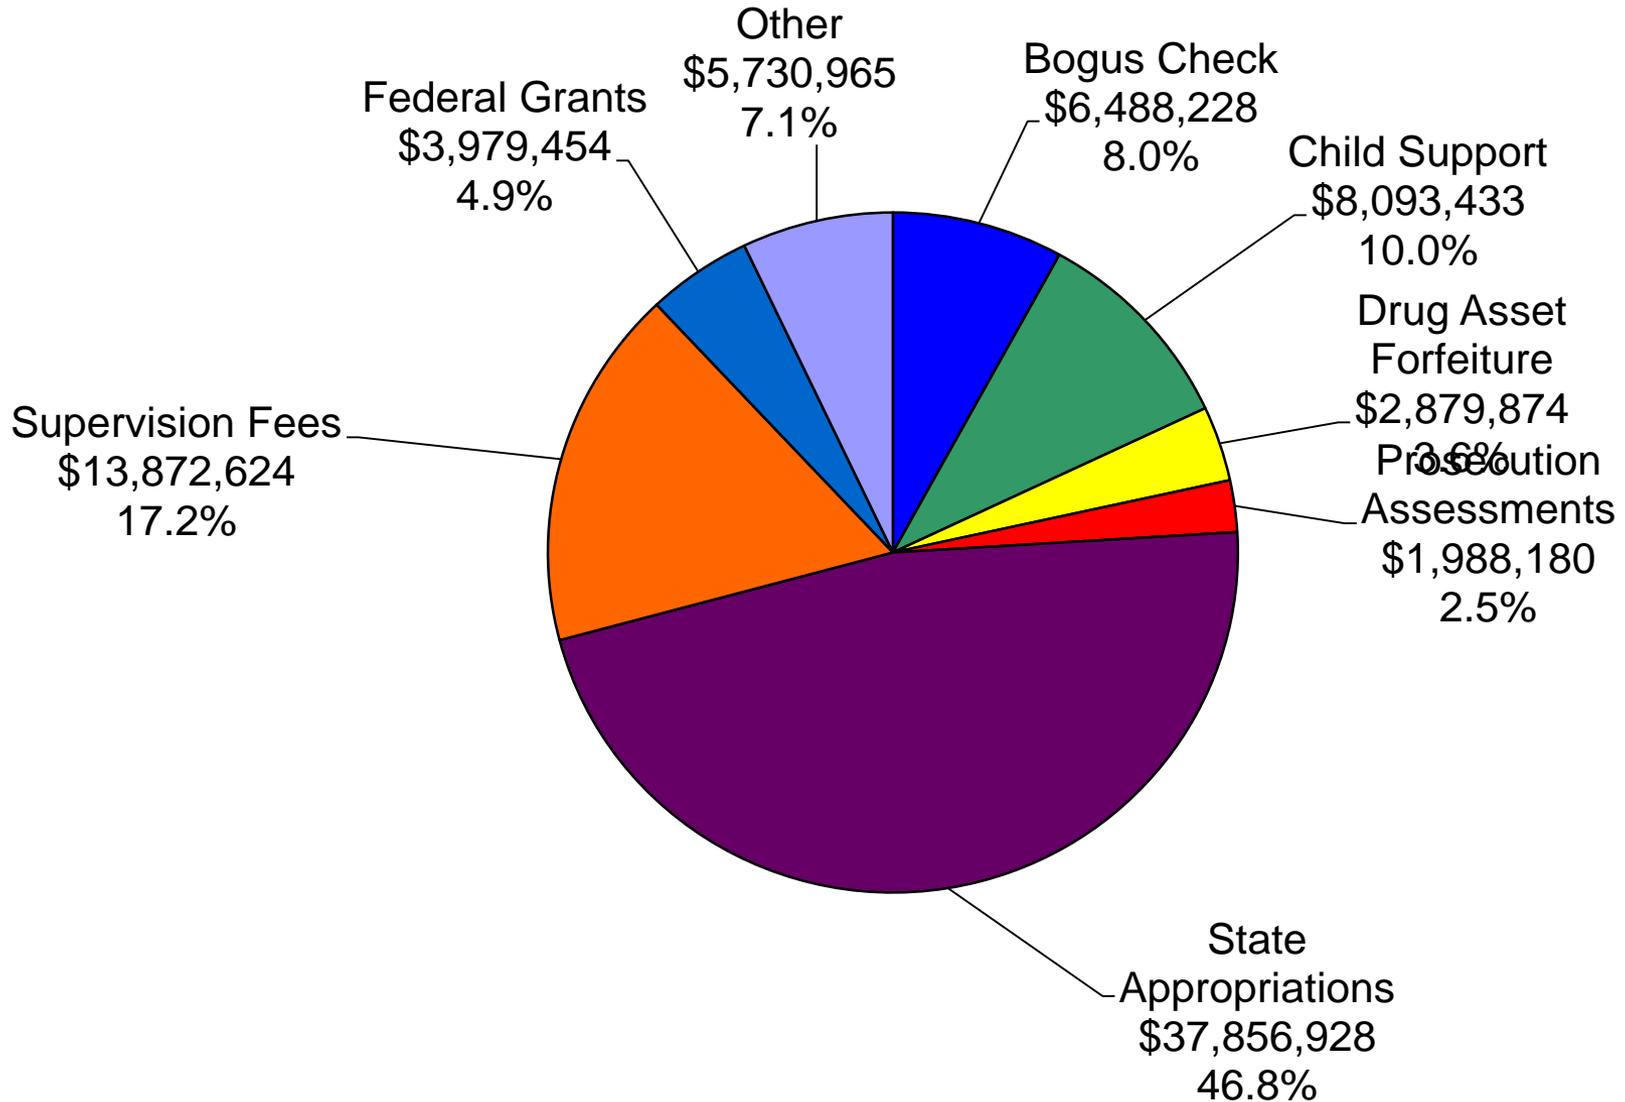

More than **HALF** the funds used to fund basic functions are generated by District Attorneys.

**District Attorneys now begin each day worrying not about the murder case their office will try, but about how they will fund a prosecutor to handle it.**

**Two Serious Outcomes:**

- We will lose outstanding District Attorneys, whose constant worry about paying staff prevents them from focusing on effective prosecution.
- We are failing the people of the State of Oklahoma, by forcing prosecutors to hire lower costly lawyers with less experience. If your child was raped or murdered, wouldn't you want the best in the courtroom?
