Concurrent Resolution Ratifying a Proposed Amendment to the Constitution of the United States of America:

Whereas, Both houses of the sixty-fifth Congress of the United States of America, by a constitutional majority of two-thirds thereof, made the following proposition to amend the constitution of the United States of America, in the following words, to-wit:

"JOINT RESOLUTION

"Proposing an amendment to the Constitution of the United States:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That the following amendment to the Constitution be, and hereby is, proposed to the States, to become valid as a part of the Constitution when ratified by the legislatures of the several states as provided by the Constitution:

"ARTICLE ——

"Section 1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

"Section 2. The Congress and the several states shall have concurrent power to enforce this article by appropriate legislation.

"Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several states, as provided in the Constitution, within seven years from the date of the submission hereof to the states by the Congress."

Therefore, Be it Resolved, By the Legislature of the State of Oklahoma,

Section 1. That the said proposed amendment to the Constitution of the United States of America be, and the same is hereby ratified by the Legislature of the State of Oklahoma.

Section 2. That certified copies of this preamble and joint

resolution be forwarded by the Governor of this State to the Secretary of State at Washington, to the Presiding Officer of the United States Senate, and to the Speaker of the House of Representatives of the United States.

Adopted by the Senate the ____ day of January, 1919.

SENATE CONCURRENT RESOLUTION No. 3.

By Thomas.

A Resolution endorsing the proposed establishment of a League of Nations to enforce peace with the aim of promoting the liberty, progress and orderly development of the world.

Whereas, The war, now brought to a victorious close by

the associated power of the free nations of the world, was above all else a war to end war and protect human rights;

Therefore, Be it Resolved by the Senate, the House of Representatives Concurring Therein, That we favor the establishment of a League of Nations of which the United States shall be a member. We believe that such a League should aim at promoting the liberty, progress and orderly development of the world; that it should clinch the victory won at such terrible sacrifice by having the united potential force of all its members as a standing menace against any nation that seeks to upset the peace of the world.

Be it Further Resolved, That certified copies of this Resolution be sent by the Secretary of State to the President and to the presiding officers of both branches of Congress and to each of the United States Senators and Representatives from the State of Oklahoma.

Senator Thomas moved its adoption, and the same was duly seconded by Senator McIntosh and on vote the Chair declared the resolution adopted.

Senator Coyne introduced the following resolution and moved its adoption:

SENATE RESOLUTION No. 2.

Whereas, As it has pleased the ruler of the universe to remove from our midst, Hon. P. J. Goulding, of Enid, a former member of the Senate, and who at the time of his death was a member of the State Capitol Commission,

Be It Resolved, That in his death the State has lost a devoted citizen whose probity was above reproach, and an able, upright, conscientious and unselfish official whose public service reflected honor upon our State. We revere him as a patriot, who never failed to denounce wrong and uphold right wherever found.

Be It Resolved, That we the members of the Senate hereby express our deep sorrow at his death, and extend our sympathy and condolence to his family, and that this resolution be spread upon the Journal of the Senate, and a copy be furnished to Mrs. P. J. Goulding.

The same was duly seconded and carried.

BILLS ON FIRST READING.

The following bill was introduced and read for the first time:

Senate Bill No. 5, by Cartwright of the Senate and Hodges and Walden of the House.—An Act providing for free textbooks in the State of Oklahoma, providing the procedure for obtaining same, giving Board of Equalization power to levy tax to pay for same, and declaring an emergency.

BILLS ON SECOND READING.

The following bills were read for the second time and referred to committees as follows:

Senate Bill No. 1, by Johnson and Thomas of the Senate and Disney of the House.—An Act creating and establishing a State Cemetery and providing for its management and control. Designating what bodies may be interred therein. Providing for the appointment for a superintendent of the same, etc. Committee on Appropriations.

Senate Bill No. 2, by M. W. Lynch.—An Act creating and establishing a Superior Court in Lincoln County, defining the

jurisdiction of said court; providing for the appointment and election of a judge of said court; fixing his term of office and salary; providing for a court reporter for said court, and an additional deputy court clerk, and fixing the salaries therefor, and declaring an emergency. Committee on Judiciary No. 1.

Senate Bill No. 3, by Cordell.—An Act making it unlawful to carry, haul, bring or introduce into this state, or possess, any liquor the sale of which is prohibited by the laws of this state; making the possession thereof prima facie evidence of unlawful possession, fixing the penalty for violation thereof; repealing Section 6 of Chapter 26, Session Laws of 1913, and declaring an emergency. Committee on Prohibition Enforcement.

Senate Bill No. 4, by Golobie.—An Act to amend Chapter 161, Senate Bill 334, Session Laws of 1917, entitled, An Act creating a fireman's relief and pension fund; fixing the qualifications of pensioners and making an appropriation for the payment of pensioned firemen by adding additional sections granting the right of appeal, and limiting the time and manner and place of appeal. Committee on Appropriations.

Senator Smith moved that Senator Cordell be appointed as special messenger to convey to the Secretary of State Senate Concurrent Resolution No. 2.

Senator McIntosh seconded the same and the motion carried.

Senator Vaughan moved that the Sergeant-at-Arms be instructed to secure an American flag and drape the same in the Senate chamber.

There being no objections, the Sergeant-at-Arms was so instructed.

The time having now arrived for the purpose of eulogistic remarks on the death of Senator Bickel, the following addressed the Senate: Senators McIntosh, Johnson, Leach, Davidson, Briggs, Cordell, Knie, Woods, Rev. Callahan and the President of the Senate.

The President then appointed the following committee for the purpose of drafting appropriate resolutions on the death of

Senator Bickel, to be spread upon the Journal: Senators McIntosh, Johnson and Briggs.

Senator Johnson asked to be excused for two days following this session.

There being no objections Senator Johnson was so excused.

Senator Thomas moved that a committee be appointed for the purpose of arranging a joint session this afternoon to receive the message from the Governor.

The same was duly seconded and carried. The chair appointed Senators Thomas, McIntosh and Hensley to act as such committee.

Senator McIntosh moved that the Senate recess in compliance with Senate Concurrent Resolution No. 1 until 1:45.

The Senate reconvened at 1:45.

An announcement was received and read from the executive committee, having charge of the ceremonies following the inauguration of Governor-elect Robertson, in regard to a public reception to be held by Governor Robertson and wife on January 13th, 1919, the inaugural ball, etc.

Senator Johnson submitted the following report:

REPORT OF THE SPECIAL COMMITTEE APPOINTED FOR THE PURPOSE OF DRAFTING APPROPRIATE RESOLUTION OF THE ACTION TAKEN BY THE SENATE ON THE DEATH OF SENATOR W. M. BICKEL.

Mr. President:

We, your committee, have the honor to report as follows: The hour set apart by the Senate having arrived and the Senate having taken up the consideration of Resolution No. 1,

which provided for eulogistic remarks on the late Senator Bickel, your committee has to report that extended remarks were made by the following senators:

Senators Johnson, Davidsan, Cordell, McIntosh, Leach, Briggs, Knie and Wood and Lieutenant Governor Trapp; also by invitation Senate Chaplain Calahan addressed the Senate.

The remarks of the speakers conveyed the high and affectionate regard with which the members of the Senate esteemed Senator Bickel, and we, therefore, recommend to the Senate that the original resolutions adopted by the Senate on January 7th be spread upon the Senate Journal as follows:
Be It Resolved by the Senate of the State of Oklahoma:

Whereas, We have learned with profound sorrow of the death of our late colleague, Senator William M. Bickel, of Alva, an honored member of this Senate, therefore

Be It Resolved by the Senate of the State of Oklahoma, That in the death of Senator Bickel the State has lost a splendid citizen and this Senate one of its most honored members. By his great ability, untiring energy and sterling honesty he has left his imprint on the laws of our State, and by his kindly and manly conduct he has left a lasting impression upon our hearts and a fragrant memory that will remain through all the years to come.

Be It Further Resolved, That the Senate of the State of Oklahoma hereby extends its sympathy to the family of Senator Bickel in this, their hour of affliction; and

Be It Further Resolved, That a copy of the enrolled resolution be sent to the family of the late Senator Bickel and that a copy be furnished to the Alva paper.

Respectfully submitted,

S. L. JOHNSON, Chairman;
J. T. McINTOSH,
W. A. BRIGGS.

Senator Johnson moved the adoption of the report.

The motion was duly seconded and the same carried.

The President signed engrossed Senate Concurrent Resolution No. 3 by Thomas and ordered the same transmitted to the Honorable House.

A message was received from the Honorable House transmitting Senate Concurrent Resolution No. 2, by Cordell, with the information that the same had been passed by the House and signed by the Speaker in open session.

HOUSE OF REPRESENTATIVES.

January 8, 1919.

To the President of the Senate:

I am directed by the House of Representatives to transmit herewith the engrossed copy of Senate Concurrent Resolution No. 2, by Cordell, concurrent resolution ratifying a proposed amendment to the Constitution of the United States of America, and to inform you, and through you the Honorable Senate, that the same has been passed by the House and was signed by the Speaker in open session.

Respectfully,

J. COLLAR,

Acting Chief Clerk.

The chair appointed Senator Vaughan to act on the Committee of Enrolled and Engrossed Bills until such time as other disposition could be made.

The committee from the Honorable House was received and announced that they were ready to meet with the Senate in joint session for the purpose of receiving the Governor's message.

Senator Thomas moved that the Senate accept the invitation and notify the honorable committee that the Senate is ready to meet with the Honorable House forthwith.

The motion was duly seconded and carried.

Senator Thomas moved that the Senate recess and proceed to the Honorable House for a joint session.

JOINT SESSION.

The joint session was called to order by the President Pro Tempore of the Senate.

The clerk of the Senate called the roll of the Senate and a quorum was shown to be present.

The clerk of the House called the roll of the House and a quorum was shown to be present.

Mr. Harrison moved that the message of the Governor be printed in the Journals of the House and Senate and the reading dispensed with, which question was put by the President Pro Tempore and decided in the affirmative.

The Governor's message is as follows:

The Governor's message is as follows:

GOVERNOR'S MESSAGE.

To the Senate and House of Representatives of the State of Oklahoma:

You having organized and assembled in joint session, it becomes my duty to communicate by message to you upon the condition of the State and to recommend such matters as may appear proper.

When the Sixth Legislature adjourned our Nation was at peace with all the countries of the world. Since then it has been forced into a war against the Central Powers. Good fortune favored the cause of the Allies, and the armies of the Central Powers have been vanquished and suitable peace terms are to be worked out in the conference at Versailles.

This was a triumph for democracy and humanity and justice as against autocracy and greed, and a vindication of the honor of our country. We should be thankful to the God of Nations and grateful to the President and the Congress and our armies, as well as to our patriotic citizenship for this result.

With the beginning of this biennium we again happily find our Nation at peace.

Necessarily this great war brought upon us many financial burdens. Whilst we are to maintain a reasonable progress, it is necessary that we retain a wise and a firm hand upon the public treasury, that no extravagances may be permitted, but that economy, thrift, industry and efficiency shall come with every act and endeavor.

FINANCIAL CONDITION.

That you may properly consider the affairs of state it becomes necessary to communicate to you as to its financial status.

State Bonds:

Issue of August 1, 1908, $1,460,000.00 in series running from ten to twenty years in ten equal installments of $146,000.00, the first installment falling due on August 1, 1918, and the last to become due ten years after that date. Total $1,460,000.00. All accrued interest at the rate of 4 per cent per annum, in addition to the sum of $146,000.00 on the principal, has been paid. Balance due on said issue, $1,314,000.00.

Issue of October 15, 1913, $2,907,000.00 in ten equal installments, the first maturing on October 15, 1923, and the last ten years from that date, each installment bearing interest at the rate of 4½ per cent per annum, all accrued interest having been paid.

The foregoing bond issues constitute all outstanding state indebtedness.

Public Building Indebtedness:

Warrants called Public Building Bonds were issued against the Public Building Land and proceeds derived from the sale thereof in the sum of $2,451,500.00. The same are not a liability of the state but rest for their security solely upon the lands and the proceeds derived from the sale thereof. The obligation of the state is merely that of trustee to faithfully execute its trust. Of this issue $497,500.00 have been paid, as shown by the records of the Treasurer's office, leaving out standing the sum of $1,954,000.00. All of said securities, including interest, have been paid as they have matured. These warrants were issued by virtue of act of February 18, 1910, (Session Laws 1910, Chapter 76, page 21), and the amendatory act of March 15, 1911, (Session Laws 1910-1911, Chapter 89, pp. 184, 199). An itemized statement as to said securities was attached to message sent to the Legislature on January 4, 1917, (see House Journal, Sixth Legislature, 1917, pp. 34, 35, 85; Senate Journal, Sixth Legislature, 1917, pp. 41, 41, 91.)

DISAPPROVED CLAIMS.

By the General Deficiency Bill, House Bill No. 614, passed by the Sixth Legislature, Session Laws 1917, Chapter

15, certain appropriations were disapproved by me. These items were separately disapproved on various grounds as specifically set out from pages 24 to 36 inclusive, Chapter 15, Session Laws 1917.

The Fifth Legislature (Session Laws 1915, Chapter 231), provided how deficiencies could be created under the protection of the law. This placed the state upon a wise and a safe basis as to deficiencies.

These stale claims which have either been repeatedly disapproved by different Governors, or which would be barred by the statute of limitation between individuals, as a matter of principle and policy should not be allowed by legislative action without the facts and the law having been first found and declared by a competent judicial tribunal and judgment rendered against the state. The state ought to pay its honest, just and legal obligations, but when the claims have become so old as these they should be first supported by the finding of a court before an appropriation is made to liquidate same.

I recommend that by legislative act the parties holding said disapproved claims be permitted to bring an action in the Supreme Court but not to have the right to set up in said action any amount in excess of that set out in said items as disapproved, or any other claim against the State other than the specific claims hereinbefore referred to; the Supreme Court to be given original jurisdiction of said claims and permitted to consolidate such into one action.

Penitentiary—McAlester:

From July 1, 1915, to June 30, 1916, the Warden of the Penitentiary at McAlester deposited with the State Treasury	$ 4,796.34
From July 1, 1916, to June 30, 1917	133,772.32
From July 1, 1917, to June 30, 1918	496,176.18

For the fiscal year ending June 30, 1918, the gross earning of the Aylesworth Farm, which is an agency of said Penitentiary, were $48,951.68, the net earnings being $19,139.09. This farm in one year yielded in net profits 40 per cent of its original cost.

For the same period the gross earnings of the Penitentiary farm at McAlester were $49,574.73, the net earnings for that period being $20,013.48.

Various industries have been installed at the Penitentiary to be run solely for state use, none of the products to be sold for commercial purposes but to be used solely for the state and state agencies. Said industries are here set out showing the total net operating earnings for the fiscal year ending June 30, 1918, to-wit:

Broom Factory	$ 357.35
Canning factory	878.41
Dairy	10,030.94
Garment factory	4,708.33
Mattress factory	2,533.56
Paint shop	110.19
Planing mill	2,132.78
Shoe and harness shop	3,120.15
Automobile tag factory	8,606.82
Tailor shop	3,892.67
Tin shop	1,090.06
Tobacco factory	1,267.65
Wagon factory	3,521.19
Printing plant	1,265.83
Poultry department	545.68
Also the Twine Factory with total operating earnings	85,603.80
Total operating earnings of said industries	669,979.06
Total operating expenses of said industries were	501,123.11
Making net operating earnings of	168,855.95

Other earnings from the Administration of said Penitentiary	33,305.28
Total net earnings from the penitentiary were	$202,161.23

The twine manufactured in the twine department is sold to the farmers of the State.

The prices of the products of these industries used by the state are calculated at the lowest prices at which these manufactured products could have been bought by the state in the open market and the different state agencies reimburse the penitentiary therefor out of the appropriated funds belonging to such state agencies for such purpose, thereby keeping the accounting complete.

The Sixth Legislature having adjourned before war was declared, the appropriations for maintenance were made on a peace basis. Such appropriation for the Penitentiary at McAlester for the fiscal years closing June 30, 1918, and 1919, is $332,000.00 based on peace conditions. On account of the war prices and other additional fixed charges these appropriations became inadequate. The net profits from the revolving funds of the penitentiary under the law could be used for operating or maintenance purposes in certain instances. The result is that you have a small deficiency of $38,000.00 for the Peniteniary at McAlester when otherwise you would have a deficiency of about $240,000.00.

The Sixth Legislature changed the rule for the transportation of prisoners to the penitentiaries (Session Laws 1917, Chapter 212). Formerly it was done by the sheriffs and the following Legislature made a deficiency appropriation to cover same. The Sixth Legislature in providing this should be done by the officers of the Penitentiary made no specific appropriation to cover same and consequently such expenses had to be paid out of the maintenance fund. The penitentiaries had not only the burden of increased war prices but also that of the transportation of the prisoners. Notwithstanding these burdens

on account of the net earnings of the Penitentiary available through the revolving funds, the deficiency has been kept down to the item of $38,000.00. The principal or fixed capital in the revolving funds cannot be impaired. Only the profits may be used under the law.

These industries not only go a long way toward making the Penitentiary self supporting, but are also vocational and educational in their character. Prisoners learn trades in these small industries. The little printing plant has no linotype machine, the type is set by hand. Only ordinary printing to a small extent is done. All the labor employed by the state is an expert supervising printer and then unfortunate bright young fellows if they so desire are permitted to learn the trade as printers and go out in the world gratified to be self sustaining and law abiding citizens.

Another object we had in mind was to establish a prison paper at the Penitentiary to be run and edited and the type to be set by the prisoners. Those in prison have moral claims upon us as well as the free. We must meet these claims wisely in the fear of God.

This plant is not run to make money. It does only a certain kind of printing for the state like blank forms, evelopes and common stationery, and such ordinary printing.

These industries have been built up strictly within the state-use plan and to supply only state needs and with a view that they should not become large enough even then to ever be in competition with any enterprise within the state.

The revolving funds have worked well. The vouchers are first approved by the Warden and the Chief Clerk; then by two members of the Board of Control or Board of Public Affairs; then by the Governor or his Chief Clerk and then by the Auditor. Additional legislation should be passed providing specifically that it should be the duty of the Auditor to pass on these claims and register them.

As far as practicable convicts have been worked on the public highways. During this administration convicts have been worked in the following counties: Tulsa, Mayes, Wagoner, Pottawatomie, Seminole, Hughes, Pittsburg, Latimer, LeFlore, Pushmataha, McCurtain, Bryan, Comanche, Kiowa, Greer, Harmon and probably others. Convict labor on roads was more practical during war times than in peace times. Trusty convict labor on roads as a rule is not efficient. The most efficient results are obtained from gun gangs. Trusties as a rule are not worked in the industries within the walls.

One of the difficulties making a penitentiary self sustaining is the afflicted that drift into prisons. A large per cent are incapacitated for labor. These have to be taken care of and looked after by other prisoners.

Buildings for its employees in accordance with Chapter 211, Session Laws 1917, are in process of construction. The brick plant provided by Chapter 47, Session Laws 1917, was delayed on account of the war but was finally installed and the brick manufactured and now on the ground and these buildings have been begun.

The shale for making brick of all character, including paving brick, is in abundance upon the penitentiary grounds. This plant should be used to make building brick for state institutions and state work, and then paving for roads and highways, and tiling for roads and the reclamation of farm lands.

Reformatory—Granite:

The penitentiary or reformatory at Granite has been greatly handicapped on account of the war. Fuel was a costly item accentuated on account of transportation. One of its principal products is crushed granite. Road building and such work was arrested on account of the war. In the projects of building state institutions, by which this material could very properly be used, it was very difficult to get transportation for it. In the year 1917 the crop at its farm was completely destroyed by hail, the ripening wheat crop and other farm products being completely destroyed, damaging the penitentiary

as much as $25,000.00. During the year 1918 the farm was rendered unproductive on account of the severe drouth.

BUDGET FOR STATE INSTITUTIONS.—DEFICIENCIES.

State Highway Department:

On Oct. 10, 1916, the Commissioner of Highways reported in detail, and after examination I found that a deficiency in the sum of $18,279.79 for the fiscal year closing June 30, 1917, was necessary, and accordingly so certified under Deficiency Certificate No. 14; the appropriation to cover this deficiency to be made out of the earnings from the Highway Department in the Treasury. More than that sum remained of such earnings. This item was submitted to the Sixth Legislature (see House Journal, page 43; Senate Journal, page 49). I stated in the message at that time that the items covered by said certificate would be presented for the consideration of the Legislature by the Highway Department. Obviously the Appropriation Committees awaited the presentation of the items by the Highway Department, but said department overlooked the fact that it was expected to present these items to the Legislature. This is a solemn obligation of the state. This sum of money was advanced by the First National Bank of Hartshorne to the Highway Department at the rate of 6 per cent per annum. After the Legislature adjourned the matter was called to my attention, and it became necessary for me to certify to a deficiency to cover the accrued interest.

I quote from Deficiency Certificate No. 32 as follows:

"It appears that said items were advanced said Highway Department to cover said deficiency, as follows:

	Principal	Interest
March 19, 1917	$ 3,279.79	
Interest on same to March 30, 1919, to-wit, 2 yrs, 11 days, at rate of 6 per cent per annum		$ 399.54

January 27, 1917	5,000.00	
Interest on same to March 30, 1919, to-wit, 2 yrs, 2 mo., 3 days at the rate of 6 per cent per annum		651.67
December 9, 1916	5,000.00	
Interest on same to March 30, 1919, to wit, 2 yrs., 3 mo., 21 days at the rate of 6 per cent per annum		692.50
October 30, 1916	5,000.00	
Interest on same to March 30, 1919, to wit, 2 yrs., 5 mo., at the rate of 6 per cent per annum		725.00
	$18,279.79	$2,468.71

"The total amount of interest at the rate of six per cent per annum on said advancements to March 30th, 1919, is $2,-468.71."

Said items were properly advanced under said deficiency certificate, but on account of the failure of the Highway Department to present these items to the Legislature the body adjourned without acting thereon. I therefore certified to a deficiency in said sum of $2,468.71.

I recommend that the Legislature appropriate under Deficiency Certificates Nos. 14 and 32 in favor of the First National Bank, Hartshorne as follows:

Principal sum	$18,279.79	(Certificate No. 14)
Plus the interest sum	2,468.71	(Certificate No. 32)
	$20,748.50	

making the total sum covered by said two deficiency certificates of $20,748.50.

On June 8, 1918, the State Board of Public Affairs certified to me as follows:

"We find that Senate Bill No. 435 appropriated $10,000.00 for Automobile Tags for the Highway Department. We have purchased 110,500 automobile plates, which has exhausted the appropriation. The Highway Department has advised us that it will be necessary to furnish them with 20,000 additional plates and 20,000 envelopes for the number plates in order that they may carry out the law, enforcing Sec. 5, Art. 4, Chap. 173 of House Bill No. 187, Session Laws, 1915.

"Their funds being exhausted it will become necessary to issue a deficiency certificate to the amount of Three Thousand Eight Hundred Eighty-Three ($3,883.00), Dollars, the market price of 20,000 plates and 20,000 envelopes, and we would recommand that deficiency certificate be issued for the above amount for the High Way Department."

I endorsed as follows:

"I have investigated these facts and find that the deficiency is necessary, and therefore certify and consent to the same as contemplated by law, and the deficiency is authorized in so far as my consent is necessary and permitted by law in the sum of $3,883.00."

(See Deficiency Certificate No. 37.)

On August 2, 1918, the State Department of Highways wrote me as follows:

"Realizing that it is only a matter of a few months until the close of the calendar year, and assuming that it is possible that, for certain reasons, you may desire the herewith information, I desire to call your attention to the fact that in addition to the deficiencies already created for this department, namely $18,279.79, due to the Bank of Hartshorne, and later deficiency covering interest on above mentioned amount, and the deficiency created on June 8 of the current year under Deficiency Certificate No. 37 in the amount of $3,883.00 covering purchase of additional motor vehicle tags, I desire to advise that on April 16, 1917, the Board of Affairs under Order No. 49,680 authorized the State Penitentiary to manufacture and deliver to this department 109,500 motor vehicle tags. However, we were furnished 1,000 in excess of the number mentioned through some error at the peni-

tentiary and claim was filed by the penitentiary in the amount of $11,620.00, and under Account No. 18, Fund No. 18, $10,000.00 was provided for payment of tags or number plates for the year 1918. We therefore approved payment in the amount of $10,000.00 to the State Penitentiary. We have on file their claim for balance remaining in the amount of $1,620.00

"It is possible that you may desire to create deficiency to cover this item. We have therefore taken the liberty of calling same to your attention and trust we have not taken undue liberty."

It appearing from this communication that it was necessary for a deficiency to be certified to, I investigated the matter and so found, and accordingly agreed in writing for a deficiency in the sum of $1,620.00 to cover amount due State Penitentiary at McAlester, as above set out. (See Deficiency Certificate No. 44).

SUPREME COURT.

By Senate Bill No. 252, approved March 30, 1917, (Session Laws 1917, page 232) four additional justices were added to the Supreme Court. The Legislature failed to make appropriation for their salaries and the salaries of their stenographers for the months of April, May and June, the last three months of the fiscal year closing June 30, 1917. It therefore became necessary to issue deficiency certificates.

Deficiency Certificate No. 19 covers a fractional part of the month of April, 1917, in the sum of $866.64, and covers the following items:

Justice J. H. Miley	$166.66
Justice R. M. Rainey	166.66
Justice Thos. H. Owen	166.66
Justice Rutherford Brett	166.66
Rue Laing	50.00
A. H. Mahnker	50.00
Lottie Henrietta	50.00
Don Cameron	50.00
	$866.64

Deficiency Certificate No. 23 covers the month of May, 1917, in the sum of $1,613.97, and covers the following items:

Justice J. H. Miley	$333.33
Justice R. M. Rainey	333.33
Justice Thos. H. Owen	333.33
Justice Rutherford Brett	333.33
Nellie Morgan	80.65
A. H. Mahnker	100.00
O. P. Wilkenson	19.38
H. Heiman	80.62
Don Cameron	50.00
Owen Black	50.00
	$1,713.97

Deficiency Certificate No. 24 covers the month of June, 1917, in the sum of $1,733.32, and covers the following items:

Justice J. H. Miley	$333.33
Justice R. M. Rainey	333.33
Justice Thos. H. Owen	333.33
Justice Rutherford Brett	333.33
Nellie Morgan	100.00
A. H. Mahnker	100.00
H. Heiman	100.00
Owen Black	100.00
	$1,733.32

DISTRICT COURTS.

By House Bill No. 516, approved March 30, 1917, (Session Laws 1917, page 203) additional judges were added for the Twenty-first and Twenty-second Judicial Districts. The Legislature failed to make appropriation for their salaries and the salaries of their court reporters for the months of April, May and June, the last three months of the fiscal year closing June 30, 1917. It therefore became necessary to issue deficiency certificates.

District Twenty-One.

Deficiency Certificate No. 20, in the sum of $285.00, covers the following items for a period from April 4, 1917, to April 30, 1917:

N. E. McNeill, Judge	$225.00
L. J. Mangan, Court Reporter	60.00
	$285.00

Deficiency Certificate No. 26, in the sum of $350.00, covers the following items for the month of May, 1917:

N. E. McNeill, Judge	$250.00
L. J. Mangan, Court Reporter	100.00
	$350.00

Deficiency Certificate No. 27, in the sum of $350.00, covers the following items for the month of June, 1917:

N. E. McNeill, Judge	$250.00
L. J. Mangan, Court Reporter	100.00
	$350.00

District Twenty-Two.

Deficiency Certificate No. 22, in the sum of $350.00, covers the following items for the month of April, 1917:

Mark L. Bozarth, Judge	$250.00
E. V. Cott, Court Reporter	100.00
	$350.00

Deficiency Certificate No. 48, in the sum of $700.00, covers the following items for the months of May and June, 1917:

Mark L. Bozarth, Judge	$500.00
E. V. Cott, Court Reporter	200.00
	$700.00

STATE UNIVERSITY, NORMAN.

On the 15th day of August, 1918, Deficiency Certificate No. 43, as follows, was issued by me:

"Dr. Stratton D. Brooks, President of the University, has submitted to me in writing the facts as to the necessity thereof, and requested that he be authorized to go before the proper agencies of the State and create deficiencies for the purposes and in the amounts hereinafter stated, towit:

"1. A deficiency order for $8,700.00 to replace equipment lost in the fire for which the insurance is not available until appropriated by the Legislature, the insurance having been covered in the treasury. This equipment being for the Domestic Science and Printing Department and essential to retain the Smith-Hughes appropriation that adequate equipment for domestic science be provided."

I so find and so certify and consent in writing that such deficiency, in the sum of $8,700.00, be created for such purpose.

"2. He further asks for a deficiency in writing for $4,000.00 to provide heating equipment necessary to make use of buildings next winter: (a) Tunnel and connections with the Auditorium; (b) tunnel and connections with the new Library; (c) tunnel and connections with the new Geology Building; (d) heating coils for new addition to the Engineering Building; (e) heating coils for basement of the old Science Hall; and also $3,100.00 to install additional boiler in the heating plant.

"I find that such necessity exists and agree in writing that a deficiency for said purposes in the aggregate of $7,100.00 may be made by the proper agency.

"3. He further asks for a deficiency order for $5,000.00 for the purpose of providing a working capital for the University Hospital Revolving Fund, the State Board of Affairs having advised that they cannot place orders in advance of having the cash in the bank and having requested that funds be provided for this purpose. It further appears that the hospital cannot collect money from patients until the

services have been rendered and the regularly appropriated funds cannot be legally set aside for such purpose.

"I find that such necessity exists and agree in writing that a deficiency for said purpose in the sum of $5,000.00 be created.

"4. He further asks for a deficiency order of $5,000.00 for the Medical Department, to provide for training additional nurses and additional expense. This is a war necessity. It appears that the University has teaching facilities for more nurses than are absolutely necessary for the care of its patients in the hospital, but has no funds to provide for the necessary expense of training extra nurses for the war.

"As a patriotic purpose I find that this is necessary and so certify and agree in writing that a deficiency in the sum of $5,000.00 may be created for such purpose.

"The deficiencies here indicated are certified in writing and these items can be paid out of the regular appropriation fund, on proper voucher, and the Legislature in making the appropriation to cover these deficiencies, can provide specifically that such appropriation shall be available as a part of the salary fund or maintenance fund, one or both, of the State University, including the Medical Department, for the fiscal year closing June 30, 1918. This will operate to reimburse said appropriation by the appropriation for the deficiency."

On September 6, 1918, the State Board of Public Affairs wrote me as follows:

"Referring to Deficiency Certificate No. 43 for the University of the State of Oklahoma.

"Referring to number 2. They estimate the price for installing additional boiler in heating plant, $3,100.00. We asked for bids on this boiler, 72x18, the same size as the other boilers in the heating plant, and the lowest bid we received was $5,600.00, and it will be necessary for you to make the total amount of No. 2 $9,600.00 instead of $7,100.00, so we will have money enough to be able to finish

the job. This covers the boiler, set in place, connected to the steam pipes and tested out.

"We have notified the party that he had the lowest bid, that we would accept their bid and for them to purchase the material necessary and to install at as early a date as possible."

I consented in writing to said item No. 2 being increased in the sum of $2,500.00, and Deficiency Certificate No. 43 was amended and certified to in the sum of $28,300.00 as follows:

Item No. 1	$8,700.00
Item No. 2	9,600.00
Item No. 3	5,000.00
Item No. 4	5,000.00
	$28,300.00

(See amended Deficiency Certificate No. 43).

On October 12, 1918, Deficiency Certificate No. 45, as follows, was issued by me:

"It appearing that an armory building is absolutely necessary on account of the Students' Army Training Corps at the State University, and

"It further appearing that after the war such building can be very properly used for both an armory and athletic hall, and

"It further appearing that there are moneys to the credit of the Public Building Fund of the State which have been derived from oil and gas, which are available to cover this expense by appropriation of the Legislature, and

"These facts having been presented to me both by the President of the State University, and also by the State Board of Public Affairs, I find that such expenditure is necessary in the sum of $56,910.00. I hereby agree and consent in writing thereto; to the building of this building, including the architect's fees, to be in the sum of $56,910.00, which can be now paid from the Maintenance and Salary Fund of the

State University and the next Legislature can reimburse said Salary and Maintenance Fund in said sum out of the Public Building Fund or moneys therein, derived from oil and gas. This is to so certify and consent in writing to the foregoing."

On December 28, 1918, the State Board of Public Affairs wrote me relative to said building as follows:

"In regard to the armory and gymnasium building now in the course of construction, located at the State University, Norman, Oklahoma, for which Mr. J. J. Rooney of Muskogee was the lowest bidder, the contract was awarded to him, which contract is conditioned on the plans and specifications as prepared for said building.

"You will please be referred to the plans and specifications which provide for wood trusses, spanning the entire building, supporting the roof, and, if you will remember at the time the contract was awarded Mr. J. J. Rooney it was impossible to procure steel trusses at anything like a fair price, and, at that time we accepted bids on steel trusses, but asked for alternate bids for wood trusses.

"At the time of opening the bids, the lowest bidder was Mr. J. J. Rooney, whose bid was made upon the plans and specifications, using steel trusses, and was for $66,000.00; his alternate bid, using wood trusses, was for $53,000.00, or a difference of $13,000.00 less for wood trusses, and at the time the contract was awarded, same being awarded to him, it was deemed necessary that we award contract calling for the use of wood trusses, for the reason that it was impossible to secure steel trusses, without paying the additional sum of $13,000.00.

"For your information the steel trusses can be secured now for the additional sum of $7,000.00 You can readily see that the steel trusses may be secured for $6,000.00 less today than they could have been secured at the time of the opening of the bids, and, in our judgment, it would be more economical to issue an order for the additional sum of $7,-000.00, whereby the contractors will use steel trusses instead of wood, and, with the substitution of steel trusses, the building would be fireproof and permanent.

"This matter was discussed with Dr. Brooks today and he has the funds in his maintenance fund to pay this additional amount, and, if you will authorize him to do so, by certificate, and have the Legislature make an appropriation to reimburse his maintenance fund, he will do so.

"This matter has been discussed with Jewel Hicks, who made the plans and specifications for this building, and it is his judgment, as well as the Board's, that we should use steel trusses instead of wood, if it is your pleasure to issue the certificate for the additional $7,000.00."

I found the facts as stated in said application and accordingly consented to the amendment of Deficiency Certificate No. 45 to read $63,910.00 instead of $56,910.00, thereby including the $7,000.00 additional deficiency asked for in order that steel trusses may be used. (See Deficiency Certificate No. 45 Amended.)

COMMISSIONER OF LABOR.

On November 12, 1918, I certified for the Commissioner of Labor a deficiency certificate in the sum of $2,580.02, which could be covered by reviving the appropriated balances of $699.59 and $1,880.43, aggregating $2,580.03, being unexpended appropriations for the Department of Labor at the close of June 30, 1918. This unexpended balance can be revived by proper joint resolution and made available to meet this deficiency. (See Deficiency Certificate No. 46.)

STATE ELECTION BOARD.

The Secretary of the State Election Board under date of May 3, 1917, wrote me as follows:

"Owing to the taking of the war census under the draft bill passed by Congress by the County Registrars it will be necessary to incur an expense that could not be foreseen while the Legislature was in session.

"The expense incurred will be along the line of telephone, telegraph and extra postage. This fund is practically exhausted in my office. It will be necessary to telephone the County Registrars or telegraph them and they will telephone

me, which they will do at my expense, and it will also be necessary to write them in all probability a number of letters. My judgment is it will take between $100 and $150 to cover this extra expense. I wish you would O. K. a deficiency to cover this emergency expense."

On investigation I found the facts therein stated to be true and, as the law provides, certified to a deficiency as requested in a sum not to exceed $150.00.

It had also been brought to my attention that it would be necessary for the county registrars to communicate with the precinct registrars, but as this would not occasion an expenditure of over $10.00 per county, I certified to a deficiency for each one of the county registrars for telephone communications, but to cover only official calls to the precinct registrars where the precinct registrars talked to the county registrars or where the county registrars talked to the precinct registrars relative to matters pertaining to the war registration.

These sums were authorized under certificate in the sum of $500.00. Upon investigation I find that the only expense incurred under this certificate is with the Western Union Telegraph Company in the sum of $36.87. (See Deficiency Certificate No. 21.)

Under date of March 22, 1917, the Secretary of the State Election Board wrote me as follows:

"I am herewith enclosing you expense account of Senator H. B. Beeler, as a member of the State Election Board, covering services rendered the State commencing October 28, 1916, and at different times to March 16, 1917, totaling $221.20.

"Mr. Beeler did not submit his expense account until his recent trip here, March 16th, and I had no way of knowing of this charge against the funds allotted to this Department, hence, made no provision therefor while the Legislature was in session. At this time there remains in the fund about $112.00, just about what this office will need for postage, telephone, telegraph, etc., and as these items come out of the same fund as do traveling expenses and hotel bills of the

members of the Board, I see no way to pay this expense, hence refer the matter to you for your consideration and suggestion."

Since the claims totaling $221.20 have been filed, an additional claim in the sum of $20.90 has been filed, making the total claimed $242.10. Same was allowed. (See Deficiency Certificate No. 49.)

RUSSELL INDUSTRIAL SCHOOL FOR WHITE GIRLS.

Under date of July 2, 1918, the following communication was received by me from Mrs. Angie A. Russell, Superintendent of the State Industrial School for Girls:

"Herewith I hand you my bill for the care of the delinquent girls of the State for the month of June. You will note that I have made a separate bill to cover the amount remaining in the fund appropriated for this work; and also one for the amount of the deficiency allowed by the last Legislature. After both of these sources are exhausted I still have a bill amounting to one hundred and fifty-nine dollars and twenty cents ($159.20).

"Since my estimate of the deficiency in February, girls have been coming in much faster than before, and in spite of all my efforts to place those ready to go out in homes. I have not been able to keep the amount within the appropriation. Such a great percentage of these girls either have no homes or are victims of their fathers, that I have to fit them to make their own living before I can find a suitable home for them. Even then I sometimes have to take them back on account of their inefficiency. I have also tried to be quite particular about receiving girls not rightfully committed here, but in most cases the charges against them have been so grave that there has been no doubt as to their need of segregation and confinement."

On investigation I found the facts to be true as stated, and on July 5, 1917, issued certificate in the sum of $159.20.

(See Deficiency Certificate No. 25.)

Under date of June 8, 1918, the following communication was recived from the Oklahoma State Board of Public Affairs:

"The 1917 Legislature appropriated, under Chapter 255, Senate Bill No. 213, $21,840.00 for the support and maintenance of the Russell Industrial School.

"This appropriation was made on the basis of 105 to 107 girls. We find from the reports that the number has run as high as 140 and the average 133.

"The average claim for the past eleven months is $2,-136.86, which will exceed the appropriation made under Chapter 255, Senate Bill No. 213, Session Laws 1917, and, on account of the increased number of children which have been committed by the Courts to this Institution, we find that there will be a deficiency of $1,724.75 for the support and maintenance for the month of May; balance in the treasury, to date, $471.40, and it will be necessary to issue a deficiency certificate for $1,724.75 for the support and maintenance to June 1st.

"In addition to this, take as a basis the average for the 11 months being $2,136.88, we would recommend that a deficiency certificate be issued for $2,200.00 for the support and maintenance for June; in other words, if it is your pleasure, make two certificates, issue one for $1,724.75 for the month of May and an additional certificate for $2,200.00 for support and maintenance for the month of June. We would recommend that these certificates be issued."

On investigation I found the facts to be as therein stated, and on June 10, 1918, issued certificate in the sum of $3,-924.75 for support of said institution. (See Deficiency Certificate No. 38.)

Under date of December 26, 1918, the State Board of Public Affairs wrote me as folows:

"We have gone thoroughly into the maintenance of the Russell Industrial School for Incorrigible Girls—they have an appropriation of $24,200.00 for salaries and maintenance; the extra expense in the way of equipment we were put to to take care of 120 girls will exhaust their appropriation and

there will not be sufficient funds for maintenance and salaries to run them until the 30th day of June, 1919, and on a close estimate it will be necessary that they have an appropriation of $12,000.00 for salaries and support and maintenance and we would recommend that you issue a deficiency certificate for this amount."

On investigation I found that this deficiency was necessary, and certificate was issued in the sum of $12,000.00, and I recommend that an appropriation for this additional amount be made available for the support of said institution for the year closing June 30, 1919. (See Deficiency Certificate No. 57.)

Mrs. Russell is maintaining a private industrial institution in Oklahoma City, and this causes confusion in the names and I accordingly recommend that the name of said institution be changed to State Industrial Home for Girls.

STATE AUDITOR.

The State Auditor on September 11, 1917, wrote me as follows:

"The 1917 session of the Legislature made an appropriation in the sum of $5,000.00 under House Bill 614 for the State Auditor, same being appropriated for the collection of income taxes, which appropriation only run to the end of the 1917 fiscal year, to-wit, June 30th, 1917.

"After the appropriation was made, the State Auditor employed several men for the purpose of collecting the income tax due the state, and in the last month of the fiscal year, June, 1917, in which this appropriation lapsed, there were several men out over the state that had quite an amount of business lined up on people owing income tax which necessitated leaving them out on the road until they finished their work.

"In the meantime, after this was done, a deficiency was created as follows:

R. L. Ewing	$125.00	
R. Holder	125.00	
Bruce L. Ott	53.00	
V. V. Hardcastle	37.35	
J. G. Sanders	17.00	
John W. Scott	37.35	$395.00"

This item of $395.00 represents money due these men for services rendered in June, 1917, in excess of the original appropriation, which was approved by me. (See Deficiency Certificate No. 28.)

On May 1, 1918, the State Auditor wrote me as follows:

"I beg to call your attention to the fact that up to this date approximately five thousand citizens of this state have reported as to their incomes in accordance with our Income Tax Law. During this time we have been as lenient as possible with penalties and fines, hoping that every citizen liable for his tax would make report; however, from information gathered I am satisfied that there is considerable percentage of those liable for the tax who have not made report, and as the statute under which this tax is levied runs a lien upon all property of any person liable for the tax, whether report is made and tax paid or not, I believe that as this condition exists, it is material that as many of these reports as possible shall be secured and property that otherwise would be encumbered would be relieved of same; and, also being satisfied that an active campaign to collect this delinquent tax would result financially very greatly to the benefit of the state, I respectfully apply, in accordance with Chapter 231, Session Laws of 1915, for permission to create a deficiency to cover the campaign for collecting this tax in the sum of at least $5,000.00.

"For your information, beg to say that after an experience with this matter for the last three years, I am confident that at least three good men should be employed on said work for the next four to six months. Their salaries and expenses would amount to approximately $200.00 per month, or $2,400.00 for salary and expenses if this work was carried on for four months, making a total of $2,400.00 for salaries

and expenses. In addition to this, if this work is done properly there should be employed at least two clerks additional in the office to check reports and data for the benefit of the Field Agents and in order to put on the proper work it will be necessary to have considerable printing and to buy a very considerable amount of postage, consequently, I trust that you can see your way clear, in accordance with the act creating deficiencies, to approve a deficiency for this Department in or about the amount set out above, a part of which would be spent in this fiscal year and a part in the next fiscal year."

I investigated these facts and found that the deficiency was necessary and consented to same. (See Deficiency Certificate No. 36.)

On November 30, 1918, the State Auditor submitted the following itemized expense incurred under Deficiency Certificate No. 36:

"Salary R. L. Ewing, field clerk, 6 mos, $150 per month	$ 900.00
Salary M. R. Walker, field clerk, 7 mos. $150 per month	1,050.00
Salary E. Boardman, office clerk, 7 mos. $150 per month	1,050.00
*Salary R. Holder, field clerk, 1 mo.	125.00
*Salary R. L. Ewing, field clerk, 1 mo.	125.00

*Salary of R. Holder and R. L. Ewing for the first month they were employed on this work was only $125.00 per month. Mr. Holder was not employed on this work but one month, and Mr. Ewing's salary was raised to $150.00 per month.

Postage	250.00
Traveling expenses of two field clerks for 7 mos.	1,519.46
	$5,019.46."

He states further:

"This deficiency allowance was used in the collection of State Income Tax. The expenditure of this $5,000.00 has brought in revenue to the State in the amount of approximately $14,000.00, which does not in any way represent the

entire amount of revenue which the State will receive from this appropriation, as we have several hundred names on our list who will pay an income tax next year, and who are not included in this $14,000.00 for this year as their incomes were not sufficient to make them amenable to the law during the past year.

"I would like to carry on this work until my term of office closes, which is January 11th, 1919, and to do this, I believe it will take approximately $1,000.00. This amount would cover salary of two field clerks and one office clerk at $150.00 per month each, which would approximately amount to $625.00, leaving $375.00 for expenses during this period. There is no doubt but what several times this amount can be collected between now and that date, and I trust you can see your way clear to approve a deficiency for this Department for the amount set out."

I found the facts as stated in said application, and accordingly consented to same, issuing a deficiency certificate in the sum of $6,000.00 to take the place of the original deficiency certificate, No. 36. (See Deficiency Certificate No. 36 Amended.)

CONFEDERATE HOME.

On October 20, 1917, the State Board of Public Affairs transmitted to the Governor's office a statement relative to the Confederate Home. It showed a deficiency in the sum of $1,747.30 for maintenance, and the further sum of $1,034.17 for salaries, making a total of $2,781.47.

I investigated and found the facts stated to be true and issued deficiency certificate in the sum of $2,781.47. The Board of Affairs suggests in making the appropriation that the maintenance and salary accounts be separate. (See Deficiency Certificate No. 29.)

STATE PENITENTIARY—McALESTER.

Under date of April 19, 1918, Sam L. Morley, Warden of the Oklahoma State Penitentiary, made application through the State Board of Public Affairs for a deficiency. The State Board of Public Affairs recommended as follows:

"After giving this matter due consideration, we recommend that you issue a deficiency certificate for $38,000.00 for support and maintenance for the balance of the fiscal year. The expense of transporting prisoners to the Penitentiary is now being borne by the maintenance fund."

After examination I approved the recommendation. (See Deficiency Certificate No. 35.)

STATE REFORMATORY—GRANITE.

The State Board of Public Affairs certified to me as follows:

"Conditions have developed at Granite, whereby it will be necessary to have a deficiency certificate issued to take care of the business there.

"The storm last June destroyed their entire crop of every character. They were ready to commence harvesting their wheat and oats when the storm struck them and wiped the ground bare of all vegetation. Mr. Williams' conservative estimate of the growing crops, at that time, was $18,000.00, as follows:

2,800 bu wheat

400 acres maize, kaffir corn and feterita.

400 acres cotton.

2,800 bu. oats.

50 acres garden truck, including 15 acres Irish potatoes.

10 acres onions.

10 acres beans.

10 acres sweet potatoes, cabbage, sorghum and other growing garden truck.

"He had spent $6,000.00 for the seed to plant the above named crops and within one hour his entire crop was laid to waste.

"Our budget, submitted to you last January, was based on the market price of commodities at that time; since that date goods used for the maintenance of the various institutions have advanced from 33 1-3 per cent. to 100 per cent. In making up our budget last year, we took into consideration the amount he had earned the previous year on the farm and from the crusher. The storm wiped out his entire crop and the crusher has not been much account on account of the railroad not furnishing sufficient cars to move the crushed granite. He has been behind with orders that he had taken, and, at a number of times, has had as high as 500 carloads booked which he could not furnish on account of insufficient transportation. Had he been able to operate the crusher at full capacity, he would have earned enough money to have carried him through.

"Last year we bought pea and slack coal at cost of $2.65 per ton. This year we were unable to buy pea and slack at any price, while the Government price on pea and slack is $2.70, but none could be purchased, plus $1.85 freight rate, which would make the slack cost practically the same as we paid for mine run, this season, $4.58, delivered. The Legislature appropriated for coal alone, $5,500.00. The actual coal bills for this year is $20,236.00, which would run him up until next fall. We are forced to buy same at that time in order to get stock of coal delivered, and, the difference between the appropriation and the amount he paid from his maintenance on coal, is $14,736.00; estimated loss from wheat, oats, cotton and other growing crops, $18,000.00; loss from lack of railroad furnishing empty cars for the transportation of crushed rock, had he been able to operate his crusher to full capacity, he could have crushed and delivered 862 cars, value $21,550.00.

"Transportation of prisoners from the various counties to Granite: The Legislature made no appropriation for this as the appropriation for maintenance was passed before they passed the law, authorizing the Wardens to gather up prisoners from the various county seats. This entailed an increased cost, guard hire and transportation of $2,000.00. The increased cost of food, clothing, etc., for maintenance since January 1st, $14,000.00.

"After going into this matter thoroughly with Mr. Williams, Warden, and giving due consideration to the transportation facilities, market conditions, and the elements, which he had no control over, we find that it will be necessary to create a deficiency to take care of 430 prisoners up to July 1, 1918. There is no deficiency existing at this time. After paying all outstanding claims he has $12,196.21 in his maintenance fund, but this will all be absorbed in paying salary claims between now and July 1st. After a careful computation and going into the matter at Granite fully and satisfying ourselves as to the real conditions existing at Granite, we find that it will take about $35,000.00 for maintenance up to July 1, 1918, and recommend that you issue a deficiency certificate to us, authorizing us to purchase commodities to the amount of $35,000.00 for support and maintenance of the Reformatory at Granite, Okla."

I made investigation and found the facts as therein stated to be true and accordingly approved certificate in the sum of $35,000.00. (See Deficiency Certificate No. 30.)

On June 27, 1918, the following communication was received from the State Board of Public Affairs:

"Referring to our recommendation whereby you issued deficiency certificate No. 30, in amount of $35,000.00, for Boone Williams; Mr. Williams failed to include two items, which was an oversight of his.

"He stated that he did not take into account $5,044.86 for coal shipped by the Dow Coal and Coke Company and $2,226.00 coal shipped by the Folsom-Morris Coal Co.

"The Dow Company's claim is an old contract on which they stopped shipment at one time and we were about seven months forcing them to complete the shipment and the funds for maintenance were exhausted before we were able to force them to make shipment. This was for balance on contract for Henryetta and Dewar slack coal at $2.60 per ton, delivered Granite, and the price today on the same coal, delivered Granite, is $4.30. After threatening to bring suit they finally agreed to complete shipment at $2.60 a ton, delivered, which was a saving of $1.70 a ton.

"These are the items that Mr. Williams did not certify to before us and they were not included in our recommendation to you before, when you issued Deficiency Certificate No. 30. After issuing deficiency certificate for this coal it leaves Mr. Williams in the shape that he is not able to pay his salaries this month, and other little items; therefore we would recommend that you issue him another deficiency certificate for $7,270.86."

On investigation I found the facts as stated, and accordingly issued deficiency certificate in the sum of $7,270.86. (See Deficiency Certificate No. 39.)

OKLAHOMA STATE HOME—PRYOR.

Under date of February 20, 1918, the State Board of Public Affairs wrote me as follows:

"In the matter of deficiency certificate for the Oklahoma State Home at Pryor, Oklahoma, after two members of the Board have visited the Home and received an inventory of the merchandise on hand, and looked into the matter properly, it is our opinion that it will be necessary to have a deficiency certificate for the maintenance of the inmates in that Home up to June 30th, 1918, in the sum of $10,000.00 for food, clothing, sundry merchandise, garden seeds, gas, lights, water, telephone bills, freight, express, drayage, etc.

"We recommend that you issue certificate for $10,000.00 to carry the institution through the remainder of the fiscal year ending June 30th, 1918. Mr. Gardner recommends that we ask for deficiency certificate for $17,292.00, but we do not believe it is necessary to exceed $10,000.00."

Same was allowed in the sum of $10,000.0 (See Deficiency Certificate No. 31.)

Under date of December 7, 1918, the State Board of Public Affairs wrote me as follows:

"I am enclosing you Neil B. Gardner's report. He is asking for $19,450.00.

"After checking this amount over, I believe it is not necessary to issue a certificate for $19,450.00, and that $14,000.00

or $15,000.00 will be sufficient to carry him to at least July 1, 1919."

Upon investigation I found the deficiency necessary, having been brought about by war and other unforeseen conditions, and consented to said deficiency in the sum of $15,000.00 for the Oklahoma State Home to cover salaries, maintenance and other incidentals. (See Deficiency Certificate No. 56.)

WESTERN OKLAHOMA HOSPITAL FOR THE INSANE—SUPPLY.

Under date of March 25, 1918, the State Board of Public Affairs certified to me as follows:

"In the matter of deficiency for the Western Oklahoma Hospital, we have gone into the matter thoroughly with Dr. Hill, the Superintendent, and we find after getting invoices of goods on hand that it will be necessary to have a deficiency certificate to carry him through to June 30th, 1918, the end of the fiscal year. This is on account of abnormal conditions whereby everything in the way of provisions and all supplies used for maintenance have undergone an advance, and after giving the consideration to the needs and requirements of maintaining 453 patients, find it will be necessary to have about $7,000.00 worth of supplies for maintenance.

"We therefore recommend that you issue a certificate for the amount of $7,000.00 to be used in the maintenance of the Western Oklahoma Hospital at Supply, Oklahoma, to cover the balance of the fiscal year ending June 30, 1918."

I made investigation and found that the facts as stated were correct. I found also that last year, on account of drouth conditions in the northwest part of the state, the farm in connection with said Hospital was not as productive as it otherwise would have been, and in addition to that the war advanced prices which were not expected at the time the budget was made up for the last Legislature. I accordingly consented to this deficiency in the sum of $7,000.00. (See Deficiency Certificate No. 33.)

Under date of December 14, 1918, the State Board of Public Affairs wrote me as follows:

"Re: Dr. Hill's report—Western Oklahoma Hospital.

"They had a fire there September 16, 1918, and burned their laundry building and equipment. We purchased a part of the new equipment at a price of $7,700.00.

"When the appropriation was made by the Legislature in 1917, the price of coal was $2.85 and the appropriation was based on price at that time; the advance in price of coal and the freight advance, makes a difference in price of $1.20 a ton, which makes an increase in price of $360.00, which the state was forced to pay for coal, over and above the market price at the time the appropriation was made.

"The boiler flues gave way and we were forced to make repairs to boilers—$2,625.00; laundry building burned and we were forced to erect a temporary building in order to house the machinery purchased, at a cost of $1,560.00.

"The last Legislature made an appropriation based on $168.00 per capita, the average cost per capita per annum for 1917-18 was $163.78, which was kept within the appropriation for that year and the same appropriation was made for 1918-19; the average cost up to July 1st was $196.34, a difference of $32.56, average inmates 500; a difference in cost for maintaining between 1917-18 and 1918-19, totaling $16,510.00.

"It will be necessary to purchase 800 additional tons of coal, which will cost $5,260.00, sufficient to run him until July, 1918, making a total of $37,255.00 to carry this institution to June 30, 1919, and we would recommend that you issue a deficiency certificate to the amount of $37,255.00 to cover the items mentioned above."

I found the facts as therein stated, and accordingly issued a deficiency certificate in the sum of $37,255.00. (See Deficiency Certificate No. 63.)

DEAF, BLIND AND ORPHANS HOME FOR NEGRO CHILDREN—TAFT.

The State Board of Public Affairs under date of March 27, 1918, certified to me as follows:

"Referring to the matter of maintenance of the Deaf, Blind and Orphans Home for Negro Children at Taft, after checking over this matter carefully with Superintendent J. R. Johnson, and investigating same, we find that the funds appropriated by the last Legislature will not maintain that institution, which has 162 children at this time.

"After making a thorough investigation we find that it will be necessary to create a deficiency certificate for about $3,000.00 on account of the increased cost of all goods used in maintaining said Institution, and we therefore recommend that a deficiency certificate for $3,000.00 be issued for the purchase of groceries and other necessary products in order to maintain this institution to the end of the fiscal year, June 30th, 1918."

Same was allowed. (See Deficiency Certificate No. 34.)

NEGRO BOYS' TRAINING SCHOOL.

On June 26, 1918, the State Board of Public Affairs wrote me as follows:

"In our report to the Legislature of 1917, we recommended for the support and maintenance of the Incorrigible Negro Boys, at McAlester, Oklahoma, that they appropriate $12,000.00 for 1917-1918 and $15,000.00 for 1918-1919.

"When the Legislature adjourned we found that they failed to make appropriation for the support and maintenance of this institution.

"There being a balance of $8,700.00 in the 1916-1917 fund, we issued Order No. 51695, to Sam L. Morley, Warden, State Penitentiary, authorizing the Warden to furnish the Superintendent of the Negro Training School, at McAlester, Oklahoma, with supplies for maintaining said school, guards and equipment. This order will maintain them until July 1,

1918. There being no funds after the first day of July, 1918, for the support and maintenance of the Negro Training School, it will become necessary to issue certificate of deficiency for the support and maintenance of the school, superintendent's and guards' salaries.

"The Legislature made an appropriation of $25,000.00 for building a dormitory and equipment at Taft; authorizing the Board to transfer the negro boys to Taft, but the Legislature failed to make an appropriation for their maintenance and support, and, as they were at McAlester, and had to be maintained by the Warden of the Penitentiary, we felt that it was to the best interest of the State to retain them at McAlester, so the Warden could finish the supplies for their maintenance.

"We recommend that you issue a deficiency certificate for $12,000.00 for the support and maintenance, salaries of superintendent and guards, and issue same to Mr. Sam L. Morley, Warden State Penitentiary, McAlester, Oklahoma, authorizing him to furnish supplies, in sufficient quantity to pay salary to superintendent and guards, for the maintenance of the negro boys up to and including the time that the Legislature convenes, or such time as they will make appropriation for their support and maintenance."

On investigation I found the facts as stated in said communication, and certified to a deficiency in the sum of $12,000.00. (See Deficiency Certificate No. 41.)

CENTRAL OKLAHOMA HOSPITAL—NORMAN.

On November 30, 1918, the State Board of Public Affairs wrote me as follows:

"As per our conversation, at the time the fire occurred at Norman, Oklahoma, where 38 patients lost their lives, you instructed us to provide quarters for the maintenance of the patients that were removed from the burning building and to pay for same out of the Support and Maintenance Appropriation for that Institution and that you would issue a deficiency certificate and recommend to the Legislature that they make

an appropriation, reimbursing the Support and Maintenance Fund of that institution.

"The first and most urgent item of this deficiency is for support and maintenance of patients for the fiscal year ending June 30, 1919, brought about by fire loss and the increased cost of all supplies necessary for the support and maintenance.

"It is urged that this matter have early attention by the Legislature as their available funds will be exhausted soon after the assembling of the Legislature.

"The two new buildings are now completed and being occupied. After inspecting the same and giving due consideration to the maintenance of the inmates of that institution:

"First: Appropriation for deficiency for the support and maintenance of the inmates for the fiscal year ending June 30, 1919, $85.000.00.

"The cause for this deficiency is as follows:

"The construction of two ward buildings and a dining room to replace the buildings destroyed by fire, Eighty Thousand Seven Hundred Fourteen and Twenty-seven One Hundredths ($80,714.27) Dollars, less amount paid from the revolving fund, Twenty-three Thousand Nine Hundred and Sixty-seven and Sixty-eight One Hundredths ($23,967.68) Dollars, a total expenditure from the appropriation for this institution of Fifty-six Thousand Seven Hundred Forty-six and Fifty-nine One Hundredths ($56,746.59) Dollars for building.

One tractor engine	$1,147.55
One motor truck for hauling coal and material for buildings	2,652.48
Amount paid for power house equipment	875.00

"To cover the increase in cost of supplies, salaries, etc., since the appropriation, Twenty-three Thousand, Five Hundred Seventy-eight and Thirty-eight One Hundredths ($23,578.38) Dollars, making a total of Eighty-five Thousand ($85,000.00) Dollars, for embetterment, out of the appropriation made for support and maintenance, and we would recom-

mend that you issue a deficiency certificate for the amount of Eighty-five Thousand ($85,000.00) Dollars, and request the Legislature to make appropriations reimbursing the support and maintenance fund of this institution."

I investigated and found the facts as stated and consented to said deficiency in the sum of $85,000.00, the appropriation therefore to be added to the Support and Maintenance Fund of the Central Oklahoma Hospital at Norman, to be available for its support, maintenance and all matters incident to said Hospital. (See Deficiency Certificate No. 51.)

OKLAHOMA SCHOOL FOR THE BLIND.

Application having been made for a deficiency for the Oklahoma School for the Blind for the fiscal year closing June 30, 1919, in the sum of $16,500.00 due to increased cost of maintenance, upon investigation deficiency certificate was issued. (See Deficiency Certificate No. 52.)

OKLAHOMA INSTITUTE FOR FEEBLE MINDED.

The State Board of Public Affairs under date of December 11, 1918, wrote me as follows:

"After our discussion at the joint meeting of the Board of Education, Board of Affairs and yourself, in reference to the Oklahoma Institute for Feeble Minded at Enid, Oklahoma, and the report of W. L. Kendall, Superintendent of that Institution, we find that it has become necessary to create a deficiency for that institution and his report to you sets out in full the necessity of making a deficiency certificate for $25,127.65.

"We recommend that a deficiency certificate in this amount be issued to maintain this institution, as set out in Dr. Kendall's report up to and including June 30, 1919."

I found the facts as stated and agreed to a deficiency in the sum of $25,127.65, the appropriation when made to be available as part of the salary, maintenance and incidental fund of said institution, said amount having been used for buildings and equipment which was necessary. (See Deficiency Certificate No. 54.)

STATE CAPITOL.

Under date of December 10, 1918, the State Board of Public Affairs wrote me as follows:

"In reference to paving around the capitol.

"We asked for bids for paving, storm sewer, curb, manholes, etc., all complete and bids were opened today and after examining the bids, the lowest bid was for $48,631.00 by the Western Paving Company.

"They have complied with all the requirements of the statutes in making bids and there being no funds from which we can contract for this paving, we would recommend that you issue a deficiency certificate for $48,631.00 whereby we will be able to enter into a contract with the lowest bidder, The Western Paving Company."

This relates to the paving around the Capitol and is absolutely essential and necessary. It is to be regretted that war and other conditions rendered it so it could not be reached sooner, but I found it necessary and consented to this deficiency. (See Deficiency Certificate No. 55.)

The State Board of Public Affairs under date of December 26, 1918, wrote me as follows:

"In equipping the State Room at the Capitol Building there were not sufficient funds to equip same in keeping with the building; draperies and other accessories to complete the furnishings will cost $847.50. We have $402.40 to pay on this, which will leave a deficiency of $445.10 if the same is completed in keeping with the balance of the furniture and equipment, and we would recommend that you issue deficiency certificate for $445.10 so that it may be completed, carrying the same color scheme and design out that it should be."

Upon investigation I consented to a deficiency in the sum of $445.10 as requested. (See Deficiency Certificate No. 59.)

STATE BOARD OF PUBLIC AFFAIRS.

The Sixth Legislature (Chapter 211, Section 2, Session Laws 1917) fixed the salaries of the members of the State Board of Public Affairs, as follows:

	Per year
Chairman	$4,000.00
Vice Chairman	3,600.00
Secretary	3,600.00

This bill was passed on the last day of the Legislature and was approved by me within the fifteen days after adjournment, to-wit, on March 24, 1917. The appropriation was made, in the general appropriation bill, in accordance with the old act which had fixed the salaries at $3,000.00 per year, and either on account of an oversight or for lack of time the appropriation was not changed so as to harmonize and be in accord with the salaries actually fixed by law. The salaries for three members at $3,000.00 per year would be $9,000.00, and the salaries for three members as fixed by said act would be $11,200.00, making a difference of $2,200.00 per year and making a difference of $4,400.00 for the biennium covered by the general appropriation bill.

I accordingly issued a deficiency certificate for said purpose in the sum of $4,400.00. (See Deficiency Certificate No. 62.)

COLORED AGRICULTURAL AND NORMAL UNIVERSITY—LANGSTON.

The State Board of Public Affairs under date of December 26, 1918, wrote me as follows:

"Appropriation of $20,000.00 for water works system at the C. A. & N. U. of Langston, Oklahoma, is not sufficient to complete this system on account of the enormous amount of quicksand being encountered when sinking the well. We finally completed the system with $20,000.00, but there was not sufficient funds to pay the contractor his ten per cent for completing the work and installation of the waterworks system; there will be due the contractor $1,000.00, ten per cent on the cost of this work.

"We succeeded in getting an adequate supply of water to maintain the institution; also a surplus that can be disposed of to the citizens of the town of Coyle and we would recommend that you issue a deficiency certificate to the amount of $1,000.00 in order that the contractor may be given his percentage for doing the work. This is less than half of the money that has been spent in the past trying to get a water supply for that institution. We succeeded in getting an abundance of water and as good water as can be found in that section of the country."

My finding was in accordance with the foregoing and a deficiency in the sum of $1,000.00 was issued. (See Deficiency Certificate No. 58.)

PARDON AND PAROLE OFFICE.

By House Bill No. 64, Chapter 213, Session Laws 1917, the salary of the Stenographer to the Pardon and Parole Officer was increased $10.00 per month, but no appropriation was made available for the same. It therefore became necessary to issue a deficiency certificate in the sum of $235 covering a period from July 15, 1917, to July 1, 1919. (See Deficiency Certificate No. 50.)

STATE INSURANCE.

The State Board of Public Affairs wrote me as follows:

"In reference to our conversation regarding the increase of insurance on State property twenty-five per cent.

"I am enclosing you a statement giving the total of fire and tornado insurance carried on the various state institutions and contents; also the additional premium which will be required in case you authorize the Board to write the twenty-five per cent increase on the various buildings and contents.

"Of course the fire-proof buildings we would not increase 25 per cent, but the contents of the buildings should be increased.

"I am giving you this statement so that you may consider same and I will then see you in person and go over the matter more fully with you."

The statement attached is as follows:

Tornado insurance carried	$4,012,249.76
Fire insurance carried	2,558,419.42
By reason of 25 per cent increase additional,	
Tornado premium required	$ 3,119.96
Fire premium required	17,225.57
	$20,345.53

I found the facts stated therein to be true and the necessity existing, and consented in writing for the deficiency to be created for increased insurance under Deficiency Certificate No. 47.

The following amount has been received and deposited by the State Board of Public Affairs account of the state having been reimbursed by contributing insurance companies for loss sustained by either fire, lightning, windstorm or tornado damage	$26,750.51
Total due and unpaid	17,278.48

EAST CENTRAL STATE NORMAL—ADA.

The State Board of Public Affairs under date of December 10, 1918, wrote me as follows:

"On Sunday morning I was called over the phone by President Gordon, of the East Central State Normal, at Ada, Oklahoma, and advised that the plastering on one room had fallen off.

"I visited Ada on Monday, the 9th, and made a thorough inspection of the Administration Building and all other properties.

"I found the plastering off of the ceiling of one room about 24x32 feet—it came down in sheets of ten and twelve

feet. The plastering on the metal laths ranging from 3-4 to 2 inches.

"In the construction of that building on the third floor they used wooden joists, metal lathing was nailed to the joists, 16 in. on center, with 3-penny fine nails, driven in about half way and bent over; nails show to be about every 12 inches, which was not sufficient and the ceiling has never been leveled up, which caused them to put an additional quantity of plaster on, ranging in thickness from 3-4 to 2 inches and the weight simply pulled the laths loose from the wooden joists.

"I had an electric light and made a thorough inspection of the entire ceiling, on the third floor from the attic and the ceiling is pulling loose from the joists on the entire third floor, with the exception of the three rooms which were replastered about a year ago. I found that it was not safe for the President to try to use those rooms on account of the condition of the ceiling, someone liable to be killed by it falling. I instructed him not to use these rooms until they were repaired and immediately procured a contractor to brace up the ceiling until we could make permanent repairs.

"We made an estimate on the cost of repairing the entire ceiling with the exception of the three rooms of the Administration Building and for bracing up the room, as a number of the braces, extending to joists, between the partition are not in the proper places, which has caused the ceiling to spring.

"The estimate to make these repairs was between $3,500.00 and $4,000.00 and there being no funds available in the treasury for the payment of these repairs, it is necessary that a deficiency certificate be issued to pay for same, and we would recommend that you issue a deficiency certificate to cover the amount to make repairs to the repairs to the ceiling of the building."

On investigation I found the facts therein stated to be true and certified to a deficiency as required in the sum of $3,500.00. (See Deficiency Certificate No. 61.)

OKLAHOMA STATE UNIVERSITY HOSPITAL BUILDING —OKLAHOMA CITY.

The State Board of Public Affairs under date of December 26, 1918, wrote me as follows:

"We are transmitting you an itemized statement of account of the Extras and Alterations, Oklahoma State University Hospital Building, Oklahoma City, which explains in detail the extras and why same were caused.

"This has been approved by Jewel Hicks, architect, when submitted to us, total $5,482.01. We recommend that deficiency certificate be issued to cover this amount."

The detailed statement is as follows:

To Extra			
1	Extra face brick on account of ground sloping 11,260 at $30.00 per M		$ 337.80
2	Extra common brick on account of ground slope 19,000 at $20.00 per M		380.00
3	Extra reinforcing steel on account of extra depth of columns and extra steel for elevator 3,300 lbs. at 5c per lb		165.00
4	Extra retaining wall from basement to fill:		
	Form labor 507 sq. ft, at 10c	$ 50.70	
	Form labor 1,500 ft. at $40.00	60.00	
	Concrete 14 1-2 yds. at $8.50	123.30	234.00
5	Extra rock excavation 609 1-2 yards at $2.00		1,219.00
6	Extra water line; excavating trenches, backfilling, pipe, fittings, plumbers and helper's time, 450 ft. at 53 3-4c		242.00
7	Extra excavation on account of footings had to go to solid foundation 160 yds. at $1.37 1-2		220.00
8	Extra concrete for coulmns 169 1-2 cu. ft. at 35c per cu. ft		592.00
9	Extra entrance to basement		35.00

15	Extra pipe covering (labor and material)	225.00
16	Extra tunnel 140 lin. ft. at $2.00	280.00
		$5,482.01

I found the facts as therein stated to be true and certified to a deficiency in the sum of $5,482.01 to cover this amount. (See Deficiency Certificate No. 60.)

STATE BOARD OF AGRICULTURE.

The appropriation for per diem and expenses for the fiscal year ending June 30, 1918, for members of the State Board of Agriculture was exhausted before all claims for that year were paid, the following claims being outstanding:

Per diem and expenses, J. N. Roach	$ 68.21
Per diem and expenses, J. J. Savage	133.87
	$202.08

Accordingly, I consented to a deficiency in the sum of $202.08. (See Deficiency Certificate No. 64.)

PUBLIC BUILDING FUND.

Deficiency Certificate No. 40, in the sum of $865.65, is as follows:

"It is made to appear to me that on June 7, 1915, warrant No. 2561 on the Public Building Fund in the sum of $5,935.88 was issued in favor of the Lee Construction Company and registered on June 15, 1915, said warrant bearing interest at the rate of 5 per cent per annum.

"The Sixth Legislature (Chapter 48, Session Laws 1917) made an appropriation out of any moneys in the Public Building Fund in the sum of $5,935.88 on account of said warrant. This did not take into account the interest on said warrant. On May 15, 1918, the State Treasurer issued his warrant in favor of the State Exchange Bank of Oklahoma City in the sum of $5,935.88 on the Public Building Fund, pursuant to said appropriation. The holder of said warrant surrendered the same with the expectation that later on the next Legislature would make an appropriation to cover said interest. Therefore, I certify that in law the State, on account of the unpaid interest on said warrant, is indebted to the said State Exchange Bank on account of the interest on said warrant at the rate of 5 per cent from June 15, 1915, to May 15, 1918, which amounts to the sum of $865.65."

APPROPRIATIONS AND STATE INSTITUTIONS.

The following appropriations for the various state institutions have been recommended by the State Board of Public Affairs or the other boards having concurrent or other jurisdiction, to-wit:

UNIVERSITY OF OKLAHOMA—NORMAN.

	1919-20	1920-21
Salaries	$402,549.00	$407,549.00
Maintenance	72,800.00	77,800.00
	$475,349.00	$485,349.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

UNIVERSITY HOSPITAL (Branch of State University) OKLAHOMA CITY.

	1919-20	1920-21
Salaries	$51,060.00	$ 51,060.00

Maintenance	22,000.00	22,000.00
Complete present building and additional equipment—walks, etc., and necessary incidentals	25,000.00	
Nurses' Home and Laundry Equipment		60,000.00
	$98,060.00	$133,060.00

The State Board of Public Affairs have recommended this appropriation, wherein they say:

"The State Hospital is now nearing completion, as far as funds will permit, on account of the advances in material during the time this appropriation was under an adjustment by the Supreme Court.

"Material had advanced so much we left the top story off of the southeast wing, this, to be finished later. We planned this floor to be used as an open ward, constructed in a way that it could be closed in. The Medical Staff was very much pleased with the plans to complete this hospital so that it can be operated economically.

"This wing should be finished; also they should have a building for Laundry and Nurses' Training School. We planned a two-story building, with basement, for laundry; one large room on the first floor to be used for Training School for Nurses, with rooms on the second floor.

"If there is anything this state needs, it is better hospital facilities."

Referring to the University Hospital Revolving Fund, I recommend the appropriation of $10,000.00, to be immediately available, to become an additional part of the said University Hospital Revolving Fund.

In the past the University State Hospital has been greatly handicapped on account of funds, there being no appropriation for maintenance. What salaries were paid came from the salary fund of the State University and the limita-

tions of this appropriation did not permit of much aid therefrom to the University Hospital. Necessarily, the University Hospital lived, as you might say, from hand to mouth. It bought at retail from places where it could secure credit, and paid after collections were made from patients.

The State Board of Public Affairs tells me that with the appropriations made as herein recommended it will be able to purchase supplies for the hospital from the wholesalers instead of running monthly bills at retail stores. I am advised, both by said Board and also by the University authorities, that with the foregoing appropriations this hospital can be maintained as a first class hospital and as a credit to the state.

I think everyone will agree that the State of Oklahoma should have at least one first class hospital. I hope to see the day come when the finances of the state will permit the state to maintain a hospital in different sections of the state; a hospital for the poor in every city of the state having a population of over 50,000.

NORTHEASTERN STATE NORMAL—TAHLEQUAH.

	1919-20	1920-21
Salaries	$42,500.00	$42,500.00
Summer School	4,500.00	4,500.00
Maintenance	8,000.00	10.000.00
General repairs	2,000.00	
	$57,000.00	$57,000.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

NORTHWESTERN STATE NORMAL—ALVA.

	1919-20	1920-21
Salaries	$42,500.00	$42,500.00
Summer school	4,500.00	4,500.00

Maintenance	8,000.00	10.000.00
General repairs to heating plant and buildings	10,000.00	2,000.00
	$65,000.00	$59,000.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

EAST CENTRAL STATE NORMAL—ADA.

	1919-20	1920-21
Salaries	$42,500.00	$42,500.00
Summer School	4,500.00	4,500.00
Maintenance	8,000.00	10,000.00
Paving	1,100.00	
General repairs	5,000.00	2,000.00
	$61,100.00	$59,000.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

Of the appropriation made out of the general revenue for the East Central State Normal for the fiscal year closing June 30, 1917, the sum of $236.50 in Fund 5 for summer school lapsed.

I recommend that this sum be made available for the purpose of acquiring additional land for the campus of said institution.

CENTRAL STATE NORMAL—EDMOND.

	1919-20	1920-21
Salaries	$65,000.00	$65,000.00
Summer School	7,500.00	7,500.00
Maintenance	12,000.00	15,000.00
General repairs	3,500.00	2,000.00
	$88,000.00	$89,500.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

SOUTHEASTERN STATE NORMAL—DURANT.

	1919-20	1920-21
Salaries	$42,500.00	$42,500.00
Summer School	4,500.00	4.500.00
Maintenance	8,000.00	10,000.00
Necessary repairs—sidewalks, improvements, etc., on campus and acquiring things incidental	6,000.00	3,000.00
	$61,000.00	$60.000.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

Of the appropriation made out of the general revenue for the Southeastern State Normal for the fiscal year closing June 30, 1917, the sum of $522.00 in Fund No. 4 for equipment and incidental purposes lapsed.

I recommend that this sum be reappropriated and made available for the purpose of buying additional lands for its campus and to be used for other purposes incidental to said institution.

SOUTHWESTERN STATE NORMAL—WEATHERFORD.

	1919-20	1920-21
Salaries	$42,500.00	$42,500.00
Summer School	4,500.00	4,500.00
Maintenance	8,000.00	10,000.00
General repairs and walks	2,500.00	1,500.00
	$57,500.00	$58,500.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

A. & M. COLLEGE.

The following estimate is made by the President of the A. & M. College, which I approve:

	1919-20	1920-21
Salaries	$180,000.00	$200,000.00
Support and Maintenance	120,000.00	120,000.00
For Extension (Smith-Lever)	70,440.00	83,986.00
For Experiment Station	10,000.00	10,000.00
	$380,440.00	$413,986.00

In addition to the foregoing there will be available from the federal government for salaries, support and maintenance the following amounts:

	1919-20	1920-21
Morrill Fund (Salaries)	$ 45,000.00	$ 45,000.00
Smith-Lever (Extension)	80,440.00	93,986.00
Hatch-Adams (Experiment Station)	30,000.00	30,000.00
	$155,440.00	$168,986.00

COLORED AGRICULTURAL AND NORMAL UNIVERSITY —LANGSTON.

	1919-20	1920-21
Salaries	$ 38,500.00	$38,500.00
Summer School	4,500.00	4,500.00
Maintenance	10,000.00	8,000.00
Repairs on old dormitory, general repairs, truck, cattle and laundry equipment	15,000.00	10,000.00
Industrial and Mechanical building and equipment	50,000.00	
	$118,000.00	$61,000.00

Provided, that no part of the maintenance may be used for salaries, but by the approval of the State Board of Public Affairs a part of the salary appropriation may be used for maintenance and necessary incidentals.

CAMERON STATE SCHOOL OF AGRICULTURE—LAWTON.

	1919-20	1920-21
Salaries and maintenance	$17,500.00	$17,500.00
Repairs and other incidentals	1,000.00	500.00
	$18,500.00	$18,000.00

CONNERS STATE SCHOOL OF AGRICULTURE—WARNER.

	1919-20	1920-21
Salaries and maintenance	$17,500.00	$17,500.00
Repairs and other incidentals	1,000.00	500.00
	$18,500.00	$18,000.00

MURRAY STATE SCHOOL OF AGRICULTURE—TISHOMINGO.

	1919-20	1920-21
Salaries and maintenance	$19,000.00	$19,000.00
Repairs and other incidentals	1,000.00	500.00
	$20,000.00	$19,500.00

PANHANDLE STATE SCHOOL OF AGRICULTURE—GOODWELL.

	1919-20	1920-21
Salaries and maintenance	$19,000.00	$19,000.00
Repairs and other incidentals	1,000.00	500.00
	$20,000.00	$19,500.00

I recommend that in making appropriations for the normal schools and the sub-agricultural schools a proviso be

placed after each appropriation providing that wherever said institution is located in a town where the waterworks are owned by the municipality, that such appropriation shall not be available for the maintenance of said school until the municipality shall have agreed to furnish water for all purposes for said institution during the life of that appropriation at $1.00 per annum.

TRUST FUNDS.

For your benefit I requested the State Examiner and Inspector's Department to furnish me with a statement of the income from the land or permanent income of the State Educational Institutions and New College Funds for the fiscal year ending June 30, 1918, which statement is attached marked "Exhibit A."

You will note that each one of the normal schools for the fiscal year ending June 30, 1918, will have an income from these two funds of $43,894.96.

You will also note that the income from the University Preparatory lands for this year will amount to $46,734.16. To my mind there is no justification for the state to maintain a University Preparatory School separate from the State University and the A. & M. College. Our comprehensive school system has provided for union graded and consolidated rural high schools. Provision is also made for the transfer of boys and girls from school districts not having a high school to a district having a high school.

EAST OKLAHOMA UNIVERSITY PREPARATORY SCHOOL—AT CLAREMORE.

The bill making an appropriation for the East Oklahoma Preparatory School at Claremore, delivered to me during the last five days of the Sixth Legislature, was not approved by me. That left this preparatory high school without a state appropriation for the ensuing biennium. The State Board of Public Affairs, at my request, turned the building and the necessary equipment for a high school over to the school district in which the city of Claremore is located, and it has been used

by said city for the purpose of maintaining a high school. I recommend that the legislature, by joint resolution, provide for the transferring of the title of this property to said school district for the consideration of one dollar.

UNIVERSITY PREPARATORY SCHOOL AT TONKAWA.

The bill making an appropriation for the University Preparatory School at Tonkawa, delivered to me during the last five days of the Sixth Legislature, was not signed by me. That left the said University Preparatory high school without an appropriation for the ensuing biennium. After the appropriation failed the State Board of Public Affairs turned over one of the buildings to the city for a common school and a high school. The other building is closed. I recommend that all the buildings and campus at Tonkawa be deeded to the school district in which Tonkawa is located and that the University Preparatory School referred to in Sections 8 and 12 in the Enabling Act (Sections 420-424, Williams' Constitution and Enabling Act of the State of Oklahoma) be located at Norman, Oklahoma, and that the President of the State University be designated as ex-officio Superintendent thereof, a branch of said preparatory school to be also located at Stillwater and the President of the A. & M. College as Superintendent thereof, the income from the trust funds for said University Preparatory School to be divided equally between said institutions. This will comply with the law and give the benefit of this trust fund equally to the State University and the A. & M. College.

OKLAHOMA STATE PENITENTIARY—McALESTER.

	1919-20	1920-21
Maintenance—based on 1,400 prisoners at $200.00 per capita	$280,000.00	$280,000.00
Transportation of prisoners from counties to Penitentiary, and guards	10,000.00	10,000.00
Discharged prisoners, based on an average of 700 each year	14,000.00	14,000.00

Fuel—Coal or Gas	16,000.00	16,000.00
The recent ruling of the Corporation Commission allowed the Gas Company to increase their price 100 per cent to be appropriated in one lump sum, to be used for the purposes named above; the difference between the appropriation and the actual cost of maintenance will be produced from tne farm.		
	$320,000.00	$320,000.00

OKLAHOMA STATE REFORMATORY—GRANITE.

The State Board of Public Affairs recommend as an emergency appropriation, to be available for the fiscal year closing June 30, 1919, as follows; which is approved by me:

Salaries	$24,000.00	
2,400 tons coal at $5.60	13,440.00	
Food, clothing and expenses (going after prisoners)	22,560.00	$60,000.00
Less earnings from Revolving Fund		15,000.00
		$45,000.00

In addition thereto the State Board of Public Affairs makes the following recommendation for the next biennium:

	1919-20	1920-21
Farm seeds	$ 1,800.00	
Farm Implements and Harness	1,600.00	
5,000 tons coal	27,500.00	27,500.00
Hospital Supplies	750.00	
Railroad Fare and Expenses (conveying prisoners)	4,500.00	4,500.00

Dicharged prisoners	5,000.00	5.000.00
Maintenance based on 500 prisoners at $200.00 per capita	110,000.00	110,000.00
	$126,400.00	$122,250.00

Permanent Improvements:

Finishing East Wing and Johnson Heating Extension	$ 8,400.00
Finishing cottages for employes	3,600.00
New store building	3,500.00
Factory building	2,500.00
Repairing kitchen and laundry	1,000.00
Repairing and changing refrigerating plant	2,500.00
Repairs to machinery and boilers	5,500.00
New equipment for quarry (drills and cars)	3,500.00
Electric wiring for power	1,500.00
	$32,000.00

To be appropriated in one lump sum to be used for the purposes above named.

CENTRAL OKLAHOMA HOSPITAL FOR INSANE—NORMAN.

	1919-20	1920-21
Support and maintenance. Based on 1,200 inmates at $200 per capita for first year; 1,400 inmates at $175 per capita second year.	$240,000.00	$245,000.00
Repairs to Administration Building	15,000.00	

The State Board of Public Affairs said:

"After our three and one-half years' experience with the class of old frame buildings they have at this Institution, we recommend that a number

of them be condemned and replaced with fireproof buildings, the following appropriation be made to replace them."		
One three-story building with basement and equipment for violent and disturbed women	$125,000.00	
One one-story building and equipment for white men	50,000.00	50,000.00
One one-story building and equipment for violent negro men	50,000.00	50,000.00
One one-story building and equipment for laundry		35,000.00
Refrigeration and ice equipment	15,000.00	
They have building for this equipment.		
Equipment to complete electic light and water systems and general repairs		25,000.00
	$495,000.00	$405,000.00

The State Board of Public Affairs make the following statement as to said Institution:

"All of the asylums are taxed to their capacity now—Norman being near the center of density of population and the transportation lines all running to the center of the State (and transportation being a very large item in the expenditures, which is paid by the counties) we believe it is to the best interest of the State, to increase the Central State Hospital for Insane, at Norman, being centrally located, cheaper transportation and near the capital."

EAST OKLAHOMA HOSPITAL FOR INSANE, VINITA.

	1919-20	1920-21
Supplies and maintenance (Based on 800 inmates at $200 per capita).	$160,000.00	$160,000.00
General repairs on heating plant, buildings, electrical,, plumbing, refrigerating plant, etc., and necessary incidentals	10,000.00	5,000.00
One three-story building; first floor for storeroom, second and third stories for nurses' dormitories and equipment	50,000.00	
	$220,000.00	$165,000.00

The State Board of Public Affairs makes the following recommendation as to the building for the nurses:

"This institution is two miles from Vinita; no suitable places for the nurses and they are compelled to run a hack to and from Vinita, morning and evening; under this condition it is almost impossible to keep their attendants."

WESTERN OKLAHOMA HOSPITAL FOR INSANE, SUPPLY.

	1919-20	1920-21
Support and maintenance (Based on 525 insane and 75 tubercular inmates, total 600 at $200 per capita).	$120,000.00	$120,000.00
New laundry building; one story and additional equipment	25,000.00	
General repairs, farm implements, ice plant and		

other things necessary for the upkeep of the institution	10,500.00	10,500.00
To improve water supply	5,600.00	
	$161,100.00	$130,500.00

RUSSELL INDUSTRIAL SCHOOL (STATE INDUSTRIAL HOME FOR GIRLS), OKLAHOMA CITY.

	1919-20	1920-21
Salaries and maintenance	$36,000.00	$36,000.00
Dormitory and equipment	30,000.00	
Hospital building and equipment	10,000.00	
Repairs		1,500.00
	$76,000.00	$37,500.00

The State Board of Public Affairs makes the following recommendation as to this building:

"We recommend the above appropriation for building for the reason that they have only one building and 120 girls. They are in a crowded condition, all the large and small ones thrown together, and we believe that it is to the best interest of society, the State and the girls, that they have additional quarters in order that the Superintendent may be able to teach them some industrial work such as girls of this character may do. Further, by reason of the class of girls that we receive at this institution, it is necessary that they have a hospital."

OKLAHOMA STATE HOME, PRYOR.

	1919-20	1920-21
Salaries	$28,340.00	$28,340.00
Support and maintenance (Based on an average of 250-300 children).	39,600.00	39,600.00

STATE CAPITOL BUILDING.

	1919-20	1920-21
Expense of maintenance of Capitol building, including the cost of fuel, water, lubricating oil, electric lights and power, and other incidentals	$10,000.00	$10,000.00

The front doors at the Capitol are so constructed that it is almost impossible to open them on a windy day. Some person will get an arm broken or injured in some other way

if the conditions are permitted to remain as at present. To guard against this it is recommended by the State Board of Public Affairs that storm doors be erected in a substantial way, in keeping with the front of the building, and to do this in a proper way it will be necessary to appropriate $1,000.00. I recommend an appropriation of $1,000.00 for such purpose.

HEALTH DEPARTMENT.

By an error the Contingent Fund appropriation for the State Health Department for the fiscal year closing June 30, 1919, was disapproved. This makes it necessary for an appropriation of $1,500.00 as a Contingent Fund for the Department of Commissioner of Health available for the fiscal year closing June 30, 1919.

CONFEDERATE VETERANS.

The Sixth Legislature appropriated the sum of $150,000.00 for pensions for Confederate soldiers for each year during the succeeding biennium. I recommend that this appropriation be continued for the next biennium.

On the fifth floor of the north wing of the Capitol two rooms of identical size and architecture have been set aside, one for the Union soldiers and the Spanish-American war veterans, and the other for the Confederate veterans. I recommend that by joint resolution these two rooms be permanently set aside, the one for the Union soldiers, the Spanish-American war veterans and the soldiers and sailors of the present war, and the other room for the Confederate veterans.

STATE BOARD OF VOCATIONAL EDUCATION.

The following report has been made to me by the State Board of Vocational Education and I approve this recommendation for appropriation of $25,000.00:

"The State Board of Vocational Education of Oklahoma held its first meeting on August 11, 1917. After the preliminary organization steps were taken immediately to find out from the Federal Board what method of organization would be followed. In pursuance of this idea a delegation of the State Board visited Washington City August 17 to 28.

"A plan prepared by the State Board and accepted by the Federal Board was approved in November. This left only seven months of the fiscal year. The schools had already planned their year's work, arranged their schedules and fixed their budgets so that in many cases it was impossible to make the necessary changes and arrange for doing vocational work under the conditons of the Federal Government. However, twenty-three schools qualified, as shown in the table submitted herewith.

The total expenditures for salaries of supervisors, teachers and directors of vocational subjects during the fiscal year 1917-18 for the State of Oklahoma were as follows:

From local funds	$ 45,297.35
From state funds	4,133.38
From federal funds	17,828.83
Total	$68,241.56

In addition to the above expenditures there were the following items paid from State funds:

(a) Administration (Includes salary of secretary, stenographer, cost of furniture, fixtures, printing, etc.)	$ 4,582.01	
(b) Agriculture (Includes traveling expenses of Supervisor, etc.)	615.91	
(c) Home Economics (Includes traveling expenses of Supervisor, etc.)	254.66	
(d) Trades and Industries (Includes equipment, etc.)	3,093.30	
Total	$8,545.88	
Total Federal Appropriation	$27,587.95	
Total State Appropriation	35,416.00	
Total		$63,003.95
Total Federal Expenditures	$17,828.83	
Total State Expenditures	12,679.26	
Total		$30,508.09
Unexpended Balance of Appropriation		$32,495.86

EXTENT OF INSTRUCTION.

During the few months in which the schools were organized for vocational work the following groups received vocational education:

Four hundred five girls in vocational home economics be-below college grade.

Two hundred seventy-six boys in vocational agriculture below college grade.

Three hundred eighteen boys in trades and industries below college grade. These were all drafted men in war training. Trades and industries includes training in gas engine, auto mechanics, machine shop, auto repair and auto operation and wood work.

Seventy lady teachers received teacher-training in home economics of college grade.

Thirty young men received Teacher-Training in agriculture of college grade.

Thirteen young men received teacher-training in trades and industries of college grade.

Total number of persons receiving vocational education, 1,112.

APPROPRIATION.

It was recommended by the Board that the appropriation for this department for the next bi-ennium be $25.000 pear year."

Under the law providing for the compensation for registration of electors the county registrar is entitled to 2c per capita and the precinct registrar 3c.

I recommend that an appropriation be made to compensate said registrars accordingly, which will be a total of $8,501.75, to be prorated to each county and precinct registrar by the State Auditor in accordance with number registered by each and at said rates.

REVOLVING FUNDS.

On account of the revolving funds which have been installed in the various prisons and asylums and schools it is as essential that a representative of the State Examiner and In-

spector's Department check up such revolving funds as it is that of the county treasurer. I therefore recommend that an additional Deputy State Examiner be provided for the said State Examiner and Inspector's office to be known as the Special Deputy State Examiner and Inspector for State Institutions, and that he be required to examine these institutions at least twice a year and every quarter if possible.

Also provision should be made for checking up the tax collections of the auditor's office. This to be done quarterly and to go back to the beginning of such collections. The State Examiner and Inspector should have adequate appropriation for such purpose.

I further recommend that three additional deputies be allowed the State Examiner and Inspector's office, and this will increase them four in number. In fact, it would be advisable if the jurisdiction of his office should extend to examination of every municipality. The time has come in modern business methods when every business concern has its books audited at the close of every business year. A municipal and county and State government should keep pace with private business in being checked up to prevent waste and leaks whether by negligence or corruption.

For your benefit I herewith incorporate a statement furnished me by the State Examiner and Inspector showing the per capita cost of State government, which is $2.37 per capita. I herewith attach same as Exhibit "B."

Also for your information I herewith attach statement showing the condition of the Twine Factory Revolving Fund at the Oklahoma State penitentiary on October 1, 1918, which shows the original capital of said revolving fund is intact with a surplus. Said statement is attached as Exhibit "C."

Also I herewith beg to hand you statement as to the Revolving Fund of the Oklahoma State Penitentiary, which shows that the original capital is intact with a surplus. Said statement is attached as Exhibit "D."

For your further information I herewith attach copy of telegram from the Director of Census, which shows that for

the year 1917 the per capita payment for all governmental costs for Iowa was $4.83. Nebraska $4.13, and Kansas $3.80. Copy of said telegram is attached as Exhibit "E."

SOLDIERS' AND SAILORS' MONUMENT.

The State should preserve in marble the names of the men who died that the cause of the Allies might live. The proper way to preserve their names is by a monument built on the Capitol grounds, on which shall be engraved the name of every such soldier and sailor.

I accordingly recommend that the Legislature make a suitable appropriation and provisions therefor.

HOMES FOR SOLDIERS AND SAILORS.

Not only the Nation but the State should take an interest in the men who offered their lives and fought for their country. I accordingly recommend that you pass suitable legislation to cooperate with the Federal government to enable the returning soldiers, sailors and marines to acquire homes with Federal and State assistance.

VENEREAL DISEASE AS A MENACE.

It has been disclosed through the war which has just closed that these diseases are worse than cancer, tuberculosis or typhoid fever. Such wastage of human life ought to be reduced. The States and the Federal government should act together to accomplish this end. I accordingly recommend that you pass necessary legislation to stamp out this evil.

PARDONS AND PAROLES.

Few pardons have been granted except commutations as provided by statute, or where the parties had formerly been paroled and after trial had been found worthy of pardon. I, as a rule, favor paroles.

I herewith hand to you the name of every person paroled or pardoned or reprieved with a memorandum showing the crime of which he or she was convicted, date and place

of conviction and the date of commutation or pardon or parole, together with the reasons therefor.

With few exceptions the following conditions are contained in every parole:

"First: That such person shall abstain from the use or handling of intoxicating liquor in any manner; that he shall not gamble or in any way conduct a game of chance; that he shall not carry firearms in violation of the statutes of the state; that he shall industriously follow some useful occupation; that he shall avoid all evil associations, improper places of amusement, all pool and billiard halls, obey the laws and in all respects conduct himself as an upright citizen; that he shall faithfully support and aid those dependent upon him;

"Second: * * *

"Third: That the Governor shall have power at any time to revoke the parole for violation of said conditions, or for any other reason by him deemed sufficient and to cause the maximum sentence to be served in such prison as may be lawful and as may be determined by him; and, if it shall appear that subsequent to the issuance of the parole that the applicant therein has agreed, contracted to pay or has paid any fee or compensation, or has agreed or consented for the same to be paid by any third person, in excess of that disclosed in the application, or amendments thereto, such penitentiary, and such employees will thereby be near their shall be deemed proper ground for the revocation of such pardon or parole."

APARTMENTS FOR EMPLOYEES AND HOUSES FOR JANITORS.

The coming to and returning from the Capitol by the State employees is not only expensive but it occasions considerable waste of time. I recommend for the consideration of the Legislature the question of the State building houses for the janitors and that character of employees on the State land immediately west of the power plant. These buildings could be built of brick which the State manufactures at the

work. They should have these houses free of rent or their compensation increased from $60.00 to $75.00 per month.

I also recommend for the consideration of the Legislature the question of building two apartments on the State property, one for women and girls and families, and the other for men and boys. By this means rooms could be had at a nominal sum to those who work in the State House and such employees be near to their work and not lose so much time in going from their down town boarding places.

TUBERCULAR SANITORIUM.

The Sixth Legislature (Chapter 171) provided for a State Tubercular Hospital and made an appropriation for the erection and equipment of the buildings in the sum of $50,000.00. The act provides that said hospital shall be located on the lands belonging to the State, near Supply, on which the Western Oklahoma Hospital for the Insane is now located; said hospital is to be under the supervision and control of the State Board of Public Affairs and under the same management as the said Western Oklahoma Hospital for the Insane.

Any person a citizen of the State of Oklahoma, or any person who is a charge on the State, who is confined in any of the penal or eleemosynary institutions of the State, afflicted with tuberculosis, is eligible to admission to said Tubercular Hospital, provided such admissions are approved by the State Board of Health, who will issue a certificate covering each admission to the State Board of Public Affairs and provided further, that all expenses for transferring such persons from the said penal or eleemosynary institutions to the hospital are to be defrayed by the institution making the transfer.

A two-story reinforced concrete and brick fireproof building, at a cost of $23,626.00, including heating, plumbing and wiring, and two one-story fireproof dormitories at a cost of $10,261.00, are now nearing completion as a result of said legislative act and appropriation for a Tubercular Sanatorium.

My best judgment is that an appropriation for a unit at Supply in which tubercular patients may be received from a certain area, the county from which such patient is sent to bear a certain fixed charge; then dormitories for tubercular treatment to be erected at Oklahoma City and to be under the supervision of the Medical Department of the State University is advisable, patients to be received for tubercular treatment from a certain area and under similar conditions. For every sanatorium there is a necessary fixed overhead expense, and from the standpoint of efficiency and better treatment and economy it is better to have a less number of institutions, as the means of quick transportation in the State is available to everybody, and with such little expense.

SCHOOL OF MINES.

With reference to the School of Mines, the bill making appropriation for the School of Mines was delivered to me during the last five days of the Sixth session and was not approved by me. None of the friends of said institution locally who talked to me about it contended that said institution could be made a success exclusively as a school of mines; but their plan was to convert it into a school of technology or junior college. I am sure that the State has enough of such institutions; has more now than it is able to properly support. At either the A. & M. College or the State University, by adding one or two professors to the Engineering Department, a School of Mining Engineering of first grade and standard can be afforded, and this is the wise and the proper thing to do.

I recommend that an appropriation be made for mine extension work both in the coal and the lead and zinc mining fields, to be put either under the Extension Department of the A. & M. College or the State University or under the State Vocational Board. By that means in all the mining districts and towns night schools can be maintained and vocational and necessary training afforded to the miners.

The State should have a place where mining engineering can be successfully taught, and that place is either at the A. & M. College or the State University. There should be

extension work by means of night schools and other training by which vocational training should be carried to the mining districts and the mining camps; and that can be better done through the agency of the A. & M. College or the State University or the Vocational Board.

STATUE OF SEQUOYAH.

The Third Legislature provided for the placing of the statue of Sequoyah in Statuary Hall, Washington, D. C., and authorized the Senators and Congressmen to contract therefor. This contract was entered into on the 29th day of April, 1912, between Robert L. Owen and T. P. Gore, United States Senators, and Bird S. McGuire, Scott Ferris, James S. Davenport, C. D. Carter and Dick T. Morgan, Representatives in Congress, from the State of Oklahoma, by and on behalf of the State of Oklahoma, by virtue of and pursuant to authority and direction of an Act of the Legislature of the State of Oklahoma, entitled "An Act making an appropriation for a statue of Sequoyah, to be placed in Statuary Hall in Washington, D. C., and appointing a committee to contract for making said statue and superintending the placing of same," approved March 24, 1911, with Mrs. Vinnie Ream Hoxie and the statute was made pursuant to said contract and placed in Statuary Hall at Washington. In the meantime the appropriation lapsed. I therefore submit for your consideration that it is proper and right and just that this amount should be reappropriated for the benefit of Mrs. Hoxie, her administrators or assigns.

PAVING LINCOLN BOULEVARD AND OTHER STREETS LEADING TO THE STATE CAPITOL.

Thoroughfares, like Lincoln Boulevard, leading to the State Capitol, should be paved. I assume that no reasonable man will claim that this should be done at the expense of the State except where the thoroughfares pass over State property. The location of the Capitol has made the adjacent land very valuable, and for the State to pay the expense of paving streets over private property would make it much more valuable. This property adjacent to the Capitol should bear its just burdens to the public, just as other private property.

I recommend that the Legislature create a State Capitol Improvement District with the proviso that it shall extend the distance of one-half a mile from the center of the State Capitol building and that the commissioners of said district shall be composed of the Governor, State Treasurer and President of the Board of Agriculture. That by resolution the Board shall declare the necessity for paving or other improvements and give the required notice by publication and then have the State Engineer make specifications as to improvements; then the Board to give another notice by publication and then assess the benefits and let the contract. There is no question but that such authority exists, and this necessary improvement can then be brought about and the burden placed where it should properly be and not be placed on the taxpayers of this State to confer special favors on a few.

WORKMEN'S COMPENSATION ACT.

The Fifth Legislature passed a Workmen's Compensation Act. At that time I did not regard it as complete but expected that its operation would demonstrate what amendments were advisable. We have now had a trial of said Act for four years. The Industrial Commission have recommended as follows:

"The Commission asserts that the Compensation Law as it now stands is a very efficient and workable statute. The Legislature has given the Commission a wide discretion, which has made the administration comparatively easy. It will continue to operate well and efficiently and there is little demand for change or serious amendment. But a few suggestions may be made at this time.

"1. The period of medical attention should be extended. Fifteen days in a majority of cases is too short time. The injured employee, if he is entitled to medical or surgical attention at all, should have it until his recovery. The period should be extended to 30 or even 60 days, in the discretion of the Commission.

"2. Disfigurement should be compensated. The statute does not provide any compensation for injuries which re-

sulted in disfigurement. We pay specific amounts for the loss of a member, but nothing for serious facial blemish, loss of ear or nose or other injury which leaves a repulsive scar.

"3. Loss of use of finger or toe. The loss of the use of a finger or toe renders such member worse than useless. Under the law at present no compensation is paid for loss of the use of a finger or toe.

"4. Maximum compensation should be increased. The present maximum of $10.00 a week is inadequate under the present conditions. Practically half the injuries reported now are of men who receive wages ranging from $6.00 to $12.00 a day. Under present conditions a workman who has any family at all cannot live on $10.00 a week. There is no occasion to reduce the minimum.

"5. Law should be made to cover more employments. Some provision should be made to extend the provisions of the law to include certain workmen not now covered by the law."

In addition to the foregoing recommendations, which I approve, I recommend that the so-called waiting period be reduced from fourteen to seven days. (See Section 3, Chapter 246, Session Laws 1915).

GAME AND FISH.

The Sixth Legislature made an appropriation from the game fund to acquire four game stations and preserves in the State. Pursuant to said authorization the State Board of Public Affairs, with the approval of the State Game and Fish Warden, acquired lands for four game stations in the State; one in McCurtain county consisting of 11,700 acres; one in Bryan county in connection with the fish hatchery, consisting of 268 acres; one in Comanche county in connection with the fish hatchery, consisting of 220 acres; and one at Choteau Springs, in Osage county, consisting of 160 acres. All these preserves and game propagating stations except the one in McCurtain county have been fenced.

The State has 16 buffalo—2 males and 14 females, and in addition 2 males borrowed from the Federal government.

The buffalo are located in the game stations at Choteau Springs, near Bigheart, and near Medicine Park in Comanche county.

With reference to the fish hatchery at Medicine Park, water is supplied by the city of Lawton out of Lake La-ton-ka at $1.00 per year. Under the contract the State was permitted to take water from the municipal line until conditions made it inadvisable. The War Department has installed a filtering plant and objects to the State taking water from the municipal line. It therefore becomes necessary for the State to lay a six-inch line from the hatchery to the lake. The State having acquired the right of way before locating the hatchery, nothing is necessary except an appropriation for the material and laying the line. I recommend that an appropriation be made out of the game fund for this purpose.

In addition, I recommend an appropriation of $60,000.00 per annum for salaries, expenses and maintenance of the fish hatcheries, game stations and game preserves, and for the enforcement of the game and fish laws.

In the game propagating station near Armstrong, Bryan county, the State has accumulated deer and pheasants and has a thorough organization for game propagation. In addition, the State has acquired registered sheep and placed them in this preserve as a demonstration to the farmers of that part of the State as to sheep raising.

A game station should be acquired at some point in the northeast part of the State, either in Cherokee or Delaware county, to consist of from 300 to 500 acres of land, and a game enforcement officer's house should be built thereon. This game keeper should be an expert and scientific game propagator, and this station should operate not only to raise game and bring them back in their natural state for that section of the country, but also as a law enforcement station to radiate in its influence to the surrounding counties. The appropriation made for game stations and game preserves became exhausted, and for that reason we were unable to acquire such a station for the northeast part of the State.

A similar station should also be acquired and established in the northwest part of the State.

I recommend that an appropriation of $20,000.00 be made out of the game fund for the acquiring and establishment of these two stations.

An appropriation of $22,000.00 out of the game fund should be made to fence the game preserve and make other improvements in McCurtain county and to acquire fractions of land to square out the preserve.

The salary of the Game and Fish Warden is now fixed by law at $1,800 per annum. This salary should be increased to $2,500.00. A specially qualified man for Fish and Game Warden is essential. The business of the propagation and protection of game and fish is one of science and peculiar qualifications. Study and application are required to understand the animal, fish and game life so as to have same propagated and brought back to its natural state. This can be done by proper law enforcement and by proper game and fish propagation.

The value of the property owned by the Game and Fish Department in this State is worth at least a quarter of a million dollars.

CHILDREN IN STATE ORPHANAGES TO ATTEND PUBLIC SCHOOL.

The orphans in the Home at Helena attend the common schools of that district. Those in the State Home at Pryor are taught in the Home. These State dependents should not be thus segregated as dependents but be sent to the common or public schools of the State, where they will mingle among other children and associate with them and grow up with them.

I recommend that you consider the advisability of proper legislation for the orphans at Pryor to attend the common schools. This would necessitate giving proper aid for the building of school houses and for the paying of tuition. These little unfortunate orphans are entitled to their part of the common school trust fund. That should be apportioned to the school district in which the Home is located, and then the State should provide, by appropriation, for

paying additional quota so as to pay the expense of the tuition and education of these little orphans in the common school at Pryor, as well as to pay for the necessary school buildings.

SPECIAL CHARTERED GOVERNMENTS FOR COUNTIES.

Under modern municipal governments it is difficult under the general law to frame adequate governments for counties and also large cities distinct and independent of counties. Therefore I recommend the submission of a constitutional amendment to the electors of any county to frame and adopt a special charter form of county government; and in cases of cities of 50,000 inhabitants or more to permit the city and the county governments under a special charter to be combined; and that in the submission of these charters it be provided that in elections political parties may be eliminated.

SOLDIERS' AND SAILORS' STATE HOME.

The Sixth Legislature provided for a Union Soldiers' Home. This Home has been built and is now in operation, being located about one and one-half miles northeast of the State Capitol in Oklahoma City. Under the terms of this act (Chapter 271, Session Laws 1917) aged, dependent and honorably discharged United States soldiers, sailors and marines of the Civil War, and their dependent wives, widows and mothers, and aged and dependent army nurses, and aged and dependent and honorably discharged soldiers, sailors and marines who served the United States in the war with Spain, or in any war with Mexico, and their aged and dependent wives, widows or mothers, and dependent honorably discharged members of the Oklahoma National Guard are entitled to admission in this Home.

This act should be immediately amended to extend the provisions of this Home so as to include every soldier, sailor and marine honorably discharged who has at any time in this war which has just closed, or any other war, served the United States of America.

Section two of said act provides that the management of said Home shall be vested in a Board of Trustees composed of five members, three of whom shall have served in the Union Army or Navy during the Civil War, and shall be members of the Grand Army of the Republic, one of whom shall be a member of the Woman's Relief Corps Auxiliary to the Grand Army of the Republic, and one of whom shall be a member of the United Spanish War Veterans Association. I recommend that this be amended so as to make the qualification on said Board extend to any of the classes of soldiers enumerated who are eligible to be admitted to said Home, and that the name of the Home be changed to State Home for Soldiers and Sailors. That seems to be the name that is usually carried by such homes in other States, as in Indiana.

ESCHEATS.

Section 2 of Article 22 of the Constitution provides that "No corporation shall be created or licensed in this State for the purpose of buying, acquiring, trading or dealing in real estate other than real estate located in incorporated cities and towns and as additions thereto; nor shall any corporation doing business in this State buy, acquire, trade or deal in real estate for any purpose except such as may be located in such towns and cities and as additions to such towns and cities, and further except such as shall be necessary and proper for carrying on the business for which it was chartered or licensed, nor shall any corporation be created or licensed to do business in this State for the purpose of acting as agent in buying and selling land. * * *"

The Supreme Court of this State had occasion to construe this provision of the Constitution in Parwal Investment Company et al. v. State (175 Pac. page 514) decided on October 8, 1918, wherein it held that said section was not self-executing and that real estate acquired by such corporations in violation of said provision did not ipso facto escheat to the State.

Section 2 of Article 11 of the Constitution provides: "* * * the proceeds of all property that shall fall to the State by escheat * * * shall constitute the permanent school fund, the income from which shall be used for the maintenance of the common schools in the State."

The act attempting to vitalize said Section 2 of Article 22 (Chapter 32, Session Laws 1907-8; Section 8437, Revised Laws 1910) provided that "In all cases where, by reason of the provisions of Section 2, Article 22, of the Constitution of this State, the title to any real property in the State shall fail to vest in the grantee, * * * all such real estate in all such cases shall be subject to escheat to the State of Oklahoma, and the proceeds arising from the sale thereof by the State shall go to the public school fund of the county in which such real estate is situate, less the amount to be fixed by the court where such escheat procedings are had covering cost of such proceedings, including compensation to the person giving information upon which such escheat proceedings

may be based and prosecuted." It was held in the Parwal Investment Co. case by the Supreme Court that the vitalizing act was in conflict with Section 2 of Article 11 of the Constitution. It therefore becomes the duty of this Legislature to pass an act vitalizing said Section 2 of Article 22. In passing said act especial care should be taken to observe the provisions of Article 2 of Section 11 of the Constitution, so that the entire proceeds of the escheated estate shall go to the permanent public school fund of the State, and no part of it be diverted to an informer or to any other agency.

I respectfully recommend the early passage of an act to that end and in compliance with the limitations of the Constitution.

STATE COUNCIL OF DEFENSE.

On request of the representatives of the National Government and the Council of National Defense, which is an agency of the National Government, a State Council of Defense was created as a provisional body. This was done to obviate the expense of an extra session of the Legislature. The members of the State Council of Defense served without compensation, but it was essential to raise money to bear the necessary expenses of the operation of the State Council of Defense. I advised its members that I would recommend to the Legislature that an appropriation be made to reimburse those who advanced such necessary funds, and I have certified to a deficiency certificate to that end.

The sum of $42,887.15 was thus advanced for the use of the Oklahoma State Council of Defense from the following sources and by the following parties, and I recommend an appropriation to cover such deficiency:

BUDGET.

Under the laws of this State it is the duty of the State Board of Public Affairs to make a budget for all State institutions. The State Board of Education, the State Board of Affairs and the Governor, in joint session, have made up the budget covered by the foregoing recommendations as to all state institutions under the jurisdiction of said Boards. As to the recommendation for the A. & M. College, and the three sub-agricultural schools, this budget has been fixed by me after advising with the president of the A. & M. College and having reports from the heads of the subordinate schools.

In passing permit me to say that a constitutional amendment should be submitted providing for a state budget system. This amendment should provide for a Budget Board to make a budget as to every institution and every department and agency of the State, with the proviso that any item of this budget could be decreased by the Legislature by a majority vote, but that no item could be increased except by two-thirds vote of each House of the Legislature, and with the further proviso that no other appropriation bill could be considered by either House of the Legislature until the items included in the budget had been passed upon. Without such a provision in the Constitution, a budget fixed by legislative act would have no mandatory force. The expenses of the State government have so grown, and the State agencies are so increasing, that it becomes more and more necessary that the expenditure of public money should be protected by all of these mandatory safeguards. This would relieve members of the Legislature from much embarrassment. Members of the Legislature are constantly importuned by selfish local interests for appropriations. When such interests so combine as to control you have what is known as the pork barrel, which knows no public interest. Such a budget system imbedded in the Constitution will be effective in protecting the public treasury; otherwise a budget system has no more protecting limitations than the fearless veto power of the Governor imposes.

CIVIL SERVICE.

Four years' experience in the Governor's office has convinced me that a great many of the State employees should be under civil service. Executive or administrative heads, however, should not be under civil service, the appointing power being left free to select same. However, as to bookkeepers, stenographers, clerks, employees in the Health Department, guards at the penitentiaries, enforcement officers in the Game Department, janitors and such employees should be under civil service. A Civil Service Board, eliminated from politics, should be provided to administer the civil service law. The administration of government has expanded so as to do so many things for the people that efficiency must be sought after, just as in private affairs. This cannot be accomplished if such employees are to change with every administration. The spoils system has no place in modern government. If such places were under the civil service system we would not have such demands to increase salaries.

Respectfully submitted,

Governor.

Senator Vaughan asked unanimous consent to submit the following report:

Mr. President:

We, your Committee on Engrossed and Enrolled Bills, beg leave to report Senate Concurrent Resolution No. 1.

Correctly engrossed.

J. S. VAUGHAN,

Chairman.

The President Pro Tempore signed Senate Concurrent Resolution No. 1, by Harrison and Morton, in open session, and ordered the same transmitted to the Honorable House.

The following message was received from the Honorable Governor:

January 7, 1919.

To the Seventh Legislature of the State of Oklahoma:

Chapter 65 of the Session Laws of 1913 requires State officers and heads of State institutions who shall collect or expend any money for, or on behalf, of the state, to make a detailed statement to the Governor at the close of the fiscal year, showing the amount and character of all funds collected by them, from whom collected, and the expenditures, etc. I request each officer whose duty it was to make this report to submit to me a report in keeping with the statute. I am herewith transmitting to each branch of the Legislature copies of these reports as received.

Section 2 of said Act is as follows: "The Governor shall cause sufficient number of said reports to be printed, to provide a copy thereof to each member of the Legislature and to other State officials, the same to be delivered to the Secretary of the State for such distribution."

I have been unable to comply with this provision of the statute for the reason that the Legislature made no appropriation to have these reports printed. I am submitting the reports to the Legislature for your information, and if it is the desire of your body that these reports be printed, suitable provision in the way of an appropriation can be made therefor.

R. L. WILLIAMS,

Governor.

Senator Kerr moved that the Auditor of the Senate be instructed to audit and prepare for payment all bills for long dis-

tance telephone calls and telegrams pertaining to official business of the Senate.

The motion was seconded by Senator McIntosh and the same carried.

Senator Vaughan asked unanimous consent to introduce the following resolution:

SENATE RESOLUTION No. 3.

By Vaughan.

Whereas, Chapter 264 of the Session Laws of Oklahoma, 1915, provides for certain officers and employees of the State Senate; and

Whereas, The Constitution provides that the number and emoluments of officers and employees of a legislative body, or a branch thereof, shall not be increased during the term of such session of the legislature; and,

Whereas, owing to the fact that the Seventh Legislature is meeting in the new State Capitol building, making it necessary to have additional srevice for the proper transaction of the business coming before the State Senate; therefore,

Be It Resolved by the Senate; That the Committee on Employment be authorized and instructed to employ from time to time such extra help as may be necessary to properly transact the business of the Senate.

Senator Vaughan moved the adoption of Senate Resolution No. 3.

The motion was seconded by Senator Snyder and carried.

Senator Vaghan submitted the following Committee report:

Oklahoma City, Okla., January 9th, 1919.

Mr. President:

We, your Committee on Employment, beg leave to submit the following names: Entitled: Stenographers, Lucille Welborne, Ola Smallwood, Mary Hamlett, Teresa Wamsley, Elsie E. Wright, Blanche Neil; Janitors, William Brown, Robert Gillis-

pie, Eli Bartlett; and that the Secretary of the Senate be empowered to appoint two assistants.

J. S. VAUGHAN,

Chairman.

Senator Vaughan moved the adoption of the Committee report.

The same was duly seconded and carried.

Senator Clark moved that the minority be allowed one page, and that Lloyd Morris be named as such page.

The motion was duly seconded and carried.

Senator McIntosh asked that the record show that he protested vigorously against the useless expenditure of public money at this time by the employment of an additional page.

Senator Vaughan reported Senate Concurrent Resolution No. 2, by Cordell, correctly enrolled.

A message was received from the Honorable House transmitting engrossed copy of House Joint Resolution No. 2, by Harrison, with the information that the same had been adopted by the House and signed by the Speaker.

The President signed enrolled Senate Concurrent Resolution No. 2 by Cordell and ordered the same transmitted to the Honorable House for the signature of the Speaker.

Senator Vaughan moved that Senator Cordell be given the pen by which this Resolution was signed, as a souvenir of his earnest work.

The motion was seconded by Senatorr Wilson and the same duly caried.

Respectfully submitted,

M. H. PUGH,
ARTHUR LEACH,
E. P. HILL.

Senator Smith moved that the report be adopted as read.

The same was duly seconded and carried.

A message was received from the Honorable House transmitting engrossed copy of House Concurrent Resolution No. 4, by Stevenson of the House and Cartwright of the Senate, with the information that the same had been adopted by the House and signed by the Speaker.

Senator Davidson moved to amend House Joint Resolution No. 2, as follows:

Mr. President:

I move to amend House Joint Resolution No. 2, by Harrison, by striking the word "Joint" in the first line, and substitute therefor the word "Concurrent," and also by striking the word "and," line 3, by inserting after the word "Senate," the word "concurring" therein.

DAVIDSON.

The motion was duly seconded and carried.

Senator Cartwright moved that the resolution be passed as amended.

The same was duly seconded and carried.

A message was received from the Honorable House transmitting engrossed copy of House Bill No. 1, by Harrison, with the information that the same had been passed by the House as amended and signed by the Speaker.

In accordance with House Concurrent Resolution No. 2, the Chair appointed Senators Snyder, Board and Hill to serve as the Inaugural Committee.

Senator Board moved that the Senate stand adjourned until 11:30, Monday, January 13th, 1919.

Senator Hall seconded the motion and the same carried.

JOINT SESSION.

January 13, 1919.

The joint session was called to order by the President Pro Tempore of the Senate.

The Clerk of the Senate called the roll of the Senate and a quorum was shown to be present.

The Clerk of the House called the roll of the House and a quorum was shown to be prersent.

The President Pro Tempore anounced a quorum present of both the Senate and House.

Prayer by Rev. R. Y. Blackwell, Chaplain of the House.

The President Pro Tempore stated that the assembling of the Senate and House in Joint Session was for the purpose of inaugurating Governor-Elect J. B. A. Robertson, and requested the Joint Committee of the Senate and House which had previously been appointed to arrange for the inaugural, composed of Senators Hill, Board and Snyder and Representatives Nesbitt, Harrison and Kight, to escort Governor-Elect Robertson to the platform.

Senator Hill, for the Committee, made the following remark:

"Mr. President, in behalf of the Committee, I take pleasure in presenting Governor- Elect Robertson and retiring Governor Williams." (Applause).

The President Pro Tempore of the Senate introduced Honorable J. F. Sharp, Chief Justice of the Supreme Court, who administered the oath of office as Governor to Honorable J. B. A. Robertson.

Governor Robertson delivered the following address:

Gentlemen of the Senate and House of Representatives, Members of the Supreme Court, State Officers, and Fellow Citizens:

To me this a most solemn and inspiring moment of a busy and eventful life, and I have approached this day's doing with a feeling of deepest awe as I have contemplated the tremendous responsibilities of the Chief Executive of this great State. In undertaking the exacting duties, to the faithful performance of which I and my colleagues in the new State Government have just pledged our fidelity, I must count heavily upon the generous and patriotic co-operation of the legislature, the judiciary, and of the people themselves.

I am not unmindful of the high mark of their confidence with which the people of Oklahoma have already distinguished me in my nomination and election; and my greatest concern is that I may prove worthy of the trust and confidence with which I have been honored. I think it is fitting on this occasion that I should again express the gratitude I feel towards the people of Oklahoma for the honor conferred upon me, and for the many expressions of encouragement and good will of which I have been the recipient.

We are yet in the shadow of a great war, the blighting devastation of which has menaced—and all but destroyed—the very foundations of modern civilization; but thanks to the fortitude of our Allies and the noble courage and sacrifices of the manhood and womanhood of our beloved country, so freely offered at the shrine of liberty, the foes of humanity have been overwhelmed and the freedom of the world, bought by the blood of ten million martyrs, will soon be attested by the seal of a "League of Nations" whose people live today in the enjoyment of hope that the sunlight of peace, already scattering the gloom, will soon envelop the earth, and that wars and rumors of wars shall be no more.

Oklahoma has stood loyally by the nation in the solution of the grave and weighty problems involved in directing America's share in the most desperate of mankind's struggle for freedom.

The lives of her young manhood have been freely sacrificed on the crimsoned altar of our country's service to human liberty, while the older men and the noble womanhood of the commonwealth—and our children—have offered at the shrine of humanity and the nation's needs, a spirit of devotion and unselfish patriotism that will always be cherished as the most glorious page of the history of the State.

I take an earnest, patriotic pride in the splendid service rendered by the people of this State to the Federal Government and to the cause of liberty throughout the world; and so far as it is in my power to direct the future attitude of the state, there will be no faltering or slowing down of the efforts to fully meet our share of the national requirements, and no weakening in the loyal support which the people, without regard to party, has given to that great leader of men—that incomparable champion of liberty and democracy in their broadest, trurest sense, whose pesence in the capitals of Europe has been hailed by uncounted millions of the world's oppressed as the certain assurance of a just and lasting peace; the foremost citizen of the World, the President of the United States, Woodrow Wilson.

It is our duty, however, to take a forward look to the days when real and actual peace will restore in a measure, at least, the normal conditions of life before this cataclysm of war engulfed the world. There are no mental reservation in the love I feel and express for the nation, but the nationalism I reverence and respect is a Federal Government that owes its existence to the powers delegated to it by the sovereign states, and that rests confidently in the reserved rights of a people who direct their own local affairs upon the lines laid down by the Constitution, under which this nation has grown great and prosperous. The return of peace should signalize the restoration of the admirable system of checks and balances between the delegated powers of the Federal Governmen and the reserved rights of the people upon which the stability, the perpetuity and the present and future greatness of our nation rests.

I have no hobbies to ride nor pet theories of government to put into practice as an experiment; for I am at heart an orthodox believer in the eternal verities of truth and justice and would apply them to all the affairs of men, particularly in government.

I am a democrat from choice, and not by accident of birth or environment, and shall lay my course and attempt to guide the

ship of state by the chart handed down by the statesmen, past and present, who believed in a government of the people, for the people, by the people. To secure that end I want to encourage among the people a wider interest in the financial and business affairs of the State. I recognize in the public press one of the mose beneficient factors in the cause of good government, and during my incumbency of the office of Governor every facility for access to public records, and every encouragement to examine into the conduct of the public business will be extended to the representatives of thse great promoters of public intelligence and interest.

We must be prepared and hold ourselves in readiness to enter vigorously upon the work of readjustment and construction which the sudden dawn of peace marks out before us. The tests and the strain of war conditions has clearly exposed the economic waste of our highway system—or lack of system. Under modern conditions the prosperity or lack of prosperity of the citizens of such a state as Oklahoma can be largely written in terms of market facilities, and transportation advantages, and costs.

In the platform on which I went before the people of this State, asking for the nomination and election to the position of Chief Executive, I stated my position on this subject in part as follows:

> "I declare for an aggressive policy of road improvement, such as will place Oklahoma in the forefront among the states that boast of the most forward achievement in this great enterprise, and giving regard to the fact that highways should be improved ultimately, in approximate proportion to the traffic they will be required to carry."

I also said:

> "Old systems fail and fall overwhelmed by the rising flood of traffic. In the world war we have seen a vivid illustration of this, and we know now, more than ever before, that the public highway must be made to carry the load. The building of permanent, hard-surfaced roads, under the coordinated plan provided by our laws, should receive active and material support from the State. With principal State highways built of permanent construction, more attention and funds can be given to building local dirt roads, much maintenance waste eliminated, and the whole people benefitted immeasureably."

Those were general truths so heartily approved by the people that I hold myself pledged to use the most intelligent and aggressive efforts to secure at the hands of the legislature the submission to the people of a measure, duly safeguarded, that will provide the funds to make a system of hard-surfaced roads in Oklahoma, one of the realities within the life of the new administration.

In order to accomplish the great things which we all feel the future holds for Oklahoma, I and my colleagues in the government, the legislature, the press, and the people, must consecrate ourselves to the same kind of political teamwork that has distinguished our citizens in every walk of life in the various kinds of war service. It is as necessary that we should work together whole-heartedly and harmoniously in solving the problems of peace, as in carrying on the sterner activities of war.

Among other things to which I shall call the attention of the Legislature during the present session, and which I hope to count among the early accomplishments of the administration, is the adoption of a conmprehensive and workable budget system of presenting to the Legislature a reliable estimate on which to base appropriations. The income of the State, less the fixed charges, should be the basis of the State's expenditure for operating exenses, and the needs of the various departments and institutions can be more fairly and equitably measured by an impartial board, than by the present method.

The subject of education continues to be one of the most important with which governments are called upon to deal; and it is one to which I feel we must devote the most thoughtful attention during the present eventful period.

It may be said that Oklahoma has provided prodigally for the small percentage of the rising generation whose circumstances will enable them to attend the higher institutions of learning, but so long as illiteracy exists within its boundaries, or while it can be said that the children of any class, or of any condition in life, are denied that equal opportunity to which they are entitled to obtain at least a good common school education, we have not done our duty as the guardians of the public welfare, or as citizens of a great, free, democratic state.

Intelligence is the spiritual essence of good citizenship in a republic. More than a century ago Thomas Jefferson, in advocacy of the common schools, wrote: "I look to the diffusion of

light and education as the source most to be relied upon for ameliorating the condition, promoting the virtue, and advancing the happiness of mankind." And while we have traveled far on the road of progress since his day, I do not believe that the progressive people of Oklahoma are satisfied, or that they should be, with the conditions that obtain in a great many of the rural school districts of this State. Personally, I shall not rest content until a full nine months' term is secured for all our primary schools, and until every child of the state is in the way of achieving the equivalent of at least a common school education.

The chief business of a democracy is education. Education means opportunity, and a democracy that fails in this respect is untrue to its first principle. I want you to co-operate with and aid me to so prune the tree of knowledge in this State that some of its perfect fruit will ripen on the branches within the reach of the children of the common people, who constitute an overwhelming majority of the citizenship of the state.

The ownership of a home is the surest antidote for anarchy and its legitimate spawn, more familiarly known as I. W. W., bolshevik and red card socialism. The portals of the American home—no matter how humble it may be—are the sentinels guarding the entrance into the holy of holies of patriotism and good citizenship, and the perfection of our home ownership law by amendments that will extend its helpful provisions to the man of integrity and industry without money capital should be made one of the foremost features of our program for re-adjustment and constructive legislation. It is not a wise policy to remove the restrictions in the present law which govern the loaning and investment of the trust funds of the schools, but a fund should be provided out of which home ownership loans, of not to exceed $2500.00, can be made on the moral risk of a good, industrious character and the security of the land. If we are to accomplish all we should accomplish along this line, the State must take some risk. The present law requires that the prospective owner must have one half of the purchase price of the land, or that he can borrow only one-half of the value of the land, irrespective of improvements; and this conservative and iron-clad provision of the law has denied its advantages to the very class most in need of the state's fostering care. The 1917 amendments to the law reduced the rate of interest, on the bonds to be sold to maintain the loan fund, to a point below the interest rate on government bonds, and at four per cent under present and prospective conditions there is neither a home nor a foreign demand for such securities. The successful operation of this law means much for the State. But it is more than a mere administrative or eco-

nomic policy. Its practical and successful operation is of vital importance, not only to those who take advantage of its provisions, but it should awaken and enlist the hearty support of every banker, land-owner, school teacher and business man, for it is both a community and state builder.

There is another subject to which I invite the earnest consideration of the people of this State and to which I shall later invite, in a more specific way, the attention of the Legislature.

The development of the natural resources of Oklahoma offers a most inviting field for the enterprise and industry of our citizens, and for the safe and profitable investment of capital; and, notwithstanding the wonderful strides already made in that direction, the work has just begun. To put this development on the plane of activity which the energy and enterprise of our people demand, and the richness of our mineral deosits and the importance of the industries made possible by an abundance of raw materials warrants, we need very large amounts of outside capital. We must induce additional capital to enter the State and find employment as a factor in the development of oil and gas fields and refineries; the promotion of mining and smelting of zinc and lead; the mining of coal and manufacture of coke; the exploitation of our granite, marble and other building stone, salt, asphalt, gypsum and deposits, whose abundance and untold richness have been the theme of our most eloquent newspaper men and able geologists, and we msut offer the encouragement of fair and equitable treatment towards invested capital.

I said in my platform that "unless additional capital can be made to feel secure, and is guaranteed fair and just treatment, we need not expect that development which would otherwise be ours for the asking.

"The opening and development of our great resources will bring to our State large numbers of intelligent men of high-wage earning capacity who will build homes and make markets for the farmers' products, and otherwise assist in the upbuilding of this commonwealth; and to me it seems a short-sighted and foolish policy to place obstacles in the way of these industries, especially in view of the untold benefits that would accrue to our citizenship, and the increased revenue to the State and the various municipalities."

What I said then, I want to accentuate now. The time has gone by in Oklahoma when capital can be baited and penalized,

or organized labor or industry exploited. Rightly administered and backed by an intelligent public opinion, our laws should provide room and opportunity in Oklahoma for the investment of unlimited capital and the establishment of countless new industries that will add to the material wealth, the prosperity and happiness of all our peole. To vitalize and bring to full fruition the most effective policy and the needed legislation to secure results commensurate with the opportunities offered and the advantages possessed, must be one of the most urgent of the many duties that will devolve upon the executive and legislative branches of the State.

Oklahoma has been one of the most progressive of the states in making provisions in its constitution and laws for the protection and safeguarding of the rights and interests of labor. We should take no backward step in legislation affecting the interests of labor, and should give willing and patient heed to its reasonable demands.

Agriculture, and its kindred arts, continue to be the leading industry of the state, and I can pledge my most active efforts to the encouragement of such legislation and the carrying out of a comprehensive policy for the betterment of this industry, for after all, God made Oklahoma to be the home of the farmer and stock raiser, and in decades to come when our oil and gas, our coal, and lead and zinc, and other wonderful natural resources have become a memory, Oklahoma will yet be the home of the farmer; and agriculture will continue to be the state's chief industry. This being true, we must at all times keep in mind its needs and use our best endeavors to stimulate its progress and prosperity.

Let me also urge upon the good citizens of Oklahoma the necessity of harmony and co-operation in the great work of governing this state; let us remember that with the great victory of our army and navy comes also added duties and responsibilities; that in the work of re-adjustment, already begun, we must carefully avoid too much centralization of power, not only in the nation, but in the state as well; that during the war, we, as states and individuals, gladly surrendered many rights and privileges for the good of the common cause; naturally, we expect a relinquishment of all these surrendered privileges, and that the state will again assume its rightful estate. Yet, with the return of these rights and powers by the Federal Government, and their assumption again by the state, added duties and responsibilities

will be ours, and extra efforts must be made to care for the new situations and conditions thus brought about.

To this end I call attention to the labor situation. Not less than 120,000 able-bodied workmen have been taken from the state during the war period to engage in war activities. Soon these men will return, many to find their jobs taken by women and older men who will be loath to give them up, and many employers will hesitate to turn these new employees free and discontinue their services. The Federal Government has been kind and generous in finding jobs for these men in war work, and to a large degree has taken over the work of the state in the matter of employment agencies, and is yet anxious to continue its aid in meeting the conditions of demobilization. However, it is unnatural for us to expect the Federal Government to continue its fostering care to the same degree since the close, as it did before the end of the war. To my mind no problem is of greater interest to the state than that of stabilizing conditions in the industrial world by providing a safe, sure and speedy method that will enable us to absorb and take care of the large number of men without jobs who will soon be among us.

Is it too much to ask that all employers of labor begin forthwith to aid the state, as well as the Federal Government, in providing a safety valve for this great force, which if properly directed will be a blessing, but which if neglected may prove a danger and a menace.

There are many other subjects that vie in interest with these I have touched upon, which it will be my privilege to take up directly in a message to the Legislature. The work before us will be heavy and exacting, but if taken up in a spirit of co-operation and devotion to the people's interest, as I feel confident that it will be taken up, I know we shall accomplish much, and that the people will approve our efforts.

In conclusion, let me again pledge the people of Oklahoma, the state we all love and honor, the best state in the Union, a vigorous and impartial enforcement of all the laws, and that the executive power will always, so far as I am humanly able to judge, be exercised with reasonableness, impartiality and unswerving fidelity to the trust that has been reposed in me.

President Pro Tempore Davidson then introduced retiring Governor Williams, who delivered the following address:

Governor Robertson, Mr. Speaker, Members of the Legislature, Ladies and Gentlemen:

The aims and purposes with which I undertook the task of Chief Executive of this State were outlined four years ago. Those duties have been discharged with an eye single to the best interests of the State. With few exceptions such undertakings have been accomplished. Naturally some mistakes would be made. I am conscious, however, that I have ever struggled that government should be made better and that every dollar collected through the agencies of the State from the taxpayer should yield to the public a commensurate value. My constant endeavor has been that no one should exploit the State. I have regarded the man who has sought profit from the State without giving actual value in return as a public enemy or a parasite.

Now that my term as the third Governor of the State has terminated and my political career is ended and my life's work on the bench about to begin, may I be permitted here to acknowledge the debt of gratitude which I owe to the people of this Commonwealth for the many honors which have been conferred upon me, for the steadfast confidence with which the good people of this State have sustained me, and for the opportunities thus enjoyed of manifesting my inviolable attachment to good government by services faithful and persevering. I am mindful, however, that my usefulness therein has not been equal to my zeal.

If benefits have resulted to the State from these services let it always be remembered to the praise of my countrymen and as instructive example in the history of the State, that under circumstances in which the minds of the people were ofttimes sought to be beclouded and misled by the disappointed seeker of special favors and offices, yet the constancy of support of those who desired an efficient and honest government was ever reassuring.

In things purely political I have been a partisan. In matters administrative, affecting life, liberty or property, partisanship was banished| I felt that I served my party best when I did the right regardless of whom it favored.

To the members of the fifth and sixth Legislatures I extend my thanks. I shall ever remember with pleasure my relationship to them, as Governor of the State, and feel that we did some things that will endure and live long after we are dead.

To the membes of the seventh Legislature, may Godspeed you in your future sessions and deliberations to be earnest and faithful to reach proper conclusions and do the things for the State which will live after we are gone.

To the heads of the various departments, state institutions and their employees who have labored to carry out the policies of efficiency and fidelity to public interests, I take occasion here to express my thanks.

To those of the elective state offices who have co-operated with me to the end that efficiency, honesty and fidelity should characterize this administration and that every promise made to the people should be redeemed, I here extend my thanks.

To the new administration I bid you Godspeed and hope that when the term of four years has passed, you not only will have earned but will receive the approval of the people.

To the members of the different war agencies who so patriotically and efficiently served the State and Nation during the war, likewise I extend thanks.

In patriotism, efficiency and fidelity to public service I expect future generations to look back to these four years of the State with pride.

To the people of the Commonwealth, the honest press, those who have sustained me in fighting that right might prevail, I express to you one and all my appreciation. I will ever carry with me a fond remembrance of our association, labors and devotion to the common good.

Mr. Harrison moved that the address of Governor Robertson and the address of Governor Williams be printed in the Journal of the two Houses, which question was put by the President Pro Tempore and decided in the affirmative.

On motion of Mr. Nesbitt the Joint Session was dissolved.

Following the Joint Session, the Senate reconvened in the Senate Chamber.

The President signed, in open session, House Joint Resolution No. 2, and ordered the same transmitted to the House.

The following bills and resolution were introduced and read for the first time:

Senate Bill No. 19, by Fleming.—An Act amending Section 3305, Revised Laws of Oklahoma, 1910; fixing the salary of the state fish and game warden; making an appropriation therefor; and declaring an emergency.

Committee on School Lands.

Senate Bill No. 18, by Snyder.—An Act to regulate the hours of labor of employees of organized paid fire departments, in cities, towns and villages of the state. Committee on Commerce and Labor.

A message was received from the Honorable House transmitting enrolled copy of Senate Concurrent Resolution No. 2, by Cordell, with the information that the same was signed by the Speaker, in open session.

Senator Thomas moved that the rules be suspended and House Bill No. 1, by Harrison, be placed on the Calendar.

The motion was duly seconded by Senator Snyder and carried and the Chair ordered one hundred copies of House Bill No. 1 printed.

Senator Cartwright requested that Engrossed House Concurrent Resolution No. 4 be referred to Committee on Judiciary No. 1, for investigation.

Senator Snyder moved that the Senate adjourn under the rules.

The motion was duly seconded and carried.

Total, 41.

Excused: Knight, Briggs, Testerman. Total, 3.

Quorum present.

Prayer by the Chaplain.

A message was received from the Honorable House transmitting Engrossed House Bill No. 20 by Henry, with the information that the same had passed the House and was signed by the Speaker, in open session.

The chair excused Senator Knight until Wednesday.

Senator Cartwright asked unanimous consent to file the following application of John Stroud, legislative committeeman of the Brotherhood of Locomotive Enginemen and Firemen:

Oklahoma City, Okla., January 8, 1919.

To the Honorable President and Members of the Senate of the State of Oklahoma:

John Stroud states that he is a resident of Sapulpa, Oklahoma, that he is 35 years of age, that he is a duly authorized legislative committeeman of the Brotherhood of Locomotive Enginmen and Firemen, that he is paid the sum of $10.00 per day for his services, that he makes this statement in compliance with the law of the State and petitions your honorable body that he be granted a permit to appear before committees and act in his duly assigned capacity in the interests of the organization he represents.

JOHN STROUD.

Senator Cartwright moved that the permit be granted.

Senator Snyder seconded the motion and the same carried.

A committee from the Honorable House was received, stating that the House of Representatives was ready to meet with the Senate in joint session.

Senator Hill moved that the invitation of the Honorable House be accepted and the committee so advised.

The motion was duly seconded and carried.

The motion was duly seconded and carried.

Senator Snyder moved that the Senate recess and proceed to the House of Representatives for the purpose of holding a joint session.

The same was duly seconded and carried.

JOINT SESSION.

January 14, 1919.

The Senate and House of Representatives met in joint session at 1:45 o'clock p. m., January 14th, 1919, for the purpose of receiving the Governor's message.

The joint session was called to order by the President Pro Tempore of the Senate.

The clerk of the Senate called the roll of the Senate and a quorum was shown to be present.

The clerk of the House called the roll of the House and a quorum was shown to be present.

The President Pro Tempore of the Senate announced a quorum present of both the Senate and House.

Governor Robertson delivered in person the following message to the joint session of the Legislature:

GOVERNOR J. B. A. ROBERTSON'S FIRST MESSAGE TO THE SEVENTH LEGISLATURE OF OKLAHOMA

Gentlemen of the Senate and House of Representatives:

In conformity with the requirements of the Constitution and of long established custom, I have the honor of herewith submitting to you a message touching upon the legislative needs of the state.

At the outset, we, as a state, are, and of right should be, deeply grateful to the Father of Nations for the safe deliverance from the threatened and menacing danger of that idea of government typified by the Hun. The glorious achievement of our army and navy awakens within the heart of every true American the strongest feelings of pride while the leadership of our forces has inspired us with a greater degree of confidence in American citizenship than we, as a nation, have ever before experienced.

The war required of us untold wealth in a material way and we will, for generations yet to come, be burdened with its cost; yet, not one of us regret the expenditure of a single dollar; and the loss of many thousand precious lives—while hard to bear, has not been in vain, because of the glorious and everlasting benefits which their sacrifices guaranteed.

Oklahoma has borne her share in this great contest gladly and without regret. We have met every requirement of the Federal Government and of our Allies, and the splendid achievemnts of our noble boys will be the subject of song and story, and of grateful tribute and loving homage, as long as we exist as a nation. The great victory has cost us much in money and in tears, but with it comes greater duties and responsibilities, as well as greater opportunities. Since that fateful day in 1914 when the armies of Europe began to march we have lived a thousand years, and with the coming of peace we face a new world, with new problems and new difficulties. No living man is wise enough to correctly appraise the results of the war, or predict with any degree of certainty the new obligations that will be imposed upon the signatories of the world's greatest and

most important peace treaty; but there are some things requiring our attention which do not call for prophecy or conjecture, and in these hard, yet important duties that face us on every hand we can find employment of all our best endeavors. To a few of these matters I desire to briefly direct your most considerate attention.

STABILIZING CONDITIONS.

Merely by way of a general observation, I desire to impress upon your minds and to call your immediate attention to the very important position you now hold as law-makers of a great and growing commonwealth.

Irresponsible and thoughtless persons, in the past, have sought to minimize the dignity and importance of law-makers and all other public officials, and in this they have been encouraged and assisted, to a degree, by the conduct of the officials themselves. I say to you that such criticisms are intolerable and unfair, and must be stopped. The duties of law-makers and officials, generally, are of so much general importance that every patriotic citizen owes it as a duty to his state to combat such manifestations wherever found, and to aid and assist us in the proper performance of onerous and exacting duties. But above all other methods of attracting esteem and support, the proper conduct of public officials themselves is the best guarantee of that homage and respect to which the honorable position is entitled.

Oklahoma is no longer the "baby" state; we have passed the day of swaddling clothes, and have donned the habiliments of full grown manhood, and we, as public servants, are charged with duties and responsibilities, the proper discharge of which affects directly the happiness and prosperity of more than 2,000,000 living persons, and of millions yet unborn. We can ill afford, as representatives of such a constituency, to act like boys or other irresponsible agents, but must realize immediately and fully the requirements of our positions. To that end let us unceasingly, and in good faith, labor. Our standing as a sovereign state, both at home and abroad, is fixed and determined very largely by our own efforts and public officials represent, in a large measure, the character and reputation by which we are

known and appreciated by the world at large. It is a matter of genuine regret that we have been handicapped and retarded in our growth by "freak legislation," by the exploitation of spectacular and unnecessary "fads" and "isms," and by the unseemly and undignified wrangles of public officials, played up to our disgrace and disadvantage by sensational newspapers and other agencies.

Is it not a prime duty, and is it not an opportune time for us, and each of us, and all others in the state government, to undertake to bring about a happier and more wholesome condition of affairs? To that end I urge upon all citizenc, regardless of their rank and station, the absolute necessity of standing by Oklahoma first, last and all the time. Let us begin to boost and praise our great state, crystalizing a sentiment that will have for its object and purpose the creation and growth of a love and reverence for Oklahoma and her institutions, so that her boys will gladly fight and die for her if necessary.

To my mind it is high time for us, as individuals and collectively, to lend our best endeavors towards a stabalizing movement in every field of activity, to the end that we may more nearly achieve and hold a proud position in the sisterhood of states for thoroughness and high character, and show by our own efforts that Oklahoma is the safest and best state in the Union in education and commerce, industrially, economically, and otherwise.

GOOD ROADS.

No question of greater importance will come before you for consideration than that of good roads. No one is opposed to good roads—all favor them and this, in a measure, has always been true. Yet the fact remains that we have no good roads in Oklahoma, notwithstanding the enormous sums of money expended for that purpose.

The war is now practically over and we must be prepared and hold ourselves in readiness to enter vigorously upon the work of readjustment and construction which the sudden dawn

of peace marks out before us. The tests and strain of war conditions have clearly exposed the economic waste of our present highway system, or rather, lack of system. Under modern conditions the prosperity, or lack of prosperity of the citizens of such a state as Oklahoma can be largely written in terms of market facilities and transportation advantages, and costs.

In the platform on which I went before the people of this state, asking for the nomination and election to the position of Chief Executive, I stated my position on this sbject in part as follows:

> "I declare for an aggressive policy of road improvement, such as will place Oklahoma in the forefront among the states that boast of the most forward achievement in this great enterprise, and giving regard to the fact that highways should be improved, ultimately, in approximate proportion to the traffic they will be required to carry."

I also said:

> "Old systems fail and fall overwhelmed by the rising flood of traffic. In the world war we have seen a vivid illustration of this, and we know now, more than ever before, that the public highway must be made to carry the load. The building of permanent, hard-surfaced roads, under the co-ordinated plan provided by our laws, should receive active and material support from the state. With principal state highways built of permanent construction, more attention and funds can be given to building local dirt roads, much maintenance waste eliminated, and the whole people benefitted immeasureably."

There is another phase of this question which must not be lost sight of. Something like 80,000 soldier boys from Oklahoma will soon return to civil life, together with half that number more able-bodied men who have left the state to engage in war work in ship yards, munition plants, and other activities. The most of these men will return to find their jobs taken by women and older men who, for various reasons, may nor surrender up their places, and it is our duty to provide work for them all. Again

the re-adjustment that is bound to come to our commercial life brings to mind many diffculties, all of which will be attended with uncertainties and the enormous demands of the Government for money, coupled with the enormous ecnomic losses occasioned by the absence from the state of more than 100,000 able-bodied wage earners for the past year or eighteen months; these and many other reasons require a brisk stimulation of industry in this state, to the end that business of all kinds be stabilized until we can readjust ourselves to the changed conditions.

In order to furnish employment to the returned soldiers and war workers, or those who must give way for them, we must unitedly engage our efforts either by furnishing private employment, or by public internal improvements. It is of the highest importance that all hands be employed to the end that wily agitators be not given a chance to sow the seed of discord in the minds of those who made such mighty sacrifices for human liberty. To these ends, and because of the otherwise imperative need of god roads, to what greater work can we dedicate our efforts?

I am therefor enthusiastically in favor of submitting to the people of the state at the very earliest opportunity the question of using not less than fifty million dollars worth of Good Roads Bonds for this purpose.

This may seem like an enormous sum, and it is, yet nothing short of that amount will answer the purpose. In order to guarantee this project we must first and above all, convince the people that every dollar of the sum so raised will honestly and in good faith, go into good roads, and that the state will obtain value received for all sums expended. We must guarantee to every county in the state its prorata share of the proposed improvement, based upon population, area, taxable wealth and traffic requirements; we must also fix the routes of the proposed highways in the bill to the end that all the people will know just where the improvement will be made, and thus guarantee good faith to the weaker counties, and also thereby save the administrators of this law the embarrassment of rival routes, thereby eliminating the charge of favoritism, politics, and undue

influence after the bond issue shall have carried. We must designate in the measure the width of the road to be constructed, and the character of road to be built and provide that every foot of it shall be built of Oklahoma material and by Oklahoma workmen. The bond issue thus provided must be so arranged that not less than $2,000,000 of the principal shall be retired each year, and the receipts from motor vehicles and 5-6ths of the present income from the gross production tax on oil, gas and minerals should be appropriated for the purpose of paying interest and principal; and if this be done every dollar of the issue would be taken care of without increasing our resent tax one penny.

The Federal Government stands willing and anxious to join hands with us on this great enterprise, both with money and skilled and experienced engineers, and we should avail ourselves of this aid, especially as to the engineers, to the end that we may have an adequate supervision and inspection of the work and thus satisfy the people that the improvement is being honestly made. To my mind, no greater opportunity for real service will ever present itself to us, and I most earnestly request the immediate and continuous consideration of this subject. If the matter can be speedily submitted I will call a special election at an early date, so that if the proposition is approved by the people the legislature will yet be in session to enact such further laws as may be necessary to vitalize and make the plan workable.

EDUCATION.

The subject of education continues to be one of the most important with which state governments are called upon to deal; and it is one to which I feel that we must devote the most thoughtful attention during the present eventful period.

It may be said that Oklahoma has provided prodigally for the small percentage of the rising generation whose circumstances will enable them to attend the higher institutions of learning, but so long as illiteracy exists within our boundaries, or while it can be said that the children of any class, or of any condition in life, are denied that equal opportunity to which they are entitled to obtain at least a good common school education,

we have not done our duty as the guardians of the public welfare, or as citizens of a great, free, democratic state.

Intelligence is the spiritual essence of good citizenship in a republic. More than a century ago Thomas Jefferson in advocacy of the common schools wrote: "I look to the diffusion of light and education as the source most to be relied upon for ameliorating the condition, promoting the virtue, and advancing the happiness of mankind." And since we have traveled far on the road of progress since his day, I do not believe that the progressive people of Oklahoma are satisfied, or that they should be, with the conditions that obtain in a great many of the rural school districts of this state. Personally, I shall not rest content until a full nine months' term is secured for all of our primary schools, and until every child in the state is in the way of achieving the equivalent of at least a common school education.

The chief business of a democracy is education; education means opportunity, and a democracy that fails in this respect is untrue to the first principle. I want you to co-operate with and aid me to so prune the tree of knowledge in this state that some of its perfect fruit will ripen on the branches within the reach of the children of the common people, who constitute an overwhelming majority of the citizenship of this state.

I may lay myself open to criticism when I assert, as I now do, that our common schools do not measure up to our requirements, and expectations. I venture the assertion that seven out of every ten of the children who start in at the botom in our common schools, obtain all the education they will ever get in the district school at home. This is unfortunate and should be remedied, but it is nevertheless true, and being true, I contend that conditions should be so changed that when a boy or girl finishes the eighth grade in our common schools he or she should have the foundation of a "practical" and useable, every day education. He should be able to solve ordinary problems in arithmetic, write an intelligible sentence in the English language, know the common ordinary history and geography of his state and nation, write a legible hand, and spell the words of his every-day vocabulary. Drawing, mechanical draughting, domestic art and science, music,

athletics, etc., etc., while desirable and useful must give way in the common schools, and the number of subjects studied must be reduced and more time given to the fundamentals to the end that a greater degree of thoroughness be reached.

I am proud of our University, A. & M. College, the various state normals, and other higher institutions of learning, and wish to see them prosper to a much greater degree than that which they now enjoy. I want the legislature to be liberal with them—in fact they have just begun to grow and we should, and will, treat them with a jealous care. But I know that but comparatively few of our girls and boys will ever have the privilege of a higher education, so, I plead for the common schools; that institution that has been, and is now, the foundation of all our greatness as a nation.

To that end let us immediately simplify the program of our country schools, and eliminate many subjects from their programs to the end that more time may be given to the fundamentals. Let us continue to encourage our consolidated rural schools, and to this end I urge an increase in appropriations for building purposes and maintenance.

AGRICULTURE.

Agriculture is our most important industry, and is entitled to our most serious consideration. Conditions are continually changing, and this fact alone requires that we keep in mind, at all times, the necessity of modernizing our laws to meet the varying needs of those who feed the world.

A few years ago Oklahoma was considered by some as of the south, and by others as of the north, and each class sought in good faith to impose upon the farmer, by law, the customs and methods of the particular section from whence they came, without regard to nature's laws, which, after all, silently, but inexorably, mould and shape our destiny. As a result we have lost much time and many opportunities by what, at times, seems useless experimentation.

This, I presume, could not have been avoided, and yet unless we are willing to profit by experiences, and are willing to recognize the large and unchangeable part which nature plays in these things, we are doomed to further uncertainty and doubt as to the settled policies to be followed. The thought I wish to leave is this: We should begin to feel and act as though we were a "settled" community, and should leave experimentation in laws as well as crops to those who are specially charged by law and who have the opportunity, and who can engage in this most useful and necessary work, without the danger which comes with failure. In other words, our farmers and our law-makers should use a wise caution in adopting innovations; and I am loath to make recommendations except in a few instances where time, experience and obeservation warrant us in the belief that relief by law is needed.

I must not, however, be misunderstood as being opposed to progress, nor as under-estimating the importance of up-to-date scientific methods of agriculture; what I want in agriculture here in Oklahoma, as well as every other line of activity, is, as nearly as may be, a settled policy so that we may concentrate all our energies and obtain the best net results. However, much we desire this "settled" condition, we also know that in order to secure it we must all work together, and the law-makers will play a very important part in eliminating the errors of the past and in placing the farmer in a position to profit by the experience of those who elsewhere have succeeded under conditions comparatively such as we have here.

The first great need of the farmer in Oklahoma is " Good Roads," and this is a subject of such vital importance that I have treated it specially, and under a separate head.

There are other things, however, that have a direct bearing on the prosperity of this great industry, and which are indissolubly connected with it, the mere mention of which, however, will, without argument, convince us that they should be cared for by law; and without attempting to discuss them herein at length, I shall briefly enumerate a few subjects, confident that the mere mention of their names and purposes will recommend them to your favorable consideration.

1*st*. *Marketing Laws.* The importance of an efficient marketing law cannot be over-estimated. Our present law is a short step in the right direction, but unless it be enlarged and strengthened it would better be repealed, because as it now stands it pretends to offer relief without being able to give it. The administration of this law should be charged directly to the State Board of Agriculture. The subject is of so much importrance and yet so little understood and appreciated that public hearings before the Committees of the two Houses might be of great value; for I am sure the Federal Government would gladly send experts to aid us in evolving a workable plan.

2*d*. *Pure Seed Law.* Every year the farmers of the state lose thousande of dollars in the purchase of poor seed. This fact in itself is sufficient to warrant the passage of a Pure Seed law; but important as this phase of the subject is, it is as nothing compared to the loss of crops which always results from poor and imperfect seed, to say nothing of the loss that results from noxious and bothersome weeds and other plants that every year are bought because of being mixed in the purchased seed. The loss from this source to the farmer is large, but the loss is not the farmer's alone—we all lose because of the shortage of food products. I most earnestly urge the passage of a comprehensive pure seed law.

3*d*. *Dog Law.* Sheep raising in Oklahoma is rapidly becoming one of our chief live stock industries, but it will not reach the maximum importance without the protection of a modern and comprehensive "Dog Law." The levying of a license tax is but a step in this direction, and yet an important one; and if placed high enough would serve to increase the state's revenue. I urge the enactment of a law patterned after that of Pennsylvania or West Virginia.

4*th*. *County Farm Agents.* No expenditure of public money brings greater returns than that spent by the various counties for farm agents and for work done under their direction. As the law now stands the counties desiring to take advantage of this modern aid are handicapped because of a prohibition limiting the expenditure to $1200.00, while no county is compelled to expend

anything. I have no special objection to the last provision, but surely if a progressive county desires to appropriate more than $1200.00 for this work, and there are many in the state that do, I can see no good reason why they should not be permitted to do so.

5th. Tuberculosis in Live Stock. The ravages of tuberculosis in live stock, especially in milk cows, has reached an alarming stage in this state, and further steps should be taken to strengthen existing laws in order to enable the Department of Agriculture to eradicate this disease. This should be done, not alone for the protection of the breeders, but also to prevent the spread of this menacing disease to the human race. The Federal Government stands ready to pay one-third of the loss occasioned by the slaughter of infected animals and the state should make suitable provisions to bear an equal amount of loss, leaving the owner of the animal to bear an equal loss with the state and Federal Government.

The present law is lame in this particular, and it is difficult of enforcement because of the lack of a provision thererin for compensation in case of slaughter of infected animals. I feel sure that a proper consideration of this suggestion, aided by data which the State Board of Agriculture is prepared to furnish, will result in the amendment of our law, thereby enabling the Department of Agriculture to successfully combat this great and growing evil.

6th. Additional Aid for Experiment Stations. I am advised that the Federal Government is expending each year in this state $15,000.00 from the Hatch fund and $15,000.00 from the Adams fund for work in experiment stations in this state, while Oklahoma is contributing but $5,0000.00 for such purpose. The total of the above amounts is expended under the joint direction of the Federal and State governments, and I feel that the state should appropriate a large amount in order to provide for localized experimentation, thereby permitting this work to be prosecuted with greater efficiency in experiments that would be of peculiar benefit to Oklahoma alone, instead of the whole amount being used for experiments of general interest, not only to Okla-

homa, but to neighboring states. Until we meet the Federal appropriation with a larger sum than that given in the past, the Federal idea, instead of the state, will dominate the expenditure of the fund. As evidence of gratitude and good faith I feel that we can afford to increase the appropriation for this highly commendable purpose.

7th. Oklahoma has a constitutional as well as a statutory requirement that "Agriculture," as a science, shall be taught in our public schools. This-wise provision of law cannot be properly complied with so long as the pupils of our schools are dependent upon text books written for states with latitude and longitude different from ours. In other words, we have no text books on this subject adapted to the peculiar needs and conditions of our state. Surely we have adequate talent in our A. & M. College to prepare and furnish our students with an up-to-date text book on Agriculture, suitable to our needs and conditions.

I recommend that the State Superintendent and the State Board of Education be authorized to cause such a text book to be prepared and placed on sale.

8th. Secondary Agricultural Schools. —Our secondary agricultural schools, as now organized, are failing in their purpose. I am of the opinion that they should be attached to the A. & M. College at Stillwater, and be operated under the direction and supervision of that institution. It is unfair to all concerned that they be continued in their present status. I recommend that the legislature by proper committee investigation give this matter careful consideration.

9th. Grain Warehouses and Inspection. —I urge a complete revision of Chapter 80, Revised Statutes 1910, covering the subject of Grain Warehouses and Inspection. The present law was enacted by the Territorial legislature in 1899 and needs modernizing. The subject of proper grain inspection is of vital importance to our farmers, and nothing but a complete revision of the law will suffice. The Department of Agriculture will gladly furnished data and valuable advice on the subject.

BUDGET LAW.

It needs no argument to convince any person that our present method of appropriating money for the maintenance of the various departments of government and the state institutions is not only cumbersome and unscientific, but in many instances extremely wasteful.

Frequently a very large portion of the time of the legislature is taken up in the considerations of appropriations and matters of legislation are slighted because of want of time. A workable and comprehensive "Budget Law" for the purpose of presenting to the legislature a reliable estimate on which to base appropriations should be enacted. The income of the state, less the fixed charges, should be the basis of the state's expenditures for the operating expenses, and the needs of the various departments and institutions can be more fairly and equitably measured by an impartial Board than by the present method. A law based on the Virginia and Wisconsin plan would prove of untold value not only in the saving of money and the time of the legislature, but would be of value in the introduction of scientific business methods in the handling of the financial affairs of the state, and would not infringe upon the proper and legitimate jurisdiction of the law-making branch of our government.

DEVELOPMENT OF OUR RESOURCES

The development of the natural resources of Oklahoma offers a most inviting field for the enterprise and industry of our citizens, and for the safe and profitable investment of capital; and, notwithstanding the wonderful strides already made in that direction, the work has just begun. To put this development on the plane of activity which the energy and enterprise of our people demand, and the richness of our mineral deposits and the importance of the industries made possible by an abundance of raw material warrants, we need very large amounts of outside capital. To induce additional capital to enter the state and find employment as a factor in the development of oil and gas fields and refineries; the promotion of mining and smelting of zinc and lead; the mining of coal and manufacture of coke; the exploitation of our granite, marble and other building stone, salt asphalt, gyp-

sum, deposits of less well known value, whose abundance and untold richness have been the theme of our most eloquent newspaper men and able geologists, we must offer the encouragement of fair and equitable treatment towards invested capital.

"I said in my platform that "unless additional capital can be made to feel secure and is guaranteed fair and just treatment, we need not expect that development which would otherwise be ours for the asking.

"The opening and developing of our great resources will bring to our state large numbers of intelligent men of high-wage earning capacity who will build homes and make markets for the farmers' products, and otherwise assist in the upbuilding of this commonwealth; and to me it seems a short-sighted and foolish policy to place obstacles in the way of these industries, especially in view of the untold benefits that would accrue to our citizenship, and the increased revenue to the state and the various municipalities."

What I said then, I want to accentuate now. The day has gone by in Oklahoma when capital can be baited and penalized, or organized labor or industry exploited. Rightly administered and backed by an intelligent public opinion, our laws should provide room and opportunity in Oklahoma for the investment of unlimited capital and the establishment of countless new industries that will add to the material wealth, the prosperity and happiness of our people. To vitalize and bring to full fruition the most effective policy and the needed legislation to secure results commensurate with the opportunities offered and the advantages possessed, must be one of the most urgent of the many duties that will devolve upon the executive and legislative branches of the state.

HOME OWNERSHIP.

The ownership of a home is the surest antidote for anarchy and its legitimate spawn, more familiarly known as I. W. W., bolshevik, and red card Socialism. The portals of the American home—no matter how humble it may be—are the sentinels guard-

ing the entrance into the holy of holies of patriotism and good citizenship, and the perfection of our Home Ownership Law by amendments that will extend its helpful provisions to the man of integrity and industry without money capital, should be made one of the foremost features of our program for re-adjustment and consctructive legislation. It is not a wise policy to remove the restrictions in the present law which govern the loaning and investment of the trust funds of the schools, but a fund should be provided out of which home ownership loans, of not to exceed $2500.00, can be made on the moral risk of a good, industrious character and the security of the land. If we are to accomplish all we should accomplish along this line the state must take some risk.

The present law requires that the prospective owner must have one-half of the purchase price of the land, or that he can borrow only one-half the value of the land, irrespective of improvements, and this conservative and iron-clad provision of the law has denied its advantages to the very class most in need of the state's fostering care. The 1917 amendments to this law reduced the rate of interest on the land to be sold to maintain the loan fund; to a point below the interest rate on government bonds, and at four per cent. Under present and prospective conditions there is neither a home nor a foreign demand for such securities. The successful operation of this law means much for the state, but it is more than a mere administrative or economic policy. Its practical and successful operation is of vital importance, not only those who take advantage of its provisions, but it should awaken and enlist the hearty support of every banker, land-owner, school teacher, and business man, for it is both a community and state builder.

PUBLIC HEALTH.

The matter of public health and the provisions for safeguarding the people of Oklahoma against disease and death should receive the most special and thorough consideration of the members of the legislature. The ravages of the recent terrible epidemic, which has takn toll of the lives of many of our citizens, has emphasized in an appalling way the inadequacy of

the resources available to our State Health Department, both as regards the size of the organization and the equipment at its disposal.

I recommend that you materially increase the appropriation for the use of the State Health Commissioner and the proper reorganization and enlargement of his staff to the end that he may be equipped at all times to protect the lives and health of our people.

In this connection, I would call your especial attention to the fact that Oklahoma is far behind many other states in dealing with the ravages of tuberculosis. This dread disease is claiming thousands of victims in our state, and many thousands of others are impoverished and almost helpless because of this disease. Many of the patients who are suffering from tuberculosis have reached that stage in their conditions where they are a constant menace and source of infection to members of their families, or other healthy persons with whom they are obliged to come in contact, and this causes the spread of the disease among those who would otherwise be sound and healthy citizens.

Many other states have been able to greatly reduce the death rate of their citizens from tuberculosis by the construction of sanatoria and hospitals in which the afflicted ones may be assisted to a permanent cure, or, in any event, may be cared for in comfort and without endangering the health of other persons. I therefore urge you to enact such legislation as will provide for the construction and maintenance of sufficient and proper sanatoria to enable the health authorities to successfully combat the growing ravages of this disease.

I would also recommend that you provide a special Bureau of Tuberculosis, in charge of an expert on that subject, who shall be under the authority and direction of the State Health Commissioner.

In this connection, I desire to call your attention to the splendid work, during the past year, by the health authorities of the

state in connection with the Federal Government in the matter of combatting the ill effects of the so-called social evil, or in other words, veneral diseases. The prevalence of this trouble, as disclosed by the records of the army, came as a distinct shock to the average American citizen, and the danger to civilization cannot be over-estimated.

The publicity program as adopted by the Federal and State Authorities has proved of untold benefit, and should be continued, especially as an educational factor in the solution of this vexatious problem. Our present laws are inadequate, and I trust they will be strengthened, and I urge the adoption of the model laws prepared by the Federal Government, because they seem not only comprehensive, but also because they tend to uniformity in legislative enactments, which, in this case, is of very great importance.

While under the heading of public health, I desire to call your attention to the very wide-spread growth of sentiment relating to physical inspection in our public schools; also to the desirability of requiring all teachers in our schools, and all persons handling food and drink for the public to have health certificates before entering upon the discharge of their duties.

CONFEDERATE PENSIONS.

I urge such appropriation as may be necessary to meet the requirements of the Confederate Pension Law, and trust you will treat these old heroes with that generosity for which Oklahoma is celebrated.

I also recommend, for the more efficient administration of the Pension Law, that it be taken from the office of Commissioner of Charities and Corrections and placed in a Bureau by itself, under the direction of a Commissioner of Pensions who can devote his entire time to the work. The present Board should be retained to aid the Commissioner. The present Commissioner of Charities and Corrections (who is a Confederate soldier) recommends this change, and it seems to be the wish of all concerned, and I feel that such change would be for the benefit of all.

In the nature of things, these old heroes will not be with us long, and I am sure that all Oklahomans are glad of the opportunity to honor and care for them in their declining years.

BLUE SKY LAW

The rapid development of our natural resources has given opportunity for the organization of many purely "wild cat" stock selling corporations which are detrimental to honest business endeavors. Their purported object and purpose is all to frequently impossible of attainment, and, as a result, many millions of dollars are being taken from our people without hope or possibility of return. This subject is one of general concern, and you have all, doubtless, had experience along this line, at least by observation if not otherwise, and must realize the necessity of some legislative relief that will curb this growing evil, without interfering with legitimate promotion and development.

STATE AND COUNTY COUNCILS OF DEFENSE.

The great war brought into existence many new agencies to aid and assist the government. One of these was the Council of Defense, which we all rercognize as having been indispensable.

The war is practically over, and as a natural result the Federal agencies will return to normal, and many of the duties that have been performed by and under the direction of the Federal Government will either laps and die, or be taken up by the state alone. While the war has ended, we must not forget that there are in this great country of ours many dangerous agencies that have been compelled to be and remain dormant, but which, at the first opportunity, will become active and dangerous again. It is up to the state to be prepared to meet any emergency that may arise, and I can think of no movement or effort that will serve the state in this connection so well as the state and county Councils of Defense. If the legislature is of this opinion, it will be necessary to give consideration to some law on the subject looking to the recreation and jurisdiction of such agency. I would not advise any law authorizing the creation of debts or the expenditure of money, but authority should be given to enable patriotic volunteers to act with authority in case of emergencies that may arise.

SOLDIERS' MONUMENT.

There is a universal demand, throughout the state and nation, that we take some steps showing our appreciation of the sacrifices made by our brave soldier and sailor boys in the recent great world war. With that sentiment I am in hearty accord, and I beg to suggest that any monument or memorial for which we shall provide should be such only as is prompted by a proper reverence and for sacred and hallowed memories of those patriotic efforts which were so freely made, without the thought of monetary recompense. To my mind any monument or memorial based entirely, or even largely, on its utilitarian purpose would be unsatisfactory to us, or to those for whom it was designed.

Let it be a real memorial, and not tinctured with commercialism. Let us be in a position to say "We erected this because we wanted to do so, not because we needed it as a utility."

I therefore recommend a generous appropriation for the purpose of building a memorial for our soldiers and sailors on state or public ground, at or near the capitol.

WOMEN VOTERS.

The people, at the recent general election, conferred, by constitutional amendment, full rights of suffrage on women on equal terms with men. It is our duty to fully and properly vitalize this constitutional provision by proper and necessary statutory enactments, to the end that this new privilege may be completely exercised.

The foregoing are but a few of the most important subjects to which I desire to call your attention at this time. I shall, in the near future, take the liberty of submitting for your further consideration additional matters that press for attention. But I most earnestly urge upon you, gentlemen, the supreme importance of early action and disposition of the good roads measure, for if the purposed improvement is ratified by the people our general road law, which in no event should be repealed, would require amendments along certain lines; on the contrary, if it should be rejected, then a wholly different line of amendments would be needed. It needs hardly to be suggested that the Governor, and

all other heads of departments, stand ready and anxious to render you every possible aid in the performance of what we all know to be arduous and onerous duties. Feel free to call upon any officer of the executive branch of the government for assistance.

With all good wishes for a successful and harmonious session, I have, sirs, the honor to subscribe myself, your obedient and humble servant.

J. B. A. ROBERTSON,
Governor.

Mr. Romine moved that the Governor's message be spread upon the Journals of both Houses, which motion was duly seconded and carried.

On motion of Senator Cartwright, the joint session dissolved.

Following the joint session the Senate reconvened in the Senate chamber.

Senator Clark asked to be excused for the balance of this Legislative day.

Senator Hall asked to be excused for a few days.

Senator Simpson submitted the following committee report:

Mr. President:

We, your Committee on Committees, beg leave to make the following report:

We recommend and submit herewith as the standing committees of the Senate the following members of the Senate as the personnel thereof, to-wit:

Very respectfully submitted,

SIMPSON, Chairman.

Senator Simpson moved that the committee report be adopted.

The motion was seconded by Senator Snyder and carried.

Senator Vaughan moved that the Journal clerk be instructed to have five hundred copies of the Governor's message printed.

The motion was duly seconded and carried.

Senator Thomas moved that the Committee on Senate and Legislative Affairs be requested to take under consideration the matter of providing means whereby the number and salaries of employees of the Senate may be legally fixed and determined so

that the employees may receive their per diem without delay.

The motion was seconded by Senator Wilson and carried.

Senator Thomas moved that the same committee be requested to prepare a bill providing the number and names of the different employees of the Senate and their salaries, so that the Senate may not be confronted with the same situation when it convenes two years hence.

Senator McAlister seconded the motion and the same carried.

Senator Thomas asked unanimous consent to consider House Bill No. 1.

Senator Snyder seconded the motion and the same carried.

Senator Thomas moved that the rules be suspended and House Bill No. 1 considered engrossed, placed on third reading and final passage.

Senator Snyder seconded the motion and the same carried.

House Bill No. 1, by Harrison.—An Act making appropriation to pay the mileage and per diem of members of the House of Representatives and Senate, etc., and declaring an emergency, was read the third time at length.

The question being, "Shall the bill pass?" the roll was called with the following result:

Ayes: Board, Brown, Carpenter, Cartwright, Clark, Cordell, Coyne, Davidson, Dearmon, Draughon, Fleming, Golobie, Hall, Harrison, Hensley, Hill, Hogg, Ingraham, Johnson, Kerr, Knie, Leach, Lynch, Mayfield, McAlister, McIntosh, Morton, Pugh, Rider, Simpson, Snyder, Spurlock, Thomas, Tucker, Vaughan, Watrous, Wilson, Woods. Total, 38.

Nays: None.

Absent: Sherman, Smith, Wallace. Total, 3.

Excused: Knight, Briggs, Testerman. Total, 3.

The bill having received a constitutional majority of the votes of all members elected to and constituting the Senate, was declared passed.

The question being "Shall the bill become an emergency measure?" the roll was called with the following result:

Ayes: Board, Brown, Carpenter, Cartwright, Clark, Cordell, Coyne, Davidson, Dearmon, Draughon, Fleming, Golobie, Hall, Harrison, Hensley, Hill, Hogg, Ingraham, Johnson, Kerr, Knie, Leach, Lynch, Mayfield, McAlister, McIntosh, Morton, Pugh, Rider, Simpson, Snyder, Spurlock, Thomas, Tucker, Vaughan, Watrous, Wilson, Woods. Total, 38.

Nays: None.

Absent: Sherman, Smith, Wallace. Total, 3.

Excused: Knight, Briggs, Testerman. Total, 3.

The emergency having received a two-thirds vote of all members elected to and constituting the Senate, was declared passed.

The President Pro Tempore signed Engrossed House Bill No. 1, by Harrison, in open session, and ordered the same transmitted to the House.

Senator Snyder moved that the Committee on Printing be instructed to have printed two thousand letterheads and envelopes to accompany them, for the use of each Senator.

The motion was seconded by Senator Wilson and carried.

Senator Fleming moved that the Committee on Printing be instructed to have printed three small envelopes to each large one, under this apportionment.

The same was duly seconded and carried.

Senator Vaughan moved that the chair appoint a committee of three to meet with a like committee from the Honorable House to submit, after a conference with the Governor, a program for the Legislature in accordance with his message.

The same was duly seconded and carried, and the chair appointed Senators Hill, Board and Vaughan, as such committee.

Senator McAlister moved that the President Pro Tempore be added as a member of the committee.

Senator Hall seconded the motion and the same carried.

Senator Hall asked to be excused for a few days.

Senator Snyder moved that the Senate adjourn under the rules.

The motion was duly seconded and carried.

SENATE JOURNAL

OF THE

REGULAR SESSION OF THE SEVENTH LEGISLATURE.

EIGHTH DAY'S SESSION.

Wednesday, January 15th, 1919.

The Senate convened at 1:30 p. m. pursuant to adjournment and was called to order by the President Pro Tempore.

On roll call the following Senators were present: Board, Brown, Carpenter, Cartwright, Clark, Cordell, Coyne, Davidson, Dearmon, Draughon, Fleming, Golobie, Harrison, Hensley, Hill, Hogg, Ingraham, Johnson, Kerr, Knie, Knight, Leach, Lynch, Mayfield, McAlister, McIntosh, Morton, Pugh, Rider, Sherman, Simpson, Smith, Snyder, Spurlock, Thomas, Tucker, Vaughan, Watrous, Wilson, Woods. Total, 40.

Absent: Wallace. Total, 1.

Excused: Hall, Briggs, Testerman. Total, 3.

Quorum present.

Prayer by the Chaplain.

Senator Wallace was excused on account of sickness of his family.

A message was received from the Honorable House transmitting House Bill No. 2, by Cheatham and Morgan; House Bill No. 3, by Cheatham and Morgan; House Bill No. 4, by Cheatham and Morgan, and House Bill No. 7, by Cheatham and Morgan, with the information that said bills had passed the House and were signed by the Speaker, in open session, which bills were read the first time in the Senate.

Senator Simpson asked unanimous consent to have the name of Senator Clark added to the Committee on Education.

A message was received from the Governor.

Senator Johnson asked unanimous consent to introduce the following resolution:

SENATE CONCURRENT RESOLUTION NO. 4.

By Johnson of the Senate and Hodges of the House.

Whereas: The Honorable W. G. McAdoo, formerly United States Director General of Railways, has invited and urged all persons having grievances against the Federal Railway Service to present their grievance for correction, and,

Whereas: Through the recent annulment of different passenger and freight trains at Okmulgee and other points on the St. Louis and San Francisco Railway in Oklahoma, the present train service is totally inadequate and inefficient and by reason of such poor and inefficient train service our passenger trains are crowded to the doors, passengers being compelled to stand in the aisle and on the platforms of moving trains. The train schedule as operated now is equally bad if not worse than the accommodations. Of trains entering Okmulgee from the south, there are no passenger trains from eight o'clock p. m. to four o'clock p. m. the next day, a break of twenty-four hours in passenger service. Local freight is delayed for weeks at a time and commerce and transportation between the active and growing cities on this railroad system has been most seriously interfered with and in some cases destroyed. Freight is damaged in transit and honest claims for such damages held up and delayed for months or totally ignored.

The railroad stations and depots are in a dirty and unsanitary condition and the general conditions in the operation of this rail-

road has deteriorated and is daily growing worse. And this wretched condition of transportation has followed an increase of thiry-three and one-third per cent in passenger rates and a great and in some cases unjust increase in freight charges in this State. Our city commercial bodies and Board of Trade have applied in vain for a redress of these conditions. Being met in some cases with the excuse that "Uncle Sam is running the railroads," and,

Whereas: The great war is now over, during which Oklahoma has cheerfully borne her share of the burden, both in the heroic service of her Sons and contribution of money and sacrifice of comfort and convenience, but with the dawn of peace we respectfully ask that the condition of train service and accommodations that prevailed before the war be restored, that the growing cities and communities of our State be again permitted to work out their destiny untrammeled by long range regulations that either cannot or will not recognize the needs required in the growth and development of our State;

Therefore, Be It Resolved By the Senate of the State of Oklahoma, the House of Representatives concurring therein: That our United States Senators and Members of the United States House of Representatives from Oklahoma are hereby memorialized and respectfully requested to present a copy of these rsolutions to th Senate and House of Representatives of the United Stats and also file a copy with the Director General of Railways at Washington, and

Be It Further Resolved: That the Chief Clerk of the Senate is hereby directed to transmit a copy of this concurrent resolution to each of the Oklahoma United States Senators and Representatives at Washington as soon as the same has been adopted by the Senate and House of Representatives of the State of Oklahoma.

Senator Johnson moved the adoption of the resolution.

The motion was seconded by Senator Coyne, and on vote being taken, the Resolution was adopted.

Senator Coyne presented the petition of Frank Thornton, of Sapulpa, Oklahoma, Legislative Committeeman of the Brotherhood of Locomotive Engineers to appear before Senate Committees.

Senator Coyne moved that the permit be granted, which motion was duly seconded and carried.

BILLS ON FIRST READING.

The following bills were introduced and read for the first time:

Senate Bill No. 39, by Thomas.—An Act supplemental to and amendatory of Article IX, Chapter 65, Revised Laws of Oklahoma, 1910, relating to uses and trusts and declaring an emergency.

Senate Bill No. 40, by Thomas, Mayfield and Hogg.—A Bill to be entitled an Act defining the power and duties of the Commissioner of Charities and Corrections, providing for necessary assistant and stenographer, and for necessary traveling and contingent expenses to put in operation and maintain the office of said Commissioner of Charities and Corrections, and declaring an emergency.

Senate Bill No. 41, by Wilson.—An Act making an appropriation for the maintenance of the Oklahoma State Reformatory for the period ending June 30th, 1919, the same being a deficiency, and declaring an emergency.

Senate Bill No. 42, by Hogg.—A Bill entitled an Act fixing the compensation of election officers, repealing Chapter 156, Session Laws of 1917, and declaring an emergency.

Senate Bill No. 43, by Hill.—An Act requiring physicians or other persons to report veneral diseases and providing for protection from infection therefrom.

Senate Bill No. 44, by Hill.—An Act making it unlawful to solicit and transport for immoral purposes and providing a penalty, and declaring an emergency.

Senate Bill No. 45, by Hill.—An Act defining prostitution, making it an offense and providing penalty therefor; and declaring an emergency.

Senate Bill No. 46, by Hill.—An Act making it unlawful to advertise venereal diseases and fixing penalty therefor.

Senate Bill No. 47, by Hill.—An Act to establish a State Institution for delinquent women to be known as the Oklahoma Industrial Home for Women and to provide for its government and maintenance and to make an appropriation therefor, and declaring an emergency.

Senate Bill No. 48, by Hill.—An Act prohibiting the erection or use of a building or premises for the purpose of lewdness, assignation or prostitution, declaring same to be a nuisance, and providing a remedy by action to enjoin.

Senate Bill No. 49, by Smith of the Senate and Mabon of the House.—An Act defining the twenty-third judicial district of Oklahoma, and assigning a Judge thereto; creating a new district out of Ottawa County to be known as Judicial District Number twenty-eight, and providing for the appointment of a Judge therefor, and fixing the terms of Court therein; and declaring an emergency.

SECOND READING.

The following bills were read for the second time and referred to the various standing committees:

Senate Bill No. 31, by Snyder.—A bill authorizing the Governor, Attorney General and State Board of Affairs, to acquire title to a tract of land adjacent to Lincoln Boulevard for a Capitol Monument Park, making certain state lands available for creating a fund to purchase or to exchange for said tract of land, providing for the improvement, use, custody and maintenance. Committee on State and County Affairs.

Senate Bill No. 32, by Snyder.—An Act requiring State, county and precinct election boards to determine, record and certify the total number of votes cast at each election held throughout the State and making such returns conclusive as to such total number of votes. Committee on Privileges and Elections.

Senate Bill No. 33, by Vaughan.—An Act amending Chapter 243 of the Session Laws of 1917, relating to the transfer of children from one district to another. Committee on Education.

Senate Bill No. 34, by Spurlock.—An Act relating to oil and gas leases. Committee on Oil and Gas.

Senate Bill No. 35, by Spurlock.—An Act amending Section 7923, relating to teachers certificates. Committee on Education.

Senate Bill No. 36, by Hill.—An Act amending Sections 2 and 3 of Article 1, Sections 3, 4, 6, 8 and 10 of Article 2, Section 1 of Article 3 and Section 10 of Article 5, of House Bill No. 106, Session Laws of 1915, An Act providing for the compulsory compensation of injured employees in hazardous industries plac-

ing the provisions of the act under a commission herein created. Committee on Commerce and Labor.

Senate Bill No. 37, by Hill and Cordell.—An Act amending Chapter 210, Session Laws, 1917, being an act entitled 'An Act providing for a pension for disabled and indigent Confederate soldiers, sailors and their widows,' providing how such pension shall be granted, etc., and declaring an emergency. Committee on Judiciary No. 1.

Senate Bill No. 38, by Snyder.—An Act making certain persons ineligible to the nomination or election for State officers; denying the right to receive contributions for primary nominations and elections proper, etc. Committee on Privileges and Elections.

House Bil No. 20, by Henry.—A Bill extending the time of payment to all taxes due November 1st, 1918, and declaring an emergency. Committee on Revenue and Taxation.

Senator Hill asked unanimous consent to have the name of Senator Wallace added to Senate Bill No. 37. There being no objection, the name of Senator Wallace was so added.

Senator Thomas moved that the practice heretofore followed of apportioning the appropriation between the Senate and House of Representatives for the purpose of preparing the bills for same, be followed.

The motion was duly seconded and carried.

Senator Morton asked to be excused for the remainder of this legislative day.

Senator Johnson submitted the following committee report:

Oklahoma City, Okla., January 15, 1919.

Mr. President:

We, your Committee on Fees and Salaries, to whom was referred Senate Bill No. 27, by Kerr, a bill entitled: "An Act providing for the necessary clerical and stenographic assistance in the office of the Governor, fixing and providing for the compensation of such assistants, making an appropriation therefor, repealing Chapter 223 of the Session Laws of Oklahoma, 1913, and declaring an emergency," beg leave to report that we had

the same under consideration and herewith return the same with the recommendation that it do pass, as amended.

The amendments are as follows:

First—That the words "Governor," "clerical force in office," "appropriations" at the top of the bill be stricken out.

Second—That the caption of said bill be amended to read as follows: A bill entitled 'An Act providing for the necessary clerical and stnographic assistance in the office of Governor, fixing the compensation of such assistants, repealing Chapter 223 of the Session Laws of Oklahoma of 1913, and declaring an emergency."

S. L. JOHNSON,
Chairman.

Senator Johnson moved the adoption of the report.

The motion was seconded by Senator Board and carried.

On motion of Senator Johnson, Senate Bill No. 27 was advanced to engrossment and third reading.

Senator Johnson moved that the rules be suspended and Senate Bill No. 27 considered engrossed, placed on third reading and final passage.

The motion was duly seconded by Senator Kerr and carried.

Senate Bill No. 27, by Kerr.—"An Act providing for the necessary clerical and stenographic assistance in the office of Governor; fixing and providing for the compensation of such assistants, making an appropriation therefor, repealing Chapter 223, Session Laws of Oklahoma of 1913, and declaring an emergency," was read the third time at length.

The question being, "Shall the bill pass?" the roll was called with the following result:

Ayes: Board, Brown, Carpenter, Cartwright, Clark, Cordell, Coyne, Davidson, Dearmon, Fleming, Golobie, Harrison, Hensley, Hill, Hogg, ingraham, Johnson, Kerr, Knie, Knight, Lynch, Mayfield, McAlister, Pugh, Rider, Sherman, Simpson, Smith, Snyder, Spurlock, Vaughan, Watrous, Wilson, Woods. Total, 34.

Nays: Draughon, McIntosh, Thomas, Tucker. Total, 4.

Absent: Leach. Total, 1.

Excused: Hall, Morton, Wallace, Briggs, Testerman. Total, 5.

The bill having received a majority of the votes of all the members elected to and constituting the Senate, was declared passed.

The question being, "Shall the bill become an emergency measure?" the roll was called with the following result:

Ayes: Board, Brown, Carpenter, Cartwright, Clark, Cordell, Coyne, Davidson, Dearmon, Fleming, Golobie, Harrison, Hensley, Hill, Hogg, ingraham, Johnson, Kerr, Knie, Knight, Lynch, Mayfield, McAlister, Pugh, Rider, Sherman, Simpson, Smith, Snyder, Spurlock, Vaughan, Watrous, Wilson, Woods. On motion of Senator Thomas, the Resolution was adopted.

The President Pro Tempore signed Engrossed House Concurrent Resolution No. 5, by Harrison, in open session, and ordered the same returned to the Honorable House.

The following Message was received from the Governor; and referred to the Committee on Agriculture for consideration:

January 17th, 1919.

To the President and Members of the Senate:

Gentlemen:—The Federal Government last year guaranteed to the wheat growers of the nation a minimum price of $2.20 a bu. and urged upon the farmers the necessity of a large increase in acreage. The farmers were loyal to their country and responded to this request and have increased their acreage to a very large degree. The prospects of a good crop at this time are flattering indeed, and the wheat growers are becoming restless as to the intention of the Government with reference to the guarantee of the minimum price, as fixed by the President.

I am fearful that with the close of the war and the lifting of the embargo on shipping, and the availability of the Australian and Argentine wheat crops, that the speculative market price will be less than that guaranteed by the Government and it becomes our duty, while we have ample time, to take every step that may be necessary to enable the Government to keep in faith with the wheat growers and to that end, I suggest that your honorable body, by resolution or otherwise, call the attention of the Congress of the United States to the importance of making such appropriation as may be necessary to guarantee the established price of $2.20 a bushel to the farmers for this year's wheat crop.

May I not ask your earnest consideration of this subject?

Respectfully,

J. B. A. ROBERTSON,

Governor.

The following message was received from the Governor and referred to the Committee on Appropriations for consideration:

January 17th, 1919.

To the President and Members of the Senate:

Gentlemen:—Upon the members of the Senate and House of Representatives devolved primarily the duty of making appropriations for all our State institutions, as well as to enact the necessary legislation under which they operate. I realize the fact that in making these appropriations, and in the enactment of legislation for their proper maintenance, you must be guided to a large degree by the president and superintendent of these various institutions and the State Board of Affairs, Governor and other heads of departments, yet these duties, after all, must be discharged by you and I take this opportunity of asking you to make some arrangement whereby your honorable bodies can obtain as much first hand information as your time and opportunity will warrant. I know the liklihood of criticism by the uninformed on junketing trips and feel that perhaps that may have been one of the reasons why personal visitation to these institutions have not been more generally made in the past, but I desire at this time to say to you that I am personally willing to assume all responsibility and all criticism that may come from visits to these institutions, because I am sure the benefit derived will greatly exceed the small expense that may be incurred. I desire especially that this body as a whole investigate, by personally visiting, the State University, the A. & M. College and the Oklahoma College for Women, simply to enable you to gain the necessary information that will enable you to give the institutions the best consideration.

It is needless to say that I should like, if it were possible, for the entire membership to visit every other institution in the State, but I do not suppose this is possible; however, I do think that you could appoint committees to act with like committees of the House of Representatives that can find time to make a personal inspection of every institution in the State. I might, by way of suggestion, say that an adjournment at some convenient time for two or three days would permit a large number of these committees to make this inspection at the same time and a subsequent adjournment for an equal length of time would permit them to make inspection of the other institutions.

I have no other purpose in mind than that of enabling you to obtain first hand information from an unprejudiced standpoint. I think it is understood by everybody that we desire to extend to

these institutions all the assistance possible in order to make them successful in their sphere and I am sure the little expense that may be necessarily incurred will be money well spent in behalf, not only of the institutions themselves, but the tax payers of the State generally.

I suggest again that the people of the State are depending upon us to transact their business in an economical manner, and this is the only motive that prompts the above suggestion. Inasmuch as this is State business in which all the people are interested, I have no hesitancy in recommending that the actual expense incurred be paid as other legislative expenses and if there should be any criticisms along that line I am willing to assume them.

Respectfully,

J. B. A. ROBERTSON,
Governor.

Senator Smith moved that the portion of the address of Mr. Wheeler, submitted by the Committee on Military Affairs, be printed in today's Journal, which motion was duly seconded and carried.

"Mr. President, Gentlemen of the Senate:

"The plant of the Department of the Interior to establish farms and rural homes in colonies for soldiers, sailors and marines, honorably discharged from the United States forces, not only provides immediate employment of skilled labor and all kinds of man power, but will be the means of having thousands of men prove to be successful tillers of the soil who otherwise would never even think of settling down to the safest and surest business in existence.

"The states desiring to participate in the soldier settlement movement must be able to go the Federal Government with the land for settlement. The Government will not purchase lands for these settlements under any condition, but will only undertake the development of land which the states provide. The states will be expected to make a contract with the Secretary of the Interior and enter into partnership with the Government in the general scheme. To put the proposition in a few words, the states furnish the land and the Federal Government furnishes the funds to do all necessary reclamation work, fence the land, build the roads, build all necessary farm buildings and community buildings, remove all stumps and prepare the land for general cultivation. While the Government owns vast tracts of lands, practically all of it is in the west, and it would require vast expenditure of money and work to put it into shape for agricultural purposes, much of it being useless for this purpose unless irrigation was provided. It is the general opinion that the south offers by far the best opportunity for the success of the plan, because in this section so much fertile land could be secured at prices far below those in other sections of the country.

"There are a number of areas of the finest kind of agricultural land in your good State, which are available and are particularly adapted to this soldier settlement plan. You have some areas that may need drainage, some other reclamation work, and

others require the removal of stumps, but some tracts require little or no work before cultivation.

"You can play the game as big as you want to. It all depends on the number of soldier settlers you wish to bring into Oklahoma. Fifty acres per man is fairly good, with such lands as you have in several sections of this State, and plats of ten thousand acres and up will be considered.

"The bill now before you provides for a soldier settlement board, which board will in co-operation with the Department of the Interior, manage and adminster the soldier settlement in this State.

"The building of the communities and the farms would not only give employment to agriculturists, as for every three men engaged in the tilling of the soil, there would be one man engaged in some other work. Skilled mechanics would be needed for garages and blacksmith shops. Stores and other industries flourish in such communities and require clerks and other help.

"Within eight months after Congress acts favorably on legislation which Secretary Lane has submitted, a land settlement in each of the states furnishing the land should be under way, and five thousand farmer soldiers employed on each project. There is no doubt but what the Government will provide the funds and that a large acreage will be ready for the soldiers to begin development by March of this year. Quick action is being taken on this soldier settlement proposition all along the line in order that employment might be furnished a large number of soldiers immediately upon their discharge from the army, and likewise sailors when discharged from the navy. The soldiers and sailors will be paid a good rate of wage and the work will not be conducted under military supervision, as the soldiers and sailors employed on the work will have been discharged and will work as civilians.

"Returning soldiers will, no doubt, refuse to return to farms simply as farm laborers, but they will want the chance, by frugality and work, to obtain their own farms. They went into this war as boys and they come out men, and they have views of men and they are good views. There is no danger of too much land being offered as it is estimated that ten per cent of the men in the several branches of the service will want to own farms in the soldier settlements. This means that about four hundred

thousand men are ready to seize this opportunity, and proves that there will be more men than land offered.

"The communities to be created would be vastly different from the rural communities with which we are familiar. The Federal Government will construct with soldier mechanics and labor modern school buildings and houses of worship. Each community will have its buildings for amusement and instruction. This building will provide a hall of suitable size for moving picture exhibits and also will be used as a place of assembly for lectures on agriculture and other subjects of community interest. In this building all soldier settlers will meet and discuss their plans and exchange ideas. If the returning soldier who has a little capital is to be given an opportunity to enjoy in its best form the independent, wholesome, satisfying life of the open country, some way must be found for giving him the necessary aid and direction and this can only be done through a planned community development. This is the conclusion of all the countries which have the most experience and have given the most study to this subject. England, Australia, New Zealand and even France, are making generous but carefully thought-out provisions for communities of soldier settlements. In the place of unsocial, unprogressive, rural neighborhoods, we want the kind of organized rural life which these young soldiers who have had their outlook enlarged and their love of land strengthened by what they have seen in France and England would want.

"The plan of Secretary Lane provides that after the farms have been made all ready; the land prepared for cultivation, fencing completed, necessary buildings erected and the farm equipped with necessary tools, machinery and stock, the soldier can take possession of a farm by making a cash payment of ten per cent of the purchase price. He buys the farm direct from the State Soldier Settlement Board, thereby eliminating the land speculator and real estate dealer and he has forty years to complete the payment of the amount yet due for the land; twenty years to finish paying for the permanent improvements, such as the fences and the buildings on his farm and five years to make the final payment on his farm machinery and tools and his horses, mules, or other stock which has been furnished him by the Government. He is to pay four per cent interest on the unpaid balances of the purchase price, but has the right to at any maturity date wipe out the entire indebtedness.

"You can see by this that in forty years at the outside the State has its entire investment returned, plus four per cent in-

terest and the Federal Government will have received all its invested funds plus four per cent, and the soldier has a real farm and growing business and is entirely out of debt.

"This is a plan that is built along real practical business lines and every detail has been so well worked out that it positively cannot help but work out perfectly. The soldier settler will have the constant help of the State Board of Agriculture which offers wonderful opportunities as well as the assistance of the Federal Department of Agriculture.

"The building of houses and farm structures, the fencing of the land, road construction and the reclamation work will require the expenditure of a large sum of Federal funds appropriated for that work. The congressional bill which is now before the national assembly and which bill was introduced by Senator Myers of Montana, chairman of the Senate Committee on Public Lands and Congressman Ferris of Oklahoma, Chairman of the House Committee on Public Lands, reads as follows:

"'Be It Enacted By the Senate and House of Representatives of the United States of America in Congress Assembled. That there is hereby appropriated out of any money in the treasury not otherwise appropriated, to be immediately available and to remain available until expended, the sum of $100,000,000, to be expended under the direction of the secretary of the interior, for the investigation, irrigation, drainage and development of swamp, arid, waste and undeveloped lands for the purpose of providing employment and farms with improvements and equipment for honorably discharged soldiers, sailors and marines of the United States, including necessary expenditures for personal services in the District of Columbia and elsewhere and the purchase, maintenance, hire and operation of motor-propelled or horse-drawn vehicles. The lands reclaimed hereunder shall be disposed of, under general regulations approved by the Secretary of the Interior in such manner and under such terms and conditions as shall insure the reimbursement of the investment of the United States or others therein during a term not exceeding 40 years from date of entrance upon the land by the settler, together with interest from such date at four per centum per annum. The money herein appropriated shall be expended in the development of one or more projects in each of the several states, if feasible projects be found therein.

"The Secretary of the Interior is authorized to make any contracts or arrangements and to do any or all acts necessary in his

opinion, including the disposition of public land, the acquisition of lands or property needed for rights of way or other purposes in connection with the development of any project by purchase or condemnation for carrying out the purposes hereof.'

"Each state in the south should provide a minimum of one hundred thousand acres on which at least five thousand soldiers will be placed. Texas has offered four million acres of land from which three hundred thousand have been chosen; Louisiana has offered three million, from which one hundred and twenty-five thousands have been chosen; Mississippi has furnished one million. The land in that State has not yet been decided upon. Arkansas has offered two million with two hundred fifty thousand being chosen and Tennessee has offered three hundred fifty thousand from which one hundred thousand have been chosen.

"This land and the lands of Oklahoma will produce as fine crops as can be produced in the south and the soldiers will assist in clearing the land, not as soldiers, but as prospective farmers, pioneering their way into the forests.

"I thank you, gentlemen, for the privilege of addressing you this afternoon."

Senator Thomas introduced Senate Resolution No. 7, by Thomas, which Resolution was read at length and adopted as follows:

SENATE RESOLUTION No. 7.

By Thomas.

To the Honorable Senators and Representatives of the State of Oklahoma in Joint Session Assembled, January, 1919.

PETITION.

We, the undersigned committee, duly appointed for the State Society of the Sons of the American Revolution, petition your Honorable Body as follows:

Whereas; At a State meeting of the said State Society held February 23, 1918, at the State Capitol, it was unanimously resolved that a ptition be presented to the next Legislature ask-

ing your honorable body to authorize the erection of a suitable monument to the memory of the fallen heroes of Oklahoma who gave their lives to their country in the great world war, and,

Whereas, The blood of our gallant sons has been gallantly shed on the battle fields of Europe that you and I might live in peace and honor, and our mothers, wives and daughters saved from the polluting touch of the beastly HUN, it is deemed proper that the names of the dead heroes already traced in letters of blood should be handed down to posterity written in tablets of stone that the generations to come may know who made the supreme altruistic sacrifice in the war for human liberty, that we might have "freedom for all forever," and,

Whereas, The Sons of Oklahoma in the war service of the Nation, living and dead, veritable crusaders against the ramparts of brutality and oppression, have made heroic history for the State of Oklahoma and put the name of our commonwealth on the world roll of glory, and,

Whereas, Our debt to the glorified dead can never be measured in a material way, we petition that their names be preserved to posterity and inscribed on a monument to be erected on the grounds of the State Capitol and that all suitable steps be taken to promptly forward such action on your part, such as the separate resolution addressed to Congress requesting the gift to the State of at least two pieces of captured German ordnance of the large size to be placed at either side of the proposed granite monument.

Letter from the Adjutant General, U. S. A., is herewith appended and made a part of the foregoing memorial and petition.

And your petitioners will ever pray.

SIGNED AND EXECUTED by the Committee duly authorized and appointed this 5th day of January, 1919.

E. G. SPILLMAN, President.
D. R. LUTTRELL,
L. HAYNES BUXTON,
R. P. CARPENTER,
A. N. LEECRAFT,
Committee.

The Adjutant General's Office.

Washington.

December 12, 1918.

Mr. E. G. Spilman, President,

Oklahoma Society, Sons of the American Revolution,

Oklahoma City, Oklahoma.

Dear Sir:

I am directed by the Secretary of War to acknowledge the receipt of your letter of recent date, relative to securing two captured German cannon to place at the foot of a monument to be erected on the Capitol grounds, as a tribute to the fallen heroes of Oklahoma, and in response to advise you as follows:

Only a small quantity of captured war material has thus far been received in this country, and the question of its distribution has not yet been determined. This is a matter for Congress, and it is believed not too much to say that doubtless steps will be taken when a larger quantity shall have been received from overseas, looking towards compliance with requests such as is contained in your letter, and many of which are being received by the Department. The patriotic motives which prompt these requests are appreciated.

Your letter has been referred to the Chief of Ordnance, to whose office the matter pertains, for further consideration when the policy of the Government with respect to the disposition of captured ordnance shall have been adopted.

Very sincerely yours,

J. Q. ASHBURN,

Adjutant General.

SENATE CONCURRENT RESOLUTION No. 14.

By McAlister of the Senate and Stovall of the House.

A Resolution Memoralizing Congress to Pass An Act Denying to the Postmaster General or any Other Federal Official or Agency the Right to Fix or Promulgate Rates or Practices for Telephones Companies on Interstate Business.

Whereas, The Postmaster General of the United States is now presuming to exercise jurisdiction in the matter of fixing telephone rates within the State of Oklahoma, on intrastate business, and prescribing charges and practices for telephone service within the State of Oklahoma; and,

Whereas, The Postmaster General did, at midnight on the 21st day of January, 1919, cause to go into effect rates and practices for toll or long distance business within the State of Oklahoma, different from and higher than those heretofore in effect within the State of Oklahoma; and

Whereas, The rates heretofore put in effect for installing telephones within the State of Oklahoma by the Postmaster General, and the rates and practiced installed and put in effect on the

said 21st day of January, 1919, have been and are now unreasonable, unjust, and in violation of the rights reserved to the states by the Constitution of the United States; and

Whereas, The history of federal regulation during territorial days shows the fallacy of attempting to regulate Oklahoma internal affairs by long distance government; and

Whereas, The State of Oklahoma has provided adequate regulatory laws and has created properly constituted and sufficiently powerful regulative bodies for the controlling of telephones and other utilities within the State of Oklahoma; and

Whereas, The welfare of the people of the State of Oklahoma demands that all federal control over telephone companies, so far as intrastate business and rates and practices relative thereto are concerned, shall be released by the federal government and restored to the State; now, therefore.

Be It Resolved by the Senate and the House of Representatives of the State of Oklahoma:

That Congress be memorialized to pass an act declaring it to be the intention of the Federal Government to refrain from interference in all matters relating to the rates and practices of telephone companies within the states and for all business which is purely intrastate in character; and prohibiting the Postmaster General or any other federal official or agency from in any way interfering with the state regulation of telephone, so far as intrastate business is concerned;

Be it Further Resolved, That a copy of this resolution be mailed to the Senators and Representatives in Congress from the State of Oklahoma, and that a copy of same be spread upon the Journals of both Houses.

On motion of Senator Tucker, the Senate adjourned under the rules.

To the President and Members of the Senate:

Gentlemen:

In order to prevent any misunderstanding as to my attitude with reference to increase in salaries I desire to say:

I have asked that the salaries of the Secretary to the Governor, Game Warden, Secretary to the Commissioners of the Land Office and State Commissioner of Health be increased, and I have come to you early with these matters in order that whoever may be appointed for these places may be given the advantage of the increase, if any is made. However, I am not insistent about these increases, if in the judgment of the Legislature they should not be made. As a general proposition I am opposed to a blanket raise in salaries. I have stated my position through the press and other channels on this subject at different times and while I realize that all salaries in this State are low, and in many cases wholly inadequate, and not on an equality with salaries of other states, or in similar lines of employment in this State, yet I feel that owing to the enormous cost of state government and the uncertainty of the future relative to financial conditions, not only in this state but throughout the nation and further realizing the difficulty of reducing the salary when once raised that we can not in good faith afford to make a general raise of salaries in this state at this time for the reason that this subject was not at issue in the recent general election, and the people were not consulted with reference to the subject. However, we must use common sense in the handling of this as well as all other subjects, and it is a matter of common knowledge that there are places in the state government where salaries should be increased in order that the State may retain efficient help. As an example I might mention the Banking Department, which is required to have high grade men as bank examiners, and yet under the prevailing salary it is impossible to retain the best men for the reason that as soon as they become qualified, positions paying them much larger salaries are offered them and the Department is deprived of their services at a time when they can be of greatest value to the State.

I might supgest also in this connection that many of these salaries are paid out of fees and do not come out of the taxpayer's pocket. Another item that should receive attention is the salary of stenographers, book-keepers and clerks. In order to

obtain and retain efficient help in these lines it is necessary that sufficient salary be given to enable these people to live.

There are some county officers who should have relief at the hands of the Legislature, among whom might be named the deputy sheriff, who should be permitted to retain a large per cent of his earning and the sheriff should be protected in the matter of cost of feeding prisoners. There are other places where raises doubtless will be necessary but I shall not attempt to enumerate them, as you doubtless will on investigation, find that adjustment of salaries in some instances will be absolutely necessary, and I, in common with all the people of the State, realize that these matters must be handled from a common-sense business-like standpoint, keeping in mind at all times the necessity of efficient help for the State.

As above stated I am opposed to a general raise of salaries and will gladly cooperate with the Legislature in preventing the same. If in the wisdom of the Legislature no raise in salaries of any kind should be obtained there will be no objection on my part. On the other hand if, after a careful investipation of the facts and circumstances surrounding each case, it is the judgment of your body to increase the salaries of some office I shall endeavor to reconcile my views with yours. However, the matter should be met in a straightforward way and not by circumvention, and I shall be compelled to oppose any plan that has for its object and purpose the raising of salaries by indirection or subterfuge.

Respectfully,

J. B. A. ROBERTSON,

Governor.

SENATE CONCURRENT RESOLUTION No. 11.

By Johnson, Kerr and Board of the Senate and Hodges, Waldron, Parkinson and Barry of the House.

A Resolution Requesting the Congress of the United States to Make Immediate Provisions for the Return to the United States of the Bodies of the American Soldiers Who Died in Europe During the Late War.

Whereas, It has always been the time honored custom of our beloved country to throw every protecting care around the last resting place of those of our soldiers who have died in the service of our country at home, and,

Whereas, The United States has always distinguished itself by the fact that it has returned to our native soil the bodies of those of our brave soldiers who have died in the service of our country in a foreign land.

Therefore, Be It Resolved, By the Senate of the State of Oklahoma, the House of Representatives concurring therein, that

our United States Senators and Members of Congress be and are hereby memorialized to make every effort to secure from the Congress of the United States immediate provision for the return of the bodies of our brave soldiers who died in Europe in the Great War just waged in behalf of world liberty and in the interests of suffering humanity.

SENATE CONCURRENT RESOLUTION No. 12.

By Johnson and Board of the Senate and Hodges, Waldron, Parkinson and Barry of the House.

A Resolution Requesting the Congress of the United States to Make an Appropriation of Two Million Dollars to Be Used for the Eradication of the Epidemic Known as Spanish Influenza, Which is Now Prevalent in the United States.

Whereas, During the past four months the greatest scourge that has ever visited the United States, known as Spanish influenza, has been devastating our country, its fearful toll of death exceeding by hundreds of thousands the deaths of our American soldiers in the late war. In its pathway has been left thousands of widows and orphans and the new-made graves of thousands of our best citizens. The financial loss to the country in the productive lives alone of these victims would run into billions, and the march of this epidemic still continues, and unless energetic steps are immediately taken to stay the progress of this epidemic, no man can tell the fearful harvest that will be taken by this grim destroyer in the years to come.

Therefore, Be It Resolved, By the Senate of the State of Oklahoma, the House of Representatives concurring therein, that our United States Senators and Members of Congress are

hereby memorialized and requested to introduce and support a measure in Congress to appropriate two million dollars, or as much thereof as may be necessary for the eradication and suppression of the epidemic known as Spanish influenza.

Senator Johnson moved that Senate Concurrent Resolution No. 12 be adopted and that a copy of the resolution be mailed to the Senators and Representatives in Congress from the State of Oklahoma, and that a copy be spread upon the Journal of both Houses.

The Resolution was adopted and the Secretary instructed to mail a copy to the Oklahoma Represntatives in Congress.

GOVERNOR'S PROCLAMATION.

The Nation mourns the departure of one of its foremost citizens and highly honored statesman, Ex-President Theodore Roosevelt, whose lamented death in the prime of active life and usefulness has created profound sorrow throughout the civilized world.

In order to testify to the respect and esteem in which the people of Oklahoma hold the memory of this great American and exalted citizen of the republic and of the world, I hereby proclaim that Sunday, February the ninth, nineteen hundred nineteen, be observed by the citizens of Oklahoma in the various communities in the State as memorial day, at which time appropriate services in the different churches and community centers should be held and appropriate tributes paid to the high personal character and distinguished public service of this remarkable figure in the

Nation's history.

Congress has already designated this day for the memorial services of the deceased ex-President and it is also in accord with the wishes of Colonel Roosevelt's family and this date seems to represent the expressed desire of the people generally throughout the Nation, that we should unite in this service and that the observance of the day should be Nation-wide.

Given under my hand and the great seal of the State of Oklahoma, this 20th day of January, Anno Domini 1919.

J. B. A. ROBERTSON,

(SEAL) Governor.

JOE S. MORRIS, Secretary of State.

SENATE CONCURRENT RESOLUTION No. 16.

A Resolution Memorializing Congress to Press the Claim of the State for Settlement of the Morrill Land Grant Act According to the Provisions of House Resolution 15156 as Amended, and Accepting the Provisions of said Resolution in Settlement of All Claims of the State Under the Provisions of Said Morrill Act.

Whereas, The State of Oklahoma has heretofore presented to the Honorable Secretary of the Interior its claim for public lands under the terms of the Morrill Land Grant Act, same being Acts of Congress of July 2, 1862, and July 23, 1866, by regular legal action, and has complied with all the conditions imposed on the State by said acts, and through its legal representatives has procured adjudication and final decision of the Department of the Interior that "as to new states not entitled to representation in Congress by the apportionment under the census of 1860, the amendment of 1866 was intended by Congress as a pledge, and is ineffectual as a grant without further legislation;" and

Whereas, The Committee on Public Lands, to whom was referred House Resolution 15156, a bill putting in force the Morrill Act granting public lands to the State of Oklahoma, have carefully considered the same and recommended that the original bill be amended and that as amended the bill do pass, the title as amended to read as follows:

"A bill granting to the State of Oklahoma two hundred and ten thousand acres of unappropriated non-mineral land for the

benefit of its Agricultural and Mechanical Colleges, according to the provisions of the acts of July 2, 1862, and July 23, 1866; and authorizing the Secretary of the Treasury, upon the Secretary of the Interior certifying the number of acres available, and that there are not sufficient lands in the State of Oklahoma to comply with the provisions of this act, to pay to the State of Oklahoma in lieu thereof the sum of $1.25 per acre for the number of acres due said State;" and

Whereas, Under this amended bill, as drawn, the State of Oklahoma is entitled to 42,177 acres of unappropriated public lands, the residue remaining in Oklahoma at that time, and an additional 167,823 acres for which cash is to be paid the State at the rate of $1.25 per acre, and said cash settlement amounts to $209,778.75; therefore,

Be It Resolved by the Senate of the State of Oklahoma, the House of Representatives Concurring Therein:

That our Senators and Representatives at Washington be requested to press the claim of the State for settlement of the above mentioned land grant, according to the provisions of House Resolution 15156 as amended, which is hereby accepted in settlement of all claims of the State under the provisions of the Acts of Congress of July 2, 1862, and July 23, 1866, making a grant of lands to the State for Agricultural and Mechanical Colleges.

Be It Further Resolved, That a copy of this resolution, duly authenticated, be transmitted to each of the Senators and Representatives in Congress from Oklahoma.

On motion of Senator Thomas, seconded by Senator McIntosh, the resolution was adopted.

The following message from the Governor was read:

February 5, 1919.

To the President and Members of the Senate,

Senate Chamber.

Gentlemen:

I find on file in the office of the Secretary of State, sixty-four deficiency certificates aggregating $575,240.00. These certificates were issued between the dates of July 22, 1915 and January 4, 1919, and I have been unable to ascertain whether or not any of these items have been submitted for the consideration of the last legislature.

I desire in this formal manner to bring this matter to your attention and have this subject of deficiencies considered by you to the end that a defined legislative policy with reference thereto may be established.

I realize fully the need of lodging this power to create deficiencies in cases of emergency in some responsible head and yet I cannot believe that it was the purpose of the Legislature, when it enated Chapter 231, Session Laws of 1915, to give such a wide latitude to the Governor or any other person.

I am calling this matter to your attention merely that you may take such steps as in your judgment may be wise to correct a practice which may some time be abused.

Respectfully,

J. B. A. ROBERTSON,

Governor.

SENATE CONCURRENT RESOLUTION No. 18.

By Wallace and Kerr.

Be It Resolved by the Senate of the State of Oklahoma, the House of Representatives Concurring Therein, That,

Whereas, for the past ten years there has existed within that portion of the State known as the old Indian Territory a system of tenantry which has resulted in the restricted Indian of the Five Civilized Tribes in receiving less than 5 per cent rent on the value of their surplus allotments, and,

Whereas, There are several thousand surplus allotments of said restricted Indians situated in the State of Oklahoma that have never been personally occupied nor supervised by the allottees themselves and have for more than ten years been handled by middlemen and agents, and,

Whereas, Such conditions as they now exist are not for the best interest of said allottees for the communities within which said lands are situated, and,

Whereas, Such conditions as they now exist are not for the best interest of said allottees or the communities within which said lands are situated, and,

Whereas, A great number of these surplus allotments might be sold to the returned soldiers from the U. S. Army on ten-year payment plan and thereby enable said soldiers for a small cash payment and on easy terms to acquire homes for themselves and at the same time provide from the interest charged on deferred payments for said Indians far greater income than they are now receiving from the rental value of said land.

Now, Therefore, Be It Resolved, That the Congress of the United States is hereby respectfully petitioned and memorialized to immediately pass such legislation as to authorize the Secretary of the Interior to secure lists of all such lands and to empower

said Secretary of the Interior upon written application from said allottees to order said restrictions removed as to said surplus allotments and to sell the same at public auction to actual bona fide farmers on deferred payments to run for a period of ten years, said payments to bear interest at the rate of 5 per cent and giving the soldiers having been in actual service of the United States Government preference right to purchase said lands at said sale situated within the counties where said soldiers have been a resident and provided that said soldiers will furnish satisfactory evidence that they will live upon said lands and farm the same.

Be It Further Resolved, That a copy of this be sent to each U. S. Senator from the State of Oklahoma and also to each Congressman of said State and that said Senators and Congressmen are hereby urged to secure immediate action and the passage of said legislation so that the same may be put in force in time to assist returned soldiers securing employment and farms of their own.

The following message was received from the Governor:
To the President and Members of the Senate:

Senate Chamber.

Gentlemen:

Chapter 69, Session Laws of 1917, provides for the transfer of the State Training School for delinquent negro boys from its present location at the State Penitentiary at McAlester, Oklahoma, to a tract of land belonging to the State in Muskogee County, near Taft, on which is located the Deaf, Blind and Orphan School for colored children.

The transfer has not yet been made for the reason that no appropriation for the maintenance of said State Training School for delinquent negro boys was made by the last Legislature. They are still at the building on the penitentiary grounds at McAlester as originally intended.

I understand that there are sufficient buildings at McAlester to properly care for these incorrigible negro boys and in my opinion, said Chapter 69, Session Laws, 1917, should either be repealed or amended. I do not deem it practical or advisable to put these incorrigible colored boys on the State land at Taft, where they will be thrown indiscriminately in contact with the deaf, blind and orphan children.

I understand that it was the purpose of the last Legislature to put all these children at Taft under one head or management, and however worthy such a movement or intention was, I can not think the subject received due consideration at the hands of the last Legislature for nothing would be more detrimental or disastrous to the unfortunate colored wards now located at Taft than to have a lot of incorrigible negro boys of from 10 to 16 years of age placed in close proximity to them. I think such a condition would not only result in demoralization to the school now maintained for the deaf, blind and orphaned colored, but would have a tendency, in addition, to create a condition that would be anything but satisfactory to the people of the State.

My information is that these incorrigible negro boys can be properly handled at McAlister where they are now located. I hope your honorable body will give the matter due consideration and prevent their removal to the State's land at Taft.

Respectfully,

J. B. A. ROBERTSON,

Governor.

SENATE RESOLUTION No. 18.

By Johnson, Watrous, Woods, Ingraham, Clark, Sherman, Brown and Lynch.

Be It Resolved by the Senate of the State of Oklahoma:

Whereas, The anniversary of the birth of Abraham Lincoln has again recurred, reminding citizens of the nation of the vast services of this patriot to the perpetuation of the Union to the furtherance of the highest ideals of the citizens and the principles of democracy, growing with each year in reverence and respect, and,

Whereas, It is proper on this occasion to suspend the business of the State to pay respect, and to honor the memory of this statesman, whose political allegiance has been forgotten in the deep appreciation of his patriotism and whose memory is a national rather than a partisan or sectional heritage, and,

Be It Resolved, That we express in the terms of this resolution our growing reverence of the memory of this statesman, whose mind was stronger than the passion of the age in which he lived, whose character was firmer than the foundations of the

nation he held together, and whose patriotism was greater than the breadth of the country he served, and that one hour, from four to five, be set aside on this day for the patriotic purpose of hearing Senators McIntosh and Golobie and such other senators as may desire to be heard, reviewing the life and character of Abraham Lincoln.

On motion of Senator Johnson, Senate Resolution No. 18 was adopted.

The hour having arrived, set apart by Senate Resolution No. 18, for the purpose of commemorating Lincoln's Birthday, Senator Watrous took the chair and presided during the services.

Senator Johnson read "Wilson's Tribute to Lincoln," and asked that the same be printed at length in the Journal, as follows:

PRESIDENT WILSON'S TRIBUTE TO LINCOLN.

Delivered at Lincoln's Birthplace.

No more significant memorial could have been presented to the nation than this. It suggests so many of the things that we

prize most highly in our life and in our system of government. How eloquent this little house within this shrine is of the vigor of democracy! There is nowhere in the land any home so remote, so humble, that it may not contain the power of mind and heart and conscience to which nations yield and history submits its processes. Nature pays no tribute to aristocracy, subscribes to no creed of caste, renders fealty to no monarch or master of any name or kind. Genius is no snob. It does not run after titles or seek by preference the high circles of society. It affects humble company as well as great. It pays no special tribute to universities or learned societies or conventional standards of greatness, but serenly chooses its own comrades, its own haunts, its own cradle even and its own life of adventure and of training. Here is proof of it. This little hut was the cradle of one of the great sons of men, a man of singular, delightful, vital genius who presently emerged upon the great stage of the nation's history, gaunt, shy, ungainly, but dominant and majestic, a natural ruler of men, himself inevitably the central figure of the great plot. No man can explain this, but every man can see how it demonstrates the vigor of democracy, where every door is open, in every hamlet and countryside, in city and wilderness alike, for the ruler to emerge when he will and claim his leadership in the free life."

Senators Golobie, McIntosh, Cartwright, Harrison and Johnson delivered appropriate addresses on the life and character of Lincoln.

The President took the chair.

The Senate resumed consideration of Section 6, Senate Bill No. 36.

The question being the adoption of Senator Tucker's amendment, a roll call was demanded, which resulted as follows:

Ayes: Fleming, Harrison, Lynch, McAlister, Rider, Sherman, Simpson, Smith, Spurlock, Tucker, Woods. Total, 11.

The chair declared the motion to adopt the minority report lost, and the majority report adopted. The resolution was ordered printed and placed on the Calendar.

Senator Snyder sent up the following explanation of his vote:

Mr. President:

I desire to vote "aye" on the majority report because the people now having the lease have spent a large sum of money and the argument says the same possibly may be sold on bids for from $1,000 to $10,000. I do not believe the State should in view of the development seek in a wild cat territory to drive a hard bargain and contract.

Senator Kerr announced that he had been advised by the engineer of the building that owing to the strong wind, it was dangerous to remain in the Senate Chamber.

Senator Hall moved that the Senate adjourn under the rules. Vote was taken and the same lost.

Senator Pugh moved that Senate Joint Resolution No. 4 be advanced to engrossment and third reading.

Senator McIntosh raised a point of order that this being House day, further consideration of Senate bills was out of order.

The chair held the point of order well taken.

Senator Thomas moved that the Joint Rules governing the consideration of Senate and House bills be construed as follows: That the Senate on House day proceed to the consideration of unfinished business of the Senate down to bills on general order, and that this joint rule be applied only to the consideration of bills under general order.

A vote was taken and the same carried.

Senator Tucker on behalf of the Committee on Engrossed and Enrolled Bills, reported Senate Bill No. 146, by Senate Committee on Appropriations, correctly engrossed.

A message was received from the Honorable Governor, which was read as follows:

To the President and Members of the Senate

Senate Chamber.

Gentlemen:

As you are all doubtless aware, the high wind yesterday did considerable damage to the roof of the Capitol Building. I have had this matter up with members of the State Board of Affairs and others, and I am of the opinion that it would be advisable for your honoralbe body to appoint a select committee to act with a similar committee of the House and give this matter careful consideration.

I think these committees should be clothed with sufficient power to call to their assistance architects and builders in order to arrive at a proper conclusion. Also the matter of liability on the part of the contractor and his bondsmen should be investigated, at once.

I am told that the damage is considerable and will require a considerable outlay of money and I think the way to meet the situation is by the appointment of committees as suggested above.

Respectfully,

J. B. A. ROBERTSON,

Governor.

The chair referred the Governor's message to the special committee appointed to investigate the condition of the Capitol building.

A message was received from the Honorable House with the information that the House had granted a conference on Senate Bill No. 86, by Kerr of the Senate and Nesbitt of the House, and appointed as such conferees Messrs. Nesbitt, Kight, and Everhart.

The chair appointed Senators Kerr, McIntosh and Cordell as such conferees on the part of the Senate.

Senator Johnson was granted unanimous consent to submit the following committee report, and requested that same be printed at length in the Journal for consideration on next legislative day:

Mr. President:

We, your Committee on Fees and Salaries to whom was referred the instructions of the Senate to make a survey of the employees in the various State departments beg to report as follows: Acting under the instructions of the Senate, your committee has made a careful survey of the different State departments, and from the information we obtained, we have reported to the Senate the following bills relating to the departments concerned:

Senate Bill No. 209, relating to the office of State Treasurer.

Senate Bills Nos. 210 and 211, relating to office of State Fire Marshal.

Senate Bill No. 212, relating to the office of State Industrial Commission.

Senate Bill No. 213, relating to the Adjutant General's office.

Senate Bill No. 214, relating to office of Custodian of the State Capitol.

Senate Bill No. 215, relating to the office of State Superintendent of Public Instruction.

Senate Bill No. 216, relating to the State Board of Education.

Senate Bill No. 218, relating to the office of State Auditor.

Senate Bill No. 219, relating to the office of Clerk of the Supreme Court.

Senate Bill No. 217, relating to the State Mining Board.

Senate Bill No. 220, relating to the office of State Bank Commissioner.

Senate Bill No. 221, relating to the office of Secretary of State.

Senate Bill No. 222, relating to the office of Corporation Commission.

Senate Bill No. 223, relating to the office of State Insurance Commissioner.

Senate Bill No. 224, relating to the office of State Board of Health.

Senate Bill No. 225, relating to the office of Commissioners of the Land Office.

Senate Bill No. 236, relating to State Board of Agriculture.

Senate Bill No. 253, relating to the State Commissioner of Labor office.

Senate Bill No. 252, relating to the office of State Examiner and Inspector.

Senate Bill No. 237, relating to the employees in office of Governor.

In compiling the salaries connected with these offices, your committee has endeavored to equalize the salaries of employees who perform relatively the same duties. Your commiteee has also made an advance in the salaries of various positions which as tabulated amounts to a total of about $35,000.00, being about 20 per cent on the total amount of salaries paid. Your committee felt that the advanced cost of living in the last two years, amounting in many cases to as much as 50 per cent, would justify the increase that has been recommended by your committee. Your committee feels that in order to obtain efficient help, the State should pay approximately as large salaries as are paid by private

corporations for the same class of help. In order to fairly realize this condition, we append below a table showing the salaries that are paid in the State Treasurer's office, in one column, and the salaries that are paid for similar positions in one of the large banks in Oklahoma City:

	State Salary	Bank Salary
One assistant treasurer	$2,400.00	$5,000.00
One chief clerk	1,800.00	3,600.00
One cashier	1,800.00	3,000.00
One assistant cashier	1,800.00	2,500.00
One bond and security registrar	1,800.00	2,400.00
One assistant bond and security registrar.	1,800.00	2,400.00
One warrant clerk	1,800.00	2,100.00
One bookkeeper	1,500.00	1,500.00
One bookkeeper	1,500.00	1,500.00
One bookkeeper	1,200.00	1,200.00
One bookkeeper	1,200.00	1,200.00
One bookkeeper-stenographer	1,500.00	1,300.00
One bookkeeper-stenographer	1,500.00	1,300.00
One stenographer	1,200.00	1,200.00

Some of the other banks, I understand, pay even larger salaries, and large corporations even more than the banks.

Your committee invite the attention of the Senate to the various bills reported as above set forth, for particulars on the employees in each department.

Your committee is advised that the House of Representatives has prepared a general bill covering the same departments that are involved in the various bills introduced by your committee, and in order to avoid a duplication of work, your committee would recommend that the various bills referred to in this report retain their place on the Calendar, and when the general bills from the House of Representatives is considered by the Senate that the various bills recommended by your committee be considered in conjunction with the bill by the House of Representatives.

All of which is respectfully submitted.

JOHNSON, Chairman.

Senator Simpson introduced Senate Resolution No. 20, by Simpson and Vaughan, which was read as follows:

SENATE RESOLUTION No. 20.

By Simpson and Vaughan.

Be It Resolved by the Senate of the State of Oklahoma:

Whereas, Two years ago we were confronted with the problem of winning the world-wide war, we are today confronting a policy of nation-wide reconstruction. In view of this fact, we are confronted with the largest visible supply of cotton at this time of year for many years. With the present season and outlook for a great crop in Oklahoma and Texas, and with the possible crop of 16,000,000 to 18,000,000 bales, the situation becomes alarming to that extent, that we have such reduced prices for the coming season that this crop would not pay the cost of production. We believe that the farmer and producer of cotton is entitled to the actual cost of his cotton plus a reasonable margin of profit. The present cotton speculators and interests of certain industries have conspired to and succeeded in running down prices to where the present market does not pay the actual cost of production.

Therefore, We recommend that the farmers, business men and bankers pool their interests in reducing the cotton acreage in Oklahoma 33 1-3 per cent to the end that we may have a fair compensation for our labor.

We further urge a large attendance from the cotton counties of Oklahoma to attend the meeting called by proclamation of our Governor to meet in Oklahoma City, February 20th, to devise ways and means of reducing this crop and supply other substitutes in its place. We recognize that the first demands of the people of Europe, who are our large customers in purchasing the surplus cotton crops of the United States, in their depleted financial condition and emaciated from a long period of hunger, will first desire to fill their stomachs with good food before they become large purchasers of cotton products.

To that end, we urge the production of crops to supply our own home and State and discourage an increased acreage in cotton.

On motion of Senator Simpson, Senate Resolution No. 20 was adopted.

SENATE CONCURRENT RESOLUTION No. 19.

By Carpenter.

Whereas, in as much as, in normal times cotton is the one staple of commerce which brings more gold from foreign countries to America than any other one commodity, thereby turning the balance of the world's trade in favor of the United States, and giving cotton a national importance, and

Whereas, the mills of Europe are the largest consumers of low grade cotton, but owing to war conditions the spindles of those countries are practically without a supply, and

Whereas, President Wilson in his last message to Congress declared, "The war is over," and therefore there is no longer any necessity for retaining the restriction on exports and imports of commerce, and

Whereas, the American merchant marine is now an established and assured fact and the slogan should be *American Bottoms Controlled by American Citizens for American Commerce,* now therefore, be it

Resolved by the Senate, the House of Representatives Concurring,

That we insist that our Representatives in Congress take immediate steps to see that all embargoes on cotton be instantly removed. Bt it further

Resolved, that Congress be urged to provide immediately for the establishment of American steel steamship lines, between the gulf and South Atlantic ports and all foreign ports for the promotion of American commerce and at reasonable standardized rates. Be it further

Resolved, that a copy of this resolution be sent to President Wilson, that a copy be sent also to the chairman of the United State Shipping Board, and to the chairman of the War Trade

Board and to each of our Senators and Representatives from Oklahoma.

On motion of Senator Carpenter Senate Concurrent Resolution No. 9 was adopted.

The following message was received from the Governor:

February 17th, 1919.

To the President and Members of the Senate.

Capitol Building;

Gentlemen:

At a meeting of the State Capitol Commission held today it was unanimously agreed that I should request your honorable body to apoint a special committee to act with like committee from the House of Representatives to consider what steps would be necessary looking to the completion of the improvements of the Capitol grounds and securing grounds for the Capitol.

Mr. President:

I move to amend Senate Resolution No. 21 by adding thereto, just before the instructions, concerning authority, on page —, for the proposed committee to investigate, the following:

Whereas, It is reported on good authority that said Campbell Russell is to receive ten (10%) per cent from various districts, favorably affected by the vitalizing of 12a of the Constitution, that is, to say, will receive ten (10%) per cent of all sums that he is successful in withdrawing from other districts, where the taxes are now levied and collected, and transferred to other

districts under the distribution proposed by said 12a, and that said commissions will amount to about thirty thousand ($30,000) dollars, and that is one of the principal reasons for said Campbell Russell to seek to vitalize said 12a, and that the committee may be appointed to authorize and also investigate that question.

Mr. President:

I move that Senate Joint Resolution No. 10 be recommitted to the Committee on Roads and Highways with instructions as follows:

First. To amend said Senate Joint Resolution No. 10 so that same will propose the submission to the qualified electors of the State the simple proposition of an amendment to Section 25, of Article 10, of the Constitution, to the end that said section may provide that a law authorizing the creation of a debt through a bond issue may be submitted at a special as well as a general election.

Second. That said Committee be instructed to prepare and report to the Senate a bill proposing the creation of a debt through the issuance of State Bonds in the sum of Fifty Million Dollars, and authorizing the issuance of such bonds, evidencing such debt, with the following provisions and restrictions:

(a) That the bonds to be issued under and pursuant to said law shall be a combination of serial and annuity bonds, to the end that the first payments thereon, covering principal and interest, shall be relatively small, and the subsequent payments of principal and interest shall increase from year to year, carrying out the principle that the total payments to be made during the first years of the bond issue shall be relatively small and shall increase from year to year until said bonds are retired, and that the first bonds issued shall not be due and payable prior to five years after the date of issuance.

(b) That the bonds proposed to be authorized and issued under and by the authority of said law shall not be sold and the money made available thereunder except as may be provided by legislative enactment and appropriation made from time to time, and that the first allotment of bonds to be sold during the fiscal years ending June 30, 1920, and June 30, 1921, shall not exceed the sum of Ten Million Dollars.

(c) That the funds to be made available from such proposed bond issue may be used by the managing officers on the part of the State in meeting Federal Aid heretofore or hereafter provided by an Act or Acts of the Congress of the United States.

Third. That said Committee be instructed to prepare and report to the Senate a bill, separate and distinct from the said proposed constitutional amendment and the said bond authorization bill, such bill amending existing law with relation to the extension of the State Highway Department, to the end that ample machinery may be provided for the proper and efficient management and expenditure of money to be made available under said proposed bond issue in the event of its authorization; and in the event of the failure of such proposed bond issue such amended law will provide for the management and expenditure of the funds already or hereafter to be made available for road construction in this State; said bill to contain a section making an appropriation in the sum of Five Million Six Hundred Forty-nine Thousand Nine Hundred and Seventy-one Dollars and

Ninety-Five Cents ($5,649,971.95), or so much thereof as may be necessary, for the purpose of carrying into effect the provisions of the Federal road acts and aid in constructing roads, said sum to be available as follows:

Senator Lynch was excused for a short time.

Senator Kerr asked that Senate Bill No. 11 be passed over at this time.

At request of Senator Hill, Senate Bill No. 47 was passed over at this time.

Senator Kerr submitted the following motion in writing:

Mr. President:

I move that Senate Bill No. 131 be referred to a Special Committee of three with instructions to so amend the bill as to locate the State Training School for Colored Boys at McAlester instead of Taft.

KERR.

Vote was taken and the motion carried, and the Chair appointed Senators Kerr, Hill and Harrison as such Special Committee.

At request of Senator Snyder, Senate Bill No. 182 was passed, Senator Vaughan, the author of the bill, not being present.

Senator Harrison asked that Senate Bill No. 243 be passed over at this time.

Senate Joint Resolution No. 9, by Thomas, was read at length and considered.

Senator Thomas offered the following amendment, which was adopted:

Mr. President:

I move to amend Senate Joint Resolution No. 9, by adding an emergency section, to be known as "Section 3."

THOMAS.

On motion of Senator Thomas, Senate Joint Resolution No. 9 was advanced to engrossment and third reading.

The Chair appointed Senators Davidson, Board, Carpenter, Hill and Wood as the Steering Committee.

Senate Bill No. 265, by Watrous, Cordell and Knie, of the Senate, and Hodges, of the House, was read and considered.

Senator Spurlock offered the following amendment, which was adopted:

Mr. President:

I move to amend Senate Bill No. 265, line 6, page 2, as follows: By striking the following: "one member of the staff of the University" and insert "one member who shall be a practical farmer."

SPURLOCK.

On motion of Senator Cordell, Senate Bill No. 265 was advanced to engrossment and third reading.

Senate Bill No. 165 was read.

Senator Tucker raised a point of order, that Senate Bill No. 165 was not an Appropriation Bill.

The chair sustained the point of order.

The President Pro Tempore signed engrossed Senate Concurrent Resolution No. 28, by Johnson, of the Senate, and Hodges, of the House, and ordered the same transmitted to the Honorable House.

Senate Bill No. 42, by Hogg and Mayfield, was read and considered section by section.

Senator Sherman offered the following amendment and moved its adoption:

Mr. President:

I move to amend Senate Bill No. 42, line 1, page 2, by striking "five cents" after the word "and" and before the word "a" and insert the word "ten cents."

SHERMAN.

Vote was taken and the amendment adopted.

Senator Kerr offered the following amendment and moved its adoption:

Mr. President:

I move to amend Senate Bill No. 42, line 11, page 2, by adding after the word "precinct" the words "Provided, however, the inspector shall not be paid the fees heretofore fixed unless he shall make his return to the county election board within twenty-four hours after the closing of the polls."

KERR.

Vote was taken and the amendment adopted.

Section 1 was adopted as amended.

Section 2 was read and adopted.

Section 3 was read and adopted.

Section 4 was read and adopted.

On motion of Senator McAlister, Senate Bill No. 42 was advanced to engrossment and third reading.

Senate Bill No. 85 was called up for further consideration.

The Chair stated that Senate Bill No. 85 was pending on a point of order against Deficiency Certificate No. 55, in the sum of $48,631.00, providing for pavement around the State Capitol, Senator McAlister raising the point of order that this is not a proper subject for a Deficiency Bill, this expenditure not having been previously authorized by law, and not a part of the expense of either the executive, legislative or judicial branch of the state government.

Senator Thomas made the point of order against the point of order, that it is not proper under the rules of the Senate to legislate by points of order, but that if the Senate desired to eliminate this particular section, the proper way would be to reconsider the vote by which the section was passed, and upon reconsideration eliminate it from the bill.

The Chair overruled the point of order raised by Senator McAlister, stating that it was not the province of the Chair to construe matters of that nature, but rather a quesion for the courts.

Senator Hill lodged a point of order against Deficiency Certificate No. 55, for reason that the State Board of Public Affairs had no legal authority to make the contract in question; that the

contract was entirely beyond their authority, and was illegal, and the Legislature could not appropriate money for a contract which on its face was illegal.

Senator Hill made a point of order against Deficiency Certificate No. 53, appropriating money to reimburse persons, firms or corporations who had advanced money for the use of the State Council of Defense, for the reason that the law does not provide for, and there is no money available with which to repay individual loans to the State.

Senator Harrison moved that the vote by which Senate Bill No. 85 was advanced to engrossment and third reading, be reconsidered.

Vote was taken and the motion prevailed.

On motion of Senator Wallace, the Senate recessed until 1:30 p. m.

AFTERNOON SESSION.

SENATE RESOLUTION NO. 25.

By COMMITTEE ON APPROPRIATIONS.

A RESOLUTION RELATING TO THE POLICY OF THE SENATE IN RELATION TO THE GENERAL APPROPRIATION BILL.

WHEREAS, Section 56 of Article 5 of the Constitution provides as follows:

"The general apropriation bill shall embrace nothing but appropriations for the expenses of the executive, legislative and judicial departments of the State, and for interest on the public debt. The salary of no officer or employee of the State, or any subdivision thereof, shall be increased in such bill, nor shall any appropriation be made therein for any such officer or employee, unless his employment and the amount of his salary shall have been already provided for by law. All other appropriations shall be made by separate bills, each embracing but one subject." And

WHEREAS, the general appropriation bill must follow the law already enacted as to the positions appropriated for and as to the amounts fixed by law for such positions; and

WHEREAS, there is now pending before the Senate numerous bills proposing to create new positions and to change the salaries already provided for existing positions; and

WHEREAS, if the Senate awaits the final disposition of such salary bills, action upon the general appropriation bill must be deferred indefinitely; therefore, to the end that the general appropriation bill may be taken up and acted upon at once,

BE IT RESOLVED BY THE SENATE: That the Committee on Appropriations be instructed to prepare amendments to the House General Appropriation bill, as follows:

(1). To make appropriations sufficient to take care of all positions in all executive, legislative and judicial departments as same may now exist in law.

(2). To add a lump sum amount in said general appropriation bill to cover the salary of any position which may hereafter be created, and to cover any increase in salary of any existing position which may be hereafter provided by law.

Senator Snyder, on behalf of the Committee on Judiciary No. 1, submitted the following Committee report:
Oklahoma City, Oklahoma, March 8, 1919.

Mr. President:

We, your Committee on Judiciary No. 1, to whom was referred Engrossed House Concurrent Resolution No. 19, by Morris, having had same under consideration, herewith return the same with the recommendation that it do pass as amended, the amendments being as follows:

Strike all of line 11, beginning with the words, "That

the State Auditor," all of lines 12, 13, 14 and 15, ending with the words, "the 16th day of March, 1919."

SNYDER,

Chairman.

Senator McIntosh submitted the following opinion by the Attorney General with reference to House Concurrent Resolution No. 19, and asked that same be spread at length in the Journal:

Oklahoma City, March 8th, 1919.

Senate Judiciary Committee No. 1.

Building.

Gentlemen:

Answering your request for a construction of Section 21 of Article 5 of the Constitution of Oklahoma, you are advised as follows:

The section referred to provides as follows:

"Members of the Legislature shall receive six dollars per diem for their services during the session of the Legislature, and ten cents per mile for every mile of necessary travel in going to and returning from the place of meeting of the Legislature, on the most usual route, and shall receive no other compensations; Provided, that members of the Legislature, except during the first session thereof, held under this Constitution, shall receive only two dollars per diem for their services after sixty days of such session have elapsed."

The two vital phrases in the section are as follows: "During the Session of the Legislature," and in the latter part of the proviso that members "shall receive only two dollars per diem for

their services after sixty days of such session have elapsed." We are of the opinion that the phrase "during the session," means during the term of the Legislature, and that the proviso means that the two dollars per diem begin to run after the completion of sixty working legislative days.

The Supreme Court, in Moog vs. Randolph, 77 Alabama, page 597, uses this language: "I am satisfied that 'fifty days' means fifty legislative working days, exclusive of Sundays and other days upon which the Senate and House concurs in refusing to sit by joint resolution of adjournment." This rule was adhered to in the case of Ex Parte Cowert, 92 Alabama, Page 97, where the Court used this language:

"It has more than once been determined by this court, and we have no disposition to depart from our ruling on that subject, that 'days' within the limitation upon the sessions of the General Assembly, imposed by Section 5, Article IV of the Constitution, means working days, and, of consequence, that Sundays are to be excluded from the computation by which the end of the session is to be determined. Under this rule, the act in question was passed within the constitutional limits of the Session of 1890-91."

We are, therefore, of the opinion that the members of the Legislature are entitled to compensation for each calendar day of the term or session until sixty working, legislative days have been completed. In this case the Journal should show when the sixty working legislative days have been completed. If the Journal in its present state indicates Sundays or other legal holidays as legislative working days, it should be corrected to speak the real facts.

Very respectfully,

S. P. FREELING,

Attorney General.

Senator McIntosh moved that the report of the Committee on Judiciary No. 1 be adopted.

Senator Thomas submited the following motion in writing:

Mr. President:

I move that the Attorney General be requested to advise the Senate whether or not, under the opinion just rendered, members are entitled to per diem of six dollars per day for Sundays and Holidays when same are not considered as legislative days.

The following message from the Governor was read:

"March 10, 1919.

"To the President and Members of the Senate,

"Senate Chamber.

"Gentlemen:

"I very much dislike to make a recommendation that will tend to increase in any wise the aggregate of appropriations that are necessary to properly conduct the business of the State, and have refrained from doing so except on matters that appear to me to be absolutely necessary.

"There is one subject, however, that to my mind, is of suf-

ficient importance to vary this general rule, and I desire at this time, briefly to call your attention to it.

"You are all acquainted with the condition of the grounds surrounding the Capitol. You know how much money has been spent to improve the same. You doubtless also know something of the original plans prepared by Masquray, a noted French landscape architect, with reference to the beautification of the avenue leading to, and the grounds surrounding the Capitol building.

"At this time, it seems necessary that we should take some positive step to secure additional grounds in order that the original Masquray plans may be carried out. I do not care, nor am I asking for an appropriation for a sum sfficient to improve the needed grounds, but I do think, in justice to the people of the State, and especially future generations, we should provide by ample appropriation, sufficient money to obtain not less than forty acres of ground adjacent to Lincoln Boulevard to the south of the Capitol Building.

"I need but to call your attention to the fact that in practically all the older States, the matter of securing adequate grounds adjacent to the Capitol was neglected until the land had increased in value so much that an appropriation of millions of dollars was required, instead of a comparatively nominal sum. For instance, I am advised that the State of Iowa has recently appropriated something like $3,000,000; Colorado something like $2,500.00 and Pennsylvania and Minnesota sums largely in excess of these amounts.

"The land lying immediately south of the Capitol, and not now platted into city lots, is essential in order that the original Masquray plan may be carried out and it is as cheap today as it ever will be. This land will enhance in value rapidly in the near future, and we cannot afford to wait until the next or subsequent sessions of the Legislature to secure the same.

"I am advised that it will require at this time not less than $125,000 to secure the required amount of land for the purpose indicated, and I most respectfully recommend that an appropriation be made to the Board of Affairs for the purpose of securing

this land, providing, that no contract for the purchase shall be entered into without the approval of the Governor.

"I know this seems like a large amount of money for this purpose. It might be that the State can sell some of the land donated for the location of the Capitol and use the funds for the purpose of securing the land, for which I recommend this appropriation, but I fear that it will take too much time to find purchasers and that the value of the land we need will increase more rapidly than the benefits that might accrue by the sale of these other lands. I feel also that these lands will not depreciate in value, but on the other hand will increase and the State can then sell them and profit by the increase. Whereas, if we are forced to sell them for that purpose now, we might be compelled to do so at a loss.

"I will thank your Honorable Body to give this matter careful consideration, and if our views coincide, cause to be prepared a bill along the lines indicated.

Respectfully,

J. B. A. ROBERTSON,

Governor.

SENATE CONCURRENT RESOLUTION No. 31.

By THOMAS.

A Resolution relating to the publication of the Session Laws of the 1919 Legislature.

Whereas, it is necessary to provide for the publication of the laws and resolutions enacted and passed by this legislature, and

Whereas, Heretofore the publication of such session laws has been superintended by a joint committee of the House and the Senate, and

Whereas, heretofore it has required from five to six months to complete said session laws ready for delivery and at an expense of from twenty-five hundred to three thousand dollars, and

Whereas, it is desirable that the session laws should be pre-

pared ready for delivery at the earliest possible date and at the lowest possible expense, and

Whereas, the Harlow Publishing Company has submitted to the legislature a proposition proposing to publish and deliver said session laws within forty-five days from the date of adjournment of the legislature and within thirty days from the date of the signature of the last bill by the Governor, which said proposition is as follows, to-wit:

January 4th, 1919.

Honorable J. Elmer Thomas,

Oklahoma City, Okla.

Dear Senator:—

Pursuant to our conversation, we make the following proposal relative to the publication of the Session Laws of Oklahoma, for 1919.

As you are aware, we publish immediately after the session of the legislature a compilation of the acts of the legislature, which are generally sold throughout the state of Oklahoma. We propose that in lieu of the state going to the expense of compiling and editing these Session Laws that the Secretary of State be authorized to purchase from us such a number of copies as will permit him to supply with a copy each officer of the state, or its sub-division, whom it is made his statutory duty to furnish such copy.

We will supply these books complete at the price of $1.25 per copy to the state. This will make 2000 books cost the state a net total of $2,500.00 with all the expense of compilation, editing and indexing eliminated.

To accomplish this end, it will be necessary only for the Secretary of State to furnish us a certified copy of each bill or resolution as it is deposited with him after signature by the governor, or in the case of resolutions not signed by the governor, after

final passage. This, as we understand it, will entail no additional expense whatever, as it has always been customary for the Secretary of the State to make a number of typewritten copies of these bills for the purpose of supplying such officers or persons as cannot wait for the publication of the bill. It is also necessary that the Secretary of the State be authorized to certify to the accuracy of compilation after having satisfied himself as to its accuracy; in other words, that he be authorized to place his certificate in this volume as he has done in previous volumes published at the expense of the state.

We will continue as before to sell our edition to the public. Our edition is now being sold in advance at the price of $3.00 per copy, and we have several hundred orders already in our files. In case our proposal is acceptable to the legislature, we will continue to sell the books at the same price, to-wit: $3.00 per copy to the public.

In the event our proposal is accepted, we will guarantee under bond, to begin delivery of these books complete, not more than thirty days after the signature of the last bill by the governor.

Respectfully submitted,

THE HARLOW PUBLISHING CO.

Victor E. Harlow, Pres.

Therefore, Be It Resolved by the Senate, the House of Representatives Concurring Therein:

First, the proposition as submitted us by the Harlow Publishing Company for the publication and delivery of the Session Laws of the 1919 legislature is hereby accepted.

Second, the Secretary of State is hereby authorized and directed to prepare and deliver to the Harlow Publishing Company, certified copies of all bills and resolutions passed and enacted by the present legislature, as soon as same are filed in the office of the Secretary of State, and the Secretary of State is further authorized and directed to superintend the publication

of such session laws to the end that the proof may be corrected, the books properly arranged and indexed, and when said session laws are so prepared the Secretary of State is hereby authorized and directed to place his certificate therein to the effect that said laws and resolutions contained in said session laws are true and correct copies of the originals on file in his said office.

Third. The Secretary of State is hereby authorized to employ such assistance as may be necessary to properly superintend the publication of the session laws as herein provided.

Fourth. The Secretary of State is hereby authorized and empowered to approve claims for such special assistants and for the printing of such session laws as provided herein, such claims to be made against the legislative contingent fund heretofore made available for the publication of such session laws.

Fifth. Upon the delivery to the Secretary of State of such session laws by the contracting publisher, the Secretary of State is hereby authorized and directed to distribute such session laws among the officials of the state as provided by law.

Mr. President:

We, your Special Committee to whom was referred Engrossed House Bill No. 42, by H. Tom Kight, entitled:

AN ACT PROVIDING FOR COST DEPOSIT IN CASES FILED ORIGINALLY OR UPON APPEAL IN THE SUPREME COURT OF THE STATE OF OKLAHOMA, FIXING THE DOCKET FEE, REPEALING LAWS IN CONFLICT HEREWITH, AND DECLARING AN EMERGENCY;

having had same under consideration, herewith return the same with the recommendation that it do pass, as amended. The amendments are as follows:

Amendment No. 1. Strike all of Section 1, and insert in lieu thereof the following:

Section 1. From and after the passage of this Act, all persons who desire to file in the Supreme Court of the State of Oklahoma any action, either original or upon appeal by transcript or case-made, shall be required to deposit with the clerk of said court a cost deposit at the time of commencing said action, or filing said transcript or case-made in the sum of Fifteen ($15.00) Dollars, and no other sum shall be required as a cost deposit in any of said causes filed in the Supreme Court. The provisions of this Act shall not apply to prevent the clerk of said court for re-requiring additional deposit at any time, not exceeding the sum of Fifteen ($15.00) Dollars, when the cost deposit already made becomes exhausted, provided that the clerk of said court shall accept in lieu of said cost deposit an affidavit, of the party appealing as is provided for the statutes in the District Court of the state of Oklahoma, in cases of forma pauperis.

Amendment No. 2. Strike all of Section 2 and insert in lieu thereof the following:

Section 2. In each cause hereafter filed in the Supreme Court there shall be taxed in lieu of the fee now provided for filing, indexing and docketing each cause, a docket fee of Three

($3.00) Dollars, which will be collected and recoverable as other costs.

Respectfully submitted,

The Fact that the line between two or more cities or towns is included in the description of more than one route, shall not authorize the construction of more than one road between such points.

There is hereby created a Commission to be known as the State Road Commission to be composed of five members. The Governor of the State shall be a member and ex-officio Chairman thereof; the other four members shall be appointed by the Governor and confirmed by the Senate when first in Session after the appointment is made; two of whom shall be Democrats, and two Republicans. No person shall be eligible to appointment on said Commission who has not been a bona fide resident of the State of Oklahoma for at least two years, who is not engaged in business in the State, and who is not widely known as a successful business or professional man of the highest character and integrity. The appointive members of said Commission shall hold office until the completion of the work herein contemplated, unless sooner removed by executive order. Any vacancy in said commission shall be filled by the Governor in the same manner and under the same restrictions as the original appointment was made.

The Governor shall receive no compensation for his services as a member or ex-officio Chairman of said Commission other than his salary as Governor. Each of the other members of said Commission shall receive an annual salary of Five Thousand ($5,000.00) dollars, payable monthly. All salaries of the members of said Commission, excepting that of the Governor, and all necessary traveling expenses of all members of said Commission incurred in the discharge of their duties under this Amendment, shall be paid out of the State Road Bond Fund. Each member of said Commission shall subscribe to the oath of office prescribed by law for State Officials, and excepting the Governor, shall make and deliver to the State of Oklahoma, a bond with sufficient surety to be approved by the Governor in the sum of One Hundred Thousand ($100,000) dollars, conditioned for the faithful performance of his duties, the premium on which shall be paid out of the State Road Bond Fund.

The office of said Commission shall be at the State Capitol and full and complete record of all the proceedings and acts of said Commission shall be kept and preserved, including the yea and nay vote of the members thereof upon every decision of said Commission, and the concurrence of at least three members shall be necessary for a decision on all questions. Said Commission shall have authority to employ a Secretary, and such other clerical and stenographic

help as it may deem necessary, and may fix the compensation thereof; and subject to the limitations and restrictions imposed by this amendment, said Commission shall have full and complete authority to do any and all things necessary or proper to carry out and accomplish the purposes for which it is created.

For the purpose of having such state wide system of durable hard surfaced highways constructed along the aforesaid routes, and for the purpose of providing for the payment of the costs of acquiring, improving and constructing said system of roads, said Commission is hereby authorized and empowered to issue and sell, or cause to be issued and sold, serial bonds of this State in an aggregate amount of not to exceed the sum of Fifty Million ($50,000,000) dollars. Said bonds shall be issued and sold only as the funds may be needed for the payment of the costs of acquisition, improvement and construction of said roads, and the expenses incident thereto, and in no event shall more than six million ($6,000,000) dollars of said authorized issue be issued or sold within one year from the date of authorization, nor more than Sixteen Million ($16,000,000) dollars within two years from such date, nor more than Thirty Million ($30,000,000) dollars within three years from such date; nor shall said Commission incur any indebtedness under the provisions of this Amendment during any one of such periods in excess of the amount of bonds authorized to be issued and sold during such period. Each of said bonds shall be in the denomination of One Hundred ($100.00) dollars, or some multiple thereof, and shall bear interest from date of issue, payable semi-annually at a rate not to exceed four and one-half (4½%) per cent per annum, and said bonds shall be exempt from every species of State, County, District and Municipal taxation, and no bonds shall run for more than twenty-five years from the date of issue. They shall be signed by the Governor, attested by the Secretary of State, under the seal of the State, countersigned by the State Auditor, and endorsed by the State Treasurer. Interest coupons with lithographed fac simile signature of the State Treasurer shall be attached to said bonds, and said bonds may, at the request of the holder thereof, be registered with the State Auditor. Said bonds when duly executed by said officers shall be deposited in the State Treasury until sold, and when sold, the proceeds thereof shall be covered into the State Treasury to the credit of the State Road Bond Fund, which is hereby specifically created, and any bonds sold hereunder shall be publicly advertised for thirty days in such manner as said commission shall direct, and shall be sold to the highest and best bidder for cash, and no bonds shall be sold for less than par and accrued interest. All interest on outstanding bonds so issued and sold shall be paid semi-annually, and Two Million ($2,000,000) dollars of the principal of said bonds shall be paid each year, and the bonds evidencing the same retired, until all outstanding bonds herein authorized shall have been paid and retired. The full faith and credit of the State of Oklahoma is hereby pledged for the prompt and full payment of the principal of said bonds so sold and the interest accruing thereon.

After this Amendment becomes fully operative and until all of said bonds with accrued interest shall have been paid and retired, there shall be collected annually by the State in the same manner and at the same time as other State Revenue is collected such a sum in addition to the ordinary expenses of the State as shall be required and sufficient to pay the principal of said bonds and accrued interest thereon as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the levy and collection of said revenue to do and perform each and every act which shall be necessary to levy and collect such additional sum; provided, that nothing herein contained shall be construed to affect or alter the provisions of Section 9 of Article 10, of this Constitution.

Until otherwise provided by law, the funds arising from the sale of said bonds are hereby made available, and so much thereof as may be necessary is hereby appropriated, for the purpose of meeting and complying with the requirements and conditions of the Acts of Congress heretofore or which may hereafter be passed, appropriating funds for or in aid of construction of good roads; provided, the roads so constructed are along the routes of the state wide system herein established and should the Federal Government at any time construct solely as a Federal project, durable hard surfaced roads along any part of the routes herein designated, the said Commission may accept such roads in lieu of State construction thereof and thereafter such roads shall come under the provisions of this Amendment.

Immediately after the provisions hereof become fully operative, the said Commission shall cause such preliminary surveys to be made and such preliminary work to be done as may be necessary or proper for the expeditious starting of the construction work herein contemplated, and shall cause such bonds as are authorized to be issued and sold hereunder during the first year after authorization, to be printed and engraved and duly executed by the proper officers, and when so executed placed in the State Treasury until sold, as hereinafter prescribed; bonds authorized to be issued and sold hereunder during the second, third and subsequent years after date of authorization shall be prepared, executed and deposited in the State Treasury during such years in like manner as those authorized during the first year. All bonds issued and sold during the first year after authorization shall bear date of August 1st, 1919, and all bonds issued and sold thereafter shall bear date of August 1st of the year in which sold; all of said bonds shall be numbered consecutively and payable in the order numbered at the rate of Two Million ($2,000,000) dollars each year, beginning August 1st, 1920. The interest on all of said bonds issued and sold shall be payable on the first day of August and the first day of February of each year as the same matures. The said bonds and interest thereon shall be payable in gold coin of the United States at the office of the State Treasury of this State, or of the fiscal agency of the State at the option of the holder thereof. Said bonds so issued and sold shall on the day of their maturity be paid as herein provided and cancelled by the State Treasurer. Appended to each of said bonds there shall be interest coupons so attached that the same may be detached without injury to or mutilation of said bonds. Said coupons shall be consecutively numbered. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bonds and the date of sale thereof unless such accrued interest shall have been by the purchaser of said bonds paid to the State at the time of such sale. All bonds remaining unsold shall at the time of maturity thereof be cancelled by the State Treasurer. When the bonds authorized by this Amendment to be issued shall have been signed, sealed, countersigned and endorsed as herein provided, the State Treasurer shall sell the same to the highest and best bidder or bidders for cash from time to time, and in such numbers and amounts as the State Road Commission may direct, subject to the limitations and restrictions herein provided. Such directions to the State Treasurer shall be given by the said Commission by resolution duly passed and adopted, and the said resolution shall specify the amount of money which in the judgment of said Commission shall be required at such time, and said Commission shall direct the State Treasurer to sell such number of said bonds as may be required to raise said amount of money, and said bonds shall be sold in consecutive, numerical order commencing with number one (1). The State Treasurer shall not accept any bid which is less than the par value of the bonds plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date, and all sales of said bonds shall be subject to approval by the Commission. The State Treasurer may at the time and place fixed by said Commission for said sale, continue such sale as to the whole or any part of the bonds offered to such time and

place as said Commission may at the time of such continuance designate. Before offering any of said bonds for sale, the Treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale, and cancel same. The State Treasurer shall give notice of the time and place of sale for at least thirty days prior thereto by public advertisement through such channels and for such length of time as may be prescribed by the State Roads Commission by resolution. All expenses incurred in the preparation of said bonds, and in the advertisement of the sale thereof as herein provided, shall be paid out of the State Road Revolving Fund herein provided for. Immediately after the sale of any such bonds the State Treasurer shall cover into the State Treasury to the credit of the State Road Bond Fund the total amount received for said bonds, except such amount as may have been paid as accrued interest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds sold shall be by the State Treasurer immediately after such sale, covered into the State Treasury to the credit of the General Revenue Fund of the State.

The State Road Bond Fund shall be used only for the purpose of acquiring, improving and constructing said state wide system of durable hard surfaced roads, and the expense incident thereto, and all payments out of said funds shall be made by the State Treasurer upon warrants drawn by the State Auditor, based upon properly verified claims audited and allowed by the State Road Commission, and certified to by the Chairman thereof, and also approved by the proper official having personal knowledge of the facts upon which such claims are based: provided, however, there is hereby created a fund in the State Treasury to be known as the State Road Revolving Fund, and there is hereby appropriated out of any money in the State Treasury the sum of One Hundred Thousand ($100,000) dollars to the credit of said Revolving Fund, and the State Auditor and the State Treasurer shall transfer upon their respective books the said sum to the credit of said Revolving Fund. The moneys in said State Road Revolving Fund, or such part thereof as the State Road Commission shall deem necessary, may until otherwise provided by law, be expended from time to time upon the claims of the officer having knowledge of the facts upon which said claims are based, approved by the State Road Commission, for the purpose of making cash payments in advance to adequately bonded employees for help, supplies and incidental expenses incurred during the operation of making surveys and investigations, operating gravel pits, crushing plants, and for such expenditures as are necessary or proper to carry out the provisions of this Amendment. Upon receipt of such claims so approved, it shall be the duty of the State Auditor to draw his warrant in favor of the person or persons therein named, and the State Treasurer shall pay the same out of the said State Road Revolving Fund. On or before the 10th day of each month thereafter the State Road Commission shall audit all expenditures during the preceding calendar month of the money so withdrawn from said Revolving Fund, and transmit to the State Auditor a certified itemized statement showing all such expenditures, accompanied by proper vouchers and receipts therefor with the approval of said Commission endorsed thereon. The State Auditor shall thereupon draw his warrant upon the State Road Bond Fund in favor of said Revolving Fund for the aggregate amount of such expenditures, and upon the surrender of such warrants, endorsed by the Chairman of said Commission, the State Treasurer shall transfer the amount thereof upon the books of his office from the State Road Bond Fund to the State Road Revolving Fund to be re-expended as herein provided. When the purposes for which said revolving fund is created have been accomplished, said fund shall be covered back into the State Treasury to the credit of the General Revenue Fund of the State.

The principal of said bonds shall be paid from the General Revenue Fund

of the State at the time said bonds become due, and the interest on all bonds sold shall be paid from the General Revenue Fund of the State at the time said interest becomes due. Both principal and interest shall be so paid upon warrants drawn by the State Auditor, and there is hereby appropriated from the General Revenue Fund of the State in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this Amendment as said principal and interest becomes due and payable, and said appropriation shall be prior and superior to all other appropriations.

Until otherwise provided by law, all revenue collected from the State upon incomes, and two-thirds of all moneys collected by the State from the taxation, licensing or regstration of self-propelled or other motor vehicles of whatsoever kind or character, and two-thirds of all revenues collected by the State upon the production of asphalt or ores bearing lead, zinc, gold, silver or copper, and upon the production of petroleum, or other crude or mineral oil or natural gas, shall be paid as collected into the State Treasury to the credit of the General Revenue Fund of the State.

The State Auditor and State Treasurer shall keep full and particular account and record of all their proceedings under this Amendment, and they shall transmit to the Governor in triplicate an abstract of all such proceedings hereunder, with an annual report in triplicate, one copy of each to be by the Governor transmited to and laid before each branch of the Legislature biennially. All books, papers and records pertaining to the matter provided for in this Amendment shall at all times be open to the inspection of the State Examiner and Inspector, a Committee of either branch of the Legislature, any person interested or any citizen of the State.

Said Commission shall cause the construction and completion of said system of durable hard surfaced roads as early as practicable under existing conditions, and consistent with good business management, having in view at all times the best interest of the people of the State. Said Commission is hereby authorized and empowered to purchase and supply any labor, tools, machinery, equipment, or materials that may be needed in the construction of said system of roads, and may purchase lands upon which are located materials adapted to the construction of said roads, and may build, equip and operate plants for manufacturing or producing such materials, and said Commission is also authorized and empowered to construct any part of said system of roads by contract, which shall be let as herein provided to the lowest and best bidder or bidders after public advertisement in such manner and at such time as may be prescribed by said Commission. Successful bidders for such construction work shall enter into such written contracts as shall be furnished and prescribed by said Commission, and shall give bond to the State with adequate surety to be approved by said Commission in such amount as may be fixed by said Commission to insure and guarantee the prompt and full performance of such contracts on their part in strict accordance with the provisions thereof. No contract for the furnishing of materials or the doing of any construction work shall be valid or binding upon the State unless there is contained therein a provision authorizing said Commission to abrogate and set aside the same for failure to strictly comply with the provisions thereof, and no contract shall be awarded for any construction work for an amount in excess of the estimated costs thereof approved by said Commission, and no payments on estimates shall be made in excess of eighty (80%) per cent of the contract price before full performance of the contract and acceptance of the contract work by said Commission. No officer or employee of the State shall ever become financially interested, either directly or indirectly in any contract or award provided for or authorized under the provisions of this Amendment.

Said Commission shall have at all times working access to all records, maps, profiles, charts and other data in the Highway Department of the State, and said Commission may call said Department and its force of employees including the State Engineer and his assistants, to its aid in carrying out the work herein contemplated. Said Commission may, in the name of the State of Oklahoma, receive by donation or dedication from municipal or private corporations or individuals any right-of-way, gravel pit, rock quarry, land or other thing necessary or proper for the construction or improvement of said roads, or the payment of the cost of construction thereof, and shall proceed when necessary to condemn under the provisions of law relating to eminent domain any such necessary or proper right-of-way, gravel pit, rock quarry or land. For construction purposes, said Commission shall divide the State into at least ten (10) convenient sections having as nearly as practicable the same number of miles of road to be constructed, and the construction of said roads shall as far as practicable, be commenced in said sections at approximately the same time, and shall be carried on as nearly as possible continuously until the entire system shall have been completed, extending the construction work into the various counties as rapidly as possible.

Wherever a road herein provided for traverses any town or city, which under the law has no power or authority to pave the street or streets over which such road runs, the cost of constructing such road through such town or city shall be paid out of the State Road Bond Fund, but whenever such road traverses an incorporated town or city which has the power and authority under the law to pave the street or streets over which such road runs, no part of the cost of constructing such road within the incorporated limits of such town or city shall be paid out of said fund.

The State Road Commission shall employ a Chief Engineer, who shall be a reputable and experienced highway engineer, and fix his salary, and he shall be subject to removal at any time by said Commission. The Chief Engineer, with the approval of said Commission, shall employ, organize, train, promote or discharge the members of the engineering corps, composed of technical and clerical assistants required for the work imposed on the several departments, and the rate of pay for all members of the engineering organization shall be fixed by said Commission. The Chief Engineer, or his authorized representatives, shall make all surveys, plans, specifications and estimates required to prepare the work for actual construction, including the advertising and receiving bids therefor. After having fully canvassed the bids received, the Chief Engineer or his authorized representatives, shall report and transmit all bids received to said Commission, with such recommendations in regard thereto as he may deem proper, and the Division Engineer most cognizant of the facts involved may make such recommendations in regard thereto as he may deem proper. The said Commisison shall then with all reasonable promptness award the contract, if satisfied that it is in the public interest to do so, otherwise said Commission may reject any and all bids received. When the contract has been so awarded or other suitable provision for construction made, it shall be the duty of the Chief Engineer to supervise and carry forward all work to full and definite completion in compliance with the plans and specifications provided therefor, and to prepare all estimates for progress and final payments for work done or materials furnished, and to forward same when properly authenticated, to said Commission whose duty it shall then be to promptly advance the claims by appropriate means to payment by the State Treasurer as herein provided. All engineers shall be employed and paid on a salary basis, and not on a percentage basis.

It is the purpose and intent of this Amendment to require the construction of permanent, durable hard surfaced roads along the routes herein designated,

having in view the location of the roads with reference to foundation conditions and the presence of local materials which may be advantageously used in some part of the construction, together with the heavy traffic requirements of the section of road in question, and to provide that no hard surfaced road shall be built that does not furnish sound reason for believing that it will withstand the reasonably expected traffic thereon for a period of five years with no more than ten per cent total depreciation. No bridge spanning an opening of more than ten (10) feet shall be built or paid for out of said State Road Bond Fund.

The Legislature shall provide and establish an equitable system for the maintenance of the roads constructed under the provisions of this Amendment, and in so doing may establish improvement zones along said roads within reasonable distances therefrom and require the owners of lands and property rights within such zones, to pay an equitable assessment or tax annually, based upon or without regard to the valuation of such lands or property rights. Such maintenance fund may be provided to cover a period of years and the annual assessment or tax fixed at such sum as will provide a fund sufficient to maintain such roads during such period.

Until otherwise provided by law, and for the purpose of creating a fund from which to repair and maintain the system of hard surfaced roads herein provided for, an annual assessment is hereby levied upon all lands outside of incorporated towns and cities within a distance of three miles of any road constructed under the provisions of this Amendment in the following amounts, to-wit: (1) On all lands within one-half mile of the center line of such road, eight cents per acre. (2) On all lands within one mile of such center line, and beyond the one-half mile limit, six cents per acre. (3) On all lands within one and one-half miles of such center line, and beyond the one mile limit, four cents per acre. (4) On all lands within two miles of such center line and beyond the one and one-half mile limit, three cents per acre. (5) On all lands within two and one-half miles of said center line, and beyond the two mile limit, two cents per acre. (6) On all lands within three miles of said center line, and beyond the two and one-half mile limit, one cent per acre. In all cases of fractional parts of an acre the assessment shall be reduced so that any fractional part will bear its proportional part of the acreage assessment only, and lands within two or more taxing areas shall only be liable in the taxing area carrying the highest assessment. As soon as the line of road traversing any county or portion thereof is completed and accepted, the Chief Engineer shall make or cause to be made an accurate and complete plan and schedule of all the lands in such county liable for the assessments herein authorized, showing the acreage within the different zones along said road, the total acre in each zone, and the total amount of assessments as herein levied upon lands situated in such counties, and file one copy of such plan and schedule with the County Assessor and one with the County Clerk of the County in which such land is situated. Before filing any such plan and schedule the Chief Engineer shall certify to the correctness thereof which certificate shall be endorsed upon or attached to such plan and schedule. Whenever any section or portion of road improved and hard surfaced as herein provided shall be completed and accepted by the State Road Commission, the Chairman of said Commission shall execute a certificate showing such completion and acceptance, giving the length and terminals thereof as nearly as practicable according to the Government land surveys. A copy of such certificate shall be filed with the County Assessor of each county wherein is situated any lands within the six mile area of such completed section or portion of road. Upon receipt of such certificate the County Assessor shall place upon the tax rolls for the next succeeding year and annually thereafter, the land liable for such special assessments in his county, with the amount of such assessment for which each separate tract shall be liable, with the name of the owner or owners thereof when ascertainable. The first assessment shall

be due and payable at the first semi-annual payment of taxes in the first year succeeding the completion and acceptance of the section or portion of roads in any county as certified to by the Chairman of said Commission. Such assessments shall beome a lien which lien shall be superior and prior to all other liens upon the lands against which the same shall be levied at the same time, in the same manner and to the same extent as other general taxes against real estate. Such assessments and any and all penalties and interest thereon shall be collected by the County Treasurer as state and county taxes are collected, and shall be subject to the same penalties and bear the same rate of interest in case of non-payment when due, and all laws for the collection of delinquent taxes and the sale, conveyance and redemption of land shall be applicable to the collection of said assessments the same as provided for other delinquent taxes.

Until otherwise provided by law, any lands used or occ pied as railroad right-of-way situated within the six mile area liable for the special assessments as herein authorized, shall be exempt from said acreage assessments and in lieu thereof there is hereby levied an annual assessment of fifteen ($15.00) dollars per mile, and in the same ratio upon any portion of a mile upon the right-of-way and trackage of all the main lines of railroads and five ($5.00) dollars per mile upon all side tracks within the acreage area assessable for such hard surfaced roads. Upon all telegraph pole lines situated within the six mile area liable for special assessments as herein authorized, there is hereby levied an annual assessment of three ($3.00) dollars per mile; upon all telephone pole lines Two ($2.00) dollars per mile; and upon all electric power or transmission lines, five ($5.00) dollars per mile; provided, however, that private telephone lines and mutual rural telephone lines not operated for profit and situated within the six mile area liable for special assessments as herein described, shall not be taxed under the provisions hereof; provided, further, that upon all pipe lines situated within the six mile area liable for special assessment carrying oil, gas or water, except such as are owned by municipal corporations, there is hereby levied an annual assessment of Two ($2.00) dollars per mile on all such lines of from two to four inches in diameter, Three dollars per mile upon all such lines from four to six inches in diameter, Four dollars per mile on all such lines from six to eight inches in diameter, Five dollars per mile on all such lines from eight to ten inches in diameter, and Six dollars per mile on all lines over ten inches in diameter. Such assessment shall be paid by the Company owning or operating said lines in lieu of said acreage assessment, and shall be payable at the same time, in the same manner and to the same officers as other taxes. The said assessments shall be placed in a special fund to be designated State Road Maintenance Fund, and the County Treasurer of each county shall at the time of making returns and payments of other taxes to the State Treasurer, report and pay over to the State Treasurer all moneys in his hands belonging to such fund. The State Road Maintenance Fund shall be used only to meet the expense of the purchase of materials and road machinery, and the payment of labor employed in the repair, upkeep and maintenance of the roads improved and hard surfaced under the provisions of this Amendment. Such funds shall be expended under the direction of such agencies and in such manner as the Legislature shall authorize.

Whenever the state wide system of hard surfaced roads herein provided for embraces within any county a durable hard surfaced road in good repair which meets the plans and specifications prescribed and required by said Commission for hard surfaced roads in that locality and which has been constructed and paid for by such county or any township therein, in whole or in part, the said Commission is authorized to accept such hard surfaced roads as a part of said State wide system, and if said Commission accepts any such road as a part of said state wide system, the said Commission shall cause to be constructed in such county along such route or routes as it may designate, a hard surfaced

road according to the same plans and specifications equal in mileage to that portion of such road taken over as a part of said state wide system, and when so constructed such road shall become and be a part of the said state wide system of roads. The public highways of the state upon which hard surfaced roads are being constructed, shall during the period of construction be under the jurisdiction and control of said Commission. After the completion of the construction of such roads, and as the same are constructed and accepted by said Commission, they shall pass under the jurisdiction and control of the State Department of Highways and shall be maintained by the State under the authority and control of said Department of Highways as herein provided until otherwise provided by law.

Any individual, firm or corporation, public or private, using the right-of-way of any public highway along which such roads are being constructed, shall immediately upon demand of said commission move or adjust his or their pole lines, pipe lines, tram lines and other fixtures as may be required by said Commission, and in case of failure to promptly do so, said Commission shall have authority to move or adjust or cause to be moved or adjusted, such lines and fixtures in such manner and at such time as said Commission may deem expedient, and said Commission shall have authority to collect from the owner or owners of such lines and fixtures the cost of such moving or adjusting, and said Commission shall have authority to institute action in the proper court in the name of the state to recover such costs.

The Governor may appoint an advisory board, consisting of at least twenty members who shall be practical, experienced business men, which shall be known as the Citizens Advisory Board to the State Road Commission. The members of said Board shall serve without compensation and without expense to the State. They shall have access at all times to all bids, contracts, maps, plats and files in the possession of said Commission, and shall be kept fully advised at all times by said Commission of the proceedings thereof, and the progress of said construction work. Said Advisory Board shall meet from time to time with said Commission, and make such suggestions and offer such advice as said board may deem wise and proper. In addition to the appointment of said Citizens Advisory Board, the Governor may appoint in each county of the State, wherein construction work under the provisions of this amendment is being done, a Citizens Inspection Board for such county, composed of three members who shall be residents and citizens of said county. Such members shall serve without compensation and without expense to the state, and each Citizens Inspection Board shall be furnished by said Commission with a copy of the plans, profiles and specifications of all construction road work being done in its county, under the provisions of this Amendment, and said Citizens Inspection Board may independently of any other authority, inspect from time to time and as often as it may deem advisable, the work under construction, and whether or not such work is being done according to plans and specifications; and if at any time said Citizens Inspection Board shall believe that such road work is not being executed in strict accordance with the plans and specifications therefor, it shall notify and advise the State Road Commission of any failure on the part of the Contractor or person having in charge such construction work. This Amendment shall be self executing.

Section 2. This Amendment shall be submitted to the people of the State for their approval or rejection at a special election to be held throughout the state on the 6th day of May, 1919, in substantially the following form:

"Shall Article 10 of the Constitution of Oklahoma be amended by adding a new Section thereto to be known as Section 25A of said Article, authorizing the issuance and sale of serial bonds of the State in an aggregate amount not to exceed Fifty Million ($50,000,000) Dollars for the purpose of constructing a state wide system of durable hard surfaced roads, providing for raising revenues for the payment and retirement of said bonds, creating a Commission, and providing for the construction of said roads under the supervision and control of said Commission; authorizing the Legislature to establish an equitable system for the maintenance of said roads so constructed, and establishing a system of maintenance thereof, until otherwise provided by law?"

SECTION 3. Said election shall be held and returns thereof made in the same manner and by the same officials as in the case of the election of State Officers, and in accordance as near as may be with the provisions of the general election laws of this State. The Secretary of State shall certify to the State Election Board the form of said ballot, and the respective persons whose duty it is under the general election laws of the state to cause notice of the election to be given and ballots printed and distributed, and election to be held, and result thereof to be ascertained and declared, are hereby authorized, empowered and directed to take every step and to do every thing necessary to be taken and done in such cases, so as to cause this Amendment to be properly submitted to the people of the State for their approval or rejection. When the State Election Board has canvassed the returns of said election, and ascertained the result thereof, it shall immediately certify to the Secretary of State the result of said election, giving the total number of votes for and against said Amendment, and thereupon the Governor of the State shall by proclamation declare the result of said election.

SECTION 4. If for any reason said election cannot be held on the aforesaid date, it shall be held on such date thereafter as the Governor of this State shall by proclamation designate.

SECTION 5. This resolution shall be published in at least three daily newspapers of general circulation in the State, once each week for at least three consecutive weeks, before the vote of the people shall be taken upon said Amendment, and the publication of this resolution, as herein provided, is hereby declared to be notice to the people of the State of the provisions of said Amendment and of its submission to the people.

SECTION 6. If said proposed Amendment receives at said special election a majority of the votes of all electors voting at said election, then the will of the people so expressed, or attempted to be so expressed, shall not be defeated nor set aside on account of the failure, negligence or carelessness of any officer or person in the performance of his duty, but the amendment shall immediately go into full force and effect.

SECTION 7. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist by reason whereof it is necessary that this Resolution take effect and be in force from and after its passage and approval.

4. That the House and Senate agree to the foregoing amendments so that said resolution as amended, will read according to the copy hereto attached and made a part hereof.

Senate Joint Resolution No. 10 was read at length as follows:

Senate Joint Resolution No. 10

BY BOARD OF THE SENATE AND NESBITT

OF THE HOUSE

A Resolution proposing an amendment to Article 10 of the Constitution of the State of Oklahoma, to be known as Section 25A of said Article, providing for the construction of a statewide system of durable hard-surfaced roads in the State, for the payment of the cost thereof by an issue of bonds of the State in an aggregate amount of not exceeding fifty million dollars ($50,000,000.00), for the retirement of said bonds, and providing for the maintenance of said roads, and for the submission of said amendment to the people of the State for their approval or rejection at a special election, to be held for that purpose; and declaring an emergency.

"SECTION 1. The following amendment to Article 10 of the Constitution of the State of Oklahoma, same to constitute a new section to be known as Section 25A of said Article, is hereby proposed. The Secretary of State is hereby authorized and directed to submit said proposed amendment to the

people of the State of Oklahoma for their approval or rejection as provided by law. Said proposed amendment shall be as follows, to-wit:

"Section 25A. There is hereby established in this State a system of durable, hard-surfaced highways as near as may be along the following routes, to-wit:

The Fact that the line between two or more cities or towns is included in the description of more than one route, shall not authorize the construction of more than one road between such points.

There is hereby created a Commission to be known as the State Road Commission to be composed of five members. The Governor of the State shall be a member and ex-officio Chairman thereof; the other four members shall be appointed by the Governor and confirmed by the Senate when first in Session after the appointment is made; two of whom shall be Democrats, and two Republicans. No person shall be eligible to appointment on said Commission who has not been a bona fide resident of the State of Oklahoma for at least two years, who is not engaged in business in the State, and who is not widely known as a successful business or professional man of the highest character and integrity. The appointive members of said Commission shall hold office until the completion of the work herein contemplated, unless sooner removed by executive order. Any vacancy in said commission shall be filled by the Governor in the same manner and under the same restrictions as the original appointment was made.

The Governor shall receive no compensation for his services as a member or ex-officio Chairman of said Commission other than his salary as Governor. Each of the other members of said Commission shall receive an annual salary of Five Thousand ($5,000.00) dollars, payable monthly. All salaries of the members of said Commission, excepting that of the Governor, and all necessary traveling expenses of all members of said commission incurred in the discharge of their duties under this Amendment, shall be paid out of the State Road Bond Fund. Each member of said Commission shall subscribe to the oath of office prescribed by law for State Officials, and excepting the Governor, shall make and deliver to the State of Oklahoma, a bond with sufficient surety to be approved by the Governor in the sum of One Hundred Thousand ($100,000) dollars conditioned for the faithful performance of his duties, the premium on which shall be paid out of the State Road Bond Fund.

The office of said Commission shall be at the State Capitol and full and complete record of all the proceedings and acts of said Commission shall be kept and preserved, including the yea and nay vote of the members thereof upon every decision of said Commission, and the concurrence of at least three members shall be necessary for a decision on all questions. Said Commission shall have authority to employ a Secretary, and such other clerical and stenographic

help as it may deem necessary, and may fix the compensation thereof; and subject to the limitations and restrictions imposed by this amendment, said Commission shall have full and complete authority to do any and all things necessary or proper to carry out and accomplish the purposes for which it is created.

For the purpose of having such state wide system of durable hard surfaced highways constructed along the aforesaid routes, and for the purpose of providing for the payment of the costs of acquiring, improving and constructing said system of roads, said Commission is hereby authorized and empowered to issue and sell, or cause to be issued and sold, serial bonds of this State in an aggregate amount of not to exceed the sum of Fifty Million ($50,000,000) dollars. Said bonds shall be issued and sold only as the funds may be needed for the payment of the costs of acquisition, improvement and construction of said roads, and the expenses incident thereto, and in no event shall more than six million ($6,000,000) dollars of said authorized issue be issued or sold within one year from the date of authorization, nor more than Sixteen Million ($16,000,000) dollars within two years from such date, nor more than Thirty Million ($30,000,000) dollars within three years from such date; nor shall said Commission incur any indebtedness under the provisions of this Amendment during any one of such periods in excess of the amount of bonds authorized to be issued and sold during such period. Each of said bonds shall be in the denomination of One Hundred ($100.00) dollars, or some multiple thereof, and shall bear interest from date of issue, payable semi-annually at a rate not to exceed four and one-half (4½%) per cent per annum, and said bonds shall be exempt from every species of State, County, District and Municipal taxation, and no bonds shall run for more than twenty-five years from the date of issue. They shall be signed by the Governor, attested by the Secretary of State, under the seal of the State, countersigned by the State Auditor, and endorsed by the State Treasurer. Interest coupons with lithographed fac simile signature of the State Treasurer shall be attached to said bonds, and said bonds may, at the request of the holder thereof, be registered with the State Auditor. Said bonds when duly executed by said officers shall be deposited in the State Treasury until sold, and when sold, the proceeds thereof shall be covered into the State Treasury to the credit of the State Road Bond Fund, which is hereby specifically created, and any bonds sold hereunder shall be publicly advertised for thirty days in such manner as said Commission shall direct, and shall be sold to the highest and best bidder for cash, and no bonds shall be sold for less than par and accrued interest. All interest on outstanding bonds so issued and sold shall be paid semi-annually, and Two Million ($2,000,000) dollars of the principal of said bonds shall be paid each year, and the bonds evidencing the same retired, until all outstanding bonds herein authorized shall have been paid and retired. The full faith and credit of the State of Oklahoma is hereby pledged for the prompt and full payment of the principal of said bonds so sold and the interest accruing thereon.

After this Amendment becomes fully operative and until all of said bonds with accrued interest shall have been paid and retired, there shall be collected annually by the State in the same manner and at the same time as other State Revenue is collected such a sum in addition to the ordinary expenses of the State as shall be required and sufficient to pay the principal of said bonds and accrued interest thereon as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the levy and collection of said revenue to do and perform each and every act which shall be necessary to levy and collect such additional sum; provided, that nothing herein contained shall be construed to affect or alter the provisions of Section 9 of Article 10, of this Constitution.

Until otherwise provided by law, the funds arising from the sale of said bonds are hereby made available, and so much thereof as may be necessary is hereby appropriated, for the purpose of meeting and complying with the requirements and conditions of the Acts of Congress heretofore or which may hereafter be passed, appropriating funds for or in aid of construction of good roads; provided, the roads so constructed are along the routes of the state wide system herein established and should the Federal Government at any time construct solely as a Federal project, durable hard surfaced roads along any part of the routes herein designated, the said Commission may accept such roads in lieu of State construction thereof and thereafter such roads shall come under the provisions of this Amendment.

Immediately after the provisions hereof become fully operative, the said Commission shall cause such preliminary surveys to be made and such preliminary work to be done as may be necessary or proper for the expeditious starting of the construction work herein contemplated, and shall cause such bonds as are authorized to be issued and sold hereunder during the first year after authorization, to be printed and engraved and duly executed by the proper officers, and when so executed placed in the State Treasury until sold, as hereinafter prescribed; bonds authorized to be issued and sold hereunder during the second, third and subsequent years after date of authorization shall be prepared, executed and deposited in the State Treasury during such years in like manner as those authorized during the first year. All bonds issued and sold during the first year after authorization shall bear date of August 1st, 1919, and all bonds issued and sold thereafter shall bear date of August 1st of the year in which sold; all of said bonds shall be numbered consecutively and payable in the order numbered at the rate of Two Million ($2,000,000) dollars each year, beginning August 1st, 1920. The interest on all of said bonds issued and sold shall be payable on the first day of August and the first day of February of each year as the same matures. The said bonds and interest thereon shall be payable in gold coin of the United States at the office of the State Treasury of this State, or of the fiscal agency of the State at the option of the holder thereof. Said bonds so issued and sold shall on the day of their maturity be paid as herein provided and cancelled by the State Treasurer. Appended to each of said bonds there shall be interest coupons so attached that the same may be detached without injury to or mutilation of said bonds. Said coupons shall be consecutively numbered. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bonds and the date of sale thereof unless such accrued interest shall have been by the purchaser of said bonds paid to the State at the time of such sale. All bonds remaining unsold shall at the time of maturity thereof be cancelled by the State Treasurer. When the bonds authorized by this Amendment to be issued shall have been signed, sealed, counter-signed and endorsed as herein provided, the State Treasurer shall sell the same to the highest and best bidder or bidders for cash from time to time, and in such numbers and amounts as the State Road Commission may direct, subject to the limitations and restrictions herein provided. Such directions to the State Treasurer shall be given by the said Commission by resolution duly passed and adopted, and the said resolution shall specify the amount of money which in the judgment of said Commission shall be required at such time, and said Commission shall direct the State Treasurer to sell such number of said bonds as may be required to raise said amount of money, and said bonds shall be sold in consecutive, numerical order commencing with number one (1). The State Treasurer shall not accept any bid which is less than the par value of the bonds plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date, and all sales of said bonds shall be subject to approval by the Commission. The State Treas-

urer may at the time and place fixed by said Commission for said sale, continue such sale as to the whole or any part of the bonds offered to such time and place as said Commission may at the time of such continuance designate. Before offering any of said bonds for sale, the Treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale, and cancel same. The State Treasurer shall give notice of the time and place of sale for at least thirty days prior thereto by public advertisement through such channels and for such length of time as may be prescribed by the State Roads Commission by resolution. All expenses incurred in the preparation of said bonds, and in the advertisement of the sale thereof as herein provided, shall be paid out of the State Road Revolving Fund herein provided for. Immediately after the sale of any such bonds the State Treasurer shall cover into the State Treasury to the credit of the State Road Bond Fund the total amount received for said bonds, except such amount as may have been paid as accrued inerest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds sold shall be by the State Treasurer immediately after such sale, covered into the State Treasury to the credit of the General Revenue Fund of the State.

The State Road Bond Fund shall be used only for the purpose of acquiring, improving and constructing said state wide system of durable hard surfaced roads, and the expense incident thereto, and all payments out of said funds shall be made by the State Treasurer upon warrants drawn by the State Auditor, based upon properly verified claims audited and allowed by the State Road Commission, and certified to by the Chairman thereof, and also approved by the proper official having personal knowledge of the facts upon which such claims are based; provided, however, there is hereby created a fund in the State Treasury to be known as the State Road Revolving Fund, and there is hereby appropriated out of any money in the State Treasury the sum of One Hundred Thousand ($100,000) dollars to the credit of said Revolving Fund, and the State Auditor and the State Treasurer shall transfer upon their respective books the said sum to the credit of said Revolving Fund. The moneys in said State Road Revolving Fund, or such part thereof as the State Road Commission shall deem necessary, may until otherwise provided by law, be expended from time to time upon the claims of the officer having knowledge of the facts upon which said claims are based, approved by the State Road Commission, for the purpose of making cash payments in advance to adequately bonded employees for help, supplies and incidental expenses incurred during the operation of making surveys and investigations, operating gravel pits crushing plants, and for such expenditures as are necessary or proper to carry out the provisions of this Amendment. Upon receipt of such claims so approved, it shall be the duty of the State Auditor to draw his warrant in favor of the person or persons therein named, and the State Treasurer shall pay the same out of the said State Road Revolving Fund. On or before the 10th day of each month thereafter the State Road Commission shall audit all expenditures during the preceding calendar month of the money so withdrawn from said Revolving Fund, and transmit to the State Auditor a certified itemized statement showing all such expenditures, accompanied by proper vouchers and receipts therefor with the approval of said Commission endorsed thereon. The State Auditor shall thereupon draw his warant upon the State Road Bond Fund in favor of said Revolving Fund for the aggregate amount of such expenditures and upon the surender of such warants, endorsed by the Chairman of said Commission, the State Treasurer shall transfer the amount thereof upon the books of his office from the State Road Bond Fund to the State Road Revolving Fund to be re-expended as herein provided. When the purposes for which said revolving fund is created have been accomplished, said fund shall be

covered back into the State Treasury to the credit of the General Revenue Fund of the State.

The principal of said bonds shall be paid from the General Revenue Fund of the State at the time said bonds become due, and the interest on all bonds sold shall be paid from the General Revenue Fund of the State at the time said interest becomes due. Both principal and interest shall be so paid upon warrants drawn by the State Auditor, and there is hereby appropriated from the General Revenue Fund of the State in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this Amendment as said principal and interest becomes due and payable, and said appropriation shall be prior and superior to all other appropriations.

Until otherwise provided by law, all revenue collected from the State upon incomes, and two-thirds of all moneys collected by the State from the taxation, licensing or registration of self-propelled or other motor vehicles of whatsoever kind or character, and two-thirds of all revenues collected by the State upon the production of asphalt or ores bearing lead, zinc, gold, silver or copper, and upon the production of petroleum, or other crude or mineral oil or natural gas shall be paid as collected into the State Treasury to the credit of the General Revenue Fund of the State.

The State Auditor and State Treasurer shall keep full and particular account and record of all their proceedings under this Amendment, and they shall transmit to the Governor in triplicate an abstract of all such proceedings hereunder, with an annual report in triplicate, one copy of each to be by the Governor transmitted to and laid before each branch of the Legislature biennially. All books, papers and records pertaining to the matter provided for in this Amendment shall at all times be open to the inspection of the State Examiner and Inspector, a Committee of either branch of the Legislature, any person interested or any citizen of the State.

Said Commission shall cause the construction and completion of said system of durable hard surfaced roads as early as practicable under existing conditions, and consistent with good business management, having in view at all times the best interest of the people of the State. Said Commission is hereby authorized and empowered to purchase and supply any labor, tools, machinery, equipment, or materials that may be needed in the construction of said system of roads, and may purchase lands upon which are located materials adapted to the construction of said roads, and may build, equip and operate plants for manufacturing or producing such materials, and said Commission is also authorized and empowered to construct any part of said system of roads by contract, which shall be let as herein provided to the lowest and best bidder or bidders after public advertisement in such manner and at such time as may be prescribed by said Commission. Successful bidders for such construction work shall enter into such written contracts as shall be furnished and prescribed by said Commission, and shall give bond to the State with adequate surety to be approved by said Commission in such amount as may be fixed by said Commission to insure and guarantee the prompt and full performance of such contracts on their part in strict accordance with the provisions thereof. No contract for the furnishing of materials or the doing of any construction work shall be valid or binding upon the State unless there is contained therein a provision authorizing said Commission to abrogate and set aside the same for failure to strictly comply with the provisions thereof, and no contract shall be awarded for any construction work for an amount in excess of the estimated costs thereof approved by said Commission, and no payments on estimates shall be made in excess of

eighty (80%) per cent of the contract price before full performance of the contract and acceptance of the contract work by said Commission. No officer or employee of the State shall ever become financially interested, either directly or indirectly in any contract or award provided for or authorized under the provisions of this Amendment.

Said Commission shall have at all times working access to all records, maps, profiles, charts and other data in the Highway Department of the State, and said Commission may call said Department and its force of employees including the State Engineer and his assistants, to its aid in carrying out the work herein contemplated. Said Commission may, in the name of the State of Oklahoma, receive by donation or dedication from municipal or private corporations or individuals any right-of-way, gravel pit, rock quarry, land or other thing necessary or proper for the construction or improvement of said roads, or the payment of the cost of construction thereof, and shall proceed when necessary to condemn under the provisions of law relating to eminent domain any such necessary or proper right-of-way, gravel pit, rock quarry or land. For construction purposes, said Commission shall divide the State into at least ten (10) convenient sections having as nearly as practicable the same number of miles of road to be constructed, and the construction of said roads shall as far as practicable, be commenced in said sections at approximately the same time, and shall be carried on as nearly as possible continuously until the entire system shall have been complted, extending the construction work into the various counties as rapidly as possible.

Wherever a road herein provided for traverses any town or city, which under the law has no power or authority to pave the street or streets over which such road runs, the cost of constructing such road through such town or city shall be paid out of the State Road Bond Fund, but whenever such road traverses an incorporated town or city which has the power and authority under the law to pave the street or streets over which such road runs, no part of the cost of constructing such road within the incorporated limits of such town or city shall be paid out of said fund.

The State Road Commission shall employ a Chief Engineer, who shall be a reputable and experienced highway engineer, and fix his salary, and he shall be subject to removel at any time by said Commission. The Chief Engineer, with the approval of said Commission, shall employ, organize, train, promote or discharge the members of the engineering corps, composed of technical and clerical assistants required for the work imposed on the several departments, and the rate of pay for all members of the engineering organization shall be fixed by said Commission. The Chief Engineer, or his authorized representatives, shall make all surveys, plans, specifications and estimates required to prepare the work for actual construction, including the advertising and receiving bids therefor. After having fully canvassed the bids received, the Chief Engineer or his authorized representatives, shall report and transmit all bids received to said Commission, with such recommendations in regard thereto as he may deem proper, and the Division Engineer most cognizant of the facts involved may make such recommendations in regard thereto as he may deem proper. The said Commission shall then with all reasonable promptness award the contract, if satisfied that it is in the public interest to do so, otherwise said Commission may reject any and all bids received. When the contract has been so awarded or other suitable provision for construction made, it shall be the duty of the Chief Engineer to supervise and carry forward all work to full and definite completion in compliance with the plans and specifications provided therefor, and to prepare all estimates for progress and final payments for work done or materials furnished, and to forward same when properly authenticated,

to said Commission whose duty it shall then be to promptly advance the claims by appropriate means to payment by the State Treasurer as herein provided. All engineers shall be employed and paid on a salary basis, and not on a percentage basis.

It is the purpose and intent of this Amendment to require the construction of permanent, durable hard surfaced roads along the routes herein designated, having in view the location of the roads with reference to foundation conditions and the presence of local materials which may be advantageously used in some part of the construction, together with the heavy traffic requirements of the section of road in question, and to provide that no hard surfaced road shall be built that does not furnish sound reason for believing it will withstand the reasonably expected traffic thereon for a period of five years with no more than ten per cent total depreciation. No bridge spanning an opening of more than ten (10) feet shall be built or paid for out of said State Road Bond Fund.

The Legislature shall provide and establish an equitable system for the maintenance of the roads constructed under the provisions of this Amendment, and in so doing may establish improvement zones along said roads within reasonable distances therefrom and require the owners of lands and property rights within such zones, to pay an equitable assessment or tax annually, based upon or without regard to the valuation of such lands or property rights. Such maintenance fund may be provided to cover a period of years and the annual assessment or tax fixed at such sum as will provide a fund sufficient to maintain such roads during such period.

Until otherwise provided by law, and for the purpose of creating a fund from which to repair and maintain the system of hard surfaced roads herein provided for, an annual assessment is hereby levied upon all lands outside of incorporated towns and cities within a distance of three miles of any road constructed under the provisions of this Amendment in the following amounts, to-wit: (1) On all lands within one-half mile of the center line of such road, eight cents per acre. (2) On all lands within one mile of such center line, and beyond the one-half mile limit, six cents per acre. (3) On all lands within one and one-half miles of such center line, and beyond the one mile limit, four cents per acre. (4) On all lands within two miles of such center line and beyond the one and one-half mile limit, three cents per acre. (5) On all lands within two and one-half miles of said center line, and beyond the two mile limit, two cents per acre. (6) On all lands within three miles of said center line, and beyond the two and one-half mile limit, one cent per acre. In all cases of fractional parts of an acre the assessment shall be reduced so that any fractional part will bear its proportional part of the acreage assessment only, and lands within two or more taxing areas shall only be liable to the taxing area carrying the highest assessment. As soon as the line of road traversing any county or portion thereof is completed and accepted, the Chief Engineer shall make or cause to be made an accurate and complete plan and schedule of all the lands in such county liable for the assessment herein authorized, showing the acreage within the different zones along said road, the total acre in each zone, and the total amount of assessments as herein levied upon lands situated in such counties, and file one copy of such plan and schedule with the County Assessor and one with the county Clerk of the County in which such land is situated. Before filing any such plan and schedule the Chief Engineer shall certify to the correctness thereof which certificate shall be endorsed upon or attached to such plan and schedule. Whenever any section or portion of road improved and hard surfaced as herein provided shall be completed and accepted by the State Road Commission, the Chairman of said Commission shall execute a certificate showing such completion and acceptance, giving the length and terminals there-

of as nearly as practicable according to the Government land surveys. A copy of such certificate shall be filed with the County Assessor of each county wherein is situated any lands within the six mile area of such completed section or portion of road. Upon receipt of such certificate the County Assessor shall place upon the tax rolls for the next succeeding year and annually thereafter, the land liable for such special assessments in his county, with the amount of such assessment for which each separate tract shall be liable, with the name of the owner or owners thereof when ascertainable. The first assessment shall be due and payable at the first semi-annual payment of taxes in the first year succeding the completion and acceptance of the section or portion of roads in any county as certified to by the Chairman of said Commission. Such assessments shall become a lien, which lien shall be superior and prior to all other liens upon the lands against which the same shall be levied at the same time, in the same manner and to the same extent as other general taxes against real estate. Such assessments and any and all penalties and interest thereon shall by collected by the County Treasurer as state and county taxes are collected, and shall be subject to the same penalties and bear the same rate of interest in case of non-payment when due, and all laws for the collection of delinquent taxes and the sale, conveyance and redemption of land shall be applicable to the collection of said assessments the same as provided for other delinquent taxes.

Until otherwise provided by law, any lands used or occupied as railroad right-of-way situated within the six mile area liable for the special assessments as herein authorized shall be exempt from said acreage assessments and in lieu thereof there is hereby levied an annual assessment of fifteen ($15.00) dollars per mile, and in the same ratio upon any portion of a mile upon the right-of-way and trackage of all the main lines of railroads and five ($5.00) dollars per mile upon all side tracks within the acreage area assessable for such hard surfaced roads. Upon all telegraph pole lines situated within the six mile area liable for special assessments as herein authorized, there is hereby levied an annual assessment of three ($3.00) dollars per mile; upon all telephone pole lines Two ($2.00) dollars per mile; and upon all electric power or transmission lines, five ($5.00) dollars per mile; provided, however, that private telephone lines and mutual rural telephone lines not operated for profit and situated within the six mile area liable for special assessments as herein described, shall not be taxed under the provisions hereof; provided, further, that upon all pipe lines situated within the six mile area liable for special assessment carrying oil, gas or water, except such as are owned by municipal corporations, there is hereby levied an annual assessment of Two ($2.00) dollars per mile on all such lines of from two to four inches in diameter, Three dollars per mile upon all such lines from four to six inches in diameter, Four dollars per mile on all such lines from six to eight inches in diameter, Five dollars per mile on all such lines from eight to ten inches in diameter, and Six dollars per mile on all lines over ten inches in diameter. Such assessment shall be paid by the Company owning or operating said lines in lieu of said acreage assessment, and shall be payable at the same time, in the same manner and to the same officers as other taxes. The said assessments shall be placed in a special fund to be designated State Road Maintenance Fund, and the County Treasurer of each county shall at the time of making returns and payments of other taxes to the State Treasurer, report and pay over to the State Treasurer all money in his hands belonging to such fund. The State Road Maintenance Fund shall be used only to meet the expense of the purchase of materials and road machinery, and the payment of labor employed in the repair, upkeep and maintenance of the roads improved and hard surfaced under the provisions of this Amendment. Such funds shall be expended under the direction of such agencies and in such manner as the Legislature shall authorize.

Whenever the state wide system of hard surfaced roads herein provided for embraces within any county a durable hard surfaced road in good repair which meets the plans and specifications prescribed and required by said Commission for hard surfaced roads in that locality and which has been constructed and paid for by such county or any township therein, in whole or in part, the said Commission is authorized to accept such hard surfaced roads as a part of said State wide system, and if said Commission accepts any such road as a part of said state wide system, the said Commission shall cause to be constructed in such county along such route or routes as it may designate, a hard surfaced road according to the same plans and specifications equal in mileage to that portion of such road taken over as a part of said state wide system, and when so constructed such road shall become and be a part of the said state wide system of roads. The public highways of the state upon which hard surfaced roads are being constructed, shall during the period of construction be under the jurisdiction and control of said Commission. After the completion of the construction of such roads, and as the same are constructed and accepted by said Commission, they shall pass under the jurisdiction and control of the State Department of Highways and shall be maintained by the State under the authority and control of said Department of Highways as herein provided until otherwise provided by law.

Any individual, firm or corporation, public or private, using the right-of-way of any public highway along which such roads are being constructed, shall immediately upon demand of said commission move or adjust his or their pole lines, pipe lines, tram lines and other fixtures as may be required by said Commission, and in case of failure to promptly do so, said Commission shall have authority to move or adjust or cause to be moved or adjusted, such lines and fixtures in such manner and at such time as said Commission may deem expedient, and said Commission shall have authority to collect from the owner or owners of such lines and fixtures the cost of such moving or adjusting, and said Commission shall have authority to institute action in the proper court in the name of the state to recover such costs.

The Governor may appoint an advisory board consisting of at least twenty members who shall be practical, experienced business men, which shall be known as the Citizens Advisory Board to the State Road Commission. The members of said Board shall serve without compensation and without expense to the State. They shall have access at all times to all bids, contracts, maps, plats and files in the possession of said Commission, and shall be kept fully advised at all times by said Commission of the proceedings thereof, and the progress of said construction work. Said Advisory Board shall meet from time to time with said Commission, and make such suggestions and offer such advice as said board may deem wise and proper. In addition to the appointment of said Citizens Advisory Board, the Governor may appoint in each county of the State, wherein construction work under the provisions of this amendment is being done, a Citizens Inspection Board for such county, composed of three members who shall be residents and citizens of said county. Such members shall serve without compensation and without expense to the state, and each Citizens Inspection Board shall be furnished by said Commission with a copy of the plans, profiles and specifications of all construction road work being done in its county, under the provisions of this Amendment, and said Citizens Inspection Board may independently of any other authority, inspect from time to time and as often as it may deem advisable, the work under construction, and whether or not such work is being done according to plans and specifications; and if at any time said Citizens Inspection Board shall believe that such road work is not being executed in strict accordance with the plans and specifica-

tions therefor, it shall notify and advise the State Road Commission of any failure on the part of the Contractor or person having in charge such construction work. This Amendment shall be self executing.

Section 2. This Amendment shall be submitted to the people of the State for their approval or rejection at a special election to be held throughout the state on the sixth day of May, 1919, in substantially the following form:

"Shall Article 10 of the Constitution of Oklahoma be amended by adding a new Section thereto to be known as Section 25A of said Article, authoriizing the issuance and sale of serial bonds of the State in an aggregate amount not to exceed Fifty Million ($50,000,000) Dollars for the purpose of constructing a state wide system of durable hard surfaced roads, providing for raising revenues for the payment and retirement of said bonds, creating a Commission, and providing for the construction of said roads under the supervision and control of said Commission; authorizing the Legislature to establish an equitable system for the maintenance of said roads so constructed, and establishing a system of maintenance thereof, until otherwise provided by law?"

NO ☐

SECTION 3. Said election shall be held and returns thereof made in the same manner and by the same officials as in the case of the election of State Officers, and in accordance as near as may be with the provisions of the general election laws of this State. The Secretary of State shall certify to the State Election Board the form of said ballot, and the respective persons whose duty it is under the general election laws of the state to cause notice of the election to be given and ballots printed and distributed and election to be held, and result thereof to be ascertained and declared, are hereby authorized, empowered and directed to take every step and to do every thing necessary to be taken and done in such cases, so as to cause this Amendment to be properly submtited to the people of the State for their approval or rejection. When the State Election Board has canvassed the returns of said election, and ascertained the result thereof, it shall immediately certify to the Secretary of State the result of said election, giving the toal number of votes for and against said Amendment, and thereupon the Governor of the State shall by proclamation declare the result of said election.

SECTION 4. If for any reason said election cannot be held on the aforesaid date, it shall be held on such date thereafter as the Governor of this State shall by proclamation designate.

SECTION 5. This resolution shall be published in at least three daily newspapers of general circulation in the State, once each week for at least three consecutive weeks, before the vote of the people shall be taken upon said Amendment, and the publication of this resolution, as herein provided, is hereby declared to be notice to the people of the State of the provisions of said Amendment and of its submission to the people.

SECTION 6. If said proposed Amendment receives at said special election a majority of the votes of all electors voting at said election, then the will of the people so expressed, or attempted to be so expressed, shall not be defeated nor set aside on account of the failure, negligence or carelessness of any officer or person in the performance of his duty, but the amendment shall immediately go into full force and effect.

SECTION 7. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist by reason whereof it is necessary that this Resolution take effect and be in force from and after its passage and approval.

The following message was received from the Governor:

"March 24, 1919.

"To the President and Members of the Senate.

"Senate Chamber.

"Gentlemen:

"I desire to call your attention to Senate Bill No. 11, by Kerr, providing for co-operation with the United States in the settlement of returned soldiers, sailors and marines on State land, etc.

"This office has been in receipt of numerous communications from the Interior Department and other agencies of the Government relative to the subject embraced in this bill, and you have been addressed by a representative of the Government who, unfortunately, I fear, left the idea in your minds that the enactment of this bill into a statute would call for a large appropriation from the State for acquiring the land.

"It may have been the intention of the Department at that time to require the various states to make an appropriation for

that purpose, but since then the plan has undergone an entire change, and, as far as I know, there will be no necessity for an appropriation by the State in order to put into effect the provisions of the bill. My information now is that the Government will assume all the financial obligations required by this scheme to settle the soldiers on land, and all that is required from the state is a friendly co-operation with the Federal Government.

"I call your attention to the further fact that recent representations made by the Department to me show that the Government is preparing to spend several millions of dollars in this state for the purposes outlined by this bill, and I believe that the next session of Congress will make the necessary appropriation, and unless this, or some similar act is passed by this Legislature, the State will not be able to co-operate with the Federal Government in this movement.

"The importance of this work is already appreciated by you, I know, and it seems to me that it is highly essential that we show a disposition to aid and assist the Government in this plan of enabling the soldiers to find homes and employment upon the land of the state.

"I therefore most respectfully urge the passage of this bill.

"Respectfully,

"J. B. A. ROBERTSON,

"Governor."

CONFERENCE COMMITTEE REPORT ON HOUSE BILL NO. 125.

To the President of the Senate and to the Speaker of the House of Representatives:

We, your Conference Committee on House Bill No. 125, beg leave to report as follows:

That we have had same under consideration as amended by the Senate, and recommend that the House accepts Senate amendments numbers 1 and 2, and that amendment number 3 be accepted with the following amendments:

That the House adopt Section 1.

That Section 2 be amended as follows:

By amending Section 2 at the end thereof by adding the following provisions:

Provided, that the said Cemetery Board is hereby directed to ascertain if they can secure a suitable tract of public land owned by the State of Oklahoma in fee, to locate said cemetery on such land, subject to the consent and approval of the Governor.

That we accept Senate amendment as to Sections 3, 4 and 5.

Your Committee recommends that all of Section 6 be stricken from the bill and that said Section 6 be re-written as follows:

Section 6. The following bodies may be buried in said cemetery: First, all soldiers, sailors and marines dying in the service of the United States, or dying after having been honorably discharged from such service, or who served in the Federal or Confederate army during the Civil war, either in the regular, volunteer, or national forces, may on application of their next of kin or next friend, be buried in said cemetery free of cost, likewise all members of the State Militia of the State of Oklahoma, also all army nurses, honorably discharged from the service of the United States, or of the State of Oklahoma.

Also, on application of their next of kin or next friend, the following class of persons who have ever served the State or Territory of Oklahoma, whether dying in office or after having served out their term of office, as follows:

Persons who have served the State or Territory as elective State or Territorial officials, and members of Congress from the State or Territory of Oklahoma, may be buried in said cemetery upon request of their next of kin or next friend.

Provided, that no persons other than soldiers, sailors, marines and army nurses, and the wives of such soldiers, sailors and marines and the husbands of army nurses, shall be buried in said cemetery at the expense of the State.

Upon application being made, the superintendent will assign lots free of cost for the interrment of the bodies of any of the foregoing class of persons in said cemetery.

The Legislature of the State of Oklahoma may also, by resolution, extend this privilege to any other person.

We recommend that we accept Sections 7, 8, 9 and 10, as provided in the Senate amendment.

Respectfully submitted.

Mr. President:

We, your Special Committee, to whom was referred Engrossed House Bill No. 190, by Graves, entitled:

AN ACT AMENDING SECTIONS ONE, TWO, THREE, FOUR AND SIX, OF CHAPTER 38, OF THE SESSION LAWS OF THE STATE OF OKLAHOMA, 1913, RELATING TO THRESHER'S LIEN ON GRAIN AND SEEDS, AND PROVIDING FOR THE PROCEDURE TO FORECLOSE LIEN, AND DECLARING AN EMERGENCY.

beg leave to report that we had the same under consideration and herewith return the same with the recommendation that it do pass, as amended, the amendments being as follows:

Amendment No. 1. Strike all of said bill after the enacting clause, and insert in lieu thereof the following:

"Section 1. Any Person, firm or corporation threshing grain or seed for another shall have a lien for the value of such services upon such grain or seed threshed. Such lien may be enforced by action and attachment as proivded by law for the enforcement of a landlord's lien. Such lien shall be a valid and binding lien on such grains or seed, against all persons owning or holding such grain with notice of the lien thereon, to the extent of the amount due thereon for threshing.

"Section 2. Any person, firm or corporation operating a threshing machine shall furnish the owner or person in charge of the crop, within forty-eight hours after the threshing is completed, a statement of the number of bushels of grain or seed threshed, and credits due. Provided, that any person operating a threshing machine who fails or refuses to comply with this section, shall forfeit his right to the lien herein provided for, and also the entire threshing bill due for threshing such grain or seed.

"Section 3. Any person, firm or corporation removing or causing to be removed, any threshed grain or seed from the premises where same were threshed, with intent to deprive the owner or operator of the threshing machine or person interested in same, of any sum or sums of money due for such threshing, or who shall fraudently appropriate such grain or seed to himself or any other person not entitled thereto for such threshing, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined any sum not less than Twenty-five dollars ($25.00) and not

more than One Hundred Dollars ($100.00), or not more than thirty days in the county jail, or both such fine and imprisonment."

The following message was received from the Governor.

March 29, 1919.

To the President and Members of the Senate,

Senate Chamber.

Gentlemen:

I am returning herewith, without my approval, Senate Bill No. 42, by Hogg, which is an Act fixing the compensation of election officers, etc.

My reason for not approving this measure is that the holding of elections should be encouraged rather than discouraged, and this Act increases the expenses to such a degree as would practically preclude the calling of a special election on initiative or referred bills.

I realize that $2.00 per day is not adequate compensation for judges, clerks and counters of elections, but the duties performed by these officers are of a patriotic nature and I do not think it is the intention of the Legislature to make the places attractive because of the amount of compensation connected therewith. For that reason, I am returning the bill.

Respectfully,

J. B. A. ROBERTSON,

Governor.

Senator Thomas offered the following amendment, which was adopted:

Mr. President:

I move to amend House Bill No. 543 as follows:

(1) Strike out all after the enacting clause and substitute therefor the following:

"Section 1. There is hereby appropriated, from any moneys in the State Treasury not otherwise appropriated, the sum of Three Hundred Thousand Dollars ($300,000.00) or so much thereof as may be necessary for the purpose of acquiring additional land adjacent to or in the vicinity of the State Capitol building and grounds, and of beautifying such land, and of beautifying the street known as Lincoln Boulevard leading from the capitol to the intersection of Sixteenth street, and in all proper ways improving said land and Boulevard; such purchase or acquiring, paving, parking, beautifying and general improvement to be done by the State Board of Public Affairs as herein provided. Said Board is hereby empowered and directed to employ George E. Kessler for a compensation not to exceed Five Thousand Dollars ($5,000.00), to be paid from the sum herein appropriated, to make plans for and to supervise the improvement and beautification of the lands so to be acquired and such Boulevard; and such work shall be done in accordance with such plans as from time to time may be added to or modified by such landscape architect. When tentative plans shall have been made, said Board shall seek to acquire by purchase from the owner or owners thereof, not to exceed approximately forty (40) acres of land adjacent to and in the vicinity of the Capitol building and grounds comprehended in such plans, and, if able to agree upon a reasonable purchase price therefor, or upon an exchange therefor or for any part thereof, as hereinafter provided, such lands, or any part thereof, may, with the approval of the Governor, be purchased or acquired by exchange; and, if purchased, the purchase price shall be paid from the sum herein appropriated. If, however, said Board be unable to agree with the owner or owners upon the purchase price thereof, then the Attorney General shall, upon the request of the Governor, institute proceedings in condemnation to acquire such land or part thereof, such proceedings to be conducted in the name and on behalf of the State in the manner provided by law for the condemnation by railway companies of lands necessary to their use; and the condemnation moneys required in such proceedings shall be paid from the sum herein appropriated, upon the making of the award or upon final judgment, as provided by such laws, and at the times therein provided. When such lands shall have been so acquired, or when, under such proceedings, the right to enter upon such lands shall exist, said Board shall proceed, from any moneys remaining in the improvement fund in this Act provided or from such portions of such fund as may be necessary for the purpose, to pave such Boulevard and beautify and otherwise generally improve such land and such Boulevard in accordance with such plans; the work of improvement, paving and beautification to be either contracted for or done as provided by law

for the governance of said Board; provided, the said Board of Public Affairs is hereby authorized and empowered, with the approval of the Governor, to exchange for lands or any part thereof above provided to be acquired, any, or so much as necessary, of the lands of the State known as "Capitol Building Lands," upon such terms as may be reasonably agreed upon; and, in event such exchanges cannot be made by agreement, or in event all of such lands so to be acquired cannot be acquired by such exchange, then said Board may, likewise with the approval of the Governor, sell such of said Capitol Building Lands as may be necessary to realize a sum not to exceed two hundred thousand dollars ($200,000.00), which sum, or so much thereof as shall be necessary to complete such purchase, acquiring, improvement, paving and beautification, is also appropriated and shall be used for the same purpose and expended in the same manner as other sums hereinbefore mentioned. Upon any sale or exchange of any of such Capitol Building Lands, it shall be the duty of the Commissioners of the Land Office, and they are hereby directed, to make adequate deed of conveyance thereof to the purchaser or acquirer thereof upon being notified of the fact of the sale or exchange thereof by the said Board of Affairs; provided, further, that the deed or deeds to all lands purchased or accepted under the terms of this Act shall be received on behalf of the State by the State Board of Public Affairs, upon the approval of the Governor; provided, further, that whereas, the city of Oklahoma City, acting through its legally constituted officers, and the owners of certain lands located southwest of and adjacent to the said Capitol square, have made a proposition to the State wherein it is proposed that said city of Oklahoma City and the said owners of such land donate and deed to the State, by warranty deed, without cost to the State, a tract of land two hundred (200) feet in width, beginning at a point southwest of the center of the Capitol building, thence running in a southwesterly direction and intersecting Broadway and Fifteenth streets, and Robinson and Fourteenth streets; on condition that the State accept the title to such tract of land and make the same a portion of the Capitol grounds, and will proceed to improve the same by proper grading, paving and the construction of parks; sidewalks and lighting system, and other wise to imrove said avenue in harmony with the improvements on the Capitol square, and as provided herein.

Said appropriation herein made shall be available for the expenditure by the said State Board of Public Affairs, upon the approval of the Governor, for purposes as follows:

First. For purchase or condemnation of land south of and adjacent to the State Capitol square, as provided herein.

Second. For the improvement of Lincoln Boulevard and the lands herein authorized to be acquired.

Third. To improve the avenue, beginning at the Capitol, thence running in a southwesterly direction to Fourteenth and Robinson streets, hereinbefore mentioned; on condition that the title to said tract of land is accepted by the State Board of Public Affairs, on behalf of the State, and on condition that a satisfactory agreement and contract is made between the said city of Oklahoma City and the owners of said land hereinbefore mentioned and the said State of Oklahoma acting through the said State Board of Public Affairs; such portion of said sum herein appropriated to be used for such purpose in carrying out the terms of any contract made between and among said parties mentioned herein as may be stipulated in said contract, and upon the approval of the Governor; said sum hereinbefore mentioned to be available as follows:

The sum of One Hundred Fifty Thousand Dollars ($150,000.00) to be available during the fiscal year ending June 30, 1920, and the sum of One Hundred Fifty Thousand Dollars ($150,000.00) to be available during the fiscal year ending June 30, 1921."

"Section 2. For the immediate preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in force from and after its passage and approval."

(2) Amend the title to read as follows:

"A BILL TO BE ENTITLED, AN ACT AUTHORIZING THE STATE BOARD OF PUBLIC AFFAIRS TO ACCEPT TITLE TO AND PURCHASE OR CONDEMN LAND; AND MAKING AN APPROPRIATION FOR THE PURPOSE OF IMPROVING SUCH LAND SO PURCHASED OR CONDEMNED, AND FOR THE PAVING OF LINCOLN BOULEVARD; AND DECLARING AN EMERGENCY."

THOMAS.

Senator Kerr offered the following amendment, which was adopted:

Mr. President:

I move to amend House Bill No. 543, Section 1, by adding after the provisions for the purchase of the land south of the Capitol, the following:

"Provided, however, not more than $3,000 per acre shall be paid for said land unless acquired by condemnation proceedings."

SENATE CONCURRENT RESOLUTION No. 38.

By GOLOBIE.

AN ACT TO PICTURE THE PAST AND PRESENT HISTORICALLY OF OKLAHOMA AND ITS ACHIEVEMENTS.

The history of the state and its achievements should be written, printed or painted upon its State Building. The taste and judgment of the exterior of the State Capitol Building is commensurate with other State Buildings and reflects splendid judgment of its architecture and a just tribute is hereby paid to its constructors.

The interior presents wonderful phases of the illustration of the origin of the state, the peculiar racial contributes thereof and particularly afford the demonstration of illustrating to the Nation at large, but primarily and particularly to the residents of this state, a great historical scheme and plan of perpetuating immemoriably the origin of the state, its progress in the betterment of the Nation and stronger still, its generous contribution to the gallantry and bravery of its soldier contribution; attaching thereto and forever perpetuating the support, the strength, the loyal integrity, the vision, the warrant of support that the United States obtained from the youngest state in the Nation, but the strongest state in supporting Liberty Bond subscription; in personal tax returns; in independence of political action and in the accomplishment of everything; the intensive, progressive, spontaneous response to the Nation's call;

THEREFORE, BE IT RESOLVED: That a Commission be appointed to have suitably, tabulated and recorded these historical proceedings that they may be forever painted and pictured upon the interior of this great Capitol Building and form therein

an incentive for the young and aspiring citizenship of this great state to emulate its original settlers, its tribal traditions, the viewpoint and aspirations of the state's originators and the splendid judgment that followed the establishment of statehood, picturing therein and in some peculiarly and impressive way so that forever the first decade of the state's establishment may be forever printed and plastered into the thoughts and remembrance of their followers.

NOW, THEREFORE, BE IT RESOLVED: That a Commission consisting of the Governor of the State, the Lieutenant Governor of the State, the Speaker of the House of Representatives, the Secretary of the Library Committee of the Judges of the Court of Appeals and the Chairman of the Board of Affairs are hereby delegated, appointed and authorized to confer with Captain T. Gilbert White, United States Infantry, attached in Paris to the Commission to Negotiate Peace, regarding the proper plan to pursue to effectually adopt and finally accomplish the greatest results possible therefrom, the illustration thereon, the various places and opportunities to establish and forever perpetuate the great history of Oklahoma on the interior of its splendid Capitol, and

NOW, THEREFORE, BE IT RESOLVED: That no compensation whatever be entailed in this resolution except that its recommendation will have the serious, careful and conservative consideration of the next General Assembly.

Senator Coyne read the following poem, and on motion of Senator Johnson, the same was ordered printed at length in the Journal:

THE PLAINT OF A LEGISLATOR'S WIFE.

Husband, dear husband, come home to me now,
I'm sniffing the odors of spring
You've stayed long enough in the Capitol there
You're much safer under my wing,
The old horse is pawing the stable like mad.
The colt's in a terrible stew,
The small brindle heifer has got a white calf,
And the cattle are bawling for you.

The voice of your Betsy is calling you, dear
It's now nearly time to make soap;
And some of the women are saying, my love,
I'm giving you almost too much rope.
They say there is desperate flirting up there
With widows and maids not a few,
I haven't been kissed since the morning you left,
But dearie, how is it with you?

To the President of the Senate and the Speaker of the House of Representatives:

We, your Conference Committee on House Bill No. 543, by Hodges, Smith (Pittsburg), Walden, Ebey, Dodson, Hoover, Disney, Jackson, Nesbitt, et al.; "A bill entitled an act making an appropriation for the purchase of forty (40) acres of land south and adjacent to the capitol, making an appropriation, etc., etc.", recommend:

1. That Senate Amendment No. 1 be accepted.

2. That the Senate recede from that part of its amendment No. 2, making an appropriation of $300,000.00.

3. That the Senate further recede from that part of its amendment No. 2, providing for the acceptance of a diagonal boulevard running in a southwesterly direction from the State Capitol.

4. That the House accepts that portion of Amendment No. 2 which reads as follows:

Section 1. There is hereby appropriated from any moneys in the state treasury not otherwise appropriated, the sum of Two Hundred Thousand Dollars ($200,000.00) or so much thereof as may be necessary for the purpose of acquiring additional land adjacent to or in the vicinity of the State Capitol Building and grounds and of beautifying such land, and of beautifying the street known as Lincoln Boulevard leading from the Capitol to the intersection of Sixteenth Street, or that part of Lincoln Boulevard abutting any lands which may be purchased hereunder, and in all proper ways improving said land and boulevard; provided, however, that not more than $3,000.00 per acre shall be paid for said land unless acquired by condemnation proceedings; such purchase or acquiring, paving, parking, beautifying and general improvement to be done by the State Board of Public Affairs as herein provided. Said Board is hereby empowered and directed to employ George E. Kessler, for a compensation not to exceed Five Thousand Dollars ($5,000.00) to be paid from the sum herein appropriated, to make plans for and to supervise the improvement and beautification of the lands so to be acquired and such Boulevard; and such work shall be done in accordance with such plans as from time to time may be added to or modified by such landscape architect. When tentative plans shall have been made, said Board shall seek to acquire by purchase from the owner or owners thereof, not to exceed approximately forty (40) acres of land adjacent to and in the vicinity of the Capitol building and grounds comprehended in such plans, and, if able to agree upon a reasonable purchase price therefor, or upon an exchange therefor or for any part thereof, as hereinafter provided, such lands, or any part thereof, may, with the approval of the Governor, be purchased or acquired by exchange; and, if purchased, the purchase price shall be paid from the sum herein appropriated. If, however, said Board be unable to agree with the owner or owners upon the purchase price thereof, then the Attorney General shall, upon the request of the Governor, institute proceedings in condemnation to acquire such land or part thereof, such proceedings to be conducted in the name and on behalf of the State in the manner pro-

vided by law for the condemnation by railway companies of lands necessary to their use; and the condemnation moneys required in such proceedings shall be paid from the sum herein appropriated; upon the making of the award or upon final judgment, as provided by such laws, and at the times therein provided. When such lands shall have been so acquired, or when, under such proceedings, the right to enter upon such lands shall exist, said Board shall proceed, from any moneys remaining in the improvement fund in this Act provided or from such portions of such fund as may be necessary for the purpose, to pave such Boulevard and beautify and otherwise generally improve such land and such boulevard in accordance with such plans; the work of improvement, paving and beautification to be either contracted for or done as provided by law for the governance of said Board; *Provided,* the said Board of Public Affairs is hereby authorized and empowered with the approval of the Governor, to exchange for lands or any part thereof above provided to be acquired, any, or so much as necessary, of the lands of the State known as "Capitol Building Lands" upon such terms as may be reasonably agreed upon; and, in event such exchanges cannot be made by agreement, or in event all of such lands so to be acquired cannot be acquired by such exchange, then said Board may, likewise with the approval of the Governor, sell such of said Capitol Building Lands as may be necessary to realize a sum not to exceed two hundred thousand dollars ($200,000.00), which sum, or so much thereof as shall be necessary to complete such purchase, acquiring, improvement, paving and beautification, is also appropriated and shall be used for the same purpose and expended in the same manner as other sums hereinbefore mentioned. Upon any sale or exchange of any of such Capitol Building Lands, it shall be the duty of the Commissioners of the Land Office, and they are hereby directed, to make adequate deed of conveyance thereof to the purchaser or acquirer thereof upon being notified of the fact of the sale or exchange thereof by the said Board of Affairs.
