## FIRST LEGISLATIVE DAY

Wednesday, May 24th, 1933

The Senate, in extraordinary session, was called to order by the President, Lieutenant Governor Robert Burns.

Upon roll call, the following members of the Senate were present:

Present: Ballard, Briggs, Carlile, Chamberlin, Clark, Coppock, Curnutt, Daugherty, Dixon, Fidler, Fischl, Garvin, Howard, Hutchinson, Jennings, Johnston, Lester, Liggett, Logan, MacDonald, Memminger, Morrison, Nance, Nichols, Paul, Powers, Pugh, Ray, Reed, Ritzhaupt, Rizley, Rutherford, Sowards, Stacey, Stewart, Taylor, Thomas, Whitaker, Wilbanks, Willis.  
Total, 40.

Absent: Carmack, Commons, Moon, Waldrep.  
Total, 4.

The President ordered the Official Proclamation of the Governor read, which was as follows:

### STATE OF OKLAHOMA EXECUTIVE DEPARTMENT EXECUTIVE PROCLAMATION

The Fourteenth Legislature having confronted numerous public problems and difficulties, among them of great magnitude, the enactment of rules to govern the

School Land Commission, to safeguard the funds; prevent theft of the funds; prevent making a political football of the lands and assets of said Department fund to public officials and politicians, the purpose of said rules now sought to be destroyed by a majority of the School Land Commission;

The further problem of balancing the expenditures with the revenues to be received during the two next fiscal years; the restoration of the credit of the State upon their outstanding warrants, that of the several counties and school districts, together with the financing of the schools, so that in a few years, the public debt, perhaps the greatest evil of the present economic difficulties, should be extinguished, with the continuation of orderly government paid for as we go, and giving reasonable terms to the public schools, and enabling the school teacher to cash his warrants without exorbitant discount, the Fourteenth Legislature enacted three several statutes vouchsafing the same, to-wit: The Income Tax Law, the Cigarette Tax Law, the Sales Tax Law; but none of their said laws bear the emergency, and all of said laws and said policy are threatened to be destroyed, at least temporarily, by referendum petitions, which would necessitate either the calling of a special election or of not collecting any of said revenues for two years or more:

NOW, THEREFORE, I, Wm. H. Murray, the Governor of the State of Oklahoma, do hereby call the Fourteenth Legislature into a Special Session, to convene,

WEDNESDAY, AT 1:00 O'CLOCK P. M., MAY 24, 1933, for the express and only purpose of re-enacting with emergency, the Bill for the rules governing the School Land Department; also to re-enact, with emergencies, the Income Tax Law; the Cigarette Tax Law; and the Sales Tax Law.

Since the calling of a special election to vote upon these referendum measures would cost more than a spe-

cial session, provided the House and Senate will enact them as speedily as can be done, or nearly so, I therefore regard this as justification for this call. Under the Constitution, five days is the shortest time in which any bill can be enacted, by reason of the necessity of having the bills read three special days in each House; and since discussions for months were had upon these bills in regular session, such discussions are unnecessary, and certainly the Legislature should not hold longer than six or eight days, and thus maintain its record heretofore of economy and effort to serve the public weal.

Given under my hand, with the Seal of the State caused to be attached, on this the 20th day of May, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

ATTEST:

R. A. SNEED,  
Secretary of State.

(SEAL)

MURRAY OF THE STATE OF OKLAHOMA TO SUBMIT TO THE SPECIAL FIFTEENTH SESSION OF THE LEGISLATURE A BILL HAVING FOR ITS PURPOSE THE REFUNDING TO PURCHASERS OF TRACTOR AND AUTOMOBILE TAGS THE EXCESS AMOUNT PAID BY SUCH PURCHASERS BETWEEN THE DATES OF JANUARY, 1933, AND THE FINAL ENACTING OF THE LAW PASSED BY THE FOURTEENTH LEGISLATURE REDUCING THE AMOUNT TO BE PAID FOR SUCH TAGS.

SECTION ONE.

WHEREAS, the fourteenth session of the legislature enacted a law having for its purpose the reducing of automobile licenses and the fees to be paid for license tags in the State of Oklahoma.

AND WHEREAS, said bill so passed by the legislature was signed by said William H. Murray, Chief Executive of the State of Oklahoma, and the same became a law of the State of Oklahoma on or about the ----- day of April, 1933.

AND WHEREAS, such failure, neglect and refusal on the part of the fourteenth legislature to provide adequate remedy to such purchasers for refunding and repayment of such excess amounts resulted in a discrimination against such purchasers of tags made prior to the enactment of said law passed by the fourteenth session of the legislature and in effect placed a premium upon tardiness and neglect and penalized promptness and punctuality on the part of those who complied with the law as provided prior to the enactment of the law passed by the fourteenth legislature reducing the said license fee.

#### JOINT SESSION

The Joint Session of the Honorable House and Senate of the First Extraordinary Session of the 14th Legislature was called to order by President Pro Tempore Stewart.

President Pro Tempore Stewart declared a quorum of the Senate present.

Speaker Anglin declared a quorum of the Honorable House present.

President Pro Tempore Stewart presented Governor Murray, who read his Message, as follows:

MESSAGE TO THE FIRST SPECIAL SESSION OF  
THE FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA  
TO THE HONORABLE SENATORS AND  
REPRESENTATIVES:

You have been called into extraordinary session for the sole purpose of protecting and safeguarding your own work in the regular session.

In that session, you were called upon to meet and solve a deplorable financial condition of the State and its subdivisions. State warrants could not be readily cashed; the county warrants were a drag in the commercial market; the school district warrants in most parts of the State were discounted from 10 to 30 per cent, and, in many districts, could not be cashed at all, even in the capital, together with a cry from every side: "Give aid to the public schools."

It was manifest that to make additional appropriations without providing for the revenue therefor would but aggravate the condition by throwing into the market more warrants, and thus increasing the discount of such warrants. Therefore, it became clear that if other revenues could be obtained whereby the outstanding warrants could be paid as rapidly as revenues were collected, with additional revenues to supply the schools of the State, and, at the same time, lower the ad valorem tax on property to a point where the property owners could pay the tax, that such policy would solve the problem.

With this in view, Your Body passed three several laws: The Income Tax, with 75 per cent. thereof apportioned among the schools of the State, and 25 per cent to aid in the payment of current expenses; you passed also the tax on cigarettes, which, in turn, was to aid in the payment of school warrants in the several districts; and, last, a Special Sales Tax, to be divided between the payment of outstanding warrants in the several school

districts in aid of the weak schools, and in the payment of current expenses. But, in your enactment of these three laws, you failed to provide and attach the Emergency Clause, and left your work to the wreckers of society who start referendum petitions, with a view of preventing these statutes becoming laws ninety days after the adjournment of the Legislature; and, by such method, threaten to disrupt the entire financial policy enacted by Your Honorable Body in the regular session.

Hence, it becomes necessary for you to fortify and safeguard this policy by re-enacting these three bills verbatim, as passed before, but with the Emergency Clause attached. This done and the finances of the State will have been placed upon a sound and permanent basis, enabling the public schools to have reasonable terms, and school teachers to cash their warrants. I may call your attention to the fact that if you fail to do this at this extraordinary session, it means the tying up of these bills for two years or longer, and, in less than twelve months, all will be chaos, so far as the school system is concerned and the credit of school paper. The teacher will have to go without his earned salary, and appropriation for him will do no good, because it will but add to the outstanding warrants unpaid and result in destroying the credit in every school district in the State.

It is impossible to make appropriations in excess of revenues and maintain the credits of the State and subdivisions without provision for revenues, from some source. No plans, other than enactment, have been offered; and, therefore, if you will re-enact these three bills, without change, except to add the Emergency clause, it can be done speedily, and enough revenue collected before the expiration of ninety days to compensate the cost of said extraordinary session. This can be done without debate, because they were debated for

three months and passed in the form here proposed to be re-enacted.

I might call your attention to the fact that the opposition to these bills will seek changes for no other purpose than to promote discussion and delay. They will recite that the Illinois Supreme Court declared an income tax law unconstitutional, and also allege that your laws are unconstitutional; but I call your attention to the fact that the Illinois Constitution is not identical with the Oklahoma Constitution. Indeed, the power to tax by other method than by ad valorem, is broader in the Oklahoma Constitution than any other. This may be observed by turning to Section 12 of Article 10 of the State Constitution, which reads as follows:

“Section 12. The Legislature shall have power to provide for the levy and collection of license, franchise, gross revenue, excise, income, collateral, and direct inheritance legacy, and succession taxes; also, graduated income taxes, graduated collateral and direct inheritance taxes, graduated legacy and succession taxes; also stamp, registration, production, or other specific taxes.”

You may observe from this language that we have not even approached the exhaustion of the power to tax other than by ad valorem. Kansas made an effort two years ago to adopt just two of these powers by constitutional amendment. Other states have done the same. This power is spacious, ample, and complete to cover every form of tax, and even more than adopted by Your Honorable Body.

Permit me to urge the Honorable House to pass these three statutes verbatim, et literatim, et punctuatum, except only to add the Emergency, and then the opposition cannot clamor for argument and speeches for the purpose only of delay; and do this within three days, and pass the Bill to the Senate, where the Senate can also confirm that of the House without reference to

committees, debate, or other dilatory tactics; and, by this means, these could be passed in five days.

Remember that no other measures will be considered or submitted for consideration under any circumstances than those three, and the one hereafter referred to, under any circumstances, until they have been enacted; and, if you find that you cannot re-enact them, with the Emergency Clause, please to have that public regard to adjourn and thus maintain the high standard you have heretofore set for economy and legislation in the interest of the public weal.

The Fourth Bill included in the call relates to rules governing the School Land Commission, which is of equal importance, in view of the fact that a majority of the Commission want to place in control as Secretary, and in the Lease Department, the very men most responsible for the loss of these trust funds, amounting to hundreds of thousands of dollars, if not millions.

A majority of the Commission became angered at the Governor and the Secretary, A. L. Beckett, because he insisted that loans should be made strictly in conformity with the law and the intent of the Constitution, the majority of the Commission maintaining they had the plenary power to handle these funds in any way that the majority of the Commission saw fit, claiming, as their attorney ten days ago insisted, that they could not be bound by a legislative act, whereas, to my own knowledge, the intent of the makers of the Constitution was, as stated in the Constitution, to loan these funds according to rules fixed by the Legislature.

There has been a direct theft of some \$48,000.00 of these funds, but more, indeed a hundred times more, loss through this erroneous conception of duty and violation of sound public policy. To call attention to one instance: A tract of school land was sold, and, then, later, \$600.00 loaned to the purchaser, upon which he never paid rent or interest, amounting in fact to the Commis-

sion's selling the man the land, and then giving him \$600.00 to take it; and, because Secretary Beckett called attention to these things, the Commission seeks to throw him out of office.

Practically all the misuse of this Department, and except for direct theft, all the losses except those which inevitably come from depreciation in the value of securities, has come from the wrongful assumption of powers by the Commission, never intended to be exercised, if my construction of the Constitution is correct.

You will recall that in every instance where, in the Constitution, a duty is placed upon the School Land Commission, the power to exercise that duty was restricted by the qualification that it must be done "under rules and regulations prescribed by the Legislature." The leasing and sale of lands belonging to the State, investment of funds, and every other power delegated to the Commissioners was thus limited.

As Judge Beckett construed the Constitution to be the evident intent of the writers that the Commissioners' power was to be fixed and limited by law, and that the only inherent powers given by the Commissioners were those necessary to carry out the Legislative direction, but by the failure of the Legislature to prescribe rules and regulations for the investment of the funds and other duties, the Commissioners, of necessity were left to frame their own rules. They, of course, assumed that if they had authority to make rules, they had authority to waive and disregard them. This situation made it possible for the Commissioners to exercise unlimited power in the administration of the affairs of the Land Office.

Through the exercise of such unlimited power, they at last came to feel that they were above and beyond the law and were a power unto themselves, and, through this power, they have practiced favoritism and used the Land Office to perpetrate and continue themselves in

public service, apparently without due regard to the interests of the State and the safety of the fund.

The misuse of this power in the administration of the office is evidenced by the fact that in those sections of the State from which, in the past, Commissioners of the Land Office were chosen, and where their friends are more numerous, a great bulk of the losses from the Department have been made, and the great loss from reckless and bad loans will come.

There is little, if any, evidence indicating that more than one or two of the Commissioners may have directly profited in money wrongfully taken from the public funds. There is abundant evidence that those active in political affairs and credited with having political influence have been able to obtain favors from the Commission, which were unjustified and will result in heavy losses.—I have reference to loans made to members of the Legislature, doubtless for large amounts.

The Commissioners utterly disregarded the law in its dealings with bonds, as set forth in the audit and in the special report by the Honorable John Rogers, State Examiner and Inspector. Nothing less than a bond brokerage business was set up within the department. Millions of dollars in bonds were bought, sold and traded, involving funds which would not be lawfully invested in securities, and in violation of the law. Millions of dollars in gilt edge securities have been sold and traded for questionable securities from which tremendous losses to the department are inevitable.

The method in which some of these transactions were handled are unusual and capable of no reasonable explanation, so far as I can see. The major portion of these deals occurred between the years 1919 and 1929. All of these transactions, except the legitimate investment of proper funds in the purchase of bonds, were in violation of law.

Unfortunately, the Legislature had never provided

any method of ascertaining losses in this Department, and the provisions of the House Bill No. 187, providing a method to do this, was stricken from the Bill. There was a powerful lobby against this Bill, and this was actively participated in by some of the present Commissioners, and they succeeded in eliminating this feature of the Bill.

Some considerable losses from bond dealings are shown in the face of the record, but those who want to minimize the losses from wrongful administration will say that no losses are shown; but the losses are there, and, if any provision is ever made whereby they may be determined, the State will be required to make good a large sum of money.

Even if no loss occurred, such administration, in my judgment, is wrongful, just as it would be wrong for one entrusted with funds to gamble with them. He might win and say that nothing was lost, but that would not alter the fact that such course was unwise.

Except for the fact that some of the Commissioners seek retaliation against the Governor and Secretary Beckett, the only objection which the Commissioners can have to his services is that he has constantly insisted that the Commissioners act strictly within the plain powers delegated to them by the Constitution and by law. The surrender of power is irksome to them, and would make it impossible for the Land Office to be made a political work shop.

The gentleman who has been named to succeed Beckett is, I hope, honestly, of the opinion that my construction of the Constitution is wrong. He believes that all power of administration is inherent in the Commissioners, and that any limitation of that power by the Legislature would be unconstitutional, and his construction of the Constitution is, therefore, entirely in accord with the views and desires of the Commissioners.

The final settlement of this issue will probably deter-

mine the future of the funds committed to the Commissioners of the Land Office. Fortunately, oil royalties and rentals have poured millions of dollars into the fund, and, with the other millions of dollars in questionable and worthless assets, which are now carried of record, a very encouraging statement of the records of the Department can truthfully be made; but that does not show the loss.

Not until the Legislature provides a proper method of sorting out and charging off the worthless assets and determining the actual losses will the people know the truth about this Department.

I might as well tell this story from the beginning:

In 1930, I came to the conclusion in the campaign that this Department was in a bad condition. I recommended to the 13th Legislature a provision for the audit of three departments, and asked for \$75,000.00, having in view the audit, first, of the School Land Department. I felt an opposition, secret and by stealth, which I found later was coming from men who had been administered as clerks of this Department; from Commissioners of the Land Office and from Members of the Senate who had borrowed large sums of money.

The Legislature finally passed a bill with but \$25,000.00 to audit ALL departments, feeling that I would not dare to complete the School Land audit. I made an effort for bids to complete the audit for a lump sum. One auditor wanted \$100,000.00. Finally, we were enabled to get Willson and Garnett to cut down their regular prices, and to do it by the "piece;" whereupon, I made a contract to audit the School Land Department only. The money gave out a year or two prior to 1920,—just as we reached the interesting part. I authorized the expenditure of \$10,000.00 more, risking criticism that would follow, and that \$10,000.00 disclosed the theft of \$48,000.00 and loss of hundreds of thousands of dollars, while John Whitehurst was President of the Board

of Agriculture, conniving with A. S. J. Shaw, Secretary of the School Land Office, at the time that the rules were laid by an attorney seeking to permit the Commissioners to do as they pleased.

The records show that during that period, the Commissioners allowed Secretary Shaw to make loans without approval of the Commission in amounts up to \$2500.00. Certain men went over the State, particularly in the Choctaw and Chickasaw Nations, purchased little tracts of land, paying from \$1,000.00 to \$1,800.00, and securing a loan upon that land for \$2,400.00, pocketing the difference. One of these loans was made in my county and the land purchased from one T. C. Ware for \$1,800.00, and the loan made to a member of the Legislature from Grady County.

Some two or three months after I went into office, Secretary Beckett called my attention to the Clerk of the Lease and Sales Department, and that former Secretary Shaw spent much of his time in that department. He convinced me that a wholesome change could not be made until the Clerk was eliminated.

I invited the entire Commission to my home, with their women folk, who were entertained by Mrs. Murray, while I discussed with the Commission and Secretary Beckett the necessity for a change. Frank Carter, Harry Cordell, and John Vaughan sought to make no change. After spending four and a half hours, we adjourned. Two days later, I called them into my office and argued for two and a half hours more; and, seeing that they would not yield, I replied, with warmth: "Gentlemen, I am going to say to the people that we have found the man, and that you would not turn him out; and I give you notice now that this is the last time I intend to spend seven hours trying to get you to do what is right. This story will go to the Press." Whereupon, they yielded.

Mr. Sneed proposed Lewis Terry, and having no

care as to the personnel, I agreed to give him a trial, and while Lewis Terry has considerable executive ability and management, he is an utter failure as a clerk; and this fact has angered the member, Mr. Sneed, when he found that Beckett wanted to substitute some one else.

I care nothing about the personnel,—in fact, I had but three friends in the Department, and they have been turned out; and, while most of the Department clerks are efficient, and that is all to care for, there are some four who ought to be removed; and certainly the attorney in the “old days” for the Department, who caused such loss should not be made Secretary, nor should A. S. J. Shaw be permitted in the Department at all.

There is much more not known to the public, but this is sufficient to give any one an understanding of the danger of this Department’s going back to the loose haphazard method by which it has been managed for some fourteen years.

I therefore urge the Senate, since it will have five days at least before it can vote upon the Revenue Bills, to pass this law practically as originally written and introduced in the House by Kight, and passed by that Body, with an Emergency, to the end that the men most responsible for the loss of this money shall not be permitted to handle it.

These lands and funds are a sacred trust; and, if we do not handle them in the light of good conscience, and sound public policy, and prevent the possibility of loss, we are the most consummate criminals of the age.

Respectfully submitted, on this the 24th day of May, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA:     Wm. H. MURRAY.

## EXHIBIT TO THE GOVERNOR'S MESSAGE

Excerpt from report of audit of bonds and coupons and non-payable warrants held as an investment by the Commissioners of the Land Office,

January 12, 1915, to June 30, 1932.

Compiled and submitted by Hon. John Rogers, State Examiner and Inspector of date May 2, 1933

"SECTION ONE (1). Covering period of January 12, 1915, to April 23, 1923, inclusive. Bonds on hand January 12, 1915, \$1,227,000.00 (Page 5). Bonds purchased during the period \$1,963,524.00, (Page 6). Bonds received in exchange for bonds during the period \$1,760,650.00, (Page 7). Total \$4,951,174.00. Bonds sold or matured during the period \$2,082,550.00, (Pages 8 and 9). Bonds given in exchange for bonds during the period \$1,758,150.00, (Page 10).

The records of the School Land Department reflect the ownership of Madill Water Work Bonds, dated January 15, 1920,----- in the amount of \$50,000.00, bearing 6% interest, (Page 6). Volume 8, Page 329 of the Commissioners of the Land Office Minutes, dated July 14, 1920, authorized the Secretary to purchase the Madill Water Work Bond in the amount of \$50,000.00, out of the Public Building Funds. The records further show that these bonds were purchased with Public Building Funds, per check No. 22612, dated July 15, 1920, from the American National Bank, Oklahoma City, Oklahoma, and that they were sold to Brown-Crummer Company, Wichita, Kansas, payment credited January 2, 1925, (Page 30). The purchase of the bonds by the Commissioners of the Land Office is contrary to Section 5483, O. S. 1931, quoted above.

Section Two (2) Covering the period beginning April 24, 1923, to May 31, 1929, inclusive. Bonds on hand at the beginning of this period, April 24, 1923, \$1,110,474.00 (Page 27). Bonds purchased during the period \$2,797,800.00 (Page 28). Bonds received in ex-

change for Bonds during the period \$1,000,000.00, (Page 29). Total of \$4,908,274.00. Bonds sold or matured during the period \$1,401,524.00, (Page 30). Bonds given in exchange for bonds during the period \$1,000,000.00, (Page 31). Total disposed of \$2,401,524.00, leaves bonds on hand at close of period, May 31, 1929, \$2,506,750.00, (Pages 32 to 33 incl.).

[*Remark:* During this period the Pollard shortage occurred of \$50,787.50, interest coupons clipped but not paid in. The foregoing statement made by the State Examiner and Inspector, John Rogers, shows conclusively that my statement, that the Commission had done a bond brokerage business, is proven.—MURRAY.]

“On March 15, 1928, the School Land Department sold to the American First National Bank, Oklahoma City, Oklahoma, State Funding Bonds of 1913—Series “E” in the amount of \$170,900.00, with accrued interest of \$3,503.45, Total \$174,403.45, (Page 30). The rate of interest paid by the State on these bonds is Four and one-half ( $4\frac{1}{2}$ ) per cent and during the time the School Land Department owned these bonds it was receiving this rate of interest, while the rate of interest received on daily bank balances is three (3%) per cent.

On the date of purchase of the Bonds, March 15, 1928, by the Bank, the bonds were put up as security with the State Treasurer to secure public funds, as per State Treasurer Receipt No. 2130.

On April 2, 1928, the State Treasurer issued check No. 3283 in the amount of \$3,845.25 to the Commissioners of the Land Office in payment of the matured coupons due April 1, 1928, on the above bonds. This check was not deposited by the School Land Department in accordance with Section 8602, C. O. S. 1921 (Section 5419, O. S. 1931) requiring deposits to be made daily in the official depository, but was turned over to the American First National Bank, Oklahoma City, Oklahoma. On

August 16, 1928, these bonds were called by the State Treasurer and retired."

[*Remark:* On the dates included in this transaction Hon. R. A. Sneed was State Treasurer and Mr. Lewis Terry, Assistant. The correct explanation of the foregoing is: The School Land Department wittingly, or unwittingly, sold the bonds to the bank and then deposited the money in the bank, drawing but 3 per cent interest, leaving the bank a profit of  $1\frac{1}{2}$  per cent; and then the bank got an equal amount of money from the State Treasury on the same bonds. It would also appear from the disposition of this interest that it was not a bona fide sale.—MURRAY.]

On February 23, 1928, the records of the School Land Department show that \$500,000.00 of U. S. Treasury notes, bearing three and one-half ( $3\frac{1}{2}\%$ ) per cent interest was traded to Mr. A. J. McMahan, Oklahoma City, Oklahoma, for a like amount of Oklahoma County Road bonds bearing four and one quarter ( $4\frac{1}{4}\%$ ) per cent interest and that the School Land Department paid a premium of \$7,500.00 and accrued interest of \$778.00 on the Oklahoma County Road Bonds, (Page 29). The amount of premium thus paid will necessitate the ownership of the Oklahoma County Road Bonds by the School Land Department for a period of two years before the difference in the additional rate of interest will result in an earning for the School Land Department.

[*Remark:* The foregoing shows some more mechanism and bond deals that would be unintelligible to the public, and would disclose that Oklahoma has a few "Banketeers" equal to the Wall Street Group; and there is an effort to put back in control of the clerical force the men responsible for it.—MURRAY.]

Volume 17, Page 153, of the Commissioners of the State Land Office Minutes, dated April 23, 1929, authorized the Secretary to invest any surplus of the Public Building Fund in State Non-payable warrants. I find

Oklahoma State non payable warrants have been purchased from the date of the authorization to May 31, 1929, in the amount of \$372,211.51, (Page 142). The purchase of these warrants is contrary to Section 5483, O. S. 1931, previously quoted herein."

[*Remark:* The question arises: How and Why? Also, why a former citizen of Altus, the home town of one of the Commissioners, was the go-between in this transaction?—MURRAY.]

"The State Treasurer issued check No. 3307, dated April 4, 1928, in the amount of \$20,747.25 payable to the Commissioners of the Land Office in payment of matured coupons on State Funding Bonds of 1931, but such check was not deposited until September 28, 1928, according to the records of the State Treasurer and official depository, (Page 58). The fund against which this check was drawn draws three (3%) per cent interest on daily balances and such interest or earning is credited to the general revenue fund of the State while the Funds of the Commissioners of the Land Office are credited with earnings on daily balances, consequently the funds of the Commissioners of the Land Office failed to receive the three (3%) interest on this check from date of issuance, April 4, 1928, to date of deposit September 28, 1928."

[*Remark:* This is clear cut and constitutes cumulative evidence of a veritable bond brokerage business by the School Land Department, in which neither the State nor the school children got any boot in the transaction. Who got the boot?—MURRAY.]

"This Section covers the period beginning June 1, 1929, and ending June 30, 1932. Bonds on hand June 1, 1929, \$2,506,750.00, (Pages 145 to 147 Incl.) Bonds purchased during the period \$1,300.00, (Page 148). Bonds received in exchange for bonds during the period \$30,000.00, (Page 148). Total \$2,538,150.00. Bonds sold or matured during the period \$1,356,550.00, (Pages 149

to 150 inclusive). Bonds given in exchange for Bonds \$30,000.00 (Page 150). Total disposed of \$1,386,550.00. Leaves bonds on hand at close of period, June 30, 1932, \$1,150,500.00 (Page 150)."

[*Remark:* This includes the present administration transaction. The \$1,300.00 were bonds maturing this year and payable out of the public building fund. We had the money on hand, retired the bonds and stopped the accrual of interest. We held \$90,000.00 El Reno Board of Education Bonds of which we sold \$60,000.00 and exchanged \$30,000.00 for Sallisaw Board of Education Bonds. The remainder of the \$1,356,550.00 were matured and retired. Under the law, this fund should not have been invested in bonds; indeed, the intent of the Constitution was to lend this money upon improved farm real estate.—MURRAY.]

#### PURCHASE OF NON PAYABLE WARRANTS:

"Oklahoma State Non payable warrants purchased by the Commissioners of Land Office from June 1, 1929, to June 20, 1932, inclusive, amounts to \$2,511,031.76, (Page 156). This amount, plus the warrants on hand at the close of May 31, 1929, of \$139,595.32, gives a total of \$2,650,627.08 on hand and purchased during this period. Cash received for warrants during this period of \$2,607,497.72, leaves a balance of warrants to be on hand June 30, 1932, of \$43,129.36."---- "As previously mentioned the purchase of these warrants is contrary to Section 5483 O. S. 1931."

[*Remark:* It has been the Governor's policy and the effort of Secretary Beckett to close out these bond transactions, and the above shows the progress for such purpose. This report reflects that the Commissioners of the Land Office have lawfully invested \$5,988,324.00 in bonds. That it has unlawfully sold and exchanged \$4,843,200.00 in bonds and unlawfully invested \$2,883,243.27 in non payable warrants, a total of unlawful transactions \$7,726,443.27, from 1915 to the beginning of this admin-

istration, the larger portion being from 1923 to 1929 inclusive. More than \$2,000,000.00 in United States Bonds have been unlawfully disposed of. It may be suggested that no considerable losses have resulted, but one might play poker with the money and not lose it, yet that would not be good business.—MURRAY.]

### PETITIONS

A Petition, dated at Seminole, Oklahoma, addressed to "Hon. Robert Burns, Hon. Al G. Nichols, Hon. W. D. Grisso, Hon. Marvin Wooten and Hon. C. L. Hill," was presented by the President, urging "the defeat of the emergency clause attachment on the Sales Tax and Income Tax Bills," and expressing opposition, particularly, to the Sales tax bill.

### FIRST READING

The following bill and resolutions were introduced and read for the first time:

SENATE BILL NO. 3—By CARLILE, NICHOLS and JOHNSTON.—An Act amending Section 11, House Bill 187, passed by the Fourteenth Legislature and approved on the 26th day of April, 1933; Providing the method for selling land acquired by the State through mortgage foreclosure; amending Section 13, House Bill

187; making an appropriation to make said Act effective; repealing portions of Senate Bill No. 27, passed by the Fourteenth Legislature providing salaries for certain employees of the Land Office; repealing all laws in conflict herewith, and declaring an emergency.

SENATE RESOLUTION NO. 1.—By RIZLEY.—A Resolution authorizing and directing the President of the Senate to appoint a committee to investigate the financial status of the School Land Department, alleged claims of favoritism, fraud and embezzlement, pertaining to the school funds and various and sundry other matters; authorizing the subpoena of witnesses and requiring said Special Committee to report its findings to the Senate of the State of Oklahoma for action thereon.

SENATE RESOLUTION NO. 2.—By LOGAN, FISCHL and CURNUTT.—A Resolution protesting against the levying of an additional tax on gasoline by the Federal Government, as proposed in H. R. 5664, requesting the repeal of the one cent federal tax on gasoline, imposed in the Revenue Act of 1932, and urging the Congress of the United States to leave the field of gasoline excise taxes exclusively to the several States.

Senator Logan asked unanimous consent, which was granted, to take up for immediate consideration Senate Resolution No. 2, which was read at length, as follows:

SENATE RESOLUTION NO. 2 — By LOGAN, FISCHL, CURNUTT.

A RESOLUTION PROTESTING AGAINST THE  
LEVYING OF AN ADDITIONAL TAX ON  
GASOLINE BY THE FEDERAL GOVERN-  
MENT AS PROPOSED IN H. R. 5664, RE-  
QUESTING THE REPEAL OF THE ONE  
CENT FEDERAL TAX ON GASOLINE IM-

POSED IN THE REVENUE ACT OF 1932  
AND URGING THE CONGRESS OF THE  
UNITED STATES TO LEAVE THE FIELD  
OF GASOLINE EXCISE TAXES EX-  
CLUSIVELY TO THE SEVERAL STATES.

WHEREAS, there is now before the Senate Finance Committee of the United States Senate a bill known as H. R. 5664, which for the purpose of financing a public works program, provides that a tax of three-fourths of one cent shall be levied on each gallon of gasoline manufactured and sold in the United States for the purpose of providing a part of the money to carry out said public works program.

WHEREAS, a tax in that amount would be equal to a manufacturers tax equal to twenty-five per cent and more of the value of the product taxed,

WHEREAS, the Federal Government is now collecting an excise tax of one cent per gallon on all gasoline manufactured and sold in the United States, which tax is equal to from thirty-three and one-third to fifty per cent of the value of the product,

WHEREAS, a tax of such magnitude is out of all proper proportion to the rate of taxation imposed on other manufactured products,

WHEREAS, no other commodity that is a daily necessity in the commercial, social and business life of the nation bears a tax equal to more than a small fraction of the tax imposed on gasoline,

WHEREAS, the imposition of destructive gasoline taxes has become so serious a problem in the several states that life of the industry is threatened and the investments of millions of people are in jeopardy.

WHEREAS, the American Legislators Association has found after profound study that the field of gasoline taxation should be left exclusively to the several States and should not be invaded by the Federal Government,

NOW THEREFORE, BE IT RESOLVED, by the

Senate of the Fourteenth Legislature of Oklahoma that the Finance Committee of the United States Senate be requested to defer action on H. R. 5664 until ample time shall have been given for the officials of the several States to present the viewpoint of the States by personal appearance or by their accredited representatives thereto appointed, and that other measures be devised to provide the revenue that it is proposed shall be raised by taxing gasoline, and also to relieve the existing tax of one cent per gallon on gasoline, to the end that this industry shall not be called upon to bear more than its proportionate share of the load of providing public finance and that it may have an equal chance with all other industries in aiding in the return to higher rate of employment of labor, a better wage scale and the general rehabilitation of business.

BE IT FURTHER RESOLVED, a copy of this resolution be immediately transmitted to United States Senator Pat Harrison, Chairman of Senate Finance Committee, and to the United States Senators and Representatives from Oklahoma.

Senator Logan moved the adoption of Senate Resolution No. 2, which motion failed of adoption, the roll call thereon being as follows:

Ayes: Curnutt, Fidler, Fischl, Hutchinson, Jennings, Logan, MacDonald, Morrison, Paul, Reed, Ruth-erford, Thomas, Whitaker, Wilbanks. Total, 14.

Nays: Ballard, Carmack, Chamberlin, Clark, Daugherty, Dixon, Garvin, Howard, Johnston, Lester, Liggett, Memminger, Nance, Pugh, Ray, Ritzhaupt, Sowards, Stacey, Taylor, Willis. Total, 20.

Not voting: Briggs, Carlile, Coppock, Powers, Rizley, Stewart. Total, 6.

Absent: Waldrep. Total, 1.

Excused: Commons, Moon, Nichols. Total, 3.

Senator Curnutt served notice that he would, on

some future legislative day, move to reconsider the vote by which Senate Resolution No. 2 failed of adoption.

Senator Liggett submitted the following Committee Report:

Mr. President: The Committee on Engrossed and Enrolled bills begs leave to report Senate Concurrent Resolution No. 1 correctly engrossed.

LIGGETT, Chairman.

#### MESSAGE

The following Message from the Governor was received and read:

May 24, 1933

TO THE HONORABLE SENATORS AND REPRESENTATIVES OF THE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA:

Gentlemen:

You have doubtless read numerous statements in the Press, criticizing the management of the Federal Relief Funds, made in part by men who do not know anything about it, and, in part, by men who merely make false statements of fact.

While this fund is not a State Question, but one that concerns the Federal Government, I nevertheless hope to satisfy any curiosity, that may exist, to know by forwarding herewith the total amount of expenditures, itemized on a blank, the form of which was prescribed by the Reconstruction Finance Corporation, made out monthly, and forwarded to them, for the previous month; and, in every instance, we have sent an exact duplicate to the State Auditor of Oklahoma, his press statements to the contrary notwithstanding, as evidenced by copies of receipts when delivered to him in person, hereto attached, for the several months since the Federal Relief Funds began to be administered under the Governor.

It will be observed that the total overhead expenses for distributing this fund, including the writing of all checks, amounting to some 125,000 to 150,000 checks a month in my office, amount to  $3 \frac{7}{8}$  per cent for total overhead expenses.

I challenge anybody to find in any other state a better record, whatever be their method; moreover, the

plan of handling this fund, which is deposited in my name alone, subject wholly to my control, and for which I am wholly responsible, with all checks, reports, records, et cetera, made in triplicate, so that a record is had of every dollar expended, without the loss of a single cent.

A number of states have changed their method since learning of ours; among them may be mentioned Missouri, Mississippi, Kansas, Pennsylvania, New Jersey, Georgia, and South Carolina.

In addition to the blank information, there is hereby attached a copy of the totals for Charity, as well as for Unemployed, Overhead, Et Cetera, and a copy of each sufficient in number to furnish every member of the Senate and House for their analysis and criticism.

Respectfully submitted, on this the 24th day of May, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Senator Logan asked unanimous consent, which was granted, to have printed SENATE BILL NO. 3, by Carlile, Nichols and Johnston.

WHEREAS, it appears from rumors and statements made by a number of persons who are now and who have in the past been connected with the handling of the affairs of the School Land Department of the State of Oklahoma that for more than fifteen (15) years last past and in fact almost since the creation of said Department that certain officers and employees in said Department have been guilty of favoritism and either

through incompetency, negligence, gross neglect of duty, or willful malfeasance in the handling of said Department that more than eight hundred thousand (800,000) acres of land, belonging to the State of Oklahoma, and that more than seventy million (\$70,000,000) dollars have been handled in said Department for a duration of twenty-five (25) years without an audit until within the past eighteen (18) months; and,

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF OKLAHOMA:

#### MESSAGES

The following Messages from the Governor were received and read:

May 30, 1933.

TO THE HONORABLE SENATE AND HOUSE OF  
REPRESENTATIVES, 14TH LEGISLATURE:

Gentlemen:

I wish to submit for your consideration and action the following measures:

First: Appropriation to pay the expense of the present extra session. I suggest that you might make an appropriation to run up to June 15; and, then, if you do not hold so long, it will automatically be returned to the Treasury.

Second: I request you to pass a special appropriation bill to cover the expenses of administering the Federal Relief Office, so far as it relates to the distri-

bution of seed; and the money appropriated by the State for the indigent who are unable to work, since the Attorney General ruled that the appropriation did not comply with the Constitution in this particular; and I confirm his ruling thereon. I shall send to your Committee on Appropriations a copy of a bill for a "Special" appropriation required under the Constitution.

I call your attention to the fact that the Auditor and the Treasurer, while constitutional offices, have no constitutional powers. All of their acts must conform to law; that is, acts of the Legislature; and in certifying all accounts, such as this, every step must be marked for the Governor,—in this case, the expending officer,—to sign and approve, in order to enable the Auditor to make payment of this fund.

I therefore request that you re-appropriate the amount that was appropriated in what was termed the "Omnibus Bill," in order that the State may meet the agreed requirements with the Federal Government, in the matter of relief expenses.

Third: Since we are going to have some special elections, I urge you to pass a law authorizing a majority of the State Election Board to eliminate counters, so as to reduce the expense of holding special elections. In my opinion, the act should apply only to special elections, and not to general, primary, or state elections. In these special elections, there is no sense in requiring expenditures of \$20,000.00 or \$30,000.00, when it can be avoided; and, as the law is now, it requires the unanimous vote of the State Election Board; and my experience has been in the past that in a political question in this State, it is impossible to secure unanimous consent to anything.

Fourth: The Co-ordinating Board for the Greater University and for the work of elimination of duplication, et cetera, created by the regular session of the Legislature, carried no appropriation for their expenses.

Under the law, they receive no salaries, but their expenses are paid. They will need a secretary, or contact assistant, to whom they can pay a salary.

I recommend that an appropriation be made for each of the next fiscal years for the expense of this Board. I assume that each member of the Board will cost approximately \$200.00 a month expenses, and that would mean \$3,000.00 a year, together with a secretary, with some expenses, amounting to approximately \$2,000.00.

I therefore recommend that an appropriation be made for such sum in the sum of \$5,000.00 for each fiscal year, beginning with July 1, 1933.

Respectfully submitted, on this the 28th day of May, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

May 26, 1933

TO THE HONORABLE SENATE AND HOUSE OF  
REPRESENTATIVES, OF THE 14TH LEGIS-  
LATURE OF THE STATE OF OKLAHOMA:

Gentlemen:

I submit for your consideration an amendment to an Act of the Regular Session of the Fourteenth Legislature, entitled "Senate Bill No. 181, which, as originally introduced, provided for the transfer of the Market Commission to the Board of Agriculture; but, when the said Bill came out of the Committee, it passed with an amendment introduced, in which the following language was used:

"The Chief Inspector must be qualified as such Inspector by holding license from the United States Department of Agriculture to INSPECT ALL FRUITS, VEGETABLES, AND HAY."

Now, as a matter of truth, there is not a man in the State of Oklahoma who possesses such qualifications; and, indeed, there is none in the United States, except in the special Civil Service Department of the Scientific

Department of the United States Government. ALL FRUITS would mean citrus fruits as well as others.

This Act also contains another faulty clause, providing for the JOINT CONTROL with the Federal Governor, which is impossible, under the law. All that the law should require is that this shall be transferred to the Board of Agriculture, and that the Field Inspectors shall have license to inspect the fruits or vegetables necessary to be inspected, and then one inspector might be enabled to inspect fruits, and have a license from the Government for that purpose; another inspector, potatoes, and nothing more; and, another, hay, et cetera. The law, as now written, is impossible of enforcement.

I call attention to the fact that the Chief Inspector has the duties of financing, clerical and administrative, and should not be required to have a license at all, but the same should apply only to the Field Inspectors; and then the Bill should provide that the State Market Commission shall co-operate with the Federal Government in lieu of the word, "JOINT."

I send herewith copies of two several letters from the Department at Washington,—one a letter to me, and a copy sent me of a letter of Harry Cordell, President of the Board of Agriculture, which will shed full and compete light on this question.

The bill as passed in regular session is hereto attached, with the eliminations essential to be made of Sections 7 and 8.

I therefore urge the Legislature to rewrite the Bill in line with the suggestions herein, to conform with its practical operation with the Federal Government.

Respectfully submitted, on this the 26th day of May, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Governor's message referred to the Committee on Agriculture.

### MESSAGES

The following Messages from the Governor were received and read:

June 6, 1933.

TO THE HONORABLE HOUSE AND SENATE,  
FOURTEENTH LEGISLATURE:

Gentlemen:

I have your Concurrent Resolution No. 2, asking the Governor to submit for consideration the re-imbursement of excess auto tag payments, made prior to the passage of House Bill 305 of the Regular Session.

In reply, permit me to call your attention to the fact that the original bill that received my approval did not make a change except in a minor way, but was introduced to adopt certain rules necessary for the enforce-

ment of the law. It passed by the House as I desired it. In the Senate, it was amended, doubtless through some person's effort to defeat the bill, or with the belief that the reduction would be vetoed, and, therefore, the rules defeated.

Several controversies were had, and, yet, the conferees of the Senate adhered to the provisions of the bill as finally enacted.

The House passed another bill providing for the return of the money to those making payment on tags prior to the passage of this Bill 305, but it failed to pass in the Senate.

Since this' Concurrent Resolution is an expression on the part of the Senate that they would pass the bill now to reimburse those who were most ready to conform to their public duty, I therefore authorize this Special Session to make provision for the return of the excess paid by those who made payments for their tags prior to the passage of the Bill No. 305.

Certainly it is never right to penalize men who are most ready to perform their duty, for many men will never perform a public duty until compelled to do so by law.

I had vetoed House Bill 305 because of its provision, had it not been necessary to sign it in order to get the rules into law providing for the enforcement of tag collections.

I trust no one will propose to repeal that law, but will merely provide for reimbursing those who paid an excess amount above that authorized by House Bill 305.

Respectfully submitted, on this the 6th day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE  
OF OKLAHOMA: Wm. H. MURRAY.

### MESSAGES

The following Message from the Governor was received and read:

TO THE HONORABLE THE HOUSE AND SENATE,  
SPECIAL SESSION, FOURTEENTH LEGISLATURE:

Gentlemen:

Your Body in Regular Session, submitted a Referendum Measure to the people, to be voted on the 11th day of July, or at the First General Election throughout the State. I refer to House Bill No. 647, "The Beer Bill."

This was within your province to order, irrespective of the wishes of the Governor.

Now, the Governor must needs either call this elec-

tion on the 11th of July, or in some General Election, next year.

Considering the public weal and serving the wisest public policy, I am sure the question should be voted upon at an election in which no candidates are running or other questions up for consideration; and, while it is not mandatory on the Governor to make this call in a Special Election, it thus becomes his constitutional obligation to call it either then or in the next General Election throughout the State.

Therefore, considering these obligations, and the public policy, before recited, this is to announce to you that I shall call a Special Election on what is known as the "Beer Bill," to be voted on on the 11th day of July; and, therefore, Your Honorable Body should consider the question of whether the State should make an appropriation to pay for the election, when held; or await the next Legislature; and, if the Legislature, in its judgment, thinks best, it is authorized to make the appropriation at this Special Session.

If an appropriation is made, it should be made out of the general revenues of the State, and not out of any supposed revenues that the Beer Bill may provide, for the reason that to say in the law that the election officers shall be compensated from the first taxes collected from the sale of beer is tantamount to saying that if you do not put over this Beer Bill, you will not be paid; and, therefore, indirectly, the offer of a bribe. It would be equally wrong to provide in the law that the election officers should be paid by the State, if the law was defeated at the polls. In either case, it is unfair, and not in keeping with wholesome public policy and honest government.

Moreover, a law as proposed by a number of members of the House, and, particularly those of the Beer Bloc, making an appropriation out of the revenues collected from the Beer, would be unconstitutional, for the

reason that you cannot make an appropriation in advance of the provision for the revenue.

You may make an appropriation in the same bill, raising the revenue, or from revenue after it is provided for, but the legislative authority does not extend to the power to make an appropriation in advance of the passage of a revenue law, on the mere assumption that it will pass.

Therefore, if you decide to make the appropriation, it should be made unconditionally, for the payment of the election expenses, out of the general revenues of the State.

Respectfully submitted, on this the 8th day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

MESSAGES

The following Message from the Governor was received and read, after which it was ordered referred to the Committee on Appropriations:

TO THE HONORABLE SENATE AND HOUSE OF  
REPRESENTATIVES, FOURTEENTH LEGIS-  
LATURE:

June 7, 1933.

Gentlemen:

In the drafting of the Bill for the issuance of the Oklahoma Treasury Notes, to take up the deficit, no provision was made for incidental expenses, such as telegrams, telephones, extra postage, certain extra blanks, book records, and the like; and the State Treasurer tells me that he is swamped for lack of funds to take care of these items of expense. The expense of all Departments was cut down to meet the normal labor and conditions; and, hence, this extra cost upon the Department depletes his fund.

He ought to have something like \$1,800.00 to \$2,000.00 for this particular expense, and I therefore open up for that purpose the subject for the action of the House and Senate at this Special Session, for the purpose of making the appropriation.

Respectfully submitted on this the 7th day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA, Wm. H. MURRAY.

#### GENERAL ORDER

SENATE RESOLUTION NO. 5, by Whitaker, Fidler, et al, was taken up for consideration and read at length as follows:

SUBSTITUTE FOR SENATE RESOLUTION NO. 5—  
By LOGAN.

A RESOLUTION CALLING THE ATTENTION OF THE PRESIDENT OF THE UNITED STATES AND THE ADMINISTRATOR UNDER THE INDUSTRIES BILL TO THE NEED OF FLOOD CONTROL; AND REQUESTING THE MEMBERS OF CONGRESS FROM OKLAHOMA TO URGE THAT THE BROAD PROGRAM OF CONTROLLING THE FLOOD WATERS OF THE ARKANSAS RIVER BASIN AND THE RED RIVER BASIN BE PRESENTED TO THE ADMINISTRATOR AND IMMEDIATE ACTION REQUESTED; AND DIRECTING THAT COPIES OF THIS RESOLUTION BE FURNISHED TO THE OKLAHOMA DELEGATION IN CONGRESS.

WHEREAS, the President of the United States and the Congress have provided for an appropriation of Three Billion, Three Hundred Million Dollars (\$3,300,000,000.00) for the purpose of aiding industries and giving employment to the unemployed by providing a monumental program of public works and improvements; and

WHEREAS, the greater portion of this appropriation will be allocated to the various states for the purpose of carrying on major works of improvement of state-wide interest and benefit, and

WHEREAS, aside from building roads there is little opportunity in the State of Oklahoma for properly and

wisely expending the sums which should rightfully come to this State, except through work relating to flood control.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF OKLAHOMA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the President of the United States, the Administrator operating under the Industries Bill, and the Congress of the United States be, and they are hereby requested to give immediate attention to the needs of this state and the opportunities made available here by the engineering work already done by the Oklahoma Commission of Drainage, Irrigation and Reclamation and the federal engineers in the field of Flood Control.

The Arkansas River Basin, more than 1,400 miles in length, drains a water shed in portions of seven states: Colorado, New Mexico, Texas, Kansas, Oklahoma, Missouri, and Arkansas. The Arkansas River and its tributaries the Walnut, Cimarron, Canadian, Verdigris, Grand, Illinois, and Poteau, uncontrolled as they are, constitute one of the nation's greatest agencies of destruction. The Canadian River is subject to very devastating floods. These floods not only menace the safety of Oklahoma City, the territory around Shawnee and on toward the mouth of the Canadian, but annually cause tremendous damage throughout western Oklahoma, all of which could be avoided by proper works of flood control. The preliminary engineering for controlling the flood waters of all the streams in Oklahoma, including the Arkansas and Canadian and their tributaries, and the tributaries from the Red River to the north, has already been completed and found to be feasible. Lake sites have been located and costs established on most of the state, particularly in the valley of the Canadian.

In the work of reservoirs, levies, revetments, stream control, flood control, protection of soil from erosion,

and reforestation, the Arkansas River Basin and the Red River Basin present a sound program of development unequalled nation-wide. Substantially complete surveys are now in the office of Major General Brown, Chief of the U. S. Army Engineers, the surveys for which have been in progress since June, 1928, under the provision of the flood control bill of May of that year. A vast amount of work covering the whole of Oklahoma, done by the Oklahoma Commission of Drainage, Irrigation and Reclamation, is also available. There would be little delay necessitated in waiting for available project construction and it is quite probable that work orders could be issued within 30 days on some of these projects employing an army of laborers and mechanics. There is probably not another equal area in the nation which offers so great an opportunity for profitable employment of large numbers of men, or which can assure so great a value in safety and prosperity, security and increased land values as that which is presented by the Flood Control possibilities in Oklahoma. The plans already available are state-wide, will not arouse resistance or controversy in any part of the state, but will secure the immediate and wholehearted co-operation of every agency, both governmental and private, within the state, including, of course, the United States Senators and Members of Congress.

BE IT FURTHER RESOLVED, that the United States Senators and Members of Congress from this State be, and they are hereby, requested to present this situation to the Administrator under the Industries Bill, and that he be urged to take immediate steps looking toward flood control.

BE IT FURTHER RESOLVED, that a copy of this Resolution be sent to each member of the Senate and House of Representatives from Oklahoma in the Congress, and a copy to Brigadier General Hugh Johnson,

Administrator under the Industries Bill, in Washington, D. C.

Senator Logan moved the adoption of the substitute for Senate Resolution No. 5.

Senator Dixon, as a substitute, moved that further consideration of Senate Resolution No. 5 and substitute therefor be indefinitely postponed.

Senator Whitaker moved to table the Dixon motion, which motion prevailed.

Senator Whitaker raised a point of order against the Logan motion, which was overruled, stating the substitute resolution was, in effect, an amendment to the original Senate Resolution No. 5.

Senator Whitaker, as a substitute, moved that original Senate Resolution No. 5 be considered, which motion was tabled, upon motion of Senator Logan.

Senator Curnutt, as a substitute, moved the adoption of the following amendment:

Mr. President: I move to amend Senate Resolution No. 5, line 1, page 4, by adding at the end of line 1, the following: "The Caney River is subject to very devastating floods. These floods not only menace the safety of Bartlesville, Oklahoma, but the entire territory through which the Caney River flows and, annually, cause tremendous damage throughout the territory which the Caney River drains which could be avoided by proper flood control."

CURNUTT.

Senator Nance moved to amend the Curnutt amendment, by adding after the words, "Caney River," the words, "and Cache River, in Cotton County, Oklahoma."

Senator Curnutt raised a point of order against the Nance motion, stating it was not germane.

Senator Nance asked unanimous consent, which was granted, to amend his motion by adding at the end of the Curnutt amendment, the words, "and Cache River, in Cotton County, Oklahoma."

Senator Curnutt raised a point of order against the Nance motion, which was overruled, stating the amendment was not germane.

Senator Dixon, in lieu of all pending motions, moved that Senate Resolution No. 5, together with substitute therefor, be referred to a Special Committee of 6, said Committee to be known as the Committee on Rivers and Harbors.

The Dixon motion prevailing, the President appointed as such special committee, Senators Dixon, Logan, Whitaker, Curnutt, Nance and Coppock.

#### MESSAGE

The following Message from the Governor was re-ceived and read:

TO THE HONORABLE THE STATE SENATE,  
FOURTEENTH LEGISLATURE:

Gentlemen:

You, with the House of Representatives, were called into Extraordinary Session, to fortify and protect your own records on Four Several Bills.

I understand now, through your Committee on

Revenue and Taxation, you are undertaking to make another record; and I submit two records are more difficult to defend than one.

Is it not more sensible to work along the lines of your previous record and the declarations of the Democratic Platform, to-wit: "The Democratic Platform stands opposed to a General Sales Tax?"

While I would compromise on some things in the former Bill, as I compromised in the passage of that Bill, this is to state in the most emphatic terms, so that neither you nor the Press of the State can continue to misconstrue and misinterpret what I say, if you put a Sales Tax, however small in amount, upon foods and the products of the farmer, I SHALL VETO IT.

I shall not be a party to setting the precedent of starting a tax upon these things.

Therefore, would it not be more sensible for Your Honorable Body, if you are unable to stand upon your record, to adjourn, and thus save further cost of your meeting in this session?

I submit these considerations to your deliberation, on this the 16th day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

The following Resolution was introduced:

SENATE CONCURRENT RESOLUTION NO. 7—  
By COMMONS of the Senate and BATSON of the House.—A Concurrent Resolution fixing the day and the hour of the sine die adjournment of the First Extraordinary Session of the Fourteenth Legislature of the State of Oklahoma.

MESSAGES

The following Message from the Governor was received, read and ordered referred to the Committee on Education:

TO THE HONORABLE HOUSE OF REPRESENTATIVES AND SENATE OF THE FOURTEENTH LEGISLATURE:

Gentlemen:

On the 20th day of June, the Co-ordinating Board

*Twenty-fourth Day, Thursday, June 22, 1933* 201

met in an all-day session, having under discussion sundry functions under the law creating the Co-ordinating Board, as provided in House Bill No. 686, and finally agreed that the law governing tuition and fees should be changed, and selected a Committee, composed of Judge Reford Bond, Houston B. Tehee, and Judge J. T. Dickerson, to draft a proposed law, and they have submitted the same to me, through the President and Secretary of the Co-ordinating Board, as made manifest by their letter hereto attached.

The law provides for the Board of Regents of the University to fix certain fees and tuition charges, and the same is lodged in the Board of Education and other Boards.

It is the opinion of the Co-ordinating Board and that of the Governor that schools of equal rank should have the same charges, and not have a high charge in one school of the same grade, and a low one in the other, and it is their opinion therefore that one Board should fix these fees; and, while it would appear from the Act creating the Board, House Bill No. 686, that they have such authority, there is some doubt as to whether the other statutes were repealed; and, in order to make their authority clear, it will be essential to pass this additional Act.

I attach hereto a copy of a Bill, as written by the Board, and as approved by the Governor. I trust that the Legislature can see fit to pass this Bill quickly.

Respectfully submitted, on this the 22nd day of June, A. D., 1933.

### MESSAGE

The following Message from the Governor was received and read:

TO THE HONORABLE SENATE AND HOUSE OF  
REPRESENTATIVES OF THE 'FOURTEENTH  
LEGISLATURE:

Gentlemen:

At the last session, I recommend the organization of a Ranger System, to aid in putting down crime, foreseeing the danger just ahead, and there is great danger of breaking down the law. This is illustrated by the recent horrible tragedy when five men were killed in Kansas City. In this State, in one county, a foul murder was committed; in another, a robbery, and the sheriff, knowing where they were, would not make an arrest; in another county, to which I sent, at the request of certain citizens, a man from the Bureau of Criminal Identification, this man reported seven murders had been committed in that county.

Recently, I had a man to bring "Pretty Boy" Floyd on the spot, to be killed by the deputy sheriff of the county. Four deputy sheriffs witnessed "Pretty Boy," his driver, and one other man drive out of the alley, and though just across the street, they let him escape without saying a word.

A number of Senators now feel as I felt last January, and have urged me now to submit the Bill to the Special Session,—the Bill introduced by Dr. Ritzhaupt of the Senate and Garland of the House.

I therefore submit to you this Bill, with the request that you pass it, if you can, speedily, and abolish the Criminal Bureau, and let there be a law enforcement agency of the State founded upon the Ranger System, which protects the peace officer.

Respectfully submitted, on this the 22nd day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

## GENERAL ORDER

SENATE CONCURRENT RESOLUTION NO. 6, by MacDonald, was taken up for consideration and read at length, as follows:

SENATE CONCURRENT RESOLUTION NO. 6—By MacDonald.

A CONCURRENT RESOLUTION URGING THE ADMINISTRATOR OF FEDERAL INDUSTRIAL RECOVERY ACT, TO CALL A CONFERENCE OF REPRESENTATIVES FROM OIL PRODUCING STATES, REGULATING UNIFORM TAX LEGISLATION OR THE IMPOSITION OF A SEVERANCE TAX TO BE IMPOUNDED AND HELD IN TRUST IN EACH STATE AGAINST THE EXHAUSTION OF OIL AND GAS RESOURCES.

WHEREAS, in the past the taxation of the oil industry by the state, has been almost as chaotic as the conduct of the industry itself in the various states: in some states one system of taxation has obtained, in others a different system; in some states oil may pay more than its fair share of the operating expenses of the states, in others less. No effort has been made to secure uniformity of taxation, and in many instances the oil industry has played state against state by threatening to discriminate against the state that imposes the highest tax; and

WHEREAS, though oil is an exhaustible resource, and the oil states will, within a limited term of years, lose what is now their largest single source of revenue, aside from agriculture, no attempt has been made in any oil state, to impose a severance tax and impound for succeeding generations a share of the vast wealth now being produced for the benefit of the people of all the states; and

WHEREAS, under the new federal industrial con-

trol act it has been made possible for the first time to treat the oil industry as a whole, and under this act a national code is being drafted, to be approved by the federal administrator, acting for the President, under which wages and hours of labor will be standardized in the various oil-producing states, production will be limited to consumption and apportioned equitably among the various states, adequate prices will be guaranteed, the dumping of cheap foreign oil will be controlled, and consumers will be protected against excessive prices; and

WHEREAS, it is essential, under this new administration of the oil industry, that taxation by the various states be standardized, in so far as possible, and especially that provision be made for severance taxes, since it is but simple justice that the people of the nation, in whose service the oil and gas resources of the various states are being expended, should make provision whereby the states now producing oil and gas should not suffer when these vast natural resources are exhausted;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF OKLAHOMA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN, THAT:

The Administrator of the Federal Industrial Recovery Act be urged to call together the representatives of the oil industry and labor, representatives of the tax authorities of the various oil-producing states, to the end that provision be made for uniform tax legislation, to be submitted to the legislatures of all the states, under which fair and reasonable taxes may be imposed, uniform throughout the states, and especially that provision be made, in the states willing to take advantage of the provision, for the imposition of a severance tax, to be impounded and held in trust in each state against the exhaustion of oil and gas resources; and

BE IT FURTHER RESOLVED that copies of this resolution be sent to the President of the United States and the Federal Administrator, to the officials of the oil and gas code commission, and to the governors and tax authorities of the various oil producing states, with the request that immediate and concerted action be taken to bring about the uniform taxation which should be imposed, for the protection of the various states, as well as for the producers and for consumers generally.

#### MESSAGE

The following Message from the Governor was received and read:

TO THE HONORABLE STATE SENATE,  
FOURTEENTH LEGISLATURE:

Gentlemen:

Report has come to me that a group of senators have gotten together and agreed upon an Income Tax Bill, and that the provisions of the Bill that are material and important are these:

Reduction of the rate to 6 per cent from 10;

Certain exemptions for the banks;

Depletion of 20 per cent instead of 27.

Now, the vital part of this Bill is the "Depletion

Clause," that permits the oil companies, and particularly the major ones, to escape. That is more important than rate, because, with such "depletion," they cannot be reached by any rate, whether it be 6 or 10.

The professional man has nothing in the Bill, nor has the ordinary business man, for depletion on his brains or goods. Depletion of cost is in the former bill, and that is all they are entitled to.

I was satisfied a week ago that you would not enact a good law, with the Emergency; and, now, it would appear to any analytical mind that some of the senators are trying to enact anything for an excuse, leading the people to believe the Senate had done something, when, as a matter of truth, the Bill would be very little better than the present law. But, I assure those gentlemen that they will not get away with it in the public mind.

I have told you before that I would veto such a Bill, and why can't you submit the old bill that you passed in the regular session to the people on the 15th of August, since the men most responsible for the defeat of the Bill plead, during the first days of this session, for an opportunity for the people to vote? Why not give them that opportunity?

In my message upon the convening of the Legislature in January, I submitted a complete program that would pay the debts, State and local; that would keep the Government in operation, economically administered, with recommendations for such economy; and to keep the common schools open.

You carried that program out, but did not fortify your work on the Revenue Bills, by leaving the Emergency off. Compromises that destroy should not be made just to fool the public. That contemptible method is the cause of the present condition of the country.

I re-convened you into this Extraordinary Session, in order that you might fortify that record, believing

that you would at least be faithful enough to your own record, if not steadfast to a course, for as long as sixty days; but, in that, I was mistaken; and I repeat, as I told a group of senators a week ago, their only hope is to submit all these bills to the people; and, when you propose it, you will find that the men who have upset the program, like Fidler, Rutherford, Jennings, Logan, Ballard, Dixon, and Curnutt, will then be opposed to the submission, although the burden of their song two weeks ago was to have these bills submitted to the people.

Respectfully submitted, on this the 29th day of June, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Senator Curnutt moved that the Senate refuse to concur in Engrossed House Amendments to ENGROSSED SENATE BILL NO. 10, and ask the Honorable House to grant a conference thereon.

MESSAGES

The following Message from the Governor was received and read:

TO THE FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA, EXTRAORDINARY  
SESSION:

Gentlemen:

I advise you that I have this day approved Enrolled House Bill No. 18, by Batson, and filed the same with the Secretary of State.

This bill, appropriating Forty-Five Thousand (\$45,000.00) Dollars, to pay the mileage and per diem of members, salaries of employees, printing and other expenses of this extraordinary session, is the second such

bill, a similar bill for Sixty-One Thousand (\$61,000.00) Dollars having been approved by me on the 3d of June. You have appropriated for yourselves One-Hundred and Six Thousand (\$106,000.00) Dollars for this Special Session alone.

Your honorable body met May 24th, responding to a brief message in which I presented a concrete program that should have been disposed of in not exceeding ten days.

You have now been in session thirty-seven days and to this date have passed five bills, namely: a bill to refund the excess on automobile tags, a bill providing for the beer election and other elections, a bill appropriating Two Thousand (\$2,000.00) Dollars for necessary expenses of the office of the State Treasurer and the two appropriation bills to finance your own special legislative session.

I take occasion again to call your special attention to House Bill No. 7, introduced by Leecraft on May 30th, and printed June 1st, 1933, reappropriating \$27,429.46 for the purpose of making payment for the necessary expenses incurred by The Governor of the State, upon the good faith and credit and honor of the State, in the administration of the Emergency Relief and Construction Act of 1932, in furnishing relief and work-relief to needy and destitute and unemployed people in the State of Oklahoma.

The Federal Relief Act made no appropriation for necessary expenses such as postage, express charges, telegraph and long distance telephone service, the printing of letter-heads, reports, checks, claims, blank forms and necessary office supplies.

These necessary and unavoidable expenses must be borne by the State.

This identical appropriation was included, by the Fourteenth Legislature, at the regular session in House

Bill No. 625, the Omnibus Bill, but the Attorney General has held that the items should be appropriated in a separate bill.

These necessary supplies have been contracted for and in a large measure delivered, upon the good faith and credit of the State. The merchants and printers who furnished the supplies expected to receive their money within a reasonable time; they need the money; it is justly due; long over-due and to repudiate such an obligation is dishonest.

I am, therefore, asking you again to pass this House Bill No. 7, without delay and I hope that you will do so so that these creditors may receive their due, before you appropriate any more money for your own use and benefit.

Done, this June 30, A. D. 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

The following Messages from the Honorable House were received and read:

### MESSAGES

The following Messages from the Governor were received and read:

To the Honorable House and Senate of the 14th Legislature, Special Session:

Gentlemen:

The law provides under a Bill of the Regular Session for the deposit by the County Treasurers of county funds with the State Treasurer. The general law also provides that the State Treasurer shall pay 3 per cent thereon.

The banks refuse to accept any of this money and pay 3 per cent, and, indeed, not more than 2 per cent at this time, for the reason that they can get Indian Funds and Federal Funds for less than 3 per cent. Consequently, the State would be at considerable loss making payment of 3 per cent when only 2 could be had.

Therefore, it becomes essential for action upon the part of Your Honorable Body.

I therefore submit for your consideration, and open the question, that you provide by law that the State Depository Board, consisting of the Governor, Treasurer, and the Attorney General, may raise or lower the rate on deposit, made with the State Treasurer, or made by the County Treasurers, to meet this situation, to the end that they may provide for a rate that will **balance**; and, in the event there comes a time when the rate may be raised higher than 2 per cent, they may meet such situation by a resolution of said Board.

Immediate action is urged and requested.

Respectfully submitted, on this the 5th day of July, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

To the Honorable House and Senate of the Fourteenth  
Legislature, Special Session:  
Gentlemen:

I hereby notify you that I have signed House Bill No. 1, known as the Income Tax Law, and I do so only because it is just one step forward in a final solution and accomplishment of a just income tax statute.

I regret that the fight for success must continue for two years longer, but I told the people in 1930 that I "had enlisted for the duration of the war for just tax laws," realizing at the time that all reforms are slow of accomplishment.

We must now needs defeat certain senators who

are openly hostile to these policies, and others who pretend to be loyal to them, but, on every occasion, seek to serve themselves and the interests which they really represent, by pointing out to their constituents in the primary next year their short-comings in the Senate when considering in the Committee the whole when no record vote was made.

The Income Tax Law adopted by the 13th Legislature of two years ago was a miserable compromise, which gives us a revenue of but \$2,500,000.00. This law raising the per cent to six, and particularly because that rate begins after the earning of \$14,000.00, based upon the present revenues obtained, will give us 4½ or possibly \$5,000,000.00, whereas, the bill passed in the regular session, and on which I urged you to place the Emergency, would give us \$10,000,000.00, which, together with the Select Sales Tax and the Cigarette Tax of three cents a package, would result in a revenue, 90 per cent of which would have benefited the schools of the State, giving them a program as follows:

From Income Tax, without "depletion clause"	\$10,000,000.00
From Cigarette Tax, at 3c a package	2,750,000.00
From Select Sales Tax, at 2 per cent, exempting the farmer, food and clothing of the poor	3,000,000.00
<b>TOTAL</b>	<b>\$15,750,000.00</b>

We need all of that to arrange for a new school program that the "weak school" problem may not longer vex us.

Under your program of reducing the Sales Tax to 1 per cent and applying it to everything except the farmer's product, will result in practically the same tax as the one passed in the Regular Session; then, your reduction of the Cigarette Tax from 3 per cent to 2 per

cent will lower that to approximately \$1,000,000.00; then, with your Income Tax, containing the "depletion clause," you will have a possible \$5,000,000.00, which means a difference in the two programs of \$6,000,000.

In this compromise of the loss of \$6,000,000.00, every cent of which was needed to finance the schools and State Government, you compromised with such men as J. Woody Dixon, Hardin Ballard, Stacey, et al, rather than follow the advice of the Governor and sustain your own records in the regular session.

I accept it only because it were better to accept a "half loaf than no loaf at all," and I shall leave you to answer to your constituents why you made this compromise, following the Oklahoman. Doubtless the Dixons and Ballards and Staceys will be prating next summer as candidates for re-nomination that they voted for an income tax, where they had fought every inch of ground from the beginning of my administration in reform of taxes, but they will have to answer to their constituents why they gave up to the oil companies \$5,000,000.00, by placing in the "depletion clause," and why were they so anxious to serve these great concerns by putting into the bill the "depletion clause," and why they serve the bootlegging cigarette makers of this city in reducing the cigarette tax from 3 to 2 per cent, and giving the bootleggers three-fourths of a million dollars, and denying that amount to the school children of this State.

You will go home boasting of your magnificent work, but, before the schools are out next spring, the people will discover that your boast was an empty one and that your hope was a vain one.

Posterity will suffer the consequences of our heeding not the wisdom expressed by that pioneer apostle of the French Republic, Danton, who taught:

“Next to bread, education is the need of the people.”

And this means the common schools of the masses; not the institutions of higher learning of the ruling classes.

“Oh, our common schools—

We read it in our country story—

Therein lies our hope, our power, our wealth,  
And there our future glory.”

And the legislator who would strike them down, when an opportunity is offered to vouchsafe them, should at least have his motives challenged; for he is an enemy to the race, a traitor to our popular-controlled institutions, including the Republic itself.

Now, I propose to my friends in the Senate, or, rather, I mean those men in the Senate and House who believe in a just tax policy, and I am informed that there are 23 of those votes in the Senate, to adopt an elimination of the “depletion clause” in the form of an amendment to this Bill, which I have signed, and now becomes a law, and then, refer it to the people; then we can vote on that measure in the general election next year.

By your immediate consideration of such amendment, taking out of that one section the “depletion clause,” through this method, we can yet pick up \$3,000,000.00 more to aid the school children of this State.

I urge, I implore you to do so at once.

Though disgusted with certain pretended supporters of these policies, yet, I am not disheartened, because I realize that any reform requires a long and continuous battle, and we have already made headway since 1930, and two more years of fighting might enable us to win in the Legislature that will convene in January, 1935. We surely shall win by retiring the Ballards, the Dixons, the Staceys, et al, and electing a Governor who will

stand steadfast for the policies, and I assure you that I shall be on the battle line, head erect, facing the East, in the hope of this final success.

We have re-written the tax laws governing the "machinery" of collection, beginning with a Tax Commission, until we have completed that "machinery." We have now but to press forward until the program of assessment shall have been completed. We have traveled a long way already, and success is just ahead. By retiring these groups of politicians, following intrigue, barter, and trade, as a policy of State, rather than wholesome policies, we shall serve the public.

With these accomplishments, I submit my own efforts to an intelligent public, with a clear mind and conscience, without the necessity of apologizing for my own steadfast course, leaving those who have faltered and become faint by the wayside to make their own explanation to their constituents.

Respectfully submitted, on this the 5th day of July,  
A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Senator Chamberlin presiding.

To the Honorable House of Representatives and Senate  
of the Fourteenth Legislature, Special Session:

Gentlemen:

I have received House Bill No. 2, commonly called the Sales Tax Bill, and this is to notify you that since you have limited it to June 30, 1935, when, by its terms, it expires, I shall let it lie in my office for five days, and then file it with the Secretary of State.

Gentlemen in the Legislature who advocate this law do so, realizing that the common man who does not see the tax when he pays it will therefore not object; and thereby will become reconciled to the tax; and, while that is true, it nevertheless follows that to levy a tax

that in the end will prove burdensome upon the poor and tend to continue their poverty, leaving the big concern to amass a great fortune, as has been the order of the day for a quarter of a century, until mental cunning has all but destroyed the economic forces of the Government and the Republic itself, would be unwise.

The American Government collects off of sugar alone nearly \$150,000,000.00 annually, and the people do not object, because they do not see it, and this is the theory upon which politicians act on a Sales Tax, and, though admitted it may be good politics, it is not good morals, nor sound economics, nor statesmanship; but subserves the tendency of the past few years of Statecraft degenerating into barter and trade and unscrupulous intrigue; and I shall not be a party to it, knowing the baneful effect upon the public.

True enough, the rate in this Bill of but 1 per cent is insignificant, but it is the beginning that will double and treble the rate as the years go along, at the behest of great income makers, who have endeavored and succeeded to a large measure to escape their just share of taxation; and, in the end, it will be extended even to the farmer's product, when he sells it. Inch by inch, like a creeping malady, will this system of taxation creep upon the Oklahoma citizen, to the detriment of their prosperity. It will be used as used in Latin-America, where they unhesitatingly tell you that their high Sales Tax on the cost of living is for the express purpose of keeping the peon poor, and they are very successful at it.

The proposition of a Sales Tax is not a new thing,—it is as old as civilization itself; and, through the years, has often upset civilizations during the long march of the people to attain that goal of righteous government that would become a reflex of the people's best interests.

The deciding factor that built up the renowned Mogul Empire of Oriental Europe and Asia, under

Chinghis Kaghan, who destroyed the distasteful Sales Tax and adopted for the first time a gross income tax, which, though high, amounting to 10 per cent on all, yet, under it, as the sole tax, substituted for ad valorem and sales tax, they prospered and the farmer lent his aid to the government of Chinghis Kaghan.

The Sales Tax was inaugurated in Ancient Greece; and, during the period, upset her civilization, because it grew from insignificant rates to rates so high that it placed the cost of living beyond the reach of the common citizen.

It was in force under Louis XV of France, and was one of the most cogent causes that started the "Bloody Revolution," and, in later years, "The Reign of Terror."

The noted Salt Tax showed itself in its most disastrous form; beginning first at one cent a pound, it rose to twenty-five cents a pound, with a provision that every person over seven years of age was obliged, under heavy penalties, to purchase 25 pounds of salt a year, and one of that purchase should be used for the curing of meat, under penalty of confiscation of the meat.

Under Louis XVI, the financial minister, Tergot, a man of genuine regard for the public weal, sought to take from the nobility a portion of their pension and compel the nobility to pay a portion of the taxes, thus to relieve the bourgeoisie, or middle, and the poorer classes, and, he was unceremoniously dismissed as Minister of Finance in this commendable effort to adjust taxes in proportion to the ability to pay.

Later, the Government of France, burdened with heavy debt, Louis XVI called into counsel the nobility, and then asked why they should not pay some of the taxes, and the conference immediately disbanded. Louis XVI yielded to them, and the French people had but one alternative,—resist both the tax and the King, who lost

his head on the guillotine; and, later, France was one of the first countries in the world to adopt an Income Tax, which restored peace and prosperity to her citizenship.

In America, since the adoption of the Income Tax some 25 years ago, those who were thus obliged to pay a tax have the same contempt for governmental authority as the nobility of France, and now seek to substitute a Sales Tax, beginning with an insignificant rate, to be followed by an increase of that rate year after year, with a corresponding reduction in the rate of the income tax; and I regret to find members of the Legislature falling for such a program.

This special program is the program worked out by Gaylord of the *Daily Oklahoman* and *Times*, and I am astonished at some men in both Houses of the Legislature yielding to that program. It is not a wholesome program, but one with a consummate, selfish design to lull the people into submission by fair promises and deceptive methods.

Why should not the oil barons and the producers of great wealth who continue to amass great fortunes, which can be checked only through taxation,—I ask the question, why can they not pay taxes? Why should a policy be adopted that in the end will fall upon the great middle class and the poor of the land, through the double method of an increase in the cost of living and the payment of the tax until the great middle class will be destroyed, and there will be a duplication of Old World economics and Government, with but two classes,—the hopeless poor and the ruling rich, which, sooner or later, will cause to be repeated in this fair land the same horrors of the “Reign of Terror,” which characterized the movement of the French people?

Let us go no further than use such system to meet an emergency. To do this, the people must needs question every candidate for the Legislature in the primaries

next year, otherwise, the Legislature meeting in January, 1935, will extend this law.

Such taxation is never justifiable, except "as emergency," like war, or for the payment of public debt; and your limit of two years to pay outstanding school warrants is my only reason for not vetoing it; but the intention of this tax, as shown by its advocates, Gaylord of the Daily Oklahoman; the Tulsa World, Times; News; and Tribune; and all the corporate interests of the State, shows their consummate design.

Cost of living will rise, and, evidently, with other policies in harmony with such a tax, will the American people become divided into two distinct classes,—the ruling and wealthy class on one hand and the helpless poor on the other.

Government will continue to centralize, and, eventually, the whole will be controlled by a military dictatorship. The control of government by the rich and powerful in no age of the world was ever democratic.

Gentlemen who court expediency for self promotion and aggrandizement may indulge in such intrigue, but I shall not do so.

For the foregoing reasons, and others equally cogent, do I, with a clear mind and conscience, adhere to this position, and let this Bill become a law by constitutional operation, solely as an emergency measure.

Respectfully submitted, on this the 5th day of July, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

President Burns presiding.

To the Honorable the House of Representatives and  
Senate, Fourteenth Legislature, Special Session:

Gentlemen:

The laws governing collection of tax placed upon

beverages, or may hereafter be placed upon them, is defective.

Therefore, I have authorized the Tax Commission to draft and prepare bills which were submitted to the Legislature on yesterday.

I therefore open up for your consideration and action the enactment of "machinery" of the law for collection of such taxes under any existing law or any law which may hereafter be enacted, governing the sale of beverages, et cetera.

I also submit to you a bill hereto attached, by Anglin, entitled:

AN ACT PROVIDING FOR TRANSPORTATION OF PUPILS IN THE STATE OF OKLAHOMA.

The object of said Act is primarily to permit the transportation of high school pupils from one district to points outside of the district, for your action and consideration.

Senator Logan submitted the following amendment:

Mr. President: I move to amend Engrossed House Bill No. 3, by striking all the sections therein contained and substitute in lieu therefor the following sections:

Section 1. The title of this act shall be the "Oklahoma Cigarette Dealers License Tax."

Section 2. No person shall be permitted to engage in the business of selling cigarettes either as a wholesaler or retailer without first having applied for and obtained a license from the State Tax Commission, which shall be issued for a fee of \$40.00 per year, payable quarterly. Separate license shall be required for

each place of business of such wholesaler or retailer.

"Place of business," as used in this section, shall mean the place where orders for cigarettes are received, or where cigarettes are sold or kept for sale; or, if sold from any vehicle, the vehicle on which or from which such cigarettes are sold.

Application for a license must be subscribed and sworn to by the person owning the business or having an ownership interest therein. If the applicant is a corporation, the application may be executed by a duly authorized officer or agent. Application shall be made on forms prepared and furnished by the Commission, and shall, in addition to any other information which the Commission may require, set forth the name of the applicant (and in case of partnerships, the name of the partners, thereof), the applicant's postoffice address, whether the application is for a license as a wholesaler or a retailer, and the location of the place of business to which the license shall apply; and in case of a retailer, the nature of the business of the applicant and what other business, if any, is carried on at the same place.

Section 3. Two per centum (2%) of all moneys collected under this act shall be placed to the credit of a fund to be designated as "The Oklahoma Cigarette License Tax Enforcement Fund", to be used for the collection of licenses and enforcement of said act; that any person, firm, corporation or association that shall sell cigarettes without having first obtained a license as herein provided shall be guilty of a misdemeanor and upon conviction, shall be convicted and fined in the sum of not more than One Thousand (\$1000.00) dollars nor less than Three Hundred (\$300.00) dollars, and may be incarcerated in the County jail for a period not to exceed sixty days.

Section 4. Ninety-eight per centum (98%) of the moneys collected hereunder shall be apportioned quarterly to the several common school districts of the State

on a scholastic enumeration per capita distribution basis; and shall be distributed to the various Counties in accordance with existing law for distribution of like funds; and the distribution to the various Counties shall be made by the Commission as soon as practicable after the close of each quarterly period ending March 31st, June 30th, September 30th and December 31st of each year.

The moneys so apportioned and distributed to each school district shall not be considered as income or revenue for the fiscal year in which they are collected or the fiscal year in which they are apportioned, and shall not be appropriated or taken into consideration in the making of any appropriation or in estimating revenue to be received from sources other than ad valorem taxes, but shall be used for the following purposes:

(a) Each school district receiving any moneys hereunder shall first use the same to pay and retire all outstanding warrants which shall have been legally issued against a valid appropriation and which shall have been outstanding and unpaid for at least one year prior to the beginning of the fiscal year in which the moneys are distributed to such school districts; the oldest of said outstanding warrants shall be paid first and others shall be paid in the order of their date of issue.

(b) When any school district shall have paid all such outstanding warrants, as hereinbefore provided, or shall have accumulated sufficient funds to pay the same, or should any such school district have no outstanding warrants which have been outstanding and unpaid for at least one year prior to the beginning of the fiscal year in which the moneys collected hereunder are distributed to such school district, the moneys apportioned to such school district under the provisions of this Act shall be credited to its sinking fund for the purpose of retiring its outstanding bond indebtedness.

(c) When any school district shall have paid, ~~or~~

accumulated sufficient funds to pay, such outstanding warrants, as hereinbefore provided, or should such school districts have no outstanding warrants which have been outstanding and unpaid for at least one year prior to the beginning of the fiscal year in which the moneys collected hereunder are distributed to such school districts; and when any school district shall have paid all outstanding bond indebtedness, or accumulated sufficient funds to pay such bond indebtedness at maturity, or should any such school district have no bond indebtedness, the moneys collected and apportioned hereunder shall be used by such school district to reduce the rate of ad valorem taxation in accordance with the provisions of Section 12499, Oklahoma Statutes, 1931, including the provisions thereof relating to the participation of the State Common School Equalization Fund.

Section 5. That the license issued hereunder to cigarette dealers shall not be in lieu of any tax that may be required to be paid by cigarette dealers for the sale of cigarettes under any general sales tax, this may be adopted by the State of Oklahoma. That House Bill No. 229 of the General Session laws of the regular 1933 session and known as the "Oklahoma Cigarette Stamp Tax", is hereby repealed; also Sections 1950, 1951, and 1952 Oklahoma Statutes 1931 relating to issuance of license for the sale of cigarettes are hereby expressly repealed.

# Charles N. Haskell

A Tribute to  
Oklahoma's First Governor  
by the  
Oklahoma State Senate

Again we are called upon to note that the writing hand moves on. This time Oklahoma's distinguished citizen, Charles N. Haskell, her first Governor, has passed into the Valley of the Shadow.

Departing, he leaves an honored name, a cherished place in the memory of all Oklahomans. He has gone to consort with the patriots of all time and of every nation.

Of his early life we know but little but we do know him,—and we are satisfied with the result. Born in Ohio in 1860 he took up his abode with us in 1901. Arriving at Muskogee he found a grown up country town. What appeared insurmountable to others became to this man of action an opportunity.

Reared on a farm and reveling in the great outdoors and having a native genius for construction he became a town builder; built street car and inter-urban lines and promoted and built railroads. Started a Tide Water project from Ft. Gibson for the purpose of establishing lower freight rates for his adopted town. Commodious hotels, stately business houses, new additions, improved streets and a city of homes and a greater Muskogee were his gift to his community and to the State.

This constructive genius could not be satisfied with mere mechanical results, but these were the harbinger of a highly developed inward urge and a lofty call to public service. He founded the New State Tribune, made this newspaper the sponsor of a statehood movement that was to arouse the nation.

Having set himself industriously to this great task he never faltered. The result was the Sequoyah Convention advocating separate statehood for Indian Territory. As such it was a challenge to Oklahoma and to the American Congress. It became the unanswerable argument for Statehood.

The Statehood bill was passed and Governor Haskell became a prominent figure in the twin territories. He was one of the chief organizers of the Constitutional Convention, during which he formed associations with the leaders who were to control the destiny of the new state and he established a life-time alliance with delegate William H. Murray, who was made President of the Convention.

As a delegate he was a diplomatic organizer, a great harmonizer, a pacificator, and the friend and confidant of the entire membership. He wrote many of its sections and took active part in every deliberation.

As First Governor of Oklahoma he did more than occupy a station. He comprehended those broad principles and a mastership of the almost infinite detail essential to sound policy and to wise public administration in a situation requiring profound understanding and fraught with infinite peril. His administrative triumphs were a literal example of the "Survival of the Fittest in the midst of a Hostile Environment."

His administration began November, 1907, with Statehood, and concluded with the convening of the Third Legislature in January, 1911. A lawyer by profession with an uncanny understanding of the requirements of the hour, the needs of the people, a keen interest and a discriminating comprehension of public needs and of state welfare,—his inaugural address at Guthrie, delivered on the south steps of the Carnegie Library, lifted him into national prominence.

He set about the vitalization of the Constitution and the organization of the State on constitutional lines with such vigor and superb policy that the Forty-sixth became the radiant and attractive star of the American Flag.

During the First Legislature Governor Haskell delivered a message and conjoined thereto a resolution creating a commission to thunder at the door of Congress and to awaken the various states of the American Union to the transcendent importance of amending the Federal Constitution to provide for the election of United States Senators by direct vote of the people. The result was electrical and the impact was irresistible.

Guthrie, the Territorial Capital, was filled with public officers and the hibernating place of a coterie of retainers who moulded the sentiment of the town and community. They were socially established and resented removal. The invasion of the newcomers brought on by the state election was antagonized. Corporation and special privilege ideas were intensively reflected. The leading people were critical and hostile, the local courts searched for opportunities to hamper, obstruct and even hamstring the processes of Government in the new State. Social ostracism was extensively practiced. It became more and more intolerable. The people felt that the State and its institutions belonged to them and that Guthrie should be grateful to be the Capital, and that it was an ill flavored seasoning which rendered life in the capital of the state a hotbed of discontent. This, together with the aspirations of other communities soon led to a state-wide campaign for removal of the capital.

The decisive character of Governor Haskell, his quickness to act and his inimitable ability to grasp information and solve difficult situations were never better illustrated than in his personal canvass of the votes, summoning the public officers, and requiring them to bring the great Seal of the State and meet him at Oklahoma City where he declared the result and the world awakened to find at Sunup following the election that the officers were beyond the venue of the Guthrie lawyers and judges and that Oklahoma City was the capital of our State.

Throughout his administration as Governor, and more especially in his service on the County Seat and County Di-

vision Committee of the Constitutional Convention, his practical mind, his intuitive knowledge of the law, and his insight into what the law should in fact be enabled him to discern the underlying principle at issue.

— He found the middle ground and usually brought belligerent forces and rival interests into friendly compact. The people of the State owe to him a deep and permanent debt of gratitude. Contenders over county seats and over county boundaries, towns demanding new institutions, special privileges snarling at being disturbed, lobbyists and corporate clamorings for legal advantage, innumerable popular demands, office hunters and hungry politicians seeking place and a salary, a solicitor's face in every window and a demanding hand at every door encamped around about him and each and all had their hearing. Like every good-hearted man he often conceded too much and sometimes made serious mistakes, but his constant concern was to conserve the best interest of the State and send the disappointed solicitants away with a feeling that a denial was either a personal favor or a state necessity.

In a high degree Governor Haskell became a national character. Oklahoma's progressive constitution, his activities in its formation, his administrative wisdom and energy, his dramatic personality, his peculiar aptitude and rich endowments silhouetted his outline on the national horizon. He was a Democrat in politics, in principle and in affection. He trusted the people and his standard rule of conduct was to espouse no cause he could not defend before the people. Although a railroad promoter and builder, he was the unbiased and fearless advocate of their rigid regulation.

In public life his services were not given to clients, nor to retainers, nor to advertising patrons, nor to those who had employed him, and in public life he came, not to get or to demand, but to give and the generosity of that gift was superb.

With boundless energy he worked twenty hours a day, giving himself and every ounce of his capacity to the public welfare. He cared not place, except as a means of service.

In 1908 he headed the Oklahoma delegation to the National Democratic Convention at Denver and for a few months was Treasurer of the Democratic Campaign Committee. He was the real co-laborer and in spirit and in fact the spokesman for William J. Bryan in writing the platform of that Convention.

In 1920 he again headed the Oklahoma delegation at the National Convention, which in that year met at San Francisco and as such was committed to and faithfully labored for Oklahoma's own United States Senator, Robert L. Owens, for the nomination for President.

In 1928 he was a delegate to the National Democratic Convention at Houston.

In 1932 he was the Oklahoma Patriarch at the Chicago Democratic Conclave.

At each convention and in his speeches and in numerous articles appearing in the public press he disclosed an intimate understanding of the big money masters of America and ruthlessly exposed many of their venal practices and their corrupt usage of the public funds in their own interest to the detriment of the people.

In private life he engaged in activities which made and lost several fortunes and in those processes made fortunes for others who prospered by his counsel and advice.

In his family relations he had an outstanding reputation for love and respect to his own wife, and most tender consideration for his children. He is survived by his wife, Mrs. Lillie E. Haskell, his daughters, Mrs. Frances Edmondson and Mrs. Jane Richardson. He loved and adored them, they revered and honored him, and we share their deep and genuine sorrow.

Some expression of insight into the character of Governor Haskell is not only befitting but should serve a high and exalted public purpose.

In public office he was free from corruption. Though he was the leader in the deliberations of the committee on county lines and county seats when hundreds of towns had committees

attending the sessions with heavy purses, yet he left its deliberations lean and poor and by the time he had retired from the Governor's office he had become utterly impoverished.

Upon the platform and in debate he ignored the elements, arts, and graces of oratory but marshalled facts, arrayed statistics, and piled up figures and illustrated events in unsurmountable mass, connecting them with pungent sentences, abounding in stinging sarcasm, cutting wit and with a grim humor that carried his point.

He possessed a deep insight into human psychology based on a reverence for public duty which is best demonstrated in his selection of the first judges of the Court of Criminal Appeals when he selected for its members Judges Henry M. Furman, H. G. Baker and Thomas H. Doyle.

He declared that though he deemed knowledge of the law of vast importance in a court dealing with the liberties of the citizens, but rising above and far beyond this elemental necessity that the public welfare prescribed that this court should be composed of men of the noblest human impulses and a rich and abiding sympathy of heart.

Living, Governor Haskell was an example of Oklahoma's lusty advent into state sovereignty; in death, he moves with solemn majesty into a deeper recognition of his worth. He was an explorer, yet he lingered to give permanence to his discoveries. He was more than a pioneer, he established and gave reality and enduring value where he wrought. He lived to see his work accepted and enjoyed by the legatees of his favor. His associates recount with ever increasing pride their labors with him, and his works arise and call him blessed.

It is as "C. N." the battler that the world best knows Governor Haskell. Rough, ready, rugged old fighter, his entire life was beset with contests and his character molded for conquest. He had a hot temper, admirably regulated, a genuine love of debate, coupled with an abundant readiness to enter into battle for public principle.

When in action his personality seized the imagination and

held the affections. He could fight without hating. He would say anything in the category to, or about, an antagonist; yet, the man never lived whom he would wilfully libel or scandalize. He would denounce, but would never traduce. He considered that cause lost which had to be defended by defamation of character, and regarded a victory won by lies as a personal defeat.

In his armory there were no poison gas, no poison arrow. He occasionally made flank movements but his favorite method was by direct frontal attack

The passage of many winters over his head, the challenge to battle on many a stormy front did not lessen his ardor nor quench his desire to meet life's responsibilities with his rugged face set firmly toward the goal. No human has ever seen this man of blood and iron falter, but heroic in strength and sublime in courage, as he met the tasks of earth, we know he answered the summons with that calm which he met every issue of life.

*"Soldier, rest, thy warfare's o'er,  
Sleep the sleep that knows no breaking  
Dream of battle fields no more,  
Days of toil and nights of waking."*

Our friend will walk the way with us no more and while Oklahoma's flag is at half mast and our citizens sorrow and his family mourn, it is more a grief for ourselves than for him.

That his last earthly consciousness should have been on July 4, like that of Thomas Jefferson, it is a fitting close to a life of patriotic service.

Is this the end of life? Does love and sacrifice lead but to the grave? No, no. Blessed assurance. Even the space allotted to his pensive dust is now and forever shall be a hallowed spot, a shrine for the people of our state, yea for every true pioneer. Hope, tender and persuasive whispering to the soul bids the mourner to raise his eyes from the dust of earth to the heavens that bend above him. The sky begins at the ground and ascends to infinity. This earth is one of the stars,

Time is a throb of eternity, life a heartbeat of the infinite.

Indestructibility is the first law of nature. Forms perish, their substance persists. The written records of man reveal the lives and events of antiquity. The "memory of nature" holds in sacred vigil the processes of God through the lapse of ages.

The constructive force of unselfish and noble lives can never die. They pass from generation to generation. They animate and inspire the hearts of nations yet unborn. Will the works of man and the story of man persist longer than himself? No structure is as great as its builder. The act is not greater than the actor. The composer is greater than his noblest anthem.

*"Death is but a path that must be trod, if man would ever pass to God."*

Let us so live that by the performance of duty we may prove that his example and his devotion shall not have been in vain, and that upon our part we shall be esteemed worthy of the several stations we assume to fill, and may it be our portion to share a like affection in the hearts of our fellow men.

### MESSAGES

The following Message from the Governor was received and read:

To the Honorable the Senate and House of Representatives, Fourteenth Legislature, Special Session:  
Gentlemen:

The Senate, in enacting Senate Bill No. 371, made the enacting clause read as follows:

**"BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF OKLAHOMA."**

That is in violation of the Constitution, found in Article 5, which provides that the enacting clause of all bills shall be:

**"BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA."**

And, therefore, Senate Bill No. 371 is a nullity.

Also, House Bill No. 257 has no enacting clause at all, as shown in the original copies filed with the Secretary of State; and, therefore, it is also a nullity.

I herewith send attached copies of the two said bills, trusting that you may enact both of them without change except to add the necessary enacting clause.

Since Your Body has, from the beginning, desired to pass upon the question of the Repeal of the 18th Amendment, and have filed resolution in my office, I hereby submit that question, to be considered by Your Honorable Bodies, in obedience to the United States Submission Resolution; but, remember, I do not submit in this the question of the repeal of the Constitution of the State of Oklahoma, or its modification of change, but solely the question of the 18th Amendment of the Constitution of the United States.

Respectfully submitted, on this the 8th day of July, A. D., 1933.

### MESSAGES

The following Messages from the Governor were received and read:

To the Honorable the House of Representatives and Senate, Fourteenth Legislature, Special Session:

Gentlemen:

Owing to the difficulties of County Treasurers to make bond, and due to the amount of interest now allowed to be paid by banks for the deposit of public moneys, and for other reasons, I hereby open up for your consideration and passage three several bills:

House Bill No. 30, by Phillips of Okfuskee, and Kight;

House Bill No. 31, by Phillips of Okfuskee, and Kight;

House Bill No. 32, by Phillips of Okfuskee, and Kight.

These Bills should be passed substantially as written.

Bill No. 31 is of tremendous importance, to stop the issuance of warrants in violation of law, and to prevent the loss of the sinking fund for the payment of bonds; and, therefore, the Bill, in that particular, should be passed without change.

All three of these Bills are essential. I would change only certain verbiage, to clarify, and only provide in the first Bill for the approval by the County or District Judge rather than the County Commissioners, for the reason that they would know the law better than the average County Commissioner, and they could be held responsible, whereas an "alibi" often occurs where you have a bureau, or board, to pass upon such things; but substantially, as written and introduced, should these three Bills be passed, and at once.

Respectfully submitted, on this the 10th day of July, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

To the Honorable Senate and House of Representatives,  
Fourteenth Legislature, Special Session:

Gentlemen:

Some years ago, when the City of Tulsa had thirty or forty thousand more people than it has now, and a larger volume of business, the Legislature of Oklahoma created Four Courts of Common Pleas, at the county's and city's expense.

Whether all four were then needed, which is doubtful, they certainly do not need now more than two.

The Legislature forced this extra official budget on the City of Tulsa without their consent, and they have no means by which they can rid themselves of this ex-

pense, except by the Legislature that created it.

There is now a vacancy, which I have left for nearly six months unfilled, with the hope of saving those people some of their burden of taxes; but, even though I appoint no one until 1934, they would elect one who could not be dispensed with without the action of the Legislature.

I therefore open up the question, and urge you to pass an Act abolishing one of these Common Pleas Courts of Tulsa, now vacant, and thus save this amount of taxes from the people of Tulsa.

The Honorable Senator from that district, a few days ago, boldly said in an impassioned speech, betraying anger, that the Governor of Oklahoma had not attempted any program or policy of economy. Therefore, in opening this subject, I challenge him to make some effort of economy and save his neighbors and friends some of the tax burdens upon them.

Respectfully submitted, on this the 10th day of July, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Senator Commons moved that the Senate work under a call of the House, which motion prevailed.

Upon a roll call being ordered, the following members were noted "absent:" Senators Ballard, Carlile, Curnutt, Dixon, Garvin, Liggett, Logan, Nance, Paul and Waldrep.

The Sergeant-at-Arms was instructed to bring absent members into the Senate Chamber.

Senators Carlile, Garvin and Curnutt asked to be recorded "present," which was the order.

#### SPECIAL COMMITTEE REPORT

Senator Rizley submitted the following Special Committee report, which, upon motion of Senator Nichols, was adopted:

#### REPORT OF THE COMMITTEE ON SCHOOL LANDS DESIGNATED AS A SPECIAL COM- MITTEE FOR THE PURPOSE OF INVES- TIGATING THE SCHOOL LAND DEPARTMENT

To the Honorable the State Senate of the State of Oklahoma:

We, your Committee on School Lands, who pursuant to Senate Resolution No. 1 of the Extraordinary Session of the Fourteenth Legislature were designated as a Special Investigating Committee, for the purpose of investigating the School Land Department, beg leave to submit the following report:

That under and pursuant to said resolution the Committee duly organized itself on May 26, 1933, for the purpose of taking testimony and generally carrying out the purport and intent and instructions contained in said resolution, and subsequent to said organization or said Committee, the Committee has proceeded to take a large volume of testimony having to do with the com-

plete operation of the School Land Department, have gone into its loans and all of its other assets and have gone into its operations since the beginning of statehood, and desires to and does submit the following findings of fact and the conclusions of the Committee as to what we deem proper and necessary steps to be taken to the end that the huge trust fund, belonging to the school children of this state, be kept intact and that the department may be more efficiently and economically operated.

Under the Constitution of this state the following elective state officials constitute the School Land Board or more properly designated the Commissioners of the Land Office of the State of Oklahoma, namely: The Governor; the President of the Board of Agriculture; State Superintendent of Public Instruction; State Auditor and the Secretary of State. Under the law the Commissioners have only, in the opinion of your Committee, such authority and the right to prescribe such rules and regulations for the conduct or handling of the affairs of the department as may be given to them by the Legislature; and up until the regular session of the Fourteenth Legislature only very meager rules and regulations had theretofore been prescribed for the guidance of the Commissioners in the exercise of their official duties.

Your Committee finds that the three principal assets of the school land department might properly be divided under three separate heads, namely: The land belonging to the department and included therein purchase certificates outstanding against lands sold by the department; the loans of the department; and bonds and securities. The Committee finds from the inception of the department only meager books and records, and wholly inadequate records have been kept and maintained. That while under the law it was, and is, the duty of the State Examiner and Inspector to install and

set up a proper set of records for the handling of the business of the department that at no time has there ever been installed an adequate set of records, and this, in the opinion of the Committee, has largely contributed to the many haphazard and careless discrepancies and inconsistencies brought to light in the handling of the many assets belonging to the department.

For instance: Notwithstanding the fact that this department has had in excess of fifty million dollars in loans, while it may seem unbelievable, nevertheless it is true, that they have never had or maintained a collection department of any kind or character but that the handling and collection of the interest on these huge amounts of loans, as well as the payments of principal and interest coming due from time to time on the purchase certificates—these items and the handling of the same have been co-mingled and handled without any adequate records or any set-up of a department, such as would be necessary in a business of this kind. On the other hands, the evidence before the Committee disclosed that the department has carried on an enormously huge bond business, especially since 1919 and up to and including 1929, and that they have never had a bond or security department or a set of books made up and set aside having for their purpose the disclosures of these many bond transactions. In other words the handling of these different items of assets and the business in general has been carried on without adequate records and without system.

The purpose and intent of this investigation as set up in the resolution directing the investigation was to find out whether the many charges made against the department by those in high place in office of this state, and others, in which accusations were made that political favoritism had been shown in the handling of the department and especially in making loans and that a huge brokerage business had been carried on with the funds

of the department; that many of the assets of the department had been lost, not only through carelessness and negligence but by corruption; and the Committee has labored diligently and has subpoenaed many, many witnesses before it for the purpose of determining the truth or falsity of these accusations, having in mind only one objective and that is to lay the blame, if any, where it properly belongs; to recover such assets, if any, that have been squandered and to enact laws which will properly and adequately safeguard in the future this sacred trust fund.

Under the heading of loans made through political connivance and for political preferment, your Committee finds from the evidence that political preference has been used in a great many instances in securing loans with the School Land Department to the end that loans aggregating thousands and thousands of dollars have been made to those in high political place, either in office or out, as a result of which the state has and will lose, in the judgment and opinion of your Committee, a vast amount of money from this fund.

It is, of course, impossible in this report to go into detail and cite the many, many cases that were brought before the Committee but in this connection, suffice to say that between the years of 1919 and 1929, according to the evidence adduced before the Committee loans of more than four hundred in number, aggregating in excess of \$1,250,000 were made by the department, upon which, in most cases, in fact in practically every case there was never an interest payment made, and in the balance of cases not to exceed one interest payment was ever made. This, in the opinion of your Committee, is sufficient upon its face to show that practically all of these loans, at least a substantial majority of them, were not made in good faith and that it was merely an indirect way of selling these tracts of land to the state, and

a great many of these loans disclose upon their face that they were made to those occupying high places in politics, either in or out of office and were manipulated by designing bankers and unscrupulous real estate men.

Two counties in southeastern Oklahoma seemed to be especially adapted to these schemes. The record discloses that in one case a man by the name of Grady Wilson, a man by the name of L. B. Norman and a man by the name of Salmon borrowed seven thousand dollars from the Commissioners of the Land Office upon a tract of land, the purchase price of which was only fifty-five hundred dollars. That in addition to paying the entire purchase price with money secured from the School Land Department these gentlemen divided the excess spoils of some fifteen hundred dollars between them. Mr. Norman, one of the gentlemen who participated in this land transaction is now and has been for several years one of the appraisers of the department. His employment did not commence until some six or seven months after this land transaction, and he has appeared before the Committee and rather recanted for the part that he had to do with the transaction.

There can be nothing but condemnation for this sort of a transaction. In many, many other instances, according to the evidence, men who were insolvent or who owned no property would accept deeds to lands, immediately thereafter school land loans would be secured and then the lands reconveyed to the original holder. In nearly every instance it developed that these lands were of little value, that the security was wholly inadequate and that it was just a scheme that, in some instances, bankers and in many instances, real estate men, had of using the School Land Department for their own private and personal use and gain.

One of the most glaring examples brought out by the testimony before the Committee was the case in

which two separate tracts were owned by one E. Dunlop. These two tracts were conveyed, one to H. E. Whitfield and the other to Roger Whitfield. Immediately the Whitfields secured a \$5,000 loan each on the two tracts of land and immediately thereafter reconveyed the lands to E. Dunlop. The evidence discloses that the Whitfields are insolvent and were perhaps at the time the loans were made. The entire proceeds of these two loans, namely \$10,000, was paid to E. Dunlop. The security for these two loans has been reappraised and the startling disclosure was made by the reappraisement that one of the tracts of land which had been appraised formerly in excess of \$10,000 for the purpose of obtaining the \$5,000 loan, is now valued at \$1200.00; the other that was appraised by T. N. Williams, one of the appraisers, in excess of \$10,000, on which a \$5,000 loan was secured is now valued at \$1300.

In nearly all of these so-called political loans or loans that were manipulated by speculators, a reappraisement of the lands discloses that the security is almost negligible and that the land is not now, nor was never, worth any way nearly as much as the loan obtained thereon.

It is impossible in this report to point out each and every of the many, many specific cases of the character of the above that were brought to the attention of the Committee, as a result of which the Committee, of course, can only reach one conclusion and that is that political preferment, and in some cases connivance, at least with the appraisers, was the cause that produced the results above enumerated. It also developed that in many, many cases that farmers, while honest but obscure, had honest applications pending before the Department for loans and applications were sidetracked and left to wait while those who, it was thought, could deliver a precinct or two were given the right-of-way.

## BONDS AND SECURITIES

In connection with the bond transactions the Committee finds that since the inception of the department approximately seventeen million dollars in bonds and other securities have been purchased, either by cash or through trade of securities for other securities. That this practice seems to have been most prevalent between the years 1920 and 1929. Prior to 1920 many thousands of dollars of Liberty bonds of the various issues were purchased by the School Land Department, and we think it only fair to say that while the bonds would not draw to exceed  $4\frac{3}{4}\%$ , or perhaps the majority of them less than  $4\frac{3}{4}\%$  interest, that the purchases were made largely through a spirit of patriotism and, of course, were deemed by everyone to be a safe and sound investment. The record also discloses that millions of dollars of state bonds, municipal bonds, school district bonds, funding bonds of the counties and municipalities have been purchased.

The Constitution provides for this sort of investment. It gives preference first to the loaning of money on real estate and second to the purchase of state and county bonds. After 1920 most of the Liberty bonds were traded and exchanged for state, school district and other municipal bonds. This, no doubt, under the theory first of the preference given to the latter class of securities, and second to the fact that they drew a higher rate of interest.

In view of the huge bond transactions carried on by the department, mostly through the Secretary of the department, and especially in view of the fact that in most of the cases the trades and exchanges were made with bond brokers, we are constrained to find that this huge dealing in bonds, especially with these bond brokers, was not contemplated by the framers of the Constitution, and even though only in a few instances

have we been able to find any specific losses, we criticise the practice and view with alarm any department of our state engaging in a trading match with experienced bond brokers who undoubtedly will obtain the better end of the trade, else why make it? Undoubtedly what the framers of the Constitution had in mind when they directed, or rather permitted, the investment of this sacred trust fund in the bonds of the state, and its various subdivisions was largely for the accommodation of the state and its subdivisions, in cases of emergency and undoubtedly they contemplated that these bonds would be purchased directly from the state, or its subdivision offering the security. Without making any accusation this kind of practice certainly would open the door to those who might be inclined to accept commissions or to split commissions and contributions from bond merchants who were eager and anxious to make the sale of such.

#### THE POLLARD DEAL

Evidence adduced before the Committee discloses that one Sam Pollard, while acting as Assistant Secretary to the School Land Commissioners, embezzled and stole approximately \$48,000 of the funds of the department. Due to the fact that no adequate bond record was kept it was a very easy matter for a shrewd, designing gentleman like Mr. Pollard to embezzle in the way that he did.

It seemed Pollard while acting as Assistant Secretary and between the years 1923 and 1928, clipped coupons from various bonds and securities held and owned by the School Land Department, would forward the coupons to the fiscal agency at New York and in return would receive, in most instances, payable to him but in some instances to the Commissioners, a draft or cashier's check for the remittance he had sent. He would then take the draft or check to the First National Bank

in Oklahoma City and have issued in lieu thereof various and sundry other cashier's checks, payable in some instances to himself, in some instances to W. A. Durant, the Secretary, and in some instances to others. These cashier's checks he, in at least two instances, had made payable to one John Rainbolt, one of the appraisers and a trusted employee of the department. In the case of Rainbolt he forged, or rather wrote the endorsement himself, and the Committee desires to say in passing that at no time, according to the undisputed evidence, did Mr. Rainbolt have any knowledge of any of these transactions. On the other hand the evidence discloses that Mr. Rainbolt has been for many years a valued and trusted employee of the department.

These embezzlements over the period of years aggregated in excess of \$45,000. Pollard was called before the Committee and brazenly and in a bravado manner, and with a great deal of gusto, admitted these things, and one of the sad things about the whole affair was that the auditors who discovered the theft did not discover it until after the Statute of Limitations had run, whereby Mr. Pollard might be prosecuted for embezzlement. The Committee, however, is of the opinion that he may be prosecuted under the Federal Statutes for failing to file an income tax return. As a legal proposition the Committee may be wrong but nevertheless we feel that there is sufficient authority to authorize his prosecution in the Federal Court, and recommend that he be prosecuted to the full extent of the law.

#### THE DEPARTMENT IN GENERAL

As was said in the beginning the department is made up of various elective state officials, hereinbefore described, and has been in the past operated by and through a Secretary. The practice has been that the Secretary be nominated by the Governor and approved by a majority of the Commissioners. He holds his office

at the will of the Commissioners. The department also dealing with funds that are subject to loan has seven appraisers, three of which in the past have been nominated by the Governor, and one by each of the respective Commissioners.

Under the practice when an application for a farm loan was made the appraiser in whose district the land is located is assigned by the Secretary to make the inspection. After the inspection is made, the application, together with the inspection, is brought before the Commission as a body for the purpose of approving or rejecting the loan. In the past the Commissioners themselves have had little to do with the approval of the loans except in a perfunctory manner. According to the evidence the practice is that, on the date that the Commissioners are in session the Secretary presents the various and sundry loan applications then pending, and as a rule the loans are read and a blanket motion is made to approve the loans. Hence it is almost impossible to fix the responsibility for the many bad loans that have been made. The attitude of the various Commissioners being that they must rely upon the Secretary, the attitude of the Secretary is that he must rely upon the appraiser, and in making these loans we want to say in passing that it is a strange coincidence, to say the least, that in a great percentage of the cases where loans were made, and especially where bad loans were made, the appraiser returned an appraisement for exactly double the amount of the loans. The rule is, of course, that the loan can only be made for 50% of the value of the land but it is a coincidence that in most of these cases the land is worth exactly twice the amount of the loan.

This evidence causes the Committee to conclude that the appraiser, knowing the amount of the loan, fixed his appraisement accordingly. The Committee, therefore,

concludes as a matter of practice, that the appraiser should not know the amount of the loan that the applicant has applied for. The practice in the past has been to furnish the appraiser with a copy of the application. Of course, there is no way to preclude the appraiser from talking to the applicant but the Committee feels that the less the appraiser knows about the amount the applicant is seeking to obtain, the more likely he is to appraise the land for its real value. We condemn the practice that has prevailed in the past of having the Governor name three of the appraisers and the Commissioners each one and think that the appraisers should be appointed as a result of an investigation made by the entire School Land Commission.

#### THE SECRETARY

The position of Secretary is one of the most important of any position in the state. To him in the past has largely fallen the operation of the entire assets that comprise this huge trust fund. While in the past most of the responsibility of the department has fallen upon his shoulders, yet he has had very little to say in the organization of the department.

We think it fair to say that in too many instances the employees of the department, including the subheads of the department, have been named by the respective Commissioners and while they should be subordinates of the Secretary, they have considered themselves not his subordinates but on an entirely equal footing. If the Secretary is to administer efficiently and honestly the affairs of the department, then he ought to be in a position to have something to say about those who are working under him.

It is, therefore, the opinion of this Committee that the Secretary should have the right to employ and discharge those in the department who are his subordinates. It is, of course, presumed that if he is big enough and

is qualified to hold the position of Secretary that he will not arbitrarily abuse the power to employ and discharge the help of the department.

Inasmuch as the testimony taken by and on behalf of the Commissioners placed all responsibility for bad loans on either the Secretary or the appraisers, and inasmuch as none of the Commissioners seemed to want to share the responsibility of said losses, your Committee is of the opinion that the Secretary should be appointed by the Governor, with the right of a majority of the Commission to remove him at any time for cause. We are of the opinion, however, that when a Secretary is once chosen he ought not to be removed except for good cause shown. In other words, why should an efficient Secretary be removed simply because of a change in administrations? We further recommend that the Secretary should be allowed to discharge all help employed by him.

This sacred trust fund should not be treated as a political fund. There should be no politics or political preferment used in this department. This sacred trust fund belongs to the school children of this state whether they be high or low, Democrats, Republicans or Socialists, Methodists, Baptists or Catholics, and it is a sad commentary to think that politics and favoritism should be shown in the management and handling of this department.

Considerable space in the record was devoted by certain witnesses and investigators to the question of fixing definitely the responsibility for general and specific acts and policies in the department. In other words, in response to the many interrogatories propounded concerning many of the things that have happened in the department, including the bad loans, the almost universal answer has been that the responsibility, especially in the case of bad loans, rested entirely upon the appraisers

and the Secretary. In other words, it seems to be the theory of the Commissioners that because the specific cases of what later developed to be loans procured through political preferment, or by designing and unscrupulous politicians, bankers and real estate promoters that, inasmuch as all of the facts were not brought to the attention of the Commissioners that the responsibility is not theirs and that such responsibility rested necessarily upon the Secretary, appraisers, clerks, stenographers and subordinate employees of the department. With this theory and contention this Committee is unable to agree.

Your Committee invites attention to the fact that under the Constitution and laws of the state, the School Land Commission is composed of the Governor and other elective state officials, as pointed out in the beginning of this report, which Commission within certain limitations has vested in it all of the power and authority relating to the hiring of the employees and to determining the policies and administering the affairs of said department. While authority can be delegated and it is frequently necessary to do so, it is certainly incontrovertible that responsibility cannot be delegated nor evaded. While your Committee does not charge that the various state officers who, from time to time, by reason of the office to which they have been elected have been members of this Commission would have permitted many of these loans. had all of the facts been brought to their attention, and while your Committee does not charge that the failure to see that proper and adequate records which would permit a more successful functioning of the department, had they been installed, was specifically called to the attention of the Commissioners, we do say that the responsibility to see that these things were complied with was the responsibility of the entire Commission, and that the School Land Commission is

wholly and solely responsible for the policies of the School Land Department, and for the method and manner in which such policies are administered by said Commission and the employees thereof; and that without regard to the time required of them for performing the duties of the office to which they were elected, each individual Commissioner should and must give to the department such of his time as is necessary in administering its policies, and such time and attention as is necessary to insure an honest and efficient handling of the funds and resources dedicated to the school children of the State of Oklahoma.

It is the opinion of your Committee that a casual examination of a loan file would be sufficient to put the Commissioners on inquiry, and in most of these flagrant cases a casual examination of the loan files at the time the loan was approved would have called the attention of the Commissioners to the character of the loan, and to the intent and purpose of the applicant.

For instance it developed in the testimony that a certain bank in this state, that had secured title to a tract of land, had the tract divided into three separate tracts and that three officers of the bank, or at least persons connected with the bank, made three separate loans of \$10,000 each from the department, and while these loans may ultimately be paid, it was never intended that \$30,000 of this sacred trust fund should go into the coffers of one institution. This \$30,000 could have been divided into a number of smaller loans that would have gone to honest, conscientious, needful farmers.

A very casual examination of these loan files by the Commissioners would have disclosed the true facts. In view of the conditions as disclosed by the investigation and the fact that no one seems to want to accept the full responsibility for this department, and in view of the fact that, at the present time, there is almost seventeen millions of dollars in delinquent loans pending

in the department, and that the Commission is constituted of elective state officials, who do not seem to be able to give the time and attention to the handling of a huge trust fund of this kind, we have come to the conclusion that while various acts can be and should be passed to close as tightly as possible the door to excessive loans, and while penalties should be provided for more effective punishment of recreant public officials who have been shown in the past to have wasted the school funds, yet it must not be forgotten that constructive action is necessary, in addition to the enactment of stricter penal statutes.

Such a business as that of the School Land Department cannot be handled alone by stricter rules. In every case of land appraisement and the making of a loan, individual judgment is necessary. Too much red tape may ruin one of the chief purposes of the Commission, that of making cheap loans to Oklahoma farmers. More essential even than the enactment of strict laws against wrongdoing by employees of the Commission is the creation of a plan whereby men of character and judgment may be secured to administer the affairs of this vast public institution.

We commend the Honorable William H. Murray, Governor of Oklahoma, for his employment of special auditors to make an audit of the School Land Commission, which in our opinion was right and necessary. The result was that Willson & Garnett were employed and made a detailed compilation which in many respects does not rise to the dignity of the audit contemplated.

The Committee further desires to commend the efforts of the State Examiner and Inspector through the able assistance of Mr. A. R. Barber in discovering and bringing to light in excess of \$8,000.00, of the shortage that occurred during the administration of Sam Pollard as Assistant Secretary, said \$8,000.00 being in addition

to the amount that was found by the audit made by the firm, Willson & Garnett.

If the evidence in this hearing has shown anything, it has been that, as it exists at present and as it has existed since statehood, the Commission is not effective. Governor Murray admits this when he seeks to have the Secretary and other employees of the Commission placed under his sole direction. The Committee recommends that a Constitutional amendment be submitted which would cure this defect. Further reference to the said Constitutional amendment appears at length in other portions of this report. However, pending the adoption of the Constitutional amendment, your Committee begs to submit and recommend that until said amendment is adopted the Secretary should be appointed by the Governor as heretofore pointed out.

While there have been instances brought out during our investigation of embezzlement and bribery by far the greater proportion of the losses that have been incurred have followed by the making of loans under political pressure. Elective Commissioners hoping perhaps to court favor from local politicians have been too lenient in the making of loans, appraisers themselves appointed rather for political reasons than experience and character, and dependent upon the continued favor of the Commissioners for their jobs tried to make appraisals pleasing to the powers of the moment.

In view of the necessary absorption of the five elective Commissioners in the duties of their own offices, they are dependent largely upon the Secretary for the actual operation of the affairs of the department. This official, appointed customarily by the Governor with the approval of the other Commissioners, has sought first to gain political strength for the Governor and then of the other four Commissioners through his operation of the office. The whole system, therefore, has been one

that invites politics instead of the safeguarding of the public funds, and that means inevitably looseness.

No amount of penalizing statutes can cure this essential weakness of the present system.

It is, therefore, the opinion of your Committee that by Constitutional amendment the present elective Commission should be abolished and an appointive Commission of three created in its stead, to be nominated by the Governor, and confirmed by the Senate, and to hold office subject only to removal for cause through court action. This Commission should then be given complete control over the appointment of a Secretary and other subordinate officials, the Commissioners themselves giving full time and attention to the department. This being done not nearly so many subordinates would be necessary. In the past, in the case of the Highway Commission, the Game and Fish Commission, and others, the Legislature has recognized the evil of political control of governmental departments in charge of various business affairs of the state. Unfortunately, the efforts of the Legislature to create Commissions to handle these affairs free from political domination has been more or less of a failure because these changes have not been accomplished through Constitutional amendments. Statutes enacted by one Legislature have been repealed by the next.

In the case of the School Land Commission the desired result of taking the department out from under political domination cannot be obtained except through a Constitutional amendment. The terms of Section Thirty-two, Article Six of the Constitution are so plain that no mere statutory effort to restrict the powers of the present Commission can accomplish much.

In order, therefore, to remove the vast assets trusted to the School Land Commission as far as possible from the manipulations of politicians, men interested in patronage rather than in preserving the dowry of the

school children of the state, this Legislature should submit to a vote of the people, before the new state officials are elected in 1934, a Constitutional amendment definitely taking the School Land Commission out of the control of partisan, patronage politics.

The Committee desires to express its appreciation at the painstaking and tireless efforts manifested by Judge Beckett in bringing to light many things uncovered by this investigation. We feel that Judge Beckett has rendered this Committee valuable service and has also rendered valuable service to the people of the state, in taking such steps as were necessary to fully acquaint the people of the state with the true conditions of the School Land Commission. We desire to congratulate him upon the fearless and honest manner in which he discharged his duties as Secretary to the School Land Commission, and your Committee feels that the public as a whole is deeply indebted to him for causing to be brought to light the inexcusable and indefensible conditions existing in the School Land Commission. We therefore conclude that Judge Beckett has been an able, fair, fearless and honest public official.

In the meantime and somewhat following out the suggestion of ex-Governor R. L. Williams, a Citizens Advisory Committee of three high class, honest individuals should be selected by the Governor to aid and assist the department in the handling of this huge trust fund.

We, your Committee, therefore, earnestly urge and recommend the following:

1. Speedy and adequate legislation that will more closely and as tightly as possible close the door to excessive loans.

2. Adequate penalties for more effective punishment of officials or other persons who have violated the duties of their office, and have conspired or connived toward securing benefits from this trust fund.

3. We recommend that the State Treasurer of Okla-

homa make a formal demand of Sam Pollard for payment to the state of any and all monies missing during his administration, this demand to be the basis for such civil and criminal actions and prosecutions as the Attorney General may deem mete and proper in the premises.

4. That the Secretary be given the right to employ and discharge the subordinates in the department.

5. That the appraisers be appointed by a majority of the Commissioners, after the filing of application for the position and a thorough investigation of their character and their fitness be determined.

6. That the State Examiner and Inspector once each six months, in person or by sufficient representatives, take complete charge of the financial portion of the Land Office to assure full and complete access to every book, paper, file and financial statement, including the auditing and counting of the money, bonds, securities, notes and other personal assets.

7. That the State Examiner and Inspector immediately prepare the proper, necessary and adequate records for the department, and each subdivision thereof, to the end that a proper bookkeeping system may be established for the department.

8. That a new subdivision of the department be immediately created to be known as the Collection Department, to be installed with a proper set of books and records under the direction of the State Examiner and Inspector, and that a competent person be placed in charge of such Collection Department with adequate help and facilities to operate the same.

9. That the Legislature should submit to the vote of the people of this state, prior to the election of state officials in 1934, a Constitutional amendment setting up a Board consisting of three members to be appointed by

the Governor, to be given the sole responsibility of administering the affairs of this sacred trust.

Respectfully submitted,

Ross Rizley, chairman.

Senator Nichols, moved that 200 copies of the Special Report of the School Land Committee be ordered printed.

Senator Liggett asked to be recorded "present," which was the order.

Senator Ray presiding.

Senator Curnutt moved to table the Nichols motion, which motion failed of adoption.

The vote occurring on the Nichols motion, it was declared adopted.

Upon motion of Senator Moon, the call of the House was ordered lifted.

#### MESSAGE

The following Message from the Honorable House was received and read:

To the President of the Senate,

Building

SIR:

I am directed by the House of Representatives to transmit herewith for your consideration:

#### MESSAGES

The following Messages from the Governor were received and read:

TO THE FOURTEENTH LEGISLATURE  
OF THE STATE OF OKLAHOMA:

Gentlemen:

This is to advise you that I have this day filed with the Secretary of State

HOUSE BILL NO. 22, By BATSON, HAILE and LEECRAFT.

of the Special Session of the Fourteenth Legislature of the State of Oklahoma, relating to the method of determining taxable net incomes, which bill I have this day signed and approved.

Witness my hand, this July 8th A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

TO THE HONORABLE THE HOUSE OF REPRESENTATIVES AND SENATE, 14TH LEGISLATURE, SPECIAL SESSION:

Gentlemen:

You have doubtless read in the newspapers a purported interview by the Attorney General, J. Berry King, to the effect that by reason of the action of the Governor, the State had a judgment against it for the payment of \$165,000.00, for the value of a bridge and franchise across Red River, between Durant and Denison.

Not for the purpose of correcting this error and the intended political effect, but for the purpose of protecting the future interests of the State and to make of record so that grafters in the future may not possibly injure the State by making payment of any such pretended judgment, do I submit this Message of record facts, for the purpose of having them printed in the Journals of the two Bodies.

First, the Attorney General brought suit to condemn the right-of-way across the Red River, near Denison, for the constructions of roads or approaches to the bridge, and the same was condemned and money deposited according to Oklahoma law, in the District Court at Durant.

Subsequent thereto, the receiver for the toll bridge intervened and sought an injunction in the Texas Federal Courts, which, when pointed out that the bridge was wholly in Oklahoma, became a nullity; whereupon, it will be recalled that a federal judge was sent from Arizona to Muskogee to hear an application for an injunction against the State, through the Governor of the State. The said injunction was issued, and, as Governor of the State, under and by authority of the Constitution of the States, I declared a military zone on the free bridge and approaches thereto for a distance of 1.7 miles, and directed the military authorities of the State not to recognize said injunction, unconstitutionally issued by the said Federal Court.

The judge, upon issuing said order, took an aeroplane out of the State; landed in Amarillo, and threatened

dire consequences against the Governor of the State; but the threat, like all gas, went into the air.

Failing in this, the Bridge Company went to Kansas City and appealed to Judge Pollock, a district Federal judge in that region, who, judging from his decisions, believes that any corporation is superior to a sovereign state and its people, directed the Bridge Company to go to Texas and bring suit that had been permitted by the Legislature of the State of Texas to be brought in the State Courts, but did not dismiss the case before his court.

The Bridge Company brought suit in Texas and lost it. They then returned to Pollock's court, who sent the case down for hearing in Muskogee, not only the case of the Receiver of the Bridge Company, but also the right-of-way case.

Immediately, I wrote the Attorney General of the State not to appear in the Bridge Case, for the reason that the Court had no jurisdiction, and I did not want even to appear to yield the jurisdiction. My attention was then called to the fact that at the same time, the right-of-way case, in which the State was interested, was pending, and would be tried at the same time; whereupon, I directed Malcolm E. Rosser, Sr., Esq., of Muskogee, Oklahoma, to appear in that case alone. Of the letter before recited, to the Attorney General, copies were sent to the United States Clerk at Muskogee; to the United States Attorney at Muskogee; to the Attorney General of the United States, with a view that Pollock should receive a copy, and that the Attorney General of the United States might take such action as he deemed wise. Whereupon, the Honorable Attorney General of the United States, over long distance telephone, made the observation that the United States ought to intervene, to which I agreed; whereupon, he employed Wm. C. Lewis, Assistant Attorney General of Oklahoma,

who alone had handled the Bridge Case up to that time.

Mr. Lewis was paid by the Federal Government, and is still in the employ of the Federal Government, devoting his entire time to this case, which he initiated and handled since the first case was filed, and not longer representing the Attorney General's Department of Oklahoma, but that of the United States. Hence, the case was better handled than it had ever been before.

The letter before referred to is in words and figures as follows, to wit:

“STATE OF OKLAHOMA

“Executive Department

March 13, 1933.

“Wm. H. Murray,

“Governor.

“Hon. J. Berry King, Attorney General,

“Oklahoma City, Oklahoma.

“Dear Sir:

“Attention of W. C. Lewis, Asst. Attorney General and Attorney of Record.

“I observe that the case of the State of Oklahoma ex rel J. Berry King, Attorney General, Vs. Eugene Rhea, Marshall Rainey and Red River Bridge Company is set for Monday, April 10, 1933, in the United States District Court for the Eastern District of Oklahoma, at Muskogee, with Hon. John C. Pollock as Judge.

“This case is the Red River Bridge case, involving the right not only of the State but of the Federal Government in maintaining a free bridge near a bridge built under a charter granted by the Chickasaw Nation of Indians many years ago, and is a second hearing and a result of a ruling of the said Judge Pollock on a motion to dismiss, directed by me as Governor for your appearance especially,

but not to yield or engage the State of Oklahoma as a party to said suit.

"It appears that the said Judge Pollock ruled that the toll bridge having been granted a charter in perpetuity by the Chickasaw Nation of Indians had therefore a perpetual right and executive franchise to construct a bridge across the river near Denison, Texas, and, therefore, the free bridge constructed by the State of Oklahoma and joined by the United States Government could not be opened for free traffic.

"You are hereby notified not to appear in that case further, because the State has no interest in the case. Perhaps the Federal Government has by reason of its money amounting to some \$200,000.00 in the construction of the bridge and its approaches, and in view of the further fact that the highway law of the Federal Government prohibits the "charging of tolls on any project constructed with federal money." But, since the State is not interfering in any way with the toll bridge, but merely keeping open the free bridge under the law by creating a military zone covering the entire bridge and to the Texas line on the South bank of the river and extending northwestward to Durant a distance of 1.7 miles, and in width 50 feet on each side of the center of the road, which military zone was created on July 23, 1931, and continued since, without revokal, but, for the most part, without patrol of troops.

"Further, since the State has not given permission for any citizen, natural or artificial, to sue the State on the controversy involved, and since no inferior federal court has jurisdiction to try any case where a state is a party, according to Section 2, paragraph 2 of Article 3 of the Constitution of the United States, and according to the 11th Amendment of the Constitution, no sovereign state is com-

pelled to answer any suit at law or in equity brought in any Federal Court by any citizen, natural or artificial, of the United States, or any foreign state; and, since the State owns a bridge, open free to the public, and is not in the market to purchase the bridge of proposed hearing by the Honorable Court, to determine the value of the toll bridge is no concern of the State of Oklahoma or its Chief Executive or any other officer of the State, nor will the State of Oklahoma make payment of such bridge or recognize any writ for such payment out of any court whatsoever; but it is the intention of the present Executive to permit no interference on the part of the State with the property of the Toll bridge, its owners, or receivers, but to maintain the free bridge owned by the State, with the power, military and civil, possessed by the State.

"I am informed that the grant of the Chickasaw Nation of Indians, of a "perpetual charter" was made on the assumption evidently that the Chickasaw Nation of Indians is an original Sovereignty, when, as a matter of truth, its only sovereignty was delegated by Congress, and therefore could not grant such charters except by the approval of Congress, and they could extend no further than the life of the Sovereignty of the Chickasaw Nation, which Sovereignty was completely withdrawn by Act of Congress and by the National Government years before. Any subsequent sovereignty except that of the United States succeeded to such sovereignty, while the State of Oklahoma, an "Original Sovereignty," organized by the people under authority of the Constitution of the United States, expressly was prohibited from any "perpetuities or monopolies," and the granting of such by the legislative or other power of the State.

"You are therefore instructed, and also all of

your deputies, not to appear in said case for any purpose whatsoever:

"By Order of The Governor of the State of Oklahoma:

(Signed) "Wm. H. Murray

"CC: M. V. McClure, Clerk of United States Court, Muskogee, Oklahoma.

"2 Copies to F. A. Rampendahl, U. S. District Attorney, Muskogee.

"1 Copy to Homer Cummings, Attorney General of U. S., Washington, D. C."

When the case was called, Judge Pollock announced a jury trial. He then directed the jury to do a thing unusual in courts, and which he himself stated at the time he had never done before; that is, he instructed the jury to find the value of the right-of-way, which the jury fixed at \$1,000.00; then, separately, to find the value of the physical properties of the toll bridge, which the jury fixed at \$65,000.00; and then to find the value of the franchise granted by the Chickasaw Nation, which the jury fixed at \$100,000.00. Then the Judge announced he would return to Kansas City and have a later hearing and render his opinion.

Mind you, the jury did not find these values against the State, but fixed the values in which the State of Oklahoma had no concern except the one value, the right-of-way.

The payment of the right-of-way of \$1,000.00 we are morally and legally bound to pay, but not for the properties of the bridge or the franchise, for the reason that the Court had no more jurisdiction than a justice of the peace on some side street in any town in this State.

I base this statement upon Article 3, Section 2, second paragraph of the Constitution of the United States:

“In all cases affecting Ambassadors, other public Ministers and Consuls, and those in which a State shall be a Party, the Supreme Court shall have original Jurisdiction. In all other Cases before mentioned, the Supreme Court shall have appellate Jurisdiction, both as to Law and Fact, with such Exceptions, and under such Regulations as the Congress shall make.”

Under that section, even though the State was made a party, no inferior court could try the case, but it must needs go to the Supreme Court of the United States.

Again, I quote the 11th Amendment to the Constitution of the United States, which reads as follows:

“The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.”

I may stop to observe that the adoption of Amendment 11 to the Federal Constitution grew out of the Georgia case, wherein the State of Georgia was sued by the Cherokee Indians, wherein the Federal Court issued a like order of this, and the State of Georgia resisted on the ground that no citizen could sue the Sovereign in America, which means the State without the Sovereignty's consent, which must be done by legislative act, and approved by the Governor, like other laws.

When an effort was made to enforce the decree of the Federal Court, which was a little over a hundred years ago, Governor Troup of Georgia called out the National Guards and prevented the execution of the order. This action of the Federal Court produced such excitement throughout the United States that immediately the 11th Amendment was submitted and quickly ratified, as above quoted.

And, notwithstanding that amendment, Judge Pol-

lock seeks to repeat, as do some other Federal Judges, the transaction of the Federal Judge prior to the enactment of the 11th Amendment.

I may pause here to say that I cannot apply this to any Federal Judge in Oklahoma, and particularly Federal Judge Vaught, here in the Capital, who ever since I have been Governor, has exercised most thorough judicial fairness, combined with sound judgment as to the limitations of the Constitution of the United States.

When Judge Pollock got ready to render his decision in Kansas City, he notified the attorneys to file "precedence" for judgment, and refused to hear argument of counsel, and rendered in Kansas City a judgment against the State for \$165,000.00; and he had no more jurisdiction to do that than had a justice of the peace in some remote precinct of Arkansas or Kansas.

It will be obeyed that the Judge left the State before he rendered this opinion, doubtless because he knew he was violating his oath and the Constitution of the United States, just as the judges left the State in the Oil Shut-Down, when jurisdiction was assumed contrary to the two provisions of the Constitution, above recited.

I call your attention to the fact that the Governor in each and every State, under the terms of the Constitution of the United States must swear to uphold the Constitution of the United States as well as that of his own State. That duty is enjoined upon me, and I shall not shirk that duty by permitting any Federal Judge to violate the Constitution of the United States in this State while I am Governor of the State.

It will be noticed in every case that when a Federal Judge issues an order against the Governor or the State, he immediately left the State; and it is well, because, when any judge renders such a decision, he ceases to be a judge, and becomes a private citizen, performing an act of insurrection against the laws of the State, and, connected with the clerk who might issue

the order and the marshal who might serve it, would be guilty of criminal conspiracy, in violation of the criminal laws of this State; and I may here suggest that any Federal Judge who commits such acts had better get him an aeroplane and get out of the State to avoid arrest.

As stated before, the purpose of this recitation is to say that the Bridge Company in future years, but not while I am in office, will attempt to collect this \$165,000.00. They can afford to pay \$50,000.00 out for bribe money, in order to collect it; they would likely proceed by giving the metropolitan press of Oklahoma City, Tulsa, and other places \$10,000.00 or \$15,000.00 to create an "atmosphere" for the payment; then they could use \$40,000.00 hiring members of the Legislature to put over the Bill.

It is certainly right, in any case where the State has given permission to bring a suit, to pay the judgment, but it is not right at any time for the State to pay a judgment rendered in a court that had no jurisdiction to try the case, in the first instance; and the public can now take notice that in the future years to come that if any member of either the House or the Senate of the Oklahoma Legislature introduces a bill for the payment of this \$165,000.00, the public can put him down as having been paid by the Bridge Company, for there is no more justice in the State's making the payment than should a justice of the peace in Kansas City or Arkansas render a like judgment against the State of Oklahoma, without permission of the State to bring the suit, in the first instance.

Even if the State had made a contract to make the payment, then the suit could not be brought without the State's permission.

These statements are clear, fundamental, under the Constitution of the United States.

Therefore, it becomes essential that a record be.

made in the Journals of both Houses of the Legislature, that the public may know these transactions, and not be bludgeoned and robbed out of \$165,000.00 by the arbitrary ruling of a judge who had no jurisdiction to render such a judgment.

Respectfully submitted, on this the 13th day of July, A. D., 1933.

An Act creating a county depository board; authorizing the said board to designate depository banks and securities in which the county sinking fund may be invested; requiring county treasurers to invest sinking funds in said securities and to deposit county funds; repealing all Acts in conflict herewith; and declaring an emergency,

beg leave to report that we had the same under consideration and herewith return the same with the recommendation that it do pass as amended.

Amendment 1. That Section (1) be stricken and the following be substituted in lieu thereof:

Such Board shall designate one or more banks located in the County as depositories for *all public* funds, under the control of the County Treasurer and the County Treasurer is hereby authorized and directed to deposit county funds in banks and take securities therefor authorized by law, provided, that such securities shall be first approved by the depository board. ENGROSSED HOUSE BILL NO. 30—By PHIL-  
LIPS of Okfuskee and KIGHT, Entitled:

Respectfully,

R. M. McCOOL, Chief Clerk.

Senator Fidler presiding.

Senator Whitaker, on behalf of the Senate conferees, appointed under Engrossed House Bill No. 31, requested that the said Senate conferees be discharged

elected at the same election which adopted the Constitution.

TIME does not know that not a single delegate to the Constitutional Convention came on the floor of the Convention or even appeared in the Territorial Capitol with either a belt of cartridges or pistol upon his person, or gun in his baggage.

TIME does not know that Governor Haskell neither borrowed money from the State nor asked so to do.

TIME does not know that Governor Haskell never owed the State a dime in his life.

TIME does not know that the people of the State at an election called for the purpose determined the location of the Capitol and that Oklahoma City outran the combined votes of all its competitors and that Oklahoma City won the Capitol by an election so decisive that it was incontestable.

TIME does not know that the Government of the State and the Capital of the State follows the vote of the people and that Governor Haskell's duty was to be in the Capital chosen by the people and it was his business to see that the State Seal and the other State property were located therein or if TIME does know these things then TIME wilfully promulgated this scandal and defamation of the dead.

Only recently an eastern magazine defamed the character of a famous Oklahoman and paid off in damages after being sued for libel. This however, is not a sufficient nor fitting rebuke for the crime of malicious defamation upon the name of the dead. It has been truly said that the only defense a private citizen, or even a public official has against a scurrilous yellow newspaper or magazine is the double-barrelled shot gun but unfortunately its use is a violation of the law and in this particular case the heart of the man who

should use it had been forever stilled in death before his defamer appeared upon the scene.

It is doubtful whether this insult should be officially noticed but the Oklahoma State Senate, as an added tribute to the memory of the State's illustrious first Governor, takes this occasion to give official denunciation to this infamous libel and an exposure of the author who gave it expression and to *TIME*, the magazine whose circulation depends upon its brazen iniquity.

CHARLES MOON, Chairman

Senator Commons presiding.

Senator Briggs moved that the vote be reconsidered by which the Senate granted a conference on Engrossed House Bill No. 30, which motion prevailed.

Senator Briggs moved that the Senate request the Honorable House to recede from its request for a conference on Engrossed House Bill No. 30 and adopt Senate amendments thereto, which motion prevailed.

SIR:

I am directed by the House of Representatives to transmit herewith for your consideration:

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 30—By CHILDERS.

A Concurrent Resolution requesting that the student nurses now employed at Oklahoma University Hospital continue to be paid \$10.00 a month, out of the Revolving Fund, in order that they may be able to purchase their uniforms and other necessities of life,  
and to advise you, and, through you, the Honorable

Senate, that the same has been adopted by the House of Representatives and signed by the Speaker in open session.

R. M. McCOOL, Chief Clerk.

By unanimous consent, House Concurrent Resolution No. 30 was taken up for consideration and read at length, as follows:

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 30—By CHILDERS.

A CONCURRENT RESOLUTION REQUESTING THAT THE STUDENT NURSES NOW EMPLOYED AT OKLAHOMA UNIVERSITY HOSPITAL CONTINUE TO BE PAID \$10.00 A MONTH, OUT OF THE REVOLVING FUND, IN ORDER THAT THEY MAY BE ABLE TO PURCHASE THEIR UNIFORMS AND OTHER NECESSITIES OF LIFE.

WHEREAS, the Student nurses at the Oklahoma University Hospital have been informed that hereafter they will not receive ten dollars (\$10.00) per month to cover their expenses while they are student nurses at the Oklahoma University Hospital, and

WHEREAS, it appears that ten dollars (\$10.00) a month is a very small and insignificant sum to be paid to the young ladies who are rendering such valuable services to humanity while they are studying to become nurses; and

WHEREAS, it appears reasonable that they must have some amount of money with which to purchase their uniforms and maintain themselves and with which to purchase other necessities of life which are not furnished them by the said University Hospital, and

WHEREAS, it appears that many of the young ladies are about to become graduate nurses and have for several years while attending said University Hos-

pital rendered valuable services under the agreement with said University Hospital that they would have room and board and ten dollars (\$10.00) a month furnished them during the continuation of their services and studies at the said University Hospital; and

WHEREAS, it appears that the Board of Regents have adopted a rule discontinuing the monthly payment as aforesaid, which rule appears to be a violation of the contract and agreement made and entered into between said student nurses and the Oklahoma University Hospital.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE EXTRAORDINARY SESSION OF THE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA, THE SENATE CONCURRING THEREIN:

SECTION 1. That it is the sense of this body that said ten dollars (\$10.00) a month payment be continued and the agreement made by and between said student nurses and the University Hospital be carried out in order that the great good that has resulted by the instructions that the student nurses have received be not made in vain.
