The Joint Committee escorted Governor Wm. H. Murray to the Speaker's desk, where he read his Message, which was as follows:

TO THE HONORABLE, THE MEMBERS OF THE  
FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA:

In the beginning of the third year of my term as Chief Magistrate, I wish to refer to our chart of Government, the Constitution. We find in Section 9 of Article 6 of that Charter the following language:

"Sec. 9. Governor to Communicate by Message.  
—At every session of the Legislature, and immediately upon its organization, the Governor shall communicate by message, delivered to a joint session of the two Houses, upon the condition of the State; and shall recommend such matters to the Legislature as he shall judge expedient. He shall also transmit a copy to each House, of the full report of each State officer and State commission."

Such copies of the reports of the officers and commissions of State as I have in my possession I hereby lay before you. Others will be submitted so soon as they are obtained. I especially call your attention to the report of the Oklahoma Tax Commission.

In this connection, I call your attention to Section 33 of the said Article 6 of the Constitution, which, among other things, provides:

" \* \* \* The Governor may, at any time, require information in writing, under oath, from all officers and commissioners of the State, and all officers of

State institutions, penal, eleemosynary, educational, and industrial. \* \* \* ”

This section has never been vitalized; and, without some penalty for failure to obey this clause of the Constitution, the Governor is powerless to obtain this information.

In the distribution of the Relief Fund, provided by the Thirteenth Legislature, the county commissioners of twenty-two counties failed and steadfastly refused to make any report of these expenditures for the lack of this penalty; I called on Lew Wentz shortly after going into office to make a report of disposition he had made of what is known as “The Federal Truck Account,” and never received even a letter in reply; I requested the Bar Commission recently to make an accounting under oath of their expenditures of money, and they too failed. Other instances I could give, but this ought to be sufficient for the Governor to urge upon the Legislature the enactment of a law vitalizing this section of the Constitution, either with a criminal penalty or forfeiture of office, or by both of such penalties.

The other responsibilities and duties named in the section of the Constitution first quoted submitting his recommendations as to legislation needed I now proceed to perform. It may be observed by this section that this is one of the functions of legislative power expressly granted to the Governor, along with the power to veto, to override which, he is given the strength of five members of the Senate and nineteen members of the House.

When inaugurated on January 12, 1931, I found outstanding approximately \$5,000,000.00 of unpaid warrants, representing the expenditures of government in excess of the revenues collected. This occurred largely by lack of machinery to collect the taxes really due, and a lack of economy. There was due to be nearly \$7,000,000.00 of these outstanding warrants at the end of the fiscal year, 1931, as a consequence of the stupendous ap-

propriation—the greatest in the history of the State—made by the Twelfth Legislature aggregating \$34,271,000.00, together with a deficit of more than a half a million more. An effort on the part of certain bankers, fostered by the Oklahoma City daily press, was made to force a recommendation by me, and an enactment by the Thirteenth Legislature to provide for the issuance of bonds to take up these outstanding warrants. This I steadfastly refused.

Moreover, about the time of the adjournment of the Thirteenth Legislature, the entire structure of oil prices dropped to 22 cents and less a barrel, followed by a shut-down of 3,108 flowing wells for some three months, in order to restore the price, causing, during all this time, a loss of approximately \$400,000.00 a month in revenues, and thus increasing the outstanding warrants more than \$3,000,000.00. The State was in its worst financial condition; but I have to report that through certain efforts, warrants, both State and County, were brought to par. One of these methods was through a contract with the Chatham Phenix Bank of New York, as State depository.

#### STATE DEPOSITS SECURED

In connection with this contract, the State Treasurer called my attention to the fact that heretofore, and, indeed, from Statehood, it had been the practice of having the New York depository to make a trust company bond in the sum of \$500,000.00. In view of the old Southern Trust Company's, one of the oldest and strongest, having gone into the hands of a receiver, it occurred to me that it was doubtful safety to accept the bond of any trust company. Moreover, there was on deposit \$1,500,000.00 of the State's money; and, even though the trust company's bond was solvent, the State stood to lose in the event of the failure of the depository bank, the sum of \$1,000,000.00. Upon this showing, the Governor issued an executive order, directing that the

state warrants could be placed in escrow, dollar for dollar of the amount on deposit, as a bond, to secure this \$1,500,000.00 deposited; and that is as yet the bond of the depository. Thus, the State funds have been safe by security with our own paper.

#### BONDS MADE BY STATE AND COUNTY OBLIGATIONS

In this connection, I wish to call your attention to the fact that bonding companies have discriminated against certain filling station keepers and others required under the law to give bond. In view of this fact, and in order to give a market and thus preserve the parity of our warrants, I urgently recommend the passage of an Act, authorizing the placing in escrow as a bond, State, county, and municipal warrants and bonds in lieu of that of any bonding company or personal security, if the person so choose. Such a law would strengthen the finances of the State and make sure the guarantee required by the law. These non-taxable warrants bearing 6 per cent interest would cause the investment by those required to make bond in these securities, and thus they would make a profit while saving the cost of the bond.

Such a law would prove wholesome from every standpoint of public policy, unless we undertake to write laws for the special and peculiar benefit of the bonding companies.

In my opinion also, the law requires the execution of some bonds for officials that are wholly unnecessary, and conserve no public interest or any other interest save and except the premiums paid to the bonding companies. Wherever bonds are unnecessary, the law should be repealed requiring them.

#### OKLAHOMA TAX COMMISSION

As is well known, the first act of the Thirteenth Legislature was the passage of the "Oklahoma Tax Commission" Law. The Commission has proven the bulwark

of the financial integrity of the State. Through two years of observation, serving as chairman of the Tax Equalization Board, which board heretofore had no means whatsoever to value the corporate properties of the State, I am astonished that prior to the creation of the Oklahoma Tax Commission that we collected as much taxes as we did from those classes which are always operated on the principle of selfishness and "pay dividends,"—whether the law was violated or not. I am thoroughly convinced that had this Commission existed eight years ago, the State would have no outstanding warrants unpaid.

After nearly two years' trial of the law, there is no amendment that either I or the Commission could suggest. The "Oklahoma Tax Commission" law is as nearly perfect as any act ever passed by the Legislature of this State. Therefore, it should be the watchword of every honest representative of the people, whether in the Executive branch or of either House of the Legislative branch, to watch and thwart any and all efforts to modify this law, even by implication. It should be the shibboleth of every patriotic Oklahoman to every Legislature that convenes: "Hands Off the Oklahoma Tax Commission." In the administration of the funds, through its chairman, the Honorable Melven Cornish, honest and honorable, a master of detail and a keen intellect; together with the great legal ability and integrity of the Honorable W. D. Humphrey; and the splendid character, intelligent understanding of tax principles, and sympathy for humanity, as shown in the person of Col. John T. Bailey, we are prone to congratulate ourselves on both the splendid personnel and satisfactory achievements of the "Oklahoma Tax Commission." I feel sure that but for that Commission's services there would be outstanding warrants unpaid \$6,000,000.00 more than now outstanding.

## REDUCTION OF AD VALOREM TAX

The immediate and crying need of the State is to reduce the ad valorem taxes upon property of the citizens. To do this requires economy in governmental functions and the payment of all public and bonded debt, school district, municipal, county, and State, and to issue no more. The best way, the safest way, the most sensible way, to balance the budget is to lower the cost of government. This I endeavored to do by lowering all appropriation in the Thirteenth Legislature, and, since, by using watchfulness and alertness to prevent the expenditure of the money appropriated; and, in a measure, have succeeded.

From the appropriation first proposed by the State Senate, the Governor was enabled to cause a reduction before the bill finally passed:

In the sum of -----	\$1,109,000.00
The Governor vetoed in the Institutional Bill -----	240,000.00
In the Bill for Officials, he vetoed -----	235,000.00
And there was saved in the various institutions and departments from the appropriation at the end of the fiscal year, June 30, 1931 -----	1,232,000.00

This makes an aggregate of -----\$2,816,000.00 which, through the action of the Governor, was saved the taxpayers of this State; but it is not sufficient saving as yet.

This State can be run with efficient help in every department and the continued efficiency of the schools and educational institutions on an aggregate sum of \$20,000,000.00 for the next biennium, or two years, and, if Your Honorable Body will pass the bill, which will be submitted to you, recommended by the unofficial budget commission, appointed by the Governor, this will show

your saving. This commission knows more than either you or I, or any member of either House, or all together, for they have studied the question for a greater length of time than you will probably be in session. I therefore urge that the Legislature take the credit of this reduction by passing the bill without change, *as it will be submitted*. There is no need of any increase in any item. In my opinion, some items could be reduced, and the future will prove that is true, but I am willing to risk the bill as written. You have the opportunity of taking the credit, but, if you decline, I shall take it.

In truth, if the organization of the State Government were based upon the principles as in the beginning, this State Government could be operated on \$15,000,000.00 for the biennium, and yet leave all the schools and colleges ample funds for efficient operation. I recall that when Sam Houston retired from the Presidency of the Texas Republic; and Lamar, the dreamy, poetical mind, became President, he directed and authorized all kinds of dreams and schemes; and expeditions to Santa Fe and the Montezumas, none of which ever came back, and the paper money went down to twenty cents on the dollar until the Congress had to put Houston back into power. Having the power under the Constitution to make his own budget and frame up the Government, he reduced appropriations for officials the first day from \$174,000.00 to \$32,800.00, practiced economy, restored the paper money to par, and brought the young republic out of chaos. We have simply had too many experiments in Boards, Bureaus, and Commissions.

The question of economy or reduction in the cost of State government thus solved and determined upon, the next question is how shall we extinguish the public debt and thus vouchsafe reduction in ad valorem tax and save nearly \$23,000,000.00 of interest on the public debt, State and local. I propose this remedy:

**REMEDY FOR PAYING ALL PUBLIC DEBT**

That, from the State's portion of the gasoline and automobile tax, a sufficient amount be used to match the Federal quota for roads and for reasonable upkeep of the State highways; the remainder to go into the general fund to be used exclusively for the payment of the state warrants and the bonded debt and then revert to its present use and purposes; then all of such gasoline and automobile tax assigned to the counties be used to pay off all of the bonds of any class or kind, including warrants outstanding of such county; and their portion under the law assigned to the cities be used for the same purpose. This will shortly extinguish the State, county, and municipal debts, leaving the school districts, which, on the whole, are in far worse condition than all other public indebtedness, in that the school teacher must needs "shave" his warrants heavily to get them cashed; and many districts can not at all cash them. This condition, in my opinion, is a disgrace to the administration of the school districts. It is bad enough for an individual to have out a "hot" check; it is a crime against government and the people to have outstanding government "hot" checks.

**BRING TEACHER WARRANTS TO PAR**

To remedy this situation and bring the warrants to par and to extinguish the public debt, and, in a double way, insure the reduction of the ad valorem tax, the Governor recommends the enactment of an income tax law, without the arbitrary depletion clause, but a depletion only of cost, that the big taxpayer, as well as the ordinary school teacher and professional man, shall pay taxes in proportion to the ability to pay and the service of government received; for there is no depletion for the professional man's brain allowed; and, therefore, why should there be a "depletion" greater than the cost of these great corporations and monied concerns?

Let the whole of the proceeds of this income tax be apportioned among the school districts according to the scholastic population; be used exclusively to pay school teachers, and then require a reduction in the ad valorem tax in each of such school districts to the amount or quota received of the income tax.

Then enact a law taxing cigarettes, cigars, cosmetics, and habit-forming drinks, the proceeds of which to be distributed according to the scholastic population and to be used exclusively in each such districts to pay: First, the warrants; second, the bonded debt, with a provision that so fast as a given school district has extinguished its debt, the money shall be used for the current operation of the school; and, when thus used for the operation of the school, the ad valorem tax shall be further reduced to the quota of such tax received.

This will bring back to par within two years the warrants of every school district in the State, and sooner than two years in most of them. It will tremendously reduce the ad valorem tax by the three methods of paying the four debts: State, county, municipal, and school district, together with the reductions required under the income tax law and the select sales tax law, until tax on property will never be a burden; provided economy of government in all of its several divisions and functions shall be reasonable, economical, and sensible in the future.

I would also provide in the case of the Select Sales Tax that whenever a school community creates a debt in the future, this tax shall be withdrawn from that district unless such debt and the amount of it is approved by the Oklahoma Tax Commission. This provision would encourage the teacher as well as others to keep that community out of debt. Indeed, it need not go in debt except where a school building is needed, and then it should be a building that could be constructed economically.

All frills of education as well as every other function of government, should, by law, be wiped out. In this connection, permit me to call your attention to the fact that in many counties of the State, the school trustees, at the urgent solicitation for more salaries by the teacher, have issued warrants in excess of the revenues and in violation of the Constitution and the criminal laws. These warrants, failing to sell to the banks, are cashed out of the Sinking Fund, and both the State and county officials are powerless to check the criminality. I say criminality, because it is a violation not only of the criminal laws but of the Constitution itself. They get away with it because the most prominent and influential citizens of each school community are the school trustees, and, through their influence, sometimes aided and abetted by the teachers and county officers, makes it easy for them to escape conviction or prosecution.

The superintendents of several counties have called my attention to this evil and criminality. One county, with bonds in every school district, has entirely exhausted the Sinking Fund in every district, and they will be due and payable within the next two years. To remedy this evil, I suggest and urge upon you to provide that no school warrants shall be valid until approved by the county judge, and then place the penalty upon him, and he will have jealous enemies enough to watch his course, and conviction ought to be easily had. Moreover, the county judge being a lawyer would understand what he was doing, whereas, be it said to the credit of their integrity, most of the school trustees are not unaware that their acts violate the criminal laws.

In my opinion also, municipalities should have like approval; and, in order to vouchsafe conviction, especially upon an investigation directed by the Governor, there should be a change of venue from the county in which an official stands accused, and the case assigned by the Supreme Court to some other county within that

supreme judicial district, wherever any county officer is proceeded against for violating his oath or the laws.

It will be observed that there is usually a combination and political affiliations among the officers of a county to protect one another from an unjust criticism of the public, so that it is difficult to convict one of them in the county in which he holds an office unless he be out of line with the political line-up of the machine of the county seat. Such change of venue on the part of the State or prosecution should be permitted as an absolute right on the part of the Governor whenever a foreigner is prosecuted, because of the delicate international aspect of the question.

Whether the result would have been the same or not had there been a change of venue from Carter County in the killing of the two Mexican schoolboys, the Mexican government had at least been better satisfied. I am not at liberty to disclose to your body how delicate that situation was and how close had to be the co-operation between the Governor of the State of Oklahoma and the Secretary of State at Washington to prevent retaliation upon the part of the Mexican people and officials toward Americans residing there and their property; and it will be recalled that just recently, the United States Government quickly made an appropriation of \$30,000.00 to preserve that amity and good will which should always characterize the citizens of neighboring republics. It is not a boast on my part to say to you that but for my knowledge of the Latin mind, together with my quick and decisive action, with the subsequent course pursued from recommendation of the Secretary of State at Washington, whose praise was warm and unstinted for the course I pursued, the killing of the two Mexican students might have resulted in much bloodshed. Indeed, the World War started over the killing of one prince, and here were two, and the whole of Latin America was watching us. These considerations

are the most cogent for such change of venue in the future.

### SUSPENSION OF TAX PENALTIES

Closely allied to the financial affairs of the State is the question of providing methods whereby the people may pay their taxes upon their property. Many of them are delinquent in the payments for the reason that it is impossible for them to make such payments until penalties have piled upon them to such an extent that to exact both the taxes and penalty would mean failure of collection of any of these taxes, and forfeiture of their properties.

I am thoroughly of the opinion that if the penalties were suspended, we could collect more taxes than to attempt to collect the penalties thereon; therefore, urgently recommend a joint resolution having the force of law, or an act suspending all penalties on delinquent taxes of every class and kind until the 1st day of May, 1933, with the provision that if such taxes are paid prior to the 1st day of May, 1933, the payment of the tax shall entitle them to a clear receipt; but that failure to pay after that date, the penalties shall again attach.

### COUNTY EXCISE BOARDS

It will be recalled that the County Excise Boards were created by the Thirteenth Legislature, which at once became the arm of the machinery for the collection of taxes and for the reduction of the same, together with a reduction of the expenditures of government in the several subdivisions of the State. This act was defective when it was passed; indeed, it was difficult to pass at all. Some of the language was so ambiguous that the Supreme Court of the State has crippled it in many of its intended functions.

I urgently recommend that it be revised, with the power intended to be given it written in such plain and explicit language that all of the courts of the land may understand the intentions of the Legislature.

## EXEMPTION OF AD VALOREM TAX OF OIL PRODUCERS

In the enactment of the gross production tax on oil, the Legislature provided "that the pipes, derricks, and all property necessary to production, in and around the well should be exempt from ad valorem taxation."

In some two or three cases before the Supreme Court, that court has ruled that a *hospital* and an *ice plant* operated by the company was necessary for the production of oil, and, therefore exempt from taxation; also, in another case, where a water system 20 miles away was declared exempt, since it was necessary for the production of oil. Therefore, it becomes as necessary for the Legislature to define in specific terms just the property that is exempt in such language that even the Supreme Court can understand it, because if we start as a basis for reasoning upon "what is necessary for the production of oil," an oil company could include cattle ranches, and packing houses, because meat is essential throughout the year while "ice" declared to be exempt, may not be essential throughout the year; indeed, overall factories, tailor shops, steel plants to make drilling machinery, and truck factories to transport the oil, all and many more, could, by the same analysis, be declared exempt from ad valorem taxation.

## FREE SEED AND RELIEF OF THE PEOPLE

I urge upon the Legislature the passage of a special law appropriating money to purchase garden seed for all persons who will plant a garden or produce food crops that cannot purchase them, in an amount of \$100,000.00, for the present fiscal year; and \$100,000.00 for the fiscal year beginning July 1, 1933; together with \$200,000.00 for the present fiscal year, for relief of the poor who are unable to work; and \$200,000.00 for the fiscal year beginning July 1, 1933; or an aggregate amount for two fiscal years of \$600,000.00.

As is well known, the Reconstruction Finance Cor-

poration assigned to the State for work relief for the three months of October, November and December, the sum of \$817,000.00; and also for the months of January and February an additional sum of \$1,300,000.00.

The Governor, in each of these requests, has been required to pledge that the State of Oklahoma will make a reasonable provision to match these funds, and also that the counties will make a like effort.

I have discussed with the representatives of the Federal Bureau this question and pledged them to urge upon the Legislature of the State the appropriation mentioned in the foregoing, and the same was pronounced satisfactory to them. I may state that a failure on the State's part to provide these funds would greatly lessen the amount we could receive in the future from the Federal Government.

The plan that the Governor has worked out is to use the Federal funds supplied by the Reconstruction Finance Corporation to the employment of labor of all enabled to work, and let the State's funds and the county funds, appropriated for the relief of the people, be used exclusively and wholly for those needing assistance and unable to work.

I urge that this appropriation be made as quickly as it is possible, that the seed may be provided in time for early gardens; also, that the provision of the law be so written that any of these funds not expended during the present fiscal year might be expended in the next fiscal year, to the end that the stressful times of next winter may be provided with all that we can save out of the funds for the present year.

Permit me to call your attention to the fact that it is during periods of this kind that famine threatens the densely populated centers of the country. It has proved so in all of the years of the past in India; it will prove so in America. Indeed, during the next two years there is danger of famine in portions of the United States. It is

our hope that it shall not occur in Oklahoma, for, so long as there is a surplus of food produced, there will be means of providing food for those who have not the money with which to purchase it. And there are many more cogent reasons for the provision of seed at this time than there were two years ago, when \$300,000.00 worth of seed were provided for the farmers of the State. Then, not only garden but field seed was also provided. That, this year, is not necessary, and I am reasonably certain that \$200,000.00 will be ample for the two fiscal years.

#### SCHOOL LANDS AND FUNDS OF THE STATE

The Governor recommended to the Thirteenth Legislature an appropriation to audit three departments; but, during all the term, there was a source of opposition that we never could locate; however, the bill was passed, making an appropriation of \$25,000.00 for the audit of "All" departments, which was not enough for the one department, the School Land Commission. Feeling, from the information I knew, that this department, in some years of the past had handled these lands and funds not to the best advantage, the Governor was anxious to find out where and how these errors were made, and authorized and directed the Board of Public Affairs to contract for the audit of the School Land Department alone. It was found that no auditor would undertake a bid upon the whole work of auditing that department for the \$25,000.00, some of them asking \$100,000.00 to guarantee the completion of the work. At length, the Board of Public Affairs was enabled to make a contract with Willson & Garnett to audit the department, on somewhat a piece compensation.

They found that the records of the first administration having been removed from Guthrie were mixed so that it was difficult to find and trace these different landed properties. When the auditors reached the year of about 1926, the \$25,000.00 appropriated was ex-

hausted. The Governor then made an Executive Order directing the Board of Public Affairs to create an expenditure of not exceeding \$8,000.00, and continue the work up to the fiscal year June 1, 1932, in order that the Fourteenth Legislature could have certain accurate knowledge of the condition of that department.

It is almost inconceivable to an intelligent man that this department which ought to be accredited with \$70,000,000.00, and more than 800,000 acres of land should never have an audit, even in part, for a duration of twenty-five years.

In the course of the audit, it was found that lands listed on the records earlier had for some reason dropped from the records, and, for many years, lost; holders of the land cultivating it without paying rent to the State. It was found that during a portion of the time, the Commission had permitted the Secretary to make loans on property where the amount did not exceed \$2,500.00, brought about largely through the connivance of the Secretary and the then President of the Board of Agriculture, whose brother, I learned, as early as 1930, had sought out small places and farms in the southeastern and eastern portion of the State, purchased them for \$1,000.00, \$1,500.00 and \$1,800.00, and then borrowed through the School Land Department \$2,400.00, then turned the property over to some person as a lease, and, thereafter, the lease never again paid either interest or rent to the School Fund, and, through this method, there were losses aggregating millions of dollars; since the lands foreclosed and in the process of foreclosure cannot be sold, there is no way to ascertain just how much was lost.

In addition, beginning in 1926, and running to 1930, there were some direct thefts, the amount of which can be definitely ascertained; and, since the Constitution provides that the funds of that department shall never be diminished, and that any loss shall be replenished by

appropriation of the Legislature; and, since claims for rent or interest supersede that of taxes, that is the only department of State that cannot be used, in the contemplation of the Constitution and the law, for charitable purposes or for friendship or politics, although the Legislature and any other branches of government might aid charity and provide for the same.

I, therefore, recommend that the Legislature exercise the functions of the Constitution enjoined upon it and formulate rules for the guidance of that department; and, among such rules should be a provision authorizing the audit of the School Land Department every two years, so as to keep up the audit regularly, and a copy to be filed with each House of the Legislature at every regular session, and with the School Land Department; and that the contract for an audit shall be made by at least two members of a commission, to be composed of the Governor, the Speaker of the House, and the President Pro tempore of the Senate of each Legislature. Had such been the law in 1926, the Legislature in 1927 had been made acquainted with the thefts made before and the subsequent thefts would not have occurred, nor would there have been a limitation against criminal prosecution.

Another phase of this question: Beginning with the first loans, a rule was formulated in the absence of a rule made by the Legislature that when a borrower of these funds was delinquent in the payment, there should be an express contract for him to pay 10 per cent during the period instead of 5 per cent. Those facts have been known to the Legislature ever since. No act or resolution had ever nullified the rule, so that the Supreme Court in one case ruled that that was tantamount to a legislative enactment; and so also ruled the present Attorney General of the State. In the face of these facts, a majority of the Commission, by a vote, superseded the rule, and the contract as well, on loans heretofore made,

and, by resolution, remitted the 5 per cent contract rate of this interest, under the belief that the present stressful conditions justified such act, although many of the lessees had been compelled since the beginning of these conditions to pay the full contract rate. This made liable the Secretary who is under bond for this money; and, in the opinion of the Governor, the Commission had no authority so to do unless under another rule extension of the time was agreed to at the rate of 5 per cent, which had always been the practice of the Commission.

Acting under this belief, the Governor employed Ex-Governor J. B. A. Robertson, and directed the Attorney General to bring suit to enjoin the Commission from changing this rule, and the Governor agreed to pay out of his own pocket, the attorney fees; and has made all payments out of his own pocket, in order to ascertain what the law is, and to protect the Secretary on his bond.

These circumstances are recited to make clear to the Legislature the reasons for certain rules for that department.

There are a number of members of the House and Senate who have loans in that department. Most of them, however, were obtained prior to their being elected to the House and Senate, one that I know of ten years before; and, therefore, could not be blamed for owing the State at this time; but I submit that no man who holds an office under the State of either department should, during his term of office, or while he was a candidate for the office, or for twelve months after the expiration of his time, borrow any of this money, for the reason that did he do so, the Commission would be charged with doing it out of consideration of friendship or politics, whether the charge would be true or not.

I, therefore, recommend that among the rules, no person in either the legislative, executive, or judicial branches, or commissioned by them, drawing funds from the State, shall, during their term, or while they were

candidates for such positions, or for twelve months after the expiration of their terms, be permitted to borrow any of these funds; with the proviso that if either such person shall have borrowed before he became a candidate, and afterwards, or during his term of office, the loan became due, that the Commission will be authorized to extend the loan, as in other loans made. This seems to me to be the clear, wholesome way of handling these funds. The effort is to prevent, while in office, the use of these funds for political favoritism, and to remove from the charge of such favoritism, but not to create a hardship either on the State, the School Land Commission, or the borrower, should he, perchance, have a loan made prior to his going into office, just because he was elected to office.

#### THE HIGHWAY COMMISSION

I recommend that the salaries of the Highway Commissioners, the engineers, heads of bureaus, and all that it is possible to provide for, have their salaries fixed by law; and I also recommend and submit that the Legislature ought not to throw upon the Governor the responsibility for the acts of the Highway Commission, and then take it away from him by giving him a Commissioner, over whose acts he has no control. The Legislature should give the complete control either to the Governor or take the authority and obligation upon themselves. I leave it to your good sense which ought to be done.

#### A SUB-PENITENTIARY, OR STATION

The Thirteenth Legislature made appropriation for the purchase of lands for a penitentiary station. The purpose of the fund was thoroughly explained to members of the House and Senate. Lands were purchased to carry out the purposes and plans, when the Attorney General, in the absence of the Governor, ruled that the work had to cease and that the money could not be used,

doubtless due to the fact that it was in the nature of legislation in an appropriation bill.

I therefore recommend that a special act be created re-appropriating this money appropriated at that time, and that the work may continue.

The first intention was to buy the land at Limestone Gap, partly because of the limestone rock deposit; and, in part, because of the soil and water, since the penitentiary at McAlester has no water, and has to rely upon the water of the city of McAlester, and disagreement arose in Governor Williams' administration which caused him to threaten to remove the penitentiary, because of lack of water.

A gentleman was secured to undertake to get up options on the land without the people's knowing that the State wanted to purchase the land; but, at length, it leaked out. As a result, they asked for some of the land \$75.00, and the whole tract amounted to an average of \$25.00 an acre. The Governor took the position that it was too much, and gave out public notice that he intended to go elsewhere near McAlester to locate this penitentiary camp.

At length, the citizens of Atoka became interested, came to me, and I informed them that I would not pay exceeding \$12.50 an acre, and that it had to be as good as the Limestone Gap property. They got connection with the Kuykendahl heirs who owned a great amount of a tract of land a mile south of Limestone Gap, on the Katy Railroad, and which land had to be sold. They proposed to take \$12.50 an acre, and came to my office and talked over the matter, and I told them that I would not pay a cent more, and did not want to pay that much, but agreed that I would go and look at the land. Judge I. L. Cook, their attorney, then told them that they had better get down to the last copper that they would accept, that he "knew the Governor so well that he would not parley or dicker with them over the price."

I went down to the land and personally looked over it; and, when through, I asked them what was the lowest cent they now would take, without parley, and that would determine whether it would be accepted, and then announced \$9.18 an acre.

The tract of land is ideal for the purpose; indeed I do not know of one that meets every requirement more completely; indeed, it is better land than the Limestone Gap property; and I invite the Legislature to go see.

It lies on either side of the Katy Railroad; on the west side running parallel with the tract some few hundred yards from it is a limestone hill, probably a half mile long. Such would be ideal in the event the State desired to make cement; indeed, one cement company of the state had tried to purchase that hill. The south end of the hill would be ideal to build walls on top so that a look-out could be erected whereby a guard with field glasses could see every part of the land of more than 8,000 acres. West of the hill is a valley of approximately 2,020 acres of black, sticky limestone dirt, part in cultivation, but the most part in timber. Through it flows the Boggy River, the largest stream in Atoka County. At the upper end of the tract is an ideal water basin, with a dam constructed, capable of forming a reservoir from the river and irrigating 2,020 acres of land, which could raise vegetables during all the warm months of the year, and upon which could be grown seeded ribbon cane that would produce all the molasses and syrup used by the institution, and they use more than a barrel a day. East of the track is the pasture and meadow land. Some of it has been used to cut hay for years. The rolling limestone dirt is ideal for pasture in that it does not get mushy as flat land in rainy seasons. If this east tract or pasture were fenced with woven wire, and calves were bought and placed upon it, the pasture and hay could feed them through the winter months until they were three-year old steers and produce the \$65,000.00 worth

of meat used annually at the penitentiary. Hogs could also run at large in the pasture and fattened on the swill from the penitentiary. Goats could be used, and they do not eat grass, but eat the brush and weed; and therefore, benefit the pasture, while producing another variety of meats.

#### NECESSITY FOR THE SUB-PENITENTIARY

The institution at McAlester is overcrowded; the hallways are filled with cots, and there is constant danger of a break. In addition to this, the prevalence of tuberculosis in the institution and the danger from that source to the short-term convict is a menace and inexcusable to the State Government. Short-term and ordinary convicts should never be permitted to keep the company of these shrewd, high-powered criminals who rob banks and commit depredations with firearms, for it is easy enough during their confinement to "pump" into their minds that acts of lawlessness would be justified. Outbreaks would be more likely, for, as one of the high-powered criminal convicts said to me, in speaking of this evil: "Governor give me access to the convicts of that penitentiary, that I may teach them by signs, eyes, mouth, and lips, for six months, and I can create a break that all the guards could not prevent and that no warden could put down in two years." This convict was one of the shrewdest bank robbers in the penitentiary. He was given clemency in order to catch the source of dope smuggled into the penitentiary. His lead in this effort led to the conviction of a number who were perpetrating these crimes.

If this project can be carried out, which is the project partly borrowed from my personal knowledge of the Texas penal financiering of years in the past, we could make this institution almost self sustaining. Indeed, Texas's cost is the lowest in the United States, and it is believed that it will be entirely self-sustaining within another year, (as it was thirty odd years ago), and so announced by the Penitentiary Board of Texas. The plan

would lessen the danger of tuberculosis among the short-term convicts by giving them outdoor exercise. It would shield them from immoral conduct, and criminal company, and better serve the probability of learning their lesson and becoming good citizens, in addition to lessening the cost of government and the taxpayer; the danger of outbreak, and give employment, because idleness causes the convict to brood and gives him evil thoughts that otherwise he would not have, as well as provide the water necessary, because not only Boggy Creek runs through the farm portion but a clear stream known as Chickasaw Creek, the next largest stream in the county, with flowing water the year around, clear, cool, and wholesome, runs through the pasture portion.

It would afford room and occupation for all the short-term convicts, leaving the walls at McAlester wholly for the high-powered criminal and long-termers. Moreover, it would cost more to provide walls, buildings, and water for the institution at McAlester than this plant would cost. The land is the very best for pasture and among the best for the farm, and was purchased at a very low price; and I submit to any man who knows land to go look at it and, especially, to compare it with the land at Limestone Gap, where was originated all of this "hue and cry" in the Press, because they were not permitted to speculate upon the State and bleed the State for land that was not worth the money they asked.

#### OIL PRORATION

You gentlemen know more or less the facts, and perhaps more gossip, growing out of the breaking down of the oil industry. It is well known that we had a proration law that was splendid until it reached the penalty or enforcing clauses, and they were evidently written defective at the instance of some shrewd lobbyists around the Legislature, who imposed upon the members in the past, who did not know law, and the necessity of criminal penalties to enforce a statute.

The Sinclair interest had arranged with the Prairie of Indiana, a subsidiary of the Standard, to take over all of their crude; and, later form a united corporation. In the meantime, it became the intention of Sinclair to break down the price of oil, fill his tankers with 20 cent oil, and then push it back, and thus reach big speculation at the expense of the little independents, who, in the meantime, would go out of business.

The anti-prorationists surrounded the last Legislature in an effort to repeal the law entirely. Oil went down to 20 cents and less a barrel. The revenue of the State was cut off \$400,000.00 a month. Exercising the Supreme Executive Power, through its military arm, the Governor shut down the 3,108 flowing wells and held them until October, restoring the price of oil by reason of the taking from the tankers the oil throughout the country. This shut-down raised the price of oil all over the United States. Numerous efforts since have been made to break down the price again. The case went to the Supreme Court of the United States in an effort to do so, and also one from Texas, and the one from Oklahoma was upheld by the Court because the Governor of Oklahoma was using his power to uphold the law, whereas the Texas military control was nullified by the Supreme Court of the United States for the reason that the military forces were laying down the rules of proration; in Oklahoma, we were merely enforcing the rule of proration laid down by the Corporation Commission.

This difference made the difference in decision. The Supreme Court, in passing upon the Texas case, used the explicit language that the power of the Governor to use the military power to carry out and enforce the law was "All inclusive," and could not be interfered with; but, in the Texas case, the military arm was used to violate the law and not to enforce it, and, again, in effect, upheld the military rule in Oklahoma.

Many companies have been stealing oil, which their

own books show. One of their men swore before the Corporation Commission that he, every day for ninety-one days swore falsely as to the oil, but it so happens that he cannot be convicted for those false oaths, owing to the peculiar wording of the penalties of the proration law, which penalties the Supreme Court of the United States declared null and void, while upholding the law.

There will be submitted a Bill, creating in explicit terms penalties for violating the law for these false oaths and returns, and for additional and more satisfactory machinery for enforcement, which will remove the necessity for military control; and I urge the passage of that law, for the constant watchfulness and mental effort, treading on close powers, is a constant task of the Governor, which he would avoid, if he could; and, without this new statute, which I here recommend, the moment the military power should be removed, in thirty days, oil would drop to below twenty cents a barrel, wrecking every independent producer; stop the development of oil, to the detriment of the farmer who leases his land; and the returns to the School Land Department; and would break every bank in what is called the oil centers, resulting in the wake the bankruptcy of many of our citizens.

For lack of time, I cannot go into all of the detailed discussion necessary to make plain what I have done and its effect, but it is sufficient for me to call your attention to the fact that the oil industry was taken through the efforts of the Governor in this State from where it would lead to bankruptcy to a status where they are paying dividends, and one of the few industries in the United States that is paying dividends; all through the knowledge and effort of the Governor of Oklahoma, who has not been spared criticism either by the Press, politician, or the criminal interest in breaking down the law.

From time to time, it may become necessary for the

Governor to submit other and further recommendations, but the foregoing is submitted as his best judgment as to what should be done by this Legislature.

Many other things needing legislative action,—enough to keep Your Honorable Body at work twelve months,—the Governor could discuss with you but, in the foregoing is a program having for its *fundamental purpose the reduction of the ad valorem* tax on property, and to effectuate this policy, a three-fold plan is heretofore proposed, to-wit: rigid reduction in the cost of government; the payment of all public and bonded debt; the providing for education, which is the greatest local burden upon ad valorem property, by the enactment of an income tax law; and a tax upon sales upon non-essential habit-forming articles of commerce, with a reduction of ad valorem tax to the extent of the amount of revenue thus produced, together with a change in the issuance of certificates so as to discourage the great evil of issuing warrants in excess of the revenues.

I therefore urge the passage of these measures as speedily as it is possible to do so, and then I shall submit to Your Honorable Bodies other and further recommendations.

By the passage of the foregoing, you have an opportunity of going down in history as having adopted the greatest program in the history of the State; and likewise, you may frit away your time like the Congress of the United States; where, for thirty days, the sum and total of their achievements is to “blab” over beer, which, in effect, is worse than Nero’s fiddling in Rome, for doubtless his music was entertaining; but not so the Basso of the two Houses of our National Blab.

All of which, sirs, is respectfully submitted,

BY THE GOVERNOR OF THE STATE

OF OKLAHOMA: WM. H. MURRAY.

WHEREAS, this has resulted in the failure and the opportunity of the various members of the Legislature to properly study and analyze the appropriation bills; and

WHEREAS, the committees on appropriation of the respective Houses have never conducted public hearings upon appropriation bills, but on the contrary appropriation bills have been hurriedly passed through both Houses near the closing days of the Legislature; and

BE IT FURTHER RESOLVED that it is the sense of the Legislature that the committees on appropriations of the respective houses set aside the forenoons of Tuesday and Friday of each week for public hearings upon all appropriation bills and that at such public hearings any taxpayer, any taxpayer's organization or association or any and all persons that might be interested in said appropriation bills be permitted to be present before said appropriation committees and to offer and produce argument for or against any item or items contained in said appropriation bills to the end that the information regarding the expenditures of the State's money may be disseminated to the public in general.

BE IT FURTHER RESOLVED, that it is the sense of the Legislature that the appropriation bills for the biennium for the years nineteen thirty-three and thirty-four be reduced as a whole in an amount equal to twenty-five per cent less than the appropriations for the Thirteenth Legislature and that by the passage and the adoption of this Resolution we, as members of the Fourteenth Legislature, commit ourselves not to cast any vote for the appropriation bills as a whole until and unless said appropriation bills as a whole shall carry with them a twenty-five per cent reduction, as aforesaid.

To the Honorable President of the Senate

and to the Members of the Fourteenth Legislature  
of the State of Oklahoma.

Gentlemen:

We, the undersigned members of the joint committee appointed under Joint Resolution No. 96, by the Thirteenth Legislative Session of the State of Oklahoma, for the purpose of making a trip to Chicago to confer with the officials of the Century of Progress Exposition or Chicago World's Fair of that city, beg leave to submit the following report:

That we jointly visited the city of Chicago and

called upon said officials during the early part of the month of August, 1931. We were most cordially received and furnished full information as to the plans, scope and purpose of said exposition. We were much impressed with the magnitude of the plan of the exposition as outlined by said officials in carrying out its purpose during the year 1933. It is our opinion that our State should be fittingly represented at said exposition, and we so recommend. As to the amount to be appropriated by the Legislature, we make no recommendation but leave that question to be determined entirely by the membership of your Honorable Body.

We, the Committee, further report that Honorable Horace J. Smith, World's Fair Commissioner for the State of Oklahoma, of Pawhuska, Okla., has been designated as a Special Commissioner by the Honorable Governor of this State to canvass the sentiment and to represent the State in ascertaining the wishes of leading citizens and organizations of our State as to the extent to which the State should participate at said Century of Progress or World's Fair. Mr. Smith has very extensively canvassed the situation and will be able to render valuable assistance and information in connection with this matter. We are advised by Mr. Smith that he has the assurance from certain industrial interests of our State that it is their desire to participate in said Century of Progress or World's Fair and join with the State of Oklahoma in such participation.

We, therefore, recommend that a Special Committee be immediately appointed for the purpose of going into this matter fully and making such recommendations as to the extent to which the State shall participate in said Century of Progress or World's Fair, as they may see fit.

## MESSAGE

The following Message from the Governor was received and read:

To the Honorable, the State Senate:

Herewith attached is a copy of the persons whom I have appointed, together with the salaries of each, directing in the county the employment of the unemployed in the Federal Relief Work.

These men were selected with reference: first, to their dependability and faithfulness to a trust; second as to their qualifications, with little reference to "political pull." Indeed, in the selection of these men, I consulted very few members of the House or Senate; and, in fact, refused to appoint two or three because the Party Committee became too active in their behalf, and selected others equally as good that would not show Party dictation, feeling this essential under the direction of the Federal Bureau.

The question might be asked, What rule did I follow in making these selections as to dependability? My answer to that is: Their course in the past, and whether they were friends to me, since I have found very few enemies I could trust and many friends I could not trust. A few on the list are Republicans, particularly, the members in Haskell and in Blaine counties

The salaries here given include all of their expenses, including the trips when they come to the Capitol to bring the pay rolls and to get the checks, and were determined upon local assistance given them and the probable travel they would have to do. In other words, whatever expense they are out is included within the salary given, thus to save clerical work in the office here and with them; and, to be sure that excessive charges for gasoline and other expenses would not be made, each of them furnishes his own car.

Respectfully submitted, on this the 9th day of  
January, A. D. 1933.

Inasmuch as a number of bills have been introduced amending Section 12719, Oklahoma Statutes, 1931, relating to the payment of ad valorem taxes and as certain

language is omitted from said section, we deem it advisable to call said omissions to the attention of the Legislature, so that members thereof in drafting bills amending said section would take into consideration the omitted language. In this connection, you are advised that in the fourteenth line of said section, after the words "the receipt of," the word "or" should be stricken and the following words inserted: "the amount due, at said date, by reason of the inability of the County Treasurer."

And in the nineteenth line where the word "(sic)" appears, the word should be stricken and the following language inserted: "the manner provided by law. Provided, however, that."

The first omission above referred to was omitted through error in the publication of the Oklahoma Statutes, 1931, while the second omission was omitted in the passage of Section 1, Chapter 53, Oklahoma Session Laws 1929, and which section appears as Section 12719, Oklahoma Statutes, 1931.

HON. ROBERT BURNS,

Pres., State Senate, State Capitol.

I have your message embodying Senate Concurrent Resolution No. Nine and will read same into Congressional Record in connection with my speech favoring expansion of currency stop Economic situation throughout entire country is most acute stop The President is suggesting easy bankruptcy as a way out stop Many bills pending proposing Federal loans to people to meet debts pay interest and taxes such proposed remedies being only temporary stop No permanent relief possible save adoption of some plan to re-

duce value of dollar either by expansion of currency or going off gold standard or reducing gold content of present dollar stop Believe unnecessary to reduce gold content or go off gold standard hence am standing for expansion of currency in circulation and if financial power is unwilling to accept this policy then inevitable that we must go off gold standard and eventually follow course of Italy, France, Great Britain and other European countries by revaluing the dollar by reducing gold content thereof stop Appreciate resolution and thank you for your contribution to my fight here.

ELMER THOMAS.

#### MESSAGES

The following message from the Governor was received and read:

SPECIAL MESSAGE TO THE FOURTEENTH  
LEGISLATURE  
TO THE HONORABLE, THE SENATE AND THE  
HOUSE OF REPRESENTATIVES OF THE  
FOURTEENTH LEGISLATURE, OF THE  
STATE OF OKLAHOMA:

Gentlemen:

Some time ago, word came to me that a certain justice of the peace in Caddo County has been collecting fees and fines from numerous citizens who happened to pass that way. I directed the Bureau of Criminal Identification to make an investigation, and they reported as follows:

“1/13/33

“Re—Conditions in Caddo County

“I left this city on January 10th to investigate the Highway Patrol in Caddo County. At Carter, I found that R. P. Smithey of the Ford Plant was arrested by Kenneth Crick and fined \$10.00 by Mr.

Bradley, a Justice of the Peace, of Hydro. A statement of Smithey is attached.

"On November 25th, J. O. Russell of Oklahoma City was arrested by Crick; taken before the Justice of the Peace, Mr. J. M. Gidewell, and fined \$4.00. This fine was not accounted for by the Justice of the Peace and no record made. Russell has the receipt signed by Gidewell as all the record made.

"Mr. R. A. Vose, of Oklahoma City, connected with the First National Bank, was stopped for speeding by Crick. This was sometime during the month of December, 1932, and was fined \$11.00 and paid this on the highway and the money is not accounted for.

"Father Hugo, Catholic Priest at Canute, was arrested by Crick and taken before the Justice of the Peace, Mr. J. P. Bradley, of Hydro, and fined \$15.00. Father Hugo stopped payment on the check and then was again arrested for giving a bogus check. He gave a check for \$50.00 and the check and letter from Mr. Bradley were returned to him. They are now in our possession.

"Mr. S. L. Bradley was elected Justice of the Peace and filed bond four years ago, the County Clerk stated. We were unable to find that bond and he did not show it to us. Since that time, he has had no opponent and has held over and has not qualified as a Justice of the Peace, and has not filed bond as required by law.

"Mr. Gidewell, Justice of the Peace, Hinton, was appointed by the County Commissioners; secured his bondsmen and bond was approved by the County Commissioners, but the bond was not notarized or sworn to by any one. I find that the minutes and acts of the County Commissioners of

Caddo County have been signed by the County Clerk of Caddo County on the typewriter and none of the entire acts have been signed legally.

"The Commission given to Crick by the County Commissioner reads as follows:

'TO WHOM IT MAY CONCERN:

'This is to certify that Kenneth Crick was duly appointed Highway Patrol on State highways in Caddo County and that his bond was approved and filed in the County Clerk's Office on the 21st day of Nov. 1932.

'Signed this the 21st day of November, 1932.

Russell Glass (Signed)

(Seal) County Clerk of Caddo County.'

"The officers of the Justice of the Peace have not filed a quarterly report as required by law, nor have they turned in any money to the State within the ten-day-period law as required.

"There is one check of \$34.00 paid during the month of December, 1932, to the County Treasurer of Caddo County from S. L. Bradley, Justice of the Peace of Hydro, but no report.

"Mr. Gidewell of Hinton rushed in on January 12th to try to pay off something like \$50.00. As there is no County Treasurer in Caddo Co. at this time, I do not know what was done, as I left while they were still wrangling.

"When Mr. Crick went to work, he arrested thirteen people, without a card index system, and took them before the Justice of the Peace, then started to giving cards on the roads and claims that he has issued sixty-one tickets on the road. The J. P. has not kept a record as required by law and there is no way of checking the people who have

been arrested except by the cards given by Crick, and about one-half of these are gone.

“The Commissioners of Caddo County are paying the clerks in the Treasurer’s Office and there is no Treasurer to appoint them. The County Treasurer was elected to the office of County Clerk and has taken this office while the elected treasurer who is to take office—does not go into office until July.”

From the foregoing, you will observe that some of these acts, if not all of them, border closely upon official oppression, which should be stopped by some heavy penalty.

In this connection, permit me to call your attention to an old statute found in the Mansfield’s Digest of the Arkansas Law, which was in force in the Indian Territory prior to Statehood. There was in this statute a penalty against such things, intended for arbitrary justices of the peace in Arkansas, and proved to be a very wholesome statute. Since the statute has been construed by the Arkansas Supreme Court, I would recommend that such a statute be adopted in Oklahoma for just such cases.

The citizens of a community or town having a public highway ought to understand that they will injure themselves and cause travel to cease to go their way to such an extent as to injure them more than their citizens get out of it, and these local citizens should have a care about these things; but, alas, they do not.

I trust that the Legislature will consider this matter and provide adequate statutes to prevent a repetition.

Respectfully submitted, this the 25th day of January, A. D., 1933.

OKLAHOMA: WM. H. MURRAY.

### MESSAGES

The following Messages were received and read:

STATE BOARD OF PUBLIC AFFAIRS

STATE OF OKLAHOMA

January 23, 1933.

Oklahoma City,

To the Honorable, The State Senate,  
State Capitol.

Gentlemen:

Complying with your Resolution No. 5 for report as to the manufacture and facilities to manufacture farm wagons and farming implements at the Oklahoma State Penitentiary, we desire to report to you as follows:

Shortly following the adjournment of the Thirteenth Legislature, this Board made an investigation of the conditions at the Oklahoma State Penitentiary with reference to the construction of the manufacturing plant

referred to, and found the following conditions, to-wit: That no additional buildings could be constructed inside the prison walls because all space was occupied by buildings, including factory buildings, except such space as was necessary for passage outside of the buildings in handling approximately 3400 prisoners; that said prison is now and has been since the approval of the Act which is the subject of your resolution greatly overcrowded in all respects.

That on account of bad economic conditions, it would have been impossible for us to have manufactured wagons and implements at a cost as low as the farmers could buy them for on the market, for the reason that the dealers in such implements were overstocked and short on money and anxious to sell at unusually low prices, while the farmers were not able to buy such things; that we actually found that we could buy wagons cheaper than the materials would cost us to manufacture wagons in the Oklahoma State Penitentiary. The Penitentiary at McAlester was manufacturing wagons when the above mentioned bill was passed and has been and is now equipped to manufacture wagons in a small way, and that fact has been known generally, at least in the eastern part of the State. However, the Penitentiary has not had a call from a farmer in the State for a wagon or for a farming implement.

That if economic conditions improve so such things could be sold to the farmers at a cost, that cost being as low as or lower than they can be brought for on the market, then a factory for making them can be established if space therefor could be provided, and the Revolving Fund created therefor could still be used; that the Board cannot establish a manufacturing plant as contemplated by said bill within the present walls of the Oklahoma State Penitentiary and under existing conditions said plant would have to be operated at a loss and

the articles manufactured therein be of no benefit to the farmers of the State, for the reason that the farmers are no longer in the market for wagons and implements on account of not having any funds with which to purchase the same and for the reasons above stated, the Board has proceeded no further than to ascertain the information as above given.

Respectfully submitted,  
 STATE BOARD OF PUBLIC AFFAIRS  
 By W. C. HUGHES, Chairman,  
 HUGH C. JONES, Vice-Chairman,  
 C. M. CADE, Secretary.

TO THE HONORABLE, THE STATE SENATE  
 OF THE FOURTEENTH LEGISLATURE:  
 Gentlemen:

I observe that a resolution by Senator Rizley was introduced to investigate the School Land Department.

I call your attention to the fact that this department has been undergoing an audit for nearly two years; that, in a few days, the audit will be completed and the balance struck; and, when completed, a copy will be filed with The Senate; and then you will have an opportunity to know whether you want to investigate further.

I especially request that you do not now cause any POLITICAL interference with the audit and with the movement of the Attorney General to bring suit for the recovery of this money, for such interference would but do harm to the law suit.

After you shall have received this audit, then you can understand whether you desire to investigate further.

While on this question of investigation, permit me to call your attention to the fact that because of these numerous investigations, the Legislature is now going

into its fifth week, with the sum and total of its legislative achievement being the following:

An appropriation bill to pay the members their per diem and mileage;

The "Lame Duck" Amendment;

An Act, to promote quail breeding;

A local Act for Grant County, of doubtful wisdom.

I realize quite well that had you cut off all investigation in the beginning, some one would charge that I, you, and others did not want an investigation; but, after four weeks of such investigation, nothing has developed in the investigation to justify the cry of the harpies, the gossip, and the slander of the daily press. You have Colonel Cicero Murray's full accounts, and the achievements of the Committee amount to, as it were, "chigger-egg chasing."

I believe that an overwhelming majority, yes, two-thirds of the Senate, desires to put through the program in the interest of the people, but there are some eight or ten members in the Senate who did not come here to enact a program; whose every effort will be, as their efforts have been, to thwart any effort or accomplishment.

Permit me therefore to suggest that the people have their minds on The Senate, and that they will blame the majority for failure to go forward, notwithstanding the obstructive tactics of that small minority; indeed, they will blame that majority more than this "LOCO-FOCO" minority for failure of accomplishment. Permit me therefore to suggest that The Senate follow the course of the House of Representatives by passing a resolution to stop all investigations until the program is completed; and then appoint your committees on investigation and take a recess for thirty or sixty or even ninety days. By doing so, the program will be certain

of accomplishment, and those desiring investigation will have had their wish.

The destitute condition of the people, the burdensome taxes, with their penalties, which penalties should be suspended; the foreclosure of mortgages on the homes of the people, requiring legislation to assist them; the threatened closing of many schools in the State; the necessity of correcting financial conditions that confront the business interests; the need for more equitable revenues,—all these things require action on the part of this Legislature. There is no excuse for failure to enact such legislation, unless it be that the Legislature, like Congress, intends to frit away its time, which will lead the citizens to believe that representative government has failed, just as representative government has failed in the downfall of every republic of the past.

Therefore, considering all these things, I urge upon the majority who desire to serve the public to take charge of The Senate and vigorously complete the program, before the investigation, as suggested in the foregoing.

Respectfully submitted, on this the 30th day of January, A. D. 1933.

BY THE GOVERNOR OF THE STATE  
OF OKLAHOMA: Wm. H. MURRAY.

To the President of the Senate,  
Building

CLAIM NUMBER 19

Claim for installing a clock sys-  
tem at the Colored Agricultural  
& Normal University, made by  
the Atlas Wiring Company of  
Tulsa. This clock is somewhat  
irregular. It was put in with-  
out any bids, and the company  
should have known the law, but  
the company makes the state-  
ment that the engineer, who has

since been dismissed from the services of the Board of Public Affairs, authorized the company to do so.

Their claim is -----

1,661.00

The Board of Public Affairs refused to pay the claim, and I do not think that the State ought to pay for the profit of \$332.20, which they ask. I leave the entire question with the Legislature to pay what it is worth, or to provide for any other means they see fit, for the company should certainly know the law, that it required bids. I am of the opinion that under the circumstances, the Legislature should pay the amount of \$1,661.00, and no more.

CLAIM NUMBER 20 .

This claim is for salary for Mrs. Myrtle Andrus, who has worked for the Enid Institution for 23 months, up to February 1, 1933, at \$75.00 per month.

Total -----

1,725.00

This claim of Mrs. Andrus's was approved by the Board of Public Affairs, but refused by the Auditor. In my opinion, institutions like this and orphans' homes should be headed by men with families, and the wife should be put on the pay roll and required to do the work

instead of having some one else. I get this information after a long conference with Dr. Griffin of Norman, and others, because to do otherwise too often leads to immorality in the institution. In that connection, I may call your attention to the fact that Mrs. Alexander, the wife of the former superintendent, as well as two other relatives, were on the pay roll, and were paid by the State. No criticism can be had of the payment of Mrs. Alexander for the reasons I have stated in the foregoing.

SENATE RESOLUTION NO. 7, by Jennings, was taken up for consideration and read at length, as follows:

SENATE RESOLUTION NO. 7—By JENNINGS.

A RESOLUTION MEMORIALIZING THE SENATE OF THE UNITED STATES COMMENDING ITS EFFORTS IN WORK THUS FAR DONE TO REVEAL OIL SCANDALS AND REQUESTING THE APPOINTMENT OF A COMMITTEE TO BE COMPOSED OF ITS MEMBERS TO CONDUCT AN INVESTIGATION INTO ALL PHASES OF THE OIL INDUSTRY IN THE STATE OF OKLAHOMA, INCLUDING ESPECIALLY PRO-

DUCTION, TRANSPORTATION, PRORATION AND THE REVENUES DUE BOTH TO THE STATE AND THE FEDERAL GOVERNMENT AS A RESULT OF SUCH PRORATION AND TRANSPORTATION.

WHEREAS, the State of Oklahoma, is one of the greatest oil producing states in the nation and is at this time perhaps more active in the development of its oil and gas resources than any other State in the Union, and

WHEREAS, by various legislative enactments over a period of years attempt has been made to prorate the development and production of oil in such manner as would conserve to the best possible advantage the natural resources of the State, and

WHEREAS, for a period of several years last past the Corporation Commission of the State of Oklahoma has by various orders, rulings and decrees, attempted to provide equitable and proper means for the enforcement of the proration acts and the rules and regulations enacted pursuant thereto, and,

WHEREAS, by recent decisions of the various Federal District, United States Circuit Courts and the Supreme Court of the United States of America the power and the extent thereof of the Corporation Commission of the State for the purposes intended by the Legislature is so circumscribed and limited that said body has been practically rendered impotent to enforce its findings and judgments, and further because of lack of funds and revenues with which to make proper and necessary inquiry and investigation, said Commission is without the facilities to ascertain and procure the necessary proof to make a proper revelation of the conditions that the public might be informed thereof, and,

WHEREAS, the public press and current rumor throughout the State for the past several years have consistently carried and promulgated information to the

effect that reckless and unconscionable violations of the various proration acts of the State of Oklahoma have been indulged in at all times in practically all of the oil producing counties of the State, and such publications and rumors have become so persistent as to tend to destroy the public faith in its law enforcing agencies, and the public now appears to be convinced that such acts, if true, have resulted in the loss of millions of dollars to individual land owners, to the revenues of the State and the revenues of the Federal Government as is provided in the gross production laws of the State and the revenue act of the Congress of the United States as passed in 1932, such as are required to be paid under the laws of both the State and the Nation, and

WHEREAS, severe criticism has been directed toward the Chief Executive of the State in that he has permitted the employment of certain relatives for the purpose of enforcing the military rule invoked by his proclamation, and

WHEREAS, no current revenues of the State have been available for the payment of the cost of such military rule if under the law same could be authorized, and it has therefore been paid by collections made from the industries sought to be supervised, and,

WHEREAS, such criticisms have reached the stage in public opinion such as to render improper, however unselfish the same might be, any investigation under the supervision, direction or control of the State Executive, and

WHEREAS, there has been created and is now existent a committee composed of members of the Honorable Senate of the State of Oklahoma, which said Committee is presently organized and ready to make inquiry insofar as their power and means will permit, but inasmuch as a great portion of the records and proof necessary to a full and complete inquiry and investigation is not within the State of Oklahoma, and the Senate

Investigation Committee is wholly and completely without power and authority to compel the production of the same, and

WHEREAS, any investigation not complete in its nature will be insufficient to exonerate members of the oil industry, State Officers and other persons having relations with them or either of them, if exoneration be warranted, or to sufficiently prove the guilt of and cause to be punished by whatever means the law provides those persons found to have been guilty of any improper practices or violations of the laws either of the State or the Nation.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF OKLAHOMA:

That the Honorable Senate of the United States of America be and it is hereby urgently requested to cause to be appointed a committee composed of members of said Honorable Body to be clothed with full and complete power, facilities and authority to make full and complete inquiry into all phases and activities of the oil industry of the State of Oklahoma insofar as the same pertains to the production, transportation, processing, refining and the sale of oil and gas within the said State, for the purpose of determining whether or not said industry has been so operated or permitted in such manner as has caused a loss to the Government of any revenues due under the act hereinabove referred to, or any combinations in restraint of trade or monopolies have been created, or whether such industry has been in any way or manner so operated as to violate any of the laws of the United States of America.

AND, BE IT FURTHER RESOLVED that the Honorable Senate of the United States is further respectfully requested to clothe said Committee with power to act jointly with the Committee of the Honorable Senate of the State of Oklahoma now authorized to make inquiry, and to give to said Committee of the Hon-

orable Senate of the State of Oklahoma such information as will reflect other violations not specifically covered under any of the laws of the United States but which do not amount to violation of the laws of the State of Oklahoma or a breach of contractual relations as between lessor and lessee and the owners of royalties under the various properties upon which production is now being obtained, and

BE IT FURTHER RESOLVED, that because of his peculiar fitness in making such inquiry and because of his eminent record heretofore made in the revelation of unlawful practices upon the part of certain members of the oil industry it is further respectfully urged and requested that the Honorable Thomas J. Walsh of the State of Montana, a member of the Honorable Senate of the United States, be appointed upon said Committee in whatever capacity that Honorable Body shall determine, and

BE IT FURTHER RESOLVED, that because of his eminent character as an attorney and his previous record in fearlessly prosecuting violations of the laws, both of State and Nation, if it should be by the Honorable Senate determined that any attorney should be appointed to assist the Committee appointed by the Honorable Senate, then it is recommended that Ex-Senator James A. Reed of the State of Missouri be appointed as special counsel for said Committee to assist said Committee in ascertaining the true condition now existing, that the guilty may be punished, the innocent exonerated and the revenues, both of the State and Nation, be properly protected and procured.

My Dear Mr. Sneed:

Will you please convey for me to the Senate and the Fourteenth Legislature and the people of the State

*Twenty-second Day, Wednesday, Feb. 1, 1933* 471

of Oklahoma my sincerest thanks and deepest appreciation for the Resolution expressing regret at the death of my father, Lee Cruce, and for their commendation for his patriotic and unselfish service to the people of his State. Also, will you please convey my thanks to them for appointing a committee to attend his funeral, and for the beautiful floral offering sent to him.

My heart goes out in love and gratitude to each member of the Senate and House of Representatives, to you, and to all of Oklahoma for the esteem in which my father was held by you, and for the honor and respect paid to him at the time of his death. I had to remain in California, sick, but it was a comforting thought to me that I was sending him back to the waiting hearts of the people he loved so well. I know of no one who had a more abiding love for all Oklahoma than he had. No love in his life was greater than his love for his State, and I am very proud of his unselfish, constructive service to Oklahoma. It makes it easier to give him up when I realize his influence will live on.

I want to thank you, Mr. Sneed, for your personal words of sympathy and your beautiful appreciation of my father.

With heartfelt thanks to you, the Senate, the House of Representatives, and all of Oklahoma for the honor paid my father and the sympathy extended to me, I am

Most sincerely,

Mr. Milt Phillips, Editor,  
Oklahoma Legionnaire,  
Bethany, Oklahoma.

February 4, 1933.

Dear Sir:

In your recent issue of the Oklahoma Legionnaire,

showing the pictures of the members of the Senate on the Soldiers' Relief Committee, you have referred to me as an ex-service man and as being a member of the Chas. Milam Post of Chelsea, Oklahoma.

I wish to have this error corrected, as I am not an ex-service man and not entitled to membership in The American Legion. I am a member of the Soldiers' Relief Committee in the Senate, by request. I have always supported the Legion in its legislative program and for this reason a request was made for me to be on the committee again.

I am very sorry the error has been made, because it may look to some people that I am imposing upon the Legion for political reasons and be the cause of me being classed as an imposter. When your representative was here, taking photographs of the committee, I informed him that I was not an ex-service man, but he insisted on me being in the group as a member of the Relief Committee of the Senate. The error has been made by your representative and an injustice to all of us. I sincerely hope you will see that it is corrected at the first opportunity.

Very truly,  
(SIGNED) H. P. DAUGHERTY,  
State Senator.

The following Messages from the Governor were received and read:

TO THE HONORABLE, THE SENATE AND THE  
HOUSE OF REPRESENTATIVES OF THE  
FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA:

Gentlemen:

With the foreclosure of numerous mortgages on the homes of the people; the revolt on the part of the home owners, in a spirit of self preservation and self defense, which, in a measure, is the highest law, human or divine, known to mankind, I had hoped ere this Your Body would have laid on my desk an Act that would permit the extension of time for these home-owners to make satisfactory payment.

The Democratic Party, in its platform, evidently approved by the President-elect, pledged Congress to provide money with which to aid in the payment of the interest on the homes of the people.

It is clear in my mind that the loan companies and creditors on these homes desire to foreclose these mortgages, where the property is valuable, but to leave for Congress to make provision where it is difficult to pay out,—thus, in effect, become only an aid to the loan companies, and impractical and worthless to the home-owners.

It is needless for me to call your attention to the fact that the destruction of the homes of America means the destruction of the government, for such homes are but the unit of government.

Justice to the companies should be meted out to them, of course. They should be paid their money, of course; but a close survey will show that such action is taken almost solely in cases where it will pay them to institute foreclosure. The exception to this rule is where the borrower, by reason of the great amount, has surrendered all effort to redeem his home.

Therefore, I urge you at once to get your Committees of the House and Senate together, and diligently make an effort to solve this problem in the light of the best interest of the home-owner and the borrower. This can be done by changing the court procedure, and give express authority under "general equity powers" of all

courts of record. Indeed, I think they have the power now under "general equity powers"; but many judges hesitate to do so.

If you will but recall the recent incident in Alfalfa County, and but realize that this is but a beginning, you will understand this urgent request on my part.

You must keep in mind that these men are not anarchists; not communists; but American citizens, with their "backs to the wall," fighting for the preservation of their homes and the security of their families; and they feel justified in invoking the law of self preservation and self defense, which right is granted by The Creator to every living creature and instilled in his or its breast.

The question as to the "theory" of the right or wrong of exercising such natural right should not be considered; for it is not a "theory" that confronts us, but a "condition," requiring quick action in the interest of justice and society.

Respectfully submitted, on this the 3rd day of February, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

SENATE CONCURRENT RESOLUTION NO. 14—By FISCHL and LOGAN and RITZHAUPT.

A RESOLUTION COMMENDING THE AMERICAN LEGISLATORS' ASSOCIATION.

WHEREAS, all experienced persons know that in each State, legislative problems continually increase, both in number and in complexity.

WHEREAS, it is obvious that in order to solve such problems most effectively, each legislature must give systematic, scientific and business-like consideration to the actual *facts* which have a bearing upon each question—to the extent that such facts have been determined by reliable research.

WHEREAS, each legislature must give similar consideration to the methods and experience of other jurisdictions in dealing with problems similar to its own.

WHEREAS, no such problems can be dealt with adequately until facilities are established to assist every inquiring legislator to secure the most accurate information and the most expert advice which are available.

WHEREAS, experience indicates the necessity for an interstate legislative reference bureau to serve as a clearing house of information between all of the legislative reference services which are now being conducted by numerous states, and also to serve as a clearing house of information between the legislatures and all other agencies which are engaged in the study and analysis of legislative problems, such as governmental departments, political science departments of universities, competent reputable associations, and all other sources of information.

WHEREAS, experience also indicates that in cer-

tain States which do not maintain substantial legislative reference services, there is an imperative need for such an interstate legislative reference bureau, which will assist the legislators of those States to secure whatever information they desire in analyzing the legislative problems which they must determine, and to make more readily accessible for them, without cost, the valuable material which is at all times available from the legislative reference libraries and bureaus of various other states, and from many other reliable sources.

WHEREAS, every individual legislator in the United States shares the responsibility for improving the present inadequate and unsatisfactory condition of the legislative processes, but neither any individual legislator, nor any group of legislators from one State, can bring about such improvement without the cooperation of legislators of other States.

WHEREAS, such an interstate legislative reference bureau cannot be maintained by any one State alone, without the cooperation of the legislatures of other States.

WHEREAS, in order to set the machinery in motion to secure the necessary cooperation of the forty-eight legislatures, members of each legislature are working together in the development of the project of the American Legislators' Association.

WHEREAS, the said American Legislators' Association has now established in the vicinity of the University of Chicago, the Interstate Legislative Reference Bureau, which by explicit pledge is without color of politics, partisanship or propaganda, is conducted without profit, and is engaged upon three principal purposes:

*First:* To procure promptly for all inquiring state legislators, and their agents, whatever information or advice they desire in connection with any legislative problem, primarily by assisting them to secure, without cost, the benefit of all researches

conducted by governmental departments, universities, associations, legislative reference bureaus, and other agencies throughout the United States.

*Second:* To conduct a systematic study of the legislative processes of each of the States, in order to ascertain the practices which contribute most to efficient and economical organization and procedure; and to render all possible assistance to each legislature—and to each legislative reference bureau—which is endeavoring to improve its organization.

*Third:* To publish for the benefit of all state legislators the monthly magazine, *State Government*, as well as special Bulletins, and thus to disseminate information which will be helpful to all conscientious students of legislation.

WHEREAS, the American Legislators' Association is promoting acquaintance and mutual understanding among all individuals and organizations officially concerned with the impartial and scientific functioning of the legislatures of the various States, by the organization of Standing Committees and Advisory Boards, and otherwise.

WHEREAS, the character and project of the American Legislators' Association have the endorsement, and its organization has the active cooperation, not only of its membership, which consists entirely of members and ex-members of state legislatures, but also of numbers of other responsible citizens, many of whom, having specialized knowledge, are serving on the Association's Advisory Boards.

NOW, THEREFORE, IT IS HEREBY RESOLVED; That the organization of the American Legislators' Association and of the Interstate Legislative Reference Bureau are hereby commended as legitimate and constructive efforts to assist the legislatures of the various States in the efficient performance of their work.

Upon motion of Senator Logan, Senate Concurrent Resolution No. 14 was adopted.

Senate Concurrent Resolution No. 14 was referred for engrossment.

#### MESSAGE

The following Message from the Governor was received and read:

TO THE HONORABLE THE SENATE AND HOUSE  
OF REPRESENTATIVES OF THE FOUR-  
TEENTH LEGISLATURE OF THE STATE OF  
OKLAHOMA:

Gentlemen:

For the two-fold purpose of shedding some light on the credibility of certain witnesses before investigating committees, and for the purpose of recommending action on the part of the House and Senate, hereinafter stated, I respectfully submit the following facts relative to Mark Kleedon and R. A. McArthur, and their operations in oil transactions, as follows, to-wit:

"Mark Kleedon, used by U. S. District Attorney Herbert K. Hyde in procuring a purported dictograph record of a conversation relating to the investigation now being conducted by the State Senate, is now under indictment in the Federal Court at Ft.

Worth, Texas, charged with 9 counts of mail fraud. He has heretofore been convicted for mail frauds in Federal court.

“Kleedon, associated with R. A. McArthur in a company sometimes known as the R. A. McArthur Oil Company and as the Rio Neches and also the Petroleum Pipeline Company, has a long record with Federal Postal Authorities, as has R. A. McArthur.

“Quoting from the Bulletin of the Better Business Bureau of August 17, 1932:

‘McARTHUR & KLEEDON—INDICTED FOR MAIL FRAUD: R. A. McArthur and Mark Kleedon, of Oklahoma City and Texas, were indicted in Federal Court, Fort Worth, Texas, on July 9, 1932, for mail fraud on nine counts in connection with the Rio Neches Oil Promotion. This marks the culmination of a long, intensive investigation conducted by the Post Office authorities. Both McArthur and Kleedon have previously come in conflict with Federal authorities and have been the subject of previous Bureau Bulletins.’

“The Daily Oklahoman, on July 20, 1932, carried a story to the effect that McArthur and Kleedon had been indicted in Ft. Worth, Texas, on nine counts for mail fraud in connection with a company known as Investments Service, Inc. Kleedon and McArthur are now out on bond, pending trial.

“On November 8, 1930, the Supreme Court of New York restrained the sale of McArthur (Rio Neches) stock. (Daily Oklahoman—Nov. 9, 1930.—A.-P. Dispatch).

“On March 16, 1931, the Missouri securities department issued a warning that sale of McArthur securities would not be permitted in Missouri.

(Oklahoma City Times—March 16, 1931. A-P Dispatch.)

“R. A. McArthur, Kleedon’s associate both here and in Texas, is known under the alias of John B.

*Senate Journal, February 20th, 1933* 1061

McNeice, having used that alias during operations in Canada.

“Kleedon, himself, has been convicted in Federal Court for mail fraud. On April 15, 1929, Mark Kleedon was brought to trial in San Antonio, Texas, on an indictment charging the misuse of the mails in connection with a company known as the Spindle-top Syndicate. On April 18, 1929, a jury returned a verdict of guilty and Kleedon was sentenced to serve 18 months in the Federal Penitentiary at Leavenworth. By paying a fine of \$4,000.00, Kleedon was permitted to escape the service in the penitentiary.

“The complete records of Mark Kleedon and his associate, R. A. McArthur, alias John R. McNeice, are available in the office of the United States Post Office Inspector.”

The further fact of the conspiracies practiced by these men in the Oklahoma field; their attempt to break down the laws; and other transactions, unwholesome to the public weal, I hereby recommend that the Legislature pass a resolution asking the authorities of the United States to deport the said Mark Kleedon as an undesirable alien.

Done, this the 20th day of February, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Upon motion of Senator Commons, the Message of the Governor was ordered received and filed.

Upon motion of Senator Commons, the Senate Auditor was instructed to pay all necessary expenses, incurred in connection with the funeral of ex-Governor

Lee Cruce, including the expenses of the Military Attache, which motion prevailed.

Senate Bill No. 76 was referred for re-engrossment.

The following explanations of votes were submitted:

Mr. President: I reluctantly vote against any meas-

ure which is said to be designed to effect relief for the distressed citizens of this State, but I am convinced that the passage of Senate Bill No. 76 will result in the immediate foreclosure of all mortgages in default and constitute a self-imposed sentence to a lingering economic death to be finally executed after the expiration of two years, while the passage of House Bill No. 5, with one liberalizing amendment, will afford genuine, proper and equitable relief without delay.

HUTCHINSON.

Mr. President: I have voted NO, upon the final passage of Senate Bill No. 76.

I am sincerely interested in the passage of a proper moratorium bill, but cannot subscribe to this measure. If valid, Senate Bill No. 76 will permit solvent debtors to withhold payment of mortgage indebtedness, and will grant the same relief to the owner of the skyscraper or industrial plant as to the owner of the most humble home.

This measure in my opinion will ultimately result in the destruction of home ownership throughout the State and will not inure to the benefit of our distressed people. House Bill No. 5 which is now pending on the calendar of the Senate, with proper amendments, will grant ample protection to the owner of the mortgaged homestead, who is unable to prevent his indebtedness from becoming delinquent. Its provisions will inure to the benefit of our people and will not lead to the ultimate disastrous results I anticipate from the passage of Senate Bill No. 76.

JENNINGS.

Mr. President: I am for a moratorium restricted to homes, but consider a moratorium, beyond that, dangerous, bringing havoc to credit.

THOMAS and CURNUTT.

#### MESSAGES

The following Messages from the Governor were received and read:

TO THE FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA:

Gentlemen:

This is to advise you that I have this day filed with the Secretary of State

ENROLLED HOUSE JOINT RESOLUTION NO.  
19—By BEAMAN, entitled:

A Resolution authorizing the Board of County Commissioners of Delaware County to include in its annual estimate of expenses a sum not to exceed an amount which a  $\frac{3}{4}$  mill levy upon all property in said county will raise and directing the Excise Board to make not to exceed a  $\frac{3}{4}$  mill levy in addition to the maximum amount allowed by existing law for the purpose of raising funds to be used and expended in payment of juries

and witnesses and other expenses for carrying on district court in Delaware County, which bill I have this day signed and approved.

Witness my hand, this February 28th, 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.  
TO THE FOURTEENTH LEGISLATURE  
OF THE STATE OF OKLAHOMA:

Gentlemen:

This is to advise you that I have this day filed with the Secretary of State

ENROLLED HOUSE BILL NO. 11—By CONNER, COPELAND, BILLINGS, ELLIS, MARSHALL, GRAHAM and COE, entitled:

An Act creating a court of common pleas in Oklahoma County, Oklahoma, defining the jurisdiction thereof, and creating the offices thereof and defining their powers and duties and providing for the appointment, election, qualifications, duties, powers and compensation of the judges and other officers thereof and providing for a pleading and practice and rules and procedure therein and all appeals and writs of error therefrom; providing for the transfer of causes from the district and county courts to said court and declaring an emergency, which bill I have this day signed and approved.

Witness my hand, this February 28th, 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.  
TO THE HONORABLE THE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA:

Gentlemen:

I herewith return two Senate Bills, to-wit:

Senate Bill No. 113 and Senate Bill No. 152, with my veto and disapproval of each of them. Below, I give my reason for vetoing Senate Bill No. 113

“A BILL ENTITLED

AN ACT amending Section 2 of Chapter 79 of Session Laws 1927, and Section 4 of Chapter 79 of Session Laws of 1927; making provision for the number of members of Boards of Education of Independent Districts; providing for the time and manner of their election; providing for the length of their term of office; and providing for the number, time, and manner of electing, and the length of the term of office of members of Boards of Education in Independent Districts having within them a charter city; and declaring an emergency.”

You must assume that the Supreme Court has before it, and must needs take judicial cognizance of the United States census; and that the Honorable Court would also take cognizance of the laws and the public acts of officials in cities, to-wit, Tulsa, and, therefore could not escape the conclusion that it is a “special” Act, covered up by language.

I call the Legislature’s attention to Article 5, beginning with Section 46 of the Constitution, under the head of “Limitations,” which reads as follows:

“The Legislature shall not, except as otherwise provided in this Constitution, pass any local or special law authorizing: \* \* \* ‘regulating the affairs of counties, cities, towns, wards, or school districts; changing the names of persons or places; \* \* \* for the opening and conducting of elections, or fixing or changing the places of voting \* \* \*; creating offices or prescribing the powers and duties of officers, in counties, towns, election or school districts; \* \* \* regulating the management of public schools; the building or repairing of school houses, and the raising of money for such purposes;’ \* \* \*.”

This Bill violates directly or indirectly all of the foregoing recited clauses of the Constitution; and, in addition, it sets a bad precedent by an attempt of the Legislature to cure the mistakes and violations of the

statute, made for the purpose of electing school trustees; and it also attempts to settle by Legislative Act a law suit contrary to sound governmental principles. It is equivalent to an investigation into the transactions of a thief after his acts are discovered, who pleads guilty and begs for mercy, and then is liberated without further action or effort to punish for such violation.

The Legislature should never be called upon to pass any law violative of the letter or spirit of the Constitution; or any law violative of wholesome public policy; or any law correcting the mistakes or the failure to follow the statutes made and provided; or any law to settle a law suit, for the Legislature has an abundance of duties and obligations to enact general laws affecting the whole State; and the practice of these "Special Bills" is to be condemned in the strongest terms, and, particularly, effort to cure errors and mistakes such as this Bill attempts to do.

For the foregoing reasons, I hereby veto the said Senate Bill No. 113, and return it to Your Honorable Body with my disapproval thereof, with the foregoing as the reason therefor.

I also return Senate Bill No. 152:

"A BILL ENTITLED:

AN ACT amending Section 9038 Oklahoma Statutes, 1931, relating to restraining domestic animals; and declaring an emergency,"

for the reason that the same is a local or "Special Bill," governing one county and parts of two other counties; and, while it is one of those bills that the Legislature could pass, provided advertisement of intention of introducing the Bill, as provided, had been made, under the Constitution. There are certain local or "Special Bills" that cannot be passed, while others, as in the case of the Bill now under consideration, Senate Bill No. 152, provided advertisement of intention to introduce it had been made, as provided by the Constitu-

tion, but no such evidence is shown in this Bill, and certainly the people of Latimer County and the sections of the other two counties in question should have the right to contest before the Legislature, if they choose, and that can be made to them only by publication of such notice.

I am quite well aware of the fact that in local and "Special Bills," members of the Legislature cannot consider them on their merits, but accept what the members of the county or section will approve; and, therefore, it is left with the Governor solely to consider them; and, while I deeply regret to veto it, as it is sponsored by some of the most honorable men of the House and Senate, yet, in keeping with my oath and the Constitution, I cannot but, otherwise, return it with my veto and disapproval.

Permit me to call attention to the fact that the Courts of the State have enough to do to pass upon general laws, without taking up their time to pass upon these "Special" statutes, and only in case of the most cogent reason should a "Special" law be passed, and then only after all the requirements of the Constitution have been complied with.

So far, I have approved none of these "Special Bills." I have let certain ones become a law, where they were "Special Bills" repealing a "Special Bill," and which would save expense of local government; but, in every case where it would involve a contest of view of the citizenship of the county or section, and where it might increase the expense of local government, especially if the terms of the Constitution have not been complied with, I must, in good conscience, disapprove them.

Respectfully submitted, on this the 25th day of February, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

Upon motion of Senator MacDonald, action by the

Senate on the executive vetoes of Senate Bills Nos. 113 and 152, was deferred until the next legislative day.

Senator Rutherford served notice on the Senate that he would, on the next legislative day, move that Senate Bill No. 113 be passed, notwithstanding the veto of the Governor.

The following Messages from the Honorable House were received and read:

Senator Ray asked unanimous consent, which was granted, to submit the following Special Committee Report, which was read:

Mr. President: We, your Committee, appointed on February 27th, 1933, under and by virtue of the adoption of the following motion:

"Senator Dixon moved that the Chair appoint a Committee of 5, composed of Senators Ray, Thomas, Memminger, Reed and Fischl, to investigate an article which appeared in the last issue of the "Blue Valley Farmer," affecting and making direct charges against members of the Senate and other officials of the State," (Senate Journal page 1195),

beg leave to report that we have investigated said article and the truth of the charges contained therein and herewith submit the following report together with a transcript of our proceedings and the testimony taken by

*Forty-second Day, Wednesday, Mar. 1, 1933 1001*

your committee, with the recommendation that the report of your Honorable Committee be approved by the Honorable Senate.

W. O. RAY, Chairman.

Report of Select Committee composed of Senators Ray, Reed, Thomas, Memminger and Fischl appointed by the Honorable Senate of the Fourteenth Legislature of the State of Oklahoma on the 27th day of February, 1933, to investigate the following article which appeared in the Blue Valley Farmer under date of February 23, 1933:

"These are the men backing the oil investigation through Morton Rutherford, J. Woody Dixon, Jennings, Fidler, and Senator Ross Rizley; and doubtless their money goes into a general pot for the printing of the Oklahoma "Oil Journal," so-called, and also aids in "procuring" witnesses for the investigation.

IMPORTANT:—The foregoing senators and some other high binders had a meeting on Friday night in which sat also Lt. Gov. Robert Burns and Lew Wentz. The purpose of the meeting was to get up \$150,000.00 to "procure" witnesses and bribe the Legislature to impeach the Governor, and to destroy the proration laws; not finding the cash, decided to reduce the amount to \$100,000.00. Lew Wentz wanted no "stock or securities" in the enterprise, and refused to contribute. Then the plan was to run enough "hot" oil to raise the money, but injunction of 23 "rebel" companies cut off that supply."

Mr. President: Your Committee met upon February 28th, 1933, in pursuance of said motion and as directed by the Senate and after organizing, by the selection of Senator Ray as Chairman, called upon His Excellency, Wm. H. Murray, the Governor of Oklahoma, and after a discussion of said article, your Committee was handed the following written statement by the Governor:

STATE OF OKLAHOMA  
EXECUTIVE DEPARTMENT

February 28, 1933

TO THE HONORABLE COMMITTEE OF THE  
SENATE HAVING UNDER INVESTIGATION  
ON BEHALF OF LT. GOVERNOR BURNS, SEN-  
ATORS DIXON, RUTHERFORD, AND OTHERS,  
RELATIVE TO THE STATEMENTS MADE IN  
THE BLUE VALLEY FARMER TOUCHING  
THE RAISING OF \$150,000.00, IN THE MATTER  
OF INVESTIGATIONS, ET CETERA:

Gentlemen:

I wish to make this statement and explanation:

If, as you say, the gentlemen above referred to, deny the statements made, and feel aggrieved at the publication, I made this proposition to Your Honorable Committee:

That the gentlemen in question make a joint affidavit, subscribed and sworn to by them denying all the matters and things recited in the affidavit, in detail, that they did not, during the month of February, 1933, connive, as alleged, in the statement printed in the Blue Valley Farmer; or, if Your Committee will furnish me a statement jointly signed by them, giving any denial or other explanation relative thereto, I shall gladly print the same on the first page of the Blue Valley Farmer. I mention "affidavit" because it would be more compelling of belief in that form.

Certainly I do not wish to injure any person, whatever be his attitude to me, and shall print any denial or explanation they desire to make.

My statement was not made upon gossip, but upon a report of a personal, special, investigator, whose reports in the past I had cause to believe are true; however, he may have suffered under a mistaken identity, and certainly I should be glad to believe that the gentlemen in question have not at any time during this session,

and were advised by Governor Murray that he had nothing further to say with reference to the matter.

Your Committee thereupon called before it Lieutenant Governor Robert Burns, Senators W. C. Fidler, Morton Rutherford, Geo. H. Jennings, J. Woody Dixon and Ross Rizley and read to them the statement which your Committee received from the Governor and after discussion of the matter, they declined to make any written statement relative thereto but requested that they be put under oath and examined. Thereupon, your Committee placed the parties above named under oath and took their testimony with reference to said matter.

Your Committee begs to report that, as shown by a transcript of the testimony taken by it, which is returned herewith, all the parties whose names were mentioned in said article with the exception of Mr. Wentz, who is out of the state and could not be called before your committee, denied under oath the truth of said statement.

Your committee thereupon again called upon the Governor of the State and asked him for the name of the special investigator from whom he obtained the information upon which said article was based and the Governor advised the committee that on account of the circumstances surrounding the entire matter that he would not reveal the name of the investigator or the person from whom he obtained his information.

Your committee begs leave to report that it has exhausted all the information available in the discharge of its duties and from the testimony taken by it and

the proceedings had and the conferences had by your committee with the Governor of the state, your committee is of the opinion that His Excellency Wm. H. Murray, Governor of the State of Oklahoma, was informed and believed that such meeting, as outlined in said article, had actually taken place, but your committee is thoroughly convinced that such information received by the Governor was untrue and constituted misinformation. Your committee is thoroughly convinced that at no time or place have Lieutenant Governor Burns and Senators Fidler, Dixon, Rutherford, Jennings and Rizley or either or any of them met or congregated for the purpose or with the design of discussing the impeachment of the present Governor of the State of Oklahoma or for the purpose of attempting to destroy the proration laws or for the purpose of discussing the raising of funds for those purposes and that at no time or place have the Lieutenant Governor Burns, or Senators Fidler, Dixon, Rutherford, Jennings or Rizley or either or any of them met or congregated with a view of discussing or furthering any kind of a movement looking toward the impeachment of the present Governor of Oklahoma or the destroying of the proration laws and that the information which was conveyed to the Governor of Oklahoma, as above stated, was wholly unfounded and untrue in every particular.

Your committee is further of the opinion that such article was based upon misrepresentation and misinformation furnished Governor Murray. That such article constituted a serious reflection upon the reputations of Lieutenant Governor Burns and Senators Fidler, Dixon, Rutherford, Jennings and Rizley, all of whom your committee knows, by reason of acquaintance and association, over a period of years, and by reason of the testi-

The Joint Session was called to order by President Pro Tempore Stewart.

Upon a roll call of the Senate being ordered, the result was as follows:

Present: Ballard, Briggs, Carlile, Carmack, Chamberlin, Clark, Commons, Coppock, Curnutt, Daugherty, Dixon, Fischl, Garvin, Howard, Hutchinson, Jennings, Johnston, Lester, Liggett, Logan, MacDonald, Memminger, Moon, Morrison, Nance, Nichols, Paul, Powers, Pugh, Reed, Ritzhaupt, Rizley, Rutherford, Sowards, Stacey, Stewart, Taylor, Thomas, Waldrep, Whitaker, Wilbanks, Willis. Total, 42.

Absent: Fidler, Ray. Total, 2.

The President Pro Tempore announced a quorum of the Senate present.

The Speaker declared a quorum of the Honorable House present.

President Pro Tempore Stewart presented Governor William H. Murray to the Joint Session, who delivered the following message:

Mr. President of the Senate, Speaker of the House, and Gentlemen of the Fourteenth Legislature, on account of a few things having arisen since I drafted this message, I wish to speak on these matters really before I read the message:

First, I wish to call attention to the fact that we have a definite program, and a large part of that pro-

gram is in the Senate, not acted upon. I shall not know what to do but otherwise mark time during the next two years, if that program is not carried out. I had hoped that it would be speedily enacted, and then other things in this session, other measures could be adopted, and that we could take care of the Schools in the State, that are going to suffer in the next two years. I have urged both the Senate and House to complete this program. If you will reverse the position, as regarding yourselves, and citizens living down in the sticks or the towns of the State, with someone there taking your place, and you were to read in the papers, that they had made an appropriation for this session, and that you had exhausted that appropriation, and had not enacted either one of the General Appropriation bills as yet, and had not enacted them, and that you were about to enact another bill for this service, just ask yourselves, what would you think about it. You will discover that the logical conclusion would be, that they at home are thinking just the way you would think, if you would reverse your position. I think that is enough to call that matter to your attention.

Now as you know the revenues of this State are in a deplorable condition. I promised the people last fall that the appropriations of this Legislature would not exceed \$23,000,000.00, for the biennium. That includes the funds for building purposes, and that will not be taken from the General Revenue fund. I am ready to announce now that the total appropriation of every character and kind put together will not exceed \$21,000,000.00. I will veto my own salary, before I will let it go above \$21,000,000.00. That will be a tremendous saving of over eleven million over the Legislature of two years ago. It will be fourteen million as compared with the Twelfth Legislature. Now, when you do that, we shall then be in the "red" a little over \$500,000.00, with the present revenue in sight. That came about

by appropriating, which I approved, your appropriating \$600,000.00 for weak schools for the present year. Had that been eliminated, we would have balanced the budget, but we could not afford to do that. Now there is a bill to provide for the paying off of the State debt, that itself will save some taxes, it will enable us in the future to do more for the common schools. One of the methods is to take over the automobile and gasoline tax, and convert it, I know there is a lot of you gentlemen that oppose it, who think all there is—is in roads, but as important as roads are, they are not the most important thing. While they are thinking of their roads, and the heads of these educational institutions are thinking of their institutions, and of the country schools of their interests, and each Department thinking of how much he is going to get, the Governor of the State, if he be wise, to tell them every one—that he is thinking of them altogether, and I have been thinking about that from the beginning, and have ever since, that has been my intention and I have tried to formulate a policy that will take care of them altogether at the same time, considering a reasonable reduction in the public debt, and to get through without being in the “red,” side of the ledger, then the next question is how to take care of the schools, if we put through this program, placing a tax on cigars, cigarettes, cosmetics and other unnecessary luxuries, by the first of next January, we shall know how much we will have to have for common schools, and if it is not enough, we will have to look somewhere else in order to get the money in order that every school in this State shall run a reasonable length of time; and I want to say to this Legislature, that the next question is how to take care of the schools, if we put through this program, that is, if we secure enough funds to keep them running up to the first of January, we shall know how much we will have to have for our common schools, and if it is not enough, we will have to go somewhere

else to get the money, so that every school in this State shall run a reasonable length of time. They are closed in Alabama already. Let it not be said of Oklahoma let it not be said that we cannot run our schools, even in the midst of the most terrific panic that was ever known. But if you do not carry out this program, there will be no way for you to know, now it will be for me then to call an extra-ordinary session at any time in the next two years, at which time you may do more good than to spend the money. I want to urge therefore, that you gentlemen will analyze this situation, as I know it, and let's march forward.

One thing I want to call to your attention, and that is, you will realize that the last reserve, that the last thing in civilization is the farm, in truth, history shows that civilization began with the plow, and when the plow ends, all civilization will end. With the speculator wrecking the banks of the country, and wish to say that they deserve no more consideration than a common gambler, not as much as a crap shooting negro, and with the speculators bleeding the people of all they can, if the farm alone will survive, civilization can and will survive, and with that in view, and in view of the fact that the counties has been taking over a lot of land, sold for taxes, I suggest you prepare a bill, that when the county or state gets final title, that all of these lands be turned over to the School Land Department, with a bill, providing that the appraisers of the School Land Department shall appraise that land, and divide it into tracts from five to forty acres, cutting the land up into tracts, the best land in five acre tracts, others in ten, twenty, and forty acres, depending on the fertility of the soil, with a provision that they make selection of the most probable men who will keep their contracts up, and make it into a farm home, both in the country and in the city, let the State through that Commission make a contract with any man that goes on that land, that

they will immediately proceed to occupy and live on it, cultivate it, pay the taxes on it every year, and at the end of twenty years, he shall be given a clear deed, without paying anything but the taxes. That will insure careful attention of the men that will be put on it, and that will put it on the tax roll, and that will also aid every taxpayer, that will establish farm homes, and become one of the elements of re-habilitation. I have had a number of my Relief Superintendents to ask their men, how many of them would like to go to the country, where they could obtain five or ten acres. At Tulsa, we had that proposition up, and about 75 per cent would gladly go. We had one old dinky, said if he could get five acres, and if he had a Georgia stock and a mule, that he would be the happiest man in the State. That in my opinion, would be worth much more to the State than to try to sell the land.

There is another question to which I want to refer. Some mention has been made about the payment of Mrs. Ed Andrus for thirteen months services. I call your attention to the fact that the men before him had their wives in that Institution, and were paid, but because there is one of these laws, the fundamental decisions, or fundamental rights under law, that a wife is not related to her husband, I do not think that was held to be a fact in the final matter. I had a long talk with Dr. Griffin, when I went into office, asking about his experience in a similar institution, and he said, Governor, whatever you do, never put in an Orphans' home or an Institution like mine or the one at Enid, any woman as assistant except the wife of the man in charge. And if you will visit that institution, you will know why. At the Orphans' home, they pay their wives, but it just happened that they had the right to select the help, that particular party fires and also selects the help. Up there the Superintendent selects the help, and this law was not invoked to take care of a situation in

the manner in which Mrs. Andrus was employed. The law should be changed, and she is needed upon the part of the State, and should be paid, the State needed her services.

Now this message will not sound like you expected it to, perhaps. I have two purposes in this message, fundamentally and propaganda, showing the beginning and finally the question toward the settlement of criminality. This is made in view of more honor, more morals, and more integrity. I do not ask in this, this particular here, to put this in the statute, now after you analyze them fully, I do think the first one, you ought to put it in force, I believe if you had a juvenile statute covering this question of these mischievous boys, you would take thousands of them out of Pauls Valley and out of Granite.

I have endeavored to give the reasons for the widespread criminality, and I give one way that is working, but there is another one, this one I did not write into the subject matter, I am going to give it to you now, the widespread criminality wave over the United States is due to the invention, that is the use of the safety razor. Forty years ago, we all had a razor strop hanging on the wall, and when we youngsters erred, in that generation, and none of you know more well of the hurting or burning that was felt from the impact of a razor strop on the torrid zone. The subject is Crime, its prevention, the capture, conviction, and reform of the criminal.

TO THE HONORABLE SENATORS AND REPRESENTATIVES OF THE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA:

I appear before you for the second time for the express purpose of discussing with you a subject of vital importance—the subject of CRIME:—ITS PREVENTION, THE CAPTURE, CONVICTION, AND REFORM OF THE CRIMINAL.

In discussing this important question, I shall use the plainest, simplest English, for CRIME cannot be prevented by sentimental or imagery of rhetoric; or by ornate oratory, but it must be solved out of the experience of mankind. I here propose nothing new, for like punishment has existed for centuries of the past. In part it has existed for a hundred years in the State of Delaware, around which state the hi-jackers of the East travel; for they dread the "whipping-post" of Delaware more than Sing Sing of New York.

The public morals have broken down for the reason that private morals and honor, and, to a great degree, integrity, have broken down; that is, these virtues of the individual which together constitute character; the public has ceased largely through economic necessity and environment to regard morals and honor of little value.

Much of our CRIME grows out of the neglect of parents in training their children in that they do not teach them what the word "N-O" means; and they set the example of teaching them to be "over-persuaded," or to become wheedled into wrongdoing by their method of training, by permitting the child to persuade them after they have said "No," and by yielding to their children's whims, and by their own effort to have their children do right by persuasion, thus teaching them to yield to persuasion.

The economic fiber of the public has broken down and these together, threaten not only organized government but civilization itself.

There lies between us and universal anarchy the law—only the law. Once it is broken down, civilization will have been broken down, together with all institutions of government—all that our fathers fought for; all that our statesmen have striven for will wash away in this devastating flood.

This condition causes the wise critically to analyze the cause and the remedy; and seek the removal of the

cause, even though he must needs face opposition of a fanatical, foolish public opinion.

From my observation and experience, it appears that there are some men honest and honorable under any and all conditions, but I doubt whether this number exceeds 10 per cent; while there are some men, under any and all conditions, who are dishonest; and, again, this would not exceed 10 per cent of the people. The residue in these things are "negative" in character—they are negatively honest or negatively dishonest; or rather, they would prefer to be one or the other, and become such, depending upon their environment and the character strength of their associates. Hence the action of this larger per cent of "negative characters" depends upon economic condition, custom, and environment, rendering it distressful, for their safety and that of their families, causes them to forget the moral precepts and training for honor and virtue, which I fear, for many people, have been too little entirely.

The CRIMINAL is made in childhood; indeed, begins before birth; and, likewise, with the honest individual. Any person who has the characteristics of avariciousness, or love of gain; secretive in his disposition; lack of regard for the rights of others; and low in conscientious scruples, is always a thief, a robber, or a swindler, if given an opportunity. Therefore, a man possessing two of these traits of character, marrying a woman with the other two, if the off-spring partakes of these characteristics of both, their children will be porch-climbers, hi-jackers, thieves, and swindlers. But, sometimes, one or more of these traits of character skip a generation and produce a "throw-back," under the laws of heredity, pointed out by Mendel, the Dutch monk; and a thief, a robber, and a scoundrel is born into the world; and this is the explanation of the occasional "black sheep" appearing now and then in a noble family—merely a "throw-back" to some combination of

traits of a noble family; and, for the same reason, you find noble men and women now and then in a base family.

The training of the children of negative characters, to prevent the making of future criminals, must begin with the babe in the cradle, by instilling into the mind through the crooning of the mother, lisp-ing lullabies, instilling in the mind of her babe the sense of shame, for the "sense of shame" is the primary lesson of virtue and honor among men and women. Failure to develop this sense of shame is the parent's failure of obligation and duty. The continuation of such parental training, year after year, continued through several generations of the same family, will eventually, as pointed out by Luther Burbank, produce a heredity; but, alas, for a generation or more, the indulgence of mother and father in gratifying the appetites, whims, tempers, and passions of loved ones, lead to a youth incorrigible, and makes necessary a public institution for confinement and correction. The doctor will inform you that the indulgence of the mother in the appetites of her children has erected little mounds on every hill whereupon is found a cemetery; and the lack of moral training that brings out a sense of shame, a conception of virtue, and honor, together with the neglect of the father, who, too often, sets the example, has made necessary increased expenditure for penal institutions throughout the land.

The best proof of the effect of environment is the truth that a fraction more than ninety-two per cent of the several hundred boys in the Incurable Institution at Pauls Valley came from Oklahoma City and Tulsa alone—two environments where the struggle for a living grows more severe; where the child becomes calloused to beggary and questionable conduct; nor are all of these boys from the families of the poor—many are the children of the well-to-do—in this last case doubt-

less arising from their parents, in an effort to show their contempt for such laws as the prohibition statutes, continue to bring to their homes strong drink, and flaunt it before their children until the modern girl has reached the stage that when she meets her "sweetie" at the door, has the usual greeting: "What have you got on your hip?" and usually it is a flask.

This loosening of public and private morals grows out of the World War. Experience teaches us that such has proven true in every war of the world; even in the little French and Indian War of the Colonies, the loose restraint of the "Bundling" System of Courtship was broken up because of the destruction of shame, that led to immorality. This system was never in vogue in the South, existing only in the New England States. It spread through Ohio, Indiana, Illinois, Wisconsin, and Iowa, where it was broken up in consequence of the great Civil War. It still exists in the Dutch Colonies of Pennsylvania, but no where else. (See "Manners and Customs of Men and Women of the Colonies.")

Now, to correct this growing evil, other methods of criminal punishment must be devised. If the youth have no sense of shame, no sense of honor, no regard for the decent opinions of mankind, then you cannot reach that youth by any method except through the physical senses—through fear, or dread of pain, which exist in the breast of all animal creation, including man.

The boy grows up around the city; either the children of the rich are allowed to run wild, or the boy of a widow or crippled father who cannot keep their eyes upon them at all times. They engage in sundry supposed sports of mischief. At first, they are chased by the policeman, until eventually they do not fear the "law," until, at last, they steal something or break into a store. They are picked up then by the officer, found guilty in a court, and, because of tender years, are sent

to an Incurable Institution for reform; but really too late.

The solicitude of the parent for the child oftentimes is too late. Recently, a lady came to my home, and said she: "Governor, I want to ask your advice as a father, not as Governor. You have four honorable boys; I have one, and he has recently got into trouble, and now in jail." I asked her how old her boy was. She said he was twenty. My reply was that she was eighteen years too late, and my advice would be useless, and I declined to advise her. Alas, our institutions at Pauls Valley and Granite are filled with boys whose parents were too late from sixteen to twenty-four years in their solicitude about their boys' conduct.

Therefore, in my opinion, the Legislature should pass a "Juvenile Criminal Malicious-Mischief Act," and, upon conviction, provide that the boy shall be brought into the court, and soundly thrashed with not less than ten, nor more than fifty lashes, with no clothes on the back, except a shirt, by the parent or guardian. For the second offense, put him into an open court-yard in stocks, with his hands and feet fastened, to take for a day or so the scorn, jeers, and paper wads of his associates. These punishments will greatly affect him—much more than a year at the Institution or in jail and the cost for hickories and stocks will be negligible.

Then, for a greater age of youth, there should be a whipping on the bare back of 39 lashes. If this fail, for the second offense, double the number of lashes.

This could be extended to all crimes of petty theft, violation of public decency, wife beating, neglect of children, violation of the prohibition law, reckless or drunken driving (but not fast driving); porch climbing, sneak thief, and, indeed, all crimes that require punishment for as many as two years or less.

These punishments, in my opinion, will do more to lessen the necessity of detection, punishment, and pre-

vention of criminals than all the criminal statutes now in vogue, as the cost would certainly be small.

For hardened criminals, high-powered criminals—and, indeed, some of the brightest minds of the country are in the penitentiary—for hi-jacking and robbery with firearms, I would provide, upon conviction, a reasonable term of years of confinement, not so many as now, but provide, upon entering the penitentiary, that they should receive from 39 to 100 lashes with a cat-o'-nine tail, on their bare backs; and, when they left the penitentiary, either by parole or expiration of time, they should be given another whipping of the same kind, that they might remember for a while where they had been, and to have no desire to return.

If they continue in this form of criminality, which is among the worst, after the third offense, give them the death penalty.

As stated before, a man without honor, without pride of name or character for himself or his family, and without respect for the decent opinions of mankind, can be reached in no other way except through the physical senses, and particularly that of fear—the cold-blooded fear of death, which makes even the atheist, when reaching that portal, willing to pray to his God.

In the early period of the American Colonies, and, indeed, up to a half century ago, the child was constantly taught shame for wrongdoings; to respect father and mother; to respect the aged; to respect the weak and helpless, and to aid them; to respect authority and those holding positions of honor and dignity; but, alas, both the parent and the school teacher have, in recent years, overlooked these essential preachments until few respect anybody or anything. This, however, is not a new period in the world. If you will turn to 2nd Peter, 2nd Chapter, and begin at the 10th verse, you will find a vivid description of what we have today. St. Peter says:

“But chiefly them that walk after the flesh in

the lust of uncleanness, and despise government, presumptuous are they; self willed; they are not afraid to speak evil of dignities."

The 12th verse states what ought to be done with them in these words:

"But these as natural brute beasts, made to be taken and destroyed, speak evil of the things that they understand not; and shall utterly perish in their own corruption."

In the matter of reforming criminals, the practice has been to send them to the penitentiary, give them a number of years, then parole or pardon them; and, in this state, it has been customary to give an "expiration" pardon; that is, pardon every man who had served his full term. That, I have never done, for the reason that it does not follow that because the convict has served his term that he had reformed at all; indeed, he may have been made worse. For that reason, in the two years, while I have liberated more than 1,100, I have pardoned but ten.

I believe strongly, because, from experience, I have results upon which to base a judgment, and, hence, a wholesome belief, in leaves of absence and paroles.

And this brings up for discussion the reform of the criminal: In nearly all cases of short term convicts, the experience is that the four, five, or six first months is the term almost unbearable. They can scarcely sleep. Later, after a year or two, they become calloused, and many of them later begin to like the place. I have found that if you give a short term convict a leave of absence, after he has served four to six months, for six months or a year, and then put him back for four months, it will serve a greater purpose for reform than had he served all the while. I find also that few of them can receive a full parole in the beginning; but, by giving them three to four months, requiring a weekly or monthly report to the Parole Attorney, and then extending their time for

six months or a year, continuing their reports, with another extension for a year, if their conduct has been circumspect; then, after a year or two, they may be given a full parole. I have found also that a larger per cent "stand up" under this discipline who go to the country to live, after they are out of the penitentiary; even those who are used to the city, turned out under my requirement that they should go to the country, have "stood erect"; while the great body who go back to the towns and especially to their old haunts, fail to keep their leaves of absence or paroles; and this can be best understood when you will remember that the convict who goes back to his old home, whether in the country or the city, is shunned by the righteous citizenship; and, craving the company of his fellows, he is obliged to associate with the "toughs" of his community; while, if he go to a new community, where he is unknown, he has an opportunity for fellowship with people of character who aid him to "stand erect."

This is abundantly proven in out-of-state, or "Banishment," paroles.

This is the reason why fewer church members of all the churches fall by the wayside. The member in good standing with his church is fortified with the brotherhood; and, speaking in the terms of society and government, this is the blessing of churches to society. As I have observed before, I am not an authority on how to get to Heaven, but I do know that religion is essential to society, and to the liberty of the citizen guided by law; and the stricter the church is upon its membership, the less likely for one of their flock to become a criminal; but, alas, church membership too often is determined by the amount "dropped in the hat." This connected with the course of the average parent, is the cause of the threatened engulfing of civilization itself by the criminals of the land.

A great responsibility rests upon the parent to instill

a sense of shame and of honor, sobriety and rectitude; upon the teacher to train the pupil how to think and to solve philosophical truths for themselves rather than, as now, to train them what to think; and upon the pulpit, to thunder the doctrine of righteous living, and like the Essene who gave the world His name as a symbol of the doctrine of rectitude—"Live the life"—for only by "living the life," and not the profession of the mouth, can be vouchsafed virtue and honor of manhood and womanhood.

To give you an instance within my experience of how different punishments affect a criminal, I relate this story:

While living in El Gran Chaco, Bolivia, South America, a peon tenant on my Concession, by the name of Sideaco, killed his neighbor's steer and appropriated the meat to his own use and benefit, having buried the hide to cover up his crime. Under the law of Bolivia, the court may vary the punishments. Sideaco was apprehended, given four months in the penitentiary at Tarijux which was six days' journey; over, up and down mountains; but, as a part of his punishment, he had to walk all the way six days and carry that old putrid hide on his back. After his service, and the hide had been kept in water, he had to carry it back. Passing over these mountains by switchback trails, in order to reach the top, 13,000 feet or more, even a mule had to rest at every turn of the switchback trail, and one gets very tired and perspires freely. After Sideaco had taken his punishment, I ventured one day to ask him about his prison experience. Speaking in his Spanish, he said: "Senor Patron, the imprisonment was fine; good place to sleep and plenty to eat; but, oh, my! Senor, that old hide! I would get hot and tired, and, at noon I could not eat. Getting so hungry, I was obliged to eat, and would start anew, and would vomit all I had eaten. My,

Senor, I would rather spend a lifetime in the penitentiary than to carry that old hide again."

That story illustrates the necessity of reaching the criminal by some of his physical sense. All the thought of the criminal's life was a place to sleep and plenty to eat, and that is all many of our prisoners think of.

I gave a convict in Osage county recently a leave to attend the burial of one of his family, and some of his friends proposed to give him aid to get a parole. He replied, he did not want to get out; that he had a good place to sleep and plenty to eat, and enough to do to occupy his time, and that was as good as he wanted.

I submit that this kind of criminal punishment will, in the end, do more harm to law and order than it will do good.

Some new device to correct the evil-doing of men must be devised by law, and, in doing so, we must turn a deaf ear to all the mollicoddles and dreamers and book criminologists, uplifters and fanatics. A short while ago, a lady, one of the noblest in the state, proposed to me that the way to lessen the number of convicts was to provide publishing in the newspapers an intention of marriage for six months before the marriage should take place. What a fool idea, to embarrass a timid boy and girl who can scarcely stand the taunts of their friends after marriage to have to undergo the ordeal of six months' taunts before marriage! How could that affect the character even of their first born? And the world is full of just such silly ideas, "in the name of humanity and uplift"; and that has ruined the world—the idea that the child should not be punished by a genteel switching, included. They were taught in Bible times: "Spare the rod and spoil the child." It has, in modern times, dotted our lands with prisons and prison camps. Is it not wiser to husband and counsel the philosophy of the experiences of man during all of the years of effort to climb along the Highway of Time than to counsel the

sentimentalism of mollycoddles, of modern times, which arises from a system of education, teaching people what to think rather than how to think?

If the present tendency of "mollycoddles and up-lifters" continue, the logical result will be that, in the year 1950 we may expect to read Press dispatches, as follows:

"Tulsa—(Special)—John Doe, convicted of hijacking, was given a banquet, in which all of the civic organizations participated, to wish him well and to pledge their support for a parole and pardon that he may return from the penitentiary, to which he has been convicted."

Followed with "Specials" from Okmulgee, Muskogee, Eufaula, and other towns in route to the penitentiary.

This, I say, is the tendency of the times relative to the handling of convicts, and will be the logical sequence, if this doctrine is permitted to prevail.

Having in the foregoing dealt with the making of criminals, the punishment, the reform of the criminal, we now come to the detection and capture of the criminal; and, as a better means than now used, I recommend the creation of a "State Rangers System" for Oklahoma, and this may be found in House Bill No. 389 and Senate Bill No. 237, pending in these respective Houses of the Legislature. You might desire to cut down the number of Rangers, but the system set up in these two bills is fundamentally sound, taking into consideration the Texas Rangers System, with its abundant experience of 100 years; the Mounted Police of Pennsylvania, and that of Canada.

The purpose of these Bills is to take the place of the Criminal Bureau, and to place the appointments upon a basis that will insure better service, because of better qualifications. As provided in the Bill, they should first have sound hearts, lungs and eyes; sound eyesight, that

they may see on all sides at once; sound hearts, that they may survive under excitement; sound lungs, to give them buoyancy and vigor, and banish fear. They should never be permitted to engage in politics nor to express their choice, publicly or privately, on candidates. They should be deadshots, trustworthy and brave.

The virtue of the Ranger System over that of the sheriff is that they can arrest anywhere in the state with or without a warrant; they are dead-shots, and, if they kill a criminal resisting arrest, they have no fear of punishment, except, if in the wrong, they will be dismissed from the service.

It has another virtue, and that is, they do not depend upon the popularity of the families to which the criminals may belong for re-election; they have no family or business connections in the county, which often occurs with the sheriff, and they are usually not known in the county; and, therefore, are not defeated in their efforts by informers to the criminals in hiding. This last reason was the cause of the failure to capture "Pretty Boy" Floyd; and, while we have run him out of the state for six or eight months, yet he had been captured, long ago, had there been a Ranger System like that of Texas or the Mounted Police of Canada. Robberies of various kinds would quickly diminish in number. The system would pay for itself in "dollars and cents," to say nothing of the greater and more cogent reason of upholding the law, and, unless we uphold the law, American civilization will break down and universal anarchy prevail.

Respectfully submitted,

The following Message from the Governor, concerning House Bill No. 396, was read:

TO THE HONORABLE HOUSE OF REPRESENTA-

TIVES AND THE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA:

Gentlemen:

I return House Bill No. 396, entitled:

AN ACT creating nominating districts in the Nineteenth Senatorial District of the State of Oklahoma; providing the time for nominating senators therein; providing that the candidates so nominated shall be voted for in the entire district at the general election; and declaring an emergency.

The same is returned because it is a local, or special, bill, and no advertisement was had or made, as provided by the Constitution.

Many "special" bills are absolutely prohibited by the Constitution. In a few instances, such bills are authorized by the Constitution, but the Constitution provides in all such cases certain advertising, and that cannot be dispensed with; and, therefore, it is folly on the part of the Governor to approve such bills and force them to go through the courts, consuming the time of the Court, to have them, in the end, declared unconstitutional.

Respectfully submitted, on this the 28th day of February, A. D., 1933.

A Resolution of Condolence over the Death of Senator Thomas J. Walsh of Montana.

God, in His infinite wisdom, has this day seen fit to call to Him, Senator Thomas J. Walsh, of Montana, and one of nation's outstanding citizens. During his years of public service, Senator Walsh rendered invaluable service both to the citizens of the country and the Democratic Party.

He was recently appointed Attorney-General in the cabinet of President-elect Franklin D. Roosevelt, and

The nation mourns its loss. The State of Oklahoma bows its head in sorrow.

Now, Therefore, Be it Resolved by the House of Representatives of the Oklahoma Legislature, the Senate Concurring Therein:

That we express our appreciation of the loss to the Nation, the Democratic Party and to the State.

### MESSAGE

The following Special Message from the Governor was received and read:

TO THE HONORABLE FOURTEENTH LEGISLATURE OF THE STATE OF OKLAHOMA:

Gentlemen:

Herewith, I transmit a copy of a Bill for a proposed enactment into law, governing the financial situation as it relates to banks and trust companies, to meet the emergency now existing.

This Bill was drawn with the collaboration of the Bank Commissioner, the bank attorney, a national banker of repute, and a national bank examiner, together with others having interest especially in the state banks and trust companies, approved by the Governor, after consideration and analysis. It is complete, in our opinion, in every form, and necessary to be enacted immediately to meet the financial stress upon the country.

Therefore, I respectfully urge the Legislature to pass it in as short a time as possible, without the change of a dot of an "i" or the cross of a "t."

By introduction in one House, having it read, and read the second day, and passed the third day; and transmitted to the other House, and read, it may be enacted, under the Constitution, within five days, which is the shortest period in which it can be enacted.

I urge therefore that every rule that might interfere with its speedy enactment be suspended, that it might become a law so quickly as is possible, under the requirements of the Constitution.

Respectfully submitted, on this the 2nd day of March, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.

TO THE HONORABLE THE STATE SENATE OF  
THE FOURTEENTH LEGISLATURE OF THE  
STATE OF OKLAHOMA:

Gentlemen:

I have before me: SENATE BILL NO. 60.

A BILL ENTITLED

“AN ACT making an appropriation to pay the salary of the Supreme Court Referee, and etc.”

Replying, I have to say the Court has one referee, and has heretofore operated with said referee, and that this bill, in effect, is but to provide for an extra referee.

I call attention to the fact that the said Court, and each member thereof, was given a law clerk two years ago, under their control, said law clerk to be appointed by themselves and under their control.

If they will put these clerks to work, one referee will be quite sufficient.

However, I recall that when I spoke at Lawton dur-

ing the Firebell Campaign, a number of gentlemen informed me that the referee of one of the judges was in the city of Lawton, giving out the word that a dollar a head would be given for disclosure of every name on the Initiative Petition on the Income Tax Bill that could be shown by the attorneys of the Citizens' League as not a voter.

Had this law clerk been at the Capitol attending to his own business, and not trying to dictate the policies of State, or become a partisan in such questions, doubtless the money called for in this Bill would not be needed.

For the reasons expressed in the foregoing, I return to you and I have vetoed and disapproved the said bill, on this the 3rd day of March, A. D., 1933.

BY THE GOVERNOR OF THE STATE OF  
OKLAHOMA: Wm. H. MURRAY.  
TO THE HONORABLE THE FOURTEENTH LEG-  
ISLATURE OF THE STATE OF OKLAHOMA:  
Gentlemen:

Oklahoma has a statute for the gathering of vital statistics, which is made mandatory under the Constitution. The registration of vital statistics is compensated for, and the method of performing the same is governed by Section 4515 Oklahoma Statutes, 1931, as follows:

“That each local registrar shall be paid the sum of twenty-five cents (25c) for each birth certificate and each death certificate, properly and completely made out and registered with him, and correctly recorded and promptly returned by him to the State Registrar as provided by this Act, and in case no births or deaths were registered during any month, the local registrar shall report to that effect. Each local registrar shall be paid the sum of two (\$2.00) dollars, for a monthly report to be transmitted on the 10th day of the following month to the State Registrar on such forms as may be required by the

State Registrar. In addition thereto, the local registrar shall be paid a fee of twenty-five cents (25c) for each burial, removal or transit permit issued by him. All accounts payable to a local registrar under the provisions of this Section shall be paid by the Board of County Commissioners of the county in which the registration district is located, upon certification by the State Registrar, and the State Registrar shall on the 15th day of each month certify to the Board of County Commissioners of the several counties the number of births and deaths properly registered, with the names of the local registrars and the amount due at the rates fixed therein."

"The Court of Tax Review, in a case pending before it, which originated in Kay County, held that it was not mandatory for the county authorities to include in the budget for the county expenses an item to take care of the fees which accrued under this law. The present statute provides for a fee of 25c for each birth certificate, or for each burial certificate, issued by the registrar. On the basis of the registrations in the past, the same should be estimated at 56,000 births at a fee of 15c, rather than 25c, as provided by the statute, that we would need \$8,400.00. On the basis of 22,667 deaths at 15c for each certificate, would need \$3400.05. At the rate of 22,667 burial permits at 15c for each permit, would need \$3400.05, and four hundred registrars in the state on the basis of \$1.00 per month for reports, as provided in the statute for twelve months, would be \$4800.00, or a total of \$20,000.00."

I have suggested the foregoing reduction in the fees since the number of Registrars could not be reduced with efficient work, and therefore it would seem that \$40,000.00 must needs be allowed in the appropriation for the next biennium to take care of this work; otherwise, the entire work must needs cease; and it will be too

much of a "step-backwards" to stop such important information as vital statistics.
