SECTION 1. The provisions of this Act are applicable to all Independent School Districts in which is included a city having a population of not less than 140,000 according to the last Federal Census.

SECTION 2. Any such Independent School District is hereby authorized to acquire or construct within its corporate boundaries, one or more stadia, sport arenas or other recreational facilities or to build additions thereto or additions to existing stadia, sport arenas or other recreational facilities, including land and equipment therefor, and to own, maintain and operate, or to own and (in addition to any and all other uses to which this property may be placed and disposition which can be made of it) lease to, or cause to be maintained and operated by, a financially responsible operating company, corporation, or individual, experienced in similar types of business, or to own and lease to a responsible person, firm or corporation who shall construct, finance and operate one or more stadia, sport arenas or other recreational facilities, and when operated by the Independent School District to charge fees, rent and tolls for the use of such facilities. Such Independent School District is authorized to prescribe and enforce the fees, rent and tolls which are to be charged for such facilities by any lessee or operator thereof, as more fully provided in Section 6, and in addition to any and all other means to assure prompt payment of rentals by such lessee or operator, the Independent School District may in the lease or operating contract reserve a lien on the money collected by the lessee or operator from such fees, tolls and other charges and revenue until the rental consideration for such current term of the lease or operating contract shall have been paid to the Independent School District or its nominee. The right of the Independent School District to own, maintain, operate and cause to be operated such facilities and to fix and collect fees, rent, tolls and other revenue for the use of such facilities is hereby declared to be a public right and use and such right and facilities to constitute a public benefit.

SECTION 3. (a) To provide for the acquisition or construction of such stadia, sport arenas or other recreational facilities and/or additions thereto, and/or additions to existing stadia, sport arenas or other recreational facilities, including land and equipment therefor, the governing body of any such Independent School District is

authorized to issue negotiable revenue bonds of the Independent School District secured by a pledge of, and payable from, the net revenues of any one or more of such stadia, sport arenas or other recreational facilities, together with all future extensions or additions therefor or replacements thereof. If bonds are issued solely for acquirement or construction of additions to existing stadia, sport arenas or other recreational facilities, then such bonds may be payable from the net revenue of the entire project, including the original existing stadia, sport arenas or other existing recreational facilities, and additions thereto, together with all future extensions and additions thereto or replacements thereof. Within the discretion of the governing body of any such Independent School District such bonds may be secured further by a trust indenture on such stadia, sport arenas or other recreational facilities. Whenever such governing body shall execute any character of trust agreement imposing duties on a corporate trustee in reference to the payment of the bonds or enforcement of any rights under the bonds, for convenience such instrument may be and in this Act is sometimes referred to as the "Indenture". Any such Independent School District is authorized to issue a separate and independent series of revenue bonds to provide for the acquirement or construction of each stadium, sport arena or other recreational facility or additions thereto, or additions to existing stadia, sport arenas or recreational facilities, including land and equipment therefor, or in the discretion of the governing body of the Independent School District a single series of bonds may be issued to provide for the acquirement or construction of two or more stadia, sport arenas or other recreational facilities and/or additions therefor, including land and equipment therefor. No election shall be required for the issuance of said bonds.

Negotiable revenue bonds may also be issued by the governing body of any such Independent School District for the purpose of refunding bonds issued under this section, which may be secured in the manner herein provided for original bonds. No election shall be had for the issuance of such refunding bonds.

(b) The Revenue Bonds hereby authorized shall contain substantially the following provision:

"The holder hereof shall never have the right to de-

mand payment of this obligation out of any funds raised or to be raised by taxation."

No such bonds shall ever be a liability or debt of such Independent School District but solely a charge upon the pledged revenues.

(c) The expense of operation and maintenance of any such stadium, sport arena or other recreational facility shall always be a first lien and charge against the income thereof. So long as any of said bonds or any interest thereon remain outstanding, the Independent School District shall charge or require the payment of fees, rent, tolls and other revenue for the use of the facilities of any such stadium, sport arena or other recreational facility which shall be equal and uniform within classes defined by the governing body of such Independent School District and which shall be at least sufficient to pay expenses of operation and maintenance and to pay the principal of and interest on the outstanding bonds as such principal matures and as such interest accrues, and to establish and maintain such reserve or reserves, if any, as may be prescribed in the resolution authorizing the bonds or in the Indenture.

(d). So long as any such revenue bonds are outstanding, no additional bonds of equal dignity shall be issued against the pledged revenues or the pledged revenues and properties, except to the extent and in the manner expressly permitted in the resolution which authorized such outstanding revenue bonds, or the Indenture.

(e). Such bonds, and proceedings incident to their issuance shall be submitted to and approved by the Attorney General of Oklahoma, in the manner and with the effect provided in Title 62, Oklahoma Statutes 1941, Sections 11, 13 and 14.

SECTION 4. The provisions set forth in this Section shall be applicable to all bonds issued under authority of this Act.

(a) It shall be the mandatory duty of the governing body of any Independent School District to fix such fees, tolls, rent and other charges for use of the facilities of any such stadium, sport arena or other recreational facility and for additions thereto and for additions to

existing stadium, sport arena or other recreational facility, in this Act sometimes referred to as the "Project," as will yield revenues fully sufficient to operate and maintain such Project, pay the principal of and interest on the bonds when due, and to establish and maintain such reserve as may be prescribed in the resolution authorizing the bonds or in the Indenture securing them.

(b). The bonds shall mature serially or otherwise at such time or times, and shall bear interest at such rate or rates, as shall be prescribed in the resolution authorizing the bonds or in the Indenture securing them; provided that the sale of the bonds shall be for cash at not less than par and accrued interest and shall be sold after competitive bidding to produce the maximum sale price at the lowest possible interest rate. The interest cost shall not exceed 4% per annum, computed on average maturities according to Standard Tables of Bond Values.

(c). The resolution authorizing, or the Indenture securing the bonds, shall prescribe the rights, if any, which the Independent School District may have to redeem all or any part of said bonds prior to maturity, and the conditions under which and the prices not in excess of par and accrued interest at which they may be redeemable, and the rights of the Independent School District to redeem the bonds prior to scheduled maturity dates shall be limited to such provisions.

(d). All bonds issued hereunder shall have and are hereby declared to have all of the qualifications and incidents of negotiable instruments.

(e). The resolution authorizing, or the Indenture accruing any such bonds, may contain provisions that the bonds shall be registerable as to principal or as to both principal and interest.

(f). The proceeds of the bonds shall be used solely to pay the cost of the project. There may be included in the cost of the project for which bonds are to be issued reasonable allowance for legal and engineering services, interest during construction and for six months after estimated date of completion of construction. Such proceeds shall be disbursed under such restrictions as may be provided in the bond resolution or indenture, and there

shall be and there is hereby created and granted a lien upon such moneys, until so applied, in favor of the holders of the bonds or of any trustee provided for in respect to such bonds. If so provided in such resolution or Indenture in the event that proceeds of the bonds prove insufficient to pay the cost of the project additional bonds may be issued to the amount of the deficit and shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the Project has been paid in full shall be used in retiring bonds.

(g). The resolution authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this Act.

(h) Any bond issued pursuant to the provisions of this Act shall be exempt from taxation by the State of Oklahoma or by any county or municipal corporation, or other political subdivision therein.

(i). If so provided in the resolution authorizing the bonds the Indenture may be executed by and between such Independent School District and a corporate trustee, which may be any trust company or bank within or outside of the State of Oklahoma, having powers of a trust company.

(j). Either the resolution providing for the issuance of the bonds or such Indenture may contain such provisions for protecting or enforcing the rights or remedies of the bondholders as may be reasonable or proper and not in violation of law, including covenants setting forth the duties of the Independent School District in relationship to the acquisition of properties and the construction, maintenance, operation or repair and insurance of the project and the custody, safeguarding and application of the operation of the Project.
all monies received from the sale of the bonds and from

(k). It shall be lawful for any bank or trust company in this State to act as depository for the proceeds of bonds or revenues derived from the operation of the Project and to furnish such indemnity bonds or to pledge such securities as may be required by the Independent

School District. Such Indenture or resolution may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition such bond resolution or Indenture may contain such other provisions as the governing body of such Independent School District may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings, or occurrences which constitute events of default and the terms and conditions upon which all or any of the bonds shall become or may be declared to be due before maturity, and as to the rights, liabilities, powers and duties arising from the breach by the Independent School District of any of its duties or obligations.

(1) That any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceedings in any Court of competent jurisdiction to enforce his or their rights against the Independent School District and its employees and against any board of trustees which may be created to operate the Project, the agents and employees thereof, or any lessee of any such Project, including, but not limited to, the right to require the Independent School District and such board to impose and collect sufficient income, tolls, fees, rents, charges and other revenues to carry out the agreements contained in the bond resolution or Indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and in the event of default as defined in the resolution authorizing the bonds or in the Indenture, to apply for and obtain the appointment of a receiver for any properties involved. If such receiver be appointed, he may enter and take possession of the Project and until the Independent School District may no longer be in default or until relieved by the Court retain possession of the properties involved, and collect and receive all revenues and tolls arising therefrom in the same manner as the Independent School District itself might do and shall dispose of such moneys and apply same in accordance with the obligations of the Independent School District under the bond or resolution or Indenture and as the Court may direct. Nothing in this Act shall authorize any bondholder to require the Inde-

pendent School District to use any funds in the payment of the principal of, or interest on, such bonds except out of revenues pledged to their payment.

(m). The resolution authorizing, or the Indenture securing bonds issued under this Act may contain provisions to the effect that so long as the revenues of the Project are pledged to the payment of bonds no free admission or use can be given.

(n). The provisions contained in the resolution authorizing the bonds and in the Indenture and the applicable provisions of this Act shall constitute an irrevocable contract between such Independent School District and the holders of such bonds.

SECTION 5. During the time any such Project is encumbered by the pledge of its revenues, the resolution authorizing the bonds or the Indenture may vest its management and control in a Board of Trustees, to be named in such resolution or Indenture, consisting of three members, or maybe a corporation organized for such purpose. The compensation of the members of such Board of Trustees shall be fixed by such resolution or Indenture, but shall never exceed 1% of the gross receipts of such Project in any one year. The terms of office of the members of such Board of Trustees, whether individuals, or the corporation referred to their powers and duties, and manner of exercising same, the manner of the selection of their successors, and all matters pertaining to their duties and the organization of such Board of Trustees shall be specified in such resolution or Indenture. Any such Board of Trustees may adopt By-Laws regulating the procedure of the Board and fixing the duties of its officers, but the By-Laws shall not contain any provision in conflict with the covenants and provisions contained in the resolution authorizing the bonds or the Indenture. In all matters wherein the resolution or Indenture are silent as to the powers, duties, obligations and procedure of the Board, the laws and rules governing the governing body of such Independent School District shall control the Board of Trustees in so far as applicable. The Board may be granted by the resolution or Indenture, and in that event shall have, all or any of the powers and authority, which could be exercised by the governing body of the In-

dependent School District, insofar as the management and operation of any such Project is concerned.

SECTION 6. In the discretion of the governing body of such Independent School District (or within the discretion of the Board of Trustees, if the Project is under control of a Board of Trustees) and for such period of time as may be determined by such governing body or Board of Trustees, such Project may be operated by, or leased for operation to, a Company, corporation or individual, provided that the fees, rent and tolls or rates charged for admission or use of the Project shall be sufficient to yield in the aggregate money necessary to pay the reasonable operation and maintenance expenses, the annual consideration of rental, and a reasonable return to the lessee or operator. The charges and tolls or rates to be charged by such lessee or operator shall be under the control of the governing body of the Independent School District or such Board of Trustees as the case may be. The annual consideration or lease rental to be charged by the Independent School District shall not be less than an amount equal to the annual debt service requirements, plus an additional amount to assure establishment and maintenance of the reserves required in such resolution or Indenture. The operating or lease contract may provide for payment of the annual consideration or rental in monthly installments approximately equal, and that failure to pay any required sum when due may be declared to be a breach of contract entitling the Independent School District (or Board of Trustees), under regulations prescribed therein, to declare the lease or operating contract forfeited and to take over the operation and maintenance of such Project.

SECTION 7. Any such Independent School District or Board of Trustees is hereby authorized to acquire property real or personal in any manner in which property may be acquired by any person or corporation, and in addition thereto any such Independent School District acting for itself or for such Board of Trustees, may acquire by eminent domain the fee simple title to any property within the corporate limits of such Independent School District which is needed for such purposes in the discretion of such governing body. The procedure prescribed for railroad com-

panies in Title 66, Chapter 2, Oklahoma Statutes 1941, shall be followed in acquiring property by eminent domain.

SECTION 8. That the governing body of such municipality is authorized in its discretion to file an application with the Supreme Court of Oklahoma for the approval of any series of bonds to be issued hereunder, and exclusive original jurisdiction is hereby conferred upon the Supreme Court to hear and determine each such application. It shall be the duty of the Court to give such applications precedence over the other business of the court and to consider and pass upon the application and any protests which may be filed thereto as speedily as possible. Notice of the hearing on each application shall be given by a notice published in a newspaper of general circulation in the Independent School District that on a day named the board will ask the Court to hear its application and approve the bonds. Such notice shall inform all persons interested that they may file protests against the issuance of the bonds and be present at the hearing and contest the legality thereof. Such notice shall be published one time not less than ten days prior to the date named for the hearing and the hearing may be adjourned from time to time in the discretion of the Court. If the Court shall be satisfied that the bonds have been properly authorized in accordance with this Act and that when issued they will constitute valid obligations in accordance with their terms, the Court shall render its written opinion approving the bonds and shall fix the time within which a petition for rehearing may be filed. The decision of the Court shall be a judicial determination of the validity of the bonds, shall be conclusive as to the governing body of said Independent School District, its officers and agents, and thereafter the bonds so approved and the revenues pledged to their payment shall be incontestable in any Court in the State of Oklahoma.

SECTION 9. In case any one or more of the Sections or provisions of this Act or the application of such sections or provisions to any situation, circumstance, or person shall for any reason be held to be unconstitutional, such unconstitutionality shall not affect any other sections or provisions of this Act or the application of such sections or provisions to any other situation, circumstance or person, and it is intended that this law shall be construed

and applied as if such section or provision had not been included herein for any unconstitutional application.

§ 22.2 All license fees, taxes and penalties collected or received by the Commission, pursuant to the provisions of this Act, shall be apportioned as follows:

(a) Five per cent (5%) of all moneys, funds, license fees and penalties collected or received by the Oklahoma Tax Commission pursuant to the provisions of this Act excluding registration fees retained by Motor License Agents for their services, shall be paid by the Oklahoma Tax Commission each month to the State Treasurer of the State of Oklahoma and credited by the State Treasurer to the Oklahoma Tax Commission Fund, to be paid out of said Fund in payment of expenses necessarily incurred by said Commission in the performance of its lawful duties and upon direct appropriation by the Oklahoma Legislature.

Such sums as may be due the various counties of the State shall be remitted to the respective county treasurers monthly and shall be used for the construction, improvement or repair of highways, except that the county treasurer shall deposit so much of said money in the sinking fund as may be necessary for the retirement of interest and annual accrual of indebtedness created by the issuance of county or township bonds for road purposes, but not to exceed forty per cent (40%) of such moneys shall be so used. ----- Moneys allocated to counties hereunder may be set up and estimated by the county excise board in the budget for the county as anticipated revenue to the extent of ninety per cent (90%) of the previous year's income from such source, provided that not more than fifteen per cent (15%) can be encumbered during any one month.

One-tenth of the sum collected from each county

SECTION 4. Section 1037.7, Title 70, Oklahoma Statutes 1941, is hereby amended to read as follows:

§ 1037.7 (a) Fees for all transfers shall be based on the previous year's *total* per capita cost ----- of pupils in average daily attendance in the district to which the transfer is made, *plus eight per cent 8% of such total cost for use of buildings already constructed and paid for. Said cost shall be based upon the total expense for the year during which the computation is made. The per capita cost for the elementary school, and the high school, or approved junior high school, shall be computed separately according to the method of calculation hereinafter prescribed.*

(b) The *education* per capita cost of elementary pupils of the district to which the pupils are transferred shall be computed as follows:

The total expenditure of the previous year ----- in the elementary grades, -----, including all State and Federal Funds, and annual accrual and interest on outstanding bonds, (voted for purchase of furniture, repairs, and construction of buildings), funds expended from constitutional building fund, eight per cent (8%) of such total cost for use of buildings already constructed and paid for, but excluding the cost of transportation, the cost of constructing new buildings, by bond issues, and (dis-

bursements from the sinking funds, except annual accrual and interest on outstanding bonds), shall be divided by the average daily attendance for the previous year in the elementary grades.

(c) Similarly, the education per capita cost of high school and approved junior high school pupils in the district to which said pupils are transferred shall be computed as follows: The total expenditure of the previous year ----- for high school and approved junior high school pupils, including all State and Federal Funds, annual accrual and interest on bonds, (voted for purchase of furniture, repairs, and construction of buildings), funds expended from constitutional building funds, eight per cent (8%) of such total cost for use of buildings already constructed and paid for, but exclusive of transportation cost, cost of construction of new buildings, by bond issue, and (disbursements from the sinking funds, except annual accrual and interest on bonds), shall be divided by the average daily attendance for the previous year of high school and approved junior high school pupils.

(d) The transportation per capita cost of all pupils (resident and transferred) transported by the district to which the pupils are transferred shall be computed as follows: The total cost of transportation including annual accrual and interest on outstanding bonds issued for transportation equipment shall be divided by the average number of pupils, (on which State Aid may be paid), transported the previous year by the school district to which the pupils are transferred.

(e) The sum of the total education per capita cost for the high school, and junior high school for the previous year plus the eight per cent (8%) of such total cost for buildings already constructed and paid for, and the total transportation per capita cost for the previous year shall be considered as the per capita cost of the high school, and approved junior high school, of the district to which the pupil is transferred; and the sum of the elementary total education per capita cost for the previous year plus the eight per cent (8%) of such total cost for buildings already constructed and

paid for, and the total per capita cost for transportation shall be considered as the elementary school per capita cost. Provided, that if the transferred pupils are not transported by the district to which they are transferred, the transportation cost shall not be added to the education per capita cost in computing the amount to be appropriated for transfer fees.

(f) Provided that when pupils are transferred to a school district in another state, the school board of the district from which said pupils are transferred may, at their discretion, contract with the authorities of the district outside the state for the payment of transfer fees but said amount for each transferred pupil shall, in no case, exceed the per capita cost calculated in accordance with the provisions of this Act. In order to take advantage of this provision, the school board of the district in Oklahoma from which said pupils were transferred, shall file with the county superintendent on or before July 25th, a copy of such contract. Provided further, the State of Oklahoma shall in no case be liable for a greater amount than would have been due from the State if the regular transfer fees had been paid by the district.

§ 1037.9 (a) If no school is maintained in a district from which pupils are transferred, the maximum funds available from a 15-mill levy (or its equivalent in funds used for mandatory tax reduction purposes) and all other miscellaneous revenue, *including cash surpluses, and surplus net current tax in process of collection*, shall be appropriated for transfer fees----- *even though in excess of the per capita cost of the district to which the pupils are transferred as calculated for districts as provided in this Act.*

(b) If any such district not maintaining a school furnishes transportation to another district, the per capita cost of transportation of the transferee district shall not be considered as a part of the ----- cost of school for the purpose of this Act. *Provided, such transportation is approved by the State Board of Education and may be appropriated by the transferring*

district for transportation of its pupils to other districts, but the cost of transportation so appropriated shall in no case exceed the actual cost of transportation in either district, or the per capita allowance as provided in the State Aid law, whichever is the smaller.

(c) Provided further any school district dispensing with its entire school and transferring all its pupils to two or more districts shall have appropriated for the benefit of the pupils so transferred to each school an amount in proportion to the total cost based on the total per capita cost of each district. Provided further the amount required to be appropriated shall not be limited to the per capita cost as provided for districts provided in this Act.

SECTION 6. Section 1037.12, Title 70, Oklahoma Statutes 1941, is hereby amended to read as follows:

§ 1037.12 After the county excise board has determined the amount of the appropriation for transfer fees and such appropriation has been made by the County Excise Board in the budget of the school district from which pupils have been transferred, the district to which any such pupils have been transferred shall estimate the amount so appropriated, as probable income for appropriation, and it shall thereupon become the duty of the county excise board to use the total amount so estimated to help finance appropriations of the district to which such pupils are transferred.

SECTION 7. Section 1037.13 Title 70, Oklahoma Statutes 1941, is hereby amended to read as follows:

§ 1037.13 It shall be the duty of the county treasurer to apportion taxes and all other moneys coming into his possession as expected income within the approved estimate of any district as follows: *The general fund collections and unencumbered cash on hand from previous years, shall be apportioned to the general fund of the district from which transfers are made, and to the district to which pupils are transferred, in the same percentage as the appropriation for the district from which pupils are transferred, and*

the appropriation for the district to which the pupils are transferred, is of the total appropriation of such district for the current year. Provided that if the pupils from any school district are transferred to more than one school district, the taxes, and other miscellaneous revenue including cash surplus, shall be apportioned to each district in the same proportion as the appropriation for each school is of the total appropriation made by the district.

SECTION 8. Section 1037.14 Title 70, Oklahoma Statutes 1941, and Section 1037.15 Title 70, Oklahoma Statutes 1941, are hereby repealed.

ARTICLE II ANNEXATION OF SCHOOL DISTRICTS

SECTION 1. (a) *Any school district not maintaining a school within the district for one year prior to the passage of this Act, and from which there were no pupils to be transferred, is hereby disorganized and annexed to the district, or districts, maintaining High School within the transportation area or areas in which such district is located. Provided, further, any school district transferring all of its pupils to the same school district is also hereby disorganized and annexed to the district to which such pupils were transferred.*

(b) *Any school district not maintaining school within the district for one school year prior to the passage of this Act, and transferring all of its pupils to two or more school districts during the immediately preceding year is hereby declared to be disorganized territory.*

(c) *Provided no school district transferring all its pupils to another school, or schools, shall be disorganized or annexed to another district under the provisions of this Act, if the average daily attendance of the pupils transferred from such district during the next preceding year in the school or schools to which such pupils are transferred, is thirteen (13) or more.*

(d) *Any school district maintaining a school or schools within the district and having a legal average daily attendance during the next preceding year of less than thirteen (13) is hereby declared to be disorganized territory, unless such district is designated as an isolated school by the State Board of Education, as provided in Article*

III of this Act. Provided, school districts that have transferred any of the grades (1 to 8, inclusive), to another school district during the previous year shall have such attendance considered in determining the average daily attendance of such districts for the purpose of determining whether or not such district should be disorganized.

(e) Provided, any school district having an average daily attendance during any school year after the passage of this Act of less than thirteen (13), or any school district that fails to maintain school within the district for one year, the same is hereby declared to be disorganized in accordance with the provisions of Sub-sections (a), (b), (c), and (d), of this Section, the same as if such conditions existed at the time of the passage of this Act. Such districts shall be annexed to another school district, or districts, as provided in this Section, in accordance with the provisions which are applicable to such districts.

(f) The State Board of Education is hereby authorized to annex such disorganized territory referred to in Sub-sections (b), (c), (d), and (e), of this Section to some other adjacent district, or districts, within the same transportation area or areas as set up by the State Board of Education of the district, or districts, maintaining High School in which such disorganized territory is located. Provided the attendances of such district, plus the attendance of the district being annexed shall during the previous year equal or exceed thirteen (13) legal average daily attendance. Provided further such disorganized territory shall not be required to be adjacent to another school district in order to be annexed to such district if all such territory is annexed to the High School district or districts in whose transportation area or areas such disorganized territory is located.

(g) Provided further upon petition signed by a majority of the legal voters of any disorganized district, the County Superintendent shall call a special election within forty-five (45) days after the passage of this Act, for the purpose of designating the district or districts within the same transportation area to which the legal voters desire such territory to be annexed. The County Superintendent shall notify the State Board of Education of the results of such election, including a statement showing the district

or districts to which such legal voters desire the territory to be annexed. The State Board of Education shall make such annexation in accordance with the provisions of this Act.

(h) Any school district or part of district may petition the State Board of Education within forty-five (45) days after the passage of this Act to change to another High School district transportation area, provided said petition must be signed by sixty per cent (60%) of the legal voters of said territory desiring to be changed to another school district's transportation area. If the State Board of Education shall determine such change is in accordance with the best interest of the children residing in such transportation area, they shall order such change made and so notify the County Superintendent and Clerk of the School Board of each district involved. Provided further that no transportation area may be organized and no district may be assigned to an existing transportation area which will require students to be transported through the transportation area of a High School district which qualifies under this Act, unless approved by the State Board of Education.

(i) Any district or part of district, which was purported to be annexed to another district, under the provisions of the Annexation Law in effect during the period from 1941 to 1946, is hereby declared annexed to such district or districts, unless such annexation has been specifically declared null and void, and detached from such district.

SECTION 2. (a) All of the assets of any school district disorganized under the provisions of this Act, shall belong to the district to which such disorganized territory is annexed, provided that any surplus must first be applied to the general fund indebtedness of such district. After all general fund indebtedness has been reserved for, or paid, and a surplus exists, such surplus shall be applied to the sinking fund indebtedness. After sufficient amount of surplus has been reserved to pay all outstanding sinking fund indebtedness, any cash balance remaining shall be transferred to the district to which such territory was annexed; provided that when the territory comprising any school district is annexed to more than one school district, the surplus assets of such district shall be divided

in proportion to the assessed valuation annexed to each of the districts.

Except, however, that the school building and appendages thereto shall not be disposed of by any district to which such territory is annexed except upon a majority vote of the residents in the territory comprising the original district.

SECTION 3. (a) If any school district disorganized and annexed to another district, or districts, under the provisions of this Act, shall have at the time of disorganization, legal sinking fund indebtedness, such indebtedness shall attach to and become a charge against the territory comprised in such disorganized district at the time of disorganization; and it shall be the duty of the County Excise Board of the County or Counties in which such territory is located to cause annually to be levied upon the assessed valuation of the property in such disorganized territory, a tax sufficient to meet the interest and provide a sinking fund for the payment of such indebtedness. Provided further that the existing bonded indebtedness of the annexing district shall not apply to the annexed district for a period of not less than three (3) years.

SECTION 4. The State Board of Education shall forthwith notify the County Superintendent of Public Instruction, the County Clerk, County Assessor, County Treasurer and the Oklahoma Tax Commission as to each school district affected in the respective counties, with rules of procedure to be followed to put the provisions of this Act into effective operation without delay.

SECTION 5. All mandatory annexations, under the provisions of this Act, shall be operative and in full force and effect immediately upon the issue of the proclamation and notice by the State Board of Education; and thereupon the school board or Board of Education of the annexing district shall forthwith become the trustees of all the funds, assets, and properties of the annexed district, but as a trust impressed with all the obligations and encumbrances heretofore legally existing and only thereafter subject to the provisions of this Act. If such mandatory annexation shall occur after March 15th of any fiscal year and before the tax levies of the ensuing year have been made and certified, and then only if the operating and building levies

authorized for the annexed district be less in either or both particulars than those authorized for the annexing district, the elections theretofore had for both annexing and annexed districts shall be disregarded and a new election ordered, proclaimed by proper notice, and held in the manner provided by law, or order and direction of the governing board or the County Excise Board, said election to be had on the second Tuesday in August of such ensuing fiscal year, but in no event subsequent to the certification of the budgets and levies to the State Auditor as Clerk of the Court of Tax Review. All mandatory annexations made and ordered subsequent to the certification of the budgets and levies to the Court of Tax Review shall be forthwith effective regardless of any variation in such levies; and the budgetary assets of the annexed district or districts theretofore so certified and unexpended and unencumbered shall be merged, by supplemental procedure, with the budgetary assets of the annexing district.

ARTICLE III—STATE AID

SECTION 1. There shall be apportioned and disbursed annually, by the State Board of Education, from appropriations made by the Legislature for this purpose and from funds derived from other sources provided by law for this purpose, to the several school districts and separate schools of the State such sums of money as each school district or separate school may be qualified to receive under the provisions of this Act. The methods of apportionment and disbursement contained herein shall remain in force until the same are amended or repealed by the Legislature.

SECTION 2. (a) The funds apportioned and disbursed to the several school districts of the State shall be for the purpose of aiding each school district or separate school receiving the same to finance its school budget for each fiscal year. The State Board of Education shall notify the school district board or the Board of Education of each school district, the County Treasurer, and the County Excise Board of the amount said district is to receive from the funds apportioned under the provisions of this Act and disbursed according to the provisions hereof. Thereafter, if the State Board of Education should ascertain that any of the factors on which the apportionment or al-

location of State Aid to any school district, have so changed as to disqualify such district or to reduce the difference between the cost of the Minimum Program and the amount of Minimum Program Income, then the State Board of Education shall forthwith notify such school board or board of education, and the Treasurer thereof, as to the amount of reduction in state aid; and further disbursement of state aid to such district or separate school shall be withheld until notice has been received by the State Board of Education signed by the clerk and treasurer of such district and authenticated by the county clerk of said county, to the effect that the county excise board of such county had cancelled or reduced appropriations in conformity to an adjusted balance sheet presented to it in like form as required by Section 292, Title 68, Oklahoma Statutes 1941, to effect such reduction, without conflict with the requirements of paragraph (b) of sub-section 2 of Section 7 of this Article.

(b) After the apportionment of state aid has been made by the State Board of Education and certified to the County Treasurer and County Excise Board, it shall be the duty of the County Excise Board to make additional or supplemental appropriations in the amount so apportioned to finance the Minimum Program and for such other legal purposes as the governing board of the school district may request. Funds received under the provisions of this Act shall be deposited in the General Fund of such school district and no reserve for delinquencies shall be made therefor.

SECTION 3. The State Board of Education shall furnish the State Auditor with a copy of the apportionments made of the funds appropriated for each fiscal year to each of the several school districts and separate schools of the State, and warrants shall be drawn by the State Auditor against said appropriation for each fiscal year in accordance with said apportionment only upon the order of the State Board of Education through the Director of Finance. The warrants for the payments to the several school districts of any county shall be forwarded by the State Board of Education through the Director of Finance to the County Treasurer, who shall cash the same and apportion the proceeds to the several school districts of

the County, as provided by this Act, provided it shall be mandatory for the County Treasurer to make such apportionment within fifteen (15) days after receipt of same.

SECTION 4. The amount of money that a school district may qualify for, which shall be designated as "state aid" under the provisions of this Act, shall be determined by subtracting the amount of the Minimum Program Income from the cost of the Minimum Program. The Minimum Program and Minimum Program Income shall be defined as follows:

Minimum Program:

(a) The number of teachers, not to exceed the number employed, and not to exceed the number as provided by this Act, and the salary schedule not to exceed the salaries paid each teacher, principal, and superintendent, respectively, according to the contract with such teacher, principal or superintendent, as set forth in Sub-section 1, 2 and 3 of Section 5 of this Article.

The term "teacher" as used in this Act shall include any person regularly employed as Superintendent, Principal, Librarian, Nurse or Teacher, to give instructions in a classroom, or to superintend or supervise classroom instruction provided said person shall have been properly qualified as provided by law.

(b) All other legal items of expenditures, exclusive of sinking funds, teachers salaries, transportation, buildings, and sites, at the rate of ten cents (10c) per pupil per day in attendance during the next preceding year for all pupils in grades included in approved junior and senior high schools and seven and one-half cents (7 1/2c) per pupil per day for all pupils in the elementary grades in attendance during the next preceding year, provided, that no school shall receive less than One Hundred Seventy-five Dollars (\$175.00) per teacher per year for such purposes; provided further that unless and until a school district has met all the requirements of the State Board of Education, not less than the Minimum Program allowance shall be appropriated and expended for the purpose of fulfilling such requirement.

(c) Transportation on the basis of the following

scale, where the average number of legally transported pupils per square mile during the preceding year was:

(1) When the density is less than .30 the State Board of Education is authorized to make special adjustment to meet the reasonable, but not to exceed the actual cost of transportation.

(2) .30 to .59 actual cost but not to exceed Fifty-four Dollars (\$54.00) per year per pupil.

(3) .60 to 0.99, Thirty-four Dollars (\$34.00) per year per pupil.

(4) 1.0 to 1.99, Twenty-eight Dollars (\$28.00) per year per pupil.

(5) 2.0 to 2.99, Twenty-four Dollars (\$24.00) per year per pupil.

(6) 3.0 to 3.99, Twenty-three Dollars (\$23.00) per year per pupil.

(7) 4.0 to 4.99, Twenty-two Dollars (\$22.00) per year per pupil.

(8) 5.0 to 5.99, Twenty Dollars (\$20.00) per year per pupil.

(9) 6.0 to 6.99, Nineteen Dollars (\$19.00) per year per pupil.

(10) 7.0 to 7.99, Eighteen Dollars (\$18.00) per year per pupil.

(11) 8.0 or more, Thirteen Dollars (\$13.00) per year per pupil.

(12) A county correction figure shall be determined by dividing the cost of transportation in the county for the past seven (7) years by the minimum program for transportation for the past seven years as calculated by the State Board of Education. Each succeeding year's cost and minimum program, respectively, for an additional three (3) years, shall be used in determining a permanent county correction figure. The correction figure shall not exceed 1.25.

(13) The amount of transportation shall in each district be determined by multiplying the average number of

pupils legally transported daily by the district during the next preceding year by the appropriate amount per pupil set out in the foregoing schedule. The average number of pupils per square mile shall be determined by dividing the number of legally transported pupils living inside the district plus the number of legally transported pupils living outside the district by the area served within the district plus the area served by the district for transferred pupils as calculated by the State Board of Education. Unless and until the district has provided safe and adequate transportation, not less than the Minimum Program allocation shall be spent for such purpose.

(14) A full term of school under the provisions of this Act shall consist of ten (10) school months in which there has actually been taught not less than 180 days. Provided however that any school district desiring to hold only a one hundred sixty (160) day term of school shall have the right to do so, and shall be entitled to all the benefits to be derived under the provisions of this Act, but shall have its State Aid reduced proportionately.

Minimum Program Income:

(a) Income from a levy of fifteen (15) mills actually made by a school district, and as to separate schools a levy of one and five-tenths (1.5) mills actually made in any county, on a valuation equalized between counties as provided elsewhere in this Act. A ten per cent (10%) deduction shall be allowed for delinquent taxes.

(b) State Apportionment.

(c) County Apportionment.

(d) Gross Production Tax.

(e) Intangible Tax.

Each of the above mentioned items of Minimum Program Income from b to (e) inclusive, shall be the amount actually collected from such source during the next preceding fiscal year calculated on per capita basis on the unit provided by law for the distribution of each such revenue.

(f) Basic-Aid actual amount allocated by State Board of Education.

(g) Auto License and Farm Truck Tax actual collections during previous year plus 90% of any additional collection estimated by the Oklahoma Tax Commission, computed on a per capita average daily attendance basis.

(h) Transfer Fees, as are now or shall hereafter be provided by law, in an amount equal to the amount which has been or should have been so appropriated, in the budgets of the sending districts for the use and benefit of the receiving districts.

(i) And all other revenue which can legally be estimated by the County Excise Board, as now provided by law, or which shall hereafter be provided by law, not including surplus cash and taxes in process of collection and not including tuition fees received from pupils or their parents or their guardians.

It shall be the duty of the Secretary of the County Excise Board, on or before the 25th day of July, or as soon thereafter as practicable, to furnish the State Board of Education a Preliminary Income Sheet, showing the various items of chargeable income, and valuation of each school district or separate school of the county, and other information necessary for determining the amount of state aid for which each district qualifies.

SECTION 5. 1. The following schedule shall be used as a basis for calculating teachers' salaries in the Minimum Program as defined in this Act:

(a) For each teacher holding a certificate to teach in Oklahoma and having completed 60 to 89 semester hours of college work: One Thousand (\$1,000.00) Dollars per school term.

(b) For each teacher holding a certificate to teach in Oklahoma and having completed 90 or more semester hours of college work, but less than a Bachelor's Degree: Twelve Hundred (\$1200.00) Dollars per school term.

(c) For each teacher holding a certificate to teach in Oklahoma and having a Bachelor's Degree: Fifteen Hundred (\$1500.00) Dollars per school term.

(d) For each teacher holding a certificate to teach in Oklahoma and having a Master's Degree, or a Library Sci-

ence Degree Issued upon five years of college training: Seventeen Hundred (\$1700.00) Dollars per school term.

(e) Provided that One Hundred (\$100.00) Dollars for each year of teaching experience, not to exceed five (5) years, shall be added to the schedule of annual salary to be used as a basis of apportionment of State Aid.

(f) The administrative increments shall be as follows:

(1) A teacher serving as Superintendent shall have State Aid calculated for the term of his or her contract but not to exceed two (2) months in addition to the school term as defined by this Act, and shall receive an increment of \$3.00 per month per teacher not to exceed 20 teachers.

(2) Principal's increment shall be \$3.00 per month per teacher, not to exceed 20 teachers per principal, for the school term.

(3) Provided, however, no school district shall be granted increments both for superintendent and principal unless said school shall qualify for eight (8) or more teachers under the terms of this Act, and maintains an accredited high school.

(4) A school nurse with qualifications approved by the State Health Department of the State of Oklahoma shall qualify under the provisions of this Act, in the same manner as a teacher with a Bachelor's Degree without experience, unless such experience has been as a school nurse.

2. Any school district paying less than said Minimum Salary Schedule to any teacher, shall have the difference deducted from the amount of State Aid which would otherwise be paid to the district. State Aid shall be withheld from any school, or school district, which does not comply with the standards of the State Board of Education.

3. The total number of elementary teachers in any school district on which the State will pay State Aid shall, on the basis of the legal average daily attendance for the previous year, be as followss

(a) In school districts having 13 to 25 pupils: one (1) teacher.

(b) In school districts having 26 to 50 pupils: two (2) teachers.

(c) *In school districts having 51 to 75 pupils: three (3) teachers.*

(d) *In school districts having 76 to 98 pupils: four (4) teachers.*

(e) *In school districts having 89 to 120 pupils: five (5) teachers.*

(f) *In school districts having 120 or more pupils, five (5) teachers shall be allowed for the first 120 pupils, and one (1) additional teacher for each 26 pupils, or fraction thereof to the nearest tenth, provided the district employs such additional teacher or fraction of a teacher.*

4. *The State Board of Education shall declare a school isolated and approve for at least one (1) teacher any school whose Average Daily Attendance the previous year is not less than eight (8) pupils and whose school house is more than seven (7) miles by the commonly traveled road from the school house of another school district, or school districts, able to furnish educational facilities. Provided further, the State Board of Education may declare a school isolated and approve for at least one (1) teacher any school whose school house is more than twelve (12) miles by commonly traveled road from the school house of another school district, or districts, able to provide educational facilities. The State Board of Education shall approve for at least one teacher any school district where transportation is furnished and the school bus serving such territory was able, because of the conditions of the road, to travel the route during the previous year less than ninety per cent (90%) of the days school was actually taught. State Aid shall not be calculated for any other school district except as provided by this Section where the attendance was less than thirteen (13) average daily attendance during the next preceding year unless the State Board of Education shall determine that the roads to another school are such that the pupils eligible to attend such school cannot safely attend another school.*

5. *The total number of teachers in an accredited Junior and Senior High School as approved by the State Board of Education in any district on which the State will pay State Aid shall, on the basis of the legal Average Daily Attendance for the previous year, be as follows:*

(a) *In school districts having 40 to 54 pupils; three (3) teachers.*

(b) *In school districts having 55 to 72 pupils; four (4) teachers.*

(c) *In school districts having 72 or more pupils, (4) teachers for the first 72 pupils, and one (1) teacher for each additional 26 pupils in Average Daily Attendance, calculating fractions thereof to the nearest tenth, provided that the district employs such additional teacher or fraction of a teacher.*

(d) *Provided that any school maintaining a reimbursed vocational program, shall receive State Aid on the basis of an additional one-half ($\frac{1}{2}$) teacher for each full time vocational teacher so employed; provided the time for which State Aid shall be calculated, shall be construed to be the number of months for which actual reimbursement is made by the Federal and State Government.*

(e) *Provided that any accredited high school having fewer than 25 pupils, shall be given State Aid for two teachers, if its school house is more than twelve (12) miles by the commonly traveled road from the school house of a district able to provide educational facilities for all high school pupils; and provided further that any accredited high school having 25 to 39 pupils inclusive shall be given State Aid for three (3) teachers if its school house is more than six (6) miles by the commonly traveled road from the school house of a district able to provide educational facilities for all high school pupils. Provided further in determining the number of miles by commonly traveled road from one school house to the other a major fraction of a mile shall be considered as a full mile.*

(f) *Provided that any isolated accredited high school in the State offering twelve (12) years of instruction shall receive State Aid on the basis of a minimum of five (5) teachers for the entire school.*

6. (a) *The State Board of Education is hereby required as a basis for fair apportionment of State Aid, to use each year an equated value of locally assessed valuations among the counties of the State for calculation of the Minimum Program Income from ad valorem taxes. Such*

equated value of locally assessed property of the County shall be 50% of the actual or 100% value, and shall be based upon data furnished by the Oklahoma Tax Commission out of its study of the relationship by it ascertained between current locally assessed valuations and the transaction (actual) values disclosed by its study for its report to the State Board of Equalization in 1945, showing the percentage that the current locally assessed valuation of taxable property in each county bears to said actual or 100% valuation so determined by the Oklahoma Tax Commission.

(b) Whatever percent of increase from the locally assessed valuation of any county is necessary to establish the equated value of locally assessed property, the same percent of change shall be applied to the certified locally assessed valuation of each school district within the same county to provide the basis for calculating the Minimum Program Income of each school district.

7. There shall be apportioned to all school districts of the several counties an amount of money equal to Seven and Fifty One Hundredths (\$7.50) Dollars multiplied by the legal average daily attendance of the previous year of such school district; provided, the school district has a legal average daily attendance of thirteen (13) or more during the preceding year, and levies Twenty (20) mills. Separate Schools shall be required to levy two (2) mills. Provided, the amount of such Aid to be apportioned to each school district shall be based upon the percentage that the locally assessed valuation bears to the equated valuation as provided by this Act. Such Aid shall be designated and known as Basic Aid for all school districts and separate schools meeting such requirements. Provided, however, that if the total rate of levy herein required is reduced by the Court of Tax Review in a case actually heard by such Court and shown by Journal Entry, such reduction shall not prevent the Apportionment of aid hereunder and the apportionment of moneys under this sub-section shall be made in the same manner and in the same proportion as provided elsewhere in this Section.

SECTION 6. No pupil shall be counted in the average daily attendance of any district for the purpose set out in this Act, unless said pupil is a legal resident of said district or has been legally transferred thereto, provided

that a pupil moving from a school district during a school term shall be entitled to attend such school for the remainder of that school term. School districts shall not include out-of-state pupils in their average daily attendance for the purposes set out in this Act. Provided, the following pupils shall not be counted; those who have attained the age of twenty-one (21) years by September 1st and those who have not attained the age of six (6) years by December 31st of that school year. In determining the ages of pupils for State Aid purposes, birth certificates shall be presented, if obtainable, as proof of age.

If any district, or part of a district, becomes a part of another district by consolidation or annexation or otherwise, or if any district which maintained a school in the immediately preceding school year transfer all of its pupils to another district or districts and dispense with its own school for the ensuing year, the attendance in such district for the immediately preceding year shall be proportionally considered in computing the average daily attendance of the district or districts wherein its pupils will attend school receiving district at the time of making application for the ensuing year, if such attendance has been added by the State Aid.

SECTION 7. 1. Any school or separate school which willfully operated its school buses contrary to the rules and regulations prescribed by the State Board of Education shall forfeit its State Aid for transportation for the time of non-compliance.

2. (a) None of the funds apportioned to school districts and separate schools under the provisions of this Act shall be paid by the State unless and until there has been filed with the State Board of Education an itemized sworn account of the expenditures made from all funds except sinking funds and building funds of the school district or separate schools during the next preceding fiscal year.

(b) Provided, however, that no State Aid shall be paid to any district unless and until the district budget, as filed with the State Auditor, shows that the appropriations of the district, plus the State Aid for which the district qualifies will enable it to maintain the Minimum Program as defined in this Act.

3. School districts receiving State Aid shall not spend any of these funds except by regularly issued warrants based upon sworn and certified itemized claims executed by or on behalf of the persons, firms, or corporation furnishing the services or things for which payment is claimed. All claims shall be approved by the school district board or by the Board of Education at a regular meeting or a special meeting called for that purpose.

4. All school board members, employees or other officials of school districts, and separate schools, required to make reports to the Board of Education or other agencies under the provisions of this Act and all persons lawfully charged with the duty of making records of original entry, such as teachers' registers, transportation records, and financial records, which form the basis, in whole or in part, of said reports, shall exercise the highest degree of diligence, accuracy and good faith in making said records and reports reflect the truth. Teachers' registers shall be marked daily in ink, by the teacher in charge of rooms or groups of pupils.

5. The State Board of Education shall revoke the license or certificate to teach of any teacher, principal, or superintendent who knowingly and willfully violates any of the provisions of this Act.

6. Any person or firm who shall knowingly and willfully violate any provision of this Act shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than One Hundred Dollars (\$100.00) nor more than Five Hundred (\$500.00) Dollars or by imprisonment in the county jail for not less than ninety days nor more than one year, or by both such fine and imprisonment. Any public official or public employee wilfully violating any provisions of this Act shall be subject to the foregoing penalties and in addition thereto shall forfeit his position or office. Any officer or employee of the State Board of Education, who knowingly and wilfully apportion or disburses any moneys appropriated by this Act, contrary to the provisions of this Act, shall be subject to the foregoing penalties, and in addition thereto shall forfeit his office or position.

7. The State Board of Education shall prescribe the form of all reports and applications for State Aid neces-

sary to the proper administration of this Act, and it shall be the duty of all County Superintendents, City Superintendents, School District Boards and Boards of Education to make such reports fully and completely at the time and in the manner prescribed by the State Board of Education. The State Board of Education shall also have authority and it shall be its duty to promulgate rules and regulations, not inconsistent with the provisions hereof relative to the distribution of funds and for the administration of this Act. Such regulations and rules shall apply alike to all school districts.

8. The State Board of Education is authorized to adjust the minimum program for any school district or separate school on the average daily attendance and legal transportation load for a number of consecutive months equal to one-half ($\frac{1}{2}$) of the current year for districts or separate schools in which there has been an unusual increase or decrease in average daily attendance or transportation haul, over or under the preceding year.

9. If the funds appropriated by the Legislature for purposes of carrying out the provisions of this Act or the collections apportioned thereto, are insufficient to maintain a full term of school as provided in this Act for each district and separate school qualifying for State Aid then such reductions resulting therefrom shall be uniform as to the number of days in length of the school term. Provided, school districts receiving only Basic Aid shall have the amount of Basic Aid which such school districts are entitled to receive reduced in proportion to the length of term.

10. If the Eighteen Million Dollars (\$18,000,000.00) appropriated by the Legislature as State Aid shall be more than sufficient to fulfill the provisions of this Act, the State Board of Education is hereby authorized and required to distribute the unused residue among the several State-Aided districts in ratio to the minimum program costs in each, to be appropriated at the discretion of each such school board or board of education.

SECTION 8. In calculating the Minimum Program for the Separate Schools of the County, or any other school district maintaining more than one school outside the city limits or incorporated town, each school may be deemed

a school district by the State Board of Education, provided such schools cannot be transported or combined with another school.

SECTION 9. All apportionments of State Aid to school districts shall be made by the State Board of Education through the Director of Finance of said State Board of Education. The Director of Finance shall not make any apportionment or disbursement of state aid which is not authorized by the State Aid Law under which the apportionment or disbursement purports to be made. . . . The said Director of Finance shall execute a surety company bond in the penal sum of Two Hundred Thousand (\$200,000.00) Dollars payable to the State of Oklahoma conditioned for the faithful performance of his duties. By unanimous consent, the following explanations of votes on ENGROSSED HOUSE BILL NO. 85, as amended in Conference, passed on the last legislative day, were submitted and ordered incorporated herein:

Mr. President: Had I not been on a long distance phone call, I would have voted against House Bill No. 85 because it does not fit the school problems of Kay and Grant Counties. It disorganizes school districts without the citizens of Kay and Grant Counties having a voice in the school affairs of their local districts. It is just another move in the direction of centralized government.

HOWELL.

Mr. President: I ask unanimous consent that the record show that had I been present I would have voted NO on House Bill No. 85.

NEVINS.

SECTION 6. The Pardon and Parole Officer is hereby vested with the authority, at the direction of the Governor, to arrest or cause to be arrested by any peace officer of this state or of any other state, a parolee where he has information sufficient to give him reasonable grounds to believe that the parolee has violated the terms or conditions of his parole. Such Pardon and Parole Officer shall serve on the parolee if in the State of Oklahoma within forty-eight hours, after his arrest, or within forty-eight hours after he is returned to the state if arrested outside of the state, a copy of the application filed by such Pardon and Parole Officer with the Governor seeking revocation of the parole. Where a response is filed or if a response is not filed and the Governor feels the circumstances require it, he may call upon the Criminal Court of Appeals or any member thereof, who in accordance with sections seven and eight has signified his willingness to perform the services hereinabove enumerated, to conduct investigations, hold hearings and make findings for such Governor as his agent.

The President Pro Tempore, in open session, signed the engrossed copy of House Bill No. 131, and ordered the same returned to the Honorable House.

Upon request of Senator Nevins, remarks of Senator Fine on **EARLY CHEROKEE CULTURE**, in connection with the passage of House Bill No. 131, are herewith incorporated:

The casual person may consider that Oklahoma has no past worth preserving. A second thought will reveal many points rich in historic and traditional lore well worth preserving and passing down for the cultural enrichment

of future generations. A little forethought on the part of leading Oklahomans of today will contribute greatly to the fuller life of generations of Oklahomans yet to come. One of these regions to which the attention of the Twenty-first Oklahoma Legislature is particularly called centers about old Park Hill in Cherokee County.

In the early spring of the year 1839, thirteen caravans of weary Cherokee immigrants, men, women, and children, driven from their native homes in Georgia and Tennessee, were slowly and laboriously wending their way along the famous "Trail of Tears" to their destined home in Indian Territory. Each caravan consisted of approximately one thousand Cherokees and was under the leadership of a select member of the tribe, but all were supervised by Federal army officials. A small number of Old Settler Cherokees had been here for ten years, and a few of the later Immigrants had preceded the main group the year before.

As these straggling caravans, footsore and weary, arrived in the new country, some chose to stop at the first opportunity. These formed settlements along the eastern border of the Cherokee Nation, barely across the Arkansas line. A few pushed into the northern region around the present Vinita, while still others headed northwest into Cooweescoowee District around Claremore. But by far the larger number settled in the region of Park Hill and between there and Tahlequah. Here, within an area of some three or four square miles, settled something like six thousand or more of the newly-arrived Cherokee immigrants.

Many people fail to distinguish between savage Indians and civilized Indians. To some, Indians are just Indians and all are savages. These new settlers in this distant wilderness home were by no means savages. In their original home in the East, they already had an organized government with a written constitution and regularly elected officers. They had an alphabet, invented by the famous Sequoyah, the only original alphabet ever known to have been invented and made use of by any Indian tribe on the face of the earth. They had a weekly newspaper, owned by the Cherokee Nation, published at National expense, and circulated among the Cherokees free of

charge. Prominent leaders among them had been educated in the mission schools and in some of the best universities of the East.

Coming then to this new land with such heritage of civilization and culture back of them, it is not strange that they set about the establishment of similar institutions here. Although, for several years torn by internal strife over the question of removal, their new constitution, drawn up at Tahlequah on September 6, 1839, provided for a regular system of public schools. Then, seven years later, their National Council provided for two national institutions of higher learning, the Cherokee Male and Female Seminaries, the former located near Tahlequah and the latter at Park Hill. The faculty of the Female Seminary consisted of men and women drawn from the best colleges of New England, such as Mt. Holyoke, Yale, and Dartmouth. Some of the educated Cherokees also taught here. This school served as a great cultural center for the education of Cherokee women for half a century. At this early time, it should be remembered, very few educational institutions of higher learning existed west of the Mississippi River. The Cherokee Nation ranks among the foremost in its establishment of national free schools. In fact, no nation or state had put into practice free public education when the Cherokees adopted this plan of education, even including college training. Present descendants of the Cherokees may well look back with justifiable pride at the progressive foresight of their eminent forefathers.

Park Hill soon came to be a prominent social center of the Cherokee Nation. In this vale of natural beauty, drained by the sparkling waters of Park Hill Creek, resided a number of the prominent Cherokee aristocracy. On an eminence overlooking this spring-fed stream, Chief John Ross built his famous "Rose Cottage" and maintained it until Stand Watie burned it down during the Civil War. Here, too, lived the brother of the Chief, Lewis Ross, early Treasurer of the Cherokee Nation. Also, the later chief, William P. Ross, maintained a residence here. The Naves, the Meigs, the Duncans, and many other prominent families also dwelt in this neighborhood. Most of these men held negro slaves and established homes in keeping with the average Southern plantation of that time.

But the most palatial residence of this whole region was that of George Murrell, the son-in-law of Lewis Ross. Murrell was a wealthy slave owner, business man, and planter, and built this residence for his new bride. It is one of the few notable buildings of the Cherokee Nation that escaped the Guerrilla's torch during the Civil War days. It is a commodious two-story structure made of the best hard wood lumber, surrounded by wide porches on two sides, and underlaid with large basement rooms of immense hewn stone for the storage of bountiful supplies of imported wines and liquors. Adjacent to the kitchen was a brick smoke-house for the preservation of all kinds of native, cured, and smoked meats, while from the edge of the yard gushed a strong spring of clear, pure water amply sufficient for all purposes. The home was fitted out with the finest mirrors, a baby grand piano, and with mahogany furniture imported from France and brought up the Mississippi and Arkansas Rivers by steamboat from New Orleans. Known as "Hunters' Lodge," this came to be the select rendezvous of aristocratic sportsmen of the time seeking pleasure and entertainment.

Thousands upon thousands of dollars have been spent in recent years on the restoration and maintenance of the fine old Southern mansions of Louisiana and Mississippi, and they have been converted into great show places to which tourists flock from all over the world every year. Oklahomans alone spend enough money annually in traveling to Natchez to purchase and restore the Murrell House several times over.

The Murrell property and the ruins of the old Female Seminary lie within about a half-mile of each other. Upon the destruction of the old Female Seminary by fire in 1887, the Cherokee Nation began immediately the erection of a new one at Tahlequah. This new one constitutes the Administration Building of the Northeastern State College today. Northeastern, situated as it is in the heart of the old Cherokee Nation, considers itself the proud successor of this fortunate cultural heritage of the early Cherokees. Its thousands of friends and wellwishers in eastern Oklahoma have the same loyal viewpoint. Hundreds of them reassemble at Northeastern each May 7th, to revive old memories and renew former friendships. Impelled by a strong feeling of sentimental attachment and conscious of

its obligation to the people it serves, the state should acquire and preserve the ruins of the old Female Seminary before they are hopelessly lost to posterity. The inroads of tree roots and natural decay are rapidly undermining the few remaining columns, until it can only be a matter of weeks until they will topple to oblivion unless steps are taken immediately for their preservation.

The Oklahoma State Planning and Resources Board has specific plans, not only for restoring and preserving these two valuable properties, but for making out of the Murrell Building an Indian arts center. It is to be made a center of weaving, basket making, silver smithing, and manufacturing of other Cherokee artifacts, all under direct management and supervision of the Oklahoma State Planning and Resources Board. The native Cherokee possesses an innate skill at industrial handicraft, and the Board wants to assist in the development of his ability along this line. Conclusive assurance has already been obtained that, as an Indian arts adjunct, the place can be made entirely self-supporting and more. Out of both properties, the Oklahoma State Planning and Resources Board proposes to make an attractive site not only for the edification and enjoyment of our own people, but one that will draw distant tourists as well. The attainment of the project is not only an obligation of the State of Oklahoma, but affords a rare opportunity to preserve to posterity the memory of a rich cultural heritage.

Referring further to ENGROSSED HOUSE BILL NO. 79, by Jones, et al, as amended in Conference;

Upon motion of Senator Porter, the vote was reconsidered by which House Bill No. 79, as amended in Conference, was passed, the roll call thereon being as follows:

MESSAGES

The following Message from the Governor was received and read:

To the President and Members
of the Honorable Senate
Twenty-first Oklahoma Legislature

Gentlemen:

After consideration, and by authority of Section 11, Article 6 of the Constitution, I have disapproved and am returning:

ENROLLED SENATE BILL NO. 21—By Logan, Lowery, Nance, Anderson, Mahan, White, Gooldy, Cobb, Chapman, Dacus of the Senate, and Washington, Long, Ozmun, Easterly, White (Bryan), Pazoureck, Barron, Farrar, and Levergood of the House.

An Act calling a Constitutional Convention on the first Tuesday in September, 1948, for the purpose of altering, revising or amending the present Constitution, or to propose a new Constitution for the State of Oklahoma; fixing the time and place thereof; defining the number of delegates and providing the manner of their election and the amount of their compensation; providing for a Constitutional Survey Committee, making an appropriation therefor; and providing for the submission of this Act to the people for their approval; and declaring an emergency,

I disapprove of this bill for the reason that it does not provide for an appropriation to pay the expenses necessary for a proper conduct of a Constitutional Convention. I further point out that funds are not now available from which such an appropriation could be made and that a new source of revenue must be provided for this purpose.

By the Governor of
The State of Oklahoma,
ROY J. TURNER.

Senator Porter moved, notwithstanding the veto, that Enrolled Senate Bill No. 21 become a Law.

The question being, "Shall Enrolled Senate Bill No. 21, entitled:

The President Pro Tempore declared that the veto by the Governor of Enrolled Senate Bill No. 21 had been sustained by the vote of the Senate.

The following Message from the Governor was received and read:

To the President and Members
of the Honorable Senate
Twenty-first Oklahoma Legislature

Gentlemen:

It is not my desire, and I feel that it is not the desire of this legislature, to deny the people of Oklahoma an opportunity to decide for themselves whether we should have a Constitutional Convention.

However, good judgment and sound procedure decree that if our people want a Constitutional Convention we must provide a workable and adequate plan for holding and

financing the convention. We should not attempt to provide for a convention on a piece-meal basis.

Therefore, I recommend to this legislature that a provision be enacted at this session, submitting to the people of Oklahoma the question of holding a Constitutional Convention, in which there is included a means of obtaining the necessary revenue together with an appropriation for that purpose.

I recommend, further, that sufficiently representative committees of both the Honorable Senate and the Honorable House be appointed for the purpose of drafting legislation containing provisions recommended.

By the Governor of
The State of Oklahoma,
ROY J. TURNER.

Twenty-first Oklahoma Legislature.

Gentlemen:

After consideration, and by authority of Section 11, Article 6, of the Constitution, I have disapproved and am returning:

ENROLLED SENATE BILL NO. 21—By Logan, Lowery, Nance, Anderson, Mahan, White, Gooldy, Cobb, Chapman, Dacus of the Senate, and Washington, Long, Ozmun, Easterly, White (Bryan), Pazoureck, Barron, Farrar and Levergood, of the House,

AN ACT CALLING A CONSTITUTIONAL CONVENTION ON THE FIRST TUESDAY IN SEPTEMBER, 1948, FOR THE PURPOSE OF ALTERING, REVISING OR AMENDING THE PRESENT CONSTITUTION, OR TO PROPOSE A NEW CONSTITUTION FOR THE STATE OF OKLAHOMA; FIXING THE TIME AND PLACE THEREOF; DEFINING THE NUMBER OF DELEGATES AND PROVIDING THE MANNER OF THEIR ELECTION AND THE AMOUNT OF THEIR COMPENSATION; PROVIDING FOR A CONSTITUTIONAL SURVEY COMMITTEE, MAKING AN APPROPRIATION THEREFOR; AND PROVIDING FOR THE SUBMISSION OF THIS ACT TO THE PEOPLE FOR THEIR APPROVAL; AND DECLARING AN EMERGENCY.

I disapprove of this bill for the reason that it does not provide for an appropriation to pay the expenses necessary for a proper conduct of a Constitutional Convention. I further point out that funds are not now available from which such an appropriation could be made and that a new source of revenue must be provided for this purpose.

By the Governor of
The State of Oklahoma,
ROY J. TURNER.

Senator Porter moved that, notwithstanding the veto by the Governor of ENROLLED SENATE BILL NO. 21, the Bill become a law.

SECTION 1. In order to facilitate vehicular traffic throughout the State and remove the present handicaps and hazards on the congested highways in the State, and to provide for the construction of modern express highways embodying every known safety device including center di-

vision, ample shoulder widths, long sight distances, the by-passing of cities and towns, multiple lanes in each direction and grade separations at all intersections with other highways and railroads, the Oklahoma Turnpike Authority (hereinafter created) is hereby authorized and empowered to construct, maintain, repair and operate turnpike projects (as hereinafter defined) at such locations as shall be approved by the State Highway Commission, and to issue turnpike revenue bonds of the Authority payable solely from revenues, to pay the cost of such projects.

SECTION 2. Turnpike revenue bonds issued under the provisions of this Act shall not at any time on or after the passage of this Act be deemed to constitute a debt of the State or of any political subdivision thereof or a pledge of the faith and credit of the State or of any such political subdivision, but such bonds shall be payable solely from the funds herein provided therefor from revenues. Such turnpike revenue bonds shall contain on the face thereof a statement to the effect that neither the State nor the Authority shall be obligated to pay the same or the interest thereon except from the revenues of the project or projects for which they are issued and that neither the faith and credit nor the taxing power of the State or any political subdivision thereof is pledged, or may hereafter be pledged, to the payment of the principal of or the interest on such bonds.

SECTION 3. There is hereby created a body corporate and politic to be known as the "Oklahoma Turnpike Authority," and by that name the Authority may sue and be sued, and plead and be impleaded. The Authority is hereby constituted an instrumentality of the State, and the exercise by the Authority of the powers conferred by this Act in the construction, operation and maintenance of turnpike projects shall be deemed and held to be an essential governmental function of the State. Provided however, this shall not be construed to relieve said authority from liability for personal injuries or property damages incurred by it through its negligence or the negligence of its servants or agents, and in addition thereto it shall be subject to Workmen's Compensation Laws of the State the same as a private construction project.

The Oklahoma Turnpike Authority shall consist of five (5) members, including the Governor of the State, who

shall be a member ex officio, and four (4) other members appointed by the Governor, by and with the consent of the Senate. The appointed members shall be residents of the State and one (1) a resident from each of the following four (4) counties: Oklahoma, Lincoln, Creek, and Tulsa. The appointive members shall be residents of the State, and shall have been qualified electors therein for a period of at least one (1) year next preceding their appointment. The members of the Authority first appointed shall continue in office for terms expiring on July 1, 1951, July 1, 1953, July 1, 1955 and July 1, 1957, respectively, the term of each such member to be designated by the Governor, and until their respective successors shall be duly appointed and qualified. The successor of each such member shall be appointed for a term of eight (8) years, except that any person appointed to fill a vacancy shall be appointed to serve only for the unexpired term, and a member of the Authority shall be eligible for reappointment. Each appointed member of the Authority before entering upon his duties shall take an oath as provided by Section 1 of Article XV of the Constitution of the State of Oklahoma. The appointive members of the Authority may be removed by the Governor at any time with or without cause.

The authority shall elect one (1) of the appointed members as Chairman and another as Vice Chairman, and shall also elect a Secretary and Treasurer. Three (3) members of the Authority shall constitute a quorum and the vote of three (3) members shall be necessary for any action taken by the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority.

Before the issuance of any turnpike revenue bonds under the provisions of this Act, each appointed member of the Authority shall execute a surety bond in the penal sum of Twenty-five Thousand Dollars (\$25,000.00) and the Secretary and Treasurer shall execute a surety bond in the penal sum of One Hundred Thousand Dollars (\$100,000.00), each such surety bond to be conditioned upon the faithful performance of the duties of his office, to be executed by a surety company authorized to transact business in the State of Oklahoma as surety and to be approved by the Governor and filed in the office of the Secretary of State.

The members of the Authority shall not be entitled to compensation for their services but each member shall be reimbursed for his actual expenses necessarily incurred in the performance of his duties. All expenses incurred in carrying out the provisions of this Act shall be payable solely from funds provided under the authority of this Act and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall have been provided under the authority of this Act.

SECTION 4. As used in this Act, the following words and terms shall have the following meanings, unless the context shall indicate another or different meaning or intent:

(a) The word "Authority" shall mean the Oklahoma Turnpike Authority, created by Section 3 of this Act, or, if said Authority shall be abolished, the Board, body or commission succeeding to the principal functions thereof or to whom the powers given by this Act to the Authority shall be given by law.

(b) The word "project" or the words "turnpike project" shall mean any express highway, super-highway or motorway constructed under the provisions of this Act by the Authority, and shall embrace all bridges, tunnels, overpasses, underpasses, inter-changes, entrance plazas, approaches, free access roads, bridges, and road construction, toll houses, service stations, and administration, storage and other buildings which the Authority may deem necessary for the operation of such turnpike, together with all property, rights, easements and interests which may be acquired by the Authority for the construction or the operation of such turnpike, provided, that the Authority may operate service stations and concessions only by leasing the same to the highest and best bidder therefor, and all other things being equal shall give preference to veterans of World War II.

(c) The word "cost" as applied to a turnpike project shall embrace the cost of construction, the cost of the acquisition of all land, rights-of-way, property, rights, easements and interests acquired by the Authority for such construction, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one (1) year after completion of construction, cost

of traffic estimates and of engineering and legal expenses, plans, specifications, surveys, estimates of cost and of revenues, other expenses necessary or incident to determining the feasibility or practicability of constructing any such project, administrative expense, and such other expense as may be necessary or incident to the construction of the project; the financing of such construction and the placing of the project in operation. Any obligation or expense hereafter incurred by the State Highway Commission with the approval of the Authority for traffic surveys, borings, preparation of plans and specifications, and other engineering services in connection with the construction of a project shall be regarded as a part of the cost of such project and shall be reimbursed to the State out of the proceeds of turnpike revenue bonds hereinafter authorized.

(d) The word "owner" shall include all individuals, co-partnerships, associations or corporations having any title or interest in any property, rights, easements and interests authorized to be acquired by this Act.

SECTION 5. The Authority is hereby authorized and empowered:

(a) To adopt by-laws for the regulation of its affairs and the conduct of its business;

(b) To adopt an official seal and alter the same at pleasure;

(c) To maintain an office at such place or places within the State as it may designate:

(d) To sue and be sued in its own name, plead and be impleaded; provided, however, that any and all actions at law or in equity against the Authority shall be brought in the county in which the principal office of the Authority shall be located; or in the County of the residence of the plaintiff, or in the County where the Cause of Action arose. All privileges granted to the Authority and duties enjoined upon the Authority by the provisions of this Act may be enforced in a court of competent jurisdiction in an action in mandamus.

(e) To construct, maintain, repair and operate a turnpike project and highway which with its access road construction and connections shall extend between the

cities of Tulsa and Oklahoma City along such a route as will not be a greater distance than approximately one-half mile from the city limits of the following cities and towns: Sapulpa, Bristow, Stroud, and Chandler; and in passing through or in proximity to such named towns and cities such road shall be located as nearly as possible and practicable along and upon the new proposed survey and location of Highway 66, as now appears in the office of the State Highway Engineer, and it shall be the duty of such Authority to construct, with entrances, a suitable and adequate access road, to be approved by the Highway Commission of the State of Oklahoma, connecting such turnpike with the principal business districts of each of said named towns and cities. Provided further, the actual construction of said Turnpike Road must be started within two (2) years from the effective date of this Act and prosecuted in a diligent manner until the said project is completed.

(f) To issue turnpike revenue bonds of the Authority, payable solely from revenues, for the purpose of paying all or any part of the cost of any one or more turnpike projects;

(g) Subject to the approval of the Corporation Commission of the State of Oklahoma, as hereinafter provided, to fix and revise from time to time tolls for the use of any turnpike project; provided that the tolls when so fixed, plus revenues derived from other sources, shall, when applied to the estimated amount of traffic, produce sufficient revenue (a) to pay for the annual cost of the operation, maintenance and repair of such project, (b) to pay as and when due the principal and interest on the bonds issued to pay for such project, and (c) to accumulate and maintain such reserves as are provided for in the resolution or trust indenture under which such bonds are issued or secured. The Authority before making effective any toll charges so fixed or revised shall file an application with the Corporation Commission requesting it approve said toll charges. Said application shall set forth the toll charges so fixed or revised by it and all relevant facts. The Corporation Commission shall set said application for hearing and shall give such notice thereof that it shall deem sufficient. If from the facts developed at said hearing the Corporation Commission finds that the said toll charges will not pro-

duce more revenue than is necessary to meet the requirements of (a), (b) and (c) above after taking into consideration the revenue, if any, to be derived from other sources it shall approve said toll charges; if, however, it finds that the total revenues from said toll charges, plus revenues from other sources, will be less than or exceed the requirements of (a), (b) and (c) above the Corporation Commission shall increase or reduce such charges so that the revenues resulting therefrom, together with said revenues from other sources, will approximately meet the requirements of (a), (b), and (c) above. The toll charges so approved, or increased, or reduced, shall become effective immediately. An appeal may be taken by the Authority or any other interested party from the order of the Corporation Commission to the Supreme Court of Oklahoma in the same manner and under the same conditions as are prescribed by law for an appeal from an order of the Corporation Commission fixing rate for a public utility. The Corporation Commission and the Supreme Court, respectively, in exercising the jurisdiction vested in them hereunder shall give precedence to the rate questions coming before them and shall pass upon them as speedily as possible.

Any common carrier having authority on effective date of this Act to operate on Highway 66 between Oklahoma City and Tulsa or between any points upon Highway 66 between Oklahoma City and Tulsa, shall be granted without further showing authority to operate over said Turnpike project, any and all points located therein or within approximately one-half mile thereof, which such carrier on the effective date hereof, has authority to serve. But nothing herein shall be construed as granting any new operation rights to any common carriers.

(h) To acquire, hold and dispose of real and personal property in the exercise of its powers and the performance of its duties under this Act;

(i) To acquire in the name of the Authority by purchase or otherwise, on such terms and conditions and in such manner as it may deem proper, or by the exercise of the right of condemnation in manner hereinafter provided, such public or private lands, including public parks, playgrounds or reservations, or parts thereof or rights therein, rights-of-way, property, rights, easements and interests,

as it may deem necessary for carrying out the provisions of this Act, and that all public property damaged in carrying out the powers granted by this Act shall be restored or repaired and placed in its original condition as nearly as practicable;

(j) To designate, except as is provided for herein, the locations, and establish, limit and control such points of ingress to and egress from each turnpike project as may be necessary or desirable in the judgment of the Authority to insure the proper operation and maintenance of such project, and to prohibit entrance to such project from any point or points not so designated;

(k) To make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act, and to employ consulting engineers, attorneys, accountants, construction and financial experts, superintendents, managers, and such other employes and agents as may be necessary in its judgment, and to fix their compensation; provided, that all such expenses shall be payable solely from the proceeds of turnpike revenue bonds issued under the provisions of this Act or from revenues;

(l) To receive and accept from any federal agency grants for or in aid of the construction of any turnpike project, provided, the acceptance of such grants will not reduce the amount of Federal Aid for the construction, repair or maintenance of farm-to-market roads and other highways and bridges in this State; and to receive and accept aid or contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants and contributions may be made;

(m) To adopt such rules and regulations, and to do any and all things necessary to comply with rules, regulations or requirements of the United States Bureau of Public Roads or any other federal agency administering any law enacted by the Congress of the United States to aid or encourage the construction of highways; and

(n) To do all things necessary or convenient to carry out the powers expressly granted in this Act, subject to the following restrictions and limitations: The

authority shall, when contracting for construction work, divide such work into paving projects, bridge projects, including underpasses and overpasses, and earth moving and/or miscellaneous projects, according to the type of work to be done and each project shall be let under a separate contract or contracts and no contracts or project shall include more than one (1) of said types of construction work. No contract for paving work shall exceed approximately One Million Dollars (\$1,000,000.00), and no contract for earth work and/or for miscellaneous work shall exceed the sum of approximately Five Hundred Thousand Dollars (\$500,000.00). No contract for bridge construction or underpasses or overpasses shall exceed the sum of approximately One Million Dollars (\$1,000,000.00). Each contract for construction work shall contain a provision that seventy-five per cent (75%) of all labor employed on the project shall be residents of Oklahoma. Provided however, that no tied bids shall be accepted.

(o) It shall be unlawful for any member, officer, or employee of the Authority to transact with the Authority, either directly or indirectly, any business for profit of such member, officer, or employee; and any person, firm, or corporation knowingly participating therein shall be equally liable for violation of this provision.

The term "business for profit" shall include, but not be limited to, the acceptance or payment of any fee, commission, gift, or consideration to such member, officer, or employee.

Violation of any of the provisions of this Section shall constitute a felony, and shall be punishable by a fine of not less than Five Hundred Dollars (\$500.00) and not more than Five Thousand Dollars (\$5,000.00), or by imprisonment in the State Penitentiary for not more than five (5) years, or by both such fine and imprisonment.

Provided, that the Authority shall contract for the construction of the project in parcels, and shall not offer for bids, or make any award, or let any construction contract in excess of Two Hundred Fifty Thousand (\$250,000.00) Dollars except for construction of bridges across streams and rivers.

SECTION 6. The Authority shall have authority and it shall be its duty to construct grade separations at inter-

sections of any turnpike project with state and federal highways and to change and adjust the lines and grades of such highways so as to accommodate the same to the design of such grade separation. The cost of such grade separations and any damage incurred in changing and adjusting the lines and grades of such highways shall be ascertained and paid by the Authority as a part of the cost of such turnpike project. The turnpike Authority shall have authority to construct grade separations at intersections of turnpike projects with county highways and it shall construct grade separations at intersections of any turnpike project with county highways used as mail or school bus routes; provided such grade separations shall not be farther apart than every other (or alternating) intersecting section line road, unless the County Commissioners having jurisdiction over the county highways shall consent and agree to a greater distance.

If the Authority shall find it necessary to change the location of any portion of any state or county highway or city street, it shall cause the same to be reconstructed in substantially the same type and in as good condition as the original highway at such location as may be designated by the agency having control over the highway or street being relocated, provided such new location is reasonable. The cost of such reconstruction and any damage incurred in changing the location of any such highway or street shall be ascertained and paid by the Authority as a part of the cost of such turnpike project.

Any public road or highway affected by the construction of any turnpike project may be vacated or relocated by the Board of County Commissioners in the manner now provided by law for the vacation or relocation of public roads, and any damages awarded on account thereof shall be paid by the Authority as a part of the cost of such project. Damages to the various counties for the relocation of county roads shall be assessed against the Authority as in condemnation proceedings.

In addition to the foregoing powers the Authority and its authorized agents and employees may enter upon any lands, waters and premises in the State for the purpose of making surveys, soundings, drillings and examinations as it may deem necessary or convenient for the purposes of this Act, and such entry shall not be deemed a tres-

pass, nor shall an entry for such purposes be deemed an entry under any condemnation proceedings which may be then pending. The Authority shall make reimbursement for any actual damages resulting to such lands, waters and premises as a result of such activities.

The State of Oklahoma hereby consents to the use of all lands owned by it, including lands lying under water, which are deemed by the Authority to be necessary for the construction or operation of any turnpike project; and the State of Oklahoma shall be paid reasonable compensation for the lands or property used, such compensation to be determined in the manner now provided by law for condemnation proceedings.

SECTION 7. The Authority is hereby authorized and empowered to acquire by purchase, whenever it shall deem such purchase expedient, any land, property, rights, rights-of-way, franchises, easements and other interests in lands as it may deem necessary or convenient for the construction or operation of any turnpike project upon such terms and at such price as may be considered by it to be reasonable and can be agreed upon between the Authority and the owner thereof, and to take title thereto in the name of the Authority, provided that such right and title shall be limited to the surface rights only and shall not include oil or mineral rights.

SECTION 8. Whenever a reasonable price cannot be agreed upon, or whenever the owner is legally incapacitated, or is absent, unknown or unable to convey valid title, the Authority is hereby authorized and empowered to acquire, by the exercise of the power of condemnation in accordance with and subject to the provisions of any and all existing laws and statutes applicable to the exercise of the power of condemnation of property for public use, any land, property, rights, rights-of-way, franchises, easements or other property deemed necessary or convenient for the construction or the efficient operation of any turnpike project or necessary in the restoration of public or private property damaged or destroyed. That such damage shall include among other proper elements damage by reason of making the remaining portion of such land or premises or farming or useable unit thereof being rendered inaccessible. In any condemnation proceedings the court having jurisdiction of the suit, action or proceeding may make such orders

as may be just to the Authority and to the owners of the property to be condemned and may require an undertaking or other security to secure such owners against any loss or damage by reason of the failure of the Authority to accept and pay for the property, but neither such undertaking or security nor any act or obligation of the Authority shall impose any liability upon the State or the Authority except such as may be paid from the funds provided under the authority of the act.

SECTION 9. The Authority is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of turnpike revenue bonds of the Authority for the purpose of paying all or any part of the cost of any one or more turnpike projects, but each project shall be covered by a separate resolution and separate bond issue or issues. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at a rate not to exceed four per cent (4%), and shall mature in annual installments at such time or times not exceeding the maximum time permitted by the Constitution of the State of Oklahoma, but in any event not more than thirty-five (35) years after their date as may be determined by the Authority. The Authority may cause the bonds or any installment thereof to be made redeemable before maturity, at the option of the authority, at such price or prices, and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. The bonds shall be signed by the Chairman of the Authority, and the official seal of the Authority shall be affixed thereto and attested by the Secretary and Treasurer of the Authority, and any coupons attached thereto shall bear the facsimile signature of the Chairman of the Authority. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained

in office until such delivery. All bonds issued under the provisions of this Act shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the State. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The Authority shall sell such bonds at public sale. Notice of the sale shall be published in a Thursday issue for two (2) successive weeks in a daily newspaper of general circulation in the State of Oklahoma. The date mentioned in the notice for the sale of the bonds shall not be less than ten (10) days after the first publication thereof. All bonds shall be sold to the bidder who will bid therefor par and accrued interest, and who shall stipulate in his bid the lowest rate of interest which such bonds shall bear. It is the intent of this Act that the bonds shall be awarded to the bidder bidding rate or rates of interest which will be the lowest interest cost during the life of the bonds. Any premium bid shall not be considered in figuring such interest cost but shall be considered only in case two (2) or more bidders bid the same interest cost. Upon the acceptance of such bid, the bonds shall be issued in accordance therewith and shall be delivered to the purchaser upon payment of the purchase price. Each bidder shall submit with his bid such sum in cash or its equivalent as may be determined by the Authority, and upon the acceptance of any bid such deposit shall become the property of the Authority and shall be credited on the purchase price of the bonds, upon the understanding that if the purchaser shall fail five (5) days after the tender of bonds, to pay the balance of the purchase price, said sale shall be thereby annulled and said deposit shall in such event be retained by the Authority and credited to the account for which such bonds are being issued and shall be used accordingly. All other deposits shall be returned. The Authority shall have the right to reject all bids and re-advertise the bonds for sale. The bonds need not be issued and sold in series. In no event shall the bonds be sold at a price so low as to require the payment of interest on the money received therefor at more than four (4) percent,

computed with relation to the absolute maturity of the bonds in accordance with the standard tables of bond values, excluding, however, from such computations the amount of any premium to be paid on the redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the payment of the cost of the turnpike project for which such bonds shall have been issued, and shall be disbursed in such manner and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this Act without obtaining the consent of any department, division, commission, board, bureau or agency of the State, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, or things which are specifically required by this Act. Provided further, that any department, sub-division, commission, board, bureau or agency of the State of Oklahoma, are hereby prohibited from bidding, purchasing or investing in any bonds issued under this Act.

SECTION 10. In the discretion of the Authority any bonds issued under the provisions of this Act may be se-

cured by a trust agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. Such trust agreement may pledge or assign the tolls and other revenues to be received from the project constructed by use of the proceeds of the bonds, but shall not convey or mortgage any turnpike project or any part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the turnpike project in connection with which such bonds shall have been authorized, and the custody, safeguarding and application of all moneys, and provisions for the employment of consulting engineers in connection with the construction or operation of such turnpike project or projects. It shall be lawful for any bank or trust company incorporated under the laws of the State which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corporations. In addition to the foregoing, any such trust agreement may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement may be treated as a part of the cost of the operation of the turnpike project or projects.

SECTION 11. The Authority, subject to the provisions hereof, is hereby authorized to fix, revise, charge and collect tolls for the use of each turnpike project and the different parts or sections thereof, except for use by law enforcement officers and agencies who shall be entitled to free use of every such project in the performance of official duties, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the paved portion, for

placing thereon telephone, telegraph, electric light or power lines, gas stations, garages, stores, hotels, restaurants and advertising signs, or for any other purpose except for tracks for railroad or railway use, and to fix the terms, conditions, rents and rates of charges for such use. Such tolls, subject to the other restrictions hereof, shall be so fixed and adjusted in respect of the aggregate of tolls from the turnpike project in connection with which the bonds of any issue shall have been issued as to provide a fund sufficient with other revenues, if any, to pay (a) the cost of maintaining, repairing and operating such turnpike project, and (b) the principal of and the interest of such bonds as were issued to construct such project as the same shall become due and payable, and to create reserves for such purposes. The tolls and all other revenues derived from each turnpike project in connection with which the bonds of any issue shall have been issued, except such part thereof as may be necessary to pay such cost of maintenance, repair and operation and to provide such reserves therefor as may be provided for in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or such trust agreement in a separate sinking fund which is hereby pledged to, and charged with, the payment of (1) the interest upon such bonds as such interest shall fall due, (2) the principal of such bonds as the same shall fall due, (3) the necessary charges of paying agents for paying principal and interest, and (4) the redemption price or the purchase price of bonds retired by call or purchase as therein provided, which are a charge against such fund. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another. The moneys in the sinking fund, less such reserve as may be provided in such resolution or trust agreement, if not used within a reasonable time for the purchase of bonds for cancellation as above provided, shall be applied to the redemption of bonds at the redemption price then applicable. The moneys in each separate sinking fund shall not be used for the payment,

purchase or redemption of any bonds which were not issued to construct the project from which such moneys were derived. Any person who leases, rents or acquires control of any gas station, garage, stores, hotels, restaurants, must have been a resident of, or have been doing business in, Oklahoma for the past five (5) years. Notwithstanding anything else herein containing to the contrary, the Corporation Commission of the State of Oklahoma shall exercise the jurisdiction now or hereafter vested in it to regulate and control the operation of motor carriers of passengers and freight, using or desiring to use any turnpike project in the manner and to the extent that it regulates or controls such carrier using the highways of the State, but shall not discriminate against any group or class or the individual member thereof in fixing the amount of toll, rents or charge for the use of the Turnpike project.

SECTION 12. All moneys received pursuant to the authority of this Act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this Act. The resolution authorizing the bonds of any issue or the trust agreement securing such bonds shall provide that any officer to whom, or any bank or trust company to which, such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this Act and such resolution or trust agreement may provide.

SECTION 13. Any holder of bonds issued under the provisions of this Act or any of the coupons appertaining thereto, and the trustee under the trust agreement, except to the extent the rights herein given may be restricted by such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the State or granted hereunder or under such trust agreement or the resolution authorizing the issuance of such bonds, and may enforce and compel the performance of all duties required by this Act or by such trust agreement or resolution to be performed by the Authority or by any officer thereof, including the fixing, charging and collecting of tolls.

SECTION 14. The exercise of the powers granted by this Act will be in all respects for the benefit of the people

of the State, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of turnpike projects by the Authority will constitute the performance of essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon any turnpike project or any property acquired or used by the Authority under the provisions of this Act or upon the income therefrom, and the bonds issued under the provisions of this Act, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the State. The Authority is hereby limited in its power to acquire property to the acquisition of property which is necessary to the construction and operation of the turnpike. And all property, both real and personal, belonging to such Turnpike Authority that is leased for concessions, such as filling stations and restaurants, shall be subject to taxation, the same as other privately owned property.

SECTION 15. Bonds issued under the provisions of this Act are hereby made securities in which all banks, trust companies, trust and loan associations, investment companies and others carrying on a banking business, all insurance companies and insurance associations and others carrying on an insurance business, may legally and properly invest funds, including capital in their control or belonging to them. Provided such bonds shall not be used by any depository in securing county or state funds.

SECTION 16. Each turnpike project when constructed and opened to traffic shall be maintained and kept in good condition and repair by the Authority. Each such turnpike project shall also be policed and operated by such force of police, toll-takers and other operating employes as the Authority may in its discretion employ.

All private property damaged or destroyed in carrying out the powers granted by this Act shall be restored or repaired and placed in its original condition as nearly as practicable or adequate compensation made therefor out of funds provided under the authority of this Act.

All counties, cities, villages, townships and other political subdivisions and all public agencies and commissions of the State of Oklahoma, notwithstanding any contrary provision of law, are hereby authorized and empowered to

lease, lend, grant or convey to the Authority at its request upon such terms and conditions as the proper authorities of such counties, cities, villages, townships, other political subdivisions or public agencies and commissions of the State may deem reasonable and fair and without the necessity for any advertisement, order of court or other action or formality, other than the regular and formal action of the authorities concerned, any real property which may be necessary or convenient to the affectuation of the authorized purposes of the Authority, including public roads and other real property already devoted to public use.

SECTION 17. When all bonds issued under the provisions of this Act in connection with any turnpike project and the interest thereon shall have been paid or a sufficient amount for the payment of all such bonds and the interest thereon to the maturity thereof shall have been set aside in trust for the benefit of the bondholders, such project, if then in good condition and repair to the satisfaction of the State Highway Commission, shall become part of the State Highway System and shall thereafter be maintained by the State Highway Commission free of tolls.

SECTION 18. The Authority is authorized in its discretion to file an application with the Supreme Court of Oklahoma for the approval of any bonds to be issued hereunder, and exclusive original jurisdiction is hereby conferred upon the Supreme Court to hear and determine each such application. It shall be the duty of the court to give such applications precedence over the other business of the court and to consider and pass upon the applications and any protests which may be filed thereto as speedily as possible. Notice of the hearing on each application shall be given by a notice published in a newspaper of general circulation in the state that on a day named the Authority will ask the court to hear its application and approve the bonds. Such notice shall inform all persons interested that they may file protests against the issuance of the bonds and be present at the hearing and contest the legality thereof. Such notice shall be published one time not less than ten (10) days prior to the date named for the hearing and the hearing may be adjourned from time to time in the discretion of the court. If the court shall be satisfied that the bonds have been properly authorized in accordance with this Act and that when issued, they will

constitute valid obligations in accordance with their terms, the court shall render its written opinion approving the bonds and shall fix the time within which a petition for rehearing may be filed. The decision of the court shall be a judicial determination of the validity of the bonds, shall be conclusive as to the Authority, its officers and agents, and thereafter the bonds so approved and the revenues pledged to their payment shall be incontestable in any court in the State of Oklahoma.

SECTION 19. The Authority is hereby authorized to provide by resolution for the issuance of turnpike revenue refunding bonds of the Authority for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this Act, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. Each refunding issue shall be limited to the project in connection with which the bonds being refunded were issued and revenues pledged to pay any such refunding issue shall be limited to the revenue derived from said separate project. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same, shall be governed by the provisions of this Act in so far as the same may be applicable.

SECTION 20. The Authority shall make and submit to the Governor, on or before December 31 of each year, a full report showing anticipated projects, projects under construction and projects in operation, and the financial condition of the Authority and the sinking fund of each separate project, and such other information as the Governor shall require.

SECTION 21 The foregoing sections of this Act shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing; provided, however, that the issuance of turnpike revenue bonds or turnpike revenue refunding bonds under the provisions of this Act need not comply with the requirements of any other law applicable to the issuance of bonds.

SECTION 22. This Act, being necessary for the welfare of the State and its inhabitants, shall be liberally construed to effect the purposes thereof; provided that until specifically authorized by the Legislature the provisions of this Act shall not be utilized to construct and operate any toll turnpike except between the cities of Oklahoma City and Tulsa. The minimum and maximum wages for the construction of the roads, highways and projects provided for in this Act shall be in accordance with the schedules of wages used or adopted by the Oklahoma State Highway Commission in the construction of State Highways.

SECTION 23. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions.

SECTION 24. All acts and parts of acts inconsistent with this Act are hereby repealed.

"§ 809. The supervisors of any district shall have authority to formulate regulations governing use of lands within the district in the interest of conserving soil and soil resources and preventing and controlling soil erosion. The supervisors may conduct such public meetings and public hearings upon tentative regulations as may be necessary to assist them in this work. The supervisors shall not have authority to enact such land-use regulations into law until after they shall have caused due notice to be given of their intention to conduct a referendum for submission of such regulations to the occupiers of lands lying within the boundaries of the district for their indication of approval or disapproval of such proposed regulations, and until after the supervisors have considered the result of such referendum. The proposed regulations shall be embodied in a proposed ordinance. Copies of such proposed ordinance shall be available for the inspection of all eligible voters during the period between publication of such notice and the date of the referendum. The notices of the referendum shall recite the contents of such proposed ordinance, or shall state where copies of such proposed ordinance may be examined. The question shall be submitted by ballots upon which the words "For approval of the proposed Ordinance No. ---- prescribing land-use regulations for conservation of soil and prevention of erosion" and "Against approval of proposed Ordinance No. ----, prescribing land-use regulations for conservation of soil and prevention of erosion" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose approval of such proposed ordinance. The supervisors shall supervise such referendum, shall prescribe appropriate regulations governing the conduct thereof, and shall publish the result thereof. All owners of land within the district shall be eligible to vote in such referendum. Only such land occupiers shall be

eligible to vote. Any such land occupier shall have a right to cast a vote either by mail or by agent authorized in writing, if such land occupier is absent from the district on the day of the election, and the State Committee shall provide appropriate regulations therefor. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

"The supervisors shall not have authority to enact such proposed ordinance into law unless *ninety (90%) percent* of the votes cast in such referendum shall have been cast for approval of the said proposed ordinance. The approval of the proposed ordinance by a *ninety (90%) percent* majority of the votes cast in such referendum shall not be deemed to require the supervisors to enact such proposed ordinance into law. Land-use regulations prescribed in ordinances adopted pursuant to the provisions of this Section by the supervisors of any district shall have the force and effect of law in the said district and shall be binding and obligatory upon all occupiers of lands within such district.

"Any occupier of land within such district may at any time file a petition with the supervisors asking that any or all of the land-use regulations prescribed in ordinance adopted by the supervisors under the provisions of this Section shall be amended, supplemented, or repealed. Land-use regulations prescribed in any ordinance adopted pursuant to the provisions of this Section shall not be amended, supplemented, or repealed except in accordance with the procedure prescribed in this Section for adoption of land-use regulations. Referenda on adoption, amendment, supplementation, or repeal of land-use regulations shall not be held more often than once in six (6) months.

The regulations to be adopted by the supervisors under the provisions of this Section may include:

"1. Provisions requiring the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check-dams, ponds, dikes, ditches, and other necessary structures;

"2. Provisions requiring observance of particular methods of cultivation including contour cultivating, contour furrowing, lister furrowing, sowing, planting, strip cropping, seeding and planting of lands to water-conserving and erosion-preventing plants, trees and grasses, for-estation, and revegetation;

"3. Specifications of cropping programs and tillage practices to be observed;

"4. Provisions requiring the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on;

"5. Provisions for such other means, measure, operations and programs as may assist conservation of soil resources and prevent or control soil erosion in the district, having due regard to the legislative findings set forth in Section 2 of this Act.

"The regulations shall be uniform throughout the territory comprised within the district except that the supervisors may classify the lands within the district with reference to such factors as soil type, degree of slope, degree of erosion threatened or existing, cropping and tillage practice in use, and other relevant factors, and may provide regulations varying with the type or class of land affected, but uniform as to all lands within each class or type. Copies of land-use regulations adopted under the provisions of this Section shall be printed and made available to all occupiers of lands lying within the district."

Should any such sheriff so fail to serve the same and to make due the proper return, and to seize and sell, under supervision, of the court, any property of interest in property, subject to such writ, he and all his sureties shall be amerced to the Commissioners of the Land Office in the manner provided by law for any neglect or delay, and likewise shall the clerk of such court or any officer charged with any duty under such order for writ of execution, the writ, or accounting to be had for any money or property thereunder, be amerced for his neglect or delay as provided by law.

SECTION 3. Should any sheriff, in serving out a writ of execution as by this Act provided, be wholly unable to find the debtor on whom such writ of execution should be served, and/or to find any property or interest in property belonging to such debtor, subject to seizure and sale under such writ, he shall make diligent inquiry as to the present whereabouts of such debtor or any property belonging to him or in which he may have an interest and to indicate on his return of the writ the information so secured. If such return indicates the probable whereabouts of such debtor or property if within this State,

it shall be the duty of the court clerk forthwith to serve out a writ of execution to the sheriff of such county, as in foreign process; and upon receiving such writ from the court clerk of a county other than his own it shall be the duty of such sheriff to proceed thereunder with all the vigor and dispatch, and subject to the same penalties of amercement, as if the same had been served out of the courts of his own county.

SECTION 4. All expense of the service of process hereunder shall, upon proper claim approved by the judge of the court having jurisdiction of the deficiency judgment, be paid by the court clerk out of the court fund of his county, and such expense is hereby authorized to be appropriated for and paid therefrom, but shall be added to the accumulated costs in such case and, when collected as and with such other costs, the said court fund shall be reimbursed for any such costs therefore paid therefrom.

SECTION 5. Within six months after the procedures hereinbefore provided for full service under writ of execution have been fairly and vigorously performed and done (including amercement proceedings against all officers neglectful or untimely delaying their duties, and their sureties), it shall be the duty of the Commissioners of the Land Office to order, direct, and require that all deficiency judgments subject to the provisions of this Act remain unsatisfied either in whole or in part, be sold at public auction in the manner herein prescribed.

SECTION 6. Before publication for purpose of sale of deficiency judgments hereunder, an appraisal shall be made of each such judgments or unliquidated part thereof, by three appraisers appointed by the School Land Commission or their authorized agent; said appraisers shall be citizens and freeholders of the county in which the judgment was taken and is of record, who shall estimate its probable value in light or any prospect, inheritable or otherwise, of the debtor, acquire property or success in business, industry, or enterprise to meet the same. Such appraisal shall be filed with the Commissioners of the Land Office and with the court records and files of such judgment.

SECTION 7. After appraisal, a publication shall be had in four (4) consecutive weekly issues of some news-

paper of general circulation in the county of the court having jurisdiction of the judgments to be sold, fixing a day for such sale to begin in such office or room in the court house as shall be named or stated in said notice between the hours of Ten (10:00) A. M. and Four (4:00) P. M. of such day and so continuing from day to day between the same hours until such sale is completed, offering for sale to the highest bidder for cash the deficiency judgments listed in the publication, which shall be detailed by the name of the debtor and the unliquidated amount of the judgment, accumulated interest and costs, stated in one amount and the appraised value thereof in another amount as to each judgment, vesting the interest of the State, without recourse, in the purchase, with all rights and privileges therein save that of sovereignty. The cost of such publication shall be met from the "Depletion, Management and Sale" fund of the Land Office.

SECTION 8. On the day of the sale, conducted by such person as is so directed by the Commissioners of the Land Office, the deficiency judgments so advertised shall be sold for cash in hand, provided the highest and best bid for cash be not less than seventy-five percent (75%) of the appraised value thereof. Sale may be had thereof singly or in groups. All such judgments sold shall be assigned without recourse to the purchaser, in due form, and such assignment shall be regularly entered by the court clerk upon his record and judgment roll without cost.

SECTION 9. No running of time while such judgments were owned and held by the State shall be construed as having run against the purchaser of any money judgment taken by the State; but he shall have all the time provided by law for judgments privately owned as if it had first been rendered as of the date of the sale herein provided for.

SECTION 10. No recovery on indebtedness due the Commissioners of the Land Office accomplished under this or any other Act, if less than the total due, shall ever be prorated to the trust fund (whether the permanent Common School fund of any permanent State Educational Institutional fund) and the revenue account thereof, but, under guaranty of the Constitution to preserve the corpus of the trust, all or so much of the moneys so recovered

shall first be applied or credited to the amount or balance due the permanent trust fund, and only the residue, if any, shall be credited to revenue or distributive earnings of such fund. If recovery on any deficiency judgment had under this Act be insufficient to satisfy the balance due by such debtor to the corpus of the trust, if any, the proper officers shall forthwith order and direct the transfer from any moneys appropriated and set aside by the Legislature to restore losses in the permanent Common School fund or any permanent State Educational Institutional fund, to the trust fund involved herein, in sum sufficient to offset such otherwise irrecoverable loss. Any loss to the revenue or earnings account of the Common School or any State Educational Institutional fund occasioned by the sale of a deficiency judgment or residue thereof under this Act shall be deemed satisfied and liquified by the sale thereof.

SECTION 11. The provisions of this Act are mandatory and the proceedings herein provided shall be set in motion as rapidly as means and the contingencies make possible but, by reason of volume as of the effective date of this Act, those deficiency judgments subject hereto not foreclosed or liquidated by sale by January 1, 1948 shall be included in such procedures to be brought to full accomplishment during 1948.

SECTION 12. The Commissioners of the Land Office shall direct and require that a report be prepared as of December 31, 1948 and file an authenticated copy thereof with the Governor, the President of the Senate, and the Speaker of the House by February 1, 1949, of compliance with this Act. Said report shall inform the Governor, and the Legislature of the amounts, in summary form, of trust funds and trust fund earnings, separately stated, as of the effective date of this Act, the amounts added thereto by court action, amounts collected by payment and by service of writ and by sale stated in separate amounts, and balance on hand. Such report shall support by detail, in the name of the debtor and the amount due from each, the deficiency judgments sold at auction since the effective date of this Act and those on hand as of December 31st, 1948.

SECTION 13. It being immediately necessary for the

preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in full force from and after its passage and approval.

S. 1941 § 601, AND SUBSECTION 1, OF 36 O. S. 1941 § 743 AND TO RATING ORGANIZATIONS; AMENDING 36 O. S. 1941 § § 131, 606 AND 612; REPEALING 36 O. S. 1941 § § 132, 133, 134, 135, 136, 137, 138, 145, AND 146 AND ALL ACTS AND PARTS OF ACTS IN CONFLICT THEREWITH; MAKING PROVISIONS OF ACT SEVERABLE; FIXING EFFECTIVE DATE OF ACT, AND DECLARING AN EMERGENCY.

BE IT ENACTED BY THE PEOPLE OF THE STATE
OF OKLAHOMA:

SECTION 1. The purpose of this Act is to enlarge the duties of the State Insurance Board and to promote the public welfare by regulating insurance rates to the end that they shall not be excessive, inadequate or unfairly discriminatory, and to authorize and regulate cooperative action among insurers in rate making and in other matters within the scope of this Act. Nothing in this Act is intended (1) to prohibit or discourage reasonable competition, or (2) to prohibit or encourage except to the extent necessary to accomplish the afore-mentioned purpose, uniformity in insurance rates, rating system, rating plans or practices. This Act shall be liberally interpreted to carry into effect the provisions of this Section.

SECTION 2. This Act applies to fire, marine and inland marine, and to other kinds of insurance, all as authorized by Subsections 1, 2, and 12 of 36 O. S. 1941, § 6, Subsection 1 of 36 O. S. 1941, § 377, 36 O. S. 1941, § 601, and Subsection 1 of 36 O. S. 1941, § 743, on risks located in this State. Inland marine insurance shall be deemed to include insurance now or hereafter defined by statute, or by interpretation thereof, or, if not so defined or interpreted, by ruling of the State Insurance Board, hereinafter referred to as the Board, or as established by general custom of the business as inland marine insurance.

This Act shall not apply:

(a) To reinsurance, other than joint reinsurance to the extent stated in Section 11;

(b) To insurance of vessels or craft, their cargoes, marine builders' risks, marine protection and indemnity, or other risks commonly insured under marine, as distinguished from inland marine, insurance policies;

(c) To insurance of hulls of aircrafts, including their accessories and equipment, or against liability arising out of the ownership, maintenance or use of aircraft;

(d) To motor vehicle insurance, nor to insurance against liability arising out of the ownership, maintenance or use of motor vehicles;

(e) To Farmers Mutual Insurance Companies or-

ganized and licensed under 36 O. S. 1941, § § 321 to 346, inclusive, and 421 to 432, inclusive.

This Act applies to every insurer, including every stock or mutual company, reciprocal or inter-insurance exchange or Lloyds' Association, authorized by any provision of the laws of this State to transact any of said kinds of insurance.

If any kind of insurance, subdivision or combination thereof, or type of coverage, subject to this Act, is also subject to regulation by another rate regulatory Act of this State, an insurer to which both Acts are otherwise applicable shall file with the Board a designation as to which rate regulatory Act shall be applicable to it with respect to such kind of insurance, subdivision or combination thereof, or type of coverage.

SECTION 3.

(a) Rates shall be made in accordance with the following provisions:

1. Manual, minimum, class rates, rating schedules or rating plans, shall be made and adopted, except in the case of specific inland marine rates on risks specially rated.
2. Rates shall not be excessive, inadequate or unfairly discriminatory.
3. Due consideration shall be given to past and prospective loss experience within and outside this State, to the conflagration and catastrophe hazards, to a reasonable margin for underwriting profit and contingencies, to dividends, savings and unabsorbed premium deposits allowed or returned by insurers to their policy-holders, members or subscribers, and to past and prospective expenses both country-wide and those specially applicable to this State; and in the case of fire insurance rates consideration shall be given to the experience of the fire insurance business during a period of not less than the most recent five year period for which such experience is available.
4. Due consideration shall be given to all other relevant factors within and outside this State.

(b) Except to the extent necessary to meet the provisions of subdivision 2 of subsection (a) of this Section,

uniformity among insurers in any matters within the scope of this Section is neither required nor prohibited.

(c) Rates made in accordance with this Section may be used subject to the provisions of this Act.

SECTION 4.

(a) Every insurer shall file with the Board, except as to inland marine risks which by general custom of the business are not written according to manual rates or rating plans, every manual, minimum, class rate, rating schedule or rating plan, and every other rating rule, and every modification of any of the fore-going which it proposes to use. Every such filing shall state the proposed effective date thereof, and shall indicate the character and extent of the coverage contemplated. When a filing is not accompanied by the information upon which the insurer supports such filing, and the Board does not have sufficient information to determine whether such filing meets the requirements of the Act, it shall require such insurer to furnish the information upon which it supports such filing and, in such event, the waiting period shall commence as of the date such information is furnished. The information furnished in support of a filing may include (1) the experience or judgment of the insurer or rating organization making the filing, (2) its interpretation of any statistical data it relies upon, (3) the experience of other insurers or rating organizations, or (4) any other relevant factors. A filing and any supporting information shall be open to public inspection after the filing becomes effective. Specific inland marine rates on risks specially rated, made by a rating organization, shall be filed with the Board.

(b) An insurer may satisfy its obligation to make such filings by becoming a member of, or a subscriber to, a licensed rating organization which makes such filings, and by authorizing the Board to accept such filings on its behalf; provided, that nothing contained in this Act shall be construed as requiring any insurer to become a member of or a subscriber to any rating organization.

(c) The Board shall review filings as soon as reasonably possible after they have been made in order to determine whether they meet the requirements of this Act.

(d) Subject to the exception specified in subsection (e) of this Section, each filing shall be on file for a waiting period of fifteen days before it become effective, which period may be extended by the Board for an additional period not to exceed fifteen days if it gives written notice within such waiting period to the insurer or rating organization which made the filing that it need such additional time for the consideration of such filing. Upon written application by such insurer or rating organization, the Board may authorize a filing which it has reviewed to become effective before the expiration of the waiting period or any extension thereof. A filing shall be deemed to meet the requirements of this Act unless disapproved by the Board within the waiting period or any extension thereof.

(e) Specific inland marine rates on risks specially rated by a rating organization shall become effective when filed and shall be deemed to meet the requirements of this Act until such time as the Board reviews the filing and so long thereafter as the filing remains in effect.

(f) Under such rules and regulations as it shall adopt the Board may, by written order, suspend or modify the requirements of filing as to any kind of insurance, subdivision or combination thereof, or as to classes or risks, the rates for which cannot practicably be filed before they are used. Such orders, rules and regulations shall be made known to insurers and rating organizations effected thereby. The Board may make such examination as it may deem advisable to ascertain whether any rates affected by such order meet the standards set forth in sbdivision 2 of subsection (a) of Section 3.

(g) Upon the written application of the insured, stating his reasons therefor, filed with and approved by the Board, a rate in excess of that provided by a filing otherwise applicable may be used on any specific risk.

(h) Beginning ninety days after the effective date of this Act no insurer shall make or issue a contract or policy except in accordance with the filings which are in effect for said insurer as provided in this Act or in accordance with subsections (f) or (g) of this Section. This subsection shall not apply to contracts or policies for inland marine risks as to which filings are not required.

SECTION 5.

(a) If within the waiting period or any extension thereof as provided in subsection (d) of Section 4, the Board finds that a filing does not meet the requirements of this Act, it shall send to the insurer or rating organization which made such filing, written notice of disapproval of such filing specifying therein in what respects it finds such filing fails to meet the requirements of this Act and stating that such filing shall not become effective.

(b) If within thirty days after a specific inland marine rate on a risk specially rated by a rating organization, subject to subsection (e) of Section 4 has become effective, the Board finds that such filing does not meet the requirements of this Act, it shall send to the rating organization which made such filing written notice of disapproval of such filing specifying therein in what respects it finds that such filing fails to meet the requirements of this Act and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. Said disapproval shall not affect any contract made or issued prior to the expiration of the period set forth in said notice.

(c) If at any time subsequent to the applicable review period provided for in subsection (a) or (b) of this Section, the Board finds that a filing does not meet the requirements of this Act, it shall, after a hearing held upon not less than ten days' written notice, specifying the matters to be considered at such hearing, to every insurer and rating organization which made such filing, issue an order specifying in what respects it finds that such filing fails to meet the requirements of this Act, and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. Copies of said order shall be sent to every such insurer and rating organization. Said order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in said order.

d) Any person or organization aggrieved with respect to any filing which is in effect, may make written application to the Board for a hearing thereon, provided, however, that the insurer or rating organization that made the filing shall not be authorized to proceed under this subsection. Such application shall specify the grounds to be relied upon by the applicant. If the Board shall find

that the application is made in good faith, that the applicant would be so aggrieved if his grounds are established, and that such grounds otherwise justify holding such a hearing, it shall, within thirty days after receipt of such application, hold a hearing upon not less than ten days' written notice to the applicant and to every insurer and rating organization which made such filing.

If, after such hearing, the Board finds that the filing does not meet the requirements of this Act, it shall issue an order specifying in what respects it finds that such filing fails to meet the requirements of this Act, and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. Copies of said order shall be sent to the applicant and to every such insurer and rating organization. Said order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in said order.

(e) No manual, minimum, class rate, rating schedule, rating plan, or rating rule, or any modification of any of the foregoing, which has to be filed pursuant to the requirements of Section 4 of this Act, shall be disapproved if the rates thereby produced meet the requirements of this Act.

SECTION 6.

(a) A corporation, an unincorporated association, a partnership or an individual, whether located within or outside this State, may make application to the Board for license as a rating organization for such kinds of insurance, or subdivision or class of risk, or a part or combination thereof as are specified in its application and shall file therewith (1) a copy of its constitution, its articles of agreement or association or its certificate of incorporation, and of its by-laws, rules and regulations governing the conduct of its business, (2) a list of its members and subscribers, (3) the name and address of a resident of this State upon which notices or orders of the Board or process affecting such rating organization may be served, and (4) a statement of its qualifications as a rating organization. If the Board finds that the applicant is competent, trustworthy and otherwise qualified to act as a rating organization and that its constitution, articles of agreement or association or certificate of incorporation, and its by-laws, rules

and regulations governing the conduct of its business conform to the requirements of law, it shall issue a license specifying the kinds of insurance, or subdivision or class or risk or part or combination thereof for which the applicant is authorized to act as a rating organization. Every such application shall be granted or denied in whole or in part by the Board within sixty days of the date of its filing with it. Licenses issued pursuant to this Section shall remain in effect for three years unless sooner suspended or revoked by the Board. The fee for said license shall be twenty-five dollars. Licenses issued pursuant to this Section may be suspended or revoked by the Board after hearing upon notice, in the event the rating organization ceases to meet the requirements of this subsection. Every rating organization shall notify the Board promptly of every change in (1) its constitution, its articles of agreement or association, or its certificate of incorporation, and its by-laws, rules and regulations governing the conduct of its business, (2) its list of members and subscribers and (3) the name and address of the resident of this State designated by it upon whom notices or orders of the Board or process affecting such rating organization may be served.

(b) Subject to rules and regulations which have been approved by the Board as reasonable, each rating organization shall permit any insurer, not a member, to be a subscriber to its rating services for any kind of insurance, subdivision, or class of risk or a part or combination thereof for which it is authorized to act as a rating organization. Notice of proposed changes in such rules and regulations shall be given to subscribers. Each rating organization shall furnish its rating services without discrimination to its members and subscribers. The reasonableness of any rule or regulation in its application to subscribers, or the refusal of any rating organization to admit an insurer as a subscriber, shall, at the request of any subscriber or any such insurer, be reviewed by the Board at a hearing held upon at least ten days' written notice to such rating organization and to such subscriber or insurer. If the Board finds that such rule or regulation is unreasonable in its application to subscribers, it shall order that such rule or regulation shall not be applicable to subscribers. If the rating organization fails to grant or reject an insurer's application for subscribership within thirty days after it was made, the insurer has been rejected. If the Board finds that the

insurer has been refused admittance to the rating organization as a subscriber without justification, it shall order the rating organization to admit the insurer as a subscriber. If it finds that the action of the rating organization was justified, it shall make an order affirming its action.

(c) No rating organization shall adopt any rule the effect of which would be to prohibit or regulate the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers.

(d) Cooperation among rating organizations or among rating organizations and insurers in rate making or in other matters within the scope of this Act is hereby authorized, provided the filings resulting from such cooperation are subject to all the provisions of this Act which are applicable to filings generally. The Board may review such cooperative activities and practices and if, after a hearing, it finds that any such activity or practice is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, it may issue a written order specifying in what respects such activity or practice is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, and requiring the discontinuance of such activity or practice.

(e) Any rating organization may provide for the examination of policies, daily reports, binders, renewal certificates, endorsements or other evidences of insurance, or the cancellation thereof, and may make reasonable rules governing their submission. Such rules shall contain a provision that in the event any insurer does not within sixty days furnish satisfactory evidence to the rating organization of the correction of any error or omission previously called to its attention by the rating organization, it shall be the duty of the rating organization to notify the Board thereof. All information so submitted for examination shall be confidential.

(f) Any rating organization may subscribe for or purchase actuarial, technical or other services, and such services shall be available to all members and subscribers without discrimination.

SECTION 7. Every member of or subscriber to a rating organization shall adhere to the filings made on its

behalf by such organization except that any such insurer may make written application to the Board for permission to file a deviation from the class rates, schedules, rating plans or rules respecting any kind of insurance, or class of risk within a kind of insurance, or combination thereof. Such application shall specify the basis for the modification and a copy thereof shall also be sent simultaneously to such rating organization. The Board shall set a time and place for a hearing at which the insurer and such rating organization may be heard and shall give them not less than ten days' written notice thereof. In the event the Board is advised by the rating organization that it does not desire a hearing it may, upon the consent of the applicant, waive such hearing. In considering the application for permission to file such deviation the Board shall give consideration to the available statistics and the principles for rate making as provided in Section 3 of this Act. The Board shall issue an order permitting the deviation for such insurer to be filed if it finds it to be justified and it shall thereupon become effective. It shall issue an order denying such application if it finds that the resulting premium would be excessive, inadequate or unfairly discriminatory. Each deviation permitted to be filed shall be effective for a period of one year from the date of such permission unless terminated sooner with the approval of the Board.

SECTION 8. Any member of or subscriber to a rating organization may appeal to the Board from the action or decision of such rating organization in approving or rejecting any proposed change in or addition to the filing of such rating organization and the Board shall, after a hearing held upon not less than ten days' written notice to the appellant and to such rating organization, issue an order approving the action or decision of such rating organization or directing it to give further consideration to such proposal, or, if such appeal is from the action or decision of the rating organization, in rejecting a proposed addition to its filings, it may, in the event it finds that such action or decision was unreasonable, issue an order directing the rating organization to make an addition to its filings, on behalf of its members and subscribers, in a manner consistent with its findings, with a reasonable time after the issuance of such order.

SECTION 9. Every rating organization and every in-

surer which makes its own rates shall, within a reasonable time after receiving written request therefor and upon payment of such reasonable charge as it may make, furnish to any insured affected by a rate made by it, or to the authorized representative of such insured, all pertinent information as to such rate. Every rating organization and every insurer which makes its own rates shall provide within this state reasonable means whereby any person aggrieved by the application of its rating system may be heard, in person or by his authorized representative, on his written request to review the manner in which such rating system has been applied in connection with the insurance afforded him. If the rating organization or insurer fails to grant or reject such request within thirty days after it is made, the applicant may proceed in the same manner as if his application had been rejected. Any party affected by the action of such rating organization of such insurer on such request may, within thirty days after written notice of such action, appeal to the Board, who, after a hearing held upon not less than ten days' written notice to the appellant and to such rating organization or insurer, may affirm or reverse such action.

SECTION 10.

(a) Every group, association or other organization of insurers, whether located within or outside this state, which assist insurers which make their own filings or rating organizations in rate making, by the collection and furnishing of loss or expense statistics, or by the submission of recommendations, but which does not make filings under this Act, shall be known as an advisory organization.

(b) Every advisory organization shall file with the Board (1) a copy of its constitution, its articles of agreement or association or its certificate of incorporation and of its by-laws, rules and regulations governing its activities. (2) a list of its members, (3) the name and address of a resident of this state upon whom notices or orders of the Board or process issued at his direction may be served, and (4) an agreement that the Board may examine such advisory organization in accordance with the provisions of Section 12 of this Act.

(c) If, after a hearing, the Board finds that the furnishing of such information or assistance involves any act or practice which is unfair or unreasonable or otherwise

inconsistent with the provisions of this Act, it may issue a written order specifying in what respect such act or practice is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, and requiring the discontinuance of such act or practice.

(d) No insurer which makes its own filings nor any rating organization shall support its filings by statistics or adopt rate making recommendations, furnished to it by an advisory organization which has not complied with this Section or with an order of the Board involving such statistics or recommendations issued under subsection (c) of this Section. If the Board finds such insurer or rating organization to be in violation of this subsection it may issue an order requiring the discontinuance of such violation.

SECTION 11.

(a) Every group, association or other organization of insurance which engages in joint underwriting or joint reinsurance, shall be subject to regulation with respect thereto as herein provided, subject, however, with respect to joint underwriting, to all other provisions of this Act and with respect to joint reinsurance, to Sections 12, 15, 16, 17 and 21 to 23 of this Act.

(b) If, after a hearing, the Board finds that any activity or practice of any such group, association or other organization is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, it may issue a written order specifying in what respects such activity or practice is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, and requiring the discontinuance of such activity or practice.

SECTION 12. The Board shall, at least once in five years, make or cause to be made an examination of each rating organization licensed in this state as provided in Section 6, and it may, as often as it may deem it expedient, make or cause to be made an examination of each advisory organization referred to in Section 10 and of each group, association or other organization referred to in Section 11. The reasonable costs of any such examination shall be paid by the rating organization, advisory organization, or group, association or other organization, advisory organization, or group, association or other organization

examined upon presentation to it of a detailed account of such costs. The officers, managers, agents and employees of such rating organization, advisory organization, or group, association or other organization may be examined at any time under oath and shall exhibit all books, records, accounts, documents, or agreements governing its method of operation.

The Board shall furnish two copies of the examination report to the organization, group or association examined and shall notify such organization, group or association that it may, within twenty days thereafter, request a hearing on said report on any facts or recommendations therein. Before filing any such report for public inspection, the Board shall grant a hearing to the organization group or association examined. The report of any such examination, when filed for public inspection, shall be admissible in evidence in any action or proceeding brought by the Board against the organization, group or association examined, or its officers or agents, and shall be prima facie evidence of the facts stated therein. The Board may withhold the report of any such examination from public inspection for such time as it may deem proper.

In lieu of any such examination the Board may accept the report of any examination made by the insurance supervisory officials of another state, pursuant to the laws of such state.

SECTION 13.

(a) The Board shall promulgate reasonable rules and statistical plans reasonably adapted to each of the rating systems on file with it, which may be modified from time to time and which shall be used thereafter by each insurer in the recording and reporting of its loss and countrywide expense experience, in order that the experience of all insurers may be made available at least annually in such form and detail as may be necessary to aid it in determining whether rating systems comply with the standards set forth in Section 3. Such rules and plans may also provide for the recording and reporting of expense experience items which are specially applicable to this state and are not susceptible of determination by a prorating of countrywide expense experience. In promulgating such rules and plans, the Board shall give due consideration to the rating system

on file with it and, in order that such rules and plans may be as uniform as is practicable among the several states, to the rules and to the form of the plans used for such rating systems in other states. No insurer shall be required to record or report its loss experience on a classification basis that is inconsistent with the rating system filed by it. The Board may designate one or more rating organizations or other Agencies to assist it in gathering such experience and making compilations shall be made available subject to reasonable rules promulgated by the Board, to insurers and rating organizations.

(b) Reasonable rules and plans may be promulgated by the Board for the interchange of data necessary for the application of rating plans.

(c) In order to further uniform administration of rate regulatory laws, the Board and every insurer and rating organization may exchange information and experience data with insurance supervisory officials, insurers and rating organizations in other states and may consult with them with respect to rate making and the application of rating systems.

(d) The Board may make reasonable rules and regulations necessary to effect the purpose of this Act.

SECTION 14. No person or organization shall wilfully withhold information from, or knowingly give false or misleading information to, the Board, any statistical agency designated by the Board, any rating organization, or any insurer, which will affect the rates or premiums chargeable under this Act. A violation of this Section shall subject the one guilty of such violation to the penalties provided in Section 16 of this Act.

SECTION 15. No broker or agent shall knowingly charge, demand or receive a premium for any policy of insurance, except in accordance with the provisions of this Act. No insurer or employee thereof, and no broker or agent shall pay, allow, or give, or offer to pay, allow, or give, directly or indirectly, as an inducement to insurance, or after insurance has been effected, any rebate, discount, abatement, credit or reduction of the premium named in a policy of insurance, or any special favor or advantage in the dividends or other benefits to accrue thereon, or any valuable consideration or inducement whatever, not speci-

fied in the policy of insurance, except to the extent provided for in an applicable filing. No insured shall knowingly receive or accept, directly or indirectly, any such rebate, discount, abatement, credit, or reduction of premium, or any such special favor or advantage or valuable consideration or inducement.

Nothing in this Section shall be construed as prohibiting the payment of commissions or other compensation to duly licensed agents and brokers, nor as prohibiting any insurer from allowing or returning to its participating policyholders, members or subscribers, dividends, savings, or unabsorbed premium deposits. 36 O. S. 1941 § 149 shall not apply to any kinds of insurance subject to this Act.

SECTION 16. Any person or organization violating any provision of this Act shall be guilty of a misdemeanor, and upon conviction thereof, be punished by a fine of not less than twenty-five dollars nor more than five hundred dollars for each such violation. Such penalties may be in addition to any other penalty provided by law.

The Board may suspend the license of any rating organization or insurer which fails to comply with an order of the Board within the time limited by such order, or any extension thereof which the Board may grant. The Board shall not suspend the license of any rating organization or insurer for failure to comply with an order until the time prescribed for an appeal therefrom has expired or if an appeal has been taken, until such order has been affirmed. The Board may determine for a period fixed by it, unless it modifies or rescinds such suspension, or until the order upon which such suspension is based is modified, rescinded or reversed.

No license shall be suspended or revoked except upon a written order of the Board, stating its findings, made after a hearing held upon not less than ten days' written notice to such person or organization specifying the alleged violation.

SECTION 17.

(a) Any insurer or rating organization aggrieved by any order or decision of the Board made without a hearing may, within thirty days after notice of the order to the insurer or organization, make written request to the Board

for a hearing thereon. The Board shall hear such party or parties within twenty days after receipt of such request and shall give not less than ten days' written notice of the time and place of the hearing. Within fifteen days after such hearing the Board shall affirm, reverse or modify its previous action, specifying its reasons therefor. Pending such hearing and decision thereon the Board may suspend or postpone the effective date of its previous action.

(b) Nothing contained in this Act shall require the observance at any hearing of formal rules of pleading or evidence.

(c) Any order or decision of the Board shall be subject to review by appeal to the Supreme Court of Oklahoma at the instance of any party in interest. Such party in interest may appeal from such order or decision by filing with the Secretary of the Board, within fifteen days from the date of such order or decision, a notice of appeal, which shall specify the parties taking the appeal, shall designate the order or decision, or part thereof, appealed from and the name of the court to which the appeal is taken, and by filing a typewritten transcript of the record, together with a copy of the order or decision appealed from with the clerk of the Supreme Court within ninety days from the date of such order or decision; and by filing in the Supreme Court a petition in error, setting forth the order or decision complained of, and the particular cause or causes of objection thereto. If either of the parties to such appeal shall file written notice with the Secretary of the Board that any original exhibits offered in evidence before said Board are material to such appeal, the Secretary of the Board shall, under his signature and certificate, file said original exhibits with the clerk of the Supreme Court in said cause, in which event such exhibits need not be copied in the transcript of the record. Such appeal shall not stay the execution of any order or decision of the Board unless the Supreme Court shall, for cause shown, order that said decision or order be stayed pending such appeal, in which event the court shall determine the terms and conditions upon which same shall be stayed.

The Court may, in disposing of the issues before it, determine all issues of law and fact, and may modify, affirm or reverse the order or decision of the Board in whole or in part.

SECTION 18. 36 O. S. 1941, § 606 is hereby amended to read as follows:

"§ 606. There shall be maintained at all times assets for the payment of losses, in cash or securities, authorized by the laws of the State in which the principal office of the attorney is located, for the investment of similar funds of insurance companies doing the same kind of business in amount equal to fifty (50) percent of the premiums or deposits collected from subscribers on policies having one year or less to run and pro rata on those for longer periods, or in lieu thereof One Hundred (100) percent of the pro rata, unearned premiums or deposits collected from subscribers. In addition to the assets previously provided for in this Section, there shall also be maintained on deposit at the Exchange in the case of employer's liability and workmen's compensation insurance, a surplus fund in cash or such securities of not less than One Hundred Thousand Dollars (\$100,000.00) and in the case of Exchange writing the other kinds of insurance, a surplus fund in the sum of not less than Fifty Thousand Dollars (\$50,000.00). There shall also be maintained, as a claim or loss reserve, cash or such securities sufficient to discharge all liabilities on all outstanding leases arising under policies issued, the same to be calculated in accordance with the laws of the State relating to similar reserves for companies insuring similar risks. If at any time the amounts on hand are less than the foregoing requirements, the subscribers or their attorney for them shall make up the deficiency. If it appears that the amount of funds required in this Section has not been accumulated, then the subscribers or their attorney in fact for them shall immediately advance such sums as are needed to comply with the provisions of this Section and shall not be withdrawn, except with the approval of the Insurance Commission of the State wherein the Exchange is domiciled and shall not be treated as a liability at the Exchange. Such advances shall be repaid only out of the surplus funds of the Exchange."

SECTION 19. 36 O. S. 1941, § 612 is hereby amended to read as follows:

"§ 612. Except as herein provided no law of this

State relating to insurance rates and rating organizations, shall apply to such indemnity contracts or the exchange thereof; provided that the provisions of this Act shall not apply to the growing crops and farm property."

SECTION 20. 36 O. S. 1941, § 131 is hereby amended to read as follows:

"§ 131. There is hereby created the State Insurance Board, composed of the Insurance Commissioner, the State Fire Marshall, as ex-officio members and a third member to be appointed by the Governor, by and with the advice and consent of the Senate, who shall be secretary of said Board, and said Insurance Commissioner to be president of the State Insurance Board. The State Insurance Board shall have authority and supervision and regulation over fire and allied lines, casualty and surety insurance rates and rating bureaus, and the granting and revoking of insurance Agents' licenses, as is provided by law."

SECTION 21. 36 O. S. 1941, § § 132, 133, 134, 135, 136, 137, 138, 145 and 146, and all Acts and parts of Acts in conflict herewith are hereby repealed.

SECTION 22. If any section, subsection, subdivision, paragraph, sentence or clause of this Act is held invalid, or unconstitutional, such decision shall not affect the remaining portions of this Act.

SECTION 23. This Act shall take effect October 1st, 1947.

SECTION 24. It being immediately necessary for the preservation of the public peace, health, and safety, an emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in full force from and after its passage and approval.

Such application shall specify the grounds to be relied upon by the applicant. Copies of said order shall be sent to the applicant and to every such insurer and rating organization. Said order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in said order.

(f) Cooperation among rating organizations, advisory organizations, rating organizations and insurers, or among advisory organizations and insurers in rate making or in other matters within the scope of this Act is hereby authorized provided the rates resulting from such cooperation

are subject to all the provisions of this Act which are applicable to rates generally. The Board may review such cooperative activities and practices and if, after a hearing, reasonable or otherwise inconsistent with the provisions of this Act, it may issue a written order specifying in what respects such activity or practice is unfair or unreasonable or otherwise inconsistent with the provisions of this Act, and requiring the discontinuance of such activity or practice.

(a) The Board shall promulgate reasonable rules and statistical plans, reasonably adopted to each of the rating systems on file with it, which may be modified from time to time and which shall be used thereafter by each insurer in the recording and reporting of its loss and expense experience, in order that the experience of all insurers may be made available at least annually in such form and detail as may be necessary to aid it in determining whether rating systems comply with the standards set forth in Section 3. No insurer shall be required to record or report its loss experience on a classification basis that is inconsistent with the rating system filed by it.

(b) In order to further uniform administration of

Rate Regulatory Laws the Board and every insurer and rating organization may exchange information and experience data with insurance supervisory officials, insurers and rating organizations in other States and may consult with them with respect to rate making and the application of rating systems.

No insured shall knowingly receive or accept, directly or indirectly, any such rebate, discount, abatement, credit, or reduction or premium or any such special favor or advantage or valuable consideration or inducement. Nothing in this section shall be construed as prohibiting the payment of commissions or other compensation to duly licensed agents, nor as prohibiting any insurer from allowing or

returning to his participating policyholders, members or subscribers, dividends, savings, or unabsorbed premium deposits.

The Board shall not suspend or revoke the license of any rating organization or insurer for failure to comply with an order until the time prescribed for an appeal therefrom has expired or, if an appeal has been taken, until such order has been affirmed. The Board may determine when a suspension of license shall become effective and it shall remain in effect for a period fixed by it, unless it modifies or rescinds such suspension, or until the order upon which such suspension is based is modified, rescinded or revoked.

No license shall be suspended or revoked except upon a written order of the Board, stating its findings, made after a hearing held upon not less than ten days' written notice to such person or organization specifying the alleged violation.

The Board shall hear such party or parties within twenty days after receipt of such request and shall give not less than ten days' written notice of the time and place of the hearing. Within

fifteen days after such hearing the Board shall affirm, reverse or modify its previous action, specifying its reasons therefor. Pending such hearing and decision therein the Board may suspend or postpone the effective date of its previous action.

(b) Nothing contained in this Act shall require the observance at any hearing of formal rules or pleading or evidence.

(c) Any order or decision of the Board shall be subject to review by appeal to the Supreme Court of Oklahoma at the instance of any party in interest. Such appeal shall not stay the execution of any order or decision of the Board unless the Supreme Court shall, for cause shown, order that said decision or order be stayed pending such appeal, in which event the Court shall determine the terms and conditions upon which the same shall be stayed.

The Court may, in disposing of the issues before it, determine all issues of law and fact, and may modify, affirm or reverse the order or decision of the Board in whole or in part.

Seventy-Fourth Day, Wednesday, May 7, 1947 2255

ENGROSSED HOUSE AMENDMENT TO ENGROSS-
ED SENATE BILL NO. 150—By Paul.

AN ACT AMENDING 36 O. S. 1941 § § 184, 187, 218 (EIGHTH) AND 186, RELATING TO THE VALUATION OF LIFE INSURANCE POLICIES, DEFICIENCY RESERVES, NON-FORFEITURE PROVISIONS, RESERVES, AND PROVISIONS CONTAINED IN POLICIES; PROVIDING THAT THIS ACT SHALL NOT APPLY TO CERTAIN SOCIETIES AND ASSOCIATIONS; AND DECLARING AN EMERGENCY.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. 36 O. S. 1941 § 184 is hereby amended to read as follows:

§ 184. (a) The Insurance Commissioner shall annually make calculations of all outstanding policies, additions thereto, unpaid dividends, and all other obligations of every life insurance corporation doing business in this State. All valuations made by him, or by his authority, shall be made upon the net premium basis. The legal minimum standard for valuation of contracts issued before the first day of January, Nineteen Hundred and Ten, shall be the Actuaries or Combine Table of Mortality, with interest at four per cent per annum, and for valuation of contracts on or after said date *and before the effective date of this Act*, shall be the American Experience Table of mortality, with interest at three and one-half per centum per annum. *The legal minimum standard for valuation of policies issued on or after the effective date of this Act, shall be on the basis of the mortality table and interest rate specified in the respective policies, provided, that (1) the specified rate of interest shall not exceed three and one-half per cent per annum, (2) the specified table for policies of Ordinary Life Insurance shall be the American Experience Table of Mortality, the American Men Table of Mortality, or the Commissioners' 1941 Standard Ordinary Mortality Table, (3) the specified table for policies of Industrial Life Insurance shall be the Standard Industrial Mortality Table (1907), or the 1941 Standard Industrial Mortality Table.*

(b) The Commissioner may vary the standards of interest and mortality *and valuation methods* in the case

of corporations of *this State* other *States*, or foreign countries as to contracts issued by such corporations in *other States* or countries *other* than the United States, and in particular cases of invalid life and other hazards; and value policies in groups, use approximate averages for fractions of a year and otherwise, and accept the valuation of the Department of Insurance of any other State or country, if made upon the basis and according to standards not lower than required or authorized *by the laws of such other State or country*, in place of the valuation herein required.

(c) *If the gross premium charged by any life insurance company on any policy or contract is less than the premium for the policy or contract, according to the mortality table, rate of interest and method used in computing the reserve liability thereon as aforesaid, there shall be maintained on such policy or contract a deficiency reserve in addition to all other reserves required by law. For each such policy or contract the deficiency reserve shall be the present value, according to such standard, of an annuity, the amount of which shall equal the difference between the premium charged and such net premium required by the rules above stated and the term of which in years shall equal the number of annual premiums for the remainder of the premium-paying period.*

SECTION 2. 36 O. S. 1941, § 187, is hereby amended to read as follows:

§ 187. If the premium charged for term insurance under a limited payment life preliminary term policy providing for the payment of all premiums thereon in less than twenty years from the date of the policy or under an endowment preliminary term policy, exceeds that charged for like insurance, under twenty-year payment life preliminary term policies of the same company, the reserve thereon at the end of any year, including the first, shall not be less than the reserve on a twenty-payment life preliminary policy issued in the same year and at the same age, together with an amount which shall be equivalent to the accumulation of a net level premium sufficient to provide for a pure endowment at the end of the premium payment period equal to the difference between the value at the end of such period of such a twenty-payment life

preliminary term policy and the full reserve at such time of such limited payment life or endowment policy. *Provided, however, in policies which specify the Commissioners' 1941 Standard Ordinary Mortality Table, or the American Men Table of Mortality, issued after the effective date of this Act the said net level premium shall be sufficient to provide for a pure endowment at the maturity date of the policy or at the end of the premium payment period, if earlier than the maturity date, equal to the difference between the value at such maturity date or at the end of the premium period of such twenty payment life preliminary term policy and the full reserve at such time of such limited payment life or endowment policy.* L

SECTION 3. 36 O. S. 1941 § 218 (Eighth) is hereby amended to read as follows:

§ 218. (Eighth) That in event of default in premium payments after premiums shall have been paid for three (3) years, the insured shall be entitled to a stipulated form of insurance, the net value of which shall be at least equal to the reserve at the date of default on the policy and on dividend additions thereto, if any (the policy to specify the mortality table and rate of interest adopted for computing such reserve) less a specified percentage (not more than two and one-half) of the amount insured by the policy and of existing dividend additions thereto, if any, and less any existing indebtedness to the company on or secured by the policy. *Provided, that the policy may be surrendered to the company at its home office within one (1) month of date of default for a specified cash value at least equal to the sum which would otherwise be available for the purchase of insurance as aforesaid; provided, further, that the company may defer payment for not more than six (6) months after the application therefor is made. Provided, however, if a policy is valued according to a mortality table other than the American Experience Table of Mortality, the value of any extended term insurance, with accompanying pure endowment, if any, may be calculated according to rates of mortality not exceeding one hundred and thirty (130%) per cent of the rate of mortality according to the table used. This provision shall not be required in term insurance of twenty (20) years or less.*

SECTION 4. 36 O. S. 1941 § 186 is hereby amended to read as follows:

§ Section 186. Policies issued by life insurance companies doing business in this State may provide for not more than one year preliminary term insurance by incorporating in the provisions thereof *defining the basis of the options available upon default in premium payments*, a clause plainly showing that the first year's insurance under such policies is term insurance, purchased by the whole or a part of the premium to be received during the first policy year.

SECTION 5. The provisions of this Act shall not apply to Fraternal Societies licensed pursuant to 36 O. S. 1941 § § 261-266, and 271-292, inclusive, and Mutual Benefit Associations licensed pursuant to 36 O. S. 1941 § § 671-712, inclusive, except Mutual Benefit Associations doing business pursuant to 36 O. S. 1941 § 695(d).

SECTION 6. Nothing in this Act shall apply to industrial policies except Section 1 of this Act.

SECTION 7. All acts or parts of acts in conflict herewith are hereby repealed.

SECTION 8. It being immediately necessary for the preservation of public peace, health and safety, an emergency is hereby declared to exist by reason whereof this Act shall take effect and be in full force from and after its passage and approval.

To The President and Members of The Honorable Senate, Twenty-first Oklahoma Legislature

Gentlemen:

I wish to take this means of extending to you my personal and sincere gratitude for your co-operation and counsel during this legislative session.

It is my firm belief that the next two years will prove that you have written one of the brightest pages in Oklahoma's legislative history.

Due recognition and credit should go to our interim legislative committee, whose recommendations formed the basis for a large part of our program. Our people will look to members of the legislative council—created by this legislature—for continuation of the high standards set by this committee.

I fully appreciate the fact that many of your decisions were difficult to make, and that these decisions required both sound judgement and a high degree of courage. In making these decisions, you have given Oklahoma constructive legislation, which provides for practical advancements in state government.

You are entitled to a full measure of credit for the excellent job you have done, and you are deserving of the gratitude of all you have so ably represented and served.

Sincerely,
ROY J. TURNER

SENATE BILL NO. 150—By Conference Committee.

AN ACT AMENDING 36 O. S. 1941 § § 184, 186 AND SUBDIVISIONS SEVENTH, EIGHTH AND NINTH OF § 218, RELATING TO LIFE INSURANCE POLICIES, VALUATION THEREOF, LOAN AND NON-FORFEITURE PROVISIONS THEREIN; EXEMPTING INDUSTRIAL POLICIES FROM CERTAIN PROVISIONS OF THIS ACT; AND DECLARING AN EMERGENCY.

BE IT ENACTED BY THE PEOPLE OF THE STATE
OF OKLAHOMA:

Section 1, 36 O. S. 1941 § 184 is hereby amended to read as follows: § 183. The Insurance Commissioner shall annually make calculations of all outstanding policies, additions thereto, unpaid dividends, and all other obligations of every life insurance corporation licensed under Chapter 1 and 3 of 36 O. S. 1941. All valuations made by him, or by his authority, shall be made upon the net premium basis. The legal minimum standard for valuation of contracts issued before the first day of January, nineteen hundred and ten, shall be based upon the Mortality Table No. 1000 or Combined Experience Table of

Mortality, with interest at four per cent per annum, and for valuation of contracts on or after said date and prior to the first day of January, nineteen hundred and forty-seven, shall be the American Experience Table of Mortality or the American Men Table of Mortality, with interest at three and one-half per centum per annum. Policies issued on or after the first day of January, nineteen hundred and forty-seven shall be valued, at the option of the company, according to the American Experience Table of Mortality, the American Men Table of Mortality or the Commissioner's 1941 Standard Ordinary Mortality Table in the case of Ordinary policies, and the Standard Industrial Mortality Table (1907) or the 1941 Standard Industrial Mortality Table in the case of Industrial policies issued by life insurance companies subject to this act, with interest at not more than three and one-half per cent per annum. Policies may be valued, at the option of the company, according to the preliminary term method of valuation under the conditions prescribed in Section 186 as regards Industrial policies and in Sections 186 and 187 as regards Ordinary Policies, or according to the Commissioner's Reserve Valuation Method. In no event shall the reserve on any policy (except Industrial insurance) be less than the amount determined in accordance with the Commissioner's Reserve Valuation Method on the basis of the Mortality Table and rate of interest specified in the policy for calculating cash values. Reserves for any category of policies, contracts or benefits as established by the Insurance Commissioner, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, but the rate of rebate of interest used shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for therein. Provided, however, the reserves for participating life insurance policies may, with the consent of the Insurance Commissioner, be calculated according to a rate of interest lower than the rate of interest used in calculating the nonforfeiture benefits in such policies, with the further proviso that if such lower rate differs from the rate used in the calculation of the nonforfeiture benefits by more than one-half per cent ($\frac{1}{2}\%$) the company issuing such policies shall file with the In-

insurance Commissioner a plan providing for such equitable increases, if any, in the cash surrender values and non-forfeiture benefit in such policies as the Insurance Commissioner shall approve. The Commissioner may vary the standards of interest and mortality in the case of corporations of foreign countries as to contracts issued by such corporations in other countries than the United States, and in particular cases of invalid life and other extra hazards; and value policies in groups, use approximate averages for fractions of a year and otherwise, and accept the valuation of the Department of Insurance of any other state or country, if made upon a basis and according to standards not lower than herein required or authorized, in place of the valuation herein required.

Section 2, 36 O. S. 1941 § 186 is hereby amended to read as follows: § 186. Policies issued by life insurance companies doing business in this state may be based upon not more than one year preliminary term insurance.

Section 3, 36 O. S. 1941 § 218, Subdivisions seventh, eighth and ninth are hereby amended to read as follows: Seventh. That after three (3) full years' premiums have been paid, the company, at any time while the policy is in force, will loan on the execution of a proper note a loan agreement by the *owner of the policy*, and on proper assignment of a policy and on the sole security thereof, at a specified rate of interest, a sum equal to or at the option of the *owner of the policy*, less than the *cash value of the policy* at the end of the current policy year and of any dividend additions thereto; and that the company may deduct from such loan value any existing indebtedness on or secured by the policy and any unpaid balance of the premium for the current policy year, and may collect interest in advance on the loan to the end of the current policy year; provided, that such loan may be deferred for not exceeding six (6) months after the application therefor is made. This provision shall not be required in term insurance, nor shall it apply to temporary insurance or pure endowment insurance issued or granted in exchange for lapsed or surrendered policies.

Eighth: That in event of default in premium payments after premiums shall have been paid for three (3) years, *the policy may be surrendered to the company for*

a cash value at its home office within one (1) month after the date of default. Such cash value shall be not less than an amount computed upon the basis of mortality table, interest rate and method of valuation permitted by section 184 of this title, less a sum of not more than two and one-half per cent ($2\frac{1}{2}\%$) of the amount insured by the policy and less than existing indebtedness to the company on or secured by the policy. Provided, further, that the company may defer payment of the cash value for not more than six (6) months after the application therefor is made.

In lieu of the cash value, the owner of the policy shall be entitled to a stipulated form of insurance, the net value of which shall not be less than the cash value of the policy at the date of such default. Such stipulated form of insurance shall be computed upon the basis of the mortality table and interest rate used for the computation of the cash value, provided, however, that if the cash value of the policy is computed upon the basis of a more modern mortality table than the American Experience Table of Mortality the value of any extended term insurance with accompanying pure endowment, if any, may be calculated according to rates of mortality not in excess of 130% of the rates according to such more modern mortality table.

This provision shall not be required in term insurance of twenty (20) years or less.

Ninth. A table showing in figures the cash or loan value and surrender options available under the policy each year, during the first twenty (20) years, or during the term of the policy, whichever is shorter; a statement of the mortality table and rate of interest used in calculating the cash values; and a statement of the method used in such calculation for policy anniversaries after the policy years for which such values are consecutively shown in the policy.

Section 4. Nothing in this Act shall apply to Industrial policies except Section 1 of this act.

Section 5. Nothing herein contained shall prohibit any company from continuing to use policy forms containing provisions heretofore authorized by law.

Section 6. It being immediately necessary for the preservation of the public peace, health and safety, an

emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in full force from and after its passage and approval.
