STATE OF OKLAHOMA
EXECUTIVE DEPARTMENT
DIVISION OF THE BUDGET

December 1, 1952

State Board of Equalization
Capitol Building
Oklahoma City, Oklahoma

Gentlemen:

The Constitution of the State of Oklahoma, Section 23, Article 10, requires the State Board of Equalization to make an itemized estimate of the revenues

which will accrue to the General Revenue Fund and each special fund of the State for each year of the next biennium, and to file same with the Governor, President of the Senate, and Speaker of the House of Representatives, prior to the convening of each regular session of the Legislature.

The Constitution provides that the total amount of the estimate for each fiscal year shall not exceed the average total revenue which accrued to each fund for the three last preceding fiscal years. The amounts apportioned to the General Revenue Fund for each of the three years involved and the maximum amount which may be estimated for each year of the next biennium is shown by the following statement.

AMOUNT FOR FISCAL YEAR

THREE YEAR AVERAGE	1950	1951	1952
Total Funds Provided	$65,107,102.52	$68,196,902.67	$75,091,495.50
THREE YEAR AVERAGE			$69,465,166.89

The Constitution of the State of Oklahoma further provides that the cash surplus, if any, from the preceding fiscal year, in the hands of the State Treasurer, to the credit of any fund which has not been previously appropriated by the Legislature at the time the estimate is made, may be added to the estimate. In this connection attention is called to the provisions of House Bill No. 30, Regular Session, Twenty-First Legislature, creating the Emergency Appropriation Fund.

Special Funds. The Constitution, Section 23, Article 10, provides that "any department, institution or agency of the State, operating on revenues derived from any law or laws which allocate the revenues thereof to such department, institution or agency, shall not incur obligations in excess of the unencumbered balance of surplus cash on hand." This provision eliminates the necessity of making specific appropriations for earmarked revenues appropriated to special funds which operate as a continuing appropriation. The Legislature makes appropriations for certain governmental functions out of special funds which do not operate as continuing appropriations. The amount that can be appropriated from these funds is indicated in the following statements.

Very truly yours,

State Auditor
Secretary, Board of Equalization.

Upon motion of Senator Cowden, the Message delivered by Governor Johnston Murray in Joint Session today, was ordered incorporated in the Journal, which was as follows:

TO THE HONORABLE SENATE AND HOUSE OF REPRESENTATIVES, TWENTY-FOURTH LEGISLATURE OF OKLAHOMA.

Mr. Lieutenant Governor, Mr. President Pro Tempore of the Senate, Mr. Speaker of the House of Representatives, and The Honorable Members of the Joint Session:

On January 9th, 1951, and again on March 6th, 1951, I had the honor and privilege of appearing formally but briefly before the august body which constituted the membership of the Twenty-third Legislature.

Time and circumstances, as they are wont to do, have changed a few faces here and there. Such changes were made by the greatest and finest people any-

where in the world, the electorate of the State of Oklahoma. Now it is my honor and privilege again to appear before you gentlemen who comprise the Regular Session of the Twenty-fourth Legislature.

To all of you, and to you individually, I want to state that the whole world shall know that you are recognized as the duly Representatives and Senators of your respective districts by my office and my entire staff, irrespective of geographical location of your district or your political affiliations.

By my acts, as well as by my public utterances, you know, or should know, that I do not consider the office of Governor in its service to the two-and-one-quarter-million citizens of Oklahoma as belonging to either of our great parties, nor to any group—minor or major—but instead, it is an office with executive and administrative functions and services for **all** the peoples of Oklahoma.

By the same token you gentlemen of the Senate and gentlemen of the House of Representatives must needs remember that regardless of geography or of party affiliation, your every act of commission or omission, Yea! your every word, when officially given, affects not just your political party nor the people of your district, but every man, woman or child of the State as a whole.

As this administration began in 1951, I placed before the Twenty-third Legislature certain suggestions for enactment. These suggestions were directed toward a stabilization of our government that Oklahoma might attain and maintain a reputation for stability and progress before the entire Nation. A program of economy and no increase in taxes was my theme then. It still remains the same.

On the whole and in the main, the results accomplished were good, and together we have demonstrated that we have, and are capable of maintaining, a stable, progressive government during the biennium just closed.

I feel that at this time I should preface my remarks with a brief report of the progress made during these two years. Let me say at the outset that whatever success we have had, whatever advancements made, we are deeply indebted to the official family of Oklahoma as a whole, and I want here and now to express my gratitude to the elected and appointed officials of this State, and of its lessor subdivisions, for their unstinted support and cooperation. and to say to you that to these people must go a major share of the honors; without them and without their aid and sustaining cooperation, our successes, whatever they are, would not have been possible. That mistakes have been made, I frankly confess, and for these mistakes, responsibility must be assumed by me. Wherever they are and whatever they are, I assure you that they were mistakes of the head and not of the heart. It shall be my fervent endeavor to see that they shall not recur, and I shall diligently work throughout the ensuing years with an insatiable desire to learn how to do a better job. I know full well that perfection cannot be attained, but I am likewise conscious that improvements can be made. With your help and the continued support of the splendid group of officials with whom it is my privilege to work, I confidently predict that we can do. and that we will do, a better job henceforth.

You will recall that in my campaign for Governor, I made an especial appeal to the "Plain Folks" of Oklahoma. They responded. I asked the Legislature to conduct itself in a manner that would best serve the interests of all the people. It responded. And throughout this administration the response of our people in giving approbation to the ends we have sought to attain has been nothing short of magnificent.

Early in the administration, Mrs. Murray and I adopted an open house

policy on each Thursday afternoon, both at the Office of the Governor and at the Executive Mansion. We invited all of the citizens of Oklahoma, without regard to race, creed, or station, to come and be our personal guests and to see and observe the manner of conducting the government of our State, and the kind of people they had chosen to administer it. Multiplied thousands have accepted this invitation, and, without hesitation, I can say to you that from each handshake we have received inspiration and encouragement. It is good to know your fellow man, and we hope that by the same token every citizen who has shown us the honor of a visit on these open house occasions has gone away feeling that all mental hazards, if any ever existed between him and his government, have been removed. This policy of public contact will be continued throughout my administration, and during this Session of the Legislature, the members of these bodies and their wives will be invited to become hosts and hostesses with Mrs. Murray and myself on these occasions. You, too, will be the beneficiary of great inspiration and encouragement by this fellowship and relation with that class of the public constituting the "Plain Folk" who do not besiege you for favors, who do not want special privileges, but who will be everlasting grateful if they can only be left alone and permitted to pursue their vocation and their lives in the peace and in the happiness and in the exercise of the liberties which their Creator ordained, and which their government has pledged to sustain.

You will have before you at the beginning of this Session the reports of the departments, institutions, agencies, commissions, and individuals who represent the official structure of the government of Oklahoma. These reports have for their purpose giving you an explanation of the acts and doings of the various entities since you last convened. Although it is tedious work, I beseech you, do not treat these reports as material for filing. Give them a careful and critical study, for it is from them that much valuable information can be ascertained that will guide you to a clearer answer of the problems that will beset you. From the experiences indicated, much information will be available to you concerning the places where waste and extravagance may be evident, and, likewise, where funds previously provided have not been adequate. I urge you to take full advantage of this data and all other sources before you act finally on any given project. Hasty legislation passed because of a sentimental or emotional appeal, or to appease what seems to be a popular demand, often proves to be an Albatross hung to the necks of its creators.

For your convenience, I am submitting the budget message separately, and in addition to the remarks that I shall make here, I am filing also a written message which, because of its volume, would be impossible for me to deliver within the time that I might reasonably be expected to consume. I hope you will treat this written message as an extension of these remarks. In it I have tried to lay down the broad principles of the aims and hopes of the administration. I have tried to recount for you the accomplishments thus far. I hope that in the exercise of your judgment and discretion you will agree with me that the accomplishment of the purposes covered will be beneficial for the State as a whole. I have tried to steer clear, as nearly as possible, of that type of legislation which could wear the label "special privilege," that is, legislation beneficial only to particular groups and generally detrimental to the public as a whole.

In a well-governed State where human rights and dignity are treated with respect and zealously protected, there is little need for "special privilege"

legislation. You are well aware of the fact, of course, that this type of legislation is usually sought by those who want some right or privilege not ordinarily granted to the rank and file.

It is not the quantity of legislation that an assembly may "grind out," but rather the quality that places the mark of statesmanship upon the authors. The people of Oklahoma do not look to this Assembly for legislation to be measured in reams of paper or the thickness of books, but they do await with wondering anticipation the quality and character that you will write into your enactments.

From the very brief perusal that I have been able to give it because of its belated production, I have noted with a feeling of deep apprehension that in the report of the Legislative Council there are contained many suggestions which have for their purpose the further regulation and restriction of different types of perfectly legitimate business. I beseech you, take a second look at any kind of legislation which has for its purpose encircling and binding legitimate business with more regulations, limitations, and restrictions than now exist. Heaven knows, most of them are regulated enough. The exceptions, if there be exceptions, you should, of course, deal with, within the limits of reason. I have given particular notice to the fact that where an abuse appears, such as in the sale of narcotics or habit forming drugs, that there is usually a rush and a demand to prescribe further statutory burdens and duties upon the legitimate drug trade. The average legitimate druggist is an honest person. He knows and respects his friends and his customers. This man doesn't need further regulations. We lose sight of the fact that it is the bootlegger of drugs, the illegitimate dealer, who neither knows or respects regulations or restrictions, who constitute the offenders. The only way to reach him is through a system of penalties for his depredations. I cite this example to you by way of suggestion only as to what I mean when I defend before you the rights of a legitimate businessman to be able to pursue his vocation in peace, being restricted only by such regulations as are necessary for the protection of the public health, safety, and morals.

I hope that with the advancement of the years it may well be said of Oklahoma that as this grand State grew to maturity, both in years of existence and in intellectual development, she pioneered the principles of individual and property rights, believing always that the least governed people are the best governed people.

In the budget message which is being submitted, you will note as a preface that I have invited you to give careful and critical study to every single item that it contains. You will remember that the allocation of appropriations and the division of the monies available is a matter primarily legislative in its nature. Let no one cause you to forego or delegate this important part of the functions of your office. You will also remember that the items contained in this budget are made up from the requests submitted by those seeking the money to spend. No matter what you may have heard or read, I say to you now that I have at no time, directly or by any reasonable implication, given assent or approval to any plan that involves a reckless departure from the fixed order of things as they presently exist, nor have I approved nor do I now approve large and unusual increases in the appropriations for the conduct of any department. To fulfill the reasonable needs, it is, of course, urged that you do that which is necessary and proper. Essential necessities should receive, and I know they will receive, your first consideration, leaving those projects which may be considered in the nature of

luxuries or non-essentials to be taken care of after we have satisfied the reasonable demands of the paramount subjects, such as roads and highways, education, necessary state institutions, and other departments that fit into this category. In this connection, may I be permitted to suggest and to express the hope that you will find that the Legislative Council has inquired deeply into the subject matter of the budget. If this is true, it will shorten the period and alleviate much of the inquisitorial burdens which you must carry. If such has not been done, it would seem that a wise and prudent action to be taken by this Legislature would be to make provisions for some properly authorized legislative agency, such as the Legislative Council, to perform this service in the interim. Such an authority could check each item of suggested appropriation and be able to give you knowledge of the reason and necessity therefor when you assemble here for general legislative purposes. With this kind of procedure, it is my considered judgment that most, if not all, of the argument favoring annual sessions of the Legislature will fade and disappear. You need not be reminded, I am sure, that legislative sessions every two years, extended as they have recently been, have caused severe public criticism. This can be averted by expeditious handling of legislative affairs. Annual sessions would, in my judgment, accomplish nothing more than to inject the Legislative Branch of the government into the administrative affairs of the State. This should be avoided. Separation and independence of the three branches is the key note to the success of our present form of government. It would be just as unwise and imprudent for the Legislative Branch of the government to encroach upon the administrative field as it would be for the Judicial Department to write extensive opinions on what the law ought to be rather than what it is. I realize that some good men believe otherwise, but from this trend of thought I must respectfully dissent without any intention of being disagreeable about it.

While we are discussing the subject so closely related to the general theory of economy and taxation about which I have so frequently addressed you, let me say that if I were going to suggest a new title for an old song, this year I would name the theme "Let's Give the Tax Payer a Break." In this connection, for the purpose of double emphasis, I repeat here a chapter contained in my written message on the subject of economy. I quote:

"ECONOMY

"Since the beginning of this administration and before, you will recall that the question of economy in public expenditures has been emphasized and stressed. My campaign in 1950 gave heavy emphasis to such a program. I urged it in the 1951 Session of the Legislature. If there could be any doubt but that the public approves this program, we have only to remember that in the 1952 general election a most resounding and emphatic "no" was uttered by the electorate of this State on certain initiative and referendum matters which had for their purpose increasing public burdens and public expense. Common sense and common honesty direct and demand that we should give heed to these emphatic directives.

"Some progress in regard to achieving a more economical administration of our Government has been made, but I say to you, in all candor, that the progress made is infinitesimal as compared to the things that can be done and the things that ought to be done. We need not try to fool ourselves or the public either. Although we kept within the revenues during the past biennium, we did not accomplish many of the major savings that should have been accomplished. As for myself, I feel obliged and will continue to feel obliged

to consistently and urgently direct your attention to these things. There are many ways in which great economies can be effective. I cannot enumerate them all, but you have the facilities at your command to ascertain and determine where this can and should be done.

"Some of the major economies that I feel should be given immediate attention are:

"1. The consolidation of boards and commissions wherever possible.

"2. The elimination of all unnecessary boards or commissions.

"3. The abolishment or consolidation of unnecessary institutions. It is quite apparent that a number of institutions are being maintained in this State for which no real need exists, and the time has come to view this problem realistically. The price is too great for us longer to bury our heads in the sands of reckless spending and overlook this transparent fact.

"4. The elimination, as far as is possible, of the lump sum appropriation for the reasons made obvious in another portion of this message.

"5. The inauguration of a system by which budgetary requests can be investigated and checked with authority by some proper agency other than the group which expects to do the spending. I have repeatedly affirmed, and now reiterate, that the individual or institution expecting to spend the money appropriated should not be given too much latitude in fixing the amount of the appropriation. It is but human nature for such individuals or institutions to make demands greater than the real and actual needs.

"6. A complete survey and re-study should be made of all offices to determine whether or not the personnel of such office or institution exceeds that of reasonable public needs and demands. I would favor a system of merit under which incompetent and inefficient help could be eliminated, and under which competent and efficient help could be retained and advanced. Neither the State Government, nor any of its branches, should ever be used as a dumping ground for political parasites.

"The above numbered items are only a few of many of both major and minor consequence to which this body should direct its attention. They are sufficient, however, to impress the general idea which I have, and which, I am sure, the public generally has, as to how the State's business should be conducted.

"While the suggestions that I have made herein pertain mostly to executive and administrative branches of the Government, I do not feel that it is amiss at this time that I should direct your attention also to the fact that the same general public is deeply interested in legislative economy, and I mean that term in its broadest application, such as time, space, and money. The business of the State is usually stalemated during a legislative session. The public does not believe that sessions of the legislature extending for five or six months are necessary, and they feel that such business can be transacted much more expeditiously. This expectation does not seem unreasonable, and it would be difficult to convince any thinking person that great savings in time cannot be effected in this branch of our Government.

"I am also suggesting that you limit yourself, as much as possible, to the use of space. With rents as they are and with building prices at an unprecedented high, this request I hope you will receive in the spirit in which it is given, namely, that of pointing out a need and asking your indulgence and cooperation. We can't afford to pay excessive rents, and we ought not to be driven to the point of building high priced buildings at this time.

"I also urge that you limit your expenditures for legislative purposes as

much as is consistent with sound policy and efficient operation. We all know that many legislatures in the years gone by have employed a larger personnel than was needed for this purpose.

"In this particular section of my message, although I have spoken rather bluntly, I assure you that I am doing it with the deepest respect. I have discussed most of the matters herein contained with more than a majority of this body on different occasions, and these members have privately agreed with me. I have every confidence that they will also publicly help to bring about these accomplishments. An educated and an alert public awaits our answer and they are not going to accept a negative.

"We should not stop either with ar effort to reform our State Govern ment. Equal emphasis should be placed upon the defects of our county, municipal, and school district affairs, and wherever possible and as often as possible, legislation should be enacted to streamline, modernize, and make efficient all of these branches of our Government. Economy and efficiency should not be applied to one branch and withheld from another. The application should be made with equal weight in all branches of the Government and upon all persons connected with it, be his station high or low in the category of official life."

Giving the tax payer a break, as you well know, is not a new or novel plan with this administration; that it has been popular with the tax payer is an openly demonstrated reality. Both the press and the public have gratefully accepted the efforts that have been made in their behalf, and my only regret is that we haven't accomplished more. Many members of this Legislature made their respective races upon the basis of economy and no new taxes. I know they will demonstrate their sincerity. Woe betide the man in these days of tax-consciousness who runs on a platform of savings and performs on a platform of spending.

I have dedicated the major portion of my written message to aims and purposes designed to give the tax payer a break. I am hopeful that this message will receive wide dissemination and publicity, and that the tax payers of Oklahoma will light their individual candles by advising you whether or not they approve in principle the things that are suggested. He of humble station has as much right to be heard as the man who speaks for and represents the accumulation of wealth and property. The voices of the "Plain Folks" when added together in a mighty call for stabilization, frugality, and economy, will drown the siren wails of he who screams for special advantages and legislative exemptions from the burdens that are the price of good citizenship. I commend to your especial study, and to the especial study of all that hear me, the following additional chapters in my written message:

1. Taxation and Tax Equalization.
2. The Assessment and Taxation of Personal Property.
3. The Road Users Tax.
4. Uniform Purchase and Contract Code.
5. Reformation of Counties.
6. Governor's Joint Committee on Reorganization of State Government.
7. Roads and Highways.
8. Education.
9. Tax Exemptions.
10. Appropriations Generally.
11. Lump Sum Appropriations.
12. Deficiency Appropriations.
13. Surplus Accumulations.
14. Ear-Marking of Revenues.

Every one of the above mentioned subjects have been conceived, studied, and written with the very definite view of eliminating worn out and obsolete

methods and practices, and establishing reforms and procedures with a definite objective of giving the tax payer the kind of a break that he has so long needed and which has been so long neglected.

By whatever degree the objectives just stated are accomplished, Mr. Tax Payer will have received another break. Not only will he be the beneficiary of thrift, economy, and efficiency, but he will have moved one step nearer to the day when local self-government will have been restored to him in fact as well as in theory. He will no longer have to depend for the operation of purely local institutions on Federal handouts and State support. As he has lived and learned, Mr. Tax Payer is becoming more and more inclined to view this type of Government with suspicion and alarm. He has found that at the end of the rainbow of promise, instead of a pot of gold, a yoke of debt awaited him.

The reformations I have suggested contain not only financial relief, but relief in efficiency and competency in the kind and type of administration that he will receive. By uplifting the standards of efficiency and obliterating as much as possible the stigma of political favoritism, the trend will be toward honesty, integrity, and strengthening the public confidence in State and local Governments. Happy am I to say that in Oklahoma we have been cursed with a minimum of corruption, but I hasten to add that any corruption is too much corruption, and I want to see the day when the price for corrupt practices will be both severe and certain to the end that those who did practice such shall have been driven from public life.

When I was last priviledged to address you, I directed your attention to the fact that the public conscience was sorely troubled with the problems of world unrest, the national emergency, plans for the defense, and the ever mounting burden of taxation necessary to meet the conditions. Serious as the conditions were at that time, they are more critical now. The dogs of war still stalk the planet and free men everywhere are compelled to keep constant vigil, knowing not the day or the hour when the demons of lust and aggression may seek to break through and destroy the last vestige of human dignity and human liberty. The horizons of the future, so far as we can see, contain neither hope nor promise that this situation will cease or improve.

A new national administration is about to assume the reins of our Government. Upon the shoulders of this administration will be placed the Herculean task of undertaking to hold in abeyance that gang of lustful, godless men who, in quest for power, would destroy every semblance of moral advancement made since an all wise God delivered to Moses on the rugged slopes of Sinai the tablets of stone containing the Ten Commandments—a moral code for the guidance of God fearing people. Without them to guide us, peace cannot dwell upon this earth. Whether the new administration and its concepts of Government comport with our own political philosophy is beside the question. When the time comes to defend the American heritage against the onslaughts of the dragons from hell, we are Americans all, and let us therefore, with solemn determination and the courage bequeathed to us from our forefathers, uphold and sustain every righteous move of the oncoming administration directed toward the preservation of this Nation and its ideals, the perpetuity of freedom and the protection of the free world—the God fearing world, wherever protection is needed.

In this connection, let me solemnly warn you that bankrupt and insolvent nations can no better conduct a war of defense than a war of aggression.

Neither can bankrupt and insolvent states or states which have dissipated their sustenance by extravagant spending, contribute their just share to the national defense. From every hill and every valley, from plateau, plain, city, town, and hamlet, throughout this entire State, when the clarion call to arms has sounded, Oklahomans have marched unflinchingly with bared breasts and undaunted courage to the defense of this Nation. Their bodies lie on every battlefield, and even now they stand guard on the cold and barren peaks of Korea, fighting your battle and mine on far flung foreign fields, that the destroyers of your home and my home may be kept within the boundaries of the Iron Curtain that they have builded against civilization and decency. I know not what course others may take, but, as for me, I am willing to forego, to curtail, or to eliminate, if need be, functions that we might like to enjoy, but which we cannot in good conscience undertake to enjoy while bullets whine and bombs are bursting around the bleeding and mangled bodies of our own flesh and blood.

As for me, I shall be content to undertake, as nearly as possible, to maintain our present standards while mothers, wives, and sisters wait and pray for the return of the loved one who is today giving every measure of devotion necessary to permit one to breathe the breath of freedom and to enjoy the comforts accorded me by the greatest Nation and the greatest State on the top of God's green footstool.

I know that you and everyone of you will join with me in these sentiments. I know that you will proceed with greatest caution, realizing full well that the building of institutions of marble, the expansion of the benefits to be derived from civil government and civil affairs, mean nothing if through our lack of foresight, if through our lack of planning, if through our lack of a spirit of forebearance, we construct today only to have such construction destroyed tomorrow by the bombs of an aggressor against whom we have not sufficiently planned to defend ourselves. Let us join together, you and I, in a solemn pledge to the people of America—to the people of Oklahoma—that we will forebear any and all extravagance, any and all unnecessary indulgences, doing that only which is necessary and essential, until the day shall come when the uniforms now being worn by valiant men from Oklahoma shall be folded and laid away in the vaults of memory, and these fine men shall again with us enjoy the blessings of liberty in the pursuit of peaceful vocations.

Invoking now the aid of our most powerful Ally, your God and mine, to guide you and direct you in your deliberations, and to give unto me wisdom and courage that I may creditably discharge the duties imposed upon me, I leave you with sincere confidence that the result of your efforts will be received with approbation by grateful people.

Upon motion of Senator Cowden, 200 copies of the Governor's Message were ordered printed in pamphlet form.

Senator Cowden moved that the Senate Auditor be directed to prepare, and the President Pro Tempore of the Senate be authorized to approve, claims of members of the State Senate who attended organizational meetings of the Committee on Rules, Employment and Printing, Public Information, and the Committee on Committees prior to the convening of the Senate of the 24th Legislature, which motion was declared adopted.

Senator Cowden moved that the Rules of the 23rd Session of the State Senate be adopted as the temporary Rules of the 24th Session of the Senate, which motion was declared adopted.

A motion to reconsider must be made by a Senator who voted in the majority, except to reconsider a vote on the final passage of a proposed bill or resolution which shall be privileged to any Senator. Consideration of such motion, or a motion to table, shall not be had on the same day, except by unanimous consent. In the event the motion to reconsider is not called up for consideration within three legislative days such motion shall be considered as having failed of adoption. Provided, however, in the case of reconsideration of the adoption or rejection of an amendment to, or a section of, a bill under consideration, the motion may be disposed of at any time before advancement of such measure to engrossment and third reading. Provided, that any motion to reconsider if made during the last six days of the session shall be disposed of when made. Such motion may be made under any order of business in which the vote proposed to be reconsidered occurred. If the Senate refuses to reconsider or if upon reconsideration shall affirm the first decision, no further con-

sideration shall be in order, except by unanimous consent.

(U. S. Senate, XIII-1; Jefferson's Manual, Sec. XLIII.)

(c) When it is the desire of the Senate to reconsider a bill, resolution, report, amendment, order, or message, upon which a vote has been taken, which shall have gone out of the possession of the Senate and been communicated to the House of Representatives, the motion shall be that the House be requested to return the same to the Senate for the purpose of reconsideration.

(U. S. Senate, XIII-2; Jefferson's Manual, Sec. XLIII.)

RULE 13. Every bill and joint resolution shall receive three readings previous to its passage, which readings shall be on three different days; and the Presiding Officer shall give notice at each reading, whether it be the first, second or third; provided, that the first or second reading of each bill may be by title only, unless the Senate in any case shall otherwise order.

(U. S. Senate, XV-1; Jefferson's Manual, Secs. XXVI, XXX.)

Motion to Re-Commit

RULE 16. A motion may be made during the reading or consideration of any pending bill to recommit, with or without instruction, but if the motion is to commit with instructions, the said instructions shall be in writing, and such moton without instructions shall not be debatable.

(U. S. Senate, XV-I; Jefferson's Manual, Secs. XXVI, XXX.)

Bills Referred

RULE 17. All bills referred shall go to their appropriate committees and shall be reported back to the Senate within ten days and may be recommitted at any time before the final passage.

(a) Every Committee to whom a bill or resolution shall be committed may hold public hearings upon said bill or resolution, and shall hold public hearings when directed to do so by the Senate.

(b) It shall not be in order for any Committee to whom any bill or resolution shall be committed to make a report on said bill or resolution, unless a quorum of said Committee be present when said bill or resolution is considered and acted upon by said Committee.

(U. S. Senate, XVI-3; Jefferson's Manual, Sec. XXV.)

Title of Bill

RULE 18. After a bill has been advanced to engrossment and third reading or has been passed, the Presiding Officer shall put the question, "Shall the title of the bill remain the title of the Act?" The title, by amendment, may then be made to conform to the body of the bill.

Caption of Resolutions

RULE 19. Senate Concurrent and Joint Resolutions when introduced shall contain a caption stating the contents and purport of such resolution, and the Journal shall show and refer to such resolution by caption only, save Joint Resolutions proposing an amendment to the Constitution, when such resolution, if passed, shall be spread at length on the Journal, with yeas and nays recorded thereon. Concurrent Resolutions may be extended at length in the Journal, if passed, and by order of the Senate. Senate Resolutions, if passed, shall be shown in the Journal.

Resolutions

RULE 20. Except by unanimous consent the following classes of resolutions shall lie over for one day for consideration, after which they may be called up under their appropriate order of business.

(a) Resolutions containing calls for information from any of the executive or judicial departments, or from tribal or county officers, or from any corporate body or persons.

(U. S. Senate, XIV-5; Jefferson's Manual, Sec. XXV.)

(b) Resolutions giving rise to debate, except such as shall relate to the disposition of business immediately before the Senate, to the business of the day on which they may be offered or to adjournment or recess, shall be referred to committee unless otherwise ordered.

(c) No resolutions authorizing or directing the investigation of any officer or department of this State shall be considered by the Senate unless such resolution is accompanied by an affidavit of some credible person setting forth the facts sufficient to justify such investigation.

Motion to Table Amendments

RULE 21. When an amendment proposed to any pending measure is laid on the table, it shall not carry with it, or prejudice, such measure.

(U. S. Senate, XVII.)

Amendments—Division of a Question

RULE 22. If the question in debate contains several propositions any Senator may have the same divided, except a motion to strike out and insert, which shall not be divided; but the rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition nor shall it prevent a motion simply to strike out; nor shall the rejection of a motion to strike out prevent a motion to strike out and insert. But pending a motion to strike out and insert, the part to be stricken out and the part to be inserted shall each be regarded for the purpose of amendment as a question; and motions to amend the part to be stricken out shall have precedence.

(U. S. Senate, XXVIII; Jefferson's Manual, Secs. XXV, XXVI.)

Manner of Dividing the House

RULE 23. When a division is called for, those voting in the affirmative shall rise in their seats and remain standing until counted aloud by the Secretary. Then those voting in the negative shall rise and shall stand until they are counted as before, when the President shall announce the result.

Preservation of Order

RULE 24. It shall be the duty of the President to preserve order, prevent personal reflections, confine members in debate to the questions; and he shall

have the privilege to rise and speak in explanation of any question or order.

Appointment of Committees

RULE 25. The Presiding Officer shall appoint all temporary and special committees except those otherwise filled by the Senate.

Motions

RULE 26. (a) Every motion shall be reduced to writing, if desired by the Presiding Officer, or by any Senator, and shall be read before the same is debated.

(U. S. Senate, XXI-1; Jefferson's Manual, Sec. XX.)

(b) Any motion may be withdrawn by the member making it, before amendment, postponement, or order to lay on the table, or the ordering of the yeas and nays.

(U. S. Senate, XX1-2; Jefferson's Manual, Sec. XX.)

Precedence of Motions

RULE 27.

(a) To adjourn.

(b) To adjourn to a day certain or that when the Senate adjourns it shall be to a day certain.

(d) To take recess.

(e) To lay on the table.

(f) To postpone indefinitely.

(g) To postpone to a day certain.

(h) To commit.

(i) To amend.

(U. S. Senate, XXII; Jefferson's Manual, Sec. XXXIII.)

Chairman of Committees

RULE 28. The first and second persons named on any committee shall be the Chairman and Vice Chairman, respectively of said committee; and the Secretary shall deliver all papers referred to any Committee to the Chairman; provided, that if the Chairman be absent, the Vice Chairman of the committee shall act in his stead.

(U. S. Senate, XXIV; Jefferson's Manual, Sec XI.)

When Committees Shall Meet

RULE 29. No committee shall sit during a session of the Senate without leave, except the Committee on Enrolled and Engrossed Bills and the Committee on Rules and Committees, and they shall have leave to sit or report at any time.

(a) It shall not be in order for any Committee to meet for the consideration of any bill or resolution until notice of such Committee meeting has been given to members of the Committee by the Chairman of said Committee. The notice shall be given by the Chairman through announcement in open meeting of the Senate, individual letter or by notice posted on the Senate Bulletin Board.

Conference Committees and Reports

RULE 30. The presentation of reports of committees on conference shall always be in order, except when the Journal is being read or the roll is being called, and there shall accompany every such report, a detailed written statement sufficiently explicit to inform the Senate what effect such amendments or propositions will have upon the measures to which they relate.

(a) Every bill or resolution amended by Conference Committee Report shall be re-printed with the amendments, agreed upon in Conference, fitted therein, thereby giving every member of the Senate opportunity to learn immediately the effect of said Conference Committee Report on said bill or resolution. The bill or resolution so re-printed shall be laid upon the desk of each Senator.

President Pro Tempore Gary presiding.

Senator Hope, Chairman of the Appropriations Committee, spoke concerning a recent article appearing in the Daily Oklahoman regarding early passage of **SB 3**, transferring Seven Million Dollars ($7,000,000.00) to the State Highway Construction and Maintenance Fund to be expended by the State Highway Commission. He vigorously defended its early passage.

Senator Rinehart, also defending early passage of **SB 3**, asked unanimous consent, which was granted, to incorporate in the Journal the following editorial. appearing in the Oklahoma City Times under date of January 10, 1953:

"LEAVE POLITICAL GLORY OUT OF IT. Action by the State Senate to appropriate $7 millions immediately for highway construction projects is commendable. The measure was passed without any quibbling. The funds already are in the state treasury, being a part of the surplus accumulating during the last year.

The house side of the legislature shows some reluctance to approve this road fund bill without giving it "more study." It has already been given exhaustive study. The legislative council has been studying the highway problem for 18 months. The importance of quick action is well known to members of both houses. Every one of them knows that if funds for road work are not made available much of the whole road

improvement program will bog down by the end of January for lack of money.

The $7 millions appropriation would merely tide the highway department over until the legislature finishes the job of apportioning funds for operations of all state business. That will take three months or longer. Highway funds must come now, or state road work may face dark clouds indeed.

The public is little concerned about any grievances or jealousies one side of the assembly may hold against the other. Neither are the people concerned over which individuals in either house may gain or loose political glory in the matter. The people are eager for the state's road program to keep moving forward. The state has made a good record in improving roads in the last six years, but it nears the end of the rope unless funds are provided without delay. The money already is in the bank. The senate has done the proper thing. It is the house's move."

Senator Nix presiding.

Upon motion of Senator Cowden, the Senate adjourned to meet, as provided under the Rules—1:30 p. m., tomorrow.

Senator Baldwin asked unanimous consent, which was granted, that an article by Otto M. Hess appearing in the Anadarko Daily News on January 13, 1953, be incorporated in today's Journal, which is as follows:

There is only one thing about the town I can complain about and that

May I have my few words to explain what is wrong with Anadarko and what might help to make Anadarko grow.

is we just simply need a larger payroll and one that will continue.

The idea of a town especially to attract visitors to see Indian customs and attractions will not necessarily increase the population permanently. Neither will it give all-time employment to many more average laborers.

The only sure way to have a steady and permanent payroll is some kind of industry. So far none has placed its name on the dotted line to do so. And my guess is the managers of industry are not suckers or Santa Clauses either. And I doubt if they will ever be. Why?

Well, the reason in the first place is universal in most every county in this state. The governor's message to the legislature January 6 urged equalization and attention to personal property assessments, also upgrading assessments.

The governor, as well as every other real honest-to-goodness taxpayer in this state, knows that the valuation of property is not all based on the same per cent of its actual value.

Some Assessed Low

Some property in Anadarko, as well as most other cities, may have an assessment of 10 per cent of its actual value while others may have as high as 20 per cent or more. There is some property assessed even less han 10 per cent—property located in the same block or district as that assessed higher.

Upgrading of assessments of course would be a great help in the amount of tax collected. But the burden would still be on the "already taxpayer." Imagine raising an assessment say 10 per cent on all property in Anadarko.

A majority of homes in Anadarko, I believe, are assessed at less than $1,000 valuation. There's a big portion of these whose value is much less than $1,000. And the 10 per cent valuation increase would not make the owner tax conscious.

Many homes in Anadarko—and I don't mean shacks—are assessed just about enough to qualify for a tax receipt to vote on bonds. Yes, several hundred thousand dollars worth of them, if you please. And the voter will insist, "Oh, I'm for it. It won't cost me a penny." And its possible that if you ask him what his home is worth he'd probably answer, "Five, six or seven thousand dollars." And he could probably get that much for it.

Industry knows. Yes, ask some of our own industries—the railroad.

They're not going to be soaked such a high levy of tax as the town of Anadarko is now paying because the majority of voters in the town are only token taxpayers.

Industry Knows Answer

Yes, industry knows the number of votes determines whether the bond issue carries. It also knows that if it carries by a majority it means the levy must be raised on their factories as well as on other taxpayers.

My idea of a little help is, first, to equalize the assessments over all Oklahoma, as the governor has said. So much money must be raised to meet county and city budgets. The levy on assessments has a limit, except by a vote of the taxpayer.

Second, we should double the assessed valuation of all property and figure the levy needed to receive the fixed amount of money necessary to operate schools, city and county government. The levy then should always be less than 50 per cent of the original levy on the first assessed valuation.

This way, Mr. X, who pays a token of tax—just enough to vote—will pay on all above $1,000 on his home at half the usual levy. And Mr. Y, whose home is valued at $500 will still be tax-free and he certainly should be so.

My observation in the past number of years has been that no one wants

to shoot Santa Claus. And also not too many want to be one.

Ask Yourself This

So ask yourself, Mr. Reader, "Were you manager of some industry, under such circumstances, would you locate in Anadarko or Oklahoma?"

I've been a taxpayer in Anadarko for a number of years. I'm also a homeowner and I feel anyone who owns a home, even common class, should be willing to pay something toward the education of his children and the upkeep of his town.

Is it fair for a person to hold a good job, own a five or six thousand dollar home and yet vote extra bonds on the town and then brag it won't cost you a cent?

Maybe so. But ask industry.

Oklahoma's legislature is once again in session. Deliberations and actions of

the governor, and the representatives of the people, will be followed closely.

Citizens of Oklahoma, to a great extent, depend upon the metropolitan press for news information about legislative activities. By metropolitan papers, we specifically mean the Tulsa and Oklahoma City newspapers. Each of those newspapers assign several reporters to cover the legislature when in session.

Too often the legislature, as a whole, is pictured in a bad light because the proposals or actions of one senator or representative happens to be particularly newsworthy.

Always the alert reporter is searching for the unusual or that which is different than the routine. The story may be on a light matter or something inconsequential to the state as a whole, and puts the entire legislature in a bad light.

Actually, most members of the state legislature are high type citizens. Their morals are high. They are not in the market for gifts in payment for their support of legislation.

Legislators will tell you that the metropolitan press does not give space to information about which affect the rural communities. Too much of their newspaper space concerns toll roads, and items of metropolitan reader interest.

This may be an indictment against the rural press for not maintaining a press corps at the state capitol. But the intent of these remarks are to recommend praise for our individual legislators who are doing a good conscientious job, rather than "rant and rave" on the least provocation.

5. That at all of said hearings the county attorney, Mr. Robert L. Wheeler, of Tulsa County was present; that all members of the committee were present at all times, and that the proceedings were reported by Hayden M. Addington, Court Reporter for the committee, and that many exhibits, pictures and documents were received in evidence.

6. That from a thorough consideration and full investigation, your committee recommends that the following legislation be considered for enactment by the legislature at this session.

a. That Title 22, Section 15, O. S. 1951 be amended to forever prohibit the trial of any defendant while he or she is bound in chains and shackles in the presence of the jury during the trial of the case.

b. Require that all public defenders and attorneys appointed to defend in capital cases be notified of such appointment ten days prior to trial in writing by the clerk of the court appointing and that the appearance docket in the case show the acceptance of such notice.

c. That in all capital cases where police departments, sheriff's offices or law enforcement agencies are in the possession of the names of persons who are eye witnesses, and such names are not endorsed upon the Information, the defendant shall be entitled to an order of the court permitting an inspection of the records of such police departments, sheriff's offices or agencies in order to obtain the names and addresses of such eye witnesses.

d. That the State Bureau of Criminal Identification be required to make such laboratory analysis and scientific tests, such as ballistic, finger prints, blood analysis and similar established scientific investigations, on behalf of pauper defendants when an order therefor is made by the court in which said defendant is tried.

e. That the Statute on competency of witnesses be amended to provide that in criminal cases a wife or husband may not testify to any statements which were privileged when made by reason of the marriage status, notwithstanding the parties may be divorced at the time of trial.

f. That reasonable funds shall be available in order that pauper defendants in capital cases might procure the attendance of witnesses for their defense.

g. That definite procedure be outlined by Statute for the conduct of hearings before the pardon and parole board, and that the taking of statements from jurors by any persons, either to impeach or sustain their verdict previously given be prohibited.

We, your committee, as stated in

our rules and purposes, do not consider that we were either authorized or permitted to perform any function with reference to determining the guilt or innocence of Carl Austin DeWolf and have carefully refrained from so doing.

We have endeavored to discover if legislation was needed to further protect the rights of all persons, whether guilty or innocent, to a fair and impartial trial with their constitutional rights preserved and guaranteed.

It is the feeling of the majority of this committee that in such cases where there is a question of inadequate representation, conflicting testimony, and a question as to whether the constitutional rights of a defendant are impaired or abridged, that justice would be impaired unless such cases are reviewed by the Supreme Court of the United States.

We, your committee, have worked diligently in order that our recommendations upon these matters might not be unduly delayed, and respectfully submit the same with a recommendation that they be adopted.

Respectfully submitted,
Nix, Chairman,
Wilson (Greer),
Rinehart,
Jones.

I. Should the Legislature amend Title 22, Section 15, O. S. 1951, or Title 22, Section 191, O. S. 1951, to prohibit the trial of a defendant while he appears in court in shackles, irons or chains?

II. Should the legislature by statute define as reversible error the trial of a prisoner in manacles, irons or chains, entitling one so tried to a a new trial?

III. Should legislation be enacted requiring public defenders or county attorneys to subpoena and present testimony of all eye witnesses in trial of capital cases where testimony of such witnesses can be obtained in the State?

IV. Should legislation as a matter of public policy be enacted to prohibit the obtaining of statements from jurors for the purpose of either impeaching or sustaining their verdict previously rendered in a capital case?

V. Should Title 57, Section 342, O. S. 1951, which provides that the Governor must inform legislature of acts of clemency granted, be amended to provide that legislature be also advised of applications for clemency denied and reasons therefor?

Mr. Lt. Governor and President of the Senate, Jim Berry; Mr. President Pro Tempore of the Senate, The Honorable Raymond Gary; The Honorable members of the Senate of the 24th Legislature.

On January 6, 1953 I appeared before you gentlemen in joint session with the honorable members of the House of Representatives. On that date I presented you orally but briefly a message and report of the state or condition of

the States as required by the Constitution.

I quote from that speech.

"I invite your consultation from time to time in relation to the matters considered herein as well as all other matters pending before your bodies."

On page 42 (last page) first column, penultimate paragraph you will encounter, and I quote:

"I invite your frequent consultation throughout this session. I feel that much can be accomplished thereby."

A few days ago a committee of you gentlemen headed by my esteemed good friend, Senator Bill Logan, called formally on me and requested that I extend my message and report still further. The special and particular request was that I "be more specific," as to what boards, commissions and institutions I had in mind in that portion of my message under the general heading "Economy" which is found on page 12, second column.

Bear fully in mind that I have already done far more than that which is required, and my willingness to go farther is based on a complete spirit of cooperation and it is in that spirit that I wrote the foregoing and that I now appear before you again.

My presence at this time is not only in accordance with that committee's request, but to do my share of that which must be done, if this state is to retain its true place as a sovereign entity in our Federation.

It is not my intent to enter here or anywhere else into "glittering generalities" but I feel it incumbent on me to point out, as a preface, a few truths.

I will call your attention to the fact that no person in Oklahoma's public life has ever demonstrated his belief more strongly than have I by my acts and words in our three branch system of Government. In this system lies the secret of power, of strength and of success. The measure of power, strength and success, of course, depends directly on whether these three branches assume the responsibilities which have been imposed on them by our basic laws and the mandates of our people.

Why speak of our particular branch of government unless we are ready to demonstrate our willingness, our courage or even our competence to do what we know should be done?

Down through the years there have been so many piece-meal legislative creations that our people are confused. From such public confusion can come only misunderstanding, mistrust and loss of confidence in our government.

I call on you to join with me in the immediate assumption of the necessary courage, forgetting political expediency and performing the duties which we **know** are ours.

Throughout the years in Oklahoma the "Administration Programs" have become the Governor's Campaign Promises enacted into legislation. In many instances, these promises were made to pressure minority groups in order to obtain votes. Almost without exception, each piece of this type of legislation has resulted in an imposition of higher taxation upon our people. In the 10 years immediately preceding my inauguration, the per capita tax was tripled.

It was with knowledge of this situation that I was prompted in all my speeches and public utterances to advocate and promise only that I would reduce the cost of government, where I could, and that I would baptize generously with the red-ink of veto, any and all measures that had for their purpose the increasing of the tax burden on our people.

There is no denying that I have kept the faith in those departments under

my control. Please bear in mind that the Governor is but one of many heads of the executive branch and that his control extends to less than one third of the state's employees. Even this control is quite indirect because of the staggered terms of boards and commissions. Nevertheless there has been a gradual but constant reduction in the number of employees during the two years just past.

This reduction has been accomplished by the evolutionary process of allowing vacancies occasioned by normal turnover to remain vacant and the consolidation and absorption of duties wherever possible. In no instance has the reduction of personnel impaired the efficiency of the department.

In the departments over which I have no control, I can only suggest a similar process and policy be employed. However, the general public has the opinion the Governor's power over state employees is far more extensive than it really is. The public deserves an explanation of the true situation.

As an example of what can be done by the exercise of care and the application of business principles, I point with pride to the operation of the Welfare Department, under the able leadership of L. E. Rader, as director, and Dr. Charles Bondurant and the other appointees of mine of this Commission.

They have operated at an administration cost which is so low as to actually approach the endangering of departmental efficiency. Yet they have reduced the number of Old Age Assistance recipients by more than 5,000 and the number of dependent children by more than 9,000. Resulting directly from their tireless efforts, our needy are better cared for than in any state in the union. I cite this instance that you and our people might have the true facts.

Too, the people have been misinformed as to the true road and highway situation in Oklahoma. In 1951 there was spent 42-millions of dollars on our roads—32-millions in actual construction, the balance in maintenance and repair. Over nine hundred miles of dirt roads were hard surfaced in the two year period just passed. In 1952, the work done, contracts let and results obtained were near the same figure. Oklahoma equals the much older state of Kansas in the number of miles of paving; between 10-thousand and 11-thousand miles in each state. Yet, the people do not know these facts.

It would seem the political writers and speakers should refrain from leading the people to the erroneous belief that our program of road building has been stalemated. Too long the people have been subjected to these self-appointed, so-called news delineators, who, in their zeal to control public thinking and to formulate public opinion, actually engage in attemptiig to create news by setting the stage for adversity and then fanning the flames on both sides. It seems a faithful reporting of news as it appears would serve a more useful and constructive purpose to our citizens and to our great state.

As an example of what I have in mind, I said in my message to this session in discussing "College Tuition" for students **outside** of Oklahoma, and I quote:

"It is with a feeling of great pride that we in Oklahoma can take notice of the fact that the student bodies of our respective institutions are showing progressive gains in students from other states and other countries. Great credit must be accorded the operation of institutions that provide this inducement. We can look forward in the years to come when we will see a dissemination of the ideals and principles taught here reflected in the lives of many people throughout the world.

"While, however, we pride ourselves

in this accomplishment, we must not lose sight of the primary function of these institutions, and that is to provide for the advancement and the education of the youth of our own State. We welcome the students from elsewhere, but we should at the same time require that those who leave their own states and come here, relieving their respective states of the burden and expense of their education, should be required to pay an adequate sum for the education that they receive in our local institutions. Whether this is being done at this time is a problem that I think you should determine, and if it isn't, then I think adequate provision should be made therefore, leaving open the way, of course, for an exchange of students between the states and between nations."

Under the same heading, I asked this Question: "does the State owe a scientific education to its citizens, and ought there not be a limitation placed upon the extent to which the State should be required to go in providing free education? I am submitting this question to you without recommendation, believing that the subject is of such importance that it warrants public debate, and I hope that during this session you will discuss it freely and openly to the extent that the public will become advised, and that we may be able to measure its reaction."

Later, in discussing this question, still **without recommendation,** I attempted to call the public's attention to the fact that only seven per cent of our people are actually professional in their daily activities. Immediately I was accused by a misinformed student-body, and the public generally, of directly advocating a further increase of **all** higher education tuition fees.

I pointed out to thirty or more Senators a few days ago in the Blue Room the fine work being done in Pharmacy and Watchmaking classes at Southwestern at Weatherford. Two days later I was called on by a delegation from Weatherford, headed by Dr. Burton, to protest what he said, according to his information, was my "plan to move his Pharmacy School to O. U."

Now, gentlemen, in discussing the "be-more-specific" aspect of my appearance here, I will set out a series of facts and questions. The answers to many if not all the questions will be obvious.

I assume you are interested in my views on all state-level questions, but especially those involving the state's over-all economy. The definition of the word "economy," as employed here, should be taken in its fullest sense.

Stress or emphasis, however, should be given the word as it pertains to better, more efficient state government at less cost.

I assume also that your interest means that it is your intention to do something about "Economy" as discussed in my written message.

Boards, commissions, institutions number into the scores in the State of Oklahoma. Just so true, also, is the fact that most of them were created from time to time by the Legislature itself and can, by it, be dissolved, eliminated or a number of them combined or consolidated.

In the consideration of elimination or consolidation, our first thought should be the answering of these questions:

For what purpose was the Board, Commission, etc created in the first place?

Has it performed that service?

Is there, at this time or at any other time, need for that service?

Is the service of such value that the cost is justified?

If so, could that service be performed by some other Board or Commission?

Cannot the state well do without the agency?

I would like at this point to call your attention to the fact that all of these and many other questions have been answered and there remains only to take such action as the studies to date indicate. The questions have been answered by three different groups in recent years.

The First, The Oklahoma Constitutional Survey and Citizen Advisory Committees published its report, called the Oklahoma Constitutional Studies, dated Mar. 1, 1950.

This group was made up of: I quote Senator Bill Logan in the Introduction of the report itself, "A large number of Oklahomans, Legislators and private citizens alike have become concerned about the increasing cost of State Government and have endeavored to find the underlying reasons for it. A survey by these citizens resulted in a careful study of the basic law of Oklahoma. A group of one hundred and forty-five Oklahomans devoted a year to making a study of the Constitution of Oklahoma, pursuant to Senate Resolution No. 17, adopted May 6, 1947, which directed the Legislative Council, a permanent joint committee of the Legislature, to "make a study and analysis of the present Constitution of the State of Oklahoma with the view of making recommendations to the Governor and the 22nd Legislature as to the need of revising, altering and amending said Constitution, or making additions thereto, or rewriting the same."

"One hundred and eighteen public spirited citizens of the state and twenty-seven Legislators were appointed on the committee."

The citizens were from every county and every walk of life in the state.

The report was the result of a most searching study and in speaking of the many boards, etc., there is revealed that, "A total of eight are engaged in the regulation of banking and insurance. Ten are concerned with the administration of labor law, ten with public welfare, and six or seven with public health. A half dozen agencies give their time to problems of conservation, and thirteen to revenue and taxation."

This report is yours for ready reference and, in addition to a complete discussion of the over-lapping of boards, etc., there will be found many other very interesting points I have mentioned in my message, such as ear-marking and general or lump-sum appropriations.

The Legislative Council, composed of all members of the House and Senate of the 23rd Legislature, recommended in its report, recently published, the consolidation, elimination, etc. of unnecessary boards and commissions. There must have been a great amount of time spent on the study behind such a recommendation. Let us utilize the material that was developed during this study.

The third group, which has worked hard for two years, is the Governor's Joint Committee on the Reorganization of State Government. It comes up with the following recommendation, which I pass on with my official blessing and endorsement.

1. The elimination of the following agencies:

A. Advisory Board of State Farm and Industrial Council.

B. Industrial Welfare Commission for the State of Oklahoma.

C. Oklahoma State Livestock Registry Board.

D. State Anatomical Board.

E. Custodian of American Legion Hall.

F. Commission on Revision and Review of the Constitution.

Two agencies through mutual agreement have been combined and now function under Ralph Hudson, State Librar-

ian. The combination, however, needs, and I now ask that it have Legislative sanction.

G. State Library.

H. State Library Commission.

If you feel you cannot concur in these, the committee is available for setting forth their reasons for their recommendations.

The aforementioned agencies do not constitute by any means all of the eliminations or consolidations that I urge you to make. Many others will appear as the studies referred to have received your serious consideration.

You, I know, are imbued with the same spirit of pride that I have in the great tax-supported institutions of our State. Those of you who have within your districts one or more of these institutions have always shown a personal, as well as an official, interest in them, although you well realize they belong to and are supported by the state as a whole.

In discussing them with any idea of changing their present status, great courage must needs be exercised. Whether we call them one by one by name or whether we discuss them all as simply state-supported institutions, the same rules apply—the identical rules that I outlined in the case of the various agencies.

For what purpose was it established, and many questions regarding its activities in fully deserving its existence.

Since the Sequoyah Convention in 1905, there has been an unnecessary and most damaging attitude on the part of some of our people in keeping an imaginary wall built up between the east and west portions of our state. This atmosphere, particularly where politics is involved, bubbles up much more frequently than is wholesome for the state as a whole. It breaks out in problems of all kinds in the operation of our State Government. For each institution established in the east a similar one is immediately demanded in the west, and vice versa and on and on. Three teachers' colleges in the west and three in the east portion of the state, to mention one category. A real folly, however, was the purchase by the "spending 16th Legislature" of the Western State Hospital followed immediately by the construction of a similar institution at McAlester. The McAlester Hospital sat idle for a number of years and leased in 1948 to a nonprofit organization for 20-years at one dollar per year. Since 1948, attempt after attempt has been made to complete the terms of the lease. It is still in the air.

Since I have mentioned teachers' colleges, let us start on them. I would ask you at this point, have you acquainted yourselves with the total students enrolled in studies leading into the teaching field? How many teachers should Oklahoma train each year? Are we exceeding that number? What is the cost per student per semester hour?

Writing to the Forum Page Editor of the Oklahoma City Times on January 16, 1953, Mr. Charles H. Ripley of Wichita Falls, Texas says:

"As a Texan, I am opposed to the suggestion of your Governor Murray that Oklahoma abolish or consolidate some of your state-supported colleges.

Texas, with over three times the population of Oklahoma, has fewer state-supported teachers' colleges than you. Consequently, we must depend upon the taxpayers of your generous state to keep us supplied with competent teachers.

Please continue to educate our teachers. The money we save can be used to pay them higher salaries and enable us to lure the cream of the crop to our fair (?) state."

A check of his statement might reveal he is telling the truth.

If we are training too many, could we offer some type of course that might have more students? If all our teacher colleges are not so well attended as their presidents would like, would it not be wiser to concentrate our efforts on two or three and make them outstanding in the teacher training line? Right now, all are vying with each other for students and all are striving to pay more and more to better their faculty staff, in order to maintain their standing in accrediting associations.

Oklahoma is equipped now to take one hundred new medical students each year and we hope to offer facilities to more. I am informed that there are seven applicants for each opening in the school.

Michigan, with a population of nearly three times our own, has facilities for but two hundred and four. Michigan has a per capita annual income of upward of three-thousand dollars. Three times ours. Is it difficult to imagine where the doctors we train might be expected to go to earn a living?

Do not get me wrong. I do not here advocate a cut in our training of doctors nor of any other profession, but I do advocate an over-all program to cut taxes and to raise the per capita income of our citizens. It is utter waste and folly to maintain two saddles for one horse or two branding irons for one cow.

What of our agriculture colleges and preparatory schools?

Have you ever visited our A. and M. branch of Okmulgee and checked what is being accomplished there? I am informed that the Diesel School has not been able to graduate a student because they are hired out at greater starting wages than their own instructor's salary. There are scores of trades being taught there and I am sure you will discover we are falling way short on this type of service to our people. Industry is headed our way now. Are we ready? Will we get ready? Our people are anxious to improve their standards of living. Would a concentration in our preparatory and small colleges in meeting this need seem advisable?

My whole program is geared to correct various situations that stand between Oklahoma and her rightful place in the national federation. Too long we have lived under a condition which alarmingly approaches economic poverty. My entire message, if read, will reveal a blue print of correction of this situation.

The over-all per capita income of our people is somewhere between 10-hundred and 12-hundred dollars per year. This figure is gradually increasing; yet, when we examine the situation minutely, we find that in thirty-one of our counties the average per capita income is much, much lower than the check of the average welfare recipient. The average welfare recipient's annual income approaches 8-hundred dollars, while some of our people receive less than 3-hundred dollars per year. An able bodied man actually cried when he told me he was only 63 years old. Although he was a college man, he wanted on the Old Age Welfare rolls. It is almost criminal to be party to the creation of a situation where anyone will give all just for security.

Oklahoma stands about sixth or seventh in the United States in the per capita tax that is assessed against our taxpayers. At the same time, she stands near the thirty-ninth or fortieth place in annual per capita income.

These figures, these readings of the scale of the 'economic thermometer,' indicating our State's position among our sister states, must be brought closer and closer together, and certainly nearer and nearer to the degree of normalcy that our state so justly deserves, desires and demands.

Our duty, not just to our present population but to posterity's unborn generations, lies clearly before us. It is time for us to utilize our knowledge, to exercise our power, to demonstrate our courage and to prove our abilities.

President Pro Tempore Gary ordered the Message of the Governor referred to the Committee on Senate and Legislative Affairs for consideration.

MOTION TO RECONSIDER VOTE

As provided under Rule 12-a, Senator Cobb moved that the vote be reconsidered by which **SB 50,** as amended, was passed.

Senator Cook asked unanimous consent, which was granted, that an article published in the Panhandle Herald under date of January 24, be read, which, upon request of Senator Miskovsky, is herewith incorporated:

WHEN YOU ARE in the presence of members of the Oklahoma legislature, the harried solons constant question is: "Where are we going to get the money?" That means the money for appropriations of all sorts and money with which to build roads, keep schools going, etc.

A novel idea has developed in the thinking of Senator Max Cook of Clinton, and it is likely to develop into a house bill, since all revenue measures must originate in that branch.

Senator Cook is finding attentive audiences to the suggestion that Oklahoma place a two-dollar-per-gallon tax on liquor sold in the state. That would be twenty-five cents per pint.

Mississippi, another 'dry' state has such a tax at fifty cents per pint.

Of course all liquor sold in Oklahoma is 'bootleg'. The liquor vendors would be required to put an Oklahoma tax stamp on the illicit product they sell. Failing to do so, they would be subject to penitentiary sentence and very heavy fines in addition.

Senator Cook's idea is that Oklahoma should have a state tax stamp on the liquor sold within the state, along with the stamps of Kansas, Texas, Arkansas, and other states which get revenue from the product sold in this commonwealth.

The Senator's figures on the tax that would be returned are astronomical. He estimates up to eighteen millions annually. The Referee thinks this very high, but if it was only five millions, that would materially help the state's plight.

None can gainsay that liquor is being sold in Oklahoma in big volume, despite law to the contrary. The bootleggers are everywhere. So it only remains a question of whether or not the state will profit from the illicit traffic—or let the revenue go.

The machinery for collection of the tax is already set up, Cook contends. He declares that much sales tax is already collected from bootleggers and that the sales tax collectors could attend to the additional tax.

In the group where Senator Cook was arguing his point, a well known 'dry' publisher said he thought he could be for the bill and that he believed others of his conviction would also support it.

He pointed out that repeal advocates are always harping about the 'lost tax' This would eliminate the tax issue and drastically reduce the repeal argument, this publisher thought. This would be the reason the prohibition officials and groups would support the measure, he opined.

Anyway, if the bill is introduced it will probably become one of the most controversial on the legislative calendar. The bootleggers will cry to the high heavens, for the severe penalties for violation will be a nightmare to them.

Others will argue that the tax would

give official endorsement to the sale of liquor within the state. The retort will be, that the traffic goes on anyway.

Senator Baldwin asked unanimous consent, which was granted, that the following article, published in The Anadarko Daily News of January 28, be read, and that it be printed in the Journal for the next legislative day:

A Bill is well on its way through the Oklahoma house of representatives which will require county commissioners to keep an up-to-date inventory at all times of county property valued at more than $50. A complete inventory report would be required to be filed at end of a commissioner's term of office.

Endorsement of the bill was made by the State County Commissioners Association and its author is Rep. James E. Fesperman, Bokoshe Democrat and a former LeFlore county commissioner. Apparently there could be little objection if commissioners themselves favor such legislation.

Perhaps Oklahoma taxpayers will benefit by the inventory program. But there are few taxpayers who will take the time and effort to compare an inventory of any commissioner's property at the time he begins his term with the time he completes it. It is unlikely that the average citizen will recognize whether the commissioner has purchased a half dozen new trucks or has lowered the inventory of physical properties.

Of Course. qualified investigators will be given the tools with which to make a check of county properties. Grand juries will have material on hand without having to take several weeks of checking records to see what the county has and has had. In these instances there is a certain benefit from the Fesperman bill.

But why not go a little further in the economy direction? Why not carry out the plan suggested by Sen. Don Baldwin and establish a right for county commissioners to use the state's purchasing rights—each county benefiting from group purchases and group bidding instead of current single item purchases and single requests for bids? Certainly there is a savings in purchase price when a central agency asks for bids on buying a dozen motor patrols. And only through use of a state-wide buying plan can such a savings be realized. The same holds true with the offering for sale of obsolete and unusable county-owned materials. Higher offerings will be received when a buyer knows he can come to a central location to make his purchases and ship out the material he buys.

There has been little support to such a plan from county commissioners. Neither has there been a reason advanced by their state association for omitting such support. In recent committee hearings, Representative Fesperman said he could not support such an idea. Why? It's difficult to determine since he evidenced belief in economy and efficiency with his more recently introduced bill.

The inventory measure should be passed. It should be rigidly enforced. And additional efforts should be made to give county commissioners all the means necessary to do a good job and to do it economically.

Senator Nix presiding.

RESOLUTION

The following Resolution was introduced:

SCR 2—By Russell of the Senate and Collins (Seminole), Morford, Shoemake and Swank of the House—A Concurrent Resolution requesting the Department of the Army to investigate and take appropriate disciplinary action against persons responsible for issuing statements casting an unwarranted and untrue imputation of combat cowardice on members of the 45th Infantry Division who served in said Division in December, 1951 and the first half of 1952; and further requesting that the Department of the Army make a full and complete apology and a true and complete statement of the facts, through the news agencies of the nation.

Senator Russell asked unanimous consent, which was granted, that the following article appearing in the Daily Oklahoman on January 29, 1953 be read:

STYRON DEFENDS HONOR OF 45TH

There were no courts martial for cowardice or any similar offenses of Oklahoma men with the 45th division in Korea.

That was the answer Wednesday of Maj. Gen. James C. Styron, Hobart, to the eighth army judge advocates' announcement from Seoul that the 45th was one of several divisions in which there were several incidences of cowardice under fire.

Col. Robert L. Lancefield, judge advocate, said troops of the third, second and 45th infantry divisions and the first cavalry division have been disciplined for cowardice.

'It's a Shame'

Lancefield said a group of 45th men were charged with defection under fire early in 1952.

Gen. Styron commanded the 45th in Korea from December, 1951, to May, 1952. "During that time, there were no courts martial for cowardice of men

in the 45th," the general told The Daily Oklahoman.

He added, "The 45th did every job assigned to it and did it well. To me it's a shame that a story like that should get out and reflect on the citizen soldiers of Oklahoma."

Morale Is High

The general said there were only about 250 Oklahomans still with the division in Korea when he left last May. Originally 8,000 Oklahomans were called to active duty with the division and went to Japan and from there to Korea.

Lancefield said courts martial for cowardice have made up about 20 percent of all offenses in forward positions and about 10 percent of the offenses in rear areas.

Gen. James A. Van Fleet, in his farewell last Sunday, said troop morale is high. Newsmen covering the front share the same view.

By unanimous consent, upon request of Senator Russell, **SCR 2** was taken up for immediate consideration.

Senator Cowden asked unanimous consent, which was granted, that all members of the Senate be made co-authors of **SCR 2.**

SCR 2, as amended, was read at length as follows and adopted upon motion of Senator Russell:

SENATE CONCURRENT RESOLUTION NO. 2—By Russell, Allen, Baldwin, Ballinger, Boecher, Carrier, Cartwright, Chapman, Cobb, Collins, Cook, Cooper, Coppock, Cowden, Dacus, Field, Fine, Fronterhouse, Garvin, Gary, Grantham, Hamilton, Hope, Irwin, Jones, Kight, Logan, McClendon, Mahan, Maltsberger, Medlock, Miskovsky, Morgan (Craig), Morgan (Logan), Nix, Price, Rinehart, Seaman, Shoemake, Smalley, Walker, Wilson (Beckham), Wilson (Greer) and Young of the Senate and Collins (Seminole), Morford, Shoemake and Swank of the House.

A CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF THE ARMY TO INVESTIGATE AND TAKE APPROPRIATE DISCIPLINARY ACTION AGAINST PERSONS RESPONSIBLE FOR ISSUING STATEMENTS CASTING AN UNWARRANTED AND UNTRUE IMPUTATION OF COMBAT COWARDICE ON MEMBERS OF THE 45TH INFANTRY DIVISION WHO SERVED IN SAID DIVISION IN DECEMBER 1951 AND THE FIRST HALF OF 1952; AND FURTHER REQUESTING THAT THE DEPARTMENT OF THE ARMY MAKE A FULL AND COMPLETE APOLOGY AND A TRUE AND COMPLETE STATEMENT OF THE FACTS, THROUGH THE NEWS AGENCIES OF THE NATION.

WHEREAS, there has been released to the press, radio, and television of the Nation, by the Department of the Army, a statement attributed to the office of the Army Staff Judge Advocate of the United States Eighth Army, Korea, alleging combat cowardice on the part of unnamed personnel of the 45th Infantry Division, and,

WHEREAS, the attributed statement did not specify the period of time during which such actions of cowardice were alleged to have occurred, and,

WHEREAS, during the period from December 5, 1951, to June 1952, the 45th Infantry Division in Korea was a National Guard Division with Oklahoma heritage, in the active Military Service of the United States, and,

WHEREAS, to the personal knowledge of certain members of this Legislature the combat performance and attitude of the members of said Division, during such period of time, was exemplary and the disciplinary record of such Division was one worthy of emulation throughout the armed forces of this Nation, and,

WHEREAS, the unqualified statement, thus attributed to the office of a Senior Staff Officer of the Eighth

United States Army, Korea, as released to news agencies, wholly misstate the facts, in so far as the combat performance of the 45th Infantry Division and its members, during the month of December 1951 and during the first half of 1952, are concerned and represents irresponsible, reckless and thoughtless action on the part of an individual or individuals at a high echelon of the Department of the Army, and,

WHEREAS, such statement constitutes a gross and unwarranted insult to both Oklahoma National Guardsmen and other personnel who served in the 45th Infantry Division during such period of time, and to the State of Oklahoma, and,

WHEREAS, it is appropriate that firm action be taken to insure against recurrence of such irresponsible and defamatory statements.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY - FOURTH LEGISLATURE OF THE STATE OF OKLAHOMA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN: That the Department of the Army be requested to institute an investigation of the conduct of the officer or officers responsible for the issuance of such reckless and irresponsible statements, that appropriate disciplinary action be taken against the individual or individuals responsible therefor, and that the Department of the Army cause to be released to the news agencies of this Nation a full and complete apology, together with a true and discriminating statement of the facts involved.

BE IT FURTHER RESOLVED that copies of this Resolution be forwarded to the President of the United States, to the Secretary of Defense and to the Oklahoma members of the United States Senate and House of Representatives.

COMMUNICATION

Senator Rinehart, in the absence of President Pro Tempore Gary, presented, had read and, by unanimous consent of the Senate, incorporated in the Journal the following Communication:

February 4, 1953

Hon. Raymond Gary, President
Pro Tempore
Oklahoma State Senate
State Capitol
Oklahoma City, Oklahoma

Dear Senator Gary:

At this time I would like to take the opportunity to commend the Oklahoma State Senate and especially Senator John Russell, in their action regarding the statements that had been made against the 45th Division.

Myself and this organization feel that the 45th Division is no different than the other 350,000 Oklahomans who have served this country during the past thirty-five years. For that many men to go out of a state this small it would be impossible, I think, to brand them as cowards, in that on a per capita basis there are very few states that hold a record equivalent to ours as far as the military is concerned.

Mr. Jack Burger of El Reno who is a Member of the Council of Administration of the Veterans of Foreign Wars of the United States, and myself must be in Washington, D. C., February 15, 16 and 17, at which time we will meet with the Oklahoma delegation on some other Veterans problems and since we think this slanderous remark that the 45th Division is a major issue, I would like for the State Senate to send the Honorable John Russell to Washington on the above mentioned dates to aid us in placing this complaint before the Oklahoma delegation and, if possible, before the Department of the Army.

Thanks again for your outstanding action on this matter.

With kindest regards, I am,
Respectfully,

(Signed) GEORGE M. MORRIS,
Department Commander,
Veterans of Foreign Wars—
Oklahoma.

Senator Rinehart moved that, pursuant to the request contained in the Communication, above incorporated, the State Senate authorize and designate Senator John Russell, with expenses paid, to go to Washington, D. C., for the purpose of considering the matter contained in the said Communication, Senator Russell to be supplied with suitable and proper Resolutions from the State Senate for his use in appear-

ing before Departments with which he may desire to discuss the matter concerning the 45th Division, which motion was declared adopted.

Upon motion of Senator Cowden, the Senate recessed for 10 minutes.

The Senate reassembled, with Senator Cartwright presiding.

Senator Dacus asked unanimous consent, which was granted, that the following letter from J. C. Styron of Hobart, addressed to Senator John Russell, be read and incorporated in the Journal for this legislative day:

Senator John Russell,
State Capitol Bldg.
Oklahoma City, Okla.

Dear John:

Below I quote the cable received from Gen. Clark:

"I deeply regret the recent publicity which concerned courtsmartials cases and which implied discredit to the 45th Inf. Div. I assure you that I am deeply disturbed and that the matter is receiving my personal attention. I hold the 45th div. in highest regard and am fully familiar with its splendid accomplishments while serving under my command in Italy. Upon my arrival in the Far East in May 1952 I was informed of the divisions fine combat record in Korea under your outstanding leadership and I am personally gratified that the div. has continued to uphold its fine fighting traditions. Nothing can detract from its magnificent achievements or lessen in the least my appreciation of the sacrifices made by its officers and men in defending our liberties in the face of vicious communist aggression. The 45th div. may well be proud of its record. With warm personal regards." signed Clark.

From my contacts and conversations with Gen. Clark during our recent tour of active duty, I am certain that he thinks a great deal of the 45th and I am convinced that he is absolutely sincere in what he said in his cable and that he will continue the investigation of the incident and that the bird who made the loose talk will wish many times that he had kept his mouth shut.

Sincerely,
S/ Jim Styron

(Signed) Oscar R. Howland

SPECIAL REPORT

Senator Russell, who was delegated by the Senate to go to Washington to investigate purported statements made by Colonel Robert L. Lancefield, Staff Judge Advocate of the United States Army in Korea, made a report of his trip, and asked that the following be read and incorporated in the Journal for this legislative day:

At the request of the Oklahoma Congressional Delegation, the Army has taken steps to clarify the recent statements of Colonel Robert L. Lancefield, staff judge advocate of the United States Army in Korea.

Colonel Lancefield had been quoted as saying that soldiers of several divisions had been tried by courts martial on charges of misbehavior or cowardice

before the enemy, refusal to go into combat position, and desertion to avoid hazardous duty.

The total number of persons tried on these charges in the 45th Infantry Division was 15. None was a member of the original 45th Infantry (Oklahoma National Guard) Division when it was inducted into Federal service in September of 1950, and none is a native of Oklahoma. Three of the 15 were acquitted.

These offenses occurred during the period from June to October, 1952.

When the 45th Infantry Division was inducted into Federal service, it was composed largely of Oklahoma National Guardsmen. However, as a result of rotation, few if any Oklahomans remained in the division in June 1952.

The 45th Infantry Division has been involved in some of the heaviest fighting in Korea and it has done an excellent job both offensively and defensively in fighting the Communist aggressors. It has given an excellent account of itself.

The committee, appointed to notify the Honorable House of the Senate's acceptance of its invitation for a Joint Session, announced the duty performed.

Upon motion of Senator Cowden, the Governor's Special Message, read by him in Joint Session, is herewith incorporated:

TO THE HONORABLE SENATE AND HOUSE OF REPRESENTATIVES, TWENTY-FOURTH LEGISLATURE, STATE OF OKLAHOMA.

Since addressing you on previous occasions a combination of circumstances has arisen, some of them very serious in nature, which impels me to direct this further communication to you. There will, perhaps, be others. For the moment, I shall confine myself to subjects which I consider imperative.

Let me say at the outset, in my original message to you delivered on January 6, 1953, I outlined to you, in what I considered then, and yet, very definite terms, an objective program which had for its purposes the accomplishments, broadly speaking, of thrift, economy, reformation, and reorganization of state, county, municipal, and school district governments. To my surprise, and, I think, without justifiable cause, there seems to have arisen some degree of feeling, both within these halls and outside, that I have, by some process of thinking or expression, receded or retreated from my intention to press, with all the vigor at my command, the accomplishment of these paramount objectives. That this feeling may be permanently allayed, let me here and now say that I repeat with emphasis all that I have previously outlined to you in my original message of January 6th. Conditions that have arisen since that time make more emphatic now than then the necessity for us to get back on that program and to stay on it if we intend to be able to give the taxpayers of Oklahoma the type and kind of government they so richly deserve to have.

It has been most distressing to me to see builded around this current session of the Legislature a public feeling that approximately all that will be ac-

complished is to divide up the money and go home. Such a feeling upon the part of the public is most disastrous in its effect. It destroys the public confidence and leads the average citizen into the fallacious belief that his government is a farce and a failure. The greatest enemy of democracy and the one that will lead to the quickest destruction of all of its aims, its ideals, and its dreams, is to instill such feeling into the minds of the citizen who is so greatly dependent upon his government, and who likes to look upon it, and to it, for a standard of greatness in stability and character that he, the citizen, would be proud to emulate.

The Twenty-Fourth Legislature has now been in session for almost two months. The legislative hoppers have been filled to overflowing with bills having for their purposes the expenditure of public funds, and increasing by fantastic figures the appropriation for some purposes over and above those given in the past biennium for the same purpose. In the same period of time, the amount of legislation that has been offered which has for its purpose bringing about the necessary and needed reforms, are, for the most part, negligible and of no appreciable consequence. There are a few exceptions to this broad statement.

There are many reasons that have been advanced as to why this Twenty-Fourth Legislature has not acted on many of the major reforms which I have heretofore suggested. It is useless to repeat them here. But I can say to you, in frankness and candor, that a lack of public support for these reforms cannot be advanced as an excuse or a reason. Both the public and the press have supported me in this effort, and I hope they will continue so to do. I yet entertain hope that you will stop for the moment and think well of the future before you abandon, in its major proportions, the program which I outlined to you in 1951, and again in 1953.

Dividing and spending the peoples money is only one of the minor reasons why Legislatures exist, and lasting political fortunes are not builded upon the size of the appropriation that an individual can procure for a given purpose. Our history reflects that greatness in the realm of statesmanship attaches itself to and reflects lasting glory on the memory of those who accepted their office as a public trust, and sought to zealously guard and protect, rather than recklessly spend the monies entrusted to their keeping.

Before we go into specific matters, I think that we should ask ourselves this question—can we not read the portents of the seasons? It is true that legislative appropriations, as a matter of law, are based upon an estimate of income and revenue, and that estimate is based upon the experience of previous years. If conditions, economically speaking, remain the same, this income is most likely to remain fixed with only slight variations. But without regard to the law, conditions now confront us which would convince any thinking man that we cannot rely upon the present estimate for the oncoming calendar year, and the one succeeding it.

I need not direct attention to those members of the Legislature who are engaged in stock raising and farming to this fact, but to all others, let me say that the stock raising industry alone has already sustained enough losses in income to measurably decrease the income of this State for the next two years. We are confronted with the further fact that any man can see that the grain crop of Oklahoma for the next ensuing year is already measurably damaged, and we cannot expect a normal yield. This, coupled with the fact that farm commodities of all kinds are suffering a decided decline, must and should lead us to the inevitable con-

clusion that the financial situation of the State of Oklahoma is everything but rosy. What good will it do to appropriate large sums of money if the income and revenue of the State will not sustain the appropriation. And we would only be kidding ourselves to increase appropriations for different departments or institutions, or for other purposes, when in the long run they will have to be cut back under the Constitution.

Let me direct your attention to some of the signs that tend to sustain the statements that I am making here. The Oklahoma Tax Commission collects twenty-eight different types of tax. In January of 1953 the total amount collected was 3.45% less than during the same period in 1952. But in the same period the income tax collected by the State of Oklahoma for January, 1953, was 39.55% below the same period in 1952. The gross production tax collected in Oklahoma for January, 1953, was 26.5% lower than it was for the same period in 1952. We have not yet felt the impact on the retail market of the downward trend in meat prices and in farm commodities but when it comes, we can look forward to material reductions in our income from sales tax, road users tax, and other types of excise taxation. It is fortunate indeed that Oklahoma came out of the last biennium with an approximate $14,000,000.00 surplus, for it is easy to perceive that in the next biennium, unless conditions materially change, we are liable to come up with a much greater deficit than the accumulated surplus. These are some of the reasons why I so ardently insisted that we undertake to keep our appropriations within the revenues that we can reasonably and actually anticipate, and not what it might be by the application of abstract rules of law to an unrealistic economic condition based upon wishful thinking rather than facts.

If, as predicted here, and in accordance with the existing trends, the economic conditions are on the downward trend, it is only a matter of weeks until this downward trend will be reflected in wages, salaries, and all other types of income. Dependent as Oklahoma is basically upon live stock raising and agriculture for her income, it is not amiss to say that the conditions have already taken place and transpired that will bring about the exact results which are being forecasted.

Now let us come to a specific case. In 1951, for the biennium to follow, you appropriated for the support and maintenance of the public schools of Oklahoma approximately $58,600,000. As I pointed out to you in my first message, due to the publicity given the question of tax equalization, and certain other reasons, approximately $180,000,000.00 of additional property was placed on the tax rolls. This additional property assessment permitted the operation of our public schools and left a surplus in this appropriation of approximately $3,000,000.00. Now we find this Legislature confronted at the present time with an appropriation for the next ensuing biennium of approximately $63,500,000.00, or $5,000,000.00 more than was appropriated for the last biennium, and $8,000,000.00 more than was used in the last biennium. I recommended to you that enough of that $3,000,000.00 surplus be used to bring the minimum teachers pay up to $2400.00 per year, and I still make that recommendation, but I can find no good reason, and neither will the people of Oklahoma find a good reason, for increasing the appropriation by a figure approximating $8,000,000.00 over the amount used in the last biennium. Has anything been done to correct the conditions that are making our schools more expensive than they ought to be? Has anything been done to reduce the administrative cost of our educational system? We recognize the fact that these things can be done without doing detri-

ment or injury to our educational system. On the contrary, in the states where such practice has been carried out, the educational standards have been infinitely bettered.

Let me give you some figures and statistics which I hope will be both enlightening and instructive to the public, as well as to you. They certainly were enlightening and instructive to me. In the State of Oklahoma we have 2,749 superintendents and principals, including the 77 county superintendents. The cost of these administrative salaries is $10,498,382.00 per year. We have 16,494 classroom teachers. The salaries of these teachers amount to $49,608,530.00 per year. Thus, you can see that a little over 20% of the total amount of money paid out in salaries for the operation of our public schools is paid to administrative heads of the schools. In Oklahoma we have an average of one administrative head for each six teachers. Based on our average daily attendance of 406,010, we have an average of one superintendent or principal for each 147 pupils.

Now, let us look at the following states and observe how far they have gone in reducing the administrative cost of their public schools:

State	Administrative Units		Average Daily Attendance		Number of Teachers	
Florida	67	1	416.000	6208	17,983	268.4
Alabama	103	1	594,000	5767	21,600	209.7
Arkansas	421	1	360,000	8551	18,000	427.5
Georgia	188	1	620,000	3297	25,500	135.6
Kentucky	232	1	480,000	2069	19,050	82,1
Louisiana	67	1	420,000	6268	16,700	249
Virginia	128	1	540,000	4218	21,000	164.0
New Mexico	109	1	121,000	1110	4,900	45.0
North Carolina	172	1	800,000	4651	29,000	168.6

In Oklahoma we have 1989 school districts, each of which is a separate unit. In the State of Texas, where the reforms have not yet been placed into effect which are prevalent in the other states, we find that this vast empire of territory has 2,264 units with an average daily attendance of 1,600,000 and 55,000 school teachers. Here, now, is a field open, fertile, rich, and ready for action that no other authority on earth can give and take except the Legislature of the State of Oklahoma. Instead of appropriating a vastly greater sum as state aid to our public schools, why doesn't this Legislature take forward steps towards bringing about the reformation that will effect the savings without damage to the results that will give the public some of the relief that I have been so urgently requesting and that they are now demanding.

Let us now develop the subject of tax equalization. I brought this matter to your attention forcefully in my message of January 6, 1953. I attached to that message as an appendix a very informative chart which, for some reason, inadvertent, I am sure, was never printed in the Journal. I frankly wish it had been that all of you might have been able to see the proof of the situation for which the statement was prepared. To date, the question of tax equalization has been wholly ignored by this session. That, of course, is your privilege, but it is also my duty to keep calling your attention to it and to fix squarely the responsibility for failure to get action upon this important subject. Again, I call your attention to the addition of the one hundred eighty millions of dollars on our tax rolls in the years 1951 and 1952. This sum is infinitesimally

small as compared to what it would have been if the 1951 Legislature had acted on any one of the bills proposed. That multiplied millions of dollars of personal property is escaping the tax rolls entirely is a matter of common knowledge, talked about throughout the state and well known to every individual living within our boundaries. Not only is this true, but the conditions existing are officially recognized throughout the State.

I reproduce below in its entirety an unsolicited communication received by me a few days ago from the Equalization and Excise Board of Texas County, Oklahoma. It Follows:

"Texhoma, Oklahoma
February 7, 1953

"Governor Johnston Murray
"Oklahoma City, Oklahoma
"Honorable Governor Murray:

"We, the members of the Equalization and Excise Board of Texas County, are writing pertaining to Taxes of Texas County and Oklahoma as a whole."

"It is almost impossible for our schools to operate on the amount of taxes they can raise under the law and the present valuation of property with the homestead exemptions taken out.

"For some examples will quote the following figures:

"Texas County valuation is	$35,721,177.00
"Homestead Exemptions --	2,105,305.00
"Guymon School District valuation ----------	10,193,565.00
"Homestead exemptions --	846,975.00
"Hooker School District valuation ----------	5,459,018.00
"Homestead exemptions --	394,130.00
"Texhoma School District valuation ----------	2,688,941.00
"Homestead exemptions --	240,095.00

"In the first place owing to the above figures we stand for the repeal of the homestead exemption law. For instance at least one half of the homes in Texhoma are not valued at more than $1000.00 therefore one half of the people of Texhoma do not help to support the school, though they get just as much benefit from the school as the ones that pay the taxes.

"The same thing exists to about the same extent throughout all of the schools of the County and possibly worse in some parts of the state, because we know our values are higher than many of the Eastern Counties.

"We wonder if there could be a plan worked out whereby the County Assessors or the Equalization Boards of the state could set a uniform rule of valuations that all the state could use, which would be fair to all, and that the state Equalization Board would see that all Counties use that uniform schedule.

"We would be glad to hear from or meet with you pertaining to these things, and if you desire, we give you permission to present this to the present legislature which is in session.

"Yours very truly,

s/ Carl Muller, Chairman
s/ James B. Langston, Member
s/ E. O. Osborn, Member."

To the men who wrote the above communication, I am deeply grateful, and I am sure that the same identical condition exists in all of the other seventy-six counties in this State. I have not asked you to do anything new or drastic, other than to pass laws which will compel the enforcement of our now existing laws.

To date, the only action that has been taken is to propose by legislation to lengthen the term of county officers. Such legislation offers no solution, temporary or permanent.

If a fair system of tax assessment and equalization were placed in effect in the State of Oklahoma as it should

be, there would not be any necessity, real or fancied, for the appropriation of sixty-three and one-half million dollars for aid to public schools. (In this connection, let me interpolate that the sixty-three and one-half million dollar appropriation bill now pending is, by no means, all of the appropriations which you have before you purporting to be for educational purposes.)

Again, here is a field where, although every citizen recognizes it, the public press has clamored for it, and I have repeatedly requested it, relief can be given only by the Legislature of the State of Oklahoma. This burden is yours, and we cannot excuse ourselves by simply saying that it ought to be done and then forgetting the subject.

Next we come to the subject of tax exemptions. I have implored you to reexamine in its entirety the field of tax exemptions in the hope that corrective measures will be taken to eliminate some of the unnecessary exemptions which presently exist. To date, what do we have—a series of bills to create more exemptions. In this field alone, I am of the oninion that several millions of dollars can be added to the income of the State without doing material injustices to even the special privileged groups that now enjoy such exemptions.

Next we come to the road users tax. To date, I have vainly sought to get a reexamination of the system and to compare it with the systems of other states. I did not then charge and I do not now say that the Oklahoma system is inequitable or unfair, but I do feel now, as then, that the people of Oklahoma are entitled to know whether or not our system measures up to the standards in use in other of the more progressive states. I do know, and those of you who attended the National Council of State Governments know, that this was a paramount question discussed at the various meetings of the Council. You are also familiar with the fact that a National Uniform Act has been proposed on this subject. A brochure has been issued by the National Association of Tax Commissioners. All of these studies are entitled to be considered, and I hope that you will not go through this session without at least inquiring into the advanced methods now being proposed and and in use in many states.

Let us come now to the over-all subject of appropriations. For all purposes, it has been and it now is my insistent request that before making blanket appropriations of major proportions for the operation of any particular branch, that careful, conservative consideration be given to the over-all needs, and apportionments be made accordingly. Great injury can be done to our entire system of government by rushing through an appropriation amounting to many millions of dollars for the benefit of some one group or bloc, and then find ourselves at the end having to cut short other governmental activities of equal importance. I know you will concur with me when I say to you that I feel it is my duty and prerogative to know, before signing any big appropriation bills, just how this appropriation fits into the general over-all picture. It is the only way I know that justice can be done to all departments—doing the best we can for all of them—and not doing injustice to some of them to the benefit of a favored few. I want high standards of education in Oklahoma. I want good roads in Oklahoma. I want good administration of our State hospitals and of our colleges, and all other departments of government. But I cannot, in good conscience say to you, representing all of the people of this great State, that I want to show special favors to any one of the groups or classes that I have named, or any other class which remains unnamed. This is my duty as I conceive it, and so help me God, it is the duty I will try to execute equitably and fairly.

So I beg of you that you get together and make your allocations in such manner that equity and justice will be done with what we have to do it with, among all departments, without favor to one or punishment to another.

Another subject to which your attention has been called most forcefully is the problem of Workmen's Compensation rates in Oklahoma. I respectfully refer you to my message of January 6th in this regard. All I said to you then is still true, and perhaps more so now than then. Much legislation has been offered which, if passed, will have a direct tendency to further increase this already unbearable load. Industrial expansion in Oklahoma is virtually at a standstill, and this situation is one of the main contributing causes. Whatever the underlying reasons may be, they should be explored to the fullest extent and corrective steps taken. No branch of the government has the broad inquisitorial powers possessed by the State Legislature. If additional facilities are needed for a careful examination of the circumstances and conditions which brought about the excessive rates being charged in Oklahoma, you have the power to procure these facilities. Experts are available and should be gotten. I do not believe that an extended study will be necessary. But we will be derelict in our duty to the employers of Oklahoma, and to industry generally, if we fail to at least make an effort to find and reveal the causes of this unfortunate situation. Here is another condition that only the Legislature can correct, or provide the means by which it may be corrected.

Please be advised that in presenting this message to you, in the rather forceful language that it contains, I am not at all unmindful of the position that I occupy in the scheme of Oklahoma government. It is my duty to suggest these things to you and to point them out with clarity and with force. I am trying to do that duty. When that duty has been performed by me, the responsibility and the obligation devolves upon these bodies. Some of you may not agree with me as a matter of principle. For your convictions I have high esteem and respect, and I shall not be critical of any man because he fails to agree with me. Others may oppose my suggestions on personal grounds. This I cannot prevent. Of transcendent and paramount importance, however, is the welfare of the people of the State of Oklahoma and the progress of Oklahoma among the category of states that make up our glorious nation. The administration of public affairs is not an easy task, and there are no easy ways to perform it. To perform our duties rightfully and in the manner that they should be performed will, of necessity, at times bring criticism from affected groups, but these groups, no matter what their political power might be, and their demands, must at all times be subordinated to the general welfare of the entire state. No bloc or faction is big enough to run the State of Oklahoma or to select the men who do administer its affairs. In all events, however, politically speaking, we are all expendable, and to be worthy of our trust, we must lay aside all thoughts of political preferment and future advancement, and discharge with the courage of our conviction, the duties that presently confront us. The governmental structure, particularly from the standpoint of revenue and taxation, is overloaded, and we well know it. Before we can march forward, corrective measures must be taken. Stress and demands upon the State must be eased, and through a proper process of equalization and adjustment, the local units must assume and carry more of their respective responsibilities.

I confidently predict that the men who will take this torch and carry it, until these things are accomplished, are the

men who will control the future destiny of this great Commonwealth.

Concluding, let me in all sincerity ask you, and each of you individually and collectively, to stop and take inventory of what has been done thus far, legislatively speaking. Peruse, if you will, all of the legislation that has been introduced. Lay aside in one stack all of the bills which have for their purpose appropriating or expending the taxpayers money, or increasing expenditures over the accustomed amount. And in another stack let us lay aside and take a look at the bills which have for their purpose giving to the taxpayer the break or the relief which he has been so confidently and patiently awaiting. When you add up the results and take a look at the picture, I am sure that you must concur with me in the thought and the knowledge that to date we have not given Mr. Taxpayer the break to which he is entitled. And out of the tumult and the shouting methinks I hear the voice of Mr. Taxpayer crying out in the might of his authority, and asking us the simple question—WHY?

Respectfully submitted,

JOHNSTON MURRAY.
Governor of Oklahoma.

Senator Cooper presiding.

Senator Field asked to be excused for the remainder of this legislative day, which was the order.

COMMUNICATIONS

Upon request of Senator Gary, the following telegram from P. N. Holbrook, a gin operator of Carnegie, was read and is herewith incorporated:

Senator Raymond Gary,
President Pro Tempore,
State Senate.

When I was appointed and agreed to serve as a member of the Joint Committee of Citizens and members of the State Legislature to a Committee of Roads and Highways, I presumed that the days which I spent away from my business would not be in vain but would be of some actual value to our State of Oklahoma. I attended several meetings in Oklahoma City late last year. One of the first proposals that was passed by the Committee without a dissenting vote was the $7 million Supplemental Highway Appropriation proposal. Since the adjourning of the Committee I have watched with much interest the recommendations which were made by the Joint Committee. I feel that our work on the committee had been most gainful when the State Senate passed the supplemental appropriation bill for the State Highway Department thus assuring the continuance of the road building program for the state. It will soon be two months since the Senate sent the bill to the House. Perhaps half the session of the Legislature has passed, and the $7 million highway bill is still in committee in the House of Representatives. I could readily understand a deliberate action of any committee should this appropriation bill be the major portion of the amount to be received by the department, but when it is definitely ascertained that this supplemental appropriation bill is less than ten per cent of the calculated appropriation for the biennium for roads and highways, it is difficult for a layman to understand why any undue delay would be practical. As a member of the Joint Committee, I believe that I am voicing the opinion of a great majority of the citizens who serve on the committee when I urge that we do not allow the road building program to bog down in 1953.

Respectfully,
S/ P. N. Holbrook,
Committee Member.

A letter from Reverend Hugh R. Bumpas, Pastor, and A. D. Walters, Minister of Music, both of the Capitol Hill Baptist Church, was read, asking the members of the Senate to attend a revival meeting beginning on February 22, to be conducted by the Billy Graham Evangelistic Team.

Senator Wilson (Greer), asked unanimous consent, which was granted, that the following essay on Soil Conservation written by Donald Clement of Hollis be read and incorporated in the Journal, stating that this young man was winner out of forty-three entries:

WHAT SOIL CONSERVATION MEANS TO HARMON COUNTY:

Our most important natural resource is soil. Without it, plants could not grow; plant-eating animals could not live; therefore meat-eating animals would perish. Soil, like water and air, is indispensable to all who live on land.

It differs from water and air, however, in one great respect. The earth has plenty of air and water; but the supply of usable soil is extremely limited.

What is "Usable soil"? It is the layer of loose surface materials, often called topsoil, which contains plant food. The next layer, or subsoil, also has loose materials; but it has little or no plant food.

Food is one of the necessities of life. We, the people of Harmon County, should be interested in the conservation and wise use of our soil, and water in order to continue producing food.

If soil is lost, it is like destroying part of a factory. Thus, the entire county is concerned about the conservation of soil. Due to our natural resources, especially the soil, we have been able to win two world wars in the past thirty years. If the people in Harmon County don't help to keep the soil in good shape our country may be lost in the future.

The top soil is one of the most important parts of our land. If it is gone plants will not grow. It takes approximately 2,500 to 5,000 years for nature to replace from 5 to 10 inches of topsoil. The top soil can be lost in two ways, erosion by water and erosion by wind. This can be prevented by earthen dams, contour cultivation, terraces, tillage practices and legume crops.

Only seven percent of the people in the world live in the United States, but we own nearly all the bathtubs, most of the automobiles and about one-half of all the telephones and radios in the world. If we are going to keep this high standard of living, we must protect our soil.

So as you can see soil plays an important part in the survival of all the

animals and plants here in our own little county, Harmon County.

MESSAGES FROM THE GOVERNOR

TO THE PRESIDENT AND MEMBERS OF THE HONORABLE SENATE TWENTY-FOURTH OKLAHOMA LEGISLATURE:

Gentlemen:

It has come to my attention that **House Bill 661** if enacted into law would take from the General Revenue Fund the sum of $94,000.00.

Though I am sympathetic toward the Court Reporters' profession and its importance in the Judiciary of this State, and fully cognizant of their low rate of pay and the justification of an increase, I do not feel that it would be economically sound for the General Revenue Fund to bear the brunt of the entire amount of this increase; therefore I respectfully request the members of the Senate to reconsider their vote on **House Bill 661** for the purpose of permitting at least $600.00 of this increase to come from a local level through the facilities of the court fund of their respective Districts as has been the policy in previous years.

Johnston Murray.

Also, since both Engrossed House Bill No. 893 and Senate Bill No. 264 were referred to this Special Committee, we deem the subject matter of both bills to be within the scope of the investigation of this Special Committee.

2. SCOPE OF THE INVESTIGATION

This Special Committee has held two lengthy public hearings. In addition, its members have made diligent individual studies of the matters referred to it. This report is the result of the information so collected.

2 (A). THE PUBLIC HEARINGS

Most of the parties appearing at the hearings devoted their discussion to favoring or opposing passage of Engrossed House Bill No. 893.

Most of the parties who so appeared presented a very marked divergence of thought on the subject. Their viewpoints were presented excellently and informatively. Despite the fact that the advocates of the opposing contentions were so imbued with the correctness of their own position that they were unable to recognize any merit in that of their opponents, the members of the Special Committee derived invaluable assistance from the discussions held at the public hearings.

Public hearings on controversial legislation were proven, in the proceedings of this Special Committee, to be a most beneficial instrument in the deliberations of a legislative body. Not only were the members of the Committee enabled to derive from the highly conflicting viewpoints meritorious parts of each, but they were enabled to obtain the advice of impartial experienced educators on the subject.

In addition to the enlightening arguments of the advocates of two diametrically opposed schools of thought on the subject, your Special Committee was favored with the expressions of the Deans of the Departments of Education of the University of Oklahoma and of the Oklahoma A. & M. College, and also with a statement of Dr. J. Chester Swanson, Superintendent of Oklahoma City Public Schools, in which he also outlined the unanimous viewpoint of the principals of the Oklahoma City Schools:

2 (B). THE ESSENCE OF THE PROBLEM

The advocates of the passage of Engrossed House Bill No. 893 are bitterly opposed to "fraternities" and "sororities" in sub-junior college schools.

It appears that such so-called "fraternities" and "sororities" have developed many undesirable practices. This was definitely established.

The problem posed by such groups is not one that affects Oklahoma cities alone. It is well known that the problem is a national one in large high schools. Twenty-five states have enacted laws on the subject, attacking the problem in one way or another.

The using of the terms "fraternity" or "sorority", and legislating against them, does not offer any solution to the problem. "Fraternities" and "sororities" are merely names for social clubs composed of school pupils. Any legislation forbidding "fraternities" or "sororities" can be avoided by the simple expedient of the members renaming their organization a "club".

In nearly every state where such organizations have been forbidden by law, it is the information of your Special Committee that they have "gone underground"—as their critics term it—by this simple expedient, or by adding to the problem by additional secrecy.

The principal objections voiced to such social clubs are these:

(1) The exclusive nature of their membership, engendering an assumed social superiority by members;

(2) The restriction of membership to unanimous approval of the members;

(3) Injury to the sensibilities of those pupils not selected for membership;

(4) Hazing practices which go beyond the bounds of propriety;

(5) Insufficient adult supervision of club activities, resulting in reprehensible collective action;

(6) Over-absorption of the members' interest, to the detriment of their school work and of the school program.

The opponents of legislation on the subject advance these arguments:

(1) There can be no effective legislation that compels any person, child or adult, socially to associate with another person;

(2) Any attempt to prohibit social clubs of children who live with their parents is an attempt to infringe upon

the rights of parents to rear their own children;

(3) Any attempt to regulate out-of-school social clubs is an attempt to "regiment" the children under the school authorities—a denial of the basic concept of liberty and a step toward totalitarianism;

(4) The preservation of the right of children to form clubs and to determine their own methods of selecting members, to find occupancy for their time after school hours, and to discipline themselves, is beneficial in training them to accept the responsibilities of citizenship; and

(5) Children whose sensibilities are unduly affected by not being accorded membership in any particular social group need adjustment to the realities of adult life.

The advocates of these latter arguments, however, admit that social clubs in Oklahoma City have been guilty of abuses that require correction by some means.

Entirely disregarding these latter arguments—although most of them are quite in accord with our accepted ideas of government and freedom—an analysis of the objections to such social clubs indicates the practical impossibility of general legislation that effectively could eliminate their most objectionable features.

(1) No general legislation could be enacted that would prevent any individual, adult or adolescent, from feeling socially superior to some other individual.

(2) Engrossed House Bill No. 893 declares that any organization "which seeks to perpetuate itself by taking in additional members * * * * on the basis of the decision of its membership" is "undemocratic". This would appear to be an entire reversal of the meaning of democracy, as it generally is understood. If the right is to be accorded at all to school pupils to group together for social purposes outside the school, no legislation possibly can enforce conformity, by group members, to other than their own wishes in regard to the composition of the group.

(3) No general legislation can be enacted effectively to salve the hurt sensibilities of any person socially "snubbed" by his or her neighbor.

(4) No effective general legislation can require parents properly to supervise and discipline their children, to prevent them from indulging in hazing or other practices short of juvenile delinquency (which already is treated by law).

(5) Neither is there any possibility of devising any legislation which, within its definitive scope, could eliminate all of the myriad and varied interest of school children, outside the school, that might tend to interfere with their school work.

In its very essence, the sub-junior college social club problem appears to be a problem peculiarly affecting large cities. An eminent authority on the subject, the executive secretary of the National Association of Secondary School Principals, estimated that social clubs of the type under consideration exist in about 600 schools, most of which have an enrollment of more than 1,000 pupils.

So far as the Special Committee could learn, the problem in Oklahoma seems to exist principally in Oklahoma City and Tulsa. And the Chairman of the Oklahoma City Board of Education states that it exists in only 4 of the 14 white junior and senior high schools of that system.

The problem seems to be the direct result of large and scattered population, where the families of the school children are not bound by the ties of neighborliness existing in smaller and more compact communities.

The objectionable features of the social clubs do not seem to have appeared

generally throughout the state. There have been no complaints, brought to the attention of the Special Committee, concerning social activities, in clubs or otherwise, in the smaller cities and towns of the state.

2 (C). RECOMMENDATIONS OF PROFESSIONAL EDUCATORS

The Deans of the Departments of Education of Oklahoma University and of Oklahoma A. & M. College advised against legislation attempting to deal directly with the problem. They pointed out the inability of legislation to treat the objectionable features of such social clubs in any manner effectively to prevent evasion. They both advocated the enactment of enabling legislation to authorize the local school authorities to deal with any problem that may arise in any local community. And they expressed confidence in the ability of the local school authorities to meet any such situation in the particular form in which it developed.

Dr. J. Chester Swanson, the Oklahoma City School Superintendent, quoted the unanimous statement of his Secondary School Principals as follows:

"We favor the enactment of legislation making it possible for local school boards to deal with the problem of secret societies in the manner which seems best for the students under their jurisdiction."

And Dr. Swanson stated his own views thus:

"No law will solve this problem, but legal backing of the school board and administration will contribute toward a solution of the problem. When the existing law states that the schools cannot recognize sororities and fraternities, we certainly have no legal method of dealing with the problem. I assure you, as a school administrator, I would want no law which would force me to take any specified action against students within our schools. I would like to have laws which would permit me to take action against these organizations if conditions made severe measures necessary. I would want no law which would in any way make me responsible for the conduct of children outside of school hours and away from school grounds. On the other hand, when organizations with activities outside of school hours and outside of school grounds become a major factor in operating a school program, then I would want the legal means to handle the situation in relationship to the school program and activities within the school itself."

Other eminent professional educators who have had to deal directly with the social club problem have expressed almost exactly the same views as Dr. Swanson. Where they have been authorized to deal with it in the way best suited to the local situation, they have solved the problem satisfactorily, in most instances. When they have been restricted by specific legislation, they report that their problem is aggravated.

3. RECOMMENDATIONS

A. The provisions of Engrossed House Bill No. 893 do not appear to be in accord with the recommendations of experienced school men nor the wishes of the chief administrator and the principals of the schools where the problem, in Oklahoma, seems most potent.

This bill, in effect, declares it to be unlawful for school pupils to belong to any club or organization (with a few named exceptions) unless it is a part of the school program or unless it is sponsored by educational authorities. And it gives the school authorities not the power to deal with the effect upon the school program of extra-curricular activities of pupils, but merely discretion as to whether, and under what circumstances, they shall suspend or expel a pupil for belonging to such an outlawed organization.

For the reasons above set forth, it is recommended that Engrossed House Bill No. 893 be amended as stated hereafter.

B. Senate Bill No. 264, by Senator Miskovsky, seems to present a reasonable approach to solution of the problem as it now exists in the Oklahoma City schools. But, it is designed to deal with a present local problem; and the problem may arise elsewhere, or at a later date in Oklahoma City, in a different form. Regulations of the nature prescribed in Senate Bill No. 264 can be promulgated by local school authorities if enabling legislation is passed. Then, if the problem should change, the local school authorities should not be restricted to the sole method of dealing with it as enacted into general law.

Senator Miskovsky concurs in this recommendation. He states that his purpose in introducing the bill was to promote the type of examination of the legislation as provided by this Special Committee; and that that purpose has been served.

C. The State of Pennsylvania has successfully met the social club problem in the manner suggested by the professional educators above-mentioned. The Special Committee, however, deems the Pennsylvania statute on the subject to be unnecessarily verbose. Its essence can be expressed much more concisely.

Therefore, it is recommended that a Committee Substitute for Engrossed House Bill No. 893 be reported to the Senate for passage, such substitute incorporating the essential features of the Pennsylvania law, namely, that the local school authorities be empowered to prescribe, adopt and enforce rules and regulations to deal with any organization creating a problem detrimental to the school program.

A suggested form of the Committee Substitute is hereto attached.

Dated this 31st day of March, 1953.

SPECIAL COMMITTEE REPORT

Senator Jones submitted the following Special Committee Report, which, upon his motion, was declared adopted:

TO THE SENATE OF THE TWENTY-FOURTH OKLAHOMA LEGISLATURE:

We, your Special Gas Committee, appointed pursuant to the provision of Senate Resolution No. 5, beg to report as follows:

Attorneys for the areas affected by the rate increases granted to Consolidated Gas Company petitioned for a rehearing on the merits of the rate case pending in the Corporation Commission; at the time this Committee was appointed.

The rate case pending in the Corporation Commission is one that constitutionally requires a full hearing, in the general nature of a judicial determination, and any order affecting either party must be based upon evidence produced.

Your Committee was appointed, not to interfere with the able legal counsel for the areas affected, but to ascertain if some immediate interim relief for gas consumers could be obtained, pending the rehearing of the matter in the Corporation Commission.

On investigation of the matter your Committee ascertained:

1. That the rate increase to Consolidated Gas Company was ordered by the Corporation Commission after a hearing as required by law and that the Corporation Commission constitutionally was without power to set aside said order without a similar hearing;

2. That upon the petition of the attorneys for the affected areas, the Corporation Commission ordered a rehearing on March 26th and 27th, the earliest date that such rehearing practically could be held, both from the standpoint of the Commission's docket and from the standpoint of preparation by attorneys for the affected areas;

3. However, your Committee found that, in the event of a revision of the rates after the rehearing in the Corporation Commission, considerable difficulty might be encountered, by consumers who had paid the increased rate, in recovering any money which might be due to them.

Therefore, your Committee called this latter to the attention of the Corporation Commission and, under its general powers over accounting procedure of utilities, the Commission immediately ordered the Consolidated Gas Company to keep a full and accurate record of all collections from customers under the increased rate order, pending final determination of the rate rehearing, so that if the evidence presented justified a revision of the rate structure of the company, the amount of excessive payments by consumers might be subject to any proper orders of the commission, or of any court.

Your committee was advised that the foregoing order was the maximum of the constitutional powers of the Corporation Commission over the matter until a hearing could be held and that it afforded to gas consumers of the Consolidated Gas Company all protection that constitutionally could be given immediately.

Your committee further is advised that no legislative action can eliminate the constitutional requirements for a hearing on matters of this kind; and, therefore, has no proposed legislation on the subject to offer to the Senate.

As has now been publicly announced, the Corporation Commission did, after the full hearing required in such matters, find that the former rate order made by it should be set aside and the case reopened. This reopens the case in every particular, and enables the able counsel for the affected areas to protect the interest of the gas consumers.

This committee feels that the Corporation Commission, throughout this matter, has proven itself to be deserving of the fullest of confidence by the people of Oklahoma. It has conformed to a proper judicial attitude throughout, as all thinking citizens should desire it to do. But it also has demonstrated that the public interest in the regulation of public utilities will receive the sort of protection from the commission that was contemplated when it was created as an agency of our state government.

Having fulfilled its designated functions, and having effected all possible legal protection for the consumers of the areas affected, pending the legal trial of the matter by able counsel, your committee requests its discharge unless the Senate desires to assign it additional duties.

Jones, Chairman
Cook
Boecher
Maltsberger
Allen.

Upon motion of Senator Nix, the Senate closed its doors and went into Executive Session.

•

The Senate reassembled, in open session, with President Pro Tempore Gary presiding.

COMMUNICATIONS

Senator Hope asked unanimous consent, which was granted, that the following articles published in the Lindsay News on Friday, April 10, 1953, be read and incorporated in the Journal:

HOPES FADE FOR HIGHWAY 76 PAVING THIS YEAR AS BILL BOGS DOWN IN HOUSE

Prospects of paving for Highway 76 this summer hit a low ebb this week as the $7 million supplemental appropriation was "froze" again when the house of representatives voted to set up a general conference committee to consider all pending money bills.

The bill has been kicked around in the house since it was passed by the senate in the first week of the session. Every effort to put the bill on a through-track to the governor's desk has been defeated, and "it is now too late to do anything on highway 76 paving project if the bill is cleared this week," according to a spokesman for the highway department.

The appropriation was designed to keep highway building underway until the end of the fiscal year. Paving on highway 76 and completion of highway 29 between Wynnewood and the Stephens county line depended directly on the supplemental funds.

The bill struck a snag in the house immediately when house speaker James C. Nance, apparently critical of the speed with which the bill cleared the senate, announced that the house would not pass it or any other appropriations bill without careful consideration, and the measure has been iced down since it was passed by the senate in the first week of the session.

Following some urging by a group of citizens interested in the appropriation bill, it was passed by the house but in such form that it was forced to the conference committee.

The committee report was due to be

considered Monday but action was delayed when the highway department came in for new criticism as a result of a faulty spot on the Oklahoma City highway 60 bypass.

Floor leader Glen Ham of Pauls Valley said, in view of the controversy, he did not think it wise to call up the conference committee report. He expressed doubt that the bill could have received the necessary number of votes to attach the emergency clause.

Tuesday, Gov. Murray, who has said he would sign the $7 millions bill if passed by both houses in final form, agreed that it should go to a general conference committee.

The house voted Tuesday to create a general conference committee of 15 house members and 15 senators. It also created a special committee to act as "custodian" of all appropriation bills until they are assigned to the general conference committee.

Nance named Glen Ham, G. R. Nixon, Tulsa; William Card, Medford; Jeff Davis, Rush Springs; and Bert Larason, Fargo, as members of the special committee.

The senate in executive session Tuesday discussed the question of a general conference committee and agreed to the appointment of 15 senate members.

A motion approving the general conference committee was to be made in the senate Wednesday.

The house action left the senate little choice on the matter as the special "custodian" committee apparently will sit on all appropriation bills until the general conference is named.

Nance has advocated a general conference since early in the session in order to balance the budget and consider needs of all functions of government at the same time.

In keeping with the new policy, both houses Wednesday asked Gov. Murray to recall a bill appropriating $2,000 for a historical celebration at Salina.

The governor previously had asked both houses not to send him any more appropriation bills that had not been to a general conference. He had agreed, however, to make an exception of the $7 millions highway bill.

IT'S A GREAT LIFE

Information that paving of highway 76 south from Lindsay is probably an impossibility for 1953 due to some expert stalling tactics on the part of some members of the house of representatives which has prevented the $7 million supplemental appropriation from going to the governor for his signature, has Garvin county citizens seeing red again.

The appropriation bill was supported by the highway commission and especially by Chairman Joe Curtis of Pauls Valley. Senator Herbert Hope was instrumental in clearing the measure through the senate during the first week of the session. When the bill was sent to the house, it is our opinion it ran into opposition from opponents of an eight-man highway commission who set out to give Chairman Curtis and the other commission members a political slap in the face. I don't think the people in Garvin county have been fooled by the "economy" excuse given as the reason for holding up the appropriation. Especially when those making the excuse have never been suspected of being economy-minded in the past.

* * *

The house of representatives' "tempest in a teapot" over faulty construction of pavement on an Oklahoma City bypass has simmered down after it was found that the "fault" was not in construction but was due to a break in a city storm sewer which caused the highway to settle. However, the diversion served the purpose of holding up a little longer the supplemental appropriation bill for the highway department after

Gov. Murray had announced he would sign it as soon as it was placed on his desk.

Senator Maltsberger asked unanimous consent, which was granted, that the following communication from the Noble County Chapter of Former Students of Oklahoma A. & M. College be read and incorporated in the Journal:

Honorable John Maltsberger
Senator

Dear Sir:

We, the Noble County Chapter of the Former Students Association of Oklahoma A. & M. College, convened in regular meeting April 3, 1953, in Perry, Oklahoma. Having knowledge of the recent unfavorable publicity which has resulted from an attack on our College by a committee of the North Central Association of Colleges and Universities, hereby resolve:

That we have absolute confidence in the ability and integrity of the Board of Regents of the Oklahoma A. & M. College and Dr. Oliver S. Willham and all other responsible officials of Oklahoma A. & M. College.

That since this attack has resulted from a charge of insufficient finances and low academic standards we memorialize the State Legislature in its wisdom to take the necessary steps in order to correct the situation and prevent its recurrence.

Respectfully submitted,

Oklahoma City, Okla.,
April 10, 1953.

Hon. James E. Berry
Lieutenant Governor of Oklahoma
State Capitol Building
Oklahoma City, Oklahoma

My dear Senor Berry:

I take pleasure in writing this letter to you to thank you most sincerely in behalf of my countrymen and their children, of Oklahoma City, for your friendly and kind gesture of taking them, the children of the 5th, 6th, 7th and 8th grades of the Little Flower School for a tour of the State Capitol, the Senate and to lunch at Beverly's on Thursday, April 9, 1953. The day was of particular interest and joy to them and I am sure that your friendliness to them and the personal touch that you gave to the "fiesta" made a very good impression in them. Allow me to say, in behalf of my wife and my own, that we enjoyed the day immensely and there is no doubt, whatsoever, that Father Elias, the two Sisters and Mrs. Bentley, all of the Little Flower School did too.

Our visiting with Governor and Mrs. Murray was most agreeable and gave the happy children the opportunity to converse with him in Spanish, which he so well commands.

In thanking you again, I avail myself of this opportunity to convey to you the assurances of my high esteem and consideration.

Sincerely,

S/Gustavo Padres, Jr.,
Consul of Mexico

REPORT OF SPECIAL INVESTIGATING COMMITTEE

To The Honorable Speaker,
House of Representatives,
24th Session, Oklahoma Legislature.

We, your investigating committee, appointed under motion of February 23, 1953, to investigate the funds of the Game and Fish Department of Oklahoma, and any other matters that the committee deemed necessary, in order to correct the prevailing situation in said Game and Fish Department, beg leave to report as follows, to-wit:

That said committee has, on numerous and sundry occasions, had and held the various meetings at Oklahoma City and at said meetings, numerous witnesses have given testimony under oath and that some of the witnesses so testifying before the said committee have been: Steele Westbrook, State Crime Bureau; Oscar V. Stone, Deputy State Examiner and Inspector; and other public officials and your committee further reports that on the evidence and testimony received before it that we find as follows:

That there was submitted to said committee certain documentary evidence consisting of the report of the audit of the Game and Fish Department at Oklahoma City from the period ending June 30, 1950, June 30, 1951 and July 1, 1952, and a report from Steele Westbrook of the State Crime Bureau and a special report in relation to the audit of the Game and Fish Department covering revenues to said department which were converted to cash, said report being from January 13, 1947 to January 7, 1951, and an audit report prepared by the legislative auditor for the period July 1, 1949 and including to June 30, 1951, and a special report in relation to the audit of the Game and Fish Department covering revenues due said Department which were converted to cash from the period January 8, 1951 to June 30, 1951; that said audits above referred to and each and all of them are hereby made a part of this report, as if fully re-written herein.

Your committee further begs leave to report that in summarizing the evidence and said reports introduced before the said committee that we find a serious misfeasance, nonfeasance and malfeasance on the part of the Director of the Game and Fish Department and his assistants and the Commissioners of the Game and Fish Department during the periods covered by said audits and reports, excepting, however, Raymond Lucas, the newly appointed Commissioner from the Third District.

FINDINGS

Your committee specifically finds that certain fish hatchery managers, ranger supervisors and a number of game rangers collect an enormous amount of travel expenses, which can in no manner be justified and in certain instances are utterly fantastic. You are referred especially to the audits referred to above for this information as the same is too

voluminous to set out in detail in this report. However, it should be noted that a large percent of these persons referred to above drew mileage and expenses in the sums of $2,000 or more, some of said items amounting to over $3,000. To justify mileage and subsistence in this amount, a game ranger or a ranger supervisor would have to drive over 150 miles per day for 365 days of the year.

Your committee further finds that during the fiscal year 1949-50, that the Game and Fish Department expended the sum of $157,338.48 for travel and subsistence; during the fiscal year 1950-51, the sum of $170,164.58; and for 1951-52, the sum of $200,682.73; making a total for the three-year period of $528,185.79.

Your committee further advises that certain legal work is alleged to have been performed by J. Walker Field, Assistant Attorney General, who was then receiving a salary from the State of Oklahoma for his services as an assistant to the Attorney General, but who drew expenses in the amount of $1,487.94; your committee is at a loss to understand or comprehend how, under the law, an assistant Attorney General, duly employed by the State of Oklahoma, on a salary, can draw money from other departments of the State at the same time. Your committee further finds that under Exhibit B, Schedule 5 of the audit of the State Examiner & Inspector, bearing date of July 1, 1952, that the postage, telephone, telegraph, freight and express ran $17,992.98.

Your committee further finds from Exhibit B, Schedule 5 of said audit of July 1, 1952, that the State Game and Fish Department paid rental on a tape recorder in the sum of $100. There is no explanation as to why the rental was paid or the length of time it was used. The committee is of the opinion that a recorder could be purchased and owned by the Department for that amount. Your committee further advises that from said exhibit above referred to that the State Game and Fish Department paid out the sum of $2,256.93 for hiring of an airplane when in truth and in fact, the State Game and Fish Department owned at said time an airplane.

Your committee further finds from the evidence submitted in the form of an audit of the State Examiner and Inspector of said Game and Fish Department on July 1, 1952, that A. D. Aldrich, Assistant Director, travelled from Oklahoma City to Rochester New York by plane on September 9, 1951 and charged the sum of $188.20; that the same A. D. Aldrich, on the 10th day of March, 1952, travelled from Oklahoma City to Miami, Florida, by way of Montgomery, Alabama, the purpose of the trip not stated, and charged a traveling expense in the sum of $213.26; that John Blubough claims the sum of $24 to pay for 400 miles traveled from Tonkawa to Ft. Smith, Arkansas and return, attending the funeral of Finis Cox on May 1, 1951. That Orville Curtis filed a claim and was paid the sum of $86.68 as compensation for a trip from Oklahoma City to Miami, Florida on March 10, 1952, purpose of the trip not stated. That E. W. Dahlgren filed a claim for $208.85, traveling by plane from Oklahoma City to Miami, Florida on March 15, 1952, purpose of the trip not stated. That Quinton P. Douglas filed a claim and was paid for 68 miles at .06c per mile, attending a funeral at Wapanucka on August 1, 1951; that Joe Earp filed a claim for 350 miles of travel from Jay, Oklahoma to Ft. Smith, Arkansas, attending the funeral of Finis Cox on May 15, in the sum of $21. That Emmett Jarvis filed a claim for $17.64 for 294 miles traveled from Chelsea to Ft. Smith, attending the funeral of Finis Cox on May 1, 1951. That O. J. Lindley filed a claim for $23.40 for 390 miles from Cloudy to Ft. Smith, Sallisaw, Vici and return, at-

tending the funeral of Finis Cox on May 29, 1951. That Juanita Mahaffey filed a claim for compensation of $103.63 covering a trip from Oklahoma City to Itasca Park, Minnesota, September 2 to September 9, 1951, nature of the business "field work". That Lawrence Temple filed a claim February 1, 1952 for 1541 miles at .06c a mile for $92.46 and subsistence $59.31 from Stillwater to New Orleans, purpose of the trip not given. That Lawrence Temple filed another claim of $84.64 for subsistence only for a trip from Stillwater to Miami, Florida and return March 10, 1952, purpose of the trip not given. That H. C. Ward filed a travel claim for a trip by plane from Oklahoma City to Rochester, New York on September 9, 1951, purpose of the trip not stated. That W. E. Winfrey filed a claim for $122.84 and was allowed $4.86 for 81 miles travel to Ft. Smith on August 26, 1951, for the purpose of selling licenses and it states that he sold two non-resident licenses. That W. E. Winfrey filed a claim for 77 miles travel in the sum of $4.62 and again for three trips, 226 miles, for $13.56. That Juanita Mahaffey again filed a claim from Oklahoma City to Eschanaba, Michigan and return on June 28, 1951, in the sum of $170.24, purpose of the trip not stated.

Your committee further finds from Exhibit E, Schedule E, of other expenses mentioned in the audit of July 1, 1952. That one Ethen Potter purchased, for the cabin and house at Honey Creek ten paint brushes and 30 gallons of paint. The committee is unable to understand why 10 paint brushes were necessary or that 30 gallons of paint were necessary and we leave that to the imagination of the House of Representatives to figure out just what was going on.

Your committee further finds from the audit made by the State Examiner and Inspector, under date of June 30, 1950, that Kelly DeBusk, Director of the Game and Fish Commission; Finis Cox, Assistant Director; William Schumacher, Wm. H. Thompson, and H. C. Ward, on or about the 12th day of September, 1949 through September 15, 1949, made a trip to Winnipeg, Canada. This trip was made in two cars, leaving Oklahoma City on September 9, arriving in Winnipeg September 11, 1949. The claim reveals that Mr. and Mrs. DeBusk and Mr. and Mrs. Cox left Winnipeg September 15 and arrived in Oklahoma City September 19; while Thompson, Schumacher and Ward left Winnipeg September 17 and arrived in Oklahoma City on September 19. That the total amount spent for miles traveled, meals and lodging amoumted to $746.61 and that the trips were not authorized by the Commission, as provided in House Bill 167 of the Session Laws of 1947, the same being at page 248 of the Session Laws of 1947.

Your committee further finds that one Chris Craft Motor Boat was purchased by the Game and Fish Department at a cost of $3,827, and that the same was sold about two years later for $538. That the explanation given by the Department was that the boat had a hole in it on the side, but the boat is now being used at Lake Texoma and apparently no effort was made on the part of the Game and Fish Department to repair the boat and keep in operation and no records are kept showing if the boat was advertised for sale and bids taken or to whom the boat was sold.

Your committee further advises that Raleigh Barker, a State Game and Fish ranger on a regular salary and while he was working for the State as a ranger and on the State's time made an inventory of all the physical property of said Game and Fish Commission and was paid therefor the additional sum of $300, plus traveling expenses throughout the state and your committee is at a loss to understand under the law of this State how a Game and Fish ranger in the employ of

the State and on a salary, can collect additional money for handling department business.

Your committee specifically finds that the Game and Fish Department owns or has on lease 171,000 acres of land in the State of Oklahoma and that the Commission purchased land at various times, paying an exorbitant price for the same as indicated by the purchase of a 10-acre tract of land near Tahlequah for the sum of $380 per acre, making a total purchase price of $3800.

Your committee further finds that during the years 1947, 1948, 1949 and 1950, numerous checks were mailed to the State Game and Fish Department for various reasons by individual persons and by sportsmen's clubs throughout the State of Oklahoma and that these checks were required by law to be deposited in the office of the State Treasurer's but that Hazel Reams, Juanita Mahaffey, Eva Stewart, Juanita Liemann, Kathryn Cannon and Finis Cox took the checks to said Treasurer's office where they were converted to cash, contrary to the Statutes of the State of Oklahoma, and that said money is unaccounted for in the records of the Game and Fish Department; that the total sum which were able to locate as being embezzled amounts to $4738.60; that this amount is probably only a very small portion of the checks cashed as certain records of the Game and Fish Department and of the First National Bank of Oklahoma City were either destroyed or removed so that the same are not now available for examination.

Your committee further finds that the state depository records in the office of the State Treasurer of the State of Oklahoma are not available for examination by this committee. These records were destroyed without the consent, as required by law, of the Archives Commission, which consists of the Attorney General of the State of Oklahoma, the State Librarian, the State Examiner and Inspector and the Governor of the State of Oklahoma.

Your committee further finds that the Game and Fish Department, on November 27, 1951, had $1,449.50 worth of refunds, which they claim, however, the licenses are not on hand and are unaccounted for by the Game and Fish Department.

Your committee further finds that numerous gas stoves, gas ranges and other articles of household equipment and goods, including washing machines, have been bought during recent years, including the latest years.

Your committee further finds that parcel post insurance, which has been pointed out by the Paul V. Cook audit as being strictly unnecessary ran into $2,503.87.

Your committee further advises that under the audit ending June 30, 1950, total charges for gasoline, oil, grease, antifreeze, tires, storage, etc., for motor vehicle, tractors and boat services was $19,168.09. On an analysis of disbursements under the same audit, as above set forth, fees for appraising land amounted to $458. The audit does not show to whom said fees were paid.

In Exhibit C of the audit made by the State Examiner and Inspector from July 1, 1949 to June 30, 1950, claim No. 5303, there was purchased from the Crane Company a certain Drexel lavatory in shell pink. Your committee is at a loss to understand why standard white would not be good enough for the Game and Fish Department.

Your committee further finds that on August 26, 1952, the legislative auditor attempted to secure some information from the Game and Fish Department relative to the amount of funds expended by the Department on projects on which the Federal Government was participating. The minutes of the legislative council discloses that the auditor was

not able to obtain this information and was told by E. W. Dahlgren that "if you want any information out of this office, you come to me and I will decide whether you get it or not."

Your committee further advises that it found that Kelly DeBusk, former director of the Game and Fish Department did, on August 17, 1950, have W. A. Gaines, Hatcher Superintendent at El Reno, Oklahoma, order for him two 7:10x15 super cushion passenger car tires. This invoice for the tire was shown to be signed by W. A. Gaines, who denied under oath before the committee of ever signing for the tires and your committee had the said W. A. Gaines write his true signature on a piece of paper and compared it with that of the invoice and your committee reports that it was not his signature. Your committee further found that numerous passenger car tires of black with white sidewalls were purchased through the Game and Fish Department by the various individuals, thereby escaping the payment of federal excise taxes and sales tax on said tires. Some of these tires were paid for by the individuals who received the tires and the others were paid for with state funds.

Your committee further finds that the shortages and the embezzlements of monies were not presented to the Oklahoma County Grand Jury, as previously erroneously stated by the County Attorney of Oklahoma County and that the records of said grand jury have disappeared and are not available to this committee, but that the foreman of the grand jury, W. D. Mitchell, testified under oath that some four or five checks were presented to the grand jury but your committee finds that there are some 70 checks that have been cashed and the proceeds thereof embezzled, by employees of said Department and that immediate action should be instituted by the proper officials both criminal and civil to the end that the money be recovered and the parties guilty of embezzlement punished.

CONCLUSIONS

1—That the State Game and Fish Department has been run, operated and maintained in a hap-hazard manner with no thought of economy in mind.

2—That numerous and sundry sums and amounts of money have been spent, wasted and thrown away; that your committee is unable at this time to set forth in detail the various unlawful expenditures of money that have been made by various officials of the State Game and Fish Department.

3—That the Director, Assistant Director and all of the Commissioners, with the exception of Raymond Lucas, are apparently not cognizant of their duties in relation to public trust or that they are incapable of handling state money or have an utter disregard for their responsibilities.

4—That many officials of the Game and Fish Department draw exorbitant sums for travel and subsistence and that it is utterly fantastic that any of them could possibly drive, in the performance of his duties, the number of miles necessary in order to collect the huge travel allowances.

5—It is further concluded that the Game and Fish Department has purchased numerous items that apparently are unnecessary for the performance of the duties of the Game and Fish Department in that the items so purchased are luxury items or were purchased for someone's personal use and enjoyment. It is not understood by the committee why it is necessary to purchase expensive speed boats for the game rangers when an ordinary boat with a powerful outboard motor would be just as efficient.

6—Your committee further concludes that the State Game and Fish Department has purchased thousands of acres

of land, some of which at a very exorbitant price and your committee is at a loss to understand why so much land should be purchased by the Game and Fish Department.

RECOMMENDATIONS

Based on the foregoing, your committee makes the following recommendations and in doing so, your committee realizes that the present unsatisfactory condition of the State Game and Fish Department is the result of gross mismanagement, lack of supervision and the utter disregard for the welfare and conservation of the State Game and Fish funds, which should be used for the propagation of wild life and not for the gain of any of the officials or employees of said department. Reforms must be made in all phases of the State Game and Fish Department before any marked improvement can be made or noted:

FIRST—Your committee recommends that the director, the assistant director and all of the commissioners, except Raymond Lucas, and the employees who drew exorbitant mileage, be removed from office instanter.

SECOND — That a trust fund be established in the State Treasurer of the State of Oklahoma for the benefit of the State Game and Fish Department with the purpose in mind that the funds received by said Department should be used for the propagation of wild life in said Department; that a bill is simultaneously being introduced with this report to establish such trust fund.

THIRD—That the State Game and Fish Department be budgeted and in this connection, your committee has drawn and there is simultaneously introduced at this time with this report, a proper budget bill.

FOURTH—That all claims in the future that are presented to the State Game and Fish Department shall be itemized fully and presented and allowed by law as proper claims against said Department as is now required by law of the State of Oklahoma for all other Departments of State.

FIFTH—That the Governor of the State of Oklahoma, the Attorney General, and all officials charged with enforcement of the law, be and they are hereby given notice that they should forthwith order and institute proper criminal and civil proceedings to recover all funds or monies that have been illegally or unlawfully expended and that have not been proper charges against the State of Oklahoma or the State Game and Fish Department and of all monies that have been wrongfully diverted or embezzled. It is specifically recommended that the State Examiner and Inspector furnish the Attorney General and the Governor, forthwith, a complete itemized list of all the books showing the checks that were cashed and the monies embezzled and of all audits and reports made on the Game and Fish Department. It is specifically recommended that the persons who traveled to the funeral of one of the officials of the Game and Fish Department be required forthwith to reimburse the State of Oklahoma for said illegal expenditures of monies and for the persons who traveled to Winnipeg, Canada to reimburse the money so expended and that the Assistant Attorney General, who illegally drew travel expenses be required forthwith to reimburse the State of Oklahoma.

SIXTH—That the system of purchasing articles, property and other items necessary for the functioning of the State Game and Fish Department should be revised to the effect that one person should be designated as the purchasing agent for said Game and Fish Department and that the purchasing of property and things necessary for the proper functioning of the said Game and Fish Department should not be allowed to be made by other officials other than the designated purchasing agent and that

said purchasing agent should be placed under sufficient bond to guarantee the faithful performance to the State of Oklahoma and to the Game and Fish Department.

SEVENTH—Your committee firmly believes that only by the adoption of the proposed laws, creating a trust fund for the State Game and Fish Department in the State Treasurer and the budgeting of said Department can the funds of the State Game and Fish Department be conserved and expended for the purposes for which they were collected—to the propagation of wild life in the State of Oklahoma.

EIGHTH—It is recommended that copies of this report be sent by the Chief Clerk of the House immediately to the Governor of the State of Oklahoma, the President Pro Tempore of the Senate of the State of Oklahoma, the Attorney General of the State of Oklahoma, the State Examiner and Inspector and the Director of the Game and Fish Department.

Your committee now wishes to express the appreciation to the House for the responsibility delegated to it to conduct this investigation.

MESSAGE FROM HOUSE

The following Message from the Honorable House was received and read:

To the Honorable Senate
The Twenty-Fourth Legislature
State of Oklahoma
Mr. President of the Senate
Sir:

I am directed by the Speaker of the house of Representatives to transmit herewith for your consideration:

ENROLLED HOUSE BILL NO. 858—By CAMP and MITCHELL of the House and CARRIER of the Senate.

AN ACT RELATING TO THE SALARY OF THE COUNTY JUDGE IN ALL COUNTIES IN THE STATE OF OKLAHOMA HAVING A POPULATION OF NOT LESS THAN FIFTY THOUSAND * * * ETC. AND DECLARING AN EMERGENCY,

together with a copy of His Excellency's message of disapproval, as follows:

"To the Speaker and Members of the
Honorable House of Representatives
Twenty-Fourth Oklahoma Legislature
Gentlemen:

This is to advise you that on the above date I have disapproved: ENROLLED HOUSE BILL NO. 858, for the following reasons:

This Bill, if enacted into law, would affect only Garfield County Judge by exempting him from the provisions of the Uniform County Officials Salary Act of 1949. The Bill further provides for the "additional" duties of supervising juveniles on parole of serving probational terms, as well as dependent and neglected children who are wards of the County Court. These "additional" duties, although they may not be specifically set out in the law, are, in my opinion, already duties of the County Judge. Title 19, Section 180.51 O. S. 1951, I believe, could be utilized by the

County Commissioners to aleviate "abnormal conditions." For these reasons I can see no justification for this exemption from the provisions of the Uniform Salary Act for County Officials.

By the Governor of the
State of Oklahoma
(Signed) Johnston Murray"

and to advise you, and through you, the Honorable Senate, that the Bill has been passed by the House of Representatives notwithstanding the message of disapproval from his Excellency.

Respectfully,
Eddie Higgins
Chief Clerk.

MESSAGE FROM HOUSE

To the Honorable Senate
The Twenty-Fourth Legislature
State of Oklahoma
Mr. President of the Senate
Sir:

I am directed by the Speaker of the House of Representatives to transmit herewith for your consideration:

ENROLLED HOUSE BILL NO. 948—By McCARTY, HARKEY (Oklahoma), REYNOLDS, ETC. of the House and MISKOVSKY of the Senate.

AN ACT RELATING TO COUNTY OFFICERS; FIXING SALARY OF COUNTY SHERIFF IN CERTAIN COUNTIES HAVING DESCRIBED POPULATION AND PROPERTY EVALUATION,

together with a copy of His Excellency's message of disapproval, as follows:

"To the Speaker and Members of the Honorable House of Representatives Twenty-Fourth Oklahoma Legislature Gentlemen:

This is to advise you that on the above date I have disapproved:

ENROLLED HOUSE BILL NO. 948— By McCARTY, HARKEY (Oklahoma), REYNOLDS, ETC. of the House and MISKOVSKY of the Senate.

AN ACT RELATING TO COUNTY OFFICERS; FIXING THE SALARY OF COUNTY SHERIFF IN CERTAIN COUNTIES HAVING DESCRIBED POPULATION AND PROPERTY EVALUATION.

for the following reasons:

This applies only to Oklahoma County and raises the salary of the Sheriff from his present salary of $7,220.28 per year to $10,220.28, plus the fees to which he is entitled for service of process, etc. The Sheriff also receives 90c per day each for feeding Federal Prisoners, and well over $1000 per month for feeding local prisoners. Even though this Bill would allow the Oklahoma County Sheriff a salary surpassed by only a few state officials, whose qualifications are much higher than those required of a Sheriff, the question of whether he would be over paid is not here argued.

The question is whether or not the legislature should raise all of the salaries of more than 1200 elected County officials one at a time, thus breaking down the Uniform County Officials' Salary Act; or, whether or not the possible and probable needed increase in salaries should not be affected through the medium of a general, uniformly applied act such as we now have in the above referred to act.

It is my firm belief that the taxpayers want and expect only uniform acts that affect each class of public servants on an equal, fair and just basis. It is my suggestion that if, at the present time, County Officer salaries should be raised, the whole should be accomplished by a revision of the Act rather than by piecemeal legislation.

By the Governor of the State of Oklahoma

"To the Speaker and Members of the Honorable House of Representatives Twenty-Fourth Oklahoma Legislature

Gentlemen:

This is to advise you that on April 14, 1953, I have disapproved: ENROLLED HOUSE BILL NO 690, for the following reasons:

The Juvenile Officers under the present law are entitled to actual expenses. Therefore, I see no reason for an additional 8c a mile.

If it appears that the Juvenile Officers coming under the purview of this Act are not receiving proper remuneration for this work, I would suggest that their salaries be increased rather than a mileage fee given in addition to their already allowance for actual expenses.

MESSAGE FROM THE HOUSE

The following Message from the Honorable House was received and read:

To the Honorable Senate
The Twenty-Fourth Legislature
State of Oklahoma
Mr. President of the Senate
Sir:

I am directed by the Speaker of the House of Representatives to transmit herewith for your consideration:

ENROLLED HOUSE BILL NO. 829—By HARKEY (Oklahoma), ANDREWS, CUNNINGHAM, ETC. of the House and MISKOVSKY of the Senate.

AN ACT RELATING TO THE SALARY OF COUNTY ATTORNEYS IN ALL COUNTIES IN THE STATE OF OKLAHOMA HAVING A POPULATION IN EXCESS OF THREE HUNDRED THOUSAND AND A CITY THEREIN HAVING A POPULATION IN EXCESS OF TWO HUNDRED TWENTY-FIVE THOUSAND (225,000) ACCORDING TO THE FEDERAL DECENNIAL CENSUS OF 1950; • • • ETC. REPEALING CONFLICTING LAWS,

together with a copy of His Excellency's message of disapproval, as follows:

"To the Speaker and Members of the
Honorable House of Representatives
Twenty-Fourth Oklahoma Legislature

Gentlemen:

This is to advise you that on the above date I have disapproved:

ENROLLED HOUSE BILL NO. 829—By HARKEY (Oklahoma), ANDREWS, CUNNINGHAM, ETC. of the House and MISKOVSKY of the Senate.

AN ACT RELATING TO THE SALARY OF COUNTY ATTORNEYS IN ALL COUNTIES OF THE STATE OF OKLAHOMA HAVING A POPULATION IN EXCESS OF THREE HUNDRED THOUSAND (300,000) AND A CITY THEREIN HAVING A POPULATION IN EXCESS OF TWO HUNDRED TWENTY-FIVE THOUSAND (225,000) ACCORDING TO THE FEDERAL DECENNIAL CENSUS OF 1950; • • • ETC. REPEALING CONFLICTING LAWS,

for the following reasons:

This bill applies only to Oklahoma County and seeks to raise the County Attorney's Salary to $10,200 per year. There is no argument but that a substantial raise is needed, not only for the County Attorney but also for the Sheriff and all other County Officials where

there has been an increase in the burden of duties.

The question is whether or not the Legislature should raise all of the salaries of more than 1200 elected County Officials one at a time, thus breaking down the Uniform County Officials' Salary Act; or, whether or not the possible and probable needed increases in salaries should be affected through the medium of a general, uniformly applied act such as we now have in the above referred to Act.

It is my firm belief that the taxpayers want and expect only uniform acts that affect each class of public servants on an equal, fair and just basis. It is my suggestion that if, at the present time, County officer salaries should be raised, the whole should be accomplished by a revision of the Act rather than by piecemeal legislation.

By the Governor of the
State of Oklahoma
(Signed) Johnston Murray"

and to advise you and through you, the Honorable Senate, that the Bill has been passed by the House of Representatives notwithstanding the message of disapproval from His Excellency.

Respectfully,
Eddie Higgins
Chief Clerk.

Senator Miskovsky asked unanimous consent, which was granted, that further consideration of Enrolled **HB 829** be deferred until such time as the Senate might be able to determine whether or not **HB 693**, relating to county officers, becomes a law.

MESSAGE FROM THE HOUSE

The following Message from the Honorable House was received and read:

To the Honorable Senate
The Twenty-Fourth Legislature
State of Oklahoma
Mr. President of the Senate
Sir:

I am directed by the Speaker of the House of Representatives to transmit herewith for your consideration:

ENROLLED HOUSE BILL NO. 897—By SAMPSEL of the House and MORGAN (Craig) of the Senate.

AN ACT PROVIDING A MINIMUM ANNUAL SALARY OF FORTY-EIGHT HUNDRED ($4,800.00) DOLLARS FOR THE COUNTY JUDGE IN COUNTIES IN WHICH THERE IS AN INSTITUTION OF THE STATE OF OKLAHOMA FOR THE CARE OF ORPHAN, NEGLECTED, OR DEPENDENT CHILDREN; AND DECLARING AN EMERGENCY.

together with a copy of His Excellency's message of disapproval, as follows:

"To the Speaker and Members of the
Honorable House of Representatives
Twenty-Fourth Oklahoma Legislature
Gentlemen:

This is to advise you that on the above date I have disapproved ENROLLED HOUSE BILL NO. 897—for the following reasons:

At the present time this bill would, if enacted into law, effect only the salary of the County Judge of Mayes County by virtue of the location of the Whittaker Home at Pryor, Oklahoma.

Since the commitments of children to this State Institution came from the state at large, I can not see that its location would impose an extraordinary burden on the County Court in Mayes County. However, I would direct your attention to Title 19, Section 180, 51, O. S. 1951. You will note in the first paragraph that, "In case of unforeseen increase of work * * or abnormal conditions, the County Commissioners may declare an emergency and set up additional funds, etc." I have therefore only to conclude that if the duties imposed on the County Court of Mayes County are excessive because of the location of the Whittaker Home at Pryor, the condition should be brought to

the attention of the County Commissioners for correction.

By the Governor of the
State of Oklahoma
(Signed) Johnston Murray"

and to advise you and through you, the Honorable Senate, that the Bill has been passed by the House of Representatives notwithstanding the message of disapproval from His Excellency.

Respectfully,
Eddie Higgins
Chief Clerk

By unanimous consent, upon request of Senator Miskovsky, **SCR 17** was taken up for immediate consideration, read at length as follows and adopted upon his motion:

SENATE CONCURRENT RESOLUTION NO. 17—By Miskovsky, Allen, Baldwin, Ballinger, Boecher, Carrier, Cartwright, Chapman, Cobb, Collins, Cook, Cooper, Coppock, Cowden, Dacus, Field, Fine, Fronterhouse, Garvin, Gary, Grantham, Hamilton, Hope, Irwin, Jones, Kight, Logan, McClendon, Mahan, Maltsberger, Medlock, Morgan (Craig), Morgan (Logan), Nix, Price, Rinehart, Russell, Seaman, Shoemake, Smalley, Walker, Wilson (Beckham), Wilson (Greer), Young of the Senate and Harkey (Oklahoma), of the House.

A RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO AMEND OR SUPPLEMENT THE LAWS RELATING TO

VETERANS OF THE ARMED SERVICES OF THE UNITED STATES SO AS TO EXTEND TO CITIZENS OF THE UNITED STATES WHO SERVED IN THE ARMED FORCES OF THE ALLIES OF THE UNITED STATES THE BENEFITS OF SUCH LAWS.

WHEREAS, Ralston E. Harry, a citizen of the United States and the State of Oklahoma, who, as a member of the Royal Canadian Air Force during World War II, served the same cause as those citizens of the United States who served in the armed forces of the United States during said war, was involved in an automobile accident more than four years ago, in which he sustained injuries which rendered him unconscious for five months, and which have left his right side paralyzed and which have seriously affected his speech and hearing; and,

WHEREAS, The disabilities of said Ralston E. Harry were not service-connected and he was a citizen of the United States and not a citizen of Canada, he has been denied any benefits under the laws of Canada; and,

WHEREAS, It appears that if the said Ralston E. Harry had rendered the same services for the common cause in the armed forces of the United States rather than in the armed forces of one of the allies of the United States in World War II, he would be eligible for medical care, hospitalization and certain other benefits under the laws of the United States administered by the Veterans' Administration, but, because he served in the armed forces of one of our allies instead of in the armed forces of the United States, he is denied any and all benefits under such laws; and,

WHEREAS, It appears that many citizens of the United States are in a similar situation, and that simple justice demands that they be given the same benefits as those who served the same cause in the armed forces of the United States:

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-FOURTH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

SECTION 1. That this matter be called to the attention of the Congress of the United States, and that the Congress be requested to amend or supplement the laws of the United States relating to veterans of the armed services of the United States, administered by the Veterans' Administration, so as to extend to the said Ralston E. MR. PRESIDENT: We, your committee appointed by Senate Resolution No. 13, to investigate Eastern turnpike highways, beg leave to make the following report:

On Friday, April 17, 1953, we met in the office of Governor John S. Fine, at Harrisburg, Pennsylvania, with the following members of the Pennsylvania Toll Road Authority: David E. Watson, Commissioner; Jas. J. Torrance, Secretary and Treasurer; Henry D. Shenk, Assistant to Chairman, Pennsylvania Turnpike; Roger B. Stone, Chief Engineer, Pennsylvania Turnpike Commission; Gerald B. Gilbert, Assistant to Chairman; and others, and in a two hour conference, we were furnished much information concerning the history, financing and operation of the Pennsylvania Turnpike and extensions thereto.

After conferring with Governor John S. Fine, we went to another conference with Turnpike officials and their staff and arranged for a trip on the Turnpike the following morning, and inspection of facilities, concessions, towns, interchanges, maintenance and operation of the Pennsylvania Turnpike for the remainder of Saturday.

On Sunday we were in New York City and inspected the New Jersey Turnpike, which has its north end at the entrance of the Lincoln Tunnel, in New York City. We conferred with Henry Rose, Public Relations Director for the New Jersey Turnpike Authority and various other personnel in the New Jersey Turnpike Commission, and an extended trip was taken on the New Jersey Turnpike and paralleling roads U. S. 1 and U. S. 130. We also conferred with the New York Port Authority who has jurisdiction and control over toll bridges and tunnels.

On Monday, Senator Robert S. Kerr made arrangements for us to appear before the Bureau of Public Roads:

F. V. Du Pont, Commissioner of Public Roads; C. D. Curtis, Deputy Commissioner in Charge of Finance and Management; H. S. Fairbank, Deputy Commissioner in Charge of Research, and others, where additional information was obtained.

Following this meeting, we had lunch with the full Oklahoma Congressional

Delegation, and thereafter we had another conference with the Bureau of Public Roads.

Monday night we visited the United States Senate in session and witnessed the Tidelands extended debate.

Tuesday we returned to Oklahoma City.

From all of the conferences and investigations, we, your committee, report the following information.

SECTION 1. FINANCE.

We were advised by the Pennsylvania Toll Road Authority that in order for a toll road to be feasible the traffic income must equal one and one-half (1½) times the cost of operation, maintenance, interest and sinking fund for retiring the bonds.

The Pennsylvania Turnpike Commission was created in 1937 by the legislature, with authority to construct, finance and operate 160 miles of highway. The original section was completed in 1940. This was built at a cost of 73 million dollars, which included a 29 million dollar grant from the Federal Government.

The second, or Philadelphia extension, was created in 1940 by the legislature. Construction was started in 1948, and it was opened to traffic in 1950, at a cost of 87 million dollars.

The Western extension was created by a Legislative Act in 1941; construction was started in 1949, and it was opened to traffic in 1951, at a cost of $77,500,000.00.

The Delaware River extension was created by legislative Act in 1951, and is presently under construction, and will cost $70,000,000.00.

Total cost of Pennsylvania Turnpike: —$310,750,000.00 of which they received a grant from Public Works Administration of $29,250,000.00.

The interest rate on the bonds:

Original Turnpike, 2.25%; Philadelphia extension, 3.25%; Western extension, 2.9%; Western extension, 3%, later refunded to be 2.75%. The total average interest rate for the bonds was 2.9%.

INCOME

The total annual income from the Pennsylvania Turnpike is $33,000,000.00; total annual maintenance expense is $8,000,000.00.

Traffic income is at the rate of 1 cent per mile for passenger cars, and 2½ to 4 cents per mile on trucks and other commercial vehicles. The Committee found that 68% of the revenue derived from the Turnpike comes from commercial vehicles, and said 68% represents only 20% of the actual traffic.

Records of the Pennsylvania Turnpike Authority show that 3.4% of the traffic travels the full length of the turnpike; that 3.1% of the passenger cars travel the full length of the turnpike; and that 38% of the total traffic on the Pennsylvania Turnpike is from outside the State of Pennsylvania.

When paid out, the Turnpike will be owned by the State, according to the Act creating it, but the Commissioners question the advisability of ever paying off the bonds and making it a free road.

SECTION 2. NEW JERSEY TURNPIKE.

Our investigation of the New Jersey Turnpike did not reveal as much factual information concerning financing as was obtained from the Pennsylvania Authority for the reason that the New Jersey Turnpike is relatively new, only having been completed about 18 months, and factual information is not ample there, but the following information was obtained.

The original New Jersey Turnpike was 118 miles and was constructed at a cost of $255,000,000.00; the interest rate was 3¼% on $220,000,000.00 and 3.2% on

$35,000,000.00. An additional $30,000,000.00 was needed to complete the project and bonds were secured for this amount at 1.78%, which latter bonds were guaranteed by the State of New Jersey. The bonds were to be retired in 35 years, and the road would then revert to the state.

At this time the toll rate at various interchanges is different, however, the average rate is 1½ cents per mile, and for the year ending July 3, 1952, the total revenue was $18,239,527.00. Of this amount $16,288,000.00 was from passenger vehicles.

The Bureau of Public Roads said the reason why the cost of constructing the New Jersey Turnpike was so high was due to the thickly settled country and the high cost of land that had to be condemned.

Your committee found that on both the Pennsylvania Turnpike and the New Jersey Turnpike, the matter of safety and traffic control is under the supervision of the State Police of the two states, whose services are paid for by the Turnpike Authorities.

We found that the accident rate was not as high as the state average, however, the accidents were more serious.

On the Pennsylvania Turnpike, out of 10,000 cars traveling the road, 9,997 traveled without even a scratched fender. It was found that to be 1/8 of the national annual average.

The death rate on the Pennsylvania Turnpike was 7.3 per 100,000,000 vehicles miles traveled per year, and that compared to the state average of 5.1 per 100,000,000 vehicles miles traveled, but that includes rural roads.

On the New Jersey Turnpike, figures were not available as to the accident rate, however, it was found that 47 people were killed during the first year the road was open. It was further reported that many accidents were caused by excessive speed and dense fog there.

The New Jersey Turnpike is patrolled by 65 men assigned from the New Jersey State Police, and they have 12 cars in operation at all times.

The average daily traffic count on the Pennsylvania Turnpike was 25,800, and the average daily vehicles traveling the New Jersey Turnpike was 25,000, however, it has reached as high as 80,000. These figures include the total number of vehicles on the entire road. It was found that the annual average daily traffic count on one portion of the road from Donegal to Sommerset was 11,124, while on State Route 31 it was 2,200, and on U. S. 30 from Ligonier to Jennerstown it was 2,400. Between these points, the Turnpike runs parallel to and about half way between the State Route 31 and U. S. 30. The Pennsylvania State Highway officials point out that traffic on State Route 31 and U. S. 30 as outlined above is heavier than it was prior to construction of the Pennsylvania Turnpike.

SECTION 3. CONSTRUCTION.

War years delayed construction of toll road projects even where previously authorized. Mr. Fairbanks, of the Bureau of Public Roads, gave the following information: There has been a total of 2,631 miles of toll roads authorized in the various states. Of this total, 641 miles have already been constructed, 1,172 miles are under construction, and 818 miles have been authorized, but not yet under construction. These roads are in the following states—Maine, New York, Connecticut, New Jersey, Delaware, Pennsylvania, Ohio, West Virginia, Michigan, Oklahoma, Colorado, and Texas.

Commissioner du Pont stated that construction of toll roads must finally depend upon density of traffic.

There is no Federal money now available to assist in construction of toll roads as was the situation on the orig-

inal section of the Pennsylvania Turnpike.

The Pennsylvania Turnpike was completely constructed of Portland Cement Concrete, and the authorities were satisfied with this type of construction. However, it was pointed out that Pennsylvania is the headquarters of the Portland Cement Company. The New Jersey Turnpike was constructed of asphaltic concrete, except for bridges and overpasses.

The general terrain of the western half of the Pennsylvania Turnpike is mountainous and this required numerous bridges and tunnels. The eastern half is rolling land. The terrain of the New Jersey Turnpike is generally low and marshy along the northern half. The southern half is more rolling. The northern half is through densely populated areas and in several instances overpasses towns, industrial areas, and navigable rivers. The original Pennsylvania Turnpike was built on abandoned railroad right-of-way. It was also observed that along the Pennsylvania Turnpike interchanges were built at an average of 18 miles apart. The interchanges on the New Jersey Turnpike were more frequent depending on connecting highways.

SECTION 4. CONCESSIONS.

Concessions on the Pennsylvania Turnpike are let on the basis of bids. The eligible bidder must have his own refinery in order to place a bid for these concessions. Each bidder must bid on four concessions on the following basis: gas per gallon, oil per quart, merchandise percentage gross sales, and food percentage on gross sales. The successful bidder must build and maintain its own station on the Turnpike selling the above four items and at the end of twenty years ownership reverts to the Turnpike Authority.

Standard Oil secured the concessions on the original leg of the Pennsylvania Turnpike, and Gulf secured concessions on the extensions. An average of one hundred thousand dollars per month is received by the Authority from the concessions.

The concessions on the New Jersey Turnpike were leased to Cities Service Oil Company and the Howard Johnson Restaurants. Hotels and restaurants were built and owned by the toll road authority and leased to the operators on bids on percentage basis.

SECTION 5. LEGISLATION

This Committee has, by its on-the-spot investigation and personal consultation with toll road authorities, public road officials, and private citizens, endeavored to present information and facts not otherwise obtainable. It, as a committee jointly, has not expressed and does not intend to express a joint conclusion, or recommendation, feeling that the purpose of the Committee is best served by presentation of the facts and information obtained in order that each member of the Senate possessed of the information may make his own decision which to him the facts recommend.

Respectfully submitted,
Rinehart, Chairman.

April 22, 1953.

Senator Fine asked unanimous consent, which was granted, to have the following letter from Paramount Pictures Corporation, New York read and incorporated in the Journal:

April 14, 1953

Hon. Ray Fine
President of the Senate
State of Oklahoma
Oklahoma City, Oklahoma

My dear Senator Fine:

Please permit me to express the very great sense of gratitude which all of us at Paramount Pictures feel as a result of the wonderful Concurrent Resolution No. 523 adopted by the House

of Representatives of the State of Oklahoma.

We are really thrilled with the great interest which the lawmakers of Oklahoma have shown in our film, STALAG 17, as evidenced by the text of the Resolution which asked us to hold the world premiere of the film in Oklahoma City during the convention of the American Ex-Prisoners of War.

We have already made arrangements to take over one of the leading motion picture theaters in Oklahoma City the morning of Saturday, June 6th, and at that time we are setting up a special preview presentation of STALAG 17 exclusively for the delegates of the American Ex-Prisoners of War convention, the members of the Oklahoma House of Representatives and Senate and local and federal officials. I give you my unqualified assurance that we shall leave no stone unturned to make this special preview presentation a really memorable affair in every way possible. It will have all the excitement, color and fun of an elaborate world premiere. Unfortunately, we have been unable to rearrange our release schedules so as to have the formal world premiere in Oklahoma City at this particular time, but I do want you to know that the showing on June 6th will be a world premiere in everything but name.

Again let me express my deep gratitude for adopting the Concurrent Resolution No. 523.

Sincerely,
Jerome Pickman

AN ACT RELATING TO COUNTIES; CODIFYING AND REVISING LAWS REGARDING SALARIES AND COMPENSATION OF COUNTY OFFICERS AND EMPLOYEES AND NUMBER OF THE LATTER; AMENDING 19 O. S. 1951 § § 179.1, 179.5, 179.6 and 179.7; REPEALING 19 O. S. 1951 § § 156, 180.48 and 180.49; MAKING PROVISIONS FOR SEVERABILITY; AND DECLARING AN EMERGENCY.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. 19 O. S. 1951 § 179.1 hereby is amended to read as follows:

§ 179.1. **** The purpose of this Chapter is to codify and revise the laws of the State relating to the salaries and compensation of County officers and their deputies and employees, and to establish said salaries and compensation by general law applicable throughout the State, under a uniform schedule fixing such salaries and compensation, and future increases and reductions thereof, upon the following bases: (a) the amount of service required to be performed, (b) the available revenues, of the several counties, out of which such salaries and compensation may be paid, (c) the monetary value of such services in relation to that of non-governmental services of similar nature in the areas wherein such services are performed; and (d) the relative amounts of services required of the various county officers, their deputies and employees. Upon investigation and full consideration of the applicable facts, the Legislature has determined that the foregoing bases of such schedule graduations generally are cognate to the combination of the following factors: (a) the population of the county, hereinafter referred to as the "service load", and (b) the net valuation of all tangible taxable property of the county (total taxable valuation less homestead exemption allowances), hereinafter referred to as "service-ability"; and that the application of said factors properly establishes a rational and relevant formula for uniformity of salaries and compensation, and of future increases and decreases thereof, but that the application of said factors require deviations from direct mathematical progression thereof, as set forth in this Chapter, to produce factual uniformity in said schedule upon the bases hereinabove enumerated.*

SECTION 2. 19 O. S. 1951 § 179.5 hereby is amended to read as follows:

§ 179.5. (a), The basic *salaries, * * * upon which all salaries, and future increases or decreases thereof, shall be computed, shall be as follows:*
