MESSAGE

of

Governor Raymond Gary

of the

State of Oklahoma

Delivered to the

Senate and House of Representatives

of the

Twenty-seventh Legislature

In Joint Session Assembled

January 6, 1959

Four years ago I appeared here before you and outlined a program that I wanted enacted into law. Two years later I supplemented that program with

another message. You responded very favorably to my recommendations, enacting into law practically everything I recommended. In the process, you improved upon many of my recommendations. Now I appear before you to make a final report, to give an accounting of my four years of stewardship as Governor of the people of this great state.

I feel, as outgoing Governor, that it is my duty to make this report to you and let you know exactly how the people have fared under the program you enacted into law in 1955 and 1957. I would be out of order here today, however, in recommending to you another program for the future. That is my successor's obligation and he will, at the proper time, present his program to you. I know from past experience with Oklahoma legislatures that it is your desire to consider a Chief Executive's program very seriously and approve every bit of it that you feel will help bring improvements in the government of our state.

During my tenure as Governor, I was privileged to appoint many conscientious citizens to important boards and commissions which help operate the executive branch of government. Much of the credit for carrying out the program enacted by the legislatures of 1955 and 1957 is due these conscientious people. Of course, I know, and they know, that had it not been for two progressive-minded legislatures with vision, we couldn't have reached the goals we set for ourselves.

EDUCATION

The three major services provided by the government of Oklahoma are education, welfare, and roads and highways. The Constitution requires the State of Oklahoma to provide a common school education for every child of school age. In carrying out this obligation, it is necessary for the State to supplement the school programs in the various districts. In looking back on the past four

years, I would like to remind you that one of the first steps taken by this administration was referring to the people, in April of 1955, the Better Schools Amendment, which provided for a bond issue to build more buildings for the higher institutions of learning. It provided for consolidation of negro and white school budgets. This was the first step taken by the Oklahoma Legislature, and approved of by the people, which made it possible for our state to peacefully integrate common schools in accordance with the Supreme Court mandate. This same amendment authorized school districts to vote additional money for school buildings and school rooms, and to further enrich their school programs. The amendment enabled most school districts of the state to solve school room shortages. During the past four years, we have constructed in Oklahoma 4,200 new school rooms.

In 1957 you passed another school bill. This one eliminated a few of our smaller schools, considered inefficient because of the small numbers of children in attendance. As a result of this law, the number of Oklahoma school districts has been reduced during the past four years, from 1,802 to 1,371, a reduction of 431.

As a result of the Better Schools Amendment of 1955, the elimination of a number of school districts by the '57 Act, tightening up of the automobile license tag collections, and a gradual improvement in the overall economy of the state—we have given our children the best school program they ever had. We have been able to increase school teachers' salaries, from \$3,570 to an average of \$4,700 per year. We have set the pattern which will lead to making the teacher retirement program actuarially sound. We have made progress in improving professors' and instructors' salary schedules in our higher institutions of learning.

I am not saying this progress we have made is adequate. It is not. I am only giving to you a report so you can see the results of the legislation you enacted into law in 1955 and 1957. Although it is not adequate, everyone will have to admit that much progress has been made, and all of it without increasing state taxes.

HEALTH AND WELFARE

The largest item of expense under our welfare program is assistance for aged citizens, the blind, physically handicapped, and orphan children. We improved operation of the Welfare Department by consolidating the Emergency Relief Department with the Department of Public Welfare. We saved thousands of dollars through consolidation of these two departments. In addition, we are providing more efficient service, thus eliminating those ineligible for payment.

During the past four years, due to increased sales tax collections and increased grants from the federal government, we have boosted average monthly payments to aged citizens of Oklahoma from \$58.22 to \$72.84. Included in the \$72.84 is a \$6.00 per month premium for medical care. Oklahoma was one of the first states to take advantage of the hospitalization program enacted by Congress in 1956. Under this program, our aged citizens are eligible for a definite amount of hospitalization care each year. About one-fourth of our aged citizens now take advantage of this program by using the hospital facilities for their care and treatment.

Next in dollars and cents cost under the welfare program financed by the state is care and treatment of our mentally ill. According to all surveys and reports I have been able to familiarize myself with, Oklahoma ranks well above the average in care and treat-

ment of mentally ill people. Yet we rank way down the list on average per-patient cost of caring for these people. You may have already noticed a number of our institutions for the mentally ill have been singled out and given special recognition for outstanding service the past four years.

During my term as Governor, to my knowledge there hasn't been a single employee working for the mental hospitals of our state who was either hired or dismissed because of political reasons. You members of the Legislature have stopped recommending people to work for the mental institutions. We have adopted a policy of leaving it up to the superintendents and business managers in charge to hire and fire all personnel. As a result, it can be truthfully said that the mental health program has been removed as far from political influence and domination as it is possible to remove an organization financed with state-appropriated funds.

The mental Health Board has full authority to hire doctors and other key personnel to administer the hospital program. These key people, in turn, have been granted full authority by the Mental Health Board to hire necessary personnel to operate the institutions. They must, of course, stay within the appropriation made by the Legislature.

We have good reasons for being proud of improvements made in recent years in the operation of our mental institutions. Prior to 1953, the number of patients gradually increased each year in these hospitals. So we inaugurated the new program of treatment and care—increasing the number of trained workers and professional people, as well as introducing new drugs. As a result, we have 800 fewer patients in our mental hospitals today than in 1953. Not only has this resulted in great savings to the taxpayers of Oklahoma, it has also brought happiness to many

families whose loved ones are returning to normal life and resuming their roles in the affairs of home, community, and state.

Our two schools for mentally retarded children, at Enid and Pauls Valley, have made great strides during the past four years in giving better care and treatment to children cared for there. The greatest need in those institutions today is for more buildings and equipment. We have a waiting list for admissions. Some way should be found to meet this challenge.

Believing that the future mental health of our people can best be guaranteed if there are adequate numbers of trained personnel to serve the emotionally disturbed, mentally ill and mentally retarded—in both the community and state hospitals—the Mental Health Department has embarked upon an all-out program to train personnel in various mental health disciplines. To accomplish this mission it was necessary for the Department of Mental Health to develop many new programs and to expand other programs which, although underway, were not meeting required standards of effectiveness. Today, after developing new curriculum, teaching staffs and programs within its Mental Health Department, Oklahoma now offers the following:

1. A three year fully approved residency training program for physicians in psychiatry. Oklahoma had never trained a psychiatrist prior to 1957.
2. A one year approved residency training program in Neurosurgery.
3. An approved one year internship for clinical psychologists, plus special programs for psychologists interested in the field of mental retardation.
4. Special field and case-work training programs for social workers.
5. An approved program in clinical pastoral training for ministers desiring

to work in mental hospitals, or who wish to do counseling.

6. Approved internships in occupational therapy.

7. Approved training programs in psychiatry for student nurses.

8. Special training programs, on a continuing basis, for attendants and others who are charged with care and habilitation of pupils or patients.

This program is being financed out of our regular budget for the operation of mental hospitals.

As a result of the Wage Stabilization Act, passed by the last session of the Legislature, we have increased base pay for wardkeepers and lower salaried employees, from \$130 to \$160 per month. We established a graded personnel system for employees. We formalized a uniform time, leave and holiday program. We instituted a workmen's compensation program for all students. This program has done much to strengthen the morale of lower salaried people in the hospitals.

During the past four years, we have, through appropriation by the Legislature and an allocation of bond money, built a new veterans' ward at Central State Hospital—one of the finest in the nation. You would be proud of this new addition. I urge you to visit it and talk with the men there.

Members of the 1955 and 1957 legislatures have gotten and deserve commendation for these improved services and facilities for the mentally ill, retarded children, and the veterans at Central State Hospital. Improvements have also been made in our general hospital program and in our tuberculosis sanitariums.

ROADS AND HIGHWAYS

In my first message to the Legislature in 1955, I told you that if you enacted the highway program I recommended, we would be able to build

approximately 2,500 miles of new roads in Oklahoma. You enacted the program. In addition, Congress passed a bill to increase the federal apportionment to the states. As a result of this action by the Oklahoma Legislature, and the Congress of the United States, under the leadership of our own efficient Congressional Delegation, I am happy to report that we have completed, and have under contract, a total of 364.8 miles of four-lane roads, most of them of the expressway type. This compares with about 70 miles of four-lane roads on the system prior to 1955. We have completed, or have under contract, a total of 3,019.7 miles of modern type two-lane highways. In addition to these four-lane and two-lane highways, built under contract, we have constructed by force account another 577.4 miles. This makes a grand total of 3,961.9 miles of new and modernized roads. In addition, we have armor-coated and improved another 3,000 miles with our own state force account. We have built 709 new bridges and have under contract another 194 bridges. Our construction cost, by contract, amounted to \$229,000,000. We have also spent an average of about \$20,000,000 per year for modernization, maintenance, administration, engineering, right-of-way, and other contingencies.

At the rate we are improving our highways in Oklahoma, if it were continued—and it can be continued without increasing taxes or a bond issue—within another eight years we could have an up-to-date highway system. Of course, highway building is a continuing process. As our economy expands and develops, needs for new roads are created. Our roads wear out with increasing heavy traffic. Therefore, our highway program should be stable. We should try to build as many miles of new highway as possible each year, and keep the roads we have already constructed maintained in an adequate way.

In addition to improvement of roads on the State Highway System, I also recommended to County Commissioners that they try to blacktop or dustproof 2,500 miles of roads during the past four year period. According to available information at hand, I am happy to report to you that they have exceeded 3,300 miles. One reason for this is the fact County Commissioners are taking advantage of the federal secondary road money better than they did a few years ago. The act passed by the 26th Session, which earmarked 20% of the commercial vehicle license money to be used to match federal funds on county secondary roads, has helped to bring this about.

Two years ago I told you we had accumulated a backlog of secondary road money. I told you that if you would pass this 20% Act, it would enable us to reduce the backlog. As of today, we have used up all federal aid money for the county and state secondary road systems, except for a very very small amount. This bears out what I recommended to you two years ago.

I am happy to be able to give you this report on the improvement of Oklahoma's highway system. I know the highway department has come in for more criticism than any other department of government. It usually does, under every administration. I am here to tell you today, however, that I will defend anywhere, whether I am in office or out of office, the Oklahoma Highway Commission under my administration. I will defend anywhere the actions of the head men of the Department—the Director, Bud Stoldt, who did an outstanding job putting this stepped-up program into operation. He has been very ably assisted by the Chief Engineer, Gomer Bittle, and by LeRoy Powers, John Stobaugh, Easman Gill, and many others who have been there for years and really learned the opera-

tion of the Highway Department. I can tell you truthfully that these top men, these trained men, have been hired on the basis of their abilities and not because of their political background. It would be very damaging to Oklahoma for many of these people to resign, or be forced to resign. To me, political interference is when you dismiss career people and replace them with people of your own choosing whose chief qualifications are past aid and assistance to you. I have steered clear of that. Naturally, I have resented some of the criticism that has been heaped upon the Highway Department. Every road we have built was asked for by the people on a local level. Most of those requests were made through senators or house members, sometimes both. As a general rule, they were always backed up by the newspaper publishers, bankers, and other important business people. Because we have built a road program on the basis of need, as determined by our own engineering staff surveys and the requests and demands of the people, we have been accused of having a political highway system. I have accepted this as a rightful accusation. It is political. This is a democratic political government. I see no wrong in it. Road projects in Caddo County, McCurtain County, Carter County, and Marshall County were developed the same way as the road projects in Tulsa and Oklahoma counties—the two great metropolitan areas. They have labeled rural projects political roads, while roads in the metropolitan areas have been labeled non-political. We have tried to be fair in our road building program. We have placed to contract more dollars of roads in Oklahoma and Tulsa counties than all past administrations combined. Yet my administration has received practically all of its criticism about roads from these two counties. This is hard for me to understand. It is hard for our rural people to understand. I have known

some of you legislators felt I went too far in spending money in the metropolitan areas, in view of the criticism, but I felt an obligation to continue the program regardless of adverse criticism, and we did. I have no regrets. I will not apologize to anybody in the State of Oklahoma for any road we built, because we needed them all, and that goes for the road through my home town of Kingston.

TOLL ROADS

The Will Rogers and Turner toll roads are doing better than most of the toll roads of the nation. During the past four years the Authority has been able to liquidate all outstanding claims for construction on the Turner toll road account and has paid off \$180,000 in Turner Turnpike Bonds, and purchased an additional \$243,000 ahead of maturity date.

The Will Rogers toll road, our newest, was completed on January 23, 1958. Due to the savings made and the underrun in construction cost, it was possible for the Authority to retain in the construction account sufficient funds to provide for payment of outstanding

construction costs and still transfer in excess of \$9,000,000 to the Sinking Fund Reserve Accounts. In addition, the Authority has purchased out of funds in the Redemption Account \$2,727,000 (par value) of 3-3/4% interest rate 1993 Maturity Bonds on the Will Rogers Turnpike, thus reducing the outstanding bonds from \$68,000,000 to \$65,273,000. These \$2,727,000 of bonds were purchased at a cost of \$2,709,963.75 or an additional cash savings amounting to \$17,036.25. In addition, the purchase of these 1993 Maturity Bonds which bear 3-3/4% interest, will result in a savings in interest amounting to \$102,262.50 per year to the Authority until such time as all bonds have been retired.

I am inserting in the record, on the two following pages, information pertaining to the operation, expenses, and maintenance of the Oklahoma Turnpike Authority as compared with other authorities of the nation. You can see from this report that the Oklahoma Turnpike Authority is doing quite well in operating the toll roads of Oklahoma. Eventually these roads will become a part of our free interstate highway system.

SOIL AND WATER CONSERVATION

Oklahoma is leading the nation in up-stream flood control and land treatment programs. Since January, 1955, with money made available by the 25th and 26th legislatures, plus additional money from my contingency fund, we have been able to obtain \$6,500,000 for building to completion 189 low water dams. We have 517 planned, which will require another \$20,250,000 to complete. So, with a small amount of state money to pay for planning parties and some for easements, we are getting millions of dollars from the federal government to carry out this program to completion. I am completely sold on this program and so is everybody else who has had an opportunity to observe the results. This program will enable us, through a gradual process, to cause some of our streams to flow again, the year around, with crystal clear water—water that is usable by human beings, livestock, and for industrial purposes. It also is reducing flood damage in areas where the program has been completed. It is the desire of every person who loves nature and the soil to see this program completed, so one of these days our children, and our children's children, may have the same kind of outdoor recreation our forefathers enjoyed when they first settled this state. Those were times of

many springs, much vegetation on the land, and plenty of game and fish—which we all want to see again.

You also created the Water Resources Board and gave it many powers. As a result of this Board's service to the people of our state and nation, we are starting to clean up our streams, locating water reserves for future use, protecting water rights of the people, and doing many other things for water conservation and future needs of the people of Oklahoma.

GRAND RIVER DAM AUTHORITY

During the past four years, much has been said about the Grand River Dam Authority and its operation. I would like to give you this report. On January 1, 1955, the Grand River Dam Authority had reduced its reserve fund to \$68,000. The Authority had imposed a 20% surcharge on its customers which, in effect, means a 20% increase in the case of power. Since that time, we have reduced the surcharge gradually until we now have completely eliminated it. We have increased the salaries of GRDA personnel by 19%. We have reduced the number of people employed. We have spent more than \$500,000 for capital improvements, and the Reserve Fund is now standing at more than \$2,300,000.

I do not believe I need say anymore concerning the operation of the Grand River Dam Authority. The record speaks for itself.

PENAL INSTITUTIONS

During the past four years, we expanded our farm operations at both major penal institutions—McAlester and Granite. This has proven to be a very successful operation. As a result, we have kept the per capita appropriation down to a minimum. It is just about the same now as it was four years ago. Down at McAlester, we increased our canning operation. We installed a packing plant to process meats for the institutions. We put in a tag machine and improved the physical plants at both institutions. We granted wardens of the penal institutions the right to hire and fire. They are the sole boss. During the past four years, the prisons have been operated on an efficient basis with a minimum of disturbances. Morale of the inmates, generally speaking, has been very good.

We moved the Boys Training School from Stringtown to Helena and made a prison trustee farm down at Stringtown. Up at Helena, we improved the buildings, installed a swimming pool, and have one of the finest gymnasiums in the country and one of the finest school systems in the State. I believe if you will visit that institution you will say we are doing an outstanding job caring for boys at the Helena institution. Morale of the boys is good. At this institution, as at the penitentiary, we have an outstanding man as its head. Very few changes have been made at the Girls School in Tecumseh, the Taft Institution, and the Orphan's Home at Pryor. All these institutions are running smoothly, with a very minimum of trouble. Heads of these institutions have been doing an outstanding job.

DEPARTMENT OF PUBLIC SAFETY

Much has been said about the Department of Public Safety being in politics, or being dominated by political pressure. The present Commissioner, Jim Lookabaugh, will tell you, under oath, that he has not been pressured by this administration to make any changes for political reasons, or do anything of a political nature in the operation of the Highway Patrol. He will also tell you that not a single member of the Legislature during the past four years has ever tried to influence him in any way. No one has meddled in policy or personnel matters, or tried to get a trooper transferred. This political talk has been grossly exaggerated. In my opinion, morale of the Highway Patrol is at one of the highest levels since its inception.

The policy of operating the Highway Patrol is formulated by care—men and uniformed personnel. These are the people we feel are most capable of formulating the policy. The Commissioner sees that these policies are put into effect and carried out.

At the beginning of this year, because of the continued increase in traffic fatalities on our highways, I felt some action should be taken to bring about a reduction in fatalities. I appointed a committee, representing a cross section of interests, and asked this committee of citizens to work with the Legislative Council Committee to formulate a program for presentation to this Legislature. The Committee has worked hard. Membership of the committee took its job seriously. They met regularly on a monthly basis for the past twelve months. I feel this committee, in addition to preparing a program to recommend to the Legislature, has served another good purpose—focusing public attention on the traffic problem in Oklahoma. Work of this committee has been a factor in bringing about a reduction

of highway fatalities. During the year 1958, we had 41 fewer fatalities than in 1957, even though we had a substantial increase in road miles traveled, and more than 150,000 additional vehicles registered in Oklahoma. Roads patrolled by the Oklahoma Highway Patrol showed a 44 fatality decrease. Judge James P. Demopolos of Oklahoma City served as Chairman of this committee and Bruce Palmer as Vice Chairman. These two men are due a pat on the back for their consistent efforts in bringing about a reduction of accidents. I also feel our newspapers and radio and television stations of Oklahoma are due a compliment for their constant efforts in calling attention to the slaughter on our highways.

GENERAL GOVERNMENT

The state payroll for the month of October, 1958 showed that we had 16,116 full time employees who draw their salary from state appropriated or earmarked funds. It revealed that we had on the state payroll 4,470 part-time state employees, making a total of 20,186 state employees who draw their salary from state appropriated and earmarked funds. In addition, we carry on the state payroll student labor and trust fund employees. As of October, 1958, the number was 7,126. Even though these 7,126 students and trust fund employees receive a state warrant, just like the regular state employees, not one penny of their pay comes from state appropriated or state tax money. Prior to 1955, these student employees and trust fund employees were paid out of a separate fund, by separate voucher, and did not show on the state payroll. The federal law requiring the State to pay social security on state employees places the burden on the State Budget Officer to collect social security and withholding taxes from student labor and trust fund employees. He must remit it to the federal treasury. Collecting

from the various institutions of higher learning became very complicated. The Budget Officer was constantly having trouble gathering the money from the various institutions and remitting to the national government. So, by Executive Order, I asked that the student employees and trust fund personnel be placed on the state payroll, to be paid by the State with a state warrant. This procedure simplified the Budget Officer's problem and enabled the higher institutions of learning to save, according to their estimate, in excess of \$30,000 a year in bookkeeping expenses. It enabled the Budget Officer to keep an accurate record of social security and withholding taxes, and remit on a monthly basis, without the headaches he had prior to this Executive Order. Since this new method was put into effect, his work has been much smoother. The only reason I mention this is because some misinformed people looked at the overall state payroll, without looking into the background and doing a little research to find the truth, and came out with statements to the effect that we had increased the state payroll by several thousand people since I became Governor. From a bookkeeping standpoint it does show an increase of several thousand, but from the standpoint of increasing the payroll of regular employees who draw their salary from state tax revenue, that just is not true. I feel the people of the state, and the Legislature in particular, are entitled to have, at all times, a true picture of the state payroll.

Now I want to give you the areas of state government where we have made an increase in state payroll. We increased the state payroll of the higher institutions of learning. The number of students increased and, in order to maintain our rating and standing with the North Central Association, it was necessary for the higher institutions of learning to employ additional personnel,

such as Associate Professors and instructors, plus other personnel needed to operate an expanding system of higher education. The state certainly should not be criticized because of this necessity. We ought to be proud of our ability to meet this challenge, even though we have not met it on an entirely satisfactory basis because we lacked sufficient funds. But, to me, it is a good sign for our state. It shows more and more of our highschool graduates are entering the higher institutions of learning, thus becoming better equipped to combat the knotty problems of life and make better contributions to our American way of life.

In the Mental Health Department we found it necessary to increase personnel, not because of increased numbers of inmates in the mental institutions, but because we wanted to give these inmates better treatment and care. We increased the number of doctors, nurses, and wardkeepers. We decreased the number of hours for the wardkeepers, from a seven-day week to a six-day week. Now we are trying to reduce it to a five-day week. I don't believe any right-thinking Oklahoman should criticize this administration for taking that step. Any person with a feeling for others, with kindness in his heart toward those who are inmates of the mental institutions, would be ashamed to criticize this. I'm proud to say that my administration placed a few extra people on the state payroll to give better care and treatment to these folks, who need it and deserve it.

There is one other division of government where we made a slight increase of approximately 250 people in the payroll during the past four years. That is the Highway Department. This increase has been in the Surveying and Planning and Construction departments. It was brought about because of our expanded highway program. We hired, for three years in a row, all graduates

majoring in drafting available to us from the higher institutions of learning. We hired engineers wherever we could find them. We had to place additional inspectors and engineering aides on the payroll, to plan and supervise this greatly expanded highway building program. For the first two years of my administration, the big bottleneck was in the Engineering Department. We have finally solved this problem and have the backlog of plans and surveys almost completed and ready to go. Had we failed to provide the necessary engineers and expert personnel, we wouldn't have gotten the stepped-up road program we now have in Oklahoma.

In other departments of government, the payroll is just about the same as it was four years ago, except in general government. We have actually decreased the number of employees in general government, by about 10%. We have not decreased the dollars because we boosted the salaries of full-time personnel. But the number decreased about 10%.

One reason Oklahoma's payroll shows up unfavorably with many other states is because we include student labor and trust fund personnel on our regular payroll. So far as I have been able to determine, we are the only state doing this. It appears to me that those who are trying to help the state should offer us compliments instead of criticism for combining our entire payroll into one, for efficiency purposes. They should explain to the people why our overall payroll appears, on paper to be out of line. It may interest you to know that some officials of other states have been studying our methods and are now making recommendations to their governors and legislatures to adopt the procedure we have put into effect in Oklahoma.

We are continuing to stand out even

more as the only state in the union which has not increased taxes during the past 14 years. As we hold the line on taxes, other states are increasing them all around us. We are gradually working ourselves into a much better position to attract industrial development. We have made much progress during the past four years in the industrial development program. A number of new industries have established in Oklahoma. The largest of these is the Western Electric Company, locating in Oklahoma City, which will provide employment for between 3,500 and 4,000 people. I have been told that by the time this plant reaches its full potential, the Western Electric people will have invested approximately \$65,000,000.

The second largest industry was the Callery Chemical Company, established in Muskogee. It is estimated to cost in excess of \$38,000,000. We agreed to rebuild a road, and did build it, to the plant. We built a force account road and spent about \$50,000, so labor and materials could be transported into the plant and out during the construction period. Since then we have contracted for a road leading to the plant which is now under construction. This was a requirement which had to be met before they would agree to establish this \$38,000,000 plant in our state.

Some other large new industries which have located in Oklahoma from outside the State during the past four years include:

Aircraft—The Brantly Aircraft Company in Frederick.

Chemical—Callery Chemical Company's \$12,000,000 helium plant at Keyes in the Oklahoma panhandle.

Metallic Industries—Fansteel Metallurgical Corporation in Muskogee, \$6,500,000 investment with prospects for expansion.

Leather Goods—Centra Leather Goods Company in Frederick.

Containers and Packing—Gordon Carton, Lawton; Container Corporation of America, Muskogee; and Continental Can Company, Ada.

Garment Manufacturing—Blue Bell, Inc., with two plants, Ada and Coalgate; Munsingwear, Vinita; Temple Manufacturing Company, Temple; Chelsea Manufacturing Company, Chelsea; Stephen Manufacturing Corporation, Frederick; Lillian Russell's Originals, Wewoka;

Furniture Manufacturing—Mur-Mil of Oklahoma, Oklahoma City; Carthage Manufacturing Co., Hugo; Crown Manufacturing Co., Hugo.

Expansion of established industries during the past four years include:

Seamprufe, Inc., McAlester, doubled plant capacity by moving accounting and most management personnel to McAlester from New York.

Ideal Cement Company—\$20,000,000 addition to their plant at Ada.

Dewey Portland Cement—A new \$12,000,000 plant at Tulsa.

Aero Design and Engineering—A new factory in Oklahoma City, \$6,650,000.

Flint Steel Company, Tulsa—\$2,000,000 investment, large expansion.

B. F. Goodrich Company, Miami—Sixth expansion now in progress.

Expansion of the Jonco Aircraft Corporation in Shawnee, following purchase by the Fairchild Engine and Airplane Corporation.

Examples of large scale expansions include: Tinker Field and the Civil Aeronautics Administration in Oklahoma City and American Airlines in Tulsa (\$20,000,000).

Hundreds of small plants have been expanded.

Industries which have located in Oklahoma in the past four years give various reasons for moving here. The quality and productivity of Oklahoma labor has been an important factor, also our

favorable market location.

Here are portions of some of the statements made by some of these firms, indicating a few of the reasons they located in Oklahoma:

" . . . markets, ample water supply, adequate fuel and power facilities, and roads and rail transportation, and the availability of manpower . . . "

B. F. Goodrich Company

" . . . enthusiasm, confidence of the people and public officials in the area economy, a dynamic spirit that moves forward in science and industry, a dollar-for-dollar sense of values . . . "

Western Electric Company

" . . . employees are productive and cooperative. The available electric and water supplies, and the location in respect to national markets . . . "

Munsingwear, Inc.

" . . . the available supply of labor has always been reliable and the performance of our workers, after training, has equalled or surpassed those of our plants in the East . . . We have found the regional location of Oklahoma most advantageous for supply of our customers all over the United States . . . "

Seamprufe, Inc.

" . . . Muskogee will be able to provide us with the kind of men and women . . . with the necessary level of education, inherent skills and records of integrity, industry and stability that will enable them to become valued members of the Fansteel family . . . "

Fansteel Metallurgical Corporation

" . . . The principal reason for locating our corrugated plant in Oklahoma is because of its proximity to markets . . . Another reason for locating in Oklahoma is the availability of skilled personnel. Worth mentioning is the fact that we have now gone 30 months without a lost-time accident, which speaks highly of the native skills and dexterity we have found in our plant employees.

Container Corporation of America

As a result of this expanded manufacturing program in Oklahoma, per capita income of the people of this state has increased approximately \$200 during the past four years. The net result has been a state with a stronger economy and a more prosperous people, a better place to live.

Oil companies of Oklahoma have cooperated with the state government by following the Corporation Commission's recommendations to keep oil allowables at a higher level. They have gone the extra mile in this effort to maintain Oklahoma's oil economy at a fair level. As a result of their efforts, we are now producing and selling more oil than we were four years ago.

Through the development of our improved park system, we have increased tourist traffic consistently and that, too, has brought prosperity in certain areas and has been a help in boosting our per capita income over the state.

During the past four years, we have completed lodges, opened them and put them in operation. We built picnic grounds, roads, golf courses, swimming pools, boatdocks, and many other facilities to accommodate the millions of people who visit our parks each year. We reduced our indebtedness by approximately \$1,000,000 and are now turning a going concern over to the incoming administration. The Planning and Resources Board has done an outstanding job carrying out the desires of the Oklahoma Legislature and the people in general.

We have celebrated our 50th anniversary and one of the members of this House, Mr. Lou Allard, served as the Chairman of the Semi-Centennial Commission. He did an outstanding job.

We introduced a new magazine, OKLAHOMA TODAY, that has won national recognition. I feel it has been a great help to the State of Oklahoma.

Many other things have been accomp-

lished, such as improved election laws and establishment of a constitutional Wildlife Commission. I know many of you have mixed emotions about the wisdom of a constitutional wildlife commission. All of these improvements have been made possible through the efforts of the people of this state in general. No one individual can take credit. We must give credit where it belongs.

As I close out 18 years of work in the government of Oklahoma, I leave with a kind of feeling toward the people of this state and with cherished memories of my work with members of the Oklahoma Legislature, elected state officials, and boards and commissions. It has been my privilege to work with you for the past 18 years. Some of you who are here today were here many years before I arrived. I have watched you men work and plan for the benefit of the people of this state. I worked side by side with you and with other distinguished members of these two bodies in perfecting a program of better government for our people. As I leave, I do not apologize for any of my decisions or for any of my actions. I do not mean by this that everything I have done has proven to be best. I have made my share of mistakes. But whenever I made a decision or cast a vote in the Legislature, I was convinced at the time that it was best for the people. When an individual does what he thinks is right, using his best judgment, I don't feel he owes an apology to anybody.

As Mrs. Gary and I go back to our farm home in Marshall County, we will leave here with a very kind and understanding feeling in our hearts toward each of you and our successors in the Governor's Mansion. I feel very confident that when the closing hour arrives for this 27th Oklahoma Legislative Session, all right-thinking people in this state will be able to say once again, "Well done."

Senator Easterly moved that the Sen-

ate Auditor be directed to prepare and the President Pro Tempore be authorized to approve claims for expense of the Majority Floor Leader and members of the Committees on Committees and Rules and Employment and Printing, who attended meetings prior to the convening of the 27th Legislature, which motion was declared adopted.

Senator Easterly moved that members of the Senate be allowed \$175.00 for the purchase of personal stationery, which motion was declared adopted.

Senator Easterly moved that the President Pro Tempore be authorized and directed to approve claim in payment of postage, providing each member of the Senate and its President with one (1) roll of four (4c) postage stamps, which motion was declared adopted.

" * * * * an itemized estimate of the revenues to be received by the State under the laws in effect at the time such estimate is made for each year of the next biennium, showing separately the revenue to accrue to the credit of the General Revenue Fund and each special fund of the State, and the total amount of such estimate for each fiscal year shall not exceed the average total revenue which accrued to each such fund for the three (3) last preceding fiscal years to which amount shall be added the cash surplus, if any, from the preceding fiscal year in the hands of the State Treasurer to the credit of any such fund and not previously appropriated by the State Legislature at the time such estimate is made. Such estimate shall be filed with the Governor, the President of the Senate, and the Speaker of the House of Representatives * * * ", and

That the sums and amounts reason-

ably estimated to accrue to the General Revenue Fund and to the several special funds of the State as herein set forth, be and they are hereby adopted and fixed as the official estimate of moneys to accrue for and during the fiscal years 1959-1960 and 1960-1961; and which figures are as follows, towit:

STATE OF OKLAHOMA
EXECUTIVE DEPARTMENT
DIVISION OF THE BUDGET

State Board of Equalization
State Capitol Building
Oklahoma City, Oklahoma

Gentlemen:

The Constitution of the State of Oklahoma, Section 23, Article 10, requires the State Board of Equalization to make an itemized estimate of the revenues which will accrue to the General Revenue Fund and each Special Fund of the State for each year of the next biennium, and to file same with the Governor, President of the Senate, and Speaker of the House of Representatives, prior to the convening of each Regular Session of the Legislature.

The Constitution provides that the amount of the estimate for each fiscal year shall not exceed the average total revenue which accrued to each fund for the three last preceding fiscal years. This Section further provides "that the Legislature may, at any Regular Session * * * enact laws to provide for additional revenue other than Ad Valorem Taxes or transferring the existing revenues or surplus from one fund to another where upon it shall be the duty of the State Board of Equalization to make an estimate of the revenues that will accrue under such laws and to file the same with the Governor, President of the Senate, and the Speaker of the House of Representatives, and the amount of any increase or decrease resulting, for any reason, from such laws, shall be added to or deducted from each respective fund, as the case may be." The amounts apportioned to the General Revenue Fund for each of the three years involved and the maximum amount which may be estimated for each year of the next biennium is shown by the following statement.

The Constitution of the State of Oklahoma further provides that the cash surplus, if any, from the preceding fiscal year, in the hands of the State Treasurer, to the credit of any fund which has not been previously appropriated by the Legislature at the time the estimate is made, may be added to the estimate. In this connection attention is called to the provisions of House Bill No. 30, Regular Session, Twenty-first Legislature, creating the Emergency Appropriation Fund. Said bill provides in part as follows: "Upon the passage of this Act it shall be the duty of the State Board of Equalization to make an estimate of the revenue which will accrue in the Emergency Appropriation Fund during the current Biennium, by reason of transfers of revenues and surpluses to said Fund by this Act and any other laws in force at the time such estimate is made."

derived from any law or laws which allocate the revenues thereof to such Department, Institution or Agency, shall not incur obligations in excess of the unencumbered balance of surplus cash on hand." This provision eliminates the necessity of making specific appropriations for earmarked revenues appropriated to Special Funds which operate as a continuing appropriation. The Legislature makes appropriations for certain governmental functions out of Special Funds which do not operate as continuing appropriations. Oklahoma's first inauguration of her second half century of statehood finds an alert, eager people striving to excel in the fascinating and challenging age of space and science, while retaining their neighborly humaneness. Today's Oklabomans are the sons and daughters of fathers who built a state from teepees to towers in fifty short years without losing touch with God or fellow man—a people on the march with young and dynamic leadership to pioneer their second half century.

GOVERNOR J. HOWARD EDMONDSON

The Sooner State's new first family brings a background of pioneer Oklahoma and a spirit of progress to the governor's mansion. J. Howard Edmondson is the fourth child of Mr. and Mrs. E. A. Edmondson of Muskogee—a pioneer Oklahoma family. At thirty-three he is the state's youngest chief executive.

He was born September 27, 1925 in Muskogee, where he was reared and educated in the public schools. Upon his graduation from Central High School he enrolled in the University of Oklahoma.

Even though only seventeen Howard left the campus to join the Air Force and began a military career that saw him become a flight officer. When the war clouds cleared, he returned to Oklahoma and on May 15, 1946 married his childhood sweetheart, Jeannette Bartleson. Like many other newlyweds, the Edmondsons returned to the University of Oklahoma so Howard could complete his legal education.

After graduation, Howard Edmondson was honored by selection as law clerk for Judge Eugene Rice of the Federal District Court.

Governor Edmondson's family has a distinguished background of public service, starting with his beloved Father

who served as an official in Muskogee County. The Governor's Brother, Congressman Ed Edmondson, is serving his fourth term representing the Second Congressional district. Congressman Edmondson served as county attorney in Muskogee County prior to his election.

In 1953, Howard Edmondson was offered the position of chief prosecutor in the Tulsa County Attorney's Office. In 1954 Howard was elected County Attorney. He was soon known as a fearless and capable prosecutor who sought out and prosecuted crime in high places. Reforms in governmental procedure resulted from his tireless efforts. With his outstanding record he was re-elected at the end of that first term by an overwhelming majority.

His dynamic effort, waged with the same objective force that projected him into the public spotlight as a prosecutor, brought about his nomination for Governor by the greatest majority in the state's history. J. Howard Edmondson's election in November was equally impressive.

The new Governor and First Lady have three wonderful children, James Howard, 11, Jeanne, 9, and Patty, 6. In Muskogee and in Tulsa, as will be true in Oklahoma City the Edmondsons maintain a rewarding closely knit family life based upon teamwork and Christian principles.

LIEUTENANT GOVERNOR GEORGE NIGH

Like Oklahoma's new Governor Oklahoma's incoming Lieutenant Governor is the youngest yet elected by Oklahomans and is also the youngest serving in his position throughout the nation.

George Nigh, son of Mr. and Mrs. W. R. Nigh, was born in McAlester in 1927, the fourth of the family's five children. With the advent of World War II, he joined and served in the United States Navy. During this period of service for his country he acquired an intense interest in governmental and civic affairs. Following his wartime service he immediately set about in pursuit of further education. After graduation from Eastern A&M College, he earned his B.A. degree at East Central State College.

Returning to McAlester to a position in his chosen profession, George Nigh taught History and Government at

McAlester High. Soon his activities and interest spread to include active participation in community and state affairs. Among the prominent positions he held were State Secretary and State Director of the Junior Chamber of Commerce and State President of the League of Young Democrats.

Yet teaching, civic work and politics were to be subservient to his devotion to state government. His inherent abilities and integrity were recognized and rewarded by the people sending him to the legislature four times before he was elected Lieutenant Governor.

His busy pace thus far has afforded him no time for matrimony. Oklahoma's young Lieutenant Governor therefore ranks as Oklahoma's most eligible bachelor.

To the Gentlemen of the Senate:

The last 4 years has been the greatest period of my life. I have enjoyed every minute of it.

Down in little Dixie I own a small ranch that I call Home. The latchstring is always on the outside. Come over and see me sometime.

I won't say Goodbye because you will always be with me in my memories.

Governor Gary has worked hard. He

knew how to be Governor. He is a great Statesman.

To the press and to Judge Ross Rizley, I am greatly indebted. I want to compliment the press for the fine job that they do.

In the coming years, my childrens' childrens' children will feel greatly honored when they see my picture hanging between the pictures of men like Jim Berry and George Nigh, in the Lieutenant Governor's Office.

I extend my congratulations to Governor-Elect J. Howard Edmondson. I will do everything in my power to make his administration a success.

I want to thank the Senate—they have been good to me.

If I were your Governor, I would use the brains of this august body and the things that Jesus taught to make my administration a success. There is no finer group of men on earth than the gentlemen of the Oklahoma Senate. I love every one of you from the bottom of my heart. May the Lord bless you.

And now, "Let's get the show on the road."

INAUGURAL ADDRESS OF THE GOVERNOR OF OKLAHOMA

Mr. Chairman, Distinguished Guests, and Fellow Oklahomans:

We meet here today, on this 12th day of January in 1959, in a time of great trouble and great challenge for free men and free women all over the world.

I would like to talk to you today, with a gravity and seriousness straight from the heart, not only as friends and not only as Oklahomans, but also as American citizens—all of us with a deep and most important obligation at this hour in history to the greatest republic in all the world—the United States of America.

During the past year, we have enjoyed once again in this state of ours a great privilege of American citizenship—the privilege of a free election, by secret ballot, after a fair and free campaign to illuminate the issues.

The Campaign of 1958, like most Oklahoma campaigns, was hard-fought and hotly contested, and most of our

citizens became keenly interested in some candidate and took an active role in some part of the campaign.

We enjoy our politics in Oklahoma, and we are proud of the privilege of "taking sides" and fighting for the side in which we believe.

And we find it difficult to understand, and completely impossible to appreciate, that more than one-half of the men and women who live today on the face of the earth do not enjoy this Oklahoma privilege—the right to take sides and to campaign for one candidate against another.

More than one-half of the world's people today live under forms of government which are not democratic, in totalitarian countries which teach little children that men and women alike exist and live to serve the State, in countries where human life is cheap and human liberty is an unknown commodity.

In Communist China alone, a population more than three times as large as our own has been enlisted under the banner of this kind of government.

In Soviet Russia, and in the satellite countries under Russian domination, a population more than double the American total is today enslaved by the same totalitarian system.

The existence of these other systems of government, and of these other nations, is of concern to American citizens for one reason, above all others:

We are aware of their open and declared objective to win the entire world for their way of life and government—and we know that they pursue this objective, constantly and relentlessly, by subversion, conspiracy and revolution, in every corner of the free world.

We know that they prepare constantly for aggression, that more than 40 per cent of their national energy and production go into the machines and the weapons and the manpower for war

—and we know that they not only possess the terrible secrets of atomic and thermonuclear destruction, but also have made alarming progress in the field of long range missiles.

We know these things, and we live each day in the shadow of this knowledge, and from this knowledge there must come to each of us a new and sharp awareness of our responsibility as Oklahomans and Americans today.

The challenge to Americans' ideals and principles and institutions—and to the freedom and the liberty which all Oklahomans treasure—is far more serious than it was in the dark days of Pearl Harbor and the Battle of the Atlantic.

In 1959, the challenge exists not only along lines of military battle, but also in the laboratories of science, in the schools and universities, in the wheat fields and in the factories, and even in outer space—thousands of miles beyond the surface of the earth.

The challenge exists here today, in Oklahoma City and across this great and beloved state of ours, as we meet for this inauguration—and as the Legislature meets in the halls of our Capitol.

It is a challenge demanding the very best of all of us, not only those of us in government, but also those of us in the classroom and the pulpit, in the offices and the factories and the farms of Oklahoma—and most of all, in the homes.

In meeting that challenge, we can no longer afford to be complacent about waste, or inefficiency, or corruption, in the vital organs of our society—and this is equally true in our essential industry, in our educational system, and in our government.

The people of Oklahoma are aware of this fact.

Deep within our people, not only in our State but all over the nation, there is an awareness today of the challenge from behind the Iron Curtain—and there

is a growing impatience with political groups—and politicians—who do not move and act vigorously to eliminate waste and inefficiency, and corruption, in the machinery of government.

I firmly believe it was this awareness on the part of our people, and the desire for new ideas and new leadership which went along with it, which accounted more than anything else for the record-breaking majorities of last summer and last fall.

With those majorities, and the mandate for action which they represent, the people of Oklahoma have handed a tremendous and a grave responsibility to this administration.

In the light of that responsibility, I can appreciate fully the feeling expressed by Woodrow Wilson 48 years ago, when the people of New Jersey inaugurated him as Governor.

At that time, Governor Wilson told the people of his State:

“No one dare be sure that he is qualified to play the part expected of him by the people—in the execution of this high trust.”

And Wilson went on to say:

“It is best for him, as he sets out, to look away from himself and to concentrate his thought upon the people whom he serves and the sacred interests which are entrusted to his care.”

What about these two things which Woodrow Wilson said should be of primary concern to a Governor—the people whom he serves, and the sacred interests entrusted to his care?

How do they stand in Oklahoma, in this year of 1959?

In their pioneering brand of democracy, in their generosity and their simple honesty, in their courage and determination in the face of adversity, in their capacity to learn and their

for the future, we can all be proud of the people of Oklahoma.

In every kind of competition between the young people of the nation, our young people reflect credit upon the state.

In every time of war and crisis, our fighting men have served with bravery and with honor and distinction.

We are proud of our good neighbors, and of the neighborly spirit that is part of the Oklahoma tradition.

And yet—there is need to face squarely today the problems that exist among our people.

Many Oklahomans today are in need of jobs or vocational training, or of more adequate incomes to support themselves and their families.

Many Oklahomans today are in need of better homes in which to bring up their children.

Many Oklahomans today are receiving medical care, or treatment for disease or mental illness, in institutions that urgently need improvement and enlargement of staff.

Many Oklahomans have lost confidence in some branch of our government, or in the process of justice, because of our failure to keep pace with the needs and requirements of a modern Oklahoma.

Many Oklahomans, who have great skill and ability in the field of education, are leaving our state or leaving their profession because other fields or other states offer better opportunity — and many Oklahoma students in our schools and colleges are being short-changed in the process.

These are a few of the many problems besetting the people of Oklahoma today—and for which we hope to find, in cooperation with the Legislature and all people within the state, some substantial betterment during the next four years.

During the campaign of last summer, I was impressed by the appeal of one candidate for Governor, who ad-

vocated a program of "government with a heart" to meet the problems of the people.

We do need "government with a heart" today, and I hope and pray that the government of Oklahoma will always be that kind of an instrument to relieve suffering wherever possible, to protect the children and assist all the victims of poverty and need. I hope our policy will not only be one of assistance, but also one of encouragement, rehabilitation, and opportunity.

In short, I believe we not only need "government with a heart," but also "government with imagination, government with foresight, and government with common sense."

And what about "the sacred interests" of Oklahoma?

In addition to the people, we need also give attention to the conservation and development of our natural resources, to the modernization of transportation facilities, to the encouragement of new industry and new construction.

We shall do all in our power to create a "climate of government" that is attractive to enterprise and initiative among our citizens—and we hope the foundation for that climate will begin with respect for and confidence in our state government.

In the office of Governor during the next four years, every possible effort will be made to work constructively with other elected state officials, and with the officers and people of our 77 counties and all communities—without special favor to any region or any person.

Every effort will be made to carry out both the letter and the spirit of the program which was presented to the people of Oklahoma in the campaign for Governor last summer and last fall, and I have been assured by the duly elected leaders of the Legisla-

ture, both in the Senate and the House of Representatives, that they are prepared to fight for the cardinal features of that program.

They have also assured me that every effort will be made in the Legislature to pave the way for a special election, within the next 90 days, on the issue of repeal of prohibition. For both of these assurances, I am deeply grateful.

In line with other campaign commitments in this same field, the newly appointed Commissioner of Public Safety has already been instructed to begin a statewide effort at uniform and effective enforcement of the state's prohibition laws, and the Legislature already has before it recommendations for new laws to close the loopholes in the present enforcement statutes.

We are going to do our very best to do the job which you endorsed, with a majority of more than 200,000 last July, and which you endorsed once again, with a majority of almost 300,000, on November 1st. I hope and I pray that the job can be done. It needs to be done, if Oklahoma is to resume the splendid growth and expansion with which we led the nation in the early part of this century. It needs to be done, if this great state of ours is ever to be as strong and dynamic in its development, as our people richly deserve, and our nation requires it to be.

Let me tell you about the dream which is in my heart for Oklahoma, as I take this sacred oath of office today.

It is my prayer and my hope that we can turn the tide of economic and population trends in Oklahoma during the next four years.

It is my prayer and my hope that we can put into operation a program that will attract new industry into Oklahoma and inspire industrial growth as never before—providing at least 75,000 new industrial jobs for our people by 1963.

It is my prayer and my hope that we can establish educational and teaching standards which are a model for all states in this part of our country—making Oklahoma just as famous for its great schools, as institutions of learning, as we are justly famous for football, basketball, wrestling and other school activities.

It is my prayer and my hope that by these means, and others, we can once again see a population that is growing by leaps and bounds, as it did from 1900 to 1920—and I believe it is entirely possible, with a dynamic program of progress, to see the population of our state increase by at least a quarter of a million in the next four years.

75,000 new industrial jobs.

A school system second to none in the Southwest.

And a population increase—by reason of new jobs and new hope—of better than 250,000.

These are three dreams, my fellow-Oklahomans, of a young fellow citizen, you honored with election to the Governorship less than 3 months ago.

They are dreams which I hope will become your dreams—and dreams that can only come true if you determine with me, to **make** them come true.

When our nation was in the middle of its first great fight for freedom and independence, more than 180 years ago, a fiery young writer and soldier named Tom Paine made an appeal to his fellow Americans for their help in a great cause.

Today, in 1959, I use the words of Tom Paine to ask for your help in making this dream of a greater Oklahoma come true. As Tom Paine said, 180 years ago: "I turn with the warm ardor of a friend to those who have nobly stood, and are yet determined to stand the matter out. I call not upon a few, but upon all, not on this one, or that one, but on everyone—**Lay your shoul-**

ders to the wheel. Better have too much force than too little when so great an object is at stake."

Breakfast for Governor Elect J. Howard Edmondson and Other Elected Officials

Skirvin Hotel

January 12, 1959—7:00 a. m.

Since it is through the mercy of Almighty God that another day is added to our lives, we here dedicate both our souls and our bodies to Him and to His service, in sober, righteous, and Godly

lives; to the glory of His Kingdom and the everlasting benefit of this great State; and in such dedication, we ask that He confirm and strengthen us.

Knowing the weakness of our nature and the many temptations which we meet daily, we ask that He have compassion upon our infirmities that we may be restrained from sin and ever mindful of our duty.

We pray that He will imprint upon our hearts such a dread of His judgments and such a grateful sense of His goodness as to make us both afraid and ashamed to offend Him.

In particular, we implore His grace and protection in the days, the weeks and the months to come—that He will keep us temperate in all things, and diligent in our several callings.

We ask that He grant us patience under our afflictions; grace to be direct and upright in all our undertakings; quiet and peaceable; full of compassion; and ready to do good to all men according to our abilities and opportunities.

We pray that He will direct us in all our ways; defend us from all dangers and adversities; and take us and all who are dear to us under His fatherly protection.

These things we humbly beg in the name of the Governor of all men.

ADDRESS
OF
GOVERNOR
J. HOWARD EDMONDSON
TO
THE TWENTY-SEVENTH
LEGISLATURE
OF THE STATE OF OKLAHOMA
Tuesday, January 13, 1959

INTRODUCTION

Since the general election, I have visited with nearly all of the members of this legislature. We have discussed Oklahoma and the problems that face our state. You have individually expressed to me your views and your plans and your hopes, and I have been anxious to share them with you. I have been impressed with the sincerity, the aggressiveness of your views on the Oklahoma of today and tomorrow.

Let me say with all sincerity, I consider it an honor and a privilege to come before you and to outline my thoughts on a program of reform for Oklahoma.

This legislative body is now confronted with some of the most serious and vexing problems of state that ever faced Oklahoma. We are both keenly aware of them. Perhaps intangible, but certainly one of the most essential is building the confidence in the men and agencies that make up our state government. I am firmly convinced that when you gentlemen have written the last page of your legislation into law, when the people of our state begin looking back across your weeks and months of work, they will remember it as the "Triumphant Twenty-Seventh" Legislature.

I believe they will remember it as one of the best in Oklahoma's history, and I sincerely believe that in the years to come. Oklahomans will continue to reap the benefits of the program you enact.

Although there will be many other mutual problems I will want to discuss with you from time to time, at the outset of this administration I would like to talk with you about the foremost problems of today — Taxes and Oklahoma's serious financial condition; the issue of prohibition repeal; roads and highways; a merit system for state employees and reapportionment of the Oklahoma legislature.

In addition, I would like to make recommendations for your consideration in the field of education, mental health and welfare, industrial expansion; economy in state government, consolidation and implementation of central purchasing; a district attorney system and penal reform; the oil and gas industry; agriculture and upstream flood control.

FINANCIAL PROBLEMS

When I say Oklahoma has serious problems facing the Twenty-Seventh Legislature, much of the trouble centers around state financing. The difference between this session and recent sessions is that you will have the smallest increase in the available funds for appropriations in many years.

Oklahoma's economy and thus its tax income, have been climbing at a rapid rate during the post war years, but the curve has practically leveled off now. For instance, the 1953 session had approximately one hundred fifty-seven million dollars to appropriate. The 1955 Session had one hundred sixty-eight million dollars and the 1957 session had more than one hundred ninety-nine million dollars.

By contrast, the Budget Director informs me you will have one hundred ninety-nine million, nine hundred thousand dollars available for appropriation from the general revenue fund. In other words, the Twenty-fifth Legislature had an eleven million dollar increase over its previous session. The Twenty-sixth

Session had nearly thirty-one million dollars more than the Twenty-fifth. But the Twenty-Seventh Session will have less than a million dollar increase. In just one biennium, the rate of INCREASE has dropped from thirty-one million dollars to less than one million dollars.

The Budget Director also informs me that anticipated surplus for your Session of the Legislature will be less than half that of the 1957 Session.

Although the pressures for increased government services, combined with inflation, continue to persist as they have in the past, our present rate of income does not parallel them. So, unlike past legislative sessions, you will not have an increase in revenue comparable to what we have had in the past.

In spite of this, I feel confident our state's financial needs can be met with the recommendations we are making or will make.

As an example, tremendous savings can be effected for the state through a general practice of economy and through the consolidation of various departments and agencies. For instance, I recommend the establishing of a strong and effective State Central Purchasing Agency. This would result in putting approximately one hundred agencies of the State into one department and make for increased efficiency. I will discuss more about that later.

We do not need an increase in our State Income Tax, but there are many who, at the present time, are not paying this tax which they owe. This group would include transients who may be in the state for a short period of time.

With reference to this, I recommend that you either, one, provide additional funds to the Oklahoma State Tax Commission with which to check Federal and State returns more completely than they are now doing, or, two, enact legislation for withholding of state income

tax on a pay-as-you-go basis. Neither alternative would be an increase in taxes, but would be a method for greater efficiency in collecting existing taxes.

I am making no recommendations for supplemental appropriations with one exception. That exception is for increases in salaries of certain elected officials as provided by the last session of the legislature where no appropriations were made for the same. This amounts to \$32,650.

REPEAL

On the first day of this Legislative Session, resolutions were introduced in both Houses calling for a special election on the question of repeal of prohibition. This important question was introduced at that time because of the importance of time. Although it is a part of our program, it certainly is of no more importance than other vital questions that are part of that program. I do consider it important that this matter be given immediate attention and acted upon as quickly as legislative processes will allow.

The joint resolution embodied a proposed amendment to the constitution and provided for the elections and generally the regulations to establish repeal in Oklahoma.

It calls for the sale of intoxicating beverages in package stores only, forever prohibiting the open saloon.

The proposal limits the retail sale of liquor to cities of two thousand population or over and to county seat towns even if their population is less than two thousand.

One-third of the revenue is earmarked for the cities and towns of Oklahoma, with the other two-thirds of the tax money apportioned to the general revenue fund.

The recommended amendment has rigid rules against the sale of liquor to

minors and others, and it sets out the hours stores may be open.

The administrative body, as set out in the proposal, would be an alcohol control board with its full time director.

Needless to say, and as restrictive as this proposed amendment is, it still behooves us to study very carefully other restrictive measures to properly control the liquor business if it is authorized by the people of Oklahoma.

Many days and weeks of conscientious effort by a great number of people were expended in determining what should be placed in our constitution on this question. The amendment proposed is a composite of that effort and study.

I urge that in your committees you carefully study this resolution, and that you counsel with yourselves and with other authorities in order to write the best measure for the people of Oklahoma.

I certainly feel that it is of vital importance that the loopholes in our present enforcement laws relative to prohibition should be closed.

I assure you all of the resources of the Governor's office will be used to see that this, as well as other laws, will be enforced without fear or favor. I trust that you, in the spirit of true democratic principle, will afford the people of Oklahoma an opportunity to vote on this question at a special election where the majority will rule.

ROADS AND HIGHWAYS

I am sure that you feel, as I do, that roads and highways are one of the most important phases of our state government. As I brought out consistently in the campaign just past, in spite of the fact that our road building program has been stepped-up in recent years, the general condition of the roads and highways in Oklahoma still leaves much to be desired.

The time for drastic reforms in our

highway program is long past due. We have seen by the examination of road building programs in many of our neighboring states and other states of the union, that there is a more constructive and better way to approach this important problem.

In view of the foregoing circumstances, I wish to make some broad and sweeping recommendations for changes in the State Highway Department. It is my thought that we, in the past summer campaign, and in the fall election, received a mandate from the people of Oklahoma to take our road building program out from under the shackles of political patronage.

In this connection, I recommend that you, by a Joint Resolution, give the voters of Oklahoma an opportunity to vote upon a constitutional highway commission. This commission should be composed of eight members, as is now provided, and they should serve staggered terms, two new members being appointed every two years. It is my thought that this will take the Governor out of the road building business once and for all and would enable us to build roads where they are most needed. I would further recommend to you that a revolving or floating fund be set up for the purpose of acquiring right-of-ways for a long term road building program. It has been proven in other states that by purchasing right-of-ways far in advance of the actual construction, many thousands of dollars can be saved.

It seems quite apparent to me that within the next few years Oklahoma will be required to spend many more highway dollars in order to meet increased needs for highway construction. The problem then arises, from what source the money will be obtained. As I see these problems now facing this administration, we have three basic alternatives.

One: Increased taxes.

Two: An anti-diversion amendment

to the Constitution which will guarantee that the so-called road users taxes be spent for roads and highways rather than diverted to many other phases of state government.

Three: A bond issue which would be geared to a long range road building program.

No doubt there would be some objection to any one of these plans. But the time has come in Oklahoma for us to take a long and constructive step toward putting the state on a sound, long range highway building program. Under the present rate of income from taxes coming into the Highway Department, it is apparently impossible for us to meet the growing needs of a highway program comparable to the other states in our general area. This applies to both new construction and maintenance.

I cannot, at this time, state with certainty what road financing course we should take, but I urgently recommend that you, as I myself shall do, give due consideration in the days and weeks ahead to an adequate solution to this most important problem.

With your permission, I would like to go further into my reasoning behind this recommendation. It is my opinion that the actual building of roads is the greatest sign of progress in the minds of our citizens and visitors to this state that we could possibly bring about. I recall that during one of the prior administrations a sign was used at the entrance to each road project under construction which read as follows: "Sign of Progress." As you entered, you found the state building a short strip of new paving, or they were resurfacing an old strip of asphalt.

This was not a sign of progress. On the other hand, if we can build modern and adequate roads, roads to serve the people of this entire state, from Little Dixie to the Panhandle, and from North-eastern Oklahoma to the great plains

of the Southwest, we then would be showing the people in fact the visible evidence of progress, and we would not need a sign to advertise that fact. With your help, we can and will accomplish these ends.

MERIT SYSTEM

The efficiency of the individual employee depends largely upon the level of morale of the people with whom he works. The morale of our state employees is bound to ebb and flow with the tides of the political fortunes of their sponsors.

While there are many areas in which the lot of an employee of Oklahoma could and should be improved, it seems to me his morale and thereby his efficiency for the state would best be bolstered through a type of merit system that would provide job security, protection and advancement as a reward for able and faithful service.

There should be a classification of jobs in order that certain qualification requirements for each job may be prescribed and each employee be required to demonstrate his ability to properly perform the duties prescribed for the particular job for which he is an applicant.

Those now employed who have for a period of time already demonstrated their ability in their assigned duties should automatically be qualified for classification.

Those presently employed for a short period of time should be required to demonstrate their qualifications by examination. However, they should be given credit, on a system of preference, based upon the length of prior service.

All future employees should be required to qualify by examination. Such a system of merit would release you, as legislators, from one of your most difficult burdens—that of acting as an employment agent. The merit system for state employees would result in tre-

mendous savings of tax dollars through the elimination of duplication, inefficiency and waste. It would also create peace of mind for individual qualified state employees who would then know they could not be removed from employment for political reasons alone.

Of course the details of such a merit system must be developed carefully and thoroughly in order that the state as well as the individual employee can be protected. The ultimate goal of the merit system should envisage a plan of retirement and a system of uniform vacation and benefits.

REAPPORTIONMENT

I strongly urge that we abide by the Constitution of the State and reapportion the legislature.

It is my recommendation that the present constitutional formula be amended to guarantee to each county at least one member in the House of Representatives.

I further recommend that a proper means of enforcement of reapportionment be included in the constitution to assure that reapportionment be carried out according to the mandate of the constitution following each decennial census.

This is a project I consider a priority measure, it is the basic question of whether the people of our state are given the equal voice in state government to which they are undeniable entitled, under both our constitution and sound principles of democratic government.

I have prepared a resolution for immediate introduction, based on the plan I have briefly outlined to you. I recommend that it be sent to committees where a complete and exhaustive study can be made on the measure.

I strongly urge that it then be passed by this legislature and submitted to the people.

EDUCATION

It is extremely important to Oklahoma and our future that we provide the best education possible for our young people. It is because of my dedicated belief in this premise that my budget message includes an increase, larger by far, in recommended appropriations for education, than any other obligation of government.

In all our deliberations about our education problems, I think the interest of our young people must be our first consideration.

With our schools and colleges facing increased enrolments as well as increased demands for improved and strengthened programs of education, I know the requests for funds to meet these needs will receive your careful and favorable study.

Salaries of teachers in our schools, even though they have been increased in recent years, need to be raised to the extent that teachers of Oklahoma may receive salaries that will attract and hold our best trained teachers for the children and youth of our state.

Although present anticipated revenue, as recommended in the budget, provides for an increase of slightly more than twelve millions dollars for state aid to common schools, more is needed. This amount will satisfy the needs only for financing the existing school code. This guarantees minimum teachers' salaries at three thousand dollars.

It is my recommendation that additional appropriations be made to raise the minimum teachers' salaries to three thousand four hundred dollars this biennium and to three thousand six hundred dollars next biennium. Our primary problems in teachers' salaries is in the field of beginning teachers. Our present low minimum is preventing us from attracting as many of our new young teachers as we need.

The minimum salary figure can be

increased from three thousand dollars a year to three thousand four hundred dollars at a total cost of \$1.2 millions dollars per biennium. This is based on the present teaching experience average prevailing in the state.

As we think of the needs of education we must keep in mind also the increasing cost of those things schools must have in order to operate. Maintenance and instructional supplies, equipment and salaries of non-professional employees as well as funds with which to match federal programs must be taken into consideration.

Consolidation should continue in such cases where it will improve the educational training for our young people in order to give all our children fair and equal opportunities. Financing of school districts on the local level should not cause a penalty which would result in their not receiving their share of state aid.

Continuing in the field of education, let me say that no more important or urgent public interest will challenge the attention of our administration and that of the Twenty-Seventh legislature than that vested in our institutions of higher learning.

The new demand for space and science training dramatizes this. Even as we deliberate together, man's first satellite may well be in orbit around the sun. America must keep pace and we in Oklahoma must do our part to see that it does.

The field of technology is not the only important aspect of higher education. It is also the most direct means of creating new wealth for our state. It is a principal means of making life richer and more rewarding in every realm.

I am recommending a seven million dollar increase in appropriations for higher education.

Some of the budget pressures can be relieved in higher education during this biennium. When the Board of Regents

for Higher Education was created, it was the intent of the Legislature and the people that they accept the responsibility for a long range program for higher education in Oklahoma. This was intended to include necessary consolidations of schools and the elimination of unnecessary duplications. With the help of this Legislature we will insist that the Regents of Higher Education fulfill this responsibility.

MENTAL HEALTH

Oklahoma has made great progress in the past decade in the field of mental health, but we still have far to go. For that reason, the recommended budget which I am submitting separately calls for an increase of more than eight per cent in appropriations for mental health.

It is extremely important that we pay particular attention to increasing facilities for the care and training of mentally retarded children. I recommend that you appropriate seventy-five thousand dollars for the completion of a dormitory to provide eighty-four additional beds at the Pauls Valley State School. I hope that even more training space can be made available through possible consolidations and transfers.

WELFARE

I recommend and strongly urge that all state agencies organized primarily to provide welfare services to the citizens of Oklahoma be placed under the Oklahoma Public Welfare Commission.

The people of Oklahoma, in adopting Article 25 of the Constitution on July 7, 1936, provided that the commission administer the grant-in-aid programs dealing with welfare. This authorized the commission and Department of Public Welfare to cooperate with any grant-in-aid program for the purpose of obtaining federal funds.

In effect, the Old-Age and Survivors Insurance program was the basic pro-

gram and the assistance programs for money payments were set up as a stop-gap measure to take care of the needs of those needy citizens not covered under the old-age insurance plan, until all employees could obtain sufficient coverage either by requirements of law or on a voluntary basis.

I am happy to report that a detailed study of the welfare department's affairs shows we have reached that milestone in the programs where an increase of at least three dollars a month can be added to the payments for:

1. Old Age Assistance.
2. Aid to the blind.
3. Aid to dependent children, and
4. Aid to the permanently and totally disabled.

My detailed study has shown that sufficient surplus will be left in the state assistance funds to continue that precedent set by the Twenty-Fifth Legislature, when a surplus of one hundred seventy-five thousand dollars was made available for the rehabilitation of parents in aid to dependent children families.

Again, in the wisdom of the Twenty-sixth Legislature, three hundred thousand dollars was made available from the surplus to continue aid to these families.

I therefore recommend that this Twenty-seventh Legislature give serious consideration to continuing the policy of making available that part of the sales tax revenue not needed to maintain a budget providing for the standards of decency and health and the adequately financed medical care program for other welfare purposes.

I recommend that the legislature transfer to the Public Welfare Commission the responsibility of administering all of the medical care program for physically handicapped children.

I further recommend that the administration and supervision of the Whit-

aker State Orphan's Home at Pryor, and the Deaf, Blind and Orphan's Home for Negroes at Taft, be transferred to the Public Welfare Commission.

The Twenty-sixth Legislature transferred the duties and responsibilities of the general assistance program and the commodity distribution program to the welfare commission. It was necessary to finance these activities the past biennium from the general revenue fund. I find that there is now a sufficient surplus in the state assistance fund to finance these activities from the sales tax revenue.

The transferring of these agencies and the financing of their activities as well as the financing of the commodity distribution program and of the general assistance program can be accomplished in the next biennium from surplus state assistance funds.

Certainly I am mindful that it is the first responsibility of the fund to provide adequate payments to our elder citizens and other needy, eligible people, in addition to providing comprehensive and adequately financed medical care.

This we can do—by providing a substantial increase in the money payment by February, 1959, and we can also finance the activities as I have suggested from the surpluses.

At the present rate of increase of sales tax collections and the increasing number of recipients who draw an old age payment, which enable the commission to reduce the amount of state funds needed to maintain the money payment, further increases of so-called "pension" payment can and will be made during my administration, consistent with any cost-of-living increase.

CENTRAL PURCHASING SYSTEM

In order to provide for needed economies in the business operation of many state agencies, it is mandatory that certain changes be made. I sincerely believe that the current antiquated pur-

chasing system should be replaced with a central purchasing system.

At the present time, the function of purchase and supply is not centralized in one agency, but is conducted independently and with very little coordination, by numerous agencies. Directives and enabling statutes pertaining to purchase and supply are ambiguous as to intent, and contradictory as to interpretation, thus increasing the difficulty of proper administration.

There is no standardization between agencies as to description of requisitioned items. This lack of standardization eliminates any possibility of intelligent pool buying for state-wide requirements.

It is apparent that new legislation is needed to provide clear and concise directives predicated upon legislative intent. The law-making body should decide whether provisions in present statutes relating to purchasing should be repealed and re-enacted into a single comprehensive purchasing law, or if the improvement can be better obtained by piece-meal amendments. It is desirable that any changes made provide for the following conditions:

1. The responsibility for purchasing should not only be definitely placed within the state organizational structure, but the authority should be granted to require compliance by all affected agencies.

2. Citation of exempted agencies should be explicit rather than implied, specifying whether such exemption covers the acquisition of all purchases, or is limited to certain items. At this time I see the need for only two such exemptions: One: The Highway Department and its purchases of materials, machinery, and equipment pertaining to the construction of highways. Two: The Budget and Accounting Department because of its distinction as the paying and auditing branch.

3. Clarification should be had as to whether the responsibility of purchasing includes the authority to determine what particular item shall be selected. Without this authority, the entire concept of General Purchasing is weakened.

4. The several laws covering the taking and maintaining of inventory should be reconciled to allow uniform accounting for capital investment, and afford statewide comparison.

5. The question should be decided, whether the administrative head of an agency, or group of agencies vested with authority to requisition should have the power to delegate the function to sub-divisional heads.

6. A vital point which should be clarified is whether an agency, simply because it receives its supporting funds, in whole or in part, from a source outside the State's General Funds, is, therefore, exempt from accounting for its expenditures through normal state channels; and by the same token, whether they acquire the authority to expend these funds without accountability to the state administration. For example, the Wildlife Conservation Department.

In the consolidation of responsibility for procurement, there need be no loss of identity or authority by any of the many agencies affected. The function of procurement involves two elements:

1. Authority to requisition.

2. Duty of buying or ordering.

This requisitioning authority is an administrative function implying discretionary decision as to need by the line organization. **Under The Proposed Central Purchasing System this authority to requisition will remain with the present organization.** The act of buying is a service function only. It completes the procurement of an object which may be requested by any properly constituted administrative authority. As a corollary, therefore, **the power to requisition en-**

tails the power to expend state funds. This merely provides for a more economical means of accomplishment. The proposed Central Purchasing System implies a single point of purchasing performance for several requisitioning authorities under separate chains of command.

Such a Centralized Purchasing System may be expected to develop certain advantages. Among these will be:

a. Concentration of buying power, allowing purchases in larger quantities.

b. Better prices under widely competitive bidding.

c. Standardization of specification, eliminating unduly expensive or poorly adopted grades.

d. Long-range buying program to take advantage of seasonal variations.

e. Curtailment of hand to mouth buying and "emergency" selection caused by poorly anticipated needs.

f. Development of expert buyers familiar with markets, manufacturing and trade practices, packaging and shipping conditions.

g. Utilization of testing and inspection facilities with competent personnel on a full time basis.

h. Concentration of requisitions from multiple agencies permitting objective order solicitation on part of vendors with lower selling cost to them.

All agency heads must realize that once an appropriation is voted by the legislature, the money is not completely theirs to spend as they see fit. We must all realize that funds that we are handling belong to the people of Oklahoma and that we have a great obligation to see that these funds are expended in keeping with strict economy practices.

PUBLIC SAFETY

Of prime concern to every citizen of this state is the useless waste of life and property upon our streets and highways. Each year we kill hundreds of

men, women and children. Thousands more are injured and the property damage runs into millions of dollars.

More than ever before our citizens are keenly aware of safety upon our highways. The death rate is on the lips of citizens everywhere.

I recommend that a constitutional, non-political Public Safety Commission be established with authority to set up rules and regulations governing the Department of Public Safety. That said department be given the authority to employ a Director who is trained and dedicated to make our highways safer for our citizens. It is my belief that such a commission will attract career men, educated in the needs of public safety.

We have prepared the necessary legislation for your consideration and urge that you submit the question to the people of Oklahoma.

We also recommend that the Department of Public Safety be increased in man-power and that the money to adequately operate the department be appropriated to meet the challenge of cutting down our loss of life and property on our highways.

I recommend that you enact more binding laws on the revocation of Driver's Licenses. This will serve as a deterrent to habitual offenders and have a healthy effect in general on attention to traffic laws by all of our drivers.

In a recent survey conducted by the Traffic Division of the International Association of Chiefs of Police, they recommended that our Highway Patrol have more than two hundred additional men and over one hundred fifty more cars. I know we cannot meet this need this year, but I recommend that we do all possible in this direction toward making our Department of Public Safety the finest in the United States.

DISTRICT ATTORNEY

The uniform enforcement of our crim-

inal laws looms as one of the most basic needs of state government—a problem that grows with the crime rate that is increasing over all of the United States.

In many counties of our state, the citizens are faced with inadequate law enforcement. In a number of counties, attorneys will not accept the position of county attorney.

Without these experienced prosecutors, the work of the investigating officers is wasted. Vigorous prosecution of law violators is the most successful and permanent weapon against crime.

The establishment of a district attorney system in our state will be a step toward assuring that Oklahoma will never find itself in the limelight of such notorious publicity as those communities which lead the FBI's list of haunts of the bandit, the burglar and their kind.

A district attorney system will give every county an experienced and qualified prosecuting officer, a man selected from a single county or a group of counties which comprise an area large enough to assure capable and vigorous attorneys for the positions.

It will assure every community the qualified legal knowledge that is now too often found only in counties of very large population. We have prepared the legislation creating such a district attorney system and I urge you to pass it to strike a blow against crime; and place an arm of legal protection around the children and the homes of the citizens of this great state, that might otherwise fall prey to an element of crime.

PENAL INSTITUTIONS

One of the real problems which we face and which we must take active steps to correct lies in the penal system of Oklahoma. I have some recommendations which I want you to consider in the weeks ahead.

Recent investigation shows that special court services for delinquent chil-

dren are virtually non-existent except in two or three of our larger counties. Children committed to training schools are offered scarcely more than custodial care. When released from the schools these children return home with little, if any, help.

There is little difference in the picture as it concerns adult offenders. There are but two adult probation officers and only eight parole officers in our state. Our prisons are largely without rehabilitation tools.

Our parole system releases few men and those who are released are given little supervision and guidance.

I urge that we establish an Oklahoma Department of Correction, designed to be responsible for the administration of our entire correctional system.

This department would be built around a strong and able citizen board of not more than nine members to be appointed for staggered terms by the Governor. In turn, this board should select a director who would represent the best in his field.

As you go about this job, bear in mind that these modern programs are economically sound. For example, a good probation system pays for itself many times over. So does a good parole system. In Oklahoma, we could keep five men on probation or parole for the cost of keeping one in prison.

COMMERCE AND INDUSTRY

At the present time, we are not doing enough to promote industrial development. In that connection, we are one of the thirteen states without the semblance of a statewide financing program for new industry or the fostering of present industry. I am in hopes that the legislature and the people will consider this approach in the near future.

In this field lies our great hope for increased tax revenue through more industries and employment. In that connection, I am strongly opposed to any

tax increase that would hinder present industries from expanding or new industries showing an interest in locating in our state.

The industrial development of the State of Oklahoma is of prime importance to all of us. Many problems facing us as we commence this legislative session could be solved by industry moving into Oklahoma and developing our vast supply of natural resources. I recommend that we take strong and positive steps in the direction of advertising and promoting industrial development in Oklahoma.

OIL AND GAS AND OTHER MINERALS

I note with interest the introduction of legislation to increase the oil depletion allowance of our State Tax Laws. This matter is certainly worthy of consideration by Oklahoma's Legislature, in view of the fact that the federal depletion rate is higher than our Oklahoma rate. Every effort should be made to determine the effect of this proposed change on our state income and equitable adjustment provided if economically feasible.

Adjustments should also be made wherever justified, with reference to other minerals which are a part of our natural resources.

AGRICULTURE

One of the major needs in Oklahoma's agriculture is a stepped up program for upstream flood control. It was in 1957 and 1958, when floods washed away one hundred thirty-six million dollars in lands and farm and ranch holdings, that we really learned what these projects could mean to our state.

It has been a part of my pledged program—and still is—to ask for four additional planning parties for the upstream flood control programs, but at this time I am told by the State Soil Conservation Board that it is not economically

feasible. I have learned, however, that two additional parties would be most valuable in this effort and I recommend that you allocate funds for them.

I would also like to suggest that a committee investigate the feasibility of moving the Forestry Department from the Planning and Resources Board to the Department of Agriculture. I believe they will find this change of great benefit to the program of protecting the state's forests by making this change and would be in a better position to work more closely with the United States Forestry Service which is a part of the United States Department of Agriculture.

You have always understood the needs of the one hundred sixteen thousand farmers and ranchers of Oklahoma and I know that you will continue during the Twenty-seventh Legislative Session to handle their problems with that same understanding.

CONCLUSION

In conclusion, let me repeat that as I have come to know each of you individually, I am even more firmly convinced that the Twenty-Seventh Legislature will go down on record as one of the finest sessions in history.

I seek your cooperation and help in every respect. I hope we can consider ourselves as a part of a team. I think the executive and legislative branches can work together on a mutual and cooperative basis to build a program of progress for Oklahoma.

I want you to know my door is always open to discuss your problems and the problems of your district. Any time you have a problem, I have a problem. I want to be a governor who is always available to help the legislature as a whole and its individual members. There is no other group in Oklahoma as close to the people and as sensitive to their needs as all of you in this room.

While I want to do everything I can to help you, by the same token I hope I can always count on you to be helpful to me. I want you to counsel me and advise me on executive matters as well as to acquaint me with legislative problems.

There is no problem in Oklahoma so great that it cannot be worked out by the vast experience, leadership and talent that are present in the Twenty-Seventh Legislature.

I believe the people of the state are behind you more strongly than they have ever been before in your efforts to write a program in which the entire state can take pride.

The Regular Order of Business was called for.

SPECIAL COMMITTEE REPORT

Senator Miskovsky, Chairman of the Special Committee appointed to purchase proper furnishings and equipment for the office of the Lieutenant Governor, President of the Senate, made an oral report, stating the Committee had inventoried the office of the Lieutenant Governor and had conferred with his Secretary in his absence. We recommend, if possible, the procurement of furniture and equipment from other State Departments. This not being possible we recommend that bids not less than 6 in number—be asked for on the purchase of furnishings and equipment for the Lieutenant Governor's Office, the amount of expense not to exceed \$1500.00.

Senator Hamilton cited the record of the last legislative day, stating the Committee was delegated with authority to make purchase of proper furnishings for the office of the Lieutenant Governor, rather than to recommend.

Senator Ritzhaupt moved that the President Pro Tempore be authorized to purchase proper furniture and equipment for the office of the Lieutenant Governor, with no limit on the amount to be expended, realizing that economy would be practiced, which motion was seconded by Senators Stipe and Grantham.

Senator Miskovsky asked unanimous consent, to which Senator Ritzhaupt objected, that the Report be returned to the Committee for further consideration in order that a report in keeping with the wishes of the Senate might be made.

Senator Miskovsky asked that the record show him excused for the remainder of this legislative day, which was the order.

Senator Ritzhaupt, as a substitute, moved that the President Pro Tempore be instructed to purchase new furniture

and equipment essential for the office of the Lieutenant Governor.

Senator Ritzhaupt, as a substitute for all pending motions, moved that the matter referred to above be re-referred to the Special Committee for further consideration, which motion prevailed.

Senator Harris introduced Honorable Elmer Thomas as a distinguished statesman, a former State Senator, a former Congressman and for many years a United State Senator, and asked that he be given the privilege of the floor, which was the order.

By unanimous consent, upon request of Senator Fine, Senator Thomas was escorted by the Sergeant-at-Arms to the floor of the Senate, and in his usual statesmanlike manner addressed the members, recalling the early days of his administration in the State Senate and contrasting them with those of today, and his closing remark was that he realized that as time goes by, the older must stand as observers rather than participants.

Hon. Harold T. Garvin

President Pro Tem of Senate
Senate Chamber
Capitol Building

Oklahoma City, Oklahoma

Dear Mr. President:

It is a delightful privilege to thank

you, and through you, the honorable members of the Senate of Oklahoma, for the enactment of Enrolled Senate Resolution No. 10, which I received this morning. The sentiment therein expressed is sincerely appreciated and is exactly the way I feel about each and every member of the Senate.

This resolution has been placed in my desk along with the caucus call which I circulated in 1938 when the Senate gave me the office which you now hold.

I am deeply impressed by the fact that among the co-authors of the Resolution whose names appear on that call are those of Senators Ritzhaupt and Cowden. They are getting a pretty long political pedigree themselves.

Please accept my sincere and heartfelt thanks in this manner conveyed, until I can see and tell you each personally.

To have served with the members of the Senate is an honor without equal.

Sincerely,

jr:ff

Jim A. Rinehart.

By unanimous consent, upon request of Senator Collins, the following editorials published in the Tulsa World on January 30 and February 2, respectively, were read and are incorporated herewith:

THE SENATE REVOLT

IN TWICE rejecting the appointment of Tulsa editor Jenkin Lloyd Jones to the Highway Commission, the Oklahoma Senate has dealt a serious but not necessarily fatal blow to Gov. Howard Edmondson's call for reform in highway planning and construction.

It is regrettable, to be sure that the affair developed as it did. It is seldom that a new Administration is repudiated on a major appointment.

Yet, search as we most sincerely have for causes and effects, we are forced to the conclusion that the Administration brought this crisis upon itself and must stand on its own performance.

Clearly, the Administration and particularly those within it vested with responsibility for getting things done, were utterly unprepared for a showdown with the Senators. This bespeaks a lack of preparation, and of weakness in political know-how requiring early attention and correction.

As for the Senate, certainly it will suffer in the eyes of many people. Yet, as on all controversial issues, there are two sides. We believe in all fairness the Senate has a side of its own.

* * *

TO BEGIN WITH, the Jones appointment, irrespective of agreement or disagreement with what the Senators have done, was tantamount to waving a red flag. The Senate is a proud body, and a majority of its members are respected and responsible citizens in their home districts. It is politically if not esthetically understandable, therefore, that they should react as they did when presented the name of a would-be official who had over a period of years been their sternest and most persistent critic. Moreover, the fact Jones is a Republican party spokesman bore much weight.

This does not, of course, stand as justification for what the Senate has

done. But it most certainly shows that the Senate felt itself justified in its action.

The reported reference to "secret" meetings leaves us cold. For we can't recall a single instance, on any executive appointment, where consideration was had in open session. Senate rules provide for executive sessions for the specific purpose of discussing just such controversial issues as the Jones appointment created.

* * *

ON THIS POINT, incidentally, we take the opportunity to remind those who profess to abhor secret or executive sessions that the proposed City Charter for Tulsa makes provision for such meetings—and that this provision has been widely endorsed by civic groups, including the Tulsa Chamber of Commerce.

So, the Senate has effectively revolted against a major administration appointment. Where do we go from here, if indeed the Governor accepts Mr. Jones' apparent feeling the matter should be dropped?

First, it should be kept in mind that seven of Gov. Edmondson's appointments have been readily accepted for committee study by the Senators. These men, so far as we can determine, are competent, capable and certainly acceptable as Highway Commission members. One more is needed, and there ought not to be much difficulty in finding him.

The thing to do is find the man, get his confirmation, and then begin the monstrous task of developing a good road program for Oklahoma.

There is no justification whatsoever for interpreting what has occurred as an end to reform in Oklahoma.

Rather, it is a challenge to make the ever greater effort in behalf of reform.

WHAT'S THE LAW ?

THE STEPPED-UP liquor raids in every section of Oklahoma are causing considerable agitation and concern —

among bootleggers as well as private citizens.

Bootleggers, in their risky business, accustom themselves to the fact that every so often they will be arrested and lose a cargo of contraband. Having their automobiles searched—legally or otherwise—is no novelty for them.

But for the average citizen who is not, never has been or ever will be in the illicit whisky business, a police search can be an acutely embarrassing and frustrating experience.

No matter what Governor Edmondson says or how loudly he is echoed by Safety Commissioner Joe Cannon there are certain things officers have no right to do, legally or morally. Both Mr. Edmondson and Mr. Cannon are ex-prosecutors and, as such, should have more than a speaking acquaintance with Oklahoma laws. The same can be said for other enforcement officials, all of whom can and do have the benefit of legal advice.

* * *

IN VIEW OF the continuous so-called rough raids (without search warrants) and stoppage of hundreds of motorists (who are not carrying any liquor) it is time that the law books are dusted off.

The State Criminal Court of Appeals on Sept. 19, 1951, reversed the conviction of one Johnnie Leach. Tried in Rogers County Court, Leach was convicted of the offense of transporting intoxicating liquors (100 cases) and was sentenced to serve 60 days in jail and pay a fine of \$350 and costs.

The appellate court held that pursuit of the driver without a warrant was based ON SUSPICION ONLY and was unlawful and that evidence obtained by means of unlawful search of the truck incident to the driver's unlawful arrest was inadmissible and should have been suppressed . . .

Under Oklahoma law an officer cannot arrest without a warrant for an

offense which is not a felony unless said offense was committed or attempted in his presence, and if the officer does not know of the act constituting an offense it is not committed in his "presence." All unlawful searches and seizures are unreasonable within the meaning of the Constitutional provision forbidding unreasonable searches and seizures.

* * *

WHAT IF AN OFFICER questions you or arrests you for a traffic violation, searches your car and finds liquor? Well, it appears there is a law covering such a situation.

The State Criminal Court of Appeals on Nov. 24, 1954, decided a case from Osage county. These defendants were convicted of transporting intoxicating liquors.

The court held that where officers had no information that the defendants had committed a felony or were about to commit one and the officers arrested a defendant for reckless driving as a SUBTERFUGE, and the officers then searched the automobile and found intoxicating liquors therein, the arrest for the reckless driving DID NOT entitle the officers to search the automobile, even though the defendants were informed they were under arrest, and they admitted having a load of whisky.

In these two landmark decisions the Criminal Court of Appeals not only reversed the convictions but ordered the charges dismissed.

The Governor and his Safety Commissioner have every right to continue with their attempts to dry up the State—but, let's have LEGAL RAIDS.

By unanimous consent, upon request of Senator Cartwright (Bryan), the following editorial published in the Hugo Daily News on January 28, was read and is incorporated herewith:

BRILLIANCE VS. THE OKLAHOMA SENATE

Just over a year ago Choctaw County Chamber of Commerce members thrilled to the oratory and brilliance of a speaker who admonished his audience to "build your city on a hill of truth—and industry, and growth, and prosperity will seek you out."

The speaker was Jenkin Lloyd Jones, editor of the crusading Tulsa Tribune, a man long dedicated to help bring about honesty and efficiency in state government. In his zeal as an editor and as a citizen to place all state activities in a glass house on a hill so Oklahomans can see and appreciate the virtues of honest government, this fearless man has occasionally lashed the state senate for ineptness, for cowardly secret meetings, and for placing progressive legislation on the altar of political greed.

Tuesday afternoon the Oklahoma State senate rebuffed Governor Edmondson's appointment of Mr. Jones to the Oklahoma Highway Commission. Perhaps it should not be considered coincidental that the senate's revenge came in one of its gutless secret sessions—the kind of sessions that tell voters back home "you just ain't got no right to know the truth".

Naturally some senators have cause to fear Mr. Jones for no other reason than he is intelligent and he is honest.

Let us take a closer look at the man who won the hearts of his Hugo audience. He received the highest award that can come to an American newspaperman when the industry elected him president of the American Society of Newspaper Editors. Another signal honor fell his way when he was chosen from among all American journalists to address the annual William Allen White event in Emporia, Kan. A few months back, President Eisenhower appointed Mr. Jones as special assistant to the secretary of the navy.

And yet a man with these abilities

was judged by the senate to be unsuited to serve Oklahoma on the highway commission.

It comes as no surprise that top hatchet man in the anti-Jones foray Tuesday was Senator Ray Fine of Gore. It isn't difficult to imagine he was well supported by Senator Leroy McClendon of McCurtain and Pushmataha counties. It would be disappointing if it developed that the senator from Choctaw and Bryan counties — Senator Keith Cartwright—opposed the Jones nomination.

The Hugo Daily News has always been owned and published by registered Democrats. But we recoil at the action of the senate in declining to name Mr. Jones to a commission already manned by seven Democrats, just because this highly qualified citizen has exercised his constitutional right to embrace the Republican party.

Frankly, this newspaper is not one bit proud of the volume and quality of highways our fellow Democrats have constructed since statehood days. Lets face it. We are a second rate highway state.

We say hurray for men like democratic governor Howard Edmondson and republican editor Jenkin Lloyd Jones for wanting to do something about it. Mr. Jones' nomination not only merits reconsideration, it should be approved by the senate.

By unanimous consent, upon request of Senator Ritzhaupt, the following editorial published in the Henryetta Free Lance on January 28, was read and is incorporated herewith:

PRECEDENT FOR IMPROPRIETY

Oklahoma State Senate Tuesday set a precedent: for Impropriety.

Behind a curtain of rules the 44 members of the senate returned to Governor Edmondson the appointment of Tulsa Editor Jenkin Lloyd Jones without: . . . the common courtesy of an explanation.

. . . and the honorable public expres-

sions of the vote which approved their action.

. . . an open display of diligence about their public trust in allowing so much as a public hearing for their victim of secrecy.

. . . the slightest expression of respect for the office of governor of the gentleman Oklahoman elected to it.

The senate by its action insulted the state's top office, Governor Edmondson, editor Jones.

If they looked at the public record of Mr. Jones they found these things:

He has been accorded the highest honor of his fellow editors and publishers by his election in 1955 to the presidency of the American Society of Newspapers Editors.

He was invited to give the esteemed William Allen White address, one of the most coveted invitations of the Journalism profession.

The president of the United States called him to Washington to assist Secretary of the Navy Robert Anderson in establishing a branch of that all important department of the Government.

And Tuesday—in a session so secret its participants dared not allow their president relate the words and the vote of the action—the senate said he was not acceptable to them.

Perhaps they discovered two more parts of Mr. Jones' record:

He is a Republican.

He is a vigorous editor, unafraid to call the turn as he sees it.

On the face of this action Governor Edmondson—less than two hours after the secret scuffling session—walked before the state newspaper reporters, TV cameramen, and told them he was sticking to his guns.

He said he knew Mr. Jones and that he had looked closely at the record. He told the why of his selection.

And he told the 44 senators that

Wednesday they would find another sheet of paper in their hopper, naming the first district selection for the highway commission.

His name: Jenkin Lloyd Jones.

By unanimous consent, upon request of Senator McClendon, the following editorial published in the *McCurtain Gazette* on January 31, was read and is incorporated herewith:

STATE SENATE is to be commended on its stand against Jenkin Lloyd Jones of Tulsa as a member of the state highway commission.

Jones was appointed by Governor J. Howard Edmondson, but the senate has steadfastly refused to confirm the nomination, which blocks Jones from this important state commission.

It would be disastrous to have men such as Jones named to the highway commission.

Jones apparently lacks the vision necessary to see Oklahoma as a whole, and he has made it one of his hobbies to fight road construction outside of his own little territory.

Jones is the man who did not want blacktop put on US 70 through McCurtain county. He blasted the state administration editorially and accused the state of "wasting money paving a Dogwood trail." One not knowing the county would have thought from his editorial that this was a desolate, uninhabited area that hadn't heard of the motor car.

Jones did not want US 59 constructed and paved across the mountains. (The Tulsa C. of C. seems to be at odds with him on this.)

And Jones was the man who only a few weeks ago blasted the Gary administration for the contract letting on Red river bridge near DeKalb, one of the final links to be closed in the international highway.

While our county was receiving such abuse at the hands of Jones, other

areas of the state were suffering from his blasts also. Governor Gary was almost a constant target, even though the Gary administration did more for Tulsa county highways than any other two administrations since statehood.

Encourage your senator and representatives to hold the line.

President Pro Tempore Garvin presiding.

Senator Miskovsky asked unanimous consent, which was granted, that the following article be incorporated in the *Journal*:

One of the few sources of information on closed executive sessions by legislative bodies is **The People's Right to Know** by Harold L. Cross, 1953.

"State Legislative Proceedings"

The law (relating to open or closed sessions by legislative bodies) as declared is almost wholly constitutional. I find no judicial decision which grants or denies the right of attendance in the absence of a constitutional provision.

The states fall into three general classes:

1) Those whose constitutions are silent regarding the right of attendance at sessions of the legislature.

These states are Arizona, Georgia, Kansas, Kentucky, Louisiana, Maine, Massachusetts, New Jersey, North Carolina, Oklahoma, Rhode Island, South Carolina, Virginia, and West Virginia. In these states, with the exception of Maine, the right of the press to attend and report legislative proceedings is a qualified one resting on grace, custom, public opinion, and common parliamentary practice, though the fact as to admission may be as liberal as elsewhere.

Maine has a statute which provides that "Representatives of the Press who shall be actually engaged in sending daily reports of the doings of the Legislature to daily newspapers shall have the privilege of the floor of the senate and house of representatives. . . ."

2) Those whose constitutions provide that legislative sessions shall be open except as stated. (Usually only one exception is stated. A common exception is sessions of "the senate when in executive session." Thus, Texas provides: "The sessions of each House shall be open, except the Senate when in Executive session." The other common exception is where "public welfare requires secrecy." Thus, New York provides: "The doors of each house shall be kept open, except when the public welfare shall require secrecy. . . ." Tennessee provides: "The doors of each House and of Committees of the Whole shall be kept open, unless when the business shall be such as ought to be kept secret.")

These states are Alabama (which specifically declares the right of the press to admittance to the floor of either house while in session), Arkansas, California, Colorado, Connecticut, Delaware, Florida, Illinois, Indiana, Iowa, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New York, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, Wisconsin, and Wyoming.

In most of these states the decision to close the sessions may be made on a majority vote, but in Ohio a two-thirds vote of those present is required. Many of the states (Tennessee, for example, as quoted above) extend the provisions for open sessions to meetings of committees of the whole.

While legislatures may close their sessions in the exceptional cases provided for and, upon vote to do so, may have a technical right to go into secret executive sessions under general parliamentary rules, it appears that public and press attendance is reasonably well, if not ideally, safeguarded in these states.

3) Those whose constitutions specifically provide for open sessions without

exception. These states are Idaho and New Mexico. Idaho provides: "The business of each house, and for the committee of the whole, shall be transacted openly and not in secret session." New Mexico provides: "All sessions of each house shall be public. . . ." Quite obviously in these states the legal right of access is best protected.

These constitutional provisions of all the states in the second and third classes are substantially without judicial interpretation. In this study no complaint has come to light of barred access at the **state** legislative level, though many published complaints are noted over the general absence of adequate legislative reports of proceedings as the basis for quick, convenient, and accurate news coverage, especially in New York.

COMMUNICATION

The following letter from Julius W. Cox, former member of the State Senate and Oklahoma Highway Commission, was read and ordered incorporated in the Journal:

February 12, 1959

Honorable Harold Garvin, President
Honorable Members of the Senate
State Senate Chambers
Capitol Building
Oklahoma City, Oklahoma
Gentlemen:

On January 20th I addressed a letter of appreciation to you and your honorable body for the passage of Senate Resolution No. 7, commending the Oklahoma Highway Commission and certain members of the Department.

I am now in receipt of Enrolled Senate Resolution Number Nineteen by Senator Field and all members of the Senate expressing your confidence and appreciation to me for my public service.

I do not have words to adequately express to you my feelings of apprecia-

tion for the expressions contained in this Resolution—and let me assure you that at no time during my tenure of office as a member of the Senate, did I ever so much as dream that at some-time in the future a Resolution would be passed by your body honoring me.

As I said in my previous letter any credit which I may have gained in my public service was made possible only by the cooperation which I have had with the members of the Senate and the House. You have been cooperative to work with and if roads that have been built in Oklahoma are political roads, because I worked with members of the House and Senate—to build the roads in your Districts that you and your people wanted built—then let me say that I am proud of the political roads that we have built in Oklahoma.

From the depth of my heart let me thank each one of you personally for the very fine expressions contained in both Senate Resolutions Number Seven and Nineteen, and with kindest personal regards to each of you, I am

Yours very truly,

Julius W. Cox,

Former Member

Oklahoma Highway Commission

COMMUNICATION

Senator Miskovsky asked unanimous consent that the following editorial, broadcast over KWTW on February 17 by Bruce Palmer, be read and incorporated in the Journal, which was the order:

We have seen in the last few days a clear-cut example of the way in which gossip, innuendo, and the implication of chicanery can undermine the morale of

an instrument of government. It is difficult to imagine what could inflame and disturb the members of the Oklahoma legislature more than the careless insinuation of corruption in connection with their consideration of the repeal resolution.

The reference, of course, is to the statement of Dr. Sam Scantlan of the United Drys that there had been talk of a grand jury investigation of rumors of payoffs for repeal votes. The language he used was as general as a shotgun blast, with its non-specific reference to talk and rumors, and like a shotgun shell it spread a wide pattern over the house and senate. Its implied accusation of every legislator, and especially that of state senators who passed the repeal resolution last week, was the ultimate in unfair and reckless propaganda methods.

The merits or demerits of the repeal resolution are of no importance in this instance which impugns the general morality of the 163 men who represent the people of Oklahoma as legislators. No matter what the issue is, it should not provide the blast-off point for a broadside allegation of dishonesty.

Insinuating guilt by quoting gossip and rumor is not an open-handed way to fight for what one believes is right. The negative qualities of gossip and rumor quickly tarnish the individuals at whom they are aimed, and the stain is hard to remove. Some years ago, a late United States Senator levelled a shotgun charge of communist infiltration at the State Department, and the damage has never been undone. Gossip-

mongering is easy. The gossip can attribute what he says to anonymous sources and take cover in the claim that what he said was common knowledge. It's human nature that the individual remembers slurs against another far longer than he remembers good things. The blanket of condemnation that follows a loose insinuation can put a great weight upon the person and the multitude.

Beyond his indictment of the legislature, Doctor Scantlan cast an unwarranted criticism at the capitol news corps, when he questioned why reporters had not brought the alleged repeal corruption into the open. That was a flat smear against the integrity of a group of first-class newsmen and its author gave it no more substantiation than he gave to his inferences against the legislature as a whole. KWTW newsmen who cover the capitol say there were no rumors about payoffs when the senate considered and passed the repeal resolution, and we think they know what they are talking about.

Propaganda, publicity and lobbying on behalf of any cause that is before the legislature are acceptable if kept at a proper level. But when a fight is pulled down to blind muck-raking and intemperate allegations against the morals of all the lawmakers, it's a foul blow. In this case, the innuendo carries a boom-ang potential. The temper of the house now is such that Dr. Scantlan quite possibly rendered the dry cause a considerable disservice.

COMMUNICATION

By unanimous consent, upon request of Senator Payne, the following communication was read and ordered incorporated in the Journal:

Enid, Oklahoma

February 17, 1959

Mr. Max Standfield
Chairman, Legislative Committee
United Dry Association of Oklahoma
201 N. W. 9th

Oklahoma City 5, Oklahoma

Dear Sir:

Yes! One of those "wets" is not only senator in the district where I am an interim pastor of the Christian church. He is also one of the leaders of this congregation. An elected church official as a matter of fact.

There are several things in your letter that need correction:

1. It is questionable whether it should have been sent in the first place. I read the papers and keep in touch with issues and believe myself to be quite

capable of discerning issues and defining terms without a "Paul Revere" alert of this nature.

2. The issue seems to be, not necessarily "wet" or "dry" as you force the dichotomy, but shall the citizens of Oklahoma vote on the question of legalizing the sale of "hard liquor" and when shall the election be held, I cannot accept your logic that an affirmative vote on the resolution "puts prohibition in jeopardy" and therefore is a wet vote. It seems to me that we were quite anxious to submit county option a few years ago. Some believe that in pressing that election the "drys" may have "put prohibition in jeopardy." Our senator may be a "wet" on other counts, but not on the basis of his vote to submit.

3. If the church people are as dry as you seem to think they are, we probably have nothing to fear in our election.

4. You suggest that I "ought to demand that he get right or quit asking the church people for their support." What kind of threat do you think I should make? Excommunication perhaps? Or would you use just plain old political pressure. If the first, where is our Christian freedom? If the latter, where is our political freedom?

5. I especially question your sentences: "don't let him kid you out of it." This seems to assume that he is not only "wet" according to your definition, but also gives to political trickery and double talk. "There is no kind way to say it." What kind of language is this from a Christian source?

6. "If he ran as a dry he has betrayed your people." Is he to be allowed to represent his people according to his own defining powers and judgment or accept yours? If the latter, who is representing "my people?" Our senator or the United Drys?

It seems to me that your whole letter is based on unwarranted assumptions, false dichotomies and question begging. I felt I should let you know my re-

action to it. It might well be that such reasoning and name calling will do more to "put prohibition in jeopardy" than the so-called "wet" votes in the Senate.

Kindly, but I hope honestly yours,

Paul Gary,

An Interim Pastor at Okmulgee
First Christian Church.

COMMUNICATION

Senator Collins asked to have a Communication read, which is herewith incorporated by unanimous consent:

"2 March 1959

Senator Everett Collins
Oklahoma State Senate
State Capitol Bldg.
Oklahoma City 5, Oklahoma
Dear Senator Collins:

The following order has just been issued to all troopers of the Oklahoma Highway Patrol:

'Enclosed is a book to be used for blood samples. This is to be strictly for use in fatalities, driver, passenger, or

pedestrian. It is suggested that all blood samples be taken from the body at the funeral home, and be taken as the instructions on the sheet indicate. There will be no radio communication made on the 10-5 of this to the laboratory. It will be brought in by the unit, by postage. or by the supervisor. This is purely for research only and it is to be kept within the Department. The original (green copy) is to go with the blood. The white is to be sent to the Office of the Chief. The yellow will be kept on file at District Headquarters. The Department has plenty of tubes to put blood in, so replace any you might use from some other source.'

The rank and file of the troopers are extremely troubled by this order, which we feel can do no one any possible good. We are further of the opinion that such an order is in itself strictly illegal, to say nothing of an invasion upon the rights of others.

To my knowledge, there have been a number of letters of protest written to the Department re this order, but apparently to no avail.

I am sure you can well understand the reasons behind my failure to sign my name hereon.

Highway Patrol Trooper."

Senator Collins, after reading Section 1161 of Title 21, COS 1951, urged that the order contained in the above communication be rescinded today and until the Public Safety Committee of the Senate can look into the matter.

Senator Ritzhaupt moved that the proper authorities be requested to re-

scind the order issued to take blood from the bodies of those killed or injured on Oklahoma State Highways, which motion was declared adopted.

A Committee from the Honorable House, headed by Representative Wolf, was announced by Sergeant-at-Arms, Frank Truel, and received by the Senate, who advised that the Honorable House is ready to meet in Joint Session, pursuant to **SCR 2**.

State, are jointly participating in a School of Nematology, the science of nematodes, which cause great damage to crops. Governor Wetherby, in closing, urged the legislature to solve many of its perplexing problems on education through the Board, and to look forward to many great accomplishments.

day to show he voted NAY on SB 20 and the emergency section thereto:

"Mr. President and Gentlemen of the Senate:

I wish to call your attention to an error in the Senate Journal, under date of Monday, March 9, 1959, wherein it records me as voting AYE on the passage of SB 20 and AYE on the emergency clause, when in truth and fact I voted NAY on both the passage of the bill and the emergency.

This is an unfortunate error, since it is well known in this Senate my views on diversion of funds from the Public Welfare Department of this State. I have voted NAY on all such measures in this session as well as prior sessions. My vote has always been known. It was on this Bill No. 20.

Therefore, it is my desire and I ask unanimous consent that the records and the Journal of the Senate be corrected to show my true vote; that I be correctly shown as voting NAY on passage of SB 20 and NAY on the emergency clause of said SB 20.

3. The Committee further finds that no other testimony or evidence of any kind whatsoever offered to show irregularities or wrongdoing in connection with the passage of the above named resolutions or in connection with the passage of any other legislation and

that although the Committee invited all persons who had had any knowledge to testify, no person offered any testimony.

4. The Committee finds that rumored accusations of irregularities and wrongdoings on the part of the Senate or any member thereof are not supported by any proof of any nature whatsoever.

6. The Committee further finds that Dr. Samuel W. Scantlan has made satisfactory explanation and apologies to the Senate.

Scantlan has voluntarily appeared before the Committee and testified under oath giving an explanation before the Committee, said explanation is accepted, and inasmuch as said Dr. Samuel W. Scantlan has apologized to the Senate and its members, it is recommended that no further action be taken and that the matter be closed.

SPECIAL COMMITTEE REPORT

Senator Trent, having been appointed under **SR 31**, to appear before the Banking and Currency Committee of the

United States Senate for planning and studying the problems relating to economically depressed areas in Oklahoma, gave an instructive and comprehensive oral report of his meetings in Washington, and submitted the following written report, herewith incorporated by unanimous consent:

STATEMENT OF PAUL POLIN, TOM KISER, STATE REPRESENTATIVE VIRGIL TINKER AND STATE SENATOR BOB A. TRENT BEFORE SUBCOMMITTEE NUMBER 3, HOUSE BANKING AND CURRENCY COMMITTEE.

Mr. Chairman, and members of the committee: We wish to express our gratitude to you for the opportunity of appearing before you today. We are appearing at this time in support of area redevelopment legislation to express our findings for urgent and immediate need thereof. The surplus of labor with unemployment and underemployment existing not only in Oklahoma but throughout the nation is one which is parasitic and which is eating at the basic foundations of our democracy. Unless remedial action is instituted to alleviate these conditions with proper area redevelopment legislation we must be prepared to face the consequences.

There are two bills under discussion at this time that could if passed offer us a substantial mile-stone in economic area development. They are those sponsored by Mr. Edmondson (H. R. 3622) and that sponsored by Mr. Spence (H. R. 3505). Although identical in many respects, Mr. Edmondson's (H. R. 3622) expands the thinking relative to the rural eligibility in that he proposes:

"The Administrator shall also designate as "rural redevelopment areas" those rural areas within the United States in which he determines that, during the period immediately preceding the date on which an application for assistance is made under this Act, 12 per centum or more of the population

has been receiving public assistance payments from the State in which such area is located."

Unless this is incorporated into area redevelopment legislation that is passed, an injustice will be done to many historically depressed areas of long standing. The relative history for qualifying these rural counties for eligibility under the plan called for in H. R. 3505 is not available for a determining factor and consequently provides ineligibility. These counties which exist not only in Oklahoma but in many other parts of the nation possess a wealth of natural resources that are presently lying shamefully dormant. Oklahoma today has a state average of public assistance of 7.7% of the population. This compares with a national average of 5.5%. If we can reduce the state average to that of the national we can effect a savings of thirty million dollars annually. The counties having the most depressed conditions were not even eligible and required as much as 15 times the amount of revenue taken out of those counties in sales taxes put back in by way of public assistance.

We wish at this time to make reference to Senate Banking and Currency Committee Report No. 110, 86th Congress, relative to the Area Redevelopment Act, accompanying Senate bill 722. This committee adopted a modification of the legislation to adopt the amendment recommended by Representative Edmondson and adopted it into the bill. We feel that the 12% or more feature with regard to public assistance is equal to or more vital to this bill than sections which provide for unemployment for extended periods of time for low income families in rural areas and for loans and grants for facilities. We endorse the provisions in all three of the above mentioned bills which provide (1) industrial areas when there exists substantial and persistent unemployment for an extended period of the: (2) rural development areas where exist a large

number and percentage of low income families and a condition of substantial and persistent unemployment or underemployment; (3) loans and grants for public facilities and (4) the vocational training program. We also would like very much to keep the features of the Edmondson bill which will provide assistance to include the Indian tribes of the nation.

In conclusion, we would like to recommend that the money provisions for this important area redevelopment act be maintained if not increased. This nation has spent untold billions in foreign Point Four programs, and that it is time that we take a serious look at our own economy and allow our citizens in these depressed areas to live and enjoy the American high standard of living. Charity begins at home, and what we are asking for is not charity but merely for the chance to allow our own citizens to lift themselves by their own bootstraps and to be a credit to the competitive economy that we maintain in this great nation.

This statement is made by Paul Polin, Tom Kiser, State Representative Virgil Tinker and State Senator Bob A. Trent all from Oklahoma and all of whom are members of Governor J. Howard Edmondson's Committee on Area Redevelopment.

Senator Cowden raised a question of "No Quorum" and upon roll call being ordered, the Presiding Officer declared a quorum present.

Senator Mahan presiding.

Senator Breeden, who under the provisions of **HCR 515**, was authorized to represent the Senate officially as a guest of the United States Navy in its orientation program for outstanding newsmen to observe its sea, surface and air operations, gave a most informative and interesting oral report of his trip to Hawaii and surrounding islands, and stated his written report will be forthcoming soon.

HIRING THE HANDICAPPED
IN OUR TOWN

The girl was a teen-ager, just another student walking down the school hall. I spoke a hurried greeting, but afterwards I felt a sense of guilt because I didn't stop and walk with her. You see, she was crippled in both legs. As I thought of her struggling to walk straight and trying so very much to be like other students, I asked myself, "What does the future hold for her? What kind of jobs can our town offer her when she graduates from school?"

The handicapped are everywhere. They are in small towns as well as big cities and are all sorts of people—rich, poor, fortunate, or unfortunate. These handicapped people are limited in their abilities, but they have an earnest desire to be accepted socially. They are people who, when they are doing jobs best suited to them, make invaluable workers,

some of our nation's best. Employers everywhere are realizing this, and greater efforts are being made to train them and help them get jobs. There are many obstacles to be overcome, however.

For instance, our town is a small one, and it has no large industries or factories. Many handicapped persons can never hope to find work if they must compete with persons who are not handicapped. Also the chief occupations of this area are farming and timber work which require hard manual labor that the disabled person cannot do. In spite of this, however, several handicapped people are finding their desire for a lucrative job realized.

A victim of infantile paralysis held the office of court clerk for over twenty years, and is now a state employee. Our county tag agent for the past fourteen years is severely crippled in both legs, and our city clerk has only one leg. The chief of police a few years ago had only one leg, and, at the time, a man without any legs and one arm held the office of county tax assessor. Our county court house was brightened a few years ago by the friendliness and cheerfulness of a man confined to a wheel chair by arthritis. He operated a small concession stand and was on hand every day, rain or shine, not only to sell his candy, but to satisfy his longing to be a part of the world of business that's important to every man.

Our local newspaper has a practice of hiring deaf mutes. Recently it employed two deaf men who worked as linotype operators and printers. Deaf people can do this type of work very well.

Other handicapped people of this area who have found employment are mechanics, radio and television repairmen, truck drivers, an auctioneer, a school-teacher, a barber, a social worker, a beautician, and even some farmers. These people are all doing their best

to improve their communities, and they are doing a good job of it.

The Vocational Rehabilitation Program has done a great deal for impaired persons in rehabilitating them and finding them jobs. At the present time, it is helping about a hundred people in our county of which approximately sixty are college students who are attending school through the aid of Vocational Rehabilitation. These students have such defects as paralysis, hearing difficulties, arrested tuberculosis, bronchitis, impaired vision, speech impediments, club feet, and damage from severe burns. They are studying to be teachers, secretaries, hospital workers, engineers, and radio and television workers. When they finish their courses, they will probably have no trouble in securing good jobs.

Our town has done much for the handicapped, but there is so much more to be done. A very small per cent of the handicapped people are actually working. Every year men and women stay idle drawing welfare checks, when with proper rehabilitation they could be meeting their own needs. This saves the government money, too, because it is less expensive to rehabilitate someone than to pay him a welfare check. We are all interested in saving our natural resources, then why not conserve our valuable resources in human lives?

The future looks bright for handicapped people. Even though hiring the handicapped is a new frontier for our town, I believe that as it grows and more industries are established, remarkable opportunities will develop for the disabled.

One way everyone can help the handicapped is by his attitude toward them. They don't want our pity and sympathy, but all they ask is an understanding heart and a chance to prove themselves.

There are some handicapped people who are the happiest people in the

world. I once saw a boy who had stubs for arms playing in a football game. He couldn't run fast or carry the ball, but he could do a good job of kicking for extra points. His handicap couldn't keep him out of athletics because he had an indomitable spirit.

There is a woman that I know who has only one arm, but she can do almost anything a person with two arms can do. I believe she is happier than many other people because she has a spirit that won't quit.

Handicapped people can become quite successful. The lives of outstanding individuals have proved this. Socrates was one of the wisest men in all history, and yet he was ugly and deformed and was laughed at while he was living. Beethoven, while he was deaf, contributed much to the music world, and Charles Steinmetz, the electrical wizard, was never able to stand up straight. Helen Keller, who can neither hear, see, nor speak, has given much to her fellow man. Another outstanding example is Walter Davis, who had infantile paralysis. He was told that he could never run again, but he defied this and became the world's champion high jumper. These are only a few of the multitude of handicapped people who have overcome towering obstacles and climbed to great heights of success.

Yes, the handicapped can be very happy and useful citizens. I believe they have learned something which everyone could profit by in learning. They have learned that to forget oneself and lose his life in living for others is to really find life. May I, along with my town, urge everyone to, "hire the handicapped—it's good business."

Senator Payne asked unanimous consent, which was granted, that the names of the writers of Essays on "HIRING THE HANDICAPPED IN OUR TOWN," who placed as the first best ten in the 1959 Essay Contest, together with the

names of their teachers, be shown in the Journal, they being as follows:

Sergeant-at-Arms of the Senate was recognized and announced the presence of the joint committee accompanied by Governor J. Howard Edmondson, who was escorted to the Speaker's desk.

The President of the Senate introduced His Excellency, Governor Edmondson, who delivered his Second Message to the Twenty-seventh legislature.

Following the Governor's address, President Nigh announced the presence of a very distinguished guest visiting in Oklahoma and asked Representative Ham, upon whose invitation she appeared before the joint session, to introduce her.

Petite and winsome Princess Rudivoravan from Thailand, wife of a Thai financial attache in Washington, delighted her listeners with her complimentary expressions about Oklahoma, and stated that she hoped to become a citizen of the United States within two years. The Princess, who is on a lecture tour, said she wished to say something that would help further our better understanding of the customs and the peoples of the East. She is the granddaughter of the progressive King Mongkut of "Anna and the King of Siam" fame.

Upon motion of Representative Ogden, the Joint Session was dissolved.

The Senate reassembled, in its

Chamber, with President Pro Tempore Garvin presiding, who ordered the Second Message of Governor J. Howard Edmondson, delivered by him in Joint Session today, herewith incorporated:

Mr. Speaker, Mr. President Pro Tempore, Members of the House and Senate.

First of all, let me thank you for extending to me this privilege and this opportunity to discuss with you a plan, a program for Oklahoma's future.

And, secondly, I think that this commendation is certainly due and owing to the members of this legislature. You have just recently as you know, of course, given the people of Oklahoma the opportunity to vote on a question that all of us have always considered the most politically controversial in Oklahoma. I think that credit should be given where credit is due. And, in view of the fact that never before in the history of our great state has any legislature seen fit to give the people that opportunity—I think very definitely the people of Oklahoma should be proud of you for providing that chance. I think that you, in doing this, displayed courage—political and moral, because all that you did, whether it was considered politically wise or otherwise, was extended to the people of our state a democratic right.

They have expressed themselves on that question by a substantial vote margin. You, then, have the responsibility—in fact we both do—of seeing that a good, a strict, a reasonable, enforcement or control bill is written in the law.

You showed courage in that decision and in that action, and I think for that reason, it is altogether proper and fitting that you can talk with me today about a program that will also call for an equal degree of courage.

But, I know of no other legislative group in the history who have shown

themselves inclined or able to do it. We face, as you know, a serious financial decision. State after state across these United States in their legislative assemblies are considering and passing in many instances, substantial tax increases. We have just witnessed in the State of New York probably the biggest tax increase program ever to be written by any one of the sovereign states. We see in the states surrounding us programs for tax increases. We have, therefore, similar problems in Oklahoma, from a financial standpoint, the ever increasing demand for services and the need for services arrived at a point of decision whether we, too, will join the others in that tax increase program or pursue to its end another plan or another program.

I think we have that plan. I think we have a plan that will prevent the necessity of any tax increase during this session. It goes without saying that the future of Oklahoma lies in expansion both of present industry in Oklahoma and attracting and bringing into Oklahoma new industries. In the past, we have labored under the difficult situation of not being competitive with other states insofar as our tax picture or structure is concerned. I don't believe that that is true anymore. I think that our structure taxwise is competitive with those states that are our neighbor. But if we want to resort to a tax increase we then will find ourselves in the position that we have held heretofore in history by not being competitive.

Certainly, all of us recognize that agriculture has been the biggest industry in Oklahoma. But today it isn't. Oil is our biggest industry. And, as I said, our future lies in industrial expansion. When I talk about industrial expansion, and agriculture in the same breath, they do not conflict, but rather work together.

As the trend is and continues for

the farm unit to become smaller, then we must—from the standpoint of industry—provide in the towns and the cities—the jobs for those people, who of necessity have to leave the farm to go to the city or the towns. Therefore, I say that we must do everything in the realm of reason to prevent the change of that complexion from the tax standpoint. In this plan, as I said, there are no new taxes. It covers highways, education, mental health and a control bill for alcoholic beverages. I don't think that I need to add that time is of the essence. I know that many of you have been waiting for me—to be frank—to offer that plan. Or as it has been said on many occasions, sit down on something and say this is it, and try to go with it.

By the same token, I think that all of you will readily admit that you, as well as I, have had an inclination to wait and see what happened on April 7. Because none of us could predict what the financial picture would be without knowing what that decision was. Well, we know it now.

Therefore, we present this plan. In as much as time is of the essence for you in this session, then I will try not to belabor you in talking too much and taking too much time today.

First, in reference to highways:

There has been a lot of confusion—and that is probably the understatement of the day—when it comes to the financial picture of our highway department. I am certain that everyone, both in the Senate and the House and in the administration is sincere in his belief about what was the picture financially in that department.

But regardless of that confusion, there is not any doubt that there is no confusion about what the people of Oklahoma need and want. And that is not a highway program that drifts along trying to do as much as we did last year,

but rather, that is a new program, a stepped-up program of highway construction in Oklahoma. A bigger and a better one. But, I think it goes right along with the fact the people of Oklahoma also want more efficiency in that department. They want the elimination of waste in both the system and the administration of that system, both on the county and the state level.

As you know, there has been some administrative corrective action taken already. We have endeavored and are beginning to endeavor to do it more and more to cut down on some of the waste in the payroll in the Highway Department. That is a necessity, because of the financial picture. It will be necessary to continue it until the financial air is clear. What do we need? \$32,500,000 over and above what is in the budget or earmarked right now. \$32,500,000 to match all Federal funds available for the biennium. That will enable us not only to catch up in the areas of maintenance where we have lagged, but also to keep pace with the Federal program of matching funds.

Therefore, having decided or having offered the figure of \$32,500,000 we come to the much more important question of where does it come from?

It is perfectly elementary for you and for me that there are just two sources of the \$32,500,000.

Number one, a tax increase. You know and I know that to raise \$32,500,000 for the biennium would necessitate, if we did it by a tax increase on gasoline of an increase of 2 cents per gallon. And I say without the slightest reservation or equivocation, that the people of Oklahoma are diametrically opposed to any 2-cent gasoline tax increase. That leaves us the capacity of representing the people and abiding by their needs—and their wishes by one source. That is to more efficiently spend that which we already have.

You know again as well as I do, that the money is divided now approximately as follows:

42% of the road user tax money to the County Commissioners; 52% of it to the State Highway Program; the remainder of it to the cities and towns.

As to the 52%, we are doing, as you also know, what we can by way of administrative action to eliminate waste. I think all of you will agree that we have a Highway Commission, eight of the finest men we could find in the State of Oklahoma or any place else.

I think you recognize that they are business men; they will follow business practices and do everything they can to build the most roads and the best roads with the dollars they have. Therefore, we go to the 42%.

\$29,000,000 a year are going to County Commissioners. The plan that we will propose is not without precedence in history in Oklahoma. In the early years, as some of you recall, we built roads on a township basis. But as construction methods and procedures progressed and the road system and road needs increased, we left that plan, the township plan, and went to a County Commissioner System or Plan.

I would say right now without any hesitation that I certainly do not believe that we are spending too much in the Counties or on County roads. On the contrary, we don't have enough to spend.

But my recommendation, and I submit it to you humbly and respectfully, is that you by legislative action take the \$29,000,000 that is now going to the County Commissioners and return it to the State Highway Department for expenditure on county roads and state highways on this basis:

That all of it be earmarked back to the counties according to the present formula, but that one-third of it be spent on state highways within the

counties; two-thirds on the county roads within the counties.

The result is inescapable. There will be money in the counties for expenditure both on county roads and state highways under this proposal. There will be better roads because of qualified engineering personnel and equipment available for use.

I think it can be justified on that basis alone. More money for those roads. More money for your county. More money for every county in Oklahoma. A continuing program of state highway new construction in every county of Oklahoma year in and year out.

I think that right along with it we should provide for a county supervisor in each county so that people of each county won't have to go to Oklahoma City or any place else to have their needs satisfied and for their delegations to meet with these people.

A county supervisor with engineering and training. A professional engineer available to every county. Can it be justified? Can this session of the legislature justify such so called drastic action? I believe it can.

History has proved that it has been done before, as was done with the township system. Certainly with 231 separate, non-cooperating, independent highway departments in Oklahoma we can with a great deal of reasonableness and wisdom, state that we could spend money more efficiently on this basis.

231 separate, independent, non-cooperating purchasing agents, whether it be for tinhorn road materials or grader blades. With the centralized purchasing that would come as the consequence of such a program, we cannot help but save money.

I need not also cite instances or incidents, either one, of vast inefficiency and corruption within that system. You can read as well as I and you have seen

it as well as I. We know it, yes, the people know it also.

I think evidence of the people's wishes in regard can be found from the fact that there is not a single solitary one of you in this legislature that hasn't in the past or today had delegation after delegation from your county come to you to try to get you to use your influence in getting some county road put on the state system.

We have found in the past that we have already been put on the state system while the money to maintain it continues to go back to the county commissioners according to the old formula of allocation.

I think that the fact that the law, the very law that you yourselves as legislators have written prohibiting more than 10% of the roads in a county being on the state system, would have all of us know that some counties have nearly 30% on the state system as ample evidence of the fact that there are people in the counties who want state supervision, maintenance and management of the roads.

I mention again more money for your county through Federal funds. more coordination through personnel and equipment use.

It would not be fair if I did not add that this is not a condemnation of the individual county commissioners of Oklahoma. It is not. Many of them have done exceedingly well under the system under which they have had to cooperate. I know personally my own father served as a County Commissioner in years past during the depression in Muskogee County.

This is a condemnation if you please, of the system under which they have had to cooperate and its inherent wasteful practices.

Neither would it be fair for me to imply that this is exclusively my plan. Certainly there are members of both

the Senate and the House who have spent time, energy and money traveling to other states and studying such a proposal. I think that they deserve commendation from the people of Oklahoma for those efforts.

This is the composite of their ideas, ideas I have heard from the people, from you and from my office. In conclusion, I can say that this \$32,500,000 for a road program in Oklahoma for the next biennium would mean an overall road program of \$217,000,000. I have discussed the plan with the House members and the members of the Senate.

Some of your people have quite sincerely defended your own individual County Commissioner and I am sincerely certain that you have probably every right in your opinion. Others of your people have defended your own county roads, and again I am certain that you probably knew exactly what you were talking about. Many more of you have discussed the political dangers involved in such a plan, and certainly there are dangers there. None of you have ever defended to me the County Commissioner System itself as a means of spending this \$29,000,000.

On the subject of education, we propose including what is already in a recommended budget an increase over the last biennium of \$27,000,000. The break down is as follows: Common Schools are in the budget for an appropriation of some \$12,000,000 over and above the last biennium, approximately \$10,000,000 of which is for a program similar to what was the appropriation last year.

The \$2,000,000 was put into that particular appropriation. We recommend an operational fund, and I'll confess it is far below what many hoped for, but it is within what we can reasonably anticipate in revenue. \$3.50 based on average daily attendance making a total of

\$3,000,000 for the biennium. An increase in teachers salaries minimum to \$3,400.

I can't help but recall the innumerable times that people who are active and interested in education in Oklahoma, particularly common schools, said to me that the area of most danger and most need is in keeping our new teachers from leaving Oklahoma as they graduate and receive their certificate.

For that reason, and the other financial problems of revenue, we propose recommendation of \$3,400 for a minimum which would bring a cost of \$1,100,000 for the biennium to provide a needed and legitimate increase in the base we propose that it be increased from \$3,000 to \$3,100 for the biennium which would bring a total of \$3,100,000.

This is the total over and above the budget of \$7,300,000 or \$19,300,000 over and above the last biennium for common schools. We confess it isn't as much as we would like but we add that it is an increase of 25% over and above the last biennium.

As for higher education, the budget has in it the recommendation of an increase of \$7,000,000 contrary to our original recommendations which was opposed to any supplemental appropriations, we would like to respectfully recommend that you give to higher education \$2,100,000 in the form of a supplemental appropriation. Because we have been told and advised and find that the money will be available by June first. This is contrary to the budget officer's information in January.

We have two additional recommendations concerning higher education that deal with specifics. Both appropriations would be for programs that are and would be self-supporting and would not need continuing appropriations in the years to come.

In order to enable us to receive from the Kellogg Foundation the sum of \$1,800,000 in a grant, we recommend an

appropriation of \$650,000 for that purpose. In order to receive even more substantial funds from Federal and private grants, for the Medical research Center, we recommend an appropriation of \$400,000 for the biennium making a total increase of \$1,050,000 for those three specifics over and above the recommended budget. This would give to higher education \$8,000,000 plus over and above the last biennium for an increase of some 20% and the total increase for education in general of \$27,000,000.

As for mental health, there is in the budget the recommendation figures that amount to approximately to a 10% increase over and above the last biennium again. In addition to that, we recommend an appropriation of \$2,000,000 for the construction of a much needed new facility for mentally retarded children. The balance, with a few exceptions in the revenue that we can legitimately call anticipated new revenue, we would recommend to go into the Highway Department. And now, to the subject of a control bill.

Again, I don't think that I need to say that time is of the essence. It isn't to me any more than it is to every member of this legislature. We are in a period which we might call approaching a vacuum. We have a law that the people have in effect repealed. County attorneys, sheriffs, police and other law enforcement officers around the state have been called upon to enforce that law during the interim as have the state law enforcement agencies.

I don't need to point out to you the fact that it will be difficult for them to do it during this interim. For that reason I repeat, time is of the essence. The bill that we propose is not my bill. We made a detailed study of Senator Miskovsky's proposals and several other proposals. Committee substitutes for the Miskovsky bill added to it some

suggestions that we thought were good and came up on generalities with this proposal.

First, of all, it vitalizes all of the provisions of the Constitutional amendment. It steps up procedures of the application or acquisition of licenses and the penalties for the violations of provisions of the code: some of them being felonies and others misdemeanors.

It creates a system of inspectors and agents of the Alcoholic Beverage Control Board with powers to search and the fact of consent to search coincident with application for the license.

Some of the other restrictions, but not all of them, call of course for hours opening at 10:00 A. M. to 10:00 P. M. and that licenses should not be transferrable. Cash sales only—and, I think the need for that is somewhat obvious. I don't think that we should indorse in government a system which authorizes and encourages consumption by providing credit or time payments for intoxicating liquor. There is a prohibition for the construction or having liquor or wholesale liquor outlets within 300 feet of any school, church, or hospital. It provides that it would be unlawful, a misdemeanor, for anyone to purchase intoxicating liquor from anyone other than a licensed retailer; the prohibition against deliveries which is necessary in order to make the prohibition of sale to minors workable. The meetings of the Board are specifically provided to be public meetings, as are the records of the Board. There are other prohibitions in it which I won't discuss at this time.

We considered the proposition very seriously of providing a population limit on licenses but decided against it, because if you put such a population limit on your licenses you invite trouble. You place a price tag on your license immediately and we believe that by the licenses recommended in this bill and the other provisions that the laws supply

and demand itself will control the number of licenses.

As to tax and license provision, we recommend a license that runs from \$500 to \$2,500 a year. The more important ones, a wholesale license \$2,000 a year and a retail license at \$750 a year. The lowest one is what is called a Class B permit which applies to strong beer, \$500; distilleries and rectifiers \$2,500.

As to the penal bond provisions, we recommend bonds that range from \$2,500 again for the Class B Wholesaler or strong beer wholesaler to \$25,000 for the distiller or the brewer. The wholesale penal bond would be \$10,000, the retail bond \$5,000. The provision is also made for an excise bond to guarantee the state and protect the state on the selection of the excise tax. We provide that it shall be a flexible thing and give authority to the board to set that excise bond based upon the business of the particular outlets. The more his business is, the higher his bonds would be, and that power would be vested in the board.

I am confident that you will write a good control bill. We make these recommendations to you irrespective of the fact that it is your responsibility actually to write that bill. And they are offered as suggestions in the best of spirits.

Because my responsibility in this connection is such, I promise you without equivocation again, that I will do everything by and with the advice of the members of the Senate to find five outstanding men to serve on the Alcohol Beverage Control Board and the same is true with the Director.

I believe and I think that you believe that we should have a strict control bill and strict enforcement of that bill to write as well as the Constitutional provisions.

As to the excise tax, I recommend for

distilled spirits or whiskey the sum of \$2.50 a gallon.

Frankly, we recommended, or intended to recommend, a higher tax of \$3 a gallon. But we decided on the \$2.50 a gallon excise tax so that we would not be higher than any state around us.

I very sincerely urge in this provision that you study the experience of other states in reference to their collections based upon their population and the gallon consumption.

I think you will find that a substantial tax either this one or possibly higher than our recommendation can be justified by the experience of other states without the encouragement of bootlegging in Oklahoma.

The other excise taxes would be 36 cents a gallon on wines with less than 14 per cent and we put that up there because we didn't want to get it any lower than the 3.2 beer tax. 50 cents a gallon on other wines. 75 cents a gallon on champagne, carbonated wines, etc. \$10 a barrel on strong beer which, of course, is as 3.2 beer is now.

This, gentlemen, is a plan. It is a plan as I say that covers a large area of state government. It is a progressive plan. It is a plan that will help rather than hinder Oklahoma's growth. I am confident that it reflects the desires of the people or I wouldn't recommend it to you.

It is a plan that obviously does not contain in it any new taxes. I have discussed with many of you on different occasions — probably all of you — the problems that this session faces, the problem that I face in my office.

Many observations have been made to the effect that it is incumbent upon me as governor to present a program and, as I said earlier, stick with it and work for it. This we have done and will do. I repeat it is your responsibility in the final analysis.

This plan encompasses a package, ob-

viously for the budget, as we recommended, to be operative.

The recommendations in it calling for the transfer of the functions of the Crippled Children's Commission, the Whitaker Orphans Home, the DB and O Institution at Taft and the Emergency Relief will have to be transferred to the Welfare Department or look at this plan and slice \$4.5 million off it some place—either from some institution, or some highway or some other service.

It also includes in this anticipated new money the withholding tax revenue as passed by the Senate; in order to fulfill the highway program it necessitates the passage of the unclaimed property law as introduced in the Senate. And it would be extremely helpful from the standpoint of many institutions and departments operating without any increases—which is the way they are in some instances—and it would be extremely beneficial to them and help to them if we pass central purchasing, again as introduced in the Senate.

Any deviation will, of necessity, result in corresponding cuts in this program.

It is your decision, this is our program and when I say ours I mean yours and mine—one that we have done our best to work out with your advice, your suggestions and considering the needs and the wishes of our state and its people.

I hope by proper legislative enactment you find it possible to make it your program. With that help I think we can look forward to a future in Oklahoma about which all of us can look back upon with a sense of confidence and a sense of pride.

I would appreciate very much your help. Thank you.

COMMUNICATION

Senator McSpadden asked unanimous consent to have a letter read and to have the following editorial from the Claremore Daily Progress, dated April 22, 1959, read and incorporated in the Journal, which was the order:

MAKING PROGRESS

By Carl Thomas

Claremore got the old one two punch today, right in the neck.

We were sort of lulled to sleep last month by Safety Commissioner Joe Cannon's letter to the junior chamber of commerce March 13 in which he said the district eight Oklahoma highway patrol headquarters would remain in Claremore.

Jack Mayberry, Jaycee president, thanked Cannon kindly for his decision

and wrote a letter stating that "the Claremore Jaycees will take all possible steps, within their means, which can be done to better the accommodations which presently house the patrol headquarters and I am sure the city of Claremore will do likewise." Jaycees went so far as to say they would hold a meeting with Cannon at his convenience to discuss any recommendation for improvements here.

While we were resting on our laurels the governor's henchmen were quietly at work laying the plans for moving the patrol headquarters to Vinita.

Why they waited so long for the announcement we can't say, but the decision may very well have been tied in with the governor's attempts to get his county highway road program through the state Legislature. Governor Edmondson probably made some converts for his program with that Sunday TV appearance, but we can't see how he can gain strength in the Legislature by taking patronage away from members of the state house and senate.

A state capitol reporter revealed that some 30 state employees were laid off today by Gov. Edmondson in reprisals against six lawmakers who have opposed his program. Included in the list were Sen. Clem McSpadden and Rep. Bill Briscoe. Ten highway workers in this area have been released in the past month and Bob Landrum of the local public welfare office got his release notice today.

It looks like old fashioned gutter politics. But, golly, governor, don't do it all in one county.

Senators McSpadden and Cobb asked to be shown excused until such time as they return to the Chamber, which was the order.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. 70 O. S. 1951, § 1709.1 is hereby amended to read as follows:

§ 1709.1. Subject to and in accordance with the terms hereof, the Board of Regents of the Oklahoma College for Women for and in behalf of the Oklahoma College for Women, is hereby authorized from time to time to set aside such portions of its campus or any other land owned or leased by said Board of Regents as may be necessary and suitable for the construction thereon of dormitories, *student housing*, *co-operative group housing*, *adult education facilities*, kitchens, dining halls, cafeterias, auditoriums, student union buildings, public utility plants and systems for the supplying of water, gas, heat or power to the college or such other self liquidating projects and other revenue-producing buildings deemed necessary by said board for the comfort, convenience and welfare of its students, and suitable for the purposes for which said institution was established, including additions to existing buildings used for such purposes; to acquire through construction, purchase, condemnation, or any combination thereof, such dormitories, *student housing*, *co-operative group housing*, *adult education facilities*, kitchens, dining halls, auditoriums, student union buildings, field houses, stadiums, public utility plants and systems and other

revenue-producing buildings and acquire or construct additions, improvements and extensions to existing buildings and structures used for such purposes and to equip, furnish, maintain and operate all such buildings and structures; and to acquire through purchase, condemnation or otherwise any land, rights-of-way, easements, licenses and permits needed for the present or future use of such buildings, structures, plants and systems; (provided, that such boards of regents shall not construct or acquire, for the Oklahoma College for Women such utility plants or systems whose capacity is in excess of the present or reasonably contemplated future needs of such institutions.)

When in the opinion of the board of regents of any such institution any of the buildings, structures, plants and systems constructed, acquired, improved, extended, added to, furnished or equipped as above authorized are deemed necessary by the said board for the comfort, convenience and welfare of the student body as a whole, or for any specified class or part thereof, the board of regents shall have authority to charge and collect from all students in attendance at the college, or from any specified class or part thereof for which such facilities are so deemed necessary, fees and charges for the use or availability of such buildings and structures and for the services or commodities to be made available by such plants, systems or facilities. The proceeds of all such fees and charges shall be considered as revenue within the meaning of §1709.8 of this title and the provisions of said section shall be applicable thereto. Where the commodities and services supplied by any such plant and system temporarily shall be found to be in excess of the requirements of the college, the board of regents may sell the surplus to other public or non-profit consumers, including incorporated municipalities, and in that connection may enter into

such agreements as it may consider advisable. All revenues received from the sale of such surplus shall likewise be considered and treated as other revenues under § 1709.8 of this title. Such board of regents may also enter into agreements for the purchase of water, electricity, gas, heat, or power to be distributed through the medium of any such plant or system, provided only that no agreement entered into under the provisions of this paragraph shall pledge the credit of the State of Oklahoma.

SECTION 2. O. S. 1951, § 1709.2 is hereby amended to read as follows:

§ 1709.2. For the purpose of paying all or part of the cost of acquisition of any such lands, rights-of-way, easements, licenses and permits, and the construction, acquisition, equipment and furnishing of any such building or buildings or structure or structures, plants or systems, or of any additions, improvements, or extensions thereto, or any additions to existing buildings, the board of regents of the Oklahoma College for Women for which such buildings, structures, plants or systems (all of which lands, rights-of-way, easements, licenses, and permits, buildings, structures, plants and systems constructed, acquired, added to, improved or extended hereunder as a single project are hereafter referred to as "the building") are to be constructed, acquired, added to, improved, extended, furnished or equipped (which board of regents or each of them is hereinafter referred to as "the board") is authorized to borrow money on the credit of the income and revenues to be derived from the operation of the building, together with the income and revenue derived from any existing revenue-producing building or facility or facilities and, in anticipation of the collection of such income and revenues, to issue negotiable bonds in such amount as may in the opinion of the board be necessary for such purposes, and is authorized to pro-

vide for the payment of such bonds and the rights of the holders thereof as hereinafter provided. Such bonds may be issued in one or more series, may bear such date or dates, may mature at such time or times not exceeding *forty (40)* years from their date, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be executed in such manner, may be payable in such medium of payment at such place or places, may be subject to such terms of redemption with or without premium, and may bear such rate or rates of interest, not exceeding five per cent per annum, as may be provided by resolution or resolutions to be adopted by the board. Such bonds may be sold in such manner and at such price or prices *at* not less than par plus accrued interest to date of delivery as may be considered by the board to be advisable, but interest cost to maturity for any bonds issued hereunder shall not exceed five per cent per annum, computed on the basis of average maturities according to standard tables of bond values. Bonds *payable to bearer* shall have all the qualities and incidents of negotiable papers.

Notwithstanding any other provision of law, the board may in any resolution authorizing bonds hereunder provide for the initial issuance of one or more bonds (in this section called "bond") aggregating the amount of the entire issue and make such provision for installment payments of the principal amount of any such bond as it may consider desirable and may provide for the making of any such bond, payable to bearer or otherwise, registrable as to principal or as to both principal and interest, and where interest accruing thereon is not represented by interest coupons, for the endorsing of payments of interest on such bonds. The board may further make provision in any such resolution

for the manner and circumstances in and under which any such bond may in the future, at the request of the holder thereof, be converted into bonds of small denominations, which bonds of small denominations may in turn be either coupon bonds or bonds registrable as to principal or principal and interest.

Bonds issued hereunder shall not be subject to taxation by the State of Oklahoma, or by any county, municipality or political subdivision therein. The board may in its discretion authorize one issue of bonds hereunder for the construction, acquisition, adding to, improving, extending, furnishing or equipping of more than one building as "building" is above defined, and may make the bonds payable from the combined revenues of all buildings so constructed, acquired, added to, improved, extended, furnished or equipped, in whole or in part, with the proceeds thereof, together with revenues from the operation of any existing revenue-producing building or facility. The term "building" as herein used shall be construed to refer to all such "buildings." If more than one series of bonds shall be issued hereunder payable from the revenues of the buildings or facilities, priority of lien thereof on such revenues shall depend on the provisions of the proceedings authorizing the issuances of such bonds, it being within the discretion of the board, at the time it authorizes the first such series, to provide that subsequent series of bonds payable from such revenues shall not be issued, that subsequent series of bonds shall be subordinate as to lien, or that subsequent series of bonds shall enjoy parity of lien if such conditions and restrictions as may be specified in such proceedings can be met.

The board may issue bonds hereunder for the purpose of refunding any obligations of the board payable from the revenues of any building, as "building" is hereinabove defined, together with

revenues derived from any existing revenue-producing building or facility or facilities, or may authorize and deliver a single issue of bonds hereunder for the purpose in part of refunding obligations of the board payable from the revenues derived from any building or buildings and in part for the making of additions, improvements and extensions to such building or buildings, or the construction or acquisition of additional buildings, and the furnishing and equipping of such buildings or additions, together with revenues derived from any existing revenue producing building or facility or facilities. Where bonds are issued under this paragraph solely for refunding purposes, such bonds may either be sold as above provided or delivered in exchange for the outstanding obligations. If sold, the proceeds may be either applied to the payment of the obligations refunded or deposited in escrow for the retirement thereof. Nothing herein contained shall be construed to authorize the refunding of any outstanding obligations which are not either maturing, callable for redemption under their terms, or voluntarily surrendered by their holders for cancellation, unless the board covenants that sufficient funds to pay all remaining interest and principal payments of the outstanding obligations when due will be placed in escrow for such purpose in the State Treasury at the time of delivery of and payment for the new bonds issued hereunder. All bonds issued under this paragraph shall in all respects be authorized, issued and secured in the manner provided for other bonds issued under this act, and shall have all the attributes of such bonds. The board may provide that any such refunding bonds shall have the same priority of lien on the revenues pledged for their payment as was enjoyed by the obligations refunded thereby.

SECTION 3. The provisions of this act are severable, and if any clause,

sentence, paragraph, or part of this act, or the application thereof to any person, institution or circumstance shall be held to be invalid, such invalidity shall not affect the remaining provisions of this act or any other application thereof.

SECTION 4. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in full force from and after its passage and approval.

By ZOLA SAMPLE
Okmulgee

This is the first year I will wear a white flower for Mothers Day.

How fond are my recollections. How dear to my heart is the virtuous, little woman who sang like a lark, even in the face of trying obstacles; whose courage and faith in God gave strength and a moral power to both us children and our father to chase away fear in time of danger and discouragement.

I see her yet, in a fresh starched apron over her percale print dress; her hair in ringlets about her damp brow as she rushes out to chime the dinner bell, or hang her bedding to air; her food all planned, steaming hot—bread custard, golden brown on top, the cherry pie bubbling with a flower on top—navy beans and salt pork, steam rising from the pot, ready to be eaten with homemade hot rolls, all greased on top, and yellow cow butter fresh from the crock in the cellar damp with a bead of moisture—how able she was to provide victuals a-plenty in appetizing flavors to feed us all was amazing.

Her foresight and love of raising chicks in order that she might take the

lantern on a dark night to the hennery and pluck a plump, ripe fryer fresh from the roost to dress and have ready for our school lunch.

I see her as she orders seeds and flower bulbs from Henry Field's seed catalog, a family she once worked for that she never failed to mention as she leafed the colored pages with a dreamy look in her eye and a pleasant expression on her face—for mother was a dreamer as well as a provider. She believed in dreams and future things—had a great faith in the hereafter.

She was the instigator of many things that helped to make life much richer and interesting. For instance: she helped to organize a consolidated school district, an aid to higher education; she provided the rain barrel that stood so many years before it went to staves in its customary spot beneath the downspout to supply soft water for dish washing and the family wash; the orchard that was started from seedlings planted from peach seeds she carried in her apron as father plowed a long furrow through the sod; her hair curlers she manipulated made from tin baking powder cans wrapped in Sears' catalog sheets; her knitting needles as they clicked to shape off a heel or a toe in father's sock; the way she manufactured shirts and skirts—homemade soap and kettles of pure lard and hominy gave mother superiority in our family.

My mother was just a homesteader's wife, but she lived a fuller life than many who have riches all their lives. How we loved to be in the kitchen when mother was baking cakes and cookies or frying crullers all twisted, and doughnuts made with a thimble.

After supper we often gathered in the front room for music or reading beside the warm fire on winter evenings. When we were all together, I felt completely secure, a lasting peace, for mother possessed that protecting atmosphere of peace—good will to all.

I see her at our country church on Sunday morning dressed in her simple frock—her blue eyes with the light of Christian love as she led the singing and often played the hymns. Her way of testifying at the old-fashioned prayer meetings held every Wednesday night helped show the Christian way. She was a God-fearing woman who felt the need of spiritual food. She stressed the need of church and Sunday school.

I remember Sunday afternoons. We walked and roamed over the hill looking for star flowers, rare plants; gathered damp, green, lacy, broad-leafed ferns, already rooted in a hunk of deep, green, spongy moss—damp to the hand as she carried it home for she always had some trying to grow in the shade of the house.

The old bugle vine she loved to train that clutched and wound itself so tightly around the hand gate post has long gone wild and trailed its everreaching tendrils far up the branches of the aging fence into the branches of the surrounding unkept trees and bushes. The native cedars she had trimmed in all kinds of shapes have long lost their shape and reverted back to their own style of growth.

Mother could always dramatize and magnify the tiniest nodding blue violet, the croak of a toad, the first mocking bird's song in the spring, the evening call of the whippoorwill, or the change of the wind as it played around the hill. Even the smallest detail is etched upon my memory.

Through her I've learned to face discouragement and reverses, for she always held staunch regardless of drouth, floods, crop failure, sickness and even death. The worthwhile things of life I've found cannot be measured in dollars and cents, but grouped in mounds of faithfulness, security and trust in God in order to gain eternal life.

Thereafter, by request of Senator Ritzhaupt, the Chaplain offered a spe-

cial prayer in honor and in memory of Mothers, "Mother's Day" having been nationally observed on yesterday, May 10.

A RESOLUTION OF APPRECIATION AND COMMENDATION OF GENERAL MAXWELL D. TAYLOR, UPON THE EVENT OF HIS RETIREMENT FROM THE ARMY OF THE UNITED STATES AND THE HIGH POSITION OF CHIEF OF STAFF OF THAT ARMY.

WHEREAS, on June 30, 1959, General Maxwell D. Taylor will retire from the active service of his country in the Army of the United States and become a private citizen in the nation which he has defended with unselfish devotion

and valor during the course of two great wars; and

WHEREAS, General Taylor is the son of an honored and revered Oklahoma family, Mr. and Mrs. John E. M. Taylor, of Oklahoma City; and it is fitting that a grateful people of the state where his parents have long resided should publicly express their appreciation for his outstanding leadership and services during a most critical period of the history of our country; and

WHEREAS, during his term as Chief of Staff of the Army of the United States, General Taylor has planned and supervised the transition of the U. S. Army into a mobile, modern and effective striking force, with rare vision and advanced concepts required for survival and defense of our country upon the nuclear battlefields of the future; and

WHEREAS, despite a period of public apathy during his service as Chief of Staff of the Army, his tireless efforts have stimulated the American people and its leaders toward a recognition of the consequences of a nuclear stalemate, under cover of which, the brutal and determined forces of Communism may, without a clear-cut military challenge that would precipitate the horrors of nuclear war, shift the balance of world power by relatively imperceptible stages, unless their progressive aggression is countered by deterrence of properly balanced forces, available for commitment at decisive places and critical times.

NOW, THEREFORE, BE IT RESOLVED BY THE STATE SENATE OF THE TWENTY-SEVENTH LEGISLATURE OF THE STATE OF OKLAHOMA, THE HONORABLE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That, with great pride, the people of the State of Oklahoma recognize General Maxwell D. Taylor as a man of genius, courage and devotion to his

country; and he is hereby officially commended for valor upon the field of battle in two great wars, for his example, inspiration and leadership imparted to those under his command, and for the vision with which he has projected the limited available resources to most effectively defend our country against the threats of an unknown and an ominous future.

That this Resolution be spread at large upon the official permanent journals of the respective Houses of the Oklahoma Legislature; and that duly authenticated copies hereof be presented to the Honorable Mr. and Mrs. John E. M. Taylor, and General Maxwell D. Taylor, as an expression of the sentiments expressed above by the Legislature of the State of Oklahoma.

WHEREAS, Mr. Phillips, an adopted son of Oklahoma, was a teacher, attorney, legislator and Governor, and moved to Arapaho, Oklahoma, in 1893 from Worth County, Missouri, where he was born on December 9, 1890, the second child of Rufus P. and Bertha Phillips. He graduated from Willow View School in 1904, Arapaho High School in 1908 and attended Southwestern State Teachers College the following summer. Thereafter he taught at Keeler School, near Foss, but an attack of pneumonia forced him to resign in 1909. He then attended Epworth University, 1909-1911, as a divinity student. After Epworth University closed in 1911 he taught at Stafford School in Custer County until

1913 when he entered The University of Oklahoma School of Law. While at The University he became a member of Phi Delta Phi honorary legal fraternity, Order of the Coif and was a guard on the 1915 all-victorious football team. Mr. Phillips was first elected to the House of Representatives from Okfuskee County in 1932. He was re-elected in 1934 and 1936 and became Speaker in 1935. In 1938 he was elected Governor on a platform of economy, curtailment of patronage, sound fiscal policies, conservation of natural resources, better management of State affairs; and

WHEREAS, Leon C. Phillips strongly and successfully advocated the adoption of the "Budget Balancing" amendment to Article X, Section 23 of the Constitution, and the adoption of Article XIII-A to create the Oklahoma State System of Higher Education, thereby placing the financial affairs of the State on a stable level and removing the institutions of higher education from exigent political considerations; and

WHEREAS, Mr. Phillips managed the first portion of Oklahoma's contributions to the prosecution of World War II on a reasonable and orderly basis and with only the assistance of a Defense Committee instead of an elaborate home guard or other organizations; and
