Honorable President, George Nigh, Honorable President Pro Tempore Collins and Honorable members of the Senate of the State of Oklahoma.

Seldom before have I had the great pleasure of addressing such a distinguished group of legislators, and I shall take this next few minutes not only to express to you my most sincere appreciation for allowing me to come before you, but also to tell you of the outstanding group of young men who make up the Oklahoma Junior Chamber of Commerce and of some of their plans.

During my year of office as World President of Junior Chamber International, I had the privilege of visiting several Junior Chambers of Commerce in Oklahoma. I left the State then with the firm conviction that the young men of this state's organization were men of good principles, of true belief in our Creed. Men who had set out not only to work for the improvement or development of their communities, but also who had set out to break down the walls of individualism, or independentism, which seem oftentimes to prevent us Americans from realizing that there are other places besides our own, that there are other peoples, just as good as we, who wish to be wanted and understood.

This, of course, has been known to be the way the Jaycees of this great State have accepted their challenge. Oklahoma was the home of the original headquarters of the International organization. Okla-

homa is today the home of the United States Junior Chamber of Commerce. The Oklahoma Jaycees were among the first to join the International organization and their contribution to the world movement has been outstanding year after year.

Their awareness of the problems which face us today in the world, their awareness of the need of the American citizen to actively participate in the solution of these problems, their awareness of the need for better relations between the peoples of the world, has led them to seek the selection of Oklahoma City as the site for the World Congress of Junior Chamber International in the year 1963. An event which should not only bring to this city around 5,000 people from some 60 countries, but which should also bring good economic results and wonderful publicity to all of Oklahoma.

This event will give the foreign Jaycees a unique opportunity to see America as it really is and I can assure you that after meeting and visiting with you Oklahomans they shall leave this State, as I did some months ago, eagerly waiting for an opportunity to return.

I would not like to bid farewell to you gentlemen without first bringing to you the greetings of our World President, Mr. Peter Frankel of Brazil. Also the opportunity is the best to express to you the appreciation of each and every one of the members of the Oklahoma Junior Chamber of Commerce for your patience and understanding and for the formidable support you have always given to them and their hopes for your support to their bid which is now known as OKC in '63. Thank You.

INTRODUCTION OF GUEST

President Nigh introduced Mr. Anthony G. Meneses, Consul General of India, San Francisco, California, stating that Mr. Meneses was born in Bombay, India, November 12, 1912. After taking his degrees of B.A. (Hons.) and LLB from the Bombay University, he practised as an Advocate of the Bombay High Court from 1937 to 1948. Later, he was appointed as Agent of Federal Court of India in 1946.

He was selected for the Indian Foreign Service in September 1948 and was posted as an Officer on Special Duty in the Ministry of Commerce and Industry, Government of India. He began his diplomatic

career as Trade Commissioner for the Government of India and First Secretary (Commercial) in the Embassy of India, Rio de Janeiro, Brazil, from November 1948 to June 1950. Thereafter, he was posted as First Secretary to the Embassy of India, Rangoon, Burma, October 1950 to March 1951; Under Secretary to the Government of India, Ministry of External Affairs, New Delhi, March 1951 to November 1952; First Secretary to the Embassy of India, Paris, France, December 1952 to March 1955; First Secretary to the Embassy of India, Djakarta, Indonesia, March 1955 to December 1956; Counsellor to the Embassy of India Djakarta, Indonesia, December 1956 to August 1957. On completion of his tenure in Indonesia, he served in the Ministry of External Affairs, New Delhi, in the capacity of Deputy Secretary to the Government of India, from November 1957 to June 1958. Later, he was posted as Consul General of India in Hanoi, North Viet Nam, until June 1960. After the termination of his assignment in Hanoi, he was transferred to San Francisco, California as Consul General of India and assumed his duties here on July 27, 1960.

Mr. Meneses speaks French, Portuguese and Spanish, in addition to English.

He has traveled in Europe, Middle East, South-East Asia and Far East, and Americas.

President Nigh asked that Mr. Meneses be granted privilege of the Floor for the purpose of addressing the Senate, which was the order.

Upon motion of Senator Field, the remarks of Mr. Meneses were ordered in-

corporated in the Journal, and are as follows:

Mr. President, President Pro Tempore Collins and members of the Senate:

I consider it a privilege to be among you all this morning, and am thankful for the opportunity it gives me to acquaint you with my country's progress since it attained political independence on August 15, 1947. These last thirteen years, India's main endeavour and major preoccupation has been the task of developing itself economically. Our Prime Minister, on that historic day of August 15, 1947, pledged himself, his Party, and, indeed, the whole country, to work for that future in which there would be no more room for poverty and hunger. This pledge has not been an easy one to keep. For India, as you all know, is a vast sub-continent with 438 million people. That is, more than the entire population of the whole American continent. For centuries, India has been one of the leading centers of human civilization, the birth-place of many religions, and the shelter of many more. In the matter of material progress India, unfortunately, has been left far behind. The Industrial Revolution that transformed the face of Europe, North America, and Japan during these last two hundred years has largely passed us by. The result has been grinding poverty for our people, and this can be better gauged when you realize that, today, the average Indian has an income of only 70 U.S. dollars per year as against the average American's income of about 2,700 U.S. dollars per year.

2. It is not possible to spur a giant of the size of India to new initiatives and new actions by piece-meal, isolated, or scattered effort. To spur such a vast sub-continent as India into action requires a vast effort which, when translated into the welfare of 438 millions, would represent only a small gain. India's approach to every problem is pragmatical. For, India is not a new country, but an ancient sub-continent where many of the world's currents of culture have originated, flowed

into and inter-mingled. This adds to our difficulties.

3. For the long history of India carries with it a certain ruggedness, a certain store of values and traditions, traditions of faith and peace, of tolerance and give and take, which are the very foundations of democratic order. Besides, the struggle for independence, under our revered leader, Mahatma Gandhi, had re-kindled in us this age-old spirit of our country, and added to it a new dimension of hope, built on our suffering and our good behavior.

4. With long history, there came also the flourishing among us of diverse talents and traditions, like those of devotion to learning in some classes, talent for business among others, and facility for arts and crafts in still more. That is why, even during the British rule, the Indian scene was not one of a total lack of development. We had then a core of Indian industry, of well-organized business, of first-rate administration, and of craftsmanship even in mechanized production, second to none in the world. Our natural resources, while not so abundant, are not inconsiderable. Yet, India is not a typical example of an under-developed country because it is not under-developed in any but an economic sense. In other words, India possesses all the requisites of economic growth except one, namely CAPITAL. India has a stable government, an administrative apparatus second to none in the world, most efficient managerial and technical ability, and sophistication in financial and economic affairs which enables her to make the best use of such resources as she may have or is able to get.

5. Again, it is well known that there was very little Capital in India. This made it impossible for private enterprise to undertake, and execute, major projects. Therefore, only Government could launch and fulfil these enterprises. Hence, it is understandable that there has been some misunderstanding in this country concerning the role of the Public Sector in India, and concerning India's becoming a Socia-

list country. In India, Public and Private Sectors contribute to the economy of the country. And there is plenty of room for both sectors to play their respective roles in building up the prosperity of India.

6. While the savings of the people themselves, and from what the Government deducts by taxation, have, in a way, assisted in meeting the cost of building of schools, hospitals, irrigation works, roads, factories, and similar other means of economic growth, voluntary savings or taxation do not come easily in India, when most people are denied the basic necessities of life. To add to these difficulties of size and poverty, India has chosen to operate within a democratic frame-work; that is to say, to elicit the sacrifices implicit in development by persuasion and not by intimidation, by consent and not by coercion. For example, we choose to collect taxes with the approval of those taxed and not by forced levies of one kind or another.

7. Looking back to the years since Independence, it is correct to say that, while difficulties still remain great, we have added to the measure of hope in our future. During the last ten years when India, through her First and Second Five-Year Plans, made a conscious and planned effort at development, she has achieved noteworthy success in increasing and diversifying production, in the fields of industry, agriculture, housing, power, transport, in increasing education and health facilities, and, perhaps most significant, in making our people conscious of the necessity for development and of the need for their own efforts and sacrifices for the purpose. These, then, are some results. Food production today in India is some 40% more than it was a decade ago. More money was spent on irrigation during the last thirteen years than was done during the entire period of British rule. The Industrial structure has been much expanded. Today, we produce many items, such as bicycles, sewing machines, fertilizers, machine tools, electrical equipment,

radios, railway wagons, caustic soda, canned food, and the like, in substantial quantities. A decade ago we hardly produced any of these items. Power generation capacity has now increased two and a half times its level of ten years ago. In 1950-51 there were some 10,000 students in our Engineering and Technological institutions. In 1960 there were 37,000 students admitted to these Technological institutions, and about 50 million attending educational institutions of all types, including over a million at the Universities. In 1947 there were 59,000 doctors in the entire country. They were concentrated largely in the cities. Today, the number is 84,000 who are gradually spreading about India. The number of hospitals and dispensaries has gone up in 1960 from 8,600 to 12,600. Cloth consumption has increased from 10 yards per head to 15 yards per head per annum. Diseases like malaria and cholera have been virtually eradicated. Schools have increased from 230,000 in 1950 to 400,000 in 1960; total irrigated area increased from 51 million acres in 1950-51 to 70 million acres in 1960-61. Food grain production increased from 50 to 70 million tons a year. 4,000 seed farms are established, and the consumption of nitrogenous fertilizers will increase from 55,000 tons (in terms of nitrogen) in 1950-51 to 360,000 tons in 1960-61; 50,000 miles of new surfaced roads has been built, and the development of the economy over the last decade has enabled India's foreign trade to expand from 2.5 billion U.S. dollars a year to 3.75 billion U.S. dollars in 1960, or by as much as 50% more.

8. A few elements have assisted in cementing our own efforts into well directed progress. And, to recapitulate, one is a degree of planning; that is, of anticipation and co-ordination in our efforts. Another is the pragmatic approach, in which India has neither avoided new experiments nor remained weeded to ideologies of the past in mustering her means. There has been no hesitation to employ the machinery of the State to help promote development, both directly and indirectly, while simul-

taneous encouragement has been given actively to provide initiative to private enterprise wherever possible.

9. The progress, so far significant, is only the beginning of a hard and up-hill climb. Poverty, ignorance, and disease are still the lot of our people. It may take decades of development before we can eliminate these conditions entirely. With total national production increasing at 3.5 per cent per annum, and population growing at 2 per cent per annum, the growth in per capita income is only of the order of 1.5 per cent per annum. At this rate, fifty years is estimated to be the requirement to double our present average standard of living; that is, to raise it to just 140 U.S. dollars per annum. However, the authorities in India endeavour to shorten this period to some 25 years, which would mean a growth rate, in per capita terms, of 3 per cent per annum or of 5 per cent per annum in absolute terms.

10. No country can be independent of foreign aid unless it is able to export enough to pay for the imports it needs. India is making efforts to produce more of the things that she can export, and making them available at competitive prices. In this connection I would like to mention that richer countries must remove barriers to our exports as, unfortunately, there are far too many restrictions and limitations in richer countries in importation of the kinds of articles such as textiles, light engineering goods, etc., which India can supply on a competitive basis.

11. India welcomes private foreign investment as an important means to her development and, even more, as a step for gradual elimination of Government-to-Government aid. The opportunities for investment in India are large, and a foreign enterprise has much to gain from investing in so promising and reliable a country as India. We are fully aware that foreign capital will be attracted to India if foreign businessmen are convinced that their investments in India will be safe and profitable, with every facility for free remit-

tance of capital and profits, and without any discrimination or undue restrictions on day-to-day operations. India has entered into agreements with the USA in respect of the latter's scheme of guarantee against non-convertibility and expropriation. In brief, that India's laws and practices are among the most enlightened in the world, is a judgment that has been endorsed by several trade missions from the United States of America and International Agencies. More significant still is the fact that it has been endorsed by the growing participation of American businessmen in Indian industrial development.

12. The basic objective of India's third Five-Year Plan which began on April 1, 1961, is to achieve a rate of growth of 5 per cent per annum, and, in our conditions, a growth rate of 5 per cent per annum is the minimum warranted to our needs. To attain this object, so essential to the growth of democratic institutions in India, our authorities reckon that, apart from our own strenuous efforts, external assistance is required at the rate of one billion U.S. dollars per annum. We shall also need, in the next few years, some assistance in the form of surplus agricultural commodities. Helped on this scale for a limited period, a stage would be reached where hope in India's economic future under freedom would have triumphed decisively over the uncertainties inherent under India's present formidable difficulties.

13. To many people I have met abroad, a visit to India is still an adventure and not a holiday. For India is deemed a land of mystery, an exotic country, where one may come across the unusual rituals of the Yoga, and of weird snake charmers! There is no doubt that India, presently, is a land of contrasts. Bullock carts and jet aircraft; shallow wells having water wheels driven by oxen; gigantic dams yielding water and power on a vast scale; great industrial complexes and plants; primitive ploughs and atomic reactors, form part of the contemporary scene in India.

14. And India now is the testing ground of democracy in Asia. The strategic position of India both politically and economically is no less important to the world today than Europe was after the Second World War when the United States of America conceived and executed the Marshall Plan for the economic rehabilitation and political stability of Europe. To recapitulate in brief, what I have tried to emphasize and explain to you till now is that India has maintained a stable and secure government since winning her independence in August 1947; that India with democratic institutions is developing economically and endeavouring to leap over two centuries and to produce a successful revolution without coercion or compulsion; that India's is a planned but mixed economy; that our plans are discussed and debated at all levels and before being adopted have to be authorized and sanctioned by India's Parliament.

For the fulfilment of our Five-Year Plans, in order to achieve a speedy industrial and economic development in India, foreign aid is imperative. And for this foreign aid, if the principles are, firstly, that the recipient country be in a position to absorb the aid given and use it for improving and bettering the country's economy, India satisfied this principle adequately. Secondly, if aid is intended to create a self-generating economy in the recipient country, then India is doing this precisely. And thirdly, if aid is given for furtherance of social justice and not defeating it, then India has used the aid so far given wholly for the betterment of our people. Apropos of this, Mr. Ellsworth Bunker, the retiring United States Ambassador in India, declared on March 22 in Bombay, capital of the State of Maharashtra, that the United States and India believed in a pluralistic world where each nation was free to develop its own system suited to its own needs and genius and not governed by rigid ideology. The Ambassador declared further that he was impressed by the vision, wisdom and dedication of Indian lead-

ers and civil servants and the energy and determination of the people to get on with the job of economic development through planned democratic programs.

15. India today is in the position in which the U.S.A. was about 151 years ago. You forged ahead with the help of capital that Europe gave you. You were a debtor, and owed money all round. But, with the enterprise, imagination, and industry of the American people, you have evolved a society today where industry is most highly developed and helping you thereby to become not only the most prosperous but also a creditor country. That is, you are in a position to lend a helping hand to other countries like ours which are struggling to achieve what you have so successfully accomplished. This is another bond between us which makes us look to you to give us a helping hand in our attempt to raise the living standards of our people, and in transforming poverty into prosperity.

16. To conclude, a country like India, whose aims and ideals are the cumulative product of its history and culture, creates a very strong reaction either for or against it. This at times prevents objective understanding of events in India. My plea to you today is that, the more you understand the background of India, according to its history and culture, the clearer will be your appreciation of our objective, which, in this vital developing world, should contribute to the common good of our two nations.

people, and it is both fitting and proper at this time to extend the appreciation and gratitude of this body and express the sense of great loss at the departure of one who has labored conscientiously and diligently, with maturity, honesty and integrity, to fulfill this obligation of the press to the people of this great State so that they, in all their wisdom, might be guided intelligently in their ultimate decisions.

While new laws were enacted and old forms of government were abolished during the period, obsolete provisions have sometimes escaped observation and repeal, resulting in a general body of laws on cemeteries which has become burdensome, obscure, clumsy, and ill-adapted to promote with facility the general purpose underlying such legislation; and

WHEREAS, it is a vital part of the legislative function that the laws of this

state relating to all valid objects of legislation be so structured as to eliminate conflicts and confusion wherever such may arise, to permit ready references to appropriate statutes, and thereby to render such laws more amenable to the accomplishment of their intended objectives.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE SENATE CONCURRING THEREIN:

SECTION 1. The Executive Committee of the State Legislative Council is hereby authorized and directed to create at its first meeting of the 1961-1963 interim a special committee to analyze, study, review, compile and codify the laws of this state pertaining to cemeteries, found generally in Title 8, Oklahoma Statutes 1951 as amended, said committee to consist of four (4) members of the House of Representatives and three (3) members of the Senate.

SECTION 2. The special committee, whose creation is hereby directed, shall submit its report and recommendations to the Executive Committee of the State Legislative Council not later than October 1, 1962. The efforts of said special committee shall be directed toward the achievement of the following objectives:

(a) To gather into one orderly body of law all present statutes relating to cemeteries and to determine those in force.

(b) To eliminate, from the body of statutes nominally in force, those statutes and parts of statutes that actually are nonoperative by reason of obsolescence, unconstitutionality or implied repeal.

(c) To bring together, under a logical classification system, those statutes and parts of statutes that, because of similarity of subject matter, properly belong together and, having done so, to eliminate those statutes found to be duplications or repetitions.

(d) To simplify and clarify the re-

maining statutes by rejecting equivocal and ambiguous wording, unclear phraseology and cumbersome style.

(e) To rectify inconsistencies and gaps and to insert, where deemed advisable, amendments and new provisions of law.

(f) To arrange the proposed code in a logical chapter sequence and according to a constituted plan to be determined by the analytical consideration of the subdivisions of the cemetery law of this state.

(g) To prepare the proposed code in the most convenient and usable form of numbering, cross references, tables and indexes as will best facilitate locating and understanding every phase of the cemetery laws of this state.

SECTION 3. The special committee is hereby authorized to consult with any public or private organizations and groups having specialized knowledge of a type conducive to the accomplishment of its objectives. Any agencies or departments of the state, county or municipal governments having duties and responsibilities relating to the cemetery laws of this state are hereby directed to cooperate with the committee in accomplishing the objectives herein set forth.

WHEREAS, Many State offices, agencies and departments have purchased thermo-fax machines for the purpose of saving time and man hours in the reproduction of copy work and greater office efficiency in general.

NOW, THEREFORE, BE IT RESOLV-

ED BY THE SENATE OF THE TWENTY-EIGHTH SESSION OF THE OKLAHOMA STATE LEGISLATURE:

SECTION 1. That all State offices, agencies and departments are hereby requested to use typewriter ribbons with carbon which can be reproduced on thermo-fax machines.

SECTION 2. That a copy of this Resolution be forwarded to all offices, agencies and departments of the State of Oklahoma.

Senator McSpadden asked unanimous consent, which was granted, to introduce the following Resolution which was read at length, adopted upon his motion and referred for engrossment:

SENATE CONCURRENT RESOLUTION NO. 35—By McSpadden of the Senate and Shipley and Briscoe of the House.

A RESOLUTION MEMORIALIZING THE CORPS OF ENGINEERS, UNITED STATES ARMY, TULSA DISTRICT, TO RESTORE ROADS AND HIGHWAYS IN NOWATA COUNTY, OKLAHOMA, DAMAGED BY RECENT FLOODING, AND TO TAKE PREVENTIVE MEASURES TO FORESTALL FUTURE OCCURRENCES OF SUCH FLOODING AND RESULTANT DAMAGE TO ROADS, HIGHWAYS AND PROPERTY IN THE AREA; REQUESTING SAID CORPS OF ENGINEERS TO REEXAMINE ITS SPECIFICATIONS FOR PLUGGING OF ABANDONED OIL WELLS IN THE OOLAGAH RESERVOIR AREA TO PREVENT POLLUTION OF WATER SUPPLY; AND DIRECTING DISTRIBUTION OF COPIES OF THIS RESOLUTION.

WHEREAS, recent spring rains have resulted in flooding of spectacular yet not unpredictable proportions in the Oolagah Reservoir area of northeastern Oklahoma, causing extensive damage to roads and highways and to private property; and

WHEREAS, the Corps of Engineers estimate as to the ultimate high water level of the Oolagah Reservoir was de-

terminated to be 661 feet above sea level, and on this basis several fills were constructed on State and County roads in the reservoir area, elevating such roads to a height of 664 feet above sea level; and

WHEREAS, all roads west of the Verdigris River and north of U. S. Highway 60 in the Oolagah Reservoir area of Nowata County have been inundated during the current flooding by a minimum of three feet of water, resulting in severe damages to many of such roads, including State Highway 28 and three county roads west of U. S. Highway 60, as well as to private property of farmers and ranchers in the area and situated between elevations of 650 feet to 670 feet above sea level; and

WHEREAS, it appears that insufficient weight has been attributed to the flood history of the Verdigris River and its tributaries in establishing the ultimate water level of the Oolagah Reservoir, leading to severe miscalculations in establishing the proper height of fills constructed at various locations in said reservoir, and especially with regard to the provision for outlets, openings, or courses to permit the unimpeded flow of unusual accumulations of water through such fills; and

WHEREAS, another problem of potentially grave magnitude in the Oolagah Reservoir area has arisen from the plugging of abandoned oil wells by the Corps of Engineers in said reservoir area, the plugs in several of such wells having failed to hold securely, thereby permitting oil to break loose and constitute a threat to the potential of the reservoir as a valuable source of water.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

SECTION 1. That the Corps of Engineers, U. S. Army, Tulsa District, is hereby respectfully requested to initiate and undertake any and all measures nec-

essary for the repair and restoration of state and county roads and highways damaged by flooding in that area of the Oolagah Reservoir lying west of the Verdigris River and north of U. S. Highway 60; and

SECTION 2. That the aforesaid Corps of Engineers is further respectfully requested to initiate any and all measures deemed necessary and proper for the alleviation of future flooding and resultant damages to roads, highways and property in the above area, including such measures as the heightening of the elevation of fills and, particularly, the construction, in the U. S. Highway 60 fill east of the city of Nowata, Oklahoma, and possibly the Winganon fill, of more outlets, openings, or courses to provide for a less inhibited flow of unusual accumulations of water in said Oolagah Reservoir; and

SECTION 3. That the Corps of Engineers, U. S. Army, Tulsa District, is further respectfully requested to reexamine its specifications for the plugging of abandoned oil wells in the area of the Oolagah Reservoir and to take corrective action in the case of wells in which such plugs have failed to hold; and

SECTION 4. That this Resolution be spread at large upon the pages of the permanent Journals of the Senate and House of the Twenty-eighth Oklahoma Legislature and that an authenticated copy of this Resolution be forwarded to Colonel Howard W. Penny, District Engineer, Tulsa District, U. S. Army Corps of Engineers, P. O. Box 61, Tulsa 2, Oklahoma; to each member of the Oklahoma delegation in the National Congress; to the Honorable Harold Stuart, Oklahoma Highway Commission, District No. 8; and to Mr. Dave Johnson of the Nowata Daily "Star."

Our Heavenly Father, we pause in our busy days to remember we are Thine, that it is from Thee we receive and hold places of privilege and responsibility. We thank Thee for these men dedicated to the building of our great State. We thank Thee for all Thy people in places of leadership and responsibility. Keep them ever aware of Thy divine presence, and lead us in the paths of peace. But, our Heavenly Father, we pray not so much for peace in our time, as for peace in our hearts, which only Thou doest impart. We pray not so much for ideal circumstances in which to live, as for lives motivated by those high ideals which change circumstances.

Grant that through the due processes of deliberation we might reach truth and right, and obtain justice. Grant unto these, Thy servants, a deep sense of Thy Holy will and guide us that we shall not be motivated by self-will nor intimidated by external pressure, but that we might serve Thee more fully by serving our fellowmen.

In the name and Spirit of the Master, we ask and pray. Amen.

Advising adoption of and transmitting for consideration Engrossed **HCR 554**.

Senator Land asked unanimous consent, which was granted, that **HCR 554** be taken up for immediate consideration, following which Senator Ham asked to be made co-author, the Resolution being read at

length as follows and adopted upon motion of Senator Land:

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 554—By Atkinson, Henry, Howard, Hopkins, Johnston, Forsythe, McCune, Bradley (Tulsa), Blankenship and Skaggs of the House and Land and Ham of the Senate.

A RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO RETAIN THE TWENTY-SEVEN AND ONEHALF PER CENT DEPLETION PROVISION ON OIL AND GAS PRODUCTION IN INCOME TAX LAWS; DIRECTING DISTRIBUTION OF COPIES.

WHEREAS, the Congress of the United States, in its wisdom, did enact "Percentage Depletion" legislation on oil and gas production some thirty-five years ago in order to enable the great oil industry of this Nation to find more oil; and

WHEREAS, Congress took this action of providing "Percentage Depletion", which today touches over 100 extractive industries, in order to assure said industries of a means by which depleted capital could be regained; and

WHEREAS, "Percentage Depletion" has provided the incentive which has enabled the oil industry to maintain the oil production necessary to support our National economy and meet our military needs, and

WHEREAS, experts agree that the National demand for petroleum production in years to come will continue to grow as demand outstrips reserve with an estimated need in an amount in excess of 14 million barrels per day being consumed in the United States by the year 1967; and

WHEREAS, the forecast need for the year 1967 challenges the oil industry to find 100,000 barrels of oil every fifteen minutes, and in order to keep abreast with demands, the industry must double the present rate of oil discovery by this same future date; and

WHEREAS, "Percentage Depletion" applies only to the field value of the crude oil and raw gas, and only to the extent it can be produced at a profit; and

WHEREAS, over a long period of time without "Percentage Depletion" and the incentive it provides to find new sources of crude a steadily shrinking oil industry, laboring under an inequitable tax burden, would pay fewer dollars per year in Federal taxes, and state and local revenues would be adversely affected immediately; and

WHEREAS, a cut in "Percentage Depletion" would surely diminish petroleum resources, unless the price of every product made from petroleum, as well as the cost of services provided through petroleum, were to be increased substantially to compensate for the cut; and

WHEREAS, "Percentage Depletion" has accomplished exactly what the Congress of the United States intended it to do—it has enabled the oil industry to find oil.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE SENATE CONCURRING THEREIN:

SECTION 1. That the eighty-seventh Congress of the United States be and is hereby memorialized to retain the "Percentage Depletion" allowance at twenty-seven and one-half percent — that percentage which it has wisely and steadfastly maintained for a period of thirty-five years — in order to assure this Nation of an adequate supply of oil reserves.

SECTION 2. That duly authenticated copies of this Resolution be forwarded to the President of the United States, the Honorable John F. Kennedy; to the Speaker of the House of Representatives, the Honorable Sam Rayburn; to the Majority Leader of the United States Senate, the Honorable Mike Mansfield; to the Minority Leader of the United States Senate, the

Honorable Everett Dirksen; to the Minority Leader of the United States House of Representatives, the Honorable Charles Halleck; to the Chairman of the House Ways and Means Committee, Congressman Wilbur Mills; to the Minority Chairman of the House Ways and Means Committee, Congressman Noah Mason; and to every member of the Oklahoma Congressional Delegation.

First on the program was an awe-inspiring Presentation of Flags by the Forty-fifth Infantry Division Color Guard, following which was a Pledge of Allegiance by all Members, employees and visitors.

President Nigh then asked that all present bow their heads in a moment of silent prayer, following which the ensuing prayer was offered by the Chaplain, the Reverend Charles Puckett, and is incorporated herein upon request of Senator Field:

Our Heavenly Father, in these moments of silence our hearts are lifted to Thee in thanksgiving as we remember those who have given freely of themselves;

those who have willingly laid down their lives in time of war; those who have poured out their energies in keeping the peace, and those men who have gone before us in these Chambers, men of dedication and foresight. Inspire us with the memory of all those who have touched and influenced our individual lives. And guide us to follow humbly in Thy way. Bless Thy servant who shall speak to us and give unto us that sensitivity of spirit which shall bind us unerringly to eternal truths. Lead us to live such lives of service that we might be worthy recipients and faithful bearers of those high ideals which are a part of our great heritage. In the name of Him who is the same yesterday, today, and forever, we pray. Amen.

A RESOLUTION WHICH PAYS TRIBUTE AND COMMENDATION TO THE MEMBERS OF THE PREVIOUS LEGISLATURES WHO HAVE FAITHFULLY AND UNTIRINGLY SERVED THE STATE OF OKLAHOMA, THE MEMBERS OF THE 28TH SESSION OF THE OKLAHOMA LEGISLATURE HEREIN EXPRESS THEIR RESPECT AND ADMIRATION.

WHEREAS, Robert Louis Stevenson has said:

"There is only one wish realizable on the earth; only one thing that can be perfectly attained: Death. And from a va-

riety of circumstances we have no one to tell us whether it be worth attaining. Little do ye know your own blessedness; for to travel hopefully is a better thing than to arrive, and the true success is to labor . . . "

WHEREAS, Jesus is recognized as the Spirit, allays strife, changes animosity to friendship that helps and heals the wounds between man and man, state and state, nation and nation, race and race.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH LEGISLATURE OF THE STATE OF OKLAHOMA:

SECTION 1. That the members of the State Senate being duly assembled, recognize that in times past civilization has always desired Leaders who could save it from dissolution; carry heavy burdens, sometimes paid by ingratitude, often misunderstood, and yet worked on to succeed and produce, in their concept, better State Government.

"What is this mystery that men call death?

My friend before me lies; in all save breath

He seems the same as yesterday. His face

So like to life, so calm, bears not a trace

Of that great change which all of us so dread.

I gaze on him and say: He is not dead, But sleeps; and soon he will awake

And smile on me as he did yesterday;

And he will have some gentle word to say,

Some kindly deed to do; for loving thought

Was warp and woof of which his life was wrought.

He is not dead. Such souls forever live

In boundless measure of love they give.

. . . "Mystery," by Jerome B. Bell

SECTION 2. That this resolution be

spread upon the pages of the permanent Journals of the Senate.

SECTION 3. That authenticated copies of this resolution be forwarded to Press as a memorial of the sincere and deep respect and admiration which the members of the Oklahoma State Senate do now and shall continue to hold for their beloved colleagues now departed.

SENATE CONCURRENT RESOLUTION NO. 37 — By Field, Hamilton and Harris.

A RESOLUTION RELATING TO IN-

TERIM STUDY BY THE STATE LEGISLATIVE COUNCIL ON THE SUBJECT OF STATE LANDS HELD FOR SCHOOL PURPOSES; DIRECTING THE EXECUTIVE COMMITTEE OF THE STATE LEGISLATIVE COUNCIL TO CREATE A SPECIAL COMMITTEE DURING THE 1961-1963 LEGISLATIVE INTERIM; SPECIFYING THE NUMBER OF MEMBERS OF SAID COMMITTEE; AND REQUIRING A REPORT AND RECOMMENDATIONS NOT LATER THAN OCTOBER 1, 1962.

WHEREAS, the current session of the Oklahoma Legislature has had as one of its most perplexing issues the providing of revenue adequate to meet the expanding needs of public schools and other essential functions of government; and

WHEREAS, by virtue of Section 9 of the Enabling Act passed by Congress and approved on June 16, 1906, the terms of which were accepted in Section 1, Article XI, of the Oklahoma Constitution, Oklahoma was granted for the continuing benefit of its common schools certain lands and money reimbursements in lieu of lands; and

WHEREAS, both the Enabling Act and the Oklahoma Constitution contemplate that such lands would be sold, rented or leased, with the proceeds therefrom constituting a permanent school fund, the principal to remain inviolate and the income to be dedicated to the maintenance of the common schools of this state; and

WHEREAS, Article VII of the Oklahoma Constitution creates a body known as the Commissioners of the Land Office with responsibility for the "sale, rental, disposal, and managing of the school lands

and other public lands of this State, and the funds and proceeds therefrom, under rules and regulations prescribed by the Legislature"; and

WHEREAS, The Oklahoma Constitution, Section 6, Article XI, concerning the investment of the permanent common school fund and other educational funds, directs that the Legislature shall provide the manner of selecting securities, "the rules, regulations, restrictions, and conditions" upon which such funds shall be loaned or invested, "and do all things necessary for the safety of the funds and permanency of the investment"; and

WHEREAS, closely related to the problem of general school finance is the question as to the most efficacious methods and procedures for realization of the full intent of the terms of the Enabling Act and the Oklahoma Constitution as concerns the aforementioned school lands, namely, whether common schools will be maintained and supported most beneficially through sales of all school lands and investment of the proceeds from such sales or whether present policies of the Commissioners of the Land Office should be continued without change; and

WHEREAS, the resolving of this question is a significant area of concern for the Oklahoma Legislature, and, thus, it is incumbent upon this body to undertake a determination of all relevant data necessary to permit a legislative decision most conducive to the support and improvement of the common schools of this state.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY - EIGHTH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

SECTION 1. The Executive Committee of the State Legislative Council is hereby authorized and directed to create at its first meeting of the 1961-1963 interim a special committee on state school lands, said committee to consist of four (4) mem-

bers of the Senate and five (5) members of the House of Representatives.

SECTION 2. The special committee, whose creation is hereby directed, shall study the practices and procedures in Oklahoma and other states relating to the acquisition, use, management and disposal of public lands held for purposes of benefitting common schools, and shall submit its report and recommendations thereon to the Executive Committee of the State Legislative Council not later than October 1, 1962. Such study shall include, but shall not be limited to, recommendations with respect to the proposed sale of all lands held for common school purposes and the investment of funds realized therefrom.

SECTION 3. For the purposes of conducting the above study, the Executive Committee of the State Legislative Council is authorized, at the request of the special committee, to employ such temporary staff personnel as may be required to accomplish the intent of this directive.

SECTION 4. The Commissioners of the Land Office, officers and employees thereof, and any other agencies, boards, commissions or departments concerned in any way with the acquisition, use, management or disposition of state school lands are hereby directed to cooperate with said special committee in the study herein directed to be made.

SPECIAL COMMITTEE REPORT

Senator Rogers, Chairman of the Special Committee appointed under **SR 9**, submitted the following Report on Higher Education, the recommendations of the Committee being herewith incorporated upon his request:

REPORT ON HIGHER EDUCATION

By

SENATE ECONOMY COMMITTEE

(Established By **SR 9**)

To grant the colleges their request for \$80 million from the General Revenue Fund for the next biennium will require \$30 million of new taxes even if every other function of government were held at the so-called "Budget A."

Three points should be kept in mind while considering this problem:

1. Higher Education received \$54 million during the current biennium, including \$4 million of supplemental appropriation made by this session. Thus the request for \$80 million dollars represents a 48% increase.

2. Other sources than appropriated funds are estimated at \$26.4 million, which is almost exactly the amount received during the current biennium. This estimate should be raised in proportion to estimates of needs, and to reflect the same trend expected in costs, population, etc.

3. Bonds for \$30.5 million have already been authorized for increasing facilities and repairing existing facilities for Higher Education.

CHANGE IN FORMULA UPON WHICH REQUEST IS MADE

The \$80 million requested for colleges is based on a formula developed by the Regents for Higher Education, and the very heart of the formula is the *number of students* in each institution.

The *number of students* determines the number of faculty members authorized, which in turn determines the amount to be requested for salaries. Salaries plus 25% to 33-1/3%, depending on the institution, for direct instructional expense, is known as the Budget Base.

Amounts to be requested for administration, research, library, extension, and maintenance of the physical plants are each determined by requesting fixed and predetermined percentage of the Budget Base.

Thus it can be seen that any increase or decrease in the number of students will increase or decrease the amount requested for every item in the budget.

Because some students enroll in but a few semester hours, while others enroll in eighteen to twenty, for years it has been the practice to divide the total number of semester hours in which all students in each institution enroll by sixteen, and the resulting figure is the mythical

number of full-time equivalent students enrolled.

But, a change has taken place for the next biennium!

Instead of dividing the number of semester hours offered by sixteen as in the past, the Regents have chosen to determine the number of full-time equivalent students for the next biennium by dividing by fifteen. *The result must be obvious!* It enabled the colleges to report an October, 1960 enrollment of 38,741 full-time equivalent students, or an increase of 4,420 over the 36,320 which would have been reported if the hours had been divided by sixteen.

The Regents' formula forecasts a 4% increase in enrollment in 1961-1962 over that of 1960-61, so the 2,420 FTE students gained in 1960-61 by changing the formula increases to 2,515, and the 5% increase in 1962-63 over 1961-52 causes the number of phantom students to grow to 2,640.

These purely mathematical increases in enrollment will justify 93 additional faculty members in 1961-62, and an even 100 in 1962-63.

What does this add to the cost? \$2,556,-831.00.

OUT OF STATE STUDENTS

The question of whether the non-resident tuition fee schedules of our tax supported colleges are unreasonably low, has been brushed aside for many years.

Before raising \$30 million in new taxes for operating expenses, and borrowing \$30.5 million for more college buildings, it seems fitting that the Legislature should determine among other things:

1. Are the tuition fees paid by non-resident students commensurate to the actual cost of operating the institution in which they are enrolled?

2. If they are not, should the taxpayers of Oklahoma be required to pay increased taxes to subsidize the out-of-state students, or should the burden be shifted to the non-resident student?

3. If the burden is shifted to the non-residents, will they pay the increased fees, or will they seek their education elsewhere?

4. If the non-residents choose to seek their education in other states, will it reduce the need for additional buildings and facilities?

The following facts point to the need for action. It is stressed that the facts and figures in this report deal only with students in publicly controlled colleges. Non-residents and Oklahomans in private and parochial schools have no bearing on the problem, and should not be introduced to confuse the issue.

FACT 1. NUMBER OF NON-RESIDENTS IN OKLAHOMA COLLEGES

October 1960: 6,089 according to records in the office of the Regents for Higher Education. (Table No. 1: All tables mentioned herein are contained in the full report filed with the Secretary of the Senate.)

The same table shows this was an increase of 552 over the previous year, and 2,986 over the October 1953, enrollment.

FACT 2. TWO NON-RESIDENTS HERE FOR EVERY OKLAHOMAN IN OTHER STATES

It has been said many times that we have as many of our students in other states' colleges as there are non-residents here, so one offsets the other. *But, this is not true!*

Table No. 2 is a reproduction of page 21 from the report entitled "A Supplement to Home State and Migration of American College Students, Fall 1958." This is the latest national report on the subject, and it shows only 2,460 Oklahomans in other states in the Fall of 1958, while 5,031 non-residents were in Oklahoma.

Table No. 3 shows the states to which the 2,460 Oklahomans migrated, and the states from which the 5,031 non-residents in Oklahoma came. The table was compiled from figures shown on pages 12 and 13 of "Home State and Migration of Amer-

ican College Students, Fall 1958," prepared by the American Association of Collegiate Registrars and Admissions Officers.

FACT 3. THE IMBALANCE BETWEEN NON-RESIDENTS HERE AND OKLAHOMANS IN OTHER STATES IS NOT NEW

Table No. 4 shows that during the school year 1949-50 there were 5,016 non-residents in Oklahoma, while only 2,100 Oklahomans were in other states. The figures were compiled from "Residence and Migration of College Students, 1949-50," a publication of the United States Office of Education.

Thus, as in 1958, there were more than twice as many non-residents in Oklahoma, as there were Oklahomans in other states in 1949-50.

FACT 4. NON-RESIDENT ENROLLMENT GROWING AT A FASTER RATE THAN ENROLLMENT OF OKLAHOMANS IN OUR INSTITUTIONS

Table No. 5 shows that non-resident enrollment stood at 3,103 in October, 1953, and by October, 1960, the figure had nearly doubled to 6,089. The table shows that the growth has been steadily upward and reasonably be expected to spiral in the future as students from states which rely on private and parochial schools for higher education, seek places to study.

While the non-resident enrollment in Oklahoma institutions was increasing 96.2%, the number of Oklahomans increased from 25,052 in October, 1953, to a headcount of 38,387 in October, 1960, an increase of 53.2%. It should be borne in mind that the Oklahoma enrollment figures also include out-of-state servicemen who are enrolled in a course or two at resident centers such as Tinker Field et cetera.

FACT 5. STATE FUNDS ARE ASKED FOR NON-RESIDENTS ON EXACTLY THE SAME BASIS AS OKLAHOMA STUDENTS

No distinction is made between hours taken by non-residents and those taken

by Oklahomans in the Regents' formula for requesting State funds from the Legislature. Every hour, whether it be taken by a resident or non-resident, is used to determine the number of full-time-equivalent students.

It has already been noted that the number of full-time-equivalent students determines the number of faculty members, which in turn determines the amount which will be requested for salaries. Salaries plus 25% to 33½% for direct instructional expense constitutes the budget base.

Eighteen percent of the budget base is added to it for administration and general expense; 8% is added for research at the two universities, and 3% at all other institutions; 15% is added for extension at Oklahoma University, and 10% at the remaining schools; 8% is added for library; and 27% for operation and maintenance of physical plant.

Thus, it can be seen that since the non-residents' hours equally determine the size of the budget base, their enrollment directly increases every item of cost the Legislature is asked to finance.

Despite these facts, some contend that the non-resident students should not be asked to bear their proportionate share of such items as operation and maintenance of physical plant, library, research, administration and general expense. Instead, they contend, the non-residents' tuition should be limited to faculty salaries and expense directly related to instruction.

Such a view would have considerably more merit if non-residents comprised but a small part of the student body, or were not used by the institutions to bolster their requests for State funds for every item of cost in their budgets but such is not the case.

The effect of the non-residents' enrollment on the Regents' request for State funds can be more clearly seen when the actual request is compared with what it would have been without the non-residents' hours included.

Such a re-calculation — and excluding the \$21.4 million request for the School of Medicine, University Hospitals, Geological Survey, School of Veterinary Medicine, Agricultural Experiment Station, Agricultural Extension Division, OSU Okmulgee Branch, and Oklahoma Military Academy — reveals that the formula would have justified a request of \$52.6 million out of the General Revenue Fund for the other eighteen colleges, instead of \$58.6 million, or a reduction of

\$6 Million

on the basis of 15 hours for a full-time-equivalent student.

Using 16 hours as a full-time-equivalent student — the number heretofore used — and only including Oklahomans, the \$58.6 million request would be reduced to \$50.5 million or a reduction of

\$8.1 Million.

FACT 6. HEAVIEST ENROLLMENT OF NON - RESIDENTS IS IN OKLAHOMA'S MOST COSTLY INSTITUTIONS

Table No. 1 shows 4,411 (72.4%) of the 6,089 non-residents enrolled in Oklahoma in October, 1960, were in Oklahoma University, Oklahoma State, and Langston, the most costly institutions in the State.

For the purpose of the following comparisons, costs have been estimated on the basis of averages for a semester hour. Admittedly some will be far more expensive than others, but it is believed they are more meaningful than averages per student.

The schedule of non-resident tuition fees is shown in Table 6 as reproduced from the Tenth Biennial Report of the Oklahoma State Regents for Higher Education. There it will be noted that the schedule bases tuition on semester hours.

The estimates to follow do not include any factors for depreciation on the physical plants in the \$157.8 million system shown in Table 7, which was likewise reproduced from the Tenth Biennial Report of the Oklahoma State Regents for Higher Education.

UNIVERSITY OF OKLAHOMA*

Table No. 13 reveals that the approximate average cost per semester hour is \$29.47 this year. This figure is based on the operations budget submitted to the Legislature.

On the basis of the \$80 million requested by the Regents, the average semester hour cost will increase to an estimated \$33.17 in 1961-62 and to \$33.54 in 1962-63.

These estimates assume the Regents' forecast of a 4% increase in enrollment will occur in 1961-62, and that the 1962-63 enrollment will be 5% greater than that in 1961-62.

If the forecast enrollment increases do not occur — and there are valid reasons to believe they will not, as will be shown later — then the average cost per semester hour will increase even further.

On the basis of a \$70 million appropriation proposed by Senate Bill No. 249 as originally introduced by Bailey of the Senate, the estimated average cost per semester hour will be \$30.55 in 1961-62, and \$29.89 in 1962-63.

Compare then the estimated actual cost with the non-resident tuition fee of only \$15.00 per semester hour shown in the schedule in Table No. 6.

The seriousness of this problem is brought into sharper focus when one notes that non-resident students accounted for 22% of the Fall, 1960, enrollment in the University of Oklahoma.

Table No. 8 reveals that although the October, 1960, enrollment at Oklahoma University was 928 greater than the Fall, 1957, figure, the number of Oklahomans actually declined by 88. In other words, all of the growth has been in out-of-state students.

The effect of the non-resident enrollment can be more vividly seen if the Regents' request for State funds for the

* Does not include School of Medicine, School of Nursing and University Hospital, or Geological Survey.

University is compared with what it would have been had the non-residents not been included. Such a calculation reveals that the non-residents' hours add

\$2,844,475.00

to the request for State funds for the biennium.

Table No. 9 shows that while there was an overall increase in enrollment of slightly more than 4% in all of the State colleges between 1959 and 1960, it should be noted that OU's enrollment increase was but one-half of one-per cent, and as was noted in Table 8, more than half of that slight increase was in non-residents.

Notwithstanding the very slight increase in enrollment, the Regents' formula assumes there will be an increase of 4% next year, and that the following year the enrollment will be 5% greater than 1961-62.

In other words the forecast increase in enrollment is based on the increased enrollments in other, but less expensive schools, who will be penalized because the formula only allows them the 4% increase although the actual increases range as high as 17%.

LANGSTON UNIVERSITY

Table 14 reveals the approximate average cost per semester hour at Langston this year to be \$29.90, based on the operations budget submitted to the Legislature.

This will increase to an estimated \$35.62 in 1962 and to \$34.94 in 1963 if the Regents' Request is approved.

On the basis of a \$70 million appropriation the estimated average cost per semester hour will be \$32.32 in 1962 and \$30.48 in 1963.

Compare then the estimated average cost with the schedule of non-resident tuition fees of only \$11.50 for undergraduates and \$13.00 for fifth year students shown in Table 6.

With 24% of its total enrollment made up of non-residents in the fall of 1960,

Langston was higher than any in the State, except the School of Veterinary Medicine at Oklahoma State.

An examination of the enrollment figures reveals that while the fall 1960 enrollment was 53 greater than the enrollment in October, 1953, it will also be noted that there has been a decrease of 68 Oklahomans during the same period. In other words, while the non-residents enrollment has grown from 34 in 1953 to 155 in 1960, the enrollment of Oklahoma students has dropped from 558 to 490.

OKLAHOMA STATE UNIVERSITY

School of Veterinary Medicine

Table No. 15 reveals that the approximate average cost per pupil per year in the School of Veterinary Medicine at Oklahoma State University is \$3,306.00 this year.

The cost will increase to an estimated average of \$3,785 in 1962 and a like amount in 1963 if the Regents' request for \$80 million is granted.

Under the \$70 million proposal the estimated average cost per pupil will increase from its present \$3,300 to \$3,466 in 1962, and to \$3,345 in 1963.

Again compare the cost figures above, based on the operations budget submitted by the Regents, with the schedule of fees shown in Table 6.

The non-resident fee is only \$800 a year for a course which now averages in cost \$3,300, and will most certainly increase under either of the proposed appropriations.

The trend in enrollment at the School of Veterinary Medicine offers real cause for alarm.

In 1955-56 there were 96 Oklahomans, and 43 non-residents enrolled, for a total of 139. In October, 1960 the enrollment of Oklahomans dropped to 78, but the non-residents increased to 74. In other words, non-residents now make up approximately half the enrollment, and while the non-res-

ident figure is increasing, the number of Oklahomans is declining.

The question then seems to resolve itself into one of whether Oklahoma citizens should undertake the task of maintaining this program at all costs, or will the non-resident tuition fee be revised upward so that the non-resident student is required to pay a more realistic share of the burden.

STILLWATER CAMPUS

Table No. 16 shows that the approximate cost per semester hour at Oklahoma State is \$24.80 this year, and assuming that the Legislature will grant the \$80 million requested out of the General Revenue Fund, the estimated average cost per semester hour will increase to \$31.35 in 1962 and to \$31.75 in 1963.

The Regents' estimate that enrollment will increase 4% in 1962 and that the 1963 figure will be 5% larger than 1962 is probably fairly accurate, but it should be borne in mind that the increase in Oklahomans at OSU was 3.6% in October, 1960 over October, 1959, but the non-residents increased by 17.1% during the same period.

Non-residents on the Stillwater Campus in October 1960 numbered 1,655 or 15.46% of the total enrollment. This was 17.1% greater than October, 1959 when the out-of-state students numbered 1,413.

The effect of the non-resident enrollment can again be seen if the Regents' request is compared with one based only on Oklahoma students. The non-residents add

\$1,892,283.00

to the request for state funds during the biennium for the Stillwater campus of Oklahoma State, which of course excludes the School of Veterinary Medicine, Okmulgee School of Technical Training, Agricultural Experiment Station and Agricultural Extension Division.

OTHER FOUR YEAR COLLEGES

Table No. 17 shows the approximate average cost per semester hour cost at the

other four year colleges, based on their operations budgets submitted to the Legislature for the year 1960-61 to be as follows: Central State \$11.82, East Central State \$16.12, Northeastern State \$11.68, Northwestern State \$19.68, Southeastern State \$19.94, and Southwestern State \$15.10.

The non-resident tuition fee for undergraduates at each of the above is presently \$11.50 per semester hour, and for fifth year students \$13.00.

FACT 7. MANY GRADUATE STUDENTS COME TO OKLAHOMA FROM OUTSIDE THE STATE

The following is quoted from the Seventh Biennial Report of the Oklahoma State Regents for Higher Education:

"Graduate instruction is individual instruction. It must be given in the smallest classes we operate and it usually requires our most expensive equipment and our highest-salaried faculty members. There is no satisfactory method of cost accounting in graduate instruction, but it unquestionably costs more per student than any type of instruction in American education except medical instruction. Graduate students are usually young adults, with the beginnings of their own families to support, and cannot pay high fees. The conclusion is clear — a large proportion of the support for this indispensable area of instruction must come from state support through appropriation."

The fees charged non-resident graduate students at Oklahoma University and Oklahoma State are only \$15.00 per semester hour — the same as those shown in the schedule in Table No. 6 for undergraduates.

Table No. 10 unofficially lists the home state or country of the 410 non-residents who graduated from Oklahoma University in Spring, 1960 graduation exercises. It will be noted that 25% of the class of 1,641 were non-residents, and that 19.8% of the non-residents received the expensive graduate degrees Dr. Pete Kyle McCarter of

the University of Oklahoma referred to in the above quoted from the Regents* Biennial Rept.

Table No. 11 is an unofficial list of the home states and countries of the 341 non-residents who received degrees from Oklahoma State in the Spring 1960 exercises. Thirty-six percent of the non-residents graduated by OSU took either Doctors or Masters Degrees, and as was the case at Oklahoma University, the non-resident tuition fee was only \$15.00 per semester hour.

OTHER TABLES

Tables 13 through 17, inclusive, set out in detail all computations which form basis for above statements. The next and following pages are tables showing number of students and semester hours taken from each state and foreign country enrolled the fall semester of 1960-61 at University of Oklahoma, Oklahoma State, and Langston. Also, graduates at 1961 Spring exercises by state, county, and degree granted at University and Oklahoma State, according to Daily Oklahoman.

RECOMMENDATIONS OF SENATE ECONOMY COMMITTEE FOR HIGHER EDUCATION

1. The Committee recommends and urges support of SB 363 which would require non-resident fees to be raised, not to provide all, but provide a greater portion, of the actual cost of educating out-of-state persons at the expense of Oklahoma Taxpayers. This would, of course, result in greater income from "other sources" and reduce need for appropriated funds.

2. If the Senate should not agree with the above recommendation, the Committee would recommend that the Appropriation Committee revise the formula used by the Regents for Higher Education in arriving at requirements for the next biennium, by eliminating the full-time-equivalent of non-resident students from the formula. This would actually result in greater reduction in appropriation needs

than raising fees, since it would reduce the number of faculty needed, and in turn, all of the various percentage increases applied to the base to arrive at needs for research, library, extension, plant maintenance, administration, etc.

3. The Committee further recommends that the formula be revised in the estimate of income from "other sources" than appropriations, to correspond with actual experience in collections rather than the arbitrary percentage of needs which is used in the present formula.

4. The Committee further recommends that the formula be revised in respect to average faculty salaries proposed from \$7,500 and \$7,700 for the respective years of the biennium, to \$6,900 and \$7,100. This would not mean reducing salaries under the present scale, since the formula for the last biennium only called for \$6,600, whereas actual average full-time salary in 1960-61 at the University of Oklahoma was \$7,426 and at Oklahoma State was \$8,215. This was in spite of an appropriation more than 15% under the request for the current biennium. Average salaries for the other colleges in the system should, of course, be revised in the formula in the same manner. This revision would result in savings in the two large schools alone of more than \$1.6 million, while, at the same time, provide for substantial increases in present salaries.

Respectfully submitted,
ECONOMY COMMITTEE
S/Cleeta John Rogers,
Chairman

STATE CRYING 'UNCLE' IN BATTLE OVER ROADS

By Henry Burchfiel

While the legislature wrestles with the problem of financing a state highway program, a delegation is in Washington seeking to ease Oklahoma off a \$24 million lake area road hook.

The state is committed to spend that sum of its own cash for relocation of roads in the Oologah, Keystone and Eufaula reservoir areas. The final payment is due in 1964.

Frank D. Lyons, state highway director, said if federal officials hold Oklahoma to this commitment, there will be little left over to finance a statewide program for new roads.

Oklahoma is not "defaulting" or "welshing" on the agreement. Instead, said Lyons, the state wants the financial obligation spread over a 12-year period.

This plan, if accepted in Washington, would get the highway department off the hook and out of a financial bind by freeing state and federal funds for a general road program in 1962.

The state group is conferring with officials of the U. S. Corps of Army Engineers and Federal Bureau of Roads concerning the problem.

Heading the delegation are Lyons and Harold Stuart, Tulsa highway commissioner. The legislature is represented by three senators and three representatives.

Lyons said Sooners cannot expect a minimum highway construction program under present fund commitments.

"With all state funds now committed but \$5.6 million, and all federal aid funds committed except \$2.6 million, it is quite clear the state is in an impossible position to schedule a minimum highway construction program to meet statewide needs in 1962," he warned.

Unless the legislature turns up a big hunk of cash — that is something less than likely right now — or the federal

government spreads out state payments on the lake roads, hopes for a statewide highway program next year will be dim.

Lyons said the highway department expects to receive \$39.9 million from state tax sources in the 1962 fiscal year. Of this, \$1 million will be diverted to the turnpike trust fund by legislative action.

Of the remaining \$38.9 million, \$33.3 million is committed. This leaves \$5.6 million unencumbered for a statewide program next year.

Commitments include \$22.4 million for administration and maintenance, \$2.3 million for interstate construction, \$5 million for primary, secondary and urban surfacing projects and \$3.6 million for reservoir relocation projects.

This leaves but \$5.6 million for purchase of right of way, adjustment of utilities, and new construction which may be initiated in the fiscal year 1962.

The federal aid program for Oklahoma is no brighter. Most of these funds are committed, too.

Lyons said Oklahoma can expect to receive \$32 million federal funds in the next fiscal year.

Of the total, \$3.6 million or 11 percent is obligated to reservoir relocations, \$20.8 million for interstate projects, and another \$5 million for grading, drainage and surfacing contracts already committed.

"This will leave but \$2.6 million of federal aid funds for right of way, utility adjustments, and primary, secondary and urban construction over the state next year, under present commitments," Lyons said.

Oklahoma matches federal road funds on a 50-50 basis on all but interstate projects. The federal government pays 90 percent of cost of the cross-country routes.

How did Oklahoma get on the \$24 million lake road hook?

Lyons explained the corps of engineers will only build the relocated routes to the same standards as the existing ones.

For this reason, the state elected to pay for what he called "betterments" required to meet the basis design standards currently used by the highway department and federal road bureau.

This means, engineers pointed out, Oklahoma is building modern roads instead of ones based on construction standards of 20 or 30 years ago when the old highways were built in the reservoir area.

The state will make a final \$1,435,000 payment July 1 on Oologah reservoir roads. At the same time, it will pay \$4,615,000 at Keystone and \$3,019,000 at Eufaula for a total outlay of \$9,069,000.

That will leave \$14,666,000 of the state funds committed to reservoir roads in the next three years. The state wants the payments stretched over a 12-year period.

Lyons conceded the plan is a departure from corps of engineers' requirements of "cash in hand" before awarding federal contracts.

But it would give Oklahoma an additional \$2.4 million of state funds plus an additional \$3.6 million of federal aid funds for statewide construction in the new fiscal year.

This release of federal funds will more than double the amount of federal aid projects that can be initiated over the state," the highway director said.

Lyons said if the plan is accepted, Oklahoma can count on a \$14.2 million statewide program for 1962.

The delegation was prepared to fall back on an alternate plan if the 12-year one is rejected. It calls for payment of the State's obligation on the relocated roads in six years.

Senator Field moved when the Clerk's desk is cleared the Senate adjourn, which motion prevailed.

SENATE CONCURRENT RESOLUTION
NO. 39 — By Graves, Rogers, Ham, Baldwin, Allen, Stipe, Cowden, Wilson (Greer), Berrong, Garrison, Ritzhaupt, Hamilton, Grantham, Colston, Romang, Payne, Collins, Field and Dacus of the Senate and Stevens, Levergood and Henry of the House.

A RESOLUTION COMMENDING DR. JOHN WESLEY RALEY ON THE COMPLETION OF TWENTY - SEVEN EMINENTLY SUCCESSFUL AND REWARDING YEARS AS PRESIDENT OF OKLAHOMA BAPTIST UNIVERSITY; EX-

PRESSING APPRECIATION AND GRATITUDE FOR OUTSTANDING CONTRIBUTIONS TO HIS STATE AND COUNTRY; EXTENDING HEARTFELT WISHES FOR FURTHER SUCCESSES IN HIS POSITION AS CHANCELLOR OF OKLAHOMA BAPTIST UNIVERSITY; AND DIRECTING THE DISTRIBUTION OF COPIES OF THIS RESOLUTION.

WHEREAS, Dr. John Wesley Raley, for an unprecedented term of 27 years the dynamic and inspirational President of Oklahoma Baptist University at Shawnee, on May 31, 1961 handed over to his young and able successor the mantle of leadership of this esteemed liberal arts institution worn with such distinction, dedication and unswerving purpose as to merit permanent possession of the richly deserved title "Mr. O.B.U."; and

WHEREAS, with his characteristic youthful fervor, determination and disregard of the odds, Dr. Raley assumed the awesome but challenging responsibility of leadership at the struggling young Oklahoma Baptist University on June 1, 1934, at the height of the Great Depression and a period of great adversity and stress for even the most sturdy institutions across the length and breadth of the land; and

WHEREAS, proud pioneer parents Leonidas W. and Margaret Frances Raley could little have foreseen, at their Rosebud, Texas, home, on August 15, 1902, that this new-born, red-headed, fiery son of Eire would rise meteorically to become, at the tender age of 31 years, the possessor of three earned degrees — a Bachelor of Arts from Baylor University at Fort Worth in 1923, a Master of Theology from Southwestern Baptist Theological Seminary at Fort Worth in 1924, and a Doctor of Theology from Eastern Baptist Seminary in Philadelphia in 1931 — as well as a teacher, an ordained minister of the Baptist Church, President of the Board of Trustees of Oklahoma Baptist University during 1933-1934, and the youngest university president in the na-

tion, in 1934, with a capacity for further achievement that would capture the imagination of his state and nation; and

WHEREAS, at the normally pliant age of nine years, when one's date with destiny can only with great margin for error be predicted, this already strong-willed individualist, with a prophetic degree of accuracy and a characteristic expression of an enduring faith in the future, was voicing a prayer to his God that He in all His Goodness "make me an uncommon man" so that his life might be one of such accomplishment as to capture and challenge the minds of men; and so it has been, climaxed with the spectacular academic and physical metamorphosis of Oklahoma Baptist University from an impecunious institution with a distressingly inadequate physical plant of four buildings, a campus of 60 sparse and unlandscaped acres, a meager faculty and student body, an indebtedness of some \$240,000, an endowment fund of only \$40,000, slight academic reputation or stature, and looking bleakly toward a depressingly inauspicious and uncertain future, to a respected institution of higher learning bearing the approval and sanction of the North Central Association of Colleges and Secondary Schools, the American Association of Colleges for Teacher Education and the American Association of University Women, a physical plant enlarged by some 35 buildings — twelve of them being major structures, a beautifully landscaped campus of 130 well-planned acres, a total valuation in excess of \$8 million, increased denominational and other private support for building and endowment funds and operating expenses, an endowment fund of more than \$2 million, a burgeoning student body representing many states and foreign lands and numbering in excess of 1,400 eager aspirants for increased knowledge under the guidance of a talented and highly respected faculty of more than 90; and

WHEREAS, few would deny that such prodigious growth and progress has been

in large measure the inevitable consequence of a seldom-equalled tenacity of purpose and unremitting determination of spirit, an inherent faith in the beneficence of an Allwise Creator when in harmony with His Purpose, and a dedication to the attainment of a noble ideal set early in life and reaffirmed, by Dr. Raley, upon the occasion of his first inaugural address as the eighth President of Oklahoma Baptist University with the prayer:

"God, make this my altar

Myself, the sacrifice,

This task to which I put my hand.";

and

WHEREAS, Dr. Raley's many estimable qualities, including the candor, the fiery temper to match the fiery hair, the determination, the wit and ability at repartee, the decisiveness, the sincerity, the humor, coupled with the tangible evidence of the innumerable accomplishments, have carried him to the pinnacle of success among his contemporaries; enabled him to play a powerful and noble role in the lives of untold thousands; endeared him to the hearts and minds of students, faculty, friends and associates; and assured the legions of supporters and followers in this his adopted state and across the nation that further heights are yet to be surmounted in his new role as Chancellor of the University; and

WHEREAS, lest we forget that no man is an island unto himself, the beloved fellow Oklahoman to whom these encomiums are addressed would be the first among us to express a deep sense of gratitude and obligation for the Christian teaching of loving parents instilled within him during the years of childhood and adolescence and for the aid and sustenance rendered in the unparalleled years at Oklahoma Baptist University by his co-religionists who placed in his tireless leadership their faith and trust, by the citizens of his city and community of Shawnee, by a faculty sharing with him the cherished dream of greatness for

their beloved University and, perhaps most importantly, by his devoted wife, Helen Thames Raley, Senior, the woman who has walked by his side along the path to greatness and encompassed with her heart and soul his life's work and objectives; who has been his resourceful companion on the vitally necessary and sometimes fruitless journeys in search of increased support and encouragement for the fledgling University; who has been these many years the charming and gracious hostess in the President's beautiful home on Bison Hill; who has been his confidant and a vital fount of knowledge; who has been the devoted and loving mother of their children, John Wesley, Junior, and Helen Thames, Junior; who has been the source of invaluable spiritual guidance to innumerable students seeking her wise and gracious counsel; and who, with a zest for life and accomplishment matched only by the youthful vitality of her husband, has achieved eminence in her own right as noted author and musician; and

WHEREAS, out of the mainstream of American history and thought has come a conviction and faith in the universal efficacy and inherent value of individual initiative and industry as a stimulus to the continued growth and progress of our material as well as spiritual well-being, it is thus both fitting and proper that this body of elected representatives of the people of this great state officially express its appreciation and gratitude for the outstanding contributions of a fellow citizen, Dr. John Wesley Raley, who has embodied and personified that noble pioneer spirit of indomitable industry, enterprise and sheer strength of character in the nurturing and fulfillment of a life's dream and the lifting from a position of relative obscurity to a rightfully recognized position of stability and strength in the educational world, his beloved Oklahoma Baptist University, and to express its further gratitude that, in continuing as Chancellor of the University, his dis-

tinguished talents will continue as always in the dedicated service of his fellow man.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY - EIGHTH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

SECTION 1. That Dr. John Wesley Raley, who, on May 31, 1961, ended an unprecedented term of 27 eminently successful years as the eighth president of Oklahoma Baptist University at Shawnee, thereupon to assume the newly-created and further challenging position as the University's first Chancellor, be and hereby is congratulated and commended on behalf of his fellow citizens for his many distinguished contributions to his state and nation in the fields of education and religion; and

SECTION 2. That Dr. Raley be and hereby is extended the deep and heartfelt wishes of this body in his new position as Chancellor, and its gratitude in the knowledge that the singularly astounding capabilities and talents of this outstanding Oklahoman will continue in the service of his state and nation; and

SECTION 3. That this Resolution be spread upon the pages of the permanent Journals of the Senate and House of Representatives and that duly authenticated copies thereof be forwarded to Dr. and Mrs. Raley, as a mark of the esteem of this body, to their son, John Wesley Raley, Jr., Midwest City, and to their daughter, Mrs. James C. Nash, Waco, Texas.

SPECIAL COMMITTEE REPORT

Senator Rogers, Chairman of the Special Committee appointed under **SR 9**, sub-

mitted the following Report on Public Health, Mental Health and Public Welfare:

REPORT ON PUBLIC HEALTH,
MENTAL HEALTH AND
PUBLIC WELFARE

By

SENATE ECONOMY COMMITTEE
(Established by SR 9)

Your Committee has surveyed the field of public health, mental health and public welfare in an effort to try to determine those areas wherein there are possible savings which may be effected, or an increase of services may be possible, or the elimination of duplication or transfer of institutions may be accomplished without decreasing the overall effectiveness of the necessary services of government in any or all of the areas of service.

In order to implement the above and serve the best interests of the people of Oklahoma, your Committee makes the following recommendations:

1. Your Committee is of the opinion that the ends above mentioned can be realized by a transfer of the cost of operation of the following institutions from the General Revenue Fund appropriation to the Department of Public Welfare, and the operation expense of each institution will be borne by the Department of Public Welfare, and that such transfer and the resulting savings from the General Revenue Fund appropriation will be as indicated:

	Budget A	Budget B
Girls Town	\$325,240	\$373,800
Training School for White Boys	480,000	565,668
Training School for Negro Boys	319,550	354,074
Whitaker State Home for White Children	752,000	788,800
Consolidated Negro Institutions	604,838	774,838

Your Committee therefore recommends the passage of legislation which will effect the transfers above indicated, which will result in the overall savings to the General Revenue Fund of \$2,481,628 un-

der Budget A, and \$2,857,180 under Budget B.

2. Authorize a longterm lease agreement affecting the Oklahoma General Hospital, Clinton, Oklahoma, whereby the operation of this institution will be transferred from the responsibility of the State of Oklahoma to local responsibility, similar to the lease agreement entered into between the State of Oklahoma and the City of McAlester regarding the McAlester General Hospital. Your Committee has prepared and is introducing legislation to permit this type of lease agreement, and recommends that the General Fund appropriation heretofore made to Oklahoma General Hospital not be made for the succeeding biennium. This will result in the overall savings to the General Revenue Fund of \$460,000 under Budget A, and \$550,000 under Budget B.

3. Consolidate Western Oklahoma Tuberculosis Sanatorium into Eastern Oklahoma Tuberculosis Sanatorium, and increase the appropriations to Eastern Oklahoma Tuberculosis Sanatorium to cover the cost of personal services and anticipated expenses incident to the consolidation, a total of \$716,000 for the biennium. This will result in an overall saving to the General Revenue Fund of \$604,000 for the biennium according to Budget A requests. Legislation effecting this transfer is being prepared by your Committee for introduction, and its passage is recommended.

4. Transfer the facilities of Western Oklahoma Tuberculosis Sanatorium to the Department of Public Welfare to be used by the Department to implement the program of medical care for the senior citizens of Oklahoma. Your Committee recognizes the present needs and anticipated requirements in this area in a proper overall public welfare program for Oklahoma. It is felt that the coordination of a state institution for medical and comicalary care of our senior citizens is of great importance now and its need will continue to be felt in the foreseeable fu-

ture. The operation of this hospital for senior citizens, staffed with competent medical personnel, is to be financed by the Department of Public Welfare, and it is believed that the expense to the Department in the operation thereof will be offset by a corresponding reduction in payments presently made to private medical care and comicillary institutions privately financed, directly or indirectly, by the Department of Public Welfare. Legislation effecting this transfer is being prepared by your Committee, and its passage is recommended.

5. Consider the transferring of the Department of Mental Health to the Department of Public Welfare. Even though the possible economy resulting from this transfer is difficult to calculate, your Committee is of the opinion that the coordination of the Mental Health Department and operation of the institutions under that Department will best be served by the transfer. This is one example of state government wherein careful cost controls are difficult to maintain, and many of the clients served by both Departments overlap in different areas serviced by these Departments. It is felt that a coordination of case work problems experienced by patients and families of patients of mental institutions can better be served by the trained personnel of the Department of Public Welfare. It is believed by your Committee that this transfer will tend to stabilize the program of mental health in Oklahoma and provide better administration of that program. The needs of the Department of Mental Health will be met during this biennium by appropriations from the General Revenue Fund to the Department of Public Welfare. Your Committee recommends the passage of SB 395, which provides that the Chief Administrative Officer of the Department of Mental Health will be one trained in the administration of institutions and not require that such administrator be a medical doctor. The passage

of SB 395 is recommended by this Committee.

Respectfully submitted,
ECONOMY COMMITTEE
s/ Cleeta John Rogers,
Chairman

O Lord our God, we praise Thee and give Thee thanks for Thy most gracious providence, by which we are permitted to be alive and in this hour of opportunity and responsibility. May the glory of Thy being lighten our paths and direct our steps.

Save us from believing one way and doing another. Forgive us for the smallness of our faith in Thee. We have faith in each other, in banks, in trains and airplanes, in engineers and pilots, in atoms and missiles. Forgive us our blindness and stupidity, that while we have faith in people whom we do not know, we are so reluctant to believe Thee, who knowest us better than we know ourselves.

Bless the members of this body, we pray Thee, with eyes to distinguish what is from what seems to be. May they see and ever be conscious, not merely of the wants, but the needs of the people. Grant them Thy wisdom by which they may sift the wheat from the chaff of popular acclaim. Direct them in matters of judgment that according to Thy righteous will they shall give faithful accounting of their stewardship. Do thou so overshadow them with Thy presence in all the affairs of everyday life, that they shall ever be found praising and serving Thee.

Grant to these Thy servants and to all men everywhere a growing awareness and response to Thy Son, Jesus Christ, the hope of the world, whom to know is life eternal. In His Name. AMEN.

Senator Wilson (Beckham) asked unanimous consent, which was granted, that the following News release from the Governor's office and the "facts and figures" from which he had read during discussion of SB 74, be incorporated in the Journal:

NEWS RELEASE FROM GOVERNOR'S OFFICE

Oklahoma will get two new office buildings resulting in large savings to state taxpayers, following action this week un-

der the provisions of a bill sponsored in the last session of the legislature by Senator and Representative (s), of County.

The buildings are being financed with inactive money in the state treasury, saving \$7.5 millions in interest to the state, it was reported after action by the Capitol Improvement Authority, which was created by the bill.

In addition, when the buildings are paid

out in 14 to 17 years, the state will be saving more than \$200,000 a year now being paid by state agencies in outside office space.

The total building cost will be repaid from rent. This rent money comes from state agencies now paying rent elsewhere and from federal agencies who participate with such state agencies as the State Public Welfare Department.

WHEREAS, the municipal governments of Oklahoma are operating in many instances at less than one-half the nation-

al per capita cost with the resulting inability to provide the standards of service their citizens require; and

WHEREAS, the explosive increase of population in our municipalities is presenting problems of such gravity that they have outstripped present laws for their solution; and

WHEREAS, the magnitude and gravity of the situation is such that immediate action to meet this crisis is recognized by the Kennedy Administration and the 87th United States Congress, as may be seen in the proposal to create a Federal cabinet-level Department of Housing and Urban Affairs and in the proposal and treatment of legislation to cope with the crisis faced by municipalities across the nation; and

WHEREAS, there is thus a vital and urgent necessity that each state determine how best to cooperate with Federal agencies in all fields of urban affairs in which they have, or may be given, jurisdiction; and

WHEREAS, the problems of municipal government and finance must be studied from all angles in the light of present and future conditions;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH LEGISLATURE OF THE STATE OF OKLAHOMA AND THE SENATE CONCURRING THEREIN:

SECTION 1. SPECIAL COMMITTEE REPORT

Senator Rogers, as Chairman of the Special Committee appointed under **SR 9**, submitted the following Report on Common Schools:

REPORT ON COMMON SCHOOLS

By
SENATE ECONOMY COMMITTEE
(Established by **SR 9**)

The amount of appropriation necessary for financing Equalization Aid to common schools is dependent on a fixed formula which is found in 70 O. S. Supp. 1959 § 18-4, and consists of two parts. One determines, on the basis of average daily attendance, a Minimum Program; the other, the amount of revenues available to the school district and chargeable against the program, referred to as Minimum Program Income.

Obviously any change in any factor of the formula will raise or lower the amount of money needed. For instance, to lower the pupil-teacher ratio would require more teachers; to raise the basic salary scale, to increase the annual increment for longevity, or extend the number of increments, to increase the per capita

allowance for maintenance, for transportation, for basic aid, or operational aid, would all have the same effect of increasing need of appropriation. The converse is true in regard to each of the factors mentioned.

On the other hand, to increase the amount of income chargeable to the program, for instance the number of mills of ad vaorem levies, the percentage of collections of gross production tax, auto license, basic aid, etc., would have the effect of reducing requirements for State Aid. Again, the converse is true.

Hence the necessary appropriation must be based on how this Legislature, or some previous session of the Legislature, fixes each factor in the formula. Most changes in the formula in the past have tended to increase the Minimum Program and reduce the Minimum Program Income.

The Committee feels that the financial problem facing this session at this time does not permit this liberal policy and, in fact, makes necessary a careful consideration of each factor in the formula, to determine if possible savings can be effected, and to make every saving which will not have any adverse effect on the quality of education received by the school children of the State.

TEACHERS' SALARIES

The recommendations made by your Committee are based upon a calculation involving the increase of teachers' salaries heretofore written into the School Code in 1959. Your Committee has made no recommendation that teachers' salaries be reduced, but that the increases provided by the 1959 Legislature be used as the base for the calculations used in this report.

SMALLER HIGHSCHOOLS

Fortunately, the Committee believes some savings may actually result in improving educational opportunities for our children. It is widely recognized that our brighter children who are unluckily resi-

dents of smaller districts cannot receive, because the small school with few teachers cannot provide or even offer, instruction in the number of basic courses necessary for admission to accredited colleges and universities.

The Committee recommends that no highschool district with fewer than 55 pupils in average daily attendance should be aided, unless isolated more than 15 miles by commonly traveled road from another highschool. This would save an estimated \$1,080,000 during the biennium, while adding to the quality of education. As a matter of fact, this recommendation is a step in the right direction; to raise the limit to 65 pupils would add another \$790,000 to the savings, to 72 pupils, another \$450,000, and so on.

ASSESSED VALUATIONS

Since the amount of aid, as mentioned before, is reduced by increasing Minimum Program Income, and the largest single item of this income consists of local ad valorem taxes, it is easy to see that the lower local property is assessed, the more State Aid will be received. This feature of the formula has unfortunately, from the beginning of its use nearly thirty years ago, resulted in a positive inducement to local taxing and assessing officials to lower assessments on the theory that the loss of revenue would be made up by increased State Aid. This penalizes the counties which attempt to assess at a fair ratio of actual value.

Any correction of this unfair practice which may be accomplished by the State Equalization Board will likely be a slow process, drawn out over a period of years. In the meantime, the Committee recommends the amendment of the School Code to charge the ad valorem tax on real estate in the Minimum Program Income on an equalized basis corresponding to the ratio of 22.07%, which was the ratio determined by a recent Tax Commission study to be the state average. This would save at least \$1,750,000 for the biennium.

An amendment has already been prepared to effect this change.

AD VALOREM LEVIES

Closely related to the above recommendation is a change in the reserve for delinquent ad valorem taxes which is now fixed at 10%. This reserve was necessary during the depression years of the thirties, but since that time levies have been collected either in the first year after the levy is made, or the next subsequent year, in full or even in excess of the levy.

The Committee recommends that the delinquency reserve be changed to 5%, and the same be made chargeable as Minimum Program Income. This would save \$2,315,000 for the biennium.

PAY FOR EXTRA TIME

The present Minimum Program provides for two months extra pay for superintendents and vocational teachers. While it depends on the local district to what extent these professional services are actually rendered and utilized, the Committee feels that the district should provide these extra months pay from their own enrichment funds, and recommends that such increments be eliminated from the Minimum Program. This amounts to \$1,530,000 for the biennium.

OPERATIONAL AID

In addition to Equalization Aid, and whether or not the district receives Equalization Aid, every school district which levies 20 mills or more, receives \$4.50 per pupil for Operational Aid. Unlike Basic Aid, which provides \$12.50 per pupil, Operational Aid is not chargeable as Minimum Program Income. Under the present Code, this will increase from \$4.50 to \$6.00 in the first year, and to \$8.00 in the second year of the biennium.

The Committee recommends that this aid be frozen at \$4.50 per pupil for the next biennium, which would save \$2,275,000.

(If it were made chargeable, a further

savings would result of approximately \$3,600,000 for the biennium.)

SPECIAL EDUCATION

Title 70, Chapter 1A, Article 13, Section 8A, O. S. 1959 Supp., provides for special education for exceptional children to be paid from State Aid funds. S. B. 40, Sec. 1, 1959 S. L., restricted the amount to be used annually during the current biennium to \$500,000. It is estimated that this expenditure will increase during the current biennium to \$1,000,000 in the first year, and to \$1,400,000 in the second year.

The Committee recommends that the restriction of S. B. 40, Sec. 1, 1959 L. S., be renewed for the current biennium, thereby saving \$1,400,000.

SENATE BILL 217

Senator Ritzhaupt has introduced a bill which would define school districts which maintain an accredited highschool to be the same as present transportation areas of such districts, and eliminate all other districts. This would result in equalizing the cost of furnishing highschool education throughout the areas now using such highschools by equalizing taxes throughout the districts. It would not eliminate the schools so long as the attendance of the former district qualified it to receive State Aid.

The Committee urges support of this bill, believing it will result in material savings and at the same time increase the quality of education by increasing the enrichment funds, through making levies uniform in a transportation area. The additional expense would be placed on the local property of the area involved, with \$2,500,000 savings at state level for the ensuing biennium.

SENATE BILL 325

Senators Baldwin and Harris have introduced a bill which, at least in the beginning, would probably save little if any money. However, the Committee believes that over a period of time, enforcing a raise in academic standards of instruc-

tion would result in further reorganization to satisfy the requirements of the bill. In short, the bill requires that a minimum of 26 courses comprising the basic and fundamental subjects be offered, at least in alternate years, by every highschool in the State. The Committee urges favorable consideration and action on SB 325.

FEDERAL AID TO EDUCATION

Without passing upon the basic question of whether or not there should be "Federal Aid to Education," your Committee believes that the Senate should be aware of the probable effect of S. 1021, which passed the U. S. Senate on May 25, 1961, upon school finances in Oklahoma. It is believed that the bill will be passed by the House of Representatives with little amendment. Under its present provisions, the allotment for Oklahoma for fiscal 1962 will be \$12,578,909, which is based on \$22.46 for each child of school age (5-17 years). The bill proposes to authorize the same amount of money for each of three years, so it is presumed that Oklahoma's share would vary but little for the second and third years.

This money will be made available with few restrictions on its use and subject to determination of the State Board of Education. It may all be used for the payment of school teachers' salaries or all for construction. Not to exceed 10%, or \$1,257,000, may be used for special education. Referring to one of the Committee's recommendations proposing a limitation of \$500,000 for special education in the State Aid Bill, it will be seen that if the State Board of Education saw fit, this expenditure could be increased to approximately \$3.5 million for the biennium.

It is especially important to note that among the provisions of the Federal Aid Bill, a base for state effort will be established by using the average of the fiscal years 1960, 1961, and the ensuing fiscal year 1962, and that from that base,

Oklahoma will be required to increase its annual outlay for education in an amount, the ratio of which to the base, shall not be less than the annual increase in the national effort, or the state allocation will be reduced according to a formula. Because of this provision, it will be obvious how necessary it is that school appropriations for this base year should not be so high as to place an undue and unexpected burden on the state finances during the following two years, and almost certainly for many years to come.

CONCLUSIONS

The savings to be effected by enacting the above recommendations into law, without reducing the teacher salary increases provided by the 1959 Legislature, but as a matter of fact, providing for those salary increases, will be in the amount of \$12,850,000. The common school appropriation bill previously passed in the amount of over \$104,000,000, would thereby be reduced to \$92,000,000. Taking into consideration the passage of the Federal Aid bill, which appears imminent at this time, there would be an addition of approximately \$25,000,000 to the amount appropriated by the State, allowing for a common school education program of \$117,000,000 for the next biennium.

OTHER SUGGESTIONS

While the above recommendations are the only ones incorporated in the report, other suggestions have been made to the Committee which might be of interest to members of the Senate, so are tabulated on the following page, showing estimated savings for each year and total for the biennium. The table also includes most of the recommendations already made.

Other suggestions not involving State Aid pertain to limiting or repealing the free textbook program, and for limiting amount of revenue from gross production tax on gas to be diverted to Teacher Retirement System to \$2,500,000 per annum as was estimated at time of pas-

sage of HB 546, S. L. 1957. The tax will produce approximately \$3,600,000 this year.

Respectfully submitted,
SENATE ECONOMY COMMITTEE

Cleeta John Rogers, Chairman
Don Baldwin
Buck Cartwright
Denzil Garrison
Louis Ritzhaupt

SPECIAL COMMITTEE REPORT

Senator Fine, Chairman of the Committee on Research and Investigation, appointed under Senate Rule 24a, asked unanimous consent, which was granted to submit and have read in detail the following Report:

REPORT OF COMMITTEE ON RESEARCH AND INVESTIGATION ON ENID STATE SCHOOL

MR. PRESIDENT:

The Senate Committee on Research and Investigation, having been requested to investigate the news stories regarding the operation of the Enid State School, wish to make the following report of their findings based upon testimony presented to them.

First, we interviewed the two reporters for the Daily Oklahoman who made in-

vestigations at the school, on the basis of which they wrote their newspaper articles. These reporters were BILL HARMON and MARK SARCHET. We questioned both of these gentlemen at length, and while they said they were told by some that the morale among the employees was low, they could not say that this was a general condition. Much of their information was gained through discharged employees. Mr. Harmon said they received no statements of physical abuse to the patients, but there were references to the long hours some of the patients worked. There were references to an incident involving the beating of one patient by another, but this was not pursued by the reporter and he had no definite information relative thereto.

Mr. Sarchet said that immediately after the publication of the articles he had ten to twelve calls from parents who indicated a reluctance to approach the superintendent with complaints for fear of reprisals against their child. He said he had spent only one day at the school making this investigation. However, he saw no evidence of abuse or undue punishment of the patients; they were well clothed and well fed. Mr. Sarchet said they followed the pattern of talking with one dissatisfied person who would, in turn, give them the name of others who were dissatisfied. They made no effort to seek out others in an effort to get both sides of the story. All contacts were referrals.

COBLE GAMBILL, the administrative assistant in charge of personnel appeared before the Committee. He was perfectly happy in his employment; thought the institution was well administered and the children well cared for. Questioned about the incident of the beating, he admitted he had heard of it but had no personal knowledge.

He said the employee turnover last year was less than three percent—which would not indicate a widespread unrest among the employees; that of the employees who

have quit in the past eleven months, over seventy percent have done so because of old age and social security.

We talked with MRS. LANCASTER who has been secretary to Mrs. Scruggs for eleven years. Her husband is also employed at the school. She found Mrs. Scruggs very considerate of the employees and an outstanding administrator.

We talked with a number of psychologists. All gave glowing reports of the growth, in terms of patient welfare, under the administration of Mrs. Scruggs.

DR. HAROLD BINDER has been going to the institution for thirteen years; has seen many new innovations and believes that "Mrs. Scruggs has done a wonderful job, considering the facilities and money she has had available." That "she has done more in this state in the field of mentally retarded; in the help to the pupils and education of the public than the combined efforts of any ten people you could name in this state."

DR. WILLIAMS, of the Mental Health Department testified that though he has been in Oklahoma less than a year, he has known Mrs. Scruggs for eight or ten years and has seen her at national meetings and knows her reputation to be enviable. That following the publication of the articles by Mr. Harmon and Mr. Sarchet he went to the institution and met with the employees. Many were upset over the articles. His opinion is that the dissatisfied employees are far in the minority.

DR. ALICE ANDERSON, now with The Cerebral Hospital at Norman, was a full time psychologist at the Enid School from 1950 to 1952. It was her impression that "it was a very good institution." Asked about patient abuse, she knew of none, and stated that since she had been a resident on the campus she felt she would have known of it, had it occurred.

DR. W. B. LEMON, Director of Clinical Training in Psychology at the University of Oklahoma testified quite at length. He

has been connected with the school for approximately fifteen years, five months and has never seen what he would consider "bad administration." Speaking of Mr. and Mrs. Scruggs, he said, "they have done a phenomenally good job, beginning a little behind scratch, in having arrived, in eighteen years, at an institution which I believe to be one of the best in the United States." Dr. Lemon said one of the interesting things about this institution is the fact that "there does not exist the barrier between administration and staff. There is not the quasimilitary hierarchy, but a closeness."

PERSON WOODALL, Chairman of the Mental Health Board, appeared before the committee. He was well pleased with the school under the present administration.

The Committee invited parents of children at the school to appear and give testimony. Many did so. They were people from all walks of life, from various sections of the state, with one common interest — their retarded children who were at the school and what was best for them.

MRS. EDWARDS, a parent from El Reno, felt her child has always received good care and she is well pleased with the school.

MR. AND MRS. HARVEY DEAN, ranchers from Woodward have a child at the Enid State School. They have both been quite active in the Parent-Guardian Association at the school and stated that Mr. and Mrs. Scruggs have always cooperated with them, and with the Association. Being a rancher, Mr. Dean took particular interest in the farming and dairying departments. He talked with the children working there and said they liked their work and would be extremely unhappy if they were relieved of their duties. Mr. Dean is president of the Parent-Guardian Association and said that the majority of their members are quite happy with the school and the administration of it.

MRS. ED C. JOHNSON, of Tulsa, appeared. Her child has been at the Enid State School for three years and she has visited him regularly each month. He is clean and well cared for and is very happy there. She has no feeling of mistreatment of him, or the other children.

MRS. WHITTAKER, from El Reno has a daughter who has been at the school since she was twelve years of age. She is now forty-seven. Consequently, Mrs. Whittaker has had ample opportunity to watch the school through many, many years. She is well pleased with the school and with the administrators.

MR. ED C. JOHNSON, of Tulsa expressed the same sentiment as his wife. He is quite happy with the school. He did say that some parents are displeased with the rules governing visitation, but most understand that in an institution this large rules must be made and observed for the benefit of the children. Their welfare is the paramount consideration.

EUGENE SAVAGE of Cheyenne, Oklahoma has a daughter in the School. He has encountered no rudeness on the part of any employee and has enjoyed pleasant relationships with the matrons, as well as the administrative personnel. He is well pleased with the school and the care and treatment his child receives.

MRS. W. W. SANGER, wife of an Oklahoma City physician, and a former teacher herself, has a child at the institution and she is very pleased with the entire operation of the school. She says the rules are strict but they must be; that the rules are made for the benefit of the children, not the parents. She and her husband pay the maximum for maintenance of their child, but receive no special privileges.

MRS. LOUISE MATHEWS, wife of an Oklahoma City merchant is the mother of a retarded boy who has been at the school since he was fourteen years old. He is now twenty. She has been most active in the program for mentally retarded chil-

dren on the national as well as the state level. She served three years on the national board for the mentally retarded; has visited many other institutions over the entire United States and recognizes the Enid State School as one of the outstanding in the entire nation. She has had differences of opinion with Mrs. Scruggs but has always been able to discuss them. She thinks the visitation privileges might be expanded and the rules thereon relaxed, but understands that with the limited amount of money available, and the limited number of staff employees, this is impossible.

The Committee interviewed two mothers who expressed a fear of retaliation against their children if they approached Mrs. Scruggs with complaints. They asked that their names be kept in strict confidence. They had heard that there had been instances where the child was punished if the parent complained to the administrator, but knew of none from their own personal knowledge. Their only complaint was regarding visitation. They desired to take their other children to the school for visits on Sundays which is not permitted. They both said their children were well clothed, well fed, and well cared for.

Upon the basis of all testimony submitted to the Committee, we would not be justified in recommending the discharge of Mrs. Anna Scruggs, superintendent.

COMMUNICATION

Senator Cobb asked unanimous consent, which was granted, to have read and incorporated in the Journal the following Communication:

June 14, 1961

Senator Joe Bailey Cobb
State Capitol Building
Oklahoma City, Oklahoma
Dear Senator Cobb:

In view of the Senate sub-committee investigation of the Veterans Program in which the Sulphur Veterans Institution was cleared and a subsequent investigation by the House Investigation Committee in which the same Institution was not mentioned plus a innuendo made through a press release by Ardmore's Veterans Home Superintendent, Leonard Saffa, I respectfully request a complete investigation by the Legislature of the Sulphur Institution for Mr. Saffa's statement "The Committee boldly endorsed to the Superintendent of the Sulphur Facility and gave it a clean bill. The Committee should see what is under that coat of white wash if they are really interested in the taxpayers dollar".

The statement made by Mr. Saffa was released immediately following the adoption of the Senate's sub-committee report by the Senate. There has been an opportunity to clarify that statement when the House investigated the Veterans Program. Instead, Sulphur was not mentioned. Because of the statement, I feel my professional career as a doctor and administrator is jeopardized as long as such innuendo exists.

Yours very truly
S/ J. A. King, MD
Superintendent O.S.W.V.H.F.
Sulphur Division

Senator Cobb moved that the President Pro Tempore appoint a Special Committee of 5, with instructions to visit the Sulphur Veterans' Institution and give consideration to the subject matter of the King letter above shown, which motion prevailed, President Pro Tempore Collins

A CONCURRENT RESOLUTION RELATING TO THE NATIONAL INDEPENDENCY HOLIDAY PERIOD; DIRECTING GREATER SAFETY MEASURES AND LAW ENFORCEMENT; AND DIRECTING DISTRIBUTION OF COPIES OF THE RESOLUTION.

WHEREAS, in these civilized United States of America, during peace time, some 38,000 Americans were killed and 1,400,000 injured in motor vehicle accidents in the year 1960, continuing an upward trend in traffic fatalities; and

WHEREAS, in the State of Oklahoma, during the Fourth of July holidays for the past four (4) years, there have been thirty-eight (38) people killed and four hundred seventy-three (473) injured; and

WHEREAS, the financial cost and economic loss of this senseless carnage to the victims, their families and their communities amounts to a staggering figure; and

WHEREAS, the emotional suffering and untold heartaches involved in the aftermath of these highway tragedies defies measurement; and at times imagination; and

WHEREAS, experience in our State of Oklahoma indicates conclusively that determined action by enforcement authorities and other allied agencies to halt this relentless toll of traffic deaths and destruction can sharply reduce the number of and severity of accidents and the number of casualties which at present is on a sharp increase; and

WHEREAS, "Death" has labored tirelessly on the Highways and is entitled to a "Holiday"; and

WHEREAS, "Destruction" has been devastating on the Highways in its tireless toil and would welcome a rest.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH SESSION OF THE STATE OF OKLAHOMA, THE HONORABLE SENATE CONCURRING THEREIN:

SECTION 1. That the five (5) day period from June 30 to July 5, 1961, is hereby declared a "Holiday for Death" on the highways of the State of Oklahoma.

SECTION 3. That all motorists voluntarily reduce their speeds.

SECTION 4. That all motorists comply with all traffic rules, safeguards and regulations.

RE: CONTRACT BETWEEN GRDA and PUBLIC SERVICE COMPANY

Senator Fine made the statement that the contract entered into by the Grand River Dam Authority and Public Service Company, provided in the co-ordinating agreement, Section 10 of the Contract which was approved by the Supreme Court, would be binding both upon the Grand River Dam Authority and Public Service Company after it had been approved by the Supreme Court and after it had been approved by the Federal Power Commission. It was approved by the Supreme Court, but was not approved by the Federal Power Commission; therefore, I contend it is unconstitutional for any State agency to change a part, or any part, of a contract which is binding both upon the Grand River Dam Authority and Public Service Company.

Senators Fine and Hamilton asked unanimous consent, which was granted, that the President Pro Tempore be authorized and directed to request an opinion from the Attorney General relative to the constitutionality of an agency, such as the Grand River Dam Authority, being vested with authority to change a contract which has been approved by the Supreme Court of the State of Oklahoma.

To the Legislators we wish to express the gratitude of all of us for your interest in and support of education as an important function of our government. This consistent effort of our Senators and Representatives for two decades in Oklahoma to up-grade our schools is certainly evidence of constructive statesmanship. COMMUNICATION

The following Communication from H. Dick Clarke, Executive Secretary for the Oklahoma Society for Crippled Children, was read and ordered incorporated in the Journal:

Honorable Louis H. Ritzhaupt
Dean of the Oklahoma Senate
State Capitol

Dear Senator Ritzhaupt:

The announcement of the seven-year, two-million dollar grant to Oklahoma for a children's clinical research center at the University Medical Center—in competition with other states—is a direct tribute to the efforts of Oklahoma Legislators to provide a continuing program of care and treatment of our handicapped children, and to the physicians who have always contributed so much of their free services and support.

As your name has appeared on more effective legislation than any other person, it also is a tribute to your many Acts and Resolutions to aid crippled children.

The abundance of clinical material available through the Oklahoma plan of care and treatment, the spirit of cooperation which has been evident for years between those trying to help the handicapped, and the quality of care provided the medically indigent in Oklahoma—all these probably played no small part in the award being made for research in Oklahoma instead of elsewhere. Please accept our sincere congratulations.

Dated this 28th day of June in the year nineteen hundred and sixty-one at Oklahoma City, Oklahoma.

For the Oklahoma Society for Crippled Children, Inc.

ATTEST:

H. Dick Clark, Exec. Secty. (Seal)

By unanimous consent, **HCR 559** was taken up for immediate consideration, following which Senators Wilson (Greer), Graves, Rogers, Breeden, Garrison, Grantham, Dacus, Berrong, Morford, Ritzhaupt, Field and Hamilton asked to be made co-authors, which was granted, the Resolution being read at length as follows and adopted upon motion of Senator Land:

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 559—By Bradley (Tulsa), McCune, Hopkins, Atkinson, Johnston, Forsythe, Howard, Shibley and Cox of the House and Land, Wilson (Greer), Graves, Rogers, Breeden, Garrison, Grantham, Dacus, Berrong, Morford, Ritzhaupt, Field and Hamilton of the Senate.

A RESOLUTION COMMENDING MR. AND MRS. WYLIE B. HISSOM OF TULSA, OKLAHOMA, AND EXPRESSING THE APPRECIATION AND GRATITUDE OF THE PEOPLE OF OKLAHOMA FOR THEIR BENEFICENCE AND CIVIC CONSCIOUSNESS IN THE GIFT OF THE HISSOM FARM AT SAND SPRINGS, AS A SITE FOR THE THIRD STATE HOSPITAL FOR MENTALLY RETARDED CHILDREN.

WHEREAS, an appropriation in the amount of \$1,000,000 was made by the Twenty-seventh Oklahoma Legislature for the purpose of constructing a third state hospital for mentally retarded children at a location to be decided by the State Mental Health Board; and

WHEREAS, after careful consideration of many offers of sites and of the many factors involved, the State Mental

Health Board accepted the public-spirited offer of Mr. and Mrs. Wylie B. Hissom of Tulsa to dedicate without condition or qualification as a site for the prospective hospital their beautiful and ultra-modern 226-acre farm on the banks of the Arkansas River near Sand Springs; and

WHEREAS, Mr. Hissom came to Oklahoma in 1917 as a young oil driller and, over the course of a career which has witnessed years of feast as well as years of famine for the pioneers of this state's crucial oil industry, emerged as an eminently successful and respected leader in the development of Oklahoma's oil empire; and

WHEREAS, upon retirement from active participation in the development of our oil resources, Mr. Hissom, with the same unbounded zeal which had carried him to the summit in his life's work, purchased a 226-acre tract of choice Arkansas River bottom land near Sand Springs and developed it into one of the state's foremost agricultural showplaces, producing, among other things, hybrid corn which yielded the world's record crop of 137 bushels per acre, and developing a herd of Black Angus cattle rates as one of the country's finest; and

WHEREAS, being without children of their own, Mr. and Mrs. Hissom were compelled by a life-long dream to perform some worthwhile and lasting service for the unfortunates among the children of this state and, simultaneously, to repay this, their adopted but beloved Oklahoma, for the many blessings its boundless resources had bestowed upon them; and

WHEREAS, the opportunity to bring this life-long dream to fruition was forthcoming in fulfilling the state's need of an appropriate site for the location of its third hospital for mentally retarded children and, in a display of matchless generosity, the state was presented with the unconditional gift of a select location

for the construction of this hospital at the Hissom Farm. This farm, valued conservatively at a worth of \$500,000, offered a central location in a modern, progressive community known for its spirit of civic awareness, with excellent communications and transportation facilities, housing and recreational accommodations for the staff and employees of the prospective hospital, as well as an environment possessed with an abundance of both the tangible and intangible assets so indispensable to the well-being of those whom this institution is designed to serve.

NOW THEREFORE BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE SENATE CONCURRING THEREIN:

SECTION 1. That Mr. and Mrs. Wylie B. Hissom of Tulsa, Oklahoma, be and hereby are commended on behalf of the grateful people of this state for their magnanimous display of civic consciousness in the gift of the Hissom Farm, near Sand Springs, Oklahoma, including the entirety of its 226-acre area, the outstanding herd of Black Angus cattle, all farming equipment and implements as well as other improvements, to the State of Oklahoma as the site for the development of this state's third hospital for mentally retarded children; and

SECTION 2. That the overwhelming generosity of Mr. and Mrs. Hissom, whose lives so exemplify the priceless qualities of those noble pioneers whose labors and foresight laid the foundations for the emergence of our great state as a leading participant in the explorations of the new, technological frontiers, be and hereby is officially recognized and acclaimed as a shining example of citizen responsibility; and

SECTION 3. That this Resolution be spread upon the pages of the permanent Journals of the House of Representatives and Senate of the Twenty-eighth Oklahoma Legislature and that an authentic-

ed copy thereof be forwarded to Mr. and Mrs. Wylie B. Hissom at 1217 E. 27th, Tulsa, Oklahoma, as an expression of the esteem and appreciation of this body.

EDITORIAL

A WORD FOR THE DEFENSE

by Ben Gerdes

This writer is of the opinion that a word

or two needs to be said, if not in praise of, at least in defense of the members of this session of the State Legislature.

The members have all received an even heavier amount of criticism than usual and much of it has been unjust, concerning circumstances beyond their control. They have found themselves throughout this session balancing on a very precarious ledge of public opinion, crushed between the rock of the taxpayers and voters insisting that there be no tax increases and the heavy boulder of the various state supported pressure groups demanding additional revenue. The boys have virtually found themselves with their backs to the wall and the voters hurling the sharp-pointed knives of criticism at them. They have been roasted over the slow fire of public censorship.

Regardless of what the boys did; they were wrong! If they voted tax increases, be it sales tax or otherwise, they were in trouble with the majority of the voters and taxpayers; if they didn't find additional revenue they were in trouble with the school, roads and highways, mental and other state supported blocs.

If they passed a state withholding tax system they were in trouble with not only the taxpayers but with employers who would be required to do additional book-keeping and paper work; if they didn't pass one the state would probably miss out on some income tax revenue it could collect under the withholding program.

If they passed a horse racing bill they were in trouble with certain church groups; if they didn't pass one they were

in trouble with racing enthusiasts which have grown into quite a large fraternity in the state and again refused the opportunity to make additional revenue.

If they consolidated small schools they were in trouble with the voters of the smaller towns and communities and with the rural teaching profession; if they failed to consolidate schools they would be refusing to enact a piece of badly needed economy.

If they appropriated more money for public schools, higher education would yell and if they instead gave colleges and universities a larger chunk of tax-money the situation would be reversed; and somewhere in the middle they had to remember other state institutions such as those for mental health.

To be short and sour, the boys had it given to them properly! They were in a jam from the time the Chaplain finished the first Amen the opening day of the session.

All in all, we feel that this session of the Legislature was no worse nor no better than any other session since the convening of the First Legislature. It was about as good as could be expected under the clouds of discontentment under which it operated.

It is unfortunate that the voters usually fail to remember that the men they elect to represent them are only mortal; subject to the same mistakes and weaknesses as any of the rest of us. The majority of the Legislators in any session are men of the people doing their conscientious best to represent their constituents, who are their friends and neighbors, to the very best of their ability.

The State Legislatures are the best form of democracy in action visible today; also much of the best legislation comes from the State Legislatures instead of from the U. S. Legislature. Some of the Legislators are men of above average ability and intelligence; a few are men of below average ability who should never have been

elected and who generally are not re-elected; but the majority are men just as you and I; a good cross section of the counties and communities they represent.

Another thing the voters generally fail to realize is that hindsight is always better and easier than foresight. It is always easier to look back and see what should have been or what should not have been done than it is to look ahead and know what to do before the time for action arrives.

We seriously doubt if any other group of men would have done any better a job for the welfare and interests of the people, under such difficult obstacles, as did this session of the Legislature.

We believe that next election season the voters should remember that the members of this past Oklahoma Legislature had a most difficult job indeed.

RE: WESTERN STATE HOSPITAL
FORT SUPPLY, OKLAHOMA

Senator Wilson (Greer), being recognized on a point of personal privilege, referred to an article appearing in the Daily Oklahoman of Tuesday, July 18, 1961, entitled "Food Runs Low at Fort Supply — Situation Blamed on Legislature", and stated that there is \$75,000 now in the revolving fund available for expenditure at the Western State Hospital at Fort Supply and that the Legislature's General Conference Committee on Appropriations had approved the institutional bill containing new money for mental hospitals two weeks ago. He further stated that the unfavorable publicity is hurting the unfortunate people in every mental hospital in the State, rather than those towards which it is aimed.

President Pro Tempore Collins said: "In view of the remarks of Senator Wilson (Greer) and a letter from the employees of the Western State Hospital, addressed to Senator McColgin, which was read, it is my firm belief that something should be done, not only in this instance, but in others whereby information is passed to the public that is not quite right."

Following the above observation, the President Pro Tempore assigned the matter to the Special Investigating Committee, appointed under Rule 24-a, with instructions to investigate, immediately, the reports that have come to the attention of the Senate and report back forthwith their findings with reference to the Western State Hospital at Fort Supply.

Senator Fine asked unanimous consent, which was granted, that Senator Ritzhaupt and Senator Wilson (Greer) be added as voting members of the Special Investigating Committee, stating that Senator Ritz-

haupt has devoted much of his time to research and study of mental institutions and that Senator Wilson (Greer) has devoted more of his time towards improving conditions in such institutions than all Members of the Senate combined.

Oklahoma State Senate
State Capitol Building
Oklahoma City, Oklahoma

Dear Sir:

Senator Ryan Kerr has been authorized to extend to the Oklahoma State Senate an invitation to come to Altus and Jackson County as our guests for a full day of hospitality, that only we are capable of delivering. There will be plenty of food, and a full program of activities at the Air Base, which will include a tour of the Base, Alert Center, Dog Show, B-52 inspection and a visit to an Atlas Missile Silo. Also, our irrigation project will be mighty pretty in a few days. In other words, we will give you the works.

The metropolitan press seems to be dissatisfied with you fellows but we are proud of you and want you to know that we think you have done a fine job. We also believe that a majority of the people feel the same way.

You set the date, any time before October 1st, and help Ryan secure a good attendance.

Your friend,
Loys Criswell

WHEREAS, the Legislature, as the controller of the public purse, has the duty, responsibility and constitutional authority to insure said competence, economy and accountability; and

WHEREAS, the widespread illusion that a legislative appropriation is not merely an authorization but an order to spend the sums appropriated encourages wasteful expenditures of public monies; and

WHEREAS, a need exists for pre-audit and review of the judgment of the spending officials; and

WHEREAS, although compliance with the terms of appropriation acts is the immediate responsibility of the respective spending agencies, no authority now exists to question the use of funds which, although legal, are unnecessary and extravagant; and

WHEREAS, present law provides for a pre-audit function the authorization thereunder is extremely limited; and

WHEREAS, a comprehensive pre-audit system is a necessary tool in effective fiscal management and control; and

WHEREAS, the Federal Government, through the Budget and Accounting Act of 1921, providing for the office of Comptroller General, and a number of state governments have established effective pre-audit procedures; and

SPECIAL COMMITTEE REPORT

Senator Fine, Chairman of the Committee on Research and Investigation, appointed pursuant to Rule 24-A, submitted the following Committee Report which was read at length and adopted upon his motion:

Mr. President:

On instruction from the Senate, the Committee on Research and Investigation met on July 18, 1961, at 5:00 o'clock p.m. to look into the matter of food and drug shortages at Western State Hospital, as reported in a newspaper article by Mark Sarchet appearing in the Daily Oklahoman on this date. Also, to consider an anonymous letter received by Senator McColgin concerning the institution.

First, may we report on our findings relative to the purported shortages in food and drugs.

Appearing before the Committee were Bert Logan, Budget Director, and Dr. T. Glyne Williams, Mental Health Director.

Mr. Bert Logan reported that on this date, July 18, 1961, the Western State Hospital has in their revolving fund, the sum of \$89,056.62; that orders in the amount of \$12,000 plus are outstanding against this fund, leaving a balance of \$76,636 available for budgetary purposes; that this amount of money could have been requested and used, for any purpose other than capital outlay, at any time upon proper requisition. Consequently, there is no reason why the institution should be short of any food or drugs. All they needed to do was request the money, up to the amount of \$76,636 and it would be immediately available. However, no such request had been made. Asked about the source of such request, if and when made, Mr. Logan stated that

it would come from the superintendent of the institution, to the controlling board, and then to the Budget Office.

Dr. T. Glyne Williams, Director of the Mental Health Board, reported that on or about the 30th day of June, 1961, the superintendent had told him they were running low on some commodities but that he did not know they were out of any drugs or items of food; that he had heard nothing further from the superintendent; that the normal request for appropriated and revolving fund money had been filed but that this had been held up since no appropriation had been made, and that no separate request for funds from the revolving fund had been filed to this date; that after reading the article and conferring with the superintendent, request has today been made and it is his understanding that it has been granted.

Asked if the responsibility for this failure was that of the Legislature, Dr. Williams answered that it was not, but that it was the responsibility of the superintendent of the institution. And that since the superintendent was accountable to the Mental Health Board, it was the responsibility of the Board and its director.

Dr. Williams agreed that had a request been made for funds from the revolving fund, that within one day the funds would have been available, orders for food and drugs could have been placed and the commodities received. Dr. Williams also agreed that the emergency referred to in the newspaper article was a direct result of poor management and could in no way be laid at the door of the Legislature.

The anonymous letter above referred to was read by the Committee and by Dr. Williams, and it was the consensus of opinion that it should be disregarded since there was no signature thereto, and it is realized that in any institution this large there are always disgruntled employees. Hence, no further action will be taken thereon.

Dr. Harold Whitten, Superintendent of

Western State Hospital, appeared before the Committee on July 19, 1961.

In answer to questions from the Committee, Dr. Whitten said the newspaper article was as much of a surprise to him as it was to anybody else; that he did not know he was being interviewed when Mr. Sarchet was at the hospital; that it was merely a visit, and during the conversation, he did tell Mr. Sarchet that they had run out of breakfast food and vegetables. However, Dr. Whitten said he and the business manager did not consider this any emergency as they had an ample supply of other foods to serve. As to the reported shortage of medicines, he said they were out of some particular brands of specific items, but that they had plenty of similar items on their shelves just as good, which they were using, and that no patient was being neglected or denied proper medication.

Asked if he knew they had \$76,000.00 in their revolving fund which could have been requested, Dr. Whitten said he thought when they made their normal request for funds from appropriated money and the revolving fund that was sufficient and he was waiting to receive the money. However, he has since been informed that a separate request must be made for this revolving fund money. This was done yesterday evening and today — in less than twenty-four hours — the funds are available.

Dr. Whitten apologized to the Committee for any concern or embarrassment they had suffered, and assured them that he had no intention of criticizing or blaming them. He said the article was slanted and did not reflect the true facts.

Respectfully submitted,

INVESTIGATION
