The President declared Senator Everett S. Collins elected President Pro Tempore of the Senate for the 28th Legislature.

The President appointed Senators Fine, Hamilton and Bailey as a Committee to escort Senator Collins to the President's desk, where and when the Gavel was handed to him by the President.

President Pro Tempore Collins, in accepting the office of President Pro Tempore of the Senate for the 28th Legislature, said:

Governor Nigh and Gentlemen of the Senate:

In speaking to you on the acceptance of this honored position with which you have honored me here today, I, at the outset, say that never before in the history of the State Government of Oklahoma has the Oklahoma State Senate maintained more of an independent position in formulating its work and policies. You, and each of you, represent the in-

dependent thinking of the constituents of your respective districts, which will be one of the guiding posts of this session of the Legislature. May I say, at the outset, that your Senate has been formed on an independent basis — you, as individuals, representing the State of Oklahoma, and your Senatorial Districts as an individual. Each and every one of you have ideas of Government — with many of you I have served for many, many years. I recognize the problems that you as members of this Senate will encounter. I will have open the door of the Office of the President Pro Tempore of the Senate on a twenty-four hour basis for the purpose of working with you and your individual problems, the problems of State Government, and the individual problems of the districts which you represent.

I know this — that in the Senate its Membership is made up of men of intellect and wisdom. Each one of you will have to carry forth the program for the benefit of all the people. The people of this State are looking forward to you in these trying times and the day of reckoning is here! I do not believe that we will have to have a tax increase for this biennium (that includes June 30, of 1961), but the road ahead offers a new challenge to the people of this State and to you as representative members of this Senate.

I will say that this afternoon at the Joint Session you will hear a message from the Chief Executive of this State — one with two budgets — one with a budget that will be within the present income we are now enjoying — the other which will encompass a greater amount of revenue in taxes that we are collecting today — I can say it is for us, with the various committees that will be appointed, to meet and see where you want the State of Oklahoma to go in the next biennium. It is strictly up to you! There have been no arrangements made with anybody in the State of Oklahoma as to your thoughts

and ideas upon where we can go for the next two years!

I call upon each and every one of you with the wisdom and with the intellect that you compel, to consider information you have at your hands and the tools with which you will work through the next session of the Legislature, to give to the people of the State of Oklahoma a program that will far surpass any other program that has ever been adopted in the Legislature or in the Senate.

Gentlemen, with all humility, I accept this position. It will always be honored and revered by me. With your help and the help of your constituents, the people of this great State, we will write the program—a program adopted by the Members of this State Legislature for future economy and service for this State.

I thank you —

President Pro Tempore Collins presiding.

COMMUNICATION

The following Communication from the State Board of Equalization was received, read and ordered incorporated in the Journal:

To The Honorable,

President of the Senate,

28th Oklahoma Legislature.

Sir:

In accordance with law and in compliance with the terms of a Resolution duly adopted by the State Board of Equalization of the State of Oklahoma sitting in called session on December 20, 1960, I have the honor to transmit to you herewith a duly authenticated duplicate original of said Resolution as adopted by said Board under authority of Section 23, Article 10, of the Constitution of Oklahoma as amended March 11, 1941, and to request a signed memorandum acknowledging receipt thereof for the Minutes and records of the Board.

Respectfully,

Andy Anderson

State Auditor and Secretary,

State Board of Equalization

RESOLUTION OF THE STATE BOARD OF EQUALIZATION

WHEREAS, the provisions of Section 23, Article 10, of the Constitution of Oklahoma, as amended March 11, 1941, the State Board of Equalization among its other

official duties is directed and required to make:

"* * * an itemized estimate of the revenues to be received by the State under the laws in effect at the time such estimate is made for each year of the next biennium, showing separately the revenues to accrue to the credit of the General Revenue Fund and each special fund of the State, and the total amount of such estimate for each fiscal year shall not exceed the average total revenue which accrued to each such fund for the three (3) last preceding fiscal years to which amount shall be added the cash surplus, if any, from the preceding fiscal year in the hands of the State Treasurer to the credit of any such fund and not previously appropriated by the State Legislature at the time such estimate is made. Such estimate shall be filed with the Governor, the President of the Senate, and the Speaker of the House of Representatives * * *", and,

WHEREAS, the Board acting in pursuance of the duty and authority thus conferred upon it by the Constitution and law, has caused to be presented to it all the data, figures and relevant information from various State Departments concerning the income of the General Revenue Fund and of the various special funds of the State, and has, after careful consideration and study of same, determined the figure which properly represent such itemized estimate of revenue of the said funds for the ensuing biennium;

NOW, THEREFORE BE IT RESOLVED BY THE STATE BOARD OF EQUALIZATION OF THE STATE OF OKLAHOMA:

That the sums and amounts reasonably estimated to accrue to the General Revenue Fund and to the several special

funds of the State as herein set forth, be and they are hereby adopted and fixed as the official estimate of moneys to accrue for and during the fiscal years 1961-1962 and 1962-1963; and which figures are as follows:

STATE OF OKLAHOMA
EXECUTIVE DEPARTMENT
DIVISION OF THE BUDGET
December 20, 1960

State Board of Equalization
State Capitol Building
Oklahoma City, Oklahoma
Gentlemen:

The Constitution of the State of Oklahoma, Section 23, Article 10, requires the State Board of Equalization to make an itemized estimate of the revenues which will accrue to the General Revenue Fund and each Special Fund of the State for each year of the next biennium, and to file same with the Governor, President of the Senate, and Speaker of the House of Representatives, prior to the convening of each Regular Session of the Legislature.

The Constitution provides that the amount of the estimate for each fiscal year shall not exceed the average total revenue which accrued to each fund for the three last preceding fiscal years. This Section further provides "that the Legislature may, at any Regular Session *** enact laws to provide for additional revenue other than Ad Valorem Taxes or transferring the existing revenues or surplus from one fund to another whereupon it shall be the duty of the State Board of Equalization to make an estimate of the revenues that will accrue under such laws and to file the same with the Governor, President of the Senate, and the Speaker of the House of Representatives, and the amount of any increase or decrease resulting, for any reason, from such laws, shall be added to or deducted from each respective fund, as the case may be." The amount apportioned to the General Revenue Fund for each of the three years involved and the maximum amount which may be estimated for each year of the next biennium is shown by the following statement:

AMOUNT FOR FISCAL YEAR			
THREE YEAR AVERAGE	1958	1959	1960
Total Fund Provided -----	\$93,887,913.94	\$98,259,750.36	\$106,810,559.21
THREE YEAR AVERAGE			\$ 99,652,741.17

The Constitution of the State of Oklahoma further provides that the cash surplus, if any, from the preceding fiscal year, in the hands of the State Treasurer, to the credit of any fund which has not been previously appropriated by the Legislature at the time the estimate is made, may be added to the estimate. In this connection attention is called to the provisions of House Bill No. 30, Regular Session, Twenty-first Legislature, creating the Emergency Appropriation Fund. Said bill provides, in part, as follows: "Upon the passage of this Act, it shall be the duty of the State Board of Equalization to make an estimate of the revenue which will accrue in the Emergency Appropriation Fund during the current biennium, by reason of transfers of revenues and surpluses to said Fund by this Act and any other laws in force at the time such estimate is made."

SPECIAL FUNDS. The Constitution, Section 23, Article 10, provides that "any Department, Institution or Agency of the State, operating on revenues derived from any law or laws which allocate the revenues thereof to such Department, Institution or Agency, shall not incur obligations in excess of the unencumbered balance of surplus cash on hand." This provision eliminates the necessity of making specific appropriations for earmarked revenues appropriated to Special Funds which operate as a continuing appropriation. The Legislature makes appropriations for certain governmental functions out of Special Funds which do not operate as continuing appropriations. The amounts that can be appropriated from these funds are indicated in the following statements.

 record of the Senate:

Lieutenant Governor George Nigh, Pres-
 ident pro tempore Everett Collins, and
 Speaker of the House, J. D. McCarty, and
 the Oklahoma State Senate and House of
 Representatives:

J. D. just made a remark that I think
 is just priceless, that I would like to pass
 on: "I have prepared for you a fifty-two
 paged message condition, or state of

state." And then J. D. said, "do you have your message ready" And I said, "I do", and reached in my pocket and pulled this out, and he said, "Brother, that looks like an awful important message."

I certainly accept this as an honor and a privilege to have the opportunity the third time to speak to the joint session of the Oklahoma State Legislature. I think it is a privilege for any one and I think it is a particular privilege for me because I think that in this session—the 28th—that you will write laws that are of particular importance to the future of Oklahoma. There are three separate and equal branches of the State Government. As provided by the Constitution, there is the legislative, the executive and the judicial. I want at this time and at the outset of any remarks that I make to you, to commend you on what I consider a most outstanding job in the selection of your leadership for this most fine session. I think you have chosen in your President pro tempore and in your Speaker of the House, men that have demonstrated through long years of service, who not only have insight into the problems of Oklahoma particularly, but also in their ability as far as leadership is concerned, to work out those problems.

Naturally, it is always more difficult in a position of leadership and the responsibilities that go with it, to work out those problems, than in any other capacity. There have been many of you who have sat on the back rows of the House and the Senate and in subsequent years have moved to the front rows or to this rostrum. And you know better than I that there is a real difference between these two positions. In these different positions of the Senate and the House, you have carried out in the truest sense of the word both the intent and the purpose of the Constitution of Oklahoma, that each of the three branches of the government shall be equal. I commend you for doing that, as well as for your choice, not only for your President pro tempore and

your Speaker of the House, but also your Floor Leader and Assistant Floor Leader, for the selections that you have made.

We have gathered here today principally because of the responsibility and the confidence that the people of Oklahoma have placed in all of us. I think that every day people of Oklahoma are realizing more and more the critical decisions we face in this session.

I think in the elections of last summer that most of them recognized how critical those problems are.

I think that you should be proud, first of all, of the fact that you were elected. Then, of course, recognizing responsibility that the people of your district and your county have given you, because before this session is over we must make decisions that will affect the every day life of every Oklahoman.

With your permission for a few minutes, I would like to recount the last two years. Beginning, of course, with the campaign in 1958, which I was in, I made a number of commitments during that campaign, and campaigned on a number of platforms that I considered necessary in that election. We then went into the January, 1959, 27th Session. At the time that session convened, I believed with all of my heart that that session and the members of it would write a program that would go down in history as one of the most progressive programs ever written by any session of the legislature. When that session was over that prediction was borne out because many progressive pieces of legislation were written in those long, tiring six months. At the conclusion of it, I had a choice and that choice, very briefly, was whether I wanted to sit back and rest on the laurels of your accomplishments — the 27th Session accomplishments — and let the eighteen months pass by comfortably and peaceably. I will have to admit at this time, as I have on many other occasions, that that thought was not inviting, and as I look back on it in retrospect, it was even

more inviting. But I made a decision, just as you have made decisions, politically, governmentally, and will make decisions in this session; and that decision was that I would submit three more measures to a vote of the people at a special election. Those measures were submitted and we have had what has been very accurately described as a very active, and in some instances, a bitter campaign. Frankly, I don't think there is anything wrong with an active and bitter campaign because it is in the people an awareness that they don't otherwise have for receiving suggestions for laws and proposals for change and above all, the condition as all of us see it. Then the people spoke on September 20th. They spoke clearly. They spoke decisively. Certainly, I have no hesitancy now nor did I on September the 21st, to accept that decision of the people of Oklahoma. At the conclusion of that election, I had shall we say, three more choices. First of all, as is sometimes normal with those of us in politics, I could have assumed the role of being vindictive, attempting in the next two years, or final two years, of my office, to punish those who opposed those proposals which I had submitted. I don't think and didn't think then that such an attitude would accomplish anything for either myself or for the future of Oklahoma. The second alternative was more recent. I had the opportunity to join the Democratic Administration of President elect Kennedy in Washington. I turned that opportunity down. I will have to admit that there were moments when I considered that a mighty inviting and easy way out. But I turned it down because of the third alternative which was that we did have problems in Oklahoma and the responsibility for meeting those problems and solving them, working out solutions for the betterment of Oklahoma, with a dual responsibility, both the responsibility of the legislature and also the executive branch. And so here we are today. I think that the problems that this session faces certainly can be said to be just as compelling, just as difficult as

the problems that have faced the previous sessions of our legislature. Basically, however, they are of finance. I submit to you, and I must say at this time that I regret the fact that the printed copies of these budgets for this session, are not available to you prior to this address but it was due to Central Purchasing. Ordinarily in the past we have let the Oklahoma Tax Commission print them and they have been here in plenty of time. This year we took them through Central Purchasing and they are not here yet. They will be here this afternoon for your use, for whatever purpose you might see fit to place them.

As you all know by this time, the budget as submitted in this instance is actually two questions, Budget "A" and Budget "B". The first budget simply describes the facts that are facing our state government and of anticipated revenue. In doing this I might say it was quite a difficult job. Budget Officer Burt Logan, Jim Savage and other members of the staff and myself worked on this for a lengthy period of time attempting to do it, and I think when you see this budget you will recognize why it was so difficult. I think that the people of Oklahoma should recognize how difficult it is because we have growing pains insofar as services are concerned. In order to fit the activities of state government into anticipated revenue, we could of course have recommended cuts across the board equally applicable to each agency or area of state government. In some instances we did this but in a majority of instances you can see from the budget that rather than to attempt to recommend that those services moneywise, be fitted into what we believe to be their needs, based on the small amount of revenue available for those services. In other words, as the experienced members of the Senate and the House know, the big cuts, of necessity, had to be the budget areas of the mental institutions, education both common and higher, and highways. In order to

fit the budget into anticipated revenue in Budget "A", it was necessary to anticipate substantial amendment of the School Code, cuts in the teacher's salaries, cuts in operation ways and cuts in higher education. And by the same token, it was necessary to have cuts in mental health. And of real importance to Oklahoma future, it was necessary to have a real cut in highway appropriations. You will find in examination of Budget "A" that there are not even these funds for highways to match federal funds that will be available. This is the problem, this is one choice. I recognize that the legislature's prerogative is to fix this in any way they can see fit, and after you have worked with it as long as we worked with it, you will see if you don't already recognize, that it is impossible to fit it into anticipated revenue without these three cuts in these three large areas of which I have spoken. And so it was that we submitted Budget "B". It is not impractical in Oklahoma. In fact on the contrary other states have followed it for a number of years. Budget "B" naturally provided for new revenue in the amount of approximately forty-nine million dollars. Anybody can tell that with such an increase insofar as any kind of revenue, that a substantial tax increase in one of several areas must be passed in order for such a budget to be adopted. I do not attempt in this budget to specify to you at this time which one I would recommend. On the contrary at the request of the budget office, working with the Tax Commission and other government agencies of Oklahoma, to make all of those valuable sources of revenue and what they would bring in, so that this session could have available to it and the public could see what choices are also available. I think you can say that Budget "B" as contrasted to Budget "A" provides a well grounded program for Oklahoma's growth, Oklahoma's progress and in general, Oklahoma's future. It is dear to it.

There have been many who talked about

how we ought to consider before we make a tax increase, that we should consider the possibilities and of economy and consolidation of various agencies. Certainly as to economy, I would certainly recommend it. Certainly as to consolidation of agencies, I would recommend your serious study and consideration as well. But all of us know that, who have looked at state economic problems, you cannot possibly raise any amount of money that amounts to anything until you get into the three big areas of state expenditure, and that is mental health, highways and education. Some have talked about consolidating Planning and Resources and Department of Commerce and Industry. I certainly would not hesitate to recommend a study of it, but when you look at the total expenditure involved, and the possible savings, if any, involved, you can see that you are dealing with an amount that, at most, can be described as nominal. Many have asked, I know, "Why didn't you, as Governor of Oklahoma, make your specific recommendation on one?" I am just as interested in answering that question as every member of the House and the Senate is interested in knowing what the choice of the people is. I think, in other words, that our first responsibility is to tell the people what the problem is, to paint that picture clearly, to paint it honestly, to paint it factually so that the people can make a decision that is wise, can relay that decision to their elected representatives and senators so you can respond to their wills. I want that reaction; I know that you do. I have never met in my few years of political experience any elected official who didn't attempt and desire and know what the will of his constituent was. So we will have through the various press media and through your own activities, this picture presented. This choice of fitting into anticipated revenue, or recognizing, if that is so, the need for more. I want to hear from the people of Oklahoma. I invite them and I know that

you do too. But in the final analysis — in the final analysis — when it comes to making a decision, it is your decision as to which road Oklahoma should follow for the next bi-annual. I know also that we must make that decision here ourselves. The people of Oklahoma elected you and the people of Oklahoma elected me to go to Oklahoma City and to come to this Capitol and to work for whatever periods of time was necessary to represent them and to meet these problems and solve them. When that time comes and that time's presence will to a large extent be governed by your own attitudes and ideas, and your thoughts as to when it is. But when that time comes and that decision is made, I want to say to you now that I have no hesitancy whatsoever in accepting my proportion of responsibility for that decision. I think that all of us must, and we were sent here for that purpose, and I am confident that where I am going to accept my portion of responsibility, that you also are willing to do the same.

My office, to you as elected representatives of the people of Oklahoma, Senators and Representatives, will be and is open all hours of the day to any one who is anxious to work toward a better Oklahoma and I stand ready to meet them more than half-way. I know we will have that relationship in the session.

Thank you very much.

GOVERNOR'S MESSAGE

The First Formal Message of Governor J. Howard Edmondson to the 28th Legislature having been made available, it was upon motion of Senator Field that it is ordered herewith incorporated:

Honorable President of the State Senate:
Honorable Speaker of the House of Representatives;

Members of the 28th Session of the Oklahoma Legislature:

Although Oklahoma has faced many political, economic and governmental problems during the past two years, I am able to reflect on this period with gratitude and a great deal of optimism, in my message to you on the "Condition of the State" as required by the Constitution.

As a result of the actions of your preceding session, the cooperation of other elected and appointed officials of the state, and the understanding of the people of Oklahoma, our state government has

been able to make broad and sweeping accomplishments.

It is a thrilling review I present to you of an important era in Oklahoma ending an old decade and beginning a new one. It seems unlikely that any other similar period in the history of our state government has seen such an increase in government service and performance with no tax increases. And this was done in a time when spiraling state revenue had begun its levelling-out process.

The major portion of credit must go to the foresight of the 27th Session of the Legislature in the program it enacted, which was undoubtedly a precedent-setting feat in stretching state income.

Welfare consolidations resulted in \$4.3 millions in savings to the general revenue fund. Repeal of Prohibition brought in \$13 millions to the state coffers from a heretofore untapped source. Central Purchasing saved at least \$8 millions in state buying. The Merit System was established without extra appropriations. A \$10 million state office building program is underway with no general revenue fund appropriations necessary. And the way has been paved for Oklahoma to get \$90 million worth of super-highway construction through new Turnpikes, at no cost in state taxes.

Totalling all these, we have a \$125 million program for the state in financial gain, not to mention other benefits. And all without any increase in general revenue fund appropriations.

Perhaps even more important than this feat of budget stretching is the increased realization of the importance of state government on behalf of more and more Oklahomans.

This intensified interest and awareness is inevitably destined to bring forth a brighter, more genuinely rewarding future for all of Oklahoma.

So it is with pride and pleasure I present this detailed report of progress in the biennium that may well provide the

springboard for Oklahoma's most fruitful decade:

CENTRAL PURCHASING

One of the most outstanding examples of how to make state government income do more work is in the field of Central Purchasing. The need for a state central purchasing agency has been discussed by Oklahoma political leaders for many years. The 27th Session of the Legislature enacted it into law on July 6, 1959, or almost exactly a year and a half ago.

We have just completed our first full calendar year of Central Purchasing and I can say with considerable pride and commendation to you who helped enact it, the system has been a success even though we have only scratched the surface of its possibilities.

The first six months of the new law were spent in acquiring trained personnel, preparing specifications, acquainting institutions and departments with the operations and generally ironing out the kinks and perfecting the service.

The Board of Public Affairs, charged with the administration of the Central Purchasing law, was able to secure excellent, experienced buyers. The staff of eight buyers has a combined experience of 207 years in their respective, special fields, or an average of more than 26 years each.

In the first fiscal year of operation, Central Purchasing volume was \$55 millions. The director of the department tells me a conservative estimate of savings would be an average of 14½%. This would mean that this amount of state purchasing has been bought for approximately \$8 millions less than would have been the case without the benefit of Central Purchasing.

Now, there naturally arises the question: Where is this \$8 millions in savings to the state? The savings, of course, remain in the departments and institutions requisitioning the purchase, since the Central Purchasing agency acts only as a buy-

ing service for other arms of state government. Perhaps some of the savings was used to buy long-needed additional materials or equipment, to give pay increases to some deserving state employees, or to return unused appropriations to the general fund. Almost surely it has been taken into consideration by agency comptrollers and budget planners in making their departmental and institutional budget requests. It is entirely possible, as has been suggested by some members of the legislature, that there is a need for more accountability of departmental savings resulting from the use of Central Purchasing.

In addition to the benefit to state agencies from pooling their buying resources for goods and services sought through bid by the Central Purchasing Agency, there have been at least 50 contracts now in operation a year for individual items such as tires, gasoline, office equipment and drugs, to mention a few. Approximately 3500 items are covered under the more than 50 contracts.

Let me mention just a few examples of savings brought about by the Central Purchasing law enacted by the legislature:

During 1960, approximately \$170,000 worth of tires was purchased through Central Purchasing contracts with a savings in excess of \$28,000, or 14½% less than paid prior to Central Purchasing. Nearly three million gallons of gasoline were purchased at a saving of approximately two cents per gallon, or nearly \$60,000 on this one item.

One of our most dramatic areas of savings is in the field of drugs for our various state hospitals and health units. More than \$60,000 was saved last year on tranquilizer drugs alone. Through Central Purchasing the state was able to buy polio vaccine for 30 percent less than the year before, saving almost \$25,000.

An example of savings on specific, necessary brand items was on I.B.M. punch

cards. A survey of agencies using these cards revealed the average volume amounted to more than \$51,000. Yet by negotiating a state contract from the same supplier, we were able to purchase the same quantity for less than \$41,000, a savings of 20%.

The Central Purchasing agency can save still more if it can persuade some of the larger institutions to put the volume of their non-appropriated fund purchases through the agency. It is hoped in the biennium ahead, this can be accomplished.

Although, there is still room to improve the system and expand its coverage, I feel sure most of you will agree that Central Purchasing has been a success.

CAPITOL OFFICE BUILDINGS

Another example of stretching state income and effecting savings of millions of dollars to Oklahoma taxpayers is the work of the Capitol Improvement Authority, which was created by the 27th Legislature.

Work is already well underway on a contract awarded last month for the construction of two new five-story state office buildings north of the Capitol. These fully-air-conditioned buildings, completely modern and efficient in every respect, will be connected with an underground tunnel. Located off the tunnel, underground and between the two buildings, will be a cafeteria and a state auditorium, which can be converted later into a Civil Defense protective area.

These buildings will be completed and ready for occupancy in the spring or early summer of next year.

The important thing about these new structures which will improve the beauty and appearance of the entire Capitol campus and ultimately provide rent-free space to state agencies, is that no additional state appropriations are required from the general revenue fund.

The buildings are being financed

through a bond issue purchased by the state with inactive funds. The bond issue is being paid off with revenue derived from agencies now paying outside rent and from federal rent funds available for state agencies carrying out cooperative federal programs.

Only five relatively small "General Fund" agencies are being considered for occupancy in the new buildings and each of them is now paying outside rent. Most of them have a requested additional needed space over their present usage but this will have to be approved by the legislature in the form of appropriations you make to these agencies. If it is not approved by the legislature, naturally this additional space can not be rented by them. There is sufficient other income to assure retirement of the bonds.

The legislature authorized a \$10 million bond issue and the Capitol Improvement Authority has been able to secure the land and contract for the buildings within this limit.

This legislature's decision to provide for the state to purchase these bonds was a wise one. More than \$7.5 millions will be saved in interest during the life of these bonds.

When these bonds are retired and the state takes full title to these buildings, in from 15 to 17 years, the state will be saving its present expenditure of a quarter of a million dollars a year in outside rent. By that time, the figure probably would have become much larger.

The greater portion of the cost of these state buildings is from federal funds that the state would not otherwise receive.

I have no hesitancy in stating to you that when these buildings and their parking and landscaping areas are complete, they will be a source of deep and patriotic pride to every member of this legislature, and indeed the citizenry of the state.

The vision of Oklahoma's lawmakers in providing for an easily accessible nucleus

of state buildings at the seat of state government is a landmark of precedent and the envy of other states that have erected buildings in a scattered and hodgepodge manner. Its value is not only aesthetic, but efficient, coordinated and a convenient service to Oklahoma people.

WELFARE TRANSFERS

At least \$2.5 millions was saved to the general revenue fund by the 27th Legislature by transferring the Crippled Children's Commission, a bona fide welfare agency, to the jurisdiction of the Oklahoma Department of Public Welfare. The Crippled Children's Commission had requested that amount in general revenue fund appropriations.

The transfer of the functions of the old commission to the Welfare Department became effective July 1, 1959.

Not only did the transfer relieve appropriations pressures, but it provided for an expanded and soundly financed program for crippled children in Oklahoma.

For instance, during the 1959-60 fiscal year, the first full year under the revised operation, payments of almost \$2 millions were made on behalf of 6,843 Oklahoma crippled children's cases—and this without any appropriations whatsoever from the general revenue fund.

Another \$1.8 million was saved to the general revenue fund by action of the 27th Legislature in transferring the cost of administering the general assistance and surplus commodities program to the Welfare Department to be financed from sales tax revenue.

An important point concerning these transfers is that they did not curtail in any way the continuance of other services and functions already being administered by the Department of Public Welfare.

As a matter of fact the converse is by the Welfare Commission in the past true. Two general increases in assistance payments to recipients have been made two years.

On January 1, 1959, public assistance payments in the amount of \$7.9 millions were made on behalf of 119,056 cases. On December 1, 1960, payments in the amount of \$8.7 millions were made on behalf of 117,532 cases. This represented an increase during this administration of over \$800,000 per month. As you know, welfare payments are made from dedicated sales tax revenue and federal matching funds.

There were 1,524 fewer cases receiving public assistance on December 1, 1960 than on January 1, 1959. This was a result of a decrease in the old age assistance caseload due primarily to an increase in the number of persons covered under federal social security at age 65, and larger social security payments.

There was a substantial increase in the average payment per case of public assistance during this period. Average monthly payments for old age assistance increased from \$62.29 per case to \$66.70 per case; aid to dependent children from \$88.60 to \$110.81, aid to the blind from \$78.48 to \$85.14; and aid to the permanently and totally disabled from \$70.10 per case to \$76.32.

Payments for medical care for recipients of Public Welfare increased from about \$1 million on January 1, 1959 to over \$1.2 million on December 1, 1960. The number of public welfare cases receiving medical care increased from 12,031 to 14,088 during this period. These medical assistance payments included payments for hospital services, physicians' services, nursing home service, and nursing care to clients in their own home.

Thus, the general growth of the previous welfare program has been accelerated at the same time that the general revenue fund was relieved of at least \$4.3 millions in normal expense by the two transfers to the Department. So, I feel safe in my conclusion that these two transfers made by the 27th Legislature

were in the public interest and beneficial to all concerned.

REPEAL

By an act of the 27th Legislature, the people of the State of Oklahoma were given the opportunity to once again vote on the question of the legalized sale of alcoholic beverages. As we all know, the people at the election in April voted to repeal the long standing constitutional ban on the sale of alcoholic beverages and to permit the package sale of wines and spirits. The 27th Legislature, acting in accordance with the results of this vote, then adopted a comprehensive Liquor Control Act which implemented the new constitutional provision, and which has since its inception resulted in over 13 million dollars in additional revenue.

Today you can see the effects of 15 months of legal liquor in the State of Oklahoma. During the first 14 months of repeal, the people of Oklahoma received almost 11.2 million dollars through excise taxes from the sale of alcoholic beverages. The people of Oklahoma, up to the first of December, received over 1.2 million dollars from sales taxes on alcoholic beverages sold within the state. Through the 29th of December, the State of Oklahoma received almost \$1,000,000 in fees for licenses issued by the Alcoholic Beverage Control Board. This last figure does not include the revenue received by cities and towns throughout the state from fees for local licenses.

Up to the first of July of this past year, the Alcoholic Beverage Control Board issued over 5000 licenses in all categories with over 3000 of these licenses still active. This last figure includes 766 retail licenses which were active on the first of July. In the enforcement of the license regulations, the Control Board, up to July 1st, had issued 91 citations resulting in 27 suspensions and 7 revocations of licenses.

As legal liquor came in, the bootlegger

has gone out. Figures complete to July 1st of this year show that out of 4200 bottles of liquor confiscated by agents of the Alcoholic Beverage Control Board, all but 514 had Oklahoma taxes paid on them. This indicates that what was once one of the major law enforcement problems of the state has greatly diminished. The bootlegging of today consists almost entirely of occasional illegal sales on Sunday. Due to good enforcement and bad economics, these remaining bootleggers are rapidly being forced out of business. In its enforcement activities under the Liquor Control Act, the agents of the Board have now destroyed 35 stills and they had investigated, on July 1st, 308 charges of bootlegging resulting in 274 arrests.

The law enacted by the 27th Legislature providing for the legal sale of alcoholic beverages has been of great benefit to our state. Our revenue has been increased by over 13 million dollars and we have nearly eliminated what was formerly the most flagrant category of law violators. I want to take this opportunity to commend the members of the 27th Legislature for the wisdom and care they demonstrated in enacting this legislation.

MERIT SYSTEM

The last session of the Legislature enacted a Merit System for state employees providing in general that state job applicants would be hired on the basis of open, competitive examinations and that state employees could not be removed from their jobs except for cause.

No appropriations were made for the operation of the Administering agency, the Oklahoma Personnel Board. The program has been financed through pro rata cost sharing by participating agencies.

As of this date, there are 56 agencies within the Merit System of Personnel Administration, covering a total of 12,155 state employees. Three of these agencies are headed by elective officials who requested to be placed under the Merit

System. They are State Treasurer, Secretary of State and State Examiner and Inspector.

Other state agencies under the system and the number of their employees covered are:

Employment Security Commission-594, Department of Public Health-426, Department of Public Welfare-1,418, Secretary of State-12, Office of Civil Defense-11, State Banking Department-13, Board of Cosmetology-16, Division of the Budget-29, State Reformatory- 92, Securities Commission- 4, Professional Engineers-4, Historical Society-16, Pardon and Parole Board-13, Cerebral Palsy Institute-38, Commissioners of the Land Office-77, Will Rogers Memorial Commission-2, Water Resources Board-7, Department of Public Safety-493, Training School for White Boys-46, State Industrial Court-10, War Veterans Commission-26, War Veterans Home Facilities, Ardmore Division-36, War Veterans Home Facilities, Sulphur Division-133, Adjutant General's Department-53, Oklahoma Liquefied Petroleum Gas-6, Girls Town-38.

Eastern Oklahoma T. B. Sanatorium -138, Western Oklahoma T. B. Sanatorium-180, Whitaker State Home-71, Oklahoma General Hospital-126, Department of Commerce and Industry-21, Oklahoma State Library-45, State Board of Agriculture-307, Oklahoma Tax Commission-622, State Board of Public Affairs-49, State Agency for Surplus Property-34, Capitol Maintenance-Building Superintendent-105, State Highway Department-3,100, Oklahoma State Penitentiary-310, Training School for Negro Boys-27, Consolidated Negro Institution (This includes Training School for Negro Girls)-45, State Bureau of Investigation-38, State Examiner and Inspector-35, State Soil Conservation Board-55.

State Treasurer-18, Salary Administration Board-4, Alcoholic Beverage Control Board-38, Department of Mental Health-6, Central State Griffin Memorial Hospital-1,046, Eastern State Hospital-767, Western State Hospital-383, Taft State Hos-

pital-223, Enid State School-268, Pauls Valley State School-182, Oklahoma Planning and Resources Board-299.

There are approximately 35 state agencies not yet under the Merit System. Of this number, 21 are small agencies employing three or fewer persons. Ten are agencies headed by elective officials and four are quasi-state agencies receiving no state appropriations what-so-ever.

Although the system is new in Oklahoma, the Personnel Board has held expenses in line, in spite of extra organizational costs.

The National average cost per employee per year is \$19.64 for all 30 states with the merit system. Oklahoma's cost last year was \$10.68, or 47% below the national average. Only three states had lower costs than Oklahoma. Alabama was four cents per employee lower and Missouri was 40 cents per employee lower. Tennessee was \$1.45 lower but the administering agency in Tennessee does not include the cost of testing and printing.

I believe the merit system has brought more stability to government in Oklahoma in giving job security to competent state employees and creating a method for obtaining qualified employees possible in the future.

TURNPIKES

Before discussing what has transpired this biennium on the new turnpikes authorized by the last session of the legislature, let me mention briefly the progress being made on our existing turnpikes. It is estimated that out-of-state traffic is paying 65% of the cost of Oklahoma's toll roads. And, of course, no tax money whatsoever is spent on them. We thus have 176 miles of super highways in the state over heavily-traveled routes at no expense to non-users. This has freed \$116 millions in construction cost alone—not to mention maintenance and operating costs—for use on free roads in Oklahoma. Our two present turnpikes have proven to be good investments for Okla-

homa and both are well ahead of schedule in debt retirement.

Oklahoma's two operating turnpikes, the Turner Turnpike and the Will Rogers Turnpike, have both made outstanding progress during the past two years. Annual net revenue of the Turner Turnpike has increased from \$2,545,000 to \$3,054,000, a gain of 20 per cent. Annual net revenue of the Will Rogers Turnpike has increased from \$1,846,000 to \$2,306,000, a gain of 25%.

The Turner Turnpike which was financed by a \$38,000,000 bond issue has retired \$3,313,000 of its bonds and has reserves of \$4,082,000, leaving a net indebtedness of \$30,605,000. Interest coverage for the twelve-month period ended November 30, 1960, was 2.45 which is second only to the original Pennsylvania Turnpike.

The Will Rogers Turnpike which was financed by a \$68,000,000 bond issue, has retired \$3,821,000 of its bonds and has reserves of \$7,115,000, leaving a net indebtedness of \$57,064,000. Interest coverage for the twelve-month period ended November 30, 1960 was 0.98. This was only \$41,000 short of meeting the annual interest requirements of \$2,347,000. It is now a matter of only a few months until the Will Rogers Turnpike is fully meeting its annual interest requirements.

The Southwestern and Eastern Turnpikes were authorized by HB 932 of the 1959 Legislature. The legislation authorized pledging of a sum not to exceed \$1,000,000 per year of the motor fuel tax on the motor fuel consumed on the Oklahoma Turnpikes as a guarantee of the bonds.

Applications for approval of the Act was made to the Supreme Court on August 29, 1959. After the necessary hearings, briefs, and other proceedings, the Supreme Court rendered its decision approving the Act on January 8, 1960. On February 12, 1960, the Authority employed Wilbur Smith and Associates of New Haven, Connecticut, to make the

necessary traffic and revenue studies for the new turnpikes. On March 12, 1960, the Authority designated two investment banking firms to act as underwriters for the proposed revenue bond issues. On May 24, 1960, the Authority employed De Leuw, Cather & Company of Chicago, Illinois, to make the Civil Engineering and Cost Report on the Southwestern Turnpike, and on July 21, 1960, employed the same firm to make the Civil Engineering and Cost Report on the Eastern Turnpike.

The Civil Engineering and Cost Report on the Southwestern Turnpike was completed and submitted to the Authority on July 15, 1960. The Civil Engineering and Cost Report on the Eastern Turnpike was completed and submitted to the Authority on August 15, 1960. The Traffic and Revenue Report on the Southwestern Turnpike was completed and submitted to the Authority on July 30, 1960, and the Traffic and Revenue Report on the Eastern Turnpike was completed and submitted to the Authority on September 1, 1960.

The Trust Indenture and supporting papers requisite to financing the turnpikes were completed by the Bond Underwriters and their Bond Counsel and application was made to the Supreme Court for their approval on October 1, 1960. All necessary hearings, briefs, and other proceedings before the Supreme Court have now been held and the case is awaiting their decision. It is hoped that we will be able to secure an early commitment from the Bond Underwriters for financing the turnpikes.

The Civil Engineering Reports, Traffic and Revenue Reports, and Trust Agreement as finally drafted cover a \$59,000,000 Southwestern Turnpike and a \$31,000,000 Eastern Turnpike.

These are estimated figures which include the total cost of construction of the turnpike, three year's interest during construction, and the total cost of construction of all access roads connecting

the Turnpikes with State Highways. In other words, it should be made clear the Turnpike Authority, not the State Highway Department, will pay for all access roads.

The routes of the two proposed turnpikes are strategically located to funnel additional out-of-state traffic into Oklahoma that otherwise would plan to miss the state completely. The Southwestern Turnpike also will place Oklahoma businessmen in a competitive position with Dallas and Ft. Worth for the business of Southwest Texas, Southern New Mexico, and Southern Arizona. In the same manner, the Eastern Turnpike will place Oklahoma businessmen in a competitive position with Dallas and Ft. Worth for the business of Eastern Texas and the gulf port cities of Houston, Port Arthur and New Orleans.

I feel that construction of these two turnpikes will be a major step forward in the progressive development of Oklahoma as the industrial center of the Southwestern sector of the United States.

HIGHWAYS

One of the highlights of Oklahoma's highway program during the past two years has been the completion of more than 80 miles on the **Interstate System**. This is 23% more than in the preceding biennium when 65 miles were completed.

This brings the total of Interstate highways constructed by the Highway Department to 145 miles. Added to the 176 miles of Turnpikes accepted on the Interstate network, Oklahoma now has approximately 321 miles completed of its authorized 796.5 miles.

It is estimated that it will cost \$373 millions to complete the remaining 475 miles on the Oklahoma portion of the Interstate network. Of this amount, \$233 millions will be needed for rural areas and \$140 millions for urban areas.

During the current biennium, the **Highway Relocation Program** in the state's

reservoir construction areas of Oologah, Keystone and Eufaula progressed at a rapid rate. The problems arising from the Corps of Engineers' policy on "replacement in kind" were considerably resolved through the persistent efforts of the Highway Department, the Legislative subcommittee on highway finance, and Oklahoma's Congressional delegation. This combined work resulted in a reduction of over \$17 millions to the state in reservoir betterment cost estimates.

The relocation in the Oologah area is virtually complete while the state's share of work remaining at Eufaula is about \$14.5 millions and at Keystone is about \$5.8 millions.

The State Highway Department has cooperated fully with the **Turnpike program** enacted by the last session of the legislature. It should be pointed out that no state highways are being planned or are scheduled to be built solely to accommodate turnpikes. Every state highway planned in the cooperative program with the Turnpike Authority is one that was already programmed and due to be built anyway. The construction timetable was shifted by the Highway Department in some cases in order to give the state a chance to get approximately \$90 millions worth of four-lane highways without cost to taxpayers from appropriated funds.

Internally, the Highway Department has reviewed and improved inspection practices and policies, instituted a program of replacement of antiquated and worn-out equipment, and started a training program in each of the eight field divisions for department personnel.

Here are some significant statistics from the past biennium:

Contracts were awarded in the 1960 calendar year in the amount of \$45 millions.

As of November 30, 1960, state forces (Construction, Maintenance and Special Projects) projects under construction totaled \$3.6 millions.

As of November 30, 1960, state forces

(Construction, Maintenance and Special Projects) complete projects in the amount of \$5.3 millions.

Total projects under contract as of November 30, 1960 equaled \$59.6 millions.

From January 1, 1959 through November 30, 1960 contracts in the amount of \$105.8 millions were completed.

During the past two years, 501 miles of highways have been constructed; 372 miles of two-lane, 124 miles of four-lane, and 5 miles of six-lane.

Much of the problem we have faced in the Highway construction program during the last two years has been due to:

1. The heavy expense of state funds necessitated by the relocation of highways in areas of lake construction by the Corps of Engineers.

2. Considerably less federal participating funds have been available due to lack of congressional appropriation. For instance, in 1958 there were \$56 millions available in federal funds for Oklahoma highway construction. In 1959 available funds dropped to \$40 millions and in 1960 they dropped to \$32 millions.

EDUCATION

The education of our young people creates a never-ending problem of finance, and as I said in my message to the 27th legislature, it remains one to which we must apply our first concern. It is imperative that we continue to employ our highest imagination and muster our finest resources to attain this important goal of providing sound, lasting, quality educational training for young Oklahomans.

In reporting to you on the progress made in the field of education the past two years, I am happy to state it has been perhaps the most significant biennium in history in undergirding our common schools with a better financing program.

Let us make a quick comparison to show you the magnitude of the provisions made by the last session of the Legislature.

Appropriations for common schools were increased in 1955 by 3¼% over that made in 1953 and the appropriations in 1957 exceeded those of 1955 by 9½%. Compare this to the **actual** appropriation made by the 27th Legislature in 1959 which exceeded the previous one by 16¼%. And the authorized program, if we are able to supplement it to implement the existing school code, will make the total appropriations to common schools for this biennium more than 30% greater than those of the previous period, according to figures of the Finance Division of the State Department of Education.

What have we been able to do with this more stable financing? For one thing, we have increased the salaries of our underpaid teachers by an average of \$300 a year more than they were receiving two years ago. The average salary of all teachers in Oklahoma for the current year is approximately \$4,950. Although this is a sizeable increase, it is still difficult to keep up with the national parade. Our annual teachers salaries, for instance, are now approximately \$375 below the national average. The personal income of all Oklahoma citizens trails the National average by \$380.

It should be pointed out here that Oklahoma has the best qualified teachers in the nation. Of the 21,530 teachers in the state, only 80 do not have a bachelor's degree or better. This is 99.7% of our teachers, bringing us the Number One ranking in the United States.

In addition to much-needed increases in teacher salaries, school districts have received additional aid from the state for operational expenses.

Consolidation of school districts has not been as rapid in the past two years as some earlier like periods. About 100 school districts were consolidated, bringing the number down to 1,274 districts. Of this number, 700 are grade schools only. Of the remaining 574 districts offering high school work, approximately 125 of them qualify for only three high school teachers.

While the number of districts has been decreasing, school enrollment has been growing between 8,000 and 10,000 per year.

Significant strides have been made in improving the quality of education. For instance, the State Superintendent of Public Instruction reports to me that 70% of the children in junior and senior high school are now enrolled in schools that have some type of guidance and counseling program.

Last April, the State Board of Education, raised the requirements for high school graduation for the first time since statehood and I am told it has been received enthusiastically by professional school people. Beginning with the graduating class of 1962, pupils will now have to have a minimum of 18 units, instead of 16, to receive a high school diploma. More important in that same action was the requirement that 16 of these units must be in "solid" subjects. School people have told me that some students have been able to graduate in the past with as low as 11 or 12 "solid" units.

When we consider the high percentage of our high school graduates who attend college, the emphasis on improving and adequately financing education at all levels is increasingly apparent.

In 1960 there were 27,000 high school graduates in Oklahoma and over 50% of these are already enrolled in college. This is the highest average in the south and southwest, and among the highest in the U. S.

Enrollment in state supported colleges has increased by 10% in the past two years to its present level of nearly 45,000.

In 1957, appropriations for higher education were \$43 millions. The 1959 Legislature appropriated \$50 millions for operations this biennium plus a \$2 million supplemental for the previous biennium. In addition another \$1 million was appropriated for matching funds to build the OU Medical Research building and the Kellogg Center of Continuing Education.

This total of \$53 millions in actual appropriations represented an increase of more than 20%.

Faculty salaries in our colleges have been increased by an average of \$500 per year and on some campuses up to \$800. Average faculty salaries at the two major campuses are now \$7,000 a year, \$6,200 at the 4-year colleges and \$5,600 at the 2-year colleges.

I want to commend the work done by the Legislative Council interim committee on higher education as well as the Governor's Commission on Higher Education. These two groups spent thousands of man hours studying and working on the problems of higher education and came forth with a report, most of which was approved by the Legislative Council Executive Committee. The Board of Regents for Higher Education has launched on a bold new program of improving quality while stretching the appropriated dollars. A new Chancellor has been selected who believes in the recommendations of the Legislative Council. One of his first statements after the announcement of his appointment was to the effect that while more funds are needed for higher education, that a still better job can and must be done to stretch present income as far as possible.

With this attitude on the part of professional leadership in higher education and with the tremendously increased public awareness of the whole scope of education in Oklahoma, I foresee a bright future indeed for the education of our young people.

COMMERCE AND INDUSTRY

During 1959, 46 new industries were established in Oklahoma, adding 1,600 new industrial jobs, and having a total investment of more than \$30,000,000. Also, in 1959, 53 existing industries had expansion programs announced, started or completed, adding 2,150 jobs and \$36,500,000 in investments. In addition, 27 governmental, service, and agricultural opera-

tions of an industrial nature, new and expanded, added 2,200 jobs and more than \$37,000,000 in investments.

For 1960, the figures are 53 new industries, with 3,600 jobs and \$77,500,000 invested; 37 expansions, with 1,200 jobs and \$18,500,000 invested; 19 governmental and other operations, with 1,350 jobs and \$11,250,000 invested or pledged.

This totals up to 12,100 new jobs, and \$210,750,000 invested or pledged during the past two years. Much of this industrial growth has been influenced directly by the Department of Commerce and Industry. All of it has been influenced at least partially, or indirectly by the department.

This industrial growth is almost solely responsible for the economic growth of the state in the past two years. With declines continuing in oil industry and farm job opportunities, industrial growth is the only thing left on which to base our future economic growth.

More than 15 existing industries in Oklahoma have been given direct assistance by the department, receiving free, such services as plant layout, management and production advice, marketing assistance, product development, and other services. This assistance, planned particularly for small manufacturers or those just getting started, is available for any firm which requests it.

The Department, as state planning agency, has administered more than \$480,000 in local and federal funds for city planning. The program includes 43 different studies for 26 separate communities, plus metropolitan planning projects for Enid and Lawton.

During the past two years, the department has administered a small business research program, with \$80,000, provided by two federal grants, going through the department to the research organizations of the University of Oklahoma, Oklahoma State University, and the University of Tulsa for 9 specific studies of problems affecting small businessmen in Oklahoma.

In seeking new industry for Oklahoma, the department, in the past two years, has sent out 193 personalized brochures, for 13 different types of industry, with information specifically related to each prospect. Department staff members visited personally with some 50 industrial prospects, and, working closely with local chamber managers and other development people, have been instrumental in helping to locate several new plants in the state.

The traffic section of the department, created just over two years ago, has solved or given assistance on freight rate problems for several Oklahoma industries, the help in one case being responsible for the continued operation of a refinery which otherwise would have closed. The department has been instrumental in achieving rate reductions on builders hardware, steel billets, hay, asphalt, lumber, and other commodities.

To help communities with their development efforts, the department has assisted in the organization of 23 new industrial development foundations during the past two years, and is currently working with 18 more communities which are forming new foundations. Other aid to communities includes the organizing and sponsoring of conferences and seminars relating to specific development activities.

OKLAHOMA EMPLOYMENT SECURITY COMMISSION

Although there are 850,000 persons employed in the state today, unemployment is high. Helping to cushion the impact of layoffs in some plants and also because of seasonal factors, the Oklahoma Employment Security Commission is paying unemployment insurance to some 22,000 persons each week. The average check is \$26. This helps the jobless worker pay his grocery bill and provide a few other necessities until he can return to work.

Our unemployment insurance program is vital to our economy as a stabilizer.

These payments keep merchants from having to close when temporary shut-downs hit a community, and money paid jobless persons is spent over and over.

The weekly wage of nearly 400,000 Oklahomans covered by the Employment Security Act has risen from \$80.25 in 1958 to \$84.25 in 1960.

Through efficient service in offices at 24 cities, the state employment service without charge has placed workers on 275,000 non-farm jobs and 180,000 farm jobs during the last two years.

AGRICULTURE

The picture of agriculture in Oklahoma is at once both bright and dark. In 1960, the agricultural industry grossed approximately 660 million dollars. This great production, the greatest ever in the history of our state, kept agriculture at the top of the list of the state's industries. But these past two years have greatly increased the demand for services upon the State Department of Agriculture. For example, in order to maintain Oklahoma's rightful position as a livestock producing state, it has been necessary for the Department to increase by 150% its testing for Bang's and other livestock diseases. It is anticipated that an even greater demand will be made upon the Department in the future.

The Department's division of Brand Registry and Investigation, which was established by the last Legislature, located 440 cattle which had been reported as strayed, stolen, or dead. As a result of this division's activities, 50 persons were arrested and charged with larceny.

The State Department of Agriculture last year tested over 225 thousand chickens and 47 thousand turkeys in state breeding flocks. To correlate the many thousands of tests made on seed, fertilizer, pesticides, dairy products, and food, the Department established, on July 1st, the Division of Chemistry.

One of the outstanding advances made

by the Department of Agriculture is due to the transfer by the 27th Legislature of the Forestry Division to the Department. While protecting more land, the Forestry Division has been able to greatly reduce the economic losses suffered by our state due to forest fires. Since the transfer, there have been 387 fewer fires and over 62,600 fewer acres destroyed by fire. By the change in fire control methods, which was a result of the 27th Legislature's action in transferring the Forestry Division to the Department of Agriculture, the Department has been able to save the state over \$175,000 dollars worth of one of its great natural resources.

SOIL CONSERVATION

Great progress has been made in the field of soil and water conservation in the past two years. With the aid and assistance of the State Soil Conservation Board, the eighty-seven soil conservation districts in Oklahoma have added more than 3,000,000 acres of land the past two years to the total area on which conservation measures are being applied.

A very important part of the overall soil and water conservation program in Oklahoma is the upstream flood prevention program. On January 1, 1959 there were on file with the State Soil Conservation Board sixty applications for assistance. On January 1, 1961 there were seventy-eight such applications on file. During the current biennium, plans have been or will be completed on sixteen watersheds so that construction can begin, with planning under way on another four watersheds. The planning of this number of watersheds was made possible by the appropriation by the 27th Legislature of funds with which to accelerate the planning. Prior to that time an average of only four watersheds a year were being planned. To complete the construction of the twenty watersheds planned or under planning this biennium, the Federal Government will spend some \$23,000,000 over the next eight to ten years. During this

same period, nine other watersheds have been under construction with more than 90 flood prevention dams being built at a cost of \$2,750,000 paid by the Federal Government. In addition, over one hundred dams have been built in the Washita River Watershed with more than \$4,000,000 being spent. The great progress in construction has been helped tremendously by the Small Watershed Flood Control Fund supplied by the State. During the last fiscal year Oklahoma received one-sixth of the total national appropriation for construction for upstream flood prevention.

WATER RESOURCES

The State of Oklahoma through the combined efforts of federal agencies and the Oklahoma Water Resources Board has with the guidance of the Legislature embarked on a far-reaching program for the development of water resources.

Data secured by the Ground Water branch of the United States Geological Survey in co-operation with the Oklahoma Water Resources Board has been of great value to the farmers, cities, and industries of the state as a guide for their development of water supplies. As an example, there were 50 irrigation wells in Caddo County in 1953, and in 1960 there were 528 wells. In 1959, the state had over 307,000 acres of land under irrigation.

Perhaps the most noticeable and spectacular progress in the field of water resources is the construction of many lakes and reservoirs within the state. There are three projects under construction by the Corps of Engineers in Oklahoma. Eufaula Dam and Reservoir located on the Canadian River 12 miles east of Eufaula, in McIntosh County. Normal surface area will be 48,000 acres. Normal storage will be 2,378,000 acre-feet. The dam is 112 feet above the present stream bed. It is scheduled for completion in 1965. Keystone Dam and Reservoir is located on the Arkansas River about 15 miles west of Tulsa in Tulsa County. Normal surface area

will be 20,500 acres. Normal storage will be 465,000 acre-feet. The dam is 121 feet above the present stream bed. It is scheduled for completion in 1965.

Oologah Dam and Reservoir is located on the Verdigris River about 2 miles south-east of Oologah in Rogers County. Normal surface area will be 5,850 acres. Normal storage will be 58,000 acre-feet. The dam is 129 feet above the present stream bed. It is scheduled for completion in 1962.

The Bureau of Reclamation has completed the Fort Cobb Dam and Reservoir located on Cobb Creek, a tributary of the Washita River in Caddo County. It was constructed for irrigation, flood control, municipal and industrial water supply. At the top of the conservation pool the surface area is 4,092 acres and the capacity is about 80,000 acre-feet. Shoreline at normal level will be approximately 43 miles. The maximum height of the dam is 101 feet above the original stream bed. Construction was essentially completed by the fall of 1959.

The Bureau of Reclamation has under construction the Foss Dam and Reservoir located on the Washita River 15 miles west of Clinton. It is being constructed for irrigation, municipal and industrial water supply and flood control. At the top of the conservation pool the surface area will be 8,800 acres and the storage capacity will be about 250,000 acre-feet. Shoreline at normal level will be approximately 48 miles. The maximum height of the dam is 134 feet above the original stream bed. Construction is scheduled for completion in 1961.

The reservoirs and lakes mentioned above are indicative of the great potential the state has in this field. As an example of further development, it should be noted that in southeastern Oklahoma alone the water supply storage planned in the Corps of Engineer's and Oklahoma City's Southeastern development will give a net yield of over 3 billion gallons a day, a quantity of water sufficient to sup-

ply the needs of 50 cities the size of Oklahoma City.

PLANNING AND RESOURCES

Our state parks rank seventh nationally in total attendance, and second in total income. The impact of recreation and park usage is evidenced by the fact that more than 8,000,000 visitor-days per year were counted in our parks and recreation areas last year, a four per cent increase over the previous year.

During the past two years five new recreational areas have been acquired, and \$400,000 has been spent on capital improvements. Capital improvements now under construction are valued at \$200,000.

The Oklahoma park lodge program has gained national recognition. With respect to the lodges, all bond payments are now current, as well as the reserve and contingency funds. The annual payment due June 30, 1961, is being deposited periodically and will be complete prior to June 30.

Oklahoma Today magazine has achieved a circulation of 22,000 copies per issue and, by Audit Bureau of Circulation figures, each issue is now being read by well over 100,000 persons in every state of the Union, and in 58 foreign nations. Major articles from Oklahoma Today have been reprinted in Life Magazine, and used as reference material by many national publications including the Saturday Evening Post. The magazine is creating a positive and favorable picture of Oklahoma as a pleasant place to live, a fine location for business and industry, a state with a colorful historic heritage and beautifully scenic terrain — America's Newest Vacationland.

The planning board's promotion division functions on an appropriation of \$82,500 annually, less than half of the amount available to each of her adjacent sister states. The division distributed more than 500,000 copies of Oklahoma folders and booklets during the past two years, par-

ticipated in 10 travel expositions in other states, and provided continuous information service to all publicity media.

With respect to the boat and water safety law, there were 47,000 boats registered during the first year of the legislation, and titles to motors were issued to 36,000 owners. Total income the first year of operations was \$177,000. Of this amount, \$42,000

was transferred to the magazine Oklahoma Today.

OKLAHOMA TAX COMMISSION

In the fiscal year 1959-60 the Oklahoma Tax Commission collected \$261,716,000, or approximately 86% of the total state collections of \$303,800,000.

A comparison follows of the total collections for the last two fiscal years:

		Increase Decrease*Over		Increase Decrease*Over
	1958-59	1957-58	1959-60	1958-59
Taxes	\$206,272,024.	6,988,826.	\$222,468,187.	\$16,196,162.
Licenses,	36,719,343.	1,630,109.	38,954,597.	2,235,254.
Fees & Permits				
Misc.	9,306.	361.	10,258.	951.
Special Accounts	293,273.	845. *	283,036.	10,237. *
TOTAL	\$243,293,948.	8,618,451.	\$261,716,079.	\$18,422,131.

Included in the increase for the fiscal year ending 1960 was the newly created alcoholic beverage tax amounting to \$8,-252,365. Other taxes indicated an increase with the exception of the gross production tax.

Although the increase each year in total collections over the previous year is largely attributable to the continuing general rise in economic conditions, it may also be attributed to a constant improvement in the administration of the various tax laws by the Tax Commission.

Additional tax, penalty and interest collected as a result of field audits, office audits and delinquent tax amounted to \$7,276,807 in the fiscal year 1959-60.

An improved system of comparing social security numbers on income tax and information returns, which was accomplished by electronic accounting machines, together with an overall stepped-up enforcement program, was reflected in the total additional tax, penalty and interest collected by the Income Tax Division in the 1959-60 fiscal year which amounted to

\$2,188,776 as compared with \$910,922 in the fiscal year 1957-58.

The General Enforcement Division, which maintains a field enforcement effort applicable to all taxes, collected \$2,-534,408 in additional tax, penalty and interest in 1959-60.

SECURITIES COMMISSION

In the past 18 months, we have all been able to observe the effectiveness of the new Oklahoma Securities Act, and the vigorous manner in which it is being administered. Many of you will recall that this act was prepared by the Insurance Committee of the State Legislative Council, primarily as a result of their investigation of the Selected Investments situation, and was subsequently enacted by the 27th Legislature. Those of you who helped pass this Act may be quite proud of your accomplishment.

This act created a new Commission, which oversees the operations of the department, while the actual administration of the act is accomplished by an Administrator and his staff.

The qualification examination and surety bond now required of all securities agents and dealers has established in the eyes of the public, the responsibility of these persons. The Commission is taking every possible action to enlighten and protect the public of Oklahoma in their securities dealings.

The securities industry supports through the payment of fees and charges, the operations of the Commission. As a result, the Commission is more than self-supporting.

OKLAHOMA NATIONAL GUARD

The highlight of the past two years in the Oklahoma National Guard was the complete reorganization of the 45th Infantry Division to the Pentomic concept. No community lost a unit as such, however, some of the full-time personnel were required to move to other communities. The Guard now has units in 78 communities in 56 counties.

Armory drill pay provided by the federal government for the state's 9,300 guardsmen totaled \$2,796,139 in 1960 plus \$1,064,151 for active duty training, \$294,666 for guardsmen attending service schools, and \$3,298,542 for full-time employees. Total federal funds for 1960, including payrolls, were \$12,536,663.

The state military department maintains 120 buildings, with \$7,811,796 in construction since World War II. From now until the end of fiscal year 1963, federal spending for guardsmen will total \$28,951,239. Federal equipment issued to state guardsmen totals more than 15 million dollars.

If state units would reach full strength the potential would be even greater. This year Army National Guard units did well in recruiting, and now have reached full state authorized strength, the first time since reorganization after the Korean War. Also, it is contemplated that the Guard will train at Fort Chaffee in Arkansas this year, thereby providing a better opportunity for Oklahomans to see their

troops at a considerable savings of federal funds.

One of the big problems facing the Division this year is the enactment of the Reserve Officer Personnel Act (ROPA) by Congress, whereby the Division will lose many of its older key officers, who will be phased out of the Division by this Act. The main source of officers for the Division comes from our own State Officer Candidate School (OCS), conducted here in Oklahoma City by our own people. The State OCS program has graduated 125 officers since it was organized in 1957, and has retained 76 per cent of them.

The Oklahoma Air National Guard consists of 1800 airmen and officers based at Oklahoma City and Tulsa. The jet fighters of Oklahoma City's units will be converted to long-range transports, such as Tulsa operates, in the near future. The federal government has invested \$4,210,894 in facilities for the Air National Guard in these two cities.

DEPARTMENT OF PUBLIC SAFETY

Oklahoma's Department of Public Safety has made great progress in the past two years in the field of traffic safety, its primary function. In spite of the fact that the Department is undermanned, both in civilian and uniformed personnel, it is going about its business in a determined and commendable fashion.

Since becoming Governor two years ago, it has been my privilege to visit a number of other states and to see many organizations similar to our Department of Public Safety. If the citizens of Oklahoma had been afforded this opportunity for comparison, I am sure that they would be, as I am, justly proud of our highway patrol.

The patrol has at present 281 troopers, which is 58 below its authorized strength. This is about half the number of men recommended for it by both the National Safety Council and the International Association of Chiefs of Police. Yet, in spite of this, Oklahoma has shown a constant

reduction in fatalities over a two-year period.

There has been great progress in the department's long range training and in-service training programs.

The department's safety education program has moved ahead in great strides. During the past year it has doubled its contacts with schools and civic clubs. This is most important as it is universally agreed that the basic problem behind traffic accidents is driver attitude, and it is the function of safety education to develop the proper attitude among our drivers. The work done in this field will be reflected in the future as a result of the state's high school driver-education and adult driver-training programs.

The department has stepped up its enforcement activities to the point where there are now 76,000 more licensed drivers in the State than there were two years ago.

For the past year, the total number of fatalities in Oklahoma is slightly greater than the 642 persons who died in 1959 but I would like to point out that there is still a substantial reduction in the number of traffic deaths in the rural areas of the state, the area for which the department and its patrol bears primary responsibility.

You are aware of the accelerated enforcement program because in your travels about the State you are seeing more patrol cars on the road than ever before.

In fact, as the result of these concentrated efforts by the Oklahoma Department of Public Safety, Oklahoma now ranks eighth in the nation in the reduction of traffic deaths over the past two years, an accomplishment which I consider to be outstanding, especially when it has been done despite a lack of both adequate personnel and finances.

MENTAL HEALTH

There has been a steady decline in the average daily resident population of our

mental hospitals since 1953, in spite of an increasing number of geriatric infirm cases. During this period, there has been a reduction of 880 resident patients. During the past year there has been a 2.2% reduction in the population of all hospitals (with Central State Griffin Memorial Hospital showing a reduction of 4%.)

Both total admissions to the hospitals and live separations from the hospitals continue to increase indicating that despite decreased resident populations we are giving services to more individuals than ever before. If we compare fiscal 1960 with fiscal 1950, we find an increase of 10% in admissions and a 78% increase in separations. This would seem to indicate that proportionally more money is being spent to treat patients and less to house, feed and clothe patients.

The increase of senile and infirm patients in our institutions is bringing added strains on already limited staffs and facilities. Difficulty in finding suitable space for this type of patient, additional demands for nursing care and increased medical surgical care add to the burden of giving adequate care and reduce funds available for treatment of other patients.

Improvements in the water system at Taft, for which \$20,000 was appropriated in the last session of the legislature, have almost been completed.

At Pauls Valley State School, a new 84 bed cottage has been opened and progress on new cottages is ahead of schedule.

Preliminary program planning for the new institution at Sand Springs has been completed and development of a master plan is beginning. Construction should begin within a year. Plans call for the development of facilities for the treatment, training and rehabilitation of patients which are not available in our present institutions at this time. The nineteen northeast counties have been designated as the area to be served by this institution. Patients requiring specialized facili-

ties of this institution can be transferred there from other institutions.

In collaboration with the University of Oklahoma and various hospitals, active training programs for the training of psychiatrists, psychologists, social workers and nurses are being carried out.

The Southern Regional Educational Board has spent \$8,175.00 to send various staff members to various places about the country to learn new techniques and observe programs in other states.

PUBLIC HEALTH

One of the major advances made during the biennium which will have far reaching influence on the health progress in Oklahoma during the sixties, was the approval by the people of the state of a new constitutional amendment, allowing counties by referendum vote to levy taxes to support local health programs. Already five counties have taken advantage of this legislation and have voted favorably on a special levy for public health. Several other counties are in the process of considering similar legislation.

Hospitals and other health facilities have continued to grow in number and size during the last two years. More than twenty hospitals were completed or are now in the construction stage. This will raise the number of hospital beds in the state more than 700. The total cost of these facilities has been more than \$13 millions.

Through the stimulation provided by grants-in-aid to cities and towns, major improvements have been made in sewage collection and treatment facilities in 38 cities and towns. The total cost of these improvements has been more than \$7 million.

Safeguards against some of the potent viral diseases, such as influenza and polio, have been increased through the improvement of a virus section in the state laboratories. This is the only place in

the state where certain diagnostic tests for viral diseases can be made.

New services and programs against rheumatic heart disease were initiated during the last two years. These include the use of a new technique for detecting carriers and cases of strep infection.

One of the programs initiated during the biennium is concerned with day care facilities for children. Preliminary studies reveal more than 400 facilities caring for more than 8,000 children. The success of this program is due primarily to the cooperative effort of many of our state agencies, including the Governor's Committee on Children and Youth, proprietors and staffs of day care facilities, and a large number of private citizens.

In cooperation with nursing home operators and the Department of Public Welfare, a great improvement in services and care for senior citizens in nursing homes has been stimulated through a recently inaugurated certification program. During the biennium a glaucoma unit and an arthritis and rheumatism unit were established to provide additional services for our older citizens.

A trailer truck has been equipped and staffed so that a number of tests can be quickly made for some of the more important and common chronic diseases such as diabetes, obesity, tuberculosis, certain lung and heart disorders.

At the beginning of this biennium a geriatrics center was established in cooperation with the University of Oklahoma Medical School. This Center was developed (1) to study the emotional problems of the aging and to promote better mental health among this aging population in the state and (2) to establish a geriatrics information center, listing resources available throughout the state to handle problems which arise among the aged. This information is available to physicians, to hospitals, to voluntary governmental agencies, to nurs-

ing home operators and to others who desire such information.

Dental health programs have made good progress and now over 720,000 of our population are benefitting from dental

health protection by the fluoridation of municipal water supplies.

We humbly thank Thee, Almighty God, for the many blessings Thou hast given to our State, and add this Oh Lord, to Thy other mercies, that we may be enabled to use them better to Thy service. Lord, take from among us all contempt of Thy word and commandments. Break down all barriers of selfishness and ignorance which keep men from Thee.

Be gracious unto us, O Lord, and bless us. Stretch forth the right hand of Thy protection to guard our great State, that we being devoted to Thy service, may ever be defended by Thy power.

Grant and continue this power unto our Legislators and rulers who themselves have been taught the wisdom of the Kingdom of God. Endow all members of this governing body with a right understanding, a wholesome purpose, and sound speech. Enable them to rise above all self-seeking into the larger sentiments of public good and human brotherhood. Cleanse our public life of every evil; subdue in our state all that which is evil. Give us self-restraint that we may do Thy will on Earth as it is in Heaven.

Send Thy blessing, O Heavenly Father, on this our beloved Nation. Increase in our own, and in every nation of the spirit of truth and Justice, peace and Godly love. Turn the hearts of all men unto Thee, and so hasten the blessed time when the Kingdoms of this world shall become the Kingdom of our Lord. Bless, not only the Governor of our great State, but the President of our United States, and endow them with a special portion of wisdom and discernment, that they may govern well in these days of Crisis. We offer this prayer in the Name of Our Lord and Saviour Jesus Christ.

Amen.

A RESOLUTION REQUESTING THE

WHEREAS, the State Senate of the State of Oklahoma is vitally concerned with the road construction program of the State; and,

WHEREAS, the Oklahoma State Senate appointed a committee to study the operations of the State Highway Department; and,

Dear Senator Cartwright:

I find it difficult to express my deep appreciation and gratitude for the privilege you fostered for me this past week. I shall remember my experience as Chaplain of the Senate for years to come, and, in return, I pray I shall be able to lift the elected office of Senator in Oklahoma to the dignity and honor it justly deserves.

I shall be more consistent in my prayers for you, the President, President Pro Tem, and all the Senate members. I realize, now, the heavy burdens and complex problems you face. May God bless you and guide with heavenly wisdom.

I enjoyed my visit with Senator Field during the noon meal on Tuesday. He was helpful to me in explaining various aspects of Senatorial procedure. I am afraid, Senator Cartwright, that the average citizen, like myself, needs at least an elementary education in the legislative methods of our Senate and House. I do not believe the newspapers have been fair in their representation of our lawmakers. After the Monday afternoon session, I returned to my room and watched the news telecast. The station had selected a small portion of Senator Allen's speech on the Oklahoma City expansion, and the part emphasized where he said, "I want Oklahoma City to keep their cotton-picking hands off my County." I enjoyed his speech, and I certainly agree with him. But, Oklahomans saw only his emotional flight. I'm not sure that TV coverage of the Senate session is best for the Senate, that is, if the Senate has no control over the portions to be televised.

I believe that there is more dignity in the Senate than is being conveyed to the public. I believe the day is here when our elected lawmakers need elevation in honor and prestige. You did not seek the Senate for profit, and your many obligations certainly indicated you aren't afraid of work.

Be assured of my prayerful concern for you as you represent our district. Call on me if I can be of help to our great State of Oklahoma.

Sincerely and gratefully yours,
Ralph A. Crawford, Pastor."

Senator Ritzhaupt asked unanimous consent, which was granted, that copies of the above Communication be ordered sent to all Rural newspapers of the State.

COMMUNICATION

Senator Berrong submitted the following Editorial, from The Tulsa World, under date of January 26, 1961, which is herewith incorporated upon motion of Senator Grantham:

KAVANAUGH ROLE HARD TO DEFEND

GOVERNOR EDMONDSON and his Administration can only be hurt by the fact that Al Kavanaugh, a prominent and controversial figure in the contracting and asphalt businesses, sat in on the interview of Frank Lyons for his new job as State Highway Director.

The disclosure has been made—as a result of newsmen's questions — that Kavanaugh was present when the Governor and Harold Stuart, First District Highway Commissioner, questioned Lyons in Missouri, Jan. 14. Edmondson said the contractor went to the interview at his request.

Considering Kavanaugh's position as a man who does business with the Highway Department, selecting him to help out with the questioning seems at best an un-

wise and untimely act, particularly in view of the recent ferment in and around the Highway Department.

We are not suggesting that any kind of plots were hatched or that there was anything sinister in Kavanaugh's presence. The Governor says it was strictly innocent; he wanted the contractor to ask some pertinent technical questions that he and Stuart were not qualified to raise. And he stresses that Kavanaugh has nothing to do with Lyons' selection as Highway Director or the Governor's recommendation of him for the post.

Accepting all this at face value, it was still poor public relations for all concerned. It has compromised Kavanaugh's position as a bidder for State highway contracts and has put Edmondson on record as picking out a single contractor to help with the question.

We can almost hear the snickering joke in the contracting business: "Do you suppose Al submitted the best bid to sit in on the Lyons interview?"

It is unfortunate that Stuart, who has been a hard-working, conscientious Highway Commissioner, took part in this unstrategic maneuver. Stuart, Edmondson and Kavanaugh are all professionals in politics by now; they ought to be able to

see the shadow that a single wrong public impression can cast on an Administration, an official or a businessman—however wrong the impression may be.

To see the implications in this, it is only necessary to point out that Stoner K. McLelland, a superintendent for Kavanaugh's Metropolitan Paving Co., is reported to be under consideration for assistant highway director. If he is appointed, the fact that his former boss took part in the interview that brought Lyons to Oklahoma would be subject to all sorts of interpretations — not all of them sweet or savory.

We thank thee, for the freedoms enjoyed in our Country. May we grow in the knowledge that freedom is only what we value it to be. As our Founding Fathers sought these freedoms, may we follow in their steps. For freedom is not the right to do as one pleases, but the opportunity to do what is right.

Not freedom from law, but freedom in law;

Not freedom from government, but freedom in government;

Not freedom from speech, but freedom in speech;

Not freedom from press, but freedom in the press;

Not freedom from religion, but freedom in religion;

May we humbly ponder these things today in accord with Thy Divine Standard of eternal values.

ENGROSSED HOUSE CONCURRENT RESOLUTION NO. 513—By Karnes of the House and Field of the Senate.

A RESOLUTION GIVING OFFICIAL RECOGNITION TO AND COMMENDING THE ATHLETIC ACHIEVEMENTS OF THE BEAVER "DUSTERS" IN WINNING THE OKLAHOMA CLASS "C" FOOTBALL CHAMPIONSHIP; COMMENDING THEIR COACH, SCHOOL COMMUNITY; AND DIRECTING THAT COPIES OF THIS RESOLUTION BE SENT TO THE PERSONS CONCERNED.

WHEREAS, the Beaver, Oklahoma. High School Football Team, more familiarly, and quite respectfully and appropriately, known throughout the Panhandle region as the "Dusters," climaxed an inspiring 1960 season on Friday, December 9, 1960, at Woodward, with the capture of their second successive State Class "C" Football Championship, in an impressive 24-0 victory over another outstanding football team, the Hennessey "Eagles"; and

WHEREAS, in the successful defense of their State Class "C" Football Championship title, the "Dusters" again displayed the championship form and poise which garnered them the coveted title in 1959 and which was so characteristic of this team throughout its undefeated 1960 season, displaying, on defense, a determination which allowed no quarter and, on offense, an energy, drive and spirit which could not go unrewarded; and

WHEREAS, the 1960 edition of the Beaver "Dusters," under the professional tutelage of Coach Tom McVay, while completing an undefeated season, at the same time extended its skein of victories to seventeen, a record, and a most enviable one in state high school football competition; and

WHEREAS, while a Championship Team and composed of champions all, this group of young men is due just acclaim and recognition for the manner in which it performed as a unit, always keeping before it the postulate that the whole is greater than its parts; and

WHEREAS, that the Beaver "Dusters" were undeniably dominant in their district and in State Class "C" football competition during 1960 can be readily ascertained from the Beaver contributions to the list of All-Conference selections for District 2-C, namely: On the first team at the end positions, Walter Depew and Danny Porter; at the tackle positions, Howard McGowen and Tom Rock; at the guard positions, Gorlyn Harryman and Jim Cole; in the backfield, Larry Campbell, Vern Redemer, and Ira Campbell. On the second team were, at end, Joe Hoover; at guard Dewey Vandeburgh; at center, Terry Kile; in the backfield, Skip Baird and Jerry Hoover. Receiving honorable mention were tackle Tom Cypert, center Don McVay, and backs Huverton Plain and Tom McVay; and

WHEREAS, further honors and recognition of achievement have been bestowed upon Beaver High School, its football team and Coach Tom McVay through the meritorious selection of end and guard Walter Depew as a member of the State All-Star High School Football Team; and

WHEREAS, it is both fitting and proper that official recognition be given to the 1960 State Class "C" Football Championship team, the Beaver "Dusters," for its notable achievements as a team and for the feats of the individual members of this team, and to its Coach Tom McVay, for the honors and prestige they have brought

to their school, community, and district, since the manifesting of such spirit, attitude, dedication and skill on the part of both players and coaches is a reflection of the pioneer traditions inherent in the development of our State and Nation and, without question, necessitated in the continuation of their growth and progress.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE SENATE CONCURRING THEREIN:

SECTION 1. WHEREAS, in the early hours of December 22, 1960, Officer Bobby Leon Rudisill, of the Ardmore, Oklahoma, Police Department, in the most honored and revered traditions of law enforcement officials, paid the supreme sacrifice in fulfillment of his solemn oath and obligations as an officer of the law and conservator of the peace and well-being of his city and community; and

WHEREAS, today's youth are tomorrow's governors, it is therefore truly re-

warding to discover in the inspired phrases of this youth's winning composition an unusual appreciation for and awareness of the importance and necessity in maintaining a continuity with time-honored patterns of our life, culture and traditions, in addition to a recognition of the oft-forgotten truism that time does not stand still and, therefore, we would be derelict in our responsibilities to the traditions of our great State and the Nation of which it is an integral part should the natural and human endowments and potentialities of our beloved State not be fully, continuously and intelligently utilized; and

WHEREAS, our beloved State and its history constitute but a page in the annals of time and although Oklahoma it still but a stripling among the commonwealth of this great Nation, yet its record is replete with the astounding deeds and accomplishments of a citizenry capitalizing to the utmost upon the wondrous beneficences of a benign Creator; and

WHEREAS, it is most fitting and proper that the Twenty-eighth Legislature of the State of Oklahoma offer its respectful commendation and gratitude to one of our youth who, in manifesting his dedication to the past, present and future of his beloved State and in a display of perceptiveness beyond his sparse years, has reaffirmed those honored principles the faithful observance of which has thus far assured our estimable progress and which, for the future, offer continued enlightenment toward the attainment of our most cherished ambitions.

SENATE CONCURRENT RESOLUTION NO. 9 — By Cartwright, Harris, Baldwin, Breeden and Cobb of the Senate and Skeith of the House.

A RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO GRANT RELIEF ON THE SCHEDULE OF STATE PAYMENTS NECESSITATED BY THE RELOCATION OF ROADS IN AND AROUND RESERVOIR CONSTRUCTION AREAS.

WHEREAS, the 1961 Legislature of the State of Oklahoma is faced with the worst financial crisis of its history at a time when the U. S. Army Corps of Engineers and Bureau of Public Roads are in the process of constructing three huge multipurpose dams in the Eastern part of our State, thus necessitating unpredictable expenditures of State money on the demand schedule of the Federal Government; and

WHEREAS, this Legislature while desiring to keep in step and current with the Nationwide goal of completing a modern and progressive road system for the motoring public, must contemplate a Thirteen Million Dollar (\$13,000,000.00) budget cut from a 1959-1961 level in highway construction and maintenance and general governmental operation, in order to furnish the necessary budget needs of common schools, higher education, and mental helath and still meet the demands of the Corps of Engineers construction schedule; and

WHEREAS, it is conservatively estimated that the budgeted amount of Four Million Six Hundred Thousand Dollars (\$4,600,000.00) for highway construction and maintenance falls some Twenty Million Dollars (\$20,000,000.00) per year short of meeting existing highway needs and will not permit the State to match available Federal Funds and carry on routine maintenance and other construction; and

WHEREAS, Oklahoma, while desiring to meet the stringent construction and payment schedule demanded by the scheduled construction of the Oologah, Keystone, and Eufaula Reservoirs and the necessary road relocation occasioned thereby, finds it necessary to pray for some financial relief in order that the orderly processes of government may proceed within the frame work of a balanced budget; and

WHEREAS, The Congress of the United States in the past has recognized the great burden reservoir construction and road relocation places on the several states of this Nation and has granted much needed relief through reconsideration of replacement in kind definitions and the necessity of paying the share of the Bureau of Public Roads while waiting for reimbursement.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

SECTION 1. That the Twenty-eighth Oklahoma Legislature does memorialize the Congress of the United States to look favorably upon Federal Legislation designed to relieve this State of some of the tremendous financial burden occasioned by the fast moving construction of the Oologah, Keystone and Eufaula Reservoirs.

SECTION 2. That the Eighty-seventh Congress of the United States give special consideration to legislation geared to allowing this State to pay for its share of road relocation costs throughout a period of years at a rate of a set amount per year in order that unscheduled heavy reimbursements will not have a crippling effect upon vital state services which must be provided for within the framework of our balanced budget.

SECTION 3. That duly authenticated copies of this Resolution be forwarded by the Clerk of this Honorable Body to each Member of the Oklahoma Congressional Delegation, to the Speaker of the House of Representatives, the Honorable Sam Rayburn, and to the Majority Leader of the United States Senate, the Honorable Mike Mansfield.

By unanimous consent, upon request of Senator Berrong, the following Resolution was introduced, read at length, adopted upon his motion and ordered referred for enrollment:

WHEREAS, state governmental purchasing is big business, involving several million dollars each year, and should be conducted in the most efficient, effective and economical manner; and

WHEREAS, estimates by the Purchasing Division of savings effected under the operation of said Act should be evaluated within the context of total operations of state government and of the Oklahoma economy generally; and

WHEREAS, the need exists for a detailed analysis of the policies and operations of said Purchasing Division and for a study of present statutory provisions regarding state governmental purchasing;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE:

WHEREAS, the American Legion Mid-Winter Conference will be held in Wash-

ington, D. C., during the period February 28-March 3, 1961; and

WHEREAS, a number of legislative matters of interest both to the Congress and to the several states will be discussed at said Conference; and

SENATE CONCURRENT RESOLUTION NO. 11 — By Baldwin.

A RESOLUTION MEMORIALIZING CONGRESS NOT TO CHANGE THE PRESENT EXEMPTION FROM FEDERAL INCOME TAXES OF INTEREST PAID ON STATE AND LOCAL INDEBTEDNESS.

WHEREAS, it has been proposed by certain financial advisers to the federal government that interest payments on bonds and other indebtedness of the states and their subdivisions be made subject to the federal income tax; and

WHEREAS, the constitutional division of powers as between the federal government, on the one hand, and the states and their subdivisions, on the other, requires the continued financial independence of the latter with respect to their ability to borrow and finance needed public works of many kinds, at the lowest possible interest cost; and

WHEREAS, the subjection of interest paid on state and local bonds to federal income taxation would tend to increase the cost of borrowing money from 25% to 50%, thereby discouraging the start of needed public improvements, and forcing the states to lean still more heavily upon the already overburdened federal government; and

WHEREAS, the present status of the national economy, which is known to be in a condition of economic recession, is such as to require the stimulation that will result from public works construction of many kinds, much of which will in due course be financed by the states and their local subdivisions of government, unless the same be unduly discouraged by removal of the aforesaid tax exemption on interest.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY - EIGHTH OKLAHOMA LEGISLATURE, THE HONORABLE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

THAT the Congress of the United States and the President of the United States are hereby respectfully petitioned and urged not to take any action to remove the present federal income tax exemption of interest paid on obligations of the states and their subdivisions of government, which action, if taken, would greatly increase the cost of borrowing to them.

BE IT FURTHER RESOLVED that copies of this resolution be mailed to the President of the United States, to the leaders of both Houses of the Congress, and to the United States senators from Oklahoma and to all members of Congress from Oklahoma.

NOT KIDDING

By Wallace Kidd

TOO OFTEN the public measures caliber of its state legislature by certain isolated oratorical utterances or the peculiar antics of a minority of the membership in the house and senate. In eyes of some lawmakers, it is the fault of "two-bit newspapers" for casting such a light upon this important branch of state government.

BE THAT AS it may, the legislature deserves to be held in proper perspective by the public. To do otherwise would be to move in the direction of destroying a foundation upon which our form of government is established. Disrespect breeds contempt. Both are tools which become weapons for Communists and all others opposed to our system of self-government.

WHAT TAKES place in the legislature is the result of what took place in the last state primary and general election. The fickle conduct, the spontaneous outbursts which tend to show the weaker side of individuals, the flares of anger and comedy are mirrored from constituent to elected lawmaker and from elected lawmaker back to constituent. On the other hand, so is there a reflection whenever there is dignity, energy, studious conduct.

FORTUNATELY for Oklahoma and for levels of government throughout the nation, there are more good citizens and more good public officials than there are bad ones. The present Oklahoma legislature is no exception. Worth of a legislator cannot be judged from the balcony of either

er the house or senate chamber. Neither can his worth be judged by the words which in some instances pour out in an unending stream. His real worth comes in the stabilizing influence he has between the extremes of demands for laws and concessions. It is tempered by a strength to oppose with reason and to support with reason. More members of Oklahoma's legislature have this needed characteristic than do not.

AS THE PRESENT legislative session stretches into tiring length, patience of constituents is likely to shorten. And again their actions will be mirrored in the patience of representatives and senators. Reporters, doing their best to give an interesting, accurate account of what takes place in legislative committee rooms and on the floor, will be blamed for their "unfairness" in writing what they actually see and hear. Then again it will be that the great majority of those elected to our legislative branch of government as doing a good job. The incompetents merely will be doing the kind of job their respective constituents sent them to do.

COMMUNICATION

Senator McSpadden asked unanimous consent, which was granted, to have the following newspaper article, which appeared in the Claremore Progress, Claremore, Oklahoma, under date of February 23, 1961, incorporated in the Journal:

MAKING PROGRESS

By Carl Thomas

Proponents of new toll roads in Oklahoma claim that the present toll roads are the best highways in the state and didn't cost the state a cent.

Hogwash!

They are the best roads in the state, right enough, but they cost the state of Oklahoma a pretty penny. They were paved with the businesses that went bankrupt all along highway 66 from one end to the other of each of the turnpike routes.

Not only that, but the pikes have cost northeastern Oklahoma counties untold millions of dollars in new business that might have sprung up beside the new su-

per highways if they weren't fenced off from one end to the other.

Naturally Tulsa and Oklahoma City want more turnpikes — lots of them. The present two — the Will Rogers turnpike and the Turner turnpike — were designed to funnel traffic into both those big cities, and at the same time, to cut traffic off from the smaller cities along the route.

Think it over!

There's not one mile of turnpike in Tulsa county, and probably not more than a half mile of turnpike in Oklahoma county. The minute you drop off the Will Rogers turnpike going south you hit Tulsa county, and it's free-wheeling from there on in to the big metropolis.

Take a look at the multi-million dollar tourist courts, the shopping centers, and the restaurants and filling stations that cover the landscape along the 51st street by-pass, which by the way, isn't fenced in.

Those businesses have poured millions into Tulsa county's assessed valuation.

At the same time, take a drive from Joplin to Tulsa via the turnpike. Just try to find something worthwhile for a county assessor to put on the tax rolls before reaching the Tulsa county line.

The toll roads didn't cost Oklahoma a cent? How absurd can you get?

As provided under the Field motion, the Senate was declared adjourned to meet as provided under the Rules—1:30 p.m., tomorrow.

Our Father and our God, we are humbled as we approach the presence of Thy Glory. Especially are we conscious of our limitations when we bring before Thee these so great a people. We realize with regret both our unworthiness and inability to plead for these upon whose shoulders rest such great responsibility.

But by Thy mercy blot out our transgressions. By Thy grace cleanse us and hear our prayer.

For these then, as for ourselves, we pray that You will grant a calm soul, a generous spirit, and a warm hearted wisdom that will give us peace when each day is done and we "lay me down to sleep."

Indeed, let Thy wisdom overrule any unjust personal or group desire in such a way that in the light of time and studied opinion the actions of this body might prove to be altogether wise.

This we pray in the name of our Lord and Saviour Jesus Christ. Amen.

SENATE CONCURRENT RESOLUTION No. 16—By McClendon, Boecher, Kerr, Cobb, Hamilton, Bohannon, Stipe, Fine, Allen, Cowden, Wilson (Greer), Pazoureck, Breeden, Colston, Berrong, Dacus, Ritzhaupt and McColgin.

A RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO AMEND OR SUPPLEMENT THE FEDERAL AID HIGHWAYS LAWS OF THE UNITED STATES TO AUTHORIZE THE USE OF FEDERAL AID HIGHWAY FUNDS FOR THE MAINTENANCE OF THE FEDERAL HIGHWAY SYSTEM IN THE SAME MANNER AND TO THE SAME EXTENT AS SUCH FUNDS MAY BE USED FOR HIGHWAY CONSTRUCTION PURPOSES.

WHEREAS, the Congress of the United States by the passage of the Federal Aid Highway Act of 1956, authorized the construction of approximately 40,000 miles of highways to constitute the National System of Interstate and Defense Highways, in addition to the regular primary and secondary federal aid highway programs, which has resulted in the construction of thousands of miles of new highways throughout the United States; and

WHEREAS, the provisions of the Federal Aid Highway laws now require the several states to maintain all highway projects constructed as a part of the federal aid system, and authorize the Secretary of Commerce to withhold federal aid funds from any state which fails properly to maintain such highway projects; and

WHEREAS, the continually increasing mileage of the federal aid highway system has placed an increasingly heavy burden upon the states to maintain such additional highway projects, thereby reducing the funds available to the states for new construction; and

WHEREAS, The increase in federal highway user taxes to finance the National System of Interstate and Defense Highways has made it difficult, if not virtually impossible, for the states to increase state highway user taxes, and a condition has thus been brought about where many states do not have adequate funds to carry out both new construc-

tion programs and proper maintenance programs; and

WHEREAS, the maintenance of the existing federal aid highway system is a necessary and essential part of the highway program of every state, and the lack of proper maintenance of the existing highway system will result in the deterioration of many miles of highways with the resultant loss of use of these facilities to the public:

WHEREAS, the President and Congress of the United States are desirous of furnishing widespread employment, and providing safe highways for the public to travel on and to maintain same in the best condition as a matter of national defense; The maintenance of said federal aid highways by aid of federal funds as heretofore set out is necessary and essential to carry out the intent and purposes of said act.

NOW THEREFORE BE IT RESOLVED BY THE STATE SENATE OF THE 28TH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

Sec. 1. That this matter be brought to the attention of the Congress of the United States and that the Congress be memorialized to amend or supplement the existing federal highway laws to authorize the use of federal aid highway funds for the maintenance of the federal aid highway system in the same manner and to the same extent as such funds are not made available to the states for highway construction purposes.

Sec. 2. That a copy of this resolution, duly certified, be transmitted, immediately, to each member of the Oklahoma delegation in the Congress of the United States.

A flowered replica of the State's Seal had been placed before the President's desk and, as a deceased member's name was called, a white Carnation was inserted on the replica by Ann Coppock and Phil Smalley, daughter and son of two deceased Senators being honored.

The roll call of deceased Governors of Oklahoma during the past decade resulted as follows:

Martin Edwin Trapp, Oklahoma City.

Wm. H. Murray, Tishomingo.

Leon C. Phillips, Okemah.

The roll was ordered called of the deceased Lieutenant Governors of Oklahoma during the past decade, resulting as follows:

NONE.

President Pro Tempore Collins introduced former State Senator, now Presiding Judge of the Court of Criminal Appeals, the Honorable Kirksey M. Nix, who delivered the following Address and which is incorporated upon motion of Senator Dacus:

I doubt seriously if I could express to you the gratitude with which I am possessed on this memorable decade occasion. To be asked by former colleagues, members of this able and august body, to commemorate our honored dead, is a compliment of which any man should be justly proud. Needless to say, the cherished memory of my fellowship with men who constitute this body today shall always remain my most priceless possession. Known only to men who serve here, a fraternal relationship exists here which binds men together closely as brothers, inevitably inspired by close association, deliberation and fellowship. I have often said to serve here together for six laborious months permits each of you to dwell into the inward structure of the other and to know him as no other person does. From that kind of association, everlasting friendships are created here that linger to the grave. More fortunate than most of you, I served in these chambers

a quarter of a century ago, 1937, 16th session of the Oklahoma senate, not as a senator as when I served with you, but as a janitor where I was privileged to clean these desks and the offices of many of your predecessors. During the time I was not engaged in my work, I sat in these galleries and watched men of great ability perform their duties as state senators; men who carved their niche in the political structure of this great commonwealth.

In that 16th session when our state was 30 years of age, there were none to boast of being a native Oklahoman. They descended from that pioneer field of men and women who came here in the great sweep westward, paving the way to a new land with the blood of patriotism and adventure. They were rugged people hewn from the pioneer spirit of men and women who in that journey westward used the ground for a bed and the sky for a blanket. They were lulled to sleep by the melancholy whistling of the wind and the lonesome howl of the coyote. Brave, courageous men possessed with challenge and adventure, searching for a new place to build a home and their kind of government.

From this proud heritage came these eminent figures of our history following the course blazed by their predecessors.

The President pro tempore was the illustrious Al Nichols; the majority floor leader was the able and astute Cecil Chamberlain and composed of such stalwart men as Oscar Lowrance, Claud Briggs, Jack Rorschach, Dennis Bushyhead, John Sanford, Joe Whiteaker, Felix Church, Bill Barnett, Ray Jones, Charley Albright, and many others whose names are well known to you; a freshman member, a 30 year old kid from El Reno, named Jim Rinehart, and a young man 49 years old named Louis Ritzhaupt.

If it were within my power to turn back the pages of time, what I wouldn't give if I could revivicate, if I but could

play a reveille and be permitted to hear the resonance of their voices filling these chambers. If I could once again hear Homer Paul, bearing the blood of his Indian ancestors speak with the eloquence of Demosthenes, courageous, rugged, and possessed with the strength of his conviction as a Jackson or a Johnson; and from the banks of the Red River the able John McDonald, whose resounding, booming, but eloquent voice rang through the rafters of these chambers on numerous occasions, fortifying his beliefs and the principles for which he stood with fervor and determination. How I would enjoy the Dean of the Mountainous region, Paul Stewart, expound upon the Philosophy of the common folk. He knew their needs, championed their causes with wit and humor, fortitude and tenacity. W. C. Fidler, the gracious diplomat, loved and respected by all.

Then there was E. P. Hill, one of the four horsemen, an aristocratic southern gentleman, an orator from the old school whose ancestors graced the halls of the U. S. Senate from the grand old state of Georgia — keen, alert and his great ability fortified by a vast knowledge of government.

There was Bill Ray, the sage of Tishomingo, whose salience brought color to the Senate, and his wealth of natural ability equaled that of any man — who would advocate, speak, or fight for that in which he believed.

Buck Curnutt — Nick Barry — Henry Timmons — Tom Waldrep — Knox Garvin, whose distinguished service earned for him the respect of all men with whom he served as does his son who is now in your midst.

But to linger here over these honored dead would be a sad diversion from the purpose here. Because their tribute was rendered in masterful fashion by one of the great speakers of our age, when 10 years ago there stood at this hour in the place where I'm standing, the illuminate,

brilliant Luther Harrison, and as only he could do, paid illustrious tribute to the honored colleagues who had departed prior to 1951. It is a shocking reality to know that since that memorial service at this hour in 1951, fifty-four of our colleagues have answered the last roll call in that chamber in the sky, leaving behind the cherished memories of distinguished service in these halls. These faces come to me now only as a vision when in reality I actually see the face of Al Stevenson instead of Tom Anglin; of Senator Bohannon and not that of Roy White, Howard Young, Bill Stigler or Clark Nichols. I see Senator Bailey but only a vision of Joe Smalley, who gave his last ounce of devotion to public service in these chambers; Senator George Pitcher, not Craig Goodpaster; Gene Stipe, not M. O. Counts or Guy Andrews; Senator Clem Hamilton, not Jim Babb; Senator Fred Harris, not Bill Logan, who served here representing his people until he was beyond recovery; Senator Walt Allen, not Tom Jelks; Senator Shoemaker, not Charles Moon or Murrel Thornton or W. M. Gulager; Senator Rogers, not Jess Pullen or Luther Harrison; Tom Morford, not Stanley Coppock; Senator Yates Land, not Henry Timmons.

These are a few of the men with whom many of you served — that you learned to respect, admire and love. Dedicated men, courageous and capable men who contributed their just share in making of a barren wilderness a prosperous, young and progressive state. Whether they be living or dead, I never served in these chambers with a man I didn't like and respect; I never met a man here who I didn't believe was dedicated to public service, sincere in his convictions and unwaveringly did that which he thought was right; whose presence here contributed to making our state a better place in which to live.

When Columbus had accomplished his great mission of discovering a new world and had launched the return voyage, he

encountered a terrible storm at sea. He was confronted with the eminent danger of losing his men, his life and his ship being sunk to the bottom of the sea. The terrifying agony that gripped Columbus during the almost fatal ordeal was that if his ship sunk to the bottom of the sea, his great accomplishment would go unknown to the world. They would never know that he had proved his theory to be right and had discovered a new world. He gathered together bottles from the ship's galley and placed therein the history of his voyage and his discovery; cast them afloat upon the angry sea, with the hope that they would drift ashore that the world might know his feat of success. There comes that time in the life of every man, more especially in his waning hours, when he wonders if the record made is worthy of preservation or whether it be just as well for it to quietly sink to the bottom of the sea. Not true with our honored predecessors — their record was made, recorded, and preserved. That record constitutes a monument indelibly inscribed in the hearts and minds of Oklahomans, and from the record compiled here, many were elevated to other offices of the highest trust — federal judges, members of the U. S. House of Representatives; the U. S. Senate and to the Governorship of the State.

It is with melancholy that I ponder the future; with sadness I anticipate the memorial address in 1971. Many of you also will have answered the last roll call. The greatest tribute to be paid our honored dead is that the record you compile here will be comparable to theirs. It has often been said that the bad men do live after them but the good is oft interred with their bones. The converse is true with our predecessors whom we honor today the good has lived after them and to the dedicated members of this Senate of 1961 upon the day that you die you will have found that every single bit of property you own will belong to

another but what you were here in these chambers shall be yours forever.

If these eminent figures to whom we pay tribute today could but communicate at this hour, no doubt they would say To you we have thrown the torch — take it and hold it high — Lest ye break faith with us who die.

In appreciation for the Address, the Senate and its guests gave a standing ovation to former Senator Kirksey M. Nix.

President Pro Tempore Collins recognized former Senator Joe B. Thompson and, after the placing of a beautiful wreath on the desk of the Secretary by Phil Smalley, honoring the memory of J. Wm. (Bill) Cordell, the former Secretary of the Senate, Senator Thompson spoke as follows, which is incorporated upon motion of Senator Dacus:

Mr. President Pro Tempore: I ask that Phil Smalley, son of former Senator Joe Smalley and now a legislative employee, place upon the Secretary's desk a floral tribute in memory of the Hon. J. William Cordell, deceased, and that the Senators and guests stand for one minute of silent tribute.

In the year, 1907, there sat as a member of the 1st Oklahoma State Senate, S. A. Cordell, from Chandler, Oklahoma. Senator Cordell was the father of our "Bill".

Reared in the political life of the Oklahoma State Senate, "Bill" served as a Page and in several other places of employment, in the First Legislature, and in each of the following sessions of the Oklahoma Senate, until the time of his retirement in 1955 — with the exception of two sessions when he served as Reading Clerk in the U. S. House of Representatives.

"Bill" undoubtedly knew more of the history of the Oklahoma State Senate than any other man who ever lived.

I have given long thought as to what words of tribute I could express upon this occasion and as to what would be proper,

so as to express to some degree the love, the devotion and yes, gratitude, this great man had for the Senate and for us. I think maybe that the fine life of our "Bill" can best be covered by this story:

In 1932 Buck Curnutt of Barnsdall, Oklahoma, ran for the first time against an incumbent in the Oklahoma State Senate and won. He came to the Democratic Caucus of the Senate, rightly of the opinion that "Bill's" allegiance had been to the member of the Senate, whom he defeated. In the Caucus, Senator Curnutt made a hard fight against the re-election of "Bill", as Secretary of the Senate. He, of course, lost the fight, and then after serving two years in the Senate, by and through his association with "Bill," they became such fast friends that he, during the balance of the tenure of his office, always asked for the privilege of moving for the unanimous election of "Bill" Cordell as Secretary of the Senate.

Senator Curnutt learned the fact, which we all learned, that "Bill" had no allegiance to anything or anyone, except the Senate and its Members.

My friends, in this mad, uncertain, selfish and materialistic world, the life of J. William Cordell will always remain as a shining example of the lesson taught us by the greatest of all Teachers — that to receive, you must first give. Truly, he gave to the Senate and to us so much of his love, affection and devotion that little did he realize, upon his retirement and death, that he was such an extremely wealthy man. Paraphrasing the immortal Ingersol, "Had each one of us placed upon his grave the floral tributes that we would have liked to place, he truly would have slept beneath a wilderness of flowers."

The bigness and richness of this man's heart was only outdone by the bigness of his booming voice, which echoes today and will echo down through the ages in this hallowed Chamber and in the minds and hearts of each of you, as you recall

"Bill" calling the roll of the then Senate, which he loved so well.

Mr. President Pro Tempore, we meet here today because of J. William Cordell. This idea of a 10-year memorial service for the departed members of the Senate was one of his many ideas and plans. In the cause of brevity and, in conclusion, I wish us to do the one thing which I think "Bill" would appreciate most — that the Senate record of today designate him as "MR. STATE SENATE" of the Oklahoma State Senate, and that this title, which has never been granted before be withdrawn and never granted again to any other person, living or dead, or yet to be born.

Senator Shoemaker moved that the title of "MR. STATE SENATE" be conferred upon the name of our beloved J. Wm. Cordell, deceased, and that said title be not ever conferred upon any other person, which motion was adopted.

As a token of respect to the wife of beloved J. Wm. Cordell, former Senator Thompson introduced Mrs. Cordell, following which the Senate gave her a standing ovation.

President Pro Tempore Collins recognized the Dean of the Senate, Senator Louis H. Ritzhaupt, who — on behalf of the Senate of the 28th Legislature — paid special recognition to the following:

The oldest former Senator present: Senator Wash E. Hudson, Tulsa, Age 94.

The former Senator who traveled the farthest distance in order to attend the Memorial Service: E. E. Woods, Independence, Kansas.

The former Senator who has served in the greatest number of sessions of the Senate: Senator Jim Rinehart, El Reno, Oklahoma, 12 sessions.

President Pro Tempore Collins recognized Senator Hamilton for the following remarks: "Mr. President: I want to pay tribute to one whose efficiency, dedication and sincere devotion to the service of the State Senate and its Members, individua-

ly, should not go unnoticed on this memorable occasion. In order that proper tribute might be paid, I ask that Senator Wilson (Greer) be recognized.

Senator Wilson (Greer), being recognized, stated in part as follows: "We are not the most important ones — today we want to honor such a person here in the State Senate and I would say that there are probably four hundred or more here who join me in this tribute. We not only honor her for her noble dedication to her work, for her outstanding capabilities and efficiency, and sincere devotion, but we honor her because of her love and respect for every Senator with whom she has served, and we want her to know that we all love her and that she will always live in the hearts of every State Senator." Senator Wilson (Greer) then asked Miss "Bill" Shipley, Senate Journal Clerk since 1923, to come before the Senate and its guests, at which time he presented her with a beautiful bouquet of Red Roses on behalf of the entire Senate membership.

President Pro Tempore Collins introduced The Governor of the State of Oklahoma, Honorable J. Howard Edmondson, who spoke as follows, his Address being incorporated upon motion of Senator Dacus:

Distinguished members of the Senate; former members. . . .

At the outset, I want to thank you. . . thank you for affording me the opportunity to join with you in paying tribute to those men who have served in this Hall and contributed so very much to our State. I think that in the course of such a tribute that we should also pay tribute to those members of their families who have given up so much, as the wives and children of all public officials, as the result of their husbands' service to the State. I think that all of Oklahoma can, and without any mental reservations whatsoever, extend to these people our appreciation and our gratitude.

I don't know of anyone you could have

chosen who could have better performed the service and tribute than was performed by the distinguished Judge of the Court of Criminal Appeals of Oklahoma. I think that Judge Nix put very eloquently into words the thoughts of everyone who joins those and certainly I am one of those . . . Whereas we are paying tribute, by the same token, Judge Nix so appropriately said that we are also called upon to light the torch and to carry it ahead. Carry it ahead in the same spirit of dedication to the future of our State that your predecessors did. I have no doubts but what you will accept that torch . . . I have no doubt but what the people of Oklahoma can rest at night with a feeling of confidence that the affairs of State are in good hands. This has been true in the past and I think by the same token it is true today. But just as your predecessors did, in dedicating themselves to the task before them, so also you have a challenge yourselves today to rededicate yourselves to the same purpose, I wish you godspeed, as they have been previously wished godspeed. I hope that in some way I may be able to help you in that speed. I come to you again in the sense of the spirit of cooperation; a sense of anxiety of the people of our State and a sense of hope for the future, and indeed it will be a pleasure to serve and to work with you.

Thank you very much.

At the suggestion of former Senator Joe B. Thompson, Senator Shoemaker moved that it be the consensus of all members of the Senate present, if the present Senate sees fit, that it inculcate in the Rules of the Senate a provision that will automatically provide for the holding of similar Memorial Services in the future, which motion was declared adopted.

President Pro Tempore Collins called special attention to the presence at the Memorial Services today of Honorable Henry S. Johnston and Honorable William M. Franklin, both members of the

1st Legislature, and at the request of the President Pro Tempore the Honorable Henry S. Johnston addressed the Senate and its guests.

Senator Shoemaker, Chairman of the Special Committee appointed to arrange for the Memorial Service, and on behalf of the members of the Senate of the 28th Legislature expressed sincere appreciation:

For the presence of the former members of the Senate, former Governors and former Lieutenant Governors, along with their families.

For the participation in the Memorial Services by:

Judge Kirksey M. Nix for the beautiful Memorial Address to the memories of the deceased members of the State Senate.

Former Senator Joe B. Thompson, in paying deserved tribute to the memory of J. Wm. (Bill) Cordell, former Secretary of the Senate.

Ken Wright, Organist, WKY-TV.

The Rev. Kenneth S. Rice, Pastor, 1st Nazarene Church, Oklahoma City, who will deliver the Benediction.

O'Mealey's Cafeteria, for the beautifully prepared and served repast.

Cheever's Flowers, for the lovely floral arrangements.

Benediction was pronounced by The Rev. Kenneth S. Rice, Pastor, First Nazarene Church, Oklahoma City.

Senator Field moved that 250 copies of the Senate Journal for this legislative day be ordered printed, with instructions that a copy be forwarded to each former member of the Senate, which motion was declared adopted.

Upon motion of Senator Field, the Senate adjourned to meet on tomorrow, as provided under the Rules — 1:30 p.m.

WHEREAS, the State of Oklahoma has made many outstanding contributions to the great sport of baseball, its school, college, sandlot and minor league teams having produced many of the outstanding participants of all time in this great American pastime; and

WHEREAS, these contributions are in part a consequence of the existence in this state during preceding years of numerous professional outlets for the talents of the baseball-minded youngsters of Oklahoma and other states, making of this state a proving-ground for determining those of such athletes who possess the qualities necessary for graduation to and participation in the rigorous competition of the major leagues; and

WHEREAS, not only has the existence of professional baseball in Oklahoma been a source of inspiration to the talented and gifted young athletes of this and other states, it also has provided and will continue to provide many treasured hours of exciting diversion and entertainment for untold thousands of spectators; and

WHEREAS, the virtues of baseball, both as participator sport and as spectator sport, have long been recognized and acclaimed, it is only proper that this body, on the part of the many fans and supporters of professional baseball in this state, give official recognition to and approval of the dedicated efforts of those many public-spirited citizens in the City of Tulsa to retain professional baseball within their community and the State of Oklahoma.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE:

BE IT RESOLVED BY THE SENATE AND HOUSE OF REPRESENTATIVES OF THE TWENTY-EIGHTH LEGISLATURE OF THE STATE OF OKLAHOMA:

SECTION 1. The Secretary of State shall refer to the people for their approval or rejection, as and in the manner provided by law, the following proposed amendment to the subsection (j), Section 10, Article V, of the Constitution of Oklahoma:

Section 10 (j). At the first regular legislative session following the adoption of this amendment and thereafter at the first regular session of the Legislature following each Federal decennial census, and employing the enumeration thereof for reapportionment of the Legislature, the entire State of Oklahoma shall be reapportioned for membership in the Oklahoma Legislature by legislative enactment as now provided by Article V, Sections 9, 9(a) and 9(b) and 10 and all subsections thereof of this Constitution. If any such Legislature shall fail to make such reapportionment for the House of Representatives, or the Senate, or both, a Legislative Reapportionment Commission, composed of the Attorney General, the Secretary of State and the State Treasurer, or any two of them, is empowered and required to make, and file with the Governor, a reapportionment in either or both Houses for which no reapportionment has been made, which is in compliance with the foregoing Sections of the Constitution within thirty days after adjournment of any such session of the Legislature, and it shall become law upon the date of filing.

Original jurisdiction is vested in the Supreme Court, upon the petition of any qualified elector of the state filed within one hundred and eighty days after adjournment of any such session of the Legislature, to review any law making a reapportionment for the House of Representatives, or the Senate, or both. If the Supreme Court determines that the reapportionment law complies with above sections of the Constitution, it shall dismiss the petition by a written opinion, in which particulars are fully stated, and the reapportionment law shall become operative upon the date of the opinion. If the Supreme Court determines that the reapportionment law thus reviewed does not comply with the above sections of the Constitution, said reapportionment law shall be null and void. In such case, the Supreme Court is empowered and directed to specify in a written opinion with particularity wherein the reapportionment fails to comply with said sections, and how it should be corrected and by appropriate writ require the Commission to reapportion in accordance therewith and to file the corrected reapportionment with the Governor within thirty days, and it shall become law upon the date of filing.

MENTS ON THE RESIDENCE OWNED AND OCCUPIED BY THE TAX PAYER; LIMITING THE EXEMPTION TO SIX HUNDRED DOLLARS (\$600.00) PER YEAR PER FAMILY; DIRECTING THAT AN AUTHENTICATED COPY OF THIS RESOLUTION BE SENT TO JOHN F. KENNEDY, PRESIDENT OF THE UNITED STATES AND TO THE OKLAHOMA CONGRESSIONAL DELEGATION.

SPECIAL COMMITTEE REPORT

The following Special Committee Report was submitted by Senator Shoemaker, Chairman of the Special Turnpike Committee created by **SR 1**, and read at length:

STATE SENATE
OKLAHOMA CITY, OKLAHOMA
MARCH 27, 1961

Mr. President:

Your Committee on Special Turnpikes, created by Senate Resolution No. 1, begs leave to make a special preliminary report on the progress made to date, and respectfully submits the following, to-wit:

A series of seven meetings have been held to inquire into the need for and feasibility of the proposed Eastern Turnpike and Southwestern Turnpike.

Witnesses called before the Committee were, inter alia, W. D. Hoback, Director and Manager of the Oklahoma Turnpike Authority, Marvin Millard, Chairman of the Oklahoma Turnpike Authority; Frank Lyons, Director, Oklahoma State Highway Department; and Mr. Bill Hoover, former member of the Oklahoma Turnpike Authority, from Ada, Oklahoma.

A public hearing was held by the Committee for the benefit of the proponents and opponents of both turnpikes and some twenty three delegations, representing sev-

enteen cities and towns and highway organizations, appeared and were heard and questioned by the Committee.

In addition to these meetings, various individuals furnished the chair and members of the Committee with valuable facts and information.

In determining the need for and feasibility of said turnpikes, your Committee inquired into the same by thus far remaining in the general areas of traffic comparison studies, free road conditions and factors in the area affected, future and possible diversion of traffic to said turnpikes, overall construction costs per turnpike mile and whether the building of said turnpikes would constitute a sound investment for the taxpayers of the State of Oklahoma.

After due and deliberate consideration of the evidence, and testimony of witnesses heard to date, your Committee most respectfully finds the following, to-wit:

CONCLUSION

1. That the Eastern Turnpike is not feasible in view of the actual traffic counts in and around the area from Henryetta to McAlester. In addition, it is the feeling of the Committee that the action of the turnpike authority in locating a proposed turnpike at the end of an unconstructed free four-lane road, some thirty miles long, is a dangerous policy which could destroy the free road program of an affected area, and is therefore condemned by this Committee.

Pursuant to the directions contained in Senate Resolution No. 1, your Committee feels that the Oklahoma State Senate should forthwith proceed to consider corrective legislation in the areas contained in the recommendations hereinafter cited. In submitting said recommendations, your Committee recognizes and realizes that feasible turnpikes have a definite place in the road program of this state, but decrys the method now being used by the Oklahoma Turnpike Authority in attempt-

ing to locate same by satisfying apparent demands of local metropolitan areas.

Therefore, we respectfully recommend to the Oklahoma State Senate that appropriate legislation be considered to improve the present turnpike act, to-wit:

RECOMMENDATIONS

1. That the authority contained in the turnpike act to build and construct the Henryetta-McAlester leg of the Eastern Turnpike be repealed.

2. That a statute be passed to provide that the present trust indenture be amended to eliminate the possibility of selling bonds for said Henryetta-McAlester leg of the Eastern Turnpike.

Therefore, Mr. President, I move the adoption of this Preliminary Committee Report.

Harold R. Shoemake, Chairman.

Roy Boecher, Vice Chairman.

Wilford Bohannon, Member.

Tom Tipps, Member.

Fred Harris, Member.

Senator Payne raised a point of order against the Special Committee Report, stating that the Committee, under **SR 1**, was appointed for the purpose of studying the feasibility of both the Eastern and Southwestern Turnpikes and that the report should be complete in that respect, which point was overruled by the President Pro Tempore, who stated that the report was a partial one and the Committee had not been exonerated by the Senate.

Senator Shoemake moved the adoption of the report.

Senator Ritzhaupt, as a substitute, moved that the report be returned to the Committee with instructions that it submit a complete report, covering both the Eastern and Southwestern Turnpikes.

Senator Hamilton moved that the Ritzhaupt motion lie on the table, which motion failed of adoption upon a roll call as follows:

Aye: Baldwin, Boecher, Bohannon, Breeden, Cartwright, Fine, Hamilton,

Kerr, McClendon, Pitcher, Shoemake, Stevenson, Tipps, Trent.—14.

Nay: Allen, Belvin, Berrong, Cobb, Collins, Colston, Cowden, Dacus, Easterly, Field, Garrison, Garvin, Grantham, Graves, Harris, Land, Lollar, McColgin, McSpadden, Payne, Pazoureck, Ritzhaupt, Rogers, Romang, Stipe, Wilson (Beckham).—26.

Not Voting: Bailey, Ham, Morford, Wilson (Greer).—4.

The vote occurring on the Ritzhaupt motion, it was declared adopted.

MOTION TO RECONSIDER VOTE

As provided under Rule 12-a, Senator Ritzhaupt moved to reconsider the vote by which SCR 28, as amended, was adopted.

Senator Dacus, following his discussion of SCR 28, asked unanimous consent, which was granted, that the remarks relative to the financing of additional turnpikes in Oklahoma, made on the last legislative day, by Senator Harris, before the State Senate, and by Senators Baldwin and Cartwright, before the Roads and Highways Committee, be incorporated in the Journal, which follow:

Remarks by Senator Harris:

Mr. President and Gentlemen of the Senate, I want to be heard, if I may, at this time for the first time on the Senate floor in regard to the dispute in regard to the various resolutions proposed and now before the Roads and Highways Committee of the Senate, in regard to the financing of additional Turnpikes in Oklahoma. I believe that my remarks will reveal some facts which have not heretofore been known by most, if not all, members of the Senate in the detail to which I will go in regard to the financing of other Turnpikes. I want to say further that I have not spoken on this Senate floor in regard to these resolutions and the dispute as to the passage of the resolutions for several reasons, up until this time.

First of all, before I spoke to you about the resolutions and their intent and effect, I wanted to be certain that I had the entire picture as to the facts. I believe that I now do. And Secondly, I had hoped that the Governor would abandon his efforts to pass the Resolution which he has supported up to this time, or that the Resolution would by now have been defeated. And Thirdly, I hesitated to speak

on this matter lest my remarks unavoidably injure the cause of Turnpikes generally. I think now that this matter is of such serious import that I must speak that there be no question that you are as informed as I am about these matters, you having entrusted to me the Chairmanship of the Special Committee on Turnpikes of the Legislative Council during this last interim, and I having kept up-to-date on a day to day basis in regard to this matter and since the Legislature started.

As you know, of course, I am the principal author and supporter of every piece of turnpike legislation which has passed this Senate since I came to the legislature and Senate in 1957. I have not wavered one iota in my wholehearted support of Turnpikes. That includes the Southwestern Turnpike, which of course first prompted my interest in Turnpikes, it includes the Eastern Turnpike which you authorized last session, or any turnpike which you may authorize or which may be authorized which is feasible, because I feel that turnpikes, wherever feasible, are an essential and integral part of our road program, both now and in the future of Oklahoma.

I want to make that clear. I might say before I get into the meat of what I have to say, that some of this will be rather technical, because this is a complex and complicated matter, and I hope that if you think of questions as I go along that you will note them down and ask me when I finish my remarks, because I will be happy to answer any questions that I may be able to, but I would like to finish my remarks without answering questions at this time.

I want to emphasize that the passage or rejection of the Edmondson Resolution is not a question of whether or not Turnpikes are an essential and integral part of our road program. The question involved is not a question of whether or not we should build the Southwestern

Turnpike. The question is not a question of whether or not we should build the Eastern Turnpike.

In order to go into this matter I have the law and Trust Agreement before me. I have to go a little bit into the history of turnpike legislation and what has happened in regard to turnpikes generally on a day to day basis, up until this moment. Many of us are not familiar with the instruments which must bear upon this question. But it isn't only this Resolution, because this Resolution is after and in pursuance of a law which we passed last session. It also comes after and in pursuance of a Trust Agreement, some 200 odd pages long, which has been entered into by the Turnpike Authority. It comes after and in pursuance of a Supreme Court decision which has three times been reaffirmed, on its original decision, on a petition for rehearing and on a second petition for rehearing. All those matters bear upon the question which is involved in this Resolution.

Now in 1957, I authored Senate Joint Resolution No. 37 which was passed by the Senate and the House and became the law, which provided for the first time an apportionment of gasoline taxes to Turnpikes in the amount of half a million dollars per year, but it was not cumulative, it would not start to accrue until bonds were sold, and if not needed would go back each year, and, naturally, of course, the Resolution could be repealed or altered by any future Legislature. I might say to you that in my opinion, had it not been for a serious slump which the bond market was then in, that Resolution would have sold some bonds. I want to say to you first that on the day this Senate was adjourned, during that session, I was called out of this body by an attorney who still at this time is interested in this matter — called out that door — (indicating) and asked to revive a bill out of Committee which would have repealed a provision in

the Turnpike Act requiring that contracts on turnpike construction not be let in excess of \$1 million. He made the statement to me that if we could pass that on the last day of the session, it being a House Bill in Committee, that that would definitely sell the Southwestern Turnpike bonds. I, along with others in this Senate, would not agree to that because we felt that it would be unwholesome and would result in the Turnpike Authority being allowed to let a total contract for construction of Fifty-odd million dollars on the Southwestern Turnpike in one contract. And it later developed that the gentleman who talked to me about it, who is still interested in this matter, was representing the Murchison interests. Of course, when we would not go along with that, it was not even put up, and the session adjourned that day about two or three o'clock without that Bill being brought out of Committee. So, this is not the first time someone has said to me that if you do this it will definitely sell the Southwestern bonds. That's been said several times to me, but I have not been willing to do that in that particular instance and in others, just because it would definitely sell the Southwestern Turnpike bonds.

Now, last session, as you know, I was the principal author and supporter in the Senate of House Bill 932, which was a bill that eventually became the law. That Bill does this: it authorizes two turnpikes. It authorizes the Southwestern Turnpike between Oklahoma City and Wichita Falls, and ties down the route where the turnpike goes if and when it is built. It authorizes a turnpike which is called the Eastern Turnpike, which must start at a point near Tulsa and wind up at a point on Red River, and be built anywhere between U. S. 77 on the West and the Arkansas border on the East, and it contains the language, the law does, if you will check it, "or any part or parts thereof." The Bill further, as you know, set up a Trust Fund to aid

in the financing of turnpikes, and provided that the Trust Fund could be used to pay interest in any year that other revenue was not available to pay interest on any bonds hereafter issued. It provided that there should be an apportionment to the Trust Fund an amount, not to exceed \$1 million dollars, equal to the gasoline tax on gasoline consumed on Turnpikes then existing and which may be built in the future, starting immediately before any bonds were sold. And it further provided that bonds hereafter sold could pledge as security for those bonds the revenue from the Will Rogers and the Turner Turnpikes after they had paid out.

Now, as you remember — many of you were here — that, when this bill was before the Senate Roads and Highways Committee, with my agreement the Committee asked for an Attorney General's opinion as to the permanency or irrevocability of the apportionment of \$1 million per year. I drew that request to the Attorney General. I wrote the request for the opinion, and I might say at that time there were attorneys who were interested in this matter who thought, in spite of the request of the Committee, that no opinion should be asked from the Attorney General because, they were certain what the opinion would be, and because they said, "we will take our chances with the Supreme Court". But I said, "I am not going to do that. I want to pass something that will be legal, and that will build some Turnpikes." I asked for the opinion. The Attorney General ruled that the Bill would be unconstitutional if it attempted to give a vested right to the bond people in the continuation of the apportionment of gasoline tax. I, then, and the Roads and Highway Committee, then, amended the bill, and I might say over the objections of those same attorneys who said, "Let's pass it anyway." We amended the bill to say that the Trust Fund could be obligated and expended "as the same ac-

cumulates". Now, that is exactly what was put in by that amendment which I drafted. Upon the assertion by me that the apportionment was not irrevocable, there was no intention that it be irrevocable, the Roads and Highway Committee voted out that Bill, and, upon the same assertion by me, the Senate adopted the Bill, and it became law.

Now then, as required by the law, the Turnpike Authority then went to the Supreme Court to get a validation of the Act to hold that it was constitutional. It was argued against the law that it was unconstitutional because it attempted to make this apportionment irrevocable. It was argued to the Court in favor of the law that the law was constitutional because it did not attempt to make this apportionment irrevocable. And the Court held that, with the words in there, "as the same accumulates," this Fund may be obligated or expended; the Court held that the bill was constitutional.

Then the Authority ordered the traffic, revenue and cost estimates to be made by the engineers. As you know, the revenue and cost estimates on the Southwestern Turnpike showed that it was feasible. The reports in regard to the Eastern Turnpike were very disappointing and for a time were suppressed and not made public, which many of you knew about and which I knew about at that time, with the hope that it might be bettered and that the revenue and the traffic could be better shown on at least one of the new routes which was studied. And I might say that at least three or four routes were studied by the traffic engineers as to which one would be the best and most economical and most feasible route, as the law required, for the Eastern Turnpike.

Then, after the reports were drawn, the Authority drew up a Trust Agreement, which they must do, which is, in other words, a mortgage that we are going to give in return for the money that we

are going to borrow under the bonds. That Trust Agreement has these provisions: it pledges the revenue from the Southwestern and from the Eastern when it is built; it pledges, of course as the law permits, the revenue from the Turner and Will Rogers after they have paid out; it pledges the Trust Fund. Then I might say this, that in order to take advantage, which they should do, of the entire new bill which we passed, these roads, the Southwestern and the Eastern, are put under a common sinking fund so that any security pledged for one will be the same security for all, and all the available revenue from both that are built would go into this common sinking fund. I am gradually getting down to the meat of this thing, but we are about to get there.

Because of the disappointing report in regard to the Eastern Turnpike, there were provisions in the Trust Agreement, which I hold here (indicating), first of all, in Section 208, for \$59 million to be issued in bonds for the Southwestern Turnpike, then, in Section 209, for \$31 million in bonds to be issued, if they were issued simultaneously with the Southwestern, for the Eastern Turnpike. And then, in Section 210, it was provided — and now this is beginning to get important — on page 40, that, if the Eastern Turnpike did not sell at the same time the Southwestern sold, before it could later be sold it must meet certain requirements. These requirements have to do with the revenue then coming in on the Will Rogers and Turner and the revenue then coming in on the Southwestern, after it has been in operation for one full year. The effect of this is that, unless you sell the Eastern Turnpike under this Trust Agreement at the same time you sell the Southwestern, the effect is that it would be approximately four years before you could sell the Eastern Turnpike. Now, we did not write that in the law, but this was written into the Trust Agreement at the request of the bond underwriters, and it was their in-

tent at that time that they would go ahead and sell the Southwestern now on the good report which it had and eventually, under this Trust agreement, sell the Eastern Turnpike.

But then somebody got an idea, an idea that the Supreme Court of Oklahoma might be prevailed upon to make this apportionment irrevocable. That is something new. That is something that had not been argued previously. The idea that you would ask the Court to say that you cannot repeal this million dollar per year apportionment. If they could get that additional security, then they could knock out these restrictive provisions on the later sales of the Eastern Turnpike, that having been the thing which has held up the sale of the Southwestern to that time. They either had to sell the Eastern right with the Southwestern or wait four years, if you went ahead and sold it. So, they held up the sale until they could finally get that worked out, needing additional security in order to get out that provision, which I just read to you on page 40, Section 210 of the Trust Agreement. Now, in the petition which was drawn to go into Court, which they had to do in order to validate the Trust Agreement, they asked the question if the bond underwriters — now get this — if the bond underwriters would have a vested right in the continuation of the apportionment of \$1 million a year so long as bonds were outstanding. At that time Norman Reynolds and I, he serving as one of the attorneys for the Authority, argued that that question should not be asked. That it had already been answered, that the answer was clear, and that it would simply stir up additional controversy to try to now say that this apportionment was irrevocable. Others prevailed, and in the Supreme Court case, the Court was asked to now hold that this apportionment was now irrevocable, and should not be repealed by future legislatures.

Incredible pressure was brought to bear

upon the Supreme Court of Oklahoma, and the Court eventually, after a good deal of study, held, in accordance with the provisions of the Constitution that no Legislature can bind future Legislatures or that they cannot create a debt in Oklahoma without a vote of the people, the Court held that the Trust Fund apportionment was not irrevocable, but could be repealed by the Legislature. And to the theory, which was argued, that the motor fuel tax levy could be altered, amended or repealed, but the apportionment was irrevocable, the Court held that it was not the legislative intent of the Twenty-Seventh Legislature that that be done. And they turned down that argument. I, then, made a statement in which I said that the decision of the Supreme Court was sound and valid and followed the Constitution and the law as we wrote it last session.

And then, all of a sudden, the Turnpike Authority lawyers, at the request of the Governor filed a petition for rehearing to ask the same question of irrevocability, again, of the Supreme Court. And, during that period, I had a personal request, which I refused, from the Chief Executive of this State that I attempt to influence a member of the Supreme Court to change his opinion. And I had the same request from other sources who are also interested in this matter, and I refused to do that, because I felt the Court had made its decision, I not being a party to the case, I had no business ethically or otherwise trying to tell the Court what to do. At that time negotiations were opened by the Governor and others with Bill Hoover of Ada with the idea that they might get together on a route for the Eastern Turnpike which would cause him to drop his appeal in regard to this matter and that he might be able, himself, to influence a different member of the Supreme Court on this question of irrevocability. The negotiations were fruitless. The Court, as you know, after all kinds of pressure, came back and denied the petition for rehearing

and reiterated its position in regard to the fact that later legislatures could repeal this apportionment.

I made the same statement, again, in regard to the decision. And, lo and behold, the Turnpike Authority lawyers filed a second petition for rehearing, asking, again, the same question put to the Court and twice denied, the question of irrevocability of this apportionment, again arguing for the third time, that true, the Legislature could repeal, alter or amend the motor fuel tax levy, but they could not repeal the apportionment, which was irrevocable and was "revenue generated by Turnpikes". The Court, again, after tremendous pressure, by a 5-4 opinion, reiterated their same position, holding that this Trust Fund could not be made irrevocable.

Then, after that, I talked with an attorney for the bond underwriters who had discussed the final hearing and the final order by the Supreme Court with the bond underwriters. He told me that the Southwestern Turnpike was marketable under this decision, that it would be marketed forthwith, and that they would have to give up for the time being because of the traffic reports and the Supreme Court opinion on the Eastern Turnpike. That lasted about three days, and then somebody dreamed up this Resolution. On the following Monday the same attorney talked to me and told me that the matter was confused and muddled and that it would now be necessary to pass the Resolution through the Legislature, expressing the intent of the Legislature as to this irrevocability, and that should be done in a simple Concurrent Resolution, which would not have the effect of law. I told him that I thought it was unwise and unnecessary to introduce and attempt to pass such a Resolution, that I thought it would stir up considerable controversy and that it ought not to be done. The Supreme Court had three times ruled on the question of irrevocability.

Later, and before the Resolution was introduced, I talked at his request with the Governor of Oklahoma about this Resolu-

tion. He asked me to affirmatively support the Resolution and its passage through the Legislature, for the reason and for the stated purpose, number one, that it was necessary that this Resolution be passed in order to sell the Southwestern Turnpike, it being stated by him that the Eastern Turnpike was now dead; for the second reason, that it was necessary to pass this resolution in order to assure the bond underwriters that this Session of the Legislature, at least, was not going to repeal the apportionment of the motor fuel taxes; and for the further reason that the bond underwriters needed this Resolution for "Window Dressing," and with the statement, to which I was to agree, that this was a simple Resolution which did not bind anybody, and that it ought to be passed because it wouldn't hurt anybody and wouldn't be binding upon this or any future Legislature.

I felt at that time, I feel now, that none of those assertions representing the stated purposes for the Edmondson Resolution, represents the true facts. I refused to handle the Resolution, I refused to be a party to its introduction or its attempted passage, and I told the Governor that I thought it was unwise and unnecessary and that any attempt at a hurried passage, without it being printed or studied or carefully explained, would be detrimental, and very seriously detrimental, to the cause of Turnpikes generally.

Now, I want to examine those assertions for you. I might say it has been stated on this Senate floor before that it is impossible to build Turnpikes without graft and corruption. I have felt that it can be done. And I think that my actions in regard to Turnpikes and in regard to this Resolution indicate to you that we can do it in an open and an above-board manner and in a manner in which will be of lasting benefit to the people of Oklahoma. And we can do it by explaining all the facts and by being open and above-board about what we do, and being certain that everybody understands what the purpose is.

First of all, in regard to the stated purpose of the Resolution that it is necessary to pass it in order to assure the bond people that this Session of the Legislature, at least, is not going to repeal the apportionment. I want to say that, when that statement was made to me, I said to the Governor, "There is a lot of unnecessary language in that Resolution in order to accomplish that purpose." The same purpose could be accomplished by bringing up the anti-toll road bills and killing those bills. The same purpose could be accomplished in a much more direct way by a Resolution, which I later drafted and introduced and which is now in the Roads and Highways Committee, which reaffirms and approves the provisions of the present Turnpike Law and the continuation of the apportionment thereunder. That Resolution gets at it head-on. The only objection that has been voiced to that kind of an approach to today is the objection that the bond people want the other Resolution.

Now, in regard to the statement that this is necessary so that the bond people can have it for "Window Dressing," I want to say to you that I think it is obvious to anybody who knows anything about bond financing that a reputable bond underwriting firm is not going to go to a prospective purchaser, and, by means of this Resolution, attempt to convince him that this apportionment is irrevocable, with his future reputation in mind, unless he actually feels that the apportionment is irrevocable. On its face, the statement that this Resolution could be used as "Window Dressing" by the bond underwriters is ridiculous.

Now, in regard to the statement—that this is really important—that this Resolution is not binding on anybody, it is just a little simple Resolution which doesn't bind anybody. Now, I want to say in regard to that that, when I talked to the bond underwriters by telephone a week or so ago, they told me that what they had wanted was a Bill, which would have the effect of law, but that "they" (and I put that in

quotes) "had informed us that the political conditions in Oklahoma would not support the passage of a Bill which would have the effect of law, and, therefore, we had to go back to the Senate Concurrent Resolution," and, thereby, he not saying it, but I, saying it attempts to accomplish by indirection what cannot be directly accomplished. Now, still on this question that it is not binding on anybody, I asked the Governor if he would assure me that this Resolution was not intended to be used to get back into the Supreme Court to pressure them to change their thinking on the irrevocability of the apportionment. He told me that he had no present intention to do that, but he could not assure me that it would not eventually be done. Here is the important thing. This Resolution is drawn, whether you use the word "irrevocable" or "permanent" in the technical legal language of a Kentucky Supreme Court case, which held that it is true that the Legislature can repeal, alter or amend the gasoline tax, but as long as you have any gasoline tax, the apportionment of one million dollars per year is irrevocable, they having a similar law, but I am not certain as to their Constitution. It is drawn in that technical legal language, and it ties in with the opinion of our Court that it was not the legislative intent that that theory be followed in Oklahoma. Don't you see that, if you had this Resolution, it would be possible to go back and say, "Oh, yes, it was the Legislative intent!" I asked at my last meeting with Norman Reynolds, which was last Thursday morning, this is important, I said, "There isn't any use of you and I talking about words or semantics; the question is the permanency or the irrevocability of this apportionment fund." I said, "Would you give me a letter." This might be of some importance, I said "Would you give me a letter, signed by the Governor of Oklahoma and the Chairman of the Turnpike Authority, which could be printed in the Journal of the Senate, in which they would give absolute assurance in no uncertain terms that this Resolution would

not be used to get the Supreme Court to change its mind on the question of irrevocability." He told me that he could not furnish such a letter, that they would not want to give up the possibility that they might want to go back to court in order to sell bonds, although then he said, "We have no present intention that that be done." I asked the bond underwriters on the telephone a week or so ago if they could give such a letter or even such an oral assurance. They stated to me that the question of going back to the Supreme Court was not within their prerogative, and that they would not comment upon the possibility that this Resolution might be taken back to the Supreme Court of Oklahoma. There are several ways that it can be taken back to the Supreme Court of Oklahoma, but the best one that I know of was suggested to me by Norman Reynolds last Thursday morning when he said, and you lawyers particularly will be interested in this procedure, that in a case of original jurisdiction in the Supreme Court, where there is no mandate to be handed down to a lower court, the Court retains continuing jurisdiction over the decision on this matter, and that, at any time they determine they have made a mistake, they can rewrite the opinion and reissue another opinion. The giving of a letter with such assurance wouldn't particularly have any meaning, but the refusal of such a letter has tremendous meaning.

Now, in regard to sale of the Southwestern bonds and that this Resolution is necessary to sell the Southwestern Bonds, I say to you that it is not and never has been. That is based upon my talks for a long time with the bond underwriters, my recent cross-check in regard to the marketability of these bonds, which are called "very attractive bonds" and that they are now saleable. I ask this question of Norman Reynolds, "Could you give me a letter that you wouldn't go back to Court to change this opinion before the Southwestern bonds are sold?"

He said, "Yes, I think I could get you such a letter," which ought to indicate to you and me both — that was the intent of the question — that this Resolution and the question of irrevocability is not necessary to the sale of the Southwestern Turnpike bonds. But the passage of it is, so that the Trust Agreement can be signed, the bonds issued and the money handed over upon the representation which we make to the bond underwriters that it is the intent of the Legislature that this apportionment be irrevocable.

Now, as to the letter which was received at the request of the Governor from the bond underwriters — and I will bring this rapidly to a close so I can show you what the effect of this would be if you pass it — the letter, if you recall, made the assertion in regard to the Southwestern Turnpike, not that you could not sell the Southwestern Turnpike if you didn't pass this Resolution but it makes the statement that we cannot **now** assure you that the Southwestern Turnpike bonds are marketable unless you pass this Resolution. That's all it did say. If they intended to say something else, it would have been mighty easy for them to say that we can't sell the bonds unless you pass this Resolution. It didn't say that. It said that we cannot **now** assure you that these bonds are marketable unless this Resolution is passed. If you get the letter from the bond people, and I think that this is the crux of the matter, you will notice that they made three requirements. One, that the Legislature's intent be expressed as to the irrevocability of this apportionment; Number Two, that the Trust Agreement be changed — because the Trust Agreement ties the Turnpike on the East Side from Henryetta to McAlester—that that be changed so that it can be built anywhere within the limits of the law, which I stated to you a while ago; And thirdly, there is a requirement down in the bottom of the third paragraph that revisions be made in the restrictive provisions as to further

financing. That's not said very directly, but I'll tell you what that means. That revisions be made in the restrictions on further financing. Restrictive provisions are found on page 40, Section 210, of the Trust Agreement, which make certain requirements for the eventual sale of the Eastern Turnpike, unless it is sold simultaneously with the Southwestern. The bond people wrote that in there before they had any idea that the Supreme Court might make this apportionment irrevocable. Therefore, they didn't want to give us \$59 million for this security unless they had some assurance that before long you weren't going to come around and mortgage the same security, which had equal call on the security, for the sale of additional bonds. So, they made it meet certain requirements of feasibility before the Eastern could sell, after the Southwestern had sold. The only way they could get that out of there is by getting additional security, which the irrevocability of the \$1 million apportionment during the term of the bond constitutes. That is the whole crux of the Resolution and the letter, that if they can make this apportionment irrevocable they can take out the restrictive provisions in regard to further finance. That was exactly the intent of trying to get the Supreme Court to hold that this was irrevocable, and, when they didn't, now they come with this Resolution to be used against the Supreme Court to do what they had three times already refused to do. You might note that there is no reference in the Resolution to the Eastern Turnpike. No reference in it, and no reference in the letter, although that is the entire question involved. There doesn't need to be any reference to the Eastern Turnpike. If you put any reference to the Eastern Turnpike, say, in this Resolution, or if you just left it completely out, that would be a complete nullity, because you already have the law. You already have the Trust Agreement. You already have the Supreme Court case. So, all you need to do is say something

about irrevocability, and you don't need to mention any turnpikes, Southwestern or Eastern, but the Southwestern was put in there under the guise that it had to be done in order to sell the Southwestern. In order to pressure whom? I think that's fairly obvious; in order to pressure me. It was not stated that that was necessary, and if we didn't have it that they wouldn't sell the Southwestern bonds.

Now, what's all this mean? Now, I want to get down to the last, and this is the important point. You know it was made, we made the assertions in support of this bill last session that you weren't providing a million dollars a year for forty years, that you were providing merely for the possibility of a million dollars a year for the term of the bonds, and that in reality these two turnpikes were feasible and that none of this money would actually ever be needed. You recall that this bill has a provision in it that there cannot accumulate over \$1 million per year, and that there cannot accumulate in excess of \$4 million until bonds are sold. Then it has the provision that, when bonds are sold, it will accumulate up to three times the annual interest on bonds then outstanding. Now, let me tell you what would happen under this situation. You pass this Resolution, the Edmondson Resolution, and in due time, when you have dispensed with the possibility of an appeal to the U. S. Supreme Court, or when that has been decided, when your prospectus has been prepared, you'll sell the Southwestern Turnpike bonds. I want to say to you, "Why wouldn't you?" Why wouldn't you? Here's what you have just given in regard to the Southwestern Turnpike. You've borrowed \$59 million, which includes three and a half year's interest Capitalized. You have borrowed the first three and a half years interest in your \$59 million, which is the usual procedure. You have four million dollars, if you don't use it this session, in the apportionment fund. You have a feasibility report that shows that it will more than bring in

enough the first year to pay interest, principal and maintenance. And, then, this further fact, when you get the Southwestern Turnpike in operation, by the most conservative estimate, the Turner Turnpike is only seven years away from paying out completely, on these forty year bonds, and then it's available. But you haven't quit there. That's enough to sell them under the present law. Then you've just given them a million dollars a year during the term of bonds hereafter issued, so they certainly would sell. Now, if you passed this Resolution, you would sell the Southwestern Turnpike bonds, and that is presuming, and this is, I think, presumption which I'm not willing to engage in, presuming that there isn't any unusual controversy in the courts or otherwise about this Resolution, and I think there would be, to the serious detriment of Turnpikes generally. But presuming there wasn't any such disturbance in the courts about the effects of this Resolution, you'd sell the Southwestern Turnpike, sign the Trust Agreement on the representation which we have made to the bond purchasers in this Resolution. The amount which must accumulate in the Trust Fund went up when you did that from \$4 million to three times the annual interest on \$59 million, which will be around, let's say \$11 million, and, so, you continue to draw down every year your million dollars. And you go back to Court, through this continuing jurisdiction or otherwise, or perhaps you file suit to mandamus the Tax Commission not to stop this apportionment, even though the Legislature says so, and the Supreme Court says, "Yes, but it wasn't the Legislative intent that this be made irrevocable." And you say, "Oh, yes, it was, because here is a Resolution that so states, and here is the theory upon which the Supreme Court of Kentucky so held." And, supposing that they are able to bring enough pressure upon one member of the Court to change, the Court holds that this apportionment is irrevocable. Then, this is the key. You've cut out, before

you sell the Southwestern Turnpike bonds, the exact routing of the Eastern Turnpike. Like the bond people say, you've cut out the restrictive provision in regard to further financing. It doesn't have to meet then any coverage; it doesn't have to meet then any feasibility test. You just cut it out. How could we do that? Because we have, irrevocably, a million dollars a year. Then, just before this Administration goes out, which is the point, just before this Administration goes out, you settle upon a route for the Eastern Turnpike. Presumptively, it would be the Henryetta-McAlester route, say. Then, you issue your \$31 million worth of bonds for that route. Your total bonds outstanding went up just then from \$59 million to \$90 million. Your trust fund must now have in it three year's annual interest on \$90 million. So you continue to pull down each year your million dollars, because that's irrevocable, and it says it must be apportioned so long as that limit has not been met. Then, during this Administration, we sign up this Trust Agreement. We make an arrangement in regard to consulting engineering, in regard to attorneys, in regard to bond underwriters, in regard to insurance and bonds upon construction, and, then, when this Administration goes out, all that is tied in, don't you see, under this Trust Agreement, which is irrevocable, and once it's signed, if it was legal when it was signed, cannot be changed by this Legislature, because it's tied down by the contract, and any contract legal when entered into cannot be changed by the Legislature. Then, don't you see, that, let's say, four years from now, four years from the time that you issued the first leg of the Eastern Turnpike from Henryetta to McAlester, you come with another bond issue, which you can do under Section 211 of this Trust Agreement, for another leg of the Eastern Turnpike, and suppose we issue those in 1966. Suppose they are for \$30 million. Then, your requirement for apportionment to the Trust Fund just went up from three years annual interest on \$90 million

to three years annual interest on \$120 million dollars, and you must then continue to draw down each year the million dollars a year. Then it's 1966, that gets us half way to Red River. Suppose we went along to 1970, four years later, and we decide to sell another leg of the Eastern Turnpike. Under Section 211 of the Trust Agreement we issue \$30 million more bonds. Then, your outstanding debt went up from \$120 million to \$150 million dollars, and instead of mortgaging the Will Rogers and Turner and the irrevocability of this million dollars for forty years, you've just mortgaged it forty years from, not 1961, but forty years from 1970, and your forty years just became 50 years. Then, we wait another five years, and under Section 211 — understand we're all tied in, the consulting engineers, the lawyers, the underwriters, the insurance and bond people, it doesn't matter who is Governor or who is on the Turnpike Authority, because we have a contract — we issue the last leg of \$30 million bonds which gets us down to the Red River. Then, our outstanding debt became, not \$150 million, but \$180 million. And the requirement for the Trust Fund became three years annual interest on \$180 million, which will be figured at not less than four and three-quarters percent.

Now then, from the possibility of a million dollars a year for forty years, which we said to you last session would never be needed, it just became an absolute certainty of a million dollars a year — not a possibility, but an absolute certainty, at least until it builds up three times the annual interest on all bonds hereafter issued. It just became not forty years, but it became fifty-five or sixty years, and, during the same period, we have just mortgaged the Will Rogers and Turner, not for forty years, but for fifty-five or sixty years, and we have been the vehicle by which a combine of engineers, attorneys, bond underwriters, bond and insurance people, everybody concerned in this matter, have set up not just a little \$59 million immediate deal for the South-

western Turnpike, but \$180 million deal over a fifteen or twenty-year period. We have been the vehicle by which we have allowed that kind of a combine to gain a stranglehold upon the State of Oklahoma.

All of that we have done, Gentlemen of the Senate, we have done without a vote of the people. Maybe that's not so bad, but we have done it without the knowledge of the people, or without the knowledge of their Representatives in the Legislature, which you and I are. We've done all that. We've done it without either their consent or their knowledge, and we've done it, Gentlemen, without making any requirements as to feasibility of a Turnpike or as to any coverage which its estimated revenue must have, to the extent that you could draw down a million dollars every year and build a turnpike, if you wanted to, from Wapanucka to Bochito, because you have this \$1 million irrevocably, the Turner and Will Rogers irrevocably, the Southwestern irrevocably, not for forty years, but for fifty-five or sixty years.

Now, that's what is provided in this Resolution. There should be no flimsy argument that this is not intended. That should not be of any importance to you. Or that we have no present intent to go back to court. That should not hold any merit in your consideration. We're not talking about something that's going to be passed today or this week and forgotten next month. We're talking about something that will haunt you for the next fifty-five to sixty years. It isn't a question so much that we haven't let the people vote on indebteding the State for fifty-five or sixty years, and on mortgaging the Will Rogers and the Turner and the Southwestern and whatever other roads are built without knowing about it. The question is that it has not been presented to you. That's the point I make. I'd come a lot nearer supporting this kind of thing — and there isn't anyway I can — if we would just explain what can be done if this Resolution is passed. Now, to any arguments

that's made in response to this, check the Trust Agreement, and I'll give you the citation. Check the law, check the Supreme Court decision, and it shouldn't be upon the representation that we don't intend to do this. It ought to be upon the representation to you one way or another that this cannot be done or that this is what we are trying to do, and let's try to pass it on the merits.

That's the effect of this Resolution. I love the idea of Turnpikes. You know I've made that something which I have been for wholeheartedly in every session of the Legislature in which I have served. I want to build some turnpikes. I want a real road program for Oklahoma. I want a real road program for my community. I love my community. All of you know the pressure which has been brought to bear upon me, thinking that in order to get something immediately for my community, I would mislead you. I felt, and said to the Governor, I felt that you, and you ought to, would forgive me as soon for dishonesty as you would for ignorance, because you know that I am not ignorant on the subject of Turnpikes.

I love my community, and I want a road program, but I love honor and Oklahoma more. I want to say to you this, that this Resolution will be the vehicle by which you indebt this State for fifty-five to sixty years, you mortgage the Will Rogers and Turner Turnpike during that same period, all without any requirements that any turnpike built will meet any kind of a feasibility report.

I want to say that without this Resolution we could go ahead, and I said this to the Governor, "let's build the Southwestern Turnpike, without cutting any corners, being open and above-board, without misleading anybody, which I will not be a party to, and, then, four years from now you can build the Eastern Turnpike if you find that it has the feasibility, or sooner if, this or the next Legislature on the merits determines that they want to do something more to help build an East-

ern Turnpike. But it doesn't seem to matter.

There's a couple of questions that ought to be in everybody's mind. One, if this is a little simple Resolution that doesn't bind everybody, why does it cause such dissention? Why is the thing so heated? That question, I think, I have answered for you. Then, why does it not seem to matter what Eastern Turnpike is built? We've had four in the last two years. Why does it not seem to matter?

Because of this indebtedness of the State without either their consent or knowledge for fifty-five or sixty years, because you mortgage the Turner, Will Rogers, the Southwestern, all within that time, because you help to establish a combine of those who have tremendous interest in this matter for a big deal for a long time to come, and furnish them a shackle and stranglehold upon the State, I cannot, I will not, be party to it! Thank you.

Remarks by Senator Baldwin:

Mr. Chairman and Members
of the Committee:

The meat of this thing is this: If you pass this resolution, even though it doesn't have the effect of law, whether you use the words or terms reaffirm or irrevocable, it all amounts to the same thing. It's kind of a peculiar inference in that it does this. It puts the legislature on record of reaffirming. It goes on to say that the same amount percentagewise will be dedicated to the payment of toll road authority. Now that in itself would be harmless except that the Constitution provides that you can't go into a proposition with a tax revenue and after you get the bond buyers in, pull it back from them. In other words, you can't abrogate the contract by itself and that could be the purpose of this resolution. If you want to adopt a resolution that has no such language as irrevocable or reaffirm, if you want to adopt a resolution that simply reiterates what you passed in the statute you will take something like the Harris Resolution. But I'm not so sure but that

this might need a little doctoring up to make it safe. But it all revolves around the same thing regardless of what has been said that there is no intent to go against the Supreme Court and get them to change their opinion as the Kentucky Supreme Court did. The fact remains that you are giving a tool whereby that can be done. Regardless of what the intent might be, the result could be the same. Now we would be in a position, if this thing happened, to leave a great heritage to your children and your children's children. There might not be an end to it. The very fact that the letter from the bond people states that you could change the trust agreement and take out the feature of the Eastern Turnpike. That request would cause me to be additionally alarmed because by such instruction you are going along with the authors of the trust agreement and therefore giving the people interested in the trust a chance to again enter into the Supreme Court Chamber with the new agreement and then with this resolution saying that you reaffirm or irrevoke such a fund together with the reading matter of the resolution together with the amendments in the resolution and a Supreme Court opinion from Kentucky; you are in force and effect telling the Supreme Court that you want them to change their opinion and then we are irrevocably in a mess and you didn't do what you wanted to do, and you left the debt on future generations. I don't mean one generation, it could be many. There wouldn't be anything to preclude them from starting in at the Kansas line and building a leg down to say, McAlester or some place like that. A little while later extend it again, again, and again clear down to the Texas line. I'll tell you, you are fooling with dangerous stuff here and the safest thing in my estimation, Senator Trent, is to scuttle the ship, sink it, put it away down under the water where you can't bring it up again.

Remarks by Senator Cartwright:

Mr. Chairman and Gentlemen of the Committee:

Everyone here knows my opinion about this subject and you have heard me express myself quite clear, however, there are some things I would like to call to your attention. We talk about our intent—regardless of what our intent is, if the highest Court of our state says that it is unconstitutional, then, regardless of what our intention is, it is a nullity what we say here. There could only be one or two purposes for this Resolution. One is to use this to convince the court to change the opinion as has been brought out. Secondly, it could be this: by the 2 years that we're given here, if we pass this Resolution, that they would proceed in constructing the Toll Roads then the next legislature would become morally bound, if not legally bound. Since we said go ahead with the 2 years at least, and we mean from now on, but the law as held by the Supreme Court says you can't do it more than 2 years but the moral obligation that they have spent money relying on what we said, therefore we're binding the next and future legislatures by the very thing that we're supposed not to do. Now, we talk about intent; we said the very act of creating this thing, that we are having so much trouble with now, we stated clearly that it would be submitted to the Supreme Court as to the constitutionality of it. That's what we had intended and certainly we intended to follow what the highest court in the state of Oklahoma said or else we wouldn't have put it in the Act, but even so, our intent is a nullity because the Supreme Court says the Constitution says you can't do it. But back to the thing we're talking about: intent. We had in mind when we wrote that section into the statutes that we would follow the Supreme Court, Judge Stevenson, that's what we said and that is the very point you argued yesterday, when you were arguing about cutting corners. You get into trouble. So certainly we had that in mind when we wrote it into the Bill last session, that if the Supreme Court says any part of it is unconstitutional we're

going to abide by it. In fact, we said by Acts that nothing would be done until the legality of the entire Bill was determined by the Supreme Court. They have held once, twice and three times that it was unconstitutional. I'm sorry I don't have the Court's opinion here; I have misplaced it but they have made it quite clear that you cannot do it; a majority of the Supreme Court said. Certainly we are supposed to be bound by the highest court in the land.

Now, Gentlemen, when we take it upon ourselves to do things in any manner to circumvent the opinion and judgment of the Supreme Court, the highest court in the state of Oklahoma, then we are doing an immoral thing; a bad thing. Every man in here is an intelligent man. There are many lawyers here, very able lawyers: Senator Stevenson, Senator Shoemaker, Senator Stipe—I can keep on naming them, and, other members of this Body who are no lawyers composing a lot of combined intelligence by reason of serving in the Legislature dealing with the various phases of our government as we enact them into law. So, Gentlemen, I am saying to you now that if you pass this or any kindred resolution trying to do the things that have been repeatedly held unconstitutional your act will be a bad example, and I'll tell you now, somewhere we will live to rue the day that we took action of this kind. Yet we will be voicing the opinion and the thinking of the majority of this Senate to the public, that regardless of what the Supreme Court says about the constitutionality of it, we don't care—we are going to do it anyway. Now, if they want to use it to pressure the Supreme Court I know, Gentlemen, I said the other day that that has happened, and I know what I'm talking about, I know that to be true. And that is wrong, and I, as a lawyer and citizen of this state, I am never going to be a party to a matter of this sort for personal gain or for my friends or anyone else. I would not stoop to it. I will not counter it without opening my mouth. I am going to do it not only on

this subject, Senators, but I am going to do it on every phase of legislation that is presented to the Senate of the state of Oklahoma as long as I serve. I feel that I would be remiss in my duty. I would feel that I am guilty of a wrong if I am a party to this without speaking out. Now there is no way you can make a good thing that is basically wrong. It's either good or it's bad. There is no half-way between a thing like this, and I say it is bad, it is wrong and we should stop it now. We said that before, but you have the privilege to keep on with it, but I say that we shouldn't do it. We ought to wipe it out and start with a real program of building roads in Oklahoma without cutting corners; without trying to do the thing that we know deep down in our hearts is wrong. Senator Graves, I have served with you and I know your feeling on such matters as this, and the fact that any road might serve my community and it might be the thing that the Chamber of Commerce wants out, I am not going to participate in that if it is wrong. I'm going to say that it's wrong, and I am going to vote that way, and I'm going to tell you and I'm going to tell all of the State of Oklahoma that it is wrong and someday you are going to find out that it is wrong, and it is no way to legislate, it is no way to build roads. Surprisingly, we are all talking about simple resolutions that have no effect of law and yet they have caused a tremendous furor throughout the state of Oklahoma. It has become a "stinking mess" and if you will sit down and tell your citizens the true facts of this, they will agree with you. I've done that with a 150 or 200 people and they want a turnpike or any other road, but they don't want to sell their soul and they don't want you doing things that you shouldn't do. We set an example. We are the highest body in the state. They have given you and me a trust to represent them and certainly to represent them honestly and conscientiously and as long as we continue this bickering it will bring about hard feelings among our own membership. It has brought about hard feelings

in the Legislature. Now you stop and think, why is it imperative that we do this. You ask yourself, why all the pressure; why all the conferences; there's something more behind it. Gentlemen, **there is a lot behind it!** Somewhere it is going to be found out when you deal with matters of this kind. There are millions and millions of dollars of the peoples involved here. There is money to be made honestly and otherwise and I'll tell you right now, I don't want to provide any vehicle for a dishonest dollar to be made by anybody—big, little or small. And I urge you to stop and think before you vote. I sincerely do that, and trust you will.

The President in transmitting such budget may recommend measures

The Congress shall not authorize expenditures to be made during such ensuing fiscal year in excess of the estimated receipts. In case of war or other grave national emergency, if the President shall so recommend, the Congress by a vote of three-fourths of all the members of each house may suspend the foregoing provisions for balancing the budget for periods, either successive or otherwise, not exceeding one year each.

MESSAGE FROM THE GOVERNOR

The following Message from the Governor was received and read:

April 21, 1961

TO THE PRESIDENT AND MEMBERS
OF THE HONORABLE SENATE
TWENTY-EIGHTH OKLAHOMA
LEGISLATURE

Gentlemen:

This is to advise you that on this date,

I vetoed ENROLLED SENATE BILL NO. 17—By Wilson (Beckham).

AN ACT RELATING TO MOTOR VEHICLES; AMENDING TITLE 47 O. S. 1951, § 121.3, AS AMENDED BY SECTION 1, CHAPTER 4h, TITLE 47, PAGES 193 AND 194, OKLAHOMA SESSION LAWS 1953; AS AMENDED BY SECTION 1, CHAPTER 4c, TITLE 47, PAGES 269 AND 270, OKLAHOMA SESSION LAWS 1955; AS AMENDED BY SECTION 1, CHAPTER 4d, TITLE 47, PAGES 270, 271, AND 272, OKLAHOMA SESSION LAWS 1955; CHANGING THE MAXIMUM SPEED FOR CERTAIN MOTOR VEHICLES ON FOUR-LANE DIVIDED HIGHWAYS; AND PROVIDING CITIES AND TOWNS SHALL FIX SPEED LIMIT OF VEHICLES WITHIN THEIR CORPORATE LIMITS, and herewith return the same to you without approval.

After receipt of your message of April 20, 1961, wherein you requested that I return Senate Bill No. 17 to the Senate for further consideration, I was advised that to comply with such request would result in the bill automatically becoming law on Saturday, April 22, 1961, by operation of Article VI, Section 11, of the Oklahoma Constitution.

In view of information received yesterday from the Federal Highway Administrator in Washington, D. C., that the enactment into law of that subsection of Senate Bill No. 17 authorizing cities and towns to fix the speed limit of vehicles within their corporate limits could make it extremely difficult for the State Highway Department to comply with established standards which must be met in order to qualify for federal aid for highways, I am left with no recourse but to veto the entire bill and return the same to you without approval.

BY THE GOVERNOR OF THE STATE
OF OKLAHOMA

/s/ J. Howard Edmondson

Senator Ritzhaupt moved to delay consideration of the Governor's Veto Message on SB 17, which motion prevailed.

REMARKS BY PRESIDENT PRO TEMPORE COLLINS

Mr. President and Gentlemen of the Senate, I would like to have a few minutes of your time to discuss these bills that have just been introduced. I might tell you at the outset that these are not all the bills I have to introduce. But, I would like to discuss them with you with reference to the over-all general program of state government for the next biennium. One of these bills is releasing what the legislature has given to various industries, to various organizations — exemptions from the 2% sales tax. There are twenty-three of them in toto. Some of these exemptions have been released through the period of years since the inauguration of the 2% sales tax, there are several other amendments in these bills that effect the kindred industries of this state.

These bills if all were passed would raise in the neighborhood, if the exemptions were lifted, of thirty-three million dollars. Now I'm quite sure and I am not naive enough to believe that all of these exemptions by the legislature will be released, because some of them have to do

with the exemptions as I said before with reference to industry located in the State of Oklahoma. I sincerely recommend to you though that in discussing these releases and these exemptions, that I plan to refer this exemption bill to the Revenue and Taxation Committee. At that time I will give to the Revenue and Taxation Committee when these exemptions were released. As you know the last one that the exemption was put on, was in 1958, which was granted to agriculture of this state, which put on the exemption of 2% on feed and on used farm equipment. I desire to tell you now that that exemption is not now in these exemptions. And the reason for it is because agriculture has only experienced this amount of relief for the period of only two years. And I felt in all wisdom, that probably agriculture should not come within those exemptions due to that fact. Now you may have a different attitude on that subject than I have. That is for you to decide. Now the other bills that were introduced today: The bill transferring the Negro Boys Training School at Boley to the Department of Public Welfare, and The bill transferring Girl's Town to the Department of Public Welfare. These two bills will be a matter of saving approximately \$400,000.00 of what we are granting now from the General Revenue Fund to those two institutions.

Now the other bill that was introduced was the mental institutions bill. People have said "Why do you want to be so drastic by taking the mental institutions and putting them under the Department of Public Welfare?" Well, gentlemen, the reason for it is this. As you know and I know today we are faced, each House, with a dilemma and a crisis with reference to financing state government. I believe if we would take a certain portion of these exemptions that amount to the appropriations to the mental institutions of this state and put it under one category. The mental institutions of this state need administrators to administrate the

program itself. I think that the professional people who are now doing a job with the mental institution of this state should not be hampered with the proposition of administration, but that you should have an administrator over all of these institutions. And if you do that, then the professional people that are now employed by the mental institutions can devote their entire time to the healing of these mental people of this state. That amounts, under Budget B appropriations, to ten million, two hundred fifty thousand dollars. Under Budget A it is nine million and some thousand dollars. Now if we would release some of the exemptions here in the exemption bill, we would then release the general revenue fund of approximately some 20 million dollars during the biennium whereby we could appropriate to other functions of government of this state. As you know some of the states have gone far in putting various institutions under the Department of Public Welfare. For instance New Jersey and probably eleven other states of this union have correctional institutions under their Department of Public Welfare. The history of the fourteen states that now have the mental institutions under the Department of Public Welfare is working successfully because they have employed top administrators to administer the program that they are now doing in the other states. There is about fourteen of those and if you want the advice of some of these directors from the other states of what they are doing, I feel confident and I have information that we can get them here on possibly two days notice to advise this Senate and this Legislature and the people of this State about how that program is working. I thought at first that we would only take that portion of the mental institutions, but I find by examining the law and talking to other people of the various states that that is not successful and that you have to take all of them within one department.

Now, the other category that I didn't have ready today because it is technical in nature, I find on examining the Statutes of Oklahoma that in 1941 the legislature passed an act exempting domestic life insurance companies of this state from paying any kind of tax. The foreign domestic insurance companies are paying 4% premium tax to this state and in this state there was written 70 million dollars worth of life insurance premiums. And I say to you gentlemen, in that respect it was given to foster and to bring into this state, more money on life insurance, but we can grant and we can take hold of 2% of premium tax. Now, mind you, they are not paying any income tax as per my information and they are not paying any premium tax in this state. Now, neither are the stockholders paying any tax on the dividend of the stocks that they are deriving. I say, gentlemen of the Senate, that this is the hour and this is the time to put a 2% premium tax upon those policies that will bring to you a figure of one million, five hundred and sixty thousand dollars that you can put to the General Revenue Fund. I think that we should put 2% instead of 4% so that it will still give them an incentive to write more premiums in the State of Oklahoma.

Now there has been a lot of discussion pro and con about this program. I want to comment to you that in writing and submitting this program, that I went into various phases and aspects of taxes in this state. Did you realize that if you take our neighboring State of Arkansas on income taxes, where a wage-earner is making ten thousand dollars in Arkansas and you take the same man making ten thousand dollars in Oklahoma, do you realize that the taxpayer in Arkansas will pay 400 and some dollars on a ten thousand dollar income, and in Oklahoma, that same taxpayer is paying approximately eighty-two dollars? And then they say that we are not competitive in the State of Oklahoma with the rest of the States

of the Union. Just recently I'm sure all of you have heard the House of Representatives of the State of Texas recently passed to the Senate a 2% sales tax. What the Senate will do with it there I don't know, but I have a good idea that they will pass it. So that brings us into the fold and that is the reason I have always said we should leave the one cent sales tax alone in the State of Oklahoma because the bordering counties of this state have been 'ham-strung' by that 2% sales tax on feed, equipment and everything else that the people of the State of Oklahoma want to be competitive with their neighboring states. So if the State of Texas passes the 2% sales tax in that category, then we are in good position as far as our neighboring State of Texas and do you realize that Arkansas today has passed a 3% sales tax? So now we are coming within focus with the rest of the states of the Union. Now there has been a lot said about common school education in this state. I know that Senator Baldwin has made a study. I know that several others of you have made a study here in this Senate with reference to common school education. I voted against the common school education bill the other day and I think everybody knows why I voted against it. But I want to say to you that the thing that I'm thinking about more than anything else, with reference to common school education in this state, is that each child has an equal opportunity under the constitution of this state, to receive an equal education. And, Gentlemen of this Senate, you might as well face it now as along down the line, we are not abiding by the constitution of the State of Oklahoma. Because, do you realize that in Oklahoma, of 500 high-schools in this state, some of them are not giving English 1, 2, 3 or 4, and are not giving a course in geometry, are not giving a course in algebra, are not giving a course in chemistry, are not giving a course in physical education and all the rest of the related subjects? I say it

is time for this legislature, and I say the people of this state are now ready for the legislature, to take hold and abide by the constitution of this state. Now if the highschools were giving these subjects you know what happens when they do not give the required course — they go to the institutions of higher education. There they have not become fitted for education in the institutions of higher learning and there they have to be given the same subjects that they didn't receive in the highschools of this State. I merely throw that out because it might be time here and now to write a curriculum for highschool students in this State. Now the other proposition is that you know we have been working on a 40 ADA for highschools of this State. I take the position that we should up that to 50 in this State. I think only 90 some highschools are involved. I also think that you should have a provision with reference to isolation and transportation. We have grown up in the State of Oklahoma today. Irrespective of what you think about roads, we are far ahead of what we used to be in roads. And I say this Legislature is not going to adjourn until we have a good road program in this State. And I say we shouldn't adjourn until we have a good road program in this State! Twenty-six million dollars as advocated by Budget B. I know the situation that there are some counties in this State and there are some communities in this State, and I know a lot of people will not agree with me on the twenty-six million dollars for highways in this State. But, Gentlemen, look at your own community — there are some roads there that need to be built by 100% state aid or either force account. I don't care what you say, and they can't be built any other way. If you have a road program in this State, it must be an overall road program and not take care of just a few communities in order for this State to grow and for this State to progress. This program is your program and as I told you at the

beginning of the session, I will work with you as long as you want to work. And I will work with the institutions of higher education in their needs of a stepped-up program according to their enrollments. They need it. Gentlemen of the Senate, you will find that whenever you bring them in before these committees, that they will show you that they will do it. Now the situation is this — I said a long time before the session started that we needed a tightening-up process in state government in this State before we ever voted an increase in taxes and I still say that we have not gone far enough yet — that we should look in every department and I know there is work being done here in this Senate looking to tighten up on various facets of government in this State. Now for instance, the Commerce and Industry Department — I want the Commerce and Industry Department to show this Senate and I want them to show the people of this state what they have done with reference to bringing in new industry rather than having huge travel claims here and there — I think it is time now, and I call for the bill to come out of committee, and we will meld it with the Planning and Resources Board, from which it came. And another bill that you have — the Water Resources board — there isn't any reason on this earth that that Board cannot be put under the Planning and Resources Board of this State. And thereby get rid of some of the political or some of the merit system patronage and save some money in that respect where it can be looked over well with a good administrator. I am interested in this program. I am interested in this State. And I say to you gentlemen that there are some of those people in this State who would love to have us go home without any program. And it would be purely and simply on a political basis that they would want us to do it. I think we can arise to the occasion and write a program — a stepped-up program for the people of this State that we will be

proud of. Back to the common school education, I want it known here and now that I have always been for good salaries for the working people and the professional people of this State and I don't think that the salary increase to the teachers is too high. And I think we can develop the program as we go along the line. I ask your cooperation, I ask the people's cooperation — if you want to do it, we can do it without a tax increase in this State. Thank you.

MESSAGE FROM THE GOVERNOR

The following VETO Message from the Governor was received and read:

April 25, 1961

TO THE PRESIDENT AND MEMBERS
OF THE HONORABLE SENATE
TWENTY-EIGHTH OKLAHOMA
LEGISLATURE

Gentlemen:

This is to advise you that on this date I vetoed

ENROLLED SENATE BILL NO. 146—By Berrong, Wilson (Beckham), Cobb, Ritzhaupt, Dacus, Allen, Breeden, and Wilson (Greer) of the Senate and McCue of the House.

AN ACT RELATING TO STATE FISCAL AFFAIRS; CREATING IN THE STATE TREASURY A CONTINUING SPECIAL CASH FUND TO BE KNOWN AS "THE STATE EMERGENCY FUND"; PROVIDING THAT CERTAIN MONIES SHALL UNDER CERTAIN CONDITIONS BE TRANSFERRED TO THE GENERAL REVENUE FUND; AUTHORIZING THE GOVERNOR TO ALLOCATE MONIES AND TO AUTHORIZE EXPENDITURES FROM SAID FUND FOR EMERGENCIES AS DEFINED HEREIN; PROHIBITING ALLOCATIONS AND EXPENDITURES FROM SAID FUND FOR ANY PURPOSE, USE, OR OBJECT CONSIDERED OR ACTED UPON ADVERSELY BY THE LEGISLATURE OR EITHER HOUSE THEREOF; OUTLINING PROCEDURES FOR ALLOCATION AND EXPENDITURES FROM SAID FUND; ETC., for the following reasons:

Senate Bill No. 146 establishes a State Emergency Fund from which the Governor is authorized to allocate monies based upon written findings of fact from requesting state agencies. These findings of fact must show that one of three enumerated conditions or circumstances exist. These conditions or circumstances are nothing more than an itemization and limitation of the purposes for which monies appropriated to this Fund may be legally expended and, therefore, represent a legal exercise of legislative power.

However, Section 5 of the bill purports to expand the list of purposes for which this Fund may be used by further authorizing the Governor to make allocations for "other contingencies of an emergent nature not foreseen by the Legislature" upon recommendation of a majority of

the Executive Committee of the State Legislative Council. It is my opinion that this vesting of power in the Executive Committee of the State Legislative Council to so regulate and administer the expenditure of monies from the proposed State Emergency Fund is an encroachment upon the Executive branch of government by the Legislative and is, therefore, violative of Article IV, Section 1 of the Oklahoma Constitution. It is a well established principle of constitutional law in this State that once a fund of this nature has been established by law, containing such limitations upon its use as the Legislature in its wisdom may impose, the power to direct the expenditure of money from this Fund is purely administrative. The responsibility of the Legislative branch on this subject has then been discharged and the duty of faithfully executing the law devolves upon the Executive branch.

With this premise in mind, and keeping in mind also the fact that Section 8 of this bill repeals the present State Contingency and Emergency Fund law, it is apparent that if Senate Bill No. 146 were to become law the State would be protected during the interim against the numerous emergency situations which will inevitably arise only to the extent that such situations can be made to conform with one of the three enumerated cate-

gories of Section 4. I believe that these three categories are so restrictive in nature that the efficient operation of our government during the interim would be rendered virtually impossible. The very existence of Section 5 in this bill indicates that the Legislature contemplated that there might arise contingencies of an emergent nature which would fall outside the list of conditions described in Section 4 which must exist before money can be spent from this Fund to remedy them.

It should be further noted that Article V, Section 3 of the Oklahoma Constitution which gives to the people of this State the right to legislate for themselves through initiative and referendum at a special election called by the Governor might well be nullified by Senate Bill No. 146 since the bill provides only for expenses of special elections called by the Legislature.

For the reasons above stated, I herewith veto Senate Bill No. 146 and return the same to you without approval.

BY THE GOVERNOR OF THE
STATE OF OKLAHOMA

/S/ J. Howard Edmondson.

As provided under the Field motion, the Senate was declared adjourned to meet at 1:30 p.m., tomorrow.

Sixty-sixth Legislative Day

Wednesday, April 26, 1961

RESOLUTION

By unanimous consent, Senator Berrong called up for consideration **SR 43**, which was co-authored by Senators Trent, Hamilton, McColgin, Kerr, Belvin, Bohannon, Field, Fine, Rogers, McClendon, Wilson (Greer), Ritzhaupt, Dacus, Grantham and Harris, read at length as follows, adopted upon motion of Senator Berrong and referred for enrollment:

SENATE RESOLUTION NO. 43 — By Berrong, Breeden, Trent, Hamilton, McColgin, Kerr, Belvin, Bohannon, Field, Fine, Rogers, McClendon, Wilson (Greer), Ritzhaupt, Dacus, Grantham and Harris.

A RESOLUTION RELATING TO THE PRACTICE OF EARMARKING OF STATE REVENUES AND THE CREATION OF SPECIAL AND REVOLVING FUNDS; DIRECTING THE EXECUTIVE COMMITTEE OF THE STATE LEGISLATIVE COUNCIL TO CREATE A SPECIAL COMMITTEE DURING THE 1961-1963 LEGISLATIVE INTERIM; SPECIFYING THE NUMBER OF MEMBERS OF SAID COMMITTEE; SPECIFYING THE AREA OF STUDY; AND REQUIRING A REPORT AND RECOMMENDATIONS NOT LATER THAN OCTOBER 1, 1962.

WHEREAS, the Constitution of the State of Oklahoma has placed unequivocally up-

on the Legislature the responsibility for determination of the policies of this State; and

WHEREAS, the Constitutional powers and responsibilities of the Legislature are decreased in proportion as the Legislature's effective control over state revenues is decreased; and

WHEREAS, the Legislature directly appropriated only 22 per cent of nearly \$900 million in state and federal matching funds spent by state agencies during the 1959-1961 biennium; and

WHEREAS, the situation whereby the Oklahoma Legislature exercises little or no control over 78 per cent of state expenditures has arisen in large part through the practice of "earmarking" revenues for special purposes and the creation of special and segregated funds; and

WHEREAS, authorities in the area of public finance have agreed in the main that such practices are objectionable, their basic evil being that the legislative responsibility for policy determination — the power to say what activities shall be undertaken and to what extent — has passed from the effective control of the Legislature; and

WHEREAS, it is not proper that any unit of government should live to itself alone, yet this is the situation when an agency has an assured source of revenue year in and year out, leading to the possibility of complete divergence from legislative intentions in the enactment of law; and

WHEREAS, the earmarking or segregation of public revenues creates misunderstanding and uncertainty concerning the actual costs of government, it makes impossible the presentation of the true financial picture of the state, it prevents sound planning and responsible administration of public spending, it can lead to profligate spending on the part of agencies which are not required to justify their money requests on an equal basis with less-privileged agencies; and

WHEREAS, the overriding concern of the Twenty-eighth Legislature has been the securing of revenues to meet adequately the essential needs of state government, although this is a perennial dilemma confronting legislative bodies, it is incumbent upon this body to investigate all avenues leading to a solution of the demands for revenue before resorting to the last resort of increased taxation; and

WHEREAS, the practices of "earmarking" and creation of special funds is being seriously investigated in other states and in some the solution has been the creation of a single general fund, thus returning control of agency expenditures to its proper situs — the Legislature; and

WHEREAS, if democratic government is to function responsibly and effectively, and an adequate system of financial administration attained, the Legislature must hold as one of its fundamental prerogatives the control of the purse strings.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY - EIGHTH OKLAHOMA LEGISLATURE:

SECTION 1. The Executive Committee, State Legislative Council, is hereby directed to create at its first meeting of the 1961-1963 interim, a special committee on earmarked, revolving and special funds, said committee to consist of four members of the Senate and five members of the House of Representatives.

SECTION 2. The special committee, whose creation is hereby directed, shall study the practices of earmarking of revenues and the creation of revolving and special funds in Oklahoma and other states and shall submit its recommendations thereon to the Executive Committee of the State Legislative Council not later than October 1, 1962.

SENATE RESOLUTION NO. 45—By Breeden.

A RESOLUTION RELATING TO THE ARCHITECTURAL ASPECTS OF STATE BUILDING PROJECTS; DIRECTING THE EXECUTIVE COMMITTEE OF THE STATE LEGISLATIVE COUNCIL TO CREATE A SPECIAL COMMITTEE DURING THE 1961-1963 LEGISLATIVE INTERIM; SPECIFYING THE NUMBER OF MEMBERS OF SAID COMMITTEE; AND REQUIRING A REPORT AND RECOMMENDATIONS NOT LATER THAN OCTOBER 1, 1962.

WHEREAS, within recent years the State of Oklahoma has embarked upon building and construction programs of monumental proportions, entailing vast outlays in public funds, in order to meet continuously expanding demands for public services; and

WHEREAS, it appears a virtual certainty that a reversal of this historic trend toward increased governmental activities and expenditures will eventuate only under the most unusual circumstances and therefore must be viewed in terms of the possibilities of circumscribing this relentless march through the worthy objectives of economy and efficiency, coupled with adequate service; and

WHEREAS, a legitimate doubt arises with regard to the degree of efficiency or economy realized through the method presently followed in this state for the securing of architectural counsel and assistance in the planning and construction of new state buildings and structures and improvements and modifications of existing facilities; and

WHEREAS, several states have created an office of State Architect, lodging in such office the centralized responsibility for performance of all professional services related to the improvement, modification or construction of state buildings and structures usually performed by private architectural firms, including the design, preparation of drawings and specifications, recommendations regarding award of contracts, supervision and inspection of the work, all engineering, certification of payments to contractors and other related matters; and

WHEREAS, efficient and economic utilization of the public monies must be viewed with overriding concern by members of the Oklahoma Legislature, it therefore becomes incumbent upon this body to give its earnest consideration to all legitimate avenues leading toward greater economy and toward the concept of fiscal responsibility.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE TWENTY-EIGHTH OKLAHOMA LEGISLATURE:

SECTION 1. The Executive Committee of the State Legislative Council is hereby directed to create at its first meeting of the 1961-1963 interim a special com-

mittee on the architectural aspects of state building and construction projects, said committee to consist of three members of the Senate and four members of the House of Representatives.

SECTION 2. The special committee, whose creation is hereby directed, shall study the practices and procedures in Oklahoma and other states relating to the architectural aspects of state building and construction projects, including new construction and modifications or improvements of existing facilities, and shall submit its report and recommendations thereon to the Executive Committee of the State Legislative Council not later than October 1, 1962. Such study shall include, but shall not be limited to, the following subjects:

a. The feasibility of creating an office of State Architect.

b. The duties, qualifications and salaries of state architects, where such offices are in existence.

c. The duties and functions of any agencies not in themselves providing architectural services yet centrally responsible for securing architectural services for other state agencies, departments and institutions.

d. The procedures involved in submitting building and construction plans to private architectural firms.

e. Where private architectural firms are engaged, the fees allowed, the duties and responsibilities of such firms.

SECTION 3. For the purposes of making the above study, the special committee may utilize the advice and assistance of state and national architectural societies and organizations, private individuals with special knowledge and experience in the area of public construction, governmental agencies of this and other states, and any other sources which in its judgment will promote a factual, objective, and complete study.

SECTION 4. All agencies, boards, commissions, departments and institutions of

state government contemplating or planning construction, modification or improvement projects, except for bridges and highways, shall, prior to executing such construction, improvement or modification projects, submit to the special committee hereby created all plans and proposals relating to such projects for the committee's study, review and evaluation.
