The Speaker declared a quorum of the members of the Honorable House present.

The President declared quorums of the Senate and the Honorable House present and the Joint Session properly assembled.

Invocation was by the Reverend Russell Owen, Pastor of the First Methodist Church, Cleveland, Oklahoma.

Upon motion of Senator Boecher, the following proposed Joint Rules were ordered printed in the respective Journals of the House and Senate, and consideration deferred:

JOINT RULES OF THE SENATE AND HOUSE OF REPRESENTATIVES

Rule 1. Joint Session—How Convened

When any business shall require a joint session of the Senate and House of Representatives, the Senate preceded by its officers shall be conducted into the bar of the House and there be seated, the President of the Senate taking a seat by the side of the Speaker of the House, at his right.

Rule 2. Officers of Joint Session

The President of the Senate shall be the presiding officer of the joint session and the Secretary of the Senate shall call the roll of the Senate, to be announced by the President of the Senate. The Clerk of the House shall call the roll of the House, which shall be announced by the Speaker of the House. Both the Secretary of the Senate and the Clerk of the House shall keep a report of the proceedings to be entered on the Journals of their respective houses.

Rule 3. Manner of Presenting Bills

All bills, resolutions, votes and amendments by either house, to which the concurrence of both is necessary, as well as messages, shall be presented to the other by the Clerk or Secretary of the house from which they are sent, or by the Assistant Secretary or Assistant Clerk, or by messengers.

Rule 4. Revenue Bills Originate in House

All bills for raising revenue shall orig-

inate in the House of Representatives. The Senate may propose amendments to revenue bills. No revenue bill shall be passed during the last five days of the session. (Art. V, Section 33, Constitution)

Rule 5. Contents of Bills

Every act of the Legislature shall embrace but one subject which shall be clearly expressed in its title, except general appropriation bills, general revenue bills, and bills adopting a code, digest or revision of statutes; and no law shall be revised, amended, or the provisions thereof extended or conferred by reference to its title only; but so much thereof as is revised, amended, extended, or conferred shall be reenacted and published at length, provided, that if any subject be embraced in any act contrary to the provisions of this rule, such act shall be void only as to so much of the law as may not be expressed in the title thereof. (Art. V, Section 57, Constitution)

Rule 6. Engrossment of Bills

All bills, memorials, or resolutions ordered to be engrossed shall be engrossed by the Clerk of the house in which originated.

Rule 7. Enrollment of Bills

All bills must be enrolled and reported to each house by the respective house within three days after their passage; provided, that if the reconsideration of any bill is moved in either house previous to its presentation to the Governor, the respective house shall hold the same until action is had upon such motion.

Rule 8. Manner of Enrollment

No bill, resolution or memorial shall be sent to the Governor for his approval unless the same shall have been clearly and fairly enrolled without obliteration or interlineation. (See 75 O. S. 1961, § 12a)

Rule 9. Signing of Bills

The presiding officer of each house shall in the presence of the house over which he presides, sign all bills and joint resolutions passed by the Legislature imme-

diately after the same shall have been publicly read at length, and the fact of the reading and signing shall be entered upon the Journal, but the reading at length may be dispensed with by a two-thirds vote of the quorum present, which vote, by yeas and nays, shall also be entered upon the Journal. (Art. V. Section 35, Constitution)

When a bill or resolution is returned by either house to the other with amendments, and the house where the bill or resolution originated refuses to concur in said amendments, a Conference, by a majority vote of those present and voting, may be requested. Such action shall be transmitted by Message in which shall be included the names of the conferees on the part of the requesting house. Upon receipt of such Message, the other house may, in like manner, grant such Conference, notifying the requesting house by Message and stating the names of conferees.

Rule 10. Conference Committees and Reports

A Conference Committee shall consist of three members of the Senate and three members of the House, unless otherwise specified, to be appointed by the President Pro Tempore of the Senate and the Speaker of the House, respectively. In all cases, the first-named member of the house in which the bill originated shall be chairman of the Conference Committee. The committee shall meet at a convenient time, to be established by the chairman.

No Conference Committee shall proceed with its business until such time as a quorum of each committee is present and any member of said committee may request a roll call at any time to determine the presence of a quorum. The roll call of the Conference Committee shall be from the printed Journals of the respective houses, or from an official list furnished by the Presiding Officers of the respective houses.

Only matters in disagreement between

the two houses or matters germane to the bill or resolution shall be subject to consideration by the Conference Committee and a Conference Committee Report shall not be subject to amendment. An original and five copies of the Report shall be submitted and shall always be in order except when the Journal is being read or the roll is being called.

In case of agreement, by a majority of the members of each house, the Conference Committee Report shall first be made, with the papers referred accompanying it, to the house which refused to concur in amendments, and there acted upon, the action taken to be immediately reported, by Message, by the Secretary or the Clerk to the other house, the papers referred accompanying the Message. The agreeing Conference Committee Report shall be signed by all members of the Committee, or by a majority of those of each house.

In case the conferees of the two houses are unable to agree, they shall report that fact to both houses, and the bill shall accompany the report to the house in which it originated. The bill shall revert to the status it occupied before being sent to conference.

In the event of the failure of either house to adopt the Conference Report, the bill or resolution as reported by the Conference Committee shall be considered lost, the papers to remain with the house of origin, except that further conference may be requested and the original or new conferees appointed for the further consideration of amendments.

Rule 11. Announcement of Message

Messages between the houses are to be sent only while the receiving house is sitting.

Rule 12. Adoption and Amendment of Joint Rules; Violations

Joint rules shall be adopted in joint session by a majority vote of the membership of each house. Thereafter said rules

may be amended, modified or repealed only by the adoption of a concurrent resolution by a two-thirds vote of the membership of each house.

If either house violates a joint rule, a question of order may be raised in the other house, and decided in the same manner as in the case of violation of the rules of such house. If it is decided that the joint rules have been violated, the bill or resolution involved in that violation shall be returned to the house wherein the alleged violation occurred without further action.

Except for violation of a joint rule, any bill or resolution passed by one house and transmitted to the second house shall be deemed properly before said second house for consideration.

Rule 13. Appropriation Bills Privileged

The general appropriation bill and bills for the support of the charitable institutions of the State shall be privileged bills advanced upon the Calendar, and take precedence over all other bills. At any time after the reading of the Journal, it shall be in order by the direction of the Appropriations Committee to move that the House or Senate, as the case may be, resolve itself into a Committee of the Whole, for the purpose of considering the general appropriation bill or bills of the Senate or House, and no dilatory motion will be entertained by the Presiding Officer.

Rule 14. Amendment of Bills and Resolutions

Bills or resolutions under consideration must not be interlined or defaced. All amendments offered must be in writing, upon a separate sheet of paper, showing whether House or Senate bill, the number, and the section, line and page, or word, where the amendment begins shall be particularly noted, also the part stricken out, if any. A typewritten copy of all amendments which are adopted shall be attached to the original bill and transmitted to the other house.

Rule 15. Addition of Coauthors

The addition of names, as coauthors, to any bill or resolution, by either house, shall not require the concurrence of the other. Provided, however, if said name offered as a coauthor shall represent a member of the other house, then and in that event it shall require the request in writing by the member. The addition of coauthors shall not constitute an amendment to a bill or resolution.

Rule 16. Designation of Regular Sessions

The regular session of the Legislature which convened in January, 1967, shall be designated as the "First Regular Session of the Thirty-first Oklahoma Legislature," and each Legislature subsequently convening in odd-numbered years shall be designated as the next consecutively-numbered Legislature. Beginning with the session convening in 1968, regular sessions convening in even-numbered years shall be designated as the "Second Regular Session of the ----- (same number as for the immediate prior regular session) Oklahoma Legislature."

Rule 17. Pending Business at Adjournment of First Regular Session

Any business, bill or joint resolution pending in the Legislature at the final adjournment of the first regular session of a legislative term shall carry over to the second regular session with the same status as if there had been no adjournment; provided, however, that this Rule shall not apply to bills and resolutions pending in a Conference Committee at the time of said adjournment.

Rule 18. Procedure for Bills Carried Over from First to Second Session

Any bill or joint resolution pending at the time of final adjournment and to be carried over into the second regular session under the provisions of Rule 17, and which is not in committee at the time of said adjournment, is referred automatically to the standing committee from which it was last reported. All other bills

and joint resolutions shall be referred to a standing committee by the presiding officer prior to the final adjournment.

It shall not be in order for either house, by suspension of the rules or by any other means, to reconsider in the second regular session the vote by which any bill or joint resolution was defeated in the prior regular session.

Rule 19. Numbering of Bills in Second Session

Bills and resolutions (a) pre-filed for introduction, and (b) introduced in the second regular session of a Legislature shall be numbered consecutively with the last bill and resolution, respectively, introduced in the first regular session of the same Legislature.

Rule 20. Recall of Bills and Resolutions from the Governor

Bills and resolutions presented to the Governor, and on which final action by the Governor is pending, may be recalled only by a concurrent resolution introduced in the house of origin of said bill or resolution and adopted by both houses. Provided, however, bills and resolutions may be recalled from the Governor upon a joint request of the Presiding Officers for the exclusive purpose of correcting typographical and grammatical errors therein when such request for recall identifies the errors to be corrected. The amendment of such bill or resolution recalled on request of the Presiding Officers shall be limited to the correction of errors as stated in the recall request.

Rule 21. Form of Bills to Amend Existing Law

All bills and resolutions calling for legislative action to amend any provisions of existing law shall indicate such amendments when typewritten by underlining all new matter; and when printed by the use of capital letter type; and shall show

matter stricken or eliminated from existing law when typewritten by striking through such language to be repealed; and when printed by the use of italic type enclosed in brackets.

Any bill seeking to change existing statutes shall set forth in the title thereof a citation to all statutes to be repealed or amended and a brief summary of the subject matter dealt with in the existing statute.

Rule 22. Numerals in Bills and Joint Resolutions

In all bills and joint resolutions numerals shall be written out in words followed by the corresponding figures enclosed in parentheses.

In all bills or joint resolutions specifying sums of money, such sums shall be written out in words followed in parentheses by the corresponding figures preceded by the dollar sign.

Rule 23. Joint Hearings

With the concurrence of the Speaker and the President Pro Tempore, joint hearings before corresponding subject-matter committees of the two houses may be held upon agreement of the chairmen of said committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby.

Rule 24. Use of Chambers, Offices and Meeting Rooms

The Chambers, offices, and meeting rooms under the jurisdiction and control of the Legislature shall be used only for the official business of the Legislature during legislative sessions. No private organization, non-legislative state agency or department, or the employees thereof, shall be permitted to use said Chambers, offices, or meeting rooms during the interim between sessions without the consent of the Presiding Officer of the house

having jurisdiction and control thereof. Committee meeting rooms under the jurisdiction and control of one house of the Legislature may, with the consent of the Presiding Officer thereof, be used for committee meetings of the other house.

Rule 25. Duration of Joint Rules

Joint rules adopted by the first regular session of a Legislature shall be in full force and effect during both regular sessions of the same Legislature, unless amended, modified or repealed as provided herein.

Senator Boecher moved that the President and the Speaker appoint a Committee from the Senate and the Honorable House as a Joint Committee to notify the Governor the Second Regular Session of the 31st Legislature is now in Joint Session and ready to receive him and hear his Message, which motion was declared adopted, the Committees being:

FOR THE SENATE: Massad, Martin, Miller, Massey, and Breckinridge.

FOR THE HOUSE: Hunter, Green, Camp, Cate, and Grey.

The Joint Session was declared at ease.

The Joint Session was called to order by the President of the Senate.

The Sergeant-at-Arms was recognized and announced the arrival of the Chief Executive, the Honorable Dewey F. Bartlett, accompanied by the Joint Committee appointed to advise the Governor the Joint Session awaits his presence.

Governor Bartlett was escorted by the Joint Committee to the Speaker's desk.

The President presented Governor Bartlett to the Joint Session.

The Governor expressed the deep regret and sorrow over the passing of the late Senator Clem Hamilton, beloved and respected by all who knew him, and asked that everyone stand for a moment

of silent prayer in his memory, which was the order.

Governor Bartlett then delivered his Official Message.

Upon motion of Senator Boecher, the Joint Session was ordered dissolved.

*

The Senate reassembled in its Chamber, with President Nigh presiding.

Senator Boecher moved that the Message of the Governor delivered in Joint Session be incorporated in the Senate Journal for this day, which motion was declared adopted, the Message being as follows:

GOVERNOR'S MESSAGE TO THE LEGISLATURE

Mr. President, Mr. Speaker, Members of the 2d Session of the 31st Legislature, Ladies and Gentlemen:

As I appear before you today, I am reminded of a story. One night in ancient times, three horsemen were riding across the desert. As they crossed the dry bed of a river, out of the darkness a voice called, "halt". They obeyed. The voice told them to dismount, pick up a handful of pebbles, put the pebbles in their pocket and remount.

The voice then said, "You have done as I commanded. Tomorrow at sunrise you will be both glad and sorry". The horsemen rode on.

The next morning when the sun rose, the horsemen reached into their pockets and found a miracle had happened. The pebbles had been transformed into diamonds, rubies and other precious stones, and they remembered the warning. They were both glad and sorry — glad they had taken some and sorry they had not taken more.

This is the way I feel upon the convening of the second session of the 31st Oklahoma Legislature.

I am glad to have you back. There is

much work to be done for the good of the State of Oklahoma which only you can accomplish. I appreciate your cooperation during the first session and am looking forward to the same unselfish and dedicated cooperation during the second session.

At the same time, I am sorry because in looking over your membership I note the absence of a familiar and beloved face — Senator Clem Hamilton. Through his death the state lost not only one of its most able and dedicated servants, but everyone here lost a personal friend.

I think it only fitting and proper that at this time you join with me in a few moments of silent prayer in memory of our departed friend and colleague, Senator Clem Hamilton. (Pause for a few moments.)

It is my constitutional duty, as Governor to deliver to you a message upon the state of the state. The state of the state is not only good, it is excellent. Furthermore, it is improving and will improve more and more through your efforts and mine, and the citizens of the state.

Many improvements have been made during the past year, as a result of legislation passed by you during your first session.

Judicial reform has been voted by the people—

A new corrections department has been created—

More traffic legislation was passed by you last year than was passed by any other state in any single legislative session—

An Indian Commission was created by you for the first time in history. This commission is undertaking to solve the problems peculiar to our Indian population—

Much other needed legislation was passed by you during your first session.

During the past year the people in the state have been very active in promoting

industrial development in Oklahoma and in improving the image of our state. Industry's confidence in Oklahoma is shown by an investment of over 120 Million Dollars in new and expanded plants during the first 10 months of 1967. This will provide approximately 7739 new jobs for Oklahoma.

Futhermore, we have more industrial prospects looking at Oklahoma than at any other time in the history of this state.

1967 announcements of 88 million dollars of future new plant constructions by eleven companies indicates strong possibilities of record manufacturing construction during this year. With your help, this industrial expansion program will be continued and be further expanded.

In August of 1967, I appointed a Commission for full employment. This Commission in it first few months of operation increased Negro employment in Oklahoma by 15 per cent and Indian employment by 11 per cent. It is continuing to seek employment for the unemployed and the under-employed in Oklahoma, all at no expense to the taxpayers.

During the interim the Oklahoma Management Study Committee, which was financed entirely by private funds, made an in-depth study of Oklahoma government. The final report of this committee contained 399 recommendations for improving efficiency and economy in state government. These recommendations, when fully implemented, either by executive action or legislation, will result in a savings of over 45 million dollars annually to Oklahoma taxpayers.

Many of the recommendations of this committee have already been implemented by the various departments. Others are being implemented at this time. Still others will be implemented as soon as possible.

Many of these recommendations require legislative action. In the program which I will present to you today I will request

your support of many of these recommendations.

Of course, both you and I know that not all of the recommendations of this committee can be accomplished immediately—we also know that many of the recommendations will themselves require the expenditure of funds to accomplish. But, in my opinion, it is our obligation to the people of the State of Oklahoma to accomplish as much of the recommended savings as possible in order to prevent the imposition of unnecessary taxes upon the people of this state.

For the first time in history, the population of Oklahoma has increased to more than two and one-half million people.

During the first five months of this fiscal year, state tax collections have increased by 8.6 million dollars over the first five months of the last fiscal year. This is a 6.14 per cent increase.

From the above, you can see why I consider the state of the state as excellent and why I anticipate improvement in the future.

Although the prospects for the future seem bright, the immediate task of financing state government for the next fiscal year poses many problems.

When I appeared before you last year and submitted my proposed budget for this fiscal year, I stated I anticipated a relatively small increase in available revenues for this session of the legislature. At that time, I stated that the supreme court ruling which prohibited you from appropriating anticipated surplus had reduced substantially the amount you were authorized to appropriate. That ruling of the supreme court has resulted in your having for appropriation from the general revenue fund only 612 thousand dollars more than the amount appropriated by you during the first session of this legislature—notwithstanding the large increase in revenues from existing sources of taxation.

Although our collections from taxes continue to grow each year by several mil-

lions of dollars, the actions of previous legislatures in appropriating anticipated surplus have resulted in your having to face up to the problem of financing state government for the next fiscal year in accordance with the budget balancing amendment, as interpreted by the Oklahoma Supreme Court.

The problem of financing state government for this fiscal year is acute. It is not, however, insurmountable. It is possible if you see fit to adopt the recommendations which I will outline to you.

Let me give you this note of encouragement. The budget director has informed me that he anticipates the next session of the legislature will have from 15 to 25 million dollars more to appropriate than this session of the legislature. In addition, if you see fit to adopt the many recommendations of the management study committee which I will propose to you, the next session of the legislature should have even more funds available.

Official copies of my budget are on your desks and it would be a waste of your time for me to itemize this budget—department by department. The following are the areas with which I feel you are most vitally concerned.

PUBLIC SCHOOLS

Not counting the supplemental appropriations of one million dollars, I have proposed 76.5 million dollars for public schools. This is an increase of 9.5 million dollars over the amount appropriated by you last year. I suggest the basic salary for all teachers in the public schools be increased by three hundred dollars per year for the school year 1968-1969.

In addition, I request that you pass legislation increasing the basic salaries of teachers in public schools by three hundred dollars additional for the school year 1969-1970 and by four hundred dollars for the school year 1970-1971. This will provide an increase in the basic salaries of all teachers in public schools of one thousand

dollars per year over the next three years.

Furthermore, I suggest you pass legislation requiring a minimum salary for any teacher of five thousand dollars for the school year 1968-1969, a minimum salary of five thousand two hundred and fifty dollars for the school year 1969-1970, and a minimum salary of five thousand five hundred dollars for any teacher for the school year 1970-1971. Legislation to this effect will be introduced by my floor leaders.

In addition, I further suggest an increase of three hundred fifty thousand dollars for vocational-technical education and one hundred thousand dollars for vocational rehabilitation. These increases are necessary to provide greatly needed skills in vocational and technical fields.

HIGHER EDUCATION

I propose 47.5 million dollars for higher education. This is an increase of only eight hundred and eighty-five thousand dollars over the amount appropriated by you last session. However, I am informed by the chancellor for higher education that in addition to this amount, higher education will have available for the school year 1968-1969 from unallocated surplus due to fee increases, from enrollment growth, and from Section 13 and New College funds the sum of 4.6 million dollars. This latter amount consists of non-appropriated funds.

The information available to me indicates that by using both appropriated and non-appropriated increased funds, the various boards of regents can, if they so desire, increase faculty salaries in our state colleges and universities by an average of one thousand dollars per faculty member. In my opinion the greatest need in higher education is in the field of faculty salaries and I do request the various boards of regents to use the increased funds available to them for that purpose.

In this connection, I urge you to pass House Bill No. 997, which has been pre-filed by Representative Boren providing

that Section 13 monies shall be used for the purpose of faculty salary increases and other educational expenses, rather than for capital improvements.

In addition, through the implementation of recommendations made by the management study committee, higher education can have available substantial funds over and above those outlined in this budget.

HIGHWAYS

I propose 8 million dollars for highways from General Revenue Funds and 41.6 million dollars for highways from dedicated revenues. This represents a decrease of 2.9 million dollars in total funds.

In this regard, I would call your attention to the recommendations made by the management study committee regarding the state highway department, which recommend an annual savings of 14 million dollars through better management practices.

The State Highway Department through its director, Bill Dane, has cooperated in implementing many of the recommendations of this committee. I have discussed this appropriation with Mr. Dane, and he assured me that through implementation of recommendations made by the management study committee, which he has already inaugurated, he can accept this reduction in revenues without in any way jeopardizing the highway program for the next fiscal year. I want to publicly compliment Mr. Bill Dane and the members of the Highway Commission for their prompt and efficient action in implementing the recommendations of the management study committee.

OTHER APPROPRIATIONS

Generally, the remaining appropriations which I propose approximate the appropriation made by you during the last session of the legislature. However, I have tried to make allowances for certain necessary increases in various departments to comply with existing law and have reduced some appropriations to take advantage of

the recommendatons of the management study committee in accordance with legislation which I shall propose for your consideration.

REVENUE

In order to finance the budget which I have proposed to you, it will be necessary that you enact certain legislation.

First, I ask that you amend the unclaimed property law which you passed during the last session of the legislature by eliminating the twenty-five dollar minimum provided in the bill, by deleting that portion of the bill relating to the statute of limitations and by eliminating that portion of the bill permitting only 20 per cent of the monies collected to be appropriated during each fiscal year.

Second, I ask that you pass legislation charging an annual fee for boiler inspections.

Third, I ask that you increase to one hundred dollars the minimum fees for registration of any security with the Securities Commission.

Fourth, I ask that you increase the fees now charged by the Agricultural Department for licenses issued by them and increase the fees charged by the State Health Department to an amount commensurate with the cost of issuing the license and making the inspection.

Finally, I recommend that two and one-half million dollars of the 1 cent gasoline excise tax now collected under the provisions of title 68, sections 522 and 523 of the Oklahoma Statutes which is now apportioned to the County Commissioners be apportioned instead to the Department of Education to finance State Aid to Public Schools for the fiscal year 1969—only.

This diversion of funds from the County Commissioners to the Department of Education is fully justified under existing conditions.

In 1957, the state apportioned to the counties for local highway use, the sum of 28.9 million dollars. Since that time, the

amount apportioned through earmarking of funds has increased to the approximate sum of forty-two million five hundred thousand dollars for the fiscal year 1968. In recent years the monies going to the county commissioners from these earmarked funds has increased approximately 2.5 million dollars per year. The legislation which I propose will permit counties to receive the same amount from this earmarked tax during the fiscal year 1969 as they received during the fiscal year 1968.

Furthermore, I recommend that you enact legislation requiring the County Commissioners of the several counties of the state, in spending state apportioned funds, to purchase all contractual services, including lease contracts, supplies, equipment and materials under the state's central purchasing laws. In this way it is my opinion the county commissioners can and will save more than two and one-half million dollars which I have requested you to apportion to the State Department of Education.

To the extent that you fail to pass the recommendations which I have made to you regarding additional revenue, education and other necessary functions of government will suffer accordingly.

CAPITAL EXPENDITURES

I propose that you submit to the people of the state for their approval or rejection a resolution authorizing the state to issue bonds for necessary capital improvements. I would hope that you would limit the request for bond authorization to not more than 82 million dollars. If the resolution is adopted by the people, I will then sign into law a bill increasing the tax on cigarettes in an amount sufficient to amortize the bond issue.

VOCATIONAL-TECHNICAL EDUCATION

I propose that you change the composition of the membership of the state board of Vocational Education. This board would be composed of educators designated by

law and businessmen and industrialists appointed by the Governor with the advice and consent of the Senate. The purpose of the new board would be to direct the training of persons interested in vocational technical study towards the needs of industry. The composition of this board would add tremendously to the industrial development of the State of Oklahoma. A full explanation of the purposes and needs of this board is contained in the LTV report, copies of which have been furnished to each of you, and its functions would be patterned after the system inaugurated in South Carolina with which many of you are already familiar.

OTHER RECOMMENDATIONS

During this session of the legislature it will be necessary that you implement the constitutional amendment passed by the people of the state regarding judicial reform. It is my understanding that Representative John McCune, who was one of the most active members of the Legislature in proposing this constitutional amendment, and Senator Bob Gee and their committee have already done substantial work to implement this constitutional amendment.

In the field of civil rights, I support the principles of Senate Bill 367 and will cooperate with you to work out suitable legislation. This must be fair and just to all Oklahomans.

I recommend that you pass legislation creating a state central data processing system.

I support legislation creating a state owned motor pool.

I support legislation calling for a constitutional convention to be held as soon as practical in order to upgrade and update our existing constitution.

I recommend that the State Bureau of Investigation be transferred to and made a part of the department of Public Safety.

I support legislation strengthening the State's Central Purchasing Law.

I ask that you submit to the people, for their approval or rejection, an amendment to the constitution abolishing the office of State Auditor.

I recommend that legislation be adopted providing a mandatory retirement system for all state employees.

I support legislation placing the employees of the Corporation Commission under the State's Merit System.

I recommend that you adopt legislation abolishing the office of county superintendent of schools and authorizing in lieu thereof the appointment by the State Board of Education of not more than fifteen regional coordinators to perform the duties heretofore performed by the county superintendents of schools.

I support legislation granting the State Treasurer greater latitude in investing state funds and authorizing the State Depository Board to appoint an investment specialist to advise the State Treasurer and other departments of government on the investment of idle state funds to provide for the state the maximum return on its investments.

In addition, my floor leaders have introduced other legislation which I support to accomplish the recommendations of the Management Study Committee. This legislation is designed to provide the citizens of Oklahoma better government at a reduced cost.

SUMMARY

In my opinion, these recommendations are essential if we are to meet our responsibilities to the people to provide them the best possible government at the least possible cost.

I repeat that I am opposed to any general tax increase.

We have a great task ahead of us. I am confident of your ability to accomplish the job. I want to continue to work with you for the betterment of the state of Oklahoma.

I want also to reassure you that my of-

fice and home will continue to be always open to you and my mind will never be closed to any of your problems.

Thank you.

COMMITTEE REPORT

The following report of the Investigating Committee appointed pursuant to **SR 30** and **HJR 514** was submitted and upon motion of Senator Grantham ordered incorporated herein:

TO: The Honorable Clem McSpadden,
President Pro Tempore of the
Oklahoma State Senate

We, the undersigned members of the Investigating Committee, appointed by you, under the authority of Senate Resolution No. 30 and House Joint Resolution No. 514, have completed our investigation and herewith submit our report in compliance with said resolutions.

While the authorization for this investigation, as set forth in said resolution, is broad in scope, the complaints received by the Committee as to irregularities and alleged violations of law concerned primarily the Corporation Commission, the employees of said commission, companies subject to regulation by said commission, employees of said companies and attorneys representing said companies.

In the conduct of this investigation, the Committee adopted a policy of hearing any and all witnesses who desired to be heard, either in person or by sworn affidavit or both and no person was denied an opportunity to be heard before the Committee, either in person or by written affidavit. All of said testimony was transcribed by a certified Court Reporter and a complete transcript of said testimony is likewise herewith submitted.

The Committee began the hearing of testimony on the 12th day of April, 1967, and concluded the hearing of testimony on the 8th day of July, 1967. The Committee heard testimony on 16 different days and on a number of said days the testimony was taken from early in the morning to late in the evening. The transcribed testimony of said hearings consisted of ten volumes of testimony, or a total of 2,723 pages of testimony. The Committee was assisted in its investigation by Mr. Jeff

R. Laird, a very capable attorney who has had many years of experience with the Federal Bureau of Investigation, and by a very capable staff consisting of Mr. Fred L. Boettcher, Assistant Investigator, Mrs. Jean Cason, Certified Shorthand Reporter, who transcribed all the testimony in the hearings and Mrs. Margaret Carroll, who was responsible for compiling additional copies of the transcript of the testimony and records and documents to be distributed at the direction of the Committee. Mr. Laird interviewed each witness before he testified before the Committee and those witnesses who were reluctant to appear voluntarily were compelled to appear before the Committee by subpoena or subpoena duces tecum, when records were required.

In addition to the transcript of the testimony and the documents copied therein, a tremendous amount of records and documents were gathered by the counsel of the Committee from the various witnesses, which documents and records were reviewed by the Committee and copies of pertinent documents were reproduced and distributed to the individual members of the Committee.

It should be emphasized that this Committee is a Legislative Investigating Committee and not an accusatory body. It should be further emphasized that this committee sat as an investigating committee and not as a court, and that the Committee is aware that persons accused of wrong - doing or irregularity are not accorded the opportunity of cross-examination of witnesses appearing before the Committee. This was considered by the Committee to be necessary to insure an expeditious and orderly proceedings. However, it should be acknowledged that this Committee received testimony or other evidence that would not be admissible in any judicial proceedings. Recognizing this fact, the Committee would like to report that the members of said Committee in their deliberations have endeavored to discount and discard incom-

petent or irrelevant evidence when considering the question of individual wrongdoing, irregularities or misdeeds, but the Committee does point out that such evidence was somewhat beneficial in formulating recommendations for remedial legislation insofar as it suggested possibilities which could be corrected or improved by legislation.

From the beginning and throughout the conduct of this investigation, the Committee adopted two purposes of this investigation, which are as follows:

1. The determination of needed legislation, if any, and the determination of any needed changes in the Constitution of the State of Oklahoma, if any, which said proposed constitutional changes would have to be approved by a vote of the people.

2. The determination of any wrongdoing or law violations, if any, and the referral of any cases of wrongdoing or probable law violation to the proper governmental agency or the proper association for appropriate action, with the realization that this Committee and the Oklahoma State Senate are without authority to prosecute any person for a law violation or to take disciplinary action against any member of any profession.

After hearing many days of testimony of witnesses sworn and examined under oath and after reviewing the voluminous transcript of the testimony and after reviewing numerous documents, including but not limited to income tax returns, cancelled checks, personal records, pleadings in court cases and bank statements, the Committee makes the following findings:

1. That the members of the Corporation Commission and certain employees of said commission have not been and are not now adequately paid and that this has contributed to the members of the commission and the employees seeking other income to supplement the salary received from the Corporation Commission. However, it is the further finding of

the Committee that improvement of wages and salaries have been made in the passage of recent legislation and that this is particularly true in the oil and gas division of the Corporation Commission and likewise of the salaries of the members of the Corporation Commission.

2. There is a built in conflict of interest in the regulated industries which must be resolved by the Corporation Commission, in that the commission is charged with the duties of regulating utilities in one division of the commission, the regulating of intrastate transportation in another division and the regulation of correlative rights with reference to oil and gas in yet another division. This results, in some instances, to damage to those being regulated in one division when beneficial regulation is imposed on those regulated in another division. It also results in the neglect of the rights of those regulated in one division when the Corporation Commission must devote the major portion of its time to the regulation of those in another division. The Committee also finds that there is not a clearly defined separation of duties and responsibilities in each division of the Corporation Commission.

3. The Corporation Commissioners serve a term of six years, with one commissioner being elected every two years in a statewide election. This has resulted in those commissioners not running, usually lending their support to the commissioner who is running and likewise, in the employees of the Corporation Commission generally giving their support to the person running for re-election or to the person endorsed by a majority of the members of the Corporation Commission and this in turn makes it difficult, if not impossible to have a change of administration in the Corporation Commission. The Committee further finds that the conduct of a statewide campaign necessitates the seeking of large campaign contributions by the candidates.

4. By the very nature of the work of the attorneys of the Corporation Commis-

sion, particularly in the division regulating utilities, there is a close association with the attorneys representing public utility companies, and this gives rise to the question as to whether the attorneys for the utility company may not unduly influence the decisions of the attorneys for the Corporation Commission. This question is further emphasized by the fact that former attorneys of the Corporation Commission, in order to receive a greater income, have left the Corporation Commission to become attorneys for the utility companies. Likewise, the question is further emphasized by the fact that some attorneys in the Corporation Commission have associated themselves, while employed by the commission, with attorneys representing utility companies allegedly in cases not involving the regulation of the Corporation Commission.

5. There is strong evidence of lax administration and inadequate supervision on the part of the members of the Corporation Commission and the administrative heads in said commission of those under their supervision, particularly with reference to the checking to see that policies of the Corporation Commission are carried out, and likewise with reference to seeing that those who are assigned to do a particular job, actually perform the job they are assigned to do, and that persons designated to travel in connection with their duties, actually make the trips they are designated to make.

6. Members of the Corporation Commission and certain employees of the commission accepted free transportation on planes owned by oil companies, but the Committee finds that this is not the type of free transportation in and of itself prohibited by law, and the Committee further finds that in many instances said travel would have otherwise been paid by the State of Oklahoma.

7. Clyde Hale, Sr., during his lifetime, and the law firm of Hale, Welch and Hale, offered rooms to members of the Corporation Commission and to certain

employees of the commission during the Oklahoma - Texas football games and at meetings of associations and likewise provided tickets for the games in Dallas and likewise furnished small presents at Christmas time to members of the Corporation Commission, employees of the commission and other state officials, but there is a conflict of evidence as to whether the rooms in Dallas and elsewhere, and the Texas - O. U. football tickets were accepted in all instances and whether or not Clyde Hale, Sr., and the law firm of Hale, Welch and Hale, were reimbursed for the tickets and the rooms used. The Committee further finds that the mere acceptance of these gratuities is not a violation of law.

8. Harold Freeman and Ray C. Jones, while they were members of the Corporation Commission, and Ferrill Rogers, while he was an employee of said commission, were instrumental in obtaining financial support for Oklahoma Well Servicing Company, Inc., an oil well servicing company doing business in Oklahoma, and likewise assisted Eugene Blalock, the manager of said company, in making contacts with oil companies which resulted in said oil well servicing company obtaining some business from said oil companies. The business of an oil well servicing company in Oklahoma is not directly subject to the regulation of the Corporation Commission but it is indirectly subject to the regulation of the Corporation Commission in its authority over the regulation of correlative rights in the production of oil and gas in Oklahoma. There is evidence that either Ray C. Jones or Harold Freeman, or both, recommended to Skelly Oil Company and other companies, that said oil well servicing company be given business by said companies. Some of the contacts with oil and gas companies by said oil well servicing company did result in business for said oil well servicing company. It is the finding of the Committee that the said persons above named, while

they were either members or employees of the Corporation Commission, were indiscreet in rendering financial assistance to said oil well servicing company and in assisting in contacts by said oil well servicing company with oil and gas companies which gave the appearance of a conflict of interest with the duties of their offices, in that it is subject to being interpreted as coercive in nature by virtue of the office held by said named persons. In this connection, we further find that members of the Corporation Commission refused to use their influence by interceding in behalf of said oil well servicing company with Pan American Oil Company to cause said Pan American Oil Company to continue doing business with said oil well servicing company.

9. Harold Freeman and Ray C. Jones owned shares of stock in Livingston Oil Company while they were members of the Corporation Commission. There is no prohibition in the law of the State of Oklahoma against a member of the Corporation Commission owning stock in an oil company. However, there is a prohibition in the Constitution of the State of Oklahoma against a member of the Corporation Commission being directly or indirectly interested in any pipeline operated for hire in this state or out of it, or any stock, bond, mortgage security or earnings of such pipeline. The Tenth Annual Report of the Livingston Oil Company, on Page 7 of said report, shows in a listing of the Livingston Property, 200 miles of pipeline including oil and gas gathering and distribution systems, and it likewise shows that Livingston Oil Company receives from plants and pipelines 8.8% of its total revenue. Livingston Oil Company denies that it is a pipeline company and it is not clear from the evidence whether the pipelines shown in the Annual Report were owned by Livingston Oil Company or by subsidiary companies whose stock is owned by Livingston Oil Com-

pany. Livingston Oil Company is not chartered as a pipeline company and it is neither assessed or taxed as a pipeline company in the State of Oklahoma. Very well written briefs were submitted by Jeff R. Laird, counsel for the Committee, contending that Livingston Oil Company could be classified as a company operating pipelines for hire, and by Jim A. Rinehart of the law firm of Rinehart, Rinehart and Rinehart, contending that Livingston Oil Company is not a company which operates pipelines for hire. The penalty for a member of the Corporation Commission having an interest in a company which operates pipelines for hire, under the Constitution of the State of Oklahoma, is that said office is declared vacant. The penalty for the violation of this provision of the Constitution of the State of Oklahoma is in effect a forfeiture of office and any forfeiture penalty must be strictly construed. While the evidence is not conclusive and a judicial determination of this question would be desirable, it is the finding of the Committee, based upon the testimony given during the hearings of the Committee, the documents presented to the Committee, and after reviewing the briefs of Mr. Rinehart and Mr. Laird, that the Committee is unable to conclude that Livingston Oil Company was a company which operated pipelines for hire, so as to preclude the ownership of stock in Livingston Oil Company by a member of the Corporation Commission, and the Committee can not conclude that the offices now occupied by Ray C. Jones and Harold Freeman should be declared vacant for this reason. The Committee further finds that appropriate judicial action should be encouraged to resolve the legal issues raised by this stock ownership.

10. James G. Welch and William L. Anderson received payments of money while they were employees of the Corporation Commission from Clyde H. Hale, Sr., while he was representing utility

companies in Oklahoma as an attorney for said companies. The payments to Mr. Anderson were monthly payments over a period of time and were allegedly for campaign expenses. The payments to Mr. Welch were allegedly for a "joint venture," legal services, campaign expenses and loans. While the conduct on the part of said parties is not shown by the evidence to be a violation of law, it does give rise to a question of ethics inasmuch as both of said parties are attorneys at law. There is strong evidence that attorneys representing utility companies before the Corporation Commission split fees with James G. Welch while he was general counsel for the Corporation Commission, and this emphasizes the need for a conflict of interest statute in the State of Oklahoma.

11. The evidence shows that sizeable campaign contributions were made by attorneys for utility companies. There is nothing wrong or illegal about a campaign contribution as such, for if it were otherwise, only a thief or one with great wealth could run for public office. Therefore, in the interest of good government, persons should be encouraged, rather than discouraged, in the making of campaign contributions. However, the time of and the motive for making campaign contributions should be carefully scrutinized. Corporations are prohibited by law in Oklahoma from making campaign contributions. There is no competent evidence that the contributions by attorneys who represent utility companies as well as other clients were made at the direction of said utility companies and said campaign contribution can not be traced to funds advanced by the utility companies, except insofar as said funds were fees collected by said attorneys together with other fees from other clients. The evidence also shows that contributions by attorneys who represent utility companies were made to candidates who were running for office in the city, county, state and federal govern-

ment, and that said contributions were made to candidates in both political parties in the State of Oklahoma. The evidence also shows that in certain instances, contributions were made to opposing candidates running for the same office, by a single law firm. The evidence also shows that in certain instances, the same law firm supported some candidates of each party.

12. The grounds for impeachment set out in the Constitution and the Statutes of the State of Oklahoma are listed as "willful neglect of duty, corruption in office, habitual drunkenness, incompetency or any offense involving moral turpitude committed while in office." There is no competent evidence presented to the Committee which would justify it in the recommending of impeachment proceedings.

13. Morris Head, who is presently an employee of the Corporation Commission, collected travel expenses from the State of Oklahoma at a time when he is shown by the evidence to have been performing services for the Urban Renewal Authority in Oklahoma City, Oklahoma, as an appraiser. The Committee finds that there is strong evidence that Mr. Head made false travel claims and collected expenses from the State of Oklahoma for said travel and that he failed to spend an equivalent time on the job for which he was hired and paid.

14. There is a sharp conflict of testimony among several of the witnesses who testified before the Committee and the testimony of some witnesses is contradicted by documentary evidence. It is the finding of the Committee that there is strong indication in the evidence that false testimony under oath was given by James G. Welch, Clyde H. Hale, Jr., Morris Head and Marguerite Estep. The sharp conflict in the testimony and the convenient lapses of memory of some other witnesses under oath, such as is found in the testimony of Ferrill Rogers, gives rise to the question as to whether some of said witnesses may have given false testimony.

15. There is a code of high ethical conduct for attorneys engaged in the practice of law in the State of Oklahoma, which code of ethical conduct is set forth by the Oklahoma Bar Association and adopted by the Supreme Court of the State of Oklahoma. There is a strong indication in the evidence that James G. Welch, Clyde H. Hale, Jr., William L. Anderson and Ferrill Rogers may have violated the canons of legal ethics required of practicing attorneys in the State of Oklahoma.

16. The Rules of Procedure in the Corporation Commission for proceedings before said commission or any sub - division of the commission are vague and indefinite and there appears to be unnecessary delay in some proceedings in the Corporation Commission. The rules and regulations of the Corporation Commission are not sufficiently codified or updated.

17. The motor carriers of the State of Oklahoma are not furnishing adequate service to the people of the state in the delivery of goods transported by motor carriers. This lack of adequate service is particularly true in the smaller communities of our state and is aggravated by the transfer of permits by those carriers making the long hauls to those making the short hauls. This problem is now under study by the Roads and Highways Committee of the Legislative Council.

18. It is required under the present law that the Corporation Commission submit an annual report to the Governor of the State of Oklahoma. The evidence shows that the last report submitted to the Governor by the said Corporation Commission was for the year of 1964. It is also required by law that with said reports, the Corporation Commission should have any recommended legislation, and it appears that recommended legislation has been omitted from reports of the Corporation Commission filed with the Governor.

19. By practice and by reason of a limited and inadequate staff, the Corporation Commission can not initiate investi-

gations of rates and operations of utility companies in the State of Oklahoma. Limited review of the rates depends upon a complaint duly filed in the Corporation Commission, under present procedure. It appears to the Committee that the present law and procedure is inadequate and that it would be beneficial to all concerned if the Corporation Commission were directly empowered to initiate its own investigations of regulated utilities and industries. In that connection, the Committee would observe that the present personnel of the Corporation Commission are not sufficient in number and not adequately trained to make an analysis of rates of utility companies.

20. The Corporation Commission does not have an adequate system of screening prospective employees and likewise there is an inadequate policy with reference to the retention, promotion, retirement and discharge of employees of the Corporation Commission.

21. There was called to the attention of the Committee, a book entitled Overcharge by Metcalf and Reinemer, and an analysis of this book has been drafted by Senator Don Baldwin, undersigned member of this Committee, summarizing the allegations set forth in said book. This analysis has been made a part of the records of this Committee, together with the comments of the Oklahoma Tax Commission, concerning the effect on Oklahoma taxes as to the allegation contained in said book and summarized in said analysis. The Committee finds that the allegations set forth in said book do not reflect any illegal acts by anyone in the State of Oklahoma and the Committee at this time is unable to determine whether or not any additional legislation is needed in this field.

22. The position of Fuel Inspector of the Corporation Commission is now being filled temporarily by L. D. Hoyt, an attorney at law, who assumed the duties of this office upon the death of the former

fuel inspector in December of 1966. One holding this position is prohibited by law from having any other employment. Mr. Hoyt was engaged in the practice of law in addition to his duties in the Corporation Commission, prior to his assuming the duties of Fuel Inspector. The Committee finds that inasmuch as this is a temporary assignment and inasmuch as the evidence does not show that Mr. Hoyt has accepted employment as an attorney since assuming the temporary duties as Fuel Inspector, there is not sufficient evidence to show a violation of law by Mr. Hoyt.

Based on the above findings, after reviewing the testimony and reviewing the documents and records submitted to the Committee, the Committee makes the following recommendations.

1. That the Legislative Council make a study of the pay of the members of the Corporation Commission and the employees of said commission, which studies should be made by an appropriate committee of the Legislative Council, and that the Oklahoma Legislature, after receiving such study, enact appropriate legislation to adjust the pay of said members and employees of said Corporation Commission in order that they may be adequately paid in keeping with the duties and responsibilities of said members and employees of the Corporation Commission.

2. That the Corporation Commission be re - organized in three separate and distinct divisions, consisting of a utilities division, a transportation division and a conservation division, and that the regulation of cotton gins be transferred to the State Board of Agriculture; that an expert be selected to head each division. The Committee would further recommend that all reports by employees of the Corporation Commission with reference to investigation of complaints and regulations, be reduced to writing and properly filed in the Corporation Commission.

3. That the members of the Corporation Commission should be nominated and elected by districts in the State of Oklahoma and your Committee further strongly recommends a continuing legislative study by an appropriate committee of the Legislative Council of a re - structure of the Corporation Commission with particular reference to the advisability of an increased membership in said Commission.

4. That all attorneys of the Corporation Commission and all attorneys who render legal services in other departments of state government should be placed under the jurisdiction of the Attorney General who would be charged with the responsibility of assigning attorneys to the respective departments as the need arose, and no attorney employed by the State of Oklahoma should be permitted to engage in the private practice of law.

5. That the Administrative Procedures Act of the State of Oklahoma be made applicable to the Corporation Commission with the exception that an appeal from a decision of the Corporation Commission should be made directly to the Supreme Court of the State of Oklahoma.

6. That persons or corporations who are subject to the regulations of the Corporation Commission and their attorneys should be prohibited from furnishing transportation, presents or gratuities of any kind to any member of the Corporation Commission or any employee thereof, with the exception that, during a specified time when there is a political campaign, persons other than corporations may make campaign contributions.

7. That a study of further controls of individuals receiving campaign contributions when a campaign is not in progress, should be made by the appropriate committee of the Legislative Council.

8. That it should be illegal for any member of the Corporation Commission or any employee of said commission to assist in the financing of any business, such as

an oil well servicing company, or to make any contacts whatsoever for, or to associate himself with any business in any way where the influence of the office could be used to benefit the business. That before any member of the Corporation Commission purchases any stock in any oil and gas company or in any company which is subject to the regulation of the Corporation Commission, either directly or indirectly, he shall obtain a written opinion from the Attorney General that the ownership of said stock is not in violation of the Constitution or the Statutes of the State of Oklahoma, and should a member of the Corporation Commission involuntarily obtain stock in said companies through inheritance or otherwise, he should obtain an opinion from the Attorney General immediately upon receiving said stock as to whether he can legally retain said stock.

9. That Morris Head be discharged from the Corporation Commission and that a copy of this report be delivered to the District Attorney of Oklahoma County and to the Attorney General of the State of Oklahoma for investigation and appropriate action concerning travel claims collected by the said Morris Head.

10. That a copy of this report be submitted to the District Attorney of Oklahoma County for investigation and appropriate action, consistent with the findings set forth in Paragraph 14 of said findings.

11. That a copy of this report be submitted to the Oklahoma Bar Association for investigation and appropriate action concerning the question of the violation of the canons of ethics by James G. Welch, Clyde H. Hale, Jr., William L. Anderson and Ferrill Rogers.

12. That the study of legislation which would spell out what constitutes conflict of interest by officials and employees of the State of Oklahoma be continued by the Legislative Council and by the State Legislature, which said study is now in progress, and that legislation be enacted clear-

ly defining what constitutes conflict of interest and prohibiting by law any action by a state official or state employee which would be in conflict with the duties and responsibilities of any state official or state employee.

13. That the problem of inadequate motor carrier freight service to the people of the State of Oklahoma continue to be studied by the Roads and Highways Committee of the Legislative Council with the further recommendation that legislation be drafted which will insure the best possible service to the people of the State of Oklahoma. The Committee further recommends that the Corporation Commission be empowered and required to more carefully regulate and supervise intrastate motor carrier service and likewise more carefully regulate and supervise the issuance of permits to, and the transfer of permits among, the motor carriers of the State of Oklahoma.

14. That the annual report required under the law, from the Corporation Commission to the Governor of the State of Oklahoma, be brought to date and filed with the Governor as required by law and that there be included in future reports, a recommendation by the Corporation Commission as to legislation, and if there is an opinion of the Corporation Commission that no legislation is needed, the report should so state.

15. That the Legislative Council should study the advisability of enacting proper legislation to enable the Corporation Commission to initiate independent investigations of utility rates and investment returns, and the need for, and the manner of, providing additional personnel to make a proper study of the rate structure of utility companies.

16. That legislation be enacted broadening the notice required in all matters heard before the Corporation Commission so as to ensure that all parties affected by the matter under consideration by the Corporation Commission may be ensured

that they have an opportunity to know the time and place said matter is to be heard before the Corporation Commission.

17. That the question be referred to the appropriate committee of the Legislative Council for study of improvement in the selection, tenure, promotion, retirement and discharge of the employees of the Corporation Commission, with the request that legislation be drafted which would set forth a policy which would improve the personnel management of the Corporation Commission. The Committee further recommends that consideration be given to the testing of prospective employees prior to employment and the establishment of a classification for all employees in the Corporation Commission with a job analysis for each class of positions in said Commission, and that minimum standards be set up for each position.

18. That the analysis by Senator Don Baldwin of this committee, of the book entitled *Overcharge* by Metcalf and Reinemer, together with the preliminary comments of the Oklahoma Tax Commission concerning the effect in Oklahoma of the allegations set forth in the said book and the analysis thereof, be referred to the Revenue and Taxation Committee of the Legislative Council for further study and recommendations.

19. That the appropriate committee of the Legislative Council study the question of the expediting the decisions of the Supreme Court in cases appealed from the Corporation Commission.

20. That the Rules of Procedure of the Corporation Commission should follow, insofar as possible, the Administrative Procedures Act, and that the Rules of Procedure and Regulations of the Corporation Commission should be updated and reduced to writing in a comprehensive codified form. Additional Rules of Procedure should be promulgated to insure a speedy hearing and early decisions of all matters before said Commission.

21. That the Constitution of the State of Oklahoma should be amended where necessary and legislation enacted to carry out all recommendations contained in this report.

22. That in addition to this report and the transcript of the testimony submitted to you herewith, that copies of this report, together with copies of the transcript of the testimony, be delivered to the Speaker of the House of Representatives, the Attorney General of the State of Oklahoma, the District Attorney for Oklahoma County, the Oklahoma Bar Association and the Governor of the State of Oklahoma, with the recommendation that the entire transcript be reviewed, together with this report, and that appropriate action be taken. It is also the recommendation of the Committee that copies of this report, together with copies of the transcript of the testimony, be made available to the Legislative Council and to the Bureau of Investigation of the State of Oklahoma.

While the above findings and recommendations do not represent the personal views of any one member of the Committee, they do represent, in most instances, a compromise worked out among all of the members of the Committee, and in all instances, they represent the views of a majority of the Committee.

Respectfully submitted this 19th day of August, 1967.

Senator Romang raised a point of order against the Dacus motion, stating it would require a suspension of the Rules, which point of order was overruled.

The editorial reads as follows:

An Editorial TOP PRIORITY

The Oklahoma legislature is in session and, for once, we welcome it. Undoubtedly most citizens recognize that there is urgent need of legislative action on many subjects.

In every department of state there doubtless are needs which are unattended. The most crying need, in our judgment, is in revising and up-grading our educational program and its institutions. A recent comprehensive survey shows that not only our schools but our colleges and universities are below par, and most of them offer less efficient training to their students than

comparable institutions in the majority of other states.

It's true we need higher salaries, not only in public schools, but in every institution of higher learning. We cannot and do not employ the best talent because of low salaries. The deficiencies in the teaching staff, the equipment and the program in the school of architecture at the University of Oklahoma were brought to public attention by students of that department. In a survey of our highschools the statement was made that only five highschools in the state were on a par with highschools in comparable cities of many other states. Their courses of study are not as complete and rigid as they should be.

The whole future of Oklahoma as a state depends on the best possible education and training of our children and young people. Our present educational system is not accomplishing this. Raising the teachers' and professors' salaries is only a partial answer. A thorough revision of the curricula and the pace of progress by our students must be advanced.

Such a program requires a large amount of money. An increase in the funds available to the legislators is imperative regardless of the governor's attitude.

Gov. Bartlett made a political promise in his campaign that there would be no new taxes. A bad promise is better broken than kept. The governor has indicated that he is willing to accept increases in taxes on cigarets and liquor. That is fine but it may not be enough.

Whatever is required, even to the extent of adding one cent to the state sales tax, must be provided. There may be better tax increases than in the sales tax but the money should be provided, and if the governor vetoes the increase, the legislators should override the veto for the compelling reason that we must bring our whole educational system up to the equal of other states.

Inflation is here and it won't go away.

Senator Boecher moved that the Senate adjourn as provided under the Rules, which motion was declared adopted.

Third Legislative Day

Thursday, January 4, 1968

Pursuant to adjournment, the Senate was called to order by its President, Lieutenant Governor George Nigh.

Upon roll call, the following members were present:

O God, may the affairs of state be governed by men who are governed by God. We thank you, O Lord, for the integrity that is a part of every good man and the corner-stone of all good government. In every de-cision that is made in this place may the final consideration always be for the good

EDITORIAL

Senator Garrison asked unanimous con-sent, which was granted, that the following editorial appearing in the Oklahoma City Times, under date of December 9, 1967, be read and incorporated in the Journal:

ENJOYING IT LESS

Total taxes collected in fiscal 1967, by all levels of government, were \$3,300 per American family, according to Tax Foun-dation, Inc.

In 1956, just 11 years ago the research organization calculates that the taxes col-lected by all federal, state and local gov-ernments were equivalent to \$1,897 per family.

Stop to figure a minute. The tax take has increased 74 percent. Has your fam-ily income also increased 74 percent since 1956?

Or consider it this way. You now are paying out 74 percent more in taxes. Are you receiving from the various govern-mental agencies 74 percent more in need-ed goods and services?

Of course it could be that we're simply paying more and enjoying it less.

MESSAGE FROM GOVERNOR

TO THE PRESIDENT AND MEMBERS
OF THE HONORABLE SENATE
SECOND SESSION, THIRTY-FIRST
OKLAHOMA LEGISLATURE

Gentlemen:

In the budget message which I presented to you on January 2, 1968, I asked you to amend certain sections of the Unclaimed Property Act enacted by you during the First Session of the 31st Legislature. I informed you that by amending these sections of that Act, you would have available for appropriation an additional \$800,000 during this session of the Legislature which money was included in my proposed budget for the next fiscal year.

Since that time, I have been informed by the Oklahoma Tax Commission that reportings to date under the Unclaimed Property Act exceed \$1,300,000.00 and that additional reportings should be received prior to your adjournment.

Based upon these new figures, it appears that if you adopt my requested amendments to the Unclaimed Property Act, you will have approximately \$1,500,000.00 more available for appropriation this session than is included in my budget. Therefore, I want to again urge your consideration of all these proposed amendments.

If the amendments are adopted by you, I request that the additional \$1,500,000.00 be appropriated by you as follows:

First, I ask that you make an immediate supplemental appropriation to the Board of Regents for Higher Education of \$35,000.00 to be used to finance the Student Loan Program.

Second, I ask that you appropriate for the next fiscal year the sum of \$200,000.00 to be used to Finance the Student Loan Program.

Third, I ask that the remaining \$1,265,000.00 be appropriated to the Board of Regents for Higher Education for the purpose of increasing faculty salaries at our

State Universities and Colleges during the next fiscal year.

BY THE GOVERNOR OF THE STATE
OF OKLAHOMA

Dewey F. Bartlett

Senator Dacus presiding.

EDITORIALS

Senator Nichols asked unanimous consent, which was granted, that the following editorial appearing in the Ada Evening News, under date of January 7, 1968, be read and incorporated in the Journal:

EDUCATION? COMPARING RESOURCES, WE DO A GOOD JOB

More militant than ever before, teachers of Oklahoma confront the new legislature. Reduced to the most basic terms, their demands ask more money in salaries. The governor's budget recommends substantial increases, \$1,000 spread over a three-year period. We concur.

The administration of Gov. Dewey F. Bartlett is committed to hold the line against taxes. Why should this position cause outrage in certain quarters? The vote in the recent gubernatorial election indicated this is what Oklahomans want. Gov. Bartlett ran with a pledge to hold the line against taxes. With the exception of some new city sales taxes, the antitax pattern has been repeated in many local elections across the state.

A fair question might be whether or not Oklahoma is doing the best it can for education within the framework of the state's financial resources.

It should be remembered, too, that public school teachers are not the entire picture. Although the salary of the teacher is by far the most important, there are also costs for transportation, administration, buildings and, in the long run, money for higher education. It all comes from the same pot.

Many people believe that Oklahoma has done relatively well in its financial support of education. Educators, on the other hand, will point to statistics that leave the Sooner State far down the list in the educational field. It depends on what you mean and want.

Several sets of figures compare Oklahoma with her sister states. Oklahoma public school instructional staffs rank 32nd among the states, paid an average salary of \$5,921. Oklahoma ranks 39th in public school costs per pupil, \$411, and this 77.1 per cent of the national average.

Just how damning these statistics actually are depends on who is viewing them.

We suggest that a more accurate measurement would be attained if they were set against the over-all economic picture of the state.

There is no doubt that these figures look much better when the state's capability is considered.

In retail sales per capita, Oklahoma ranked as the 33rd state. It was the 45th state in net effective buying income per household at \$6,007 for 1964. It was 43rd among the states in the proportion of households with incomes under \$2,500.

In spite of these "below normal" indices, Oklahoma's expenditure for public schools in 1964 was 3.8 per cent of personal income. This was precisely the national average for that year, which provided the latest set of figures available.

The problem gets even more complicated when considering colleges. Oklahoma was 11th in the nation in per capita expenditures for higher education, $2\frac{1}{2}$ times that of New York and more than four times the per capita expenditure of Massachusetts.

When college and public school expenses of the state are considered together, Oklahoma ranks 18th in the U. S. on a per capita basis. It is 15 per cent above the national average, and put us on an equal with New York, North Carolina and Indiana.

These combined state and local expenditures for higher education and local schools amount to 6.7 per cent of personal income in Oklahoma. We stand 16th among the states, better than the high teacher salary states of Michigan, Illinois, California, and New York.

All these figures indicate a superior and not an inferior effort in Oklahoma to meet the state's overall educational needs.

The governor has recommended salary raises for state teachers. These raises should be supported. The outlined amount would permit the state to work out its

financial problems with the least disservice to all residents.

Senator Young asked unanimous consent that an article appearing in the Tulsa Tribune, under date of January 8, 1968, be read and incorporated in the Journal.

Following the reading of same, Senator Short objected to its being printed in the Journal.

Senator Young moved that the article be printed in the Journal, which motion prevailed. The article reads as follows:

TAXES HIKED BY BARTLETT'S NATIVE STATE

By HARRY CULVER

OKLAHOMA CITY (UPI)—Gov. Bartlett's home state of Ohio, which he has referred to as the industry-gettingest state in the nation, passed a \$200 million tax increase this fiscal year, most of which went for education, a report from the Buckeye state showed over the weekend.

As a result, average pay for Ohio teachers, which was already \$600 ahead of Oklahoma, has increased another \$800 per year.

Ohio, like Oklahoma, had a management study committee survey its government, some years ago. Bartlett cited Ohio's record in appointing a similar study committee for Oklahoma last May and said it had enabled Ohio to save more than \$50 million a year without a tax increase.

IN RECENT YEARS Ohio has borrowed more than \$1 billion for road and building bond issues. And the 1968 legislature, convening Jan. 15, will be asked to consider two more bond issues totaling \$980 million, of which \$700 million would go to highways. Ohio is recognized as having one of the best highway systems in the nation.

The Ohio Legislature, which adjourned last November, boosted the state sales tax from 3 to 4 per cent, eliminated several sales tax exemptions, boosted cigarette taxes 2 cents—to 7 cents a pack—and raised the corporation franchise tax.

The sales tax was extended to beer and cigarettes and some other previously exempted items.

The same legislature also authorized new permissive taxes for counties and cities.

OHIO GOVERNMENT sources say the state attracted \$1 billion in new industry (nearly five times the Oklahoma increase) last year. In auto industry manufacturing, Ohio rates second only to Michigan.

The same private agency, Warren King and Associates, supervised the management study committee reports for Oklahoma and Ohio.

Bartlett, a native of Marietta, Ohio, has frequently pointed to his home state as a model of fiscal efficiency and industrial growth. Republican James Rhodes began his second four-year term as Ohio governor last year. Bartlett has opposed a general tax increase for Oklahoma.

THE NEW 4-CENT sales tax rate in Ohio makes it double the Oklahoma rate of 2 cents. However, the sales tax is 3 cents in many Oklahoma cities, because of 1-cent local levies. Ohio has no city sales taxes but does have city income taxes, ranging from .3 to 1 per cent. The last Ohio Legislature raised the permissive city income tax to 1.5 per cent.

James K. Hunter, director of research and statistics for the Ohio Department of Taxation, said the new tax levies went into effect last Sept. 1 and will raise an estimated \$160 million for the 10 months they are in effect this fiscal year and about \$200 million for a full fiscal year.

He gave this breakdown on anticipated new revenue for the 10 months: sales tax, \$98 million; change in sales tax brackets, \$6 million; sales tax on beer, \$10 to \$13 million; sales tax on cigarettes, \$10 million; removal of other exemptions, \$6 million; two-cent boost in cigarettes, \$20 million; corporation franchise tax, \$10 million.

Hunter said the bulk of the new revenue went to schools and colleges, for operations and buildings.

OHIO, UNLIKE Oklahoma, exempts prescription drugs from sales taxes.

The Ohio sales tax applies to motel and hotel room charges and some types of advertising, including billboards, all of which are exempt in Oklahoma. Newspaper retail sales and advertising are not taxed in either state.

Ohio has no income taxes. In Oklahoma, the personal income is taxed from 1 to 6 per cent, corporations at a flat 4 per cent.

EDITORIAL

Senator Baggett asked unanimous consent, which was granted, that the following editorial appearing in the Daily Oklahoman, under date of January 9, 1968, be read and incorporated in the Journal:

PIE IN THE DISTANT SKY

Gov. Bartlett looks toward industrial development and greater governmental efficiencies as long-term solutions to the state's worsening financial plight.

But neither of these recommended approaches promises to relieve short-term needs, the most critical of which occur in the realm of public education.

With regard to industrial development, the governor may be putting the cart ahead of the horse, since the evidence strongly suggests that industry goes where the existing schools are at least adequate.

It isn't usually the other way around. But even if it were, industrial development still would play a debatable role in solving the state's school financing problems. For the school taxes that new industries pay go primarily to the communities in which they are located and are not available in significant measure for the solution of statewide educational problems.

It's not uncommon for some favored school district to be relatively free of financial problems because it happens to have a major industry on its tax rolls. But the unusual affluence of an occasional school district doesn't contribute in any important degree to the betterment of the statewide educational structure.

Even for the long pull, the visualized solution through industrial development is hardly promising in smaller communities where school financing problems often are most acute. The very educational deficiencies often encountered in such communities make them improbable sites for new industries. A question always present is whether the townspeople in every instance would be willing to incur the bonded indebtedness necessary to accommodate a sharp upsurge in population.

Governmental efficiency always is welcome, of course, and should accompany

every proposal to increase taxes. But like industrial development, it hardly is anything more than pie in the distant sky, and certainly it can't serve in lieu of higher taxes where immediate needs are concerned.

The suggestions of the governor's management study committee rest on dubious assumptions in some instances, and in any event will require time in which to yield the visualized savings. Meanwhile, the costs of providing essential state services will rise steadily with the general advance of inflation, so that the expected savings may disappear before they are realized.

Not every proposed tax increase was justified in the past. But the day has long since departed when the "growth" revenue resulting largely from inflation could be relied upon to meet the state's increasing needs. The supreme court ruling calling for strict adherence to the budget-balancing amendment has removed this "growth" revenue from the legislature's immediate grasp, anyway.

A tax increase of some description is required urgently now. The needs of education in general and higher education in particular won't wait on industrial development and the problematical savings resulting from increased governmental efficiency.

CITATION

Upon motion of Senator Dacus, joined by Senators, Smalley, Garrison, Baldwin, Taliaferro and Stipe pursuant to Rule 9-b, a Citation of Condolence was ordered issued to Major General James C. Styron for the death of his wife, Mary A. Styron of Hobart, Oklahoma.

Eternal God as we come today; we come confessing our faults and sins and shortcomings — we have been silent when we should have spoken—we have spoken when we should have remained silent—we have been unconcerned about others—we have been too concerned about ourselves. For these and faults too numerous to mention or remember, forgive us we pray. Convicted that we do not have enough convictions about the purpose and intent of our life—power of thy Spirit within us—program Thou hast for us. Our Master, we come seeking—compassion for others. Too easily we evade, avoid, ig-nore or deny the legitimate needs of oth-ers—too easily we pass by a brother in

need—too easily we do not hear nor heed our brother's cry. Courage to strive for what we know is right even when we would rather not—to stand for right even at great cost—to see the truth even when it hurts. In Our Saviour's Name, Amen.

Our Father, may Thy Name be honored by what we have done here this week. Our world is in such great need with war and rumors of wars and with wants and needs that it calls for Thy help as we do our best to meet the many challenges be-fore us. We think especially of the conflict in Viet Nam and in other places. Give our leaders wisdom as they deal with this and the many other problems on a local, na-tional and international level. Forgive us for hesitating and hiding when faced with a moral decision. Forgive us for thinking too much of narrow selfish interests in-stead of thinking of the needs of many.

Follow us through the coming days of our lives and desert us not in the time of our need and temptations. Give us the char-acter and the compassion and the con-cern as is befitting Christian people and may Thy Name be glorified in and through us. Amen.

Dear God, our only Sovereign, with whom the first shall be last and the last first, who has often put down the mighty from their thrones and exalted those of low degree. Renew our awareness as we resume these proceedings in this Hall of State, that we all stand under Thy inscrutable judgment. We pray for the grandeur of Thy eternity in the midst of our daily grind, for the insights of human kindness along with the toughness of the

law and a clear vision of that divine brotherhood which must yet replace man's inhumanity to man.

Dear Father, help these good men this day to let justice roll down like waters and righteousness as a mighty stream. Give them the integrity to walk with kings nor lose the common touch, the genuineness to face political conflict and remain Christian statesmen, and the humility to remember that all human deliberations are witnessed and reviewed by Thee, our final Judge. In the name of Thy Son who voted with his life. Amen.

SR 65—By Hamilton, Dacus, and Ferrell.

A RESOLUTION RELATING TO THE DISCONTINUANCE AND CURTAILMENT OF PASSENGER TRAIN SERVICE PROVIDED BY CERTAIN RAILROADS WITHIN THE STATE OF OKLAHOMA; PETITIONING THE INTERSTATE COMMERCE COMMISSION; AND PROVIDING FOR DISTRIBUTION:

WHEREAS, during most of its history Oklahoma has enjoyed excellent service from a large number of railroads, providing a network of passenger and freight service within the state; and

WHEREAS, in recent years, many of the railroads in the State of Oklahoma have followed a policy of reduction in the quality of service and made many attempts to reduce and even entirely eliminate certain types of service; and

WHEREAS, many of the railroads in Oklahoma apparently have made a deliberate decision to entirely eliminate any service to railroad passengers, either by outright abandonment of service or indirectly by making the service, schedules and trains so inconvenient to the needs of the public as to discourage their use and lead to ultimate abandonment; and

WHEREAS, this policy has resulted in many communities and citizens residing therein having either no or inadequate rail passenger service, causing inconvenience and hardship, without regard to the public interest, convenience or necessity; and

WHEREAS, The Kansas City Southern Railroad Company has filed applications

with the Interstate Commerce Commission for the complete abandonment of its last remaining passenger trains operating within the State of Oklahoma; and

WHEREAS, The Kansas City Southern Railroad Company seeks by said applications to abandon operations of Trains 1 and 2, 9 and 10, operating between Kansas City, Missouri, and New Orleans, Louisiana, and Port Arthur, Texas, traversing a portion of eastern Oklahoma; and

WHEREAS, this constitutes the only passenger train service directly connecting the major trade centers of the midwest and south of Kansas City and New Orleans with the area of Oklahoma which has probably the largest growth potential, by reason of development of the Arkansas River, and other natural resources in eastern Oklahoma; and

WHEREAS, most of the communities in Oklahoma and adjoining states will be entirely without service by train if these abandonments are allowed, and in many instances have no common carrier passenger service at all; and

WHEREAS, the public convenience and necessity requires the continued operation of said trains.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE SECOND SESSION OF THE THIRTY-FIRST LEGISLATURE OF OKLAHOMA:

SECTION 1. That this body respectfully petition and request the Interstate Commerce Commission to deny authority for this proposed drastic reduction in railway passenger service for the reasons outlined in the preamble to this Resolution.

SECTION 2. That copies of this Resolution, after consideration and enrollment be mailed to The Honorable Dewey Bartlett, Governor, to the State Corporation Commission, Third Floor, Jim Thorpe Office Building, Oklahoma City, Oklahoma, and to Mr. H. Before the mountains were brought forth, or ever Thou hadst formed the earth and the world, even from everlasting to everlasting, Thou art God. We give Thee thanks for creating us with the power to think, feel and act. Thanks be to Thee for the beauty of our world, for the wonderful heritage of our land, for our homes and families, and for all the ties that bind us together as a human family. Forgive us, O God, wherein we have been ungrateful, or squandered our gifts and heritage, or

misused the powers Thou hast given us. Forgive us for selfish concerns which have made it impossible to see the other person's point of view, or to see human needs. Forgive us our complacency in the presence of injustice around us. Guide us this day, O God, in the tasks that are before us. Give us wisdom to see people's needs clearly and to act creatively to meet them. We commend this body to Thy love and care. Cause them to feel Thy Spirit at work in their lives. Make them able for all things this day, thru Thy strength and to Thy name be the power and the glory forever. Amen.

Almighty God, and Father of us all, we pause in humility before Thee. In this chaotic world we need Thy steadying hand; in this noisy world we need Thy peace; in this confusing world we need Thy insight; and in this world of rising and falling nations, creeds in collision, and needs that cripple our fellow men, we need a vision of Thy kingdom whose light displaces the darkness and gives us hope for our nation and our lives. Let the noise of the world be hushed that we may hear Thy voice. Give us clarity of mind and purity of motive that we may heed Thy bidding. Expose to the strong his weakness; to the

wise his folly, and plant in our hearts an unconquerable dedication and in Thine own way lead us to the fulfillment of it. Put before us in sharp clarity the task we have to do. In our deliberations here today, free us from the desire of selfish gain; save us from cheap self-assertion and prejudice; and rid us of the pettiness that clouds out the larger issues and keeps us from doing the work that we have been called to do. Hear our prayers — spoken and unspoken — and to the needs of each man here send Thy supply. Amen.

SR 71—By Miller and Martin.

A RESOLUTION RELATING TO THE DISCONTINUANCE AND CURTAILMENT OF PASSENGER TRAIN SERVICE PROVIDED BY CERTAIN RAILROADS WITHIN THE STATE OF OKLAHOMA; PETITIONING THE INTERSTATE COMMERCE COMMISSION; AND PROVIDING FOR DISTRIBUTION.

WHEREAS, during most of its history Oklahoma has enjoyed excellent services from a large number of railroads, providing a network of passenger and freight service within the State; and

WHEREAS, in recent years, many of the railroads in the State of Oklahoma have followed a policy of reduction in the quality of service and made many attempts to reduce and even entirely eliminate certain types of service; and

WHEREAS, many of the railroads in Oklahoma apparently have made a deliberate decision to entirely eliminate any service to railroad passengers, either by outright abandonment of service or indirectly by making the service, schedules and trains so inconvenient to the needs of the public as to discourage their use and lead to ultimate abandonment; and

WHEREAS, this policy has resulted in many communities and citizens residing therein having either no or inadequate rail passenger service, causing inconvenience and hardship, without regard to the public interest, convenience or necessity; and

WHEREAS, The Atchison, Topeka and Santa Fe Railroad Company has filed application with the Interstate Commerce Commission for abandonment of service of trains Nos. 9, 11 and 12, between Chicago, Illinois and Fort Worth, Texas, through Oklahoma City, Oklahoma; and

WHEREAS, this abandonment, if successful, will leave the heavily populated central portion of Oklahoma, including the state capital of Oklahoma, Oklahoma City,

with only one passenger train operating; and

WHEREAS, the proposed abandonment will result in lack of facilities as to travel necessary in Oklahoma City and the larger communities and will result in many small communities having no passenger train service at all; and

WHEREAS, the public convenience and necessity requires the continued operation of said trains.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE SECOND SESSION OF THE THIRTY-FIRST OKLAHOMA LEGISLATURE:

SECTION 1. That this body respectfully petition and request the Interstate Commerce Commission to deny authority for this proposed drastic reduction in railway passenger service for the reasons outlined in the preamble to this Resolution.

INTRODUCTION OF SPECIAL GUEST

Senator Findeiss was recognized for the following introduction:

"Gentlemen of the Senate, it was my pleasure to introduce this guest two years ago and an even greater pleasure today for reasons which I will explain later. Our guest is from a distinguished Oklahoma family and he is carrying the name to even greater heights in public service. This gentleman returned a few months ago from 1½ years of duty in Vietnam, so he is certainly qualified insofar as the present conflict is concerned. He has also seen a great amount of combat action in other conflicts and wars as shown by his many decorations.

"He is presently the Commanding Offi-

cer of GEEIA which has world wide jurisdiction over all ground electronic installations and equipment. His base of operations is at Griffis Air Force Base near Rome, New York, but he finds that he spends a lot of his time visiting various units of his Command throughout the world.

"He has numerous rows of Decorations and just recently received the Distinguished Service Medal which is the highest non-combat award the Air Force now gives. I really don't know where he can find room to put this award. Incidentally, he served with Colonel Clark Selman, who is the brother of our Senator Selman.

"This gentleman is not only a Command Pilot, but is also a qualified Paratrooper. He said that he took Paratrooper training before he went to Vietnam in order to motivate the pilots in his Command at that time. He was the Commanding Officer of a fighter wing and said he felt that he should become "jump qualified" as the old man or Commanding Officer of the wing, so that the other pilots would almost have to follow suit. He did say, however, that it was a little rough and as a matter of fact he spent over a month in "toughening up" exercises before he even entered the training.

"Gentleman, it is my very great pleasure to introduce again to the Senate a very distinguished public servant, a man who has brought great honor to his family and to his Country — the son of our own Senator Al Nichols, another dedicated public servant.

"May I present ex-Colonel, now Brigadier General, Franklin A. Nichols, and ask that he be given Senate floor privileges for this legislative day."

By unanimous consent, the above introduction was ordered incorporated in the Journal and General Nichols was granted privileges of the Floor, President Pro Tempore McSpadden appointing Senators Findeiss, Baldwin and Dacus as a committee to escort the distinguished guest into the Chamber.

The Journal for the last legislative day was declared approved.

An Act relating to Electronic Data Processing; creating within the State Board of Public Affairs the Division of

Information and Management Services; * * * and declaring an emergency,

beg leave to report that we have had the same under consideration and herewith return the same with the recommendation: that the Conference Committee substitute, as attached, **DO PASS**, as co-authored by: Smalley, Short, Breckinridge, McGraw, Young and Smith.

CCS for **HB 1040**—By Sanguin, et al of the House and Gee of the Senate—An Act relating to Electronic Data Processing; creating within the State Board of Public Affairs the Division of Information and Management Services; providing for personnel; providing for authority and duties; authorizing the promulgation of rules and regulations; providing for the centralization of the State Electronic Data Processing activities; authorizing State Board of Public Affairs to enter into agreements and contracts for lease or purchase of equipment; providing for assessment of costs; providing for the establishment of the "State Information and Management Services Revolving Fund" and expenditures therefrom; providing for exemptions from provisions of Act; making provisions of Act severable; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. There is hereby created under the direction and control of the State Board of Public Affairs a division to be designated the Information and Management Services Division. The said Division shall control, supervise, regulate and provide for the acquisition, operation, maintenance, repair and utilization of such electronic data processing equipment as shall be necessary in the conduct of the State's business by the various agencies, departments and institutions of the State. The said Division shall establish an electronic data processing center or centers for the common use of the agencies, departments and institutions located in Oklahoma City, and may es-

tablish in the State such subsidiary electronic data processing centers as may be found necessary.

SECTION 2. The State Board of Public Affairs shall appoint and fix the duties and compensations of a Director of the Information and Management Services Division, and such other personnel as may be necessary to carry out the provisions of this Act.

SECTION 3. The Information and Management Services Division of the State Board of Public Affairs shall:

(a) provide systems, design and programming services to all state agencies;

(b) design, plan, justify and implement all data processing systems within and between state agencies;

(c) determine the most effective manner of handling the state's data processing needs, either by outright purchase or lease of equipment or by entering into a contract with computer servicing companies;

(d) act as a data processing consultant to the legislative, executive and judicial branches;

(e) offer a data processing advisory service to county and local governments;

(f) establish and justify data processing activities and costs so effectiveness can be measured;

(g) determine the need for, then establish and maintain enough data centers to fulfill the objectives of information systems;

(h) maintain adequate records to allow comparison of the various centers in terms of customer service;

(i) prepare specifications and contracts on equipment services for the various data centers;

(j) promulgate and adopt, with the approval of the State Board of Public Affairs, such reasonable rules and regulations as shall be necessary for the ef-

ficient and economical acquisition, operation, maintenance, repair and utilization of the electronic data processing equipment under its control.

SECTION 4. The Information and Management Services Division shall have the authority to acquire electronic data processing equipment by purchase, lease or transfer. All electronic data processing equipment owned or leased by any agency, department or institution of this State shall, upon the effective date of this Act, be transferred to and be subject to the control of the Information and Management Services Division. Where any such equipment so transferred from any such agency, department or institution was purchased by the agency, department or institution from a dedicated fund or trust fund, the Division shall credit such agency, department or institution with an amount equal to the fair market value of such equipment, and any charges thereafter made to such agency, department or institution for services furnished by the Information and Management Services Division shall be offset against such credit until the entire amount of the credit has been utilized.

SECTION 5. There is hereby created a revolving fund to be designated the "State Information and Management Services Revolving Fund". The said fund is hereby appropriated continuously for, and may be used for the acquisition, operation, maintenance, repair and replacement of electronic data processing equipment under the control of the Information and Management Services Division, and the payment of the administrative and operating expenses of the Division. The Division shall, at the end of each month, render a statement of charges to all State agencies, departments or institutions to which it has furnished services. Such charges shall be as determined by the Division, based upon a formula taking into consideration utilization of equipment time, time of personnel, de-

preciation, and administrative costs. All amounts so collected shall be deposited to the credit of the "State Information and Management Services Revolving Fund" for the first year after the effective date of this Act, then to the credit of the General Revenue Fund. Any proceeds from the sale or disposition of electronic data processing equipment or other property owned by the Division shall be deposited to the credit of the said revolving fund.

SECTION 6. No agency, department or institution of this State shall purchase, lease or otherwise acquire any electronic data processing equipment, or contract for or enter into any agreement for the furnishing of any electronic data processing services without the prior approval in writing of the Director of the Information and Management Services Division.

SECTION 7. Each agency, department and institution of this State utilizing the services and equipment provided by the Information and Management Services Division shall appoint an electronic data processing coordinator who shall maintain liaison with the Division and assist the Division in such activities as the establishment of priorities, rescheduling, changing reports, and developing potential areas for computerization.

SECTION 8. The Information and Management Services Division shall furnish to the Governor at the end of each fiscal year a statement showing the financial condition of the said Division, an inventory of all electronic data processing equipment under its control, and such other information regarding the Information and Management Services Division as may be necessary for a proper understanding of the operations of the electronic data processing centers.

SECTION 9. Any state agency owning, leasing or using electronic processing equipment when this Act becomes effective shall have the right to appeal to the

Management Services Review Board, hereinafter created, for exemption from the provision of this Act, on the ground that transfer of the agency's data processing system and services to the Information and Management Services Division would not be consistent with a Federal-State plan under which the agency is receiving Federal grants-in-aid, or that a loss of control over its data processing services would impair the agency's efficiency or its ability to fulfill its obligations to Federal agencies under Federal laws, rules and regulations, or that such equipment is being used to capacity. The provisions of this Act shall not apply to such agency pending final decision of the Management Services Review Board on the appeal.

(a) There is hereby created the Management Services Review Board, which shall consist of the Governor, who shall serve as Chairman, and the President Pro Tempore of the Senate, and the Speaker of the House of Representatives. The Board shall hear and determine appeals filed with it under this Section. If it determines that the agency filing the appeal should be exempted from the provisions of this Act, it shall so certify to the agency, and to the Director of the Information and Management Services Division, and the provisions of this Act shall not apply to such agency; but the Board may rescind such certification, and the agency shall thereupon become subject to the provisions of this Act, if the Board later determines, after notice and an opportunity to be heard has been given to the agency, that the ground or grounds for the exemption no longer exists.

(b) The term "State agency" or "agency" as used in this Section means any agency, department or institution to which any of the provisions of this Act are applicable.

SECTION 10. The provisions of this Act shall not apply to data processing

equipment used primarily for instruction or research at state institutions of higher education. Such institutions of higher education shall cooperate with the Information and Management Services Division insofar as possible to insure the greatest utilization of electronic data processing equipment of the State without interfering with the educational, research and other responsibilities of the institutions.

SECTION 11. The provisions of this Act are severable and if any part or provision hereof shall be held void, the decision of the court so holding shall not affect or impair any of the remaining parts or provisions of this Act.

SECTION 12. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this Act shall take effect and be in full force from and after its passage and approval.

Mr. Speaker

and

Mr. President:

We, your Conference Committee to whom was referred Engrossed House Bill No. 1041, and Engrossed Senate Amendments thereto, by Bengtson entitled:

AN ACT RELATING TO SCHOOLS; AMENDING SECTION 1, CHAPTER 522, O.S.L. 1965; *** AND DECLARING AN EMERGENCY,

beg leave to report that we have had the same under consideration and herewith return the same together with the Conference Committee Substitute with the following recommendation: That the following CCS do pass:

CCS for HB 1041—By Willis, et al of the House and Terrill, Berry, Payne, Massey and Howard of the Senate—An Act relating to schools; declaring legislative intent; amending Section 8 of Chapter 397,

O.S.L. 1965 (70 O.S. Supp. 1967, § 18-8A); to increase incentive aid and provide conditions thereto; conditioning reduction of incentive aid on legislative notice; allowing preparation of school budgets to include increased aid; providing for minimum teachers' salaries and for minimum increases in teacher salaries; repealing conflicting laws; and providing severability.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. This Act shall be known as and may be cited as "The Public School Improvement Act of 1968."

SECTION 2. It is the intention of the Legislature to provide for the improvement of the public schools of Oklahoma;

(a) by increasing the amount of state financial aid to local school districts;

(b) by encouraging local school districts to make a maximum effort to increase their local financial support of their own public schools in each such school district;

(c) by encouraging local school districts to initiate and maintain free public kindergartens through financial assistance without compelling such kindergartens;

(d) by basing state financial aid upon the child and not upon the classroom unit, the teacher or any other factor;

(e) by strengthening the partnership between the state and the local school districts in the fulfillment of their joint obligation to provide education for Oklahoma's children; and,

(f) by preserving the autonomy of each local school district and the citizens thereof to decide the kind and quality of education to be provided for the children of that district.

It is the further intention of the Legislature to increase and improve the educational opportunities of the children of Oklahoma through increased financial support of the public schools in order to al-

low local school districts more ample funds;

(a) to increase the compensation of teachers,

(b) to reduce the nonteaching duties of teachers,

(c) to reduce class sizes,

(d) to improve, enlarge and enrich curriculum, and

(e) to provide special education for children with learning disabilities,

while preserving to each local school district and the citizens thereof a maximum autonomy in determining which needs are most important and the priorities of such needs as to available funds. This Act should be administered, interpreted and construed liberally to effectuate these purposes.

SECTION 3. Section 8 of Chapter 397, O.S.L. 1965 (70 O.S. Supp. 1967, § 18-8A), is amended to read as follows:

§ 18-8A. As an incentive to the local school districts to provide local support for enriched educational opportunities for children over and above the Foundation Level of Support, there shall be apportioned to each school district in this State sums of money to be known as Incentive Aid, which are in addition to the Foundation Program Aid, determined as follows:

(a) To all school districts an amount of money equal to **Twenty-five Dollars (\$25.00)** **FIFTY-SEVEN DOLLARS (\$57.00)** multiplied by the legal average daily attendance of the previous year of such district, provided the school district levies a levy of five (5) mills as provided under Section 9 (d), Article X of the Oklahoma Constitution. **Provided, school districts which levy less than five (5) mills of the authorized levy shall receive Five Dollars (\$5.00) per child for each full mill levied.**

(b) In the event legislative appropriations are insufficient to finance the Incentive Aid to all districts of the State, the State Board of Education is hereby

authorized to reduce this flat grant of Incentive Aid per child to an amount which can be paid and keep within the funds appropriated. Likewise, it may be raised if sufficient funds are available; PROVIDED, HOWEVER, THAT NO REDUCTION SHALL BE MADE UNTIL AFTER FEBRUARY 1 OF THE FISCAL YEAR FOR WHICH THE APPROPRIATION SHALL HAVE BEEN MADE; AND PROVIDED FURTHER THAT BEFORE ANY SUCH REDUCTION SHALL HAVE BEEN MADE THE STATE BOARD OF EDUCATION SHALL GIVE NOTICE TO THE HOUSE OF REPRESENTATIVES, THE STATE SENATE AND THE GOVERNOR AND SHALL ALLOW THE LAPSE OF FIFTEEN (15) LEGISLATIVE DAYS SUBSEQUENT TO THE GIVING OF SUCH NOTICE PRIOR TO MAKING ANY SUCH REDUCTION.

SECTION 4. For the school year 1968-1969 no teacher shall receive less than Five Hundred Dollars (\$500.00) increase over the amount provided for such teacher in that district during the school year 1967-1968; provided, that for the school year 1969-1970 and thereafter no teacher shall receive less than a One Thousand Dollar (\$1,000.00) increase over the amount provided for such teacher in that district during the school year 1967-1968; provided, further, that no teacher shall be paid less than Five Thousand Dollars (\$5,000.00) for the school year 1968-1969, and thereafter.

SECTION 5. In the preparation of their budgets and estimates of income for the school years 1968-1969 the school districts of this State may include the increased amounts of Foundation Program Aid and Incentive Aid provided by this Act.

SECTION 6. All laws and parts of laws in conflict herewith are hereby repealed.

SECTION 7. The provisions of this Act are severable and if any part or provision hereof shall be held void the decision of the court so holding shall not affect or im-

EDITORIAL

Senator Baldwin asked unanimous consent, which was granted, that the following editorial by Riley W. Wilson, World Oil Editor, appearing in the Tulsa Daily World on February 25, 1968, be read and incorporated in the Journal:

Oklahoma Allowable Moot; Production Not There, Firms Say

OIL SLUMP TO AFFECT STATE ECONOMY; STUDY NEED SEEN

Oklahoma's position as a static or de-

clining oil producer will be reflected in the state's economy this year and a broad-based study of the problem could save future difficulties, several industry officials agreed last week.

The petroleum industry generally recognized that Oklahoma has passed its peak in crude production, but there is evidence that others—particularly in dealing with state tax expenditures—do not fully appreciate the situation, the oil men said.

There will be no sudden changes in crude oil production—and in the tax collections on oil production—but they will be felt more as each year passes, the officials said.

Replacing the loss in gross production tax ultimately will become a major problem and difficulties could be averted by recognizing the situation early, one executive said.

To reach a solution through "planning instead of panic," it is vital for government to have facts and objective views before the problem becomes serious, he said.

Principal suggestion from the oil men was for a high-level study by a broad-based committee of state leaders to (1) determine the extent of the economic problem to be created by declining oil production and (2) recommended policies to alleviate the effects.

Such a committee should include economists, financial experts, educators, government officials, legislators and other business leaders in addition to oil men, they said.

A proposal for such a study will be

made to Gov. Dewey Bartlett, one executive said.

The gross production tax on crude oil is one of the biggest sources of nonear-marked income which the state receives, the oil men pointed out. For fiscal 1966-67, total collections were \$34,148,177, an increase of \$3.7 million over the previous year.

For the last decade, the increase has averaged about \$1 million a year and the gain undoubtedly has been counted on by people in and out of government, they said. However, such increases are a thing of the past and declines will set in, they said.

For the petroleum industry as a whole, increasing natural gas activity will help offset the losses in crude oil but the same will not hold true for the general revenue fund of the state.

This is because 78 per cent of the gross production tax on natural gas is earmarked for the teachers' retirement fund. The tax collection from natural gas increased from \$5.3 million in 1960-61 to \$10.8 million in 1966-67, but the general revenue fund received none of it. Disbursements to the retirement fund rose from \$4 million in 1960-61 to \$8.2 million in 1966-67 and the remainder went to the counties which produced the gas.

Meanwhile, a hearing Tuesday to set the March oil production allowable will show evidence of the oil industry's realization of Oklahoma's producing status.

Although demand for state crude is strong, some purchasers will reduce nominations to be more realistic.

The state cannot produce its allowable now and there is little use of raising bids, one purchaser said. Another called the issue of allowables "moot."

The Oklahoma Corporation Commission will conduct the hearing at 10 a.m. Tuesday in the Jim Thorpe Building in Oklahoma City. The current allowable is based on 60 per cent of the depth-acreage table

and production is averaging about 620,000 barrels daily. Demand is about 640,000 barrels daily.

The editorial reads as follows:

Our Point of View

BARTLETT FULLY RESPONSIBLE IF SCHOOL CHAOS RESULTS

Governor Bartlett's veto of the revenue-school finance package means that he must bear full responsibility if ensuing events throw Oklahoma's educational system into chaos.

The solution arrived at by the Legislature for the state's financial dilemma seems reasonable enough. The money it would appropriate to finance substantial pay raises for the teachers was short of

what the Oklahoma Education Association requested. But it was far more than would have been provided under the limited budget drawn up by the governor.

The Legislature's plan would give the teachers raises of \$500 in each of the next two years, with a base salary of \$5,000. The financing would come from a 5-cents-per-package increase in the tax on cigarettes and a \$1.60-per-gallon increase in the liquor tax.

Whether these constitute general tax increases—which Bartlett has insisted he would oppose—is a matter of interpretation. Many persons use neither tobacco nor liquor, so the tax increase would not be applicable to them.

It's true the governor made a promise, when he campaigned for election, that he would resist any effort to raise taxes as a means of producing the revenue to finance Oklahoma's growing governmental needs. As an alternative he proposed a number of recommendations submitted by his Management Study Committee. They were designed to make more money available for appropriation through savings effected by more efficient operation of government.

More efficiency in government is laudable. As a principle it is something we can all support. But, in practice, by all accounts, the purported savings to be achieved by his recommended changes simply did not materialize, or would not be available for appropriation by the Legislature until some time in the future.

Another part of the governor's plan to meet his budget—the proposal to cut back on highway spending and divert gasoline tax revenue that normally goes to the county commissioners — apparently found no popular acceptance. At least the Legislature sensed no groundswell of public opinion that might have compelled it to enact the measure.

Thus, Bartlett's program proved to be inadequate, from the standpoint of both timing and financing. He should now ac-

knowledge the political facts of life. A promise is a promise, but when it goes beyond the understandable limits of integrity, it is time for the governor to put pride aside and work with legislative leaders on a solution to the crisis.

He would have been far wiser in the first place to concede that his management efficiency proposals were of a long-range nature, that the state is faced with immediate and urgent revenue needs and that the Legislature had come up with the most feasible plan to meet them. While accepting it he could have insisted that the tax increase be temporary and that the state bear down on changes that would make more revenue available over the long haul.

Then, if the teachers chose not to honor their contracts, both the governor and the Legislature could in good conscience say they had done their best to write a program that would be in the best interest of the whole state.

Now the teachers have little incentive to hang on, hoping for substantial improvement in their salaries and school conditions in general. If a teachers' "holiday" results from this and many Oklahoma schools are closed, the responsibility will rest squarely on the shoulders of Gov. Bartlett.—LEONARD JACKSON

Senators Breckinridge, Atkinson, Berong, Payne, Keels, Baldwin, Ferrell, and Ham asked to be shown present, which was the order:

Senator Short asked unanimous consent to have read and incorporated in the Journal the following editorial appearing in The Coalgate Record-Register under date of February 15, 1968, which was the order:

Some Things Needed, but

THE PUBLIC IS FIRST

It is easy to become incensed when public employees threaten the citizens by whom they are supposed to be employed.

Oklahoma has already had one of these rounds of threats from the metropolitan

teachers and some of the key members of the board of directors of the Oklahoma Education association.

Three years ago, the OEA recommended "sanctions" against Oklahoma schools by the NEA. Working conditions were terrible, we were told. The legislature and the governor yielded to the pressures and made raises in teacher pay in an effort to help solve the problem.

During the past three years, there has been no recommendation that we have seen from the OEA or any of its representatives which would provide needed funds to meet further demands for increased pay, which is what they seem to mean when they talk of "improved working conditions."

Yet, the threat of the "blackjack" has been raised again.

We agree, of course, that you can't pay a good teacher enough, or a bad teacher too little. However, it seems only fair to ask: "Has teaching in Oklahoma schools improved as much as it was supposed to improve as a result of the improved working conditions granted in 1965?"

One of the complaints coming out of a Tulsa teacher organization is that it is difficult for beginning teachers to "make ends meet" on the beginning pay for teachers.

We don't see where this is or should be any surprise. It is difficult for any person starting in life to "make ends meet" or to start at the top. In fact, it is difficult for most of us to "make ends meet" after years and years of working at our chosen profession.

The threats against the State of Oklahoma from some members of the OEA are not coming from most of the teachers in Oklahoma. Most of these wild charges and threats of walkouts are coming from metropolitan area teachers who seem to feel that theirs is an inherent right to determine what their salaries shall be and how they shall interpret statistics.

While most rural teachers naturally feel that they would like to have additional pay, the rural area teachers also seem more likely to understand that their problems are not separated from all the other problems of their respective communities. They are more likely to feel that they'd like to have pay increases if the tax money is available. We haven't heard of any threats against the people from educators in areas outside the metropolitan group.

Statistics purporting to show Oklahoma ranks 43rd or some place in the national averages of teacher salaries paid are deceiving. If raises should be made immediately to bring Oklahoma to the average, the mere fact of the additional pay added to the total from which the averages are figured would place Oklahoma below the average.

The average pay of the nation is no reasonable method for figuring proper pay for teachers. The average pay of the community in which they teach or the average pay of the citizens in the state would be far more reasonable. Comparative pay in relation to the cost of living would also be a more reasonable formula.

Figures are also used often to show how many qualified teachers are educated in Oklahoma and immediately go to jobs in other states. The fact that Oklahoma is educating more trained teachers than there are available teaching jobs in Oklahoma is soft pedaled.

Some states, for example, do not bother to educate teachers. Some have no teachers' college in their state. Instead of spending their state tax money for such purposes, they use the extra money to pay higher salaries to teachers we educate in Oklahoma.

Costs of obtaining an education are also often mentioned. These costs, however, are as much or more for any profession and few other professions have as many scholarships available as the teaching profession, especially in specialized fields.

While it may be true that Oklahoma has not done as much for education as any of us would like to do, Oklahoma has done more than most states — maybe more than any — in providing educational opportunities for those wishing to enter the teaching profession.

Another facet seldom mentioned in the hubbub is the fact that the Oklahoma legislature has been banned by the courts from appropriating anticipated income not included in the budget estimates. This ruling has placed the legislature in a more difficult financial position during the past two sessions, but it should be relieved after the first of July when greater surpluses will become available.

A casual study of the problems confronting the legislature at this time, should show anyone that these are facts of financial life which must be faced in financing any program. One or two years of patience are about all that are needed to help meet the problem the most irate teachers believe they face.

Also facing the strong advocates of teacher pay increases "or else" is the fact that they are making their demands on legislators who were assured three years ago of teacher help in meeting the salary needs of state representatives and senators.

Most of these legislators are spending more than half of their time working on all types of legislation, including educational problems, at salaries far below those which protesting public employees claim are ridiculously low.

If the "raise-or-else" group are as unselfish as they would have us believe, why haven't they shown a little interest in fair pay for legislators?

These men are asked to make our laws, make wise and financially astute decisions, meet all the demands of everybody for more services and more money with less taxes. Yet, we expect them to have these stellar qualifications while serving

the state for less salary than most of the lowest paid state employees.

We do not feel that the teacher problems should be ignored although they recur more often than most of the others. What we are saying is that they should be considered along with other problems, including legislative pay, which have already been postponed several times while school "problems" were being met.

There is a certain amount of money available. If that doesn't meet the current demands by schools, roads and state institutions, some things must be delayed. If this means deliberate efforts to damage the state by applying "sanctions," so be it. We won't like it — especially since it's apparently based on malice — but if the OEA can stand it, we guess we can, too.

Almighty God, we stand before Thee filled with wonder that the dwelling of God is with men. Thou hast chosen to dwell in our poor and shabby lives, lifting it now and then above the dominance of animal passion and greed and making it a mirror of the true and the beautiful of the world. As members and guests of the State Senate of Oklahoma, grant that our part in the world's life today will not obscure Thy presence but rather make Thy will plain to the eyes of all men. Let us stand today for whatever is pure and true and just and good; for the advancement of

science and education and true learning; for the redemption of business from the blight of selfishness; for the rights of the weak and the oppressed; for industrial cooperation and mutual help; for the conservation of all our natural resources; for the preservation of the rich traditions of the past; for the recognition of new workings of Thy Spirit in the minds of men in our own time, looking forward and striving for more glorious days to come. Help us as individuals today to put right before interest; others before self, things of the spirit before things of the body; attainment of noble ends above the enjoyment of present pleasures; let us put principle before reputation and let us put Thee, O God, above all else. Amen.

The Journal for the last legislative day was declared approved.

Stir us with the desire to richly fulfill this day's opportunity. Let us not break faith with any of yesterday's promises or leave unrepaired any of yesterday's wrongs. Let us see no person in distress and pass by on the other side. Let us leave no duty behind us unattempted. Where our deeds could make the world a better place for man to live, let us act with intelligence and vigor. Where our words can cheer a despondent heart or strengthen a weak will, let us speak clearly and kindly. So for

the living of this great day and the fulfillment of this high hour grant us courtesy, meekness of attitude and strength of character; give us patience, charity and sincerity of speech, that in Thy Holy Name we shall be numbered today among all who are valiant for truth; all who work for just laws; the relief and poverty; the healing of diseases, the rescue of the fallen and all who work for peace among the nations. Amen.

ly separate church and state without divorcing religion and faith from our common life. Purge our cities from the deep causes of corruption which have so often made sin profitable and uprightness hard. Breathe a new spirit into all our nation. Give our leaders new vision and set their hearts on fire with large resolves for peace on earth and brotherhood at home. Use us to raise up a new generation of public men with the faith and daring of the Kingdom of God in their hearts, who will enlist in the holy warfare for the freedom and the rights of all people. Fill these gentlemen of the Senate, and their families with Thy grace and heavenly benediction and accompany them safely home now and forever. Amen.

Section 23. Within **[twenty]** TWENTY-ONE days after the adoption of this amendment and thereafter prior to the convening of each regular session of the Legislature, the State Board of Equalization shall make an itemized estimate of the revenues to be received by the State under the laws in effect at the time such estimate is made, for **[each year of the next biennium]** THE NEXT ENSUING FISCAL YEAR showing separately the revenues to accrue to the credit of the General Revenue Fund and each special fund of the State, and the total amount of such estimate for **[each]** SUCH fiscal year shall not exceed the **[average]** total revenue which accrued to each such fund for the **[three (3)]** last preceding fiscal years, to which amount shall be added the cash surplus, if any, from **[the]** SUCH preceding fiscal year in the hands of the State Treasurer to the credit of any such fund and not previously appropriated by the State Legislature at the time such estimate is made. Such estimate shall be filed with the Governor, the President of

the Senate and the Speaker of the House of Representatives. The Legislature shall not pass or enact any bill, act or measure making an appropriation of money for any purpose until such estimate is made and filed, unless the State Board of Equalization has failed to file said estimate at the time of convening of said Legislature, then, in such event, it shall be the duty of the Legislature to make such estimate pursuant to the provisions of this amendment, and all appropriations made in excess of such estimate shall be null and void; provided, however, that the Legislature may at any regular session or special session called for that purpose, enact laws to provide for additional revenues, other than ad valorem taxes, or transferring the existing revenues or surpluses from one fund to another, whereupon it shall be the duty of the State Board of Equalization to make an estimate of the revenues that will accrue under such laws and to file the same with the Governor and with the President of the Senate and the Speaker of the House of Representatives, and the amount of any increase or decrease, resulting, for any reason, from such laws shall be added to or deducted from such respective fund, as the case may be. of Five Hundred Thousand Dollars (\$500,000.00) in any fiscal year.

The State shall never create or authorize the creation of any debt or obligation, or fund or pay any deficit, against the State, or any department, institution or agency thereof, regardless of its form or the source of money from which it is to be paid, except as provided in this amendment and in Sections Twenty-four (24) and Twenty-five (25) of Article Ten (X) of the Constitution of the State of Oklahoma. *[Provided, that the Legislature may fund or refund the State debt arising prior to July 1, 1941.]*

March 22, 1968

The Honorable Clem McSpadden
President Pro Tempore
State Senate of Oklahoma
State Capitol Building
Oklahoma City, Oklahoma

Dear Senator McSpadden:

Please convey my sincere and patriotic

congratulations to the Senate of Oklahoma for their resolution in support of our fighting men all over the world. I hope this resolution will be the spark-plug needed to get all of our people back on the right track.

If the millions of people who feel the same as you and I would let it be known vocally, the din created would be so tremendous, the so called "DOVES" couldn't possibly be heard.

I especially appreciate Senator Porter's remarks. He has spoken for 95% of the people.

Thanks for expressing my feelings by your action.

Yours very truly,
James H. Norick
Mayor

The following prayer was offered by the Chaplain and is incorporated herein, by unanimous consent, upon request of Senator Short:

O God! in this affluent age forgive us for being so casual in our relationship to Thee. We are casual because we are self-sufficient and independent. But in our more sober moments, we are conscious of our deep sense of need—a need for wisdom to handle complex issues, a need for guidance through tangled legislation, a need for love in a world of tension, a need for tolerance and brotherhood in a world of misunderstanding and prejudice. Help these Senators to seek Thy will in their every decision. As they serve in humility, may they never be so presumptuous to think that what they do in indifferent legislative action will find easy

acceptance and vindication in your chambers. We pray that these men will never accept standards of values which are cheap because they are base and vulgar; rather, help them to adopt standards which are costly because they demand sacrifice of self and commitment of life in service for Thee and others. In Christ's name we pray. Amen.

The Journal for the last legislative day was declared approved.

The following prayer was offered by the Chaplain and is incorporated herein, by unanimous consent, upon request of Senator Graves:

Gracious and Eternal God, help us not to let the deadening routine of religious duties—like senate prayers—drug us into insensitivity to Your presence. We must confess, O God, that it is so easy to lose sight of that which is real and abiding in an affluent America which accents the superficial and transient. In an era of time when values are reversed, where the spotlight is on status, success and wealth, help us to grasp those virtues of faith, hope and love which lead to real meaning and purpose in the “living of these days.” And in the end, we pray for all a steel-like courage which refuses to be pressed into the molds of conformity, for the resoluteness of character which will

not waiver in the presence of wrong, for rigid convictions which will not cave in to the pressures which are so constant and persistent in our day. In the name of Him who was uncompromising, we pray. Amen.

The Journal for the last legislative day was declared approved.

We thank Thee for the high caliber of leaders we have in Oklahoma and in this Senate Body. Father in Heaven, for our many trespasses and sins, we ask forgiveness. For the demanding challenge and business, give these men wisdom beyond their own. Dear Lord, we pray especially for our men facing death in Vietnam today. Give us solutions that will bring about peace in our world. We conquer outer space but we haven't conquered inner space within our hearts—only Christ can

help us with that. Revive in us a sense of divine destiny and direction. We ask all this in Jesus' name. Amen.

Especially do we thank Thee for Jesus Christ, Thy Son who was sent by Thy grace to show mankind, each of us, a greater way of life. We know that our Heavenly Father has been good to us not only as individuals or communities but as a state and as a nation and we thank Thee. We pray that our national leaders will be selfless in their leadership, strong in their convictions for peace and happiness for the American

people. We pray here this hour that our leaders who have been chosen by the people to represent the people in matters of policy making decisions, will truly consider the wishes of the people of this great State and thus make their decision. We pray that these leaders will stand strongly in favor of truth, freedom and justice in the midst of a troubled and confused world. We pray that our national leaders, our state leaders, our government and the people will open their eyes to see Thy truth and Thy way and Thy life, which is Jesus Christ, Thy Son. Oh, if man would let Christ come into their lives and direct their thoughts our state and our nation would prosper. May your Spirit guide us this day and our will be Thy will. Oh, Lord, our God.
