MESSAGE OF GOVERNOR GEORGE NIGH

Lieutenant Governor Bernard
President Pro Tempore York
Speaker Draper
Members of the Thirty-eighth Legislature

Almost daily we read of new accomplishments in, or for, Oklahoma.

Our economic situation, our growth, our successes make us proud of our great State, providing momentum for further successes. We feel good about this time and place. What a great situation for us to be experiencing during this particular year as we celebrate Oklahoma's Diamond Jubilee — the 75th anniversary of Oklahoma Statehood.

The rich resources which our Creator placed in Oklahoma, the proud and noble heritage of the American Indians who populated this land, the infusion of immigrants who came here to help develop and build this land, the combination of these things — and the dedication of dynamic men and women with an optimistic Oklahoma outlook — has allowed Oklahoma today to experience a quality of life envied by most every other state in the nation.

But Oklahoma is not an island. We are not immune or isolated from the problems which our nation and most every state is experiencing today. As automobile sales slow, so does automobile production and tire manufacturing. As home construction slows, so does timber production and appliance manufacturing. These problems affect Oklahoma.

Not every Oklahoman is employed — yet we are the most fully employed state in the nation. Oklahomans pay taxes — yet we pay less per capita State and local taxes than residents of any other state in the nation.

There are yet many needs which we must address in Oklahoma. We must further broaden our economic bases, we must deal with unresolved social concerns, we must more effectively manage our resources, we must continue to improve delivery of services and the quality of life for each and every Oklahoman in each and every town. My Legislative proposals will not solve these needs, but they will bring us closer to solving these needs.

I offer no grand designs or panaceas. What I offer you, what I request of you, are reasonable responses to today's needs based on today's situation utilizing today's resources — tempered with an ample application of common sense, so we can also address tomorrow's problems tomorrow.

You have before you my budget recommendations for FY 1983. Once again, you and I have before us a record-breaking budget to consider. Also once again, my budget calls for tax reductions for our citizens. Specifically, I have recommended in this budget a further reduction in the gift and estate tax reduction. This program will support my efforts to do what the State of Oklahoma can to save the family farm — a basic institution in Oklahoma. Our revenues and economic conditions can afford this tax cut for Oklahomans and a continuation of the tax reductions I have proposed and you have adopted last Session and in the previous two Sessions.

President Reagan, with the support of the Congress, has enacted income tax reductions at the Federal level. I strongly support these efforts to stimulate the economy and recognize we must address their impact on Oklahomans and our State tax measures. I will work with you to adjust the personal income brackets and corporate taxes to assure that tax cuts at the Federal level do not become tax gains at the State level. State tax rates should be adjusted to make sure the taxpayer

receives the tax break intended without the State reaping unintended gains in the process.

The growth of our State's economy follows three decades of sound fiscal spending policies in Oklahoma and a strong commitment by the government to support economic development of our State. We have more than reversed the trends of economic and population losses of the 1930's and 1940's. We are economically healthy at a time when our Nation's economy, and most of our sister States, face dire problems. We are not without our own economic problems in some segments, which I will address later, but the State's overall economic condition is tremendous.

We would be foolish, though, to commit our budget to a spending pattern which assumes our economic growth will continue forever. We must be cautious in our spending programs to get the most for our money without committing future governors and legislatures to expenditures that may not be possible without raising taxes.

For this reason, I am again recommending a budget that has three basic assumptions. First, inflation is still a fact of life. Therefore, we must adjust all of the State's operating expenses upwards to account for inflation. Second, because inflationary trends continue to be dramatic — particularly in the construction industry — capital expenditures cost less today than they will cost tomorrow. Third, the growth in revenues we anticipate above the amount certified by the State Board of Equalization should be primarily dedicated to one-time expenditures so they will not be built into the operating expenses of future budgets. Prudence dictates a wait-and-see attitude in this area.

CAPITAL IMPROVEMENTS

This year my budget anticipates a growth of revenues of \$300 million above the

amount certifiable under the Constitution's formulas by the State Board of Equalization. I believe this estimate of growth — or the so-called "surplus" — is conservative.

Consistent with my emphasis on capital improvements for one-time expenditures, this year I am proposing that you appropriate up to \$100 million as early as possible in the Session. This will allow us to go ahead and begin construction we know is needed. There is little wisdom in waiting — while prices rise even higher — to fund projects we all know are needed now. At the same time, I am suggesting this Legislature set aside \$100 million from this year's estimated growth to be expended for the same purpose and in the same manner by the Governor and Legislature next year. I believe this is a sound approach for this year and equally sound for future years.

GOVERNMENT GROWTH

While I continue to oppose needless growth in government, unnecessary rules and regulations and a bureaucracy which ignores the problems of people, our condition of growth makes it impossible and unrealistic to provide services to a larger population with fewer people.

We cannot have more roads and traffic without more highway patrolmen. We cannot have the tremendous boom in oil and gas-related business without increases in personnel that service and support these businesses — such as the Securities Commission, the Corporation Commission, the Secretary of State and others. A blind commitment toward no growth in government is a blind commitment to no growth in Oklahoma. I believe my budget reduces the number of employees in agencies where it is possible, but also provides for increases where it is logical and necessary.

Other efforts to control the growth of government continue. Among these are im-

proved communication within the executive branch of government through conferences, task forces, newsletters, and other efforts as we seek to work together to serve the people of Oklahoma. We strive to help each agency understand the priorities of this administration and to work together to accomplish those objectives which the people elected me to accomplish. The cabinet and minicabinets continue to provide a positive forum to review the management of State government and to reduce costly duplication of services or agencies working at cross-purposes.

Other management initiatives to increase job performance and employee productivity have been greatly enhanced by the State Personnel Board's broadened responsibilities in recruiting and training employees. An aggressive and comprehensive training program is now in effect to help every agency improve the skills of its employees. Obviously, if our employees can work more effectively, the need for further expansion of the work force can be reduced.

BUDGET INCREASES

In addition to our general growth, our budget breaks all records this year, partially because this is the first year the Department of Human Services is included in general revenue funds to be appropriated.

While I agree and strongly support our actions last year to provide oversight of this department, I am compelled to urge extreme caution as we begin the process of including this department in our general government operations.

The Department of Human Services and its predecessor agencies have been treated separately historically for two good reasons. First, this Department has been able to use State appropriated revenues to leverage federal matching funds greatly to the state's advantage. Secondly, previous laws have

been designed to assure those truly in need of welfare assistance are protected.

We must be extremely careful, particularly in this climate of Federal budget uncertainty, that we do not jeopardize the important programs or the maximum use of Federal funding available. This is no time for experimentation.

Across-the-board, my budget recommends increases in aspects of government services that are a vital part of the State's economy.

We must continue our efforts to support sensible economic development in Oklahoma, with a focus on the geographic areas with the greatest need, support for our existing industries — particularly small and minority businesses — and strong support to help Oklahoma industries enter into international markets and trade.

STATE EMPLOYEE PAY PLAN

Last year, thanks to your support, we were able to make the first significant accomplishment in the area of professional public employment practices since the institution of the merit system in Oklahoma.

We made a major step in the direction of establishing a true personnel system for Oklahoma with the Hay Plan and other improvements in our State personnel system. We must recruit, train and retain State employees for the same economic reasons private businesses use in their employment practices.

My budget provides for a continuation of our commitment to attract professionals in government employment and to reward merit in job performance.

Further improvements in our personnel system will be possible with your positive action this session on Senate Bills 339 and

340 which will further modernize our personnel management system and will provide for an independent review body to hear appeals and complaints.

TOURISM AND THE ARTS

Oklahoma's rich scenic cultural, historical and recreational resources continue to be a strong economic tool and the State is wise to continue investing in these resources.

My recommendation for funding for the Oklahoma Tourism and Recreation Department includes capital improvement funds to complete a four-year program of upgrading our State parks and recreation areas. Increases in operational funds are recommended to expand the marketing and communications programs, our modern picture and television production efforts, and to broaden recreation programs throughout the system.

Another factor in our effort to improve the benefits of living in Oklahoma is continued investment in the statewide community arts program through the State Arts Council. These programs benefit all Oklahomans in all areas of the State. Further demonstration of the Total Oklahoma concept.

The arts are a major industry and a vital part of Oklahoma's outstanding quality of life. As our State grows, the need for cultural opportunity for all the people will also grow.

GENERAL GOVERNMENT LEGISLATION

Changing times and circumstances always require improvements in our statutes and Constitution.

Our Constitution and statutes are both soundly grounded in citizen participation in our government. Many of the agencies and functions of government are governed by

citizen members of boards and commissions. The potential financial liability of agency directors and boards and commissions is now a fact of life. To protect citizen involvement in our governmental operations, we must adopt a tort claims liability act.

Again, I urge adoption of an effective conflict-of-interest law, so that our citizens will know that personal interest and self-gain are not a part of governmental policy.

To correct an antiquated Constitutional provision, I recommend that the appointment and qualifications of the Chief Mine Inspector become statutory and realistic. Present conditions are burdensome and unnecessary to government in this day and time.

LAW ENFORCEMENT

The growth of our population, along with the growth of our economy, make the expansion of some state services both necessary and prudent.

Along with the rest of the Nation, Oklahoma continues to experience a rising crime rate. My budget includes funds to expand the Oklahoma Highway Patrol, the Oklahoma State Bureau of Investigation and the Bureau of Narcotics and Dangerous Drugs in their efforts to abate rising crime. Arson has become a particularly onerous crime and I am recommending new programs to address this.

Rising crime, increased litigation and our overall growth are placing a greater burden on our judicial branch. Justice delayed is still justice denied — we should not allow our system of adjudication to become an automatic backlog of cases awaiting decisions. My budget calls for more judges and support staff.

HEALTH AND MENTAL HEALTH

Among the most vital services government can provide for the people are those to care for their health and mental health needs. We cannot lessen our commitment to quality services delivered to Oklahomans wherever they live.

My budget message addresses my specific recommendations in these areas, but I want to point out some major programs I am recommending. I am recommending continued funding to provide community mental health treatment facilities throughout the State. I am recommending a \$3 million dollar home-care program for the aging. This will reduce the needless institutionalization of our aging citizens that can, with a little help, remain at home. I am also recommending a new program to deal with the serious and growing problem of alcohol and drug abuse in adolescents and strengthening our programs to deal with teenage pregnancies. These programs are sound investments for our future.

TRANSPORTATION

Continuing our economic growth through all of Oklahoma depends largely upon the condition of our entire transportation system — roads, highways, railways, waterways and airports. Existing business — whether in agriculture, manufacturing, natural resource development, recreation, retailing, whatever — benefit from improved transportation capabilities.

My budget recommends an increase of \$88 million in appropriations for road construction and maintenance. This includes a \$66 million increase for new road construction and maintenance, a \$10 million one-time investment to assist city street programs, and \$18 million towards completion of the county bridge construction program. This is another major step in our ongoing

commitment toward improving Oklahoma's transportation system.

Thanks to your support, Oklahoma has made good progress toward preserving rail service due to the bankruptcy of the Rock Island line. A portion of that line is now back in service, but the problem is far from being fully resolved.

We await further word from the courts and from the United States Congress on matters affecting the ability of Oklahoma and other states to address the rail transportation problems. I have met, and will meet again, with Governors of other states affected by the Rock Island's demise.

As before, I continue to strongly believe the State of Oklahoma should not operate a railroad. But, I also strongly believe our State has a responsibility to work towards preservation of a rail transportation system for the benefit of the entire State's economy.

EDUCATION

Oklahoma now has one of the most innovative and stringent teacher certification and staff development programs in the country.

Our teacher's salaries are on the incline relative to the rest of the nation — in three years we have moved from 46th to 35th in the country. I am, this year, recommending an average increase of \$1,600 per teacher.

The combination of these elements means that Oklahoma will be attracting and retaining only the highest calibre teaching professionals. In three years Oklahoma has moved from 34th to 27th in the nation in per pupil expenditures. We can be proud of our accomplishments.

The strength of our commitment to higher education has never been more clearly manifest than in the past two years, when Okla-

homa has ranked 5th in the nation in appropriation increases for higher education. I continue to be dedicated to refining and strengthening the system we have in place.

The State Regents' study of the higher education needs in the Tulsa area clearly addresses and attests to the need for the establishment of some public upper-level institution in Tulsa. I strongly support their findings and look forward to working with you as we review their alternative recommendations and begin the development of a higher education facility in this vital part of the State.

We have made great progress at funding the Regent's needs as outlined in the five-year campus master plan. This is a sensible approach and I am requesting the Regents to develop another five year campus master plan for future needs.

Our vocational-technical education system continues to improve and expand, even though it is already recognized as one of the best in the nation. We are seeing this year the opening of two new area schools, and the initiation of a machine tool training program and an innovative productivity center. These last two demonstrate the remarkable responsiveness of this system to the training needs of industry and commerce in our State.

SPECIAL CONCERNS

In past Sessions and budgets I have tried to place a particular interest, focus and commitment to what I have called areas of "special needs".

We continue to make progress in our efforts to accommodate the special needs of the physically and mentally handicapped and minorities.

This year I am proposing that we address the needs of two other special classes. One suggestion — which is not in my budget,

because it does not cost the public one cent — is a suggestion I made in the first year of my term. We should pass Oklahoma's ratification of the Equal Rights Amendment to the United States Constitution. No law in this State or Nation should discriminate against a person on the basis of sex.

Another class of citizens who have special needs that have not been adequately treated is our veterans. My budget outlines a detailed program to upgrade the facilities and treatment at our veterans centers. In our climate of general economic health, there is no excuse for allowing our veterans to become the forgotten people. I urge your support.

COUNTY GOVERNMENT

The greatest disappointment during my term as Governor has been the shame brought to Oklahoma through illegal acts by scores of county commissioners and those suppliers who paid bribes or kickbacks to public officials. I feel very strongly that an elected official has a sacred public trust, and the people have the right to expect public officials to act honestly and in the best interest of the public.

The county commissioner scandal has not involved every county commissioner and it has not involved other county officials. The vast majority of elected officials were not involved.

Last summer, in Extraordinary Session, I asked the Legislature to take steps to address the problems created by the kickback scandals. You responded rapidly and responsibly.

You strengthened laws requiring forfeiture of office and of benefits by convicted or confessed criminals. You repealed an antiquated law protecting the first confessor from prosecution for his crime. You tightened the lease purchase procedures to reduce opportunities for collusion.

These were positive steps in response to the problems, and your action was appreciated.

But, as we knew then, we were only addressing short-term solutions. For the past several months, the Legislature, the public, the Governor's Task Force on County Government and the news media have all studied the problem. There are now scores of suggested solutions: some far-ranging and dramatic; some that are far more simple. Some suggestions have nothing to do with the kickback scandals, but are suggestions to improve county procedures and practices which have been unchanged for many years.

After reviewing proposals affecting county government, I have announced my suggestions. A detailed explanation of those proposals and the rationale on which my recommendations are made is provided for you. We must act to correct the problems evidenced by the kickback scandals. The matters I recommend to you are intended to do so and, at the same time, to provide more effective management of the public's business at the county level.

Some of my proposals concerning county government are budgetary. Among these expanded services to the counties are assistance through the central purchasing division of the State Board of Public Affairs and mandatory training programs for county officers to be coordinated and funded through the Department of Economic and Community Affairs.

Again, I recommend the State assume full funding for the district attorney system throughout the State of Oklahoma. This will assure that the district attorneys are free from financial pressures of county government.

Other measures in my budget recommendations to help county governments include assistance for pay raises for county health department employees, a second year funding of \$2 million for county jail improvement

programs, plus the funding for the county bridge program previously mentioned.

Local government must remain under local control, yet the State still must meet its responsibilities to the citizens.

AGRICULTURE

A basic part of our State's economy and social fabric is in serious jeopardy — agriculture. I have greatly appreciated the support we have received from Lieutenant Governor Spencer Bernard, the Governor's Food and Agriculture Advisory Council and the Department of Agriculture.

The uncertainty of Federal programs for our largest industry magnify the problems of our farmers, ranchers and rural residents. I intend to support agriculture in every means possible at the State level — whether it be abolition of inheritance taxes, development of water resources, preservation of rail service or any other State program that might be effective. Agriculture and the family farm are a basic part of our lives. They deserve and need our help and support.

LOSS OF FEDERAL FUNDS

In spite of the general economic health and prosperity of Oklahoma State government, there are areas with serious and severe problems. The condition of the national economy is uncertain.

Oklahomans stand ready to do their fair share to improve the condition of the dollar through reductions in government and services, sacrificing as needed to support a national effort to reduce the national deficit. Yet, we do not know — at this time — how changes in Federal government spending and services will manifest themselves in our State.

It has been aggravating to develop a State budget with no certain knowledge of the im-

pect of Federal cutbacks. To this day we do not know what has been cut, what will be cut and how and where Oklahomans will be affected.

For these reasons, I have not recommended in my budget the make-up of any broad Federal fund cuts with State dollars. I do know that the State simply cannot afford to replace, dollar for dollar, or program for program, the loss of Federal funds and programs.

Given the conservative Constitutional formula for certifying revenues available for appropriation, it is more sensible for us to consider the consequences of the Federal budget in Oklahoma as they become known. I look forward to working with you during the Session and plan to make specific recommendations when the facts are known.

But, I must caution and warn you that we do know that Oklahomans, as all of the nation's citizens, will feel the pain of the cut-back in Federal programs and services — particularly our cities, towns and counties.

CORRECTIONS

Another serious problem faces us this Session. In spite of the fact that we have appropriated millions and millions of dollars to the Department of Corrections in response to Federal Court Orders, we are still under Court Order and our Corrections system is still inadequate under the Court's standards.

We have no choice but to obey and satisfy the Court's conditions. I am committed, and have committed the State before the Court, to do what is necessary to remedy the problems of our corrections system.

We have made tremendous improvements in our corrections system and we should be proud of our efforts. I greatly appreciate the support received from Speaker Draper, President Pro Tempore York and both

Houses of the Legislature as, together, we have moved forward. My budget before you this year contains some \$67.5 million for operations in the Department of Corrections, \$13.3 million in capital outlay, \$2.2 million for corrections-related operations in other State agencies and an additional \$3.7 million in capital outlay to other agencies. Added to appropriations the State has made since coming under Court Order, we will have spent some \$430 million on this problem. My recommended budget for corrections operations for FY 1983 is a 565 percent increase over the budget prior to the Court Order in FY 1974.

Subsequent to the time my budget for FY 1983 was prepared and this date, we have experienced additional problems of overpopulation. We must work together to solve this problem to satisfy the Court's Order, meet Constitutional standards and provide for the public safety.

While we have made great progress, we have not finished what is required of us. I know that you will support me in our efforts to satisfy our obligations.

WATER

The key to Oklahoma's future is water. While we have made some progress, year by year, in developing the State's comprehensive water plan, we have failed to provide for the needs of the future as we already know them.

It is all too easy to put off handling this controversial issue. While the nature of water problems that face different areas of the State are not the same, the problem is common to all Oklahomans — regardless of where they live.

We have a great opportunity to succeed and set in place the mechanisms to address the most serious problem that looms on the horizon of our State's future. There is no

excuse for delay — we have the knowledge and the resources. We also have the commitment.

In 1979, we established the Water Projects Assistance Fund. In 1980, sewer and wastewater projects were added as eligible projects. In 1981, efforts were directed towards issuing water development bonds for local government. We have the mechanisms in place. Now, we need to finance them.

I am recommending that we appropriate \$250 million, beginning with \$50 million this year, and \$50 million each year in a five year program, to fund our previously adopted State water resources fund. After the \$250 million fund is established, we should create a second fund for additional water needs.

While the nature of our water problems differ regionally, there is no region without a water problem. The time is long past for regional differences to stand in the way of the State solving a State problem.

We have no higher obligation or priority. I have no higher priority. This is our opportunity to make the single greatest contribution in our lifetime.

Today I have shared with you some of my thoughts on Oklahoma's past, her progress and her present problems for the benefit of your constituents and mine, the people of Oklahoma.

Throughout this year, throughout this State, there will be frequent events to celebrate and commemorate Oklahoma's Diamond Jubilee. Join with me in making this the most productive, most responsive Legislative Session in the seventy-five year history of the great State of Oklahoma.

You have my budget proposals. You have my major Legislative proposals. Let's begin

today to deal with these matters with swift and sensible action.

Upon Motion of Senator Martin, the Joint Session was ordered dissolved.

The Senate reassembled in its Chamber with Senator Giles presiding.

Senator Finis Smith questioned the presence of a quorum. The Presiding Officer ordered the roll called, following which a quorum was declared present.

Senator Combs presiding.

COMMUNICATION

Senator Combs announced a Communication from the State Board of Equalization had been received and ordered the same printed in the Journal for this legislative day.

C E R T I F I C A T E

TO: HONORABLE SPENCER BERNARD, PRESIDENT OF THE SENATE
HONORABLE MARVIN YORK, PRESIDENT PRO TEMPORE OF
THE SENATE
HONORABLE DAN DRAPER, SPEAKER OF THE HOUSE OF
REPRESENTATIVES

I, George Nigh, Governor of the State of Oklahoma, and Chairman of the Board of Equalization hereby certify that, pursuant to the provisions of Article X, Section 23, of the Oklahoma Constitution, and the decision of the Supreme Court of the State of Oklahoma, in *Smith vs. State Board of Equalization*, 52 OBAJ No. 20,1195, the Board of Equalization by a vote of five (5) AYE and two (2) NO, certified the total amount of revenue which accrued to the General Fund and to each Special Fund of the State of Oklahoma, for the fiscal year ending June 30, 1981, and, the estimates of revenues to be received for the next ensuing fiscal year (fiscal year ending June 30, 1983) to the credit of the General Revenue Fund and to each Special Fund of the State, as reflected in the "Appendix" attached hereto and made a part hereof.

DATED this 9th day of December, 1981.

/s/George Nigh,
Governor of the State of Oklahoma, and
Chairman of the State Board of Equalization

November 30, 1981

State Board of Equalization
111 State Capitol
Oklahoma City, Oklahoma 73105

Gentlemen:

In conformance with the will and intent of the majority of the members of the State Board of Equalization, the amount of General Revenue Funds certified for appropriation is \$1,664,533,033 and not \$1,634,533,033 as stated in the State Budget Office report dated November 23, 1981, addressed to the Board. The increase was approved by a vote of six "ayes" and one "no" following a motion by The Honorable Tom Daxon, State Auditor and Inspector and Secretary to the Board, and a second by The Honorable George Nigh, Governor and Chairman of the Board. The motion was to raise the proposed amount of General Revenue Funds available for appropriation by \$30,000,000. The source of the additional revenue was identified as Gross Production Tax. Mr. Daxon spoke to the understatement of Gross Production Tax by the Oklahoma Tax Commission. Because the motion addressed the amount available for appropriation, the cash flow reserve increment allowance was not adjusted.

The last three digits of the amount determined by formula for the Tax Commission Fund were transposed to the estimate of revenue for the Tax Commission Fund. The correct amount for certification is \$31,682,444. This is an administrative correction to the report.

The Board further addressed the failure of the Budget Office presentation to identify the 77 county court funds as requiring certification. The requirement was established in an Attorney General's Opinion, Number 81-276, dated September 29, 1981. The Board has not received estimates or other financial information. The county court funds are omitted from the list of non-complying agencies in an administrative error. Based on the Attorney General's Opinion the funds should be treated as members of the group of funds to be considered for certification.

Sincerely,

/s/DAVID W. WAY
Director of State Finance

STATE OF OKLAHOMA
EXECUTIVE DEPARTMENT
DIVISION OF THE BUDGET

November 23, 1981

State Board of Equalization
State Capitol Building
Oklahoma City, Oklahoma 73105

Gentlemen:

The Constitution of the State of Oklahoma, Article 10, Section 23, as amended by State Question No. 506, adopted July 22, 1975, provides in pertinent part:

“Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall make an itemized estimate of the revenues to be received by the state under the laws in effect at the time such estimate is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of the General Revenue Fund and each special fund of the state. The estimate shall not exceed an amount which shall be determined by the following procedure:

(1) Certify the total amount of revenue which accrued to the General Revenue Fund and each special fund during the last preceding fiscal year.

(2) Next, compute the percentage by which, in each one of the last five (5) preceding fiscal years, the amount of revenue exceeded, or was below, the corresponding amount of revenue for the next preceding fiscal year, the average percentage of increase or decrease for this five-year period shall then be computed. Revenue of a nonrecurring nature shall be excluded from the revenue of the preceding fiscal years in computing the percentage of increase or decrease for those years.

(3) If there is a decline in the percentage of increase during the last preceding fiscal year as compared to the five-year average computed above, the Board shall compute such percentage for that period.

(4) The Board of Equalization, having computed the percentage based on (2) and on (3) above, shall then certify which is the lesser of the two methods.

(5) The Board shall then add to or subtract from the total amount of the revenue for the last preceding fiscal year, a sum equal to twice the lesser of the two methods. . . .”

The following report has been prepared in accordance with the procedure set forth in that portion of the Oklahoma Constitution cited above, and is respectfully submitted for your consideration.

Sincerely,

/s/DAVID W. WAY
Director of State Finance

MESSAGE OF CHIEF JUSTICE IRWIN

Lieutenant Governor Bernard
President Pro Tempore York
Speaker Draper, and
Members of the Thirty-Eighth Session Of
The Oklahoma Legislature:

Your invitation to the judicial department and our appearance before you today vividly demonstrate that the so-called three branches of government, at least in Oklahoma, recognize the duties and responsibilities of the other, the inter-dependence upon each other, and our willingness to coordinate our talents and efforts for the benefit of our state.

Deciding cases swiftly and well — the constitutional job of the judiciary — is no more nor less important than enacting reasonable and workable laws — the responsibility which rests upon your shoulders — and administering the day-to-day performance of government services — the mission of the executive branch. Each of us have an impact upon the effective operation of the other. If one does not function properly, the others suffer.

It was in this spirit of cooperation and good faith that your invitation for the judicial branch to appear before you was extended. We accepted your invitation in the same spirit.

Mr. Marvin Emerson, the State Court Administrator since August, 1977, accepted

the position as Executive Director of the Oklahoma Bar Association this past December. Mr. Emerson worked very closely with you and your committees during and between your sessions. Mr. Tom McDaniel is now serving as State Court Administrator and will continue the cordial relationship and line of communications between you and the courts. Our entire judiciary stands ready to assist you in your work.

My remarks today will seem somewhat repetitious to some of you and will cover matters familiar to all of you. However, I do want to lay a background for your overall consideration.

I would first like to review some of the programs or projects that have been completed. The programs are the successful work product of numerous lawyers and judges over a period of years. The first project relates to Uniform Jury Instructions which has always been a concern of the Legislature, the bench and bar. We know that justice can be withheld, delayed and in some cases denied on account of erroneous jury instructions which require a reversal of the trial court judgment and a new trial. Proper jury instructions are universally recognized as a helpful aid in shortening and simplifying trial court proceedings as well as on review by an appellate court. In 1968 you authorized the Supreme Court and the Court of Criminal Appeals to "prescribe and institute uniform jury instructions." No funds were appropriated for this project but a voluntary committee, composed of lawyers and judges, was formed and considerable work was done. The voluntary committee did not complete its work due to the lack of funds to hire staff personnel.

This stalemate was resolved for the civil instructions in 1978 when you appropriated \$20,000 to fund it. The Supreme Court then created a committee composed of lawyers and judges and Professor Silas R. Lyman, of the Oklahoma City University School of

Law was employed as the Committee's reporter. This committee worked long and diligently and we are particularly indebted to the lawyers who participated and offered their time and talents at the expense of their practice.

The work has been completed. The Uniform Jury Instructions in civil proceedings will be in the hands of the trial judges by June or July of this year.

The criminal jury instruction program was funded by the Federal Law Enforcement Assistance Administration. A commission, convoked by the Oklahoma Center for Criminal Justice, composed of lawyers and judges, completed its manual on criminal jury instructions this year. The commission was guided by Professor Robert E. L. Richardson of the University of Oklahoma College of Law. Its work was approved by the Court of Criminal Appeals in November, 1981, and the new instructions will be in use after May 1, 1982.

The completion of the civil and criminal Uniform Jury Instructions brings to an end the mission you mandated years ago.

Another program or project that has been completed is the Benchbooks. The Benchbooks are in two volumes: one, civil; and two, criminal. They contain check lists, ready statutory and case law references, jury orientation remarks, and other materials, and are an invaluable tool for both the new judge as well as the experienced judge and serve as quick references to substantive and procedural law.

The Benchbook project was undertaken approximately a year and half ago in cooperation with the National Center for State Courts. It was funded by a grant from the Law Enforcement Assistance Administration. A committee comprised of one Justice of the Supreme Court and four District Judges was responsible for formulating the

content of the Benchbooks, editing and coordinating toward final publication. Hundreds of man hours were expended. The Criminal Benchbook was finalized in the fall of 1980 and the Civil Benchbook was finalized in the fall of 1981. We owe a debt of gratitude to the members of the Benchbook Committee. Benchbooks have been furnished to every member of the judiciary.

The Benchbooks have received extremely favorable responses from trial judges across the State and are being used by the National Center for State Courts as a pattern for other states who are only now undertaking Benchbook projects.

One of the major problems facing our court system today is the ever increasing flow of litigation or caseload per judge. Oklahoma does not stand alone with this problem. All courts, state and federal, have crowded dockets. Since 1960 the number of filings in the Federal Courts have tripled. Since 1972 the number of appeals filed in the Supreme Courts has doubled.

Our expanded economy and economic development furnish fertile fields for litigation. As an example, yesterday it was not economically feasible to litigate a dispute involving 3 or 4 acres of minerals which had a value of \$300 or \$400. Today the value of that mineral interest may be ten times its yesterday's value. That dispute will probably end up in court. It is our state's responsibility to furnish a reasonable set of rules, a forum and the necessary judicial manpower to litigate and resolve that dispute within a reasonable time.

We do not suggest that our problems are acute or at a critical stage at this time. We are here to give you a little better insight on some of the problems we have, the manner in which we have tried to meet them, and how we believe they can be better resolved in the future.

We have what may be termed a two level court system — the trial court level and the appellate court level. I should like to visit with you first about our trial courts.

THE DISTRICT COURTS

The district courts of our state have unlimited original jurisdiction of all justiciable matters.

In 1980, approximately 500,000 cases were filed in our district courts. In 1981, approximately 550,000 cases were filed, for an overall increase of approximately 10%. This number includes all the cases filed in the small claims division of the district court and traffic violations whether they were contested or not. The district courts of Oklahoma and Tulsa counties account for more than 50% of the total caseload in the district courts.

Last year you appropriated \$599,625 for the detailed design of a data processing system. A contract has been entered into with the National Center for State Courts for the detailed design. \$624,000 is being requested for the lease of computer hardware, operational expense, and three data processing personnel.

The flexibility of our rules and laws in reference to assignments of judges makes it possible to assign judges from one judicial district to another. The assignments are generally made from the rural areas to the metropolitan areas. By assignments within and without judicial districts, we have flexibility to move judges to where they are needed. There are no jurisdictional boundaries for the assignment of judges.

Our state trial courts have an excellent record in the timely disposition of cases. As an example, felony cases are usually set for trial in Oklahoma County within 60 days after the arrest if there is no delay in completing the preliminary hearing. If there is a problem with the availability of witnesses,

such as the state chemist or firearm expert, the preliminary hearing is continued and the trial is delayed an additional 20 to 30 days after the arrest before trial. It is my understanding that approximately the same time period obtains in Tulsa County. Generally speaking, the time period between arrest and trial in our rural areas is longer because of the small number of jury dockets.

We have 202 trial judges in our district courts broken down as follows: 71 district judges, 77 associate district judges, and 54 special judges. Our proposed 1983 budget does not at this time include a request for additional district court judges. However, one or more of our metropolitan areas may require additional judicial manpower for 1983.

THE WORKERS' COMPENSATION COURT

The new 1977 Workers' Compensation Act expanded Workers' Compensation Coverage in Oklahoma to encompass every employer and employee in the State with only limited enumerated exceptions. This broadened coverage resulted in a substantial increase in the volume of claims filed with the Workers' Compensation Court.

Claims are being filed with the court at the rate of 20,000 per year. It is my understanding that about 40% of the claims filed with the court are contested. The Supreme Court is called upon to review between 75 to 100 cases or appeals per year from the Workers' Compensation Court which is a very small number considering the claims handled by that court.

At the present time, workers requesting a hearing before the court are faced with a delay of approximately four (4) months. Forty (40) days of that period, however, is the statutorily required time for the filing of pre-trial stipulation by the employer and for the issuing of notice of hearing.

You will recall that last year you authorized an additional judge for the Workers' Compensation Court who will be appointed for a term beginning July 1, 1982. We believe with the additional judge, the eight judges will be able to handle the caseload.

The most pressing need of the Workers' Compensation Court is additional space.

OFFICE OF THE COURT CLERK

The Clerk of the Supreme Court is the Clerk of all Appellate Courts in our State. Due to the increase in litigation and the creation of Temporary Courts of Appeals a workload volume has been created in the Clerk's office far beyond the normal efforts needed to meet the appellate court's business a few years ago. Also, we still have and are using the old filing cabinets for filing purposes.

We have included in our 1983 budget a request for \$50,000 to purchase and install a High Density Power filing system. The new filing system which we propose is similar to that in the Office of the Secretary of State. This system will permit the filing of more material in less space more quickly, effectively and efficiently.

COURT OF CRIMINAL APPEALS

The Court of Criminal Appeals, consisting of three judges, has exclusive appellate jurisdiction of criminal proceedings. Criminal litigation, like civil litigation has been on the upswing in recent years. During the past ten years the caseload for that court has more than doubled for a total percentage increase of 176%. The presiding judge has advised us that the caseload projection for the immediate future appears to have leveled off.

We are pleased to report that the Court of Criminal Appeals, by resorting to the use of more court orders and memorandum opinions has been keeping pace with its caseload.

In 1981 approximately 790 cases were filed and 784 were decided or disposed of by the court.

SUPREME COURT AND COURT OF APPEALS

The appellate jurisdiction of the Supreme Court extends to all cases except the Court of Criminal Appeals which has exclusive appellate jurisdiction in criminal cases. The original jurisdiction of our court extends to a general superintendent control over all inferior courts and all agencies, commissions and boards created by law. The general administrative authority over all courts in this state (except as to the Senate sitting as a Court of Impeachment and the Court on the Judiciary) is vested in the Supreme Court.

Our two permanent Court of Appeals, consists of six (6) judges, sits in two divisions, one in Oklahoma City and the other in Tulsa, became operative in January, 1971. All civil appeals are filed with the Clerk of the Supreme Court and our court assigns cases to the Court of Appeals for disposition. A decision of the Court of Appeals is not appealable to our court but is reviewable only on certiorari.

Approximately 2,500 cases are now pending in the Supreme Court. About 1,600 are still in their briefing stage and are not ready for assignment to a Judge. The remaining 900 have been assigned or ready for assignment. This 900 case figure includes those cases pending on rehearing or certiorari, etc.

Last year you authorized our court to create additional Temporary Court of Appeals by court order and to appoint judges and lawyers as temporary judges for those courts. We have already appointed 315 lawyers and judges to 105 temporary courts of appeals and assigned 315 cases to those courts. We will continue to appoint additional lawyers and judges to new divisions and assign cases to them. Three judges are on a

panel and each panel will dispose of 3 cases. In my considered opinion, the Oklahoma judges and lawyers have done an excellent job and the creation of the temporary Court of Appeals has been successful. It is purely voluntary on the lawyer's part and the only expense has been the costs for mailing the records and briefs.

The Legislative authorization for the Temporary Court of Appeals expires by its own terms on December 31, 1982. Our court recommends that this legislative authorization be extended for another year, until December 31, 1983. However, the Temporary Court of Appeals is and must be a temporary measure only for relieving our court's backlog. It should not be considered a permanent vehicle for the disposition of cases on appeal.

A brief review of our increase in litigation shows that in 1971, the first year our Court of Appeals was in operation, we had 742 appeals filed in the Supreme Court. In 1981, there were 1683 appeals filed in our court. In other words, for every one case filed in the Supreme Court in 1971, 2.3 cases were filed in 1981. I anticipate that we will have approximately 1800 appeals filed in the Supreme Court this year.

Our court has determined that in addition to the two (2) permanent divisions of the Court of Appeals, consisting of six (6) judges that we need two (2) additional divisions or six (6) additional judges for the permanent Court of Appeals.

Representative Henry, Chairman of the House of Representatives' Judiciary Committee and Senator John Clifton, Chairman of the Senate Judiciary Committee, are co-authors of a bill creating the additional judgeships. It is proposed that the additional judges will be elected from each congressional district, the same as the present judges are elected. If you should approve this measure, the judges would be elected this year and

take office in January, 1983. Our court included in its 1983 proposed budget the necessary funding for the six additional judges.

Our court is in the process of amending our rules governing appellate procedures with a view of expediting cases on appeal. This has not been a one-judge project or an overnight endeavor. We have studied the appellate procedures of other jurisdictions. We hope to take the best of several procedures and join them for an effective state operation. We must adopt rules for today's

operations to meet the challenges of today's increased litigation.

Let us again extend our appreciation for the opportunity of appearing before you today. Let us merit your confidence and always let the channels of communications between us remain open.

Senator Martin moved that the Second Joint Session be adjourned, which motion was declared adopted.

Upon the computation of the levy and certification of appropriations by the Excise Board, the County Assessors shall prepare or revise the tax rolls and deliver the same to the County Treasurer who shall proceed with the collection of the taxes as required by law.

Should it become necessary, because of the delay in computing levies and certify-

Section 452.7 A. There is hereby created the Joint Committee on Federal Funds. The committee will consist of ten (10) members of the Oklahoma Legislature, five from each house, to be appointed every two (2) years by the President Pro Tempore of the Senate and the Speaker of the House of Representatives. The President Pro Tempore of the Senate, the Speaker of the House of Representatives, the Chairmen of the House of Representatives Committee on Appropriations and Budget and the Senate Committee on Appropriations will constitute four of the ten members. Beginning October 1, 1981, the Chairman shall be from the Senate until the convening of the First Regular Session of the Legislature in January 1983, at which time the Chairmanship shall be assumed by the House of Representatives; thereafter, the Chairmanship shall alternate every two (2) years between the Senate and the House of Representatives, beginning with the convening of the First Regular Session of the Legislature. The Joint Committee on Federal Funds shall function as a joint committee of the Oklahoma Legislature when the Legislature is in session and when the Legislature is not in session. Each appointive member of said committee shall serve until his successor is appointed. Meetings of the committee shall be called by

either the Chairman or Vice Chairman; provided, however, that the committee shall meet at least monthly. The presence of five (5) members of the committee shall constitute a quorum; provided, however, that the committee shall not take final action upon any state plan or any application for federal financial assistance unless a quorum is present and that any action taken by the committee shall be upon a majority vote of the committee members present.

B. The Joint Committee on Federal Funds shall have the following powers and responsibilities:

D. Failure of the committee to act on the notice of intention or to notify the state agency, board or commission that a recommendation to amend or disapprove is forthcoming within thirty (30) calendar days from the date such notice of intention is filed with the Legislative Fiscal Office shall result in the approval of the notice of intention.

E. The committee shall hear any requests for modification or disapproval of an application for federal financial assistance. Requests for hearing shall be submitted to the Legislative Fiscal Office by the Federal Assistance Management Division; provided, however, that a state agency, board or commission may submit a request for hearing before the committee directly to the Legislative Fiscal Office.

F. Whenever the project is approved by the committee, the committee shall so notify the Speaker of the House of Representatives and the President Pro Tempore of the Senate, who shall send an official written communication to the requesting state agency, the Director of State Finance and the Federal Assistance Management Division that such project, notice of intention or amended application and the federal financial assistance requested have been approved and that the receipt and expenditure of funds have been authorized. The Director of State Finance shall immediately notify the Legislative Fiscal Office and the Federal Assistance Management Division when federal financial assistance is received by a state agency, board or commission in violation of any provision of this act.

ADDRESS BY PRESIDENT REAGAN

"I thank you for that genuine Oklahoma welcome. Governor Nigh, Governor Bernard, Speaker Draper, President York, Minority leaders, distinguished members of the Legislature and honored guests, before I begin my planned remarks this morning, I would like to speak again to the controlling of nuclear arms, a subject of deep concern to all Americans, to our allies and to the people of the world. The hope of all men everywhere, is peace. Peace for not only this generation, but for generations to come. To preserve peace, to insure it for the future, we must not just freeze the production of nuclear arms, we must reduce the exorbitant level that already exists. Those who are serious about peace, those who truly abhor the potential for nuclear destruction, must begin an undertaking for real arms reduction. President Brezhnev has proposed a unilateral moratorium on further deployment of SS-20 missiles in western Europe. Well I say today as I said yesterday, and as I made clear on November 18, a freeze is simply not good enough, because it doesn't go far enough. We must go beyond a freeze. Let's consider some facts about the military balance in Europe. The Soviet Union now has 300 brand new SS-20 missiles with 900 warheads deployed. All can hit targets anywhere in western Europe. NATO has zero land-based missiles which can hit the USSR. When President Brezhnev offers to stop deployments in western Europe, he fails to mention that these are mobile missiles. It doesn't matter where you put them since you can move them anywhere you want, including back to western Europe and even if east of the Urals,

they could still target most of western Europe. Our proposal now on the table in Geneva is that we not deploy any of the intermediate missiles in Europe in exchange for Soviet agreement to dismantle what they now have there. And that's fair. That is zero on both sides. And if President Brezhnev is serious about real arms control, and I hope he is, he will join in real arms reduction.

Now, I come to you today as an American who shares many of the values for which Oklahomans are known. No other State better exemplifies the American experience than does Oklahoma. People from all over the world came here to claim a bit of land — their part of America — and to make a new life.

These people confronted the most undeveloped country known to man with optimism, self-pride and rugged independence.

Edna Ferber's epic, *Cimarron*, captured this spirit when her hero proclaimed: "Here everything's fresh. It's all to do, and we can do it. There's never been a chance like it in the world. We can make an . . . empire out of this Oklahoma country . . ."

This is the vitality that captured the imagination of the world; it is the fabric of which Oklahoma and America are made.

The people who settled here not only endured, they triumphed. Some who've never lived in this State often wonder why, with a population of only 3 million, you can produce such great football teams. Well, after overcoming tornadoes, floods, drought and Oklahoma winters, totin' a ball a hundred yards down a field isn't such a hard job — even if there are 11 fellows trying to get in the way.

Standing here today, it's easy to forget the pessimism — so uncharacteristic of America

— that swept this country only a short while ago. Two decades of economic folly had brought our people to the edge of despair.

In the closing months of 1980, our once-proud economy was gasping for breath. Inflation had been running at double-digit levels for two consecutive years with no relief in sight. At the same time, unemployment was near 8 million. The savings rate had plummeted to the lowest of any industrial country and interest rates were the highest they'd been since the war between the States — 21½ percent.

The very character traits that built our country were under attack as never before. Instead of job-creating investment, people put their money into nonproductive inflation hedges. Who could blame them? Meanwhile, high taxes and inflation undermined the incentive to work or save. Quick deals became safer than long-term, economy-building projects.

Oklahoma's State motto — "Labor conquers all things" — is right on target; yet in the last two decades, the last thing our system encouraged was labor. Progress ground to a halt.

We could not have stayed on the path we were on. You know it and I know it. With some fine bipartisan cooperation in the Congress, including most of Oklahoma's congressional delegation, we've charted a course that will lead to a better life for all Americans. We've come a long way already.

Federal growth is being brought under control. With the backing of Republicans and concerned Democrats from Oklahoma, we have cut the rate of annual growth in spending nearly in half.

Ever-increasing taxation was bleeding the economy dry. We've set in place a 3-year tax

reduction program that will, if we've got the courage to stick with it, give new life to the economy.

Vice President Bush is directing an energetic attack on excessive Federal regulation that strangles progress at every turn. Already the number of new pages in the *Federal Register* — the book which lists new regulations — has been cut by a third. Two hundred million hours of filling out Federal forms and records by individuals, businesses, local officials and State employees will be eliminated this year. That's the equivalent to 95,000 people working on red tape 40 hours per week for the entire year.

May I pause just a second to interject a little experience of my own that I knew about before I got there and I've got to do something if it's still going on, but just to show you how ridiculous things can be, there was a fellow there whose job was sitting in a particular department and all the papers came to his desk and he looked at them and then initialed them and routed them on to the particular area that they should go to. And one day a classified paper arrived there, but it came to his desk so he looked at it, figured out where it should go, put on his initials and sent it on its way. And two days later it arrived back at his desk, and the note with it said, "You weren't supposed to see this. Erase your initials and initial the erasure." But we think the fundamental problems have been addressed; and, the gloom and doomers notwithstanding, our country is ready to move into high gear.

Two years ago the American people seemed resigned to high levels of inflation, even during economic downturns. It was called stagflation. Last year we were able to bring the inflation rate down to an annual rate of 8.9 percent and an average of 4.8 percent for the last 3 months. That drop in inflation meant an average family in Oklahoma with an income of \$22,600 was better off by \$701 in purchasing power. This year even more

purchasing power will be saved. In short, we are well on our way to licking inflation — and that's the first big step toward getting the economy back on its feet.

Furthermore, the savings picture is looking better and our main incentives are just coming on line.

The interest rates are, of course, significant. Some would have you believe that high interest rates are a policy of this Administration. Let's set the record straight, we inherited interest rates which were, as I said, running over 21 percent. We've decreased them by more than one-fifth and that downward trend should continue. We are getting interest rates down — but what we will not do is resort to a quick fix that might unleash runaway inflation again.

Clearly, unemployment remains far too high in too much of the country. Here again, returning America to steady economic growth, not quick fixes, is the answer. That is what our program is all about, and it will work if we give it time to take hold.

I know how frustrating these times are for so many who are living right on the ragged edge. I grew up in a family that felt the pain of economic downturns. I saw what unemployment did to my father. Today, all of us must remain conscious of the suffering behind the statistics. This realization should give us the resolve to get to the heart of our economic ills.

One area of justifiable concern is the deficit. And, believe me, we take it as seriously as any problem facing this Administration. But let's recognize why such a huge deficit is projected. It is not, as some would have you believe, a product of our tax cuts. Our program went into effect October 1, but the American people have yet to experience an actual cut in their taxes. So far we've simply decreased the size of the already scheduled tax increases that were passed in 1977.

During the last 20 years, just about any interest group with a high-sounding purpose and enough funds to hire a lobbyist was able to wangle a commitment of some kind from the Federal Government. Many on Capitol Hill were like that gal in the musical Oklahoma who just couldn't say no. The big spenders of the last two decades got us in a terrible fix by committing us to finance too many things we just can't afford. They always started easy like a dollar down and pay later, and pay we did. That's where this deficit came from.

The answer, of course, is reducing Government spending. And to that end, I'll talk to anyone with constructive suggestions. I hope to cooperate with the Congress to achieve this — but my first and foremost responsibility is to the American people who are still suffering from the failed policies of the past.

However, let me say this. Bringing down the Federal deficit cannot take priority over the security of the United States. The top priority of the Federal Government is the safety of this country. If the choice must be made between balancing the budget, and I want to do that, or national security, I must come down on the side of national security.

There are some who disagree with that, but they don't have the information that goes with having this job. I would be irresponsible if I did not present a budget that would restore our ability to defend ourselves.

Another controversial decision was the decontrol of oil. One Senator, not from Oklahoma, predicted gasoline prices would top \$2 a gallon because of that action. Other shrill voices crying doom were heard. Some of the media gleefully reported charges that we were contributing to inflation. But as Mark Twain said of his reported death — it was some what exaggerated. As you know, none of the catastrophic predictions came true.

Decontrol set off a stampede of exploration. Right here in Oklahoma you've set a record for the number of rigs — 881 — drilling for new oil and gas last year. Maybe that's why unemployment is lower here than just about anywhere in the country. For the first time in a decade, the oil production of the lower 48 did not significantly decline last year, and there are signs that production is increasing thanks to our reliance on the "magic of the market."

The last Administration's moral equivalent of war, which depended on Government planning, bureaucracy and regulation, gave us higher prices and shortages.

Decontrol unleashed the competitive powers of the market place and gave us more supply, more conservation and lower prices. We've reduced our imports by nearly half.

Those who credit the world oil glut for stable energy prices miss the point. Unleashing our domestic oil industry and continued conservation by the American people have helped create this favorable world energy situation.

Oil decontrol was just a first step. Other energy issues remain. The phase-in of complete decontrol of natural gas is one. I believe that, ultimately, decontrol would be good for the American people. In the meantime, we plan to move forward with the elimination of the Department of Energy and further reduce the regulatory burden on energy producers.

One issue which required compromise, perhaps more than I would have liked, was the Windfall Profits Tax. Political reality prevented its elimination, but let me point out that our tax reform package, with the strong support of Senator Don Nickles and others in your delegation, did eliminate this tax for a great many royalty owners and independent producers — and there are 200,000 royalty owners and 5,000 in-

dependent producers running 66,000 strip-per wells in the State of Oklahoma alone.

While we're talking about taxes, I'd like to mention a tax that I've always considered especially repugnant; it severely threatens survival of the family farm and the family-owned business. We didn't get the inheritance tax totally abolished, but I am proud to say that our tax bill did eliminate it for surviving spouses and raised the exemption on farms from \$175,000 to \$600,000 by 1987.

Few if any have been harder hit by the cost, price squeeze than American farmers. I am happy we have helped stabilize their energy costs and we're doing our best to open new markets for their products. The last thing they need is a tax that prevents them from passing on their farms to their family. I applaud your efforts to rid your State of this onerous tax on widows and farming families.

Washington has been on a several-decade taxing spree, usurping tax sources that might better be left to local and State governments. In the last 5 years, between 1976 and 1981, Federal taxes doubled and Federal deficits increased.

One of your native sons, Will Rogers, had a lot to say about taxes. If he were alive today, one wonders what he would think, considering that he said taxes were too high back in the 1930's. "Lord, the money we do spend on Government," Will said, "and it's not one bit better than the government we got for one third the money twenty years ago." Well, this is once we can really say — "You can say that again."

The tax increase of these last 20 years, however, is a symptom of a far greater problem than Will Rogers knew. During the last two decades, we witnessed a centralization of power and authority totally alien to the American way of life. It has undermined the system of checks and balances and the divi-

sion of power that have long protected the freedom of our people.

Today, our citizens are far removed from those who make decisions that dramatically affect their lives. Often individuals are confronted with edicts issued thousands of miles away by people for whom no one has ever voted. This is not freedom. It is not democracy. And it does not work.

The time is long overdue for honest men and women at all levels of government to begin a dialogue about reversing this power flow. We must bring government back to the people.

This is not a partisan issue, although some would use that tactic in order to distract us from our task. I believe that those who try to undercut or ignore this issue, do so at their own peril. The people are justifiably frustrated and angry. A few years ago they felt the same way about taxes; when the politicians didn't act, grassroots activity — like Proposition 13 in California and Proposition 2½ in Massachusetts — swept across America.

Undoubtedly, there are those who honestly believe that it is better to centralize power in Washington. They theorize that central planning is more efficient. With all due respect to this opinion, after nearly half a century of big Government waste and blundering, it's kind of hard to take their argument seriously.

Others who oppose a transfer of authority back to the States claim the States are unable or unwilling to handle the responsibility. But isn't this just a nice way of saying the State Governments are filled with heartless incompetents?

During my years as Governor of California, I found State and local government to be in the hands of conscientious people who are certainly more in tune with the desires and

needs of local citizens than the Federal Government 3,000 miles away could possibly be, no matter how compassionate and well intentioned it might be.

The argument, of course, is also made that it is easier to affect the Congress than a State legislature. The Congress is more responsive, or so they say. That seems rather odd. It suggests that influencing 535 elected officials in Washington — men and women who must be concerned about the entire country — is easier than getting the attention of 149 legislators in Oklahoma City.

After listening to that, one gets the impression that someone isn't being candid. Perhaps some oppose federalism not because the States are incompetent, but because they are too efficient, not because they are unresponsive, but because they are too responsible.

The truth may be that special interest groups enjoy dealing with unelected officials with the power to hand out tax money — officials far removed from localities and all collected in one place not 50. It is the lack of responsiveness to the people paying the bill that makes this relationship with the Federal bureaucracy so attractive.

I believe that given the resources and flexibility, the State and local government can more efficiently handle programs that have rightfully belonged under their authority all along.

Working out the details for such a change of direction is never easy. Perhaps a starting point for the dialogue can be the broad proposal I outlined during my state of the Union message. Briefly, it suggests the transfer of 45 categorical programs to the States, along with the funding sources, and authority to manage them. The list includes everything from education to community development, from transportation to social services.

What I've described as the centerpiece of the federalism initiative is the almost dollar-for-dollar swap of the two largest areas of welfare. The Federal Government would take on the cost of medicaid; and, in exchange, the States would assume the responsibility and authority for aid to families with dependent children and food stamps.

This suggestion seems more than fair considering medicaid's expected high growth rate; AFDC and food stamps, on the other hand, are not expected to increase so quickly. We do not claim this proposal is perfect. Two centuries ago, Samuel Johnson, one of the wisest English philosophers of his day, observed: "Nothing will ever be attempted, if all possible objections must first be overcome."

Our federalism plan is not airtight or infallible — it is designed to serve as a basis for discussion. We can certainly work out details and meet the concerns that you may have here in Oklahoma. Already I've met with a host of State and local officials; and much to the pundits surprise, our meetings have been frank and productive. Mayor Jim Inhofe of Tulsa has been especially supportive. I look forward to working with Jim and other Oklahomans during this sorting-out process so that what is finally submitted is not my plan, but is, instead, our plan.

Those who sincerely doubt that States have the capability to reassume their rightful role often point to incidents of mistakes or corruption uncovered at the State level. I suggest that such disclosures and subsequent corrections are evidence that the system is working. When all you're hearing is good news, that's the time you should start to wonder.

Certainly, taking Government further away from the people is no solution. Instead, we must tap the innovation and creativity of our people that is just waiting to be brought into play.

I can think of few States that better demonstrate America's potential than Oklahoma.

— Recently when Federal funds were cut for a glass-enclosed botanical garden in Oklahoma City, private business rushed forward with more than \$5 million to complete the project.

— One of your Congressmen, Mickey Edwards, has told me about the Opportunities Industrialization Center, a former CETA program now generating private support in order to provide training for those who lack marketable skills.

— That Oklahomans are willing to shoulder the cost of worthwhile programs is no surprise. Helping one another is instinctive in a frontier State. Your State programs relating to the elderly — like the Foster Grandparents and RSVP programs — are especially praiseworthy in this regard.

— My friend from California, Bill Banowsky, can't say enough good things about you folks. Recently you've raised almost \$65 million, mostly from the private sector, to be used for an energy center at the University of Oklahoma. Upon completion, it will make that University a world leader in energy-related study.

— Similarly, Oklahoma State University is known for its outstanding contributions to the science of agriculture. In these two areas of utmost importance to the well-being of America — energy and agriculture — Oklahoma is setting the pace.

There are those who claim the spirit that built America is dead. They suggest that the traditional values of family, of neighbor helping neighbor, of pride in work and country, are things of the past. Well, let them look to Oklahoma.

I appreciate having this opportunity to speak with you during the 75th year of your Statehood. I don't get too many chances to be around someone or something older than I am. Your parents and grandparents knew that Statehood was something of which to be proud. They were not satisfied with being a territory of the Federal Government and I don't think you are either. Working together and with God's help, we can rebuild a Federal system created by proud and independent pioneers. Together we can insure that our children can be just as proud, independent and free as those who came before us — in this federation of sovereign States."

poses of this act. The Association shall be administered in accordance with the provisions of this act and the board of directors is empowered to do all things necessary to effectuate the purposes of this act and to administer the Association. FOR PURPOSES OF ADMINISTRATION AND ASSESSMENT, THE ASSOCIATION SHALL BE DIVIDED INTO THREE SEPARATE ACCOUNTS:

1. THE WORKERS' COMPENSATION INSURANCE ACCOUNT;

2. THE AUTOMOBILE INSURANCE ACCOUNT; AND

3. THE ACCOUNT FOR ALL OTHER INSURANCE TO WHICH THIS ACT APPLIES.

B. All insurers defined as member insurers shall be and remain members of the Association as a condition of their authority to transact insurance in this state. The Association shall perform its functions under a plan of operation established and approved under this act.

Section 3. 36 O.S. 1981, Section 2007, is amended to read as follows:

Section 2007. A. The Association shall:

1. Be obligated to the extent of the covered claims existing prior to the determination of insolvency [in] IF arising within thirty (30) days after the determination of insolvency, or before the policy expiration date if less than thirty (30) days after the determination, or before the insured replaces the policy or causes its cancellation, if he does so within thirty (30) days of the determination, but such obligations shall include only the amount of each covered claim which is in excess of Twenty-five Dollars (\$25.00) for unearned premium claims and in excess of One Hundred Dollars (\$100.00) for all other claims and is less than Forty Thousand Dollars (\$40,000.00), except that the Asso-

ciation shall pay the full amount of any covered claim arising out of a workers' compensation policy. In no event shall the Association be obligated to a policyholder or claimant in an amount in excess of the obligation of the insolvent insurer under the policy from which the claim arises;

2. Be deemed the insurer to the extent of its obligations on covered claims and to that extent shall have all rights, duties and obligations of the insolvent insurer as if the insurer had not become insolvent;

3. [Assess] ALLOCATE CLAIMS PAID AND EXPENSES INCURRED AMONG THE THREE ACCOUNTS SET OUT IN SECTION 2005 OF THIS TITLE SEPARATELY, AND ASSESS member insurers SEPARATELY FOR EACH ACCOUNT amounts necessary to pay the obligations of the Association under this section subsequent to a member insurer becoming an insolvent insurer, the expenses of handling covered claims subsequent to an insolvency, the cost of examinations under Section [13 of this act] 2013 OF THIS TITLE, and other expenses authorized by this act. The assessments of each member insurer shall be in the proportion that the net direct written premiums of the member insurer for the calendar year preceding the assessment ON THE KINDS OF INSURANCE IN THE ACCOUNT bear to the net direct written premiums of all participating insurers for the calendar year preceding the assessment ON THE KINDS OF INSURANCE IN THE ACCOUNT. Each member insurer shall be notified in writing of the assessment not later than thirty (30) days before it is due. No member insurer may be assessed in any year an amount greater than two percent (2%) of that member insurer's net direct written premiums for the [preceding] calendar year [or one percent (1%) of that member insurer's surplus, whichever is less] PRECEDING THE ASSESSMENT ON THE KINDS OF INSURANCE IN THE ACCOUNT. If the maximum assessment, together with the other assets of the Association, does not pro-

vide in any one (1) year IN ANY ACCOUNT an amount sufficient to make all necessary payments FROM THAT ACCOUNT, the funds available may be prorated and the unpaid portion shall be paid as soon thereafter as funds become available. The Association shall pay claims in any order which it deems reasonable, including the payment of claims as the claims are received from the claimants or in groups or categories of claims. The Association may exempt or defer, in whole or in part, the assessment of any member insurer, if the assessment would cause the member insurer's financial statement to reflect amounts of capital or surplus less than the minimum amounts required for a certificate of authority by any jurisdiction in which the member insurer is authorized to transact insurance. During the period of deferment, no dividends shall be paid to shareholders or policyholders. Deferred assessments shall be paid when such payments will not reduce capital or surplus below required minimums. Such payments may be refunded to those companies receiving larger assessments by virtue of such deferment, or, at the election of any such company credited against future assessments. Each member insurer serving as a servicing facility may set off against any assessment authorized payments made on covered claims and expenses incurred in the payment of such covered claims by such member insurer IF THEY ARE CHARGEABLE TO THE ACCOUNT FOR WHICH THE ASSESSMENT IS MADE;

4. Investigate claims brought against the Association and adjust, compromise, settle and pay covered claims to the extent of the Association's obligation and deny all other claims and may review settlements, releases and judgments on covered claims to which the insolvent insurer or its insureds were parties to determine the extent to which such settlements, releases and judgments may be properly contested;

5. Notify such persons as the Commissioner directs as provided for in Section [9 of this act] 2009 OF THIS TITLE;

6. Handle claims through employees or through one or more insurers or other persons designated as servicing facilities. Designation of a servicing facility is subject to approval of the Commissioner, but such designation may be declined by a member insurer; and

7. Reimburse each servicing facility for obligations of the Association paid by the facility and for reasonable expenses incurred by the facility while handling claims on behalf of the Association and shall pay the other expenses of the Association authorized by this act.

B. The Association may:

1. Employ or retain such persons as are necessary to handle claims and perform other duties of the Association;

2. Borrow funds necessary to effect the purposes of this act in accordance with the plan of operation;

3. Sue or be sued;

4. Negotiate and become a party to such contracts as are necessary to carry out the purpose of this act;

5. Refund to member insurers in proportion to the contribution of each member insurer that amount by which the assets of the Association exceed its liabilities, if at the end of any calendar year the board of directors finds that the assets of the Association exceed the liabilities as estimated by the board of directors for the coming year; and

6. Perform such other acts as are necessary or proper to effectuate the purpose of this act.

Section 4. 36 O.S. 1981, Section 2018, is amended to read as follows:

Section 2018. Any member insurer [which] WHO has paid an assessment pur-

suant to this act shall include [and treat as a loss] AMOUNTS SUFFICIENT TO RECOUP A SUM EQUAL TO THE AMOUNTS PAID TO THE ASSOCIATION BY THE MEMBER INSURER, LESS ANY AMOUNTS RETURNED TO THE MEMBER INSURER BY THE ASSOCIATION. SUCH RATES SHALL NOT BE DEEMED EXCESSIVE BECAUSE THEY CONTAIN AN AMOUNT REASONABLY CALCULATED TO RECOUP ASSESSMENTS PAID BY THE MEMBER INSURER in its next filing for a rate increase or decrease before the Board for Property and Casualty Rates], a sum equal to any such assessment. If any member insurer shall receive from the Association a return of any assessment, or portion thereof, such member insurer shall include and treat such recovery as a subrogation recovery in such insurer's next filing for a rate increase or decrease before the Board for Property and Casualty Rates].” and by amending the language on Page 17, Line 8, by adding after the number “2” the following: “The provisions of Section 1 of”, which amendment was declared adopted.

Section 2-506. A. Any peace officer of this state shall seize any vehicle, airplane or vessel, which is used, or intended for use, to unlawfully transport, for the purpose of distribution as defined in Section 2-101 of this title, any property described in subsection 1 or 2 of Section 2-503 of this title, or in which any property described in subsection 1 or 2 of Section 2-503 of this title is unlawfully kept or deposited or concealed, for the purpose of distribution as defined in Section 2-101 of this title, or in which any property described in subsection 1 or 2 of Section 2-503 of this title is unlawfully possessed by an occupant thereof with knowledge by the owner; such vehicles shall be held as evidence until a forfeiture has been declared or a release ordered.

B. Notice of seizure and intended forfeiture proceeding shall be filed in the office of the clerk of the district court for the county wherein such vehicle, airplane or vessel is seized and shall be given all owners and parties in interest.

C. Notice shall be given according to one of the following methods:

1. Upon each owner or party in interest whose right, title or interest is of record in the Tax Commission, by mailing a copy of the notice by certified mail to the address as given upon the records of the Tax Commission;

2. Upon each owner or party in interest whose name and address is known, by mailing a copy of the notice by registered mail to the last-known address; or

3. Upon all other owners, whose addresses are unknown, but who are believed to have an interest in the vehicle, airplane or vessel, by one publication in a newspaper of general circulation in the county where the seizure was made.

D. Within sixty (60) days after the mailing or publication of the notice, the owner of the vehicle, airplane or vessel and any other party in interest or claimant may file a verified answer and claim to the vehicle, airplane or vessel described in the notice of seizure and of the intended forfeiture proceeding.

E. If at the end of sixty (60) days after the notice has been mailed or published there is no verified answer on file, the court shall hear evidence upon the fact of the unlawful use and shall order the vehicle, airplane or vessel forfeited to the state, if such fact is proved.

F. If a verified answer is filed, the forfeiture proceeding shall be set for hearing.

G. At the hearing the state shall prove beyond a reasonable doubt by competent evidence that the vehicle, airplane or vessel was used to unlawfully transport, for the purpose of

distribution as defined in Section 2-101 of this title, any property described in subsection 1 or 2 of Section 2-503 of this title, or that any property described in subsection 1 or 2 of Section 2-503 of this title was unlawfully kept or deposited or concealed, for the purpose of distribution as defined in Section 2-101 of this title, in the vehicle, airplane or vessel or any property described in subsection 1 or 2 of Section 2-503 of this title is unlawfully possessed by an occupant thereof with knowledge by the owner of the vehicle, airplane or vessel.

H. The claimant of any right, title or interest in the vehicle, airplane or vessel may prove his lien, mortgage or conditional sales contract to be bona fide and that his right, title or interest was created without any knowledge or reason to believe that the vehicle, airplane or vessel was being, or was to be, used for the purpose charged.

I. In the event of such proof, the court shall order the vehicle, airplane or vessel released to the bona fide or innocent owner, lien holder, mortgagee or vendor if the amount due him is equal to, or in excess of, the value of the vehicle, airplane or vessel as of the date of the seizure, it being the intention of this section to forfeit only the right, title or interest of the purchaser.

J. If the amount due to such person is less than the value of the vehicle, airplane or vessel, or if no bona fide claim is established, the vehicle, airplane or vessel shall be forfeited to the state and the vehicle, airplane or vessel shall be sold under judgment of the court, as on sale upon execution, EXCEPT AS OTHERWISE PROVIDED FOR IN SECTION 2-503 OF THIS TITLE.

K. Property taken or detained under this section shall not be repleviable, but shall be deemed to be in the custody of the office of the district attorney of the county wherein the property was seized, subject only to the orders and decrees of the court or the official having jurisdiction thereof.

L. The proceeds of the sale of any vehicle, airplane or vessel shall be distributed as follows, in the order indicated:

1. To the bona fide or innocent purchaser, conditional sales vendor or mortgagee of the vehicle, airplane or vessel, if any, up to the amount of his interest in the vehicle, airplane or vessel, when the court declaring the forfeiture orders a distribution to such person;

2. To the payment of the actual expenses of preserving the property; and

3. The balance to a revolving fund in the office of the county treasurer of the county wherein the property was seized, said fund to be used as a revolving fund for enforcement of controlled dangerous substances and maintained by the district attorney in his discretion for that purpose with a yearly accounting to the board of county commissioners in whose county the fund is established.

M. This fund shall be limited to One Hundred Thousand Dollars (\$100,000.00) at any one time in counties with population in excess of three hundred thousand (300,000) and Twenty-five Thousand Dollars (\$25,000.00) at any one time in counties with population less than three hundred thousand (300,000). Any amount in excess of these figures shall be placed in the general fund of the county. Whenever any vehicle, airplane or vessel is forfeited under this act, the district court of jurisdiction may order that the vehicle, airplane or vessel seized may be

retained by the state, county or city law enforcement agency which seized the vehicle, airplane or vessel for its official use.

N. If the court finds that the vehicle, airplane or vessel was not used in violation of this act, the court shall order the vehicle, airplane or vessel released to the owner as his right, title or interest appears on record in the Tax Commission as of the seizure.

SECTION 3. This act shall become operative October 1, 1982.

SECTION 4. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.", which amendment was declared adopted.

A. Within twelve (12) months after the completion of a producing well, as determined by the Corporation Commission, the well owner or his agent shall fill all the pits for containing muds, cuttings, salt water or oil that are not needed for production purposes or are not required or allowed by other state or federal law or regulation, or authorized by the surface owner, and shall remove all concrete bases; drilling supplies and drilling equipment unless the Commission or surface landowner extends the time. Within such period, the well owner, operator or his agent when directed by the Commission shall grade or terrace and plant, seed or sod the area disturbed that is not required in pro-

duction of the well, where necessary, to bind the soil and prevent substantial erosion and sedimentation. Pits shall not be used for the ultimate disposal of salt water. Salt water and oil shall be removed and properly disposed of as otherwise provided by law from any pit that is retained, so the pit is kept reasonably free of salt water and oil.

B. Within twelve (12) months after a well that has produced oil or gas is plugged, or after the plugging of a dry hole, the well owner or his agent shall upon demand of the surface owner remove all production and storage structures, supplies and equipment, and any oil, salt water and debris, and fill any remaining excavations. Within such period, the well owner, operator or his agent when directed by the Commission shall grade or terrace and plant, seed or sod the area disturbed, where necessary, to bind the soil and prevent substantial erosion and sedimentation.

C. The well owner or operator shall be released from responsibility to perform any or all restoration requirements of this section on any part or all of the area disturbed upon the filing of a request for a waiver with and obtaining the written approval of the Corporation Commission. If the Commission refuses to approve a request for waiver, it shall do so by order.

D. The Commission may, upon written application by a well owner, operator or his agent showing reasonable cause, extend the period within which restoration shall be completed, but not to exceed a further six-month period, except under extraordinary conditions. If the Commission refuses to approve a request for waiver or extension, it shall do so by order.

E. The Commission is hereby authorized to develop and adopt rules and regulations necessary for the enforcement of this act.

SECTION 4. Any person, as defined in Section 317 of this title, who drills any well

for the exploration, development or production of oil or gas, shall, prior to the commencement of such drilling, provide to the Corporation Commission a surety bond in the amount of Ten Thousand Dollars (\$10,000.00). The bond shall be payable to the State of Oklahoma and, in addition to any other condition expressed therein or established by operation of law, shall be conditioned on compliance with the provisions of this act.

SECTION 5. There is hereby created in the State Treasury a revolving fund for the Corporation Commission to be designated the "Surface Restoration Revolving Fund". The fund shall be a continuing fund not subject to fiscal year limitations and monies accruing to the credit of the fund are hereby appropriated. Expenditures from the fund shall be made upon warrants issued by the State Treasurer against claims filed by the Commission with the Director of State Finance for audit and payment.

SECTION 6. A. When the Corporation Commission finds that a well owner has failed to comply with the restoration requirements of Section 1 of this act, or the rules and orders relating thereto, it shall make a finding of such fact and declare the conditions of the land to have been breached and determine by its order a necessary and reasonable sum to be expended to perform the conditions thereof and certify that an amount equal to double the determined expense of compliance with the provisions of this act which said amount shall be assessed and payable by the principal and/or his surety. One-half of said assessment shall be expended under the direction of the Commission to cause compliance with this act and the remainder shall be deposited in the Surface Restoration Revolving Fund.

In lieu of total payment of the certified amount, the principal or surety, at their option may cause the area to be properly restored and pay to the State Treasurer one-half of the assessment which amount shall be

deposited to the Surface Restoration Revolving Fund.

All monies collected as provided in this section shall be deposited in the State Treasury to the credit of the Surface Restoration Revolving Fund. The fund shall be expended by the Commission to properly restore the land surface as required in Section 1 of this act.

B. Expenditures from the fund shall be made only for lawful purposes, pursuant to contracts entered into by the Commission with persons who agree to furnish all of the materials, equipment, work and labor as specified and provided in such contract. Agents or employees of persons contracting with the Commission for the restoration projects may enter upon any land, public or private, for which the project has been approved by the Commission and on which the well is located, for the purpose of performing the work. Prior to such entry, the Commission shall give to the following persons written notice of the existence of a contract for a project to restore, the names of the persons with whom the contract is made, and the date that the project will commence: to the owner of the well, the owner of the land upon which the well is located, the owner or agents of adjoining land, and, if such well penetrates or passes within one hundred (100) feet of the excavations and workings of a mine, the owner or lessee of such mine.

Expenditures from the fund may be made only for restoration projects that are approved by the Commission and expenditures for a particular project may not exceed any limits set by the Commission.

SECTION 7. This act shall not apply to the owners and/or operators of a secondary or enhanced oil recovery unit that is or has been operated under a Plan of Unitization approved by order of the Oklahoma Corporation Commission and established by a proper Certificate of Effectiveness and nothing herein contained shall be construed to

repeal the statutes governing the establishment and operation of such secondary or enhanced recovery unit. Provided however, that upon the vacation, dissolution, repeal or abandonment of such unit for nonproduction, the lands, tracts, minerals and underlying sources of supply constituting such secondary or enhanced recovery unit shall revert to the mineral owners thereof irrespective of the terms of any lease or assignment executed prior to the creation and establishment of said secondary or enhanced recovery unit, and the owners of such mineral interests shall be responsible for compliance with the provisions of this act as if they were or had been the owners and/or operators during the existence of such unit, and any assessments levied pursuant to the provisions of this act shall become the separate obligations and indebtedness of the owners and prorated upon the basis of their percentage ownership of the tracts comprising any such vacated, repealed or dissolved secondary or enhanced oil recovery unit."

MESSAGE FROM THE GOVERNOR

The following Veto Message, dated April 20, 1982, was read and consideration deferred for this legislative day:

Enrolled Senate Bill No. 649 — By Moore and Stipe of the Senate and Cole, Lawter and Graves of the House.

An Act relating to children: amending 10 O.S. 1981, Section 403, which relates to facilities exempt from child care facilities' licensing provisions; and adding exemption for certain church-owned and operated facilities.

Although we certainly encourage religious organizations to engage in child, nursing home and hospital care, the state has a great interest in the quality of any such care. To exempt religious organizations from the licensing provisions for child care centers and camps is to surrender the interest of the state in the welfare of its children.

It has been said by the proponents of Senate Bill No. 649 that the bill preserves for religious organizations the standards provided by the act. However, without licensing, the state can only resort to court in the event of violations of the standards. Enforcement would be unwieldy and cumbersome.

For these reasons I have vetoed Senate Bill No. 649.

GOVERNOR OF THE
STATE OF OKLAHOMA

/s/ George Nigh

Section two of Senate Bill No. 424 provides: "all state boards, agencies, commissions and all common schools and institutions of higher education be required to comply with all zoning and construction ordinances and regulations of any city, town and county in which the board, agencies, commission or school has a facility."

Political subdivisions are creatures of the state, and as such, have no powers except those specifically granted by the Constitution and by the laws of the State of Oklahoma. If there is a particular problem between a state agency and municipal or county

government, that problem should be dealt with specifically by legislation and not generally as is done in Senate Bill No. 424.

Philosophically, and as a general matter, I do not believe that the state should dictate specific subject matter to political subdivisions which is within the purview of the powers granted to subdivisions. Nor, do I favor any provision which would require that a state agency comply with zoning and construction ordinances and regulations of political subdivisions.

I strongly believe that the section in question would create an undue burden upon governmental entities, causing costly delays and subjecting legitimate state and school district decisions to a veto power of municipal or county government.

For these reasons, I have vetoed Senate Bill No. 424.

By the Governor of the
State of Oklahoma

/s/ George Nigh
