STATE OF OKLAHOMA
EXECUTIVE DEPARTMENT
DIVISION OF THE BUDGET

November 23, 1982

State Board of Equalization
State Capitol Building
Oklahoma City, Oklahoma 73105

Gentlemen:

The Constitution of the State of Oklahoma, Article 10, Section 23, as amended by State Question No. 506, adopted July 22, 1975, provides in pertinent part:

"Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall make an itemized estimate of the revenues to be received by the state under the laws in effect at the time such estimate is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of the General Revenue Fund and each special fund of the state. The estimate shall not exceed an amount which shall be determined by the following procedure:

(1) Certify the total amount of revenue which accrued to the General Revenue Fund and each special fund during the last preceding fiscal year.

(2) Next, compute the percentage by which, in each one of the last five (5) preceding fiscal years, the amount of revenue exceeded, or was below, the corresponding amount of revenue for the next preceding fiscal year, the average percentage of increase or decrease for this five-year period shall then be computed. Revenue of a nonrecurring nature shall be excluded from the revenue of the preceding fiscal years in computing the percentage of increase or decrease for those years.

(3) If there is a decline in the percentage of increase during the last preceding fiscal year as compared to the five-year average computed above, the Board shall compute such percentage for that period.

(4) The Board of Equalization, having computed the percentage based on (2) and on (3) above, shall then certify which is the lesser of the two methods:

(5) The Board shall then add to or subtract from the total amount of the revenue for the last preceding fiscal year, a sum equal to twice the lesser of the two methods. . . ."

The following report has been prepared in accordance with the procedure set forth in that portion of the Oklahoma Constitution cited above, and is respectfully submitted for your consideration.

Sincerely,

/s/J.I.M. CALDWELL, Jr.
Director of State Finance

President Bernard presiding.

Senator Schuelein moved that the President and Speaker appoint committees from the Senate and the Honorable House, respectively, as a Joint Committee to notify the Governor the 39th Legislature is now in Joint Session and ready to receive him and hear his message, which motion was declared adopted.

FOR THE SENATE — Senators Dennis, Capps and O'Connor.

FOR THE HOUSE — Representatives Davis (Guy), Lawter and Haney.

Sergeant at Arms, Bob Craig, was recognized and announced the arrival of the Chief Executive, the Honorable George Nigh, accompanied by the Joint Committee.

Governor Nigh was escorted to the Speaker's desk by the Joint Committee.

President Bernard presented Governor Nigh to the Joint Session, where he delivered his address as follows:

MESSAGE OF GOVERNOR GEORGE NIGH

Lieutenant Governor Bernard
President Pro Tempore York
Speaker Draper
Members of the First Session of the Thirty-Ninth Legislature

Let me first say that I join the membership of this Joint Session in expressing the regret of the passing of two very outstanding Oklahomans and public servants just recently.

I would like on behalf of you and all of those of us at the State Capitol to officially express to the widows and the family of two great, fine gentlemen; the former Senator from the Panhandle, Texas County, Senator Leon Field; and that great Oklahoman who loved Oklahoma as probably no one else did, Hank Wade, who served for years as the Chief Guide here at the Capitol.

I personally learned from each of them — Leon Field is the first person who ever taught me graphically that the Panhandle was connected to the entire State of Oklahoma. He had a way of teaching you that. You learned it quick when you talked to Senator Field.

Hank Wade was an inspiration to those of us who are very proud of Oklahoma. After he would take tours of out of state visitors around the Capitol, our office would receive letters of commendation, specially pointing out their appreciation to Hank Wade.

So in a serious vein, I would like to join you in the expression to their families our appreciation for their public service.

History is being made today in two different ways. One of them I'm a little more excited about than the other. First of all, I'm very honored to have the privilege of being the first Governor to be elected twice. The other historical fact is that this is the first time in the history of the State of Oklahoma that we have a failure of revenues.

One, I'm excited about. The other, I'm concerned about. Like the old fellow said who was being ridden out of town on a rail after being tarred and feathered, "If it weren't for the honor of the thing, I'd just as soon walk."

Twenty years ago Senator Kerr passed away on New Year's day. As the Lt. Governor, I was serving at the time and Howard Edmondson then, as you recall, resigned. Then the Lt. Governor, who was me, became Governor. Twenty years ago.

I never will forget it. One of the first things I had to do after Edmondson had resigned and I became Governor was to appoint a new United States Senator. I'll never forget how surprised Howard was when I said, "Well, how about you?" I always said he got the best end of the deal because he finished out the unexpired term of the Senator which was for two years, and I filled out the unexpired term of the Governor which was for — well, it wasn't for very long. It was very brief. It was for nine days. I had the ten-day virus and missed my whole administration.

I had the opportunity twenty years ago as Governor of Oklahoma to address some of you, some who preceded you in this legislature and Joint Session in which we talked about in 1963, the great opportunities that were ours in Oklahoma.

A lot has changed since those twenty years have past; in my life, in your life and in the State of Oklahoma. Today I come to you in an unusual situation as Governor because we have moved forward the State of the State by one week so that we could get to you the message and the budget as quickly as possible and you could get about the work.

But four years ago when I had been elected as Governor and stood here for the first time, I used the quotation that Oklahoma was literally the envy of the nation. While times look a little tough now, and while there is a setback, and while we're not growing at the great rate we had hoped at this time, I want to say again today, lest we forget, that as tough as things are, compared to the other states and compared to the Nation as a whole, we still are in that enviable position. The rest of the country, the rest of the nation, the other

states, literally do envy the situation in which we find ourselves.

That's not to say that we don't have problems. That's not to say people are unemployed. That's not to say we have unmet needs. But we should never forget from where we came. We should never forget the progress that we've made; the steps forward that have been taken.

So as we talk about the situation that we have, I hope that we can recall that we have made great strides. The glass can be half-full, or it can be half-empty, depending on the philosophy.

There are three philosophies about the current financial situation of the State of Oklahoma. One is panic. Running around hollering, "Fire, fire, fire." Two, it's a hoax. There really isn't any shortfall. This kind of reminds me of the gasoline lines. There really wasn't a shortage at the gasoline lines. The same attitude in some people's minds. The third one — and the one that I think is more realistic — is that it is not as good as we had hoped. It has leveled off. There is a reduction, but there is no time to panic. We have to make sure that we understand that we are at a resting place; that we are taking a breather; that we can reevaluate; that we can adjust; that we can judge.

Our goals are not forgotten. They may be delayed, but not forgotten. To the new members who are now with us for the first time in the legislature, let me say that this is a different situation than perhaps the job for which you campaigned. We've had four years of fantastic growth. We've solved virtually every problem with growth revenues, while at the same time we were reducing taxes. We had an enviable, ideal situation. We could increase services and reduce taxes at the same time.

To those of you who have returned to the legislature, may I congratulate you not only upon your re-election in most cases, but upon the performance that you have given here collectively under the leadership of such people as Senator York and Representative Draper. I want to thank State agencies and other State officials such as Lt. Governor Bernard because collectively this state has made great progress and great gains.

When we compare ourselves and when we talk about the situation and the conditions that we have today, let us remember that there are two ways and in two areas in which you must compare to be fair. One, you must compare yourself to others. Oklahoma must compare itself to the other States, the other regions, the Big Eight, the regional average, the national average, the south, the southwest. Those are logical comparisons. But we still must compare ourselves to our former selves.

The only self-improvement book I ever took as a course told me that if you really want to improve, you should not concentrate so much upon others, but concentrate upon your former self. So, the past four years we have been concentrating upon our former self in Oklahoma.

While, yes, we take pride that we've reached the regional average and exceeded it in teachers' salaries — we take pride in the fact that in the faculty salaries four years ago we were seven and eight at the bottom of the Big Eight at the comprehensive universities, OU and OSU. Today we are at the top, one and two.

So if we compare ourself to other small states, we also should compare ourself to our former self. Oklahoma has come a long way. Let's not forget it. Let's never forget the great progress, the great steps forward that we've made.

While there are problems, we have made progress. Sometimes we don't see it, but it behooves me today as we talk about the

shortfalls to remind you and the public and the groups and the individuals that we have tried and we have succeeded and we must for a while rest upon some of those laurels while not setting aside our goal permanently. We are taking a breather.

In the area of corrections; that is on everybody's mind. Everybody realizes the problem. You can imagine how surprised I was — yes, surprised I was that two years ago at a National Governor's Conference as I've told most of you before, that when the Federal Administrator of Corrections was asked by another Governor from another state, "All of us as Governors have problems in corrections. Every state in this country has a problem in corrections." They asked the Reagan Adminstrator, "To which state would you tell us to look as an example if we wanted to improve," and he said without hesitation, "Look to Oklahoma."

I find that difficult to believe, but he said look to Oklahoma and what he said was, as I cornered him later, I said, "That made me proud, but would you explain it because I'm under a court order; I've got problems; we've got budgetary problems; we've got problems with celling and space." He said, "Because your attempt to solve your problem is the example."

I hope that you know of the progress that we've made that every single correctional facility in the State of Oklahoma is fully accredited today as compared to four years ago. We are the only state in the Union where every single correctional facility is fully accredited by the Accreditation Association. So we can look to Oklahoma, yet we still have our problems.

We realize that we had a great growth opportunity, so we've done a lot of things. We've put a lot of money in capital. The new agriculture building that is emerging to the north side of the Capitol is an example of our commitment to indicate to agriculture and all the agricultural related agencies of the basics of the economy of the State of Oklahoma.

The mental health program that is literally second to none in this country — that we have a mental health catchment area in every single geographical area of the State where people can be treated at home, in their residences, in their home area.

In the veterans program where we have now embarked on the program of not only upgrading every single existing veteran's facility in the State of Oklahoma, but adding that one final facility for northeastern Oklahoma; that section of the state does not have a veteran's facility run by the State.

The handicapped programs. The great progress we've made in the area of those with special needs these past four years. We're the only state in the nation that has an Office of Handicapped Concerns. We've been recognized nationally by handicapped groups and by veteran's associations time after time.

We've improved virtually every single park, every single lodge, every single historical society. We have one of the finest health science centers in the nation emerging just a few blocks south of here.

We've upgraded the highway patrol facilities. We have saved, literally saved, the railroads. Look to Oklahoma, seventeen other states said when they tried to solve their railroad problem.

We embarked on a great county bridge program. We've built new airports and extended runways. We built new armories. We've improved the facilities in human services. We have a vo-tech system second to none in capital in this country. In higher education we've grown by a remarkable rate in capital improvements as well as services. In the great new research centers going up at OU and OSU. In the field of health. Yes, capital improvements and yes, programs.

Programs in the past four years where we have literally, for the first time since Howard

Edmondson and the Merit System, re-evaluated our personnel system and lifted our state employees as they should be, on a more equal par with employees of the private sector. It was long and it was tedious, but we have made giant strides.

In the teachers' salaries, we reached the regional average in the first couple of years and continue to make progress; and in the support personnel.

We fully funded the District Attorney system; we've improved the courts; we've added judges; increased the numbers of the people involved in public safety. We've added at-home care for the elderly; half-way houses for the adult mentally retarded.

In the meantime, we took a look at county government and reform. We took a look for the first time in many years at the management of state government. We have raised the educational standards of our teachers. Once again, they're saying, "Look to Oklahoma — one of the finest standards of educational professionalism in this country."

We have been working on bringing DHS into full compliance like all other state agencies. In the meantime we've been working on the economy; trying to diversify; trying to strengthen it; trying to involve the people. And we have more involvement of women, minorities, elderly and younger people in all facets of government than ever before.

Yes, we're at an all-time high. I know you're going to say, "Well, that's a rosy picture. The Governor only wants to talk about the past." I just want to set the stage. There will be people who will say, "Oh, we can't cut back; oh, we can't tighten our belts; oh, we can't do with less." Folks we have leveled off at a high, we have not leveled off at a rock bottom. Last year was an all-time high.

In my last year's State of the State message to you I said, "Oklahoma is not an island. We are not immune or isolated from the problems our nation and most every state is in. We would be foolish to commit our budget to spending patterns which assume our economic growth will continue forever."

So we set money aside. We put money in capital improvement, one-time expenditures. We knew, everyone knew — but folks it was quicker and deeper than anyone had projected. We knew that the boom wouldn't last forever. But I want you to know that it is at a high and I do not want gloom or panic. I want reassurance. I want a feeling of togetherness; that we can do it.

This is the first time in the history of the state, the first time in the history of the state that we have had a failure of revenues. One thing lost in the shuffle though is that many times people don't understand. We're not just talking necessarily about a reduction in funds, we're talking about not reaching the anticipated growth.

So please understand that many times when we're talking about programs and funding, we are virtually still even at the amount of dollars. We just did not grow at the rate. So to add new programs, to do new capital, then you must look to your sources as you look at this budget.

So today I have presented to you a budget. It really is not a twelve-month budget as you would expect. It's more nearly an eighteen month budget and maybe even a twenty-four month budget because as we look at the fiscal year of '84, we must also look to the current fiscal year of '83. One way to provide money for continuity of government and to preserve the future next year is to reduce expenditures already approved by the previous session of the Legislature.

I'm asking, and told the agency heads to be prepared for cut. I'm asking that one omnibus bill be introduced that would reduce

every appropriation across the board to the various agencies that we have in state government for the current year.

You can remember the energy crisis. One of the ways that they told us we could produce energy was to conserve energy. For every gallon of gas that you conserved you had produced another gallon.

What I am saying is that we can produce funds for a more sound year of '84 by conserving funds in the current year of '83. The budget that I am submitting to you is based upon the principle that we will reduce the current fiscal year appropriations by approximately three-percent across the board to all state agencies. Keep in mind that it's based upon three percent.

If the down fall or the shortfall or the downturn, or whatever you have, goes beyond that, my recommendation would be that it would be increased proportionally from three-percent to four-percent to five-percent, whatever, if that occurs. But based upon the information that I had when we went to the printer, it was based upon a three-percent across the board reduction. Everyone knows facts change as time progresses. So keep that in mind, it's based upon three-percent.

So as you look then at the '84 budget, we have projected that three-percent reduction over into the '84 budget. Actually what you would have, ladies and gentlemen, was a "maintain" budget or two years at the same approximate level. That by reducing '83 (the certain percentage) and then maintaining '84 at the same percentage, you would have a "maintain" budget for this twenty-four-month period.

We have not reached our revenue so we'll take a breather. We haven't reached our budget so we must tighten our belts. We can have no new unfunded programs so we'll rest awhile. We can have no salary increases under this budget so we'll try our best to maintain. We're not reaching our anticipated expectations so we can delay.

A rising tide raises all ships. The past four years all ships, all agencies and programs of state government have risen. The tide has not gone out. We are not at low tide. We remain not at our high tide, but at a tide that is not low tide. We must maintain as much as possible. The reason I use the word "maintain", is that the program and the projects that we have put into effect these past four years are programs that we basically worked on collectively; therefore, there are programs that have had a lot of looking to.

This '84 budget has a philosophy. That really is what I want to express in this part of my remarks. The philosophy is to maintain with as few exceptions as possible, in other words, no new programs but obviously a few exceptions. No drastic cuts in services, but maintain. Contain the number of full-time employees by attrition. No tax increase and no tax decrease. Using funds from all possible sources. It's important that I stress this. I know that there is disagreement with this, so let me say it from the front. Funds from all possible sources are put into this budget to even maintain at a three-percent reduction. That's my favorite bill, the $25 million dollar water bill. That's the $37 million dollar bond program. That's the $63 million dollar preservation trust and that's dipping into the pension reserve fund for one time. All sources possible.

If you change from any of that (based upon this budget which of course I know it's subject to change) than not dipping or not using any of those sources means that you must reduce then the amount of cash available for the maintained programs that I've recommended to you.

The way we arrived at this budget and this philosophy was that we took the '83 cut of three-percent, we then reduced the program

of each agency by approximately three percent, 3.25, for the next year; that we had taken out all one-time appropriations that we could judge did not need to be reappropriated, then we reduced it by three percent; then we added in the obvious exceptions, like corrections and hardly any other exception.

I want you to know that this is based upon the fact that we must continue in a sound way so that our people would have certainty. One of the things that this budget is also based upon is appropriating money into the reserve fund so that next year we don't have this problem. I would rather have less money with a certainty than more money and not know.

So it takes to get money into reserve funds three ways: the carryover from the reduction of this year; appropriation to the general reserve fund; up the withholding from ten-percent back to eleven and-a-half-percent so that next year's programs can continue to be funded based upon the information at this time.

There are three thoughts that I would leave with you. Preserve the progress that we've made. Preserve the progress. Continue the commitments. Continue to commitments. Fulfill the veterans' center. Fulfill the mental health program, et cetera. Continue the commitments. Share the sacrifices. Share barely the sacrifices.

Preserve the progress; continue the commitment; and share the sacrifice. To do that, we must give agency heads flexibility as much as possible in the management.

Ladies and Gentlemen, I'd much rather be talking about the great growth than about the "maintain". But we each asked for this office, and we each share the responsibility of meeting the problems. In cooperation with your leadership and you individually, I'm looking forward, knowing that we can't always agree, knowing that each house will not always agree with each other or the legislative with the executive or individuals with each other. But I submit to you, let's disagree agreeably. Let's work together for the solution. Let's make everyone aware there are no sacred cows. There are no pet projects. There are no pork barrel plums. That we're looking at maintaining programs. We've got a job to do. Let's do it.

Thank you.

There shall be no more than fourteen (14) standing committees, one of which shall be designated as the Policy Committee, one of which shall be designated as the Standards and Ethics Committee and one of which shall be designated as the Executive Nominations Committee. So many of the remainder as are appointed and approved by the Senate shall be designated as legislation committees. There shall be as many select committees as are appointed by the President Pro Tempore. The legislation committees shall be the following: Appropriations, Finance, Judiciary, Law Enforcement, Business and Labor, Education, General Government, Transportation, Human Resources, Natural Resources and Agriculture.

RULE 7-2. ORGANIZATION. The President Pro Tempore may designate as many ad hoc subcommittees of each standing committee as he deems appropriate. He shall appoint the chairman and vice chairman of each standing committee and of each select committee.

A. The President Pro Tempore shall appoint, subject to the approval of the Senate, the Majority Caucus members of each standing committee.

B. The Minority Floor Leader shall appoint, subject to the approval of the Senate, the Minority Caucus members of each standing committee.

C. Membership of standing committees shall be approved by a majority vote of members of the Senate.

The Standards and Ethics Committee shall determine such internal policies of the Senate as may be referred to it by the President Pro Tempore; shall consider legislation concerning ethics of, and conduct by, members of the Senate or employees of the Senate and related matters. Specifically, the Standards and Ethics Committee shall write a Code of Ethics for members of the Senate and shall write a Code of Conduct for members of the Senate. The Code of Ethics and Code of Conduct when approved by a majority of the members of the Senate shall be binding on all members. Furthermore, the Standards and Ethics Committee shall provide, upon the request of any member of the Senate, an interpretation of the Code of Ethics or Code of Conduct as it applies to a specific situation; provided, however, that the identity of the member making the request may be kept confidential, at the discretion of said member.

RULE 7-6. DUTIES OF THE EXECUTIVE NOMINATIONS COMMITTEE. The Executive Nominations Committee shall consider all Executive Nominations submitted to the Senate and shall report its recommendations to the Senate.

RULE 7-7. DUTIES OF LEGISLATION COMMITTEES. Legislation committees shall be responsible for the formulation of legislative programs, initiation of legislation and determination of nonlegislative solutions within the jurisdiction of the committee; shall inquire into the administration and execution of all laws within the same jurisdiction; shall consider such proposals as may be submitted to the committee by the President Pro Tempore; and shall be responsible for the continuing codification of all laws within its jurisdiction.

RULE 7-8. DUTIES OF SELECT COMMITTEES. Select committees shall be responsible for such duties as are prescribed at the time of their formation, said duties to include the time during which such committee shall be in existence. No select committee shall be formed without its duties being expressly stated at the time of its formation. If a select committee is appointed for the purpose of conducting an investigation, the Senator requesting the investigation shall not serve as chairman of the committee.

RULE 7-9. AUTHORITY OF COMMITTEES. Any Senate committee shall be authorized to issue process, compel attendance of witnesses and to administer oaths to any person appearing before any said committee. Any Senate committee which considers legislation shall be empowered to consolidate bills or resolutions, to develop committee substitutes for such bills or resolutions, to amend such bills or resolutions and to develop a committee bill or resolution irrespective of any other legislation.

RULE 7-10. PROCEDURES. The following procedures shall be observed by all legislation committees of the Senate:

A. Subject to such exceptions as are provided hereinafter, committees of the Senate shall comply with provisions of the Oklahoma Open Meeting Act. A copy of all notices required by said Act shall be provided to the Secretary of the Senate, and the Secretary of the Senate shall designate the appropriate place for such notices to be posted. The Secretary shall post one such notice on the bulletin board of the Senate located outside the Senate chamber.

B. The chairman, or in his absence the vice chairman, of a committee shall schedule regularly scheduled, special and emergency meetings of the committees. Special and emergency meetings shall not conflict with a regularly scheduled meeting of any other legislation committee, except with the consent of the President Pro Tempore and the chairman of the affected committee.

C. The agenda for any meeting of a committee shall be set by the chairman and shall be provided to members of the committee and to authors of legislation to be considered by the committee at least twenty-four (24) hours prior to the meeting.

D. A quorum of the committee is required to be present before the committee can transact business. Any member of the committee may request a quorum call at any time the committee is meeting. A number equal to a majority of the regular members of the committee shall constitute a quorum.

E. The chairman, or in his absence the vice chairman, of the committee, or his designee, shall preside at meetings of the committee.

F. When considering legislation or conducting other business, the following procedures shall be observed:

1. No person shall address the committee unless he is first recognized by the chairman for that purpose.

2. The Senate author of the legislation shall be recognized for an explanation.

3. The Senate author may answer questions by members of the committee or other persons recognized by the chairman.

4. Amendments to the legislation may be submitted by the Senate author or by members of the committee.

5. Amendments and motions may be adopted by a voice vote; provided, however, that the Senate author, or any member of the committee, may require a roll call vote.

6. Amendments shall be considered in the order they appear in the legislation, or in the order they are presented to the clerk of the committee. The chairman shall resolve any conflict resulting from claimed priority of presentation.

7. The author of an amendment shall explain his amendment and answer questions by members of the committee, the author of the legislation, or other persons recognized by the chairman.

8. The chairman may recognize any person for debate or comment on the proposed legislation or amendments thereto; provided, however, the chairman may limit the amount of time for any such debate or comment.

9. The vote on a recommendation by the committee to the Senate shall be by recorded roll call and shall require a majority vote of a quorum of the members of the committee for passage.

G. A committee may recommend only two reports to the Senate on legislation, the first being DO PASS, and the second being DO PASS, AS AMENDED.

H. Except for legislation containing appropriations, all legislation recommended by a committee to the Senate shall contain a complete Title, an Enacting or Resolving Clause and both a Senate and a House author.

I. Upon approval of a recommendation of DO PASS or DO PASS, AS AMENDED, by the committee, the chairman shall ask unanimous consent that the legislation be placed on the Consent Calendar for the Senate, which shall be the order unless a member of the committee objects.

J. The chairman may assign to any subcommittee any legislation, proposal or inquiry; provided, however, no subcommittee shall be permitted to report directly to the Senate, but rather to the parent committee.

CHAPTER 8

COMMITTEE OF THE WHOLE AND REPORTS

RULE 8-1. COMMITTEE OF THE WHOLE. Without prior notice, the Senate may, by motion, upon being approved by a majority of the members of the Senate, declare itself a Committee of the Whole, at which time the President Pro Tempore or his designee shall

become chairman of said committee. Rules applicable to other Senate committees shall be applied to the Committee of the Whole, except those Rules relating to notice.

RULE 8-2. REPORTS. Once the Committee of the Whole has reported a bill or resolution DO PASS or DO PASS, AS AMENDED, to the Senate, then that bill or resolution shall be considered on Third Reading and shall be voted upon without debate.

The time of each daily session shall be announced on the preceding legislative day; provided, however, that in the event no such announcement is made, the Senate shall convene at 1:30 p.m. Exceptions to the days on which the Senate shall convene may be made upon a majority vote of the members of the Senate.

In the event of equal seniority, preference shall be determined by lot. The members of the Minority Party shall be seated in the same manner in the remaining seats. The President Pro Tempore shall be authorized to make exceptions to the foregoing procedures as he deems necessary.

RULE 10-3. GALLERIES AND HALLWAYS. The President Pro Tempore or his designee shall be empowered to assign seats in the galleries of the Senate and shall be empowered to order the galleries and hallways of the Senate cleared to preserve order or to ensure the safety of the members of the Senate.

RULE 10-6. CALL OF THE SENATE. The Senate may, by majority vote of the members present, operate under Call of the Senate, in which case the Presiding Officer shall be empowered to compel the attendance of all members of the Senate and shall be empowered to confine the members of the Senate to the chamber. In such case, any member who fails to attend without being excused unanimously by the other members of the Senate shall be recorded as voting "NO" on all questions submitted to the Senate.

RULE 10-7. DECORUM. The decorum of members of the Senate and employees of the Senate during the daily sessions of the Senate shall be determined by the Code of Conduct of the Senate and shall be enforced by the Presiding Officer.

RULE 10-8. PERSONAL PRIVILEGE. Personal privilege will be granted to a member of the Senate only to permit such member to respond to a public attack on the rights, integrity or reputation of a member of the Senate, or upon the Senate collectively or any committee or employee of the Senate. Remarks made by a member of the Senate who is granted personal privilege shall be confined to such a response.

RULE 10-9. INTRODUCTIONS. No persons shall be introduced individually in the galleries except that a member of the Senate may introduce members of his family. It shall also be permissible to introduce officials from other states and countries.

RULE 12-3. CONSENT CALENDAR. Bills and resolutions so designated by committees of the Senate shall be considered on the Consent Calendar of the Senate. Such bills and resolutions shall not be subject to either amendment or debate on the floor of the Senate. Bills or resolutions assigned to the Consent Calendar shall be referred to General Order upon the request of any Senator if such a request is made prior to the time the bill or resolution is advanced.

RULE 12-4. GENERAL ORDER. All bills and resolutions not designated by a committee of the Senate for the Consent Calendar shall be referred to General Order. On General Order, the following procedures shall be observed:

A. Explanation of the bill or resolution by the Senate author.

B. Questions.

D. Advancement.

RULE 12-5. AMENDMENTS. Amendments to bills or resolutions shall be in writing and shall be considered only on General Order. Amendments shall be considered first in the order in which they appear in the bill or resolution; second, according to the largest sum, greatest number or most distant day for amendments appearing in the same place; and third, in the order in which they are submitted. An amendment can be withdrawn at any time before it is voted upon by the author of the amendment. Once an amendment is read, it shall be explained by its author, who shall then answer questions concerning the amendment. If the author of the amendment is not in attendance at the time an amendment is read, then the amendment shall be considered withdrawn unless another member of the Senate wishes to be a coauthor of the amendment.

RULE 12-6. SUBSTITUTE AMENDMENTS. Only one substitute amendment may be considered for any amendment to any bill or resolution. Once read, the same provisions applicable to the original amendment shall apply to the substitute amendment. If the substitute amendment is successful, then the original amendment shall be rendered moot. If the substitute amendment is unsuccessful, then the original amendment shall be considered by the Senate. There shall be no in lieu amendment to any amendment or substitute amendment.

RULE 12-7. ADVANCEMENT. Once a motion to advance has been adopted, then the bill or resolution shall be considered engrossed and on Third Reading.

RULE 12-9. HOUSE AMENDMENTS. Upon receipt of House amendments to Senate bills or resolutions, the Senate author shall make a motion either to accept the amendments, in which case a successful vote on the motion shall automatically advance the bill to Fourth Reading and final passage, or to reject the amendments and request a conference with the House.

RULE 12-10. CONFERENCE COMMITTEES. The President Pro Tempore shall appoint members of the Senate to serve on conference committees with members of the House of Representatives at such times and in such numbers as he deems appropriate.

RULE 12-11. CONFERENCE COMMITTEE REPORTS. Conference Committee Reports shall be considered by the Senate only when a majority of the Senate conferees and a majority of the House conferees sign such report and only when the report is limited to matters in disagreement between the two houses or matters germane to the bill or resolution. If the Senate adopts a Conference Committee Report, then the bill or resolution is before the Senate for Fourth Reading and final passage. If the Senate rejects a Conference Committee Report, then the bill or resolution shall be returned to the conference committee. Upon a report by the Senate conferees that the conferees cannot agree, then the bill or resolution will revert to its former status of consideration of House Amendments to Senate Bills or Resolutions.

RULE 12-12. FOURTH READING. Upon Fourth Reading of a bill or resolution, debate shall be in order on final passage of the bill or resolution, after which the vote shall occur on final passage. After final passage of a bill or resolution, it shall be signed by the Presiding Officer in open session.

RULE 12-13. COMMITTEE REPORTS ON LEGISLATION. Committee reports on legislation shall be considered adopted by the Senate when read and shall thereafter be placed either on the Consent Calendar or on General Order.

RULE 12-14. COMMITTEE REPORTS ON EXECUTIVE NOMINATIONS. Committee reports on Executive Nominations shall be adopted by a majority of the members of the Senate.

RULE 12-15. OTHER COMMITTEE REPORTS. Committee reports neither on legislation nor on Executive Nominations shall be filed with the Secretary of the Senate, explained by the chairman of the committee making the report and shall not require further action by the Senate, unless such action is called for in the report.

RULE 12-16. SECOND READING. Upon Second Reading of a bill or resolution, the same shall be assigned for committee consideration by the Presiding Officer. All bills carrying appropriations which are referred to any committee other than the Appropriations Committee shall, immediately upon a report by the committee to which referred, be referred to the Appropriations Committee.

RULE 12-17. FIRST READING. A bill or resolution shall be considered introduced upon First Reading and shall automatically be advanced to Second Reading.

RULE 12-18. DEBATE. When a question subject to debate is before the Senate, a motion to limit the time for debate shall be in order, even if debate already has begun. Said motion shall fix the time limits to be allowed for and against the motion, provided that in no case shall the total debate allotted to each side be less than one-half hour. If such motion is successful, then the Presiding Officer shall cause the time limits to be enforced and shall divide the time equally for each side of the question. If the motion is once rejected on a question being debated, it can only then be adopted with the approval of two-thirds of those voting.

RULE 12-19. ADJOURNMENT. A motion to adjourn shall always be in order except when the motion shall have been the last voted on and no business transacted thereafter.

RULE 12-20. AFTER ADOPTION OF MOTION TO ADJOURN. Once a motion to adjourn when the desk is clear has been adopted, then no motion shall be considered from the floor of the Senate, whether by unanimous consent or otherwise.

RULE 12-21. SINE DIE ADJOURNMENT. The date and time of sine die adjournment of the Senate shall be fixed by motion or resolution; provided, that once the date and time of such sine die adjournment has arrived, no further business shall be conducted by the Senate, and the Presiding Officer shall declare the Senate adjourned sine die.

RULE 12-22. CORRECTION OF LANGUAGE. The Secretary of the Senate shall, at the direction of the President Pro Tempore and with the approval of the Senate author, have the

authority to correct nonsubstantive errors in the language of any bill or resolution at the time the same is engrossed or enrolled. A detailed record of all such corrections shall be maintained by the Secretary and printed in the Journal. The Title of a bill or resolution shall be made to conform to the text, unless the same has been ordered crippled. The Enacting Clause shall be a part of every bill unless the same shall have been ordered stricken. A member of the Senate shall be designated by the President Pro Tempore to verify the correct engrossment and enrollment of legislation.

RULE 12-23. WITHDRAWAL FROM COMMITTEE. Any bill or resolution may be withdrawn from any committee of the Senate upon a two-thirds vote of the members of the Senate. Any bill or resolution so withdrawn shall be considered on General Order.

RULE 12-24. RECONSIDERATION. The final vote on Third Reading or Fourth Reading of any bill or joint resolution may be reconsidered only if a member of the Senate serves notice on the same day such final vote is taken. Once such notice is served, the following procedures shall be observed:

A. In anticipation of the closing days of a regular session, a majority of the members of the Senate may vote that all such motions to reconsider made thereafter shall be disposed of on the same day such notice is served.

B. Except as heretofore provided, the member serving notice for reconsideration of the passage or failure of a bill or resolution shall not be permitted to make the motion to reconsider on the day notice is served, but shall have the exclusive right to make such a motion on the next two succeeding legislative days; provided, that on the third succeeding legislative day, any member of the Senate shall have the right to make such a motion. If no such motion is made on the third succeeding legislative day, then no reconsideration shall be permitted.

C. If the Senate refuses to reconsider, or, if upon reconsideration, shall affirm the first decision, no further consideration shall be in order, except by a two-thirds majority vote of those elected to and constituting the Senate.

D. For adoption, a motion to reconsider the final vote on a bill or resolution must be approved by a majority of the members of the Senate.

E. A motion to reconsider any other action by the Senate must be made by a Senator who voted in the majority and shall be disposed of on the same day it is lodged. The motion to reconsider shall be decided by a majority of those voting on the question.

RULE 12-25. OVERRIDES OF VETOES. When a bill or resolution is returned to the Senate because of veto by the Governor, a motion to vote to override the veto shall be in order at any time.

CHAPTER 14

VOTING

RULE 14-1. MANNER OF VOTING. All votes of the Senate shall be by voice vote, division or roll call vote subject to the following:

A. The voting machine shall be used to record the vote whenever a roll call vote is taken on any question. The machine shall also be used to determine the presence or absence of a quorum. In the event the machine is not operating properly, all roll call votes and determinations of quorums may be taken by calling the roll.

The voting machine shall be under the control of the Presiding Officer and shall be operated by such clerk as the Presiding Officer shall direct.

B. During any roll call, every Senator present shall vote. During said roll call the Presiding Officer shall request every Senator in the chamber who has not voted to vote. If any Senator so requested fails to vote, the Presiding Officer shall, upon declaring the roll, order that said Senator be shown as voting "NO" on the question. Said order shall be printed in the Journal directly following the printing of the results of the roll call as reflected by the voting machine and said "NO" vote shall be included in the determination of the passage or failure of the question. In all other cases, a Senator who fails to vote shall be shown as "excused" in the Journal.

C. On any question for which a roll call vote is not required, a roll call vote shall be in order only if same is requested before the question is put. Once the question has been put and a voice vote taken, the Presiding Officer shall state the side that appears to such Presiding Officer to have prevailed, and any member then may request a division, but shall not be entitled to request a roll call vote. Upon declaration of the vote, such declaration shall be final.

D. No Senator shall be permitted to vote or change his vote after the result shall have been announced by the Presiding Officer.

E. If a member's voting machine is inoperative, he shall rise and advise the Presiding Officer of the malfunction. In such event the Senator will be permitted to verbally declare his vote on the question and the vote will then be recorded by the clerk.

F. When a division is called for, those voting in the affirmative shall rise at their seats and remain standing until counted; then those voting in the negative shall rise and stand until they are counted, whereupon the Presiding Officer shall declare the result.

A CODE OF ETHICS FOR THE OKLAHOMA STATE SENATE

ARTICLE I

STATEMENT OF PURPOSE

The Senate finds and declares that high moral and ethical standards among public servants are essential to the orderly conduct of a free government; that a code of ethics for the guidance of public officers and employees is necessary in order to eliminate conflicts of interest in public office, improve standards of public service, and promote and strengthen the faith and confidence of the people in their government.

All Senators before entering upon the duties of their offices, according to Article XV, Section 1 of the Constitution of the State of Oklahoma, are required to take and subscribe to the following oath or affirmation: "I, ... , do solemnly swear (or affirm) that I will support, obey, and defend the Constitution of the United States, and the Constitution of the State of Oklahoma, and that I will not, knowingly, receive, directly or indirectly, any money or other valuable thing, for the performance or nonperformance of any act or duty pertaining to my office, other than the compensation allowed by law; I further swear (or affirm) that I will faithfully discharge my duties as Senator to the best of my ability."

The Senate also recognizes that, in Oklahoma, service in the Senate is not a full-time occupation and is not compensated on that basis with the result that Senators must look to income from sources other than their senatorial salaries and allowances to feed, shelter and clothe themselves and their families. That being true, conflicts of interest of varying degrees may occur from time to time for even the most careful and conscientious Senator as a part-time public official. It is, therefore, the purpose of this Code of Ethics for the Oklahoma State Senate to set reasonable and practicable standards and guidelines governing the conduct of Senators that will assure this body of attracting to it men and women of high integrity, character and dedication and yet not so stringent and restrictive as to limit service herein only to the very poor or the very wealthy.

ARTICLE II

STATUTORY REQUIREMENTS

SECTION 1. Title 74 of the Oklahoma Statutes, Section 1409, provides as follows:

No Legislator shall

(a) Introduce, promote or vote for any proposed special interest legislation on his own behalf, or on behalf of any other person, corporation, partnership, trust or business entity which directly affects such Legislator or in which such Legislator has or may have any substantial financial interests other than legislation affecting legislative salaries, expenses and allowances; provided, that this provision shall not preclude a Legislator from introducing, promoting or voting for any proposed general legislation which directly affects him or in which he has or may have any substantial financial interest;

(b) Directly or indirectly accept or request any compensation, gift, loan, entertainment, favor, or service given for the purpose of influencing such Legislator in the discharge of his official duties. Provided, however, that this section shall not apply to bona fide campaign contributions;

(c) Use his official position to secure special privileges, exemptions or compensation for himself, except as may be provided by law;

(d) Disclose confidential information acquired by reason of his official position to any person, group, or others not entitled to receive such confidential information, nor shall he use such information for his personal gain or benefit;

(e) Sell or cause to be sold, either as an individual or through any business enterprise in which he holds a substantial financial interest, goods or services to any state agency unless the contract is awarded pursuant to statutes of the State of Oklahoma;

(f) Receive any compensation for his services as a Legislator from any source other than the State of Oklahoma, unless otherwise provided by law;

(g) Accept other employment which would impair his independence of judgment in the performance of his public duties;

(h) Receive or agree to receive compensation for representing or assisting any person or business in any transaction involving the state; provided, this subsection shall not apply to representation of a person or business when such representation requires the Legislator to possess a special license, permit, or technical knowledge to properly represent the person or business. This act shall not be interpreted to prevent an attorney to appear in behalf of his client in any court, board or commission; or

(i) Be employed by or receive any commission, fee, or compensation from the state, except the compensation and allowance for expenses provided by law to a Legislator.

Nothing in this section shall prohibit a Legislator from representing or assisting a person or business in any matter before an administrative or judicial body of the state when the matter merely involves a proceeding by a person or business against another person or business.

When a Senator is in doubt as to the application of this statute to himself, he may submit to the Attorney General a fully written statement of the facts and questions he may have. The Attorney General shall then render an opinion to the Senator and may publish these opinions, or abstracts thereof, with the name of the Senator advised, unless the Senator requests otherwise in writing. In addition, Senate Rule 7-5 states that the Committee on Standards and Ethics shall provide, upon the request of any member of the Senate, an interpretation of the Code of Ethics or Code of Conduct as it applies to a specific situation. The identity of the member making the request may be kept confidential, at the discretion of the member.

ARTICLE III

CAMPAIGN FINANCES

SECTION 1. Senators shall be careful and diligent in complying with requirements of the general law of the state regulating campaign financial disclosures, as contained in Article XV of Title 26 of the Oklahoma Statutes.

ARTICLE IV

SENATE COMMITTEE ON STANDARDS AND ETHICS

SECTION 1. The committees shall have the authority to consider complaints concerning alleged violations of the Code of Ethics or statutes governing senatorial ethics or conduct and to investigate such complaints and hold hearings as authorized by the President Pro Tempore. Any member who feels that the ethics of the Senate are being violated by either a member of the Senate or the staff should seek redress by submitting a complaint concerning the violation to the President Pro Tempore. Before the committee exercises any of the authority granted in this section with respect to any investigation or hearing it shall, by majority vote of the whole membership of the committee, define the nature and scope of its inquiry. All proceedings before the committee concerning alleged violations of the Code of Ethics or statutes governing senatorial ethics or conduct shall be conducted in executive session.

SECTION 2. Complaints must be in writing, signed by the person making the complaint, stating all available facts, under oath, or affirmation, which oath or affirmation must be taken personally before the chairman or any member of the Senate Committee on Standards and Ethics. Any complaint so filed shall be deemed confidential, until such time as the Committee has held a meeting for the purpose of investigating the complaint and said complaint shall remain confidential if the Committee seeks further information thereon, and if the Committee at the conclusion of its preliminary investigation concludes that said complaint was false and groundless the matter shall be closed. If, after the initial investigation, a majority of the committee determines that there is probable cause to believe that a violation of the Code of Ethics or of a statute governing senatorial ethics or conduct might have occurred, a copy of the complaint and a further statement of the alleged violation shall be served upon the alleged violator. BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE 1ST SESSION OF THE 39TH OKLAHOMA LEGISLATURE:

SECTION 1. AMENDATORY The Secretary of State shall refer to the people for their approval or rejection, as and in the manner provided by law, the following proposed amendment of Section 9 of Article X of the Oklahoma Constitution, to read as follows:

Section 9. (a) Except as herein otherwise provided, the total taxes for all purposes on an ad valorem basis shall not exceed, in any taxable year, **[fifteen (15)]** TWENTY (20) mills on the dollar, no less than five (5) mills of which is hereby apportioned for school district purposes, the remainder to be apportioned between county, city, town and

school district, by the county excise board, until such time as a regular apportionment thereof is otherwise provided for by the Legislature.

No ad valorem tax shall be levied for state purposes, nor shall any part of the proceeds of any ad valorem tax levy upon any kind of property in this state be used for state purposes.

(b) A tax of four (4) mills on the dollar valuation of all taxable property in the county shall be levied annually in each county of the state for school purposes and, until otherwise provided by law, the proceeds thereof shall be apportioned to the school districts of the county by the county treasurer on the basis of the legal average daily attendance for the preceding school year as certified by the State Board of Education. Provided that in case a school district lies in more than one county, such district shall be deemed a school district of the county having the greater part of the area comprising such district, unless otherwise provided by law, and shall be entitled to participate in the proceeds of such tax on the same basis as districts lying wholly within such county but revenue from such tax on the assessed valuation of the district in other counties shall, when collected, be transmitted to the county treasurer of such county having the greater part of the area comprising the district, unless otherwise provided by law, and be apportioned as hereinbefore provided for the proceeds of such tax on the assessed valuation of such county. Not to exceed seventy-five **[per centum]** PERCENT (75%) of the amount received by a school district from the proceeds of such county levy in any year shall be required to finance the state-guaranteed program of such district.

(c) Upon certification of a need therefor by the board of education of any school district, an additional tax of not to exceed fifteen (15) mills on the dollar valuation of all taxable property in the district shall be levied for the benefit of the schools of such district.

(d) In addition to the levies hereinbefore authorized, any school district may make an emergency levy for the benefit of the schools of such district, in an amount not to exceed five (5) mills on the dollar valuation of the taxable property in such district, when approved by a majority of the **[electors]** REGISTERED VOTERS of the district voting on the question at an election called for such purpose. This emergency levy shall provide only sufficient additional revenue to meet the needs of the district each fiscal year as determined by the board of such district and must be approved by a majority of the **[electors]** REGISTERED VOTERS voting on said question at such an election for each fiscal year.

(d-1) In addition to the levies hereinbefore authorized, any school district may make a local support levy for the benefit of the schools of such district, in an amount not to exceed ten (10) mills on the dollar valuation of the taxable property in such district, when approved by a majority of the **[ad valorem taxpaying]** REGISTERED voters voting on said question at an election for each fiscal year called for such purposes. This local support levy shall provide only sufficient additional revenue to meet the needs of the district for each such fiscal year as determined by the board of such district[;]. **[provided, an elector desiring to vote upon such local support levy must present an ad valorem tax receipt for the year immediately preceding before being issued a ballot, or sign a sworn affidavit certifying the fact of such payment.]**

(e) The amount of revenue from school district ad valorem taxes levied under (a) and (c) of this section which any school district may be required to use to finance its state-guaranteed program shall not be in excess of its share, based upon its relative taxpaying ability as may be defined by law, of an amount equivalent to the net proceeds from a fifteen (15) mill tax levy on the aggregate net assessed valuation of the state; but, until such relative taxpaying ability is defined by

the Legislature, the amount of revenue from such taxes which any school district may be required to use to finance its state-guaranteed program shall not be in excess of the net proceeds from an ad valorem tax levy of fifteen (15) mills on the dollar net assessed valuation of the district. No part of the proceeds from any ad valorem levy for emergency levy and local support levy under (d) and (d-1) of this section shall be required to finance the state-guaranteed program of such district.

Nothing in the amendments to the Constitution incorporated herein shall be construed to amend, alter or supersede the present application of Article XII-A, Sections 1 and 2 of the Oklahoma Constitution.

[(f) Should the amendment contained in subsection (d-1) hereof be adopted on September 14, 1965, the school board of any school district in the State may within ten (10) days thereafter file with the Excise Board of the county a supplemental estimate of needs and call a special election within fifteen (15) days after such call upon the new local support levy or emergency levy if not previously submitted, or both. The school board shall advertise notice of such election by publication in at least one issue of a newspaper having general circulation in the school district, or by posting in five public places in the district at least five (5) days before such election. Should the electors of the school district vote such additional levy in such election, the County Excise Board shall forthwith compute the levy and certify appropriations for all affected school districts and refile the budgets with the County Clerk and with the State Auditor. Notice of the filing of said budget shall be given as required by law. The forty (40) day protest period shall begin immediately upon the filing of said budgets.

For the fiscal year 1965-66, the Excise Board of each county shall not finally compute the levy nor certify the appropriations for the school districts of the State until after the school district shall have had the opportunity to hold a special election as provided herein.

Temporary appropriations, up to forty per centum (40%) of the estimated funds needed by the school board of any district in the State for the fiscal year 1965-66, may be approved any time after the beginning of such fiscal year.

Upon the computation of the levy and certification of appropriations by the Excise Board, the County Assessors shall prepare or revise the tax rolls and deliver the same to the County Treasurer who shall proceed with the collection of the taxes as required by law.

Should it become necessary, because of the delay in computing levies and certifying appropriations as herein provided, the Governor may, by executive order, extend the time when taxes will be delinquent for the year of 1965, and that year only. Such extension of time shall be for the minimum time necessary to permit the County Assessor and County Treasurer to perform their duties as required by law.]

Section 1. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 541 of Title 52, unless there is created a duplication in numbering, reads as follows:

A. It is the purpose and intent of this act to protect the rights and correlative rights of all interest owners in natural gas wells and to afford all such owners an equal opportunity to extract their fair share of gas and to sell and be paid in proportion to their interest therein. It is further the intent of this act to protect such owners against discrimination in purchases in favor of one owner as against another.

B. In order to prevent waste, protect correlative rights and to aid in the conservation of natural gas, this act shall apply to all currently producing natural gas wells, or those capable of producing natural gas, within the State of Oklahoma irrespective of their completion date or length of past production, as well as any future producing natural gas wells.

Section 2. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 542 of Title 52, unless there is created a duplication in numbering, reads as follows:

A. Whenever a well is placed into production, all owners within such well, including, but not limited to, all working interests, any interested parties having a right to produce, overriding royalty, royalty and mineral interest owners in the unit area under the well,

shall be entitled to share ratably in the revenues from the sale of the products of the well, excluding, in each instance, extracted liquefiable hydrocarbons.

B. In the event that one or more owners in a well has contracted for the sale of only their portion of the production from the well to the exclusion of other owners in the well, all owners having no contract shall be entitled to share ratably in the revenue from the sale of contracted production to the extent of their net revenue interest, except for any owner or owners who may elect in writing not to so sell. Provided, nothing herein shall be construed to prevent any owner or owners from receiving the price agreed upon by contract. Provided further, that nothing herein shall be construed as preventing any owner or owners from taking their share of production in kind or separately disposing of their share.

C. Nothing in this act shall be construed to eliminate or otherwise affect the rights and remedies available to an operator against working interest owners who either default or fail to pay their proportionate share of the well costs.

D. If an owner in a well elects in writing not to sell at the price paid to other owners who elect to deliver products into the line or who are delivering products into the line, then that owner so electing not to sell shall not be obligated to deliver such ratable share for sale.

E. If an owner in a well elects not to sell for any other reason, the owner shall not be required to deliver such ratable share to said line.

Section 3. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 543 of Title 52, unless there is created a duplication in numbering, reads as follows:

Proper distribution of revenues from the sale of products from the well shall be made pursuant to the provisions of Section 540 of Title 52 of the Oklahoma Statutes. If any owner receives revenues directly from the purchaser within which other owners are entitled to share ratably, the owner receiving such revenues shall either effect the proper distribution of revenues or forward the same to the party responsible for distribution under Section 540 of Title 52 of the Oklahoma Statutes. Provided, however, that no such owner need forward his revenues if those revenues represent only the amount due the owner pursuant to the provisions of this act.

Section 4. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 544 of Title 52, unless there is created a duplication in numbering, reads as follows:

Nothing in this act shall be construed as setting the price, terms or conditions under which a purchaser takes the production of a well or setting any restrictions, limitations, floor or ceiling on the price to be paid for such production, nor shall anything in this act require any purchaser to connect any well that such purchaser is not already obligated to connect and nothing contained herein shall be construed as altering or changing the definition of the terms "common purchaser" or "common carrier" as defined by law.

Section 5. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 545 of Title 52, unless there is created a duplication in numbering, reads as follows:

The Corporation Commission is herein empowered to promulgate rules and regulations by which the purpose of this act shall be administered, including the power to establish and enforce penalties for violations thereof.

Section 6. All laws or parts of laws in conflict herewith are hereby repealed.

Section 7. The provisions of this act are severable and if any part or provision hereof shall be held void the decision of the court so holding shall not affect or impair any of the remaining parts or provisions of this act.

Section 8. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.'', which amendment was declared adopted.

(1) 'Proceeds' includes whatever is received upon the sale, exchange, collection or other disposition of collateral or proceeds. Insurance payable FROM ANY SOURCE by reason of loss or damage to the collateral is proceeds EVEN THOUGH SUCH INSURANCE PAYMENTS MAY BE MADE BY THIRD PARTY TORT-FEASORS OR THEIR INSURORS, except to the extent that it is payable to a person other than a party to the security agreement. Money, checks, deposit accounts and the like are 'cash proceeds'. All other proceeds are 'noncash proceeds'.

(2) Except where this Article otherwise provides, a security interest continues in collateral, notwithstanding sale, exchange or other disposition thereof, unless the disposition was authorized by the secured party of the security agreement or otherwise, and also continues in any identifiable proceeds including collections received by the debtor.

(3) The security interest in proceeds is a continuously perfected security interest if the interest in the original collateral was perfected, but it ceases to be a perfected security interest and becomes unperfected ten (10) days after receipt of the proceeds by the debtor unless:

(a) a filed financing statement covers the original collateral and the proceeds are collateral in which a security interest may be perfected by filing in the office or offices where the financing statement has been filed and, if the proceeds are acquired with cash proceeds, the description of collateral in the financing statement indicates the types of property constituting the proceeds; or

(b) a filed financing statement covers the original collateral and the proceeds are identifiable cash proceeds; or

(c) the security interest in the proceeds is perfected before the expiration of the ten-day period.

Except as provided in this section, a security interest in proceeds can be perfected only by the methods or under the circumstances permitted in this Article for original collateral of the same type.

(4) In the event of insolvency proceedings instituted by or against a debtor, a secured party with a perfected security interest in proceeds has a perfected security interest only in the following proceeds:

(a) identifiable noncash proceeds and separate deposit accounts containing only proceeds;

(b) identifiable cash proceeds in the form of money which is neither commingled with other money nor deposited in a deposit account prior to the insolvency proceedings;

(c) identifiable cash proceeds in the form of checks and the like which are not deposited in a deposit account prior to the insolvency proceedings; and

(d) all cash and deposit accounts of the debtor, in which proceeds have been commingled with other funds, but the perfected security interest under this paragraph (d) is:

(i) subject to any right of set-off; and

(ii) limited to an amount not greater than the amount of any cash proceeds received by the debtor within ten (10) days before the institution of the insolvency proceedings less the sum of:

(I) the payments to the secured party on account of cash proceeds received by the debtor during such period, and

(II) the cash proceeds received by the debtor during such period to which the secured party is entitled under paragraphs (a) through (c) of this subsection.

(5) If a sale of goods results in an account or chattel paper which is transferred by the seller to a secured party and if the goods are returned to or are repossessed by the seller or the secured party, the following rules determine priorities:

(a) If the goods were collateral at the time of sale, for an indebtedness of the seller which is still unpaid, the original security interest attaches again to the goods and continues as a perfected security interest if it was perfected at the time when the goods were sold. If the security interest was originally perfected by a filing which is still effective, nothing further is required to continue the perfected status; in any other case, the secured party must take possession of the returned or repossessed goods or must file.

(b) An unpaid transferee of the chattel paper has a security interest in the goods against the transferor. Such security interest is prior to a security interest asserted under paragraph (a) of this section to the extent that the transferee of the chattel paper was entitled to priority under Section 9-308.

(c) An unpaid transferee of the account has a security interest in the goods against the transferor. Such security interest is subordinate to a security interest asserted under paragraph (a) of this section.

(d) A security interest of an unpaid transferee asserted under paragraph (b) or (c) of this section must be perfected for protection against creditors of the transferor and purchasers of the returned or repossessed goods.'',

MESSAGE FROM THE GOVERNOR

Advising approval by him, April 26, 1983, of Enrolled **SBs 88, 119, 128** and **292.**

Advising veto of **SB 187** on April 26, 1983. The veto message reads as follows:

To the President and Members
of the Honorable Senate
First Session, Thirty-ninth Oklahoma Legislature

I have vetoed enrolled Senate Bill No. 187 — By Stipe of the Senate and Anderson and Stottlemyre of the House.

An act relating to cities and towns: *** which relates to political activities by municipal employees; removing superseding provisions of certain federal statutes or municipal charters; and declaring an emergency.

I have vetoed Senate Bill No. 187 for the reason that deletion of the provision excepting superseding federal statutes as to political activity of municipal employees places municipal officials in the position of either violating state law, or having to decline federal grants for needed municipal projects.

A condition of many, if not all, federal grants is that the grantee will comply with the provisions of the Hatch Act which limits the political activity of employees — the amendment provided in Senate Bill No. 187 is not compatible with the Hatch Act and necessary certification by municipal grant recipients.

I support the concept of SB 187 as originally introduced, and signed similar legislation in 1981 placing all municipalities of less than 100 thousand persons under the same type of provisions contained in SB 187.

I agree that all municipal employees should be treated the same and would sign legislation with these provisions which did not include the problems stated in paragraphs two and three of this message. The Legislature should address the question of all municipal employees being treated equally in another bill as early as possible.

For these reasons, I have vetoed Senate Bill No. 187.

By the Governor of the
State of Oklahoma

/s/ George Nigh

Effective January 1, 1983, the state shall assume financial responsibility for all proper expenses of maintenances and operations and capital outlay of said offices except as provided in Section 215.36 of Title 19 of the Oklahoma Statutes. All expenses of the various district attorney offices in the respective counties relating to maintenance, operation and capital outlay of said offices shall be processed by purchase orders and accounted for in the respective counties wherein the expenses are incurred, such expenses to be paid by funds appropriated and advanced by the respective counties and reimbursed to said counties by the state, in the manner set out hereafter. Expenditures shall be by county purchasing procedures.

SECTION 2. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37B of Title 19, unless there is created a duplication in numbering, reads as follows:

Prior to June 25 of each fiscal year, the District Attorneys Training Coordination Council shall certify to each county clerk the amount of funds which will be made available for the operation of the district attorney's office in that county for the ensuing fiscal year. A copy of the certification shall also be sent to the district attorney in whose district the county is situated. The funds so certified shall not exceed the state funds made available for such purposes. Provided, if the amount of state funds has not been finalized, the Council shall estimate the amount available and adjust the estimate when the available funds have been determined in the manner hereinafter provided.

SECTION 3. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37C of Title 19, unless there is created a duplication in numbering, reads as follows:

On or before July 1 of each fiscal year, each district attorney shall file with the county clerk of each county in his district an estimate of needs for the operation of his office in such county for the ensuing fiscal year. The estimate of needs shall consist of two sections as follows:

This section shall consist of appropriation requests for 'maintenance and operation' and for 'capital outlay' as defined in Section 2490 of Title 68 of the Oklahoma Statutes, and such other accounts as may be prescribed by the State Auditor and Inspector and approved by the District Attorneys Training Coordination Council. The total of these requests shall not exceed the amount certified by the Council as being available for that county; and

2. The second section shall include those appropriation requests which are to be financed by county funds as provided by law.

SECTION 4. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37D of Title 19, unless there is created a duplication in numbering, reads as follows:

The district attorney's requested estimate of needs shall be incorporated without change in the county general fund's estimate of needs in the same manner as the estimate of needs of the various offices, departments and agencies of the county are compiled for submission to the county excise board. The amount certified by the District Attorneys Training Coordination Council as being available to the county shall also be included in the estimate of the county general fund's miscellaneous revenue receivable.

SECTION 5. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37E of Title 19, unless there is created a duplication in numbering, reads as follows:

If for any reason, the District Attorneys Training Coordination Council should determine that the amount originally certified as available to a county for the current fiscal year has changed, it shall be the duty of the Council to certify such change to the county clerk and district attorney of the county. Within five (5) working days after receipt of such notice, the district attorney shall give written notice to the county excise board of the amount each appropriation account is to be increased or decreased and the total net effect of the change. If the net total of the changes agrees with the total change certified by the Council, it shall be mandatory for the county excise board to approve the requested changes. Provided, any transfer of appropriations between state reimbursable accounts which does not change the net total appropriations of such funds shall be requested in writing by the district attorney and shall be approved as requested by the county excise board without other formality. Provided further, no transfers shall be made between state reimbursable appropriation accounts and county financed appropriation accounts nor shall county funds be used to supplement or otherwise increase the appropriation accounts required to be financed from state funds. The unused or unencumbered balances in the district attorney's county appropriation accounts at the end of the fiscal year shall lapse to surplus in the same manner as other county general fund appropriation accounts.

Purchases made from district attorney appropriations shall be made in accordance with the procedures prescribed by statute for county officers, departments and agencies except that neither the purchases nor the expenditures for such purchases shall be subjected to the approval of the board of county commissioners. It shall be the mandatory duty for the designated county officials to issue, sign, attest, register and pay the warrants required to pay such obligations.

The requirements for temporary appropriations pending final approval of the county's estimate of needs and the prohibition on expenditures during the tax protest period shall not apply to the requested appropriations for the district attorney's office which are to be reimbursed from state funds. The entire amount certified by the District Attorneys Training Coordination Council shall be

available for the purposes requested unless otherwise restricted in writing by the Council and filed with the county clerk.

SECTION 9. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37I of Title 19, unless there is created a duplication in numbering, reads as follows:

Within five (5) working days after the end of each month, the county clerk shall report to the District Attorneys Training Coordination Council the amount expended from the state reimbursable appropriations during the preceding month. The report shall list each warrant number, the payee and the amount and shall be totaled to show the full amount to be reimbursed to the county. Warrants issued from appropriations of a prior fiscal year shall be listed separately in the report of the month in which the warrants were issued. The Council shall immediately reimburse the county from state funds appropriated for that purpose. The reimbursement shall be mailed directly to the county treasurer who, upon receipt thereof, shall issue a miscellaneous receipt therefor, and shall apportion the reimbursement to the current county general fund in the same manner as other miscellaneous collections.

SECTION 10. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37J of Title 19, unless there is created a duplication in numbering, reads as follows:

The reimbursement provisions contained herein shall not apply to county appropriations made and provided for office space, law library, legal publications, expenses connected with handling of county suits and matters and other matters to be borne by the county as provided in Section 215.36 of Title 19 of the Oklahoma Statutes.

Such claim shall be approved and paid forthwith whether or not encumbered in advance. An audit as to procedure and accounting of the process shall be made by the State Auditor and Inspector as a part of the regular county audit, the costs of which shall be part of the costs of regular county audit performed by such office.

SECTION 12. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 215.37L of Title 19, unless there is created a duplication in numbering, reads as follows:

It shall be the duty of the State Auditor and Inspector, subject to the approval of the District Attorneys Training Coordination Council, to prescribe the necessary forms and procedures necessary to implement the provisions and requirements of this act.

First Session, Thirty-Ninth Oklahoma Legislature

This is to advise you that on this date, I vetoed:

Enrolled Senate Bill No. 237 — By Luton of the Senate and Barker, et al of the House.

An act relating to contracts; * * *

I have vetoed Senate Bill No. 237. While there may be a need for regulation of certain practices of some third party prescription program administrators, this bill could create such a burden that medical costs could significantly increase, thus outweighing the advantages to the public by regulation. It would also severely handicap or destroy existing prescription plans which have been an integral part of programs designed to reduce medical care costs and provide more medical care for a significant number of citizens of the State of Oklahoma. These programs were, in fact, previously authorized by the Legislature.

/s/ George Nigh, Governor

MESSAGE FROM THE GOVERNOR

Advising veto of **SB 105** on June 7, 1983.

The veto message reads as follows:

To the President and Members
of the Honorable Senate
First Session, Thirty-ninth
Oklahoma Legislature

This is to advise you that on this date, I have vetoed:

Enrolled Senate Bill No. 105 — By Shedrick, et al of the Senate and Talley of the House.

An act relating to state government: *** which relates to the Joint Committee on Federal Funds: ***

This bill is similar to a bill I vetoed in 1981. My veto was overridden and the Attorney General subsequently ruled it unconstitutional. The following paragraphs are similar to the reasons I gave in 1981 and are still applicable to Senate Bill No. 105.

The bill is ambiguous as to lines of authority and presents the potential of stalling indefinitely expenditures of funds for critically necessary programs.

Perhaps more disturbing about this measure is its inherent threat to representative government, in that it reposes all discretionary spending authority in a few people, and all the rest of the Legislature and the executive branch are excluded from the process.

While I support entirely the concept that all public funds should be spent with oversight and total responsibility, it is my opinion that the process established by this measure is burdensome, untimely and ineffective.

For these reasons I have vetoed Senate Bill No. 105.

Governor of the State of Oklahoma

"A joint resolution requesting the State Auditor and Inspector to conduct a fiscal audit of the Department of Human Services; directing the State Auditor and Inspector to conduct a performance audit of the Department of Human Services for certain purposes; providing for compliance with certain federal regulations; authorizing certain temporary employees; providing completion date for audit; directing distribution; and declaring an emergency.

WHEREAS, the Oklahoma State Legislature has struggled since the very beginning of this session with the critical issues created by a very changed economic outlook; and

WHEREAS, the inability of the Department of Human Services to forecast its expenditure and funding needs has cast a shadow over the whole decision making and budgetary process of this Legislature; and

WHEREAS, the Oklahoma State Legislature recognizes the anxieties that have been created for all state agencies and state employees due to the changes in the economic

outlook of the state and the problems of the Department of Human Services; and

WHEREAS, reports from the Office of State Finance and the Department of Human Services represent the two major official sources of information concerning the operations of the Department of Human Services; and

WHEREAS, certain aspects of the reporting system used by the Department of Human Services concerning its fiscal operations such as including food stamps as a program expenditure, excluding capital outlay as an expenditure item and reflecting its administrative costs at an arbitrary percentage level are different from the reporting system used by the Office of State Finance thereby creating a situation in which confusing and conflicting results arise from attempts at comparing them; and

WHEREAS, a complete fiscal audit and a thorough performance audit of the programs of the Department of Human Services, including the teaching hospitals, would give the Oklahoma State Legislature, as well as the Department of Human Services itself, an accurate working knowledge of the programs and the management of the Department's programs that has not been available heretofore.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE 1ST SESSION OF THE 39TH OKLAHOMA LEGISLATURE.

SECTION 1. The Oklahoma State Legislature hereby requests the Office of the State Auditor and Inspector to undertake as a top priority of that Office, a complete fiscal audit of the fiscal year ending June 30, 1983, of the programs of the Department of Human Services, except direct assistance programs which are audited by federal agencies, including the teaching hospitals, in order that information resulting from such an audit may be made available to the Legislature as quickly as possible.

SECTION 2. A. The State Auditor and Inspector is hereby directed to conduct a performance audit of all programs, including the teaching hospitals, of the Department of Human Services except direct assistance programs which are audited by federal agencies. The performance audit shall be paid for by the Department of Human Services provided, the cost of such audit shall not exceed Five Hundred Thousand Dollars ($500,000.00). The audit shall include, but not be limited to, the following:

1. An evaluation of the management or operation of each program including local offices to determine instances of waste or inefficiency. Such an evaluation shall include suggested changes or alternatives which will lead to improved performance standards;

2. A review of the financial reporting systems of the Department of Human Services;

3. A determination of the informational needs of the Department's program directors for the purposes of program accountability and budgeting; and

4. A determination of the informational needs of the Governor, the Oklahoma State Legislature and the Office of State Finance for the purpose of accurate and efficient monitoring of the Department's programs.

B. The performance audit provided for in this section shall be in compliance with all rules and regulations of the Office of Management and Budget, Circular A-102 of the Code of Federal Regulations and any other applicable subparts of such Code.

C. The State Auditor and Inspector is hereby authorized to employ or contract for such additional temporary staff as is reason-

able and necessary to complete the performance audit, provided that such temporary staff shall not be employed beyond February 1, 1984.

PENDING SENATE ACTION — VETO OVERRIDE ON HB 1327

The following Veto Message of the Governor on Enrolled **HB 1327** was read as follows:

This is to advise you that on this date, I have vetoed: Enrolled **HB 1327,** by Talley of the House and Watson of the Senate.

An Act relating to public finance; establishing procedures for certain block grants; ***

I vetoed Enrolled **HB 1327** for a variety of reasons.

First, this appears to be an unwarranted, unnecessary restriction on the state executive departments' ability to capitalize on all available federal funds.

Second, the federal budget year is different from the state budget year, and this causes difficulty in anticipating when federal funds would be available. Under this bill's

concept, the state could lose available federal funds because the Legislature might not be in session when such funds become available.

Third, the federal government has operated without clear year to year budgets. Congress makes federal funds available without the necessary advance notice for the state to respond under the terms of this measure.

Fourth, the executive branch should be the state's initial authority in dealing with the federal government. This bill advances a theory that would remove the Governor and the executive branch of government from this process.

Fifth, the Governor's proposed budget annually to the Legislature presents federal funding and program information to the Legislature for its consideration and amendment.

Veto Message from the Governor:

I have vetoed Senate Bill No. 162 because its stated purpose is very different from what it authorizes. While its stated purpose is to direct the conduct of a feasibility analysis and evaluation of establishing group health, dental and life insurance plans for educational employees, the bill actually authorizes implementation of such plans. In fact, the bill authorizes implementation of plans as developed by the Teachers' Retirement Board in the feasibility study. Therefore, Senate Bill No. 162 would preclude action on the recommended plans by the Legislature and Governor, by transferring that authority to an inappropriate body, the Teachers' Retirement Board.

I find sections one and two of the Bill in conflict. There is no problem with section one, which provides for an analysis, evaluation and report to be prepared by the Board and presented to the Legislature. This would give the Legislature and the Governor the opportunity to review and act on the report's recommendations. However, I object to section two, which mandates that elections be held by each school district to determine its participation in the plans developed by the Board without the requirement of previous review or action by the Legislature and Governor.

For these reasons I have vetoed Senate Bill No. 162.

The Chief Executive delivered his address to the members of the Legislature assembled in Joint Session, which message was read at length as follows:

MESSAGE OF GOVERNOR GEORGE NIGH

"Presiding officer Lt. Governor Bernard, President Pro-Tempore York and Speaker Barker. May I just momentarily stop and say that's the first time I've had the chance to officially address Speaker Barker, so, Jim, on behalf of the state of Oklahoma and those who've already been here to congratulate you may I offer congratulations on your new role in state government.

It of course had not been any design at all or in the back of my mind anywhere that on this day we would be here in special session. I know that is unanimously shared by the membership of both houses. Calling a special session is a very unusual responsibility of a Governor because by the nature itself, the constitution sets it aside for special items and special events. I had not planned and had in effect been opposed to a special session. I had thought that the legislature had addressed in its wisdom the best that it could state government in the recently adjourned regular session and that we would try to do our best to tough out some of the problems that we had until you returned in regular session. I know there were problems in the organization of the House, and that was certainly a consideration, the economy was certainly a consideration, the professional services opinion was a consideration in some minds, etc., etc. But the decision to call you

into special session started on the night of August 29th as I arrived at the Oklahoma City airport. I was met by an officer that told me that I was immediately wanted on the telephone and was not to talk on the radio. That, of course, is the key that it is a very serious subject and that it should be a private conversation. I talked to Director Meachum of the Corrections Department and he alerted me of the ongoing riot at Hominy. I left the airport and went immediately to the Corrections Center to join the Director in setting up a command post — That has become history, the events of that night, a facility with 747 (an easy number to remember) inmates had a riot, not a disturbance, but a major riot.

As we worked there and I watched the cooperative spirit of the various agencies – the Military Department, Public Safety and Civil Defense, the communities in the area around Hominy. As I watched the private sector — the Red Cross and the others, the Salvation Army and the others that were called and the spirit of the federal people and the private businesses that loaned us a helicopter with a light, for example. As I watched everybody come together in a sense of emergency I was proud of the way the agencies and the citizens responded to a crisis.

We had the frustrations everybody else had in asking 'why, what is going on?' Frankly it was added to by the lack of communications — phone lines going out. We were in the middle of a phone problem. I don't know if I can say what caused it, but we were constantly being disconnected, several times being disconnected and because of the circuits being busy we had difficulty re-establishing contact and at times, at Hominy, while they were in control at the scene or we're trying to bring it under control, we here at the Command Post had difficulty in even knowing what was going on. Press was gathered there and we couldn't even coordinate what we would be releasing because we didn't have the same information . . . very frustrating.

Questions were asked for example like 'Why didn't we move in sooner, why did a riot take place and why did it take so long to bring it under control?' Then you take into consideration that this was in darkness, that night had fallen and power was out. It was extremely difficult and I would not, for a matter of fact, order the correctional officers in under darkness not knowing what weapons, if any, inmates had. There were rumors circulating about automatic weapons in addition to the homemade knives and other weapons that they're able to make. So, I would not send the guards in because we had no lights and I wouldn't send them in because of darkness. Then we had the other problems of course and people would ask 'Weren't the guards present able to quell the disturbance?' Keep in mind that correctional officers (inside) do not carry guns. One of the premises is that you do not carry anything on your body that an inmate wants, be it a weapon, an automatic or a night stick, anything that would be of value to them – because then you make yourself, as a hostage, more valuable to them or what you have more valuable to them.

And so as you face today the area of corrections, the corrections officers on the ground were not armed, etc. Darkness, etc. Lack of water pressure was a problem in combatting the fires. And so we had an evening of frustration and in the light of day I would like to say that I'm glad that no correctional officer lost his life. I regret that even one inmate lost his life. There should be a thank you expressed to the employees of the Corrections Department for their performance at that site. I think they did a good job and I commend them for it.

Several things have followed since August the 29th that you've already read about. I just want to repeat to you and the people of Oklahoma the attitude of this administration con-

cerning particularly, Conner, at Hominy. That is, of course, that those who messed it up should clean it up. Inmates were returned as quickly as possible to begin their part of cleaning up the facility. I did not want the correctional officers cleaning up the riot mess, I wanted the inmates cleaning up the riot mess. There were some areas the correctional officers cleaned up because they wanted to or we determined it was appropriate, like the office or administrative area.

Next, it was asked in a press conference whether or not I would give early commutations because of the riot and overcrowding. I want to repeat what I said there. I will give no early commutations because of the prison riot, period. I want to point out that we are going to press every charge possible against any known leader or participant in that riot. I want you to know that there is no excuse for the riot regardless of the situation, in my opinion. There is no excuse and we should make one point clear if we make no other point clear today. Rioters will not be rewarded. That just has to be the basic premise. Some additional information of which I have not spoken previously until a legislative committee meeting the other day is that I've directed my staff to pull from the pardon and parole recommendations any inmate who at the time was at Conner. I will not consider any pardon and parole of any inmate already recommended by the Pardon and Parole Board until we've ascertained whether they did or did not participate in the riot, to the best of our ability. I've also instructed them to put on the cover sheet of every parole that comes to me a notation, of any time there was a suspicion of active participation in the riot. There must be a clear message. That message is that incarceration is incarceration, that we tend to enforce the incarceration rules and that we do not intend to reward rioters.

Now the question comes up, 'How did it happen?'

I know this is old history. You've heard us say repeatedly this was a model institution. Well, let's take the state of the arts of the seventies. It's not model today because things change each session, things change each interim, things change from building to building. If you built a dormitory at a university today it would not be the same as one you built three years ago. The same thing would be true three years from now. Things change. But the state of the art of the seventies said that was a model prison. The National Institute of Corrections sent three of their people in that they paid at their expense. They hired three consultants and they went on-site and made observations. They said 'Structurally, it is a good facility'. The damage, while it may be excessive like $3 million or more, that structurally the facilities are there and are strong and are 'fireproof'. The basic fire damage was contents and in one or two buildings which were not of the same structure as the housing units.

Then the question is asked again, 'How did it happen?'

'Was it idleness, was it that there was an hour and a half lockdown and it was over 100 degrees, was it because they ran out of barbecue beef and 35 were told they were going to have to eat hamburger patties?'

'What was the cause?'

Well, I think you had a combination of factors that came together. Everyone tells us it was the most spontaneous and not preplanned disturbance that we've had and that it just happened. Of course it happened and we are in special session today.

We're in special session because in my judgment, as Governor, there is an emergency. An emergency exists in the corrections system probably in more ways than one, but one particularly that we can address today. As we moved the 747 inmates from Conner to the other facilities we obviously added

additional people at those facilities. We need to immediately, with all possible haste in this crisis, get as many back at that facility as soon as possible. First of all that's where they ought to be and secondly we need to reduce the problems they are contributing to the other facilities. The emergency is to get them back quickly. The emergency is to get them back quicker than would be allowed under the normal procedure and thus, a special session to take special action. Then, when I decided to call you into special session for special action I decided to make some other recommendations and issue them in the call, because in my opinion they are issues that need to be addressed at this particular time.

In the call I have given you basically four subject areas. They include:

I recommend that you amend the provisions of the Oklahoma statutes relating to procurement of public construction contracts and consultation services and competitive bidding. There is an estimate that if we can waive this one time, all the requirements that we have in a timetable that we can save up to 130-150 days and getting back as quickly as possible as many as possible inmates to the facility. I recommend that be the first thing you consider. To me, that's the strongest point of the call — that we waive that and let the Office of Public Affairs handle the situation as quickly as possible.

Two, we obviously have to have some funds. Not that we want to go in and build a better facility to the extent that we're going to dress it up. But even just to return it to the situation where it was, to return it to a secure facility, to make it where they can live there, we have to spend some money. And that rubs my craw just like it does you and the taxpayers of Oklahoma that we have to pay out money to replace something that convicted felons have destroyed. And yet realize that that's the only source of funds at this time that we can use. And so, if we want to rebuild it we have to use these funds. And so, I am asking that you authorize amendment to the provision of the law that created the special sinking reserve fund. And that you would authorize the State Treasurer to utilize excess public funds available so that we can have that money available for use. That's the second action that needs to be taken. That from that we should set up the mechanism where we can authorize the Treasurer to transfer those funds. And then with the funds what we would consider using them for. That's the next recommendation.

So that we do not get torn between mid-term adjustments and the school children as regards to trying to take care of the school districts as we are committed to do traditionally over the year, that we set aside the first amount of money (I've recommended $11 million dollars into the mid-term adjustment fund, which is the same amount as was appropriated last year) so that we set that issue aside. We don't know yet how much it will be, but we know that that's the amount that was appropriated last year in the mid-term adjustment. So let's set aside that $11 million and still keep it there so that when you return in regular session it is there for the mid-term adjustment.

Next, I recommend that you authorize from that fund (and the key words are 'up to' or 'not to exceed' $5 million dollars) for that as may be required for renovation, repair and construction of the Department of Corrections facilities. You need to divide this into two subjects and that is what we want to do at Hominy and what we might want to do at some other facilities, right now, from our experience at Hominy. The figure of $5 million dollars is a figure that is just an estimate that we think would cover so not to exceed that with some flexibility of determination within there.

For example, I'm not sure, nor do I think in this week's time that we could be sure exactly what we wanted to do at each facil-

ity. Give you an example, the NIC people came in and said, "One alternative is to build it back like it was." Now all of us have had insurance policies in our lifetime and we do not have an insurance policy on our correctional facilities, but you've had insurance policies. And you can get replacement value and then you can decide for yourself if you really want to replace it or if you want to replace something like it or if you just not want to replace it at all. What I'm suggesting to you is that while we appropriate the funds that we might consider the fact that while we are replacing it we might not want it exactly as it was. And there are some very definite for instances, the glass. The NIC team which was an architectural and an electrical and structural engineer (the three people) said that there was too much glass. They said that Oklahoma was justifiably proud and want to use this term "justifiably proud" of the facility that we built in the 1970's. That it was a good facility. But in today's standard it's too much glass and from the day that we began it was the improper glass. It was the wrong glass to start with and even if it had been the right glass, there was too much of it. And so, the glass that separated the inmates from the corrections officers was an easy goal to break for the inmates who decided to riot. They've recommended that instead of replacing it like it was, we would consider raising the wall, reducing the amount of glass and putting a more expensive glass in that is the nonbreakable type. If we decide that is correct for example, at Conners, that is a mirror of other institutions that we have in the system and that if we want to put in new glass for example, at the Hominy facility, we might want to at the same time issue the same judgment call and change the glass at the other facilities. I think we need to have some flexibility there.

They told us that we might want to look at the mechanism to lock up the cells. That 'yes' you could build it back like it was. But when you got in there you might want to change the mechanism. And some manner might cost a little more, some manner might cost a little less. And I concur in their recommendation that we use flexibility as much as possible. And I recommend to you and I'm telling you that my plan is that the construction manager would be the Office of Public Affairs and that that office would handle through subcontracts the work that we decided we need up to $5 million dollars. Not $5 million dollars but as needed there at Conner or in other facilities based upon security. I would not take any of that money in the up to $5 million dollars and put it in any other facility that didn't deal with the security lesson learned from the Hominy incident. I recommend that you allow us to do that. And the NIC people also said that while they wanted to say the structural facility was a state of the art, they wanted to also say and they will so say in their written report that the employees performed and responded extremely well. That we were fortunate as far as the loss of life was concerned in that major of an incident.

Next, I recommend to you that you then authorize the Office of The State Finance to transfer any balance of monies which would be around $21 million from the special sinking fund to the general fund. Now the reason I've recommended that is the same recommendation that I made in the previous session, that I recommended that we look at all possible funds. I recommended this fund last session that you look at all possible funds to delay or avoid if at all possible a tax increase or a failure in revenue or a reduction in services. It just seems to me that as we look at the economy that has ever so slightly made an upturn, that each time that we can buy a month or buy a fiscal year we have made progress to the taxpayers of Oklahoma by resisting a tax increase as long as we can preserve the progress we've made in the previous four years. And while we've had a slight reduction in many areas I am proud that state government has tried to tighten up and that just through the freeze – through the freeze that we have estimated that we put into effect in November and agencies not rehiring

in cases where they did not consider them essential or extremely important, we've saved approximately $29 million dollars by the freeze. And that we've told agencies to build if at all possible a cushion for a possible failure of revenue and shortfall sometime in this fiscal year. At one time it was predicted it would be September and it wasn't. October and it wasn't. More than likely it can be November or will be November. It will be November – our failure in revenue or shortfall, whichever term you might want and again in December, that is determined of course upon any upturn that we have which has been slight. Employment is looking a little bit better in Oklahoma, etc. So I'm recommending to you that while we are in special session because of the emergency there equally is an opportunity to once again consider the possibility of putting this money that is in the fund and awaiting you to return in January, to put it in the fund now to be used for the November and December allocations. I consider it important that the government like everybody else in tough times would look around and see if they have funds they can use – that doesn't require a tax increase and doesn't require us to take a major reduction in services. And to me that is something you should consider. I think that you need to take action now. This is a special session for a special problem. The corrections facility at Conners needs to be immediately made available to the Corrections Department for the use within the system. I equally recommend that you consider waiving the rules that you consider authorizing the Treasurer to transfer funds from the bond sinking fund that we do what we can at this time because there truly is an emergency.

Thank you very much."
