MESSAGE OF GOVERNOR GEORGE NIGH

Lieutenant Governor Bernard
President Pro Tempore Randle
Speaker Barker
Members of the Second Session of the
Fortieth Legislature

I want to welcome all of you back to your home away from home to tell you that I look forward to working with you as we try to concentrate on the solutions rather than the problems of the state of Oklahoma; and to tell you that when I checked the weather this morning it was cold enough that we could have had an inauguration.

I was thinking about how things have happened and how things change and I wanted to announce a couple of things in advance before anything serious.

The budget books are out. Each year we get in a great argument as to what the cover of the books should be. We've done OURED and COWBOY ORANGE, we've done state bicentennial green. This year the budget book cover is in honor for the first time of members of the Legislature. In recognition of George Osborne and Dale Patrick they are in black and blue.

I wanted to note with interest that Senator Randle is having a poor boy bean dinner

tonight. Those of you who have not been invited this time, let me tell you that you're welcome. I presume he's going to have enough beans for everyone, it's during the Speaker's reception I noticed with a great deal of interest (although I'm not the one to invite you — if he invites you, you go) — but I did notice with a great deal of interest that he has announced, Senator, that there will be nine percent less beans this year. But if you had listened to me, like I told everybody else, if you had carried forward 4.5 percent, we wouldn't have had to cut back so much tonight on your beans.

I wanted to tell Speaker Barker that the legislative leadership breakfast still goes Mr. Speaker, even though you wanted to do it by telephone conference call. We're still going to meet at the Mansion because if we went by telephone conference call I would never know whether it was you or Larry Stein from KTOK.

I want to tell the Lt. Governor how good it is to see him. It's so seldom he and I are in the country at the same time.

SHORT, PRODUCTIVE LEGISLATIVE SESSION NEEDED

But here we are in a session that hope that can be addressed with two goals. Each is dependent in my opinion on the other. We should not have one without the other. I think the two basic goals of this legislative session should be short and productive. You cannot be short without being productive. You should not try to be productive without being short. One should go with the other. If we address the issues from the very beginning, as I know that you can because I know each of you personally and your dedication to the state of Oklahoma, I think with the realization that this state has tough times, that we can perceive ahead — we can go into the future working together and trying to do it productively but as I said in a short order.

LET'S NOT JUDGE MOTIVES OF OTHERS

I also would caution us as we go through life to look particularly in the political life, not to spend so much time judging the motives of others. Each of us should speak for ourselves as to what we really mean when we say something and what we really mean when we propose something. Only each of us individually can actually vouch a hundred percent sure of what we really mean when we say something. I do not think that in this legislative session or the executive branch of government that we have the time to spend questioning the motives of each other. We should spend our time trying to work together in a cooperative spirit.

STRONGER SENSE OF COOPERATION

Cooperation comes with four short sentences. Cooperation, that with each recognizing the problems. Cooperation with each trying to understand it. Cooperation with each trying to resolve it. Cooperation with each trying to help. We should address this tough time budget, this tough time year with a stronger sense of cooperation that we've ever had at anytime in our personal or political careers.

BALANCED BUDGET REQUIRED

I'm the first to point out that not all good ideas trickle down. Many if not more percolate up. But the Constitution requires that the Governor submit a balanced budget. The President has a little luxury that I don't have. He doesn't have to balance his submitted plan. Congress has a little bit of luxury that you don't have. They don't have to balance their budget. But here in Oklahoma, thank goodness, and thank the good common sense of the people of Oklahoma the Governor is required in January to submit a balanced budget. The Legislature is required to have that budget balanced when

they adjourn. And if it isn't balanced we go through the constitutional process of reduction of expenditures.

We should all be committed to working together, realizing that we're not supposed to have all the answers at the outset. One of the most frustrating things that I have — I think that you've probably also would have — is people ask you about how do you feel about a subject. You'd like to have a little reservation. You'd kind of like to know what the facts are. You'd like to withhold judgment a little longer. Remember the press of time to give a definitive answer. Many times we're called upon to make a statement that in retrospect might not have been the exact correct statement we would have made. So I think we should understand that as I submit my budget to you — it's not that that's the answer, it obviously is not. That (the budget) is a viewpoint, a blue print, a working plan, a foundation upon which to build or to correct or to change and then jointly together in a cooperative spirit trying to address a solution to the problems that this state has. None of us has the perfect answer. I don't try to have. But I'm required to submit to you a budget and we should go from there and work out the best that we can.

CONSENSUS — COOPERATIVE SPIRIT

We should also try to arrive at the understanding that consensus is not necessarily a dirty word. We don't all see things the same way. I've heard Senator Stipe several times in his humor talk how the chandelier and about buying a new chandelier broke up a church. One third couldn't spell it. A third couldn't pronounce it and the other third what they really needed was a new light. And I think that we are at that place that when we say we have a problem or solution we sometimes get divided into the fact that well here is this side and here is this side and here is this side — when the main goal

should be from the very beginning trying to work toward cooperative spirit and a consensus and something that will pass and something that is acceptable and something that is fair and something that can be signed.

**FY 87 BUDGET 9% LESS THAN
CURRENT BUDGET**

The budget that I submitted to you is a factual budget based upon the realization that we're going to have 9% approximately less to appropriate next year for operations than we had this year. That is the bad news. The good news will come when we try to preserve as much of the progress as we can that we have made through dramatic years in this body, in this joint effort that you've had as Legislators and as a Governor. And I might add that with the overwhelming support of the majority of the people of Oklahoma, all be it there are those who are not satisfied whatsoever and basically there will always be those who are not. We will not be satisfied with our end results if we demand perfection. We should work toward perfection, we should demand excellence.

The budget that we have submitted to you takes a broad brush approach. There is going to be 9% less — that means that we have to reduce appropriations. There will not be in (anyone's opinion that I know in this chamber, either speaking to you or listening to me, on the floor or in the gallery or in the media through the press) and I know of no one who is advocating a tax increase. Therefore, we must live within the revenue. The revenue that has been at this time estimated officially — but knowing that that figure will not be exactly correct because the people of the State of Oklahoma changed the Constitution at our request and said that they will give us a later update in February as they continue to reevaluate the conditions economically of the State of Oklahoma. As we check the price of oil, as we see what the farmers are doing, as we

see how the sales tax collections are coming in, more near the end of a session we can get a more update figure upon which to base our projections and that's as it should be.

**AGENCIES SHOULD TRY AND SAVE
4.5% THIS YEAR/CARRYOVER**

So we have taken the concept of a broad brush basically, that if there is to be a reduction it should be a reduction that is born to some degree by all and in as many cases as possible fairly and equitably, equally by all. But if we talk about a 9 percent reduction, we really should talk about that at my direction agencies have been requested to try to save this year 4.5 percent of their expenditure that they could carry forward in the next session of the Legislature to address a 9 percent reduction; and if they are able carry those forward those agencies will not really have a 9 percent reduction next year they will have a two year budget basically at a 4.5 percent reduction! Almost unanimously, agency directors have told me that they can leave within that 4.5 percent projected reduction over two years, with exceptions, but basically they can live within it — if they are given the necessary flexibility to administer their agencies and if they are not penalized for having saved money. The key to this concept is that no agency should be penalized for having saved money to try to carry it forward. There are some exceptions, and you may have others and you may not agree with the ones that I have pointed out but for openers: those that are very, very small (agencies), that are labor intensive, where a large reduction would virtually wipe out their ability to be of service to the people, should not in my opinion, bear the full 9 percent. It is peanuts in comparison to the overall budget but it is major in comparison to their budget for providing services to the State of Oklahoma. Some of them it appears that we did not give the 9 percent reduction when we did. Some of the smaller agencies we have said well 2 percent they should bear in it so

you will see some of these that are smaller, I have said well 2 percent here and 2 percent there. Just so that they will share in the reduction. Others you will notice for example, Corrections really is the same reduction except that once we had taken the reduced amount that we are recommending for other agencies we had to plug back in the estimated growth in population within the Corrections system. The same within Mental Health and those departments. So in some cases when it appears that there has not been the reduction, there has, but we had to put back in them in our budget recommendation, programs that we thought should be there. For example, if you mandated a program and funded it only for six months last year and it is to be fully funded this year, it stands to reason that they have to the original 100 percent appropriation of that with a reduction within that. So there are exceptions.

EDUCATION REDUCTIONS NECESSARY

In my budget I have at this point recognized that while we want to do more for education there are those who say don't cut education at all and as much as I would like to do that and as committed as you have been to education, and I congratulate you again, no state in this nation has done more in the past two or three years for education than has this state through particularly your leadership and our leadership through the Governor's Office and the people's support. But if you obviously realize from the beginning that when such a large percentage of the general fund revenue and other revenues go to education that if they take no cut whatsoever it would be devastating, you could wipe out many other facets of state government totally and not be able to still address the needs of education. And so, we have to say education must bear some cut.

My budget recommended to you today starts out with education at the same percent

as almost every other agency — that is at the reduction the carry forward 9 percent reduction, but with the understanding that if there is new money that becomes available, either through certification or if new money becomes available through some other source, that all of those monies would go to education — at the three levels with our goal to find that money. But if we treat education entirely different and cut nothing there we will throw a lot of agencies of government into a frenzy that would not be able to deliver for the people.

OMNIBUS BILL RECOMMENDED FOR EARLY PASSAGE

As we work together on the budget and with the latest information there are other issues that I think that we need to address. In regard to the budget, the Omnibus bill. I recommend to the Legislature that you immediately make the fiscal year appropriations for this year carry forward into the following year so that those agencies can have whatever they gave saved to address any shortfall that they might anticipate in the future. I think that should be passed early on so that we can see how much money the agencies really have.

ETHICS COMMISSION NEEDED

I call upon the Legislature in response to the Reform Commission that I appointed, I call upon you to put back upon the statutes of the State of Oklahoma an Ethics Commission. An Ethics Commission that would have some power of subpoena upon a certain vote. An Ethics Commission that would look at each of us in the elected and decision making process in state government to make sure that the people can be assured that our conduct is above reproach. Most people with whom I have ever come in contact in government are very ethical. But to reassure the public there is nothing wrong then, to step forward and say we have no objection whatsoever to certain being considered ethi-

cal and certain records being looked at I strongly suggest you address early an Ethics Commission.

REFORMS SHOULD BE CONTINUED

I suggest that you continue your efforts of reform. The people don't realize how many reform efforts either by Legislative action or administrative action by executive order or by rules and regulations that have actually been put in place. I recommend that you continue to look at all the reform measures that we sent to you last year that have not been enacted. And that you add any others to that that you think should be considered as we try to address the continued need of reform of state government. I point out many times that reform will not necessarily produce a lot of money, it may and it may not. Much reform costs money. Reform in education the past two years has cost a great deal of money, well worth it. But there are some reforms that can be passed and enacted that can bring about some savings I think we should always address those — such as consolidation of any agencies, elimination of duplication of efforts whatever what that might be and we will be giving you specific recommendations on that later.

HORSE RACING ISSUES SHOULD BE ADDRESSED EARLY

I hope very sincerely that the issue of racing can be addressed early in the session. The people of Oklahoma have voted for horse racing in this state. We did not unless we did it individually, they did. They expect to see as soon as possible within reason, an application granted for racing in this state and I urge that whatever action this Legislature is going to take in regard to racing that it will be taken early in the session so we can get behind us the divisive issue of where there is or is not to be certain racetracks in this state.

RIGHT TO WORK SPECIAL ELECTION

I think and I call upon the Legislature to put another issue behind us by submitting early to a special election a constitutional question to the people of the State of Oklahoma on right to work. The people of the state can decide that early in a special election I would hope by April so that we can go forward in our efforts knowing whatever that game plan is. I basically have never opposed the people's right to vote. I can't understand, in most cases, anybody who does not want to give the people the right to vote. This is a democracy, they can't all come to the Capitol. So in most cases, those cases that we can or that are so divisive, there is no reason not to submit it to a vote of the people. Just to say the Legislature is supposed to do that doesn't address it. The people, the founding fathers of this state, put into the Constitution the initiative petition and the referendum concept. From 1907 on they said the people in certain circumstances do have the right and should have the opportunity to vote, I urge you to submit that and get that behind us so that we can work on other issues.

COMPLETE THE PROJECTS

I also call upon us to try to complete any project that has been started in my administration that I consider a political promise; such as the Veterans Centers at Claremore, and the remodeling at Talihina, in addition to the various road projects I personally will be working on anything that can be constituted as a completion of the program will be one of my goals.

ECONOMIC DEVELOPMENT OF OKLAHOMA

The buzz word for this session, the catch word seems to be, the slogan seems to be, the interest seems to be those great words (of which I totally concur) economic devel-

opment and diversification. I want to point out from the very beginning that this Legislature and previous Legislatures and this Governor have been very committed to economic development; and contrary to the perception that some would like to give about you and about me that we're anti-business, this Legislature, this administration is extremely pro-business.

I am pleased that the Price Waterhouse study that you authorized in conjunction with the State Chamber of Commerce said in comparing the cost of doing business in the State of Oklahoma to all our competitors in the surrounding areas, that we are pro-business. We have adopted through the vote of the people when we did the 'Yes, All Three', efforts to improve the economic conditions. Our tax base, although we've had to raise it, still remains among the lowest in the country. But you and I know that we're not just getting on the bandwagon of economic development. We've been working on that for years. I personally have been involved in it, and from my 1979 first State of the State address, I said, 'The key to continued prosperity for Oklahoma's economy is continued growth. People repeatedly asked me in the campaign what is my number 1 priority. Was it roads? schools? public service? My response as a candidate was that my number 1 issue and priority was the continued economic growth of the State of Oklahoma. People at work is the goal of the Governor.'

In my 1982 State of the State, you will see in my budget message, you will read in the budget book, and you will hear me expound from this and other podiums across the state that our number 1 goal has to be economic development.

MORE PERSONAL INVOLVEMENT BY GOVERNOR IN 1986

And so we've been working on economic development and diversification. This year

is an unusual year, 1986, in that a governor is not running for office. It's been a long time since a governor who was in office has not been involved personally in a campaign, either for re-election or perhaps in an effort to go to the United States Senate. I say here today as I've said forever, that my days in McAlester, I have no love, no desire to go to Washington. 'I ain't running for nothing.'

There is a year that I would like to give literally every waking moment to what I like to do best, and that is to sell and to promote the State of Oklahoma. I am ready to give that. If I am not involved in a lengthy legislative session, if I am not involved in divisive issues before the people; in a very unusual situation, I can, without seeking political gain go across this state, this country, and around this world trying to promote the State of Oklahoma. I will go anywhere, anytime, any place, to try and promote this state and create jobs. If that can be my main focus, and I ask you let's try to make it short, let's get the votes behind us, let's free up these people to work on other issues. Let's let the agency heads, for example in Economic Development, work on other things than reports. Let's let Tourism try to get guests in here. Let's spend our time as much as possible, being short and productive and then trying to function as a government.

NINE IDEAS FOR ECONOMIC DEVELOPMENT

I submit to you nine ideas for economic development in this session (and that doesn't mean there aren't others) but nine that I want to give you that I think are very important.

NUMBER ONE: WORKER'S COMPENSATION REFORM

The number one issue of economic development is changing, modifying, improving

the Workers' Comp law in the State of Oklahoma. That should be our goal with the understanding from the very first day it probably will be as difficult to arrive at a consensus as liquor-by-the-drink was. It will be difficult to write that piece of legislation. We need to start on it early, we need to get it out early, with this one agreement in the beginning we're going to do something about. And we're going to go from there.

NUMBER TWO: EXPAND BOND LIMITS

Two, I ask us to ask for a change in the bond limits in the Oklahoma Industrial Finance Authority to raise it from twenty million dollars (\$20,000,000.00) to perhaps seventy-five million dollars (\$75,000,000.00) to allow us to go out and solicit even more aggressively business and new business and expanded business and existing business growth in the State of Oklahoma. If we can provide additional capital, there are firms who want to begin in Oklahoma, who want to expand in Oklahoma, who want to move to Oklahoma. If we want a tool to be competitive by increasing the bonding indebtedness of OIFA to some amount, I recommend \$75,000,000 would help.

NUMBER THREE: VENTURE CAPITAL

Three, within that, that we would allow a certain portion of those bond programs to be set aside for venture capital. We have talked about venture capital, we have looked for sources of venture capital, venture capital means that it is a risk, a higher risk than others, but we can prove as other states before us have been proving that you have to take risks to be successful. And through a successful venture capital program, we can help economic development.

NUMBER FOUR: MAKING SCIENCE & TECHNOLOGY COUNCIL PERMANENT PART OF STATE GOVERNMENT

Four, I hope that somewhere we make Science and Tech Council a permanent part of state government. At your direction, I appointed an advisory council of Science and Tech. They've been working for some two years. I think it's time that we underscored our commitment to that in a permanent way and make that a permanent part of state government.

NUMBER FIVE: RESTRUCTURING ECONOMIC DEVELOPMENT DEPARTMENT

Five, it's important that we send forward a strong message that we are going to be aggressive, and to do that I think takes the commitment up front to restructure the Economic Development Department of the State of Oklahoma; to make it attuned to 1986 and not to the tune necessarily of 1979 when I came in or 1982 when I was re-elected but today with you and I together in 1986, new ideas, restructuring. It will take additional funds, new programs, but we need to restructure it keeping in mind this — that 70-75% of the chance of economic development of the State of Oklahoma lies in small and in existing businesses already here, already doing business that want to expand to hire more Oklahomans.

NUMBER SIX: ADDITIONAL PRESENCE OF STATE: INTERNATIONALLY/WASHINGTON D.C.

Six, that we create additional presence of the State of Oklahoma. I appreciate very much that you have authorized our first out-of-the-state in the Orient. The Lieutenant Governor, the Speaker, the President Pro Tempore, and I and others, the committee that you have in the Legislature, have been

working hard on international efforts, and the criticism that came through the travel and the expenses that we've been making on international "junkets" literally stopped dead in its tracks in the Capitol Blue Room when Hitachi announced that it was coming to Oklahoma.

And may I underscore to you that Hitachi said that they would never have come regardless of any incentives, regardless of any efforts, if they hadn't of liked the people with whom they had been dealing. And how tough it was for us to sit quietly and take the flack that was coming and already knowing that Hitachi was coming, and yet because we were committed to privacy and secrecy of the announcement, we have to take at many times what I think was the abuse of people who were criticizing us, and yet we already knew that the proof of the pudding was on its way.

We can do even more, not just in Japan, but the Peoples Republic of China is a great opportunity for us; India. As Governor, I led the first trade mission ever of any governor of any state to India, and we've already signed contracts. We need a presence. We need a presence in Europe. We need a presence in Washington as a state. Major contracts come out of Washington, D.C., either from the government or the major corporations that are there. Previous years I have called for an office in Washington. We haven't been able to do that. I hope with the success of the Japanese office and our international efforts you'll — see as other states have seen — thirty states have a presence in Washington. Thirty states have international offices.

NUMBER SEVEN: AGENCY TASK FORCE ON ECONOMIC DEVELOPMENT

Seventh, I hope by Legislative resolution you will (I can do it by Executive Order but I would like to show the cooperative

strength) I would like for you to create, direct the Governor to create an agency task force on economic development where we call upon every single agency in state government, regardless of its mission, to be a part of the economic development of the State of Oklahoma. That their projects that work and contribute to economic development should be coordinated by a group effort to let the left hand know what the right hand is doing. I'd ask for a resolution to do that. I could show the strength of not only the Governor but the Legislature.

NUMBER EIGHT: EDUCATION ECONOMIC TASK FORCE

Eight, I would hope that you would do the same thing to create an education economic task force. That the three levels of education — common, higher, and vo-tech — be directed by Executive Order and Legislative resolution to ask every institution of education in this state to see how they can address economic development in this state in a coordinated effort. Not all twenty-seven colleges and universities going off different, not every school district, not every vo-tech district, but in a coordinated effort.

NUMBER NINE: INCREASED ECONOMIC DEVELOPMENT & FUNDING IN EVERY AREA

Nine, increased funding for economic development in any area. That is not in the budget. And you'll say well, why isn't it in the budget. A nine percent reduction is a little more than is actually needed to meet the projected shortfall. So there is a cushion there for emergencies and for needs in other areas beyond that. For example, mid-term adjustments, for example, the short term — long term disability program that is mandated by this Legislature to go into effect in March. From that cushion I would hope that we would make increase appropriations to any of the areas for economic development.

RECOVERY IS COMING: LET'S SPEED IT UP

Well, let me close. It's going to be a closing that I have thought about for a long time and it's going to be a little longer than most closings because I want to make about four points, but it's a close because it all comes together in this conclusion. Recovery is coming, it's coming. There's good news. Hitachi, Hilti, Telex, Wortz Crackers to Poteau, from 250 to 500 jobs in LeFlore County, the coal business is trying to come alive and I could name others, but recovery is coming. The question that faces you and me and the question that faces the people of Oklahoma is what can we do to speed it up. There is light at the end of the tunnel, there is hope there. There is economic recovery. 1986 can be known historically as the year of economic recovery in Oklahoma if we can speed it up.

There are some things we don't have anything to do about: OPEC; the plight of the farmer which my heart bleeds and I regret that there is not more at the state level that we can do to help the farmers; we can't help the national debt and the interest paid on that, wish we could. But we can help when it comes to telling our story. But before we can sell others, we must sell ourselves.

WE MUST SELL OURSELVES

Ladies and gentlemen of Oklahoma, I made my first industrial mission on behalf of the State of Oklahoma as the Lieutenant Governor-elect in 1958 to New York City. And because we really wanted to impress people that we were a first-class state, we rented a room at the Waldorf Astoria. A room. There were 15 or so on the mission and we stayed down the street about \$40.00 a day away. We kept one person assigned in the hotel room to answer our calls. We left our cards and 'if you need to reach me, you can get me at the Waldorf.' Then they

would call down to our little sleepy hotel and say hey, call this number, you got a callback. We were trying to be classy because under the state travel, we couldn't stay up there. We were a little bit embarrassed to tell people where we really were staying — not personally, but representing the state. But I'll never forget the day I learned the speech. I learned 'Hi, I'm George Nigh. I'm from Oklahoma. I want to tell you about our work force. I want to tell you about our state. I want to tell you about our tax rate . . .'. I had it all. I had my right hand out and my hearty handshake and my claps on the back. I'll never forget, the first response wasn't 'have a cup of coffee' or 'glad to meet you'. The first response (and I repeat verbatim) 'What are you doing here trying to sell me on Oklahoma? Why aren't you in Oklahoma selling Oklahomans on Oklahoma?' And he recounted to me a story how he in his travels had come to Oklahoma prior to 1958 and how he was amazed at what little enthusiasm our people had for our state. I know there will be people who will criticize me for that, but that's a true story.

WE CAN'T SELL OTHERS UNTIL WE'VE SOLD OURSELVES

1984, twenty-six years later, with your authority we signed a contract with Morgan Grenfell, one of the world's largest financial institutions in London, England, to do a study of the image of the State of Oklahoma. Their first was verbal. It was 'why are you Oklahomans so critical of yourselves? Why are you so hard on yourself?' That was their first report. That outside of this state we did not have that image so bad that we thought we had. That the impression that we had of bad image was confined within our state boundaries. That's twenty-six years later. I tell you today, ladies and gentlemen, regardless of what we do in the Legislature and the things we passed, the programs we put together, the arguments that we get into, and I call upon the people

of Oklahoma to realize that we can't sell others until we've sold ourselves.

STAND UP FOR OKLAHOMA

Our mission should be to stand up for Oklahoma, to stand tall for Oklahoma, to stand proud for Oklahoma, and I call upon the three and a half million citizens of this state to yes, have our differences of east and west, of rural and urban, and Democrats and Republicans, and whatever else of division you want to put in there, but not so much that it's so divisive that we can't remember that we're Oklahomans, that we're members of a team, that we're lining up together. And if the State wins, we all win.

And I call upon every community to this year, 1986, to make it the year of pride, that every community have an event around which they can dwell upon their local accomplishments, local citizens, and the pride and love that they have for their community. I call upon this State to make 1986 the re-birth of that Sooner spirit, of that Cowboy-fighting attitude, whatever you want to call it. That we stand tall for this state.

PRESS SHOULD LEAD THE WAY

And I call upon the press, I call upon the press to lead the way. Yes, in reporting the news, as bad as it might be, but through their analysis and their editorials and their feature stories that they would highlight those things that can rally these people and this state together in a sense of pride and accomplishments and challenge and that the report in boxes said analysis or good news for today or something of which to be proud. Here, let's go for Oklahoma. Go for it. This is our state. The press can lead the way and should lead the way because they reach everybody when nobody else does. And I call upon them.

WE SHOULD THINK POSITIVE

Dr. Norman Vincent Peale, in *The Power of Positive Thinking* — I've made a

New Year's resolution. I ain't going to have no negative thoughts. And I've already broken it. I have made a New Year's resolution that I am going to think positive in the solutions and not the problems. I'm going to think positive in the future of this state. Dr. Norman Vincent Peale said, 'If you think negative thoughts, you draw negative reaction.' Send out positive thoughts and draw positive reaction.

There's not enough time for us to try to argue and belittle each other, to be critical beyond what the reason is, we should think positive, we should think positive about this state.

Oklahoma is more than OK, Oklahoma is GREAT, and it will only be great when we think it is great. It will only be great when we act like we think it's great.

I went to both bowl games. No sacrifice is too great for my people. But I went to both bowl games as the Governor because I thought it was appropriate that the Governor ought to be there. That drew more national attention, the Cowboys and the Sooners, more national attention than literally any other action of the state and I want to use the spirit of champions.

Barry Switzer said something very unusual. He said that fate drew them to that point. Have you read the comparison between Switzer and Bud Wilkinson? It's eerie. Going into the Orange Bowl, playing for the national championship, Bud Wilkinson and Barry Switzer. Barry had one less win in his career than Bud Wilkinson did. They had the same number of ties, and Barry had one less national championship than Wilkinson did. And when OU won the national championship, it ended up that Bud Wilkinson and Barry Switzer had the exact record of the same number of wins, the same number of losses, the same number of ties, the same number of national championships, the same number of Heisman trophy win-

ners, the same number of the Outland trophy winners. Had they not won that game, and Barry said that it was fate that brought us here. Well, I don't know what fate had to do with Tennessee, but, you know, . . . Isn't that eerie? But frankly, folks, fate doesn't get you too many places.

POSITIVE ATTITUDE IS INGREDIENT

It's kind of like some people say I'd rather have luck than hard work. Well, I always noticed that the harder I work, the luckier I get. Fate doesn't bring you too many places. We can be the people who maneuver and manipulate and create our fate. In the spirit of 'We're number 1', in the spirit of teamwork, in the spirit of champions, in the spirit

of going out for this state in a team effort, I call upon not only you but the people of the State of Oklahoma. Regardless of what we do in the Legislature, the number one ingredient that this state needs is attitude and pride and positive thinking. Oklahomans, stand up for Oklahoma. Stand proud for Oklahoma. Stand tall for Oklahoma. 86 is our year. Thank you."

A resolution recognizing the potential economic benefits to the State of Oklahoma from the Edward J. DeBartolo backed Remington Park proposal; endorsing the application; encouraging its development; making a permanent record; and directing distribution.

WHEREAS, development and operation of a major horse racing facility such as the Remington Park proposal by Edward J. DeBartolo's Oklahoma Racing Associates will generate direct benefits to the state of immense proportions; and

WHEREAS, jobs will be created immediately in a wide variety of industries infusing millions of dollars into the economy of the state in the form of salaries and wages for Oklahoma's willing and able work force; and

WHEREAS, the construction industry will experience a much needed boost due to construction of a racing complex and its wide range of interrelated facilities and investments in engineering, architecture, equipment, materials and expertise; and

WHEREAS, a racing facility attracts visitors from out of state who avail themselves of lodging, food service, shopping and other entertainment and recreational services or opportunities while they are here; and

WHEREAS, the tax base created by such a major development can support essential public services such as better schools, roads, law enforcement and other necessities for a high quality of life; and

WHEREAS, Oklahoma's entrepreneurs will recognize the opportunities for new or expanded ancillary businesses in direct and indirect support of the park's activities; and

WHEREAS, the Remington Park proposal can be the centerpiece of and inspiration for Oklahoma City's development plans as the city embarks upon its second exciting century; and

WHEREAS, the citizens of Oklahoma overwhelmingly support pari-mutuel racing as evidenced by a statewide vote and numerous polls; and

WHEREAS, for the many Oklahomans for whom breeding, raising, caring for, training and racing horses is a way of life, Remington Park as might other proposed parks would be a perfect tribute to their interests and efforts, and would serve as the focal point for expansion of the Oklahoma horse industry; and

WHEREAS, Oklahoma Racing Associates, with principals from the Edward DeBartolo Corporation, which has met with unsurpassed success in the sports industry, which has an enviable record of success in real estate development, and which has provided first-class facilities for the horse racing industry, is supremely qualified among all other firms to make a success of this enterprise; and

WHEREAS, Oklahoma Racing Associates has met or exceeded all of the requirements of the Oklahoma Horse Racing Commission and has dealt with the state at all times in a thoroughly professional manner; and

WHEREAS, while many people believe this is a time of economic need for Oklahoma, it is also a time of opportunity for those with foresight and ambitions for improvement.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE 2ND SESSION OF THE 40TH OKLAHOMA LEGISLATURE:

GENERAL ORDER

SCR 46 by Boatner, et al, of the Senate and Davis (Guy), et al of the House was called up for consideration.

Senator Roberts and all other members of the Senate except Senator Dawson asked to coauthor **SCR 46** which was the order.

SCR 46 was adopted upon motion of Senator Boatner, read at length as follows and referred for engrossment.

SCR 46 — By Boatner, et al of the Senate and Davis (Guy), et al of the House.

A concurrent resolution stating the critical nature of the natural salt pollution problem in the Red River Basin; stating that responsibility for completion of the project remains with the Federal Government; memorializing the U.S. Corps of Engineers to take certain action with regard to solar pond power and existing salt mining operations;

giving support of the Oklahoma Legislature to the Oklahoma Congressional Delegation in seeking approval of the project; memorializing the Federal Government to abide by its agreement to proceed with the Red River Basin Chloride Control Project; making a permanent record; and directing distribution.

WHEREAS, the Red River Basin covers nearly 94,000 square miles in five states in the south-central United States, with run-off from the area representing a major national and regional water resource; and

WHEREAS, natural salt deposited in the Red River has rendered it and Lake Taxoma — the only major reservoir on the Red River — virtually unusable as sources of water for municipal, industrial and irrigational use; and

WHEREAS, the U.S. Congress directed the U.S. Public Health Service in 1957 to locate the major sources of natural salt pollution in the Red River Basin; and

WHEREAS, the Public Health Service identified ten salt sources which contribute about two-thirds of the average daily load of 3,300 tons of chlorides entering the river; and

WHEREAS, the largest contributor of salt (510 tons per day) and only identified source in the State of Oklahoma is located on the Elm Fork of the Red River in Harmon County; and

WHEREAS, in 1959, the U.S. Congress directed the U.S. Corps of Engineers to determine the costs and benefits of alternative plans to control the natural salt pollution in the ten areas identified by the U.S. Public Health Service; and

WHEREAS, construction of a water quality control project in the Red River Basin was authorized by the Flood Control Act

of 1966 (PL89-789, November 7, 1966) as modified by the Flood Control Act of 1970 (PL91-611, December 31, 1970), the Water Resources Development Act of 1974 (PL93-251, March 7, 1974) and the Water Resources Development Act of 1976 (PL94-587, October 22, 1976); and

WHEREAS, the requirements for local cooperation upon which the project was authorized by the U.S. Congress for construction was that, prior to construction, the appropriate nonfederal interests would furnish the Secretary of the Army with satisfactory assurances that those interests would continue and strengthen efforts to reduce salt pollution from oil fields and other mining and industrial operations, as recommended by the U.S. Public Health Service, and that they would hold and save the United States free from damages due to construction and operation of the project works; and

WHEREAS, Phase I General Design Memorandum No. 25 completed in July, 1976, and submitted to the Office of the Secretary of the Army (OSA) in August, 1977, documented the technical and economic feasibility of the Red River Basin Chloride Control Project for the purpose of controlling natural brine; and

WHEREAS, an economic re-analysis report completed in November, 1980, and submitted to the OSA by Chief of Engineers in January, 1981, confirmed the technical and economic feasibility of the natural brine control project; and

WHEREAS, virtually all good-quality stream water in western Oklahoma is presently fully appropriated, thereby limiting further municipal, industrial and irrigational development; and

WHEREAS, heavy reliance on groundwater sources to meet the water supply needs of western Oklahoma threatens its continued reliability as a dependable source of water supply; and

WHEREAS, the pollution of millions of acre-feet of groundwater in the shallow alluvium and terrace deposits along the Red River and its tributaries is attributed to interaction with the poor quality stream flow and clean-up of the natural salt pollution would improve the quality of these groundwater supplies through a gradual flushing action, further increasing water supplies to the region; and

WHEREAS, minimal amounts of water for irrigation is presently being taken from the Red River and Lake Texoma because of associated damages to land and equipment, reduced crop yield and lowered crop values; and

WHEREAS, agricultural potential is severely restricted because thousands of acres of irrigable lands cannot be irrigated from the Red River or the shallow alluvium and terrace deposits along the River and its tributaries; and

WHEREAS, no Oklahoma municipality or industry is presently using water from the Red River because of constraints imposed by the poor quality of that water; and

WHEREAS, the Oklahoma Comprehensive Water Plan (OCWP) adopted by the Legislature has documented that increasing demands for water in western Oklahoma will exhaust all existing sources of potable water in the near future, thus requiring the use of Red River water; and

WHEREAS, an average of 3,180,000 acre-feet of water flows through Lake Texoma each year, much of which could be developed for beneficial use if the natural salinity problems were reduced or eliminated by completion of the Red River Chloride Control Project; and

WHEREAS, the cost of water from Lake Texoma as authorized and formulated under the Water Supply Act of 1958 is 0.3 cents

per thousand gallons, making it the cheapest source of water, not only in the state but in the region, if made usable by completion of the Red River Chloride Control Project; and

WHEREAS, completion of the Red River Chloride Control Project is an integral component of the OCWP's strategy for meeting the future water demands of western Oklahoma; and

WHEREAS, an expanded source of good quality water is the key to economic development in southern Oklahoma; and

WHEREAS, resolutions of local assurances were initially provided in 1976 and submitted as a part of the survey report. Additional resolutions were provided in 1976 and made a part of the Phase I General Design Memorandum No. 25 submission, and subsequent resolutions have been provided as a measure of Oklahoma's continued commitment to honor the agreements; and

WHEREAS, more than \$25 million has been expended by the State of Texas in eliminating man-made sources of salt pollution in the Texas part of the basin, and it is estimated the State of Oklahoma is spending \$5 million annually to control oilfield brine disposal in the Oklahoma part of the Red River Basin; and

WHEREAS, federal expenditures to date for project construction and design work are \$61,975,000 (October 1985 prices), with remaining project costs estimated at \$125,540,000; and

WHEREAS, the OSA now contends that the Red River Chloride Control Project is a water supply project and no longer a water quality control project, and that present administrative policy dictates that nonfederal beneficiaries must make a commitment to repay a substantial portion of the project costs before further construction will be approved.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE 2ND SESSION OF THE 40TH OKLAHOMA LEGISLATURE, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

THAT Congress has entrusted to the Secretary of the Army the responsibility for approving this project before construction can proceed.

THAT the Secretary of the Army was directed by the U.S. Congress to approve or disapprove the project based on its technical and economic feasibility report (General Design Memorandum) requirements.

THAT the original feasibility report (General Design Memorandum No. 25) submitted in July, 1976, stated the Red River Basin Chloride Control Project was both technically and economically feasible, and subsequent economic re-analysis as requested by the Secretary of the Army has reaffirmed both the technical and economic feasibility.

THAT we believe the authorizing legislation unequivocally assigns to the federal government that share of project costs attributed to the elimination of natural salt pollution in the Red River Basin.

THAT we believe a bargain was struck and fully expect the federal government to live up to its end of the bargain by honoring its long-standing commitments, just as the states have been honoring their commitments.

THAT this is the position shared by Oklahoma, Texas, Arkansas and Louisiana, all beneficiaries of the Red River Basin Chloride Control Project.

THAT the U.S. Corps of Engineers should seek to optimize solar pond power as an energy source in conjunction with disposal plans and make every possible effort

to minimize any impact the project may have on existing salt mining operations.

THAT the Oklahoma Congressional Delegation is supported by the Oklahoma Legislature in their efforts to seek approval by the Secretary of the Army to proceed with completion of the Red River Chloride Control Project.

THAT a copy of this resolution be spread upon the pages of the permanent Oklahoma Senate and House Journals.

THAT copies of this resolution be distributed to the President of the United States, the Secretary of the Army, the Assistant Secretary of the Army (Civil Works), the Governors of Oklahoma, Texas, Arkansas and Louisiana, the President of the Red River Valley Association, the General Manager of the Red River Authority of Texas and to each member of the Oklahoma Congressional Delegation.

HJR 1048 — By Hamilton (James), George, Talley, Adair and Cunningham of the House and Johnson of the Senate.

A joint resolution directing the Secretary of State to refer to the people for their approval or rejection a proposed amendment to Article X of the Constitution of the State of Oklahoma by adding a new Section 9D; authorizing the Board of County Commissioners to provide solid waste management services when approved by the registered voters of the county voting at an election

held for that purpose; providing election procedures; providing for certain charges and audits; providing for special annual recurring ad valorem taxes and issuance of bonds upon approval at an election for such purposes; providing for interest, selling procedures and refunding of bonds; providing for cancellation of the millage levy under certain circumstances; providing ballot title; directing filing; and ordering a special election.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES AND THE SENATE OF THE 2ND SESSION OF THE 40TH OKLAHOMA LEGISLATURE:

SECTION 1. The Secretary of State shall refer to the people for their approval or rejection, as in the manner provided by law, the following proposed amendment to Article X of the Constitution of the State of Oklahoma by adding a new Section 9D, to read as follows:

Section 9D. A. The board of county commissioners of any county may call a special election to determine whether or not the board shall provide solid waste management services for the county. An election shall also be called by the board upon petition signed by not less than ten percent (10%) of the registered voters of the county. All registered voters in such county shall be entitled to vote, as to whether or not such services shall be provided, and at the same time and in the same question authorize a tax levy of not to exceed three (3) mills for the purpose of providing funds for the purpose of support, organization, operation and maintenance of such services. If the provision of the services and the mill levy is approved by a majority of the votes cast, a special annual recurring ad valorem tax levy of not more than three (3) mills on the dollar of the assessed valuation of all taxable property in the county shall be levied. The number of mills shall be set forth in the election proclamation, and may be increased in a

later election, not to exceed a total levy of three (3) mills. This special levy shall be in addition to all other levies and when authorized shall be made each fiscal year thereafter.

B. Upon passage of the question, the board of county commissioners shall provide solid waste management services for county residents and businesses. The board may provide for one or more disposal facilities and for solid waste collection services. The board may purchase landfill sites, construct and operate landfills and transfer stations and other solid waste disposal and handling facilities. The board shall provide a solid waste disposal and collection system for the county, using the funds available from the millage levy and any service charges the board may assess. The board may purchase, operate, and maintain vehicles for curbside or roadside solid waste collection. In rural areas where curbside collection services may not be economically feasible, the board may construct and operate transfer stations for areawide collection and transfer of solid waste to ultimate disposal sites.

C. The board of county commissioners of a county in which the question has passed shall have the power and duty to promulgate and adopt such rules, procedures and contract provisions necessary to implement the purposes and objectives of this section. The board of county commissioners shall have the additional powers to hire a manager and appropriate personnel, contract, organize, maintain or otherwise operate the solid waste management services within said county and such additional powers as may be authorized by the Legislature.

D. Two or more counties in which the question has passed may enter into agreements with each other to provide solid waste management services in all counties involved in the most economical fashion, including agreements to provide collection

and disposal services for each other where areas in one county may be more economically served by facilities located in another county.

E. In addition to other powers provided for pursuant to the provisions of this section, the board of county commissioners of any county in which the question has passed may issue bonds, if approved by a majority vote at a special election for such purpose. All registered voters within the county shall have the right to vote in said election. Such bonds may be issued for the purpose of:

1. acquiring vehicles, equipment and other necessary items;
2. purchasing landfill sites;
3. constructing landfills, transfer stations, or other facilities for solid waste management, disposal, and recycling; and
4. operating and maintaining all of the above listed items.

Landfill sites, equipment and other items, no longer needed, shall be disposed of as provided for by law for the sale of county-owned property.

F. The bonds authorized, pursuant to the provisions of subsection E of this section shall not bear interest at a greater rate than that authorized by statute for the issuance of city municipal bonds. Such bonds shall be sold only at public sale after twenty (20) days' advertisement in a newspaper of general circulation in the county. Any county may refund its bonds as is now provided by law for refunding municipal bonds.

G. Any board of county commissioners, upon issuing bonds as authorized in subsection E of this section, shall levy a special annual ad valorem tax upon the property within the county, payable annually, in a total amount not to exceed three (3) mills on

the dollar, on the real and personal taxable property in such county, for the payment of principal and interest on outstanding bonds, until same are paid. However, the board may suspend, from time to time, the collection of such annual levy when not required for the payment of the bonds.

H. There may also be pledged to the payment of principal and interest of the bonds authorized to be issued:

1. any net proceeds from operation of the county solid waste management services that the board of county commissioners shall deem not necessary to the future operation, maintenance or closure of said solid waste management services and facilities; or

2. any monies available from other funds of the county not otherwise obligated.

I. Bonds shall be issued for designated sums with interest payable semiannually and with the principal maturing annually beginning not more than three (3) years from date of issue. All bonds and interest thereon shall be paid upon maturity and no bonds shall be issued for a period longer than thirty (30) years. Any board of county commissioners may in its discretion schedule the payment of principal over the period of maturity of the bond issue, so that when interest is added there will be approximately level annual payments of principal and interest.

J. In the event the mill levy as provided for in the original election proclamation is less than three (3) mills, the board of county commissioners may call a subsequent election to consider increasing the mill levy; provided, however, the total levy authorized by subsection A of this section shall not exceed three (3) mills.

K. The board of county commissioners shall have jurisdiction over the sale or re-

funding of any bonds issued by the county pursuant to the provisions hereof, and shall be responsible for the economical expenditure of the funds derived from the bonds.

L. The board of county commissioners shall be empowered to charge fees for services, and accept gifts, funds or grants from sources other than the mill levy, which shall be used and accounted for in a like manner. Persons served outside the county shall be charged an amount equal to the actual costs for providing the service, not taking into account any income the county receives from millage or sources within the county. The board shall have legal authority to bring such suits necessary to collect accounts owed and to sue and defend as necessary for the protection of the board. The State Auditor and Inspector shall conduct an annual audit of the solid waste management operations of such counties.

M. Any county may cease providing solid waste management services, or cause the millage levy authorized by subsection G of this section to be changed, by a majority vote of the registered voters voting at an election called for that purpose by the board of county commissioners. HJR 1048 — By Hamilton (James), George, Talley, Adair and Cunningham of the House and Johnson of the Senate.

A joint resolution directing the Secretary of State to refer to the people for their approval or rejection a proposed amendment to Article X of the Constitution of the State of Oklahoma by adding a new Section 9D; authorizing the Board of County Commissioners to provide solid waste management services when approved by the registered voters of the county voting at an election held for that purpose; providing election procedures; providing for certain charges and audits; providing for special annual recurring ad valorem taxes and issuance of bonds upon approval at an election for such purposes; providing for interest, selling procedures and refunding of bonds; providing for cancellation of the millage levy under certain circumstances; providing ballot title; directing filing; and ordering a special election.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES AND THE SENATE OF THE 2ND SESSION OF THE 40TH OKLAHOMA LEGISLATURE:

SECTION 1. The Secretary of State shall refer to the people for their approval or rejection, as in the manner provided by law, the following proposed amendment to Article X of the Constitution of the State of Oklahoma by adding a new Section 9D, to read as follows:

Section 9D. A. The board of county commissioners of any county may call a special election to determine whether or not the board shall provide solid waste management services for the county. An election shall also be called by the board upon petition signed by not less than ten percent (10%) of the registered voters of the county. All registered voters in such county shall be entitled to vote, as to whether or not such services shall be provided, and at the same time and in the same question authorize a tax levy of not to exceed three (3) mills for

the purpose of providing funds for the purpose of support, organization, operation and maintenance of such services. If the provision of the services and the mill levy is approved by a majority of the votes cast, a special annual recurring ad valorem tax levy of not more than three (3) mills on the dollar of the assessed valuation of all taxable property in the county shall be levied. The number of mills shall be set forth in the election proclamation, and may be increased in a later election, not to exceed a total levy of three (3) mills. This special levy shall be in addition to all other levies and when authorized shall be made each fiscal year thereafter.

B. Upon passage of the question, the board of county commissioners shall provide solid waste management services for county residents and businesses. The board may provide for one or more disposal facilities and for solid waste collection services. The board may purchase landfill sites, construct and operate landfills and transfer stations and other solid waste disposal and handling facilities. The board shall provide a solid waste disposal and collection system for the county, using the funds available from the millage levy and any service charges the board may assess. The board may purchase, operate, and maintain vehicles for curbside or roadside solid waste collection. In rural areas where curbside collection services may not be economically feasible, the board may construct and operate transfer stations for areawide collection and transfer of solid waste to ultimate disposal sites.

C. The board of county commissioners of a county in which the question has passed shall have the power and duty to promulgate and adopt such rules, procedures and contract provisions necessary to implement the purposes and objectives of this section. The board of county commissioners shall have the additional powers to hire a manager and appropriate personnel, contract, organize,

maintain or otherwise operate the solid waste management services within said county and such additional powers as may be authorized by the Legislature.

D. Two or more counties in which the question has passed may enter into agreements with each other to provide solid waste management services in all counties involved in the most economical fashion, including agreements to provide collection and disposal services for each other where areas in one county may be more economically served by facilities located in another county.

E. In addition to other powers provided for pursuant to the provisions of this section, the board of county commissioners of any county in which the question has passed may issue bonds, if approved by a majority vote at a special election for such purpose. All registered voters within the county shall have the right to vote in said election. Such bonds may be issued for the purpose of:

1. acquiring vehicles, equipment and other necessary items;
2. purchasing landfill sites;
3. constructing landfills, transfer stations, or other facilities for solid waste management, disposal, and recycling; and
4. operating and maintaining all of the above listed items.

Landfill sites, equipment and other items, no longer needed, shall be disposed of as provided for by law for the sale of county-owned property.

F. The bonds authorized, pursuant to the provisions of subsection E of this section shall not bear interest at a greater rate than that authorized by statute for the issuance of city municipal bonds. Such bonds shall be sold only at public sale after twenty (20) days' advertisement in a newspaper of general circulation in the county. Any county

may refund its bonds as is now provided by law for refunding municipal bonds.

G. Any board of county commissioners, upon issuing bonds as authorized in subsection E of this section, shall levy a special annual ad valorem tax upon the property within the county, payable annually, in a total amount not to exceed three (3) mills on the dollar, on the real and personal taxable property in such county, for the payment of principal and interest on outstanding bonds, until same are paid. However, the board may suspend, from time to time, the collection of such annual levy when not required for the payment of the bonds.

H. There may also be pledged to the payment of principal and interest of the bonds authorized to be issued:

1. any net proceeds from operation of the county solid waste management services that the board of county commissioners shall deem not necessary to the future operation, maintenance or closure of said solid waste management services and facilities; or

2. any monies available from other funds of the county not otherwise obligated.

I. Bonds shall be issued for designated sums with interest payable semiannually and with the principal maturing annually beginning not more than three (3) years from date of issue. All bonds and interest thereon shall be paid upon maturity and no bonds shall be issued for a period longer than thirty (30) years. Any board of county commissioners may in its discretion schedule the payment of principal over the period of maturity of the bond issue, so that when interest is added there will be approximately level annual payments of principal and interest.

J. In the event the mill levy as provided for in the original election proclamation is less than three (3) mills, the board of county

commissioners may call a subsequent election to consider increasing the mill levy; provided, however, the total levy authorized by subsection A of this section shall not exceed three (3) mills.

K. The board of county commissioners shall have jurisdiction over the sale or re-funding of any bonds issued by the county pursuant to the provisions hereof, and shall be responsible for the economical expenditure of the funds derived from the bonds.

L. The board of county commissioners shall be empowered to charge fees for services, and accept gifts, funds or grants from sources other than the mill levy, which shall be used and accounted for in a like manner. Persons served outside the county shall be charged an amount equal to the actual costs for providing the service, not taking into account any income the county receives from millage or sources within the county. The board shall have legal authority to bring such suits necessary to collect accounts owed and to sue and defend as necessary for the protection of the board. The State Auditor and Inspector shall conduct an annual audit of the solid waste management operations of such counties.

M. Any county may cease providing solid waste management services, or cause the millage levy authorized by subsection G of this section to be changed, by a majority vote of the registered voters voting at an election called for that purpose by the board of county commissioners. Such an election shall not be called unless either two-thirds (2/3) of the board members vote to call such an election, or the board is presented a petition signed by not less than twenty percent (20%) of all registered voters in the county.

N. If a county ceases to provide solid waste management services, any mill levy used to support, organize, operated and maintain the services and facilities shall cease, provided that such mill levy shall not cease until all outstanding solid waste man-

agement services bonds of that county are retired, all other debts incurred by the county in providing solid waste management services have been satisfied, and all facilities have been properly closed as provided for by law.

O. All elections called pursuant to the provisions of this section shall be conducted by the county election board of each county involved, upon receipt of an election proclamation, issued by the board of county commissioners in the county affected. Said proclamation shall be published in one issue of a newspaper of general circulation in the county at least ten (10) days prior to said election. The proclamation shall set forth the purpose of the election, and the date thereof. The county election board shall certify the results of the election to the board issuing the proclamation.

MESSAGE FROM THE GOVERNOR

Advising approval by him, April 14, 1986, of Enrolled SBs 480, 559 and 583. Advising veto on April 14, 1986 of SB 532. The veto message reads as follows:

To the President and Members of the Honorable Senate
Second Session of the Fortieth Legislature

This is to advise you that on this date I have vetoed Enrolled Senate Bill Number 532 — by Taliaferro of the Senate and Smith of the House.

An act relating to waters and water rights; providing for certain orders by the Oklahoma Water Resources Board to mitigate or prevent downstream flooding; providing restrictions; providing for codification; and providing an effective date.

I have vetoed Enrolled Senate Bill Number 532 for the following reasons:

While the State has an obligation to protect the safety and welfare of its citizens, it also must respect rights of municipal government to control their own resources. The precise question here is whether the state should further regulate municipal water supplies.

Since the measures do not go into effect until November, no serious flooding problems could be addressed this spring or fall by this bill. Evidently the Legislature did not believe the problems were emergencies since no emergency clause is included in the bill.

Presently the Corps of Engineers is performing a study of the reservoir problems surrounding the Lawton area and by the time the Legislature reconvenes next January, a preliminary report will be in. At that time all the affected groups — the municipalities, citizens and the Water Resources Board — can all work together to develop a satisfactory way to address the problems. The City of Lawton should proceed in working with all groups to alleviate any adverse effects.

For these reasons I have vetoed Enrolled Senate Bill Number 532.

By the Governor of the
State of Oklahoma

/s/ George Nigh

“WHEREAS, foreign insurance companies have contested Oklahoma's differential premium tax statute, and the U.S. Supreme Court has held that a similar Alabama statute is unconstitutional; and

WHEREAS, in 1985 the Oklahoma State Legislature equalized the premium tax for foreign and domestic companies; nevertheless, foreign insurance companies continue to pay premium taxes under protest because they perceive certain tax and investment credits given to domestic companies as preferential treatment; and

WHEREAS, the U.S. Supreme Court did not address the issue of refunds to foreign insurance companies who have paid premium taxes under protest; and

WHEREAS, the Insurance Commissioner's Protest Fund was established as a trust fund to ensure the availability of funds if Oklahoma is required to return funds to foreign insurance companies that have paid premium taxes under protest; and

WHEREAS, the Oklahoma State Legislature has appropriated monies from this trust fund in previous sessions for purposes other than it was intended by allocating \$50,000,000.00 to the Department of Human Services as a loan to said department and \$5,500,000.00 to the Office of Public Affairs for deposit in the Tort Claims Liability Revolving Fund and Motor Vehicle Liability Revolving Fund; and

WHEREAS, it has been suggested that an additional \$42,000,000.00 be allocated this session from this trust fund to offset reductions in state appropriations, and said allocation would reduce the balance in the Fund to \$30,000,000.00; and

WHEREAS, such a reduction will defeat the purpose for which this trust fund was created and, because the refund issue has not been resolved, will increase the financial vulnerability of this state; and

WHEREAS, in the event the courts rule that Oklahoma law is unconstitutional the Oklahoma Legislature will be required to raise \$97,500,000.00 to reimburse the Insurance Commissioner's Protest Fund.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE 2ND SESSION OF THE 40TH OKLAHOMA LEGISLATURE:

THAT it is the intent of the Oklahoma State Senate that monies not be allocated

COMMUNICATION

The following Communication was read:

June 6, 1986

The Honorable George Nigh
Governor of the State of Oklahoma
State Capitol Building
Oklahoma City, Oklahoma 73105

Senator Rodger A. Randle
President Pro Tempore
Oklahoma State Senate
State Capitol Building
Oklahoma City, Oklahoma 73105

Dear Governor Nigh and Senator Randle:

It is with extreme regret that the conduct of my personal life causes me to resign from the State Senate of Oklahoma. I do so because my personal conduct as a person has been less than those standards I set for myself and what the citizens of my district have a right to expect from me.

My personal conduct has caused embarrassment to my wife and family, my colleagues in the legislature, to the people I represent and myself. For that I am deeply and truly regretful.

I have committed no violations of the law as charged by my government. I am not guilty of any one of the twelve (12) counts listed in the indictment. I am guilty of personal conduct unbecoming a State Senator.

I know of no wrong any legislator has committed and I refused to permit myself to be used as a snitch to try and entrap any legislator. While the government has attempted to entrap me, I am convinced my innocence will be shown and proven.

In a state of alcoholic intoxication an attempt was made to get me to violate federal narcotic laws. I violated no such laws.

Respectfully,

/s/Bernard J. McIntyre

Transmitting herewith Enrolled **HB 2047**, together with the Governor's message vetoing, and advising that under the provisions of Section 11, Article VI of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a three-fourths vote of all members elected to and constituting the House, said vote being as follows: 76 Ayes and 18 Nays on the bill and 76 Ayes and 18 Nays on the emergency.

The veto message reads as follows:

June 11, 1986

To the Honorable Speaker of the House
and Members of the Honorable
House of Representatives
Second Session
of the Fortieth Legislature

This is to advise you that on this date I have vetoed Enrolled **HB 2047** by Barker et al of the House and Randle et al of the Senate.

An Act relating to water and water rights; *** providing an operative date; and declaring an emergency.

I have vetoed **HB 2047** for the following reasons:

At a time when the number of state boards, commissions and agencies is being reduced, it is inappropriate to create a new one when an advisory board within the Commerce Department is more workable and desirable.

In addition, the authority set out in the Bill which would give a new Waterways

Commission power to require all state agencies involved in any activity affecting commercial navigation on the State's waterways which would slow down many projects to the detriment of the functioning of other agencies and fulfilling of these purposes.

It is my intention to have the Director of the Department of Commerce establish a Waterways Division within the Department.

By the Governor of the State of Oklahoma
/s/ George Nigh

Vetoed June 25, 1986

Veto Message from the Governor:

I have vetoed Enrolled Senate Bill 330 for the following reasons:

1. The executive branch should remain the state's initial authority when requesting and receiving funds from the federal government. Senate Bill Number 330 advances a theory that would impair the Governor and executive branch of government in this process;

2. Section 5 of the bill would allow the Contingency Review Board to authorize the expenditure of federal block grant funds while the Legislature is not in session. If a direct appropriations process were established to receive federal block grant funds, it would be an inappropriate delegation of authority to give the appropriation power to the Contingency Review Board;

3. Section 8 of Enrolled Senate Bill 330 is incorrect in that it refers to a section of law previously repealed by the Legislature;

4. The timetables and restraints mandated by this legislation are unworkable and unrealistic as Congress makes federal funds available without the advance notice assumed by this bill;

5. The burdensome and unnecessary procedures proposed by Senate Bill 330 restricts the state executive department's ability to capitalize on all available funds which are often critically needed to serve the needs of the citizens of this state.

The first of these is the fact that the
 majority of the cases of the disease
 are reported from the States of
 New York, Pennsylvania, and
 Ohio. This is probably due to the
 fact that these States are the most
 densely populated in the Union,
 and therefore the most likely to
 furnish a large number of cases.
 The second fact is that the disease
 is more prevalent in the winter
 months. This is probably due to the
 fact that the disease is more
 easily transmitted in the winter
 months, when the people are more
 crowded together, and the
 ventilation of the rooms is less
 perfect. The third fact is that the
 disease is more prevalent in the
 lower classes of society. This is
 probably due to the fact that the
 lower classes are more crowded
 together, and the ventilation of
 the rooms is less perfect.

The fourth fact is that the disease
 is more prevalent in the
 cities than in the country. This
 is probably due to the fact that
 the cities are more densely
 populated, and the ventilation of
 the rooms is less perfect. The
 fifth fact is that the disease is
 more prevalent in the
 South than in the North. This
 is probably due to the fact that
 the South is more densely
 populated, and the ventilation of
 the rooms is less perfect.

Vetoed June 25, 1986	

Veto Message from the Governor:

I have vetoed Enrolled Senate Joint Resolution No. 45 because it purports to modify

an order of the Corporation Commission that relates to internal policy and division and management of work load.

Furthermore, this resolution attempts to establish by legislative action determinations that are properly within the jurisdiction of the judicial branch by stating an order of the Corporation Commission is discriminatory.

The Commission order requires that no municipalities request an extended area telephone service designation until the Commission has completed a feasibility study. This seems to be a fair, equitable and time-saving measure for the public.
