Gentlemen:

The Constitution of the State of Oklahoma, Article 10, Section 23, as last amended April 30, 1985, provides in pertinent part:

> Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall certify the total amount of revenue which accrued during the last preceding fiscal year to the General Revenue Fund and to each Special Revenue Fund appropriated directly by the Legislature, and shall further certify amounts available for appropriation which shall be based on a determination, in accordance with the procedure hereinafter provided, of the revenues to be received by the state under the laws in effect at the time such determination is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of each such fund appropriated directly by the Legislature.
>
> Amounts certified as available for appropriation from each fund, as hereinbefore provided, shall be ninety-five percent (95%) of an itemized estimate made by the State Board of Equalization, which shall include all sources of revenue to each fund for the next ensuing fiscal year; provided, however, appropriated federal funds shall be certified for the full amount of the estimate. Said estimate shall consider any increase or decline in revenues that would result from predictable changes in the economy.

The following report has been prepared in accordance with the procedures set forth above, and is respectfully submitted for your consideration.

Sincerely,

/s/Alexander B. Holmes

The limit on appropriations will be presented to the State Board of Equalization in February as provided by the Constitution. Senator Roberts moved that the President and Speaker appoint a committee of three members from the Senate and House, respectively, as a Joint Committee to notify Governor Bellmon that the First Regular Session of the 42nd Legislature is now in Joint Session and ready to receive him and hear his message, which motion was declared adopted.

FOR THE SENATE — Senators Pierce, Horner and Stipe.

FOR THE HOUSE — Representatives Combs, Stottlemyre and Heaton.

Sergeant at Arms, Bob Craig, was recognized and announced the arrival of the Chief Executive, the Honorable Henry Bellmon, accompanied by the Joint Committee.

Governor Bellmon was escorted to the Speaker's desk by the Joint Committee.

President Kerr presented Governor Bellmon to the Joint Session, where he delivered his address as follows:

MESSAGE OF GOVERNOR HENRY BELLMON

To the newly elected members of the House and Senate, I extend congratulations upon the successful conclusion of your campaigns. You are beginning what can be one of the most interesting and satisfying experiences of your lives.

To former members, welcome back to the State Capitol. We have come through two difficult years together. The problems remaining to be solved are neither as pressing nor as difficult as the near crisis faced two years ago. In fact, Oklahoma seems to be approaching the time when we can devote our attention to developing our opportunities rather than concentrating on crises.

Nineteen hundred eighty nine (1989) will be a busy and exciting year in Oklahoma. The Centennial celebration and the U.S. Olympic Festival are only two of the major events which will occur. This session can add to the prevalent and growing atmosphere of achievement and pride.

The Constitution requires that "at every session of the Legislature and immediately upon its organization, the Governor shall communicate by message, delivered to a joint session of the two houses, upon the condition of the state; and shall recommend such matters to the Legislature as he shall judge expedient."

By most measures, the state of the State is good and getting better. State revenues are up, crime is down. Achievements in education are better, college and university enrollment is up, new industries are coming to Oklahoma and existing businesses are expanding creating more and better jobs. Personal income is up. The quality of life is improving.

Oklahomans are beginning to feel good about themselves and about their state. As public officials we can take pride in past achievements which have contributed toward making Oklahoma a State of Excellence.

To demonstrate the improvements which are occurring in our state, a series of charts has been prepared showing changes over the recent past.

The balance of my remarks will be devoted to budget and legislative recommendations.

Ongoing appropriations for FY 1989 amounted to $2,446,019,109.

Through action of the Board of Equalization and by utilizing available carry-over funds, we have available for appropriation, a total of $2,583,530,672. This is $137,511,563 more than the appropriations for continuing services made last session.

The highest priority for spending new funds is in the area of education because, clearly, economic development is built on a solid educational foundation. It is recommended that $64 million in new funds be appropriated for elementary and secondary, vocational-technical and higher education. This includes $5 million in funds for new chaired professorships and $8.5 million in midterm adjustments for elementary and secondary schools.

The Department of Corrections began to expand their capacity in response to the legislative directive last session, and it is recommended that funding be increased by $7.9 million. These funds are needed to continue the programs that were initiated last session on a full-year basis.

The budget recommends that the Department of Human Services receive an increase in funding of $33 million. This does not include $18 million of increased purchasing power, which will become available to the Department of Human Services because of changes in the federal government's required matching. This means the Department of Human Services will have increased purchasing power for services to the disadvantaged persons of our society in excess of $51 million.

A $4.6 million increase is recommended for the Department of Health for a variety of programs, including increased funding for the Women, Infant and Children Nutrition Program, as well as providing for full funding for immunizations.

The budget includes significant funding for new initiatives for children and youth. New funding in the amount of $12.2 million is included in various agencies in order to provide new initiatives in the area of prenatal and perinatal care, nutrition, day-care, expansion of AFDC for two-parent families and juvenile justice programs.

The last two years have seen a concerted effort by the Legislature and the Executive Department of state government to plan and implement an economic emergence of Oklahoma to a broad-based economy that is attractive to the manufacturing, transportation, information, distribution and other industries.

The attraction and expansion of these industries is directly related to Oklahoma's unique "transportation advantage". Our "transportation advantage" is founded in Oklahoma's central geographic location and its strategic positioning on the interstate highway system, major rail facilities, and water-based transportation.

To fully utilize this advantage, Oklahoma is committed to highway excellence. Funding is provided for a five-year building and maintenance program that will see $1.5 billion invested in highway and bridge im-

provements on Oklahoma's highway system. This will be supplemented by $356 million in new urban and economic development arterials funded by the Oklahoma Turnpike Authority through the sale of revenue bonds. These turnpikes will provide the early completion and the resulting economic stimulation of our vital transportation links. Use of bond funds to pay the cost of developing these major thoroughfares frees up tax dollars to be used in developing needed highway projects in other areas of the state.

These turnpike improvements will create 10,000 new construction related jobs sustained over a three-year period. This is a win-win proposal providing both immediate and long term stimulation for Oklahoma's economy.

An aggressive and effective advertising program emphasizing the need to keep highway rights of way clean is making Oklahoma citizens more aware of the need to exhibit pride in our state. Over 800 state organizations are participating in the "adopt a highway" program with highly beneficial results.

Let me take a moment to review the more significant achievements of the 1988 legislative session:

PROPERTY TAX REFORM (HB 1750)

After literally decades of eroding public confidence in the property tax system, the last session the Legislature developed a complete package to provide equity in setting the appraised values of property in Oklahoma. The new system will be more centralized than the current system. Starting the process will require significant funding, over the four-year project period, but will result in restoring citizen confidence in the final appraised values of property. Assessors, in order to retain their jobs must have education and training. This will be true also of anyone in the assessor's office who makes judgments concerning the value of property. It is proposed that $200,000 be appropriated to determine the manner and cost of implementing HB 1750 so that the appropriate level of funding can be provided in future years.

INSTITUTING MANDATORY HEALTH BENEFITS FOR ACTIVE AND RETIRED TEACHERS (HB 1731)

This legislation was necessary as a result of poorly conceived action in the previous session. That legislation would have driven the teachers retirement system to bankruptcy by the year 2016, thus providing no benefits to anyone. The new plan mandates that within three years, school districts will either have in place a health benefit program of their own or will join the state health benefit plan. Retired teachers, as part of their retirement compensation, will receive medicare supplemental benefits, or, if they are under 65, will receive $75 toward the medicare supplement. The system is funded one-third by teachers and two-thirds by the school district. Individual teachers may opt out of any group plan by demonstrating that they are covered by some other non-state-supported group plan. The funding base for the program is actuarially sound and teachers are provided a choice in joining the system, but we can rest assured that within three years, no school teacher will be without adequate health coverage.

As part of this package, the teachers retirement system was placed back on an actuarially sound footing by increasing the gas gross production tax cap, which provides funding for the retirement system and by relieving the system of the financial burden of providing health benefits.

INSURANCE PREMIUM TAX LEGISLATION (HB 2013)

The Legislature acted under the threat of a U.S. Supreme Court decision in order to

bring Oklahoma's insurance premium tax legislation into compliance with federal standards which disallowed restraint of interstate trade through differential in-state and out-of-state tax credits. This was a particularly thorny issue which pitted powerful business interests one against the other, but required decisive legislative action. A bonus from this legislation comes in the form of placing the firefighters, police and law enforcement retirement systems on a solid actuarial foundation. This occurred by apportioning 51 percent of the insurance premium tax to these three retirement systems. Calculations made in advance of the apportionment formula provided a split in such a way that these systems will be actuarially funded over a 30-year horizon. The result of this action is adequate retirement system funding. The Legislature will no longer be faced with year-by-year appropriations of varying sizes to shore up these retirement funds.

PENSION FUND RESTRUCTURING (HB 1582)

This legislation addressed the critical problem of how pension funds operate. Prior to this legislation, each pension fund invested in accordance with different legislative statutory standards, most of which were extremely restrictive. As a consequence, most pension funds earned a far lower rate of return than they could have if they were allowed to have a broader-based portfolio. The pension systems now all operate using the Oklahoma Public Employees Retirement System portfolio guidelines, which are one step short of ERISA standards, but are in keeping with guidelines most public pension systems use nationally.

As part of restructuring, most pension board appointees must be individuals having professional expertise in the area of investments, banking, accounting or law.

In order that the pension systems receive more oversight, a Pension System Oversight Board was created. This board will review the investment portfolio of each pension system in order to make comparative evaluations of the pension fund managers and the portfolio investment decisions of the board. Actuarial reports are required annually showing the financial position of each pension fund.

GUARDIANSHIP REFORM (HB 1201)

The Legislature adopted a long-overdue reform of Oklahoma's guardianship laws. Improved accountability of guardians has been established and the option of limited guardianships was introduced into Oklahoma's law for the first time.

ETHICS LEGISLATION (SB 383)

The Ethics Commission law was redrafted providing the ability to address the area of conflict of interest and reporting of campaign contributions. Greater oversight was provided in specific legislation of election activities and funding was increased.

TAX CUTS

In the last session of the Legislature, the personal income tax rate on Oklahoma taxpayers was cut. Three separate changes were made to reduce the personal income tax. The first reduced the maximum rate for individuals filing using Method Two, from 17 percent to 10 percent. The 17 percent marginal rate was the highest in the nation and worked as a detriment in attracting economic development prospects to our state.

The second change addressed low-income individuals. Previously, low-income individuals could owe state income tax although they were exempt from federal income taxes. This disparity in the two tax

systems was eliminated, removing these low-income individuals from Oklahoma tax rolls.

Senior citizens in Oklahoma were given a tax cut. All individuals over the age of 65, filing individual returns, received an increased exemption of $1,000. Individuals over the age of 65 filing a joint return received an increased exemption of $2,000. This reduced the personal income tax liability for Oklahoma senior citizens by $4 million.

Important appropriations were made, including extension of medical services for expectant mothers and infants, chairs for university professorships, pay raises for state employees who have received no increases for four years, capital funding for a family practice clinic and funds for other worthy projects.

PROTECTION AND NURTURING OF OKLAHOMA'S CHILDREN

Nearly one-third of Oklahoma's 3.3 million citizens are children and youth under the age of eighteen. We have made a start in allocating the resources to help bring about a more supportive environment for children in our state — an environment in which children can grow up safe, one in which they receive the health care they need, and one in which the educational system supports and promotes the development of their full potential.

Let me now cite some of the actions that are of special significance regarding our progress thus far, and some of the additional steps I propose to help move Oklahoma forward in this crucial aspect of our responsibilities — the responsibility to assist in the development of Oklahoma's human resources:

1. *Prenatal and Infant Care* — We have taken significant steps toward assuring that every expectant mother and every infant in our state has access to good prenatal and early childhood care and that such care is provided to all who need it regardless of their economic circumstances. Medicaid eligibility has been expanded to the federal poverty level. Increased funding for perinatal care in the amount of $750,000 was appropriated in 1988. This year, I am requesting an increase in funding for the Health Department of $2 million to meet still more of the need for prenatal and infant care, especially in the areas of the state in which private practitioners are unavailable to deliver this care. I am also recommending that we move the medicaid income eligibility for families with expectant mothers or with children under the age of one up to 125 percent of the poverty level.

These funding increases will be used in conjunction with the Robert Wood Johnson Foundation's health futures grant to Oklahoma.

2. *Early Intervention Services for Children with Disabilities* — We have made considerable progress in developing "early intervention" services for children who have disabilities and chronic health care problems. The families of such children are unsung heroes who typically bear the burdens of rearing their children with few demands on public services. By providing earlier and better support services for such families, we will preserve their ability to maintain the children in their homes and will help avoid the burnout which many of these families experience. Federal funds have enabled us to develop an effective action plan through a hard-working interagency advisory council. It is now necessary that we begin investing funds to accomplish the needed improvement in services.

This proposed budget contains $1.3 million to expand services available through local health department guidance clinics and other services to help meet these needs.

3. *Health Education in the Schools* — In 1988 the Legislature appropriated $300,000 for pilot health and nutrition grants to local school districts. This was nearly a doubling of funding over the FY 87 level. It has permitted a number of additional school districts to introduce "healthy living" courses into their curricula. It is time, however, to make training in self-care, good health practices and avoidance of hazards a part of the core curriculum for elementary and secondary schools throughout Oklahoma. This was one of the most urgent messages delivered to us by hundreds of people who participated in the Governor's Summit on Families, Children and Youth last June and in the nine listening conferences which preceded the summit.

4. *Elementary and Secondary education* — The economic well-being of Oklahoma and of our citizens is dependent upon making available a quality education to all students. The time has come for the State of Oklahoma to allow the parents of our children to play a greater role in the education process. We are proposing that parents be given greater flexibility to determine which schools their children will attend, thus providing access to educational excellence by allowing parental choice. Parents and students need options for choosing the education system that best fits their needs. The plan will protect the balance that has been provided by desegregation plans and allow a healthy competitive spirit among districts.

5. *Tobacco-free Schools* — It is becoming increasingly clear that tobacco is a gateway drug for teenagers. The Surgeon General of the United States has found that cigarette smoking is a health hazard for both the smoker and the innocent bystander who unwillingly inhales sidestream smoke. Chewing tobacco causes disfiguring and fatal lip, tongue and mouth cancers.

To help protect our children from the hazards of tobacco, I propose banning *all* use of *all* tobacco by *all* persons in *all* the schools of this state.

Tobacco-free schools will show our children that we are seriously concerned that their futures be as free as possible of tobacco related cancer and drug abuse.

6. *Education Pilot Programs* — The time has come for the State of Oklahoma to begin to understand how best to configure the delivery of elementary and secondary education. A number of states have begun reviewing proposals for extended school days and extended school years. As we look to the education systems of other countries, we find that Oklahoma students spend less time in school than do those of virtually any other developed nation.

It is not appropriate to recommend dramatic changes in the structure of the school day or school year without first developing information regarding administration, cost and value of such programs. It is recommended that $1.2 million be used to help fund pilot programs on extended school day and school year, as well as pilot programs to review the structure of the school organization in terms of teacher input, curriculum development, family involvement and private support.

7. *Supplemental Food Program for Women, Infants and Children (W.I.C.)* — The $1 million recommended in the FY 90 budget, will be the first allocation of state funds for the supplemental food program for women, infants and children. The program has been funded exclusively with federal funds up to now. The W.I.C. Program provides critical resources for nutrition, particularly for women who are pregnant. Untold social and financial costs arise from malnutrition which may lead to problem pregnancies. At this time, less than 40 percent of the eligible Oklahoma recipients are

being reached by this program. This investment in improved child health will be returned many times over to the state in terms of lower medical costs as emotional and health problems decline and worker productivity improves.

In addition to the introduction of state funding into W.I.C., we hope to reach still more of the eligible recipients by introducing into Oklahoma the type of rebates from suppliers of infant formulas that had been used successfully in other states.

8. *Immunizations — $500,000* — The State of Oklahoma has long provided immunizations against contagious and infectious diseases for children and adults but in recent years has required co-payments. The effect of the co-payment is to reduce the number of immunizations given. This increases the potential for health problems. This modest sum of money will fully fund the immunization program and, therefore, reduce serious potential financial costs associated with individuals who might be stricken by or transmit infectious diseases. This is clearly a case where an ounce of prevention is worth a pound of cure.

9. *AFDC Two-Parent Families* — $1.9 million in state dollars is being proposed to expand the funding of Aid to Families with Dependent Children Program, to include two-parent families. It is shortsighted for the State to provide aid to individuals only after they have agreed to destroy their legal family relationship. It is wise state policy to strengthen, not destroy, families. The current program ignores the fact that families are now driven apart in hard times simply to receive survival aid. Federal requirements mandate the extension of AFDC to two-parent families starting in October 1990. It is best that the State of Oklahoma lead the way and begin as soon as possible. Reasonable but firm work requirements for adults in these families will help control the size of the AFDC rolls.

10. *Day-Care — State Employees Pilot Program* — All employers, public and private, must begin to accommodate the changing character of the work force. Twenty years ago, 35 percent of the work force was composed of women. Today, that figure has risen to 44 percent. Twenty years ago, 61 percent of families had one wage-earner in the labor market, while the spouse worked in the home. Today, in 55 percent of the families, both the husband and wife are in the labor force. Funding will be provided through the Commission on Children and Youth to encourage the development of private sector day-care programs. Administrative aid provided by the State will help such programs develop.

The State of Oklahoma is a major employer in the state, with some 34,000 workers. If the State is to encourage the private sector to develop day-care services for their employees, we must set an example for our own employees. To this end, $350,000 is proposed for a pilot day-care program for state employees at three major employment sites. These pilot programs would be overseen by the Department of Health. Funding is for capital and other start-up costs. It is envisioned that once in operation these centers would be privately managed, self-supporting day-care programs, dependent upon collection of fees for the services provided.

Many parents, who are obligated to search for work by receipt of AFDC or food stamp benefits, can do so only if child-care services are available to them. Last year we were able to make a one-dollar-per-day increase in the payment rate for day-care services, restoring an earlier cut. For many of these mothers the amount they are currently required to pay constitutes a strong disincentive for work, education or training. Included in the DHS budget is $1.2 million to permit improved subsidies for such families.

11. *Reducing Child Abuse and Neglect* — The death and injury of children through abuse and neglect by persons responsible for their care is one of the saddest and most baffling problems in modern society. While there are some sadistic people who will deliberately hurt children, most of the abuse and neglect results from different causes. Much of the injury from neglect results from ignorance of good child-care practices on the part of parents or their inability to perform their parental responsibilities. Additional problems arise from alcohol and drug abuse, uncontrolled anger, and failure to keep children away from people who might injure them deliberately.

This budget includes $400,000 to expand the child abuse prevention grants through the Department of Health. A private firm has committed $50,000 and has promised to raise $80,000 more from other sources to help Oklahoma do even more in this critical area of need.

12. *Teen Safety Bill* — The four provisions of this bill are as follows:

a. *Probationary driver's licenses* — This legislation will amend Oklahoma's driver's license laws to require that all initial operator's licensees will be issued one-year probationary operator's licenses. This requirement would not apply to a person who has held a valid operator's or chauffeur's license within the year preceding the application for an operator's license. At the end of the probationary year, the probationary license will expire and a regular operator's license, valid for three years, will be issued if the licensee has maintained a satisfactory driving record during the probationary period. To meet this requirement, during the probationary period the licensee must not be convicted of more than one speeding offense or reckless driving or any of the offenses for which a license must be revoked pursuant to Title 47, State Statute 6-205, or any other offense the Department of Public Safety includes by rule. If the probationary licensee has not maintained a satisfactory record, he or she must wait four months before applying for another probationary license. If the licensee does not satisfactorily complete the second probationary period, to obtain another probationary license he must file an application with the Department of Public Safety. The DPS, after a hearing on the application, will enter an order setting forth the terms and conditions under which the applicant may be granted a probationary license.

A person whose probationary license has been revoked during the probationary period may apply for another probationary license only in accordance with the conditions imposed by the DPS in the revocation order.

The cost of a probationary license will be $18 (the same as an initial operator's license now costs); the fee for issuing the regular operator's license at the end of the probationary period will be $4.00.

b. *Drug testing of probationary license applicants* — All applicants for a probationary operator's license must submit proof satisfactory to DPS that he or she was tested for the presence of drugs in the body including marijuana, not less than 10 days before the application was filed, and that the applicant tested negative. DPS will adopt rules governing the testing procedures, including what tests will be accepted and what labs are authorized to issue certificates. Any approved testing procedure must include maintenance of the chain of custody of the test specimen and provisions for GCMS (gas spectrophometric) verification of any challenged positive result.

c. *Revocation of dropouts' driver's licenses* — the driver's licenses of school dropouts will be revoked if they do not reenroll in school or enroll in an adult general education course to earn a high school di-

ploma. A dropout is defined as a person less than 18 years of age who has 14 consecutive unexcused absences.

d. *Reduced threshold level of alcohol in blood for DUI proceedings* — the threshold level of alcohol in the blood that will be considered prima facie evidence that a person under 21 was under the influence of alcohol or intoxicating liquor while driving will be lowered to 5/100 of 1 percent. Presently, the prima facie level is 10/100 of 1 percent for all persons.

13. *Services for Troubled and Delinquent Youth* — This budget recommends significant increases in funding for services for troubled and delinquent youth. While our remaining needs in the juvenile justice area are great, several positive notes have been struck during the last year. It would be good to highlight a few of these.

First, Oklahoma has been lauded by several professionals as a bellwether state in juvenile justice reform, specifically in deinstitutionalization and modernization of our laws governing children.

Second, Legal Aid of Western Oklahoma and the Department of Human Services have agreed to bring in a panel of experts to review our existing programs as a step toward resolving a long running court case involving our juvenile justice system.

Third, the DHS has developed an intensive institutional and community program for dealing with juvenile chronic property offenders who have not committed a violent crime. This program will be implemented on May 1, 1989, and will increase significantly our ability to deal with chronic property offenders.

Fourth, two new youth shelters, at Bartlesville and Midwest City, are to be opened in a few weeks and juvenile detention facilities in Muskogee and Enid are to be opened in July 1989. We have also increased slightly the number of specialized foster homes and group home beds, including 12 beds for youth with drug and alcohol problems.

Fifth, juvenile judges, district attorneys, and other professionals, who work in juvenile justice, jointly convened five judicial conferences which brought together educators, policemen, mental health professionals, and juvenile justice professionals, as well as court officials, for training and coordination of activities.

Sixth, the DHS has implemented a high risk assessment program to identify children who are at risk of being abused or neglected or of becoming juvenile offenders. When a high risk situation is identified, DHS intervenes to provide counseling, parent training, and referral for employment or other needs. Through these efforts, Oklahoma is making progress toward alleviating problems for our troubled families. As an example, the number of deaths in Oklahoma from child abuse was down from 31 in 1987 to 24 in 1988.

Seventh, during the last session, the Legislature commissioned a comprehensive study of services for children and youth. This study was completed in November. While it shows Oklahoma is progressive in some areas, the study also shows we are lacking a spectrum of community-based services to intervene with many of our troubled children and families to prevent further problems. The study also criticized the rate of institutionalization of Oklahoma children in private psychiatric hospitals at state expense who probably could be treated in the community if resources were available.

Besides maintaining the current level of services, I am recommending increased appropriation for programs including group

homes and day treatment programs, youth-family building programs and youth alcohol and drug abuse programs.

14. *Indigent Health Care Delivery* — Oklahoma ranks eighth in the nation in the percentage of the *working population* without health care insurance. These Oklahomans, although employed, either do not have the resources to purchase health insurance or work for employers who do not provide it for them. By and large, these individuals are employed in small businesses in the retail trade and service sectors of our economy. In addition, approximately 22 percent of the elderly in Oklahoma are uninsured.

If an employee health care problem should develop, even something as ordinary and natural as a normal pregnancy, it can often result in personal financial devastation as well as significant added health care costs to paying patients or to taxpayers. In the Oklahoma county area, most indigent health care is provided at the Oklahoma Teaching Hospitals. The Teaching Hospitals receive state funds to provide this function. Except for the support provided to university-operated clinics in Tulsa, hospitals and health care providers in other parts of the state receive no relief from the indigent health care burden.

Providing indigent health care almost exclusively through the Teaching Hospitals is costly to other patients at OTH and to the state. Also, it is inconvenient to low income families who might better have received care in their under-utilized community or regional hospitals. Per-day hospital costs at the Teaching Hospitals are the highest in the state.

In order to address this issue, creation of an indigent health care pool is recommended. This pool would initially have an appropriation of $14 million and would be administered by DHS. Hospitals which provide indigent health care in any area of the state could apply to this pool and receive reimbursement on a pro rata basis based upon the share of total indigent care burden.

Every effort must be made by hospitals applying to this pool to qualify individuals to the greatest extent possible through Medicare and Medicaid. This program has an absolute cap and as a result, is not an entitlement program. This assures cost containment while at the same time providing support for indigent health care statewide through local hospitals which are more convenient and less costly.

A companion effort will be undertaken to provide information and administrative support to private employers who presently provide no health insurance coverage for their employees. Employers will be assisted and encouraged to join in a unified group health insurance plan to provide health care for employees. Often these small businesses do not qualify for group rates and as a result, it is unduly costly for the employer to afford to provide insurance, nor can the employee afford to pay the costs themselves. Through a statewide effort, on a voluntary basis, these employers could participate in group plans provided by private carriers, making it possible for more working Oklahomans and their families to be covered by pregnancy and catastrophic health insurance as a minimum. This effort will go a long way toward relieving the financial devastation that sickness brings to many uninsured workers. Significant relief in costs of the indigent health care burden on Oklahoma state government is also likely.

CAFETERIA BENEFIT PLAN

Dedicated state employees are vital to an efficient and effectively operating state government. Oklahoma has a strong cadre of

competent state employees. I believe that we should offer the maximum incentives to them that our resources will permit.

State employees currently receive fringe benefits in the form of paid health insurance, dental insurance and life insurance. They also receive retirement benefits funded 88 percent by the state. In addition, state employees pay approximately 2 percent of their salary for retirement benefits, as well as for health insurance benefits for their families. Recent federal legislation allows the state to provide tax relief for their employees through so-called "cafeteria" benefit plans. These plans, in essence, reduce the taxable income of an individual by the amount paid for health and life insurance, retirement and day care. A so-called "cafeteria plan" provides federal tax relief and increases take-home pay. It is proposed that a "cafeteria plan" be instituted for the benefit of state employees.

The increase in the take-home pay will vary dependent upon the level of benefits an individual employee receives, but could mean an increase of from 5 to 10 percent in take-home pay for state workers. Colleges and universities have begun the implementation of "cafeteria" benefit plans. Individual school districts are encouraged to develop such plans and thus provide a take-home pay increase for teachers.

ADDITIONAL $5 MILLION RECOMMENDATION FOR CHAIRED PROFESSORSHIPS

Last legislative session, Oklahoma began the process of providing for a public/private partnership to attract nationally recognized researchers and scholars to our higher education institutions. Fifteen million dollars was appropriated for chaired professorships. Of this amount, well over 50 percent has already been matched by contributions from private sources. There is little doubt that the full amount will be matched well before the end of the fiscal year.

It is recommended that an additional $5 million be provided for chaired professorships on a matching basis with private contributions. The required private contributions will be raised to $2 private money for each dollar of public money. This means that the $5 million recommended for chaired professorships will generate a total of $15 million funding to our higher education system.

BUSINESS CLIMATE

Due to past legislative actions, Oklahoma is a much more business friendly and probusiness state than it has ever been. Our total package of tax credits, business incentives and technical support is extremely competitive for retaining as well as attracting jobs and business to the state.

The one major issue on which we must work together is our workers' compensation costs. We must consider making improvements to this complex system in an effort to help our businesses reduce these costs.

As the Department of Commerce and local communities strive to bring new jobs to our state and to keep the jobs we already have, complaints continue that our workers' compensation system is unfair.

While major improvements have been made in the workers' compensation system, I propose two additional improvements. The first would create a Workers' Compensation Medical Board to determine the percentage of disability suffered by a worker when the parties disagree by more than 20 percent.

A second proposal is to create a three-member Workers' Compensation Appeals Court to speed appeals for the benefit of both workers and employers.

CRIMINAL PROCEDURE CODE

The criminal division of the Attorney General's office has informed me that the number one cause of our criminal cases being overturned by the appellate courts is the lack of a criminal discovery code in Oklahoma.

We must keep our most dangerous criminals locked up. To this end, I propose that Oklahoma adopt the uniform rules of criminal procedure which include a discovery code. These rules have already withstood challenges before the appellate courts.

LEGISLATIVE COMPENSATION BOARD

In 1968, in an attempt to take the question of legislative pay out of the political arena, the people of Oklahoma created — by Constitutional amendment — the Board on Legislative Compensation.

This board, without control by the Legislature or any other branch of government, determines legislators' pay every two years. Unfortunately, the meeting for this board has statutorily been set in the most political of times — immediately preceding the general election.

I propose that the meeting date for the Legislative Compensation Board be moved to the second Monday in July of each odd-numbered year. The Legislature should be out of session then, and no election will be immediately forthcoming.

In addition, all candidates or potential candidates will be aware of the salary that will be paid for the next session almost one year before filing for office opens. These candidates or potential candidates will be able to make a reasoned decision about whether to run for office in light of the financial conditions.

In November, the Legislative Compensation Board provided legislators with a substantial pay raise. This salary of $32,000 a year is high enough to justify a new standard of ethics among members.

I propose that in recognition of the $12,000 pay increase provided by the Legislative Compensation Board, the Legislature enact law which prohibits the acceptance of gifts in excess of twenty dollars value by any member. This new standard of ethics should also provide that members report all gifts of any value on a monthly basis and that gift-givers also be required to report the gifts they have made.

Further, I propose that the unseen influence of special interest groups be lessened by requiring political action committees to report all contributions of $100 or more and by requiring candidates to likewise report PAC contributions of $100 or more.

DEVELOPMENTAL DISABILITY SERVICES

Despite the decreasing institutional client populations, Oklahoma has spent many millions of dollars improving the facilities and services of the three state schools for the mentally retarded. The budget of the Developmental Disability Services Division of DHS was about $38 million in FY 1982. This budget proposal for that division in FY 1990 is about $105 million. This is a 276 percent increase in eight years.

This progress in providing better services for citizens with developmental disabilities should be a source of great pride for Oklahoma. Instead, the progress and the strengths of our programs have largely been obscured by the heavy-handed, and hope-

lessly utopian, decrees handed down by the federal court in the case of Homeward Bound vs. Hissom. The court in that case has ordered the total closing of the Hissom Development Center in about three years.

The court's decision is now on appeal to the 10th U.S. District Court of Appeals. A decision is expected from that court in the near future. Let us all hope that the appeals court will inject more realism into the court orders and oversight processes so that the needed community services can be developed without further delay.

LONG-TERM CARE SERVICES

Oklahoma has nearly 50 percent more nursing home beds per 1000 elderly than the average for the nation. Unfortunately, new beds that are being constructed are not generally off-set by removal from service of older, inadequate facilities.

Nearly two-thirds of all Oklahomans who are receiving nursing home care today have all or part of that care paid for by state and federal Medicaid funds. Most of those who are now paying for their own nursing home care will become Medicaid-eligible within a year or two after they enter a nursing home.

This year I am making no recommendation regarding organizational changes for long-term care services, although it seems clear to me there could be improved efficiency and fewer coordination problems if the major service programs were administered by a single department. Instead of arguing over the administrative focus of the programs, I propose that we use the rest of FY 89 and FY 90 to take six steps that will move us substantially toward a single, integrated, improved long-term care service system:

1. First, I will propose legislation permitting DHS to provide NTMC (Non-Technical Medical Care) services to persons not eligible for Medicaid, and to collect from such persons (or their families) payment for the costs of the services provided. This will help people who are in danger of needing nursing home care to maintain semi-independent living for longer periods of time. It will also encourage families to continue their care-giving roles and it will reduce the cost of public programs.

2. Second, we will work out agreements between DHS and the Health Department to increase the services provided by the Eldercare program to Medicaid-eligible clients, and to qualify Eldercare case management services for federal Medicaid matching. This will enable the Health Department to expand Eldercare services into counties not now served and to serve more clients in counties in which Eldercare is now operational.

3. Third, DHS and the Department of Health will develop a single intake application form and streamlined and consistent eligibility procedures for use in several long-term care programs.

4. Fourth, we will launch an effort to help Oklahoma's elderly citizens obtain a fair share of the Medicare health insurance benefits for nursing home care. Up to now, Oklahomans have received very little benefit from the Medicare skilled nursing coverage because nearly all Oklahoma nursing homes opted many years ago to become intermediate care facilities which are not eligible for Medicare payments. Now that the federal government is eliminating the distinctions between Medicaid and Medicare nursing home standards, Oklahoma should take steps to obtain the full Medicare benefits for its citizens. This is especially important because Medicare benefits are not dependent upon income eligibility in the way Medicaid benefits are.

5. Fifth, we should initiate state licensing of home health services. The importance of these services will grow in the years ahead, and Oklahomans must be protected against the possibility of poorly trained or unscrupulous persons entering the homes of elderly citizens through the guise of providing home health services. I will support appropriate legislation to initiate licensing of such services.

6. Sixth, we should convert the Long-Term Care Facilities Advisory Board into an advisory body which addresses both institutional and community long-term care services.

LIFE CARE COMMUNITIES

A new form of health care for the elderly is growing in this country. These new, so-called "life care communities" provide three levels of care: independent living, semi-independent living and nursing home care.

Participants pay a substantial fee — often amounting to an older person's life savings — to join a life care community. Originally, participants move into regular apartments with the assurance that when the time comes for them to receive nursing care, a nursing home bed will be available.

Increasingly, the elderly residents of life care communities find themselves in need of a nursing home bed but the community's nursing home is full and no beds are available. Having spent all their funds to join the life care community, the elderly have no money to go elsewhere and are forced to become welfare clients of the state.

I propose that the State of Oklahoma regulate life care communities to ensure that the elderly get what they pay for — a nursing home bed when they need it at no extra cost and without becoming welfare recipients. Regulation will be provided by the State Insurance Commissioner.

DHS SUPPLEMENTAL

The Department of Human Services has provided an important source of support for individuals hard pressed during Oklahoma's recent economic difficulty. During the past four years, DHS has required an ever-increasing share of the state's resources. The Legislature has found it necessary to address DHS funding problems twice each year. I am recommending a supplemental appropriation of $10 million for DHS to meet needs of the current fiscal year.

The twice-annual review of DHS' budget must end and should end with the recent trends in employment and economic recovery in the state. Whatever level of funding DHS receives this session, will be the total funding that I will recommend for FY 90. We cannot have continual supplemental appropriations.

LAW ENFORCEMENT CONSOLIDATION

In order to help increase the public safety of the State of Oklahoma, it is again recommended that the Oklahoma State Bureau of Investigation, Bureau of Narcotics and Dangerous Drugs, the Arson Investigation Unit of the Fire Marshal's Office and the Department of Public Safety be consolidated into a unified statewide law enforcement force. The inefficiency of duplicate communications systems, excessive administrative overhead and lack of interagency cooperation detracts from the ability to provide the security the citizens of the State of Oklahoma have a right to expect. The need to consolidate is made more urgent by plans of separate agencies to acquire costly technology which could fully serve the needs of a consolidated law enforcement system.

TOURISM AND RECREATION PROGRAM

Two years ago, the private sector supported and received authority to collect a one-tenth of one percent gross receipts tax on tourism-related businesses, earmarked to a fund to provide promotional information on Oklahoma's tourist attractions. It is expected that in FY 90 this fund will generate nearly $2 million. This fund has provided a significant boost to the promotion of Oklahoma tourist attractions, and has been responsible for a significant increase in inquiries to the Tourism and Recreation Department concerning Oklahoma's attractions. Last year, no direct state funding was provided for these promotional activities, although the tax was initially conceived to be a partnership between the tourism industry and the state. It is recommended that $500,000 be appropriated to the Department of Tourism and Recreation to enhance the creation of jobs by promoting the State of Oklahoma as a tourist destination.

It is fortuitous that an effective tourism advertising program is underway since 1989 marks the 100th anniversary of the first Oklahoma land run. The six "unassigned lands" counties involved in this historical occurrence are planning many celebrations to commemorate this significant event in our state's history.

Also, Oklahoma is proud and fortunate to be the host site for one of the largest amateur sporting events in the country during the Land Run Centennial — the U.S. Olympic Festival. Crowning a year-long calendar of centennial activities for the Land Run of 1889, the Festival will play a major role in the celebration. Over 4,000 of America's finest athletes, coaches and officials will participate in 36 world-class events.

The economic impact of the Festival will be in the tens of millions, beginning now and continuing beyond 1989, as Oklahoma attracts more and more amateur sporting events. Fifteen thousand volunteers are needed to ensure a successful event, and I urge all Oklahomans to join together in order to showcase our Oklahoma pride by making this event the best in Olympic history.

In keeping with the need for positive action to deal with growing opportunities in Oklahoma, many recent actions have been undertaken:

1. The highly productive Governor's Summit on Families, Children and Youth was preceded by nine "listening conferences" on children/youth/family issues held throughout the state.

2. A comprehensive study of the problem of child abuse and neglect in Oklahoma was launched through a new Child Abuse Study Commission (recommended by the Governor and approved by the Legislature in June, 1988).

3. The first thorough assessment of the homelessness problem in Oklahoma was completed and a set of actions to prevent and alleviate homelessness was developed.

4. A $1.2 million "healthy futures" grant from the Robert Wood Johnson Foundation was secured to support development of an outreach network to increase the percentage of Oklahoma's expectant mothers who receive early and adequate prenatal care; also achieved was approval of the Legislature to provide $750,000 as an initial appropriation to help fill gaps in medical services available to infants and expectant mothers.

5. In 1988, the first benefit increase in three years for children and families receiving public assistance was approved.

6. The availability of medical services for pregnant women and infants was en-

hanced by legislative approval making Oklahoma one of the first states in the nation to extend eligibility for Medicaid services to such persons living in families with incomes below 100 percent of the federal poverty standard.

7. The health research, eminent scholars and federal grant matching/research equipment competitions have been fully implemented.

8. The appointment and effective functioning of MOST (More Oklahoma Science and Technology), Centers of Excellence, and OTRN (Oklahoma Technical Research Network) advisory committees are well underway.

9. There has been major progress in designing OTRN, SBIR (Small Business Innovation Research) and Centers of Excellence programs, including development of procedures, criteria and rules and regulations.

10. The implementation of a safety program for local, county and state workers in 1988 by the Department of Labor resulted in a significant drop in injury rates. For state employees, the rate dropped 20 percent while the combined state and local government workers' injury rates dropped by 10 percent.

11. Oklahoma's 1988 tourism marketing plan was named the "best in the nation" in the national marketing awards competition sponsored by the Travel Industry Association of America.

12. More than 60 million people visited Oklahoma's recreational facilities, both state and federal, during 1988. This is probably a new record.

13. Our state parks and resorts set new attendance and revenue records in 1988 and are projecting still better records for 1989. The summer season was the best ever with July revenue exceeding one million dollars, the largest receipt total for one month in state resort history. State lodges operated in the black.

14. Oklahoma is known throughout the U.S. for the hospitality of its people. An integral part of an improving economy in Oklahoma is the in-service training program. Studies show that first impressions are lasting impressions, therefore hospitality training for employees will continue.

15. Industry leaders in the private sector are relying on the Oklahoma Tourism and Recreation Department for guidance in training their employees.

16. The State of Oklahoma's environment continues to improve. Much of the credit goes to the grassroots appeal of the "Don't Lay That Trash on Oklahoma" campaign, with the resulting increase in public awareness. Pride in our natural resources is being reflected. A special commission chaired by Dr. Bill Talley is working to find ways of protecting and improving the quality of Oklahoma's natural environment while striving to maintain a diversified and healthy economy. With effective cooperation, we can accomplish the revitalization of Oklahoma's economy and maintain the quality of life Oklahomans desire.

17. In the area of animal health, great strides were made in brucellosis control in 1988. The infection rate for Oklahoma cattle herds continues to drop as evidenced by the 67 percent reduction over the past few years. Oklahoma is projected to achieve Class A status by mid-1990.

18. The Oklahoma state meat inspection program was the first to be approved by USDA for its certification program. Ours has become a model program with 28 other states looking to Oklahoma for guidance in establishing their programs.

19. The Office of the Secretary of State fulfilled its legislative mandate in October and began the implementation of the central filing system for agricultural commodity liens. The system is already widely used by lending institutions and potential buyers of farm products.

20. The new community services sentencing statutes now permit the courts to sentence persons convicted of certain crimes to community service projects rather than to prisons. Five communities have pilot projects and report excellent progress. Especially commendable are those of Marshall and Rogers Counties. This program puts certain classes of offenders to work on public projects in the local communities thereby providing valuable services rather than draining tax dollars away from the state. Idleness of prisoners has been reduced by nearly 10 percent during 1988. Further improvement will occur in 1989.

21. Under-utilized facilities at Western State Hospital in Fort Supply are being converted to space for housing certain classes of inmates. Facilities operated by the Department of Corrections are being upgraded to provide more cells for prisoners and reduce overcrowding which causes early release under the cap program.

22. A recent agreement has been worked out between Phillips University and the Kyoto Institute of Technology that will bring hundreds of Japanese students to Oklahoma for education and training. This should open the way for better understanding between the two cultures and ultimately enhance the opportunities for trade and investment between Oklahoma and Japan.

Last year I cited several objectives which guide this administration. I commend them to members of the House and Senate. Together, I believe we can work to build Oklahoma into a State of Excellence:

1. Where there is a satisfying job and suitable shelter for every citizen;

2. Where homes and communities are safe from crime and violence;

3. Where all parents support their children financially and emotionally;

4. Where public assistance is a temporary condition for those who need a hand-up while preparing themselves to live productive, self-supporting lives;

5. Where schools and playgrounds are free of drugs and other dangerous substances;

6. Where Oklahoma's brightest scholars and teachers choose to remain and make their contributions;

7. Where our educational system is renowned for its excellence and for its ability to produce productive, highly motivated citizens in the workplace and in society;

8. Where a high standard of ethics makes public service a respected and honored profession;

9. Where business and industry thrive in the nation's finest economic climate;

10. Where equality of opportunity and respect for human rights is a fact and not a platitude;

11. Where Oklahoma is recognized as the nation's transportation and communication hub;

12. Where Oklahoma is a place for people *to come to* rather than *to pass through;*

13. Where the phrase "Oklahoma is OK" is not good enough. Excellence must become our hallmark; and

14. Where our friends in the media have much more good news than bad news to report and where they are as eager to report one as they are the other.

RULE 12-23. RECONSIDERATION. The final vote on Third Reading or Fourth Reading of any bill or joint resolution or on the emergency clause or special election feature of any bill or joint resolution may be reconsidered only if a member of the Senate serves notice on the same day such final vote is taken. Once such notice is served, the following procedures shall be observed:

MESSAGE OF GOVERNOR HENRY BELLMON

In keeping with the Constitution, the State Board of Equalization met at 11:00 a.m. today and provided a new certification of state-appropriated funds in the amount of $2.691 billion. This is an increase of $88.0 million over the certification made last November — an increase of 3.4 percent. The Constitution provides for the appropriation of 95 percent of this amount. When added to available cash, $84.4 million of new money is now available for funding government services above the November certification. This is money newly available for use as determined through the appropriations process.

Before making recommendations as to how these funds should be used, it may be worthwhile to discuss the sources of these additional millions of dollars. A chart detailing the changes is being sent to your offices.

The largest single increase in anticipated General Fund revenues is $36.4 million in income tax receipts, a 3.5 percent rise. This increase is based on more recent economic and income tax data that reflects economic growth.

In percentage terms, the single largest increase in General Revenue Fund revenue collections was 27.9 percent ($25.4 million) in interest and investment income. This resulted from both an increase in anticipated interest rates (to 8.5 percent) and a larger investable base (to $1.425 billion) than earlier estimated.

Estimated sales tax collections increased by $15.3 million or 2 percent from the November figure. This is a reflection of improved retail sales in the state during the current fiscal year which are anticipated to continue through FY-90.

Estimated gross production tax revenues increased by $11.6 million or 6.6 percent from November. The weighted average price per barrel of Oklahoma oil is now estimated at $15.50, as compared with $15.00 in November. The estimated weighted average price per MCF of natural gas is now $1.60, as compared to $1.50 in November, and estimated gas production has been increased by 0.3 percent.

The next issue is how to wisely employ these new resources. It is a nice problem to have and it represents a dramatic change from the not too distant past when new certifications were frequently lower, necessitating cuts in service or tax increases.

Before making my specific proposals, I would like to compliment the Speaker and the President Pro Tempore and other Legislative Leaders for the leadership they are providing this session and for their interest in securing a high level of services and strong educational programs for the citizens of our state. I particularly approve of the long-range planning which has been done, that, over time, should bring Oklahoma to a "State of Excellence".

My recommendations recognize the critical need for increasing the quality of education in Oklahoma and the key role education has in the future of our state.

First, I recommend a $21.5 million increase in funding for primary, secondary and vocational-technical education. The January budget recommendations included $22.5 million increase in appropriations for the Financial Support of Public Schools, to be allocated through the formula. I now recommend that an additional $20 million be appropriated to the Department of Education for allocation through the State Aid Formula and $1.5 million to be provided for vocational-technical education for general operating expenses. When added to my earlier recommendations, this level of funding will increase state funding for public schools from $1,417 per A.D.A to almost $1,500 — an increase of 5.4 percent. When combined with the actions of the State Equalization Board, this translates into an almost 10 percent increase in funding for elementary and secondary education between FY-89 and FY-90. There is no better use of state funds than for the education of our young people.

In addition, I recommend that $3 million be appropriated to the Department of Education to be used to fund progressive demonstration projects to be developed by the school districts. These projects are to be performance based and could include projects for longer school days, full year classes rather than 9 months, development of comprehensive healthy living courses, teen pregnancy alert programs, drug dependency prevention programs, dropout prevention and re-entry programs, and scholarship enhancement programs, as well as other priorities which the Legislature may identify.

Our high school graduates must have the highest quality colleges and universities available for their continued education. Where a young person attends college is a key determinant of where they go to work.

It is recommended that additional funding of $10 million be provided for higher education. This is in addition to the $16.2 million increase recommended in January or a total of $26.2 million. In addition, tuition increases recently approved by the Regents should generate approximately $28 million of new revenues for a total of $54,200,000 of new revenues, or a 13 percent increase over the previous year.

At all levels of education, it is accurate to assume that the greatest proportion of all new funds will be utilized to improve salaries of teachers, faculty and staff.

In the 1988 Session, the Legislature appropriated $15 million for the funding of an Endowed Chairs and an Endowed Professorship Program. Most of these funds have already been matched by private contributions and are being deployed. Additional state funds to be matched by private funds will soon be needed. Benefits are already beginning to accrue to the State because of the original appropriation and substantial private donations have come to the schools.

The January budget proposal included $5 million to fund additional chairs on a matching funding basis. I propose another $5 million for chairs for an FY-90 total of $10 million of state funds to be matched by private funds. This will provide a total of $50 million for support of chaired professors since the program began last year.

Not all our young people thrive in our current school environment. We must develop alternative institutional settings to give them another opportunity to become productive members of our society. I propose that $500,000 be appropriated to help pay the operating costs of a youth training facility (Job Corps Center) proposed to be located at the Concho Indian School near El Reno in the event the U.S. Department of Labor establishes a new center there or reallocates other funds to allow Concho to operate as a satellite of the Guthrie Job Corps Center. A proposal is before the U.S. Department of Labor that if they will locate a center at Concho, Oklahoma will pay with state funds for services to fourteen and fifteen year olds. Federal funds would pay costs of services to older youth. There are hundreds of youth in Oklahoma, ages sixteen through seventeen, who desperately need an alternative educational opportunity. These young people, many of whom are experiencing failure in the public schools, include pre-delinquent juveniles. These state and federal funds would provide the highly structured residential setting needed for many of these often troubled young Oklahomans to develop the skills critical for their future. If the Concho Center can divert only ten youth per year from lives of institutionalization, it will save the system at least $450,000 per year plus inestimable savings to our citizens who would otherwise be victimized.

For FY-89, the Legislature authorized a two-step (or 5 percent) increase in pay for most state employees. The effective take-home pay was reduced, however, by a 2 percent increase in pension system contributions. The Office of Personnel Management's Annual Compensation Report published November 1, 1988, indicates that the state is a very competitive entry-level employer. The report goes on to say that while the current pay system recognizes tenure and equity, it does not reward increased productivity. Performance pay can be used by management to recognize top performers and provide a means to reward and thus increase employee productivity.

I propose that the Legislature add $21 million to agency budgets to implement pay programs which would give agency managers one of the tools necessary for good management. All state employees would receive a one-step (2.5 percent) increase. In addition, I recommend that agency officials be given the authority to grant one-fifth of the agency's employees a one-step (2.5 percent) pay increase based on performance. This proposal should increase government efficiency and improve employee morale by rewarding excellence. It is a $21-million, sound investment in better government. Employees who elect to take advantage of the "Cafeteria Plan", proposed in my January State of the State message, could receive an additional 5 to 10 percent increase in take-home pay for a total raise of 7.5 to 12.5 percent.

I am recommending an increase of $11.6 million, above my prior recommendations, for the Department of Human Services. Of this amount, $500,000 is recommended to aid the homeless in Oklahoma. These funds would finance "day centers", grants for flexible emergency cash assistance, and other top priorities identified by the Task Force on the Homeless.

Financing of rapidly growing costs of the Department of Human Services has become the single most difficult state spending problem. As many of you know, DHS has required supplemental appropriations in each of the last three years. Some of this cost growth is caused by mandates from

Washington. Many costs, however, are controllable by the state. The state determines the reimbursement rate for hospitals, nursing homes and physicians. The state determines the range of services to be covered by Medicaid; the State determines what limitations will apply to the numbers of hospital days, office visits and prescription drugs reimbursed. It is not accurate to blame the Federal Government for all of the DHS cost growth problems. We can and must deal with many of those problems right here in Oklahoma without depending upon the Federal Government.

My conclusion and my belief is that DHS can operate during FY-90 within the funding level I am now recommending.

I know the Legislature, as well as those of us in the Executive Branch, are frustrated by the continuing problems of financing the DHS programs. Director Watson and the Commission for Human Services have indicated their strong commitment to living within the funds appropriated by the Legislature. In fact, the Commission approved a series of program reductions and would have implemented them early in 1989, had not the leaders of the Legislature and the Governor requested that those reductions be deferred until we could review the situation in January.

We should not repeat the Fiscal '89 experience in Fiscal '90. We must, in my view, agree on a funding level for DHS and then support the Commission for Human Services as it administers the Department and lives within the available funds.

Chronic prison overcrowding is well known in Oklahoma. Many innovative attempts to deal with the problem have been undertaken and some progress is evident. I propose construction of a 200-cell facility to house some of Oklahoma's most dangerous criminals. This facility would house approximately 375 inmates, which require maximum or medium security facilities because of the danger they pose to Oklahoma citizens. The total cost of such a facility is approximately $7.5 million over a two-year period. When the current construction program is completed, in FY-92 the system will still have 880 more inmates than the rated CAP capacity. The proposed new cells will reduce overcapacity to about 500 inmates and if current trends in the reduction of the crime rate and pre-parole continue, the corrections system may no longer need to use the CAP law. This proposal in combination with new prison capacity made available in last year's Special Session is an effective way of dealing with this critical public safety problem.

Finally, I am recommending $8.3 million to fund the first year's activities of the ad valorem reform bill, H.B. 1750, passed last year. These funds would be used to develop the statewide ownership maps and begin the process necessary to put in place the Computer-Assisted Mass Appraisal Program mandated in H.B. 1750. It is critical that we provide more than just lip service to ad valorem reform, and that we begin implementation of the important reforms passed last session. A fair and equitable property tax system is as critical to the funding of elementary and secondary education as are dollars provided through the State Aid Formula. By increasing confidence in the local property tax appraisal process, citizens will be more likely to reassume greater support for and greater control of their local schools. It is only through increased local funding that Oklahoma can hope to make progress in achieving excellence in its elementary and secondary schools.

This significantly improved level of funding for state services is due to strong, healthy, and hopefully sustained, growth in our economy. Evidence of this growth can be seen in the attached chart which shows that, during the last six months, 2,480 new

connects have been made by the Oklahoma Gas and Electric Company. Also, the state's turnpike system has shown a 7.1 percent growth in revenues over the last 12 months. Both these statistics are indications of a strong and growing economy. The spending increases should place Oklahoma education and other state services at commendable levels. It is my hope that when we meet next January or February, I will be able to recommend relief for Oklahoma's taxpayers as I present the budget for Fiscal Year 1991.

The final decision as to how the $84.4 million of new funds can best be used is now in the hands of the House and Senate. Working together I believe we can make wise decisions that will assure continued economic health and growth. Continued improvement in state services is only possible when the climate is conducive to a flourishing private sector. Progress comes through partnership. We have done well through this period of recovery. Let us continue this relationship as we bring Oklahoma into a state of prosperity and excellence.

Section 26. Except as herein otherwise provided, no county, city, town, township, school district, or other political corporation, or subdivision of the state, shall be allowed to become indebted, in any manner, or for any purpose, to an amount exceeding, in any year, the income and revenue provided for such year without the assent of **[three fifths]** A MAJORITY of the voters thereof, voting at an election, to be held for that purpose, nor, in cases requir-

CODE OF ETHICS CODE OF CONDUCT AND STANDARDS

The Committee on Standards and Ethics filed the following report pursuant to Senate Rule 7-5: A Code of Ethics for the Oklahoma State Senate and a Code of Conduct and Standards for members of the Senate and staff, as adopted by the 41st Legislature, with the following amendments:

A CODE OF ETHICS FOR THE OKLAHOMA STATE SENATE

ARTICLE I

Statement of Purpose

The Senate finds and declares that high moral and ethical standards among public servants are essential to the orderly conduct of a free government; that a code of ethics for the guidance of public officers and employees is necessary in order to eliminate conflicts of interest in public office, improve standards of public service, and promote and strengthen the faith and confidence of the people in their government.

All Senators before entering upon the duties of their offices, according to Article XV, Section 1 of the Constitution of the State of Oklahoma, are required to take and subscribe to the following oath or affirmation: "I, ..., do solemnly swear (or affirm) that I will support, obey, and defend the Constitution of the United States, and the Constitution of the State of Oklahoma, and that I will not, knowingly, receive, directly or indirectly, any money or other valuable thing, for the performance or nonperformance of any act or duty pertaining to my office, other than the compensation allowed by law; I further swear (or affirm) that I will faithfully discharge my duties as Senator to the best of my ability."

The Senate also recognizes that, in Oklahoma, service in the Senate is not a full-time occupation and is not compensated on that basis with the result that Senators must look to income from sources other than their senatorial salaries and allowances to feed, shelter and clothe themselves and their families. That being true, conflicts of interest of varying degrees may occur from time to time for even the most careful and conscientious Senator as a part-time public official. It is, therefore, the purpose of this Code of Ethics for the Oklahoma State Senate to set reasonable and practicable standards and guidelines governing the conduct of Senators that will assure this body of attracting to it men and women of high integrity, character and dedication and yet not so stringent and restrictive as to limit service herein only to the very poor or the very wealthy.

ARTICLE II

Statutory Requirements

SECTION 1. Title 74 of the Oklahoma Statutes, Section [**1409**] 4246, provides as follows:

"No Legislator shall:

This act shall not be interpreted to prevent an attorney to appear in behalf of his client in any court, board or commission;]** or REPRESENT ANOTHER PERSON, FIRM, CORPORATION OR ENTITY FOR A FEE BEFORE ANY STATE DEPARTMENT, AGENCY, BOARD OR COMMISSION. 1. APPLY TO THE PRACTICE OF LAW BEFORE ANY COURT; OR

The Attorney General shall then render an opinion to the Senator and may publish these opinions, or abstracts thereof, with the name of the Senator advised, unless the Senator requests otherwise in writing.

In addition, Senate Rule 7-5 states that the Committee on Standards and Ethics shall provide, upon the request of any member of the Senate, an interpretation of the Code of Ethics or Code of Conduct as it applies to a specific situation.The identity of the member making the request may be kept confidential, at the discretion of the member.

Before the Committee exercises any of the authority granted in this section with respect to any investigation or hearing it shall, by majority vote of the whole membership of the Committee, define the nature and scope of its inquiry. All proceedings before the Committee concerning alleged violations of the Code of Ethics or Statutes governing senatorial ethics or conduct shall be conducted in executive session.

Any complaint so filed shall be deemed confidential, until such time as the Committee has held a meeting for the purpose of investigating the complaint and said complaint shall remain confidential if the Committee seeks further information thereon, and if the Committee at the conclusion of its preliminary investigation concludes that said complaint was false and groundless the matter shall be closed. If, after the initial investigation, a majority of the Committee determines that there is probable cause to believe that a violation of the Code of Ethics or of a statute governing senatorial ethics or conduct might have occurred, a copy of the complaint and a further statement of the alleged violation shall be served upon the alleged violator. He or she shall have twenty (20) days after service thereof to respond in writing to the complaint and statement. If any information or complaint which is required by this Code to remain confidential is disclosed, the Committee, at its discretion, may refuse to consider the matter further.

MESSAGE FROM THE GOVERNOR

Advising veto of Enrolled **SJR 21** on March 29, 1989. The veto message reads as follows:

To the President Pro Tempore
And Members of the Honorable Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SJR 21** by Capps, Cullison and Dahl of the Senate and Powell, Seikel, et al of the House

A joint resolution declaring a moratorium on the processing and issuance of certain construction and/or operation permits; *** and declaring an emergency.

The Controlled Industrial Waste Disposal Act, 63 Okla. Stat. §1-2001 et seq. requires the State Health Department to regulate disposal of controlled industrial wastes and establishes the parameters in which the Department must work.

To date, the Department has carried out this legislative directive responsibly and with the highest regard for the health and safety of the citizens. The Department's application process is designed to prevent the opening of unsuitable disposal sites. No evidence of a failure by the Department has been brought forth.

Since the Department of Health is properly fulfilling its legal mandate, there is no reason for the state to declare an arbitrary moratorium on controlled industrial waste landfills, especially when such a moratorium would adversely affect the recovery of Oklahoma's economy.

The declaration of a moratorium would signal that Oklahoma is unwilling to make provision for the disposal of internally generated controlled industrial wastes and make it appear that we expect to dispose of our wastes in other states. A "not in my backyard" policy is counter to sound economic development.

In addition, Senate Joint Resolution suffers from violation of the special and local laws prohibitions in Okla. Const. Art. 5, §§32 and 59 and the equal protection penumbra and provisions of Okla. Const. Art. 2, §7 and U.S. Const., 14th Amendment, §1, because of the Joint Resolution's thirteenth "whereas clause," targeting one, specific disposal application.

By the Governor of the State of Oklahoma

/s/ Henry Bellmon

Pursuant to the Roberts motion, the Senate adjourned at 4:20 p.m., to meet Thursday, March 30, 1989, at 9:00 a.m.

MESSAGE FROM THE HOUSE

Transmitting herewith Enrolled **HB 1231,** together with the Governor's Veto Message thereon, and advising that under the provisions of Section 11, Article VI of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a two-thirds vote of all members elected to and constituting the House, said vote being as follows: Aye — 83; Nay — 13.

The veto message reads as follows:

April 1, 1989

To the Speaker and Members
of the Honorable House of Representatives
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed enrolled **HB 1231** by Grieser of the House and Weedn of the Senate

An act relating to revenue and taxation; *** modifying payment date and procedure; and providing an effective date.

Government — like the private sector — should meet the needs of its constituents rather than vice versa. The argument made for this piece of legislation, however, is that limiting the method of payment of property taxes will make business more convenient for county treasurers.

It seems that government instead should attempt to provide that convenience to the taxpayer. Most property tax payers already remit their taxes in the manner prescribed by this bill, but there are others whose financial situation compels them to pay increments. They should not be penalized while trying to pay their property taxes before the April deadline.

It hardly seems likely that large numbers of taxpayers will abandon the currently prevalent method of payment to take advantage of the recent Attorney General's opinion on this matter, but if they do, this could be beneficial to county offices as well since tax remittance work would be spread over a longer period of time rather than clumped in a few hectic days.

By the Governor of Oklahoma

/s/ Henry Bellmon

A. 1. Any insurer which is organized under the laws of any other state and is admitted to do business in this state for the purpose of transacting insurance may become a domestic insurer by complying with all of the requirements of law relative to the organization and licensing of a domestic insurer of the same type and by designating its principal place of business at a location in this state, provided, the Insurance Commissioner approves the insurer's application for redomestication following a public hearing. Said domestic insurer will be entitled to like certificates and licenses to transact business in this state and shall be subject to the authority and jurisdiction of this state.

2. The Commissioner shall approve an insurer's application to redomesticate unless, after a public hearing thereon, he finds that:

a. the insurer cannot comply with all the requirements of law relative to the organization and licensing of a domestic insurer,

b. after redomestication, the insurer would not be able to satisfy the requirements for the issuance of a license to write the line or lines of insurance for which it is presently licensed,

c. the effect of the redomestication would be substantially to lessen competition in insurance in this state or tend to create a monopoly therein,

d. the financial condition of the insurer is such as might jeopardize or prejudice the interest of its policyholders or the state and is not in the public interest, or

e. the competence, experience and integrity of those persons who control the operation of the insurer are such that it would not be in the interest of the policyholders, the public or the state to permit the redomestication.

3. The insurer's application to redomesticate shall contain information acceptable to the Commissioner concerning its financial condition, its plan of operation for the succeeding three (3) years, and information concerning the competence, experience and integrity of those persons who control the operation of the insurer.

4. The application for redomestication shall be deemed approved unless the Commissioner has, within thirty (30) days after the conclusion of the hearing, entered his order disapproving the redomestication.

B. Any domestic insurer may, upon the approval of the Insurance Commissioner, transfer its domicile to any other state in which it is admitted to transact the business of insurance, and upon such a transfer, shall cease to be a domestic insurer, and shall be admitted to this state if qualified as a foreign insurer. The Commissioner shall approve any such proposed transfer unless he shall determine such transfer is not in the interest of the policyholders of this state.

C. The certificate of authority, agents appointments and licenses, rates, and other items which the Insurance Commissioner allows, in his discretion, which are in existence at the time any insurer licensed to transact the business of insurance in this state transfers its corporate domicile to this or any other state by merger, consolidation or any other lawful method shall continue in full force and effect upon such transfer if such insurer remains duly qualified to transact the business of insurance in this state. All outstanding policies of any transferring insurer shall remain in full force and effect and need not be endorsed as to the new name of the company or its new location unless so ordered by the Commissioner. Every transferring insurer shall file new policy forms with the commissioner on or before the effective date of the transfer, but may use existing policy forms with appropriate endorsements if allowed by, and under such conditions as approved by, the Commissioner. However, every such transferring insurer shall notify the Commissioner of the details of the proposed transfer, and shall file promptly, any resulting amendments to corporate documents required to be filed with the Commissioner.

BILL RELEASED

HB 1160 was properly signed and ordered returned to the Honorable House.

MESSAGE FROM THE GOVERNOR

Advising approval by him, April 17, 1989, of Enrolled **SB 85** and veto of **SB 5.** The veto message reads as follows:

To the President Pro Tempore and Members
Of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 5** by Hooper of the Senate and Maddox (Jim) of the House

An Act relating to motor vehicles; which relates to vehicle licensing and registration; *** and providing an effective date.

As the law now stands, Oklahoma treats nonresident members of the armed forces and their spouses differently from resident members of the armed forces and their spouses and from all civilians for vehicle registration purposes. If this bill becomes law, both nonresident and resident members of the armed forces and their spouses will be treated differently from all civilians.

The U.S. Supreme Court in *Davis v. Michigan Department of The Treasurer*, recently ruled that Michigan could not treat state government retirees' benefits differently from federal government retirees benefits for state income tax purposes. Oklahoma currently faces a dilemma about the possibility of refunding a significant amount of money to taxpayers because of *Davis*. Revenue implications of Senate Bill No. 5 are not known. It is poor public policy to legislate or pass laws without a full understanding of results.

By the Governor of the State of Oklahoma

/s/ Henry Bellmon

Pursuant to the Roberts motion, the Senate adjourned at 5:05 p.m., to meet Wednesday, April 19, 1989, at 9:00 a.m.

A joint resolution directing the Secretary of State to refer to the people for their approval or rejection a proposed amendment to Section 24 of Article 2 of the Constitution of the State of Oklahoma; deleting the provision which prohibits giving consideration to benefits from the proposed public improvement in determining just compensation for private property taken or damaged for public use; defining just compensation; limiting the offset of any benefits to severance damages; providing ballot title; and directing filing.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES AND THE SENATE OF THE 1ST SESSION OF THE 42ND OKLAHOMA LEGISLATURE:

SECTION 1. The Secretary of State shall refer to the people for their approval or rejection, as and in the manner provided by law, the following proposed amendment to Section 24 of Article 2 of the Constitution of the State of Oklahoma to read as follows:

Section 24. Private property shall not be taken or damaged for public use without just compensation. JUST COMPENSATION SHALL MEAN THE VALUE OF THE PROPERTY TAKEN, AND IN ADDITION, ANY INJURY TO ANY PART OF THE PROPERTY NOT TAKEN. ANY SPECIAL AND DIRECT BENEFITS TO THE PART OF THE PROPERTY NOT TAKEN MAY BE OFFSET ONLY AGAINST ANY INJURY TO THE PROPERTY NOT TAKEN. Such compensation[, **irrespective of any benefit from any improvements proposed,**] shall be ascertained by a board of commissioners of not less than three freeholders, in such manner as may be prescribed by law. PROVIDED HOWEVER, IN NO CASE SHALL THE OWNER BE REQUIRED TO MAKE ANY PAYMENTS SHOULD THE BENEFITS BE JUDGED TO EXCEED DAMAGES. The commissioners shall not be appointed by any judge or court without reasonable notice having been served upon all parties in interest. The commissioners shall be selected from the regular jury list of names prepared and made as the Legislature shall provide. Any party aggrieved shall have the right of appeal, without bond, and trial by jury in a court of record. Until the compensation shall be paid to the owner, or into court for the owner, the property shall not be disturbed, or the proprietary rights of the owner divested. When possession is taken of property condemned for any public use, the owner shall be entitled to the immediate receipt of the compensation awarded, without prejudice to the right of either party to prosecute further proceedings for the judicial determination of the sufficiency or insufficiency of such compensation. The fee of land taken by common carriers for right of way, without the consent of the owner, shall remain in such owner subject only to the use for which it is taken. In all cases of condemnation of private property for public or private use,the determination of the character of the use shall be a judicial question.

SECTION 2. The Ballot Title for the proposed Constitutional amendment as set forth in SECTION 1 of this resolution shall be in the following form:

BALLOT TITLE

Legislative Referendum No. _____
State Question No. _____

THE GIST OF THE PROPOSITION IS AS FOLLOWS:

This measure amends the State Constitution. It amends Section 24 of Article

II. The section deals with the taking of private land for public use. The section requires that payment be made for such takings. It now requires that the amount of payment be set without taking into account any benefits to the land which might result from any public improvements. This measure would change the way the amount of the payment is set. The change defines just compensation. It would mean the value of the part of land taken and for injury to the part of land not taken. It would allow the consideration of benefits to the land from the public improvement in setting the amount of payment. The land owner would not be required to pay for benefits that were greater than the injury to the land not taken.

SHALL THIS AMENDMENT BE APPROVED BY THE PEOPLE?

☐ YES, FOR THE AMENDMENT

☐ NO, AGAINST THE AMENDMENT

SECTION 3. The Chief Clerk of the House of Representatives, immediately after the passage of this resolution, shall prepare and file one copy thereof, including the Ballot Title set forth in SECTION 2 hereof, with the Secretary of State and one copy with the Attorney General.

MESSAGE FROM THE HOUSE

Transmitting herewith Enrolled **HB 1209**, together with the Governor's veto message thereon, and advising that under the provisions of Section 11, Article VI, of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a two-thirds vote of all members elected to and constituting the House, said vote being as follows: Aye—68; Nay—31.

The veto message reads as follows:

To the Speaker and Members
of the Honorable House of Representatives
First Session,
Forty-Second Oklahoma Legislature
April 11, 1989

This is to advise you that on this date I vetoed Enrolled **HB 1209** By Adair, Glenn, et al of the House and Rozell, Stipe and Long (Ed) of the Senate entitled:

An act relating to schools; which relate to school elections; modifying date of certain filing dates; *** and providing an effective date.

One of the greatest needs of public schools is for a higher degree of public understanding of, support for, and participation in the education system. Those who feel that more public involvement will result in decisions adverse to education show their lack of confidence in the decision-making ability of Oklahoma citizens. I reject the notion that Oklahoma citizens will not support education and believe on the contrary that the better understood educational issues are, the more support our Oklahoma school systems will receive from the public.

For these reasons, I feel it is not only unnecessary but counterproductive to contrive to hold school elections at a time when there will be only minimal public participation. I believe that more citizen involvement and greater understanding will equate with greater support and greater insistence upon excellence in the quality of education provided to Oklahoma students. This veto is a vote of confidence in Oklahoma citizens and our education system.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE HOUSE

Advising adoption of and returning Engrossed **SCR 11,** coauthored by Boeckman of the House.

MESSAGE FROM THE GOVERNOR

Advising veto, April 26, 1989, of Enrolled **SBs 224** and **371.** The veto messages read as follows:

To the President Pro Tempore and Members of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 224** by Taliaferro, Branstetter and Long (Ed) of the Senate and Reese of the House.

An act relating to agriculture; which relate to the Oklahoma Agriculture Linked Deposit Program; *** and declaring an emergency.

This bill would potentially increase the cost to taxpayers of this new, unproven program from $1 million dollars to $4.5 million dollars.

At a time when the state is hard pressed to provide funds for education, public safety, and social services, there is a real question as to the reasonableness of such a dramatic increase.

This bill has been vetoed in the expectation that legislative committees will closely examine the impact of this program during the interim so an informed opinion as to its impact can be made in the 1990 session.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 371** by Herbert of the Senate and Hobson of the House.

An act relating to state government; *** which relates to the Oklahoma Personnel Act; modifying certain type of leave to which state employees are entitled; and declaring an emergency.

This is discriminatory legislation in that it excludes organizations with less than 1,000 dues paying members from the Definition of employee association.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Pursuant to the Roberts motion, the Senate adjourned at 10:05 p.m., to meet Thursday, April 27, 1989, at 9:00 a.m.

Sixty-fifth Legislative Day
Thursday, April 27, 1989

The Senate was called to order by Senator Rozell.

MESSAGE FROM THE HOUSE

Transmitting herewith Enrolled **HB 1249,** together with the Governor's veto message thereon, and advising that under the provisions of Section II, Article VI, of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a two-thirds vote of all members elected to and constituting the House, said vote being as follows: Aye: 70; Nay: 20.

The veto message reads as follows:

May 8, 1989

To the Speaker and Members
of the Honorable House of Representatives
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **HB 1249** by Mentzer of the House and Rozell of the Senate entitled:

An act relating to public health and safety and the Oklahoma Health Planning Commission; *** and providing an effective date.

Earlier, legislative leaders and I agreed to establish a joint study commission during the legislative interim to study the need for a major reorganization of the health and health-related functions of state government.

House Bill 1249 attempts to deal with one small part of this complex topic without consideration for the greater good which could and should be accomplished by a more complete review.

Even without concern for the other health issues which are not addressed by this legislation, the bill is flawed. For example, while abolishing certificates of need for general hospitals, House Bill 1249 retains the requirement for these certificates for psychiatric and chemical dependency facilities but offers no definition of these institutions.

In the highly competitive chemical dependency field, this bill is an open invitation to costly litigation.

By the Governor of the State of Oklahoma

To the President Pro Tempore and Members of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved the appropriations but vetoed the remaining language of Enrolled **SB 54** by Taylor and Haney of the Senate and Johnson (Glen) and Benson of the House.

An Act relating to the Council on Law Enforcement Education and Training; making an appropriation thereto; *** and declaring an emergency.

The Council on Law Enforcement Education and Training is responsible for licensing and regulating security guards and private investigators. As part of this regulations, CLEET is occasionally required to investigate allegations of wrongdoing by these guards and investigators.

SB 54 removes CLEET's power to investigate violations of the security guard and private investigator's licensing law. No licensing agency can operate properly without the power to investigate its licensees.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

To the President Pro Tempore and Members of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 339** by Shurden, Long (Lewis) et al of the Senate and Cox and Murphy of the House.

An Act relating to professions and occupations; which relate to bail bondsmen; requiring completion of certain education requirements for licensure and renewal; *** and providing an effective date.

Today, I vetoed **SB 339** which requires 20 hours of education to become licensed as a bail bondsman and 10 hours of continuing education to retain a license. There is no reason a bail bondsman should be required to obtain education requirements in order to perform his duties. This bill will limit the number of people who can be licensed as bail bondsmen. This bill creates a monopoly.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Section 27B. A. Any incorporated city or town may borrow money or issue bonds, notes or other evidences of indebtedness, which debt shall be payable from and secured by revenues over a term of years, for the purpose of financing the purchase, construction, or improvement of any public utility or combination of public utilities which shall be owned exclusively by such city or town in the following manner:

1. The governing body of a city or town shall submit the question of financing the purchase or construction of a public utility or combination of public utilities to the qualified voters at an election if:

a. the public utility or combination of public utilities has not been voted on by the voters of the city or town at any time during a ten-year period preceding the date of the election, or

b. the public utility or combination of public utilities does not come within the terms of paragraph 3 of this subsection;

If the question of financing the purchase or construction of a public utility or combination of public utilities has been approved by a majority vote of the qualified voters voting on the question at an election, or if improvements to a public utility or combination of public utilities pursuant to paragraph 3 of this subsection are authorized, the governing body of a city or town may borrow money or issue bonds, notes or other evidences of indebtedness, which debt shall be payable from and secured by revenues over a term of years, upon an affirmative vote of at least three-fourths (3/4) of all the members of such governing body;

B. Nothing in this section shall allow an indebtedness of the city or town, other than revenues pledged from the utility involved.

C. The revenue indebtedness or contractual obligations of any city or town incurred pursuant to this section shall be a limited obligation payable from and secured by a lien and charge on revenues or funds so pledged for their payment by the governing body of the city or town, and shall not constitute an indebtedness of the city or town for the purpose of any constitutional or statutory limitation.

D. This section shall be independent and shall not be limited by or limit other provisions of the Oklahoma Constitution or statutes relating to financing public utilities or indebtedness of a city or town, nor shall it be exclusive as to other agencies of this state authorized by law to incur indebtedness. As used in this section, the words "public utility" shall have the same meaning as the words "public utilities" in Section 27 of Article X of the Constitution.

E. Notwithstanding any provision to the contrary, the provisions of this section shall not apply to the purchase of any utility regulated by the Oklahoma Corporation Commission or to the purchase of any facility or property of any such utility, unless the purchase is made with the agreement and consent of the utility, including its agreement and consent as to a specific price to be paid in connection with the purchase.

This process would require approval by three-

fourths of the governing body of the city or town. Voters would be required to approve the financing of the projects in some cases. The utility would be owned by the city or town. The borrowed money would not be considered a debt of the city or town for purposes of any type of debt limit. Unless the utility consents, this section would not apply to the purchase of any utility regulated by the Corporation Commission.

To the President Pro Tempore and Members
of the Honorable Senate

Forty-Second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SJR 5** by Snyder and Herbert of the Senate and Seikel of the House.

A joint resolution directing the Oklahoma Turnpike Authority to establish a new toll plaza and interchange at Luther, Oklahoma, or to establish a new entry plaza at Luther replacing the Oklahoma City Plaza or both; *** and directing distribution.

Even though this bill has no effect, its enactment is irresponsible because it is an unconstitutional infringement on the right to contract.

May 8, 1989

To the Speaker and Members
of the Honorable House of Representatives
First Session,
Forty-Second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **HB 1157** by Williams (Freddye), Bastin, et al of the House and Miles-LaGrange, Brown and Weedn of the Senate.

An act relating to insurance; which relates to insurance coverage for mammography screening; *** and providing an effective date.

This bill requires health insurers to pay for mammography screenings for all women more than thirty-four years old.

In its March 11, 1988 issue, The Journal of the American Medical Association contends that so-called "baseline" mammographies for women who have no cancer symptoms and are younger than forty years are not beneficial. The Journal also reports, "[T]here is still no justification for routine mammographic screening of women aged fifty years and younger."

Oklahoma's current law requires insurers to pay for annual mammographies for women forty-five years old and older. The medical and scientific communities have not provided convincing evidence that a reduction in that age is necessary.

In addition, the current law became effective only this past November. Seven months has not been long enough to determine how the current law has worked or the efficacy of the benefits received.

Without greater justification, the state should not increase the public's premium expense.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE GOVERNOR

Advising approval by him, May 25, 1989, of Enrolled **SBs 39** (line item veto), **47, 50** (line item veto), **78, 79** (line item veto) and **131.**

The veto messages read as follows:

May 25, 1989

To the President Pro Tempore and Members of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved the appropriation and vetoed the remainder of Enrolled **SB 39** by Taylor and Haney et al of the Senate and Johnson (Glen) and Benson et al of the House.

An act relating to schools; which relates to the Oklahoma School of Science and Mathematics; changing nature of school; *** and declaring an emergency.

Today I approved the appropriation for the Oklahoma School of Science and Mathematics but vetoed the remainder of **SB 39.**

This bill included $1.5 million dollars in appropriations for various summer programs for high school students at eight of the state's colleges and universities.

The colleges and universities already provide summer programs for high school students. The programs provided in **SB 39** are redundant. Appropriations to colleges and universities, even through an intermediary, also are in violation of Article 13-A, Section 3 of the Oklahoma Constitution.

While I do not disagree with the provision which allows graduates of the Oklahoma School of Science and Mathematics to receive dual diplomas and to attend graduation exercises at their former high schools, this section must fall because the other substantive language in the bill is disapproved.

The parts vetoed are Sections 1, 2, 3 and 4.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

May 25, 1989

To the President Pro Tempore and Members of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved parts and disapproved Section 3 of Enrolled **SB 50** by Taylor and Haney of the Senate and Johnson (Glen) and Benson of the House.

An act relating to the Oklahoma Tourism and Recreation Department; making appropriations thereto; *** and declaring an emergency.

The games provided for in Section 3 have been privately funded in the past and there is no reason to believe that they will not continue to be funded privately. Therefore, I disapprove the appropriations in Section 3.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

May 25, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved part and vetoed part of Enrolled **SB 79** by Taylor and Haney of the Senate and Johnson (Glen) and Benson of the House.

An act relating to the Oklahoma Department of Commerce; making appropriations to the Oklahoma Department of Commerce; *** and declaring an emergency.

In Section 1, I have vetoed the appropriations to the Tulsa Urban League and the Oklahoma City Urban League. As explained last year, these appropriations violate Article 5, Sections 32, 51 and 59 of the Oklahoma Constitution.

These articles state:

Section 32. No special or local law shall be considered by the Legislature until notice of the intended introduction of such bill or bills shall first have been published for four consecutive weeks in some weekly newspaper published or of general circulation in the city or county affected by such law, stating in substance the contents thereof, and verified proof of such publication filed with the Secretary of State.

Section 51. The Legislature shall pass no law granting to any association, corporation, or individual any exclusive rights, privileges, or immunities within this State.

Section 59. Laws of a general nature shall have a uniform operation throughout the State, and where a general law can be made applicable, no special law be enacted.

The same bill to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

ments, and the house where the bill or resolution originated refuses to concur in said amendments, a Conference, by a majority vote of those present and voting, may be requested. Such action shall be transmitted by Message in which shall be included the names of the conferees on the part of the requesting house. Upon receipt of such Message, the other house may, in like manner, grant such Conference, notifying the requesting house by Message and stating the names of its conferees.

(b) A Conference Committee shall consist of three (3) members of the Senate and three (3) members of the House, unless otherwise specified, to be appointed by the President Pro Tempore of the Senate and the Speaker of the House, respectively. A Conference Committee Report that is returned to the Conference Committee for further consideration shall be filed no later than two (2) legislative days **[after]** FOLLOWING THE DATE it is returned to THE CONFERENCE Committee. Bills or joint resolutions **[referred to the General Conference Committee on Appropriations (GCCA) or]** containing appropriation matters shall not be subject to the provisions of this subsection.

The Conference Committee Report shall be signed by all members of the Committee or by a majority of those of each house.

(g) In the event of the failure of either house to adopt the Conference Committee Report, the bill or resolution as reported by the Conference Committee shall remain with the house where the failure to adopt occurred and that house may, at any time thereafter, request further conference and

the original or new conferees shall be appointed for the further consideration of amendments.

(h) In case the conferees of the two (2) houses are unable to agree they shall report that fact to both houses, and the bill shall accompany the report to the house in which it originated. The bill shall revert to the status it occupied before being sent to Conference Committee.

(i) Neither house shall consider in either session of the current Legislature any Conference Committee Report that has been altered in any manner after being signed by the members of the Conference Committee. Any such altered Report shall be immediately returned to the Conference Committee from which it came. It shall be the duty of the Presiding Officer of each house to enforce this Rule, regardless of whether or not a point of order is raised by a member.

MESSAGE FROM THE GOVERNOR

Advising approval by him, May 26, 1989, of Enrolled **SBs 74, 86, 137, 299, 417** and **432** and veto of **SB 421**.

The veto message reads as follows:

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 421** by Gardenhire of the Senate and Lewis, et al of the House.

An act relating to state government; requiring a pretermination hearing be held for any permanent classified state employee before said employee shall be terminated; *** and declaring an emergency.

This bill provides for a pretermination hearing for a classified permanent employee before such employee can be terminated. As the law stands now, a classified permanent employee cannot be terminated without notice and an opportunity to be heard. If this bill is passed, it will create confusion and be cumbersome and costly to administer. Therefore, I veto **SB 421**.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Senator Roberts declared the clerk's desk was clear and moved that the Senate of the First Regular Session of the Forty-second Legislature adjourn sine die, which was the order.

The Senate of the First Regular Session of the 42nd Legislature at the hour of 3:10 p.m., Friday, May 26, 1989, adjourned sine die.

VETO MESSAGES FROM THE GOVERNOR

Veto messages were received after sine die adjournment on **SBs 68, 187, 227, 269** and **395** as follows:

May 31, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-Second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 68** by Taylor, Cole and Shurden of the Senate and Steidley, Vaughn (George) and Campbell of the House.

An act relating to revenue and taxation; which relates to coin-operated devices; *** and declaring an emergency.

This bill attempts once again to modify the vending machine tax law passed last year.

The State is receiving $2.3 million from the vending machine sticker fee. This money was lost to the State where sales tax was supposed to be paid on vending machine sales but was not. Senate Bill 68 would result in a loss of some of this regained revenue.

The bill would also shift the responsibility for obtaining the vending machine sticker from the owner of the machine to the operator. Such a change is akin to making renters responsible for seeing that property taxes are paid on an apartment complex. The owners of these machines should be responsible for this tax.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

June 3, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 187** by Hooper of the Senate and Hale of the House.

An act relating to motor vehicles; which relates to the Oklahoma Vehicle License and Registration Act; *** and declaring an emergency.

This bill would create a new class of automobile tag known as "University Supporter License Plates". The Legislature divides the funds that would be raised by sale of these license tags among three types of funds.

The first of these types of funds is the general scholarship fund of the particular university supported. Two questions arise on this account. First, may the Legislature, in effect, appropriate money to a university and bypass the State Regents for Higher Education? Article 13-A, Section 3 of the Oklahoma Constitution unequivocally prohibits legislative appropriation to any university. State funds for higher education must be appropriated to the State Regents, and these regents must decide how the monies will be allocated. Earmarking a fee for particular universities violates this principle. If alumni wish to support their schools, they may make their donations directly, without using tag agents as an intermediary and without harming the special independence granted to higher education by the Constitution.

Secondly, if earmarking tag revenue in this manner were permissible, it does not appear equitable to limit scholarship augmentation to the state's universities while excluding the thirteen state institutions of

higher education which are statutorily defined as colleges rather than universities.

This bill would also earmark some of the University Supporter License Plate monies for a new fund called "Adaptive Grant Program for Oklahomans with Mental Retardation Revolving Fund." The monies in this fund would be used to pay for "adaption of furnishings, fixtures, vehicles, equipment or structures" used by the mentally retarded.

Certainly some mentally retarded persons have physical disabilities; however, a developmental disability does not automatically carry with it a physical handicap.

This bill does not provide the Department of Human Services, which did not request this program, with the proper guidance for use of these funds. Under various Oklahoma Supreme Court decisions, agency rules are invalid unless the Legislature has provided sufficient instruction and policy direction.

If the Legislature decides to form such a policy in the future, it would be a service to all disabled Oklahomans to determine whether handicapped persons without developmental disabilities should be included. It may also be wise to require a means test.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

June 6, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 227** by Kerr, Dickerson and Mickle of the Senate and Lewis, Adair, et al of the House.

An act relating to state government; which relate to the Oklahoma Public Employees Retirement System and the State and Education Employees Group Insurance Act; *** and declaring an emergency.

Today, I vetoed Senate Bill 227 because it allows one group of employees to buy back prior years of service at 5% of the annual compensation of the years purchased plus 5% interest until January 1, 1990 while all other employees have to pay 10% plus 10% interest to buy back services. This bill gives one group an advantage over all other employees under the state retirement system.

In addition, this bill makes the state group insurance plan the primary insurance plan for employees of institutions of the Oklahoma State System of Higher Education whether or not the state plan was the first insurance plan under which the employee was covered. This bill was passed without consideration of costs.

June 6, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved all but Section 2 of Enrolled **SB 269** by Taylor and Haney of the Senate and Johnson (Glen) and Benson of the House.

An act relating to the Oklahoma State Regents for Higher Education and schools; which relates to the Oklahoma School for Science and Mathematics; *** and declaring an emergency.

Today I approved the $1.5 million appropriation to the Oklahoma State Regents to

establish summer academies for Oklahoma's most qualified students but I vetoed Section 2 of the bill which violated the authority of the Trustees of the Oklahoma School of Science and Mathematics.

Just as I have full confidence in the Oklahoma State Regents to provide summer opportunities to benefit the maximum number of qualified students in our state, I also have confidence in the Trustees of the Oklahoma School of Science and Mathematics to develop the most appropriate programs for Oklahoma's highly gifted students in science and mathematics.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

June 3, 1989

To the President Pro Tempore and Members
of the Honorable State Senate
First Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 395** by Smith of the Senate and Lewis of the House.

An act relating to motor vehicles; which relate to definitions and operator's and chauffeur's license and the Vehicle Licensing and Registration Act; *** and declaring an emergency.

This bill would create a new class of automobile tag known as "University Supporter License Plates". The Legislature divides the funds that would be raised by sale of these license tags among three types of funds.

The first of these types of funds is the general scholarship fund of the particular university supported. Two questions arise on this account. First, may the Legislature, in effect, appropriate money to a university and bypass the State Regents for Higher Education? Article 13-A, Section 3 of the Oklahoma Constitution unequivocally prohibits legislative appropriation to any university. State funds for higher education must be appropriated to the State Regents, and these regents must decide how the monies will be allocated. Earmarking a fee for particular universities violates this principle. If alumni wish to support their schools, they may make their donations directly, without using tag agents as an intermediary and without harming the special independence granted to higher education by the Constitution.

Secondly, if earmarking tag revenue in this manner were permissible, it does not appear equitable to limit scholarship augmentation to the state's universities while excluding the thirteen state institutions of higher education which are statutorily defined as colleges rather than universities.

This bill would also earmark some of the University Supporter License Plate monies for a new fund called "Adaptive Grant Program for Oklahomans with Mental Retardation Revolving Fund." The monies in this fund would be used to pay for "adaption of furnishings, fixtures, vehicles, equipment or structures" used by the mentally retarded.

Certainly some mentally retarded persons have physical disabilities; however, a developmental disability does not automatically carry with it a physical handicap.

This bill does not provide the Department of Human Services, which did not request this program, with the proper guidance for use of these funds. Under various Oklahoma Supreme Court decisions, agency rules are invalid unless the Legislature has

provided sufficient instruction and policy direction.

If the Legislature decides to form such a policy in the future, it would be a service to all disabled Oklahomans to determine whether handicapped persons without developmental disabilities should be included. It may also be wise to require a means test.
