President Kerr recognized Sergeant at Arms, Bob Craig, who announced the arrival of the Honorable Henry Bellmon, Governor of the State of Oklahoma.

Governor Bellmon was escorted to the Speaker's rostrum by the Joint Committee and was presented to the Joint Session by President Kerr.

The Chief Executive delivered his address to the Joint Session, as follows:

MESSAGE OF GOVERNOR BELLMON

First, let me welcome you back to the Capitol. I know most of you would prefer to be other places and some of you would prefer to be any other place — you are here because Oklahoma is facing a critical problem in education, the solution of which could not wait for the regular session. That session will convene in February during an election year when other concerns would prevent problems of this magnitude from being successfully resolved. Oklahoma's education emergency is of such urgency as to demand the undivided attention it will receive during this special session. Let me state at the beginning — this session was not called to ask you to vote for a tax increase. Rather, it was called to give our citizens the opportunity to decide on the education of their children.

This special session has produced many benefits before it begins.

It has focused the attention of Oklahoma citizens and leaders on the need to make a greater investment in education.

It has produced many proposals for dealing with the problem. Republican leaders now have a plan. The State Chamber of Commerce has made a proposal to increase spending for education by $591 million. The Lt. Governor has a plan. The House Democratic caucus is developing a plan. Representative Istook has a plan. Senator Shedrick has discussed a proposal. The Governor has bills ready to be introduced.

Other ideas and plans will develop today and in the days ahead. This is all positive — our duty, yours and mine, is to distill the best ideas from all sources and combine them into the best result. Oklahoma has come far in recent weeks toward agreement on the need to find a way to solve the increasingly critical problems in education.

What are the problems?

The problem is not quality of education. Most Oklahoma schools are good schools! They are producing well above national average results.

The problems are two — short term and long term.

The short-term problem is inadequate funding for textbooks, instructional supplies and equipment.

Does anyone support a system where underpaid teachers are forced to spend an average of $400 per year of their own money to buy teaching supplies?

Does anyone support a system where scarce, out of date textbooks must be shared by several students?

Should Oklahoma do better by its kids?

This is an emergency! This is a "rainy day". An appropriation of fifty million dollars from the rainy day fund will fix the short range problem. A breakdown of how these funds would be used is on your desks.

The long-term problem is that despite outstanding performance by most Oklahoma teachers, Oklahoma's investment in education ranks among the lowest of all states. Increasingly, we are losing our best teachers to other states and to other professions.

Solving the long-term problem is more difficult but the time to begin is now. Is anyone satisfied in being among the bottom five states in investment in education? I'm not!! I believe the majority of Oklahoma citizens and members of the House and Senate want to do better by our children.

The question is how. Many education reforms have been made in recent years — more are needed.

Our economy is growing at a healthy rate and some new money for education will be available from growth revenue. But not enough.

Oklahoma must play catch-up in funding education. We must bring our investment to near the national average at a cost of $250 to $300 million per year.

How? There are two ways.

1. The Legislature can vote a tax increase.

2. The people of Oklahoma can be given the opportunity to express their support for greater investment in the education of their children. I believe that given the facts and the opportunity Oklahoma vot-

ers would approve a fairer, more equitable and more adequate system of supporting education.

The Legislature may feel otherwise and decide to increase our investment in education through a direct tax increase. Such a course would be acceptable. If it is chosen, some guidelines need to be followed:

1. The goal of bringing Oklahoma's investment in education to near the national average level needs to be met.

2. The tax base needs to be expanded to include services, the fastest growing segment of the economy which is not now paying its fair share.

3. The tax system needs to be less rather than more regressive.

4. Equity and fairness between school districts must be improved.

5. Oklahoma's current healthy economic recovery and the climate for future growth must not be damaged.

The proposal I have made and which I will now describe meets these criteria. Copies are on your desks.

Regardless of what you may have heard, this proposal is simple, well researched and easily understood.

Remember, you are not being asked to raise taxes — let the people decide.

The proposal calls for a vote this fall on state questions which would accomplish the following: abolish the four cents state sales tax on groceries; abolish ad valorem taxes on household and agricultural personal property; and abolish the 44 mills of the existing ad valorem tax used for school operations on: homes and apartments including rental units; farms and ranches with an actual value of up to $500,000; the first $500,000 value of all businesses; and the first $500,000 value on all industries.

The ad valorem tax levy is continued on: commercial property value of more than $500,000; industrial property value of more than $500,000; airline property; railroad property; pipeline property; telegraph property; and utility property.

The proposal retains the ad valorem taxes for counties, vo-techs, special districts and debt of schools. The ad valorem tax is also retained to meet the capital needs of vo-techs, cities and special districts.

The proposal levies a 1.9 percent school tax on value received from the final sale or lease of finished goods and services used in Oklahoma and exempts: wages and salaries; local mass transportation; groceries; prescription drugs; hospitals; governments; and out-of-state transactions.

State voters may raise or lower the school tax levy.

Ad valorem tax levies for common schools (except debt levies) and school tax revenues are distributed to common school districts on a per student basis. The Legislature continues to appropriate funds in addition to ad valorem tax and school tax revenues to education.

Again, the proposal abolishes the state sales tax on groceries. Cities' and counties' sales tax on groceries is retained. It levies an 11 percent surcharge on state income taxes to make up for revenue lost to the state through abolition of the sales tax on groceries. This is a significant advantage for federal taxpayers.

Let this be remembered as the legislative session that squarely faced Oklahoma's crisis in education and produced a solution without procrastination and without hypoc-

risy. Let this be known as the session which took action to give Oklahoma's children the educational opportunities needed to prepare them for the twenty-first century. Oklahoma's past has depended upon the wise development of our natural resources. Our future depends upon how fully we develop our human resources through education.

To fail to do so is to default on our joint responsibility as elected officials. Our children are Oklahoma's future. Support for their education is our responsibility. This Legislature has met its responsibilities before. Working together we can meet our responsibilities again. I look forward to working with you in this common cause for a bright future for our children.

Thank you.

Senator Roberts moved that the Joint Session be dissolved at the hour of 1:00 p.m., which motion was declared adopted.

JOINT SESSION

The Second Joint Session of the 1st Extraordinary Session of the 42nd Legislature was called to order by Lieutenant Governor Kerr, President of the Senate.

Upon motion of Senator Roberts, the attendance roll call of the Senate was considered the attendance roll call of the Senate in Joint Session.

Upon motion of Representative Glen Johnson, the attendance roll call of the House was considered the attendance roll call of the House of Representatives in Joint Session.

President Kerr declared quorums of the Senate and House present and the Joint Session duly assembled.

The invocation was offered by Reverend Lewis Cox, Freewill Baptist Church, Dibble.

President Kerr introduced the Honorable Henry Bellmon, Governor of the State of Oklahoma and Mr. George Singer, Chairman of Task Force 2000.

Mr. Singer presented his report to the Joint Session pursuant to **HCR 1002** as follows:

Executive Summary of Task Force 2000

The economic future of the United States, the vitality of its democratic institutions and the future caliber of life of its citizens are at stake in the current effort to restructure elementary and secondary education.

In Oklahoma, the challenge is more immediate and the outcome even more critical. If we do not find a way to create a measurably superior system of elementary and secondary education, we may well be relegated to a kind of domestic third world status. This will mean decreasing opportunity for us, with only emigration offering a future for our children.

The United States is falling behind the industrial world in terms of its ability to compete primarily because of a failure of its public education system.

Oklahoma, mired in a depression that is now entering its seventh year, with per capita income as a percentage of the national average at a 30-year low, has failed to respond to this challenge either in terms of reform or by establishing an appropriate level of funding. It now runs the further risk of having its relative position significantly weakened by the response of other states to this current challenge. If other states respond (and they will) and we fail to, it will open a gap between ourselves and the balance of the country that will perhaps never be bridged.

It is based on these sobering thoughts that the Task Force has come to the conclusion that it is time for radical change in education in Oklahoma.

It is the conviction of the Task Force that the traditional method of reform of education — mandating specific changes in the process at the state level — simply cannot succeed.

The focus *must* shift to results. Simply stated, we do not really care how a school district or an individual school goes about educating its children so long as the educational levels which are necessary and appropriate are achieved. We are saying to school boards, superintendents, principals and, above all, teachers, that we are not going to tell them how to educate our children; rather we are going to give them the free-

dom and the responsibility to make those decisions and we are going to hold them accountable for the results.

We are primarily concerned about outcomes. Reform based on outcomes means simply that we must focus on those things which foster the desired educational results and which allow teachers and administrators freedom to achieve those results.

We will impose a rigorous method of measuring outcomes which rewards good results and punishes poor ones.

To utilize these concepts to construct schools for the 21st century, we must combine them with adequate resources equitably distributed. We cannot buy quality at a discount. And, the quality of a child's education should not be the result of where he or she is born.The Task Force is satisfied that the school funding formula is essentially sound. All funds should be allocated through or accounted for by it, without exception, to achieve equalized funding for each child in each district in Oklahoma.

To restate, we propose the following principles as a basis for each decision affecting education in Oklahoma:

- Our primary focus should be on *outcomes* — the results of the process.
- State level mandates should be reduced. A *deregulated* environment should be created in which we no longer worry about how education is accomplished but only *whether* it is accomplished.
- Rigorous standards must be established and effective measurements taken to determine if they are met. *Accountability* means a credible basis is established to assure standards are achieved and, if they are not, consequences ensue.
- *Adequate* additional resources must be secured and dedicated to common and vo-tech education. These resources must be allocated in a manner that assures *equity* for each child.

The vast majority of well-paying jobs in the future will require that a worker be creative, be able to reason and think critically and, most importantly, be able to communicate orally and in writing so that he or she can understand and transmit the technology of the future. The velocity of change is accelerating. Only those individuals who have learned how to learn will be able to be productive throughout their lifetime. It is this fundamental concept that underlies all the following recommendations of the Task Force.

Early Childhood Education

The Task Force believes that investment in early childhood education is directly correlated to improvement in ultimate educational achievement. We therefore recommend mandatory half-day kindergarten for all Oklahoma schoolchildren, optional full-day kindergarten and a four-year-old preschool program available on a reasonable basis in each school district — all taught by early childhood learning specialists in developmentally appropriate ways.

Curriculum

The Task Force recognizes the continuing need to transmit basic knowledge but believes the curriculum should be refocused to achieve desired levels of competency. A complete revision of the curriculum (K-12) should be accomplished in three steps by June 30, 1992. Standards of the curriculum would be at a minimum those required for accreditation by the North Central Association of Schools and would assure that every high school student in Oklahoma will have had *access* to sufficient class offerings to

enable him or her to matriculate at one of Oklahoma's two comprehensive universities.

Testing

While recognizing the controversial nature of current testing, as well as its limits, the Task Force believes that only with an extended and enhanced testing program can teachers and administrators make a meaningful evaluation of the progress of the individual child. Equally important is that only by an appropriate level of testing is it possible for there to be true accountability. Districts, schools, administrators, teachers and students failing to meet the standards established in this Report must be held accountable.

Teacher/Administrator Evaluation

Tenure for teachers will be abolished. Grounds for termination of teachers will be broadened to include willful negligence in the performance of duty, instructional ineffectiveness and unsatisfactory teaching performance. Due process will be simplified by eliminating the existing post-termination hearing and will be made more equitable by the introduction of an advisory/peer review panel.

In a deregulated environment the quality of supervision at the school or district level becomes critical. A new set of criteria for the evaluation of administrators will be developed which recognizes the significance of these positions.

Accreditation

To further assure accountability, a system of Oklahoma accreditation will be established whose criteria at a minimum exceed those of the North Central Association of Schools. Failure to meet these standards can result in the assumption of jurisdiction for an individual school or a district by the State Department of Education, closing of the school or involuntary consolidation, whichever offers the greatest likelihood of bringing the school or district to standard.

Consolidation

Task Force 2000 believes that there are too many school districts in Oklahoma. It also believes that a decision by taxpayers of a given district to retain its current status should not be subsidized by other districts. At the same time, the Task Force believes that arbitrary standards of size or geographic extent are not necessarily conducive to educational excellence. Forced consolidation is *only* an appropriate remedy where standards of accreditation, curriculum or performance are not met.

Class Size

The Task Force is fully convinced that smaller class sizes are conducive to better instruction and learning at all age levels. We can achieve desired results at the approximate levels of current mandates with clearer, more-focused definitions in this area.

The Length of Instructional Day and Year

The Task Force believes it is self-evident that there is a direct link between the time spent learning and the amount learned. School years should be lengthened to 190 days from the current 180, with 180 days for instruction and the remaining 10 days for professional and staff development, parent-teacher conferences and similar activities. The school day should remain at its present length but should be devoted exclusively to instruction. Extracurricular activities should not be permitted during the regular school day.

Deregulation/Choice

Deregulation does not imply that standards will be compromised. It simply means that regulatory restrictions which only dictate format can be waived. All state regulations, laws and mandates will be reviewed with the intent of removing any and all which are an impediment to the flexibility required by an outcomes-based system.

Once recommended funding and equity are in place, the Task Force requests that the Legislature activate a broad choice program. Such a program could become a reality by the 1991-92 school year. Provision should be made in the plan to ensure that the net result is not a significant increase in concentration of any racial or socio-economic group.

Office of Accountability

An Office of Accountability will be created to assure the spirit and letter of all the statutes enacted in pursuit of this plan are carried out, standards are met and, where necessary, negative consequences imposed. The ultimate goal is to demonstrate by objective measurements and communicate to the people of Oklahoma that the system is accountable and enforcement activities are taking place.

Teacher Compensation

Having recommended the abolition of tenure and broadening the grounds for termination to include educational deficiencies, the Task Force believes there is no longer any basis for not compensating teachers as professionals. It is essential that a compensation plan be established to attract and retain the kinds of singularly talented people who are necessary to maintain a plan of excellence. Specifically, the Task Force recommends a $1,500 increase in average salaries per year over the next four years (as a minimum) and the inception of a program of incentive compensation to provide appropriate rewards for exceptional achievement.

Funding

The above reforms are estimated to cost $214,430,000 in the first year and $721,268,400 per year by FY-1995. An average of $82,400,000 annually is also needed to pay for existing unfunded mandates. It is estimated that approximately $232,000,000 of this will be available from the expected growth in tax collections from current sources, assuming that schools continue to receive the same percentage of the state budget. To pay for the reforms, the Task Force recommends the following actions:

- Maximization of savings within the existing system.
- To the extent reasonably possible, relying on growth in existing revenue sources.
- Increasing the minimum ad valorem assessment ratio from the current 11% to 15%.
- Extending the state 4% sales tax to final sales of services, as delineated in the Report, or, alternatively, raising approximately the same amount through a 1% sales tax on these services plus small increases in personal income taxes, corporate taxes and gross production taxes.

The above will, in the judgment of the Task Force, raise the necessary dollars. However, the reason that Oklahoma does not today provide for an equal education of its children is because of the inequity in which state dollars are allocated. To alleviate this problem, the following *must* be done:

- Channel all "state" revenues which are utilized for common schools through the state formula.

- Channel all "excess" ad valorem revenues through the state formula, as described in the Report.

- Account for federal revenues in the state formula.

The above will provide for equal funding on a per pupil basis (subject to formula weights). In the judgment of the Task Force, this kind of equity is not only appropriate but absolutely necessary if we are to ensure an educated populace for Oklahoma on a statewide basis. We also recommend:

- Providing $20,000,000 from the Rainy Day Fund to significantly accelerate the implementation of House Bill 1750 to improve the integrity of the ad valorem tax system.

- Providing $50,000,000 from the Rainy Day Fund to be distributed immediately to schools for textbooks, supplies and instructional equipment.

Capital Funding

Many of the necessary reforms, such as early childhood courses and potential consolidation, will require new capital expenditures, not to mention the fact that many Oklahoma schools are in dire need of improvements in the physical facilities. A state fund should be created to address schools' needs by providing capital dollars on a matching basis with local districts.

Outcomes, deregulation, accountability, adequate resources, equity — a system which includes each of these interdependent elements will make Oklahoma a leader in elementary and secondary education in the 21st century. More importantly, it will provide the platform upon which we can build a prosperous productive state for ourselves and our children. Task Force 2000 believes that no portion of this program is optional. Only its full implementation will assure ultimate success!

WHEREAS, the Education Task Force 2000, appointed by the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate, has completed its assigned work; and

WHEREAS, one of the recommendations of said Task Force was to ask the State Board of Equalization to raise the minimum assessment percentage from 11 percent to 15 percent; and

WHEREAS, Section 21 of Article X of the Oklahoma Constitution stipulates the duties of said Board of Equalization, as follows: "The duty of said board shall be to adjust and equalize the valuation of real and personal property of the several counties in the state, and it shall perform such other duties as may be prescribed by law, and they shall assess all railroad and public service corporation property"; and

WHEREAS, the statutory procedure for performing this constitutional duty requires the State Board of Equalization to examine the assessments for the various counties and to set an assessment ratio, by determining the ratio of the aggregate assessed value of property to the fair cash value of the property, to correct and equalize valuation; and

WHEREAS, this procedure is a matter of great public importance which directly affects the lives of the citizens of Oklahoma; and

WHEREAS, the establishment of the assessment ratio can have profound effects on Oklahoma's businesses and property owners; and

WHEREAS, in setting the assessment ratio, the State Board of Equalization has the grave responsibility of establishing an equitable ratio without placing an undue burden on Oklahoma taxpayers; and

WHEREAS, this is an especially critical concern, considering the current economic situation in Oklahoma; and

WHEREAS, it should be noted that the State Board of Equalization already has raised the assessment ratio twice in the past 2 years; and

WHEREAS, increasing the assessment ratio yet again will have a negative impact on this state's economy because of the severe hardship that this would place on Oklahoma taxpayers; and

WHEREAS, the Legislature has addressed the issue of equalizing ad valorem taxation and in 1988 enacted House Bill No. 1750 which, when implemented, will provide a fair form of taxation; and

WHEREAS, the Legislature believes that an increase in the assessment ratio would exacerbate the inequities in the current property tax system which House Bill No. 1750 was enacted to correct; and

WHEREAS, although Task Force 2000 is to be commended for diligently studying the problems concerning funding for education in this state, it is the view of the Legislature that to increase the assessment ratio from 11% to 15% is not an appropriate way to provide additional funds for education.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE 1ST EXTRAORDINARY SESSION OF THE 42ND OKLAHOMA LEGISLATURE, THE SENATE CONCURRING THEREIN:

THAT the Oklahoma Legislature strongly urges the State Board of Equalization not to increase the assessment ratio.

SECTION 2. The Secretary of State shall refer to the people for their approval or rejection, as and in the manner provided by law, the following proposed amendment to Sections 9, 10 and 12a of Article X and Section 3 of Article XI of the Constitution of the State of Oklahoma to read as follows:

Section 9. **[a]** A. Except as herein otherwise provided, the total taxes for all purposes on an ad valorem basis shall not exceed, in any taxable year, **[fifteen (15)]** TEN (10) mills on the dollar**[, no less than five (5) mills of which is hereby apportioned for school district purposes, the remainder]** to be apportioned between county, city**[,]** AND town **[and school district]**, by the County Excise Board, until such time as a regular apportionment thereof is otherwise provided for by the Legislature.

[No] EXCEPT AS OTHERWISE PROVIDED IN THIS ARTICLE, NO ad valorem tax shall be levied for State purposes, nor shall any part of the proceeds of any ad valorem tax levy upon any kind of property in this State be used for State purposes.

[(b) A tax of four (4) mills on the dollar valuation of all taxable property in the county shall be levied annually in each county of the State for school purposes and, until otherwise provided by law, the proceeds thereof shall be apportioned to the school districts of the county by the County Treasurer on the basis of the legal average daily attendance for the preceding school year as certified by the State Board of Education. Provided that in case a school district lies in more than one county, such district shall be deemed a school district of the county having the greater part of the area comprising such district, unless otherwise provided by law, and shall be entitled to participate in the proceeds of such tax on the same basis as districts lying wholly within such county but revenue from such tax on the assessed valuation of the district in other counties shall, when collected, be transmitted to the County Treasurer of such county having the greater part of the area comprising the district, unless otherwise provided by law, and be apportioned as hereinbefore provided for the proceeds of such tax on the assessed valuation of such county. Not to exceed seventy-five per centum (75%) of the amount received by a school district from the proceeds of such county levy in any year shall be required to finance the State guaranteed program of such district.

(c) Upon certification of a need therefor by the board of education of any school district an additional tax of not to exceed fifteen (15) mills on the dollar valuation of all taxable property in the district shall be levied for the benefit of the schools of such district.

(d) In addition to the levies hereinbefore authorized, any school district may make an emergency levy for the benefit of the schools of such district, in an amount not to exceed five (5) mills on the

dollar valuation of the taxable property in such district when approved by a majority of the electors of the district voting on the question at an election called for such purpose. This emergency levy shall provide only sufficient additional revenue to meet the needs of the district each fiscal year as determined by the board of such district and must be approved by a majority of the electors voting on said question at such an election for each fiscal year.

(d-1) In addition to the levies hereinbefore authorized, any school district may make a local support levy for the benefit of the schools of such district, in an amount not to exceed ten (10) mills on the dollar valuation of the taxable property in such district, when approved by a majority of the ad valorem taxpaying voters voting on said question at an election for each fiscal year called for such purposes. This local support levy shall provide only sufficient additional revenue to meet the needs of the district for each such fiscal year as determined by the board of such district; provided, an elector desiring to vote upon such local support levy must present an ad valorem tax receipt for the year immediately preceding before being issued a ballot, or sign a sworn affidavit certifying the fact of such payment.

(e) The amount of revenue from school district ad valorem taxes levied under (a) and (c) of this Section which any school district may be required to use to finance its State guaranteed program shall not be in excess of its share, based upon its relative taxpaying ability as may be defined by law, of an amount equivalent to the net proceeds from a fifteen (15) mill tax levy on the aggregate net assessed valuation of the State; but until such relative taxpaying ability is defined by the Legislature, the amount of revenue from such taxes which any school district may be required to use to finance its State guaranteed program shall not be in excess of the net proceeds from an ad valorem tax levy of fifteen (15) mills on the dollar net assessed valuation of the district. No part of the proceeds from any ad valorem levy for emergency levy and local support levy under (d) and (d-1) of this Section shall be required to finance the State guaranteed program of such district.

Nothing in the amendments to the Constitution incorporated herein shall be construed to amend, alter or supersede the present application of Article XII A, Sections 1 and 2 of the Oklahoma Constitution.

(f) Should the amendment contained in subsection (d-1) hereof be adopted on September 14, 1965, the school board of any school district in the State may within ten (10) days thereafter file with the Excise Board of the county a supplemental estimate of needs and call a special election within fifteen (15) days after such call upon the new local support levy or emergency levy if not previously submitted, or both. The school board shall advertise notice of such election by publication in at least one issue of a newspaper having general circulation in the school district, or by posting in five public places in the district at least five (5) days before such election. Should the electors of the school district vote such additional levy in such election, the County Excise Board shall forthwith compute the levy and certify appropriations for all affected school districts and refile the budgets with the County Clerk and with the State Auditor. Notice of the filing of said budget shall be given as required by law. The forty (40) day protest period shall begin immediately upon the filing of said budgets.

For the fiscal year 1965-66, the Excise Board of each county shall not finally

compute the levy nor certify the appropriations for the school districts of the State until after the school district shall have had the opportunity to hold a special election as provided herein.

Temporary appropriations, up to forty per centum (40%) of the estimated funds needed by the school board of any district in the State for the fiscal year 1965-66, may be approved any time after the beginning of such fiscal year.

Upon the computation of the levy and certification of appropriations by the Excise Board, the County Assessor shall prepare or revise the tax rolls and deliver the same to the County Treasurer who shall proceed with the collection of the taxes as required by law.

Should it become necessary, because of the delay in computing levies and certifying appropriations as herein provided, the Governor may, by executive order, extend the time when taxes will be delinquent for the year of 1965, and that year only. Such extension of time shall be for the minimum time necessary to permit the County Assessor and County Treasurer to perform their duties as required by law.]

B. A RECURRING AD VALOREM TAX OF THIRTY-NINE (39) MILLS ON THE DOLLAR VALUATION OF ALL TAXABLE PROPERTY IN A SCHOOL DISTRICT SHALL BE LEVIED ANNUALLY IN EACH SCHOOL DISTRICT OF THE STATE FOR SCHOOL PURPOSES. SAID NUMBER OF MILLS MAY BE DECREASED OR INCREASED, BUT SHALL NOT EXCEED THIRTY-NINE (39) MILLS, BY A MAJORITY OF THE VOTERS OF THE SCHOOL DISTRICT VOTING AT AN ELECTION CALLED FOR THAT PURPOSE. A DECREASE IN SUCH MILLAGE APPROVED BY A MAJORITY OF THE VOTERS OF THE SCHOOL DISTRICT AT SUCH AN ELECTION SHALL NOT TAKE EFFECT UNTIL SUCH TIME AS THE DECREASE WILL NOT AFFECT SCHOOL DISTRICT REVENUES FOR THE FISCAL YEAR IN WHICH THE DECREASE IS APPROVED.

C. Gentlemen:

The Constitution of the State of Oklahoma, Article X, Section 23, as last amended April 30, 1985, provides in pertinent part:

> Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall certify the total amount of revenue which accrued during the last preceding fiscal year to the General Revenue Fund and to each Special Revenue Fund appropriated directly by the Legislature, and shall further certify amounts available for appropriation which shall be based on a determination, in accordance with the procedure hereinafter provided, of the revenues to be received by the state under the laws in effect at the time such determination is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of each such fund appropriated directly by the Legislature.
>
> Amounts certified as available for appropriation from each fund, as hereinbefore provided shall be ninety-five (95%) of an itemized estimate made by the State Board of Equalization, which shall include all sources of revenue to each fund for the next ensuing fiscal year; provided, however, appropriated federal funds shall be certified for the full amount of the estimate. Said estimate shall consider any increase or decline in revenues that would result from predictable changes in the economy.

FIRST REGULAR SESSION, 42nd LEGISLATURE
APPROPRIATIONS

Schedule 2

Section 23, paragraph 1 of Article 10, Constitution of Oklahoma, provides for a limitation on appropriations, except for appropriations from the Constitutional Reserve Fund. Pursuant to said limitation, appropriations for the fiscal year ending June 30, 1991, shall not exceed the amount appropriated for the current fiscal year, 1990, plus 12 percent (12%), adjusted for inflation as measured at the close of the calendar year. The amounts appropriated from each fund by the First Regular Session, 42nd Legislature (1989), as approved by the Governor, are listed below. The total, $2,680,198,640, was derived as a summation of the individual funds. The limit on appropriations will be presented to the State Board of Equalization in February as provided by the Constitution. The Gross National Implicit Price Deflator for State and Local Governments is proposed as the index for the measurement of inflation.

JOINT SESSION

The First Joint Session of the 2nd Regular Session of the 42nd Legislature was called to order by President Kerr.

Senator Roberts moved that the attendance roll call of the Senate be considered the attendance roll call of the Senate in Joint Session, which motion was declared adopted.

Representative Johnson (Glen) moved that the attendance roll call of the House of Representatives be considered the attendance roll call of the House of Representatives in Joint Session, which motion was declared adopted.

President Kerr declared quorums of the Senate and House present and Joint Session duly assembled.

The invocation was offered by Father Michael McEwen, Emmanuel Episcopal Church, Shawnee.

Representative Johnson (Glen) moved that the following written message of Governor Bellmon be received, which motion was declared adopted:

MESSAGE OF
GOVERNOR HENRY BELLMON

Pursuant to Section 9 of Article 6 of the Oklahoma Constitution, I hereby transmit this message concerning the state of the State and my recommendations for legislation for the Second Session of the 42nd Oklahoma Legislature.

Traditionally, the Governor delivers this message through a speech to a joint session of the Legislature in a somewhat festive and celebratory manner; however, the circumstances facing Representative Bill Brewster and his family make any such occasion inappropriate today. Please accept this written message in lieu of the traditional speech.

You will notice that this message does not contain the usual references to the gubernatorial budget proposal. The budget may need to be adjusted depending upon the final outcome of legislative consideration of **HB 1017** in special session; therefore, I will deliver a budget message to you following completion of consideration of that bill.

State of the State messages generally come in two parts — one looks back, the other tries to look ahead.

Looking back, Oklahoma citizens can be pleased with what we see.

— The state's economy is virtually recovered from the serious recession we suffered during the mid eighties.

— Private sector investment is strong again.

— Total building contracts rose 19 percent during 1989.

— New and good jobs are being created.

— Oklahoma's rate of unemployment is below the national level.

— Personal income is up.

— Based on preliminary figures, for the first three quarters of 1989, crime is down again.

— Tourism is up.

— Agriculture is again approaching profitability.

— Natural gas demand is up and prices are better.

— The number of active drilling rigs is up.

— A recent newspaper account in the *Tulsa World* states that Oklahoma banks made $99 million in the first nine months of 1989 — more than the earnings of the previous five years combined.

— The Legislature in special session is near adoption of legislation mandating dramatic reform and improvement in education to better prepare our young people to compete in the Twenty-First Century.

Oklahoma is in good shape as we enter the decade of the 1990's. Given the new course the Legislature is setting for education, Oklahoma will enter the Twenty-First Century in *great* shape. An era of excellence in Oklahoma is arriving.

Attached to this statement is a set of charts which summarize in visual form Ok-

lahoma's record of progress over recent years. Most of the record is positive. You are urged to take a few moments to review this concise record of where we have been and where we are.

Progress is being made to improve the efficiency of state government. Some examples include:

1. A unified state-wide election system was initiated. This will greatly enhance and modernize the state election process.

2. The Certified Public Managers Program continued. This program is important to state employees who want to improve the opportunity for management positions without having to go to a formal educational institution.

3. A wellness program begun with the hope of promoting better health in state employees without additional financial burden.

4. Interagency Mail Division – In 1989 this division handled 950,000 pieces of mail for state agencies. This amounted to $206,473.18 in savings to the state compared to what the U.S. Postal Service would have cost.

5. Central Printing Division – Through this print shop, the state saved approximately $291,000.

6. Asbestos Abatement Division – Using trained state employees and inmate labor, 196,065 square feet and 3,850 linear feet of friable asbestos was removed from state buildings, colleges and schools. This amounted to a savings of $1.6 million.

7. The computerization through the Computer Assisted Design program will help monitor and evaluate state construction projects.

8. The cafeterias were privatized and are now operated by DHS Visual Services. The snack bars located in state buildings are also operated by the Visual Services unit of DHS. Privatization saved the state $250,000 a year.

9. A major demonstration project will soon be under way for a ground source heat pump system for the Capitol Building. This system will replace over 100 individual units. When completed it will save the state approximately $250,000 a year.

10. Construction is under way for the Library for the Blind. This facility should be open for use by year end.

Excellent coordination now exists between the Department of Corrections and the Pardon and Parole Board. The Department of Mental Health and Substance Abuse Services is moving forward toward becoming a truly community-based system.

The Tax Commission reorganization approved in 1987 has produced significant efficiencies in the operation of that important agency. To better serve taxpayers, I recommend the creation of a Tax Court to replace the present Tax Commission.

The Commissioners of the Land Office, in an effort to help bring economy to state government while increasing the return to its trust beneficiaries, has actively worked to reduce energy costs for state institutions. The Land Office is doing this by transporting state-owned gas to state institutions and by negotiating reduced contract rates. The program when fully utilized should result in a savings in excess of $1 million per year to state agencies while increasing earnings for support of schools.

Through June 30, 1989, cumulative assessments ($7,255,345) resulting from intensive auditing of oil and gas receipts have been 13.38 times as much as the auditing

costs, while cumulative collections ($1,948,000) have been 3.59 times the auditing costs.

Oklahoma's tourism industry has completed another banner year and has become firmly established as a consistent member of the top three industries in the state. Travelers spent almost $3 billion in Oklahoma last year, up seven percent from the previous year. Traveler expenditures directly generated nearly 60,000 jobs.

For the first time in history, Oklahoma's five state lodges have achieved an operating profit.

Surveys show our state resorts increased the level of guest satisfaction to 92 percent which ranks Oklahoma's resorts among the best performing national hotel chains.

Oklahoma operates 62 state parks and 10 museums, monuments and memorials, which last year attracted a total of 16,816,546 visitors, an increase of three percent over the previous year.

The Oklahoma state park system is the envy of other states and is consistently rated in the top five state park systems in the nation.

In cooperation with the Department of Corrections, tourism is utilizing inmate labor and is saving many hundreds of thousands of dollars in labor costs. This cooperative program is providing excellent training for minimum and medium security inmates to enable them to become productive law abiding citizens.

The Oklahoma Tourism and Recreation Department is spearheading the Oklahoma Homecoming '90 program. The Department's 1990 annual Calendar of Events is 30 percent larger due to the planned Homecoming activities in our cities and towns. The opportunity and challenge of Homecoming '90 is extended to everyone.

A total of $2.3 million was spent promoting Oklahoma tourist attractions. The funds were raised by the tourism tax self-imposed by the industry.

The $5 million tourism bond issue authorized by the past legislative session is being utilized to greatly expand and improve tourist facilities at Oklahoma's parks and lodges.

The addition of four new segments to Oklahoma's turnpike system is under way. Over seventy-five (75) million dollars in contracts have been let and the work is proceeding ahead of schedule. These thoroughfares should be open to traffic within two years.

Last year, the House and Senate passed the Barker/Roberts bill **HB 1044,** authorizing leasing of the Chickasaw Turnpike to the Department of Transportation. The road would then be operated toll free. I strongly urge the House and Senate to promptly resolve their differences on this bill and act affirmatively without delay. Work on the toll plaza and maintenance facility has been put on hold to allow the legislature to work its will on this matter.

During the last three years, Oklahoma has made significant progress on the road to excellence with the largest highway construction program in the history of the state.

By the end of this year, the Oklahoma Department of Transportation and the Oklahoma Turnpike Authority will have let highway construction contracts totaling $1.5 billion.

These improvements have resulted in a reduction of inadequate road mileage from 34.4 percent to 29.9 percent, and these improvements are reflected by a substantial drop in the fatality rate on our roads to 2.0

fatalities per million miles traveled. This is substantially below the national average of 2.2 fatalities per million miles traveled.

In addition to improving our highways, we have made substantial progress toward improving their appearance through the Adopt-A-Highway Program and its supporting campaign "Don't Lay That Trash on Oklahoma" which has been enthusiastically embraced by over 26,000 volunteers. This outstanding volunteer effort and enhanced public awareness of litter problems have resulted in a 25 percent reduction in litter along our highways.

These major improvements have been accomplished without a substantial increase in employees in the Oklahoma Department of Transportation through the use of private engineering contracting firms and enhanced employee productivity utilizing the latest system in computer-aided drafting.

We have also reduced delays to road users in construction zones by reducing the average construction time on all road projects.

Oklahoma's past progress has depended heavily upon the development of our abundant natural resources. These will continue to be important but our future strength and prosperity will depend heavily upon the full development of our human resources. Much has been accomplished but much needs to be done.

Impressive progress is being made in improving maternal and children's services.

Infant Mortality – In 1984, Oklahoma's infant mortality rate was 10.5 per 1,000 births, compared to a national infant mortality rate of 10.8. In 1988, the Oklahoma infant mortality rate had dropped to 9.1.

Prenatal Care – In 1984, 69.4 percent of all of Oklahoma's expectant mothers received prenatal care in their first three months of pregnancy. In 1988, that percentage had risen to 73.5 percent. We must do better. Lack of prenatal care is the source of many serious and costly health disorders.

Child Abuse and Neglect – In 1981, Oklahoma had 3,733 cases of confirmed child abuse and neglect. By 1986, the number of confirmed cases had more than doubled to 8,207. In 1989, the number was down somewhat to 7,602 confirmed cases. This is still far too many and we must persevere in our effort to reduce the tragic toll from child abuse and neglect.

The Legislature is to be commended for having recognized the necessity of increased investments in maternal and child health care and in protective services. Let me mention a few of the things that have been done in recent years to combat these problems:

1. In 1987, the Legislature approved funding that permitted the expansion of Medicaid services to expectant mothers and children under age three to 100 percent of the federal poverty line. Oklahoma was one of the first states to adopt that Medicaid option.

2. In FY 1988 and 1989, the Legislature approved increases totalling $950,000 in perinatal health care funding through the Department of Health. This has enabled the Health Department to improve public education and to provide prenatal care to many women who do not have access to a private provider.

3. In 1989, the Legislature approved a substantial increase in immunization funding for the Health Department, thereby permitting free immunizations for children to be reinstated.

4. Also in 1989, the Legislature approved approximately a 50 percent increase in

funding for child abuse prevention grants to local non-profit agencies through the Health Department.

This year the opportunity exists to add another service to the important progress being made through the educational reform legislation. Specifically, I am recommending that an "Oklahoma Youth In Education and Service" (OK-YES) initiative be undertaken to reduce the rate of school dropouts. This initiative would be under the overall direction of the State Department of Education.

This program will augment and supplement the excellent efforts already under way through the state's vocational technical system aimed at the following types of students:

1. High school dropouts and/or potential dropouts;

2. Economically and/or academically disadvantaged students;

3. Students with truancy and/or behavioral problems;

4. Pregnant teens and teenage parents; and

5. Handicapped students.

The vocational technical system and the Departments of Tourism and Transportation are to be commended for the initiative they have taken to provide youth jobs and thus reduce dropouts. I believe the addition of OKLAHOMA YES will fill a gap in our efforts to successfully educate an at-risk sector of our young people.

The Department of Corrections has moved forward with the public works which provide worthwhile work activities for prisoners. Many state agencies, school districts and local governments are cooperating. In Oklahoma, every available prison inmate is at work. The inmate population continues to grow in spite of the innovative programs of pre-parole supervision and community sentencing.

Prison construction authorized by previous action of the Legislature is under way to provide 1,100 new beds by January 1, 1991. In addition, 450 beds will be provided by proposed new work camps and trustee units. These additions are necessary in order to deal with the growing population of prisoners with chemical abuse convictions.

DETER (Drug Eradication Training Education & Rehabilitation), a cooperative effort between law enforcement, education and local authorities under the direction of Fred Means, has been put in place. An Oklahoma "War on Drugs" report will be issued shortly.

The diversion of prescription drugs into the underworld black market is alarming. Oklahoma's per capita consumption of methamphetamines is fourth in the nation. Oklahoma's per capita consumption of dangerous amobarbital is fifth out of the 50 states, and we are eighth in use of amphetamines.

Oklahoma's per capita usage of the most dangerous prescription drugs is twice that of Texas and New York. We must stop professional "patients" who dupe doctors into writing prescriptions for these drugs and then sell this illegal bonanza on the streets.

Toward this end, we have worked with legislators, the Bureau of Narcotics and Dangerous Drugs, the health care licensing boards and the physicians', dentists' and pharmacists' associations to draft legislation which will make Oklahoma the first state in the nation with the capability to track prescription drug abuse. I urge your support of the Anti-Drug Diversion Act.

The task force study initiated by Representative Rob Johnson and others has recommended that improved law enforcement would result from the state operation of an automated fingerprint identification process. This recommendation is strongly endorsed.

As we enter the 1990's, one of Oklahoma's major strengths is our relatively clean environment. Maintaining such surroundings and dealing with problems as they arise is essential for Oklahoma's economic health and quality of life.

The Oklahoma Environmental Concerns Council, a bipartisan blue ribbon advisory council, was convened in November of 1988 to examine the condition of Oklahoma's environment and the fragmented agency structures which regulate Oklahoma's environmental resources. The Council found that Oklahoma's past efforts to unify these agencies have too often been unproductive, resulting in conflict rather than coordination. Consequently, the Council recommended the centralization of environmental regulation. In particular it proposed the creation of a Department of Environmental Management.

Last October, the full report from the Oklahoma Environmental Concerns Council was received. (Copies are available.) The report provides an assessment of the State's environmental condition. It also contains a series of recommendations that, if adopted, will make Oklahoma a leading state in improving its environmental conditions and enhancing economic growth while maintaining high environmental standards. The Environmental Concerns Council made it clear that we can no longer carelessly ignore environmental change. Rather we must be consciously aware of environmental impacts in concert with our state's values and goals.

Recently, Attorney General Robert Henry presided over the creation of the Oklahoma Environmental Awareness Network. The Network has already been extremely effective in advocacy for our natural resources. One of the reasons that the Network has been so successful is that it unifies in one body over fifty environmental organizations. This Network has proven to be a successful forum for information exchange.A key reason for its success is that its members speak with consensus. The unification of their respective missions on behalf of Oklahoma has replaced the previously fragmented efforts of the individual member groups. This Network is proof that consolidation of resources makes for more effective and productive activities.

As 1989 was the Year of Education, Oklahoma must make 1990 the Year of the Environment. A legislative agenda based on the recommendations of the Environmental Concerns Council has been developed in cooperation with leaders of the House and Senate. This legislation will help insure that Oklahoma can enjoy sustainable growth while maintaining a superior quality of life.

Many who have lived their lives in Oklahoma take our excellent quality of life for granted — clean air, abundant pure water, a wholesome environment, freedom from congestion, safe streets. These are assumed to be our birthrights—and they are — but they can be lost here as they already have been lost in other areas.

Therefore, the question arises: Will the excellent quality of life we know be the heritage we pass on to our children?

Provided we act wisely and promptly, the answer is yes! Already we see efforts of states which are sinking in their own waste as they attempt to unload their garbage or their sewage sludge on their neighbors. We

cannot let that happen here. Yet, at this moment, we are ill prepared to guard our interests.

We must build our defenses against an onslaught of man-made pollution whether it be imported or self-generated. Oklahoma needs to keep our internally generated environmental problems in check. At the present time, eight state agencies have a role in making environmental decisions for our citizens. No one effective protector of our quality of life exists.

Two problems arise.

One is the resulting maze of permits and licenses which can slow and even stop economic progress.

The second is the danger that skillful and ill-intentioned forces can manipulate the system and pollute with impunity.

Now we are in a reactive stance and many times the reaction comes too late after the damage has been done. To be ready for the Twenty-First Century, we must create a pro-active stance so that environmental crises can be anticipated and averted. This means lodging responsibility for environmental concerns in one agency created by moving existing authorities, appropriations and personnel into a Department of Environmental Management.

This is not a partisan issue. We must protect Oklahoma's environment from pollution of our scenic rivers, the unregulated importing of hazardous waste and the careless production and handling of all waste. We must establish and adequately fund safe and healthy programs for disposing of the waste Oklahoma does generate. We can no longer afford to simply dump what we discard. These necessities are not and should never have been issues that are subject to turf wars and partisan bickering.

The new legislation will involve transfer of duties among agencies. No additional money or employees will be needed. This is the recommendation of the Environmental Concerns Council which involved the work of over one hundred of our most concerned and best informed citizens for a year. This recommendation is now ready for legislative consideration. I strongly urge its enactment.

Approximately 21 percent — about 600,000 — of Oklahoma's citizens are not covered by health benefits either through private health insurance or through governmental programs. At least 2/3 of those — about 400,000 — are either employed or are the dependents of employed persons.

The establishment for Oklahoma of a two-part strategy for improving the availability of health insurance to our working population and family members of employed workers is recommended.

The insurance industry is responding to the need for increased access to low-cost health insurance plans by stepping up the marketing of plans tailored to meet needs of low-income workers in Oklahoma.

One of the fastest growing elements of health care costs is malpractice insurance coverage. The costs of malpractice insurance are having a dampening effect on the availability of certain health care services, especially obstetrical services crucial to expectant mothers. The State of Indiana has piloted an approach to controlling malpractice insurance costs that appears worthy of replication in Oklahoma. Indiana has succeeded in holding malpractice insurance to a third or less of the costs in most of the rest of the country.

Due to the strong economic recovery which has taken place in recent months, I am pleased to recommend a reduction in the unemployment tax paid by employers.

To further promote Oklahoma's pro-business climate, I recommend that product liability be limited to ten years.

To help improve access to state contracts, I recommend the creation of a small business surety bond program and reduction of fees charged small businesses by the Office of Public Affairs.

Because of the entry of more and more women into the work force, I recommend passage of a law guaranteeing three months unpaid maternity leave to mothers employed outside the home. Again, I recommend making space available in the Capitol area for operation by private contractors of a day-care center. We will continue to urge private employers to provide these vitally needed services near the work place.

A new proposal to improve highway safety is being offered. This will involve impounding and ultimately seizing vehicles operated by unlicensed drivers who are repeatedly guilty of deadly DUI or drug abuse convictions. I again recommend that first time drivers be required to pass drug-free tests before receiving their driving licenses.

I further recommend the consolidation of Civil Defense with the Department of the Military.

Progress toward receiving the initial class at the Oklahoma School for Science and Math this fall is being made. Opening of this institution to offer enhanced learning opportunities for some of our most talented young people is a major step toward excellence in education in Oklahoma. I urge its continued support.

Our legislative plans need to consider future as well as present needs. Nineteen Ninety (1990) is a time to plan and legislate for the next century:

— a century when only excellence will be good enough;

— a century when global competition becomes a way of life;

— a century when the face of world order is fundamentally changed with resulting opportunities waiting to be embraced by those who are prepared to benefit;

— a century when communications, transportation, commerce and ideas flow freely across international boundaries to enrich the lives of all; and

— a century when the pace of new technical developments will accelerate until those who are not prepared will be hopelessly left behind.

Passage of House Bill 1017 — The Education Reform and Funding Act — is essential in making Oklahoma ready for a leading role in the Twenty-First Century.

Mr. Speaker, Mr. President, Honorable Members of the House and Senate, much has been accomplished through cooperative efforts involving the Legislature, the Executive Branch, the Courts and the private sector to restore Oklahoma to a state of economic health. Major tasks lie ahead. As Governor, I commend and congratulate all who have affirmatively participated in creating a climate of excellence in our state.

Upon motion of Senator Roberts, the Joint Session was ordered dissolved at the hour of 12:35 p.m.

SELECTED NON-CERTIFIED FUNDS

Schedule 5

The following are estimates of revenues anticipated to accrue to selected funds during the fiscal years ending June 30, 1990 and June 30, 1991. The selected funds listed here belong to the category of funds which are not annually appropriated and are therefore not subject to the revenue certification process. Thus, these estimates are listed for information purposes only.

* COUNTY BRIDGE REVOLVING FUND (400-345)	$ 9,321,920	$ 8,795,778	$ 8,885,114

(1) HB 1010 (First Extraordinary Session of the Forty-Second Legislature) states that beginning 7/1/90 the state revenues currently dedicated to the Department of Transportation's State Highway Construction and Maintenance Fund, a revolving fund, shall be credited to the new State Transportation Fund, an annually appropriated Fund. In FY-91 there will be one month's revenue credited to the State Highway Construction and Maintenance Fund from the dedicated revenue collected by the Oklahoma Tax Commission in June 1990.

(2) Motor fuel tax revenue apportioned to the State Highway Construction and Maintenance Fund is net of the $3 million apportioned yearly to the Oklahoma Turnpike Authority. This $3 million represents the statutory ceiling on the amount that may be apportioned to the Oklahoma Turnpike Authority for tax collected from all fuels used on the Turnpikes.

(3) HB 1010 (First Extraordinary Session of the Forty-Second Legislature) stipulates that revenue from the assessment of one cent per gallon upon the sale of each gallon of motor fuel, diesel fuel and blending materials shall be deposited in the State Highway Construction and Maintenance Fund from 1/1/90 to 6/30/90 as long as the Petroleum Underground Tank Release Environmental Cleanup Indemnity Fund maintains a balance of at least $5 million. Due to a lag between time of assessment, collection by the Tax Commission, and transferring of funds to the State Highway Construction and Maintenance Fund, there will be three and one-fourth month's worth of collections transferred in FY-90 and one month in FY-91. The FY-91 estimate for motor fuel tax revenue is net of $1,878,510 for the June apportionment to the Oklahoma Turnpike Authority.

Senator Roberts moved that when the clerk's desk is clear, the Senate stand adjourned to convene Thursday, February 22, 1990, at 1:00 p.m., which motion prevailed.

MESSAGE FROM THE GOVERNOR

Advising his approval April 17, 1990, of Enrolled **SB 743** and veto of **SB 683.** The veto message reads as follows:

This is to advise you that on this date I vetoed Enrolled **SB 683** by Hooper of the Senate and Cox of the House.

An act relating to insurance which relates to insurance, insurance rates, regulation of insurers and insurance agents and deposits required to transact insurance *** and providing an effective date.

Section 13(F) opens a gaping loophole which would allow existing agents and insurance companies to do business without a valid license or certificate of authority but suffer no punishment. New agents or companies, however, would be guilty of a felony and subject to a fine of up to $5,000 for the same activity. This section creates an equal protection problem and exposes the Oklahoma public to dishonest insurance practices.

The bill also steps backward in the area of rate regulation, making it more difficult for insurers to respond to market condition.

This act shall be known and may be cited as the "Sales Tax Relief Act".

Beginning with the calendar year 1990 and for each calendar year thereafter, any resident individual, as defined by Section 2353 of Title 68 of the Oklahoma Statutes, whose gross household income for such year does not exceed Twelve Thousand Dollars ($12,000.00) may file a claim for sales tax relief. For calendar year 1990, the amount of the claim filed pursuant to this act shall be Twenty Dollars ($20.00) multiplied by the number of personal exemptions to which the taxpayer would be entitled pursuant to the provisions of the Oklahoma Income Tax Act. For each year thereafter, the amount of the claim filed pursuant to this act shall be Forty Dollars ($40.00) multiplied by the number of personal exemptions to which the taxpayer would be entitled pursuant to the provisions of the Oklahoma Income Tax Act.

Claimants shall be allowed a direct credit against income taxes owed by such claimant to the State of Oklahoma for the amount of his claim, in which case such claim shall be filed with the claimant's income tax return on or before the 15th day of April following the close of the taxable year. In all cases where claimants have no income tax liability or where the sales tax relief authorized by this section exceeds the claimant's income tax liability, such claim, or any balance thereof, shall be paid out in the same manner and out of the same fund as refunds of income taxes are paid and so much of said fund as is necessary for such purposes is hereby appropriated.

The claimant may, within thirty (30) days after the date the notice is mailed by the Oklahoma Tax Commission, submit further or additional proof in support of his claim or request an oral hearing before the Oklahoma Tax Commission.

B. Upon request for a hearing, the Oklahoma Tax Commission shall notify claimant in writing of the date, place and time of the hearing. The Office of State Finance shall transfer to the separate General Revenue account, on June 30, 1990, all of the estimated revenues attributable to the tax changes included in this act which accrue during the fiscal year ending June 30, 1990.

An act relating to roads, bridges and ferries; which relates to the location and removal of public utilities on certain highways; *** and declaring an emergency.

Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved part and disapproved part of Enrolled **HB 2281** by Hobson and Steidley of the House and Taylor and Haney of the Senate.

An act relating to the Oklahoma Center for the Advancement of Science and Technology; making appropriations thereto; *** and declaring an emergency.

I have disapproved the $5.8 million appropriation for programs in the Oklahoma Center for the Advancement of Science and Technology.

While I support the purposes of OCAST, this appropriation is approximately $3 million greater than recommended in the Executive Budget and appears to subtract from the funds needed for higher education.

After higher education is adequately funded, it may be proper to increase OCAST funding beyond the recommended level.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Section 8. The State of Oklahoma, or any political subdivision thereof, or any board, commission**[, agent, or employee]** OR AGENCY thereof, is hereby prohibited from engaging in any phase of the alcoholic beverage business, including the manufacture, sale, transportation, or distribution thereof, at wholesale or retail, and the maintenance, ownership, or operation of warehouses or alcoholic beverage stores; except that if the voters of a county in which a state lodge is located approve retail sale of alcoholic beverages by the individual drink for on-premises consumption, and if the State Legislature enacts legislation approving such sales in any such lodges located in any such counties, then such sales are authorized. MESSAGE FROM THE GOVERNOR

Advising his approval May 10, 1990, of Enrolled **SBs 463, 488, 588, 660, 693, 877** and **880** and veto of **SBs 599, 600** and **630.** The veto messages read as follows:

May 10, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 599** by Kerr of the Senate and Grieser and Widener of the House.

An Act relating to waters and water rights; granting exclusive jurisdiction to the Conservation Commission to prepare a wetlands management strategy; *** and providing for codification.

The bill creates the potential that the U.S. Environmental Protection Agency will preempt Oklahoma's water quality standards and impose federal standards on the state.

By giving the Conservation Commission exclusive jurisdiction to identify wetlands and to recommend measures to protect wetlands, the Legislature has fragmented responsibility for water standards between the Conservation Commission and the Oklahoma Water Resources Board. When similar fragmentation occurred after the *Matador Pipelines Inc. v. Oklahoma Water Resources Board* case, EPA threatened federal intervention. At that time, the Legislature amended state law to avoid federal interference. This bill unravels that earlier solution.

Such fragmentation would not be a concern if the various environmental functions scattered throughout state government were combined in one Department of Environmental Management.

As I have stated in previous correspondence which is attached to this message, the wetlands issue should be resolved through the Comprehensive Water Plan.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 600** by Gardenhire, Dickerson and Cole of the Senate and Johnson (Glen) and Mitchell of the House.

An Act relating to state government; which relates to the Oklahoma Merit Protection Commission; *** and declaring an emergency.

This legislation would require the state to pay the attorney's fee of a state employee who prevails in a case before the Merit Protection Commission. The employee is not required to show that the state acted in bad faith, with malice or in any other inappropriate manner.

Often reasonable minds can disagree on matters of law and personnel practices. Forcing the state to pay employees' attorneys' fees when the state has acted reasonable is poor public policy and potentially destructive of already lean budgets.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 630** by Roberts of the Senate and Easley, McCorkell and Sullivan of the House.

An Act relating to property; which relates to public trusts; *** and declaring an emergency.

The bill creates tremendous opportunities for abuse by raising the limit for public trust contracts which may be awarded without competitive bidding from $2000 to $7500.

This limitation applies to all contracts awarded by public trusts. While a $7500 limitation would conform the public trust construction contract ceiling to the state construction contraction limitation, the $7500 ceiling for labor, equipment, materials and repairs would far exceed the $750 limit on similar state contracts or the $1500 limit on county contracts.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE GOVERNOR

Advising his approval May 14, 1990, of Enrolled **SB 545** and veto of **SB 457.**

The veto message reads as follows:

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 457** by Brown of the Senate and Mentzer and Mitchell of the House.

An Act relating to poor persons; which relate to the vendor drug program; *** and providing an effective date.

This bill would require the Department of Human Services to pay for any drug used by a Medicaid patient regardless of whether another equally effective but less expensive medication was available.

Medical bills are among the fastest increasing costs burdening the welfare system today. If DHS is not allowed to control the rate of increase by requiring welfare recipients to use generic drugs in place of name brand prescriptions, these same welfare recipients will suffer because other programs must be cut.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE HOUSE

Transmitting herewith Enrolled **HB 1947,** together with the Governor's Veto Message thereon, and advising that under the provisions of Section 58, Article V, of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a three-fourths vote of all members elected to and constituting the House, said vote being as follows: Ayes: 77; Nays: 16.

The veto message reads as follows:

April 17, 1990

To the Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **HB 1947** by Adair, Littlefield, Cozort, Hager and McDonald of the House and Stipe of the Senate.

An Act relating to revenue and taxation; which relates to the State Board of Equalization; *** and declaring an emergency.

Enactment of this legislation would cause either the loss of approximately $2 million to common education or an unrealistic increase in commercial/industrial property ad valorem taxes.

Proponents' fears that the current assessment system violates the federal Railroad Revitalization and Regulatory Reform Act of 1976 are unfounded. That act requires equal treatment of transportation property and commercial/industrial property "in the same assessment jurisdiction." 49 U.S.C.A. Section 11503(b)(1).

In Oklahoma, the assessment jurisdiction for commercial/industrial property is local while the assessment jurisdiction for transportation property is statewide.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Transmitting herewith Enrolled **HB 1569,** together with the Governor's Veto Message thereon, and advising that under the provisions of Section 11, Article VI, of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a two-thirds vote of all members elected to and constituting the House, said vote being as follows: Ayes: 81; Nays: 8.

The veto message reads as follows:

May 15, 1990

To the Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **HB 1569** by Maxey et al of the House and Long (Ed) of the Senate.

An Act relating to mental health *** which relate to emergency detention and examination of certain persons *** and providing an effective date.

This bill attempts to resolve conflicts between the Department of Human Services and the Department of Mental Health and Substance Abuse Services concerning admissions to the Greer Center at the Enid State School, but the legislation is more likely to generate conflict than to resolve it.

The major flaw is failure of the bill to determine which department will be responsible for treatment costs for persons diagnosed as both mentally retarded and mentally ill if the person is not eligible for Medicaid. All persons potentially subject to the provisions of this bill are not Medicaid eligible.

The legislation would simply provide a way for the Department of Mental Health to transfer costs to DHS, an agency which cannot bear additional costs well.

I have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE GOVERNOR

Advising veto of **SB 624** on May 17, 1990.

The veto message reads as follows:

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 624** by Ford of the Senate and Rhoads of the House entitled:

An act relating to revenue and taxation; which relates to motor fuel taxes; *** and declaring an emergency.

Aircraft fuel already is exempt from various fuel taxes. This bill would give aircraft owners another 9.42-cent exemption on gasoline taxes and another 6 1/2-cent exemption on diesel fuel taxes.

At a time when the Legislature is hard-pressed to adequately fund essential state functions such as corrections or federally mandated programs at the Department of Human Services, any attack on the state's revenue base is unwise.

It is especially inappropriate to enact a revenue-reducing bill this late in the budget process when most appropriations bills have been passed. Enactment of this legislation would require the State Board of Equalization to reconvene to recertify funds available for legislative appropriation. This recertification could disrupt the session's work with less than a week remaining in the term.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

INTRODUCTION

Senator Gardenhire introduced Charlotte Gibbs, mother of the late William Delaney Gibbs, and asked unanimous consent,

which was granted, that she be given privileges of the floor to receive a copy of **SCR 89** in his honor.

MESSAGE FROM THE GOVERNOR

Advising his veto of **SB 712** on May 18, 1990.

The veto message reads as follows:

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 712** by Hooper and Schuelein of the Senate and Littlefield and Roberts (Larry) of the House entitled:

An act relating to state government; authorizing sale of certain land to Northeast Eight Intertribal Council; *** and providing an effective date.

The legislation directs the Office of Public Affairs to sell certain lands so they may be placed in trust for particular Indian tribes. The legislation requires the sale agreement to include covenants prohibiting the operation of bingo on the tax exempt sale of goods on the land.

While I agree with the covenants sought, the fact is that the covenants will be worthless. If the tribes decide to ignore the prohibitions after the lands are placed in trust, the state will have no ability to enforce the covenants because Indian tribes, as sovereigns, cannot be sued without the tribes granting permission to sue.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

MESSAGE FROM THE GOVERNOR

Advising his approval May 23, 1990, of Enrolled **SBs 781, 788** and **799** (line item veto). The veto message reads as follows:

May 23, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved part and disapproved part of Enrolled **SB 799** by Taylor and Haney of the Senate and Hobson and Steidley of the House.

An Act relating to various state agencies; making appropriations to the State Department of Agriculture; specifying certain categories and amounts; *** and declaring an emergency.

Section 21, appropriating $100,000.00 for the Kiamichi Economic Development District of Oklahoma, is unnecessary. This district receives $41,949.00 – nearly the same amount as the other 11 substate planning districts – in Section 19. There is no justification for funding KEDDO at three times the level of other substate planning districts.

Section 88, appropriating $81,412.00 for the Garber-Wellington Association, has been vetoed for the same reason the funds were vetoed earlier this session from House Bill 2311.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Gentlemen:

The Constitution of the State of Oklahoma, Article X, Section 23, as amended, provides in pertinent part:

Whereupon, it shall be the duty of the State Board of Equalization to make a determination of the revenues that will accrue under such laws and ninety-five percent (95%) of the amount of any increase or decrease resulting, for any reason, from such changes in laws shall be added to or deducted from the amount previously certified available for appropriation from each respective fund, as the case may be . . .

The attached report presents for your consideration, a proposed determination of the revenues to be derived from legislation enacted by the 42nd Legislature, Second Session and First Extraordinary Session, and not previously considered.

MESSAGE FROM THE GOVERNOR

EXECUTIVE DECLARATION
OF EMERGENCY

Pursuant to the authority vested in the Governor by Article X, Section 23 of the Constitution of the State of Oklahoma, I, Henry Bellmon, declare that an emergency exists in the State of Oklahoma by reason of a threat to the public safety caused by a lack of prison space and protracted operation of the state corrections system at inmate populations exceeding legal capacity by approximately twenty percent (20%).

As Governor, I request the Senate and House of Representatives to concur in this declaration of emergency and to specially appropriate a sum of up to one million four hundred two thousand three hundred four and 50/100 dollars ($1,402,304.40) from the Constitutional Reserve Fund, together with other available funds, to alleviate the conditions causing the abovesaid emergency.

DONE this 25th day of May, 1990.

Governor of the State of Oklahoma
/s/Henry Bellmon

PENDING CONSIDERATION OF CCR

The **CCR** on **HB 2316** was called up for consideration.

Senator Capps asked to coauthor **HB 2316,** which was the order.

Senator Roberts moved pursuant to Article V, Section 26, Oklahoma Constitution, the Second Regular Session of the 42nd Legislature adjourn sine die.

Pursuant to the Roberts motion the Senate of the Second Regular Session of the 42nd Legislature at the hour of 5:00 p.m., Friday, May 25, 1990, adjourned sine die.

MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received after sine die adjournment.

Advising veto of **SJR 38** on May 25, 1990. The veto message reads as follows:

May 25, 1990

To the President Pro Tempore and
Members of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SJR 38** by Giles and Capps of the Senate and Grieser of the House entitled:

A joint resolution disapproving rule numbers 3-203 and 3-203.1 adopted by the Corporation Commission; *** and declaring an emergency.

The rules promulgated by the Corporation Commission appear adequate and therefore should not be disapproved.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Advising approval on May 29, 1990 of Enrolled **SB 830.**

Advising approval on May 30, 1990 of Enrolled **SBs 129, 163, 360, 438, 450, 460, 472, 552, 563, 589, 620, 664, 674, 691, 716, 742, 773** and **807** and veto of **SBs 465** and **665.**

The veto messages for **SBs 465** and **665** read as follows:

May 30, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 465** by Fisher, Cole and Williams (Penny) of the Senate and Hudson of the House entitled:

An act relating to elections; creating the Oklahoma Voter Protection Act; requiring certain voter registration information to be subject to the Oklahoma Open Records Act; *** and declaring an emergency.

This bill restricts access to computer tapes and discs containing voter registration information to a privileged few whose reasons for having such access have been deemed suitable by the Legislature.

Such limitation is anti-democratic and contrary to the underlying philosophy of the Open Records Act.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

May 30, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 665** by Long (Ed), Schuelein and Cain of the Senate and McMillen and Maxey of the House entitled:

An act relating to contracts and securities; which relate to the Oklahoma Securities Act; *** and declaring an emergency.

While I do not quarrel with the need for regulation of continuing care contracts, I cannot approve this legislation which defines continuing care contracts as securities and places them under the regulatory scheme of the Securities Commission.

Securities regulation is among the most complex and least forgiving in the state. In-

nocent errors may result in extraordinary penalties. This increditably strict environment is not appropriate for continuing care contracts for various reasons. First, continuing care contracts are not securities. A security requires the expectation of profit on the part of the purchaser. Continuing care contracts carry no such expectation for the buyer.

Second, in Oklahoma continuing care contracts are typically sold by churches and fraternal organization elder care facilities whose boards of directors are civic-minded volunteers. The Securities Act would expose these unpaid directors to horrendous liabilities. Legislators saw the problems such liability would cause and — in Section 3(f)(2) of the bill — exempted fraternal organizations from the act, but they failed to provide equal protection for churches.

If this bill were to become law and expose volunteer directors to Securities Act liabilities, I fully expect all continuing care boards of directors would resign immediately. Such action would leave Oklahoma's elderly with no continuing care.

The liabilities attendant to securities are justifiable for profit-minded, paid directors, but they are not appropriate for unpaid church volunteers.

Regulation of continuing care contracts should be placed in the Insurance Department since these contracts are more akin to insurance than to securities.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

Advising approval May 31, 1990 of Enrolled **SBs 346, 619** (with message), **710, 810, 855, 863** and veto of **SB 528.**

The messages relating to passage of **SB 619** and veto of **SB 528** read as follows:

May 31, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I approved Enrolled **SB 619** by Fisher, Cole and Hendrick of the Senate and Hudson of the House entitled:

An act relating to elections; which relate to the conduct of elections; which relate to the use of electronic data processing; *** and declaring an emergency.

This bill has been signed with reservation because of errors in Section 8. These errors could eventually result in persons who vote by absentee ballot being purged from voter registration lists.

This problem has been discussed with the State Election Board Secretary whose letter concerning the difficulty is attached. The Secretary has indicated he will work with the next legislature to correct the mistake.

He has also assured me that purging of voter registration lists is not scheduled until 1993; therefore, no one who votes by absentee ballot will be in danger of being removed from the voter rolls before the next legislature convenes.

With this assurance, I have approved Senate Bill 619 because other portions of it are vital to modernization of the state election system through use of computers in the upcoming round of elections.

and have caused same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon

May 31, 1990

To the President and Members
of the Honorable Senate
Second Session,
Forty-second Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 528** by Taliaferro of the Senate and Hudson of the House entitled:

An act relating to counties and county officers; which relates to general powers of the board of county commissioners and the county budget board; *** and declaring an emergency.

As I stated in my veto message for House Bill 1898, I am opposed to any relaxation of controls on county purchases.

By the Governor of the State of Oklahoma
/s/ Henry Bellmon
