Members of the Board:

The Constitution of the State of Oklahoma, Article X, Section 23, as last amended April 30, 1985, provides in pertinent part:

> Not more than forty-five (45) days or less than thirty-five (35) days prior to the convening of each regular session of the Legislature, the State Board of Equalization shall certify the total amount of revenue which accrued during the last preceding fiscal year to the General Revenue Fund and to each Special Revenue Fund appropriated directly by the Legislature, and further certify amounts available for appropriation which shall be based on a determination, in accordance with the procedure hereinafter provided, of the revenues to be received by the state under the laws in effect at the time such determination is made, for the next ensuing fiscal year, showing separately the revenues to accrue to the credit of each such fund appropriated directly by the Legislature.
>
> Amounts certified as available for appropriation from each fund, as hereinbefore provided, shall be ninety-five percent (95%) of an itemized estimate made by the State Board of Equalization, which shall include all sources of revenue to each fund for the next ensuing fiscal year; provided, however, appropriated federal funds shall be certified for the full amount of the estimate. Said estimate shall consider any increase or decline in revenues that would result from predictable changes in the economy.

The following report has been prepared in accordance with the procedures set forth above, and is respectfully submitted for your consideration.

Sincerely,

/s/Jack E. White
Director of State Finance

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. These ratios were updated at the February 19, 1991 meeting to reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

APPROPRIATION LIMITATION

Schedule 2

Section 23, paragraph 1 of Article 10, Constitution of Oklahoma, provides for a limitation on appropriations, except for appropriations from the Constitutional Reserve Fund. Pursuant to said limitation, appropriations for the fiscal year ending June 30, 1993, shall not exceed the amount appropriated for the current fiscal year, 1992, plus 12 percent (12%) adjusted for inflation as measured at the close of the calendar year. The amounts appropriated from each fund by the First Regular Session, 43rd Legislature (1991), approved by the Governor, are listed below. The total, $3,407,937,024, was derived as a summation of the individual funds. The limit on appropriations will be presented to the State Board of Equalization in February as provided by the Constitution. The Gross National Implicit Price Deflator for State and Local Governments is proposed as the index for the measure of inflation.

(1) Cash is not certified.

(2) Excludes CRF balances. There is currently a balance of $202.7 million in the Constitutional Reserve Fund (CRF or "Rainy Day Fund"), half of which may be accessed upon declaration of emergency.

(3) This amount includes the sum of $62.0 million in the 091 General Revenue Cash Flow Reserve (GRCFR) Fund, which, based on cash flow experience to date and anticipated FY-93 cash flow requirements, should be available for appropriation this session. Amounts appropriated in this manner essentially represent an appropriation from current year "5% monies," inasmuch as the latter would be used, as in the past three years, in order to replenish the GRCFR Fund for the ensuing year's cash flow needs.

(4) Includes CRF emergency appropriation of $30 million.

(5) For greater detail, see Appendix III of this report. In addition, there is a carry-forward balance of $33.7 million in the Education Reform Revolving Fund which is available for legislative appropriation to common schools for HB 1017 programs in FY-93. This compares with $32 million in carry-forward funds authorized for use in FY-92. Should the 1992 Legislature make full use of the Revolving Fund's current balance, it would result in an additional increase of $1.7 million above the prior year.

MESSAGE OF GOVERNOR DAVID WALTERS

Lt. Governor Mildren, President Pro Tempore Cullison, Speaker Johnson, Chief Justice Opala, Members of the Legislature, Women and Men of Oklahoma:

Our legislative session starts later than many other states so I have had the benefit in preparing my comments of seeing what other Governors have said to their legislatures and citizens. Most talk about past accomplishments, and no tax increases, many talk of bond issues, education and jobs, a few talk of unity and everyone smiles.

Some of my remarks won't bring many smiles because they are not happy ones. Much of what I have to say will be tragic but I believe a necessary statement of truth. We do have things to brag about, you and I. Legislatively it was a good year. Budget cuts, combined with a small amount of new funds, allowed for strong budgets, particularly in education. You should feel a special pride to have played a part in public policy that has given this state a higher increase in education funding last year than any other state in the nation and did not raise taxes. Your actions have kept Oklahoma competitive and fiscally strong during a severe nationwide recession. No small task. I could recite more, but we've talked about these things before.

Instead let me take this time to share a few thoughts about Oklahoma, from my perspective.

A cautious word about my perspective. When I decided in 1986, with Rhonda's acquiescence, to run for public office, people often asked what was important to me. I told them then what I had always known, what I value most; first, our family and second, my integrity.

So you can imagine the horror Rhonda and I felt after the inauguration a year ago to watch as skillful political terrorists who had publicly vowed to destroy me were given such comfort by opponents and so much attention by a media that seemingly wanted a story more than they wanted the facts. Why? I don't have a good answer. Rhonda and I have been enthusiastic, idealistic, sometimes naive, but capable of enormous work to achieve our goals and to achieve good things for Oklahoma. Why then the mauling, the feeding frenzy, the slow water torture?

I am an outsider. The first real outsider to serve as Governor in the states' modern history so I don't engender much trust with the insiders, which to my surprise, included the capitol media. But even that doesn't seem to merit the unprecedented assault on my integrity during this last year. The assault knew no bounds.

After being accused of virtually every possible indiscretion and criminal act a new low was reached when a reporter with KTVY Channel 4, without any shred of evidence or any possible basis, inferred, on the air, that I probably had something to do with the tragic death of an FBI agent.

I called my son from an economic development trip (I was out of town) and he tried to make the best of it by reminding me that he had frequently said, throughout 1991, "Well, Dad, at least they haven't got you for murder or sex." Now he simply said, "At least you have one to go."

When we recently verified that a group had met in January to discuss hiring a woman and hiding a camera in the hopes of getting an embarrassing photo of me, I could only smile and think that we had now exhausted Shaun's list.

I recall being asked at one press conference last fall, after a series of vitriolic questions by the capitol press, if it was true that I had been on the grassy knoll on that fateful day in November, 1963. I appreciated the humor particularly from a young television reporter who told others at a social function that his negative stories about me were his ticket to Dallas. It worked, and he now works for a Dallas station.

As you recall, the press gathered in August from all four corners of the state believing that I was going to resign, even though we carefully explained that was not going to happen and that they had been set up by an opponent who knew the rumor itself would harm us.

So there we were, what a circus. Just a rumor without any basis. Someone finally asked the question, I said no and boom, they had their story. "Governor Denies Resignation" was everywhere, on T.V., radio and front page. The public suddenly assumed because such rumors were now on the air that this must be likely or even imminent. The political terrorists were thrilled the media took the bait and I was further damaged.

As I surveyed the room with live cameras and lights turned on, I wanted to hold up a mirror and say look at yourself, look at what you are doing, look at what you've become. I should have.

Because then the guns turned to my son Shaun, and his mother and I watched helplessly as the media dogged him. Forty-seven T.V. stories in one week, even though he didn't use drugs and cooperated fully. A single seed nurtured for weeks by the authorities tested negative, but he was still made to endure a humiliating two hour lie detector test only later to read in the newspaper the assistant DA say that yes, he had been treated more severely because of who he was.

Marcy Gardenhire, from Oklahoma City, in a letter to the editor recently said, "The bullets of vengeance veered off course and lodged fatally in the heart of a young man who could not bear the pain." And so, 39 days ago we lost him. He's buried now in a cemetery on Northwest Highway.

This is my perspective. The two most important things to me, my family and my integrity have been virtually destroyed.

So what can I share with you from this perspective? First, I want to thank the thousands of people for their expressions of sympathy and support; loving, caring and meaningful letters from children and parents, elderly, farmers, business people and others.

They are good, these people. They are a loving and compassionate people. I can argue that Oklahomans are better than others but we can all agree that they are good. More conservative than some may like, more tight-fisted than some think is prudent, but they are good and God bless every one of them.

So, why is it so hard for us to come together on their behalf? Why is it necessary for the press to denigrate, destroy, distort? This problem does not reside in a single publisher, it is widespread. I understand that many in the press perceive that they are only doing their job and their function is to question, but a public already concerned about the press would be shocked to see some of their behavior up close and personal.

The Wall Street Journal recently commented on Walter Lippmann's book "Public Opinion," and said Lippman asks how can an editor bring any order to the torrent of daily events? The only possible way is that the editor must bring to each day some organizing principle that exists independently and prior to the events themselves. Journalism brings to events of the day what Lippmann calls "stereotypes." That is, the news the reporter records and the editor prints is not, and cannot be, a simple recounting of the facts. It also reflects the stereotypes journalists bring to the news.

These stereotypes can be incredible impediments to our progress. People sometimes ask why I get shellacked by The Tulsa World; they understand the motives of the Oklahoman, but why The World? The capitol reporter for The World told a member of my staff prior to the start of this administration that, "Your guy Walters is as wishy washy as Boren and as crooked as Hall." That comment was unfair to David Boren but that stereotype has been reflected in every story written about my administration by that reporter. Every story . . . dozens of stories. What makes these biases and false stereotype particularly dangerous is today's technology. In the past it took 30 days to kill someone's character, today it takes about three.

It's not just the reporters. Former political opponents from both parties have given interviews to try to reinforce their own negative stereotypes of me and our administration.

I am a hard campaigner, I play to win, I play by the rules, if you attack you'll get a similar response. But between elections, I believe we have an obligation to use the opportunity given us by the electorate to work for progress. I have been both the victor and the defeated and I believe this applies to both. This obligation should extend beyond public pronouncements. For example, my opponents have perfected two different techniques. One is to form a newsletter so its lies can be quoted as a news source. This is not unlike the way the national media has used the Star's accusations against Governor Bill Clinton. The second more disturbing technique is to take advan-

tage of the courts and file nuisance lawsuits or cause investigations to be initiated in order to distract or even destroy.

Rhonda and I have no personal wealth and I make a lot less money than I did in business, but I sought to be Governor, and I expected that, but I did not expect to have to hire numerous private attorneys that represent us in a libel suit brought by a disgruntled former opponent, a ridiculous investigation caused by a disgruntled former employee, a Federal Election Commission complaint brought by the Chairman of the Republican Party. It is expensive, distracting and the worst kind of political terrorism.

We have to ask ourselves the questions — How can we have key citizens working so hard to cause failure and expect our state to meet the challenges that we face? As the President said in his State of the Union, how can we tolerate a political strategy that attempts to stop all progress and then decries the lack of improvement?

We have to begin to understand that when insensitive public officials, combined with a reckless media, can drive a young man to his death — something is wrong. I will not have my son's death trivialized by returning to business as usual.

Enough is enough.

I'm not even sure what that means. But I can tell you that it's time for us to begin to discuss whether there exist any limits. How far do we go in our search for truth? What proof is required before reputations and lives are assassinated on the evening news? When, in the media's soundings on the character of public officials, is it appropriate for the media to display some of the character and responsibility that they seek?

The First Amendment is the lifeblood of our democracy and I believe fervently in open, robust and unintimidated expression.

But if malice becomes the motive what happens to free speech, and who then wants to take the risk of public service? No wonder this capitol is so often perceived as a shrine to the status quo. When someone is fired for incompetence and they can use the merit system and the media to seek revenge and tell, unchecked and without recourse, lies that are easily proved false, who is going to stand and fire the next incompetent person? Why in the world would people of sound mind and normal intelligence offer themselves and put their families and reputations in jeopardy?

Nina Totenberg, a veteran public radio Washington reporter, said in an interview on C-Span a week ago, that people in government are "not as smart as they used to be" because the smart ones, she said, realize that "you can't get things done like you once could." I'm not surprised.

Why are we here? I believe the reason you are here is the same reason that I'm here. I want that Oklahoma family around the dinner table to feel strong and secure, spending their time talking about a job that supports them and schools that prepare them. I don't want them to live anxious, troubled lives that worry about the next house payment, the lack of a job, poor schools, or their next meal.

This is a great goal and a good desire but we can't begin until we summon our consciences, all of us, officials, publishers, reporters and the public, and reject malice.

Debate and argue 'til the cows come home, fight if you must, but reject malice. Each of us has to set limits for ourselves. We have to do it as individuals; we have to do it in our respective professions. Let's

stop rewarding those among us that tear down, and respect those that build and take risks.

1991 will never be worth the cost but I have to believe that something good can come from these events. With Rhonda and my family at my side I will continue to fight as Governor for the Oklahoma that I believe in.

We have got to come together so we can go forward. I'm ready and I ask you to join me. We have big problems that demand our attention and a challenging agenda in front of us.

Take a good hard, honest look at this state, strip away the political rhetoric and what do you see? You see a state that lacks capital for its businesses and its growth, population declines in the west and northwest, extreme poverty in the southeast and two major urban areas that cannot bring themselves to cooperate. You see an economy still based on the sale of raw commodities and our industry is dominated by low value added manufacturing. Our natural gas industry is in melt down and our wage earners only earn 83 cents when the nation's average wage earner gets a dollar. Sobering, isn't it?

But look at what we have to work with, look at our people — honest and hardworking. Company executives from New Jersey who recently located their business in Oklahoma thought they were telling me something new by relaying that Oklahomans don't have to be begged to come to work or coddled to do a good job. Look at the productivity of the Goodyear plant in Lawton . . . double the average for other plants in that industry.

This is no rhetoric. We have great people here and we have everything else, climate, resources, pro-business attitudes, and if it makes any difference, one of the lowest tax rates in the nation.

Let me say that again . . . no tax increases last year when 35 states raised taxes, no tax increase this year. Not since the boom nine years ago, have we put two years back to back without an increase in taxes. Now, I'm proud of this and you should be too because this gives us an edge and makes us competitive. We are 38th in the nation in state and local tax burden per capita and 34th when adjusted for our average personal income. Our total tax burden puts us in the bottom 25% of states.

Let's admit it . . . we have an edge. Let's be proud of it . . . we are emerging more competitive and we have great people and resources to work with. Now what do we do with it?

We change, we get progressive and we get aggressive. Listen to what Secretary of Commerce Greg Main will tell you about how we get more capital into this economy. We asked for a consolidation of our job creating financial authorities last year and we ask for it again this year. If you will approve it, we can get $50 million of badly needed equity capital into our struggling economy, saving and creating thousands of jobs. You have in front of you a workers comp bill that resulted from a task force I assembled. It is balanced, it improves the system for injured workers, and it reduces the cost for Oklahoma businesses. We are already competitive with our worker's comp system we have now, but you give me this bill and we will absolutely go to town in Texas, California and other states that are now forcing their companies to look elsewhere.

I ask you also to move swiftly to remove the tax from the reservation businesses in Oklahoma and preserve this growing telecommunications industry. I ask that you

pass Senate Bill 198 and give our horse and racing industry a chance to compete nationally. The facts are clear and you should not hesitate to help this industry and preserve hundreds of millions of dollars of investments and thousands of jobs in Oklahoma.

If you act on these matters we get jobs; if you don't, we can join the rest of the nation in this ominous national recession.

While we are building jobs let's look to those things that invest long term in the quality of Oklahoma. Clean air, water, land – the people of Oklahoma cry out for the protection of our environment. As I reviewed our environmental problems, I created the first ever Secretary of Environment, a governor's council on environmental quality and held an environmental summit with Governor Clinton to develop an environmental compact with our neighboring states. It was not enough. So I have offered a positive comprehensive program that makes good business sense. Pass it and your children will enjoy an environment better than what we enjoy today. While you're at it let's quit dragging our feet and face the music. Let's finally pass a consolidation plan for our environmental agencies. We have studied this one enough.

After we invest in our environment, let's heed the advice of a highly successful Rural Summit and invest in our rural areas. I have outlined a serious first step in sustaining and providing opportunities for growth on our farms and in our small communities. The strength of Oklahoma depends on the strength of our rural areas and that strength will be substantially enhanced by your quick action on nine bills on our rural agenda. In addition to this legislation, there will be 17 separate executive actions initiated by my cabinet secretaries in agriculture, commerce and transportation. This rural agenda will begin to address the needs of parts of our state too often left out of our programs.

You can make Oklahoma the first state to draw a line in its rich soil and say we are not going to allow the extinction of a way of life so fundamentally good.

The ultimate long term investment is in our own human resources and yet we waste so many with our limited or unfocused attempts to provide secure neighborhoods and towns. Every day a growing number of Oklahomans fear for their personal safety. Gang violence, drug abuse, decaying neighborhoods and bulging prisons have got to concern us more than how we can stop another Governor from trying to make sense out of a confused law enforcement structure and blatant overlaps and duplications.

We've just completed our conference on violent crime organized by Secretary McBride and it was instructive for me to scan the audience. While law enforcement and corrections were well represented, so too were business men and women, educators, social service experts, childrens' program advocates and others. The solutions to crime are long-term and they are community based. I will ask you for better tools, better pay, better organization, but most importantly we will continue to ask for a high priority on attacking the causes of crime, not just its results and effects. We are not going to be lax and we are not going to turn prisoners loose early; instead we have to reorganize and rehabilitate. I hope you will put aside your past views on changing state law enforcement. If so, we can lick this problem too.

Beyond all this, we have a challenging budget to approve.

For months, the cabinet has met and worked on my budget recommendations for the state. Policies were debated, priorities were established, and long-term trends analyzed. My recommended budget meets our commitments to education, satisfies our obligations, funds new initiatives, provides for

a performance-based pay increase for state workers and does not raise taxes. This budget also calls for a widespread cut of 5% in personnel services because we can afford it and it's the right thing to do.

I ask that you give the cabinet the flexibility to cut personnel budgets as each of them sees fit so that we can reverse an increasing expenditure trend that is not in this state's interest. A cut of $50 million reallocated to high priority needs is the difference between a bad budget year and a good budget year. I have also recommended a supplemental appropriation of $16.4 million including $9 million for DHS. Secretary of Human Services Ben Demps is doing an excellent job of reorganizing, cutting and trying to meet financial demands that we cannot control. I will ask that this supplemental appropriation be funded from the rainy day fund.

This short term fix does not address the longer term health care funding needs at DHS. The Federal Government has recently given us an opportunity to generate additional revenue from our health care providers so we can match federal medicaid dollars and provide more health care through these same providers. For several years Oklahoma has missed this opportunity and our loss of federal money for health care is probably now measured in billions of dollars. We can no longer miss the chance to care for our sick. I will ask you to act this year to fix this problem.

As we sweat out another tight operating budget, I will initiate a study of the assets of Oklahoma State government. Hundreds of millions of dollars are lying around in unproductive assets that can be made productive without cost or risk to the public.

Bond reserve funds that don't get us a significant break on interest, insurance funds that can be privatized, power plants and airports that could be sold.

The money we raise from such reforms could be endowed for research and technology, job programs, or health care. Most of all, they can be put to work intelligently for the Oklahoma taxpayer.

Last August when I said Oklahoma should look at other health care systems and change ours, the objections were plentiful. More officials now understand that we cannot follow the Federal Government's example and continue to stubbornly refuse to face the health care crises. We have to take the work of the Health Care Commission, the rural access to health care committee, and the legislative task force on health care and take steps to begin the transformation of this system.

Here again, the public is ahead of us on this issue. They want to change health care. I faced an audience of 600 for a meeting just on health care in Muskogee and listened to their concerns and ideas. By default, the Federal Government has delegated the problem to the states and we dare not default. Somewhere in Oklahoma right now a mother with a sick child is confused about where to go for care and how it's going to get paid for. I hope she doesn't wait too long. I hope we don't let our fears and biases cause us to wait too long to change a broken and collapsing system.

Education is always a priority and it always should be. This year we must respond to the public vote on HB 1017, not by breathing a sigh of relief, but by being even more aggressive with education reform. As we continue to meet the annual education funding challenge without tax increases, we cannot engage in a debate over what reforms can be deferred; rather, we have to ask how to accelerate and add to what has been started. I will push hard this year to define and implement the deregulation component of our efforts by empowering our local communities to do more to achieve our education and human resource goals.

Let's tell the state that we haven't forgotten that we have two other components to our educational system besides common education; those are higher education and VoTech.

I noted this weekend that a new National Governors Association study concludes that when companies, particularly high-technology companies, are deciding where to locate, proximity to quality education and research facilities is now more important than proximity to markets. My own experience is that higher education and VoTech are almost always questions discussed by new corporate prospects. Please join me in recognizing the operational needs of all three educational branches and please join me in getting a capital improvement bond issue in front of the voters as soon as possible. This bond issue will meet critical capital needs but it will also do something else; it will put hundreds of millions of dollars into our economy. It will provide a real economic boost as we fight off the downward slide of the national recession.

Many things in front of you are exciting, including the new volunteerism department proposed by Secretary of State John Kennedy, expansion of our road and bridge programs by Secretary of Transportation Delmas Ford and our efforts to instill total quality management and empower employees as proposed by Secretary of Human Resources Oscar Jackson.

Many things in front of you will challenge your political courage in this election year. Budget cuts, reallocations, controversial issues and tough choices — it is *your* courage that will carry us forward. Albert Einstein said that, "Significant problems cannot be solved if we think the same way we did when we created the problem." We have to change.

We can either change or simply spend our time responding to the frustration orchestrated by the activists of negativism — cynics so extreme they have lost their faith even in representative democracy.

I have never been, nor will I likely ever be, a member of this legislature, but I feel close to so many of you. I feel a deepening respect for these legislative institutions and for your ability to do the job your constituents elected you to do. You come from where I come from, many of you are good friends. As we share our dreams for Oklahoma a common bond has grown out of our mutual hope for our state.

I need your help to pass our program — it is a good program and it deserves your support.

This things *will not* happen if we play politics, if we accept malice, if we cower from insensitive and shallow attacks. They *will* happen when this side joins with that side and these leaders join this Governor and we resolve *to reject malice, to reject the past, to reject those destructive elements that would tear down this government and this democracy.*

Together let us pledge that we will do good things for a good people who deserve to be, and who have the capacity to be, the best. Simply the best.

These are my thoughts from my perspective on Oklahoma.

Thank you.

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. These ratios were updated at the February 19, 1991 meeting to reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

Section 23, paragraph 1 of Article 10, Constitution of Oklahoma, provides for a limitation on appropriations, except for appropriations from the Constitutional Reserve Fund. Pursuant to said limitation, appropriations for the fiscal year ending June 30, 1993, shall not exceed the amount appropriated for the current fiscal year, 1992, plus 12 percent (12%), adjusted for inflation as measured at the close of the calendar year. The Gross National Implicit Price Deflater for State and Local Governments is proposed as the index for the measurement of inflation, and is set at 3.9%. The amounts appropriated from each fund by the First Regular Session, 43rd Legislature (1991), and approved by the Governor, are listed below. The total, $3,407,937,024, was derived as a summation of the individual funds. The limit on appropriations, calculated below, is $3,949,799,011.

GENERAL ORDER

SB 996 by Snyder of the Senate and Grieser of the House was called up for consideration.

Senator Gustafson asked to coauthor **SB 996**, which was the order.

Senator Snyder moved to amend **SB 996**, Page 1, Line 1/2, by inserting new Sections 1 and 2 to read as follows:

"SECTION 1. AMENDATORY 68 O.S. 1991, Section 1008, is amended to read as follows:

Section 68-1008. A. **[In]** EXCEPT AS SET FORTH IN SUBSECTION B OF THIS SECTION, IN all cases of overpayment, duplicate payment or payment made in error on account of the production being derived from restricted Indian lands and lands owned by the United States, the state, counties, cities, towns and school districts, and therefore exempt from taxation, the Oklahoma Tax Commission is authorized to

refund any such over-paid, duplicate or erroneously paid gross production taxes, where an application for such refund is made within three (3) years from the date of the payment thereof, out of any undistributed gross production tax collections in the depository account of the Oklahoma Tax Commission, from the same county from which the original tax was derived. Provided, however, this exemption shall apply only to the interest in such production owned by the restricted Indian or exempt governmental entity. A determination made by the federal government or any agency thereof allowing a refund or recovery of overpayment, duplicate payment or erroneous payment of taxes arising out of the same circumstances under which a claim has been submitted to the Oklahoma Tax Commission for a refund may create a presumption that the evidence upon which the federal government or agency thereof relied in allowing a refund or recovery is correct. The Oklahoma Tax Commission shall not, however, be bound by such presumption of correctness, but may if it deems the circumstances to warrant present evidence in rebuttal thereof.

B. NOTHWITHSTANDING THE PROVISIONS OF SUBSECTION A OF THIS SECTION, THE OKLAHOMA TAX COMMISSION IS AUTHORIZED TO REFUND DIRECTLY TO THE COMMISSIONERS OF THE LAND OFFICE ANY GROSS PRODUCTION TAX PAID TO THE TAX COMMISSION IN ERROR AFTER JANUARY 1, 1978, ON ANY OIL AND GAS ROYALTY INTEREST OF THE COMMISSIONERS OF THE LAND OFFICE OUT OF ANY UNDISTRIBUTED GROSS PRODUCTION TAX COLLECTIONS IN THE DEPOSITORY ACCOUNT OF THE OKLAHOMA TAX COMMISSION, FROM THE SAME COUNTY FROM WHICH THE ORIGINAL TAX WAS DERIVED.

SAID REFUND SHALL ONLY BE ISSUED AS A RESULT OF A DETERMINATION BY THE COMMISSIONERS OF THE LAND OFFICE THAT SAID ERRONEOUS PAYMENT OF SUCH GROSS PRODUCTION TAX HAS BEEN MADE TO THE TAX COMMISSION DURING THE PERIOD AFTER JANUARY 1, 1978. SUCH DETERMINATION BY THE COMMISSIONERS OF THE LAND OFFICE MAY CREATE A PRESUMPTION THAT THE EVIDENCE UPON WHICH THE COMMISSIONERS OF THE LAND OFFICE RELIED IN REACHING THE DETERMINATION OF ERRONEOUS PAYMENT IS CORRECT. THE TAX COMMISSION SHALL NOT, HOWEVER, BE BOUND BY THE PRESUMPTION OF CORRECTNESS, BUT MAY IF IT DEEMS THE CIRCUMSTANCES TO WARRANT, PRESENT EVIDENCE IN REBUTTAL THEREOF.

SECTION 2. AMENDATORY 68 O.S. 1991, Section 1024, is amended to read as follows:

Section 68-1024. A. The Tax Commission may upon written request, release the following information to any person, firm, association, or corporation or its designee, the volume of production, during any specified available period of time, of any substance taxable pursuant to the provisions of the Gross Production Tax Code, Section 1001 et seq. of this title, of this state, from any lease lawfully plugged, pursuant to the laws of this state after certification of said plugging by the Oklahoma Corporation Commission.

In every instance in which the act or omission upon which a civil rights judgment has been awarded occurs after July 1, 1986, the employee must file his application for indemnification within thirty (30) days of final judgment, or the right to seek indemnification shall be lost forever.

4. In order to recover indemnification from the state OR POLITICAL SUBDIVISION pursuant to this subsection, the court shall determine by a preponderance of the evidence that:

a. the employee reasonably cooperated in good faith in the defense of the action upon which the judgment or settlement was awarded and for which indemnification is sought;

b. the actions or omissions upon which such a judgment or settlement has been rendered were not the result of fraudulent conduct or corruption by the employee;

c. the employee, in committing the acts or omissions upon which such a judgment or settlement has been rendered was acting in good faith and within any applicable written administrative policies known to the employee at the time of the omissions or acts complained of;

d. the employee was acting within the scope of his employment at the time that the acts AS DETERMINED BY THE CITY COUNCIL OR GOVERNING BODY or omissions upon which a judgment or settlement has been rendered were committed by the employee; and

e. the acts or omissions of the employee upon which a judgment or settlement has been rendered were not motivated by invidious discriminatory animus directed toward race, sex or national origin.

5. a. Any indemnification judgment against the state under this section shall be an encumbrance against otherwise available unencumbered monies and unallocated unencumbered monies in the appropriations of the agency on

whose behalf the employee to be indemnified was acting at the time of the act of omission upon which the judgment or settlement was awarded and for which indemnification was sought.

b. If sufficient unencumbered monies or unallocated unencumbered monies do not exist in the agency's appropriations to pay the indemnification, the agency shall make application to the Risk Management Division of the Office of Public Affairs for full payment of the indemnification out of the Tort Claims Liability Revolving Fund established pursuant to Section 85.35 of Title 74 of the Oklahoma Statutes. Payment out of this fund shall be authorized if there are sufficient monies greater than the sum total of the then pending fund indemnification judgment requests, and the reserves for future tort claims as certified by the Director of Risk Management.

c. If sufficient monies do not exist in the Tort Claims Liability Revolving Fund, the agency shall request the Legislature to make an appropriation sufficient to pay the indemnification.

C. The state or political subdivision shall have the right to recover from an employee the amount expended by the state or political subdivision to provide a defense, or pay a settlement agreed to by the employee and the state or political subdivision, or pay the final judgment, if it is shown that the employee's conduct which gave rise to the action was fraudulent or corrupt or if the employee fails to reasonably cooperate in good faith in defense of the action.

D. The state or a political subdivision shall not, under any circumstances, be responsible to pay or indemnify any employee for any punitive or exemplary damages rendered against the employee, nor to pay for any defense, judgment, settlement, costs or fees which are paid or covered by any applicable policy or contract of insurance. Where any civil rights judgment upon which indemnification under subsection B of this section is applied for by an employee of the state includes an award for both actual and punitive or exemplary damages, the total amount of fees and costs for which indemnification may be allowed shall be limited to the percentage of fees and costs in the total award that the percentage of the award of actual damages bears to the total judgment awarded.

E. Nothing in this section shall be construed to waive any immunities available to the state under the terms of the Eleventh Amendment to the Constitution of the United States. Any immunity or other bar to a civil lawsuit under state or federal law shall remain in effect. The fact that the state or a political subdivision may relieve an employee from all judgments, settlements, costs or fees arising from the civil lawsuit shall not, under any circumstances, be communicated to any trier of fact in the case of any trial by jury.", and by renumbering subsequent sections and by amending the title to conform, which amendment was declared adopted.

C. Any employer that knowingly provides false information to the Administrator for purposes of becoming self-insured, an own risk carrier or a group self-insurance association shall be subject to the perjury laws of this state.

MESSAGE FROM THE GOVERNOR

Advising his approval April 11, 1992, of Enrolled **SB 905** and veto of **SB 691** on April 13, 1992. The veto message reads as follows:

April 13, 1992

To the Honorable President Pro Tempore
and Members of the Honorable Senate
Second Session,
Forty-third Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 691** by Stipe, et al of the Senate and Adair, et al of the House.

An act relating to roads, bridges and ferries; amending 69 O.S. 1991, Section 1277, which relates to the Highway Advertising Control Act of 1968; prohibiting denial or revocation of certain permits without compliance with Administrative Procedures Act; and declaring an emergency.

This legislation is clearly intended to delay the strong mandate which has been received from the federal government to remove illegal signs from our highways. If we fail to make a good faith effort toward compliance, Oklahoma stands to lose between $23 million and $32 million from the federal highway aid fund.

As civil remedies already exist to protect those affected, the cumbersome administrative requirements contemplated by this bill can only be seen as a step in the wrong direction.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters

The veto message reads as follows:

To the Honorable Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-third Legislature

April 27, 1992

This is to advise you that on this date I vetoed Enrolled **HB 2387** by Steidley, Henshaw and Reese of the House and Taylor, Robinson and Long (Ed) of the Senate.

An act relating to waters and water rights; creating the division of waterways in the Oklahoma Department of Commerce; providing for appointment of an administrative head; providing for powers and duties; providing for appointment of an advisory board; providing qualifications and specifying duties; amending 74 O.S. 1991, Section 5001, which relates to the Department of Commerce; clarifying language regarding location of division of waterways; providing for codification; providing an effective date; and declaring an emergency.

I have disapproved **HB 2387** which statutorily creates an additional administrative division, the Division of Waterways, within the Department of Commerce. Currently there is a waterways office within the agency with 1.5 FTE assigned to the program and a seven member advisory board.

As the State's resources are limited, the codification of a level of bureaucracy and state jobs is an unnecessary restriction on the executive branch in its efforts to reform state government.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters

MESSAGE FROM THE GOVERNOR

Advising his approval April 30, 1992, of Enrolled **SBs 714, 843** and **976**; on May 1,

1992, approval of **SBs 456, 720** and **857** and on May 2, 1992, veto of **SBs 614** and **624**. The veto messages read as follows:

May 2, 1992

To the Honorable President Pro Tempore
and Members of the Honorable Senate
Second Session,
Forty-third Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 614** by Gustafson et al of the Senate and Webb et al of the House.

An act relating to public health and safety; amending 63 O.S. 1991, Section 1-106.1, which relates to certain fee schedules established by the State Board of Health; prohibiting establishment or amendment of certain fee schedule except under certain circumstances; and declaring an emergency.

I have disapproved **SB 614** which would prohibit the State Board of Health from amending any schedule of fees set for the State Department of Health unless the Legislature is in session.

The Legislature has previously granted the Department of Health the authority to set fees, provided the fees are put in place under the rulemaking authority also granted the Department under the Administrative Procedures Act. There is no reason to confine the processing of acts which have been authorized by the Legislature into an arbitrary period of time.

Under current law, the Department is authorized to adopt emergency rules which may be come effective immediately upon the Governor's signature if the agency is able to show an imminent peril to the public or other compelling reason for the rule's enactment. To unjustifiably tie the Department's hands is a failure on the part of the Legislature to recognize the fact that state government operates twelve months of the year. It is unnecessarily bureaucratic to confine an agency's decision-making into the 90-day legislative session.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters

May 2, 1992

To the Honorable President Pro Tempore
and Members of the Honorable Senate
Second Session,
Forty-third Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 624** by Capps and Muegge of the Senate and Grieser et al of the House.

An act relating to revenue and taxation; amending 68 O.S. 1991, Sections 2805, 5401, 5402 and 5403, which relate to taxes in lieu of ad valorem; modifying types of items upon which tax is imposed; providing definitions; making certain equipment subject to tax; making certain equipment exempt from tax; making certain business entities subject to tax on certain date; adding more categories of fees; clarifying language; and making certain taxes in lieu of ad valorem tax.

We cannot continue the practice of incrementally adding exemptions and preferences without first determining the cost of the proposals to the State. Regrettably, our current law does not require legislation of this type to be accompanied by a fiscal impact statement.

Absent financial estimate showing that the state would be positively impacted by removing heavy highway and construction equipment inventories from ad valorem taxation and allowing the same to qualify for a

reduced tax in lieu of ad valorem, I am unable to approve this bill. Such a proposition is ill-advised during this time of limited resources.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters

Pursuant to the Roberts motion, the Senate adjourned at 10:50 a.m., to meet Tuesday, May 5, 1992, at 10:00 a.m.

The veto message reads as follows:

May 5, 1992

To the Honorable Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-third Legislature

This is to advise you that on this date I vetoed Enrolled **HB 2452** by Hilliard, et al of the House and Roberts of the Senate.

An act relating to motor vehicles; amending 47 O.S. 1991, Section 116.11, which relates to additional members of Highway Patrol; creating the Size and Weight Enforcement Section; requiring Commissioner of Public Safety to employ and assign members; requiring Commissioner of Public Safety to purchase and maintain necessary vehicles and equipment and provide certain training; providing an effective date; and declaring an emergency.

I have disapproved **HB 2452** which would create within the Highway Patrol a Size and Weight Enforcement Section.

Presently, the Department of Public Safety is enforcing size and weight restrictions on vehicles pursuant to the law. Requiring the Department of Public Safety to

employ an additional 25 FTE is contrary to the efforts of the Executive Branch to provide greater services at a reduced cost.

My commitment to creating a more efficient and streamlined government is inhibited by an expansion of bureaucracy through the statutory creation of needless jobs.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters

MESSAGE FROM THE HOUSE

Transmitting herewith Enrolled **HB 1944**, together with the Governor's veto message thereon, and advising that under the provisions of Section 58, Article V, of the Constitution of the State of Oklahoma, the House has reconsidered and passed said bill over the Governor's veto by a three-fourths vote of all members elected to and constituting the House, said vote being as follows: Aye: 77; Nay: 17.

The veto message reads as follows:

May 11, 1992

To the Honorable Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-third Legislature

This is to advise you that on this date I vetoed Enrolled **HB 1944** by Mass and Campbell of the House and Stipe of the Senate.

An Act relating to state government; amending 74 O.S. 1991, Section 5017, which relates to additional functions and responsibilities of the Department of Commerce; providing additional functions and responsibilities of such Department; stating legislative intent; requiring the Department to promulgate certain rules and regulations; defining term; providing an effective date; and declaring an emergency.

I have disapproved **HB 1944** which would require the Department of Commerce to establish a permanent market showroom

of not less than 600 square feet in world trade centers in contiguous states through the year 1996.

Cost estimates show that it would be necessary for each showroom to gross $715,000 per year and have 119 small gift manufacturers at all times in order to break even. Using actual costs provided by the Dallas World Trade Center and past showroom operations, the estimated cost for each showroom would be in excess of $142,000 annually. If showrooms were also required in Denver and Kansas City, the total estimated annual cost rises to $429,000.

A similar effort was attempted in prior years during better economic times. Even though the space was donated, operations did not prove economically feasible. To break even the participants would need to pay a commission that would exceed reasonable industry standards. The twenty percent commission would not allow Oklahoma firms to retain their price competitiveness with other companies in the world trade centers.

As the State's resources are limited, the mandating of additional line item expenditures as well as the codification of state jobs and bureaucracy is an unnecessary restriction on the executive branch in its efforts to reform state government.

I have filed a copy of this message of disapproval with the Secretary of State. **HB 1944** is being returned to its house of origin.

By the Governor of the State of Oklahoma
/s/ David Walters

PENDING SENATE ACTION—VETO OVERRIDE OF HB 1944

Senator Stipe moved that **HB 1944** become law notwithstanding the veto of the Governor, which motion was declared adopted upon roll call as follows:

Aye: Brown, Cain, Capps, Chandler, Cole, Cullison, Dickerson, Douglass, Easley, Fair, Fisher, Ford, Franklin, Giles, Gustafson, Haney, Harrison, Helton, Hendrick, Herbert, Hobson, Hooper, Horner, Kerr, Lawler, Leftwich, Long (Ed), Long (Lewis), Mickle, Miles-LaGrange, Muegge, Pierce, Roberts, Robinson, Rozell, Rubottom, Schuelein, Shedrick, Shurden, Smith, Stipe, Taylor, Weedn, Wilkerson, Williams (Don), Williams (Penny) and Wright.—47.

Nay: Snyder.—1.

The Presiding Officer declared that by a constitutional three-fourths vote of the members elected to and constituting the Senate, the Governor's veto of **HB 1944** has been overridden.

April 21, 1992

To the Honorable Speaker and Members
of the Honorable House of Representatives
Second Session,
Forty-third Legislature

This is to advise you that on this date I vetoed Enrolled **HB 2262** by Davis of the House and Herbert of the Senate.

An act relating to fees; amending 28 O.S. 1991, Section 32, which relates to county clerk fees; and providing for certain fees to be deposited in the County Clerk's Lien Fee Account.

Standards of sound fiscal management will not allow me to perpetuate the policy which allows one division of county government the ability to retain funds solely within their control at the expense of the other divisions. County clerks cannot be allowed to retain monies when it may be that the money collected could be put to better use for our citizens by another county officer.

and have caused the same to be filed in the Office of the Secretary of State.

To the Honorable President Pro Tempore
and Members of the Honorable Senate
Second Session,
Forty-third Oklahoma Legislature

This is to advise you that on this date I vetoed 2nd Enrolled **SB 193** by Shedrick of the Senate and Maxey of the House.

An act relating to insurance; amending 36 O.S. 1991, Sections 6054 and 6055, which relate to accident and health insurance benefits; providing short title; conforming language; allowing accident and health insurance policies, contracts or agreements to exclude or limit certain coverage; prohibiting exclusion or limitation of certain services or procedures if such exclusion or limitation has certain effect; requiring services and procedures meet certain conditions in order to be a covered medical expense; providing for codification; and providing an effective date.

SB 193 was intended by proponents to provide statutory protection against discrimination by insurance companies. The actual effect of the bill is to unnecessarily broaden insurance coverage mandates so as to almost certainly force insurance cost increases.

Protection against discrimination among providers is already provided in 36 O.S. 1991, Section 6055 as interpreted by Attorney General Opinion 89-6.

UPON PASSAGE OF THE QUESTION, THE EXEMPTION PROVIDED FOR IN THIS SUBSECTION SHALL BECOME EFFECTIVE ON JANUARY 1 OF THE FOLLOWING YEAR.

Section 26. (A) Except as herein otherwise provided, no county, city, town, township, school district, or other political corporation, or subdivision of the state, shall be allowed to become indebted, in any manner, or for any purpose, to an amount exceeding, in any year, the income and revenue provided for such year without the assent of three-fifths of the voters thereof, voting at an election, to be held for that purpose, nor, in cases requiring such assent, shall any indebtedness be allowed to be incurred to an amount, including existing indebtedness, in the aggregate exceeding five percent (5%) of the valuation of the taxable property therein, to be ascertained from the last assessment for state and county purposes previous to the incurring of such indebtedness: Provided, that if a school district has an absolute need therefor, such district may, with the assent of three-fifths of the voters thereof voting at an election to be held for that purpose, incur indebtedness to an amount, including existing indebtedness, in the aggregate exceeding five percent (5%) but not exceeding ten percent (10%) of the valuation of the taxable property therein, to be ascertained from the last assessment for state and county purposes previous to the incurring of such indebtedness, for the purpose of acquiring or improving school sites, constructing, repairing, remodeling or equipping buildings, or acquiring school furniture, fixtures or equipment; and such assent to such indebtedness shall be deemed to be a sufficient showing of such absolute need, unless otherwise provided by law. Provided further, that if a city or town has an absolute need therefor, such city or town may, with the assent of three-fifths of the voters thereof voting at an election to be held for that purpose, incur indebtedness to an amount, including existing indebtedness, in the aggregate exceeding five percent (5%) but not exceeding ten percent (10%) of the valuation of the taxable property therein, to be ascertained from the last assessment for state and county purposes previous to the incurring of such indebtedness, and such assent to such indebtedness shall be deemed to be a sufficient showing of such absolute need unless otherwise provided by law. Provided, further, that any county, city, town, school district, or other political corporation, or subdivision of the state, incurring any indebtedness requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, provide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof within twenty-five (25) years from the time of contracting the same, and provided further that nothing in this section shall prevent any

school district from contracting with certificated personnel for periods extending one (1) year beyond the current fiscal year, under such conditions and limitations as shall be prescribed by law.

(B) IF A COUNTY APPROVES AN EXEMPTION OF HOUSEHOLD GOODS OF THE HEADS OF FAMILIES AND LIVESTOCK EMPLOYED IN SUPPORT OF THE FAMILY FROM AD VALOREM TAXATION PURSUANT TO THE PROVISIONS OF SUBSECTION (B) OF SECTION 6 OF THIS ARTICLE, THE PERCENTAGE LIMITATIONS ON INDEBTEDNESS AS SPECIFIED IN SUBSECTION (A) OF THIS SECTION FOR POLITICAL SUBDIVISIONS OR POLITICAL CORPORATIONS LOCATED IN ANY SUCH COUNTY SHALL BE ADJUSTED BY MULTIPLYING THE PERCENTAGE LEVELS SPECIFIED IN SUBSECTION (A) OF THIS SECTION BY THE MILLAGE ADJUSTMENT FACTOR AS SPECIFIED IN SUBSECTION (B) OF SECTION 8A OF THIS ARTICLE.

(C) IF APPROVED BY THE PEOPLE, THE AMENDMENT TO THIS SECTION SHALL BECOME EFFECTIVE JANUARY 1, 1993.

Section 8A. (a) If a county approves an exemption of household goods of the heads of families and livestock employed in support of the family from taxation pursuant to the provisions of subsection (b) of Section 6 of this article, the millage rate levied against the net taxable valuation of all property of each taxing jurisdiction located within such county levying ad valorem taxes for a general fund or a building fund shall be adjusted pursuant to the provisions of subsection (b) of this section to compensate for the potential loss of revenue to the taxing jurisdiction directly attributable to the exemption of all such property. For purposes of this section, "taxing jurisdiction" shall include, but not be limited to, counties, cities, towns, common school districts, vocational-technical school districts and any other unit of government authorized to collect ad valorem taxes from millage levied against the taxable value of property.

(b) The adjusted millage rate for a general fund or building fund of each taxing jurisdiction located within a county which exempts household goods of the heads of families and livestock employed in support of the family from ad valorem taxation pursuant to the provisions of subsection (b) of Section 6 of this Article shall be computed, for each taxing jurisdiction, by dividing the net taxable valuation of all property for the year preceding the year in which the exemption of such property becomes effective by the difference between the net taxable valuation of all property for the year preceding the year in which the exemption of such property becomes effective and the net taxable valuation of the household goods of the heads of families and livestock employed in support of the family for the year preceding the year in which the exemption of such property becomes effective. The resulting quotient shall be the millage adjustment factor, and shall be multiplied by the millage rate which would otherwise have been applied for the year in which the exemption of such property becomes effective to derive the adjusted millage rate, which shall be levied against the net taxable valuation of all property, other than the exempt property, within the jurisdiction for the year in which the exemption of household goods of the heads of families and livestock employed in support of the family becomes effective; provided, such adjusted millage rate may be increased or decreased in the manner provided by the provisions of this Article.

(c) If a county approves an exemption of household goods of the heads of families and livestock employed in support of the family from ad valorem taxation pursuant to the provisions of subsection (b) of Sec-

tion 6 of this article, the maximum allowable millage for any millage levied by any taxing jurisdiction located within such county for a general fund or building fund, as prescribed by Sections 9, 9A, 9B, 9C, 9D, 10, 10A, 10B and 35 of this article or as otherwise authorized by Section 36 of Article V of the Oklahoma Constitution, shall be adjusted by multiplying such millage by the millage adjustment factor as specified in subsection (B) of this section. The resulting product shall be the adjusted maximum allowable millage for that particular millage levied by such taxing jurisdiction for a general fund or building fund.

(d) If approved by the people, this section will become effective January 1, 1993.

SECTION 2. The Ballot Title for the proposed Constitutional amendments as set forth in SECTION 1 of this resolution shall be in the following form:

BALLOT TITLE

Legislative Referendum No. _____
State Question No. _____

THE GIST OF THE PROPOSITION IS AS FOLLOWS:

This measure amends Sections 6 and 26 of Article 10 of the State Constitution. It adds a new Section 8A to Article 10. It gives counties the option of exempting household goods and certain livestock from ad valorem taxation. The exemption would have to be approved at an election. The election could be called by the board of county commissioners on their own. The election could also be called by the board of county commissioners upon petition signed by at least 25% of the registered voters of the county. The measure would provide for an adjusted millage rate for each taxing entity within an approving county. The adjusted millage rate would make up for revenue lost due to the tax exemption. The measure provides a method to adjust total bond debt capacity of taxing entities. Thus, the bonding capacity of such taxing entities in approving counties would remain the same.

SHALL THIS AMENDMENT BE APPROVED BY THE PEOPLE?

☐ YES, FOR THE AMENDMENT

☐ NO, AGAINST THE AMENDMENT

SECTION 3. The President Pro Tempore of the Senate shall, immediately after the passage of this resolution, prepare and file one copy thereof, including the Ballot Title set forth in SECTION 2 hereof, with the Secretary of State and one copy with the Attorney General.

Fifty percent (50%) of a park's allocation from the eighty percent (80%) share will be derived by dividing a park's annual attendance by the sum of the annual attendance from all parks and multiplying this percentage by fifty percent (50%) of the eighty percent (80%) share of funds. The remaining twenty percent (20%) of the net proceeds shall be distributed for capital improvements in new parks or to improve existing parks with low revenue generation. D. In the discretion of the Commission, any bonds issued under the provisions of this act may be secured by a trust indenture by and between the Commission and a corporate trustee, which may be any trust company or bank having the powers of a trust company within the state. 2. The custody, safeguarding and application of all monies; and

3. The employment of consulting engineers in connection with the construction or operation of such improvements.

It shall be lawful for any bank or trust company incorporated under the laws of the state, which may act as depository of the proceeds of bonds or of revenues, to furnish such indemnifying bonds or to pledge such securities as may be required by the Commission. Any such trust indenture may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by the bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corporations. In addition to the foregoing, any such trust indenture may contain such other provisions as the Commission may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of any such trust indenture may be treated as a part of the cost of operation of the improvements for which the bonds are authorized.

E. Monies received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues from the operations of the properties which have been identified for bond repayment purposes, shall be deemed to be trust funds, to be held and applied solely as provided in this act. The resolution authorizing the issuance of bonds of any issue, or the trust indenture securing such bonds, shall provide that any officer to whom, or any bank or trust company to which, such monies shall be paid, shall act as trustee of such monies and shall hold and apply the same for the purpose hereof, subject to such reg-

A. The Oklahoma Tourism and Recreation Commission shall have the power and is authorized from time to time to issue negotiable bonds in anticipation of the collection of all or any part of its revenues, not to exceed **[Five Million Dollars ($5,000,000.00)]** EIGHT MILLION DOLLARS ($8,000,000.00), for the purpose of constructing and reconstructing, improving, bettering or extending any properties which it is authorized to maintain or operate hereunder. **[The]** FROM BONDS ISSUED PRIOR TO JULY 1, 1992, THE Commission shall distribute eighty percent (80%) of the net bond proceeds to existing state parks. The eighty percent (80%) share of funds will be allocated to parks according to the following procedure: fifty percent (50%) of a park's allocation will be derived by dividing a park's annual revenues by the sum of the total of annual revenues from all parks and multiplying this percentage by fifty percent (50%) of the eighty percent (80%) share of funds. Fifty percent (50%) of a park's allocation from the eighty percent (80%) share will be derived by dividing a park's annual attendance by the sum of the annual attendance from all parks and multiplying this percentage by fifty percent (50%) of the eighty percent (80%) share of funds. The remaining twenty percent (20%) of the net proceeds shall be distributed for

capital improvements in new parks or to improve existing parks with low revenue generation. The Commission shall pledge, to the payment of the interest and principal on the principal of such bonds, all or any part of the revenues derived from the operation of the parks controlled and operated by the Commission.

B. The bonds authorized by this section shall be authorized by resolution of the Commission and may, as provided in such resolution:

1. Be issued in one or more series;

2. Bear such date or dates and may mature at such time not exceeding twenty-five (25) years from their respective dates;

3. Bear interest at such rate or rates not exceeding ten percent (10%) per annum;

4. Contain such terms, covenants and conditions.

Said bonds may be sold in such manner and upon such terms as the Commission shall determine; provided, the interest cost yield to maturity of any issue of said bonds shall not exceed ten percent (10%) per annum, payable semi-annually.

C. Any resolution authorizing the issuance of bonds under this act may contain covenants, including, but not limited to:

1. The purpose or purposes to which the proceeds of the sale of bonds may be applied, and the deposit, use, and disposition thereof;

2. The use deposit, securing of deposits and disposition of the revenues of the Commission, including the creating and maintenance of reserves;

3. The issuance of additional bonds payable from the revenues of the Commission;

4. The operation and maintenance of properties of the Commission;

5. The insurance to be carried thereon, and the use, deposit and disposition of insurance monies;

D. In the discretion of the Commission, any bonds issued under the provisions of this act may be secured by a trust indenture by and between the Commission and a corporate trustee, which may be any trust company or bank having the powers of a trust company within the state. Any such trust indenture may pledge or assign the revenues from the operation of properties of the Commission, but shall not convey or mortgage any properties, except such revenues. Any such trust indenture or any resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Commission in relation to:

1. The construction, improvement, maintenance, repair, operation and insurance of the improvements in connection with which such bonds shall have been authorized;

2. The custody, safeguarding and application of all monies; and

3. The employment of consulting engineers in connection with the construction or operation of such improvements.

It shall be lawful for any bank or trust company incorporated under the laws of the state, which may act as depository of the proceeds of bonds or of revenues, to furnish such indemnifying bonds or to pledge such securities as may be required by the Commission. Any such trust indenture may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corporations. In addition to the foregoing, any such trust indenture may contain such other provisions as the Commission may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of any such trust indenture may be treated as a part of the cost of operation of the improvements for which the bonds are authorized.

E. Monies received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues from the operations of the properties which have been identified for bond repayment purposes, shall be deemed to be trust funds, to be held and applied solely as provided in this act. The resolution authorizing the issuance of bonds of any issue, or the trust indenture securing such bonds, shall provide that any officer to whom, or any bank or trust company to which, such monies shall be paid, shall act as trustee of such monies and shall hold and apply the same for the purpose hereof, subject to such regulations as this act and such resolution or trust indenture may provide.", which motion was declared adopted upon division of the question.

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. These ratios were updated at the February 19, 1991 meeting to reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

EDUCATION REFORM ACT – HB 1017
Schedule 1-A

Section 41.29a of Title 62 subsection A states: "In order that the Legislature may guarantee that the increased revenue generated as a result of the tax changes contained in this act shall be appropriated to fund the education reforms provided for in this act, the Office of State Finance shall present as part of the official certification process for each fiscal year an estimate of all revenues which shall accrue to the General Revenue Fund as a result of the tax changes contained in this act. The estimate shall show the increased revenue from personal income taxes, corporate income taxes and sales and use taxes as a result of the provisions of this act separately. The estimate shall further account for changes to such revenue which result from growth or decline in said tax sources due to economic circumstances."

The method of determining the percentage of each source attributable to HB 1017 was set by the State Board of Equalization at its April 26, 1990 meeting. The ratios were established originally by dividing the estimate of revenue to be raised as a result of HB 1017 by the total estimate of revenue of each source at the time of passage of HB 1017. These ratios were updated at the February 19, 1991 meeting to reflect the annualization of what were partial year estimates at the April 26, 1990 meeting of the State Board of Equalization.

The veto message reads as follows:

May 28, 1992

To the Honorable President Pro Tempore
and Members of the Honorable Senate
Second Session,
Forty-third Oklahoma Legislature

This is to advise you that on this date I vetoed Enrolled **SB 727** by Taylor and Haney of the Senate and Hamilton (James) and Steidley of the House.

An act relating to state government employment; providing an effective date; *** and declaring an emergency.

I have disapproved **SB 727** in light of the holding in *Johnson v. Walters,* 819 P.2d. 694 (Okl. 1991). This case was designed to deter the legislative practice of logrolling, requiring that all pieces of legislation with substantive provisions comply with Article V, Section 57 of the Oklahoma Constitution.

Article V, Section 57 requires that every act of the Legislature shall embrace but one subject. **SB 727** is comprised of unrelated topics including the State Board of Embalmers and Funeral Directors, OSU Animal Diagnostic Laboratory, the State Treasurer's Office, Council on Judicial Complaints, and the Oklahoma Rural Water Association.

This bill clearly falls within the scope of the decision of the *Johnson v. Walters* case, and pursuant to the direction provided by the Oklahoma Supreme Court, I am treating the bill as unconstitutional.

and have caused the same to be filed in the Office of the Secretary of State.

By the Governor of the State of Oklahoma
/s/ David Walters
