MESSAGE FROM THE GOVERNOR

Advising his veto April 29, 2009, of Enrolled **SB 1111**.

The veto message reads as follows:

April 29, 2009

To the Honorable President Pro Tempore
and Members of the Oklahoma Senate
First Session of the Fifty Second Oklahoma Legislature

ENROLLED SB 1111

This is to advise you that on this date, pursuant to the authority vested in me by Section 11 of Article VI of the Oklahoma Constitution to approve or object to legislation presented to me, I have VETOED Senate Bill 1111.

To build the best possible public education system, Oklahoma must produce accurate and accessible student test data. Although proponents of SB 1111 are well-meaning, the legislation falls far short of this important goal. While Senate Bill 1111 was billed as reform to improve the current testing and information system, the final legislation does nothing to address the root cause of the problem. Stripping the State Department of Education of its current duties and transferring them to a different oversight entity does not in and of itself achieve any real reform or progress. It simply creates a new bureaucracy and additional operating costs without making any changes to the current testing, assessment or data analysis and sharing processes.

More troubling from a constitutional perspective is the proposed shift of control from the executive branch to the legislative branch. By granting legislative leaders a majority of the appointments to the new administrative board, SB 1111 effectively puts the Speaker of the House and the President Pro Tempore of the Senate in charge of state school testing programs and data systems, even allowing the President Pro Tempore to select the board's chairman. This transfer of power is in conflict with the constitution's separation of powers doctrine, as the Legislature cannot both make policy and implement and carry out that policy.

Additionally, there was a lack of input from education experts and other stakeholders in the development of this legislation, which, ultimately, resulted in a lack of consensus on the legislation. In recent years, we have worked together in a bipartisan fashion and make great progress in raising school standards and improving accountability, but it is also important to improve Oklahoma's education testing and data systems. Accordingly, I look forward to working with policy makers to embark on a comprehensive and inclusive process to produce consensus legislation that accomplishes this goal.

By the Governor of the State of Oklahoma
/s/Brad Henry
